

I Play Yu-Gi 401

Chapter 401: Stardust

My turn. Paradox said, At this moment, activate the effect of Field Spell Card Malefic World again. Instead of conducting my normal draw, I randomly add 1 Malefic monster from the deck to my hand.

His deck was shuffled again, and a card popped out from the top after the shuffling. Paradox took the card in his hand, glanced at it, and suddenly smiled strangely.

Then he cast a meaningful look at Yusei.

I activate the effect of Malefic Stardust Dragon in my hand. He said with a sneer, Send Stardust Dragon from the Extra Deck to the graveyard, this card can be Special Summoned directly from the hand!

Fly in a world of sin! Malefic Stardust Dragon!

The stream of light gathered by the stars soared into the sky. The white and holy dragon flew out under the wrapping of its wings, flew high into the air, and stretched out its wings that were dyed pitch black.

Starlight slowly fell from between its spread wings like countless raindrops. Stardust Dragon transformed into a sinful form raised his head, and screamed sharply in the direction of Yusei as if he was shouting

Master, save me QAQ!

[Malefic Stardust Dragon, ATK 2500]

Star Stardust Yusei lost his mind for a moment.

Dont worry, Yusei. Yuei Vu comforted him, We will get your Stardust Dragon back.

and Paradoxs Duel Disk, by the way.

Of course, Yuei Vu didnt say the second half of the sentence.

Yusei couldnt help being grateful: Mr. Yuei Vu

Then I normal summon Tuner monster, Malefic Parallel Gear.

The small golden gear of level two appeared on Paradoxs field, and when he appeared on the field, blue starlight burst out from his body. It was very obvious that it was also a Star Adjuster monster, which contains the potential to manipulate stars.

[Malefic Parallel Gear, ATK 0]

Level 2 Malefic Parallel Gear, Level 8 Malefic Stardust Dragon, tuning! Paradox twitched the corner of his mouth, and smiled at Yusei, You are not the only one who can Synchro Summon.

The golden gear turned into two bright stars, drawing a ring in mid-air, surrounding the dragon of stardust. Malefic Stardust Dragon also gradually dissipated under the influence of that power, leaving only eight stars. The ten stars spontaneously connected into a string, as if paving the way for a bright road of starlight.

2+8=10

Synchro Summon! Paradox raised his hand, Level 10, Malefic Paradox Dragon!

The dragon that was summoned following the guidance of the starlight has a long and pitch-black neck, a black body supported by a huge skeleton, and wide wings that are as hard as steel. The wings spread out overwhelmingly, giving people invisible huge pressure.

[Malefic Paradox Dragon, ATK 4000]

Yusei blocked his face with his arms, and could barely open his eyes under the strong wind from the dragons wings: What a strong monster

Not only that! The effect of Malefic Paradox Dragon is activated. Paradox chuckled, When this card is Synchro Summoned, I can Special Summon 1 Synchro Monster in my Graveyard; ignoring its Summoning conditions.

He raised his finger to the sky.

Resurrect to my field, Stardust Dragon!!!

This time, it was not a sin-bound gesture, but a real stardust dragon the shining brilliance was released with countless crystal light spots, and the white light rushes into the sky, rolling up a pure white storm. The body of the noble dragon whirled, and the moment the wings flapped, the starlight scattered like water.

[Stardust Dragon, ATK 2500]

Hahahaha, Yusei, your dragon will be the key to your defeat! Paradox waved his hand, The follow-up effect of Malefic Paradox Dragon! As long as the Synchro Monster that was Special Summoned by this effect exists on the field, all face-up monsters the opponent controls lose ATK equal to the ATK of that monster! (animation effect)

In other words, all your monsters ATK will decrease by Stardust Dragons attack power, which is 2500 points!

It could be seen here that there is a huge difference between the real card and the animation card of the Malefic series.

In the early days of Synchro, the Malefic deck that could quickly summon powerful monsters unconditionally without losing cards was still relatively strong.

In particular, the Malefic series in the animation was very different from the real-life card. The Malefic monsters in the animation did not have the side effect that only one monster could exist on the field, or other monsters could not attack. Not only that, but they also completely copied the special effects of the original monsters.

In fact, if the problem of the Malefic decks extreme dependence on the Field Spell was solved, Paradox was still quite powerful during this period. It was no wonder that he has the confidence to challenge the three generations of protagonists at the same time in the animation.

Its a pity that he encountered three card printing machines

According to the effect of Malefic Paradox Dragon, the attack power of Flare Neos will drop by 2500 points.

Neoss body was wrapped in dark red energy, and he half-kneeled on the ground as if under tremendous pressure, and his breathing became more violent.

Yuei Vu even made up the image of the round crystal Ding Dong Ding Dong flickering on Neoss chest

[Elemental HERO Flare Neos, ATK 4900 ATK 2400]

Battle! Paradox shouted, Malefic Paradox Dragon, smash that obtrusive Neos!

The black dragon opened its mouth, and the impact of chaos and darkness blasted out like a cannon!

The weakened Neos could only barely raise his hand and release the flame barrier to resist, but it was completely useless. The domineering impact instantly shattered that layer of barrier, and crushed the armor on Neoss body, and his whole body exploded on the field with a miserable grunt.

Judai, LP 2300 LP 700

The materialized storm caused Judai to take two steps back, and black smoke billowed from his whole body and the ground around him.

Judai! Yuei Vu turned his head sideways.

Its okay, Yuei Vu-sensei. Judai smiled and gave him a thumbs-up gesture.

Hmph, are you still stubborn? Paradox sneered, But you have no next turn. This will be the final blow.

"

"

Stardust Dragon, finish him!

Stardust Dragon let out a wail as if it was unwilling to follow orders. It opened its mouth reluctantly, and the starlight gathered, forming a silver-white vortex in its mouth.

Shooting Sonic!

Judai-senpai! Yusei couldnt help shouting.

Judai shouted: Open the set card: Quick-Play Spell The Flute of Summoning Kuriboh! Special summon Winged Kuriboh from the deck!

The card quickly flew out of his Duel Disk automatically and appeared on the field in the form of a Kuriboh with wings. The little guy with snow-white wings yelled Kuri Kuri twice maybe he was called out suddenly and didnt understand the situation. However, in the next second, he collided head-on with Stardust Dragons blow and hurriedly exited.

Winged Kuriboh:

Its dangerous, so dangerous. Judai smiled, But we are not so easy to be defeated. In the turn Winged Kuriboh is destroyed, all the Battle Damage I take will become 0.

Paradox curled his lips: Damn, then set a card, and my turn is over.

Chapter 402: Ultimate Malefic

At this moment, the duel between the four has attracted the attention of the whole world.

The live broadcast of Kaiba Land allowed audiences from all over the world to watch the duel process, and many players who were present at the scene even took advantage of this opportunity to use their own live broadcast room to broadcast it.

The forum was very lively for a while, and new posts were continuously posted every moment, all of which were related to this duel.

For the players, this was an opportunity to watch the plot of the movie up close, but for the local duelists, this duel would be even more shocking.

This was a duel that subverted the cognition of most of them and surpassed the imagination of this era.

Everyone could see that the strength of every duelist participating in this duel was at the top level in the world. Having 4000 attack power was equivalent to that of the legendary god card Obelisk the Tormentor, but it seemed very cheap in this duel.

In the eyes of most duelists, the situation was already insurmountable and oppressive, but these duelists seemed to ignore it as if they didn't feel the pressure at all.

What kind of duel is this!?

At this time, it was finally Yuei Vu's turn: My turn, draw! Activate the Spell Card Pot of Greed from the hand, and draw two more cards from the deck.

Then I send Dark Magician Girl from the deck to the GY, to activate the effect of the Magicians Souls in my hand.

Yuei Vu sent the Dark Magician Girl card to the GY, showed the card in his hand, and said: Send this card to the GY, then I can Special Summon 1 Dark Magician or 1 Dark Magician Girl from my GY!

I revive Dark Magician Girl in the defense position!

A circular magic circle spread out on the ground, and a magic girl with fluttering blond hair flew out lightly holding a small staff. Before that, Yuei Vu was worried that the diameter of the magic circle was not big enough, given the size of the girl. Maybe she would be stuck and unable to get out. But it seemed that he was thinking too much.

[Dark Magician Girl, DEF 1700]

Here comes the Dark Magician Girl! Judai clenched his fists, Mr. Yuei Vu's earliest spirit!

Yuei Vu glanced at him.

This apprentice seems to know a lot about me, doesn't he?

I even told Judai about this kind of thing, presumably the relationship between my future self and him should be really close.

The Dark Magician Girl straightened her magic hat, holding her breath and staring at the two astonishing dragons on the opponents' field.

Hmph, what role can the little magic girl play in this kind of duel? Paradox snorted, And I dont need to remind you, do I? The attack power of the little magic girl will also be reduced due to the effect of Malefic Paradox Dragon .

[Dark Magician Girl, ARK 2000 ATK 0]

Hahahaha! In this way, she wont even have the ability to fight. Paradox laughed, Its really pitiful.

The Dark Magician Girl puffed up her mouth in anger, but there was nothing she could do. Because what people said was indeed true, her attack power was reduced by 2500. In this state, she was even weaker than her handsome Master

You will know soon whether it is useful or not. Yuei Vu said, Activate the Spell Card Dark Burning Attack! If I control a Dark Magician Girl monster, destroy all face-up monsters the opponent controls!

With the support of the Spell Card, the girls power was greatly increased in an instant! Stepping on the magic circle, she flew up and let out a cry. A mighty sphere of magic power condensed on the small staff, and the dark red magic power swayed in the air like invisible long whips.

Beautiful! Judai snapped his fingers, In this way, his monsters will be wiped out in an instant. As expected of Teacher Yuei Vu!

Yusei was not that optimistic: No

Hmph. Paradox sneered, Thats right, Yusei. Show them the true power of Stardust Dragon!

He raised his hand and shouted: The special effect of Stardust Dragon is activated! When a card or effect is activated that would destroy a card on the field, I can Tribute Stardust Dragon; negate the activation and destroy it!

Victim Sanctuary!

Stardust Dragon neighed in a low voice, and his body disappeared with a flash of starlight. A majestic silver light bloomed like a storm, and the light curtain formed a barrier, completely resisting the magic light bullet blasted by the Dark Magician Girl.

Hahahaha! In the end, your Stardust Dragon acted as my barrier, Yusei! Paradox laughed, And the Stardust Dragon will return to the field according to its own effect at the end of the turn.

