

## I Play Yu-Gi 661

Chapter 661: Super Soldier Rebirth

"Set two cards, I end my turn."

Sera placed two covered cards at her feet and announced the end of the round at the same time.

After surviving the three consecutive attacks of Buster Gundil the Cubic Behemoth, the initiative was finally handed back to Yuei Vu. He once again confirmed and assessed the situation on the field and observed the situation.

Sera had the powerful Cubic Behemoth on the field, as well as two set cards of unknown purpose. On Yuei Vu's side, only the Dark Magician Girl was left, and she had been "de-dimensionalized" in the previous battle, so her effects were negated and she could not declare attacks.

In this case

"My turn, draw."

The Dark Magician Girl held her breath and tightened her grip on the small staff.

*Now I'm the only one standing in front of Master!*

*Perform well, and he will definitely have to rely on me next!*

"Activate the Equip Spell Wonder Wand' from my hand." Yuei Vu said, "This card can only be equipped to a Spellcaster monster. It gains 500 ATK."

A small wand embedded with an emerald appeared in the hand of the magical girl. The girl held a staff in each hand, feeling that the magic power in her body was unprecedentedly full.

[Dark Magician Girl, ATK 2000 ATK 2500]

The girl cheered up.

*Very good, keep up this momentum*

"Another effect of Wonder Wand." Yuei Vu said, "Send this card and the equipped monster to the graveyard, and draw two cards from the deck."

Dark Magician Girl: "?"

The girl suddenly became weak, pursed her lips, and left the scene under the magic power released by the staff.

After drawing two cards, Yuei Vu only glanced at it and drew one of them: "Spell Card Spell Books from the Pot. Each player draws 3 cards."

After a pause, his eyes quickly swept across the twisted and weird surroundings.

"In the Dimension Duel venue, the summoning of high-level monsters does not require Tributes, right?"

"That's right." Sera nodded.

"Then let me use this rule." Yuei Vu drew a card from his hand, "I have the Dark Magician' in my hand, Dimension Summon!"

The dark magic circle spun open, and the black-robed mage flew forward. The staff whirled in his hand like a windmill, and the magic surrounding the staff stirred into a swirling vortex.

[Dark Magician, ATK 2500]

"The Pharaoh's most trusted servant, the Dark Magician?" Sera said slowly, "But his power is not enough to defeat the Cubic Behemoth."

"Maybe, but this guy can." Yuei Vu pulled out two cards in one breath, "Ritual Spell Advanced Ritual Art!

Send Normal Monsters from my Deck to the GY whose total Levels equal the Level of a Ritual Monster, and Ritual Summon that Ritual Monster from my hand! "

A card from the deck automatically popped up and was drawn out by Yuei Vu and displayed.

"The ritual material I chose to send from the deck is, Level 8 Cosmo Queen"! Ritual Summon!

The messenger who transforms darkness into light

Level 8, Black Luster Soldier Super Soldier! "

With silver armor and red lines, the warrior's glory shone so bright that no one could look directly at it. The long sword blade flashed with light, and the warrior with a resolute face stepped out slowly, pointing the tip of the sword diagonally at the ground.

[Black Luster Soldier Super Soldier, ATK 3000]

"The legendary super warrior You actually summoned such a powerful being. But"

Sera smiled slightly.

"His power is only comparable to that of the Cubic Behemoth"

"Battle!" Yuei Vu said, "Black Luster Soldier Super Soldier, attack the Buster Gundil the Cubic Behemoth!"

"!"

Surprise showed in Sera's beautiful big eyes, "The attack power is the same both sides will die together if we fight. According to the rules of Dimension Duel', each of us must take damage equal to the attack power of the destroyed monster"

Yuei Vu, LP 1600

Sera, LP 4000

The attack power of both monsters was 3000. If each took 3000 damage, Sera would still have 1000 LP left, but Yuei Vu would be directly defeated!

*What on earth was he thinking?*

But anyway, the super warrior has drawn out his divine sword. Cold light flew on the blade, and the power of chaos that opened up the world quickly gathered, containing the domineering power of cutting apart space.

The Cubic Behemoth was also not to be outdone. Its body was rapidly charged with energy, and the fire snakes were coiled around it, ready to blast out at any time!

"At this moment," Yuei Vu showed a card in his hand again and quickly stuffed it into the graveyard area of the Duel Disk, "Discard the Envoy of Chaos' to activate its effect!

During the Battle Phase, I can discard this card, then target 1 Black Luster Soldier' monster I control; it gains 1500 ATK until the end of this turn.

Moreover, in the turn when Envoy of Chaos's effect is activated, every opponent's monster that battles it this turn has its ATK become that monster's original ATK during damage calculation only!

"

Sera quickly realized something: "The Cubic monster's attack power increases based on the number of Vijams' that overlap below. Its original attack power"

"That's right." Yuei Vu smiled, "The original attack power of Cubic monsters is all 0."

[Black Luster Soldier Super Soldier, ATK 3000 ATK 4500]

I see while increasing its own strength, it also targets the weaknesses of the Cubic monsters. Sera said seriously, Its very powerful.

But open the set card: Trap Card Cubic Causality!

According to the number of "Cubic" monsters on my field, "de-dimensionalize" the corresponding number of monsters on the opponent's field! "

The Black Luster Soldier Super Soldier's extremely domineering sword only struck halfway before his body froze. His armor seemed to have been eroded by something, and the sword fell heavily as if its weight had increased tenfold out of thin air, making him unable to even swing the sword.

"The effects of monsters that have been de-dimensionalized' are negated and it cannot attack." Sera said, "Black Luster Soldier Super Soldier cannot attack, so the attack power of Cubic Behemoth will naturally remain the same.

In this way, the remaining Dark Magician is no match for it"

"That's not necessarily true."

Sera: "?"

Yuei Vu quickly played another card: "Quick-Play Spell Dedication through Light and Darkness! The Dark Magician' on my field is used as a sacrifice, and Specially summoned his chaos form from my hand, deck, or graveyard.

To transcend the shackles of time and space and master black magic, the magician with the ultimate secret of magic

Dark Magician of Chaos! "

The darkness of chaos swallowed up the magician's figure, and a slender Chaos Mage in dark clothing flew out. Under his feet was a magic circle burning with black flames. The outer ring of the magic circle was engraved with complex incantations and rotated rapidly as the incantations were recited.

[Dark Magician of Chaos, ATK 2800]

This was also the old card that Yuei Vu used against Pandora in the early days.

It's just that the "Dark Magician of Chaos" he pulled out of the system card pool at that time was a new version whose effect text had been castrated and weakened.

But just like the previous "Sorcerer of Dark Magic", now he has acquired the Dark Magician of Chaos who was at his peak before the effect text was modified!

"The effect of the Dark Magician of Chaos." Yuei Vu waved his hand, "When this card is Normal or Special Summoned: I can target 1 Spell Card in my Graveyard; add that target to my hand." (Old version effect)

The Dark Magician of Chaos closed his eyes tightly and recited an ancient and lengthy spell. Dark spell words quickly floated through the air, the black magic circle opened, and a card from the GY flew back to Yuei Vu's hand.

"The card I added to my hand is the Quick-Play Spell Chaos Scepter Blast!"

Sera's expression changed slightly: "When was this card"

Then she suddenly remembered the "Monster Gate" that Yuei Vu used at the beginning of the last turn.

"I see. Were the arrangements already in place at that time?"

Yuei Vu directly inserted the cards in his hand into the Duel Disk.

"Quick-Play Spell Chaos Scepter Blast! This card can only be activated when I control a Level 8 or higher Spellcaster-Type monster. Banish 1 card on the field face-down."

The Spell Card with the same name as the ultimate move of the Dark Magician of Chaos was obviously designed to be the exclusive spell of this ultimate mage. The power of such spells was naturally extraordinary.

Yuei Vu raised his hand and pointed at the huge thing hanging in the air at Serra.

"Remove Buster Gundil the Cubic Behemoth' from the game!"

The spell of destruction is like the ultimate sentence brought by black magic. The magician raised his staff, and the dark and lightless magic wave hit the Cubic Behemoth's huge body head-on. That power tore open the space and opened the way to another dimension.

The huge beast's figure distorted with the space, as if it was forced into the gap by invisible hands, and disappeared with the splashing of sparks and black lightning.

The situation was reversed, and all obstacles on the girl's field disappeared. This time, Sera's side became undefended and faced the ultimate mage from Yuei Vu's side.

"Dark Magician of Chaos," Yuei Vu ordered, "attack directly!"

The magician raised his staff again, and several magic circles appeared one after another above his head. Black flames burned along the lines of the magic circle, and the power of destruction was overwhelming

Sera opened her clear eyes, and a golden flash lit up on her forehead.

"Open the set card." The cover card that was opened once again was her last trap, "Trap Card Cubic Rebirth!"

Yuei Vu's eyes flashed.

*Is there actually a trap?*

"When an opponent's monster declares a direct attack: Target the attacking monster; the opponent can Special Summon as many cards with the same name as the attacking monster from the hand, deck, or graveyard."

"The only Dark Magician of Chaos' in my deck is this one," Yuei Vu said.

"Then the follow-up effect of Cubic Rebirth' is that all cards with the same name that attacking monsters on the opponent's field will be de-dimensionalized'. Their ATK becomes 0 and their effects are negated!"

The storm of magic power disappeared, and the black flame was extinguished instantly. The gorgeous magic circles in the sky ceased one after another. The Dark Magician of Chaos gritted his teeth and knelt down. His dark and slender body gradually turned white, as if it had been corroded.

[Dark Magician of Chaos, ATK 2800 ATK 0]

"Cubic Rebirth'a final effect." Sera calmly showed a card in her hand, "Special Summon 1 Level 4 or lower Cubic' monster from my hand, ignoring its Summoning conditions."

She raised her little hand.

"Come on! Duza the Meteor Cubic Vessel!"

Streams of golden light emerged out of thin air, carving out a huge black steel body in the air, and landed heavily on the ground, causing debris to fly everywhere.

[Duza the Meteor Cubic Vessel, ATK 1600]

"The effect of Duza the Meteor Cubic Vessel' If this card is Normal or Special Summoned: I can send 1 "Cubic" card from my Deck to the Graveyard." Sera showed a card, "Send the Continuous Spell Cubic Dharma' from the deck to the GY."

