

I Play Yu-Gi 451

Chapter 451: I'm So Angry That I Want To Duel

Boom!

With a muffled sound, the coffin board was violently blasted away from the inside.

Everyone paused, and the screwball players couldn't help but look sideways.

From behind the blasted coffin emerged a mummy. The white linen was wrapped around his body like a bandage, and part of it seemed to have fallen off due to activities, and it was dragged on the ground behind the mummy for a long time, which looked very strange.

The mummy stood firm, but probably because it hadn't controlled its physical body for three thousand years, its footsteps still seemed a little stumbling, like a drunk.

The linen cloth on his front has fallen off, revealing the sunken eye sockets and black-holed mouth, which looked like an endless abyss, staring at everyone in front of him with the will of Death.

Anubis felt that his appearance should be regarded as grand enough and oppressive.

But compared with what he expected, the attitudes of the intruders in front of him also seemed a little too calm.

Hey, Brother Fae, Native Noragami poked Fae who was buried in a box looking for valuables, He seems to be awake.

Miss Yuehua hugged her chest even though she has nothing to hug: It feels so disgusting

Coke Sprite met the eyes of the mummy for a moment, and then turned her head instinctively with a hey.

Like a normal physiological reaction to seeing cow dung.

Although he just got out of the coffin board, Anubis felt that he might be pissed off by these psychopaths again.

Im a mummy! Three thousand years old! Just got out of the coffin, right in front of you!

Can you at least pretend to be afraid?

What happened to this world? Three thousand years have passed, are the little thieves who rob graves so arrogant now?

Not only do they come in and just rummage through the boxes, but even if the owner of the tomb climbs out of the coffin, they also don't care.

You finally appeared, the king of destruction, Anubis. Yuei Vu glanced at him.

The mummy turned her head and turned to Yuei Vu.

He brewed for a moment, and suddenly a dark storm rolled up on the ground. The power seemed to turn into a quagmire, floating from the bottom of the mummy's feet.

A substance like black mud crawled up his body, gradually attached to the surface of his body, solidified and transformed into rock-like solid skin, leather clothing, golden hair, and a domineering white cloak.

In just a short moment, the mummy has regained its human form and transformed into a burly man with brown muscles.

My name is Anubis!

He shouted in a low voice, and at the same time a terrifying wave of air erupted from his body, trying to deter these ignorant people.

The BOSS has appeared! Fae was very excited.

Snow Wave looked at Yuei Vu: Yuei Vu-san, we

Its okay, you guys move on. Yuei Vu waved his hand and stepped forward, Leave this guy to me.

A BOSS at the level of Anubis was impossible for these tool people to beat.

Yes! Yuei Vu-san!

Seeing a group of screwballs completely ignoring him and continuing to rob the tomb as if no one else was there, Anubis suddenly felt like his lungs would explode

Miss Yuehua certainly didnt forget the business.

Live streaming!

Yuei Vu-san VS the boss of the Pyramid of Light movie!

This wave must be hot!

Anubis suppressed his anger, and stared at Yuei Vu coldly: Are you a strong man in this era? Hehe, thats fine. Its been three thousand years, and it seems that the fools in this world have forgotten my name.

Then at this moment, let you see your own stupidity!

Having said so much, its time for a duel, right?

Yuei Vu opened the Duel Disk, and the intelligent Duel Disk quickly and automatically shuffled the deck.

He looked around.

Hmmyou have a deck, right?

Anubis gave him a cold look, and his gaze stayed on the high-tech Duel Disk for a moment.

So thats it. Is this the weapon for future rituals? He snorted lightly.

Then the muscular man stretch out his hand, turned his palm over, and black air billowed, and soon a deck of cards appeared, suspended in midair out of thin air.

I dont need this kind of tool. Anubis said coldly, Come and let me experience how the warriors have grown after three thousand years.

Because it was an ancient boss, Yuei Vu originally thought that this guy would take out forty stone slabs to fight him, but it turned out that he seemed to think too much.

Also, when Anubis appeared to play cards at the end of the movie, it seemed that he changed cards out of thin air and came out to duel with Yugi?

It seems that even the ancient bosses are advancing with the times. After all, things like stone slabs have been eliminated in modern times.

Duel!

Yuei Vu, LP 4000

Anubis, LP 4000

Then, I will start the duel first.

Five cards appeared out of thin air in front of Anubis, floating in front of him. With a wave of his arm, the positions of the five cards moved slightly to the right, and a new card appeared in midair.

It looked like a normal draw.

First, I call a minion to take a dormant state.

While speaking, a card emerged horizontally and appeared on his field in a covered state.

Set two magic spells on the field.

As he spoke, two set cards also appeared in the magic trap area in front of him.

Yuei Vu understood. Translating to modern language, it was Set a monster, then set two S/T cards.

No one can't fight in the first round of the ceremony, so this round is over.

Then it's my turn, draw. Yuei Vu proceeded in the way he was familiar with, The first is the Spell Card Reinforcement of the Army! Add 1 Level 4 or lower Warrior monster from the Deck to my hand.

The card I want to add to my hand is Elemental HERO Stratos!

A card in the deck popped up automatically, and after Yuei Vu took it, the deck was quickly and automatically shuffled.

Summon Elemental HERO Stratos!

A white whirlwind, a high-tech armored warrior appeared on the field, and the two turbines behind him were fully activated, and the buoyancy provided lifted the hero in mid-air.

Elemental HERO Stratos, ATK 1800

Stratos effect! Yuei Vu said, When this card is Normal or Special Summoned, add 1 HERO monster from my Deck to my hand. I choose Elemental HERO Avian.

Another card popped out of the deck, and he took it out into his hand. The deck was automatically shuffled again.

Next is Field Spell Fusion Gate!

The Spell Card was absorbed into the field area of the Duel Disk from the side. The power was released, and it turned into a huge black vortex entrenched in mid-air, like a rotating black hole.

As long as the Fusion Gate exists on the field, Fusion Monsters can be Fusion Summoned without using Polymerization. However, when performing Fusion Summons in this way, Fusion Material Monsters are removed from play instead of being sent to the Graveyard.

Yuei Vu showed two cards in his hand.

Through the effect of Fusion Gate, I fuse Elemental HERO Avian and Elemental HERO Burstinatrix in my hand!

Fusion Summon! The Elemental HERO on the top of the skyscraper descends here

Elemental HERO Flame Wingman!

Chapter 452: Forcibly Repatriated

With a green body and dragon-head-like arms on his wrists, the hero flies out on a gust of wind, spinning at high speed, and is surrounded by a storm of flames.

Elemental HERO Flame Wingman, ATK 2100

Battle! Yuei Vu waved his hand, Elemental HERO Flame Wingman, attack the face-down monster!

The Flame Wingman flashed his white wings, his body flew up, and his long tail swung behind him. His body wrapped in flames was like a cannonball fired towards Anubis field.

Hmph. The King of Destruction sneered lowly, and raised his palm, At this moment, you have stepped into the trap set in my domain Ordeal of a Traveler!

The set card in his back row was flipped, and it turned out to be a Continuous Trap card.

Ordeal of a Traveler: When an opponents monster declares an attack: Your opponent chooses 1 random card in your hand and calls the type of the card (Monster, Spell, or Trap), and if they call it wrong, return the attacking monster to the hand.

In DMs original animation, Yugis grandfather Sugoroku Muto also used this card.

Come on, lets choose. Anubis stretched out his palm, and the three cards hovered in his hand, The one you chose is a monster? A spell? Or a trap?

Three cards in hand Is it pure luck?

Then I will choose that card. Yuei Vu pointed to the leftmost card of Anubis, I guess it is a Spell Card.

Spell? Anubis snorted and smiled, his fingers moved slightly, and the card suspended in midair turned over.

Although it was far away and the tomb was poorly lit, Yuei Vu couldnt see what the card was, it was clearly recognizable from the card picture and color that it was a monster card.

It seems that you failed the test. Anubis sneered, The trap you triggered will cause your servant to be forcibly repatriated. Disappear for me!

The Flame Wingman who sprinted halfway stopped stiffly as if hindered by an invisible force, and the flames burst out all over his body. With a low hum, he turned into a beam of flames and was returned to Yuei Vu deck.

Ordeal of a Traveler would bounce the attacking monster back to the owners hand. But because the Flame Wingman was a Fusion Monster, it would be returned to the Extra Deck.

The effect processing was over, and the card shown by Anubis was also flipped back. The four cards in his hand quickly mixed up, shuffled, and exchanged positions, and when they were scattered again, it was impossible to tell which card was just now.

Although there was still Elemental HERO Stratos on Yuei Vu field who could attack, even if the defensive monster was destroyed, it could not cause damage to the opponent.

Conversely, if Stratos was bounced back to his hand with the effect of Ordeal of a Traveler, then Yuei Vu field would be empty in the next round.

