

## **I Play Yu-Gi 421**

Chapter 421: I Might As Well Sign It

Chika got up extra early today earlier than usual.

Or rather, she hardly fell asleep last night.

The reason was also very simple, because of tension.

Almost all night, when she closed her eyes, she could hear the sound of thump, thump, echoing in the dark room again and again.

That was the sound of her heart beating.

The reason was all because Yuei Vu suddenly invited her after closing on Friday night before leaving.

By the way, Chika. Yuei Vu thought of something before going out, Now the competition is over, and I still have a dozen tickets for Kaiba Land. Tomorrow is the weekend, if its convenient, do you want to go together?

Chikas pupils shrunk.

She couldnt even remember what she said at the time, she just felt that she should have agreed.

*Is this an invitation to go on a date?*

*Surely it should be counted!?*

Even if Yuei Vu really just mentioned it casually, and just went out for a weekend as a friend, Chika felt that this was already a huge progress she had made in the long journey!

The next day, Chika got up early, dressed up beautifully, put on her favorite dress, dressed more carefully than usual, and then rushed to the Kaiba Land for the appointment.

At the appointed time, Yuei Vu really showed up on time.

Chika found him from a long distance away, her eyes couldnt help showing a look of joy like a childs, and she stood on tiptoe trying to say hello.

Then she found the super-powerful jellyfish-shaped third wheel that seemed to be shining beside Yuei Vu.

Hi, sister!

Little Judai was very polite and jumped around Yuei Vu excitedly.

Yo, you arrived really early. Yuei Vu raised his hand to greet Chika, This is Yuki Judai, who played against me in the KC Grand Prix final.

Without saying a word, Chika took out the Guide Map of Kaiba Land Facilities from her bag.

She started to find The Center for Lost Children on the map

It was of course impossible to say that she was not disappointed at all.

Originally, Chika thought that today was her and Yuei Vus two-person world.

As a result, she never expected that the third wheel appeared in the form of a little jellyfish head!

This made all her expectations for today come to nothing in an instant.

At this moment, Chika and Yuei Vu were walking behind one left and one right, watching Little Judai running up and down lively in front, feeling that there was no atmosphere of a first date at all, instead, it was like an old couple bringing their children to spend the weekend in the amusement park as a family of three

*Um? Sounds like its not bad all of a sudden.*

Thinking about it, Chika blushed slightly and subconsciously stretched out her hand to hold Yuei Vus sleeve, suddenly she didnt seem to feel disappointed again.

Yuei Vu, who was completely confused about what kind of changes the girls mood has undergone in the short period of time, looked at Chikas subtle reaction and the Favorability +1 that popped up above her head from time to time and couldnt help being puzzled.

*What is she thinking?*

*Why does it suddenly look like I already think of the name of our children*

Judai, what do you want to play? Chika has already entered the role, Do you want to play the roller coaster?

Judai shook his head.

The carousel?

Judai continued to shake his head.

Uhbumper cars?

Judai still shook his head.

Chika was puzzled: Then what do you want to play?

Judai got excited quickly. He pointed at a flat spherical stadium in the shape of a white dragon next to him: Lets go to a dueling hall!

Chika:

So you came all the way to the amusement park just to play cards

In the eyes of Little Judai, this was nothing surprising.

*Of course, playing cards is the most fun!*

*Roller coaster? Carousel?*

*Whats the point of those?*

*There is nothing more interesting than a duel in the world!*

Yuei Vu nodded slightly, showing a good children can be taught expression: Okay, then go.

Compared with the dueling hall outside, the dueling hall in Kaiba Land was naturally of a different grade.

Not only was it equipped with a more advanced artificial intelligence battle system after all, Kaiba Corps AI Bot was famously advanced but also the scale of the arena here was also larger. The equipment was also all the best in the world today, which could be guaranteed to bring Duelists experience an unmatched experience that they couldn't get anywhere else.

Entering the hall, Chika took Little Judai from behind to tell him not to run around for a while. Yuei Vu came to the counter in the lobby first.

Hello. Yuei Vu said to the young lady behind the counter, Give me a private room, the top one. For the time two hours.

OK, sir? Please show your

Haven't finished speaking yet, The young lady behind the counter raised her head. Her eyes lit up when she saw that it was Yuei Vu.

Huh? Mr. Yuei Vu!

Ah? That's me.

You don't need a certificate. The young lady smiled gently, We can directly open the top suite for you.

Okay, thank you. Yuei Vu said.

Being well-known and handsome was very useful at such a time.

Miss Reception operated on the computer and directly opened the best suite for him.

Your suite is on the second floor, and the room number is Blue Eyes Twin Burst.

Yuei Vu:

After receiving the door card from the younger sister, looking at the two-headed white dragon surrounded by storm and lightning on the card, Yuei Vu couldn't help but intuitively feel the president's deep love for White Bride again.

Yuei Vu touched his pocket and began to pay the deposit, but was stopped immediately by the young lady.

She smiled, and took out a paper and pen from behind the counter.

You don't need to pay, Mr. Yuei Vu. She said, Just sign here.

Yuei Vu paused: Did President Kaiba tell you?

No, but it should be fine.

The young lady smiled, showing an expression of knowing everything.

Yuei Vu was a little displeased: Well, I'm actually not that familiar with Kaiba.

Yuei Vu felt that he might have been tricked by the president.

In this KC Grand Prix competition, he originally wanted to repay President Kaiba's favor and attend the competition to take care of his enemy. Unexpectedly, after this competition, he, the Duel King, was almost bound to Kaiba from the outside world's perception.

If only this was the case, it didnt matter.

The key problem was that before, it was just screwball players who liked to mess around with impure thoughts, but now it was like a contagious virus, spreading from person to person, making even some local NPCs start to like to make up of some stories

*Im a consultant in Kaiba Corp, the kind who doesnt necessarily go to work once or twice a month!*

The young lady was puzzled: Then are you going to pay cash this time?

Yuei Vu looked at the rental pricing of the top suites in the venue, and he couldnt help but take a breath.

*Hiss~ Is it so expensive?*

*Kaiba, are you robbing customers?*

Yuei Vu thought for a while and silently took the paper and pen from the young ladys hand.

I might as well sign it.

Chapter 422: Why Do You Have To Learn How To Duel?

So in the end, Yuei Vu still didnt pay.

He came in and had to admit that the facilities in this top-level suite of Blue Eyes Twin Burst were really good. There was a complete set of stereoscopic video equipment for duels, which could be used by establishing a link with the duelists respective Duel Disks.

The image effect projected by the equipment was more realistic, and the procedure of fighting between monsters was more complicated, with a performance effect that could not be achieved by ordinary Duel Disks.

Little Judai couldnt wait to put on the Duel Disk and jumped off the field, eager to start the duel.

He got excited whenever it was time to duel.

Yuei Vu went first.

He directly activated a Dark Magic Veil here, and paid 1000 LP to call out a Dark Magician from his hand. Then set two cards in the field, and his turn was over.

The naive Judai deserved to be famous for his nerves. He was pitted like that by Yuei Vu in the KC Cup, and he still didnt have a long memory. He completely ignored Yuei Vus set card in the back row.

Judai drew a card, looked at the cards in his hand, and his eyes lit up.

Heavenly Hand!

First, he activated Polymerization from his hand, revealing the model worker couple in his hand, and fused Avian and Burstinatrix into his favorite hero, Flame Wingman!

Judai smiled slyly, saying that the Flame Wingmans attack power was only 2100 and couldnt beat the Dark Magician. But it didnt matter, here he used a Quick-Play Spell De-Fusion to release the fusion of the Flame Wingman and special summon Avian and Burstinatrix from the GY!

"

"

In this way, Little Judai would have two monsters on the field! So here he sacrificed two monsters and directly called the most powerful hero in the deck

Elemental HERO Bladedge!

Yuei Vu:

Appeared!

The legendary five-for-one scene in Yu-Gi-Oh GX!

Used a full five cards in hand to exchange for a monster with 2600 attack power, who didnt even have any resistance. Its so bad that he couldnt even write the word loss

Seeing the excitement on Little Judais face, the innocent expression that seemed to be jumping for joy at calling out such a powerful and handsome hero in one turn, Yuei Vu couldnt help showing a faint smile, and then pressed a button on the Duel Disk

Lets go straight to the Trap Hole!

