

I Play Yu-Gi 391

Chapter 391: Yugi VS Malefic

Before Judai and Yusei, the two future protagonists, noticed Paradox's actions and came to stop them, the Duel King from this era and the protagonist of the world, Yugi Muto, had already blocked the actions of this future villain.

Just before the two future protagonists arrived, Yami Yugi had manually opened the Shadow Game using the Millennium Puzzle, binding Paradox in the middle of the field.

As the holder of the highest-ranking Millennium Item, the nameless Pharaoh could certainly master the use of Shadow Games proficiently.

In fact, during the early period when the Millennium Puzzle was just assembled by Yugi Muto and the soul of the pharaoh was awakened, he often used Shadow Games to help Yugi and his little friends solve some troubles encountered in life.

It's just that later, because the kind-hearted Yugi instinctively disliked this kind of thing that took away other people's souls, so Yami Yugi tried to avoid using it as much as possible.

If AIBO doesn't like it, we don't need it. JPG

But now was a special situation, and naturally, it needed to be dealt with specially.

Yami Yugi had a hunch, if he hadn't appeared on the rooftop in time and started a Shadow Game to restrain this weird guy in front of him, it might have caused irreparable consequences!

His hunch was indeed right.

Paradox looked directly at him and smiled softly beneath the mask.

As expected of the first Duel King Or should I say the soul of the legendary nameless Pharaoh?

Yami Yugi frowned: Who are you? What's your purpose?

Paradox did not answer his question, but looked around.

Shadow Game It's an honor to see something that only exists in legends. He said, After all, in my time, this kind of thing has disappeared.

Paradox came from a distant future, a doomsday where everything was coming to an end.

Although they have advanced technology and could use science and technology to restore the effect of Shadow Games, the serious dark duelists of that era have long since disappeared.

What? Yugi frowned.

It doesn't matter. It's meaningless to explain to you in the past. After all, you can't understand my behavior.

Paradox jumped off his massive D-Wheel and opened the Duel Disk.

In the Shadow Games, if you don't knock down the initiator, you can't go out, right? Paradox said lightly, That's okay. Yugi Muto, you are also one of the biggest threats to me in this era. Let me deal with you here first.

Although he didnt understand what this guy was going to do, Yugi also saw that this guy was not simple.

And more importantly, he did not participate in the KC Grand Prix competition and could only be watched by spectators throughout the whole process. Now that there were finally cards to play, so of course he could not be discouraged.

Okay, I will accept your challenge!

Yugi also opened the Duel Disk and paused.

But if I win, you must honestly explain your purpose.

Although Yami Yugi has opened the Shadow Game, of course, he would not take peoples lives casually. After all, AIBO was watching from behind, so he couldnt give AIBO the impression of being a villain.

So he didnt intend to take the opponents life, and the verbal condition was regarded as the penalty for defeat in the Shadow Game. The worst thing was to give the opponent a spiritual shock this move was also one of Yami Yugis favorite skills in the early period, it could break the darkness in the opponents heart and force people to change their ways.

For example, President Kaiba, who first appeared as a villain, was lucky enough to eat such a penalty in the first episode. Since then, he has been whitewashed in place and has launched a persistent pursuit of the Yugi (referring to playing cards)

Duel! x2

Yugi, LP 4000

Paradox, LP 4000

It was at this moment that Judai and Yusei both rushed to the rooftop.

But because the two of them were dressed strangely, even Paradox didnt seem to realize who they were and didnt pay much attention to them.

Mr. Yugi! Judai was surprised, Are you actually dueling with Mr. Yugi?

Paradox smiled and waved his hand: Come on! Let me see how much of the legendary title of the first Duel King is true and how much is just rumor!

Ill go first, draw! Yugi said, Activate the Spell Cad Pot of Greed, and draw two cards from the deck!

He drew two cards, glanced at them, and immediately revealed one of the cards he had drawn.

The effect of Watapon is activated! If this card is added to the hand because of a card effect, it can be special summoned directly!

[Watapon, ATK 200]

Then I will use the Watapon as a Tribute! Yugi quickly drew out the next card to replace the Watapon on the Duel Disk, Come on, the greatest disciple of the strongest magician

Dark Magician Girl!

The fluffy white ball disappeared from the field, and after the blue light spot dissipated, it was replaced by a black magic vortex. A golden magic girl waved her staff and appeared from there, twirling lightly in a circle, her tiny skirt fluttering like flower petals.

[Dark Magician Girl, ATK 2000]

Then set two cards, I end my turn! There were two more set cards in front of the Yugi, and he declared his turn was over.

Instantly summon an upper-level monster with an attack power of 2000. In this era, you may indeed be the top duellist

Paradox closed his eyes and sneered confidently.

But the Duel King of the past, what you are about to see is a duel beyond your imagination. My turn, draw!

Paradox didn't say anything this time and went straight to the field.

Activate Field Spell Malefic World!!!

The dark and deep world, like the illusioned image of evil itself, spread around him. The entire rooftop was quickly swallowed by darkness, and even the ground under the feet on both sides seemed to have turned dark and transparent.

It was as if the arena of the duel had been moved to another dimension.

Malefic World? Yami Yugi showed surprise.

Be careful, the other me. Yugi Muto reminded his partner, I can feel that this field is filled with an indescribably powerful force!

Ah, I know. Yami Yugi nodded with a solemn expression.

Paradox smiled lightly and said: I activate the effect of Malefic Blue-Eyes White Dragon in my hand. Send a Blue-Eyes White Dragon from the deck to the graveyard, and this card can be directly Special Summoned from the hand.

The deck on his Duel Disk began to execute the automatic retrieval program, and a card was quickly ejected from it, a Blue-Eyes White Dragon.

Paradox pulled out this card and sent it to the GY. The deck immediately shuffled and reordered the cards automatically.

The legendary white dragon, come here in a sinful form! He drew out a card in his hand, Malefic Blue-Eyes White Dragon!

A roar echoed in the space of Malefic World, and the roar of the dragon covered the entire rooftop. The white dragon of light came with a godlike attitude, but the pure white body was stained with filthy darkness, and the spread white wings were covered with some kind of dark technological device, like a shackle.

[Malefic Blue-Eyes White Dragon, ATK 3000]

Yugi was taken aback. He shielded his face with one hand, blocking the hurricane brought by the white dragon's appearance, and his golden bangs were disheveled in the wind.

He couldn't help being shocked: This is the Blue-Eyes White Dragon!?

Chapter 392: Double Trap

As soon as this white dragon appeared on the stage, Yugi was a little overwhelmed: This guy comes up with the Blue-Eyes White Dragon and it can be summoned directly without cost?

Paradox laughed loudly: I said, my duel is beyond the imagination of those of you in the past! My deck gathers the strongest monsters from all time and space, and can call the strongest monster in an instant!

However, the Field Spell Malefic World seemed to have isolated the external information, neither the picture nor the sound could be transmitted.

Otherwise, Paradox's act of summoning the Blue-Eyes White Dragon in Kaiba Land was simply a naked provocation, as if raping a wife in front of her husband. If he was seen, it wouldn't be surprising that President Kaiba would fly here and shoot his face with a rocket launcher in the next second.

However, Paradox didn't care too much about it, as he focused on the two set cards in the back row of Yugi.

Well, those two set cards are a bit of an eyesore. Are those cards your biggest reliance? In that case Paradox drew another card from his hand.

Quick-Play Spell Twin Twisters! Discard 1 card, then target up to 2 Spells/Traps on the field; destroy them! Paradox sneered, Destroy those two set cards for me!

Two white tornadoes rose from the ground, staggered, and rushed forward.

The two set cards in the back row of Yugi were both rolled up and torn to pieces under the white whirlwind.

Everyone could see clearly that the one that was lifted was the famous classic trap card Mirror Force.

Although this card was famous in later generations, and it was often mentioned in many generations of Yu-Gi-Oh animations, it was in the hands of Yugi that this card first shone.

As early as the beginning of the Duelist Kingdom arc, this holy shield has led Yugi through difficulties many times and even has its active figure all the way to the ending chapter.

Mirror Force, a powerful trap that can instantly wipe out all opponent monsters. It's really dangerous. Paradox chuckled, It's not good if I fall into this trap. But it still looks like my tactics are better.

Yugi gritted his teeth, looked solemn, and did not speak.

Battle! Paradox said, Remember deeply, the first Duel King, there is a huge gap between me and all the opponents you have defeated so far!

Malefic Blue-Eyes White Dragon, attack Dark Magician Girl! Sin Burst Stream of Destruction!