If it was according to the real card rules, the Stardust Dragon that entered the field in an irregular way should not be able to be revived from the graveyard.

Fusion and Synchro monsters must be properly Special Summoned with the method described on the card before they could be resurrected from the graveyard. These was the so-called semi-nomi monsters.

However, in the movie, Paradox also used the effect of Malefic Paradox Dragon to let the Stardust Dragon appear on the stage regardless of the summoning conditions. The Stardust Dragon could also be resurrected from the graveyard according to its own effect. This showed that in the animation, there was no concept of summoning restriction.

Yuei Vu smiled: Thats not necessarily true.

What? Paradox frowned.

Judai gestured: Sensei, use my card!

Yuei Vu nodded, waved his hand, and said, Open the set card on Judais field! Spell Card Monster Reborn!

Nani!?

Paradox looked at the huge ankh that appeared behind Yuei Vu and couldnt help showing a surprised expression.

Monster Reborn can Special Summon a monster in any players graveyard. Yuei Vu pointed to Paradoxs Duel Disk, What I want to resurrect is the Stardust Dragon in your graveyard!

Come over to our side of the field, Stardust Dragon!

The ankh turned into a holy flash, and the white light fell like a waterfall. The noble dragon spread its wings, raised its head, and let out a high-pitched dragon chant!

[Stardust Dragon, DEF 2000]

Stardust! Yusei couldnt help showing a gratified expression when he saw his old friend returning to his side after a long absence.

And because Stardust Dragon returned to our field, Yuei Vu said, Malefic Paradox Dragon can no longer reduce the attack power of our monsters!

[Dark Magician Girl, ATK 0 ATK 2000]

The girl regained her energy.

She felt so good again!

Hmph, Ill let you take it back for now. Paradox snorted, But the situation on the field still hasnt changed. The monsters on your field are still no match for my Malefic monsters!

But Yuei Vus operation was not over yet: But I havent performed a normal summon this turn. Come on! Elemental HERO Sparkman!

With a crackling electric current, the Elemental HERO warrior in blue tights and golden armor jumped out onto the field.

[Elemental HERO Sparkman, ATK 1600]

Quick-Play Spell Mask Change! The card appeared in front of Yuei Vu, I send Elemental HERO Sparkman to the GY, transform!

Cut through the darkness with justices sharp sword and bring light to the world

Masked HERO Koga! ! !

In dazzling golden light, and gorgeous transformation effects, Sparkman quickly transformed. The tight armor appeared on his body out of thin air, and the arm was equipped with a sharp blade that shines like fangs.

[Masked HERO Koga, ATK 2500]

Appeared! Judai said, Senseis Masked HERO!

The effect of Masked HERO Koga! For each monster on the opponents field, Kogas attack power increases by 500! Yuei Vu said, Now you have Malefic Rainbow Dragon and Malefic Paradox Dragon on your field, so Kogas ATK goes up by 1000!

[Masked HERO Koga, ATK 2500 ATK 3500]

The next is Masked HERO Kogas second effect! Yuei Vu waved his hand, Once per turn, during either players turn: I can banish 1 HERO monster from the Graveyard, then target 1 face-up monster on the field; that target loses ATK equal to the ATK of the monster banished to activate this effect, until the end of this turn.

He turned his head to Judai: Judai, Im going to use your Neoss power.

No problem, just take it, Yuei Vu-sensei! Judai said.

I will remove the Elemental HERO Flare Neos in the graveyard from the game, and reduce the attack power of Malefic Paradox Dragon by 2500 points!

The Flare Neos card popped out from Judais GY area, and the stream of light that turned into flames hit the huge body of Malefic Paradox Dragon. The dragon let out a miserable snort under the flames, and its power was reduced accordingly.

[Malefic Paradox Dragon, ATK 4000 ATK 1500]

Seeing the cooperation between the two, Yusei couldnt help saying softly: Mr. Yuei Vu and Judai-senpai have a good understanding

Although it was the first cooperation that has spanned so many years of time and space, it feels like comrades in arms who have shared weal and woe many times

Battle! Yuei Vu said, Masked HERO Koga, attack Malefic Paradox Dragon!

Koga flew out, and the fangs on the wrist drew light trails! A dazzling arc was left in the air, swiping past the Malefic Paradox Dragon as if cutting open space. The gigantic dragon screamed piercingly, its body was sliced open, and dazzling golden light erupted from the crack until it swallowed it whole and exploded on the spot.

Paradox, LP 7400 LP 5400

Paradox raised his arm to block the impact, and gritted his teeth: You hateful Duel Kings but your resistance is just a prelude to deeper despair!

He waved his hand: Open the set card: Trap Card Malefic Paradigm Shift! When a Malefic Paradox Dragon I control is destroyed, I can pay half of my LP and use my own body as a sacrifice, Special Summon the ultimate Malefic monster from the deck! (animation card)

What!?! Yusei was surprised, Using his own body as a sacrifice?

The ultimate Malefic monster? Judai was also shocked.

Paradoxs face became ferocious, and he bit his lip as if he was in great pain.

Paradox, LP 5400 LP 2700

Then he raised his arms high.

come down! Malefic Truth Dragon!!!

Chapter 403: Malefic Truth Dragon

Malefic Truth Dragon!!!

The moment he roared out, Paradox's own image was almost distorted, as if the space in the area he was in was folded accordingly.

He groaned indistinctly, and then an unbelievable force erupted in the Malefic World, as if some extremely terrifying existence had been unsealed.

An unbelievably huge golden dragon revealed its figure, followed by a deafening roar. When a dragon chant fell, it sounded like rolling thunder exploding close to your ears. The dull bombardment sound swept across the ground, reflecting back and forth on the four walls of this sealed space, making it even heavier when superimposed.

It was a dragon whose body was as bright as gold, and when its wings spread out, it seemed to cover the sky. Every breath of it seemed to shake the ground, and the scorching air was spewed out from the nasal cavity. It seemed that just moving its body was enough to leave destructive traces.

[Malefic Truth Dragon, ATK 5000]

Everyone who saw that thing for the first time couldn't help but be shocked by the golden dragon.

The god-like rainbow dragon that appeared before, the legendary Blue-Eyes White Dragon, and the shining Stardust In an instant, those sinful monsters just now were overshadowed by this golden dragon.

This was the supreme and dominant dragon king in the Malefic deck!

What was even more shocking is that Paradox himself seemed to have become a part of the dueling monster. As the duelist, Paradox disappeared. At this moment, half of his body has been embedded in the huge head of the real dragon, as if he has merged into a part of the monster.

Such a scene amazed the audience outside.

A fusion of humans and dueling monsters? Is there such a thing!?

But although it was shocking, it didn't make people feel unacceptable.

After all, in the Battle City contest before, there was a precedent for Marik who merged himself and The Winged Dragon of Ra into one.

At that time, Kaiba Corp explained that it was the visual effect brought by the latest stereoscopic image technology, and it was normal.

Translating the words of President Kaiba: You don't need to panic, it's very scientific.

Hahahaha! This is the real strongest monster, the ultimate dragon summoned by using my body as a sacrifice! Paradox laughed, In front of Malefic Truth Dragon, you have no chance of winning!

Yuei Vu frowned and ignored it: Set two cards, I end my turn.

Hmph, then my turn is also your last turn, Duel Kings, Paradox said.

At this moment, activate the effect of Field Spell Card Malefic World again! Instead of conducting my normal draw, I randomly add 1 Malefic monster from the deck to my hand.

Paradox's deck was automatically shuffled again, and then a card popped out intelligently.

He picked up the card, glanced at it, and immediately revealed it: I activate the effect of Malefic Cyber End Dragon! Send the Cyber End Dragon from the Extra Deck to the graveyard, this card can be Special Summoned directly from the hand.

Come! Malefic Cyber End Dragon! ! !

Another storm rolled up in the field, and this time there was still a crackling electric current in the wind. The steel parts began to be rubbed and assembled. Countless parts were gathered together and gradually assembled into a three-headed steel dragon.

[Malefic Cyber End Dragon, ATK 4000]

Then I activate Equip Spell Card Axe of Despair, and equip it to Malefic Truth Dragon. Paradox said, The attack power of the equipped monster will increase by 1000 points.

[Malefic Truth Dragon, ATK 5000 ATK 6000]

The audience below dropped their jaws in shock.

In an instant, monsters with an attack power of 4000 and even 6000 were called out!

Six thousand points of attack power! Am I dreaming!?

Battle! Paradox shouted, Malefic Cyber End Dragon, attack Stardust Dragon!

[Stardust Dragon, DEF 2000]

Although it is the defense position, I don't need to say more about the effect of Malefic Cyber End Dragon, do I? Paradox sneered.

The real-life Malefic Cyber End Dragon was just a Normie with 4000 ATK, but the Malefic Cyber End Dragon in the animation had the same piercing damage effect as the genuine version.

Even if it attacked a Defense Position monster, if its ATK was higher than the DEF of that monster, the difference would be inflicted as battle damage.

The remaining LP of the three people was only 700, if this attack passed, it would be checkmate!

Yuei Vu waved his hand: Open the set card: Trap Card Shift! Change the attack target of the Malefic Cyber End Dragon to the Dark Magician Girl!

Lightning blasted from the mouths of the three heads at the same time, and the triple blast flew toward the magic girl with a roaring current.

[Dark Magician Girl, DEF 1700]

Paradox frowned: Huh? Changed the target to Dark Magician Girl? Is there any point in doing this? The piercing damage is still enough to make you lose instantly

Open the set card: Trap Card Defense Draw! Yuei Vu said, The damage in one battle becomes 0, and then I draw a card from the deck.

The damage was completely offset by the protective shield, but the Dark Magician Girl still turned into a phantom and dissipated under the eternal impact of the Malefic Cyber End Dragon.

Yusei was puzzled: But if you can defend against the damage, why do you deliberately switch positions and let the Dark Magician Girl bear the attack

Could it be that Mr. Yuei Vu is so good that he took the initiative to sacrifice his Dark Magician Girl to keep my Stardust Dragon?

But then he understood the reason.

Paradox gritted his teeth: Damn, the effect of Malefic Truth Dragon must be activated when a Malefic monster I control destroys an opponents monster by battle. Destroy all monsters the opponent controls and inflict 800 damage to the opponent for each monster destroyed this way. (animation effect)

Such a powerful effect!? Yusei was startled.

Doesnt this mean that with each turn, it can steadily destroy all monsters on the opponents field, and can also add additional effect damage?