I end my turn. Yuei Vu temporarily gave up the pursuit.

Hmph, just this extent? To be honest, its a bit disappointing. Anubis snorted, But before your battle is over, I will take the initiative to trigger this other trap!

He waved his finger and pointed to another set card in front of him, which flipped over with a burst of thick black air, as if there was dark red blood dripping along the frame.

Continuous Trap Ultimate Offering!

Take my blood as the price, and sacrifice the servants who are moving forward! Anubis yelled, Call the more senior servants in my hand, and stay in the latent state!

Anubis, LP 4000 LP 3500

While speaking, the monster in front of him also disappeared with a whirlwind of white as a sacrifice.

It was replaced by another face-down monster.

Then its my turn. Anubis continued.

The top card of the deck suspended in the black mist next to it disappeared out of thin air, and was teleported and suspended in front of Anubis.

After drawing cards and adding them to his hand, Anubis then waved his palm to his field.

Hidden servant, show your true form!

Yuei Vu quickly understood that Anubis operation should be Flip Summon the face-down monster on his field.

The card was turned over, and what was projected from that card was a golden, huge sculpture with a huge and sturdy body and a resolute face. The majestic expression made people feel as if it was inviolable.

Guardian Sphinx, DEF 2400 ATK 1700

The ability of Guardian Sphinx. Anubis said, The moment it releases its latent state, all the opponents servants will be forcibly repatriated!

Guardian Sphinx: When this card is Flip Summoned: Return all monsters your opponent controls to the hand.

The statue released a dazzling golden light, covering the Stratos on the Yuei Vu field. Stratos raised his arm to protect his face, but it was still hard to resist, and turned into a bunch of golden light and returned to Yuei Vu hand.

Yuei Vu frowned.

Guardian Sphinx This Anubis really has some troublesome things in his hands.

This thing had a defense power of 2400, and every time it was Flip Summoned, it could bounce all the opponents monsters back to the hand. Whats even more irritating was that it also had the effect of Once per turn: You can change this card to face-down Defense Position.

That was to say, it could bounce back all the opponents monsters once every round, which was significant in the card-playing environment many years ago.

Yuei Vu remembered that one of his friends who played cards with him when he was young especially liked using this monster.

Then then Yuei Vu summoned his fist to duel physically with that little friend for 300 rounds

You who have lost all your servants are defenseless! Anubis shouted, Go, Guardian Sphinx! Attack directly!

The head of the golden sculpture actually moved slightly. A golden light beam shot out from those eyes, like a penetrating impact, hit the place where Yuei Vu was head-on, and with a boom explosion, the thick black smoke exploded.

Yuei Vu, LP 4000 LP 2300

Yuei Vu was knocked back a few steps by the impact, his knees slightly bent, and he couldnt help poking his lips.

As expected of the King of Destruction, the impact of the incidental damage in the duel was really not weak

Then activate another ability of Guardian Sphinx. Anubis said, Every round, it has a chance to return to the latent state.

After the voice fell, the huge golden sculpture disappeared from the field. The huge Sphinx sculpture was retracted into a small card and placed back on the field in a covered state.

Set another magic spell, and this round ends here.

Anubis waved his hand, and there was another set card at his feet.

Chapter 453: King of Destruction

Yuei Vu stood up straight again and carefully looked at Anubis opposite him.

In the animation, he only entered at the end of the duel between Yami Yugi and the president. He has fought for only a few minutes, and it was almost impossible to see the deck configuration.

But one thing was for sure, this guy is strongvery strong.

This can be seen from several details.

For example, he could secretly influence the spirits of Pegasus and Kaiba, and induce everyone to act according to the script he planned.

For example, his signature card, Pyramid of Light, the extraordinary power contained in that card was so powerful that it could not be shaken even by the Millennium Puzzle, and could even erase the Three Egyptian Gods.

In the movie, at the moment the Pyramid of Light was activated, all the three Egyptian Gods on Yugis field were instantly wiped out, and they were directly removed from the game.

It stood to reason that the Three Egyptian Gods were not affected by the effects of trap cards. So from the perspective of the real card rules, there were only two possible explanations for the Pyramid of Light being able to obliterate the three Egyptian Gods.

The first possibility was that removing the Three Egyptian Gods from the game was not the effect of this card, but the price that needed to be paid to activate this card. This was the same nature as Kaibas summoning the Blue-Eyes White Dragon by tributing Obelisk, and the Egyptian God was paid as the price required for the activation of this card.

The second possibility, remove the Three Egyptian Gods from the game, was the extra-effect text written on this card, and it is not the effect of this card.

In laymans terms, it meant When the Pyramid of Light exists, the Three Egyptian Gods must be removed from the game. This sentence itself was a rule written on the Pyramid of Light card, not a card effect.

But no matter what kind of explanation, from the perspective of animation, it was enough to prove that the Pyramid of Light had a power that could at least rival the three Egyptian Gods, and may even be higher.

As its owner, it could be foreseen that Anubis should at least have the strength equivalent to a Rank 10 duelist, which cannot be underestimated at all.

My turn, draw.

It was also thanks to the opponent that Brother Sky was bounced back to his hand so that he could use it again.

I summon Elemental HERO Stratos again!

There was an invisible whirlwind, and the high-tech hero with a full body of exoskeleton armor came to the field again, with the turbine behind him rumbling.

Elemental HERO Stratos, ATK 1800

Stratoss effect! Yuei Vu said, When this card is Normal or Special Summoned, add 1 HERO monster from my Deck to my hand. What I want to add to the hand is the Elemental HERO Liquid Soldier!

A card popped up in the deck, and after being taken away by him, the deck was quickly and automatically shuffled.

Then Im going to use the effect of Fusion Gate here!

Yuei Vu raised his hand, and the dark vortex above his head released lightning, as if roaring in a deep voice.

I fuse Elemental HERO Stratos on the field and Elemental HERO Liquid Soldier in the hand!

The fusion condition is 1 Elemental HERO monster + 1 WATER monster!

Fusion Summon! Born from the cold abyss, the hero who dominates everything with absolute power of ice and snow

Elemental HERO Absolute Zero!

Stratos and Liquid Soldier turned into two beams of light and flew into the air, disappearing into the vortex of chaos. The blue-white light erupted from it and fell from the sky, bringing a world of ice and snow.

The pitch-black tomb seemed to be dyed pure white in an instant, and the icy wind and snow rolled up out of thin air. The hero, dressed in silver-white armor and a fluttering cloak, descended lightly with his arms around him. The moment the toes touched the ground, the ground under their feet condensed into transparent ice crystals.

Elemental HERO Absolute Zero, ATK 2500

The effect of Elemental HERO Liquid Soldier. Yuei Vu said, If this card is used as Fusion Material for a HERO monster, and sent to the GY or banished: I can draw 2 cards, then discard 1 card.

Yuei Vu drew two cards, glanced at the cards in his hand, then drew one and discarded it to the graveyard.

It is indeed a powerful servant. Anubis said calmly, It is enough to break the guardians defense line.

But even if the defensive Guardian Sphinx was destroyed, it could not cause damage to Anubis himself.

But Yuei Vus operation was not over yet: Quick-Play Spell Mask Change! Send 1 HERO monster I control to the Graveyard, then Special Summon 1 Masked HERO monster from my Extra Deck with the same Attribute!

I sent Elemental HERO Absolute Zero to the GY, transform!

Masked HERO Vapor!

"

"

Surrounded by ice and snow, gorgeous silver-white transformation effects cover the extremely cold heroes with brand-new armor. Blue-and-white armor encased his torso and torso, and the helmet was worn, and the heros eyes lit up with a scarlet gleam.

Masked HERO Vapor, ATK 2400

Anubis frowned: Give up a more powerful servant?

The effect of Absolute Zero. Yuei Vu quickly explained, When he leaves the field, all the monsters on the opponents field will be destroyed!

Boundless cold air was released, and the power of ice and snow erupted from under Wushui's feet, sweeping at a speed visible to the naked eye. The Guardian Sphinx set on Anubis' field was frozen into ice and shattered into dust without even having a chance to flip it over.

I see, it is indeed quite powerful. Anubis said, But as long as my trap Ordeal of a Traveler exists, your attack is still limited.

Of course, Yuei Vu also knew this kind of thing: Quick-Play Spell Mystical Space Typhoon! Destroy the Ordeal of a Traveler!

The dark storm rolled up, and the continuous trap card on the opposite field was rolled up into the air, and it was torn into pieces in mid-air.

In this way, there will be no restrictions on attacking. Yuei Vu said.

Hey, you have some skills, Anubis said.

Battle! Yuei Vu said, Masked HERO Vapor, attack the player directly!

Vapor stepped on the blue water flow under its feet, flying forward like riding the wind and waves. He stepped on the waves, and the silver dagger in his hand drew a clear line of water, and went straight to Anubis' neck.

