

I Play Yu-Gi 711

Chapter 711: Ancient Gear

Hot steam bursts out from the ancient metal structure, and huge gears rotate with a crisp mechanical sound. The ancient steel body breaks out from under the medieval Geartown, standing majestically as if waking up from an endless slumber.

Ancient Gear Golem was summoned!

This card was called the top rare card in GX and was the personal symbol of Mr. Chronos, an elite teacher. It was the crystallization of the wisdom of an entire generation of ancient craftsmen. A giant who came out of a dark mechanical era, his whole body was full of a simple and rich sense of machinery. The huge gears on his chest were engaged with each other and rotated, like an ancient clock stagnated in the Middle Ages.

[Ancient Gear Golem, ATK 3000]

"As expected of Mr. Chronos." As the only spectator, Principal Samejima nodded with his arms folded beside him, "He summoned an ace of this level right from the start."

"It's not over yet, nanone!"

Chronos raised his arms proudly.

"The Field Spell Geartown' still has an effect! When this card is destroyed and sent to the GY: I can Special Summon 1 Ancient Gear' monster from my hand, Deck, or GY!"

Another card was popped out of the deck on Chronos' chest, and he took it into his hand.

"I Special Summon Ancient Gear Gadjiltron Dragon' from the deck!!!"

The broken gear train street began to shake, and a humming sound came from the broken steam engine boiler. The remains of steel were squirming, as if a new great creation was about to emerge from the ruins.

The wreckage of Geartown moved, and countless fragments were pushed to both sides, like a wave of metal. A pair of broad wings spread out from the wreckage, which were bone wings of steel. The huge dragon soared into the sky with overwhelming power, its body showing the rigorous and ferocious beauty of industrial creation.

Ancient Gear Gadjiltron Dragon, ATK 3000

"Two monsters with three thousand attack power right from the start?" Principal Samejima looked approvingly, "Chronos-sensei is in very good condition."

"Of course, nanone!" Chronos was very alert and did not dare to be careless at all. "With Mr. Yuei Vu as my opponent, I must give 100%No, its one thousand percent strength!

He drew another card from his hand.

"Set a card, I end my turn, nanone!"

Yuei Vu slowly glanced over the huge industrial giant and the mechanical flying dragon and smiled.

Ancient Gear was indeed one of the most distinctive decks in the GX era, and may also be the most powerful echelon of decks produced in that generation of animation.

Although Professor Chronos himself played the role of a comedian most of the time, and often did not even have the opportunity to play cards due to the needs of the plot, whether it was the deck or his personal strength, nothing was complained about.

Although this teacher was defeated Yuki Judai in the first episode of GX and served as a stepping stone to the protagonist's image, he also proved his strength in subsequent plots. Especially when he accepted Yuki Judai's "repayment duel" against his teacher near the end, he showed the powerful strength that an elite teacher should have.

Some people think that when he faced Judai for the first time, considering that after all it was just an entrance examination and the opponent was an inconspicuous boy, Chronos might go easy in that battle and underestimated the enemy too much.

But Yuei Vu knew that Chronos was not weak as a duelist.

"My turn, draw." Yuei Vu said, "First activate the Spell Card Pot of Greed, and draw two cards from the deck."

Yuei Vu played a "Pot of Greed" first, and a big green pot that looked like Chronos popped out, staring at the teacher not far away. The scene was very funny for a time.

"Then I summon Berry Magician Girl' in attack position."

The crystal-clear fluorescence condensed into a transparent magic circle, and the magical girl flapped her transparent little wings and slowly flew out, holding her pacifier in her mouth and making a cry of "baaaaah".

[Berry Magician Girl, ATK 400]

"The effect of Berry Magician Girl." Yuei Vu said, "If this card is Normal Summoned: I can add 1 Magician Girl' monster from my Deck to my hand."

"Magician Girl deck?" Chronos responded attentively.