Malefic Blue-Eyes White Dragon opened its mouth, and a burst of white light mixed with chaotic fluctuations shot out! In front of such a huge energy, the poor magic girl was powerless to resist, and could only watch helplessly as the white light engulfed her

But at this moment, Yugi laughed!?

That's not necessarily true.

What? Paradox frowned.

You will eliminate my backcourt in advance, and clear away the threat of trap cards. I have already figured out this possibility. As soon as Yugi said this, his panic tone disappeared.

It seemed that his nervous appearance just now was just pretending.

That's why I set up a double trap. Yugi waved his hand, Activate the effect of Cross Counter Trap in the graveyard! (Animation card)

The pitch-black vortex leading to the GY opened up, and a trap card swirled out, releasing a brilliant golden glow in mid-air

Paradox was stunned: In the GY is this the other trap that was just destroyed by the Twin Twisters?

That's right! During the turn this card is sent to the Graveyard by the opponent's card effect, I can activate up to 1 Trap Card from my hand! Yugi shouted, So the moment you declare an attack with Malefic Blue-Eyes White Dragon, I activated a trap card from my hand

Mirror Force!

What!?!? The future man who had been tricked was shocked under the mask.

The second Mirror Force?

And it was launched from the hand!

The legendary trap appeared on Yugi's field with a burst of golden light, and the sacred light transformed into a mirror-like protective shield in front of the Dark Magician Girl.

Yugi shouted: Mirror Force's effect! When the opponent declares an attack, all Attack Position monsters on the opponent's field will be destroyed!

The incandescent impact slammed into the mirror defense, causing a violent counterattack! The strong light reflected like a water column all over the sky, piercing the body of Malefic Blue-Eyes White Dragon instantly, and dissipated in a dazzling flash.

Amazing! Judai looked at the idol with stars in his eyes, As expected of Mr. Yugi, it's actually a double trap. No one would have thought of the trap in the hand!

Yusei also expressed admiration: As expected of the first Duel King in the legend, so strong

"

"

Looking at Paradox, who was empty on the field and looked embarrassed, Yugi waved his fingers and chuckled: You haven't been able to see through this layer of tactics. It seems that you are nothing more than that.

I underestimated you, Yugi Muto.

With a cold face, Paradox slowly drew another card from his hand.

But my Battle Phase isn't over yet. I'm going to activate a Quick-Play Spell: Malefic Divide!

There seems to be a cross-shaped crack in the space of sin, as if the space itself has been torn apart.

Paradox snorted: This card allows me to select 1 Malefic monster in my Graveyard and Special Summon that monster, ignoring its Summoning conditions. However, at the End Phase of this turn, this monster will be banished.

Come back to the field again, Malefic Blue-Eyes White Dragon!

The huge dragon flew back from the crack, flapping its wings and falling back onto the field. The wings supported by the metal skeleton fluttered into a hurricane, bringing back the suppression of the dragon king.

[Malefic Blue-Eyes White Dragon, ATK 3000]

Yugi frowned.

This guy actually dragged it back from the GY

It seems that the little magic girl can't escape her fate after all. Paradox waved his hand, Go, Malefic Blue-Eyes White Dragon, attack Dark Magician Girl again!

Sin Burst Stream of Destruction!

The sinful white dragon opened his mouth again, and the impact of chaos blasted out through the air!

This time, there were no more traps and defensive means, and Dark Magician Girl made a miserable exit under the dazzling brilliance with a snort.

Yugi, LP 4000 LP 3000

Yugi raised his arms to protect his face, his golden bangs and the Millennium Puzzle on his chest fluttered under the materialized gust, and he couldn't help but take a half step back.

In this way, my Battle Phase is over. Paradox said lightly, However, the monster that is revived by the Malefic Divide will be banished at the End Phase.

So here I activate the Spell Card Advance Draw! Tribute 1 face-up Level 8 or higher monster I control; draw 2 cards. I tribute Malefic Blue-Eyes White Dragon as a sacrifice and draw cards.

A white whirlwind rolled up and surrounded the Malefic Blue-Eyes White Dragon on the field. The latter let out a low growl, completed his mission, and disappeared from the field.

Looking at the cards he drew, Paradox couldn't help showing a mysterious smile.

Interesting, this can be regarded as a monster that is somewhat related to you, Muto Yugi.

Yugi:?

Paradox drew out a card in his hand, and said lightly: I sent the Red-Eyes Black Dragon from the deck to the graveyard, and Special Summon from the hand

Yugi:!?

Bring it on!

Paradox sent the card that popped up in the deck directly to the graveyard, and the card in his hand was slammed onto the Duel Disk.

Malefic Red-Eyes Black Dragon!

Chapter 393: Mirror Force Deck

Is Paradox inside?

After receiving the notification from Judai, Yuei Vu followed the signal and found this building.

For the sake of safety, he asked Chika to wait downstairs first, while he went up to the top floor.

The first thing that came into view was the Malefic World wrapped in a pitch-black energy field.

The dark domain completely isolated itself from the outside world, from the outside, no one could see what was going on inside, nor hear the slightest sound.

It was like an independent dimension had been opened up in reality.

Ordinary people may not be able to enter, but fortunately, Yuei Vu was not an ordinary person. With the fore from a bunch of miscellaneous Duel Monster spirits, coupled with the dark power he currently possessed, it was not difficult to just tear a gap and join in the fun.

As soon as he penetrated in, he immediately saw the huge red-eyed black dragon flapping its wings and baring its teeth and claws in front of Yugi.

Malefic Red-Eyes Black Dragon, summon!

Yuei Vu-sensei! Judai was the first to notice him, You are here.

Yuei Vu raised his eyebrows when he caught a glimpse of the situation in the field.

Whats up with this Paradox?

Isnt he very brave in the original work? Why did he now change into solo?

Seeing the pitch-black dragon spread its wings, its high head roaring upward, and the white exoskeleton that was forcibly mounted on its head, Yugi couldnt help but stun for a moment.

This guy actually has really Red-Eyes Black Dragon

As I said, my Malefic deck is full of legendary monsters from various times and spaces, and I have the ability to summon them instantly. Paradox said, Even if you are the Duel King in the past, you have no chance of winning at all.

Set a card, I end my turn.

Looking at the ferocious-looking black dragon on the opponents field, and this sinful and profound field, Yugi couldnt help but frown.

This field named Malefic World gave him a very strange feeling. Since the appearance of this field, he has clearly felt that the enemys aura has been lifted out of thin air.

A card with extraordinary power Is that the secret of the other partys ability to control so many powerful spirits?

My turn, draw! Yugi directly draws two cards from the hand and inserts them into the Duel Disk, I set two cards on the field! Then activate the Spell Card Card of Sanctity! Both players draw until they have 6 cards in their hand.

While drawing cards, Paradox said, You dont have a way to defeat my Malefic monster, so are you betting on speeding up the card draw?

Yugi ignored him, and directly pressed the button on the Duel Disk: Open the set card Monster Reborn! Resurrect the Dark Magician Girl in the GY!

The black vortex opened, and a delicate magic circle emerged from it. The magic girl who had just exited the stage flew out of there gorgeously riding her staff and lightly landed back in front of her master.

[Dark Magician Girl, ATK 2000]

Paradox sneered: What can that little magic girl do?

Dont worry. Yugi drew out the next card in his hand, This card will unlock the true power of black magic! Activate Spell Card Polymerization!

I fuse the Dark Magician Girl on the field and the Dark Magician in my hand!

Yuei Vu almost fell over.

The fusion of Dark Magician and Dark Magician Girl?

You big-eyed starfish, how many new cards have you secretly printed after we havent seen each other for a few days?

The bond between master and apprentice will open the forbidden door of black magic! The power of black magic that has spanned three thousand years of time and space is released here

Fusion Summon! The Dark Magicians!

The Dark Magician and the Dark Magician Girl, master and apprentice turned into black and pink light beams respectively, and converged into the fusion vortex, bursting out the surging power of black magic!

In the storm of magic power, the bodies of the two mages reappeared. The staffs of the two people intertwined in one place, one on the left and the other on the right, like loyal guardians, crossing in front of the pharaoh.

[The Dark Magicians, ATK 2800]

There were quite a few fusion monsters of the Dark Magician, who could be fused with various bosses in Yugis deck to form an upgraded form (of course, it may or may not have anything to do with his card printing skills).

Whats interesting was that the fusion of the Dark Magician with the Gaia The Fierce Knight, the Buster Blader, and even the Red-Eyes Black Dragon was a literal fusion of the two into a brand new individual.