When a monster with an ATK of 1000 or more is successfully summoned, destroy that monster immediately!

Seeing that the handsome hero he had called out at the cost of five cards fell into the hole under his feet and exploded before standing still, Little Judai let out an ah and stood there in shock.

But it didnt matter!

Little Judai said that it was not over yet, he still had one card to lose!

So he played the last card in his hand Monster Reborn! This card could revive monsters in the graveyard!

Come back to the field, Bladedge!

Yuei Vu opened another set card with a smile on his face.

Counter Trap Solemn Judgment.

Pay half of the HP, negate the Summon, Flip Summon, or Special Summon of a monster, or the activation of a Spell/Trap Card, and destroy it.

Little Judai was stunned again.

Ah, this

Yuei Vu was very satisfied with his reaction.

*Dont get me wrong, Im just conducting preschool education for newly recruited apprentices.*

*After all, learning to play cards has to start from a baby, and I have to lay the groundwork firmly so that my apprentice will never have this kind of five for one idea in his life from now on.*

Because Judai was a bit rough, it may not be easy to remember long, so as a teacher, it was obligatory to trick him a few times and impress him.

It was definitely not because Yuei Vu wanted to have private revenge after being tricked by the future Yuki Judai!

"

"

After all, he was not a devil.

Yuei Vu thought that not every Duel King had the patience to teach students how to play cards from the basics. (Although there were only two Duel Kings in total)

All six cards have been used up, and there was no resource left. Even if Judai could print cards on the spot (now he couldn't, for the time being), he had no cards to print

After a while.

I activate Spell Card Polymerization! Little Judai said, Fuse Sparkman and Clayman in the hand

Open the set card: Counter Trap Card Cursed Seal of the Forbidden Spell. Yuei Vu quickly flipped over his trap, When a Spell Card is activated: Discard 1 Spell Card; negate the activation and destroy it! Moreover, the opponent cannot activate Spell Cards with that name for the rest of this Duel!

Yuei Vu smiled.

In other words, you can no longer use Polymerization in this duel, Judai~

Eh!? Little Judai was dumbfounded It can't be used again!?

The word again was very spiritual

Even Chika, who was not very proficient in duels, couldn't help but think while watching I always feel that this child is a bit pitiful

After playing cards for two hours, Judai was exhausted.

It could also be seen from this that Little Judai's love for duels has really reached an unimaginable level. Being cheated by Yuei Vu in different ways like this, and kept cheating repeatedly, yet his enthusiasm has not diminished after beating for a long time

But when he came out, he was not as lively as he was in the morning.

At this moment, Little Judai was like a salted fish that has been squeezed dry. He was lying on Yuei Vu's back and sleeping soundly.

Chika stared at Yuei Vu's back for a while, and suddenly said softly, that's great.

Huh? Yuei Vu turned his head sideways.

If I can also learn to duel as soon as possible, I can fight with you with you

Chika lowered her head.

Actually, it's not like Yuei Vu didn't teach her when he had free time.

But she always felt that she was learning too slowly as if she had no talent in this area.

Yuei Vu was taken aback for a moment. He couldn't help but smile.

Silly girl, things like dueling, knowing the rules is enough. Why do you have to learn how to duel?

Huh? Chika tilted her head.

Yuei Vu didnt say the second half of the sentence.

Dont you know? A law that runs through the past Yu-Gi-Oh animations, all the girls who can play cards, some end badly (such as landing face-first on the ground), some become marginalized in the later stage and directly become female passers-by or both

(In the famous scene of Yu-Gi-Oh! Vraains, the heroine Zaizen Aoi fell from the sky after being defeated in a duel and landed on her face. From then on, she was nicknamed the blue-haired girl passer-by)

Generally, only those girls who dont know how to play cards and act as cheerleaders in the back can hope to become winners in life in the end

Okay. Yuei Vu said, Its still early. If youre interested, lets go and find something else to play with. Roller coasters, haunted houses, whatever.

Chikas eyes lit up, but after a moment of hesitation, she glanced at Judai who was lying on Yuei Vus back and sleeping soundly.

Then, what about this child?

Yuei Vu glanced at the head of the jellyfish resting on his shoulder, pondered for a while, and then silently took out the guide map of the facilities of Kaiba Land.

Chika was puzzled: What are you looking for?

Yuei Vu: The Center for Lost Children.

Chika:

Chapter 423: A Second Spirit!?

After spending the whole Saturday in Kaiba Land, in the evening, when Judai was led home by his parents, he was still waving vigorously to Yuei Vu from a long distance, with a look of reluctance.

It seemed that even if he was intensively educated by Yuei Vu in the duel, it still did not affect his admiration for Yuei Vu and his enthusiasm for the duel.

In fact, when they got to know each other well, Yuei Vu found that this little jellyfish head was quite cute, which made him a little bit reluctant to teach him.

Well, just a little bit.

When he got home at night, he could smell the smell of food, which wafted out along the corridor through several rooms.

He came to the kitchen to have a look, only to find that a certain vampire who has been completely substituted into a maid was wearing a cloak, busy in the kitchen with great enthusiasm.

Ah, Master Yuei Vu, you are back. Tilla quickly stood at attention and smiled, Wait a minute, dinner will be ready soon!

Yuei Vu nodded to express his satisfaction, and the role of a maid was reflected.

After a while, Tilla immediately brought a large table of hearty meals to the table.

At first, Yuei Vu was thinking about whether the dinner made by the vampires would be a bit fresh or contain a lot of red liquid, but it turned out that he seemed to think too much.

He hadn't noticed before that this vampire was not only bigger and more eye-catching but also such a fine chef.

Master Yuei Vu, what do you think of the taste?

Yuei Vu took a bite of the dish and nodded slightly: So-so, okay.

Tilla was delighted.

*Great, this is great progress!*

*Some people say that if you want to catch a man's heart, you must first catch his stomach.*

It seemed that this was just a small step for a maid, but Tilla felt that this was a giant leap for vampire kind!

After all, there were only two of them in such a big house.

This man was still single, as long as she persevered, sooner or later she would be able to

Master, it looks so delicious!

The one who spoke was a cute and lovely blond magician girl who suddenly appeared out of nowhere. At this moment, she was lying on the edge of the table with half of her body leaning forward, a certain part of her chest was squeezed and deformed by the table

Tilla:

Do you want to try it too? Yuei Vu asked.

I can I? Dark Magician Girl hesitated.

"

"

Sure.

Tilla stared straight at this cute blond elf, instantly evoking some bad memories.

She remembered that when she and Yuei Vu had their first duel, Yuei Vu's last blow was done with this Dark Magician Girl.

And Tilla noticed that the spirit girl took the initiative to materialize her body before attacking, and a magical impact of Dark Burning Attack directly stuck to Tilla's chest, almost blowing her flat

Thinking of this, Tilla still felt a dull pain in the place where she was hit.

The Dark Magician Girl noticed her gaze, turned her head to look at the vampire dressed as a maid behind her, and tilted her head in doubt.

strange. The girl held up the magic hat on her forehead, Have we met somewhere before?

Tilla:

The vampire didn't feel so good.

Tilla entered the kitchen without saying a word and brought a bowl for the Dark Magician Girl as Yuei Vu instructed.

After he was satisfied with the wine and food, the vampire maid cleaned up the dishes and went to the kitchen to wash the dishes. Yuei Vu sat back in the living room, ready to browse the forum and watch TV news for a while.

Just at this moment, with a clear pop, the lights in the living room and the TV screen went out without warning at the same time.

Yuei Vu was taken aback.

*Is this a blackout?*

*No, it doesn't feel like it.*

Yuei Vu, who has experienced many battles, was already quite sensitive to extraordinary power at this time. Almost immediately, he smelled something wrong. It was like a Shadow Game, but it seemed a little different.

Compared with the previous BOSS such as Yami Marik and Dartz, this faintly lingering aura was not like pure dark power, but more like the force from a spirit.

And it was a powerful one.

Yuei Vu held his breath.