It was common knowledge that Duel King Yuei Vu's signature deck was the "Hero" series, but not many people could force him to come up with that deck. Chronos didn't have such expectations at first.

In addition to the famous HERO series, Duel King Yuei Vu was also known for his ability to freely control multiple decks with different themes. Statistics show that the Magical Girl series was also one of his most commonly used decks. This deck was also the object of countless duelists' desires.

The reason was also very simple. Maybe no matter which dimension or plane, gentlemen cannot resist the slender waist, long legs, fair and big magical girls.

"Quick-Play Spell Magical Dimension!" Yuei Vu said, "If I control a Spellcaster monster: Target 1 monster I control; Tribute that target, then Special Summon 1 Spellcaster monster from my hand.

I tribute the Berry Magician Girl to Special Summon the Dark Magician Girl! "

The transparent magic circle opened again at the feet of the magical girl, but the crystal-like lines quickly ignited black flames and transformed into a brand new magic circle.

A dark beam of light rose into the sky, and the magic girl flew out. She waved the staff gently in her hand, her long, silky hair shone like gold, her big emerald green eyes blinked mischievously, and her beautiful white figure was filled with youthful vitality.

Dark Magician Girl, ATK 2000

"The subsequent effect of Magical Dimension'." Yuei Vu said, "A monster on the opponent's field is destroyed. Destroy the Ancient Gear Gadgiltron Dragon'."

A pure golden impact shot out from the center of the closed alloy coffin, like a light arrow piercing the air. It shot sharply through the sky and hit the writhing dragon head-on. The mechanical structure collapsed in an instant, and half of the wings were blown to pieces. The dragon shattered into pieces and its parts collapsed and scattered all over the place.

"Ah, my Gadgiltron Dragon was so easily" Chronos exaggeratedly held his cheeks.

But he quickly recovered: "But Dark Magician Girl's attack power is only 2000, and there is an Ancient Gear Golem on my field. Her attack power is not enough"

As soon as the words left his mouth, Chronos realized something was wrong.

He found that the magician girl on the opposite field actually seemed to puff up her pink cheeks after hearing these words, and looked at him angrily.

Who dares to say that my power is not enough?

The one who looks like a Pot of Greed, how dare you look down on me!

The master never said so to me!

Only then did Chronos remember that the Duel King had a dozen monster spirits in his hands.

Thinking of this, he couldn't help but shut up obediently.

Its better not to say a few words, it would be bad if the spirit takes a grudge

For Yuei Vu, Ancient Gear was still a good opponent.

The new power of black magic could be tested here.

"Activate Spell Card Polymerization!" Yuei Vu said, "I fuse the Dark Magician Girl' on my field and the Dark Magician' in my hand!"

The slender figure wrapped in a black robe flew out of the magic circle, and its magic power was like a surging dark storm. The pitch-black staff was spinning in mid-air, its tip shining like a gem, cutting a bright arc in mid-air. The magician raised his right hand and grasped the whirling wand in his hand as if he were holding the power of black magic.

Chronos' expression changed slightly: "The fusion of the Dark Magician and the Dark Magician Girl?"

"Fusion Summon! The bond between master and apprentice will open the forbidden door of black magic! The ultimate magic power that spans three thousand years of time and space is released here

The Dark Magicians! ! ! "

Chapter 712: Spell Gear

The Dark Magician and the Dark Magician Girl stood on the left and right. The master and the apprentice stood side by side. The magic circles they stepped on merged into one place, and the surging magic power formed an interlaced vortex.

[The Dark Magicians, ATK 2800]

This was the card that Atem printed six years ago, but since Atem left this world, he disappeared into the underworld with him.

But then, after the developers of the Industrial Illusions worked day and night for many years, this magician fusion card, originally created by Atem, was finally officially released.

Needless to say, when the first batch of The Dark Magicians was released, Yuei Vu got one from Tenma Yako.

Strictly speaking, today was the actual debut of this card.