However, the fusion of the Dark Magician and his beautiful female apprentice here was to communicate the magic power symbolically, standing side by side side by side

Yuei Vu looked at the back of the Dark Magician on Yugi field a little unscrupulously, and suddenly felt in his heart, could it be that the master should not have impure thoughts to his female apprentice

Paradox narrowed his eyes: The master and apprentice of black magic a troublesome guy came out.

Battle! Yugi yelled, The Dark Magicians, attack Malefic Red-Eyes Black Dragon!

The staffs of the magician and his apprentice intertwined, and magic circles appeared on the staffs of both of them. The surging power of black magic was brewing, converging into a dark and raging torrent.

At this moment, open the set card! Paradox snorted, Trap card Graverobber! This card can be used by choosing a card in the opponents graveyard. This cards effect becomes the chosen cards effect when that card is activated! (animation effect)

The description of the effect of Graverobber in the animation was rather vague, it says Steal 1 card from your opponents Graveyard to use.

However, its specific usage was more flexible. For example, if you stole a magic or trap card from the opponents graveyard, you could activate that card when the activation condition was met in this round.

And if the stolen card was a monster card, as long as the monster has no summon restrictions, it could also be Special Summoned on the field.

The card I want to choose from your GY, of course, Paradox sneered, Its the Mirror Force!

Oops. Yusei said, Mr. Yugi has already declared an attack, and the trigger condition of the Mirror Force is met at this moment. If it passed

Mr. Yugis monsters will be destroyed. Judai said.

Yugi waved his hand: But at the moment you activate Graverobber, the effect of The Dark Magicians is also activated!

Once per turn, if a Spell/Trap Card or effect is activated, I can draw 1 card, then if it was a Spell/Trap, it can be set on the field immediately.

If the card set by this effect is a Quick-Play Spell or Trap Card, it can be activated in the turn it was set!

He looked down at his deck, and put his finger on the top card of the deck.

This card draw is very important!

Hmph, did you gamble on the illusory fate? Paradox sneered.

After hearing this, Yuei Vu on the side couldnt help but glance at Paradox.

The illusory fate?

It seems that this future brother has not realized the seriousness of the problem, and he has no idea about the divine draw.

Soon he would realize what was the awesomeness of a duelist whose Rank was ten stars or above!

Draw!

Yugi glanced at the drawn card and immediately inserted it into the Duel Disk.

I drew an S/T card, so I just set it on the field!

Paradox disdained: So what? Your attack cant be stopped!

Yuei Vu could probably guess what this future brother is thinking.

Could you still print a card on the spot and negate it for me?

Facing the mage attack from the black magic master and apprentice, he waved his hand: I am going to use the effect of Graverobber at this moment!

The effect of the Mirror Force stolen from the GY is activated!

A short, mean, and grinning tomb robber came out, holding a small shovel for digging graves under his arm, and holding a red eye-catching card in his hand it was Mirror Force!

The master and apprentices attack collided with the blue transparent barrier, and the power of black magic was immediately bounced back by the holy shield, blowing back towards the two magicians overwhelmingly!

But of course, Yugi wouldnt allow that to happen. His pupils shrank, and he pointed at the card that had just been covered by his feet.

Because of the effect of The Dark Magicians, the set trap card can be activated this turn! Yugi player waved his arm, So I activate a Counter Trap Retort!

"

"

This card can only be activated when the opponent activates a card with the same name as a Spell or Trap Card in your Graveyard! Negate the activation of the opponents card and destroy it!

What!?! Paradox was shocked.

Even Yuei Vu, who had long expected that Yugi would do something incredible, couldnt help feeling awe at this moment.

Hiss~ The divine draw ability of a big shot is so terrifying!

Not only does he draw a usable card, but it is also a card to counter a specific situation!

Because there is still a copy of Mirror Force in my graveyard, so your trap cards activation is negated! Yugi shouted, The Dark Magicians, continue the attack!

The sacred shield was shattered, and the attack of the black magic master and apprentice continued. The staggered magic power pierced through the air, piercing through the body of the sinful red-eyed black dragon like an arrow, blasting it to pieces.

Paradox, LP 4000 LP 3600

The line of defense was beautifully disintegrated, and the Malefic Red-Eyes Black Dragon was also defeated. Paradox pouted, pretending to be disdainful, but looked more cautiously at the starfish head on the opposite side.

The follow-up effect of Retort. Yugi said lightly, After using this card negate the activation of the opponents Spell or Trap Card, I can add 1 card with that name from my graveyard to my hand.

So according to this effect, I added the Mirror Force in the graveyard to my hand.

His graveyard glowed, and a card was ejected from the graveyard and returned to his hand.

Then Yugi waved his hand: Set a card, I end my turn.

Looking at the extra set card at his feet, Paradox's face under the mask couldn't help but twitch again.

Everyone knew that the card that was just set on Yugi's field at this moment would certainly be a Mirror Force.

Paradox now felt like he was facing a Mirror Force deck

Chapter 394: Mere Magicians

My turn.

Although Paradox didn't expect this would be such a pain in the ass, the duel still continued. Even if he knew that the opponent's back row has a Mirror Force, now Paradox could do nothing against it.

During the Draw Phase, I activate the effect of Field Spell Card Malefic World. Paradox said, At the cost of giving up the normal draw, I randomly add a Malefic monster from the deck to the hand.

His deck shuffled automatically, and a moment later a card was popped out face down.

Paradox added that card to his hand.

At this moment, the effect of The Dark Magicians is also activated. Once per turn, if a Spell/Trap Card or effect is activated, I can draw 1 card.

In front of the Yugi, the magician master and apprentice crossed their staffs, and the spells released were applied to the master's deck.

The card I drew is an S/T card, so I directly set it on the field by the effect of The Dark Magicians, Yugi waved the card and said, And according to this effect, this card can be activated in this turn.

Paradox glanced at the card and frowned.

In the last round, Yugi drew a Retort with his eyes closed, and Paradox suffered a lot. Now he didn't dare to do anything weird

But what he had to do remained the same.

I activate the effect of the Malefic Cyber End Dragon in my hand. Paradox said lightly, Send a Cyber End Dragon from the Extra Deck to the graveyard, and this card can be Special Summoned directly at no cost.

Come! Malefic Cyber End Dragon! ! !

With the overflowing electric current, the steel body, accompanied by the roar of the engine and the sound of metal friction, the three-headed metal dragon raised its head high and let out a heavy roar!

[Malefic Cyber End Dragon, ATK 4000]

The starfish head of the Yugi and the cloak-like school uniform behind him were blown straight, and he couldn't help being a little surprised when he looked directly at the huge body of the Iron King: Even a monster with the same attack power as Obelisk can be called out in an instant?

The power of Malefic deck is beyond your imagination.

Paradox smiled coldly, and then his eyes fell on the set cards in the back row of Yugi.

The card that has just been set, or Mirror Force?

Paradox snorted coldly, Let me get rid of that card first.

Quick-Play Spell Mystical Space Typhoon! Destroy that set card!

The whirlwind rolled up, involuntarily rolled up the set card in the back row of Yugi it really was the Mirror Force.

Even if it was a powerful holy defense, it was just an ordinary trap before it was activated, and it has no resistance in front of the typhoons. In the gust of wind, it seemed that an invisible hand threw the card into the air, and a thunderbolt descended from the sky to blow it into scorched black.

In this way, this troublesome trap will no longer exist. Paradox said lightly, Battle! Malefic Cyber End Dragon, attack The Dark Magicians!

The three mouths of the giant steel dragon opened, and along with the pitch-black electric current, scorching flames spewed out as if they were about to ignite the air!

However, he saw Yugi laughing again!

You just said you were going to attack, right?

What!?! Paradox's complexion changed suddenly.

Of course, you will be wary of my Mirror Force, Yugi said, that's why I set this card!

Open the set card! Trap Card Trap of Darkness!

When my LP is 3000 or less: Pay 1000 LP, then target 1 Normal Trap in my GY, except Trap of Darkness; this card's effect becomes that targets activated effect, then banish that target!

I removed the Mirror Force from the game to get the same effect when the opponent declares an attack, all Attack Position monsters on the opponent's field will be destroyed!

Yugi, LP 3000 LP 2000

After the words fell, the flipped trap in front of the Yugi has been transformed into a Mirror Force with a burst of golden light effect.

What!?!??

Paradox was dumbfounded.

What the hell why I'm going to fight this Mirror Force today!?

