

I Play Yu-Gi 621

Chapter 621: The Strongest Wicked God

"First, I activate Zombie World! Then I activate the remaining trap Needlebug Nest, and send five cards from the top of the deck to the graveyard."

He drew out five cards in one breath, and discarded them one by one into the graveyard, followed by a wave of his hand.

"Quick-Play Spell Burial from a Different Dimension! Return up to three banished monsters to the graveyard!

I return three copies of Mezuki' to the GY! "

"Oops." Yugi Muto said, "If the three Mezuki' returns to GY, he will be able to"

"That's right!" Bakura laughed, "Are you ready for enlightenment? Come again, the god who devours the world and wipes out all things

The Wicked Eraser! "

Space was torn apart again, like a scythe cutting a slit in the dark clouds. The ferocious huge body emerged again, and its sickle-like arms plowed deep cracks in the ground.

"Eraser's attack power is the number of cards on the opponent's field x 1000." Bakura said, "And you only have two cards on the field."

[The Wicked Eraser, ATK 2000]

The attack power was the same as that of the sky dragon. At the same time, these two gods had corresponding positions among the Egyptian Gods and Wicked Gods respectively!

Seeing this guy emerging, the sky dragon couldn't hold back at all. He raised his head and roared to the sky, and without saying a word, he opened his normally closed mouth.

The blue thunder rolled, and the high concentration of energy condensed into a lightning ball of light

Summon Thunder Bullet!

"Yes, the sky dragon will take away 2000 attack points from the summoned monsters, and monsters with less than 2000 points of ATK will be destroyed directly." Bakura smiled, "You know what will happen, right?"

The Thunder Bullets came towards the enemy with great force, exploding with a "bang" on the Wicked God's pitch-black shell, and black smoke filled the air. The Wicked God staggered back and let out a cry that was somewhere between a wail and a roar.

In the blink of an eye, the Wicked God's body exploded, and endless darkness erupted at the same time! The sky dragon roared loudly, and its huge body struggled violently, but it was completely unable to escape the gravity of the mire. In just a moment, it was dragged into the depths of darkness, swallowed up, and disappeared.

The first round of confrontation between the Egyptian God and the Wicked God resulted in a loss for both sides.

The entire place was once again swept clean by the Eraser.

"This way your field will be empty again." Bakura's eyes were bloodshot, "This time, don't think you can survive this round!"

"That's not necessarily true." Yugi curled his lips.

"Nani?" Bakura's eyelids twitched.

Like many villains who were familiar with Yugi, everyone was most afraid of the Duel King saying this because it was often not a good sign

"You will resurrect the Eraser and clear the field to launch an attack, that's what I have expected for a long time." Yugi raised his voice, "The set card you just sent to the graveyard is the trap card Cross Counter Trap!"

During the turn this card is sent to the Graveyard by the opponent's card effect, I can activate up to 1 Trap Card from my hand! "

Yuei Vu drew a card from his hand.

"What I want to activate from my hand is Continuous Trap Call of the Haunted!" he said, "Revive from the graveyard! The God of the Underworld

Osiris the Sky Dragon! "

Thunder fell from the sky and penetrated the heaven and the earth. The Judge of Hell, the Sky Dragon has returned from the depths of the underworld, dragging his flaming red body!

[Osiris the Sky Dragon, ATK 1000]

As mentioned before, God is not affected by trap card effects, but that is only effective while it is on the field. The god sleeping in the hand, graveyard, and deck is just an ordinary card.

The Sky Dragon now summoned back to the field by "Call of the Haunted" would no longer be affected by the effect of this trap. Even if this Continuous Trap was destroyed now, Osiris would not be destroyed together due to the trap card effect.

Yugi folded his arms, and the sky dragon's huge body surrounded him and slowly circled him.

He smiled and said: "Okay, Bakura, let's continue your turn. But taking out those useless trash fish is not allowed in front of God.

Monsters with an attack power of less than 2000 will be instantly killed by God the moment they are summoned. "

"That's right!" Jonouchi understood clearly, "Just when the The Wicked Eraser' activated its effect and destroyed all the cards on the field, even Bakura's Zombie World' was destroyed again!

The Wicked God sleeping in GY is no longer Zombie and cannot be resurrected casually! "

"Oh, that's awesome, Yugi!"

Honda waved his fist, then seemed to remember something, and turned to the Yugi beside him: "Ah, I mean another Yugi"

Bakura grunted unhappily: "You did have a bit of talent, Pharaoh. But don't underestimate me!"

He waved his hand and hit another stone slab in front of him.

"Spell Card Soul Charge!"

Yuei Vu: "!"

Nani? Even the Great Wicked God has discarded his honor to actually use this shameless card?

Soul Charge was the card Rafael used before. This card was originally an unreasonably powerful animated card in DM. For many years, it has been regarded by card players as one of the fake cards that "can never be turned into a real card". Nobody expected that many years later, the unscrupulous card merchant K would actually produce this fake card, but it was not long before he was kicked into the ban list

"Soul Charge can resurrect any number of monsters in my graveyard." Bakura hummed, "It's just that for every monster summoned, I must take 500 points of damage." (Animation effect)

Bakura raised his arms high: "Resurrect from the graveyard, my servants! I'll Special Summon Red Orge', Ryu Kokki', and The Wicked Dreadroot!"

The earth cracked open as if someone had torn a rift from the underworld into the living world. The dark and huge Wicked God took the lead to emerge, with a ferocious and twisted face, followed by two small followers like pendants on the left and right.

[The Wicked Dreadroot, ATK 4000]

[Red Orge, ATK 2600]

[Ryu Kokki, ATK 2400]

It seemed that these were the only three monsters in the Bakura's GY that had more than 2000 ATK and would not be instantly killed by Summon Thunder Bullets.

"According to the effect of Soul Charge', I lose 1500 LP."

It was like thunder falling from the sky, and the golden thunder struck directly on Bakura's body. The latter swayed and took half a step back, but only laughed coldly twice, wiped his mouth, and seemed completely unconcerned.

Sure enough, Shadow Game was a game for M. Because it really hurts when M hits you, and it feels really good when you hit M.

Bakura, LP 5000 LP 3500

"Osiris's special ability is activated!" Yugi said, "Summon Thunder Bullets!"

Three consecutive lightning balls blasted out from the Sky Dragon's mouth, exploding one after another on the three monsters that appeared on Bakura's side. A blue light group exploded, and black smoke filled the air. The Wicked God was okay, just a little wilted, and the other two ordinary monsters could barely stand firm under the bombardment of thunder bombs.

[The Wicked Dreadroot, ATK 4000 ATK 2000]

[Red Orge, ATK 2600 ATK 600]

[Ryu Kokki, ATK 2400 ATK 400]

"Then the effect of 'The Wicked Dreadroot' has also been activated!" Bakura said, "Devil's Howling!"

The boundless dark aura erupted, and the realm of fear covered the entire place.

Moreover, the effect of Dreadroot was to "halve the attack power of all monsters except itself", which meant that this ability did not distinguish between friend and foe.

So you must feel sorry for the other two minions in Bakura's field. They were bombarded by the Egyptian God and had to be tortured by their own Wicked God brother, which highlighted the consequences for mortals in a battle of gods

[Red Orge, ATK 600 ATK 300]

[Ryu Kokki, ATK 400 ATK 200]

Defeating the Sky Dragon with Dreadroot would cause 1000 points of damage, and the remaining two monsters would only cause 500 damage if they directly attacked together. 1500 damage was not enough to defeat Yuei Vu and Yugi.

On the other hand, the Special Summoned Dreadroot would return to the Graveyard at the end of the turn. Only two monsters were left in the field with less than 1000 ATK, which could actually be a breakthrough in Yuei Vu's next turn.

That seemed to be the case, but

"Huh." Bakura hummed, "I know exactly what you are thinking! Just this time, the two Duel Kings are here, so I will let you see the repertoire!"

The strongest Wicked God that has never been used against anyone so far, its power is beyond your imagination! "

Yugi:"!"

The strongest Wicked God!?

Yuei Vu narrowed his eyes.

Is that thing coming?

"Keep your eyes open and watch." Bakura sneered in a deep voice and clicked on a stone slab in front of him.

Before it could be turned over, the stone slab suddenly erupted with unbelievably terrifying pressure, and the evil energy seemed to engulf the world!

"I use 'The Wicked Dreadroot', 'Red Orge', and 'Ryu Kokki' as sacrifices!"

Shadow opens up! The collection of all evils in the world, the ultimate Wicked God

The Wicked Avatar! ! ! "

Chapter 622: Dark Superconducting Wave Thunder Cannon!

"The ultimate Wicked God

The Wicked Avatar, has arrived! "

As Bakura's roar fell, the sky and the earth dimmed simultaneously, as if everything in the world was trembling for the arrival of some great being.

That thing gradually revealed its true form that was really its true form.

It was undoubtedly a magnificent creature, and there was probably no other adjective that could more aptly be applied to the thing's head.

Covered by clouds, it hung high in the air calmly and calmly. It did not have a domineering shape, sharp fangs, or claws that could destroy everything. It did not make earth-shattering roars like dragons and demons when they appear and use a deafening voice to show off their muscles to the world.

It didn't do that, and it didn't need to do that. As the ultimate Wicked God, it even looked a bit unattractive.

Because this ultimate Wicked God looked like a dark, smooth black sphere with no scratches on the case.

But the extremely paradoxical thing was that although this thing had no arrogant curves, ferocious face, or even any scary elements, it just floated there, and its shocking power did not necessarily symbolize annihilation or fear

its momentum seemed even worse than the other two Wicked Gods!

The three Egyptian Gods and the three Wicked Gods were opposite to each other, and each position had its own counterpart. So as the supreme Wicked God, Avatar naturally corresponded to the noble winged dragon.