After a few seconds of silence, there was the sound of something piercing at high speed in the darkness, tearing the air, and with a fierce killing intent, it locked in the direction of Yuei Vu.

Without the master's order, the Dark Magician Girl who was already on standby immediately materialized, shouted Hey, and waved her hand to release a circular magic circle to block the surprise attack in the dark.

It seemed to be a vine, long, with small green thorns all over the body.

In the darkness, a human figure came out slowly, and the outline could be seen under the pale moonlight.

No, to be more precise, it couldn't even be called a human figure.

It was a demonic existence, standing under the bright moonlight projected from the window, its wide wings were projected on the floor, it looked like a bat with outstretched wings.

She has light red skin, light blue lips, and sharp fangs. A pair of green and orange pupils seemed to glow in the dark night, and on the forehead was a strange third eye. The three lines of sight seemed to be enough to pierce anyone's heart.

Yubel, the guardian of the Supreme King, the spirit partner of Judai.

Although she was called Sister Yub, her gender has always been debated by the audience.

In the US version of the GX series, Yubel was referred to as a female, but in the Japanese version, it was always written as unknown. Therefore, whether Yubel was a man or a woman was almost the

same as the sex of a certain ninja named White next door, which has caused the card players to argue all year round

of course, it didnt matter now.

In the original animation, Yubel was a spirit who overprotected Judai and loved Judai to a morbid degree.

So much so that in Judais childhood, she greeted all the people around Judai who had won against him one by one, and everyone fell into a coma on a hospital bed

If its just like this, its fine.

But the key problem was that after the news spread, no one dared to play cards with Judai again.

So our little Judai could never play cards again!

Was there anything more cruel than this?

So its no wonder that Judai later used the power of the Kaiba Corp to directly seal Yubels card into the satellite, and followed a rocket to go directly to the sky to stand shoulder to shoulder with the sun

Looking at it from another angle, it could also be understood that this yandere spirit was dumped by the young ten generations, and since then laid the groundwork for the super-large disaster of GXs different dimension

Because of getting along with Judai so far, Yuei Vu has neither sensed the power of spirit nor found anything wrong with Judais mental state. So Yuei Vu thought that Sister Yub had already gone to heaven during this period.

It seemed that it wasnt the case.

It may be that the card Yubel was just brought to Judai by his father who came back from a business trip, so Judai has not added this card to the deck for the time being. In the animation, only when Judai put this card in the deck when dueling with others, those who have dueled with him would fall into a coma.

So Yuei Vu guessed that Yubel just came to Judai not long ago, and she hasnt had time to do too many things yet, and Judai hasnt noticed her existence yet.

And now, Yuei Vu, who has educated Little Judai so many times through duels, naturally became one of Yubels early goals

What a surprise.

Yubel spoke slowly with a distinctly female voice, as if with an inexplicable magnetic force.

Her three eyes looked at the Dark Magician Girl guarding in front of Yuei Vu together.

Duel King Yuei Vu, do you have a spirit too? She hummed and smiled, A very cute little girl.

After a pause, she narrowed her eyes, and the glare shot out of the strange-colored pupils like a demon.

However with this level of power, you cant protect your beloved master~ Yubel chuckled.

The Dark Magician Girl got angry, raised her hand, and threw out a magic light bullet. But Yubel only casually raised his palm, and lightly caught it, feeling like catching a baseball thrown by an elementary school student.

Yubel showed a contemptuous expression as if to say That's all?

The next moment, her face changed slightly, and she took two steps sideways, with the wide wings on the left protecting her side like a shield. Precisely at the same moment, a beam of white light sliced through the darkness like a meteor passing through the sky, and hit her wings, shaking Yubel's body and making her take two steps back.

Black smoke was rising from Yubel's wings, and she seemed to be in pain. She turned her head in surprise, and at a glance, she saw a tall mage girl in white robes appearing out of nowhere, holding a staff in her hand, staring directly at her without saying a word but full of hostility.

Yubel was a little taken aback.

A second spirit!?

Chapter 424: A Spirit Trainer?

The one who quietly appeared beside Yubel was naturally the Silent Magician.

At this time, the Silent Magician has switched to combat mode a.k.a the busty form. The toga was as white as snow, and the curves under the robe were proud.

Although the scenery that could be seen through the wide robe was limited, looking at the position of her waist and the line of white thighs exposed under the robe, it was not difficult to see from the ratio of her waist to her figure. These legs were really long.

The saying There are legs from the neck down may be nothing more than that.

If Yubel was just a little surprised and didn't take it seriously when she saw the Dark Magician Girl, now that she saw the Silent Magician, she really started to weigh it seriously.

After all, this magician spirit seemed to be very strong.

The more important problem was that she was actually not willing to fight against magician spirits if she could.

Unlike the spirits of warriors, dragons, and other races, the methods of magicians were more changeable and unpredictable. Sometimes some mages may know some very troublesome spells even though their own strength did not seem to be strong. Even the strong in the spirit world were easy to fall down if they were not careful.

Yubel looked at the two magicians, thinking about whether to persuade a wave of tactical retreat for a few seconds, but quickly dismissed the idea.

*No!*

*This guy actually dares to bully my beloved Judai! It's an unforgivable sin!*

Yubel's eyes froze, she hummed and raised her hand, and shot a cane whip in Yuei Vus direction. Both the Dark Magician Girl and the Silent Magician waved their wands, wanting to protect their master at the same time, but they didn't expect Yubel to just faint, and the eye on her forehead suddenly shot a black ray towards the Silent Magician.

In her opinion, the white-haired mage was the biggest threat, so she must be disarmed first!

But the Silent Magician has an extraordinary status among mages, so naturally, she was not so easy to be knocked down. The white-haired magician lightly waved her staff, and a simple white magic circle was quickly condensed into shape, resisting Yubel's surprise attack.

At the same time, Yubel blocked the attacking spell from the Dark Magician Girl with her backhand.

She squinted her eyes, spread her pitch-black wings, and was about to fight back, but suddenly felt a chill coming from behind her, bringing a chill that pierced her bones.

Almost without thinking, Yubel's figure flickered, and she moved away half a meter like an afterimage. Almost at the same moment, the transparent sword energy almost passed coldly against her slender abdomen.

If she was late for a moment, her body has been cut into two by the sword energy at this moment.

Yubel turned her head back in astonishment, and at a glance she saw a general in red armor standing gloomy in the darkness, with scarlet eyes, his hand resting on the handle of his blade, with an extraordinary demeanor.

Great Shogun Shien!

Yubel was even more surprised.

*The third spirit!*

*How many spirits did the Duel King have?*

Just as he was thinking, Yubel suddenly felt a pain in his hand. She looked down and found a ball of fluffy, chubby little guy lying on her arm, trying to bite the bad spirit who was trying to attack his master.

Kuriboh: Kuri Kuri!

Super Fierce. JPG.

Yubel was angry.

*Does this miscellaneous fish monster dare to bite me!?*

But before she had time to attack, she felt as if her body was being bound by a bunch of tentacles-like things bound her hands and feet, dragging her off the ground and into the air.

Yubel turned her head and saw a blood-red spirit she had never seen before spreading its cloak-like wings, releasing several tentacles to bind her hands and feet.

Destiny HERO Plasma!

Yubel: !?

*Another spirit?*

*And such a powerful one!*

She looked at Yuei Vu, who was standing calmly watching the show, in amazement.

*This guy Could it be that he is a Pokeno, spirit trainer?*

*How come there are so many spirits?*

Yuei Vu could probably guess her thoughts.

He smiled.

*Heh, this is not all*

*The most awesome spirit in our family, you havent seen it yet.*

Of course, those few were quite tsun, and Yuei Vu himself may not be able to command them

Yubel now feels like a robber kicked in the door with a kitchen knife and wanted to take some money, but when he opened the door, he found a group of police carrying submachine guns and rocket launchers inside.

Its simply a tragedy

At first, she tried hard to break free from the tentacles of Plasma, but after the Silent Magician and the Dark Magician Girl each added a layer of binding spells, and the Great Shogun Shiens blade rested on her neck, Sister Yub finally gave in.

Bow to the evil forces.JPG

Yuei Vu walked forward unhurriedly: So, do you want to explain what you are here for?

Of course, he could probably guess without asking.