Beautiful, as expected of Mr. Yugi! Judai praised.

It's really powerful. Yusei also nodded sincerely.

Mirror Force, a classic powerful trap card, was still well-known in the future many years later, even Yusei has heard of it.

But he has never heard of anyone who could play Mirror Force so smoothly!

Luckily for Paradox, he had a countermeasure, too!

Quick-Play Spell Forbidden Dress! The next magic card quickly appeared in front of Paradox, Target 1 face-up monster on the field; until the end of this turn, that target loses 600 ATK, but cannot be targeted or destroyed by other card effects.

I choose Malefic Cyber End Dragon!

[Malefic Cyber End Dragon, ATK 4000 ATK 3400]

The mechanical king let out a low growl, every part of his body seemed to be operating at an overload, and the parts rubbed against each other and spilled out an electric current.

With the support of the spell card, Malefic Cyber End Dragon briefly gained the ability to resist destructive effects. The energy reflected by the sacred shield scattered like arrows, and they exploded in front of the machine dragon, as if hitting an invisible barrier, creating countless light blue waves.

The attack continues! Paradox shouted, Smash that unsightly magician master and apprentice duo for me!

The Dark Magician and the Dark Magician Girl tried their best to resist, but they couldn't catch the shattering power after all. The magic circle released by the two was easily blown to pieces, and the figures of the two mages also disappeared in the mighty light.

Yugi, LP 2000 LP 1400

The impact of the duel in the Malefic World was all physical damage. Despite the buffer of the magic circle, the power of Malefic Cyber End Dragon still made Yugi's body sway uncontrollably as if it would be blown away at any time.

However, he immediately shouted: The effect of The Dark Magicians is activated! When it is destroyed, I can Special Summon 1 Dark Magician and 1 Dark Magician Girl from my hand, Deck, and/or GY!

The black magic circle opened again, and the power of black magic summoned back the master and apprentice duo from the underworld. It's just that when they reappeared, they had already disassembled, and occupied different areas of the field.

[Dark Magician, ATK 2500]

[Dark Magician Girl, ATK 2000]

It's the two of them again really are the lingering magician master and apprentice. Paradox snorted, But mere magicians can't defeat the power of Malefic.

Set two cards, I end my turn!

Chapter 395: The Ultimate Magician

Mere magicians?

Upon hearing this, Yuei Vu couldn't help feeling admiration for this future villain.

It seems that you don't know the horror of the mere magicians in your mouth. I hope that you can keep that arrogance until you see your death

My turn, draw!

After Yugi drew a card, he glanced at Paradox coldly and said: Black magic contains powerful abilities that can transcend time and space and distort dimensions. It will be troublesome to underestimate this kind of power.

Paradox disagreed: Say that after you defeat me, the legendary Duel King.

Then it's as you wish. Yugi showed a card in his hand, I will sacrifice the Dark Magician on the field, release the hidden power of magic, and call out the judge of black magic

Dark Eradicator Warlock!

A magic circle with intricate patterns was stuck on the ground, and the purple-black magic power erupted from the soles of the Dark Magicians feet, and the ups and downs of the magic power lifted his pitch-black robe.

The huge staff shining with purple radiance cut through the torrent of magic power, and a Dark Magician in a larger and thicker robe appeared on the field. He took a step forward and stood majestically, his body faithfully protecting his master like a mountain.

[Dark Eradicator Warlock, ATK 2500]

Paradox frowned: A new form of Dark Magician

Activate the Spell Card Card Destruction. Yugi said, Both players discard all the cards in their hands, and then draw the same number of cards.

The Spell Card emerged out of thin air, and a golden glow bloomed on the card's surface. Almost at the same time, the purple light on the huge staff of the Dark Eradicator Warlock rose sharply, as if absorbing the fluctuations contained in the Spell Card, and condensed into a purple magic bullet at the tip of the staff.

The effect of Dark Eradicator Warlock. Yugi said, Each time a Normal Spell Card is activated, inflict 1000 damage to the opponent! Black Magic Trial!

Purple-black cannonballs roared across the audience and exploded on Paradox's face with a bang. The smokescreen shot up into the sky, and the shock wave swept away close to the ground.

But the domineering magical impact failed to hit directly after all but was exhausted on the transparent shield that appeared not far in front of Paradox.

Paradox, LP 3600

If this is what you call the power of black magic, it might not be useful against me. Paradox smiled nonchalantly, At that moment, I activated Trap Card Damage Polarizer.

This card can only be activated when an effect that inflicts damage is activated. Negate its activation and effect, and each player draws 1 card.

After drawing the card, he continued to taunt: If you have any tricks left, you should quickly take them out. But in the end, you will find that all of them are powerless in the face of the power of Malefic.

Is that really the case? Yuei Vu smiled, What if I say, Dark Eradicator Warlock is just a foreshadowing for the release of the power of ultimate magic?

What? Paradox's complexion changed, and he couldn't help but take another look at the magistrate executive who was not angry and arrogant and had an awe-inspiring aura.

This monster is it just a foreshadowing?

If you want to know, let me show you the ultimate power of black magic!

Yugi held up a card, which released violent energy like a storm!

Spell Card Magicalized Fusion!

Yugi inserted that card into the Duel Disk, and at that moment, the entire Duel Disk in his hand overflowed with a blue electric current visible to the naked eye.

Fusion Summon 1 Spellcaster Fusion Monster from my Extra Deck, by banishing Fusion Materials listed on it from my field or GY!

I will banish the Dark Magician Girl, Dark Eradicator Warlock from my field, and Dark Magician, Defender the Magical Knight, Magicians Valkyria from my GY!

A total of five magicians perform the ultimate magic fusion!

Everyone present was shocked including Yuei Vu.

Didn't the other party casually say a few words that your magician is not too good?

So cruel

Fivefold Fusion!?! Paradox thought of something, and his face suddenly became ugly. Could it be the legendary oops!

At that moment, the figures of the five magicians flew up one after another, turning into five magical beams of different colors and flying into the air. They merged into one place and combined under the guidance of the powerful spell of the Spell Card, it seemed that an ultimate existence in the magician world was summoned from the far end of time and space!

Fusion Summon! shouted Yugi, The ultimate magician who penetrates the shackles of time and space and dominates everything

Quintet Magician! ! !

A tornado-like magical power stirred the space of sin, and the surging energy gradually condensed into a human form. The noble and majestic mage slowly walked out of the burst of magic power, and the five-fold magic circle floated around him one after another. He slowly opened his eyes, and the whole world seemed to be contained in his clear and resolute pupils.

[Quintet Magician, ATK 4500]

Paradox gritted his teeth, still making the final struggle: Open the set card! Trap Card Bottomless Trap Hole! When a monster with an attack power of 1500 or more is summoned, destroy and banish that monster!

Its useless, Yugi said lightly.

Sure enough, the hole leading to another dimension opened under the magicians feet before he could stand still. However, this ultimate sorcerer only moved his lower eyelids, and with one look, his awe-inspiring aura burst out, just like an order to retreat, and the acupuncture point disappeared immediately.

Quintet Magician cannot be destroyed by card effects, cannot be used as fusion materials, and cannot be Tributed.

In other words, neither the Lava Golem that players worshipped nor the ace card of Judai Super Polymerization could solve this ultimate mage.

Then the effect of Quintet Magician is activated! Yugi raised his hand and said, If this card is Fusion Summoned using 5 Spellcaster monsters with different names, all cards on the opponents field will be destroyed!

In fact, the magicians power has already been fully charged without the masters order.

The five-ring magic circle was activated at the same time, one ring after another, lighting up a dangerous and gorgeous light. The magic circle began to turn slowly like a clock feeling the dial, and the boundless magic power swept across the ground like waves.

This power was god-like, and it was not something that any conventional creature could resist!

Malefic Cyber End Dragon released a powerless lament, as it had no room to fight back under this blow. The steel body was involuntarily torn apart by the ultimate spell.

Then the whole dark world was also smashed into pieces under the impact of irresistible magic. The space of sin was instantly covered with cracks under the surge of the torrent of magic power, crackling into slag like a cracked eggshell.

The ultimate magic of the Quintet Magician was the absolute power that swept everything and smoothed the entire field, and nothing could stop it.

This is the final blow.

With a wave of Yugis arm, the Millenium Puzzle swayed in front of him with his movements.

Quintet Magician, attack directly!!!

The five-ring magic circle activated again, pushing magic power into the magicians staff as if charged. The majestic torrent of magic power overwhelmed Paradox, bringing the end to this duel.