The Winged Dragon of Ra was known as the Sun God. When it descended, it appeared as a brilliant golden sphere, like the scorching sun in the sky at noon.

In contrast, the image of Avatar also looked like it was related to the sun it looked like a total solar eclipse.

In the myth, this was the ultimate darkness that could swallow the brilliance of the sun, making people lose all hope!

[The Wicked Avatar, ATK ?

At this time, all the Egyptian people in the royal capital were stunned, looking at the dark sphere hanging in the sky in horror, and the fear that dominated the whole body emerged from the bottom of their hearts.

The priests were also shocked. After exhausting all the books they read and all the knowledge they absorbed in their lives, no one had ever heard of such a terrifying evil god.

"This is the most powerful Wicked God?" Jonouchi suppressed the uneasiness in his heart and said firmly, "Ha, it doesn't look like he is very powerful"

But Yugi could not remain that optimistic.

Yugi and Yusei, who directly faced this god, could most intuitively feel the terrifying power brought by this Wicked God. It just floated there calmly, without moving or making a sound, but it

seemed that even the sky was integrated with it, as if with just a simple thought, that thing could easily cause a tsunami of magma to erupt.

What's even more frightening was that even the Egyptian God that existed on their field at this time, Osiris the Sky Dragon, could not rival this evil god. The moment that Wicked God appeared, the Egyptian God's domain was shattered!

The two sides were not at the same level of power at all. That was a gap in the Divine Hierarchy.

"Osiris's special ability!" Yami Yugi suppressed the uneasiness in his heart and tried to use the Egyptian God's power to relieve the pressure. "When the opponent summoned a monster, that monster would lose 2000 ATK/DEF, and if its ATK or DEF was reduced to 0 by this effect, it would be destroyed!

Summon Thunder Bullets! "

The sky dragon's body has already become tense, and the long body coiled up by the dragon is as tight as a bowstring. It had already opened its mouth uncontrollably, and the lightning bomb left a clear blue trajectory in the air, hitting the shell of the black sphere head-on with an indomitable momentum.

But of course, it had no effect.

"Hey, The Wicked Avatar' is the highest-status Wicked God, equal to The Winged Dragon of Ra'." Bakura said proudly, "The abilities of lower gods like Osiris are completely ineffective against it!"

Sky Dragon roared unwillingly but was also very helpless. After all, although it looks majestic, it was actually the younger brother among Egyptian Gods, and it was powerless to deal with such a high-level boss.

"Experience it," Bakura raised an arm, "the power of The Wicked Avatar!"

As he raised his arm, the eclipse-like black sphere in the sky actually began to change!

Its shape began to elongate, and a long tail like a python emerged. Dark and dense scales covered the body, forming scale armor, and short black wings spread out from the back. Its body was tumbling and twisting, as if stirring the clouds, summoning thousands of black lightnings waiting for its dispatch and command.

It actually turned into Osiris!

To be more precise, it turned into a black sky dragon, looking head-to-head with the original sky dragon without fear.

"What's going on!?" Everyone was a little confused.

"Hahahaha! This is the power of the Wicked God. Even gods can be copied!"

Bakura laughed wildly with pride as if he wanted to show off. But Yuei Vu has already turned around and explained the reason to Yugi.

Yuei Vu said: "The Wicked Avatar's attack power will always be 1 point higher than the attack power of the monster with the highest attack power on the field except itself." (manga effect)

"Always 1 point higher?" Yugi was a little confused after hearing this.

[The Wicked Avatar, ATK ? ATK 1001]

It should be said that he was worthy of being the Wicked God who was said to correspond to Ra. Not only did the appearance appear to be the image of a total solar eclipse that is exactly opposite to the sun god, but the effect was also so restrained.

You could imagine this scene: You excitedly summoned the "The Winged Dragon of Ra", and converted all your LP but one point into the attack power of the Winged Dragon. Then the opponent summoned "The Wicked Avatar", and its attack power happened to be 1 point higher than yours

The Wicked Avatar attacked The Winged Dragon of Ra, causing 1 point of battle damage, your LP became 0, and you died suddenly on the spot.

Not only it was extremely insulting, but it was also fatally harmful

"The Wicked Avatar, attack!" Bakura shouted, "Destroy Osiris for me!"

The black sky dragon opened its mouth, and countless particles in the space gathered towards the mouth, like thousands of elves dancing under the guidance of invisible hands.

The rolling black thunder is brewing in the dragon's mouth, and the black thunder is about to come out

"This power could it be!?" Yugi showed surprise.

"That's right! Keep your eyes open and watch, Yugi! This is the God beyond your imagination!" Bakura shouted.

Dark Superconducting Wave Thunder Cannon! ! !

Boundless thunder erupted from the mouth of the black sky dragon, and thousands of black electric snakes surrounded the dark stream of light, like fiery smoke pillars ejected from a volcano!

The real Osiris was instantly overwhelmed by the dark light. Its red scales were burnt black, and its indestructible body was torn apart.

Osiris may have never dreamed that one day he would die from the power of the "Superconducting Wave Thunder Cannon".

(Yugi Muto: Do you believe that one day you will be killed by Summon Thunder Bullets?)

[Yugi x Yuei Vu, LP 3500 LP 3499]

Chapter 623: The Egyptian God, Descends Again!

Osiris the Sky Dragon was defeated!

The sky dragon was wiped out by the blow of The Wicked Avatar. At the same time, the LP of Yuei Vu and Yugi also became a very strange number 3499 points, a scattered number that may not be seen once in ten thousand years

"Set two cards, I end my turn!" Bakura finally issued an End Phase declaration.

The onlookers were now in a commotion again.

The Egyptian people were in deep panic and confusion at this time most people did not understand the rules of the duel, nor did they understand what happened. They only knew that they had just

witnessed the great God of the Underworld being blasted into dregs by his own copy, with no bones left.

Many people had knelt down in a daze, their eyes distorted, as if their worldview had collapsed.

Even the priests were full of doubts about life, with expressions like "How can God be defeated?!"

"If the attack power is always higher, wouldn't it be invincible?" Honda turned to Jonouchi, "Hey, what should we do in this situation?"

Jonouchi scratched his head, with an expression like "I'm at a loss even if you ask me": "If the attack power is always higher, generally speaking, it can only be solved by effects. But the problem is"

"Traps and monster effects have no effect on gods." Yugi Muto looked solemn, "Spells are effective for one turn, but effects that force monsters to leave the field will not work on gods.

Such an opponent it's indeed very difficult to win against them. "

"Huh? Why is this like this?" Anzu, who originally felt confused, couldn't help but become more confused after hearing this explanation.

"But," Yugi Muto changed the subject and spoke firmly, "I believe in the other me and Yuei Vu. They are the two strongest duelists! They will definitely find a breakthrough!"

Then I really thank you for trusting me so much.

Yuei Vu, who heard their discussion, thought to himself.

Fortunately, although "The Wicked Avatar" in the original manga had better resistance than the real-life version, it did not have another effect of the real-life "The Wicked Avatar"

If this card is Normal Summoned: Your opponent cannot activate Spell/Trap Cards until the end of their 2nd turn after this effect's activation.

If the two effects of the original "The Wicked Avatar" and the real card were combined, then this thing might really be close to invincibility.

But now there was still a way.

"My turn, draw!" It was Yuei Vu's turn, "Activate the Spell Card Monster Recovery! Return all monsters on my side of the field and cards in my hand to my Deck. Shuffle the Deck, then draw 5 cards!"

Thanks to DM's card drawing engine, Yuei Vu's hand was replenished to five cards in one breath. He immediately took out another one.

"Spell Card Destruction! Both players discard as many cards as possible from their hands, then each player draws the same number of cards they discarded."

The stone slab in front of Bakura turned into dust and disappeared, and then a new stone slab fell down. He said disdainfully: "There is no point in changing the hand cards. The Wicked Avatar is an invincible evil god! There is no way to defeat it!"

But Yuei Vu didn't seem to hear: "Continuous Spell Card of Safe Return!"

Although this was a relatively rare card in the original work, it was not unique. The "Card of Safe Return" that Bakura had just now had been destroyed by the effect of his own "The Wicked Eraser", so now it's Yuei Vu's turn to use this banned card.

"Activate the effect of the Destiny HERO Malicious' in the graveyard!" Yuei Vu said, "Banish this card from my GY; Special Summon 1 Destiny HERO Malicious' from my Deck!"

Come on, the second Malicious! "

[Destiny HERO Malicious, DEF 800]

"Spell Card Transmodify!" A Spell Card appeared in front of Yuei Vu, "Send 1 face-up monster I control to the GY; Special Summon from my Deck, 1 monster with the same Type and Attribute as that monster in the GY, but 1 Level higher!

I send the Level 6 DARK Warrior Destiny HERO Malicious to GY!

Level 7, Arisen Gaia the Fierce Knight is summoned! "

The galloping wind and the flying horses stepped on the invisible air current as if they were flying through the air. A dark and domineering knight galloped over astride a black horse, holding dark black spiral spears in both hands.

[Arisen Gaia the Fierce Knight, ATK 2300]

"Did you summon another higher-level monster immediately?" Bakura chuckled, "But it was useless. I said, my evil god is invincible! The moment you summoned a new monster, The Wicked Avatar also gained a new form. !

After the sky dragon was defeated, The Wicked Avatar transformed back into a dark ball. At this time Gaia appeared, and the thing began to transform into a new form. Sharp double spears protruded from both sides, and the darkness transformed into the shape of horses and human figures sitting astride the horses. Even the lines on the knight's armor were lifelike.

It copied the appearance of Arisen Gaia the Fierce Knight.