Anubis narrowed his eyes slightly, hooked the corners of his mouth, and let out a dull and cold laugh.

Let me give you a special experience, the power that surpasses the gods and ends the world!

He raised his arms high.

Activate it here now, let's come to this world again

Pyramid of Light!

The last set card in front of him was turned over, a red trap card, and the moment it stood up, the card released an unbelievable divine light.

The space trembled, gravel and dust rustled down from the top. The entire tomb began to scream, as if an invisible balloon was rapidly inflating and about to burst the container.

The laser drew a cross on the ground and circled a huge field. The white light began to build a huge building within the delineated area, including the entire site where the two sides fought, isolating the collapsed tombs and falling rocks from the outside world, and even the sound was isolated.

It seemed that the power of this card created an independent duel space. No one could leave here until the winner was decided.

Here is the Pyramid of Light.

That is the realm of judgment that even the gods cannot touch.

Chapter 454: Sphinx

Pyramid of Light, activate!

The field of light suddenly appeared, the huge crystal pyramid, and at the same time as the venue changed, Yui Vu felt an extremely strange sense of oppression, an illusion as if the soul was being grabbed by someone and bound by something.

A powerful force that could rival the level of The Seal of Orichalcos used by Dartz back then.

The entire venue of the duel was wrapped in a pyramid, and everything except the two dueling parties was isolated, even the tomb itself.

Of course, several of the onlookers in the front row were also isolated outside the pyramid. Unfortunately, they couldn't continue to watch the duel.

And the animation performance of this Pyramid of Light was also very confusing.

Although it was not written on this card, during the duel, Kaiba tried to use the effect of Blue-Eyes Shining Dragon to destroy the Pyramid of Light but failed.

As if the card was unaffected by any card effects.

However, outside of the duel, Yugi Muto found the stone slab engraved Pyramid of Light in the maze of memories inside the Millennium Puzzle. After he threw a dagger to destroy the slab, its resistance was magically gone.

So the animation performance of this card was very puzzling. It seemed that this Pyramid of Light was protected by some kind of metaphysical power beyond the dueling rules

But after all, its power was enough to match the Egyptian God, so it didn't seem strange to have this level of power.

And the power contained in this card was of course not just that.

At the same time that this trap was activated, Anubis' body also underwent slight changes. A piece protruded from his fleshy chest, and what appeared to be the shape of a pendant appeared.

That part of the body gradually turned into a bright crystal, condensed into the shape of a pyramid, the central part is a bright red magic eye, and the bewitching red light carries an indescribable coercion.

It seems that when the Pyramid of Light was launched, it also means that Anubis unsealed his true power!

When the Pyramid of Light exists on the field, Anubis said in a majestic voice, these two powerful monsters can be summoned directly.

Bring it on! Andro Sphinx, Sphinx Teleia! (animation effect)

After the voice fell, two cards flew out of Anubis' deck floating on the side. Obviously, the animation effect here was that when the Pyramid of Light existed, these two monsters could be specially summoned from the deck.

In fact, Anubis has been considered to save face here, at least he was specially summoned from the cdeck. You must know that when Anubis played cards with Yami Yugi in the animation, these two monsters forcibly entered the game from outside the deck

First came Andro Sphinx. It was a lion-faced monster with a male figure, strong muscles, and blue armor, but it had the face of a lion.

He has golden hair, sharp fangs in his mouth, mucus was wrapped around his teeth, and he spits out a foul smell from his mouth.

Appearing beside him was a woman with red hair and a seemingly pretty face but only her face. Her body was that of a reptile with white wings, and a thick silver chain was tied around her neck.

Human face and animal body, this was Sphinx Teleia, another monster summoned by the power of the Pyramid of Light.

[Andro Sphinx, ATK 3000]

[Sphinx Teleia, ATK 2500]

Regardless of which of these two, Masked HERO Vapors attack power could not break through.

Then the Battle Replay occurred, and my attack is terminated. Yuei Vu drew a card from his hand, Set a card, I end my turn.

That's right, that's it, it's fine to be powerless before the absolute power of the King of Destruction. Anubis sneered, My power is beyond your comprehension!

It's my turn again!

Another new card appeared out of thin air in front of him.

Now let you feel it with your body. Anubis raised his eyelids, Sealed in this secret pyramid, the absolute power of the divine beast of punishment!

Come on, Andro Sphinx, and make that blue warrior your food!

Andro Sphinx let out a roar, and rushed forward with a roar. He opened his bloody mouth wide, and his thick arms swept towards him.

Vapor tried to block, but the opponent's strength was too strong, and he was knocked to the ground on his back through the armor. The mucus-wrapped fangs snapped at his shoulder.

Open the set card! Yuei Vu flipped the card in front of him, Trap Card Impenetrable Attack! During the Battle Phase, I can choose to activate 1 of these effects: Making 1 monster on the field unable to be destroyed by battle or by card effects during this Battle Phase, or I take no battle damage during this Battle Phase.

I choose to make Masked HERO Vapor unable to be destroyed by battle or by card effects!

Anubis snorted: But you still have to bear the injury yourself.

The power of the trap added an invisible defense to the Masked HERO, barely resisting the lion-masked attack. But the aftermath of the opponent's power still swept to Yuei Vu, shaking him slightly.

It was a pain that was different from the previous Shadow Games it was more intense than before after the Pyramid of Light was launched. It felt like a cold dagger pierced through the body and pierced into the depths of the soul, and a piece was dug out of it, turned into nourishment, and absorbed into this huge pyramid.

Yuei Vu, LP 2300 LP 1700

Then comes the attack of Sphinx Teleia!

Poor Vapor bumped into the oncoming monster before he could stand still. Teleia slammed him to the ground with her two front paws, and her entire body weight fell on Vapor. A small cherry mouth on the beautiful face opened suddenly, and instantly turned into a big mouth full of fangs and dripping with blood. Even the muscles of the face were stretched out of shape, looking extremely ferocious.

Of course, with the protection of the trap card, Vapor still survived this round of attacks.

Yuei Vu, LP 1700 LP 1600

At the end of the battle, the two mythical monsters returned to Anubis field one after another. The poor Masked HERO staggered to his feet and fell to his knees once when he got up.

Vapor was panting violently, and there were many trails of battle damage on the blue and white armor.

The two mythical monsters of the Pyramid of Light, regardless of their attack power and effects, the power contained in these two monsters was obviously beyond the reach of ordinary monsters.

For the sake of Vapor, fighting these two monsters with one enemy and two consecutive battles seems to be a little powerless.

But with his knees stuck, he stood up with difficulty.

Just like an indomitable knight.

Yuei Vu couldn't help but look at the hero's back, thoughtfully.

The subtle feeling that had appeared more than once in the previous duel reappeared. Yuei Vu felt that he seemed to feel a faint breath of spirit from Vapor at this moment, but when he felt it carefully, he felt that there seemed to be something different

Hmph, are you struggling to survive?

Anubis waved his arm, and two set cards appeared in front of him again.

My round is over.

Chapter 455: Curse of Anubis

My turn, draw! Yuei Vu glanced at the drawn card, Spell Card Spell Books from the Pot: Each player draws 3 cards.

Hmph, increase the chances of defeating my monsters? Anubis sneered, But that's useless. You are destined to be defeated by my monsters and become the nourishment of the secret pyramid here.

Yuei Vu ignored it: Come on, Elemental HERO Sparkman!

There was a flash of electric current, and the hero in blue tights and golden armor appeared on the field with a loud cry, and a wire-shaped electric current burst out from the armor.

[Elemental HERO Sparkman, ATK 1600]

Although it looked like a trash fish with no effect and mediocre attack power, but Sparkman, who has been fighting by his master's side for so long, seemed to have a different aura than before.

After all, he has also seen all kinds of great turmoils now, and this little scene couldnt scare him at all.

Quick-Play Spell Mask Change. Yuei Vu continued, Send Elemental HERO Sparkman to the GY, transform!

Cut through the darkness with the sharp blade and bring light

Masked HERO Koga!

Under the magic effect, Sparkman bloomed a golden glow all over his body. The special effect of the golden light turned into armor, which quickly attached to his body and turned into platinum armor. The shining brilliance outlined the sharp blade, and the blue eyepieces shone with a jewel-like luster.

[Masked HERO Koga, ATK 2500]

Well, he is indeed a good-looking warrior, Anubis said.

The effect of Koga! Yuei Vu said, This card gains 500 ATK for each monster the opponent controls!

Now there are Andro Sphinx and Sphinx Teleia on your field, so Kogas attack power has increased by 1000!

[Masked HERO Koga, ATK 2500 ATK 3500]

Anubis murmured: Has the attack power exceeded my verdict monster?

Battle! Yuei Vu said, Masked HERO Koga, attack Sphinx Teleia!

The power is strong enoughbut! Anubis shrank his pupils and raised his arms, At this moment you have activated my trap card Curse of Anubis!