Paradox, LP 3600 LP 0

Chapter 396: Kill Two Birds With One Stone

Ughhhhh!!!

The Quintet Magicians spell bombarded his head and face, and while Paradoxs last LP was emptied, he was also blown away far away, rolling twice in embarrassment and falling to the ground.

Yugi-san is amazing! Judai the fanboy was the first to cheer.

Yusei looked hesitantly at Paradox who was blown out and fell to the ground like mud: This person is he still alive?

Yusei has already fought against a group called Dark Signers before, and he knows the horror of a Shadow Game, and he has also seen the real impact of a terrifying monster like Earthbound Immortal.

In other words, Brother Crabhead now knew very well that sometimes playing cards maybe really deadly!

Wouldnt this blond man be beaten to death just by playing cards?

Hes fine. Yami Yugi put away the Duel Disk and said, He just lost consciousness.

Although the dark power of Millennium Building Blocks can easily kill people, Yami Yugi has almost never done so since he was revived in this world.

Even if he took the initiative to start the Shadow Game, most of them just make the opponent fall into a coma as a punishment. It was still a rare case to directly erase the soul like Malik.

After all, he didnt want to give AIBO the impression that he was a merciless tyrant

He will be in a coma for a while, and he should wake up soon. Yami Yugi said, When he wakes up, you can ask him about his purpose and intentions.

The four Duel Kings were gathering to surround Paradox, who seemed to have fallen into a coma. At this moment, someones cell phone rang.

Yami Yugi took it out and saw that the caller was Anzu.

Where did you go, Yugi? Are you okay?

A high-visibility female passer-by who was suddenly left behind while visiting an amusement park called worriedly.

Thats right, Yami Yugi was walking around with her, and suddenly sensed that someone was trying to make trouble, so he ran to play cards with Uncle Pa without saying a word, and left his girl aside

As soon as Yami Yugi answered the phone, he secretly thought that it was not good, as he was so busy playing cards that he completely forgot about the girl

Seeing that Yami Yugi seemed a little embarrassed, Yuei Vu took the initiative to stand up and said: Its okay, we will deal with this person, you can go back first.

Yugi nodded gratefully. After all, he was a guy who confesses with cards and has passed through life and death. He knew that Yuei Vu was trustworthy. So he said goodbye to Yuei Vu and two weird people who were dressed in strange clothes, but making him feel friendly even though he hadnt seen their faces and then went down the stairwell first.

Watching the kings back disappear, Yusei couldnt help but sigh with emotion: As expected of the first Duel King in the legend, hes unbelievably strong.

Yes. Judai nodded in agreement, and then smiled, You may not believe it, but I, a long time ago, fought against Mr. Yugi

Eh? Judai-senpai has dueled with the first Duel King?

That's right. Judai nodded, To be honest, Mr. Yugi just now didn't use his full strength at all. Mr. Yugi who got serious is terrifyingly strong.

"

"

I can really feel it. Yusei nodded.

It should be said that he is worthy of being the strongest duelist of all time

As Judai spoke, he might have suddenly realized something, paused, and said: Oh, yes, of course, Yuei Vu-sensei is also very strong. I heard that in the first Battle City competition, Yuei Vu-sensei was competing for the title of Duel King with Mr. Yugi, and the result is a tie

He turned his head, only to find that Yuei Vu, who was standing beside him just now, had disappeared.

Um? Where is Yuei Vu-sensei?

Looking back, he found Mr. Yuei Vu was squatting beside Paradox, looting from corpses and picking up equipment

Judai didn't think it was strange at all, he just smiled, but felt a little relieved, showing a look of That's my teacher

The Duel Disk was the first to be confiscated. He has long wanted Paradox's future Duel Disk that could automatically shuffle and automatically retrieve cards.

Afterward, I can give President Kaiba a study to see if it can speed up the process of the birth of the smart Duel Disk.

Then the big D-Wheel at the back must also be taken back. Paradox relies on the small perpetual motion machine in his D-wheel, which could release Planetary Particles in real-time, so he could perform Synchro Summons when he traveled back to various eras.

And even if you didn't play Synchro monsters, this D-Wheel was also a space-time shuttle!

It wouldn't hurt to drag it back.

Then came Paradox's Malefic deck. Yuei Vu, of course, didn't forget to pull it out.

He was not very interested in an entertainment deck like this, and the spirit cards that Paradox snatched from various eras must be returned to the owners of each era otherwise, the timeline would still be messed up.

However, this did not prevent Yuei Vu from adding the Malefic series to his card pool.

Speaking of which, Paradox should have snatched Yusei's Stardust Dragon. This card must also be returned to Yusei.

Yuei Vu first found the cards in Paradox's Extra Deck and found that there seemed to be only a few of them.

He opened it and found to his surprise that there seemed to be no Stardust Dragon among them.

Mr. Yuei Vu? Yusei came up.

Yuei Vu frowned, vaguely realizing something was wrong.

When Paradox and Yugi were dueling just now, he felt that something was wrong.

The Malefic World that Paradox just took, as well as the Malefic monster he summoned, always felt a little less powerful than the last time he met Yuei Vu.

If the Malefic monsters summoned by Paradox in the last encounter were spirits captured by him from various eras, the monsters he summoned this time seemed to be pure three-dimensional images.

And until Paradox was beaten, he didn't seem to have summoned the real ace monsters of the Malefic series.

It felt as if he has been restricted by something and had not been able to exert his full strength.

Could it be that

Yuei Vu quickly browsed through his remaining decks and found that, as expected, many key cards were missing.

In addition to Stardust Dragon, there were also no big monsters such as Paradox's ace monster Malefic Truth Dragon and Malefic Paradox Dragon in the animation.

Judai also quickly realized the problem from his teacher's movements, and immediately stepped forward, and took off the white mask on the unconscious Paradox's face.

After the mask was taken off, the three were shocked to find that there was no face underneath!

It was a blank whiteboard, without facial features, not even a single line, as hard as a brick.

It's just a stand-in. Yuei Vu narrowed his eyes.

Im careless.

After the last fight, Paradox already knew that Yuei Vu was not easy to deal with, and he also knew that Yusei and Judai, the two future Duel Kings, had chased after him through time and space.

Knowing that the other party might have been wary of him for a long time, Paradox naturally couldn't bump into them without preparation.

So he chose to do a feint!

The Mark of the Dragon on Yusei's arm lit up again.

He started to move. Yusei said, This time it's more violent than before!

Judai asked: Can you perceive where he is now?

President Pegasus of the Industrial Illusions has just arrived. Yuei Vu stood up solemnly, If there is no accident, he will be ready to meet President Kaiba Seto in a minute.

Judai was startled: Could it be that the future man intends to kill two birds with one stone?

Chapter 397: Do Not Know How To Give Up

Paradox really thought so.

At the climax of the KC Grand Prix, Pegasus, the president of the Industrial Illusions, would also make an appearance in person.

Pegasus, who had just arrived at Kaiba Land, was preparing to meet Seto Kaiba. The two parties would briefly discuss cooperation matters and exchange information on the next activities.

This would be perfect timing for Paradox.

Directly summon the materialized monster spirit by the future technology, use the powerful spirit power he collected from various times and spaces, and kill Kaiba and Pegasus on the spot at the same time before anyone has time to react!

Both Seto Kaiba and Pegasus were the pillars of the Duel Monster world, and they played a decisive role in the development of this game for later generations.

It may be not too late to get rid of both of them now, and there was still hope that the development of the Duel Monster game could be stopped!

Although Pegasus was also a strong man with dark power at the beginning, his strength has plummeted since the Millennium Eye was robbed. As long as the timing and angle of the sneak attack were well grasped, the probability of killing him with one blow was not low.

In the original time and space of the animation, Paradox did exactly that to get rid of Pegasus.

Although it was said that Seto Kaiba may be the reincarnation of a priest or something, Paradox felt that he did not have a Millennium Item at hand after all, and the memory of his previous life has not been unlocked. Now Kaiba was just an ordinary entrepreneur.

Originally, there were powerful spirits in Kaiba's deck that were worth being afraid of, but at this time, Kaiba was in the stage of half-retiring (Although not long ago he secretly went to play cards with a certain future jellyfish head)

In addition, Kaiba who met Pegasus must have appeared as a businessman rather than a duelist, and he would definitely not bring a deck, which meant that his powerful spirit would not be on the side either.

This was a golden opportunity!

Paradox stood in a high place, condescendingly overlooking the situation below. At this time, Kaiba and Pegasus had already gathered together, and the latter was coming forward with an excited face and open arms, probably saying something like Long time no see Kaiba Boy.