[The Wicked Avatar, ATK 2301]

Yuei Vu ignored it: "Spell Card Monster Gate! Tribute 1 monster; excavate cards from the top of my Deck until I excavate a monster that can be Normal Summoned/Set. Special Summon it, also send the other excavated cards to the Graveyard."

He pointed towards his field.

"I tribute the Arisen Gaia the Fierce Knight' and activated the effect of Monster Gate!"

The knight disappeared together with the horse on his crotch, transforming into a circular white portal with blue flames dancing around it.

At the same time, The Wicked Avatar lost the copy object and turned back into the black sphere again.

Yuei Vu turned over three cards in a row, and the third one was a monster card. So he directly turned over the card: "By the effect of Monster Gate, I special summon Elemental HERO Solid Soldier!"

[Elemental HERO Solid Soldier, DEF 1100]

"At this moment, the effect of Arisen Gaia the Fierce Knight' is activated!" Yuei Vu said, "If this card is Tributed: I can Special Summon 1 Black Luster Soldier' monster from your hand or Graveyard!

Back on the field again! The messenger who transforms chaos into light

Black Luster Soldier Super Soldier! "

The sword light split the void, the silver and black armor intertwined, a red light path clearly lit up in the darkness, and the red tassel fluttered in the wind behind his helmet.

[Black Luster Soldier Super Soldier, ATK 3000]

"The effect of Card of Safe Return!" Yuei Vu said, "Because Black Luster Soldier Super Soldier resurrected from the graveyard, I drew three cards!"

"Useless struggle! Then I use the special ability of The Wicked Avatar to transform it into Black Luster Soldier Super Soldier!"

The black sphere began to automatically transform again, transforming into a torso and limbs. Dark armor covered the whole body, and in the hand was the sword that opened up the world.

[The Wicked Avatar, ATK 3001]

"I said, nothing can defeat The Wicked Avatar." Bakura said with a smile, "Even the legendary warrior will not work!"

"Quick-Play Spell Mask Change!" Yuei Vu said, "I send Elemental HERO Solid Soldier' to the GY, transform!

Show up here! Masked HERO Dian! "

Shining light special effects, solid steel armor covers the hero's body, the flashing sword is swung, and in the center of the hero's belt is a crystal clear blue gemstone.

[Masked HERO Dian, ATK 2800]

"The effect of Solid Soldier!" Yuei Vu said, "If this card is sent from the Monster Zone to the GY by a Spell effect: I can target 1 HERO' monster in my GY, except Elemental HERO Solid Soldier'; Special Summon it in Defense Position!

Come back, Elemental HERO Shadow Mist! "

The dark heroine jumped back onto the field with a clear shout, crossing her arms and squatting in front of her.

"The effect of Shadow Mist!" Yuei Vu continued, "If this card is Special Summoned: I can add 1 Change' Quick-Play Spell Card from my Deck to my hand.

I added the second Mask Change' to my hand.

At this moment, the effect of the Card of Safe Return! I draw three cards from the deck! "

Yuei Vu was operating at a rapid pace. Big monsters on the field are jumping out one after another, and the number of cards in his hand is also increasing rapidly.

Seeing this, Bakura felt an ominous premonition getting stronger and stronger. He frowned and said, "What's the point of doing such a thing? What do you want to do?"

Yuei Vu had no expression on his face and slowly drew out a card from his hand.

Before he even played that card, several people in the duel had already felt the power coming from that card—the instigation of God's power.

Bakura's eyes changed slightly: "That is"

"I sacrificed three monsters, Masked HERO Dian', Black Luster Soldier Super Soldier', and Elemental HERO Shadow Mist'!"

The cards were slammed onto the Duel Disk. The golden Duel Disk was filled with lightning, the electric current crackled, and the golden lightning bombarded the sky.

"Through the underworld and the real world, reappearing from the chaos of thunder

God of the underworld! Sky Dragon of Osiris! ! ! "

Chapter 624: Reflect Energy!

The dragon's slender and powerful body emerged from the clouds, its powerful wings flapped, and countless thunderbolts surrounded its body, making the thunder roll.

Osiris the Sky Dragon descended again!

The God of the Underworld came again as if bringing hope to this place again. The players shouted happily one after another, and the priests were surprised and confused at the same time.

Isn't it true that only the Pharaoh can control the Egyptian God? Why can this young outsider do the same?

No, before that, shouldn't the Egyptian God be unique?

The God of the Underworld had clearly fallen in front of all of us just now, so why is there still a second identical Egyptian God? Wouldn't using a clone of God bring about even anger?

The priests were astonished and felt that their three views, which were already on the verge of being shattered, were once again facing a violent impact.

Bakura, who had already been shocked in the last fight, was not frightened again, but his face was still frighteningly ugly. A pair of demonic eyes stared straight at Yuei Vu, containing resentment and anger

and a little bit of fear.

Although he told himself repeatedly in his heart that the name of the king had been eradicated, even if he created it with light, he could not resurrect him

But what if?

What should be afraid of is not hardship, but the unexpected. He, the Great Evil God, was also afraid.

[Osiris the Sky Dragon, ATK 6000]

"Yuei Vu currently has six cards in his hand, so Sky Dragon's attack power is also 6,000 points!" Honda said excitedly.

Jonouchi said: "No matter how high the attack power is, the problem is still not solved. No matter how strong the attack power is, it cannot defeat The Wicked Avatar"

"That's right!" Bakura laughed, "The Wicked Avatar will copy itself into the strongest monster on the field. It can never be defeated!"

The black sphere has begun to deform again. Its body spread like black flames, transforming into wings, a winding body covered in black scales, and a mouth full of fangs that spewed out sound waves and lightning.

[The Wicked Avatar, ATK 6001]

"I told you," Bakura said, "The Wicked Avatar is an invincible monster, and there is no way to defeat it!"

Yuei Vu waved his hand: "The effect of Destiny HERO Malicious' in the GY is activated again! Banish it from the GY, and the third Destiny HERO Malicious' in the deck is Special Summoned. bring it on! Destiny HERO Malicious! "

Another beam of dark light fell, and the third Malicious landed on the field with a muddy roar.

[Destiny HERO Malicious, defense power 800]

"Quick-Play Spell Mask Change!" Yuei Vu played the card added to his hand through the effect of Shadow Mist, "Send Destiny HERO Malicious' on the field to the graveyard, transform!

Show up! Masked HERO Anki! "

Black armor covered the hero's body, transforming into a ghost-like body. Purple-black flames burned on the smooth and solid armor, sparks flying everywhere.

[Masked HERO Anki, ATK 2800]

[Osiris the Sky Dragon, ATK 6000 ATK 5000]

"What's the point of doing such a thing?" Bakura laughed, "This kind of hero is not even an appetizer in front of the evil god, and even loses the attack power of Osiris"

"The effect of Masked HERO Anki," Yuei Vu said, "This card can attack directly, but when it does so using this effect, the battle damage inflicted to your opponent is halved,"

"That's right!" Yugi on the side suddenly understood and couldn't help but give a thumbs up to Yuei Vu, "Even if the Wicked God cannot be defeated, the LP of the duelist who controls it is limited."

"Tsk, you're being clever again." Bakura snorted unhappily.

"Battle!" Yuei Vu waved his hand, "Masked HERO Anki, attacks the player directly!"

Anki flew up and jumped, looking like a ghost. In a flash, the person disappeared from everyone's sight. He easily bypassed the Wicked God's obstruction and appeared above the head of Bakura. The purple-black tail flames cut a long and narrow arc behind him, and a "Rider Kick" flew straight toward Bakura.

"Bypassing the Wicked God and targeting me Hey, do you think I wouldn't have thought of this method?"

After hearing Yuei Vu's declaration of attack, Bakura's expression changed and he smiled sinisterly. He waved his hand, and the stone slab turned over, dragging the dust.

"Open the set card: Trap Card Call of the Earthbound!" Bakura shouted, "When the opponent declares an attack, I will choose the target of the attack!"

As he spoke, the transparent ghost flew out of the stone slab and shot straight into the body of the Anki that was swooping down. The Masked HERO suddenly paused, the eyes of his helmet flashed red, and his body looked like a speeding train that had been slammed on the brakes.

"So the target I want you to attack now is" Bakura grinned, "Masked HERO Anki, attack The Wicked Avatar!"

Anki's target suddenly changed, and he turned toward The Wicked Avatar as if being possessed.

The Wicked Avatar, who transformed into a sky dragon, only slowly opened his mouth, with dark and chaotic thunder churning in his mouth, and a thunder cannon was brewing!

"Oops!" Jonouchi became nervous, "The current attack power of The Wicked Avatar is 5001. If the battle is established, Yuei Vu will self-destruct"

But Yuei Vu instead curled his lips.

He smiled like "I knew it all along".

When he smiled, Bakura suddenly panicked.

This guy could he have calculated this trick?

"Quick-Play Spell Reflect Energy!" Yuei Vu waved his hand, "Tribute a monster on my field and select another monster on the field. The selected monster can directly attack the player during this turn!" (Animation card)

Bakura: "!"

"I tribute Anki!"

The magic effect was activated, and the "Masked HERO Anki" who was kicking and diving disintegrated in an instant, turning into points of light and dissipating in the sky.

The Wicked Avatar opened its huge mouth, and a black thunder-like bombardment shot out of the air, pushing flat against the ground.

The dissipated light spots immediately gathered behind Bakura, turning into a transparent and clear reflector, with the mirror's silver-white brilliance flashing.

Bakura's expression suddenly changed: "Does that mean"

Yuei Vu pointed at the red dragon tumbling in the sky, "Through Reflect Energy', I give Osiris the ability to attack directly!"