Then I activate the effect of Cubic Dharma'. I can banish this card from my GY, then target 1 Cubic' monster in your GY; add it to my hand.

In this way, Sera ensured that she would still have resources available to organize a counterattack in the next round.

"In this way, all your attack methods will be used up." Sera smiled.

Both the Super Soldier and the Dark Magician of Chaos were de-dimensionalized, unable to attack or use their effects. The Magician's attack power was even reduced to 0, which is now equivalent to a Notmie with 0 attack power.

Yuei Vu only had 1600 LP left. In this state, if it went to Sera's next turn, he would undoubtedly be killed by Cubic's powerful offensive capabilities.

"But have you forgotten," Yuei Vu chuckled and pointed to his feet, "I still have a card here."

Seras eyes flickered slightly.

*Is that one of the two cards that were set on the first turn?*

*Could it be that a card can bring the dead back to life and reverse the outcome?*

"Let me show you now, this card is" Yuei Vu turned over the cover card, "Trap Card

Super Soldier Rebirth!

Send 1 Black Luster Soldier' monster on my field to the graveyard, and Special Summon 1 Black Luster Soldier' monster with a different card name from my hand, ignoring its Summoning conditions! "

Black Luster Soldier Super Soldier, who was suffering from the erosion of "de-dimensionalization" and half-kneeling on the ground with difficulty, gradually emitted golden light from his armor, and his whole body turned into particles that filled the sky and dissipated.

"I sent the Black Luster Soldier Super Soldier' to the GY and made him reincarnate in the field of chaos!

The heaven and earth are opened! Bringing the souls of light and darkness as sacrifices to the Chaos Field, the legendary strongest warrior

Black Luster Soldier Envoy of the Beginning! "

Black clouds arose in the dimensional space, and countless rays of golden light shot down. The blue-armored Black Luster Soldier's body was covered with a god-like divine light that slowly descended, and the chaotic cyclone penetrated the sky like the sword of Hui Shi.

[Black Luster Soldier Envoy of the Beginning, ATK 3000]

Sera was shocked: "At this last moment, the envoy of the beginning was actually summoned?"

"The battle continues." Yuei Vu issued the attack order again, "Black Luster Soldier Envoy of the Beginning, attack the Duza the Meteor Cubic Vessel'."

The warrior stepped forward, as fast as lightning. The moment his sword was drawn out, it seemed to disappear out of thin air. The sword light dragged a golden afterimage and slashed straight down from the top of the square monster's head, chopping the big black iron block into two pieces.

Sera, LP 4000 LP 2400

"The effect of Black Luster Soldier Envoy of the Beginning'." Yuei Vu said, "If this attacking card destroys an opponent's monster by battle: It can make a second attack in a row.

Black Luster Soldiers, attack directly! "

That was also the final blow. The Black Luster Soldier succeeded with the sword, and without stopping, he took advantage of the situation and dodged forward. The raised sword fell towards the front of the girl. The light of the sword was like a golden waterfall, illuminating her delicate and small face.

Sera closed her eyes gently and smiled calmly.

Sela, LP 2400 LP 0

Chapter 662: The Eighth Millennium Item

The Envoy of the Beginning's decisive sword strike, the sword slash that broke through time and space, brought this Dimension Duel to a final conclusion.

The petite girl staggered back, staggering back under the slashing sword energy, her broad red robe making a hunting sound.

The space of the duel changed again, and the bloody sky was gradually replaced by darkness. The empty vortex disappeared, and the platform the two stood on also disappeared. The scene switched, and the surrounding area returned to the place before the duel began.

The rain had stopped. The ground was full of water, and water droplets dripped down the ends of the eaves, creating transparent ripples in the water.

The blast of the Chaos Warrior's final blow knocked Sera to the ground. Yuei Vu stepped forward slowly and stood still in front of her.

Sera was a little surprised to see him extending his hand towards her.

"I know you have no ill intentions." Yuei Vu shrugged, "Now, are you willing to tell me what your purpose is?"

As we all know, as long as people played cards, they were all card friends, and card friends hid nothing from each other.

Even if you looked at the great villains in the past generations of Yu-Gi-Oh, they have worked hard to make various plans, and the whole process was as mysterious as the Riddler.

However, as soon as they played cards with the protagonists, no matter who the villain was, they would immediately change their attitude, talk about everything, and explain all the messy evil plans at once

Sierra was stunned for a moment, smiled softly, stretched out her little hand, and took him to stand up.

"Duel King Yuei Vu, you are indeed a unique person." She said, "You seem to know the existence of our Prana. Then I will keep the story short."

Serra first introduced her name and origin.

She and her companions were orphans who were taken in by the tomb keeper Shadi, and were called "Prana". According to the prophecy, they would go to a higher dimension beyond this dimension.

Yuei Vu thought this part was relatively easy to understand.

*Isn't it just about overcoming the tribulation and ascending to heaven? I'm familiar with this kind of novel*

But the most urgent problem before them now was that President Kaiba insisted on digging the Pharaoh's grave. If the president really used black technology to pull the Pharaoh out of the tomb, their Prana would not be able to ascend.

After all, everything was arranged by Shadi.

Sometimes Yuei Vu feels that if the entire "Yu-Gi-Oh! DM" is a long-running movie, then Shadi was the screenwriter and director. DM's plot was largely driven by him. Even now that his body had been wiped out and his soul was gone, his shadow could still be seen in the evolving plot.

Losing both body and soul, yet still directing the film from below the grave. To be honest, you really couldn't find another great director as dedicated as him

Yuei Vu understood the situation, but what still confused him was

*So why did you come to me?*

Kaiba wants to dig the Pharaoh's grave, then you should go to find Kaiba. What does that have to do with me?

Sera explained: "Seto Kaiba is not the kind of person who will easily waver in his determination. Especially when it comes to the Pharaoh, it is impossible for him to listen to the opinions of outsiders."

Yuei Vu raised his eyebrows.

*That's right, so what?*

"But if it's your opinion, maybe it will attract his attention." Sera's face was full of seriousness, "If anyone can change Seto Kaiba's opinion, it may be you."

Yuei Vu: ""

*Damn, why do you think Kaiba will listen to me?*

*Just now, you said that he would not listen to any outsiders' opinions, so what you are saying now is that I am not considered an outsider?!*

"So you think I will help you persuade Kaiba?"

"You are a nice guy, Mr. Yuei Vu," Sierra whispered softly.

Yuei Vu stared blankly.

*Don't look at me like that, I have no shortage of nice guy cards*

"Sorry, but as you said, Kaiba is not someone who changes his opinion easily, especially on this matter." Yuei Vu said with a straight face, "I can't do anything about the Pharaoh "

"We, Prana, will use a prop called the Quantum Cube' to leave this dimension." Sera interrupted him, paused, and seemed to be deliberately brewing here, "You can also call it the eighth Millennium Item."

She paused here, but Yuei Vu just crossed his arms with a "keep on talking" expression. He was not surprised at all that there were eight Millennium Items.

As we all knew, there were nine Pieces of Eight and thirteen of the Twelve Golden Saints, so it must be common knowledge that there were eight of what called Seven Millennium Items.

It's just that it's different from other artifacts with standard formats such as "Millennium Puzzle" and "Millennium Ring". Although the thing in their hands was also a Millennium Item, its name was actually "Quantum Cube".

As the saying goes, "Adding quantum physics makes everything science". After hearing this name, Yuei Vu couldn't help but stand in awe of the ancestors who built this artifact he never expected that the great alchemist many years ago had already come into contact with such a field.

Now even if someone told him that the ancient Egyptian palace was actually a mobile fortress and that the Egyptian pyramids could actually transform into Gundam-like robots to stand up and fight, he wouldn't find it too strange.

Sera only felt that Yuei Vu was worthy of being a well-informed Duel King, and he was not surprised at all when he heard the shocking revelation of the eighth Millennium Item.

So she continued: "The Quantum Cube' has the same powerful power as the other seven. Just like other Millennium Items have powerful functions in different fields, the power of the Quantum Cube' lies in the field of space'."

*It sounds like Cosmic Cubewell, it looks like Cosmic Cube too.*

If we, Prana, successfully transcend this dimension and reach the unknown realm, then we may no longer need the power of the Quantum Cube.

It is just a prop we use to transcend dimensions. After its mission is completed, we will not take it away but will stay in this world and leave it to a person who is strong enough and trustworthy to keep it."

"It means are you going to leave it to me?" Yuei Vu understood a little bit.

Sierra nodded slightly.

Yuei Vu narrowed his eyes slightly.

*You are bribing me!*

He originally wanted to rebuke loudly, but

"The Pharaoh is a deceased person. He put down all his worries and entrusted the world to our hands, and then he went to the underworld with peace of mind." Yuei Vu said with a serious expression, "It is a mistake to disturb the sleep of the deceased. I will do my best to stop Kaiba's behavior."

The girl smiled happily.

She closed her eyes and bowed sincerely to Yuei Vu.

"Then please, Duel King Yuei Vu."

After saying that, her body turned into countless light spots and disappeared.

Chapter 663: Please Stop Asking!

Sierra has left.

Yuei Vu still really wanted the "Quantum Cube" in the hands of Aigami. That thing was known as the "Eighth Millennium Item", so the power contained in it was certainly not weak. More importantly, it also had spatial capabilities, like a certain blue cube.

Each of the traditional Millennium Items was more arrogant than the last, and they liked to be picky. Only their owners who were accepted by them could wear the items, let alone command them. However, the "Quantum Cube" with a completely different style that appeared in the movie was not explained in detail, and it is unclear whether there are any restrictions on its use.

In addition, even if there are usage restrictions, Yuei Vu could still find Kaiba to use their company's increasingly developing black technology to find a solution.

At the end of the movie, Kaiba seems to have picked up Aigami's Quantum Cube, got inspiration from this space artifact, finally broke through the technical obstacles, and successfully found the passage to the underworld

*As long as I can dissuade President Kaiba from digging his grave, once their Prana leaves, the artifact will naturally have Vu surname.*

*Now the key part of this troublesome problem falls on the president*

Actually, based on Yuei Vu's observation and summary, he felt that the president didn't really want to beat Atem, he just simply wanted to play cards with Atem.