And President Kaiba was looking disgusted

Paradox sneered and opened the Duel Disk, drawing a card from the deck.

At this very moment, history will be overturned!

Go! He shouted loudly, Malefic Rainbow Dragon!

The Duel Disks system was activated, and a majestic beam of light was shot into the sky. A rainbow of seven colors hangs down from the sky as if weaving into a colorful curtain.

In an instant, it seemed that the whole world had changed color. Everyone could clearly see the light and shadow covering the sky. It was so realistic that it didn't look like a stereoscopic projection. The

brilliance of the rainbow was mixed with a dark atmosphere, and the huge giant shadow was approaching rapidly.

The huge dragon broke through the rainbow-colored brilliance and flew out! It swung its long tail, and its white body flew across the sky like a meteor passing through the sky, with a rumbling sound, and the shadow cast on the ground was like a huge dark cloud rolling over the paradise.

More and more people in Kaiba Land noticed the scene. Many people raised their heads and pointed at the sky, and some even applauded and cheered they thought it was a surprise deliberately arranged by the organizer.

However, some players began to realize that something was wrong.

Wait a minute, isnt that Rainbow Dragon?

"

"

Where did the Rainbow Dragon come from in version 1.0?

Are you fucking blind? Its Malefic Rainbow Dragon!

Fuck, is this a side story?

Shocked! Is that man here? The toughest and bravest boss in the history of Yu-Gi-Oh!?

The news was transmitted at the speed of light among the players, and the sand sculptures immediately exploded.

Of course, Kaiba and Pegasus also noticed the vision over there.

What a magnificent dragon! Pegasus also thought that this was the arrangement of the Kaiba Corp, so he turned his head to Kaiba, Is this your arrangement?

Kaiba frowned and didnt respond at first, but his brain started to work quickly.

Whats the situation? Did someone hack our system?

Is it still Siegfried?

No, its impossible, that guy is definitely out

The Ultimate Gem God, polluted by darkness, opened his mouth, and rainbow-colored waves were released from his huge mouth! The seven colors of light converged in one place, turned into surging incandescent rays, and bombarded out, the impact tore the sky, the storm almost overturned the crowd directly below, and the beams pointed directly in the direction of Kaiba and Pegasus!

But precisely at this moment of lightning and flint, a beam of light seemed to shoot obliquely from beyond the sky. The brilliant and dazzling golden light hit the trajectory of the rainbow light burst like a flash, and within a few tenths of a second, a human figure was condensed.

Elemental HERO Neos!

Kiai!

Neos extended his palms together, and the energy poured out between the palms, forming a layer of light blue prototype barrier. Malefic Rainbow Dragons light beam bombarded the barrier unreservedly, and the energy fluctuations swept across the air, creating a brilliant light effect.

Malefic Rainbow Dragon didnt flinch, it twisted its body and rushed forward with a roar. Neos, who blocked the blow, didnt stop moving and flew to meet him.

The white hero and the huge rainbow dragon intertwined in mid-air collided continuously and bounced off each other continuously, and fought fiercely in mid-air.

The crowd cheered one after another, and the scene was heated to the extreme.

Many people were still amazed that the three-dimensional image technology of Kaiba Corp was getting better and better. So far, the monsters summoned by the Duel Disk could only perform simple attack actions, and the screen of the battle process was actually rather monotonous.

However, at this moment, the battle between Neos and Malefic Rainbow Dragon seemed to have completely put aside these problems. The two sides came and went, and all kinds of fancy light skills explode in the air, making people look like an immersive version of Hollywood. Its as enjoyable as a blockbuster.

Kaiba quickly realized that this might not be an effect that their current technology could achieve.

In other words, these two dueling monsters

probably real!

The players were even more excited. frantically took pictures and screenshots one by one, as happy as the Chinese New Year.

I played a game of Yu-Gi-Oh, and I was able to watch M78 civil servants fight monsters, can you believe it!?

Of course, the players immediately recognized the famous Ultraman ah no, its Neos. So of course this also shows that the only master of Neos, the protagonist Yuki Judai from the future, was already nearby.

Damn. Paradox pouted.

When he turned around, he was not surprised to see Yuei Vu and the two protagonists whose faces were covered by strange headdresses.

Just as Neos was blocking Malefic Rainbow Dragon, the three of them had already found Paradoxs place.

Paradox had a sullen face, a little annoyed: You Duel Kings do not know how to give up, do you?

Chapter 398: Scared By Typhoons

You Duel Kings do not know how to give up, do you? Paradox was annoyed.

You are the one! Judai said, Continuously traveling between time and space, stealing elves, and trying to destroy the history of dueling monsters, what is your purpose?

Im trying to save the world, you idiots!

Paradox, who hadnt explained his intentions for himself until now, finally couldnt bear it anymore.

You people from the past dont even know what youve done! Duel Monsters are something that should never be revived in this era. They are Pandoras box! Let them free, and this world will be led to the abyss of despair!

He clenched his fists tightly, recalling everything he had experienced in his life, the lost family, friends, and even the entire human race.

It was a future that people who have never experienced it couldnt even imagine. No hope, no life. Even Purgatory may not be able to compare with it.

It was to prevent that hopeless future that he went back to the past desperately.

Perhaps it is difficult for you in this era to imagine and understand. Paradox said in a deep voice, But I come from a hopeless future beyond your imagination.

I am one of the last remaining humans in history. So redemption is my mission, a mission that cannot be failed.

Judai and Yusei looked at each other in blank dismay, feeling that the amount of information was a bit too much.

Only Yuei Vu, who knew Paradoxs origin and motivation long ago, was not surprised at all.

I have no choice. No matter whether this path is right or wrong, I have to gamble everything. Paradox opened the Duel Disk, his eyes were firm and resolute, For the fate of the entire human race, even if the ones standing in the way are the Duel Kings who once won the title of savior, I can only fight.

Bring it on! Duel Kings, if you want to stop me, use your best to defeat me!

The man stood there, with an appearance of disregarding life and death and sacrificing himself for righteousness. In addition, he was facing three big shots of the younger generation. There was really a kind of sometimes, men just have to fight cliché

No matter what your reasons are, are you planning to achieve your goals by killing people? Yusei asked.

Hmph, those are acceptable sacrifices. Compared with the hell Ive seen, if it can save the future, such a small sacrifice is nothing. Paradox said calmly, If Seto Kaiba and Pegasus know that their own death can correct the fate of human extinction, they should be willing to accept it.

Stop joking! Judai shouted, No matter who it is, no one has the power to decide the life and death of others!

He turned to Yuei Vu.

Yuei Vu-sensei, lets accept this duel! he said, We have always been here like this. No matter what kind of question, we can find the answer in the duel!

All questions can be answered by playing cards Its really a Judai-style approach.

However, Yuei Vu was also relieved that Judai, a full-level apprentice who came back from the future, still respected his opinions so much. He nodded: Okay. Then we will accept this duel.

Yusei didnt say anything, just opened the Duel Disk silently.

Continue to obey the arrangements of the seniors.JPG

Then you three go together, Duel Kings of all ages. Paradox said in a deep voice, Bet on the future led by the stupid Duel Monster!

Duel! x4

[Yuei Vu x Judai x Yusei, LP 4000]

Paradox, LP 12000

The battle here adopted the Tag Team rules, and the two teams each had a round, but Yuei Vus side needed to change players in each round.

The difference from the animation was that in the animation, the three Duel Kings shared 4000 LP, while Paradox got 4000 LP himself. But here Paradox wasn't so careless, and he chose Life Equalizing mode, which meant he three times their LP.

Maybe Uncle Pa suffered a few severe beatings when he came back, and his confidence was deflated a bit, so he didn't dare to be so arrogant.

However, the three on Yuei Vus side considered that they already had a huge advantage of three times the resources and three times the field, so they acquiesced in allowing the other party to have such an extra 8000 LP.

The duel started, and both Malefic Rainbow Dragon and Neos who fought in mid-air also disappeared. The two spirits turned into golden lights and flew back to their respective owners decks.

Brother! At this time, Mokuba was anxiously running to Kaiba's side.

Before he could speak, Kaiba pointed to where Paradox and Yuei Vus team were, and said calmly, Mokuba, broadcast the duel over there for me.

Eh? But that's not what we arranged

It's okay, just do it, Kaiba said.

Yes, brother!

Several drones that had been on standby in various parts of the Kaiba Land immediately flew in the direction of the duel under the mobilization of Mokuba, hovered around the duel site, and set up cameras to capture the scene.