[Osiris the Sky Dragon, ATK 5000 ATK 4000]

"That's right!" Jonouchi suddenly realized, "That's why he used the Anki to attack first to bait Bakura's trap! If he had just used Reflect Energy' to let Osiris attack directly, now Osiris would be forced to attack the The Wicked Avatar' due to the effect of Call of the Earthbound', and he would be killed instead!"

"Yes." Yugi Muto nodded, "And now the sky dragon's attack power is 4000! Bakura's remaining LP is only 3500!"

And Bakura's face at this time was as ugly as if he had eaten a catty of nails.

"Are you actually playing tricks on me?"

"Beautiful!" Yami Yugi also praised, "This is the decisive blow!"

Yuei Vu waved his hand.

"Osiris the Sky Dragon, directly attacks Bakura!

Superconducting Wave Thunder Cannon! ! ! "

Chapter 625: Attacking Wicked God

Superconducting Wave Thunder Cannon!

With four cards in hand, Sky Dragon had 4000 attack power! If this direct attack passed, the duel would end, as well as the great evil god Zorc's destiny!

The Egyptian God roared, and the golden light stream exploded like fireworks. The impact of the superelectric wave passed by the evil god who had transformed into a sky dragon, and pierced the reflecting mirror behind Bakura like an unsheathed sword. The mighty impact reflected a beautiful arc on the mirror, and one end exploded in the back of Bakura's heart!

The golden light curtain and thunder were like erupting volcanoes, and the entanglement of light and smoke engulfed everything on the field.

Seeing with their own eyes that Bakura was swallowed up by Osiris's blow, the onlookers even started shouting they felt that no one should be able to survive the physical blow of the god.

Even the priests smiled happily. The Bandit King had been the source of worry to the entire palace these days, but now it seemed that this little thief would finally be wiped out under the sanctions of the god.

"Successful!" Honda and Jonouchi hugged each other.

"No that's not right." Mana said blankly, "That person his Ba has not disappeared!"

"Eh?"

Sure enough, it was just as she said. After the explosion of the thunder cannon, a figure quickly appeared in the smoke screen. His robe was in tatters, and his body was scorched in many places, but he still stood tenaciously, and a gloomy and vague sound came from his throat.

"What's going on?" Honda was surprised, "Osiris's attack power is four thousand, shouldn't he lose?"

But the fact was that Bakura was still standing here, and the duel was still not over.

Bakura, LP 3501

Yami Yugi was the first to react: "The Wicked God is gone!"

"Quick-Play Spell Mystik Wok," Bakura said coldly, "I activated this card at that moment. By tributing The Wicked Avatar', I gain LP equal to its ATK That's 4001 points.

Bakura, LP 3500 LP 7501 LP 3501

"Damn it, what a haunting guy!" Honda clenched his fists angrily, "I thought I was finally going to"

Yami Yugi said: "But in this way, the invincible Wicked God has been defeated!"

Hearing this, the Sky Dragon behind Yuei Vu seemed to think, "I was the one who defeated that guy. I'm so awesome." He wagged his tail triumphantly.

"I end my turn." Yuei Vu said.

Although it was a pity that he still failed to defeat Bakura, at least the most troublesome and powerful evil god was dealt with, so the result was not bad.

"It's just a moment of luck, don't get too carried away." Bakura snorted, "My turn!"

New slabs fell. Bakura glanced across the stone slab, then looked coldly at the sky dragon churning in the air opposite.

"Look like I have to find a way to deal with that troublesome Egyptian God first."

Bakura narrowed his eyes and raised his hand to hit a stone slab.

"I summon Necroworld Banshee' in attack position!"

A petite immortal girl with pale skin appeared on Bakura's field, with bare feet and a figure as slender as a bamboo pole.

[Necroworld Banshee, ATK 1800]

"Then the effect of Osiris has also been triggered." Yuei Vu said, "Summon Thunder Bullets!"

The sky dragon opened its mouth above its head, summoning lightning bolts to pierce through the air. How could a petite immortal girl be a match for the mighty and powerful Egyptian God? With just one blow, she hurriedly exited in the storm of lightning before she could stand still.

Bakura didn't take it seriously: "Then I activate the effect of Necroworld Banshee! Banish this card from my field or GY; activate 1 Zombie World' directly from my hand or Deck!"

Everyone looked shocked.

"Another Zombie World!?"

At this time, the stone slab sealing the undead domain had appeared on top of Bakura's head again. He raised his arms and shouted: "Come again, the forbidden place of the living, the paradise of the undead

Zombie World! "

Thick black mist rolled across, and the undead and the air of death once again dominated the entire world.

"In this way, all the monsters in the GY will become Zombie again." Bakura shouted, "Banish Mezuki' from my GY! Come again

The god who devours all things and annihilates everything, The Wicked Eraser! "

The huge and ferocious body of the god emerged from the void again. It was shrouded in a layer of darkness as transparent as ink, and the lines of the body were twisted and full of violent beauty.

[The Wicked Eraser, ATK 2000]

"The effect of the Card of Safe Return'." Yuei Vu said, "Because Eraser was resurrected from the graveyard, I drew three cards."

"Hmph, it's up to you. Anyway, this is the last time you use this effect." Bakura snorted, "Of course, Osiris's ability is also activated at this moment, right?"

Indeed, at this moment, the mouth above Osiris opened again, and blue light balls gathered, churning with thunder and lightning.

Osiris: Master, how many times can I control of myself?

Once the thunderbolt hit, there was no doubt about the outcome. The Wicked Eraser self-destructed again, and the boundless darkness annihilated all things. The sky dragon screamed unwillingly and only retreated under the mighty power that wiped out everything.

Instead of resurrecting The Wicked Dreadroot, which could inflict more damage, Bakura chose The Wicked Eraser. Maybe it was because the Special Summoned Wicked God had to go back to the graveyard at the end of the turn anyway. Rather than coveting the little damage, Bakura felt more dissatisfied with the "Card of Safe Return".

In this way, Yuei Vu and Yugi could not rely on the "Card of Safe Return" to replenish resources without limit.

However, in this way, his "Zombie World" would disappear at the same time, and there was no way to resurrect the evil god from the GY casually.

But Bakura's attack was not over yet.

"The third Mezuki' in the graveyard is removed from the game!" Bakura shouted, "Even if I can't call the Wicked God, there are still powerful Zombie monsters sleeping in my graveyard.

Back on the field! Red Orge! "

The orge with a red body squatted on the ground, with dark horns on its head and a black iron rod on its shoulders.

[Red Orge, ATK 2800]

"Come on, Red Orge!" Bakura ordered, "Attack directly!"

Once again, Yuei Vu and Yugi's side was completely cleared by The Wicked Eraser. There was no defense in the field. The Red Orge came towards them without any obstacles in front of them!

Bakura twitched the corner of his mouth.

finally.

The duel had been going on fiercely for so long, and he was finally able to give the two duelist kings a serious blow!

But it wouldn't be so easy.

"I activate the effect of the Necro Gardna' in the graveyard." Yuei Vu said, "During the opponent's turn, I can banish this card from my Graveyard; negate the next attack this turn from a monster you control."

"Nani?" Bakura was surprised.

The Red Orge's iron rod struck down hard, but he had to stop after hitting the solid phantom of the Necro Gardna, and had to retreat.

"Oh, that's awesome, Yuei Vu!" Jounouchi shouted from the side again, "It's a completely impeccable defense!"

"Tch, Set two cards, I end my turn!" Bakura snorted.

But at this time, the Egyptian priests and soldiers were still immersed in the shock of the Egyptian God being defeated again.

Priest Shada on the side couldn't help but say: "God has been defeated again"

"The evil god really has terrifying power." Priest Karim also said, "This battle is beyond our understanding. All we can do now is to place our hope on the Pharaoh."

And their Pharaoh never disappointed them!

"My turn!" It's Yami Yugi again, "I activate the Spell Card Card of Sanctity' from my hand! Both sides draw cards from their decks until their hands are filled with six cards!

Then the effect of The Tricky in the hand is activated by discarding a card, it can be special summoned from my hand! "

A card was sent to the graveyard, and the magician with a flying cloak and a question mark on his chest immediately came to the field.

[The Tricky, ATK 2000]

"Did you call the higher-level monster again immediately?" Bakura smiled, "But this kind of guy can't defeat my Red Orge'."

"I know." Yugi smiled, "But the focus is not on The Tricky' itself, but on the card I just discarded to the graveyard as his summoning condition."

Bakura was startled: "Masaka (It cannot be!)"

"That's right! I'm going to awaken the sleeping power of that card now!" Yugi drew a card from his hand, "I activate the Spell Card Monster Reborn' from my hand! Resurrect the sleeping monsters in the GY!

The scorching wind blew wildly across the earth, suppressing all things with absolute divine power!
Coming

The God of Destruction, Obelisk the Tormentor! "

Chapter 626: The Wicked God Has No Weakness?!

The God of Destruction was back!

[Obelisk the Tormentor, ATK 4000]

"Battle!" Yugi said, "Obelisk the Tormentor, attack Red Orge! God Hand Crusher!"

The giant raised his fist and punched out, and the blue fist wind formed a wave of impact and swept over him. Poor Red Orge may have been considered a big boss among Zombie monsters, but it was obviously not enough in a battle situation like this where gods were fighting. The giant god punched down, and Red Orge just shrank his head and didn't even dare to have the intention of resisting.

However, Bakura had no intention of pinning his hopes on this kind of monster: "Open the set card! Quick-Play Spell Dark Spell Regeneration!" (anime version)

Seeing the overturned slab, Yugi couldn't help but be surprised: "Is that Marik's card!?"

"This card can only be activated when the opponent declares an attack." Bakura shouted, "Choose a Spell Card in the opponent's graveyard, and this effect can be activated as the effect of that Spell Card.