He knew that as long as Yubel was put in the deck, she would send anyone who won Judai to the hospital bed. So Judai, who later discovered the problem, tied her to a rocket and sent her to the sky

Of course, the current Yubel obviously hasnt gone to the sky and hasnt accepted the power of The Light of Destruction in the universe. So now she was just a relatively powerful spirit, and she didnt have the strength of the world-destroying boss when she appeared in the animation.

At this moment, Yubel, who was tied up, was still furious: You! Stay away from Judai!

Yuei Vu spread his hands helplessly: I am his teacher, we are just communicating like teachers and students normally Judai also had a lot of fun, didnt he?

I dont remember when you were allowed to be his teacher! Yubel continued to be angry.

So, you have always been like this, killing all the guys who have won against Judai?

Of course. Yubel was a little proud when talking about her glorious deeds, and puffed up her chest, Anyone who hurts Judai must be punished!

At least I didnt take their lives, its kind enough! If it was in the previous life, if someone dared to disobey my master, that person would have been ripped apart by cramps long ago

Yuei Vu raised his forehead and was speechless for a while: Then, have you ever thought that Judai will never be able to make friends if it continues like this, and wont he hate you when he learns the truth?

Friend? My Judai doesnt need that kind of thing! Yubel felt good about herself, Its enough for him to have me!

Yuei Vu:

But Yubel has clearly seen that the man in front of her was different from everyone else, not an ordinary person that she could directly use violent means to physically stun.

Since this was the case, there was no choice but to resort to the ultimate trick.

Yubel's eyes froze, and the bound left arm began to deform, and a mass of things protruded from her arm, changing into a black, alien-shaped Duel Disk.

Since you are called the Duel King in this dimension, then use the most sacred ceremony to decide the outcome! Yubel shouted, Betting my life, I will never allow you to get closer to Judai. !

Yuei Vu frowned.

*Sister, cant you do this?*

*You make me feel like a villain again*

Chapter 425: Yandere Spirit

Half a minute later, Yuei Vu had already put on the Duel Disk and stood against Yubel in the duel arena dedicated to the manor.

Let me use this sacred ceremony to see how capable a warrior with the title of King in this dimension is. Yubel said coldly.

In fact, Yubel has always held a disapproving attitude towards the Duel King of this world.

Different from Judai who was reincarnated, Yubel has memories of the previous life. In the world in her memory, her strength was already in the batch of the top powerhouses in the whole world, except the Supreme King sealed deep in Judai's heart, nobody was stronger than her.

In fact, in Yubel's eyes, the personality called Supreme King sleeping deep in Judai's heart was the real strongest duelist.

When she heard the Duel King titles of Yuei Vu and Muto Yugi, the real Duel Kings, Yubel actually scoffed in her heart all the time, taking it for granted that they should be frogs in a well.

Its just a mere human being, how good can it be at playing cards?

In this world No, in all parallel dimensions, there is no one who can defeat the Supreme King!

My Judai is the strongest!

Yubel, the yandere elf, was so convinced.

After the reincarnation, Yubel, who became a card spirit, also tried her best to find her master, determined to protect him with her life.

She was confident that with her own strength, she would definitely be able to run amok in this peaceful and comfortable world.

There was a sense of superiority of a master cultivator that was reborn in the modern city.

Its just a pity that this world may be a little different from what she imagined.

Duel! x2

Yubel, LP 4000

Yuei Vu, LP 4000

Ill go first, draw!

Yubel got the first turn. She glanced at the cards in her hand and slowly drew out two of them.

Set a monster to the field, then set an S/T card, she said, My turn is over.

A defensive monster and a pit, so ordinary that it was impossible to guess the tactics and the opening of the game.

Yubel snorted twice, licked her thin light blue lips, and looked at the opponent with Entertain me eyes.

My turn, draw! Yuei Vu said, Summon Elemental HERO Heat!

A group of flames burst out on the ground, and the flame hero in uniform and clenched fists came to the venue with gorgeous burning special effects.

Elemental HERO Heat, ATK 1600

The effect of Heat, his attack power will increase by 200 for each Elemental HERO on my field!

Elemental HERO Heat, ATK 1600 ATK 1800

Yuei Vu said: Heat, attack the face-down monster.

Heat flew out in the air, dragged a trail of flames, and rushed to the covered card, smashed the card with a fist wrapped in flames, exposing a fiery red giant tomato hidden under the card.

The big tomato showed a terrified expression, screamed Ah and exploded under the fist of the fiery hero.

Mystic Tomato, DEF 1100

The effect of the Mystic Tomato. Yubel smiled, When this card is destroyed by battle and sent to the GY, I can Special Summon 1 DARK monster with 1500 or less ATK from the Deck, in face-up Attack Position.

A card in her deck popped out automatically as if attracted by a magnet. Yubel pulled out the card, the eyes on her forehead suddenly widened, and the energy released from it seemed to stir up an invisible dark whirlwind in the air.

She said in a deep voice: I special summon myself from the deck

Yubel!

The spirits different colors pupils lit up like will-o-the-wisps, and the eye on the forehead also glowed red.

It seemed that because of summoning herself in the duel, Yubels aura suddenly increased as if it was more than twice as strong as before. The power of darkness rolled up a vortex on the ground, and a group of figures that seemed to be shrouded in chaos rose from the ground. The darkness began to take shape, transforming into a female demon with broad wings.

Yubel, ATK 0

Yuei Vu looked at Yubel who flew out of the deck and stood coldly in front of him and shrugged helplessly.

This convenient effect can really pull out a bunch of weird monsters

Yubel laughed dully twice, and said lightly: You will soon realize how scary I am.

Then I will look forward to it first. Yuei Vu said, Set a card, I end my turn.

My turn, draw!

Yubel added the drawn card to her hand, and said lightly: In this case, open your eyes to see my power! Battle! I use myself, Yubel, to attack Elemental HERO Heat!

Although she said so, Yubel, whose attack power was 0, did not have the ability to actively attack.

A faint red glow appeared in Yubel's strange eyes on the field, and they locked on the Heat on Yuei Vu's field. The fiery hero looked directly at her strange-colored pupils and seemed to lose himself in a trance, his eyes also glowed strangely red, his head became hot, he lost his mind in an instant, and had the urge to knock her down desperately.

But in that way, he would fall into Yubel's trap.

Yubel's own special ability: This card cannot be destroyed by battle. Your opponent takes all Battle Damage from battles involving this face-up Attack Position card.

Heat's attack power was 1800, which meant that if the battle was established, Yuei Vu would take 1800 points of damage.

Yubel was full of confidence and seemed to think that this blow was bound to hit, as the opponent could not take precautions.

After all, Yubel herself was not a card from this world. Except that Judai would occasionally take out this card when playing cards with her friends at the table, she had never fought with anyone in any formal duel.

She thought it was impossible for Yuei Vu to know her effect.

Of course, that was just her thought.

Open the set card. Yuei Vu waved his hand, Quick-Play Spell Mystik Wok! Tribute 1 monster. Select either its ATK or DEF and gain that many Life Points.

I tribute Elemental HERO Heat to restore LP equal to his attack power value!

A cauldron emerged from the ground, enveloping Heat completely. With a crackling sound, the hero was absorbed into Yuei Vu's body as nutrients.

Yuei Vu, LP 4000 LP 5800

It's also a good thing Heat wasn't a spirit, otherwise, he would definitely be shouting in the pot right now Master, you tricked me

Because the monster on my field disappeared, a Battle Replay occurred. Yuei Vu paused and chuckled, But even if you continue to attack, you can only attack me directly.

Of course, your attack power is only 0, and the attack is meaningless. But if you feel that calling can relieve your anger, then do as you like.

Yuei Vu spread out his hands, assuming a posture of Ill bully you.

Yubel looked unhappy and bit her lip.

*This guy does he know about me?*

Chapter 426: I Betrayed Myself?

*This guy knows about me?*

*It doesnt make sense!*

*Maybe its just that this guy was lucky and happened to avoid death.*

Yubel could only say so to herself.

Although the attack was meaningless, Yubel still snorted: Then use myself to attack the player directly!