It's me who goes first, draw!

Paradox, the savior from the future, took the initiative.

He glanced at Yuei Vu from Yuei Vus perspective, he felt that this guy's eyes seemed to have a bit of resentment then snorted, and played a card.

Activate Continuous Spell Card Malefic Territory! Paradox said, When this card is activated, I can activate 1 Malefic World from the deck!

Appear! Malefic World!

The Duel Disk was automatically retrieved, and a card was automatically ejected from the deck quickly. As the cards were placed in the field area, the deep and dark world quickly dominated the world, dragging the field into a dark dimension.

Affected by that force, several drones flying around fell powerlessly as if the signal was interrupted. There were only two left that are still floating there firmly, barely maintaining the transmission of the live broadcast.

"

"

Its just that the captured shots only have pictures and no sound.

I dont need to explain about the effect of Malefic World, do I?

Paradox paused, pointing to the Continuous Spell Card beside him.

In addition, the effect of Malefic Territory. As long as the Malefic World activated by this effect is in the Field Zone, neither player can target a card in the Field Zone with card effects.

Oh? Yuei Vu raised his eyebrows.

It seemed that Paradox was really scared by a bunch of typhoons last time, and especially took corresponding protection measures for the core card of his deck.

Moreover, the effect of this Malefic Territory did not mean as long as this card is on the field, neither player can target a card in the Field Zone with card effects, but as long as the Malefic World activated by this effect is in the Field Zone, neither player can target a card in the Field Zone with card effects.

In other words, it was a lingering effect. Even if this Malefic Territory was destroyed, its protection on the Malefic World would still continue.

If they wanted to destroy the Malefic World now, ordinary typhoons were no longer effective. Either use the invincible sky hero like last time or just take a copy of Heavy Storm and destroy all the magic traps on the field indiscriminately

Then activate Continuous Spell Card Field Barrier!

The milky white shield stood up and included all four people fighting in it.

Paradox smiled: In this way, players on both sides can neither activate new Field Spell nor destroy the Field Spell.

Yuei Vu:

Well, now even the invincible sky brother and Heavy Storm cant solve the problem.

Yuei Vu couldnt help wondering how much psychological trauma he had caused Paradox last time so Uncle Pa put up such an exaggerated iron wall when he came up this time.

Cannot be targeted by card effects, cannot be destroyed by card effects. Such a strong resistance was even about equal to that of Red Daddy

Chapter 399: Can This Game Still Be Played Like This?

In the animation, Paradox did not use this Malefic Territory. Maybe he didn't have it, or he just didn't draw it.

Yuei Vu was more inclined to think that it may be because the other party was scared by the typhoons when they met last time, so he printed this card in a hurry.

However, the effect of the Malefic Territory used by Paradox here was definitely different from the real-life version.

All the real-life versions of Malefic monsters shared the same side effect, which was There can only be 1 face-up Malefic monster on the field. But according to the second effect of the real-life Malefic Territory, as long as this Continuous Spell existed on the field, that side effect changed into There can only be 1 face-up Malefic monster on the field with the same name.

But the animated Malefic monsters did not have such a problem, so this Malefic Territory certainly did not have that effect.

In addition, the real-life Malefic Territory had a third effect, which could negate the effects of Malefic monsters on the field during the Battle Phase.

But that's also because almost all the effects of the real-life version of Malefic monsters were side effects.

The animated Malefic monsters had the same effects as their counterpart, so Yuei Vu boldly speculated that the Malefic Territory printed by Paradox here did not have the third effect.

Operations of Paradox continued.

I will then activate the effect of Malefic Rainbow Dragon in my hand. He said lightly, Send a Rainbow Dragon from the deck to the graveyard, and this card can be directly Special Summoned from the hand.

Come down, the ultimate gem gods sinful form

Malefic Rainbow Dragon!

A rainbow-colored storm appeared, and dark energy erupted in this enclosed space of sin. The huge dragon soared into the sky, surrounded by a halo of seven colors, and spread its black wings, revealing a divine posture like a god.

[Malefic Rainbow Dragon, ATK 4000]

The audience who were watching the live broadcast suddenly went into an uproar.

In an instant, a monster with an attack power of 4,000 was called out!

Even Kaiba couldn't help being a little surprised. Even through the screen, he could feel the unparalleled divine power contained in the rainbow dragon that covered the sky.

What is this blond man exactly?

Hmph. Paradox smiled, I end my turn.

Then I'll go first. Yusei took the initiative to be the vanguard, My turn, draw! I activate the Spell Card Tuning! Add 1 Synchron Tuner from my Deck to my hand, then send the top card of my Deck to the GY.

The card I'm going to add to my hand is Quickdraw Synchron!

Yusei drew the card that popped up automatically from the deck and then sent the top card of the deck to the graveyard, and the deck was automatically shuffled.

Then there is the effect of Quickdraw Synchron in the hand! By sending 1 monster from my hand to the GY, I can directly special summon it from the hand.

Bring it on! Tuner monster, Quickdraw Synchron!

Yusei discarded a card in his hand, and a short mechanical soldier who looked like a western cowboy and wore a wide hat suddenly appeared on the field and skillfully pulled out the revolver from the holster around his waist.

Quickdraw Synchron, ATK 700

Next is the effect of Quillbolt Hedgehog in the GY! The card that was just discarded to the GY immediately popped back into Yusei's hand, when there is a Tuner monster on my field, I can special summon it from the GY.

Special Summon Quillbolt Hedgehog!

[Quillbolt Hedgehog, ATK 800]

Yusei said: Level 5 Quickdraw Synchron, level 2 Quillbolt Hedgehog, tuning!

Gathering roars turn into an echoing arrow that tears through the sky! Become the path that lights the way!

$5+2=7$

Synchro Summon! Yusei raised his arms, and the white light behind him hung down like a waterfall, Level 7, Junk Archer!!!

Appearing in the pure white light was a warrior with orange-red armor, holding a light-blue magic bow with sharp arrows mounted on it, and behind the blue eyepieces was the unique sharp sight of an archer.

[Junk Archer, ATK 2300]

If until just now, the players still had doubts about the identities of the two hidden faces beside Yusei, now there was no doubt at all.

Synchro Summon!

And it's still Junk Archer!

Make no mistake, what was hidden under that rabbit headpiece was definitely a crab head!

Brother Crabhead!

Yusei my idol!

So the unicorn next to him is Judai!?

I'm shocked, so the two NPCs in Kaiba Land were Yusei and Judai?

What, did I meet them before? Damn it, at that time I just missed the chance to meet the big shots

In contrast, everyone other than the player started to feel confused.

What the hell is that? How did it become a new monster?

Can this game still be played like this?

Some people began to cast their blank eyes on Pegasus, the father of the duel monsters, and in turn, Pegasus looked blankly at the host of the event, Kaiba Seto

So the president said nothing, just narrowed his eyes and looked at Yuei Vu who was dueling on the screen.

Yuei Vu , when this is over, you have a lot to explain to me!

Yusei's round continued.

The effect of Junk Archer is activated! Yusei shouted, Once per turn, I can target 1 monster the opponent controls; banish it until the end of the turn!

I will banish the Malefic Rainbow Dragon on your field!

The Junk Archer opened his bow and set an arrow, and the arrow turned into a piercing beam of light and swirled out, hitting Malefic Rainbow Dragon's body head-on. But the light did not explode but seemed to ripple slightly in the space.

After a burst of dimensional distortion, Malefic Rainbow Dragon was absorbed into the crack and disappeared from the field.

In this way, there will be no monsters that can shield you. Yusei pointed to Paradox, Go, Junk Archer, attack directly!

Junk Archer raised his bow again this time with his most destructive piercing arrow attached!

The arrow hit Paradox's body head-on and exploded with a boom, shocking Paradox's burly body back two steps.

Paradox, LP 12000 LP 9700

Paradox closed his eyes to accept the impact, stood up and lightly patted the dust on his body, and said lightly, It doesn't hurt or itch.

With 12000 LP, this kind of damage could indeed be said to be painless.

Maybe this was the so-called stack the thickest armor and suffer the most vicious beating

Set a card, I end my turn. Yusei ignored the other party's taunt, At the End Phase, the monster that was banished by the Junk Archer will return to the field in the same battle position.

After a burst of dimension distortion, a huge white body descended back on the field, and the roar of the Malefic Rainbow Dragon resounded throughout the world!

Chapter 400: Burn To Ash

My turn. Paradox said calmly, At this moment, the effect of Field Spell Card Malefic World is activated.