The card I'm going to choose is Monster Reborn! "

The ankh symbol appeared and was soon dyed ink by black flames. The dark water waves rolled away, and the talisman of life seemed to have dissolved in it. A black beam of light rose into the sky and condensed into a black ball in mid-air, like an eclipsed sun.

The Wicked Avatar!

"The Wicked Avatar!" Bakura shouted, "Copy the form of Obelisk!"

The dark evil god began to change its form, transforming into a solid and majestic body, with thick limbs, and transformed into a dark giant standing on the field.

[The Wicked Avatar, ATK ? ATK 4001]

"The next is the trap card Staunch Defender!" Bakura waved his hand and opened another covered stone slab. "With this trap, when the opponent declares an attack, select 1 face-up monster I control. During this turn, the opponent can only designate the selected monster as an attack target and the opponent must attack the selected monster with all face-up monsters!

The monster I want to choose is, of course The Wicked Avatar! "

Obelisk's divine fist was halfway through, and the attack target suddenly deflected, and a mighty punch hit the evil god's face!

The giant's punch even seemed a little impatient.

Egyptian Gods and Wicked Gods were mortal enemies. He already disliked this Wicked God, but it even dared to turn into him!

Its simply unbearable!

But the attack power of The Wicked Avatar would always be higher than that of the opponent. Even if Obelisk had a bad temper, he would probably die from the backlash if it continued like this.

"But at this moment, the number of monsters on your field has become two!" Yugi suddenly said.

"Huh?" Bakura's eyelids twitched, "So what?"

"I activate the Quick-Play Spell Tricky Spell 4' from my hand!" Another card in Yugi's hand was quickly inserted into the Duel Disk, "Send 1 face-up The Tricky' I control to the Graveyard; Special Summon Tricky Tokens' in Defense Position, equal to the number of monsters the opponent controls.!"

A wave of light blue magic power enveloped the magician, and the magician's body split from it, transforming into two clones, one on the left and one on the right.

[Tricky Token, ATK 2000] x2

"That's right!" Yugi Muto already understood what his other self was planning to do, "Even if the attack power of The Wicked Avatar is always higher than the opponent's, there is still a way to defeat him in battle!"

At this time, the Pharaoh has already ordered: "Using two Tricky Tokens' as sacrifices, Obelisk's ultimate ability is activated! In this turn only, his attack power can be increased to infinite!"

Hyper God Energy! "

[Obelisk the Tormentor, ATK 4000 ATK]

"Do you still have this trick?" Bakura curled his lips, "What a troublesome god then, Avatar, fight back!"

[The Wicked Avatar, ATK 4001 ATK]

It could be seen here that although Bakura was the ultimate BOSS of DM, his BISS ability obviously not comparable to Yugi. When the protagonist faced Divine Serpent Geh with infinite attack power, he instantly invented "three times the infinity", and the opponent was instantly defeated.

But Zorc was obviously an honest evil god and could not learn such methods. Mathematically, infinity plus one is still infinite. Therefore, even if Wicked Avatar always became stronger than the enemy, the limit of its attack power could only be the same as that of Obelisk.

"Dark God Hand Crusher!" Bakura shouted.

The two fists clashed, and azure and dark shock waves erupted to both sides, like the waves that exploded on the water at the moment when a fish detonated. The power of the Egyptian God and the Wicked God exploded in the air, and the blue and black giant god were both counterattacked by the impact energy, and were wiped out from the field.

"They die together." Bakura snorted, "Hey, but it's still my advantage."

"Set a card, I end my turn." Yugi said.

"Is this the end of the turn? This doesn't look good, Lord Pharaoh." Bakura smiled, "In this case, I will attack without mercy."

My turn! "

Calling a new slab, Bakura's eyes lit up, and he started laughing again for the Nth times.

Yuei Vu even began to feel a little numb to the evil god laughing so suddenly

"Activate the Spell Card Monster Reincarnation! Discard a card and return 1 monster in the graveyard to my hand."

Bakura casually selected a stone slab and discarded it, and the stone slab immediately cracked.

"What I want to take back is 'The Wicked Avatar!'"

"Again!?" Jonouchi was no longer calm.

Why is this guy so similar to Marik?

Back then in Duel City, Marik's idea of playing cards was to repeatedly call The Winged Dragon of Ra from the graveyard. Now Bakura chose the same tactics.

"Wait a minute," Jonouchi tried to regain his composure, "Even if you get it back, you still need to gather three sacrifices before you can summon it. If you have three sacrifices"

"Spell Card Tribute Burial."

Bakura turned over a stone slab and sneered: "Remove from play 1 Monster Card from each player's Graveyard. This turn, I can Normal Summon or Set 1 Level 5 or higher monster from my hand without Tribute!" (animation effect)

Two cards popped up in Yuei Vu and Yugi's graveyard, namely "Osiris the Sky Dragon" and "Obelisk the Tormentor".

There were a total of two Sky Dragons in their graveyard, but since he could only choose two cards from their graveyard at most, Bakura chose one Osiris and one Obelisk respectively.

As for the sacrifice in his own GY, he chose the "Zombie Master".

"Three monsters as sacrifices!"

The stone slab flew into the air, spinning at high speed, and the black energy rolled up like a speeding tornado.

"Shadow opens up! The collection of all evils in the world, the ultimate Wicked God

The Wicked Avatar! ! ! "

Chapter 627: The Ultimate Egyptian God Descends!

The dark sun rose again, and extreme darkness and evil once again dominated the entire scene.

The Wicked Avatar descended again!

"The ATK and DEF of The Wicked Avatar is equal to the highest ATK on the field except itself +1. Of course, the monster with the highest attack power now is my Red Orge'." Bakura said, "So the evil god will turn into the form of a Red Orge!"

The dark sun slowly set and began to disintegrate and deform from its spherical shape. It transformed into the shape of a ghost, with a strong black body, carrying a black iron rod on its shoulders, and black flames burning invisibly.

[The Wicked Avatar, ATK ? ATK 2801]

The priests began to panic: "Oh no, the Pharaoh and the others are empty now"

"Prince!" Mana tightened her little skirt.

"Go to hell for real this time No, turn into ashes!" Bakura shouted at the top of his lungs, "The Wicked Avatar, attack directly!"

The evil god who transformed into a dark orge raised his arm and waved the black stick in his hand. The dark and domineering impact was like riding the wind and breaking waves, exploding on half of the field of the two Duel Kings!

In the suffocating storm, Yuei Vu felt his body being roughly overturned. The cold and intense touch penetrated his internal organs, and he could barely feel his body.

[Yami Yugi x Yuei Vu, LP 3499 LP 698]

Black smoke slowly rose around him. Yuei Vu sat up, feeling a little dizzy, and half of his body was still stuck in the cold touch, unable to recover.

However, he glanced sideways at Yugi, who was also sitting up, and estimated that the Pharaoh's condition might not be much better than his own.

He heard countless people around him shouting nervously well, more people might be shouting about Yugi.

"This time it's really the final blow." Bakura couldn't help but get excited again.

Finally!

Three thousand years, do you know what this Great Evil God has been through in these three thousand years??

Now I can finally defeat these two biggest enemies with my own hands and resurrect my true body to complete my ideal!

"Red Orge!" Bakura shouted, "Attack directly!"

Regarding the opportunity to bring an end to this fight between gods that spanned three thousand years of time and space, this Red Orge might have realized that "my life is worth it." He raised the iron bar and flew up with a strong momentum, and struck it down hard with one blow.

Boom!

It sounded like a dozen landmines were fired at the same time, and the moment the mace hit the ground, a wave of black smoke shot into the sky.

Bakura's eyes widened, and his breathing seemed to stop.

Success?

Have I defeated the difficult Pharaoh at the same time, as well as Holactie's haunting clone?

I will be resurrected from the underworld soon!

Bakura's heart almost jumped out of his chest. The space in the entire memory world began to become unstable, the space trembled, and cracks appeared on the earth like beaten eggshells, as if the evil god himself in the underworld was excited.

Of course, he was destined to be disappointed again.

[Yami Yugi x Yuei Vu, LP 698]

Bakura asked in shock: "Why?"

"Trap card Defense Draw'." Yugi gasped, pointing to the trap that was opened at the critical moment in front of him. "Make the battle damage I take from this battle 0 and I can draw a card."

"The pestering is endless!" Bakura's mentality was obviously about to explode, "You just don't want to lie down in the grave obediently, do you?"

Of course, he, the Great Evil God, was not qualified to say this.

"Set two cards, I end my turn." Bakura helplessly covered another card, mumbling something as if he was cursing.

"Then it's my turn." Yuei Vu said.

Sure enough, the real protagonist like Pharaoh was more skilled in locking blood. Thanks to this wave of blood-locking assist from his teammates, Yuei Vus skills also shone!

[Duel Skill: God's Anger!

When the LP is below 1000, During your Draw Phase, instead of conducting your normal draw, add 1 "Obelisk the Tormentor" (original) from outside the deck to the hand.]

When the card at the top of the deck was drawn by Yuei Vu into his hand with the encouragement of extreme "force", Bakura's eyelids twitched as he seemed to notice something.

"Activate the effect of Destiny HERO Dasher' in the graveyard." Yuei Vu said, "Once, while this card is in my GY, when I draw a monster during my Draw Phase: I can reveal it; Special Summon it!

What I drew was this card!

God of Destruction, Obelisk the Tormentor! "

Before anyone else could cheer, Bakura shouted: "Don't even think about it! Activate the effect of D.D. Crow' from my hand! Discard this card to the GY, then target 1 card in the opponent's GY; banish that target!

And this effect can also be activated during the opponent's turn! "

A stone slab disappeared from before Bakura's eyes, and a black crow appeared out of thin air. He grabbed the "Destiny HERO Dasher" from Yuei Vu's grave and dragged him out of the dimension.