On the field, Yubels pupils of different colors flashed, flapping h wings and flying forward, her devilish claws clenched into fists and struck Yuei Vus chest with a dark trajectory!

and caused 0 points of combat damage.

Failed to penetrate enemy armor.

It could be seen that Yubel was very good at being beaten, but she may not be very good at beating people, she was just a natural M.

Even if it was an attack to vent her anger, Yuei Vu didnt feel any pain at all, and even felt a sense of a lovers fist hitting your chest.

My Battle Phase is over. Yubel said unhappily, In Main Phase 2, I activate the Spell Card Foolish Burial. Send a monster from the deck to the graveyard.

Her Duel Disk was directly deformed from her body. Strictly speaking, it was a product of metaphysics rather than a technological creation, so the function was naturally different from the Duel Disk currently released by Kaiba Corp.

As soon as she finished speaking, the deck immediately responded. A card automatically popped out of the deck, and she put it in the graveyard without looking at it.

The monster I sent to the graveyard is, Samsara Lotus. She said, Samsara Lotus is a plant that blooms at the end of each turn. As long as she exists in my graveyard, during my End Phase, it can be unconditionally resurrected. (animated effect)

Yubel drew another card from her hand and inserted it into the Duel Disk.

Set two cards, I end my turn.

At the same time, she pointed to her feet: At this moment, Samsara Lotus is resurrected from the grave.

On the ground, a black vortex opened up, and a plant sprouted from the darkness unrelentingly, blooming into a pink lotus flower.

Next is my own special effect. Yubel said, At the End Phase, if I don't sacrifice a monster, I will destroy myself.

She looked at the lotus flower on her field and smiled gently: Be my sacrifice, Samsara Lotus.

The short-blooming lotus dissipated from the field with a burst of golden light, turning into nutrients to maintain Yubel's existence.

Okay, it's your turn. Yubel looked at Yui Vu, Don't worry, attack me as much as you want!

As she spoke, she stuck out her tongue and licked her light blue lips.

No matter how violent the attack is, I will accept it all.

"

"

Yui Vu raised his eyebrows and ignored it: It's my turn, draw!

Yubel could not be destroyed by battle, and the damage caused by battle would also be borne by the opponent. In the current environment, it was indeed a very difficult monster, which could almost block the opponent's offensive methods.

But Yui Vu also had countermeasures.

First, I activate the Spell Card Pot of Greed, draw two cards. Then summon the Elemental HERO Ice Edge!

Appeared on the stage was a short hero wearing ice-like armor with a small stature.

Elemental HERO Ice Edge, ATK 800

Yubel frowned: Ice Edge?

The special effect of Ice Edge. Yui Vu waved his hand, Once per turn, by discarding a card, Ice Edge can directly attack the opposing player this turn.

I discard a card in my hand, and the effect of Ice Edge is activated!

As Yui Vu discarded a card in his hand and went to the GY, the little hero yelled Ha, and a whirlwind of white ice and snow rolled around him.

So that's it. Yubel narrowed her eyes, Do you want to bypass my line of defense by attacking directly?

*This guy really knows my special effects!?*

*But how?*

Battle! Yui Vu waved his hand, Ice Edge, attack Yubel directly!

That's not okay.

Before Ice Ridge could make a move, Yubel waved and flipped over a set card beside her.

At the moment before you enter the Battle Phase, I activated the Trap Card Taunt! Yubel smiled, This card must be activated during the opponent's Main Phase 1. Select 1 monster on my side of the

field. While the selected card remains on the field, if the opponent attacks with a monster this turn, they must select the selected monster as the attack target.

Yuei Vu looked at Yubel, who was surrounded by dim purple energy and full of taunts on the opposite field, and raised his eyebrows slightly.

Oh? It means I have to beat you first?

That's right, that's what it means. Yubel chuckled, Come here as you please, I'm getting impatient.

As you wish. Yuei Vu showed a card in his hand, Quick-Play Spell Mask Change: Send 1 HERO monster I control to the Graveyard, then Special Summon 1 Masked HERO monster from my Extra Deck with the same Attribute.

I sent Elemental HERO Ice Edge to the GY!

Transform! Masked HERO Vapor!

The special effect of the water flow surrounding the little hero of the ice, and the flowing water turned into solid armor and dressed the hero. Red eyepieces, blue and white armor, and an X shaped belt in front of the waist.

I see, if you transform into a new hero in defense position, you can indeed avoid the effect of Taunt. Yubel shook her head regretfully, It's really boring. Even the Duel King in this world doesn't seem to have the guts to accept my provocation?

Who said I'm going to summon a defense monster? Yuei Vu said.

Um?

I special summon Masked HERO Vapor in attack position!

Masked HERO Vapor, ATK 2400

The hero of water waved the white sharp weapon in his hand, as if a light blue arc of water flowed in the air, as if silently telling

Water will only make me stronger!

Hey. Yubel narrowed his eyes, Are you still determined to push me down?

Of course, a man can't say no to that kind of request. Yuei Vu chuckled lightly, Masked HERO Vapor, attack Yubel!

The mist flew out, the water swirled around his body, and the sharp blade in his hand dragged a clear water line and slashed toward Yubel!

*Finally, come!*

Seeing that Yuei Vu finally couldn't hold back and wanted to push her down, Yubel couldn't help but feel happy.

Hmph, at this moment, you have stepped into my own trap. Yubel sneered, My own special effect! Yubel will not be destroyed by battle, the damage caused to us during the battle is 0, and that amount of damage will be dealt to the opposing player! (animation effect)

The corner of her mouth twitched, revealing a devilish and cruel smile.

That is to say, you must receive the attack power of your own monster, which is 2400 points of damage.

Is that true? Yuei Vu asked back.

Um?

She saw Yuei Vu waving his hand: The moment the battle happens, I will activate a trap card from my hand!

Yubels pupils shrank.

At the beginning of this turn, the card I discarded through the effect of Ice Edge is Makyura the Destructor. Yuei Vu said, According to its effect, I can activate traps from my hand this turn.

So what I want to activate here is Trap Card Switcheroo! When both players have the same number of monsters on the field, switch control of all those monsters!

What!?

Watching Masked HERO Vapor turn over lightly and come to her own field, while her own avatar flapped its wings and flew to the opposite side, Yubel was instantly dumbfounded.

*This*

*I betrayed myself?*

Chapter 427: Forgive Myself, Of Course!

Yubel was dumbfounded now.

Its not surprising that monsters were NTRed, and any player may encounter this situation sooner or later.

But there were not many opportunities to see yourself being NTRed by the opponent. Yuei Vu couldnt help but want to put aside the duel for a while and go to interview Yubel about her current feelings

Yubel grimaced: You bastard

Ahem, the battle continues. Yuei Vu coughed twice, pretending nothing happened, Use Yubel to attack the Masked HERO Vapor on Yubels field!

Yubels pupils on Yuei Vus side lit up red. Vapors mentality was affected, and a burst of red light burst out from the helmets eyepiece, and then the whole person rushed up, and the sharp blade dragged the water toward Yubel and slashed down.

But of course, such an attack had no effect at all on Yubel who would not suffer any harm. The special effects of the water flow and the impact of the sharp blade were all absorbed by Yubel. She raised her head and let out a sharp cry. When the impact was released, green vines rolled up around her and shot towards the opposite Yubel who was playing cards like an arrow.

Yuei Vu boldly guessed that the feeling of being hammered by yourself must be different

Yubel gritted her teeth, and seemed unwilling to let go: Open the set card! Quick-Play Spell Spell of Pain!

She hooked the corner of her mouth and sneered: This card can be activated when the opponent inflicts effect damage to me. The opponent takes the effect damage from that card or effect, instead.

The vine that was piercing turned instantly, made a 180-degree turn, and stabbed back in the direction of Yuei Vu.

It seems that the one who is going to suffer this injury is you after all. Yubel smiled.

"

"

Then again, according to the effect of the Makyura the Destructor in the GY, I activate Trap Card from my hand. Yuei Vu said calmly, and then revealed another card, Counter Trap Barrel Behind the Door!

This card can only be activated when an effect that deals damage other than battle damage is activated. Transfer the damage you have suffered to the opponent.

What!?! Yubel's expression changed suddenly.