Only with such a powerful effect can it match the ultimate monster of the Malefic series!

Because it was a mandatory effect, before Paradox ordered, the Malefic Truth Dragon had already let out a deep roar. The endless power of the golden dragon transformed into blood-colored spikes that filled the sky, and with a dragon chant, they shot out densely towards the opposite field as if they had received a common command.

So thats how it is! Judai woke up, Thats why sensei deliberately kept Stardust

Yuei Vu waved his hand: Stardust Dragons effect is activated! When a card or effect is activated that would destroy a card on the field, I can Tribute Stardust Dragon; negate the activation and destroy it!

Victim Sanctuary!

The Stardust Dragon let out a high-pitched roar, its body turned around, and it turned into bright spots all over the sky in the holy starlight and dissipated. Those spots of light merged into a stream of silver-white light, which dispersed the rain of blood in the sky with an indomitable momentum, and flew towards the Malefic Truth Dragon head-on!

Paradoxs face was terribly gloomy. A card popped out from the GY area of his Duel Disk, and at the same time, he shouted loudly: The follow-up effect of Malefic Truth Dragon!

If this card would be destroyed, I can remove from play 1 Malefic monster from my Graveyard instead.

I banish Malefic Blue-Eyes White Dragon from the graveyard, and the destruction of Malefic Truth Dragon is negated!

Yusei gritted his teeth, feeling a little unwilling that his Stardust Dragon could not solve the opponent: It actually has the ability to substitute for destruction

With the ability to clear the field unlimited times plus destruction resistance, this kind of monster was already ridiculously strong even in the era he came from.

But in this way, you will only have one monster left on the field, Paradox said coldly.

But because you have three monsters on the field, Yuei Vu said, Masked HERO Kogas attack power has increased by 1500.

[Masked HERO Koga, ATK 4000]

Hmph, it doesnt matter. Paradox shouted, Malefic Truth Dragon, attack Masked HERO Koga!

The dragon opened its bloody mouth wide, and what seemed to be brewing in that huge mouth was a boundless black hole! The bloody storm condensed into shape, carrying a destructive energy that seemed to annihilate everything!

At this moment, the effect of Koga is activated! Yuei Vu said, Once per turn, during either players turn: I can banish 1 HERO monster from my Graveyard, then target 1 face-up monster on the field; that target loses ATK equal to the ATK of the monster banished to activate this effect, until the end of this turn.

Its useless, Paradox sneered, The only thing you can banish from the GY is Elemental HERO Sparkman.

Indeed, Yuei Vu had no other choice.

I banish Elemental HERO Sparkman from the graveyard, and decrease Malefic Truth Dragons attack power by 1600 points until the end of the turn.

[Malefic Truth Dragon, ATK 6000 ATK 4400]

The attack power of Malefic Truth Dragon is still higher. Paradox chuckled, Keep attacking!

Bloody fluctuations blasted out, and the entire space of sin was eclipsed in that instant. The Masked HERO was hit head-on, and his body was torn to pieces in the raging torrent.

Yuei Vu slid far away after being blasted by the impact, knees bent and half knelt on the ground, the force penetrating his body seemed to tear his bones apart.

Yuei Vu, LP 700 LP 300

Sensei! Judai called out with concern.

Yuei Vu let out a long breath, raised his head, and said, But because there are no monsters on my field, the effect of Malefic Truth Dragon will not be triggered, and it will not be hurt by its effect.

Indeed, Paradox sneered, But Duel King, you probably havent forgotten that there is still a monster on my field that hasnt attacked yet, right?

Yuei Vu narrowed his eyes.

Take this hit and become dust in history! Paradox raised his arm, Malefic Rainbow Dragon, direct attack!

[Malefic Rainbow Dragon, ATK 4000]

The sinful Rainbow Dragon opened its mouth and spit out rainbow-like rays from its mouth. The seven-color light beams intertwined with each other, twisted and merged into one, turning into an incandescent impact and blasting toward Yuei Vus face!

But Yuei Vu didnt say anything, and quickly showed another card in his hand.

Kuriboh! ! !

Chapter 404: To The Future

Kuriboh! ! !

The fluffy little guy came out with two Kuri Kuri screams, and his body expanded rapidly, forming an indestructible wall in front of the three of them.

The blow of Malefic Rainbow Dragons seven-color light beams poured unreservedly on the enlarged Kuriboh, and the energy was raging like a storm, violently surging towards the surrounding space, but it was completely devoid of energy like a torrent hitting a dam. There was no way to shake the Kuriboh.

Discard the Kuriboh from the hand. Yuei Vu said, The damage of one battle can be reduced to 0.

Paradox gritted his teeth: Is it blocked again

Yuei Vu smiled: No matter what, I am also the Duel King of this era, and it is not so easy to be settled.

As expected of Mr. Yuei Vu, Yusei said at the right time.

Hmph, then set a card, and I end my turn. Paradox hummed.

At the end of the turn, the effect of the Stardust Dragon in the graveyard is activated. Yuei Vu said, The Stardust Dragon that is sacrificed by its own effect will resurrect at the End Phase.

In fact, Stardust Dragon was resurrected from Paradox's GY by using Monster Reborn. In theory, in this duel, the owner of Stardust Dragon was Paradox.

According to the rules of playing cards that Yuei Vu is familiar with, Stardust Dragon should be revived on Paradox's field here.

However, in the movie, after Yami Yugi used the Spell Card Magic Gate of Miracles to snatch Stardust Dragon, it activated its own effect, and at the end of the turn, it still returned to the field of the three seafood-hairstyle protagonists.

"

"

Although Yuei Vu didn't have the creativity to use BISS, but it was still no problem to mimic it.

Perhaps this could be explained by the bond between the Stardust Dragon and its master. Anyway, the silver-white dragon returned to the field in front of Yuei Vu with a burst of starlight, raised its head toward Paradox, and angrily roared.

[Stardust Dragon, ATK 2500]

[Malefic Truth Dragon, ATK 4400 ATK 6000]

Even though the three Duel Kings on the opposite side have only the last 300 LP left even just triggering the effect of the Malefic Truth Dragon once more was enough to instantly kill them, Paradox only felt more and more uneasy.

It felt as if victory was getting away from him little by little.

He thought of his enlightenment when he came, the deep despair of the era he came from, and the expectations of his companions who remained in the future era, and he clenched his fists angrily.

You Duel Kings, why do you have to stop me? He said coldly, You are simply the most obvious representatives of the stupid human beings in the past! You are self-righteous and think that what you see is correct, but you dont know what you are doing. What they have done is leading mankind to the abyss of extinction!

What are you talking about? Yusei frowned, What happened to the future you mentioned?

At this point, its okay to tell you.

It seemed that he also wanted to have a moment of respite during this high-intensity battle, because Paradox put down the Duel Disk, and said lightly.

If we want to go back to the earliest starting point of the disaster, it should be the resurrection of this stupid thing called Duel Monster in modern times.

But the real beginning of the disaster, Yusei, its all because of your father because Dr. Fudo developed a perpetual motion machine called Momentum, which guided this stupid thing called Synchro Monsters. The birth of this thing directly led to the extinction of human beings.

What!?! Yusei was surprised, and swept his arm, Impossible! Momentum is the light of hope that guides the progress of mankind, and the Synchro Monster is its proof

According to legend, Atlantis, which ushered in the heyday of civilization 10,000 years ago, also thought that the artifact named Orichalcos was the hope to guide the progress of mankind. Paradox sneered, But what happened to Atlantis after that?

Yusei gritted his teeth: Thats different.

Its nothing different. Rather, you are not qualified to say that, Fudo Yusei, because I am the person from that future. Paradox said coldly, In the final analysis, everything is because of human desires.

You should know what you said, Fudo Yusei. Momentum is not just a perpetual motion machine, it will also receive feedback from peoples hearts while it is running.

In the future, human desires will expand more and more, and the dark side of peoples hearts will gradually intensify uncontrollably, eventually leading to the loss of control of the perpetual motion machines in the world and ending human history.

After a pause, he smiled miserably.

just like the destruction of Atlantis 10,000 years ago.

So youre going to modify history and make that future disappear? Judai asked.

Thats right.

But if you do this, the timeline you are in will also collapse. Yusei said, You and your companions, all traces of your birth in this world will be directly wiped out from existence.

It doesnt matter. Paradox didnt hesitate at all, Let the future of mankind continue, this is the mission that we, the last humans in history, must complete.

As long as we can prevent that ruined future, even if the price is our disappearance, that will be worth it.

Even though he was on the opposite side, Paradox's determination still moved the Duel Kings a little.

No matter what, we must save the future, even if we try our best to create a future where there is no place for us

Yuei Vu, who had been silent all this time, said, So, how do you know that as long as the existence of Duel Monster is erased, the future will definitely become better?

I don't know.

Paradox smiled miserably.

But at least it can't get worse. He said, At least my efforts can make the future a little looser. At least human beings have new possibilities, and the future may continue.

But maybe human beings will just repeat the same mistakes in the brand new future created by you sacrificing yourself. Yuei Vu said, But at that time, you no longer exist. In that case, who can come out to correct the mistake again?

Paradox frowned: If that's the case, I believe that in that new future, there will be people like me and my companions who will stand up and correct mistakes at the expense of themselves.

Then you are passing the responsibility of the last humans in history to other people. Yuei Vu said.

What did you say! Paradox frowned, his face darkened.

He couldn't accept Yuei Vu's negation of all the efforts of himself and his companions so casually.

Then tell me, can you have a better way! He almost shouted.

A better way No one can decide on such a thing. Judai was silent for a moment, and it was rare to put away his usual cheerful smile, and said seriously, But you also said it just now, right? The root cause of the disappearance of the future is still the darkness of people's hearts.

That's right. Paradox said, The growing darkness in the human heart feeds back to the perpetual motion machine, which produces a tremendous amount of negative energy, which eventually erupts and leads to the demise of human civilization.

Because of this, I want to eliminate all this from the root. Without the Duel Monsters, Momentum would never have been invented, and this ruined history would have ceased to exist.

But if it's what you said, then you should stop it. What you're doing won't work. Judai shook his head.

What?

The darkness of the human heart Although I don't dare to say that I understand it, it is not that simple after all.

While speaking, Judai gently closed his eyes, and when he opened them again, his eyes had turned into shining different-colored pupils. Although his tone was still calm, there seemed to be a strong aura of an ancient king, which even made Paradox dare not look directly at him.