The set card was turned over, and it was a red trap. The artwork was a weird jackal squatting on a golden coffin, and the dark and gloomy mist leaked from the card, sweeping the entire field.

Under the Curse of Anubis, all servants must be forcibly transformed into a defensive posture. Anubis clenched his huge fist, and sneered, And within this round, all their original defensive power has changed into 0, and their posture cannot be changed!

Koga, who hadnt taken a few steps just after receiving the attack command, stumbled and was forced to change to Defense Position under the power of the black jackals curse.

Vapor struggled to resist for a while and also crouched down under the force of the black mist to switch to Defense Position.

Even Anubiss own two monsters obediently lay down under the coercion released by their masters trap, with a cute appearance of being slaughtered, completely breaking the fighting state.

[Masked HERO Koga, DEF 1800 DEF 0]

[Masked HERO Vapor, DEF 2000 DEF 0]

It is indeed a strong enough fighter, but it is still far from reaching me. Anubis snorted.

Yuei Vu still ignored him: Then Set three cards, I end my turn.

At this moment, the effect of the Curse of Anubis ended, and the defensive power of the monsters returned to its original state.

Its my turn again lets go directly! First, I switch the two servants back to the attack state. Then Sphinx Teleia, attack the blue warrior! Anubis said, Teleias special ability! If this card attacks a Defense Position monster, I can destroy that monster directly! (animation effect)

The effect of Masked HERO Vapor. Yuei Vu said, This card cannot be destroyed by card effects.

Hmph, it doesnt matter, then the attack will continue.

Teleias attack power was higher than Vapors defense power. If the effect destruction was invalid, the battle would continue, and Vapor still could not escape his demise here.

Anubis said, paused, and at the same time swept his thick arms sideways.

At this moment, use the trap Meteorain! Only for this round, the attacking servants in can also deal damage when attack the defensive servants!

Teleias target was Vapor. The monster with a human face pounced and knocked Vapor to the ground again, but this time there was no trap card to protect him. The monsters sharp claws easily tore through the Masked HEROs armor, and a large number of sparks shot from the heros chest. Splashing out, the latter turned into a phantom and dissipated.

"

"

Yuei Vu, LP 1600 LP 1100

Hmph, ready to accept your fate? Anubis sneered, For my first battle after three thousand years, you are not a bad opponent.

Go! Andro Sphinx, finish the opponent!

With a roar, the lion-masked man swooped towards Koga who was half crouching on the ground.

[Andro Sphinx, ATK 3000]

[Masked HERO Koga, DEF 1800]

This is the end!

Open the set card: Trap Card Half Unbreak! Yuei Vu said, Choose a monster, this turn, that monster cannot be destroyed by battle, also any battle damage I take from attacks involving that monster is halved.

What I want to choose is, Masked HERO Koga!

Andrew the lion-masked man rushed forward aggressively, and slammed down with his paw like a maniac. But the transparent protective layer withstood his killing blow, and although the light effect erupted and made Koga stagger back two steps, it didnt knock him down.

Yuei Vu, LP 1100 LP 500

Oh? You still didnt fall down. Anubis said, You start to surprise me.

He said so, but the king of destruction from 3,000 years ago, the sworn enemy of the Pharaoh, instinctively began to notice that something was wrong.

Although he had the upper hand and the situation of the duel seemed to be in his hands all the time, he felt something was wrong for no reason.

Maybe it was because of the pressure on the scene and the suppression of divine power from the Pyramid of Light, the warrior in front of him seemed a little too calm?

Is he planning something?

Or is it simply that I think too much?

Anubis glanced at the cards in his hand, thought for a moment, and seemed to decide that he would play a little safer.

He raised his arm and swiped lightly, and this time there were three more set cards in front of him.

My round is over, he said.

Then it's my turn, draw! After drawing cards, Yuei Vu drew out a card in his hand, I set a card on the field, and then activate the Spell Card Card of Sanctity!

Both players draw cards from the deck until they have 6 cards in their hands!

Anubis opened his palm, and the cards floating in front of him filled up to six with a flash of golden light. At the same time, he chuckled: Hmph, you seem to like these spells that can increase the chips. But in the face of real power, these are useless.

Yuei Vu raised his hand: Masked HERO Koga, switch back to the attacking state again!

"

"

[Masked HERO Koga, DEF 1800 ATK 3500]

Since there were two monsters on the opponents field, the attack power of Masked HERO Koga was 3500 at this time. And not only that, Koga could reduce the attack power of the opponents monsters on the field until the end of the turn by removing the hero monsters in the graveyard from the game.

The attack power of Sphinx Teleia was 2500. As long as Koga's effect was used to banish Absolute Zero, Teleia's attack power would be reduced to 0, and the battle could cause a huge amount of damage of 3500 in one breath.

Anubis remaining LP was exactly 3500.

Checkmate!

Battle! Yuei Vu raised his hand and said, Masked HERO Koga, attack Sphinx Teleia again!

Masked HERO's whole body bloomed with shining golden lights! He slid half a step back as if he was gaining momentum, the fang-like blade on his wrist was shining brightly, and a halo of gorgeous special effects swirled around it as if he was about to come out at any time.

Naive. Anubis raised his palm, At this moment, you triggered the trap again! Activate Quaking Mirror Force!

The moment the opponent launches an attack, all the attacking servants of the opponent will enter the stealth state! And minions affected by this power cannot change form!

Chapter 456: Theinen the Great Sphinx

Quaking Mirror Force: When an opponents monster declares an attack: Change all your opponents Attack Position monsters to face-down Defense Position. Monsters changed to face-down Defense Position by this effect cannot change their battle positions..

Poor Koga still couldnt make this blow. Countless fine dust rolled up in the space of the crystal pyramid, and the dust condensed to form a spiral shape, horizontally in front of Anubis like a whirlpool.

The airflow was turbulent, flying sand and rocks, and Kogas sprint was greatly resisted, so he could only raise his arms to block in front of his face and were reluctantly blown back, covering them back to the defensive state inside.

There were indeed pits in the back row.

And it seems that Anubis was particularly fond of traps that forced the opponents monsters to change to defensive positions.

But it also seemed reasonable. The effect of Andro Sphinx was that when it destroyed a monster in defense position in battle, it could inflict damage equal to half the attack power of that monster to the opponent. The effect of Teleia was that when it attacked a monster in defense position, that monster could be destroyed directly regardless of damage.

Then in order to maximize the destructive power of his own monsters, he would naturally choose more matching cards to use.

Yuei Vu was not too surprised and only drew three more cards from his hand.

Set three cards, I end my turn.

In this way, his back row was completely filled.

Thats right, you should surrender in front of the absolute power of the King of Destruction!

Anubis raised his voice, and at the same time turned his palm, and there was a new hand in front of him.

Set a spell on the field first, and then fight directly!

Anubis folded another card and then spread his fingers.

Andro Sphinx, tear that minion apart!

With a roar, Andrew rushed up with big strides. When he started running, the shaggy golden hair on his head fluttered against the strong wind, and every step he took was like a heavy blow from a warhammer.

When Andrew destroys a defending servant, give half of the attack power of the opponents servant as damage to your life force. Anubis sneered, If your servant Masked HERO Koga is destroyed, you have to accept 1750 damage.

Thats the end!

Yuei Vu, LP 500

Anubis pupils shrank, and the veins on his face popped out.

Take it! Your soul is mine!

Thats not necessarily true. Yuei Vu smiled.

Anubis eyes moved slightly.

Yuei Vu raised his arm, Open the set card: Trap Card Mirror Force!

The set card turned over, and the sacred blue light was released, as if to cover the entire field, filling the entire pyramid in an instant.

Anubis face changed suddenly: This trap is!?

Apparently, this classic trap also existed in his era. It possessed a power that instantly wiped out all combat capabilities of the opponent and reversed the situation in an instant.

The moment the opponent declares an attack, Yuei Vu said, Destroy all attacking monsters on the opponents field!

The light released from the trap card chart condensed into a hemispherical shield. The dazzling blue radiance covered the sky and covered the earth, like a flood that broke a bank, sweeping everything in a torrential and unscrupulous manner.

The two powerful monsters suddenly looked so small in front of the sacred blue light. The lion-faced man hissed and roared, and struggled with all his strength, but that strong body was finally broken into powder under the brilliance.

The red-haired woman screamed sharply, but she was helpless under this force, and was only crushed by the brilliance, dissipating into a cloud of black smoke.

Anubis raised his arms to shield his face. There was a violent explosion in his side of the half, and billows of black smoke engulfed everything.

Only a moment later, a voice came from the smoke screen.

Its still Anubis voice, only it seems heavier and hoarse and a little distorted.

Mirror Force I didnt expect that todays fighters can easily control such a powerful trap.

There was no anger of being pitted. Anubis voice sounded actually seemed to have a little happy?