*Is that what called I reflect your reflect?*

The vines turned around and shot towards Yubel again. The 2400 damage bounced between the two of them like a football, and finally fell on Yubel's forehead, giving her the rare experience of being hammered by herself.

[Yubel, LP 4000 LP 1600]

Yubel was staggered by the vine and took two steps back, gritting her teeth: Damn you

Set a card, I end my turn. Yuei Vu shrugged, But you seem to have a big appetite. At the end of the turn, a monster must be sacrificed to maintain your existence, right?

But I don't have any other monsters on the field right now. So I'm sorry, I don't seem to be able to feed you, so you should destroy yourself.

After finishing speaking, the Yubel on the Yuei Vu's field radiated a burst of red light, and with the sound of bang, she left the stage and disappeared.

Yubel couldn't help but grit her teeth when she heard his words.

*Telling a girl that she ate too much, are you still a man?!*

It's my turn, draw. Yubel drew a card and looked up at Yuei Vu coldly.

This round, I want to let you know how big a mistake it is to despise me! She pointed at Vapor who still remained on her field, I use the Masked HERO Vapor as a sacrifice, and the Tribute Summon

Great Maju Garzett!

Vapor's figure disappeared from the field, a dark vortex rolled up, and a huge body appeared from it.

[Great Maju Garzett, ATK 0]

Yubel chuckled: Great Maju Garzett's attack power will become twice the original attack power of the sacrificed monster. So its attack power is

[Great Maju Garzett, ATK 0 ATK 4800]

Its all thanks to the monster you gave me. Yubel taunted.

It seems so. Yuei Vu said indifferently.

Still stubborn, huh? Yubel snorted, Battle! Great Maju Garzett, attack directly!

The impact of the light beam was overwhelming, as if a light curtain was pushed across the empty field, and rushed towards Yuei Vus face!

Open the set card: Trap Card Damage Diet! Yuei Vu said, All damage I received this turn is halved.

The intensive bombardment, the scorching blast of beams, and the materialized impact caused Yuei Vu to retreat a few steps.

Yuei Vu, LP 5800 LP 3400

Cut, its just clearing up the LP recovered from the last turn. Yubel seemed not very satisfied with the effect, so he just curled his lips and said, Then open the set card: Continuous Trap Limit Reverse! Target 1 monster with 1000 or less ATK in my Graveyard; Special Summon it in Attack Position!

Huh? Yuei Vu narrowed his eyes.

*Do you want to use this card at this point?*

I resurrected myself from the GY! Yubel shouted, Come back to the field again, my avatar Yubel!

The trap effect was activated, and the black vortex leading to the GY opened up. The demon who had just left the field wrapped her body with her wings and returned to this field.

[Yubel, ATK 0]

Summoning her avatar again, Yubel was in a good mood, and seemed to have completely ignored the fact that her avatar had betrayed him last round.

*What else can I do? Forgive myself, of course!*

Yubel, attack directly!

Yuei Vu:

Seeing Yubel with 0 attack power flapping her wings again and flying up to hit his face, Yuei Vu couldnt help but fell into speechlessness.

*Does she really want to slap me so much?*

*Really summon the duelist herself to fight people?*

Of course, Yubels small fist with 0 attack power still failed to cause substantial damage to Yuei Vu. Theres no point other than venting anger

Hmph, my turn is over.

Summoning herself and giving Yuei Vu a fist again, the devil lady seemed to be in a slightly better mood.

Its my turn, draw. After drawing a card, Yuei Vu directly revealed the card, Spell Card the Spell Books from the Pot. Both players draw three cards.

Then summon the Elemental HERO Bubbleman in the defense position. When Bubbleman is successfully summoned, if there are no other cards on my field, draw two cards from the deck. (animation effect)

With a special effect of water bubbles, the Elemental HERO of last hope in the animation, Greedah, no, its Bubbleman, waving his cape and squatting on the field.

[Elemental HERO Bubbleman, DEF 1200]

The next thing is Spell Card Card Destruction. Yuei Vu discarded all the cards in his hand to the GY, Both players discard as many cards as possible from their hands, then each player draws the same number of cards they discarded.

Yubel discarded the cards in her hand and drew new ones while laughing at the same time: Even if you draw so many, cant you get the cards you want?

Yuei Vu ignored her, and after drawing the card, a card in the GY area quickly popped up: At this moment, the effect of Elemental HERO Shadow Mist is activated! If this card is sent to the GY: I can add 1 HERO monster from my Deck to my hand, except Elemental HERO Shadow Mist.

I add Elemental HERO Liquid Soldier to my hand.

Yuei Vu took Liquid Soldier, briefly showed it to Yubel, and added the card to his hand.

Set a card, I end my turn.

Chapter 428: The Eldest Brother of Elemental HERO

My turn. Yubel glanced disdainfully at Bubbleman, whose attack and defense power values were negligible, and snorted, Do you want to use defensive monsters to survive this turn?

But this simple tactic is completely useless against me!

I activate a Spell Card from my hand Stop Defense! Select 1 Defense Position monster on the opponents side of the field and change it to Attack Position!

I change Elemental HERO Bubbleman into the attack position!

Bubbleman roared Ahhh, stood up reluctantly, and was forced to change to the attacking state.

[Elemental HERO Bubbleman, DEF 1200 attack ATK 800]

Battle! Yubel said, First of all, I use myself, Yubel, to attack Bubbleman!

Yubel on the field received the order, and her pupils glowed red again. The temptation affected the spirit of Bubbleman. Bubbleman gritted his teeth, resisted for a while, and finally succumbed to the evil forces. He let out a cry, raised his hand, and shot a water current from his blaster.

From the GY, I banish Damage Diet from the game. Yuei Vu said, All the effect damage I receive in this turn will be halved!

Yubel once again received and absorbed all the impact of Bubbleman with her body, and at the same time transformed it into her own energy. She raised her head slightly, and the power in her body

erupted like a chaotic cyclone, and the rebound damage exploded on Yuei Vu's face after being halved by the protection of the trap.

Yuei Vu, LP 3400 LP 3000

Then it's Garzett who attacks next. Yubel shouted, Go, smash Bubbleman!

Activate Trap Card Half Unbreak! Yuei Vu flipped the set card over, Use this card's effect to protect Bubbleman from being destroyed, and the battle damage is also halved!

Bubbleman may have had a very powerful effect among heroes, but he was not the type who was good at fighting after all. The demon god's offensive instantly submerged him, and the impact was unabated in the transparent airwaves, causing Yuei Vu to sway slightly and retreat half a step.

Yuei Vu, LP 3000 LP 1000

Although the impact was strong and the LP was reduced a lot, this blow was still unable to defeat the hero with bubble blasters. Although it was very difficult, he barely persisted under the protection of the trap card.

In fact, from the perspective of armor design style and character modeling, Bubbleman was somewhat similar to the Batman of DC comic studio. And there were actually some similarities in the positioning of the two heroes among the heroes.

Although his combat power was weak, Bubbleman had the powerful ability to draw two cards when the field was empty, which could bring duelists a greater possibility of a comeback.

In addition, Bubbleman also had the effect of can be special summoned when there is only this card in the hand, which made him the hero you most wanted to draw when you were in an empty-handed desperate situation.

If you drew Bubbleman empty-handed, not only you could unconditionally special summon it without consuming the chance of normal summon, but you could also draw two cards for free, which greatly improved the chance of a comeback.

Just like in a big event where the Justice League was wiped out, you would always hope that the last one left was Batman

Did you survive again? Yubel frowned, seeming a little impatient.

However, she snorted and didn't continue to worry about it. She just said: In the End Phase, the Samsara Lotus in the GY is resurrected. Then I use the Samsara Lotus as a sacrifice again to maintain the existence of Yubel on the field.

The lotus bloomed again, but then it was absorbed into Yubel's body on the field as the golden light turned into nutrients.

According to the animation plot, after Yubel was destroyed, there were two upgraded evolution forms, namely Yubel Terror Incarnate and Yubel The Ultimate Nightmare.

But it stood to reason that those should be the new forms that Yubel obtained after being launched into the sky by a rocket in the future and blackened.

In other words, the form in front of him should already be her trump card.