May I ask you a question?

What what? Paradox responded automatically.

For some reason, at this moment, he suddenly felt that he did not dare to disobey this young man.

Lets assume there is garbage that falls on the side of the road. Which kind of person is wrong, the person who sees it but doesnt pick it up, or the person who doesnt see it and doesnt pick it up?

Paradox frowned: The person who sees it but doesnt pick it up.

Thats right. When I encountered this question, I answered the same way. Judai looked down at his hand, and said softly, But someone told me at the time, it should be the person who doesnt see it and doesnt pick it up.

Because the person who sees may pick up the fallen garbage, but the person who doesnt see it will never have the possibility of picking it up.

What nonsense is this? Paradox snorted, Does it make sense to say such a thing?

Yes. Judai nodded earnestly, The darkness in the human heart can never be eliminated, whether you ignore it or avoid it. It will always be there and continue to breed and develop forever.

No one can bear these for you, after all, people still have to learn to face and accept their own darkness by themselves.

If the root of the worlds disintegration lies in the darkness that grows in human beings hearts, then your actions of eliminating Duel Monster and revising history are actually meaningless.

Even if you kill the game of Duel Monster in the cradle, or sacrifice your own existence and prevent the emergence of perpetual motion machines, as long as the people in that new timeline are still the type of people who cant see the garbage so dont pick it up, history will repeat itself infinitely.

You Paradox widened his eyes and was speechless for a while.

Judai-senpai Yusei looked at this senior with a complicated expression, feeling mixed feelings for a moment.

Although Judais words were addressed to Paradox, they also touched Yusei a lot.

It even vaguely unraveled the knot that had been buried deep in Yuseis heart for a long time.

Yuei Vu looked at his future student, speechless for a moment.

Among the people present, he may be the only one who understood how much Yuki Judai has gone through to grow from an ignorant optimist and passionate boy to what he was today.

Although he now looked as cheerful, passionate, and duel-minded as before, in fact, he was already completely different from the Judai at the beginning of GX when he first entered Duel Academy.

Wasnt what he said to Paradox just now his deepest feeling?

But it was true that what Judai said here was inexplicably consistent with the ending of the 5DS.

Destroying the Duel Monster, or eliminating the perpetual motion machine, ultimately could not really solve the problem. It was the human heart that should really be saved.

After all, even if the Duel Monster was eliminated, who could guarantee that the future will be different?

Even if there were no Synchro Summons and Riding Duel in the future, it was possible for humans in the new timeline to invent Riding Poker and Riding Mahjong to destroy the world

You Whats the point of saying this now!? Paradox gritted his teeth and shook his hand, The duel is still going on, and Im only one step away from success! Your LP is only 300 left. As long as I win this duel, all of this will cease to exist!

Coincidentally, next was Yuseis turn.

After listening to Judais words, Yusei closed his eyes and seemed to be in deep thought and comprehension.

"

"

Mr. Yuei Vu, Judai-senpai, thank you I am no longer confused.

Yusei opened his eyes again, the mark of Crimson Dragon on his arm pierced the light through his clothes. Dazzling red marks appeared on his back one by one, forming a closed loop, forming a pattern of a red dragon with its body coiled up.

The top card in his deck lit up with dazzling golden light!

Its my turn, draw! Yusei pulled out the card and said loudly, Paradox! Our future will continue, and so will humans!

This is the answer given by us as people from the past!

Chapter 405: Light of Salvation

Seeing Yuseis posture, Yuei Vu knew what was about to happen.

Although there was no detailed explanation, according to the animation performance, Yuei Vu has roughly made up the effect of Yuseis skill

[Duel Skill Light of Salvation: When your LP is below 1000 (and the complete mark of the Crimson Dragon appears on your back), add 1 Majestic Dragon from outside the deck to your hand instead of conducting your normal draw during your Draw Phase.]

Well, thats right, from outside the deck, thats what Yusei did in animation

Activate the effect of Stardust Xiaolong in the GY! Yusei waved his arm, When there is a Stardust Dragon on my field, Stardust Xiaolong can be revived from the GY! (animation effect)

A card popped out from the Duel Disks grave area, and Yusei slapped it on the Duel Disk.

Come on, Stardust Xiaolong!

[Stardust Xiaolong, ATK 100]

Stardust Xiaolong? When Paradox came to his senses, Thats right! This is the card that was sent from the top of the deck to the GY when you activated Tuning

Paradox gritted his teeth.

This group of goddamn Duel Kings can feed their grave so accurately by randomly throwing cards
Then I normal summon this monster from my hand! Yusei revealed the card drawn through skill this round, The bond that spans time and space and connects me and my companions, the card once called a miracle to tear apart the darkness!

Show up! Majestic Dragon! !!

What appeared on the field was a small red dragon with a transparent body that looked like a dream. It had a tadpole-like body and golden eyes. Although it had neither any offensive power nor a terrifying aura like those dragons on the field, it gave people an inexplicable sense of security.

[Majestic Dragon, ATK 0]

This was the incarnation of the legendary god-level spirit Crimson Dragon attached to Yusei. It was the red dragon who lent part of its power to Yusei through the Mark of the Dragon as a medium.

Level 1 Majestic Dragon, Level 1 Stardust Xiaolong, Level 8 Stardust Dragon tuning!

As Yuseis voice increased, the imprint of the Crimson Dragon behind him also burst into unprecedented red light.

The three monsters on the field flew off the ground one after another. The Majestic Dragon flapped its wings, and its body rapidly expanded like an inflated balloon, engulfing the Stardust Dragon and the Stardust Xiaolong in its body.

The light red Majestic Dragon turned into a bright star and flew half a circle around Stardust Dragon, forming a green halo. Stardust Dragon and Stardust Xiaolong also transformed into shining stars one after another. A total of ten stars were connected in a string, and the bright starlight paved the way for a shining avenue, leading directly into the sky, as if directly leading to a bright future.

$1+1+8=10$

The shine of clustering stars will illuminate a new miracle! Become the path its light shines upon!

Synchro Summon! Arrive in light

Majestic Star Dragon! !!

The light illuminated the space of the Malefic World.

Almost no one could maintain calmness under that sacred, warm, god-like starlight.

The astral particles in the space were unprecedentedly dense as if countless spirits cheering and dancing in the closed space.

Planetary Particles were particles that could communicate with peoples hearts. Therefore, the impact of the sacred posture of the monsters descending from these particles was definitely beyond the reach of ordinary three-dimensional images.

The holy white light tore through the darkness, and a pure white, extremely gorgeous dragon appeared on the field. The posture wrapped in starlight was like a dream as if it was just a distraction, and it might dissipate like a dream at any time.

[Majestic Star Dragon, ATK 3800]

Even Paradox couldn't help but be affected by the power of the Planetary Particles to connect people's hearts. He who merged into the top of the Malefic Truth Dragon's head actually felt that a certain wall in his heart seemed to be loose at this moment.

For a moment, he even seemed to recall something he had long forgotten in the long and desperate end of the world.

Although it was only a moment, a flash of thought, at this moment he really thought so.

Maybe there is still hope for the road ahead of mankind?

But only for a while.

Paradox quickly came back to his senses, trying his best to maintain a ferocious face to make himself look more like a villain: Is this the power to save the world by defeating the Dark Signers and closing the gate of the underworld?

But that didn't work either! The attack power of the Majestic Dragon is inferior to any Malefic monster on my field.

Activate Equip Spell Card Megamorph! Yusei said, Equip it to the Majestic Star Dragon! If my HP is lower than the opponents, the equipped monster's attack power will be doubled!

[Majestic Star Dragon, ATK 3800 ATK 7600]

The attack power is 7600!?! Paradox showed a look of astonishment.

The effect of the Majestic Dragon: Once per turn, negate the effects of 1 face-up monster on the opponent's field until the End Phase! I negate the effect of Malefic Truth Dragon, so its ability to substitute for destruction cannot be used!

Paradox gritted his teeth: Damn.

Yusei pointed straight at Paradox and the golden dragon king under him: If that dragon is the symbol of your despair, the truth you have achieved after experiencing many contradictory futures, then let me smash that truth to pieces!

Majestic Star Dragon, Attack Malefic Truth Dragon!

Shooting Blaster Sonic! ! !

The white dragon soared high into the air, spread its wings, and in the instant it sprinted, a silver-white ring spread out behind it like a sonic boom, dragging a string of long and shining streamers and swooping down from the sky, like a precision-strike missile locked on the location of the Malefic Truth Dragon.

With an attack power of 7600, whether it attacked Malefic Cyber End Dragon or Malefic Rainbow Dragon, it should be able to cause 3600 points of combat damage and end the duel directly.

But Yusei didn't do that.

"

"

Because in his opinion, a duel was not just a tool to determine the outcome. Through this duel, he learned about the past of the man in front of him, his opponents life experience, and sorrow, so he also had something he wanted to pass on to the opponent.

Their voices would not be able to reach Paradox unless they defeated the Malefic Truth Dragon in the duel.

But in fact, no matter which monster he attacked, the result was actually not much different.

The huge body of the golden dragon was pierced by the radiance of salvation, and the sonic pierced through that indestructible golden shell, blasting the giant dragon from the inside out to pieces, and Paradox who fused with its head was also wrapped in.

When the eye-catching starlight disappeared and the smoke dissipated, the huge Malefic Truth Dragon still stayed on the field, not knocked down by this blow.

Paradox looked embarrassed, panting heavily, but he still didnt fall down.

Paradox, LP 2700 LP 1100

At the moment just now, I activated Trap Card Impenetrable Attack! During the Battle Phase, I can choose one of the two effects to activate. He said, Making 1 monster on the field unable to be destroyed by battle or by card effects during this Battle Phase, or I take no battle damage during this Battle Phase.

I chose the first effect so that Malefic Truth Dragon cannot be destroyed by battle or by card effects.

Yusei gritted his teeth.

So it seemed that no matter which monster he just attacked, it was the same. If he attacked Malefic Cyber End Dragon or Malefic Rainbow Dragon, the opponent would use the second effect of Impenetrable Attack to make the battle damage become 0.

I set a card, and end my turn. Yusei said helplessly, During the End Phase, Majestic Star Dragon will automatically return from the field to the Extra Deck, and special summon 1 Stardust Dragon from the graveyard.

After all, it was only part of the power temporarily borrowed, thus the Crimson Dragons power contained in the body of the Majestic Star Dragon was limited. It was already the limit to maintain one round of existence.