After losing the fight, the president looked furious on the surface, but actually, he was secretly feeling happy, and he was still moaning: "Hmph, Yu gi, remember this. I will definitely win next time!"

If he won for real, the president may go berserk: "This guy is not a real Yugi at all! Such a duel is meaningless!"

*It's quite difficult.*

*This matter needs to be considered in the long term.*

After the card game was over, Yuei Vu gathered his mood and turned back to pick up the pink umbrella with a girlish style that had just been thrown away on the roadside.

Although Chika would definitely not say anything if she did it, that was still not good after all.

Yuei Vu took an umbrella and walked on the sidewalk that smelled of moisture after the rain. He disappeared at the end of the street while thinking about it.

Shortly after he left, a figure appeared on the street corner behind.

That's a girl. She was tall and thin, with almost perfect body proportions. Her delicate little face looked like a porcelain doll, dotted with a pair of jewel-like blue eyes.

It was really the lost girl that Yuei Vu and Chika met at Kaiba Land during the day, Ayumu Natsuki.

But at this time, her expression was solemn, and her fair face seemed to be covered with a layer of frost. She was almost unrealistically beautiful, but at the same time, she was also intimidatingly cold.

Those clear blue eyes shot out a gaze as cold as a steel knife, staring straight at the direction where Yuei Vu's back disappeared.

"Duel King, Yuei Vu." She said to herself in a cold voice, "He is indeed a duelist worth paying attention to."

""

This aura seemed to be the perfect fusion of the villain behind the scenes and the iceberg queen only lasted about ten seconds on her.

That's when the voice of Yuei Vu, who should have disappeared from the front, suddenly sounded from behind her.

"Peeping is a bad habit."

"Ah!"

The iceberg queen's domain was instantly defeated, and the girl was so frightened that she almost jumped up. She turned back in shock and took two steps back. She instinctively crossed her arms over her chest, her little face full of vigilance.

After seeing Yuei Vu who suddenly appeared behind her, the girl seemed to lower her guard and pouted angrily: "I'm almost scared to death!"

Yuei Vu couldn't help but be speechless: "It's obviously you who is following me, okay"

If you only looked at the opponent's defensive posture and cautious eyes, someone who didn't know better would have thought that Yuei Vu was up to no good.

"Why are you following me?" Yuei Vu asked straight to the point.

"Eh?" Natsuki finally came back to her senses, "I didn't."

Yuei Vu looked full of disbelief: "You know that looking away when talking is like writing 'I'm lying' on your face, right?"

"Um."

Natsuki intertwined her fingers and started to look down at her toes, her head drooped as if she had been caught making a mistake, which looked quite cute.

"So what exactly are you here for?"

"I forgot something at Kaiba Land and I wanted to go back to get it, but I just happened to be passing by." She whispered and began to move tentatively, "Thenif nothing happens, I'll go first. "

Yuei Vu pointed in the opposite direction expressionless: "Kaiba Land is over here."

The girl stopped moving in embarrassment.

Professionally having no sense of direction, that's what it was.

"Did you forget something?"

"Iumforgot my glasses."

"But you don't wear glasses."

"Huh?" Natsuki was obviously too nervous to ignore the question, so he had to bite the bullet and said, "Iumcontact lenses."

Yuei Vu was helpless: "Do you believe this yourself?"

Natsuki nodded like a chicken pecking at rice, then raised her eyelids to secretly glance at Yuei Vu's expression, quickly retracted her head, and shook her head.

The reaction was like saying: Believe it or not?

Yuei Vu sighed: "Besides, Kaiba Land has been closed a long time ago."

"Oh, that's it. Then I'll come back tomorrow. Thank you~"

The girl bowed to express her thanks, then turned around and planned to leave

Then she was dragged back by Yuei Vu by her collar.

"So why are you following me?"

Natsuki seemed about to cry: "I will never dare to follow you secretly again. Today I made a mistake. Can you please let me go?"

Yuei Vu: ""

Originally, Yuei Vu thought she was some kind of villain who wanted to cause trouble, and she had some conspiracy behind her. Maybe it was even related to the robot that was causing trouble in the haunted house during the day.

Now it seemed that he may have thought too much

In addition, he also noticed a small detail that he had ignored before.

"Ayumu Mizuki, Fukuhara Natsuki these are the names of the two singers invited to sing original songs at the Kaiba Land one-year anniversary event, right? I didn't remember until I saw you just now. Their names are printed on the promotional posters for the first-anniversary event.

Yuei Vu turned his eyes to the girl again.

"Ayumu Natsuki your name is really a coincidence."

"Yes it's quite a coincidence"

The girl's big aqua-blue eyes began to wander around again, looking around but not daring to look at Yuei Vu.

*Coincidence? Coincidence my ass!*

*It's just a coincidence that Edogawa Conan might agree with you*

"So your name is not Ayumu Natsuki at all, right?" Yuei Vu continued to ask, "Who are you?"

The girl couldn't help but cover her face, her expression seemed to say

Stop asking, please stop asking!

She seemed to finally realize that she couldn't run away today. She bit her lip and seemed to have finally made up her mind.

Yuei Vu saw her flipping her little hand, and a folded silver-white Duel Disk appeared out of thin air on her wrist. It was a style and shape he had never seen before.

Just the little show of her hand was enough to prove that she was definitely not an ordinary person.

The girl put the Duel Disk on her slim and small arms, and then looked at Yuei Vu with her watery blue eyes.

She bit her soft lips and said nothing, but her eyes clearly seemed to say

Little brother, do you want to play cards?

"Fine."

Yuei Vu took out the deck he had just used for the duel with Sera, replaced it with another one, inserted the new deck into the Duel Disk, and activated the system.

"But if I win, you have to tell me everything honestly."

The girl continued to nod like a chicken pecking at rice.

It's just that at this time, Yuei Vu never thought that he didn't even need to win this duel. The duel had just begun and he already had the answer to his question.

Natsuki, LP 4000

Yuei Vu, LP 4000

"I'll take the initiative draw!"

The girl drew a card, glanced at her hand, hesitated, and bit her lip as if she had made some important decision.

She pulled out a card, held it in the air, and hesitated for a while before finally placing it down.

Yuei Vu: "?"

It's just a game of cards. Why is it that the first card you play is like having a difficult childbirth? Is it so difficult?

"I summon Maiden with Eyes of Blue' in attack position."

Yuei Vu: "!!??"

Chapter 664: Surprise!

A card was placed on the Duel Disk, and a three-dimensional projected monster appeared.

The air seemed to be filled with a faint scent of white sandalwood, and a girl walked out. She has long silver-white hair that is unforgettable, and her eyes are as clear and blue as the clear sky.

[Maiden with Eyes of Blue, ATK 0]

Yuei Vu was not surprised that this girl actually had "Maiden with Eyes of Blue" in her hand, an exclusive support card for the White Bride that even Kaiba had not yet been able to print Well, this was actually quite surprising. But what surprised him the most was not here.

What made him even more unable to take his eyes away was the "Maiden with Eyes of Blue" who appeared in front of him. She looked exactly the same as the girl wearing a Duel Disk and standing behind as a duelist.

Of course, Yuei Vu thought of the traditional art of Yu-Gi-Oh I Summon Myself.

Yuei Vu finally remembered why he thought this girl looked familiar, and finally figured out a lot of things. Her appearance in Kaiba Paradise, her encounter with them, and her abnormal reactions many details were suddenly explained.

But this did not reduce the shock in his heart at all.

After being stunned for a moment, he tentatively asked: "Are you Kisara?"

The girl was startled and screamed: "How did you know!?"

""

*Oh my god, it's true.*

Yuei Vu rubbed his temples and felt his head was a little swollen. He felt like a dozen questions were crammed into his head, and new questions were popping up every moment, but he didn't know where to start

"Master!" The Dark Magician Girl floated out, with a very serious expression on her face, "This girl she is a spirit like me!"

"I also found out" Yuei Vu said helplessly, "Why didn't you tell me earlier?"

"Ah?" The Dark Magician Girl lowered her head, "I didn't pay attention before"

Yuei Vu: ""

*Okay, after all, she is a little confused and unreliable.*

*But I still have such a large family of spirits, so why didn't anyone remind me today that this girl is actually a monster spirit?*

Masked HERO was like a Stand. He only worked and never talked.

Shien x Plasma: Master never asked me. JPG.

Silent Magician: ""

Kuriboh: "Kuri Kuri!"

Well, Kuriboh might have warned him, but unfortunately, Yuei Vu didn't understand the Kuriboh language

Yuei Vu raised his head: "Are you a spirit?"

The girl bit her lip and nodded.

Among Atem's friends three thousand years ago, Mahad directly turned into a spirit, and Mana also reincarnated into a spirit. It was not surprising that the white dragon girl, who was inextricably linked to the priest Seto, was reincarnated as a spirit.

Her relationship with the "Blue Eyes White Dragon" may be similar to a clone, which was the same as the bunch of Dark Magician, Dark Eradicator Warlock, Sorcerer of Dark Magic, etc. in Yugi's hands, all of which were the vests of one master.

Yuei Vu couldn't help but ask: "So shouldn't your hair be umwhite? Just like hers?"

Yuei Vu pointed at the three-dimensional projection of the summoned "Maiden with Eyes of Blue".

One very important factor that made him fail to recognize that this girl was Kisara was her hair color. Kisara's long, snow-white hair was so impressive.

But the girl who called herself "Ayumu Natsuki" had black hair when she first appeared, which really made Yuei Vu not think about it.

The girl didn't speak, just closed her eyes gently. After a while, her long flowing hair was gradually transformed back to spotless white at a speed visible to the naked eye, with countless crystal light spots floating around like snowflakes.

*It turns out that spirits can still do this?!*

Only then did Yuei Vu remember that Honest, the spirit who appeared in the later stages of GX, even disguised himself as his long-lost master and worked as a student in the Duel Academy for a while.

He glanced at the spirit next to him: "Can you do the same?"

"Yes!"

The Dark Magician Girl was very proud when she said this and trembled when she puffed up her chest.