The first thing to emerge from the gradually dissipating black smoke was a body that was even bigger but with a more distorted and hideous posture.

A fierce face like a lion, with shaggy golden hair. The upper body was a burly human-like body, while the lower body was fused into the body of a white reptile. There were also two white wings on both sides of the lower body, which were in stark contrast to the dark and muscular upper body.

The smoke seemed to be blown away by the pure aura of this creature. This creature, like a devil's willful creation, made a low whine like an engine idling in its nasal cavity when it was panting, and even the air seemed to condense.

Anubis, LP 3500 LP 2500

Only when the Andro Sphinx and Sphinx Teleia on my field are destroyed, at the cost of my own soul. Anubis sneered, The real judgment will show up!

This is the ultimate monster from the secret pyramid Theinen the Great Sphinx!

Roar!!!

As if in order to cooperate with the master's demonstration, the monster opened its mouth and let out a muffled roar.

Judging from the processing results on the field, this monster seemed to be Special Summoned from the deck by paying 1000 life points when both Andro Sphinx and Sphinx Teleia were destroyed at the same time. (animation effect)

[Theinen the Great Sphinx, ATK 3500]

Then, his follow-up ability has also been activated!

Anubis clenched his fists, closed his eyes, and began to recite some spell silently.

Groups of dark, mud-like things emerged from the bottom of the monster's feet, climbed up consciously, and wrapped around the body of this huge monster.

From there, Yuei Vu seemed to see blurred afterimages, including the previous Andro Sphinx, Sphinx Teleia, and other monsters.

After chanting the mantra, Anubis opened his eyes again, the pupils were blood red.

Anubis, LP 2500 LP 1500

Theinen's ultimate ability. Anubis sneered, At the price of my blood again, he can gain the power of all the monsters sleeping in the cemetery!

Translate: When Theinen the Great Sphinx is successfully Special Summoned, you can pay 1000 Life Points to increase the ATK of this card by an amount equal to the ATK of all monsters in your Graveyard.

Now Anubis' graveyard contained Andro Sphinx, Sphinx Teleia, Guardian Sphinx, and the Moai Interceptor Cannons that was Tributed in the first turn.

Total attack power increased by 8300 points.

[Theinen the Great Sphinx, ATK 3500 ATK 11800]

Theinen! Anubis yelled, Rip that monster apart!

The huge monster let out a roar that shook the sky!

The white wings flapped and rolled up a white whirlwind. The ferocious monster rushed forward with its fangs and sharp claws. When it roared, it seemed to release boundless sound waves. The suppressed Masked HERO couldn't move at all.

Open the set card! Yuei Vu said, Continuous Trap Final Attack Orders! All face-up monsters on the field are changed to Attack Position and their battle positions cannot be changed!

[Masked HERO Koga, DEF 1800 ATK 3000]

Oh? Finally unable to withstand the pressure, did you decide to give up? Anubis sneered, Then it will be as you wish. Theinen! Order a trial and take his soul away!

Open the set card! Yuei Vu pointed to another set card beside him, Trap Card Doble Passe! It can be activated when an opponents monster declares an attack on a face-up Attack Position monster I control.

Make the opponents attack a direct attack instead!

Anubis was startled: What the hell are you thinking!?

The trap card unleashed invisible forces. The huge monster that had already thrown Koga to the ground seemed to be in a trance suddenly under the influence of that force, and then let go of Koga, which had been pushed to the ground, and flew straight towards Yuei Vu himself.

A direct attack with an attack power exceeding 10,000 points!

Anubis began to feel a little confused.

Is this guy really crazy?

Yuei Vu quickly gave the answer: Continuous Trap Spirit Barrier! After this card is activated, as long as there are monsters on my field, I take no battle damage!

The monsters sharp claws slammed down. But in the same second, the trap released the golden light. The translucent image of Masked HERO Koga appeared in front of Yuei Vu, like a soul, releasing a golden barrier with his body, completely resisting the monsters full blow.

The golden light erupted on the barrier in front of Yuei Vu, and sparks flew, but it did not cause any harm to his true self.

So thats it, is this a way to keep the servants and avoid damage at the same time? Anubis sneered, Did you survive for a while by relying on your cleverness?

Not only that. Yuei Vu said lightly, pointing to the trap opened beside him, The follow-up effect of Doble Passe.

Inflict damage to the opponent equal to the ATK of the monster on the field that was attacked.

Anubis eyelids twitched: What?

Lets exchange gifts. Yuei Vu said lightly, Take a hit by the attack power of Masked HERO Koga, which is 3000 points of damage!

Chapter 457: The Reversing Move

Take a hit by the attack power value of Masked HERO Koga, Yuei Vu shouted, Thats 3000 points of damage!

Anubis, LP 1500

Anubis complexion changed suddenly, and he looked in astonishment at Yuei Vu, who was shining brightly on the opponents field and was gathering momentum as if preparing to charge.

Using the Final Attack Orders to change the form of the servant, using the Spirit Barrier to offset the damage, and at the same time, the monster that has passed the sanction directly hurts me

Anubis frowned, his voice sank, and his gaze toward Yuei Vu changed a bit.

Warriors of this era do all of them have such a powerful strength?

While speaking, Koga has launched a charge under the power of the trap card! The whole body of the golden warrior seemed to be on fire, his entire body turned into a penetrating shell, crossed the field, passed over the huge monster, and blasted straight at Anubis face!

boom! ! !

With a heavy explosion, the floor where Anubis stood was blown apart. A golden halo swept across him, accompanied by countless broken stones flying in all directions.

Koga withdrew and retreated, and slowly fell back to Yuei Vu with his arms folded.

Anubis, LP 500

The smoke gradually dissipated, but Anubis sturdy body was still standing, his retro boots stepped on the floor that had been torn apart by the blast, it seemed that such a violent impact just now did not knock him down.

Heh heh heh, I admit that I underestimated you a little bit. It seems that the powerhouses of this era should not be underestimated. Anubis sneered, However, after all, there is still a line behind.

Yuei Vus eyes fell on the card he had just activated and was gradually dissipating.

Quick-Play Spell Emergency Provisions.

By sending any number of other Spell/Trap Cards to the Graveyard; gain 1000 LP for each card sent to the Graveyard this way.

Anubis sent the card that was set before this round of battle, as well as the Continuous Trap Ultimate Offering to the graveyard respectively, and recovered 2000 LP at the very moment, and barely survived Kogas head-on bombing.

But in this way, Anubis LP also dropped to 500, comparable to that of Yuei Vu.

As expected of the king of destruction, you are well-defended. Yuei Vu said lightly, But its not over yet. The follow-up effect of the trap card Doble Passe! The monster that was selected as the attack target can attack the opponent directly during my next turn!

That is to say, in the next round, Masked HERO Koga can directly attack the player.

A direct attack with an attack power of 3000. In this way, even if Theinen with an attack power of more than 10,000 was present, Anubis would not be able to stop Koga from directly killing him in the next round.

Anubis crisis was still not resolved.

Damn. Anubis narrowed his eyes and said coldly, But before that, at the moment you inflicted damage, another trap of mine was also triggered!

What I launched is Double Payback!

Anubis's final set card was flipped and it was a Continuous Trap card.

Double Payback: Activate only when you take 1000 or more damage from your opponent's card effect: Place 1 Payback Counter on this card for every 1000 damage you took. During the End Phase of your opponent's next turn: Destroy this card, and if you do, inflict 2000 damage to your opponent for each Payback Counter on this card.

In the blow just now, the effect damage that Yuei Vu gave Anubis was 3000 points, which meant 3 Payback Counters were placed.

In this way, at the end of the next round, Double Payback would be destroyed automatically, and Yuei Vu would receive 6000 points of effect damage!

The last round. Anubis twisted his facial muscles and smiled darkly, This is your last chance to act, struggle as hard as you can, and then turn it into my nourishment!

A strong fighter like you will surely become the best nutrient!

Yuei Vu remained expressionless and did not speak.

You must be thinking, before that, the direct attack of your servant of light will end the battle first, right? Anubis snorted, But unfortunately that will not happen.

Anubis raised his arm, five fingers one at a time, and a card suspended in his hand turned over.

Im using a spell here Swords of Concealing Light!

Dark and gloomy black clouds condense and roll high in the sky of the pyramid. There seemed to be a face vaguely condensed in the black cloud, it looked like a white skull, and there seemed to be a smile on the corner of the mouth.

The black cloud was torn apart, and the gloomy light condensed into the shape of a sword. The three sharp swords stabbed down from the air, and landed on the ground in front of Yuei Vu.

Poor Masked HERO Koga just breathed out for a few minutes, and let out a dull growl, was suppressed by the dark power again, and turned into a covered card.

Continuous Spell Swords of Concealing Light: Destroy this card during your 2nd Standby Phase after activation. When this card resolves, change all monsters your opponent controls to face-down Defense Position. Monsters your opponent controls cannot change their battle positions.