The silvery white dragon has faded from its sacred brilliance and color, and degenerated back to its pre-transformation form, returning to the posture of the Stardust Dragon and falling to the field in front of Yusei.

[Stardust Dragon, ATK 2500]

Hmph, its so beautiful to say, but in the end, didnt you accomplish anything?

Paradox tried to cover up his shaking with sarcasm.

The so-called hope, after all, is just like the dragon you summoned. Its just a short-lived brilliance. In the end, nothing can be done.

No! Yusei waved his hand, Perhaps this time the attempt failed, but it is by no means meaningless! Human growth should be like this, isnt it?

Keep trying, keeps falling down, but never give up and get up and try again. As long as you can continue and repeat your efforts countless times, you will always succeed once!

Do you expect me to believe you based on this baseless imagination? Dont be kidding! Paradox gritted his teeth, In any case, I have no choice!

Its my turn, draw!

This time, he did not activate the effect of Malefic World, probably because he felt that he had enough powerful Malefic monsters on the field and no longer needed random searches.

There is no room for me to repeat my efforts in the future. You can feel the deep sense of despair when all hope has completely disappeared through this blow, Fudo Yusei!

Malefic Truth Dragon, smash Stardust Dragon for me!

Chapter 406: Release The Ultimate Power

Malefic Truth Dragon, smash Stardust Dragon for me! Paradox shouted a little irritably, Let these Duel Kings leave now!

The golden dragon opened its mouth wide, and the bloody vortex once again brewed a momentum of destruction. A full 6,000 points of attack power, was something that Stardust Dragon couldnt resist at all, and the aftermath was enough to wipe out the three of them!

Its not over yet! Yusei said, Our duel wont end here! Open the set card: Trap Card Iron Resolve! Pay half of the HP, all Battle Damage done to me in this turn becomes 0, then end the Battle Phase! (animation card)

Yusei, LP 300 LP 150

Malefic Truth Dragons blow hit Stardust Dragon with great momentum, but it was only tenaciously resisted by the protective layer of the trap, without causing even the slightest damage.

When he came back to his senses, the Battle Phase had been forcibly skipped, and the words Main Phase 2 had already been marked on the display of the Duel Disk in Paradoxs hand.

Damn Paradox gritted his teeth, Why dont you just fall down obediently?

Do I need to say? Judai laughed, We will stand up again no matter how many times before we succeed in saving you.

Save me!?! Paradox seemed to have heard something extremely ridiculous.

Yeah, thats right. Judai took a step forward, If you cant save even one person, how can you talk about saving the world? This is what a hero should do.

After a pause, he smiled at Yusei beside him: This is what Yusei-sensei taught me.

The sudden mention of him made Yuseis eyelids twitch, and he couldnt help thinking about what happened between his future self and Judai

Paradox looked at Judai and was stunned for a moment. After a while, he bit his lip and waved his arm: Its too late to say anything. Even if you want to save peoples hearts and change the future, its just

It may be so in your time, but what if it starts now? Judai interrupted him.

Paradox swallowed the last part of the sentence.

Indeed, in your history, there may have been negligence on the way of human progress, and it was too late to cause bad results. Judai said, But now, we who lived in the past eras have already received your warning.

So from now on, we can work hard to change the future you mentioned.

Paradox frowned: Are you asking me to entrust the future to you?

That's right. Judai smiled, It's too late since Yusei's era, so start with me. If I can't do it, it doesn't matter, there is also Yūei Vu-sensei!

He winked at Yūei Vu as if he was full of confidence in his teacher.

Paradox's eyes also fell on Yūei Vu, as if he was re-examining this possibility.

You should have seen it too, right? Teacher Yu Yu has saved the world more than once in history and caused miracles. Judai clenched his fists, If it is him, it can definitely be changed!

Paradox was silent for a moment and gritted his teeth: Hmph, let's talk about this after you win the duel. Now the three of you have only 150 HP left, and there is only one monster on the field.

You who can't even survive the next turn, what can you change?

That's not necessarily true. Judai smiled.

He took a step forward and came to the forefront of the three.

I'll take this opportunity and let my teacher take a look. His tone became serious, My true strength should have been sealed away. It is also proof of my growth over the years.

Yūei Vu narrowed his eyes, probably guessing what Judai was going to do.

It's my turn, draw! Judai shouted, I summon the second Neo Space Connector!

[Neo Space Connector, ATK 800]

Neo Space Connector's effect is activated! When this card is Normal Summoned, I can Special Summon 1 Neo-Spacian monster or 1 Elemental HERO Neos from the hand or deck! Judai raised his arms, Go back to the field, Neos!

The deck was retrieved automatically, and a beam of light flew out from his deck and landed on the field magnificently. The white body of Neos was born in the shining light, and he returned to the field with his arms folded.

[Elemental HERO Neos, DEF 2000]

Then there is this card. Judai slowly drew out a card from his hand; it was also the card he had just drawn this round.

The moment that card was lifted, it was as if the world itself trembled, and a pitch-black storm rolled up around Judai's foothold.

I discard a card to activate Quick Attack Magic Super Polymerization! Judai's voice seemed to have changed at this moment, This card can Fusion Summon 1 Fusion Monster from my Extra Deck, using monsters from either field as Fusion Material!

What!? Paradox was astonished, Use my monster as a material!?

Immediately afterward, he felt speechless the air pressure in the field suddenly changed, and black clouds rolled in the sky. An indescribably powerful force oppressed his chest as if trying to squeeze out all the air in his lungs, making him unable to speak.

Lightning was released from the pitch-black clouds, and a green card swirled and flew up, suspended in the center of the field, releasing an astonishing thunder and lightning.

It looked like an inconspicuous card, but it seemed to contain power comparable to that of a true god!

I want to fuse the Malefic Rainbow Dragon on your field with the Elemental HERO Neos on my field! Judai said coldly, Release the ultimate power here to fade away the evil! Let's unleash the true power of Ultimate Gem God!

Fusion Summon

Rainbow Neos!!!

If this was the real-life version that players were familiar with, this scene could not happen.

After all, Rainbow Neos's fusion condition was Elemental HERO Neos + 1 Ultimate Gem God monster. And Malefic Rainbow Dragon didn't belong to the Ultimate Gem God archetype, so it stood to reason that it didn't meet the fusion conditions.

Of course, that's talking about the real card situation.

One point that needed to be emphasized was that the real card itself was produced according to the content of the animation-or more precisely, it was produced according to Judai's printed card. The ultimate fusion card Super Polymerization, which was the symbol of the Supreme Kings power in Yuki Judai, in fact, had no restriction on fusion materials at all.

The power of Super Polymerization could fuse any monsters, breed new power, and summon Fusion Monsters that did not exist in the world.

Not only that, its power can even surpass the rules of a duel, it could fuse the souls of the duelists on both sides and even merge different dimensions.

At the end of the Dimension World arc of Yu-Gi-Oh!GX, Yubel originally planned to use the power of Super Polymerization to integrate the twelve parallel dimensions into one. If Judai hadn't stopped her, Yubel may already succeed.

This made Super Polymerization eligible to be called the ultimate fusion card, it could fuse almost everything that existed in the world.

For example, at this moment, its power called out the ultimate Neos with a god-like posture!

The black clouds dissipated, and the thunder spread toward the surroundings as if a transparent rainbow appeared in the sky.

The seven-colored aurora was rippling in the sky, and the incandescent beam of light whirled and fell vertically from the sky.

A pair of extremely sacred wings spread out, and the rainbow light all over the sky rained down, it looked like a colorful curtain hung down from the sky. The beam of light falling from the sky was like the spotlight on the stage, focusing on the slowly falling figure with spread wings, making him the only protagonist who dominates the world in just a moment.

The brilliance dissipated with the movement of the being flapping its wings, and finally revealed the true posture hidden in it, just like a giant transformed from a pure ray of light, its footsteps fell heavily in front of the three Duel Kings field.

[Rainbow Neos, ATK 4500]

Countless spectators outside the arena were deeply shocked at this moment.

This duel brought them more and more surprises. At this moment, almost no one could regard this as just an ordinary game.

Even seeing the appearance of the top power among those dueling monsters and the appearance of powerful beings beyond ordinary peoples understanding, it still cant reduce the audiences shock when they see this noble and powerful form of Neos.

But at this time, no one may be more excited than screwball players.

At this time, both the live broadcast room and the forum were in a state of explosion.

The Rainbow Emperor! Its the Rainbow Emperor!

He is back!!!

Rainbow Neos, also known as Rainbow Emperor, was one of the final forms of Neos that appeared in Yu-Gi-Oh! GX.

For some viewers back then, this form was like the final gesture of Ultraman receiving a lot of light in the finale and killing the BOSS in a flash.

Uh Paradox gritted his teeth, still speaking stiffly, But, just relying on the attack power of this monster

The effect of Rainbow Neos, Judai said lightly, Once per turn, I can choose one of the three effects to activate.

"

"

Send 1 monster I control to the GY, and shuffle all monsters on the opponents field back to the deck.

Send 1 Spell/Trap I control to the GY, and shuffle all Spells and Traps on the opponents field to the deck.

Send 1 card from the top of my Deck to the GY, and shuffle all cards in the opponents graveyard back into the deck.

What!? Paradox's face was ashen.

In this turn, no matter whether Rainbow Neos bounced all his monsters back to the deck, or bounced all his S/T cards back to the deck, this duel would come to an end.

I sent the Neo Space Connector on the field to the GY. Judai waved his hand, Shuffle all your monsters back into the deck! Beyond The Rainbow Hole!

As the small body of the Neo Space Connector disappeared from the field, Rainbow Neos slowly raised his palms.

The colorful brilliance slowly enveloped his body, and the white wings gradually opened. Soft power enveloped Paradox's field, and seven-color light enveloped every Malefic monster. Although it was soft and not aggressive, it seemed to have an irresistible will, giving people the feeling of unblockable like an order from God.

Malefic Truth Dragon, and Malefic Cyber End Dragon, the two powerful monsters turned into phantoms and disappeared under the radiance of the rainbow one after another, without even a chance to resist in front of that supreme power.

And Paradox, who had already sacrificed his body and fused with Malefic Truth Dragon, was forcibly separated under the action of this miraculous force, and returned to his original posture and returned to the field.

This is the end. Judai shouted, Rainbow Neos, give him the last blow! Rainbow Flare Stream!