"I can also change my image! If the master wants, I can look like anything!"

"That's quite exciting No, I mean it's quite convenient"

Yuei Vu muttered smoothly.

He turned to Kisara: "So you followed me because of President Kaiba?"

When this topic was mentioned, Kisara's cheeks suddenly turned a little red, and her eyes began to wander everywhere again.

"Yesummaybe" Her voice was slurred, and it sounded like something was stuck in her mouth when she spoke.

Yuei Vu felt a little subtle.

Originally, he found out that this girl was following him, thought that she was some kind of villain with ulterior motives, and aggressively grabbed her to accuse her. However, he actually found out that she was the legitimate queen of President Kaiba who had been married for free for three thousand years.

Now he felt a little restless

"I want to know what he is like now." The girl looked away and whispered, "I want to understand his work, understand the people around him, and make good friends with him"

Yuei Vu was speechless: "Then why don't you just go and see him in person?"

"I"

She hesitated for a long time and finally managed to choke out a few words.

"dare not."

In fact, we really can't blame her for being too hesitant.

Every time she managed to get close to Kaiba and get close to him, as soon as she saw Kaiba's aura as if he was ready to repel any living being at any time, her already-running-out courage immediately fell to rock bottom.

And Kaiba had an extremely weird temper. Technically, he was an eighteen-year-old boy, but the president didn't seem to have the slightest interest in women.

Then he was extremely repulsive to all supernatural phenomena and extremely superstitious about science. If you wanted to talk to him about monsters, spirits, soul reincarnation, etc., he would immediately roll his eyes, say "boring" and turn away.

And then our poor girl met several of the most repulsive keywords of the president such as "girl", "spirit", and "reincarnation" at the same time. She was a minefield in the president's dictionary of objectionable terms

So the current situation of Kisara was a bit like a little girl who thought too much about gains and losses and dared not confess her love. All she thought about was "what to do if I was rejected"

However, if she really thought so, it may only mean that she didn't understand the current president well enough.

Even though President Kaiba sneered at supernatural things like "soul reincarnation" and "underworld", now that Atem, whom he longed for, had run away, he spent all day digging graves and engaging in scientific research of how to drag people back from the underworld

"Okay, I probably understand that." Yuei Vu sighed and was about to take back the Duel Disk, "Then we have no reason to duel. Your matterwellif If you dont want me to, I can stop mentioning Kaiba for the time being"

Unexpectedly, when Kisara heard this, she quickly shook her little head.

"No, please continue with the duel."

Yuei Vu: "?"

*Why? Do you want to beat me up on behalf of the president?*

Chapter 665: So Strong!

"You are his most recognized opponent in this world." Kisara said seriously, "If possible, I would also like to experience a duel with the Duel King."

After a pause, she bowed slightly and bowed.

"please."

"Okay." Yuei Vu agreed.

Anyway, it's just a game of cards, and I usually play with the president.

Since the presidents wife has asked me to do so

"Thank you," Kisara said sincerely, and her attention returned to the duel at hand.

She drew two cards from her hand again and said: "Set two cards, I end my turn."

In the first round, the formation she chose was a "Maiden with Eyes of Blue" with 0 attack power, which looked harmless at first glance but was difficult to attack, and two set cards.

It was worth mentioning that although "Maiden with Eyes of Blue" belonged to the White Dragon deck, she itself was a "Tuner monster".

In the real card environment in the real world, "Tuner monsters" were a new monster type that was born after Consortium K launched "Synchro Summon", but this was not the case in the animated worldview.

In the animated worldview, Tuner monster spirits with special abilities that Yubel previously called "Star Adjusters" have existed as long as the Duel Monsters themselves and have existed since ancient times.

It's just that until the timeline of the "Yu-Gi-Oh! 5DS" story, humans have not been able to discover the substance called "Planetary Particles" and have not been able to develop a new summoning method "Synchro Summon".

Therefore, before this, the "Tuner monsters" were buried in obscurity among the many ordinary duel monsters, and no one noticed their potential.

Yuei Vu cheered up.

Logically speaking, there were only three copies of "Blue-Eyes White Dragon" in the world, but if the other party was the White Bride herself, then there was no doubt that she would not be subject to such conditions.

Just like the duel monster spirit "Kaibaman" who appeared in front of Judai in "Yu-Gi-Oh GX" also has Blue-Eyes White Dragons in his hand, Kisara must also have her own card.

It was foreseeable that she might have a different Blue-Eyes deck than President Kaiba.

I shouldn't be careless.

"My turn, draw." Yuei Vu opened a pot first, "Spell Card Pot of Greed, draw two more cards."

Two new cards came into play, and a tactical combination was quickly decided for him.

It just so happened that he took this opportunity to test his new deck construction.

"If there are monsters on the opponent's field and there are no monsters on my field, this card can be Special Summoned directly from my hand." Yuei Vu showed a card in his hand, "Special Summon Lord Gaia the Fierce Knight!"

There was a dragon roar, but before the person appeared, the red spear had already pierced the space. The Dark Knight was astride the golden dragon, and the dragon's neck was covered with solid armor. The two spiral spears in the black armored knight's hands were intertwined, leaving cross marks in the air domineeringly.

[Lord Gaia the Fierce Knight, ATK 2300]

That's right, what Yuei Vu was playing today was another deck derived from Gaia the Fierce Knight, one of the ace monsters of the original Duel King Yugi Muto.

The key to playing this deck well was that every time you summon "Gaia", your name must be shouted loud enough and the sound was full enough, otherwise the card spirit would not respond to you (cross out)

In fact, in the setting, "Gaia the Fierce Knight" was actually the prototype of the legendary "Black Luster Soldier", the strongest warrior who opened up the world.

It was said that a long time ago, the knight named "Gaia" accepted the baptism of light and darkness, passed the "ritual of chaos", and finally obtained the "power of chaos" at the beginning of the universe, and became a pioneer who opened up the world.

Therefore, in the Duel Monsters cards, there was a close relationship between the Gaia deck and the Black Luster Soldier deck itself.

"I normal summon Keeper of Dragon Magic'."

[Keeper of Dragon Magic, ATK 1800]

"The effect of the Keeper of Dragon Magic. If this card is Normal or Special Summoned: I can discard 1 card; add 1 Polymerization' Normal Spell Card or Fusion' Normal Spell Card from my Deck to my hand."

Yuei Vu pulled out a card that popped up in the deck, flipped it over, and displayed it.

"I added the Spell Card Spiral Fusion' to my hand." Yuei Vu added the retrieved card to his hand, and then drew another one from his hand, "Spell Card Transmodify!

Send 1 face-up monster I control to the GY; Special Summon from my Deck, 1 monster with the same Type and Attribute as that monster in the GY, but 1 Level higher.

I sent the Level 4 DARK Dragon Keeper of Dragon Magic to the graveyard, and Special Summon a Level 5 DARK Dragon monster from the deck

Curse of Dragon, the Cursed Dragon! ! ! "

A golden body flew out, and the golden dragon raised its head and roared! It had golden bone wings that were indestructible, and its long tail looked like golden armor covering its tail vertebrae.

[Curse of Dragon, the Cursed Dragon, ATK 2000]

Regardless of its appearance, name, or attack power, it could be seen that this was also a vest derived from the monster "Curse of Dragon" that Yugi Muto used in his early games.

Consortium K was really good at selling sentiments. Thinking about the large number of monsters that were commonly used in Yugi decks in the past, in the later period, various new vests were actually derived

"The effect of Curse of Dragon, the Cursed Dragon'." Yuei Vu said, "If this card is Normal or Special Summoned: I can add 1 Spell/Trap from my Deck to my hand, that specifically lists the card Gaia the Dragon Champion' in its text."

The deck was automatically searched again, and Yuei Vu pulled out the card that was retrieved and showed it.

I add the Field Spell Galloping Gaia to my hand. Then the Field Spell Galloping Gaia is activated!

The landscape changed with simulated earthquakes and violent buzzing, flames rolled up like a burning sea of clouds, and the entire duel venue was quickly switched to Gaia's exclusive area.

"The effect of the Field Spell Galloping Gaia! Once per turn, I can reveal 1 Level 5 Dragon monster in my hand; add 1 "Gaia The Fierce Knight" monster from my deck to my hand."

Yuei Vu showed a hand card.

"I reveal the Level 5 Dragon monster 'Curse of Dragonfire' in my hand, and add 'Gaia the Magical Knight' from my deck to my hand.

Then the Spell Card 'Spiral Fusion' is activated! Fusion Summon 1 Dragon Fusion Monster from my Extra Deck, using monsters from my hand or field as Fusion Material!

I fuse the "Gaia the Magical Knight" in my hand and the "Curse of Dragon, the Cursed Dragon" on the field!

The fusion condition is 1 'Gaia the Fierce Knight' monster + 1 Dragon-Type monster! Fusion Summon!

Sky Galloping Gaia the Dragon Champion! ! ! "

The knight and the dragon became one in the radiance of the spiral, and the knight named Gaia descended from the sky astride the soaring dragon! The dragon's body was as red as a soldering iron, and the endless golden light curtain behind it was like the setting sun. It flapped its red bone wings, and one person and one dragon seemed to rush out from the end of the setting sun!

[Sky Galloping Gaia the Dragon Champion, ATK 2600]

"Sky Galloping Gaia the Dragon Champion's effect!" Yuei Vu said, "If this card is Special Summoned, add 1 'Spiral Spear Strike' from my Deck or Graveyard to my hand.

Then there is the effect of the Spell Card 'Spiral Fusion'. If I Special Summoned 'Gaia the Dragon Champion' by this effect, it gains 2600 ATK, also it can make up to 2 attacks on monsters during each Battle Phase! "

Kisara was stunned for a moment: "But the monster you summoned is not 'Gaia the Dragon Champion'!"

"On the field, 'Sky Galloping Gaia the Dragon Champion's' card name can also be treated as 'Gaia the Dragon Champion' according to the rules." Yuei Vu said.

[Sky Galloping Gaia the Dragon Champion, ATK 2600 ATK 5200]

"Attack power 5200, and can attack multiple times!?" Kisara exclaimed, "So so powerful!"