When Dasher was no longer in the graveyard, the effect could not be resolved. Therefore Obelisk's summon failed.

"Sure enough, you also have a complete set of three Egyptian Gods in your hand." Bakura's eyes turned cold.

His expression was filled with anger and resentment, it also seemed to be saying Don't think I don't know who you are!

"Then activate the Spell Card Graceful Charity'. Draw three cards, and discard two cards."

After three cards were drawn, Yuei Vu was stunned for a moment seeing the new cards, having a little surprised.

But he quickly came to his senses.

"Then I summon the Elemental HERO Liquid Soldier'."

[Elemental HERO Liquid Soldier, ATK 1400]

"The effect of Liquid Soldier When this card is Normal Summoned: I can target 1 Level 4 or lower HERO' monster in my GY, except Elemental HERO Liquid Soldier'; Special Summon it." Yuei Vu said, "I special summon the Elemental HERO Solid Soldier'!"

[Elemental HERO Solid Soldier, ATK 1300]

"The Spell Card Polymerization' is activated." Yuei Vu said, "I fuse Elemental HERO Solid Soldier' and Elemental HERO Liquid Soldier' on the field!

The fusion condition is 1 Elemental HERO' monster + 1 WATER monster!

Fusion Summon! Born from the extremely cold abyss, freezing everything with the absolute power of ice and snow

Elemental HERO Absolute Zero! "

The storm of ice and snow rolled up out of thin air, the white cloak flew like a flag, and the hero flew out amid the swirl of ice and snow.

[Elemental HERO Absolute Zero, ATK 2500]

"The effect of Solid Soldier." Yuei Vu said, "If this card is sent from the Monster Zone to the GY by a Spell effect: I can target 1 HERO' monster in my GY, except Elemental HERO Solid Soldier'; Special Summon it in Defense Position!

I special summon the Elemental HERO Shadow Mist! "

[Elemental HERO Shadow Mist, DEF 1500]

"The effect of Shadow Mist adds the Quick-Play Spell Mask Change' from the deck to the hand." Yuei Vu said, "I set a card on the field.

Then activate the Spell Card Over Destiny from my hand! Target 1 Destiny HERO' monster in my GY; Special Summon 1 Destiny HERO' monster from my Deck whose Level is less than or equal to half of that target's Level!

What I chose was the Level 6 Destiny HERO Malicious. Based on this effect, I special summoned the Level 1 Destiny HERO Disk Commander from the deck! "

[Destiny HERO Disk Commander, DEF 300]

"At this moment, activate the Quick-Play Spell Emergency Provisions'!" Yuei Vu said, "Send any number of other Spell/Trap Cards I control to the Graveyard; gain 1000 LP for each card sent to the Graveyard this way.

I sent the Set card and the activated "Over Destiny" to the graveyard to restore 2000 LP! "

[Yami Yugi x Yuei Vu, LP 698 LP 2698]

Bakura frowned: "There are three more monsters on the field they still sacrificed to summon Obelisk?"

He snorted coldly, but he didn't take it seriously.

So what if you summon Obelisk?

Even the God of Destruction, who is famous for his power, is still no match for my "The Wicked Avatar"!

"Activate the Spell Card Double Summon'. In this turn, I can conduct the second Normal Summon." Yuei Vu said, "I offer Elemental HERO Absolute Zero', Elemental HERO Shadow Mist', and Destiny HERO Disk Commander' as sacrifices!"

The three monsters were entangled in the white whirlwind and shot into the air. Yuei Vu held up a card in his hand, and the golden light in that card flew into the sky like a laser beam.

As if he sensed some kind of power from outside, Bakura's pupils shrank and he was momentarily shocked.

No, that power is not Obelisk!

That is

The ever-changing fire of heaven and earth turns into eternal light to illuminate the earth!

The Winged Dragon of Ra arrives! "

Chapter 628: Isn't It Just A Crispy Chicken?

Warm golden light shone from the sky, and the dark clouds seemed to be lit on fire. The red gold metal sphere slowly descended from the sky. It disintegrated and deformed, with its head and wings sticking out. It raised its head and let out a burning breath.

The Winged Dragon of Ra, summon!

This time, Bakura seemed a little nervous: "Did you actually summon the strongest Egyptian God, The Winged Dragon of Ra, at this time?"

"The attack power of the Winged Dragon is the sum of the attack power of the three monsters used as sacrifices." Yuei Vu said, "The attack power of Absolute Zero is 2500, the attack power of Shadow Mist is 1000, and the attack power of Disk Commander is 300. So now the attack power of the Winged Dragon is"

[The Winged Dragon of Ra, ATK 3800]

"I said, no matter how high the attack power is, it's meaningless!" Bakura shouted, "The attack power of Avatar will always be higher than it, even the Winged Dragon is no exception!"

The Wicked Avatar! Become the sun god! "

The dark sphere also began to deform. It also stretched out its body and raised the head of the divine bird. The metal wings were like sharp blades, and the dark watch case reflected the unique luster of metal.

[The Wicked Avatar, ATK 3801]

"The moment Absolute Zero was sent to the graveyard as a sacrifice," Yuei Vu said, "his effect was also activated. When this card leaves the field, all monsters on the opponent's field are destroyed!

Instant Freezing! "

It was as white as a transparent cold current sweeping across it, and the scene seemed frozen thousands of miles away. The ground was so frozen that it shone like a mirror, and the cold wave invaded the evil god's territory with great force, freezing half of the field on Bakura's side.

"Such low-end effects won't be effective against gods," Bakura said.

"But it's effective against Red Orge'." Yuei Vu said.

During the short two-sentence conversation, the poor Red Orge was frozen into an ice sculpture from head to toe. It exploded with a crisp sound and turned into ice slag all over the ground.

However, The Wicked Avatar stood motionless in the middle of the surging cold current, acting as if he was completely unaware of anything unusual. It seemed like an attack of this magnitude wasn't even worth wasting its attention on.

"Huh, there's no point." Bakura said, "It's just cleaning up an insignificant fish. As long as you can't defeat The Wicked Avatar, everything you do is in vain."

"Not always."

Although it was Yuei Vu's operation, it was Yami Yugi who spoke this time.

"You yourself have said that The Wicked Avatar is a high-level god, so whether it is Osiris or Obelisk, the effects of lower-level gods are invalid on it." Yugi said, "But if it is the highest among the three Egyptian Gods, The Winged Dragon of Ra, its power is effective against Avatar!"

Bakura curled his lips: "Have you been noticed?"

"The effect of The Winged Dragon of Ra' is activated!" Yuei Vu said, "Pay 1000 LP to destroy the The Wicked Avatar!"

The Winged Dragon in Yuei Vu's hand was an enhanced version based on the actual card. Although it was still inferior compared to the original Winged Dragon, this card still had the status of the sun god.

Unlike the original version, it did not need to enter the "God Phoenix" state to use the effect of destroying monsters, but it could only destroy one monster for every 1000 LP paid.

Of course, there was only "The Wicked Avatar" in Bakura's field, so there was no difference.

Yami Yugi x Yuei Vu, LP 2698 LP 1698

The Winged Dragon's eyes turned red, and it let out a sharp roar. Its eyes flashed red, and its entire body glowed with golden light. It flapped its wings and flew high into the air, shining like the scorching sun at noon. The high temperature burned the air into a golden red, and even the suspended posture of the divine bird was distorted by the temperature.

It hung high in the air, with golden light piercing in all directions as if it was releasing endless power and power.

The burning golden storm rolled up out of thin air! The dark realm of the evil god was dispersed, and the storm swallowed up the entire body of the black evil god. The dark winged dragon let out a piercing scream, and its body was torn into pieces, and burned to the point of being invisible in the red-gold flames.

The darkness was dispelled by the sun, and the Egyptian soldiers and civilians burst into cheers.

"Oh! The Wicked God has been defeated!" Yugi and his friends were also very excited.

"Even if you copy the posture of a god, he is still a false god after all, and he is completely vulnerable to the Winged Dragon!" Jonouchi shook his fist, "This way, that guy Bakura will be defenseless again! Come on, Yuei Vu!!!

"The Winged Dragon of Ra, attack directly!" Yuei Vu shouted, "God Blaze Cannon!!!"

Winged Dragon seems to have been unhappy with this evil guy for a long time. Golden light streams flowed along its noble and beautiful body one after another, condensed behind the divine bird, and gradually transformed into a golden sphere. The electric light danced and the high temperature crackled as if there was a golden and fiery sun behind it.

Golden light surged out from the light ball, gathered in the mouth of the Winged Dragon, and exploded into a powerful and endless flame impact!

[The Winged Dragon of Ra, ATK 3800]

Bakura, LP 3501

Nothing could stop the God's attack. The Supreme God's bombardment was enough to completely wipe out the soul of the Great Evil God that has been wandering for three thousand years!

But at the moment when this blow was about to hit, a stone slab suddenly flew out in front of Bakura, releasing light green magic power to form a transparent shield, which steadily withstood the impact of the divine flames.

"Nani?" Jonouchi on the side was surprised, "Why didn't the Sun God's attack work? Is this guy cheating again?"

A stone slab flipped over in Bakura's backfield a trap stone slab.

"Trap cards are ineffective against gods." Yugi frowned.

"Of course, I know this kind of thing." Bakura snorted, "At that moment, I activated the trap card Break Away! During the opponent's Battle Phase: Send 1 Spell from my hand to the GY; end the Battle Phase!

And all monsters on the field have their effects negated until the end of the turn. Of course, this effect is ineffective against gods. "

"Then set two cards, I end my turn."

"Ah, ah, it's just a little bit different again." Jonouchi shook his fist, "Damn it, why does this guy Bakura refuse to fall down?"

However, in fact, Bakura's inner heart was also painful at the moment

I want to ask that question too!