Rainbow Neos slowly raised his palms again. He spread his wings, and his body was enveloped in a faint golden light. With his palms together in front of his chest, he released iridescent energy from the diamond-like crystal on his chest, gathering a super high concentration of the powerful light.

A calm, seemingly calm domain opened up centered on the Rainbow Emperor, but it was like throwing a stone into the lake, and what was stirred up was a stormy sea!

Divine energy surged out from that body, neutralizing all the power of the sinful field, forcefully blowing away the darkness, as if breaking through the space, and flew towards Paradox.

Paradox stood up straight, staring blankly, in the trance of the rainbow brilliance, he felt as if he saw an illusion, saw a hopeful future saved by this warm light.

Paradox, LP 1100 LP 0

Chapter 407: Being Robbed?

Paradox, LP 0

Paradox stayed where he was for a while.

He lost but he's alive.

He entered this duel with the awareness that it was a dead-or-alive match. The Field Spell Malefic World was a card that contained extremely powerful power. While this card allowed him to use the power of Malefic to bind spirits, it also brought huge risks.

In a duel inside the Malefic World, defeat also meant that the life of the duelist would end directly.

But that didn't happen. He was defeated and lost a full 12,000 LP, but he still survived.

This could only be called a miracle.

A miracle summoned by the Duel Kings with the power to change the world.

Paradox sat down on the ground, watching the three Duel Kings walking in his direction after finishing their work, his expression fluctuated for a while.

Do you want me to believe that you can change the future?

That's right. Yusei walked up and said, Although it may still be difficult, if we work hard from my time from the time of each of us, the future can definitely be changed.

Thanks to you for making us aware of this in advance. Leave history to us, and we promise to live up to the expectations of you and your companions.

After a brief moment of silence, Paradox sighed and closed his eyes.

Okay, so this is the last time just let me believe in that thing called Hope one more time.

He seemed to have finally given up.

Yuei Vu, who had experienced this scene himself, felt miraculous these two deserved to be the protagonists in the future. Whether their skills in playing cards or Talk no Jutsu, they were quite good.

They actually really straightened this BOSS who didn't even get a chance to whitewash the original theatrical version

Paradox sighed, looking sideways at the noisy and excited people under the endless blue sky of Kaiba Land a scene that had long ceased from existence in his time.

He obviously failed in the mission, but at this moment he suddenly felt as if he had completed his mission, and he felt an unprecedented sense of relief.

It's really lost to you Duel Kings. He hummed and smiled.

Yuei Vu also stepped forward with a rare seriousness: Yusei and Judai are right, historical issues should be left to the people of their respective eras to deal with. Even if you avoid the problems you have experienced by modifying the past, humans who fail to realize their mistakes will always end up on the same path.

So rest assured and leave the next thing to us, we will not let the same mistakes happen in the future.

Paradox glanced at him and chuckled.

Duel King Yuei Vu I have felt from the first time we met that you are really an unpredictable person. He snorted and said, But since you said so, then I will believe it You're all right once

Yuei Vu nodded in satisfaction. Seeing that the atmosphere was harmonious and the timing seemed almost right, he continued, If that's the case, you probably don't have to use your Duel Disk anymore. How about

Paradox:

What the hell? After all these things are you still thinking about my Duel Disk!?

Judai covered his mouth as if he tried his best to not laugh.

Sure enough, he is still the familiar Yuei Vu-sensei

Paradox was helpless: By the way, didnt the robot stand I sent to attract your attention earlier also carry a Duel Disk?

I know, I know. Ive already pulled that out.

Yuei Vu nodded to show that You dont need to worry about it, I already pulled out that one myself

But the future man didnt say anything, just silently pulled out the Duel Disk and handed it to Yuei Vu.

Yuei Vu looked it over and found that there were still a lot of buttons on this thing, which was quite different from the old models of this era.

The operation of this thing may be a bit complicated, and he couldnt figure it out in a short time.

Yuei Vu thought for a while: Do you have an instruction manual for this thing?

Paradox rolled his eyes: Do I need to send you the warranty card too?

Okay, okay! Yuei Vu nodded again and again, Do you have a warranty station in this era?

Paradox:

Yuei Vu turned over the Duel Disk and found that there were no cards in the slots.

This guy actually pulled out the deck before the Duel Disk was handed over.

Yuei Vu raised his head, glanced at Paradox, and without saying anything, the guy immediately said: All the cards in my deck were spirits snatched from various eras! Next, I have to go back and return them to their owners.

Unspoken words: dont think about my deck, these things all have owners.

It was true that Paradoxs deck was made up of powerful spirits from various eras. If they were all kept in this era, the timeline would still be messed up.

Yuei Vu said that he was naturally not an unreasonable person and that returning the cards to the owner was the right thing to do.

However, in the next moment, he continued: But Malefic monsters belong to you, so you dont need to return these cards to others, do you?

The corner of Paradoxs mouth twitched.

But if the original spirit card is returned to someone else, my Malefic monster will be useless, Paradox said weakly.

Take Malefic Stardust Dragon as an example. Malefic Stardust Dragon could only be summoned if there was a genuine Stardust Dragon in Paradoxs deck. After the Stardust Dragon was returned to Yusei, Paradox would never be able to summon that monster.

The same went for other Malefic monsters.

However, Paradox thought about it and felt that without the genuine spirits, his Malefic deck would indeed be worthless. Not only he couldn't summon spirits to beat people like before, but it couldn't even be used in a duel.

If there was any use for this deck of his, it was probably a collection for ornamental use, with no real value.

So after hesitating for a while, Paradox took out his own deck, picked out the spirit cards he got from different times and spaces, and handed over the rest to Yuei Vu.

Yuei Vu nodded, very satisfied.

Malefic deck +1!

Although it may not be useful, it was also good to expand the card library.

He aspired to be an NPC that unlocked all cards of Yu-Gi-Oh!

After accepting the Duel Disk and the deck, Yuei Vu then glanced at the heavy and huge D-Wheel behind Paradox.

Speaking of which, the D-Wheel used by the robot substitute seemed to be just a motorcycle that looked like a D-Wheel, and it was not equipped with a perpetual motion machine

However, before he said anything, Paradox hurriedly said, It won't work here!

If you take my D-Wheel, wouldn't I be unable to go back!?

Yuei Vu pouted.

I didn't say anything, who wants your D-Wheel? Who do you think I am?

Yuei Vu felt that if he had to hack his D-Wheel, it would not be impossible.

Anyway, can't Yusei's D-Wheel also travel through time and space now? At worst, he, Paradox, and Judai can squeeze together in that single seat

Nothing is unsolvable, after all, there is always a method.

But thinking of Paradox's hard life, Yuei Vu decided not to embarrass him.

There will not be many Duel Kings who are as kind and generous as I am from now on.

Yuei Vu gave himself a thumbs up.

Paradox finally stepped on his huge D-Wheel, and he couldn't help feeling a little emotional.

Speaking of which, he obviously went back to the past with the consciousness of sacrificing his life to do the mission of the last human being in history. He never expected that at the end of his trip through time and space, he felt like an aunt who bought vegetables in a vegetable market. After haggling with people for a long time, he was finally slaughtered

However, thinking of this, the corners of his mouth could not help but rise slightly.

It feels not bad.

Before leaving, he couldn't help but turn his head and take another look at Yuei Vu.

However, the latter was burying his head in tinkering with the future Duel Disk he had just acquired and seemed not to notice his gaze.

Duel King Yuei Vu What an interesting guy. He smiled slightly.

Although it felt strange to say that, Paradox couldn't help but feel closer to him.

there was an inexplicable sense of security.

At this time, a certain Duel King who was tinkering with the Duel Disk suddenly raised his head:
That's right

Paradox took a breath, and before he finished speaking, he immediately turned around and started the D-Wheel, and said loudly: Hope that we will have a chance to meet again in the future, Duel Kings!

After speaking, the engine of his D-Wheel roared, and a space-time tunnel opened up in front of him. With a burst of blinding white light and turbulence, the huge D-Wheel immediately disappeared out of thin air.

felt like running away.

Yuei Vu opened his mouth, but before he finished speaking, the man had already disappeared.

What's the rush? Yuei Vu curled his lips, I also want to ask him what happened to my exclusive spirit last time, but this guy runs faster than a rabbit

In fact, these days, he has already asked this question to Yuki Judai who was also from the future.

After all, Judai seemed to be very familiar with his future self, so there was no reason not to know.

However, he was a very bad student, always ambiguous, with a look of I know but I just can't tell, the reason was worried that speaking out in advance will affect the history.

However, Yuei Vu felt that this was a lie.

He boldly guessed that this guy might just want to see the teacher wants it but can't get it, and he can't do anything about it scene.

So Yuei Vu didn't follow up with the question but silently wrote down another note Day X Month X Year XXXX, Yuki Judai dare to disobey me in his small book.

Come to think of it, Paradox's trip back to his timeline in the future would be quite interesting.

When Paradox's future companions see him traveling back on this big D-Wheel, but the deck and the Duel Disk were gone, they must be surprised

Didn't you go back and edit history to save the world?

Why do you now look like being robbed by Captain Jack's pirate ship?

Then Paradox might have a bad face: Don't mention it. Fuck, when I went back in time, I met a Duel King who didn't talk about the honors of duelists

Chapter 408: KC Grand Prix Final

Are you leaving? Yuei Vu asked.

Well, our mission is completed, and its time to go back to my own era. Yusei nodded and said, In my own time, there are still many companions waiting for me to go back.

I still have a lot to do in my own time too. Judai smiled.

I see. Yuei Vu nodded, It looks like its time to say goodbye.

Yusei smiled: But as long as the history of Duel Monster does not disappear, we will always be connected by the fetters across time and space.

Yeah, dont forget me, Yuei Vu-sensei. Judai smiled mysteriously, And if there are no accidents, we should see each other soon.

Yuei Vu: ?

But Judai stopped talking there and didnt say anything more.

Ive caused you trouble for a while. Yusei was still more polite.

After saying goodbye, the two quickly disappeared from Yuei Vus sight.

When the KC Grand Prix was over and Yuei Vu left Kaiba Land after finishing the competition, the two of them must have returned to their respective eras.

The two of them left, but there was still a mess left for Yuei Vu to clean up.

Sure enough, a few minutes later, he was standing in President Kaibas office, still trying to figure out how to explain it to President Kaiba.

For example, why did he fight against a strange man with two guys of unknown origin, why that strange man wanted to attack Kaiba and Pegasus,

And there was the most crucial question

Where did the Blue-Eyes White Dragon in that strange mans hand come from?