But Yuei Vu did not relax his vigilance. He knew that although the "Maiden with Eyes of Blue" on the opponent's field looked weak and had only 0 attack power, she was actually not weak in ability.

When the Maiden with Eyes of Blue became the target of an attack, she could negate the opponent's attack and Special Summon 1 "Blue-Eyes White Dragon" from the hand, Deck, or GY. When she became the target of an effect, she could also summon the "Blue-Eyes White Dragon" from the hand, Deck, or GY

"Don't worry, I haven't finished processing the effects yet." A card popped up in the graveyard of Yuei Vu's Duel Disk, "The Curse of Dragon, the Cursed Dragon' that I just sent to the graveyard as a Fusion Material still has effects!

If this card is sent to the GY: I can target 1 'Gaia the Dragon Champion' in my Monster Zone; negate the effects of face-up monsters the opponent currently controls with ATK less than or equal to it until the end of this turn! "

Kisara opened her big aqua eyes.

Doesn't that mean

"The attack power of Sky Galloping Gaia the Dragon Champion' is 5200." Yuei Vu said, "So, all the effects of monsters on your field with attack power below 5200 are negated!"

After a pause, he smiled slightly.

"As a friendly reminder, the Field Spell Galloping Gaia' still has an effect. As long as there is Gaia the Dragon Champion' in my Monster Zone, the opponent player cannot activate cards or effects during the Battle Phase.

In other words, attack-triggering traps such as "Mirror Force" and "Sakuretsu Armor", and even hand traps like the invincible Kuriboh have been sealed.

"Attack power is 5200, it can attack multiple times, all monster effects are invalid, and the effects cannot be activated during the Battle Phase It's so strong, so strong!"

Kisara praised her opponent sincerely, then stretched out her little hand and pressed the button on her Duel Disk.

"But before your effect resolves and takes effect, I'm going to activate this Trap Card Raigeki Break! Discard a card and destroy a card on the field.

I discarded a card in my hand and destroyed the Sky Gaia the Dragon Champion'." "

There was a heavy thunder in the sky, and a huge demonic hand poked out from behind the clouds. The thick and dry fingers shot golden thunder, and with one blow the dragon knight with an attack power of over 5,000 was blown into pieces.

Yuei Vu: ""

Nothing to say.JPG

Chapter 666: Ga~ia!!!

Many components of the Gaia deck revolved around the fusion monster called "Gaia the Dragon Champion".

For example, "Spiral Fusion" could only give an ATK boost when summoning "Gaia the Dragon Champion"; the Field Spell "Galloping Gaia" could only block all the opponent's effects when "Gaia the Dragon Champion" was present; "Curse of Dragon, the Cursed Dragon" must select a "Gaia the Dragon Champion" on your field to negate the effects of monsters on the opponent's field.

However, now the invincible Gaia was directly blown up by a thunderbolt, all the above components became ineffective.

"When I activated Raigeki Break', the card I discarded from my hand was The White Stone of Legend'." Kisara said, "When this card is sent to the graveyard, add 1 Blue-Eyes White Dragon' from your Deck to your hand."

She pulled out a card that popped up in the deck and briefly showed it to Yuei Vu. At that moment, Yuei Vu seemed to see the endless void illuminated by silvery white light, and the noble white dragon spread its wings and roared.

But Yuei Vu was not done yet: "Then I activate the Quick-Play Spell Thirst for Compensation' from my hand! This card can only be activated when the number of cards in the opponent's hand

increases outside the Draw Phase. I can special summon up to two monsters from my hand."  
(animation card)

Yuei Vu showed the card in his hand that he had shown before this round.

"The Curse of Dragonfire' in the hand is Special Summoned!"

The lava that had been gathering momentum for a long time broke through the earth, and red-hot light pillars rushed into the sky. A pair of wings as red as iron were like freshly baked sharp blades, sharply cutting through the light curtain. The red dragon flew high into the sky, breathing blazing light and heat from its mouth.

[Curse of Dragonfire, ATK 2000]

"The effect of Curse of Dragonfire'," Yuei Vu waved, " Once per turn: I can Fusion Summon 1 Fusion Monster from my Extra Deck, using monsters I control as Fusion Materials, including this card!

Kisara was surprised: "Can you still continue to Fusion Summon?"

"I send the Lord Gaia the Fierce Knight' and Curse of Dragonfire' on the field to the GY!" Yuei Vu said, "The fusion condition is 1 Gaia The Fierce Knight' monster + 1 Level 5 Dragon monster! Fusion Summon!

The Magical Knight of Dragons, Ga~ia! ! ! "

The dragon's bones were like armor covered with gold, and the Dark Knight's twin spiral spears stirred up a red-hot torrent!

[Gaia the Magical Knight of Dragons, ATK 2600]

Kisara looked at the majestic dragon knight flying in the air and seemed to realize something: "Is this fusion monster also a dragon knight"

"Yes, when Gaia the Magical Knight of Dragons' exists on the field, its name is also treated as Gaia the Dragon Champion' according to the rules."

Yuei Vu smiled.

"In other words, the effect of the Field Spell Galloping Gaia also applies. When there is Gaia the Dragon Champion' on my side of the field, the opponent player cannot activate cards or effects during the Battle Phase."

A total blockade was established again.

Originally, when the "Maiden with Eyes of Blue" became the target of an attack, she could change the battle position and call a "Blue-Eyes White Dragon" from the deck. But in this field, she couldn't exert her abilities and could only be beaten obediently.

If it were a serious confrontation with the enemy, Yuei Vu might not be so considerate in explaining the field effects to the opponent before entering the Battle Phase.

But after all, his current opponent was the wife of his boss, not an enemy, so Yuei Vu didn't take advantage of her.

That being said, however, even if the information about this Field Spell was disclosed to the other party in advance, this blockade would not be easily broken.

But the girl quickly gave her solution: "Open the set card: Trap Card Interdimensional Matter Transporter!"

"Oh?" Yuei Vu showed an interested expression.

"Target 1 face-up monster I control; banish that target until the End Phase." Kisara said, "I remove myself the Maiden with Eyes of Blue' from the game!

Then at this moment, the effect of Maiden with Eyes of Blue' was activated.

When she becomes the target of a card effect, from the deck she will Special Summon

Blue-Eyes White Dragon! ! ! "

The interdimensional transmission device emerged and locked onto the silver-haired Maiden with Eyes of Blue on the field. The girl closed her eyes, and held her fingers together, her long silver hair flying behind her, a dazzling light rising into the sky, a silver-white dragon flying out of the waterfall of light, spreading its silver wings, and her blue eyes filled with endless energy of majesty.

[Blue-Eyes White Dragon, ATK 3000]

"By removing the Maiden with Eyes of Blue' from the game, not only do you avoid the risk of being attacked, but also trigger her ability to Special Summon the Blue-Eyes White Dragon" .

Yuei Vu smiled slightly.

"You're pretty awesome too."

"Thank you." The girl was quite polite.

But in this way, the balance of power was reversed again. Gaia the Magical Knight of Dragons' attack power was 2600, so he was no match for the powerful Blue-Eyes White Dragon.

However, Yuei Vu still had cards to play.

"Spell Card Card of Sanctity! Each player draws until they have 6 cards in their hand!"

Ammo was refilled, and the key to counterattack appeared again.

"Battle!" Yuei Vu waved, "Gaia the Magical Knight of Dragons, attack Blue-Eyes White Dragon!"

The golden dragon flaps its wings, and its rider's twin spiral spears make a sharp whistle, like two red lightning bolts!

Kisara said curiously: "The attack power is not enough, do you still need to attack"

But she had no choice but to fight back. The mouth of the Blue-Eyes White Dragon has been opened, endless white light condenses in its mouth, and milky white airwaves rush around!

"Quick-Play Spell Gravity Lash!" Yuei Vu waved his hand and showed a Spell Card, "Target 1 face-up monster on the field; it loses ATK equal to its DEF until the end of this turn!

The one I want to choose is, of course, the Blue-Eyes White Dragon! "

The pressure on the white dragon, who was accumulating power, suddenly increased, and he couldn't help but scream, and most of the energy brewing in his mouth spilled out.

[Blue-Eyes White Dragon, ATK 3000 ATK 500]

The balance of power reversed, and the Dragon Knight instantly gained the upper hand! The twin spiral spears slashed down the jet of white light, whose power was greatly weakened, without any suspense, and penetrated the white dragon head-on with one blow!

[Kisara, LP 4000 LP 1900]

"The effect of Gaia the Magical Knight of Dragons!." Yuei Vu said, "When he destroys an opponent's monster by battle, his attack power increases by 2600 points!"

[Gaia the Magical Knight of Dragons, ATK 2600 ATK 5200]

Kisara's face turned pale: "Another 5200 attack power"

"The Battle Phase is over," Yuei Vu said, "Activate the Spell Card A Feather of the Phoenix'. Discard a card and return a card from my graveyard to the top of my deck.

The card I want to return is the Spell Card Spiral Fusion. "

Spiral Fusion, a special fusion card for dragons. When you Fusion Summoned "Gaia the Dragon Champion" with this card, that monster's attack power increased by 2600 points, and it could attack twice in one turn.

A fusion card with devastating killing capabilities.

"Set two cards, I end my turn." Yuei Vu said.

"At the End Phase, the effect of the Interdimensional Matter Transporter' also ends," Kesara said.

"My own Maiden with Eyes of Blue' will return to the field."

The transmission device appeared, the dimensional wormhole opened, and the Maiden with Eyes of Blue returned to the field again.

[Maiden with Eyes of Blue, ATK 0]

"Then it's your turn." Yuei Vu crossed his arms and smiled, "Come on."

Chapter 667: Gaia Knight

Kisara took two deep breaths and cheered up: "My turn, draw!"

She stopped and thought for a moment, her eyes quickly swept over the Maiden with Eyes of Blue on her field and the "Gaia the Magical Knight of Dragons" on Yuei Vu's field whose attack power was even higher than that of the Five Emperor Dragons, and she quickly decided on her next move.

First, I use the Spell Card Spell Books from the Pot, and both players draw three cards.

Then activate the effect of the Sage with Eyes of Blue' in my hand. "

Kisara revealed a card in her hand.