Why do these two guys refuse to fall down?

But as a villain with ambitions and perseverance, Bakura would certainly not give up just yet!

Isn't it just a crispy chicken?

Watch me knock it down!

"My turn!" Bakura said, "Spell Card Spell Books from the Pot! Each player draws 3 cards!"

The new slabs fell, and Bakura raised the corner of his mouth, revealing a proud smile.

coming!

Sure enough, the fate of this great evil god will not end here, I can still continue to fight!

"I summon Immortal Ruler' and tribute it for its own effect! Add 1 Zombie World' from my GY to my hand!

The forbidden land of the living, the paradise of the immortal, has arrived again

Field Spell Zombie World! "

The air of death was rolling in, the black mist was filling the air, and the undead realm once again dominated the duel arena!

"Oops, it's Zombie World again!" Yugi Muto said, "This means that all the monsters in the cemetery have become Zombie again"

"That's right! So now I can use this trap! Open the set card: Trap Card Haunted Shrine! If there are no monsters on my field: Target 1 Zombie monster in my GY; Special Summon it!

Wake up from the graveyard again! The Wicked Avatar! ! ! "

Chapter 629: The Great Evil God Zorc

The strongest Wicked God has returned again, and this time he appears directly against the eldest brother among the Egyptian Gods. It quickly transformed into the same posture as the Winged Dragon, with a pitch-black body, red eyes, and the same breath of flames coming from its mouth, but what was overflowing from the corners of its mouth was pitch-black and deep black flames.

[The Wicked Avatar, ATK 3801]

"Has the ultimate Wicked God returned again?" Yugi said, "He is such a haunting guy."

Bakura paused stiffly, looked down at his hands, and snorted.

"It's almost time."

As he spoke, his eyes flickered, he raised his head and let out a long, high-pitched roar but it didn't sound like his voice, or to be more precise, it didn't even sound like something a human could make.

That majestic voice sounded as if it came from ancient times, traveling through time and space, coming from the other side of the unknown realm.

Then the body of the Bandit King disappeared.

His body looked like it had been torn apart from the inside, the darkness swelling like a balloon. The churning darkness shattered the human skin like a meat grinder. It quickly expanded and became huge, revealing its white claws and sharp teeth like steel knives. The devil's horns were stuck on top of his head, and his huge black feet left deep pits on the ground.

The devil stood among the ancient capital, with dark clouds above his head. Both the Egyptian God and the Wicked God looked so small in front of him.

He and Zorc's illusion merged into one and turned into a real entity!

"Hahahaha! Finally! After so long waiting and so much preparation, I finally got this body again!"

The great evil god Zorc laughed heartily and his voice was like a bell.

The desperate oppression of the great evil god of the underworld seemed to come with the rolling black clouds in the sky, and even Yami Yugi felt the heavy pressure.

Fortunately, they still have Winged Dragon on their side. Although the crispy chicken was weak compared to the opponent's dark counterpart, its existence still helped the two masters share a lot of pressure.

He couldn't help but be surprised: "This is your but Millennium Items "

"Ah, that's right. I haven't been able to collect the Millennium Items yet, so I can only obtain this body for a short time in this duel."

Zorc's voice was muddy and low, and even his speech was completely different from the previous Bakura.

"But soon. The moment you fall, I will break free from the shackles of this Shadow Game and bring endless darkness to this world!"

The great evil god Zorc pointed his thick finger forward.

"The annoying Egyptian God, I will eliminate you first!"

Go, Avatar! Crush the Winged Dragon! "

The black winged dragon opened its mouth, and the majestic energy gathered to form a huge black sphere behind it, with countless lightning tumbling and jumping.

Electric current erupted out surrounded by black flames, and the scene looked like a volcano from the depths of hell ejecting black flames high into the sky. The black electric current was like writhing little snakes, neighing neatly and sharply.

Not to be outdone, the Winged Dragon roared, its golden body burning hot. Unfortunately, it was no match in terms of attack power. The Egyptian God's domain was shattered into pieces, and the golden firebird fell with a long mournful cry, like a falling meteor.

Yami Yugi x Yuei Vu, LP 1698 LP 1697

The Egyptian soldiers and civilians who were watching near the royal capital were stunned again for a moment.

Unlike the previous two gods, the Winged Dragon's status in the hearts of these ancient people was more noble and unshakable. To them, The Winged Dragon of Ra was equivalent to the sun itself, the basis for the continuation of their lives and even the maintenance of the world.

And now the sun has been extinguished.

Then the next would be this world.

"Soon, as long as you two are defeated, my true body will wake up and the world will be swallowed by darkness!" The great evil god's voice sounded like thunder, "Everything will be over!"

As he spoke, the Great Evil God waved his thick arm, and two more stone slabs appeared in the backfield.

Yes, that's right, even if he became such a huge figure, he still had to be patient and continue playing cards

But even though it has the ability to destroy the world, without the Millennium Items now, he was still bound by the rule of this Shadow Game, and even if he wanted to hit someone before the winner was decided, he simply couldn't.

The Wicked Avatar retreated to the graveyard again, which seemed to mean that he had ended this round.

But that didn't stop him from talking.

"It's almost time to give up."

Zorc made a cold sound the sound was as loud as the speakers surrounding him from all directions at the same time. For a moment, it was impossible to tell whether it came from the head above him or the head below him.

"It's not finished yet."

Yami Yugi difficultly took a step ordinary people facing such a huge evil god may not even be able to continue talking.

"Hmph, is there hope as long as there are cards in the deck? I'm tired of hearing this." Zorc said coldly, "Stupid Pharaoh and you too."

His scarlet gaze deliberately glanced over Yuei Vu.

"My power is unlimited, and the one who gives me eternal power is the foolish humans themselves!"

"What?" Yugi raised his eyebrows.

"If you want to feel your own existence in the dark, you must look for your own shadow. Lingering in killing forever because they don't know the meaning of darkness, these are human instincts.

Because of this, I am always invincible! "

He said this arrogantly, but in fact, when he said this, Zorc peeked at Yuei Vu again intentionally or unintentionally.

Because when it came to "always invincible", the great evil god actually felt a little guilty in his heart

Unfortunately, he couldn't see any reaction on the latter's face, and he couldn't figure out what the situation was.

"And you? You are the one who needs to repent the most, Pharaoh." The Great Evil God could only continue to deceive, "Your existence itself represents darkness. The things your father created, the power you possess, the justice you represent, and the kingdom at your feet are all perfect proof!

There is no darker corner in this world than the land you rule. That is why I came to this land and brought about the destruction of this world.

The culprit of all this is actually you! Stupid Pharaoh! "

Even though Yami Yugi knew that Zorc was deliberately attacking his own weakness and trying to expose his weaknesses, these words were still like sharp arrows, piercing his heart again and again.

Yes, why doesn't the Great Evil God appear elsewhere but here? In Egypt?

It happened to be in this place during my time as Pharaoh.

The birth of the Millennium Items and the country's prosperity and strength, were all these really obtained in exchange for sin?

And is my father the father in his gradually awakening memories who, although sometimes strict, had the warmest embrace in the world really the sinner who brought about the deepest darkness?

As if he could see the wavering in Yami Yugi's heart, Zorc couldn't help but be overjoyed and hurriedly struck while the iron was hot. But just as he opened his mouth to continue speaking, he suddenly heard a voice from the side: "Shut up."

Zorc was furious.

Who? Who dare you speak to this great evil god like that!?

Turning around, he saw it was Yuei Vu. The Great Evil God opened his mouth angrily, but somehow he didn't say a word and closed it again silently.

Our great evil god was surprisingly obedient. If you told him to shut up, he would shut up.

It seemed that he was somewhat well-behaved inexplicably

"Maybe what Zorc said is true." Yuei Vu turned to Yami Yugi beside him and said, "Maybe you are indeed the dark pharaoh, and maybe the Millennium Puzzle hanging around your neck contains evil power.

But so what?

Hmm To quote President Kaiba, are you standing here dueling because of that indifferent past? "

Yami Yugi was stunned: "Yuei Vu"

"Yuei Vu is right." Yugi Muto also shouted from the side, "Didn't we make an agreement before we came here? Another me?"

It doesn't matter whether you were a good person or a bad person, a wise king or a tyrant in the past. The way we all met, and everything we have experienced in modern times, will never change! "

"AIBO"

There was a feeling of emotion in the heart of Yami Yugi. He closed his eyes gently, tightened the chain hanging the Millennium Puzzle on his chest, and made up his mind.

Yes, the past doesn't matter anymore.

Now I have the future in my hands!

"My turn, draw!" Yugi glanced at the drawn card, and then immediately chose to activate, "Spell Card Spider Web! Select 1 card in the opponent's Graveyard that was sent there the previous turn, and add it to my hand.

The card I chose was Spell Books from the Pot!

Then activate the Spell Card Spell Books from the Pot! Both players draw three cards from the deck. "

Yugi put his finger on the deck, and before he could draw a card, his eyes flickered slightly.

He felt it.

In the card below I can feel the encouragement from Yuei Vu!

This is the power of the bond between us!

"Draw!"

Three cards were drawn into his hand, and Yugi quickly glanced at them from the corner of his eye.

It's true!

That was the card that Yuei Vu handed to him before the duel!

Chapter 630: The Strongest Duel King

The card that Yugi drew was none other than the blank card from the Pharaoh's Tomb that Yuei Vu handed to him at the beginning of the duel.

Although it was still just a blank slate, at this moment in the duel, Yugi felt completely different holding this card in his hand.

In the conflict between the power of the Egyptian Gods and the great evil god, every confrontation had an impact on his dusty door of memory, like a flood impacting a dam.

And now, most of the memory that spanned more than three thousand years has awakened.