In that case, it would be much easier to solve than Yubel in the later stage of the animation.

My turn, draw. Yuei Vu said, Summon Elemental HERO Liquid Soldier!

There was a burst of water, and the WATER attribute hero wrapped in tights came to the field, and the water swirled around him.

[Elemental HERO Liquid Soldier, ATK 1400]

Yubel frowned: The hero which is added to the hand last turn

The effect of Liquid Soldier! Yuei Vu said, When this card is Normal Summoned: I can target 1 Level 4 or lower HERO monster in my GY, except Elemental HERO Liquid Soldier; Special Summon it.

Resurrect! Elemental HERO Shadow Mist!

Liquid Soldier stretched his five fingers towards his side, and the water swirled into a clear vortex on the ground. A cloud of pitch-black mist flew out, condensing the posture of a female hero wrapped in tights.

[Elemental HERO Shadow Mist, ATK 1000]

The effect of Shadow Mist. Yuei Vu waved his hand, If this card is Special Summoned: I can add 1 Change Quick-Play Spell Card from my Deck to my hand. What I want to choose to add is Mask Change!

Watching Yuei Vu continue to operate, showing that signature Quick-Play Spell, even Yubel began to feel a little bad.

Although she hadn't seen it with her own eyes before this duel, she had heard of the name of the Duel Kings signature Masked HERO series.

Switch the form during the battle, and transform into a masked hero with different attributes and different effects to fight? Yubel thought about it.

But now the heroes on Yuei Vu's field only had DARK and WATER attributes. She has seen the Masked HERO of the WATER attribute just now, so it was possible that the one who would transform next was the DARK attribute

Unexpectedly, Yuei Vu didn't play that card but showed another card in his hand.

Spell Card Fusion Substitute!

Yubel was shocked: Fusion Substitute?

Fusion Substitute, a Spell Card that was treated as Polymerization by the rules. Any effect that affected Polymerization could also be applied to Fusion Substitute.

And not only that, even when building a deck, the total number of copies of Fusion Substitute and Polymerization that could be put into the deck was only three, which were regarded as the same card in the true sense.

Fusion Substitute can be used as Polymerization, but it cannot fuse monsters in the hand, and can only use monsters on the field as materials for Fusion Summoning.

Yuei Vu pointed to the two water heroes on the field.

I fuse Elemental HERO Bubbleman and Elemental HERO Liquid Soldier!

Bubbleman and Liquid Soldier both flew up, turned into two jets of water, ascended alternately, shot into the air together, merged into the vortex of magic power, and erupted with shining brilliance and brilliant ice crystals.

In an instant, ice and snow flying all over the space, and endless severe cold swept the audience against the ground as if paving the way for an unparalleled hero among the heroes who was about to arrive in the ice and snow storm.

The fusion condition is 1 Elemental HERO monster + 1 WATER monster!

Yuei Vu raised that card this was also the first time since he got this trump card, he was able to take it out for a formal fight.

And Yubel also became the first duelist in history to be sanctioned by this eldest brother of Elemental HERO!

Born from the cold abyss, the hero who dominates everything with absolute power of ice and snow Elemental HERO Absolute Zero! ! !

Chapter 429: What Are You Going To Do With Me?

Emerging from the storm of ice and snow, with the whole body covered with silver armor, and the cloak as white and flawless as snow, the hero embraced his arms. And when he landed, snowflakes were flying all over his body, ice crystals burst, and transparent waves spread out from under his feet.

Elemental HERO Absolute Zero, ATK 2500

Yubel's expression changed slightly. But she concealed it well, and only made a disdainful snort: The attack power is only 2500, a monster of this level

That's what she said, but the attack power of 2500 always made her feel a little bad

In addition, as a dueling monster spirit, she was more sensitive to the strength and hidden abilities of each monster.

For example, at this moment, she could feel that the hidden abilities of this unheard-of snow-white hero in front of her may not be at the same level as those of the heroes who appeared before!

Because he hasn't been able to open Absolute Zero from the system card pool, Yuei Vu asked Tenma Yako to help find a way a long time ago, to see if the Industrial Illusions could develop this ice-themed hero.

His proposal was also very reasonable. Because now he already had five fusion Elemental HEROes corresponding with the five attributes of EARTH, FIRE, WIND, LIGHT, and DARK, so, of course, there should be a WATER fusion hero.

But Yako's team encountered considerable resistance during the development, consumed a lot of resources, and failed many times.

It could also be seen from this side that the WATER hero was much stronger than other attribute heroes.

Once it was completed, it would definitely be a hero who could act as the face of the Elemental HERO series!

So with the unremitting efforts of Yako the obedient fanboy, the trump card of the Elemental HERO, the eldest brother known as Absolute Zero, finally ushered in the opportunity to make his debut in this world!

"

"

The effect of Fusion Substitute in the GY is activated! A spell card popped up in the GY area of Yuei Vu's Duel Disk, Banish this card from my GY, then target 1 Fusion Monster in my GY; return it to the Extra Deck, then draw 1 card.

Yuei Vu showed another card that popped up from the GY: I return Masked HERO Vapor in the GY to the deck. Then draw a card from the deck.

After drawing cards, he didn't even look at the cards he had drawn, and immediately revealed the cards that had been retrieved in his hand by the effect of Shadow Mist.

Quick-Play Spell Mask Change. Yuei Vu played the card in his hand, Send 1 HERO monster I control to the Graveyard, then Special Summon 1 Masked HERO monster from my Extra Deck with the same Attribute.

I send Elemental HERO Absolute Zero to the GY, transform!

Reborn in the ice and snow, let's show up again! Masked HERO Vapor!

Transform using the newly fused monster!?! Yubel was puzzled.

*To use Mask Change, you only need to use a HERO monster with the same attribute. Both Bubbleman and Liquid Soldier can be transformed. Why did he specifically summon this Absolute Zero hero?*

But she quickly understood.

At that moment, Absolute Zero put on his armor under the special effects surrounded by ice and snow and transformed into a blue and white masked hero.

Then boundless snow and ice released together with the special effects of the hero's transformation, mighty and mighty, like white gaseous billowing smoke and dust rushing towards Yubel.

Yubel's entire field was frozen. The two powerful monsters, Gazett and Yubel herself, had no room to resist in the face of this cold field that seemed to freeze even molecules. They were frozen in the blink of an eye, became ice sculptures, and then shattered into ice slag in the biting cold wind.

It seemed that even the air itself condensed as if in the duel field, even exhaling a breath would instantly form snow. It was a realm of absolute stillness dominated by extremely low temperatures, and nothing was immune to it.

Impossible! Yubel's pupils shrank, her face full of horror, How could such a thing happen!?!

The effect of Absolute Zero. Yuei Vu said lightly, When he leaves the field, all monsters on the opponent's field will be destroyed!

If it was Yubel who returned from the depths of the universe in the future, after she was destroyed on the field, she can also special summon her second form Yubel Terror Incarnate from the deck.

Of course, she obviously didn't know how to do this now.

This also meant that this was the end of this duel.

Battle! Yuei Vu said, Masked HERO Vapor, attack directly!

Masked HERO Vapor, ATK 2400

The masked hero of water flew out stepping on the ice crystals everywhere, with the surging water waves behind him. The sharp blade cut out water-colored tracks, as if cutting through the frozen air, and slashed past Yubel.

Yubel, LP 1600 LP 0

The demon lady was knocked to the ground head-on under the power of the hero's strike. Her wings wrapped around her body instinctively to protect herself, and she rolled several times, like a black ostrich egg.

Yuei Vu put away the Duel Disk, and the image of the water-blue hero disappeared from his side.

"

"

Maybe it was an illusion, but he felt that this Masked HERO Vapor seemed to nod to him before disappearing?

Yuei Vu was a little surprised.

*Could it be that the spirit that Paradox mentioned is Vapor?*

He picked up this card and studied it carefully, but it didn't seem like hosting a spirit either.

Yubel spread her wings and sat on the ground in a daze for a while as if it was difficult to accept this fact for a short time.

*Did I lose?*

*I actually lost to a duelist in this world?*

However, she quickly came back to her senses and raised her head in confusion: You are holding back just now, right?

Um?

Why didn't you kill me? Yubel frowned.