"Discard Sage with Eyes of Blue' from your hand, then target 1 Effect Monster I control; send it to the GY.

After that, Special Summon 1 Blue-Eyes monster from my deck! "

She pointed at the silver-haired girl on the field who looked exactly like her.

"I sent the Maiden with Eyes of Blue' to the graveyard and special summoned from the deck

Show yourself, the second Blue-Eyes White Dragon! "

White light rushed into the sky, as if it had penetrated the dark sky, and descended from the sky carrying a white dragon with endless brilliance!

[Blue-Eyes White Dragon, ATK 3000]

"Then at this moment, Maiden with Eyes of Blue's effect was also activated." Kisara continued, "Once per turn, when she becomes the target of the effect, I special summon this card that entered the graveyard in the previous turn

Blue-Eyes White Dragon! ! ! "

The girl opened her fair and slender arms, and huge white balls of light emerged from between her hands. It rose into the air, the dazzling white light bloomed like a lotus, and the silver-white and blue-eyed dragon flew out!

[Blue-Eyes White Dragon, ATK 3000]

"Did you summon two white dragons with just one hand card?" Yuei Vu looked up at the two daunting sacred light dragons.

As expected of the Blue-Eyes deck, "having 10,000 ways to get a wife in white" was more than just words.

"Ritual Spell Chaos Form!" Kisara pulled out a card from her hand with two slender fingers and raised it high above her head.

Yuei Vu: "!"

*Did you actually enter the Chaos Form directly? Sister, are you really that merciless?*

I used the last Blue-Eyes White Dragon in my hand as a sacrifice to Ritual Summon

Blue-Eyes Chaos MAX Dragon! ! ! "

Under the deep blue sky, the steel wings deformed and unfolded, and the blue indicator lights lit up one after another. The chaotic white dragon's body was like armor with technology, roaring in the plasma storm, revealing its majestic body!

[Blue-Eyes Chaos MAX Dragon, ATK 4000]

This dragon had a suppressive attack power of 4000 points, and it could not be the target of card effects, nor could it be destroyed by card effects. It also had the ability to penetrate the defense and cause double damage to monsters in the defense position.

With 4000 ATK and double piercing damage, if you got hit once, even in the environment with 8000 LP, you may be OTKed. Because of its powerful destructive power, the Blue-Eyes Chaos MAX Dragon was also affectionately called "One-Hit Man" by players, and was commonly known as "Trash Crusher".

But that's no use either. At this time, the attack power of "Gaia the Magical Knight of Dragons" has reached a terrifying 5200 points. Even "One-Hit Man" could not easily break through!

"I will fuse two Blue-Eyes White Dragons' on the field!" Kisara continued to raise her hand, "This monster can be Fusion Summoned without the need for Polymerization' by sending Fusion Materials from the field to the GY

Blue-Eyes Twin Burst Dragon! ! ! "

The white dragons turned into two bunches of silver meteors! They intertwined, entangled, and collided with each other in mid-air, and finally merged into one, transforming into a two-headed silver dragon that exuded shining silver light!

[Blue-Eyes Twin Burst Dragon, ATK 3000]

This dragon was another ruthless killing machine. It could not be destroyed by battle and could attack monsters twice in one turn.

Moreover, if it has attacked but failed to destroy the opponent's monster by battle, it could directly banish that monster.

In other words, no matter how high the opponent's attack power was, as long as they were attacked by the Twin Burst Dragon, they would either be beaten directly or be kicked into another dimension. It was a violent solution, which was simple and crude but very effective.

Yuei Vu narrowed his eyes.

There was still a problem.

As long as there were the Field Spell "Galloping Gaia" and the "Gaia the Magical Knight of Dragons" treated as "Gaia the Dragon Champion" on his side, the opponent player could not use any effects during the Battle Phase.

So even if she called Twin Burst here, she still couldn't defeat the invincible Gaia Knight

"Spell Card De-Spell!" Kisara picked out another card in her hand with her little hand, "Destroy a Spell Card on the field. I want to destroy the Field Spell Galloping Gaia!"

Yuei Vu: ""

Okay, just pretend I didnt say it.

The flames swirling in the field turned into a hot whirlpool and were drained from the field in an instant, and the duel field quickly returned to its original state.

In this way, the protection of "Gaia" by the Field Spell disappeared. As long as Kisara commands her "Twin Burst Dragon" to rush over here, his Gaia would be sent directly to another dimension.

Finally, Blue-Eyes Chaos MAX Dragon would directly attack. With a last hit with an attack power of 4,000, he was immediately GG.

But that wouldn't work!

"The effect of Gaia the Magical Knight of Dragons!" Yuei Vu waved his hand.

"Huh?" Kisara's face froze, "Does it still have other effects?"

Yuei Vu shouted: "Once per turn, by reducing the attack power of Gaia the Magical Knight of Dragons' by 2600 points, target 1 other card on the field; destroy that card!

This effect can be activated during either player's Main Phase! "

[Gaia the Magical Knight of Dragons, ATK 5200 ATK 2600]

Yuei Vu pointed at the silver-white dragon.

"I destroyed the Blue-Eyes Twin Burst Dragon!"

The magic knight raised the red spiral spear in his hand, and suddenly swung his arm down. The spear seemed to turn into a scarlet light arrow and flew through the air!

"Wwait!" Kisara quickly pulled out a card from her hand, "Quick-Play Spell My Body as a Shield! When the opponent activates a Spell/Trap Card or monster effect that would destroy a monster(s) on the field: Pay 1500 LP, negate the activation and destroy that card!"

Kisara, LP 1900 LP 400

The light path of the spear thrown by Gaia hit the invisible wall and disappeared instantly! The dazzling golden lightning was overwhelming, and with crackling explosions, it struck back at the magic knight!

Now Yuei Vu's situation was even worse. Not only was he unable to rule out the threat of the Twin Burst Dragon, but even his Demonic Knight was killed on the spot by the backlash of "My Body as a Shield".

In this way, he was equivalent to being naked in front of Twin Burst and Chaos MAX, with no defense in the front row.

But the power of "Gaia" was not just that!

"At this moment, I used the Gaia the Magical Knight of Dragons' who was about to be ruined on the field as a sacrifice and escaped from the field!"

After Yuei Vu finished speaking, the Magical Knight who was facing the bombardment of golden lightning suddenly turned into spots of light and dissipated from the field. The lightning flew away menacingly, leaving only streaks of black smoke on the field.

Kisara blinked blankly: "Isis this still possible?"

"I just activated the effect of Soldier Gaia The Fierce Knight' in my hand." Yuei Vu smiled and showed a card in his hand, "I can Tribute 1 Dragon Fusion Monster; Special Summon this card from my hand.

This effect can also be activated during the opponent's turn. "

He put that card on the Duel Disk.

"Soldier Gaia The Fierce Knight, summon!"

Chapter 668: The Baptism of Light And Darkness

The dark knight stepped out slowly in gorgeous armor, holding a gold trident, and his black gold cloak was like a flag flying on the battlefield.

[Soldier Gaia The Fierce Knight, ATK 2600]

"You can actually summon it during the opponent's turn?"

Kisara was surprised for a while, but quickly recovered.

But even so, it would only return the situation to its previous state, and would not change the absolutely favorable situation on her side. Moreover, Soldier Gaia's attack power was only 2600. As long as the dragons on her field launched a total attack

"The subsequent effect of Soldier Gaia The Fierce Knight." Yuei Vu said, "If this card is Special Summoned: I can target 1 Attack Position monster on the field; change it to Defense Position."

"Ah." Kisara looked at the two dragons on her field, "Blue-Eyes Chaos MAX Dragon' cannot be the target of card effects"

"I know." Yuei Vu nodded, "That's why I forced the Blue-Eyes Twin Burst Dragon' come into a defensive position."

Soldier Gaia shouted in a deep voice and raised the trident in his hand. A stream of red light erupted from under the Twin Burst Dragon, and the powerful invisible binding force forcefully twisted them into a crouching defensive posture.

[Blue-Eyes Twin Burst Dragon, ATK 3000 DEF 2500]

"Then enter the Battle Phase."

She only had one monster left to attack, the Blue-Eyes Chaos MAX Dragon.

Yuei Vu could still handle an offense of this level.

"Blue-Eyes Chaos MAX Dragon, attack the Soldier Gaia The Fierce Knight!"

The steel wings spread out, and the tips deformed and popped out. Fluorescent blue light circulated in the reaction lamp, and the huge dragon soared into the sky. Boundless light energy gathered in its mouth, and the brilliance shone dazzlingly.

The impact of chaos made the ultimate destruction. Soldier Gaia tried his best to resist, but even the experienced knight was still too small in the face of that power.

His cloak was crushed to pieces, his armor was in pieces, and the broken spears and metal fragments seemed to be washed away along the current, disappearing at the end of the chaos.

[Yuei Vu, LP 4000 LP 2600]

Yuei Vu accepted the virtual impact calmly, raising only one arm to protect it in front of him, and then raised his hand: "Open the set card: Trap Card Time Machine!"

Activates when a monster is destroyed by battle, Special Summon that monster to the same field it was on, in the same battle position it was in when destroyed. "

The space flickered, and a black metal machine appeared on the field. Time and space in the area briefly reversed, and the Soldier Gaia The Fierce Knight, who had just been shattered to pieces, returned to the field surrounded by a burst of golden light.

[Soldier Gaia The Fierce Knight, ATK 2600]

"Then set three cards I end my turn."

Kisara felt a little frustrated.

She had tried her best and used all her tricks, but all her attacks were easily resolved by the opponent.

"This person is really so powerful." The girl muttered softly.

No wonder Seto likes to play cards with him so much

"My turn."

Yuei Vu drew a card, glanced at the card, and then his eyes quickly fell on Kisara.

"Then, I'm going to do it if you're ready."

Kisara swallowed.

"I normal summon 'Artillery Catapult Turtle' from my hand."

The military-green turtle followed the call and came to Yuei Vu's field. It lay prone on the ground, with a jet-black steel ejection track on its solid dark green turtle shell.