He slowly began to remember everything from three thousand years ago. The rebellion of the Bandit King, the arrival of the great evil god with the despair of destroying the world, the sacrifice of heroic priests one after another, the fall of the Egyptian Gods, and finally he had to make the decision to sacrifice himself to seal the evil god

Yami Yugi closed his eyes and felt the massive images reviving with the stimulation of his nerves again and again. It's like watching a complete movie immersed in a short moment, where every picture and every shot is lifelike.

Even the huge sadness when the priests and friends around him fell one after another, and the loneliness when he was the last person left on the battlefield littered with corpses, it was as real as if it happened yesterday.

Three thousand years later, history repeated itself. The great evil god came again, and he stepped forward again, like a reincarnation that spanned three thousand years.

But the difference this time was that he was no longer alone.

By his side, he had a partner he could trust and rely on.

He thought of the patterns Anzu had drawn with invisible ink on the backs of their four-person team's hands. Each person had only one part in his hand, but together they formed a complete smile.

No matter where they went to, the end of the earth, the underworld, or the other side of time and space, there was a bond that connected them closely.

And now he had a teammate who was fighting together with him Yuei Vu, who shared the title of "Duel King" with him and had given him great help throughout this Ultimate Shadow Game.

Opening his eyes again, the Pharaoh had abandoned all confusion, leaving only the determination to move forward.

The card in his hand, which was originally completely white, gradually had words and patterns appear in a flash of golden light.

Although the Great Evil God Zorc didn't know what happened, bright red characters instinctively appeared on his forehead

Danger!

What's the situation?

What did he draw? Why does his whole aura seem to be completely different from just now?

Yami Yugi turned to look at Yuei Vu: "I'm going to borrow your power, Yuei Vu."

"It's my honor."

"Activate the Spell Card Galaxy Cyclone' that Yuei Vu discarded in the graveyard!" Yugi shouted, "Banish this card from my GY, then target 1 face-up Spell/Trap on the field; destroy it.

I destroy your Zombie World'! "

"Oh, beautiful!" Jonouchi said, "If the Zombie World' is destroyed, Bakura won't be able to summon the Wicked God!"

Not only that, said Yugi Muto, When the Zombie World exists on the field, neither player can Tribute Summon monsters, except Zombie monsters.

In other words, as long as this Field Spell exists, the other me cannot summon God. "

"That's right!" Jonouchi was surprised, "So, Yuei Vu even calculated this for Yugi in advance so strong!"

Yuei Vu coughed twice.

I must remember to be humble

"Troublesome guy." The Great Evil God Zorc glared at Yuei Vu unhappily and shouted, "Then before the Zombie World' is destroyed, activate another effect of the Haunted Shrine' in the GY!

If I control no monsters: I can banish this card from my GY, then target 1 Zombie monster in my GY; Special Summon it, but its effects are negated!

Resurrection again! The Wicked Avatar! ! ! "

A jet-black beam of light rose into the sky, darkness condensed into a sphere in mid-air, and the ultimate evil god came again!

[The Wicked Avatar, ATK ?

"Of course, traps are ineffective against gods." Zorc said, "So the effect of The Wicked Avatar' will not be negated!"

Yami Yugi didn't take it seriously: "Spell Card Pot of Avarice. Shuffle 5 monsters from my graveyard back into the deck and draw two cards.

I shuffled the Magician's Rod', Dark Magician', Watapon', Osiris the Sky Dragon', and Obelisk the Tormentor' back into the deck! "

"Obelisk!? Wait, Obelisk should have been removed from the game"

Zorc: Don't even think about using your BISS on me, the great evil god who is hundreds of millions of years old!

When he activated the Spell Card "Tribute Burial" before, he clearly removed a Sky Dragon and a Tormentor from Yugi's graveyard. There were two Sky Dragons in the GY, so after one was banished, there must be one remaining. But there should be only one Obelisk. Where did this second Obelisk come from?

Could it be that Pharaoh was so shameless that he secretly stuffed it back when he wasn't paying attention?

Then Zorc suddenly remembered what happened in the last turn

(flashback starts)

Yuei Vu: "Activate the effect of Destiny HERO Dasher' in the graveyard. Once, while this card is in my GY, when I draw a monster during my Draw Phase: I can reveal it; Special Summon it!

What I drew was this card!

God of Destruction, Obelisk the Tormentor! "

Bakura: "Don't even think about it! Activate the effect of D.D. Crow' from my hand! Discard this card to the GY, then target 1 card in the opponent's GY; banish that target!

And this effect can also be activated during the opponent's turn! "

Yuei Vu: "Then activate the Spell Card Graceful Charity'. Draw three cards, and discard two cards."

(flashback ends)

""

Zorc: "!"

Did you throw it away at that time?

Could it be that this Yugi Vu deliberately abandoned the god in the GY and shared resources with the Pharaoh in this way??

After all, according to the team battle rules, decks and hands of players of the same team cannot be shared, but the graveyard and field can be shared.

Wait, calm down.

Zorc narrowed his eyes as he watched Yugi shuffle the five cards back into the deck.

The five cards were shuffled back into the deck. Even if there were two gods among them, it would be too metaphysical to draw them all back to the hand in one go.

Even for Pharaoh, such a thing was unlikely

"Draw!"

The two cards were drawn by Yugi, drawing transparent red and blue lines in the air.

The Great Evil God Zorc: "!"

That aura color Could it be that those two cards are

He actually accurately drew back two Egyptian Gods from so many cards in one go! ?

Did you really shuffle the deck?

Yami Yugi looked calm as if every subsequent card and every divine draw was inevitable and destined.

"Spell Card Graceful Charity'. Draw three cards, and discard two cards."

Yugi drew three cards, picked out two discarded them without looking at them, and then immediately slapped the remaining one on the Duel Disk.

"What I drew was the Watapon' that was just shuffled back into the deck by the Pot of Avarice'." He said calmly, "Because it was added to the hand through a card effect, I directly special summoned it."

[Watapon, DEF 300]

The onlookers on the side were also a little confused.

"How come Yugi seems to know what card he drew without even looking at it?" Jonouchi was shocked.

Yugi Muto was also surprised for a moment, but he quickly recovered and said with a smile: "Because of the other me, he is the strongest!"

At this moment, Yami Yugi has awakened to the state he had at the end of DM's battle.

The Pharaoh in this state could do whatever he wanted every time he drew a card. He could get any card he wanted and quickly play any tactics he needed.

He was now the strongest and most peak state, the first generation king who has been called "The Strongest Duel King" by countless generations of Yu-Gi-Oh!

"Quick-Play Spell Multiply'." Yugi said, "Tribute a monster with 500 or less ATK, and split that monster into any number of Tokens.

I tribute Watapon' and special summon four Watapon Tokens'."

The fluffy little Watapon disappeared and split, transforming into four identical white balls.

[Watapon Token, DEF 300] x4

"Three Watapon Tokens' as sacrifices." Yugi raised the card in his hand, "Through the underworld and the real world, appear in the chaos of thunder!

God of the Underworld, Osiris the Sky Dragon! ! ! "

The blue thunder penetrated the sky and the earth, and the red dragon appeared once again riding on the thunder and lightning, roaring at Zorc and the Wicked God on his field!

[Osiris the Sky Dragon, ATK 3000]

"It's meaningless." Zorc simply ignored the sky dragon's roar and said calmly, "What's the point of calling the sky dragon at this time?"

"Quick-Play Spell Magical Dimension!" Yugi continued, "If I control a Spellcaster monster: Target 1 monster I control; Tribute that target, then Special Summon 1 Spellcaster monster from my hand, then I can destroy 1 monster on the field."

Zorc: "???"

Hey, I'm hundreds of millions of years old but I'm not blind yet. A ball of soft cotton on your field, a useless traitor dragon, where did the Spellcaster monster come from?

"Because before that, the set card on my field has already been activated."

Yuei Vu's voice attracted Zorc's attention, and he pointed to a card opened in front of him.

"Quick-Play Spell Code Change'." Yuei Vu said, "Select 1 face-up card on the field whose effect involves a Type(s) of monster and declare a Type. Until the End Phase, the Type(s) mentioned in the selected card's text becomes the declared Type. (animation card)

This was the card used in Yuki Judai's battle with Yugi in the finale of "Yu-Gi-Oh GX". At that time, this card was also taken by Yami Yugi to modify the typing of "Dark Renewal" from Spellcaster to Divine-Beast, allowing Yami Yugi to resurrect the Sky Dragon from the graveyard.

"According to the effect of Code Change', I changed the Spellcaster' Type written on the Magical Dimension' to Divine-Beast'." Yugi waved his hand, "So I Tribute the remaining Watapon Token', special summon from hand

The God of Destruction, Obelisk! "

A blue beam of light rose into the sky, and the giant fell heavily to the ground with a trembling sound!

[Obelisk the Tormentor, ATK 4000]

This operation has already begun to make the Great Evil God Zorc feel cold in his heart.

First Osiris, then Obelisk. If things continue like this

I can't let him continue!

"Open the set card: Trap Card Super Team Buddy Force Unite!" Zorc shouted, "Target 1 face-up monster on the field; Special Summon 1 monster from my hand or Graveyard, with the same original Type as that monster's, but with a different original name!"

I chose the The Wicked Avatar, whose Type is Divine-Beast! So I resurrected a monster from the graveyard who was also Divine-Beast

The Wicked Eraser! ! ! "

The darkness like splashing ink swept across the entire space with an aura of extreme despair at this juncture. The huge scythe cut open the space, and the huge body of the Obliterator came again!

"The effect of The Wicked Eraser! By tributing itself, all the cards on the field are sent to the graveyard!" Zorc laughed loudly, "Disappear, disappear, everything disappears for me!

Be swallowed up by the eternal darkness and wander forever in the endless abyss! ! ! "