Instead of conducting my normal draw in the Draw Phase, I randomly add 1 Malefic monster from the deck to my hand.

With the automatic shuffling of the deck, a card popped up and was added to the hand by Paradox. He glanced at the card and couldn't help smiling.

Interesting, it's a card suitable for drawing the curtain down in this era. He said indifferently and directly revealed the card he had drawn.

Send a Blue-Eyes White Dragon from the deck to the GY. Come on, the legendary White Dragon of Light who brings victory appears in a sinful form.

Malefic Blue-Eyes White Dragon!!!

The dazzling brilliance seemed to form a curtain, and the white dragon polluted by darkness soared into the sky, flapped its wings, and flew more than half a circle in this sinful space, roaring and soaring into the sky!

[Malefic Blue-Eyes White Dragon, ATK 3000]

This time, it was like a bomb exploded among the onlookers.

Even Pegasus exclaimed: Unbelievable! Kaiba Boy~, is that your Blue-Eyes White Dragon?

And if you wanted to find who had the most exciting expression on the scene, that must be President Kaiba.

The president, who saw his White Bride following another man, was shocked at first, and almost couldn't help but wanted to go back and look through the deck to see if his three White Brides were still there.

However, considering that he was in front of the public now, Kaiba must pay attention to maintaining a calm image, so he temporarily suppressed this idea, and just stared at the blond man with murderous eyes.

Battle! Paradox raised his hand, Malefic Rainbow Dragon, attack Junk Archer!

The white dragon opened its mouth, and the majestic energy gathered, bursting out with a rainbow-colored halo, and the scene was like a long river of light spewing out!

After all, this spirit was the Ultimate Gem God, and the Junk Archer had no way to resist such a destructive momentum. The moment he touched it, he was broken into pieces by the scorching beam of light.

The undulations that spilled out continued unabated, flipping Yusei to the ground on his back. He slid half a meter after hitting the ground.

Yusei, LP 4000 LP 2300

Yusei! Judai shouted.

Hmph, don't worry, it's not over yet. Paradox sneered, Although it's short, it looks like this turn will be the end for you.

Farewell, the failed savior.

Malefic Blue-Eyes White Dragon, attack directly! Sin Burst Stream of Destruction! ! !

The white dragon opened its black mouth, and the burst jet beam blasted toward Yusei tearing apart the space!

Yusei, who was blown to the ground, was still a little dizzy at the moment, his muscles were sore, and his bones seemed to be broken by Malefic Rainbow Dragons blow.

But he gritted his teeth and held on, barely half-sit up, and raised his right hand: Open the set card: Trap Card Card Defense! This card can only be activated by discarding 1 card when an opponents monster declares an attack. Negate the attack, then draw 1 card! (animation card)

As Yusei discarded a card in his hand, countless cards flew out of thin air, turning into a cross in front of him to resist the destructive blow of the white dragon. The strong light exploded in all directions along with the shock wave, causing ripples in this deep and transparent space.

Beautiful! Judai gave the younger generation a thumbs up.

Yuei Vu also nodded approvingly. But what he was thinking in his heart was that the person drawn on the card picture of Card Defense just now looked a bit like Yusei himself. Maybe its because he just printed the card on the spot, the ink was not even dry yet

Have you dodged that too? Paradox snorted softly, Then set a card, I end my turn.

Although it was only a few short rounds, the audience in Kaiba Land was already exclaiming in amazement.

In an instant, monsters with an attack power of 3000 and 4000 attack power flew out!

Such a duel was simply beyond the imagination of all duelists of this era.

At the same time, this duel also attracted the attention of more knowledgeable people. Whether it was those large organizations that paid attention to Duel Monsters, or the folk of Shadow Duelists, they have more or less begun to realize that this is not just a mere exhibition match.

The intensity of energy contained in this duel, and the monsters called out in the duel, was simply unimaginable.

Especially for that dragon that shone with seven colors of rainbow light and looked like a god. In the whole world, it might not be possible to find a spirit of the same level as it.

How could such a powerful spirit has never attracted the attention of any strong person or organization in this world?

Then its up to me. Judai stepped forward, Its my turn, draw! I first activate the Spell Card Spell Books from the Pot. Both players draw three cards from the deck. (manga card)

Yuei Vu squinted at his student.

This kind of thing should not exist in Judais deck in the original timeline. Yuei Vu boldly speculated here that the origin of this card may be related to his future self

Then comes the Spell Card Convert Contact! Send 2 Neo-Spacian monsters, 1 from my hand and 1 from my Deck, to the GY, then draw 2 cards.

Judai then immediately showed a card in his hand.

Summon the Neo Space Connector in attack position!

Appearing on the field was a warrior who looked small and exquisite although it didn't look like Neos, from the appearance it must be an M78 civil servant too.

Neo Space Connector's effect is activated! When this card is Normal Summoned, I can Special Summon 1 Neo-Spacian monster or 1 Elemental HERO Neos from the hand or deck.

Bring it on! I special summon from the deck, my favorite monster, the symbol of my deck

Elemental HERO Neos! ! !

(Elemental HERO Flame Wingman: So love will disappear eventually, right, Judai?)

The beam of light that seemed to fly from the other side of the galaxy transformed into the figure of a white hero in midair shot vertically. Neos descended from the sky, and the moment it landed at super high speed, golden light waves, and dust clouds erupted, stirring up tumbling airwaves in this sinful space.

[Elemental HERO Neos, DEF 2000]

Neo Space Connector, the follow-up effect! Judai continued, I can Tribute this card, then target 1 Neo-Spacian monster or 1 Elemental HERO Neos in my GY; Special Summon it in Defense Position.

Appear, my partner, Neo-Spacian Flare Scarab!

[Neo-Spacian Flare Scarab, DEF 500]

Neos, and visitors from alien planets. Paradox frowned as if he had realized what was going to happen next.

I return Elemental HERO Neos and Neo-Spacian Flare Scarab from the field to the deck Contact Fusion! Unleash fiery abilities and burn!

Elemental HERO Flare Neos!

Neos and the flame beetle both flew up, turned into golden light and raging flames, and broke through the sky respectively, as if flying into the depths of the universe, merged into one, and finally wrapped in a ball of fire that broke through the atmosphere again and fell back to the sinful world.

The flames rolled, the high temperature exploded, and Neos, who switched to a pitch-black appearance and a beetle-like shape, appeared again.

[Elemental HERO Flare Neos, ATK 2500]

Neos Contact Fusion Monster only has one round of activity, and must return to the deck at the end of the turn. Judai said, So I activate the Equip Spell Card Instant Neo Space, and equip it to Flare Neos.

According to the effect of Instant Neo Space, Flare Neos may not return to the deck at the End Phase.

After all, as everyone knew, Ultraman could only fight for three minutes on Earth.

The function of this Instant Neo Space was approximately equivalent to an Ultramans mobile power bank

Then I will set two more cards on the field. Judai said, The effect of Flare Neos is activated! For each Spell and Trap Card on the field, his attack power will increase by 400 points.

There are currently seven Spell and Trap cards on the field. Therefore, the attack power of Flare Neos has increased by 2800!

[Elemental HERO Flare Neos, ATK 2500 ATK 5300]

The audience couldnt calm down anymore: A monster with an attack power of 5300!?

Its attack power is even higher than the legendary Blue-Eyes Ultimate Dragonno, even higher than the Dragon Master Knight!

Are we really playing the same game? Why does it feel like they can summon a monster with an attack power of 4000 or more so easily?

Battle! Elemental HERO Flare Neos, attack Malefic Blue-Eyes White Dragon! Burn to Ash!

Neos flew into the air, slowly opened his palms, and the light in his palms was condensed, which contained the flames of distorting space.

The light technique containing ultra-high temperature was blasted out of the air, and pierced through the white dragons body with one blow. Malefic Blue-Eyes White Dragon let out a mournful cry, its body was pierced through, quickly disintegrated and shattered, and disappeared from the field.

Paradox, LP 9700 LP 7400

Being blasted back a few steps again, Paradox crossed his arms in front of him, and the invisible airwave blew away the black smoke on his body.

He gritted his teeth: Thats all. At this moment, I activate Trap Card Malefic Tune! This card can only be activated when a Malefic monster is destroyed. Draw two cards from the deck. (anime effect)

Because the number of Spell and Trap cards on the field has decreased, the attack power of Flare Neos has decreased.

[Elemental HERO Flare Neos, ATK 5300 ATK 4900]

My turn is over, Judai said.