[Artillery Catapult Turtle, ATK 1000]

"Artillery Catapult Turtle's effect is activated!" Yuei Vu said, "Once per turn, Tribute 1 monster and Special Summon 1 'Gaia the Fierce Knight' monster, or 1 Level 5 Dragon monster, from my hand or Deck.

I tribute Artillery Catapult Turtle itself and Special Summon from the deck

Arisen Gaia the Fierce Knight! "

The sound of galloping horse hooves is like the shuttle of light and shadow flying from the other side of the horizon. The invincible "Gaia" has put on a brand new vest this time. The twin spiral spears held in both hands have turned black. The horse underneath him has also turned black, with a black horn on the horse's head.

[Arisen Gaia the Fierce Knight, ATK 2300]

The "Spiral Fusion" that was placed back to the top of the deck by "A Feather of the Phoenix" in the last round has been drawn again, so Yuei Vu naturally chose to play it directly without hesitation.

"Spell Card 'Spiral Fusion' is activated! Fusion Summon 1 Dragon Fusion Monster from my Extra Deck, using monsters from my hand or field as Fusion Material!"

Yuei Vu showed another card in his hand.

I fused the Arisen Gaia the Fierce Knight and the Curse of Dragon in my hand!

The fusion condition is 1 'Gaia the Fierce Knight' monster + 1 Dragon-Type monster! Fusion Summon!

Coming again! Sky Galloping Gaia the Dragon Champion! ! ! "

Once again, the powers of the Gaia Knight and the cursed dragon merged into one. The golden body of the Cursed Dragon burned red, and the Gaia Knight sat astride its back, its twin spears wrapped in flames!

As we all know, the spiral ascension to the sky had boundless power. The power of the dragon knight formed by the spiral fusion would naturally be doubled!

[Sky Galloping Gaia the Dragon Champion, ATK 2600 ATK 5200]

"The Gaia the Dragon Champion' created by Spiral Fusion' has an attack power increased by 2600 and can attack twice per turn" Yuei Vu paused, "But you don't need me to say it, right?" "

Knowing that Yuei Vu still had such a "Spiral Fusion" in his hand, Kisara was naturally on guard: "Open the set card: Trap Card Floodgate Trap Hole!

When the opponent Summons a monster: Change that monster to face-down Defense Position. Monsters changed to face-down Defense Position by this effect cannot change their battle positions!"

The poor "Sky Galloping Gaia the Dragon Champion" made an aggressive appearance for the second time, but once again failed to get any chance to make a move, and was forced to turn into a card that was face-down and unable to move.

"Hey, the defense methods are quite complete. In this case, I activate the Spell Card Card of Demise'. I can draw cards until I have 5 cards in my hand."

After adding more cards to his hand, Yuei Vu waved his hand.

"Then the final effect of the Soldier Gaia The Fierce Knight' on the field is activated! Tribute this card; add 1 Level 7 or higher Warrior monster from your Deck to your hand."

The two spiral spears in the hands of the Gaia warriors danced intertwinedly, and their bodies turned into light blue spots all over the sky and disappeared. The light curtain seemed to indicate a path, and a card popped out of Yuei Vu's deck with a click.

"I add Black Luster Soldier' from the deck to my hand!"

The dark knight accepted the baptism of light and turned from light to darkness again. The Dark Knight Gaia has gone through various trainings, mastered the power of chaos that opened up the world, and will make a comeback as the legendary ultimate swordsman.

"Then there is the effect of Super Soldier Soul' in my graveyard," A card popped up in Yuei Vu's Duel Disk, "Banish this card from my Graveyard; add 1 Beginning Knight' or Evening Twilight Knight' from my Deck to my hand."

"Huh?" Kisara expressed confusion, "When did this card"

"Since the very beginning." Yuei Vu smiled, "When I discard a card to activate the effect of Keeper of Dragon Magic'."

"It was that time"

"So based on the effect of Super Soldier Soul', I added Beginning Knight' from the deck to my hand."

Yuei Vu then showed another card in his hand.

"Ritual Spell Black Luster Ritual! By Tributing monsters from my hand or field whose total Levels equal 8 or more, Ritual Summon Black Luster Soldier!"

Yuei Vu paused, and then another card popped up from the Duel Disk's graveyard.

"Then at this moment, I want to activate the effect of the Arisen Gaia the Fierce Knight' that was just sent to the graveyard as a fusion material!

When I Ritual Summon a Black Luster Soldier' monster, I can banish this card from your Graveyard as 1 of the monsters required for the Ritual Summon! "

The ritual altar emerged, silver swords intertwined, flames burst out, and the swaying firelight distorted the space of the street.

"Level 4 Beginning Knight', Level 7 Arisen Gaia the Fierce Knight', two monsters as sacrifices!"

Yuei Vu pulled out the card in his hand, and at the same time, the souls of the two monsters flew out and rushed into the sacred ritual altar.

"One soul leads the light, one soul leads the darkness, the door to chaos opens here! Ritual Summon!

Arrive, Black Luster Soldier! ! ! "

Chapter 669: Deep-Eyes!

The chaotic cyclone swept across, and misty flames jumped up from the altar, like lanterns hanging under the eaves of ancient times. A door suddenly opened from the chaos, and golden light as sharp as a sword erupted from behind the door.

Golden light intermittently formed entities in mid-air. Chaos was cut open, and a burly and powerful swordsman flew out from the golden light. He wore a blue armor with staggered metal patterns, and the brilliance of spar-like gold flowed along the golden patterns.

His long sword slashed in the air, the shining golden light faded away, as if he was holding a shocking bolt of lightning in his hand.

[Black Luster Soldier, ATK 3000]

Gaia the Fierce Knight's final form after evolution Black Luster Soldier!

Kisara was obviously a little nervous, and her breathing seemed to be quickening. She reviewed the situation on the field and tried to calm herself down: "But even the strongest warrior cannot defeat the Chaos MAX Dragon with his power.

In addition, the Blue-Eyes Twin Burst Dragon cannot be destroyed by battle"

"I know." Yuei Vu nodded, "The effect of Beginning Knight' A Black Luster Soldier' monster Ritual Summoned using this card can gain new effects.

Once per turn, the Black Luster Soldier can banish 1 monster the opponent controls! "

"Blue-Eyes Chaos MAX Dragon cannot be selected as an effect's target"

"I know this too." Yuei Vu nodded, "So I want to remove Blue-Eyes Twin Burst Dragon' from the game!"

The Black Luster Soldier raised the sword in his hand high and struck out from the air.

It was a sword that was not bound by space. The whistling sword energy seemed to carry countless slashes, and each time was accompanied by the flow of dark gold.

Chaos Dimension Slash!

The two-headed white dragon roared dully, and the sound sounded like a muffled thunder being held in its mouth. It tried to resist, but that soon proved to be completely futile. The sword energy staggered across the space, and the double-headed white dragon's body twisted and was sucked into the cracks in the dimension, disappearing in the blink of an eye.

The Twin Burst Dragon could be destroyed by battle, and also had the terrifying ability to attack multiple times and directly banish the opponent. However, it did not have effect resistance, which made it powerless against the Chaos Dimensional Slash of the Black Luster Soldier.

But it's not over yet. Kisara also had the powerful Blue-Eyes Chaos MAX Dragon here, which had very strong effect resistance and 4000 ATK. It is not easy to defeat such a beast.

"Battle!" Yueli Vu said, "Black Luster Soldier, attack the Blue-Eyes Chaos MAX Dragon!"

Kisara: "!?"

He actually attacked?

"At this moment, I discard the Envoy of Chaos' in my hand!" Yueli Vu said, "Discard this card, then target 1 Black Luster Soldier' monster or Gaia The Fierce Knight' monster I control; it gains 1500 ATK until the end of this turn!"

[Black Luster Soldier, ATK 3000 ATK 4500]

[Blue-Eyes Chaos MAX Dragon, ATK 4000]

500 Battle Damage, but Kisara's remaining LP was only 400!

But she also had another defensive method, "Open the set card: Trap Card Defense Draw! Make the battle damage I take from this battle 0, and I can draw 1 card."

The sword light slashed, and the dragon's metallic armor was torn apart by the overbearing sword energy. The dragon fell with a mournful cry, the armor exploded in many places as if it was overloaded, electric sparks leaped, and blue flames submerged the dragon's skeleton like a tide.

Kisara's blue eyes flashed, and a card held in her white hands suddenly bloomed with brilliance.

"When a face-up Blue-Eyes' monster I control is destroyed by battle or an opponent's card effect, and I have a Dragon-Type monster in my Graveyard: I can Special Summon this card from my hand!"

A gorgeous, iridescent card was slapped onto the Duel Disk. The duel disk on the girl's arm seemed to come alive for a moment, blooming with endless brilliance.

"I summon Deep-Eyes White Dragon!!!"

Following the call to that name, the extremely noble dragon flew vertically out of the blue sea of fire! She has a long and beautiful neck like a swan, and her gorgeous wings are stained with blue flames.

[Deep-Eyes White Dragon, ATK 0]

Yuei Vu raised his eyebrows.

*Why do you still have Deep-Eyes?*

*As expected of the White Bride herself, is this so impressive?*

"The effect of Deep-Eyes White Dragon'," Kisara said, "When summoned by this effect, inflict 600 damage to the opponent for each Dragon-Type monster in each player's Graveyard!" (anime effect)

Unfortunately, the deck Yuei Vu played this time also had a lot to do with the Dragon Type. The Keeper of Dragon Magic he has sent to the GY so far, a bunch of messy vests of the Cursed Dragon, and various forms of Gaia the Dragon Champion, all of which were dragons.

Not to mention the gaudy white dragons in Kisara's own graveyard.

When all were counted, there were actually eleven dragons in the graveyards of both sides, which was a whopping 6600 points of effect damage!

The destruction of the "Blue-Eyes Chaos MAX Dragon" has become part of her counterattack tactics, so that she could use the power of the Deep-Eyes to deliver a killing blow!

Yuei Vu would definitely be unable to bear this offense. Fortunately, it was just a normal duel. If it were to be a Shadow Game, the loser might be blasted into a mosaic.

But it didn't matter!

"Activate the effect of Clear Kuriboh' from my hand!" Yuei Vu stuffed a card in his hand into the graveyard, "Discard this card; negate the activation of a monster effect that would inflict damage!"