Different from Judai who was reincarnated and reborn, Yubel had memories of her previous life.

The world in their previous lives was much more chaotic than the peaceful world of the present. Therefore, in Yubel's view, it was perfectly normal for people to be inferior in skills.

"

"

As Lu Xun once said, If you are killed, you will die (Lu Xun: I never said that), in Yubel's perception, If you lose a card game, you should die!

It was also because of such a deep-rooted concept that she greeted all those who have won against Judai with nightmares. Because she felt that all those people were potential threats to her beloved Judai.

Yuei Vu rolled his eyes.

*Kill you?*

*Then what should I say to my precious apprentice? Sorry, I accidentally kill your girlfriend?*

Actually, even if Judai was not the protagonist, Yuei Vu was quite fond of this little jellyfish head after spending so many days together.

Yubel was more or less the destined partner of Judai, so he would let her go for the apprentices favor.

*Of course, if you dare to attack Master at night, you cant just let it go.*

*Punishment is still necessary.*

Yuei Vu looked up and down Yubel who was slumped on the ground, thinking about what benefits this spirit could squeeze out.

This spirit card was definitely out of consideration after all, Yuei Vu had the moral of a master, and he would never desire the body of his apprentices girlfriend.

Besides, it was absolutely impossible for Yubel to be with anyone other than Judai.

Speaking of which, the Duel Disk that Yubel used to play cards just now was quite interesting.

Her Duel Disk seems to have been transformed directly from her body, and it is different from the future technology Duel Disk. It seemed to be a metaphysical creation. This is the first time Yuei Vu has seen the Duel Disk on the side of metaphysics, and he was a little interested

However, Yubel misunderstood Yuei Vus sweeping eyes, she covered her body with her wings in horror, and asked vigilantly, You What are you going to do with me?

Chapter 430: A Curious Spirit

You What are you going to do with me?

Seeing Sister Yubs vigilant face protecting her body with her wings, Yuei Vu couldnt help but want to roll her eyes.

Why such a big reaction? Make it look like Im some kind of dirty old man plotting against a little girl.

Besides, I dont even know if you are a man or a woman, who would be interested in you?

At this time, Yuei Vu suddenly remembered Yuei Cannot Escape Fae, who might be throwing wild balls at the headquarters of the Nightcrawler World at this moment, and suddenly felt he was really uncertain

Yuei Vu asked: Can I have a look at the Duel Disk you used just now?

Yubel was surprised.

Whats so cool about a Duel Disk? Have you ever seen one?

But after all, she was now a defeated opponent, and the Duel Disk was not something to be scorned, so she frowned and showed the Duel Disk on her arm.

Huh? Yuei Vu began to study, There are no buttons, and there are no mechanisms. Is it operated by the mind? Or by magic?

Yuei Vu has already wondered if he could unplug this thing and show it to the president. Such a metaphysical Duel Disk, the president would definitely like it

Hey, I didnt allow you to touch it! Yubel put back the Duel Disk on his arm.

Stingy. Yuei Vu shrugged, Is this part of your body? Cant you pull it out?

Yubels eyes became more alert, his arms retracted into the wings, tightly wrapped around her body, and she looked at Yuei Vu with the eyes of Dont you dare to touch my body.

Its not interesting.

The Duel Disk couldnt be pulled out, and the spirit card couldnt be taken away, Yuei Vu started to look at Yubel with disgust.

You are the most popular boss in GX, why are you so poor?

It feels like a thief mugging a civilian but searched all over, he found that the target was even poorer than him

No, strictly speaking, Yubel was the one who wanted to rob in this case. Its just that she was not skilled enough so the hunter become the hunted.

With the mentality little is better than nothing, Yuei Vu said: Okay, okay, then leave your deck, and I will let the past go.

Yubel:

Dont worry, I dont want your main body. Yuei Vu was impatient, You lost the duel, so you must pay some price, right?

In fact, except for the card that host Yubels spirit, this deck was worthless at all, and Yuei Vu didnt really want it. Its just that Yubel asbushed him, even if she was the spirit partner of Judai, but she couldnt justify it without showing an altitude.

Yubel also seemed to agree with this truth. It seemed that her deck was indeed worthless, so she didnt resist, and obediently pulled out the deck and gave it to him.

She handed the deck of cards to Yuei Vu and squinted her eyes at the same time: Are you serious about being the teacher of Judai?

This was a world where cards were the most important thing, especially the dimension where Yubel lived in her previous life. After being taught by Yuei Vu through playing cards, Yubel was now convinced and willing to communicate with him.

She has recognized Yuei Vus strength now and felt that others seem to be a good guy. Obviously, there was a chance to get rid of her but he didnt do it, and it didnt seem like he had any unruly plans for Judai.

Maybe, let Judai be his apprentice Isnt it impossible to consider?

Although Yubel was confident that the power contained in Judai was invincible in the world, she had to admit that the current Judai was still too young and it would take a long time to grow up.

Protecting Judai from any threat in this world especially to prevent the power of the Supreme King contained in his body from being targeted by those who want to steal it, was also Yubel's main mission.

Originally, she was very confident that she could complete this mission alone, but now after being hammered by Yuei Vu, her overwhelming confidence has been slightly restrained.

This time she lost to Yuei Vu, so next time, how could she guarantee that when other strong duelists come to attack Judai, she would be able to repel them?

Your infatuation with Judai is quite touching, but it's too much. Yuei Vu said, As you said, this is a peaceful world. Duel is not only a way of fighting but also a way for ordinary people to entertain. Making people who have dueled Judai fall into a coma

Hmph, you don't have to worry about our affairs. Yubel snorted and seemed to have no intention of improving.

Yuei Vu focused his eyes: If you continue like this, be careful not to be rejected by Judai. When he finds out the truth and can't bear it, what do you think he will do? Maybe he will dump you, don't you think so?

Yubel froze for a moment, blinked those beautiful heterochromatic pupils, and seemed to really examine the possibility for a few seconds.

Will I be dumped by Judai?

Just thinking about the possibility terrified her.

But she quickly shook her head and pouted arrogantly: Huh! That's impossible! Judai will never, ever abandon me! His love belongs only to me!

Yuei Vu:

All right, I already do my best.

When the time comes you will go to the sky, don't say I didn't warn you

In the end, Yubel left the mansion and flew into the night, and couldn't help turning her head to look in the direction of Yuei Vu in the room from a long distance away.

This Duel King named Yuei Vu seemed a little different from what she had imagined.

Yubel became a little bit curious about him.

Why does he have so many cards that do not belong to this world like me?

Why would he know my monster effect?

Why can he be surrounded by so many spirits?

When Yubel left, her head was full of doubts, and she felt that the Duel King was becoming more and more unpredictable. However, the more so, the more curious she became.

It was possible that the desire to explore and seek knowledge was applicable to any intelligent creature.

When she was facing Yuei Vu, she just felt that she couldn't feel the darkness in her heart from this person.

Perceiving and utilizing the darkness in other people's hearts, using hypnosis, manipulating the mind, and even directly seizing the body, were all Yubel's usual tricks, which could be said to be her exclusive ability. She was rarely unable to perceive darkness in people's hearts.

If it was said that there was no darkness in Yuei Vu's heart, then she absolutely did not believe it, after all, there was no such person in the world.

In contrast, she felt that there might be some kind of mysterious and powerful power that she hadn't seen through yet, which covered Yuei Vu's heart so that she couldn't see through it.

even more curious!

It's that unbearable itching feeling.

Thinking of this, she couldn't help but want to attack at night again. It's just that this time it's not the kind to get rid of Yuei Vu, but to tie him up and study what kind of secrets are hidden in him.

Unfortunately, she can't beat it.

So angry!

After Yubel left, Yuei Vu stood by the window for a moment, then suddenly turned his head.

Have you seen enough?

Tilla, dressed in a tight maid outfit, appeared from an inconspicuous corner of the room, and lowered his head embarrassedly: Master Yuei Vu's move just now was absolutely amazing, with superb skills and extraordinary strength like a god.

Have you finished washing the dishes?

Tilla's smile froze instantly as if she had received a blow.

She closed her mouth knowingly and said nothing, turned her head, and went back to the kitchen.