So many questions needed to be explained one by one, Yuei Vu felt a headache when he thinks about it

However, he never expected President Kaiba just glanced at him, and the first thing he asked was: Is everything settled?

Yuei Vu froze for a moment, then nodded: Well, its all done. There wont be any more accidents.

Hmph. Kaiba folded his arms and said calmly, Then prepare for me quickly. The promotion match of the KC Grand Prix is over, and now the competition is temporarily interrupted due to unexpected circumstances, but it will continue soon.

Next comes the final, and the one who reaches the final will have the opportunity to challenge you. Dont dishonor me as the Duel King.

Okay.

When Yuei Vu responded, he was surprised from the bottom of his heart.

Why the president didnt ask so many questions? Dont even ask what happened and just believe Ive taken care of it?

To be honest, the president trusted him so much, but it made him feel a little bit sorry

Yuei Vu thought for a while, and decided to wait until the KC Grand Prix was over, then he would tell the truth to the president.

Things like supernatural metaphysics, Millenium Items, and Shadow Games, President Kaiba have never listened to or believed, but time and space travel had something to do with science, so he should believe it

Future technology was still technology.

If the president heard that people in the future have really overcome metaphysical problems such as the materialization of spirits and Shadow Games with science and technology, he might be very pleased.

Yuei Vu turned around and was about to go out, but suddenly he heard Kaiba speak again: The person with the unicorn headgear next to you just now

Yuei Vu paused and turned around to listen to what the other party was about to say.

Kaiba turned his head to the side, showing a rare expression that seemed to be concerned: He is your student, isnt he?

!!!

Yuei Vu was shocked.

Could it be that the president has already met Yuki Judai?

Couldnt it be they have played cards already?

Yuei Vu, who had this idea, suddenly took a cold breath, almost guessing the result.

Although Yuei Vu didnt say anything, Kaiba thought he had guessed the answer when he saw his reaction.

Kaiba snorted, turned around and folded his arms without asking any further questions, and said calmly, You taught a very good student. Your application to the Duel AcademyI will reconsider.

Yuei Vu:

He was now becoming more and more curious about what happened between President Kaiba and the future Yuki Judai during his absence.

Those who didnt know Seto Kaiba might think that his cold tone and indifferent expression were the sign of a gigantic wrath.

But Yuei Vu, who has been with the president for so long, could clearly hear that when the president mentions his student, his attitude is actually appreciation and approval.

It seemed that he highly affirmed Yuei Vus student.

This was quite rare for Kaiba, and it was definitely not easy to get his approval.

And even though they may have only fought once, Seto Kaiba recognized the student who didnt even show his face, whether it was his card skills, personality or demeanor as a duelist.

After speaking, Kaiba waved his hands and said calmly: Go and prepare well, the final will start soon.

oh.

Yuei Vu didnt say anymore and just exit the room.

Just before he was busy with the two future protagonists to deal with Paradoxs stall, another player in the KC Grand Prix who advanced to the final and got the chance to challenge Yuei Vu has also been decided.

Its just that Yuei Vu has been busy before, so he didnt have time to check.

Now that Uncle Pas problem was solved, Yuei Vu, who finally had time to spare, looked at the player forum while walking, wanting to see who his opponent in the final was.

Could it be Snow Wave?

He read the news in the forum before, after the quarter-finals where Coke Sprite was eliminated by himself, it seemed that Snow Wave was the only player left in the quarter-finals. If this guy was lucky, it was not impossible to reach the final.

Or would it be Leon?

Before the competition, Yuei Vu named Siegfried and his younger brother Leon Wilson (pseudonym) and emphasized that they must be kicked out and banned from participating.

The president suspended Siegfried but did not adopt Yuei Vus suggestion on how to deal with his younger brother Leon Wilson.

The reason was that Leon Wilson has participated in many international competitions in his own name, and has also received awards from Pegasus himself. In the eyes of the president, he was a true duelist.

For whatever reason, Kaiba would not ban a true duelist from competing.

The kid named Leon Wilson used a Fairy Tale deck represented by characters such as Cinderella and Little Red Riding Hood. It was an exclusive deck specially customized for him by President Pegasus.

Everyone knew that a character using such a special deck could not be a miscellaneous fish. In the original anime, Leon Wilson was indeed the BOSS-level character who finally challenged Yugi Muto for the title of Duel King.

If it was him, the chance of reaching the final is not small.

The player forum was still boiling at the moment, reminiscing about the branch line of the three-generation Duel Kings battle against Paradox just now. Yuei Vu searched for a long time before finally finding the information about the KC Grand Prix final, and saw his opponent.

Then he froze for a moment.

His opponent in the final was neither Snow Wave nor Leon, but a player he never thought he would meet before.

Sir, the promotion to the KC Grand Prix final has been decided.

At this moment, a subordinate quickly came to report to Siegfried.

Siegfried's gloomy face eased a little. This trouble-making trip has been repeatedly defeated by the Kaiba Corp, and now he was in an extremely bad mood.

His last trump card was his younger brother, Leon Wilson, who was approved by the arrogant Kaiba to participate in the KC Grand Prix.

Leon has the card entrusted to him by Siegfried in his hand, an absolutely invincible card that could instantly bury the opponent in the duel!

[Golden Castle of Stromberg (Field Spell Card)

"

"

Effect: Once per turn, during your Main Phase 1, Special Summon 1 random Level 4 or lower monster from your Deck in face-up Attack Position.

As long as this card exists on the field, both players cannot Normal Summon monsters.

All monsters Special Summoned by this card's effect and all monsters your opponent controls must attack, if able.

When an opponent's monster declares an attack, destroy that monster, and inflict damage to your opponent equal to half of that monster's ATK.

This card cannot be destroyed by card effects.

During each of your Standby Phases, send half the cards in your Deck to the Graveyard, but this maintenance cost can be paid by the opponent player.]

Was the effect abnormal?

Of course, it was.

Because the text of this card was modified by Siegfried through a special method.

Strictly speaking, this maliciously tampered card should already be considered a fake card.

Siegfried even rewrote the card's programming. As long as Leon could activate this card in the KC Grand Prix final, it could hack the database of Kaiba Corp and delete all data related to Duel Monsters in Kaiba Corp's servers!

According to his idea, his younger brother Leon would be able to rely on this invincible fake card to defeat Yusei Kaido and win the title of Duel King. At the same time, the Kaiba Corp would also be in a doomed situation due to the loss of data.

At that time, the title of Duel King and the status of the leader of the Duel Monster world would all be in the pocket of their Schroeder Corp!

Just according to keikaku (Keikaku means plan)!

Of course, the prerequisite for the success of this plan was that his younger brother reached the final, and this fake card must not be used before the final.

If it was exposed in advance, it would be meaningless.

Of course, he has considerable confidence in Leons strength. After all, he was very aware of his younger brothers talent in duels. As long as he doesnt meet the duel king before the final, no other player could stop Leon from advancing

Report!!!

A servant hurriedly ran up to him.

Master, young master Leon he failed to reach the final and was eliminated!!!

Siegfried almost spat another mouthful of old blood.

What!?! Siegfried was shocked, Who can eliminate my brother!?

In the KC Grand Prix, besides Duel King Yuei Vu, is there anyone else who can eliminate Leon!?

The servant was sweating profusely: The other party seems to be a child, and no relevant records can be found. It is speculated that he may have never participated in any public competition before.

The childs name seems to be

Yuki Judai!

Chapter 409: The Cruelty of Society

When Yuei Vu came to the arena, he immediately saw a familiar kid with a jellyfish head.

Isnt this kid Yuki Judai who just said goodbye not long ago?

At best, he was one size smaller, his face was a little more immature, and his size just reached his waist and abdomen, which made the Duel Disk on his arm look a little funny.

And the moment the kid saw Yuei Vu, he was also jumping with excitement, and waved to him desperately as if stars were about to shoot out of his eyes.

Yuei Vu-san! He shouted happily.

Seeing this happy kid with a jellyfish head, Yuei Vu seems to understand.

It seemed that the genius duelist in the original anime, Leon Wilson who used the Fairy Tale deck, seemed to have no chance to make trouble, and was eliminated by the black horse Judai.

From this point of view, the so-called genius duelist was still no match for the young divine draw master.

Yuei Vu also suddenly understood the future Yuki Judais mysterious smile before leaving, and the meaning of the phrase See each other soon.

He stepped onto the stage of the finals, looked at the innocent jellyfish-headed kid with longing and anticipation in his eyes, and then thought of the happy experience when dueling Judai the night before.

A certain Duel King couldnt help showing a faint smile.

Ah.

Fate is really interesting.

The spectators for the final were all in place, and the duel was live broadcast to all parts of the world.

The players also temporarily put aside the hotly discussed topic of One hero fights three Lu Bu, and began to pay attention to this world protagonists battle.

Of course, there was no disagreement about the result of this final.

Although Yuki Judai was the protagonist of GX, at least now was not his era.

The version of Yuki Judai has not yet come.

Not counting the power of the legendary Supreme King sealed in his body, he was still just a kid who was very talented in duels. No one thought that the current Judai could beat Yuei Vu

Of course, everyone guessed the ending, but they didnt guess the process.

The two duelists came to the stage in the final, exchanged, and shuffled the cards under the instruction of the referee, Mr. Isono.

When Judai was shuffling and cutting Yuei Vus deck, his little face was flushed, and a small heart was beating boom boom boom in his chest, and he was very excited.

Im shuffling Yuei Vu-sans deck in my hand!

When I go back today, I will never wash my hands again!

Yuei Vu-san! Judai blushed, Lets have a fun duel together!

Yuei Vu slowly took his deck back, with a warm smile on his face.

OK.

Yeah! Judai nodded vigorously.

He thought Yuei Vu-san looks so kind, and he is really a very good person just like the rumors

The two sides walked to their respective positions and stood still, and the final officially began.

First was Yuei Vus round. Here Yuei Vu first summoned a miscellaneous fish monster with an attack power of 400 Elemental Hero Berry Girl in attack position.

All duelists should trust their decks. For example, although it was not written on this card, if you thought she was an elemental hero, then she was an elemental hero.

So Yuei Vu summoned the Berry Magician Girl first, then activated her effect, and added Dark Magician Girl from the deck to his hand.

Then he set two cards and then ended the first turn with a smile like a spring breeze. By the way, he friendly prompted Judai to start his own operation.

Judai snorted, Arent Yuei Vu-san going to use handsome heroes this time?

Yuei Vu continued to smile.