Anubis sneered: In this way, your servants will not be able to attack directly. The moment the next round ends, the Double Payback will be automatically triggered, giving you the final blow.

Although Koga has gained the power to attack directly through the effect of Double Passé, if he was in the face-down Defense Position, there was no way to attack.

On the contrary, now the trouble was kicked back to Yuei Vu's side. If he couldn't solve it during this turn, he would suffer 6000 damage rebounded from the Double Payback at the End Phase, and died suddenly on the spot.

The situation was reversed again.

Come on. Anubis put another card on the field, and then ended his turn, Your last chance to act, try your best and struggle!

Yuei Vu lowered his head and looked at his deck.

Trying my best?

Talking about his full strength In fact, his skill Gods Anger could be used long ago when his HP was below 500.

But the question was even if the Obelisk the Tormentor was drawn into the hand, what was the use of it?

The opponent this time was extraordinary. Anubis claimed to exist to obliterate the Pharaoh, so he naturally had a weapon in his hand that could restrain the Pharaohs strongest trump card.

In the field of this pyramid of light, no god could exert its power. The moment the God Card appeared on the stage, it would be wiped out from the rule level by the power of the Pyramid of Light, and it would be isolated from this duel.

This time, he could only rely on his own strength.

Seeing that Yuei Vu didnt draw a card for a while, as if he was thinking, Anubis spoke again.

You are a rare warrior. Even in my era, there are not many people as strong as you. I believe it should be the same in this era.

He said, pausing.

A strong person like this deserves more than ordinary people. Being buried in such a dark place should not be your destination

Yuei Vu raised his head.

I guess, its time for you to say we can rule together, isnt it?

Chapter 458: Final Form

Anubis raised his thick eyebrows and remained silent for a while.

Actually, Yuei Vu could probably guess what he was going to say. Anyway, the villain only repeated a few words, and the meanings were probably the same.

At best, it was estimated that he would try to recruit Yuei Vu and say something like Look at this cake I just draw, it is so big and round.

Anubis: If you join me, with our strength, we can easily destroy the King of Light and the hateful King of Darkness! We can bring destruction to this world!

Yuei Vu:

Are you crazy? Why must I bring destruction to this world?

Kaiba gave me cards, gave me money, and even gave me a house. You? Well, the temptation to recruit me is the destruction of the world?

How stupid I need to be to join you?

If the temptation changed into Orichalcos God of Heaven, Yuei Vu said that maybe he could still consider

Orichalcos God of Heaven (Quick-Play Spell): Destroy and banish all cards in the opponents deck, hand, field, and graveyard. The activation and effects of this card cannot be negated. (1)

Although you are no ordinary duelist, you have nothing to do with the Pharaoh or the priest. Anubis frowned, We have no reason to fight.

Its time for you to see the reality yourself. Although you are a rare strong man in the world, you are still not my opponent.

Your soul is being peeled off by the pyramid, and your power cannot be exerted.

After a pause, he smiled slightly.

In addition, you should have discovered that in this secret pyramid, even your most loyal servant cannot help you.

Yuei Vu was taken aback for a moment and suddenly realized something.

That being said it seemed true.

Dark Magician Girl, Silent Magician, and so many other spirits in his hands none of them seemed to respond in this duel.

Yuei Vu glanced at the huge crystal pyramid, and the weird dark red eyes at the waist of the pyramid.

Is it because of this?

He remembered that in the movie, after the Pyramid of Light was activated, the soul of Yugi Muto was also excluded from the duel. He and Yami Yugi no longer communicate with each other during a duel.

Then maybe the same thing happened to Yuei Vus spirits.

Although the Duelist Rank on the system panel was unaffected, and he could still vaguely feel the connection between himself and the spirits, unless they are summoned in a duel, they couldnt help him.

There were no Egyptian Gods, no spirits, this time he could only rely on himself to fight alone.

A general who loses his subordinates will be powerless no matter how powerful he is. Anubis continued to induce, Give up, you have no chance of winning.

Being alone, what else can you do?

No, not right.

Even in this isolated space, in this cold pyramid, I am not alone.

A phantom with a vague figure, like a bad-quality image, seemed to break through the barrier of the pyramid with difficulty and appeared beside Yuei Vu with light blue lightning all over his body.

His figure was very vague, making it difficult to see his true face, but there was an aura all over his body that made Yuei Vu feel very familiar as if he has been with him for many years.

The illusory hand rested lightly on Yuei Vu's shoulder as if silently telling

It's okay, I'm still here.

Yuei Vu felt as if he understood why he felt the subtle aura unique to a spirit when he saw Vapor and Blast in the previous duel, and when he summoned Koga today.

He remembered what Paradox said about the powerful spirit unique to the Duel King that was bred by fighting side by side with him countless times.

The answer was, Masked HERO.

It's not a card of any attribute, but all the Masked HERO monsters in his hand.

To be more precise, all the Masked HERO cards were the same hero, the same spirit, just in different forms.

The reason why he felt the breath of a spirit from a few cards of the Masked HERO was that they were indeed spirit cards.

But the reason why it didn't look like a spirit when he carefully checked later was that a single card was indeed not a complete spirit.

All the Masked HEROes in his hands were superimposed together, that was the real and complete spirit that was exclusive to the Duel King.

After thinking through this section, Yuei Vu suddenly had a bold idea.

An attempt he had never tried before, but now he was inexplicably confident that he could succeed in one fell swoop.

My turn, draw!

After Yuei Vu drew the card, he raised his hand to activate the set card directly.

Activate Trap Card Damaged Mask! Yuei Vu said, Special Summon 1 Masked HERO monster from the Graveyard, ignoring its summoning conditions, but that monster will be destroyed at the end of the turn! (manga card)

The Duel Disks' tomb area flashed golden light, and a card popped out.

Come back to the field again, Masked HERO Vapor!

A stream of water gushed out of nowhere on the ground, and the Masked HERO with blue-and-white armor and red eyepieces stepped on the stream and returned to the field again.

Although the armor on his body was still damaged in many places, and the red eyepiece on the left was also cracked as if it was on the verge of breaking, he still stood stubbornly, turned his head sideways, and nodded slightly to Yuei Vu.

Like a comrade who could give his life for his friends.

Masked HERO Vapor, ATK 2400

Do you want to continue fighting? Anubis said coldly, Indeed, Swords of Concealing Light can only turn the servants on the field into a defensive state at the moment of activation, and the servants summoned now can indeed attack.

But with his strength, he couldn't even touch the toes of Theinen the Great Sphinx. You wouldn't pin your hope of reversal on this kind of servant, would you?

Now that things are up to now, what's the point of calling out this kind of guy?

It's only now that it makes sense. Yuei Vu chuckled, Because a hero of justice always comes in the darkest hour!

He raised his right hand high and pointed straight at the dark and chaotic vortex in midair.

Activate the effect of Field Spell Fusion Gate! Yuei Vu said, Fusion Monsters can be Fusion Summoned without using Polymerization, by banishing the Fusion Material Monsters from the game!

I fuse the Masked HERO Vapor and Masked HERO Koga on the field!

Anubis was surprised: Use the fused servant to fuse again!?

Masked HERO Koga, Mask Hero Vapor, the two heroes turned into golden light and blue water arrows and rose from the ground respectively. The two forces intertwined and rushed up into the air, and merged into the black hole of the Fusion Gate. There was a burst of lightning and thunder, and a new force burst out from the other end of the door!

The fusion condition is 2 Masked HERO monsters! Yuei Vu raised his arms, Fusion Summon! From light to darkness, and then from darkness to light, open the world with the power of awakening

Contrast HERO Chaos!

The hero named Chaos revealed his body from the alternation of light and dark. Slender arms, and sturdy armor, the left half of the body was white, and the right half was black. The shape was completely symmetrical, but the colors were diametrically opposed. The striking contrast reflected a different kind of arrogance and beauty.

The hero spread his arms, and the black and white beam of light seemed to be torn apart by the volley! Black and white streamers undulated violently behind him.

Contrast HERO Chaos, ATK 3000

Yuei Vu raised his head, looked at the back of the black-and-white hero in mid-air, and knew that his attempt was successful.

This card did not exist in his card pool.

This was the first card he has printed by himself like a real protagonist since he came to this world.

At the same time, this was also proof of the birth of his unique spirit, Masked HERO.

As we all know, all Kamen Riders since Heisei had a strongest final form throughout the TV series.

So for Masked HERO, this Contrast HERO Chaos was his final form.

This is

Anubis looked directly at the hero in midair, and couldn't help but lose his mind for a moment.

Light and darkness, the forces that have opposed and conflicted with each other since ancient times, are they so perfectly condensed in this body?

Anubis murmured.