The invincible Kuriboh had put on a new vest, and all the impacts from Deep-Eyes fell on the barrier opened by it. The spilled energy exploded in all directions, but even the aftermath was nullified.

"Why are you even blocking this"

Kisara pouted, as if she was a little unhappy.

"The other effect of Deep-Eyes White Dragon' is that it can obtain the attack power of 1 Dragon-Type monster in my Graveyard. I obtain the attack power of Blue-Eyes Chaos MAX Dragon'."

The dragon that had already exited roared, and its figure briefly appeared. Blue energy fluctuations were charged into Deep-Eyes' body.

[Deep-Eyes White Dragon, ATK 0 ATK 4000]

Although at first glance, the attack power was still inferior to that of the Black Luster Soldiers, it was only temporary. The Black Luster Soldier's attack power was increased to such a high level through the effect of "Envoy of Chaos", but once this turn was over, the Black Luster Soldier's attack power would return to its original 3000

"The Black Luster Soldier' summoned using the Beginning Knight' as a Ritual Material can also obtain another effect!" Yuei Vu said, "When this card destroys an opponent's monster by battle and sends it to the Graveyard, this card can make a second attack in a row!"

"Eh!?" Kisara was surprised, "How come you can still attack continuously?"

The Black Luster Soldier rushed forward, raised the sword in his hand, and the golden sword light rolled down with the slash, bringing a gorgeous ending to the duel

The sword energy was flowing freely, and the chaotic whirlpool stirred up the girl's silver hair. But she didn't take a step back, seemingly not afraid of the chaotic sword energy.

"Open the set card!"

The last set card, which was also her last counterattack!

"Trap Card Magic Cylinder!" Her blue eyes clearly reflected the entire field in miniature, "When an opponent's monster declares an attack: Target the attacking monster; negate the attack, and inflict damage to the opponent equal to its ATK!"

A pair of magic tubes appeared neatly, one on the left and one on the right in front of Qisara. The sword energy of the Black Luster Soldier came towards her in a mighty way, and it was about to be absorbed and reflected by the magic tube.

4500 reflected damage!

Kisara opened her eyes.

I won!

The chaotic sword energy arrived as promised and sank head-on into the magic tubes facing it but it arbitrarily crushed the pair of magic tubes into pieces!

Kisara: ???

What happened?

"Counter Trap Super Soldier Shield." Yuei Vu smiled, "While I control a Black Luster Soldier' monster, if a Spell/Trap Card, or monster effect, is activated that targets a monster on the field: Negate the activation and destroy that card."

Kisara: ""

The magic tube was crushed by the sword of the Black Luster Soldier, and the chaotic sword energy struck out with an indomitable momentum. The noble white dragon was pierced by a sword and turned into ashes with a mournful cry.

[Kisara, LP 400 LP 0]

Chapter 670: Fragment Found

The LP value was reduced to 0, and the chaotic sword energy transformed from the virtual image broke through the body of Deep-Eyes White Dragon and hit the girl head-on.

Kisara staggered back two steps, lost her balance, stretched her calves outward, and sat down on the ground with a snap.

A standard duck sit.

The image of the monster disappeared, Yuei Vu put away the Duel Disk and stepped forward slowly on the asphalt road.

"Are you okay?"

Yuei Vu asked, wondering if he might be too rough.

After all, a gentleman must be gentle with girls.

"I I'm okay."

The girl tried to stand up, but after some effort, her little butt sat back down. She stuck out her tongue in embarrassment and pointed to her smooth and delicate calves.

"It's a little numb, I'd better sit down for a while," she said. "I don't think I have much time to move anyway."

Only then did Yuei Vu remember that she was still a spirit.

As mentioned before, spirits had to consume "force" to materialize in the real world, so they generally had a time limit for their activities.

For example, the Dark Magician Girl materialized by her own "force" when she first met him. But now that she has been with Yuei Vu for so long, the "force" in their master and servant's bodies often exchanged and flew with each other. Her existence strengthened Yuei Vu's strength as a duelist, and at the same time, Yuei Vu, as the master, could also feed back more "force" to her.

So now, by squandering resources from her master, the Dark Magician Girl could be active for much longer than before.

As a special spirit like "Blue-Eyed Girl", Kisara's "force" was naturally much stronger than that of the Dark Magician Girl, so she could exist in physical form for a longer time.

But no matter how long it was, there was a limit.

For the embodied spirits, apart from flying around and fighting with people, playing cards with people may be the most labor-intensive.

After playing cards with Yuei Vu for so long in the middle of the night, the blue-eyed girl was already exhausted. Her little head was feeling dizzy now, and she just wanted to go back and have a good sleep

"You are indeed so powerful. No wonder Seto always pesters you for duels." Kisara said.

"You're not bad either."

"I can't do it anymore, I'm still far from it. Duels and stuff like that are the biggest headaches"

Yuei Vu wanted to say: No, you are already very good. Look at my magician girl, her skills are far inferior to yours

Kisara shook her little head, "Finally, I have one more thing to ask you."

"Huh?"

"Well." She lowered her head and whispered, "Well don't tell Seto about me yet, okay? I I'm not ready yet "

*Girl, it was better to deal with it sooner rather than later. It was better to start as early as possible.*

*If you dont believe it, just look at Kaiba. When I asked him to go to Egypt to play cards with us, he refused to go. Now that Atem was gone, he was digging graves and building space stations like crazy all day long, insisting on dragging people back from the underworld*

*It's a textbook example of "arrogance ruins your life".*

"Okay." But Yuei Vu still agreed.

The girl showed a delighted smile: "Thank you, you are indeed a nice guy"

Nice Guy card +1.

Before she could finish speaking, the second half of her sentence was interrupted by the sound of tires rubbing against the street, and a blurry afterimage cut through the night. The headlights swung like an unstoppable sword, and the tires that stopped suddenly threw the water on the road far away.

Yuei Vu had to raise his arms to block the dazzling headlights. When he turned around, a luxury car was already lying domineeringly in front of him.

The on-call bodyguard Isono jumped out of the front seat and opened the back seat door. Seto Kaiba got out of the car, his soft black boots stepping on the hard sidewalk, and his windbreaker was lifted up by a gust of night breeze.

Yuei Vu felt that this may be President Kaiba's special power. Whenever he needed to show off, there was always a just-right breeze blowing by, as if he brought his own blower wherever he went.

This reminded him of some superheroes carrying invisible speakers on their shoulders. Every time they made a grand entrance, the BGM would sound before anyone could even reach the stage.

Just now, Miss White Dragon was still hesitant to see the president, but she didn't expect that the president would come himself so unexpectedly. Now the fun is great

Just as Yuei Vu was thinking this, he saw President Kaiba crossing his arms with a cold look on his face: "What are you doing in a place like this?"

*especially not secretly playing cards with your wife!*

Then he glanced back from the corner of his eye, only to find

*Fuck, where is Miss White Dragon?*

*Didnt you just say that your legs were numb and you couldnt get up? How do you sneak so efficiently?*

Yuei Vu couldn't help but doubt that she was not the spirit of a white dragon, but a white rabbit. She ran too fast.

"Ahem." Yuei Vu coughed slightly, "President, what are you doing here so late?"

It stood to reason that no matter where you were in the world, summoning the "Blue-Eyes White Dragon" would immediately attract the attention of President Kaiba.

But the Duel Disk used by Yuei Vu was donated by a kind-hearted person named Pa who did not want to be named in the future. As long as the Internet was disconnected, Kaiba would not notice his duel.

Kisara also did not use the Duel Disk manufactured by Kaiba Corp to be precise, she did not use any technology to create a Duel Disk. The thing in her hand was conjured by herself. It might be similar to the one used by Yubel, a metaphysical prop that would not leave any traces.

In addition, the corner chosen by Kisara was also very particular. It happened to be in a blind spot that could not be covered by the surveillance video, and it did not look like anyone was passing by.

So Yuei Vu estimated that either they were secretly playing cards here and were accidentally captured by the Kaiba Corp's satellite, or the president had an amazing sixth sense

"You haven't answered my question yet." Kaiba asked, "Why haven't you gone back yet?"

If it were normal, Yuei Vu might even just ignore Kaiba's question, but for some reason, he felt a little guilty today.

He looked away and responded casually: "Iuhforgot something in Kaiba Land."

"What?"

"Duel Disk."

As soon as the words came out, Kaiba and Yuei Vu's eyes fell on the Duel Disk he wore on his arm.

Yuei Vu: ""

A sudden visible silence.

This dialogue in this scene gave Yuei Vu a strange sense of dj vu.

Ten minutes ago, an almost identical conversation took place in the exact same place. It's just that Yuei Vu was the one questioning at that time, and Kisara was the one being questioned.

As a result, only ten minutes had passed, and he was the one being questioned, and the person questioning him was President Kaiba

Could it be that this is the so-called "karma may be late but never miss"?

"Ahem, other Duel Disks." Yuei Vu tried to ease the embarrassment, "President, you know, I don't have any other hobbies except collecting all kinds of Duel Disks"

Well, this was so ridiculous that he didn't even believe it.

"You were dueling here just now," Kaiba said.

As expected of President Kaiba, it seems that his focus is on "Yuei Vu secretly playing cards with others behind his back."

Yuei Vu wavered between the options of "Should I just sell this white dragon girl" for a few seconds, and after thinking about it, he decided to forget it.

*That's all, at worst, I'll go to the company to play cards with the president all night.*

It's just that President Kaiba probably won't let me go back to sleep tonight

Just then Kaiba's cell phone rang.

Kaiba took out his blue-eyed white dragon-shaped mobile phone and answered it directly:

"Mokuba? I have something to do here. If you have anything to do, I'll call you later. What did you say!?"

The president's expression suddenly changed, and he lost his composure instantly.

"That guy's fragment found!?"

Kaiba seemed to have forgotten the passerby named Yu in an instant. Without saying a word, he jumped into the car and closed the door: "Isono, drive!"

"Yes!"

The car's engine roared loudly, its tires dragged a long line of water, and disappeared at the end of the street in the blink of an eye.

Yuei Vu: ""

*Okay, think on the bright side.*

*At least I could sleep well tonight.*