Silly boy. Why not use heroes? You will soon find out.

Next came Judais round.

Sure enough, Yuki Judai played a HERO deck. Before that, Yuei Vu also went to the Industrial Illusions to help design the early Elemental HEROes, so he still had a good idea of the cards of this series that have just been released on the market.

The main monsters of the current Elemental HERO series were the famous Four (Waste) Soul Heroes, that was, Avian, Burstinatrix, Clayman, and Sparkman. If having enough money, you could get your hands on Bubbleman, Necroshade, and Bladedge, but thats all.

For the main Fusion Monsters, there were only two aces commonly used by Judai in the early period of animation, Flame Wingman and Thunder Giant.

So Yuei Vu could roughly guess the composition of Judais deck.

As expected, our naive kid directly showed the spell card Polymerization in his hand, along with the worker couple Avian and Burstinatrix.

Seeing the innocent and bright face of this immature little hero, Yuei Vu felt that for Judais own good, and for him to grow better and mature faster in the future (definitely not for Yuei Vus own pleasure), he decided to let this child recognized the cruelty of society in advance.

So Yuei Vu directly opened the set card here.

Trap Card Chthonian Polymer!

This card can only be activated when the opponent performs a Fusion Summon, Yuei Vu smiled, Tribute 1 monster on my side of the field to take control of that Fusion Monster.

So I sacrificed Berry Magician Girl. According to the effect of this card, give me the control of the Flame Wingman.

Ah?

Judai watched his ace hero, who he had used three cards to summon, went to the opposite side, and couldnt help being stunned for a while.

Judai looked blankly at the remaining cards in his hand, and had to set a card and ended his turn.

In Yuei Vus second turn, he summoned the Lemon Magician Girl and went straight to the Battle Phase.

Elemental HERO Flame Wingman, ATK 2100

Lemon Magician Girl, ATK 800

Yuei Vu waved his hand

Go! Flame Wingman!

Let our Judai know the cruelty of society!

But unexpectedly, with a wave of his arm, Judai shouted in a childish voice: Open the set card! Trap Card Sakuretsu Armor!

Yuei Vu almost fell down.

What!?

I was shocked, how dare you bring such a thing?

Trying to compare your own protagonist's aura with the curse of the universe?

Here, Yuei Vu was not surprised by stepping on a pit, he certainly expected that there might be a pit in the backcourt of Judai. He just didn't expect that it would actually be a piece of Sakuretsu Armor.

As we all know, Sakuretsu Armor was a card cursed by the will of the universe in the Yu-Gi-Oh animation worldview. Its seemingly powerful effect has tricked all kinds of duelists to put it into the deck, but throughout the history of Yu-Gi-Oh animations, anyone who has used this card would lose that duel.

However, today was a rare day when Sakuretsu Armor actually succeeded in blowing up the opponent's monster.

However, in a strict sense, what it destroyed should be regarded as allies. After all, it was a monster NTR from Judai's side.

The Flame Wingman was destroyed, so the direct attack of Lemon Girl was left. The little girl in the golden costume flew up, and without a word, she fired a spell bombardment at Judai, causing a full 800 points of super-high damage.

Judai, LP 4000 LP 3200

Chapter 410: Perfect Kill!

Lemon girl's direct attack caused a high amount of damage of 800 points, which made our little Judai almost lose his way.

Of course, the future star of the dueling world naturally did not shrink back because of this setback. Set a card, I end my turn.

Looking at another set card at his feet, Yuei Vu couldn't help smiling even brighter.

No wonder Yuki Judai is always so happy when he duels.

Sure enough, duels will bring smiles to people!

Little Judai still did not give up. This turn, after he drew a card, he first played a Pot of Greed and gained a +1 card advantage.

Then Judai here once again showed his innate talent for the divine draw. After drawing two cards, he played Pot of Greed again, then after drawing, another Pot of Greed. It was so refreshing to watch him draw five cards in one breath.

This story also told us that not everyone could be a hero player. If you wanted to learn the routine of Judai who did three-for-one and five-for-one exchanges at every turn, first of all, you had to be able to learn to create something out of nothing and conjure more cards out of thin air at any time you wanted.

After refilling his hands, Judai's eyes lit up as if he saw the hope of a counterattack from his own cards. Here he directly slammed the second Polymerization onto the Duel Disk, preparing to fuse

the Sparkman and Clayman in his hand, and summon his other ace hero Elemental HERO Thunder Giant

Of course, Yuei Vu couldnt let the other party do this. Before Judai had time to shout his lines, Yuei Vu chained with his card.

"

"

Continuous Trap Non-Fusion Area! Yuei Vu said, As long as this trap exists on the field, neither player can Fusion Summon!

Ah!?

Judai was instantly dumbfounded, and the innocent and excited smile froze on his face.

Cant Fusion Summon!?

Why is it like this?

Then my handsome hero wouldnt he be able to appear on stage?

Yuei Vus smile became brighter and brighter.

Silly boy, why do you think I dont use hero decks to fight you?

Because from the very beginning, I never planned to play Fusion Duck!

This feels so good.

Even Yuei Vu couldnt help feeling this way.

But this is also for your own good. This is part of my teaching for you. Yuei Vu looked at the kid with the jellyfish head who was stunned there, and said silently in his heart.

Besides, it was you who made the first move.

At this time, he couldnt help but think of the bright smile on the face of the future Yuki Judai that night.

I I summon Elemental HERO Sparkman.

Unable to Fusion Summon, Judai had to grit his teeth and summon the leader of the Four Waste heroes, the one with the highest attack power.

Because of the rumors of Duel King Yuei Vus favorite monster spreading out of nowhere, Sparkman, who was clearly just a Normie, also got a price that didnt match his ability value after being released.

Elemental HERO Sparkman, ATK 1600

Sparkman, attack Lemon Magician Girl!

Then the effect of Lemon Magician Girl is activated. Yuei Vu said, Once per turn, if this card is targeted for an attack: I can Special Summon 1 Spellcaster-Type monster from my hand, but its effects are negated.

Come on, Dark Magician Girl!

Background special effects in warm tones, gorgeous and transparent magic circles, and the blond magic girl flew out amidst the cheers and shouts of the audience, making her debut on stage.

Dark Magician Girl, ATK 2000

Oh oh oh! Its the Dark Magician Girl! Judais big eyes began to shine again.

When he got excited, he seemed to completely forget the fact that he was in a bad situation.

However, Yuei Vu quickly reminded him intimately: The target of Sparkmans attack will be forcefully changed to Dark Magician Girl, and his attack power will also be halved.

Judai came back to his senses: Eh? Why?

Elemental HERO Sparkman, ATK 1600 ATK 800

The magical girl backhandedly fired a magic light bomb that blew the lightning hero into pieces, and at the same time took away a lot of Judais LP.

Judai, LP 3200 LP 2000

Judais field became empty again, and there was a Dark Magician Girl with an attack power of 2000 on Yuei Vus field. If Judai didnt do anything about it, he would undoubtedly lose in the next turn!

But Judai still didnt seem to give up!

He glanced at a card in his hand, and set that card on the field with a solemn expression, announcing the end of the turn.

It looked like that card was his reversal move.

Then came Yuei Vus turn. He first equipped the Dark Magician Girl with the Equip Spell Wonder Wand, which increased her ATK by 500 points, and then normal summoned Apple Magician Girl in attack position.

Dark Magician Girl, ATK 2500

Apple Magician Girl, ATK 1200

The Dark Magician Girl was holding the new toy given by her master in her hand, and she couldnt put it down for a while.

After the preparation was complete, Yuei Vu entered the Battle Phase. With a wave of his hand, he ordered the Dark Magician Girl to attack directly!

Judais eyes lit up, and he seemed to see an opportunity to fight back, as he yelled directly: Open the set card: Trap Card A Hero Emerges! When an opponents monster declares an attack: The opponent chooses 1 random card from my hand, then if it is a monster that can be Special Summoned, Special Summon it. Otherwise, send it to the GY!

As expected, this was also one of Judais favorite moves in the anime.

Now that Fusion Summoning has been sealed, there was only the last high-level HERO monster that could be used in the entire HERO deck at the current stage.

That was the Elemental HERO with an attack power of 2600, Bladedge.

Interestingly, it seemed that Judais Bladedge and this A Hero Emerges in the animation were also glued together, like Kaibas skill 502.

Moreover, the key was that all the opponents of the Judai would always be able to pick the Bladedge from his hand by coincidence!

Therefore, Yuei Vu speculated that Judai must also have very strong luck. Although no one know who was luckier, Judai or God of Gamblers Jonouchi, Judais luck could rule them all in the animation.

Yuei Vu, who had only a pitiful 20 points of luck, could see it clearly in his character stats. So he didnt even have the idea of trying his luck against Judai.

So here Yuei Vu directly waved his hand without saying a word.

Open the set card: Trap Card Mind Crush! Yuei Vu said, Declare a card name, if the opponent has a card with that name in his hand, they must discard all cards with the same name!

Judai:!

However, he glanced at the only two cards in his hand, one Elemental HERO Clayman and the other Elemental HERO Bladedge, and quickly calmed down.

Before Yuei Vu activated the Non-Fusion Area in the last turn, Judai planned to fuse Sparkman and Clayman.

In other words, now both players knew he had a Clayman in his hand.

So there was a high probability that Yuei Vu would declare Clayman and ask him to discard this card.

But in this way, he would only have one piece of Elemental HERO Bladedge left in his hand, which could be summoned 100% by the effect of A Hero Emerges.

If he could summon the Bladedge with an attack power of 2600, he still had a chance!

However, Yuei Vu smiled strangely, and said slowly: The card name I want to declare is Elemental HERO Bladedge!

Judai: Eh!!??

Why?

How did Yuei Vu-san know that I have this card in my hand!?

Judai reluctantly sent Elemental HERO Bladedge to the GY: Then I only have the last card left in my hand, and its a monster card.

According to the effect of A Hero Emerges, I will special summon Elemental HERO Clayman in defense position.

Elemental HERO Clayman, DEF 2000

Of course, this didnt matter anymore.

Yuei Vu smiled warmly.

Be happy Judai-kun, Im here to make you smile too!

The Dark Magician Girl whose attack power was strengthened and increased easily broke through the defense line of Clayman. The remaining Apple Magician Girl and Lemon Magician Girl launched a direct attack on the Judai together, with a total output of 2000, no more, no less, just the right amount.

Perfect Kill!

Judai, LP 0