The future world can actually breed such powerful fighters

Contrast HERO Chaos has both LIGHT-attribute and DARK-attribute. Yuei Vu said lightly, And according to the rules, he can also be treated as an Elemental HERO.

Anubis regained his composure: So what? Although he is a very powerful servant, he still cannot defeat Theinen

Equip Spell Favorite Hero! Yuei Vu showed the card in his hand, Equip it to Contrast HERO Chaos! If there is a card in my Field Zone, the equipped monster gains ATK equal to its original DEF, also the opponent cannot target it with card effects!

Contrast HERO Chaos, ATK 3000 ATK 5600

Its useless. Anubis said coldly, Even so, it still cant defeat my monster

Equip Spell Rainbow Veil! Equip it to Contrast HERO Chaos! Another card appeared in front of Yuei Vu, If the equipped monster battles an opponents monster, while that monster is on the field, its effect is negated during the Battle Phase only!

What!?! Anubis expression changed suddenly.

Thats right, although it looks like the attack power is 11800, its just a monster effect. Yuei Vu said, If the monster effect is negated, Theinens attack power must return to the original valuethat is, 3500 points!

He pointed at the hideous and distorted huge monster on the opponents field.

Battle! Yuei Vu said, Contrast HERO Chaos! Attack Theinen the Great Sphinx!

The two-color hero soared high, his body spun around at high speed, and a black-and-white storm rolled up in midair!

It was a gust of wind that seemed to cut through everything, and nothing could resist it. A strong wind fell down from the sky, splitting the earth and stirring up space as if summoning an indomitable monster from the chaos, and the sound of the wind was its endless roar.

Theinen raised his lion-faced head and roared not to be outdone. But the rainbow light released from the storm shrouded its body, limiting its strength like invisible shackles bound its body.

Theinen the Great Sphinx, ATK 11800 ATK 3500

The strength was reversed, and the ultimate Masked HERO occupies the top position. With a single blow from the black and white tornado rolled up by his body, he would smash the huge monster, and the soul of Anubis, who has just recovered from his sleep, was also smashed into pieces!

But at this moment, the corner of Anubiss mouth curled up, the veins on his face popped out, and he showed a ferocious smile.

A very powerful fighter, a perfect counterattackbut! he shouted, My power is even beyond yours!

This is my final trap, the decisive blow

Soul Strike!

While Anubis shouted loudly, the last set card in front of him also flipped over.

Soul Strike: If your LP is 4000 or less, when an attack is declared involving a monster you control and an opponents monster: Pay half your LP, then target 1 face-up monster you control; it gains ATK equal to the deficit between your current LP and 4000 until the end of your opponents turn..

Anubis, LP 500 LP 250

Gritting his teeth, Anubis endured the extraction of life force from his body, then raised his thick arms, raised his volume, and yelled loudly.

Use my blood to transform into power and crush the enemy! Theinen the Great Sphinx, the final counterattack!

Theinen the Great Sphinx, ATK 3500 ATK 7250

Hahahaha!!! Anubis laughed happily, Did you see it? This is the decisive gap between us, the true final move!

I have already given you a chance, since you refuse to accept it, then become my sacrifice!

Facing the monster whose body was rapidly expanding and standing still against the storm of the opposing heroes, Yuei Vu laughed again.

Thats not necessarily true.

Anubis pupils shrank.

At this moment, the effect of Contrast HERO Chaos is activated! Yuei Vu extended his arm, Once per turn, I can target 1 face-up card on the field; negate that targets effects until the end of this turn!

And this effect can be activated during the opponents turn!

Na Nani!?

Yuei Vu pointed to the trap card in front of Anubis, the trap where he sacrificed his soul in his last hope of counterattack.

Use the effect of Contrast HERO Chaos to negate the effect of Soul Strike! Yuei Vu said, Therefore, the attack power of Theinen the Great Sphinx remains the same!

The light and dark energy captured the trap that had just been opened, covering that card, and the domineering energy tore the trap card into pieces.

Theinen, who had only been able to strike back for a few seconds, immediately withered again, and his swollen figure returned to its original shape, unable to move under the suppression of the heroic power.

Theinen the Great Sphinx, ATK 7250 ATK 3500]

Contrast HERO Chaos, attack! Chaos Final Storm!

The gust of wind rolled up the monsters body, and the monster with the lion-faced beasts body was swept into the air uncontrollably. The invisible long whip beat its body violently, again and again, breaking its wings. The afterimage of the two-color hero came in a flash, and the chain of spinning kicks hit its body continuously at super high speed.

The lion monster made a mournful cry and exploded in the storm. Fragments of its body scattered in all directions and boundless darkness was released. The aftermath of the eruption quickly swept Anubis into it, destroying his newly reborn body, melting his flesh, and even his bones were vaporized bit by bit.

Anubis struggled desperately, tried his best to resist the scorching airwaves, tore his own flesh, and roared in pain.

That cannot be! I am the king of destruction, the existence that smashes Egyptian Gods and turns Pharaoh into nothingness! How could it be possible for this guy to defeat me

AHHHHHHHHH! ! !

Anubis, LP 250 LP 0

Chapter 459: I Understand Your Pain

Anubis, LP 0

When the life value became zero, it also means that the soul of the king of destruction, which has existed for more than three thousand years, has been completely shattered. The final form of the Masked HERO awakened in this duel, Contrast HERO Chaos, along with the black and white storm, crushed Anubis's newly recovered body to pieces.

Losing his strength's support, the deck he used in the duel, which was suspended in mid-air, also scattered all over the place.

Anubis may have realized that his final hour was coming. But he was the king of destruction after all, strong enough to be compared with the pharaoh. Even though he was defeated in the duel and was on the verge of destruction, he still held on tenaciously.

His reborn body was collapsing, and the flesh was festering at a speed visible to the naked eye, exposing bloody tissues and thick bones.

His eyes lost their luster and sunken in their sockets. With lion-like fangs flashing from his mouth, he roared furiously and unwillingly, and the whole person rushed toward Yuei Vu directly.

However, he was actually at the end of his strength when he was defeated, and if converted to the HP in the game, it might be the last trace of blood left.

Yuei Vu put his hands in his pockets, watching the body that was rushing like a lion, and remained motionless. A flash of afterimages appeared, and Chaos, the anti-hero who had not disappeared after the duel, flashed in front of him. With a spin, his slender black right leg circled in the air, and a gorgeous spinning kick hit Anubis head-on.

The muscles of Anubis's face were deformed by the whipping, and his entire face was distorted. His burly body was blasted out like a kite with broken strings, just like a stone floating in the water continuously.

Contrast HERO Chaos stood in front of Yuei Vu, and the black and white streamers slowly fell behind him, exuding a calm and unrestrained air.

The pyramids began to collapse. Cracks gradually appeared on the surrounding crystals, and countless fragments fell down, crackling and smashing into pieces on the ground.

Anubis head was wrapped in a black mud-like thing. When he stood up again, his entire face was deformed. He had long erect ears, a fluffy face, and vicious eyes, like the head of a jackal.

He stood up unsteadily, the pyramid-shaped crystal pendant on his chest was dangling, and the blood-red eye in the center of the pendant was shining with a strange red glow.

Kill you kill you His voice was muffled as if he had begun to speak incoherently, I want to be reborn here, turn the Pharaoh into nothingness, and bring destruction to the world!

The jackals eyes were bloodshot, and he rushed forward again desperately, and the crystal pendant on his chest flew up.

Contrast HERO Chaos greeted him again.

That was a completely one-sided battle. Anubis, who was defeated in the duel, already hung with his last breath, even if he was left alone, he would naturally perish when his strength was exhausted.

Now in this state, he was no match for a duel monster spirit at all. All his attacks were easily resolved, and he was hit repeatedly on the face, abdomen, and shoulders.

Anubis retreated steadily, his jackal face was bruised and swollen, and even his nose seemed crooked. There were many cracks in the muscles of his whole body, like clay that was about to shatter.

a strong visual sense of Kamen Rider fighting monsters.

Anubis was so beaten by Chaos that he couldn't take care of himself, and was finally about to be destroyed. He gritted his teeth unwillingly, as if he had exhausted his last strength, and looked at Yuei Vu with the most vicious eyes, but only saw Yuei Vu

Yuei Vu was leaning over to pick up cards on the ground

After Anubis was beaten, his deck was scattered all over the place.

Yuei Vu thought that Anubis was going to die soon, and this pile of cards would probably not be needed in the future, so it was too wasteful to just leave it here

You! You

Anubis almost spat out a mouthful of blood.

This person is so powerful, but why can he be so brazen?

Doesn't he have the honor of being a strong man?

Anubis might have been able to struggle here, but after glancing at Yuei Vu, he was so angry that his eyes went dark, and the breath in his chest couldn't be held.

Chaos seized this fleeting opportunity, made a wrong step, lifted his right leg, and stomped through the air with gorgeous light effects and black-and-white energy storms under his feet!

One blow hit the pendant on Anubis chest!

The crystal pyramid was shattered.

Like a diamond cracked, the majestic darkness was released. With Anubis screams, the entire pyramid collapsed, and glass-like shards fell like raindrops.

The final roar also came to an abrupt end, and Anubis's body was finally completely shattered. This time there was not even a mummy left. From flesh to bones, he was completely turned into a pool of sticky black mud, which gradually evaporated and dissipated.

The tremor has stopped.

Marik stared solemnly into the depths of the tomb.

Not long after Yuei Vu entered, there were waves of shock in the tomb. After a while, they even felt a huge amount of energy released from it. Although the intuitive feeling might not be accurate, Marik felt that it was a terrifying power that even a single Millennium Item could not match.

Marik was a little taken aback at the time.

What is the origin of the owner of this tomb?

How can there be such a powerful artifact buried inside!?

He subconsciously looked at Ishizu and found the same worries as himself in his sister's eyes.

But at this moment the vibration finally stopped, and the majestic energy disappeared without a trace.

Marik and Ishizu couldn't help but hold their breath at the moment.

What's going on inside now?

After waiting for a while, several figures finally appeared at the exit of the tomb.

The two took a closer look, only to find that it was the screwball players singing and dancing while holding a lot of rare treasures of gold and silver in his arms.

The Ishtar siblings suddenly had black lines on their faces.

Not long after, Yuei Vu also came out of the collapsed tomb. He looked serene, with a calm expression on his face, as if he went in for normal sightseeing and then wandered out again.

The Ishtar siblings also immediately asked about the situation in the tomb. Yuei Vu has nothing to hide about this, just tell the truth.

He succinctly explained that it contained the King of Destruction three thousand years ago, and the meaning of his awakening was to obliterate the Pharaoh and bring destruction to the world.

Ishizu was a little worried when she heard it, and she couldn't help but subconsciously stretch out her hand to caress the uproar in front of her.

So the threat has disappeared?

If it was the enemy of the Pharaoh, it was also the enemy of the Tomb Keeper clan, not to mention that the other party was said to bring destruction to the world.

Well, don't worry anymore, Anubis is no longer a problem. Yuei Vu said, paused, and smiled slightly. And even if he uses some tricks to play corpse and try to get out of the tomb again in the future, it may not be a threat.

While speaking, he took out a deck of cards.

Because his deck is with me.

Ishizu:

Marik:

"

"

Especially Marik, who glanced at the card deck in Yuei Vu's hand, then at the pile of rare treasures brought out of the tomb held by the screwballs, his facial muscles twitched involuntarily.

He didn't know why, it was clearly an enemy, and it was clear that he has never even seen the so-called Anubis, the King of Destruction, but

He suddenly felt a little sympathetic to this buddy.

If there was a chance to meet again in the future, he might even pat Anubis on the shoulder and say Brother, don't cry, I understand your pain

Chapter 460: Duel King Is Coming!

With the end of Anubis troubles, Yuei Vu's main task of traveling all the way to Egypt was completed.

The Pyramid of Light arc was originally part of Yu-Gi-Oh! DM, and it could be regarded as a relatively important branch in the World Link Online version 1.0. Although not as important as the main plot, the impact was still relatively large.

Yuei Vu also participated in this side story when he played World Link Online in his previous life. At that time, not only did Anubis come out to create trouble himself, but also released many walking-dead mummies on the street to attack duelists, and even infected and mentally manipulated some duelists to act as his pawns.

Many players have participated in this branch. However, the mission process of this plot was a bit complicated, and the difficulty was quite high. In the previous life, only a few players completed the lengthy mission process and got the chance to face the boss Anubis himself

and was OTKed instantly.

After all, this was a Rank 10 BOSS. The players of World Link Online in the previous life did not have the help of a conscientious and kind NPC like Yuei Vu, and the speed of obtaining cards and progress was slower. Facing a boss of this level, there was no room for fighting back.

At the end of the mission, Anubis was still defeated by Yugi Muto, the main character of the version and the protagonist of the world. In the last round, three Egyptian Gods were summoned in one breath, and the sky dragon and the winged dragon were sacrificed to the Obelisk the Tributed God, who blasted Anubis to the brim.

although apparently, none of these branches now existed.

Because before Anubis had time to climb out of the coffin, he was killed by Yuei Vu

Of course, if Yuei Vu skipped all the pre-quests and directly blocked the boss's grave, the rewards of the previous series of quests would also be gone. There was only one quest reward in his quest panel for Defeating Anubis, the King of Destruction.

In addition to the regular rewards such as experience points and crystals for defeating a Rank 10 boss, the system also issued a real card version of the Pyramid of Light.

Pyramid of Light (Continuous Trap Card): If this face-up card is removed from your side of the field, destroy Andro Sphinx and Sphinx Teleia on your side of the field and remove them from play.

Not only did it belong to the unknown meaning category, but it was also useless.

After beating Anubis, he also picked up the Pyramid of Light with animation effects. However, the power of this card was connected to the crystal pyramid pendant on Anubis's chest. Now that the pendant was broken and Anubis himself was dead, the power of destruction contained in this card also disappeared.

The Pyramid of Light that has lost its divine power, of course, had no powerful ability to remove the three Egyptian Gods from the game.

So rounding it up, this card has actually become a piece of waste paper.

But Yugi was not surprised. Anyway, his trip itself was to stop Anubis, and the rewards were just incidental. In this way, President Kaiba should not be controlled, and there is no need to fight Yugi to death, saving a lot of trouble.

Yuei Vu deeply felt that Yugi and Kaiba owed him another huge favor invisibly.

When I go back, I have to think of a way to find Kaiba to make up for it.

As for how to make up for it, he hasn't figured it out yet, he can think about it slowly on the way back

Just now, the card game between Yuei Vu and Anubis was quite dynamic. Especially after the Pyramid of Light was activated, the entire tomb, it should be the entire site began to vibrate.

When Yuei Vu climbed up, the surrounding ground had already cracked everywhere, and even the landscape had changed slightly. A large area of the tomb collapsed, and the stone room with the crystal pendant that originally sealed Anubis had collapsed entirely.

But this mess was no longer a headache for Yuei Vu. Isis and Marik will naturally find a way to settle it.

It's rare to come all the way here, of course, Yuei Vu didn't forget to visit the cute little leeks in other places.

In fact, there was no need for Yuei Vu to deliberately promote it. The news that he came to Egypt has already been uploaded on the forum.

The tool people around Yuei Vu have already posted on the forum to show off.

For example, the title of Miss Yuehua's post: Day XX of coming to Egypt with Yuei Vu-san.

A stone stirs up a thousand waves. The players in this area immediately screamed, and all of them said that they were already hungry and thirsty for Yuei Vu's Favorability.

The players here have long been envious of Domino players who have mobile experience packs like Yuei Vu. Now that Feng Shui was turning, Yuei Vu-san finally came to love them!

The players in the Egyptian area said that you should be content with having occupied Yuei Vusang for so long.

Now its our turn to have fun!

After Anubiss matter was dealt with, Yuei Vu immediately arranged several tool people around him to divide the work, and began to arrange and organize the harvesting of local leeks.

This was also the main purpose of bringing a few tool men with him on this trip.

After all, there were so many scattered players here, it would take time and effort to harvest them one by one. After all, his time as a Duel King was also very precious, and he didnt have time to cut them off one by one slowly.

So he hoped that the little leeks could be organized in an orderly manner, at the same time and place, and lined up for him to harvest in one go.

This required a few tool people he brought to run more errands, communicate with the local Industrial Illusions and the branch of Nightcrawler World, and make overall arrangements.

Oh, its a pity that these leeks are still not smart enough to harvest themselves. Yuei Vu sighed and shook his head.

But people, after all, still have to be satisfied.

He has done so to maximize efficiency.

During the period, he would also check to see if there are any small leeks that have developed better in the Egypt area, whether it was worth the extra investment, or simply bring them with you for cultivation.

Yuei Vu now was like a housewife carrying a vegetable basket to the vegetable market to buy vegetables. The little cabbages and carrots swarmed one by one, jumping in front of him in a line. He picked and picked, and picked out the best growing ones to take home.

After these two days, he really found a few that seemed worth investing in among the large number of players who flocked to him.

For example, the male player who appeared in front of him at this time.

This player looked quite quiet, with a pair of ordinary glasses on the bridge of his nose, a suit, slanted bangs, and shiny leather shoes. He looked like an office white-collar worker, and he stood out among the players.

Why was it so conspicuous?

Because compared to the bunch of weirdly dressed guys with weird headdresses in the back, this guy was dressed so so normal.

Its so normal that its like an NPC came out of a bunch of screwballs.

The ID on the head of this guy was One Hammer Deal, No Counter-Offer.

When Yuei Vu saw the ID, he paused for a moment, lost in memory.

This ID seems familiar