"Mr. Yuei Vu is just like the rumors, he always has rare cards that people don't expect." Chronos said, "But with an attack power of 2800, he cannot defeat the Ancient Gear Golem with an attack power of 3000 "

"Equip Spell Magic Formula'." Yuei Vu said, "Equip only to a Spellcaster-Type monster. It gains 500 ATK." (Animation effect)

The real card "Magic Formula" could increase the attack power by 700, and could also restore 1000 LP when sent to the graveyard, but only the "Dark Magician" or "Dark Magician Girl" could equip it.

Although the effect strength of this card in the original animation has shrunk, its application range was wider.

It can be considered a gain and a loss.

A thick magic book appeared in front of the master and apprentice, and the pages of the book turned automatically. The Dark Magician Girl poked her little golden head and read the spells recorded in the book quickly but Yuei Vu doubted whether her limited brain capacity could read such an obscure magic book.

[The Dark Magicians, ATK 2800 ATK 3300]

"The attack power exceeds that of the Ancient Gear Golem, nanone!" Chronos exclaimed.

"Then there is the effect of The Dark Magicians'. Once per turn, if a Spell/Trap Card or effect is activated: I can draw 1 card, then if it was a Spell/Trap, I can Set it."

He drew a card, glanced at it, and immediately waved his hand to set it onto the field.

"Battle!" Yuei Vu waved his hand, "The Dark Magicians, attack the Ancient Gear Golem!"

The teacher and apprentice's staffs intertwined, and dark red and black magic energy intertwined together, turning into spiral light cannons and blasting out.

"But, it's not that easy!" Chronos waved his hand, "Open the set card: Trap Card Dust Tornado! Target 1 Spell/Trap the opponent controls; destroy that target!"

Chronos pointed to the big book floating in front of the Dark Magician Girl.

"Destroy the Magic Formula', nanone!"

The Dark Magician Girl was immersed in studying the spells in the book, but suddenly a gust of evil wind blew from nowhere. The girl couldn't help shouting "Ah", and the book in her hand was blown high into the air, and was torn into pieces by the wind pressure.

[The Dark Magicians, ATK 3300 ATK 2800]

"In this way, the attack power of the Ancient Gear Golem has the advantage again, nanone." Chronos clenched his fists, "Come on, Ancient Gear Golem! Ultimate Pound!"

The gears on the giant's chest sped up, and the metal arms were raised dully. Countless mechanical parts cooperated, the metal friction made a crisp sound, and the oncoming punch was like a heavy rocket spitting steam.

"Oh." Principal Samejima continued to praise, "Chronos-sensei is very good. Facing the duel king's offensive, he was able to organize a counterattack so beautifully and quickly"

"The effect of The Dark Magicians." But Yuei Vu was not done yet, "The card Set on the field according to his effect can be activated in the turn it was Set.

According to this effect, open the Set card! Quick-Play Spell Gravity Lash!

Target 1 face-up monster on the field; it loses ATK equal to its DEF until the end of this turn! "

"Nani!?" Chronos suddenly showed a very Greed-like expression.

Yuei Vu said: "I choose the Ancient Gear Golem' and reduce his attack power by the value of his defense power!"

[Ancient Gear Golem, ATK 3000 ATK 0]

The attack power and defense power of Ancient Gear Golem were both 3000, but the balance of both offense and defense has become a burden to the giant now. The giant's gears seemed to be jammed, and parts screamed from the metal chest. He bent one knee and knelt awkwardly on the ground. The moment his iron-colored palms touched the ground, the whole ground seemed to shake.

The attack of the magician's teacher and disciple duo destroyed the giant's internal structure centered on the waist and abdomen. The Ancient Gear Golem collapsed like a defeated fortress, broken gears and parts scattered everywhere.

"Mamma Mia!" Chronos screamed in a strange voice, "My ancient machine was suddenly"

Chronos, LP 4000 LP 1200

"I end my turn."

The two magicians fell back in front of Yuei Vu one after another. The Dark Magician Girl was very happy and raised her white hands as if she wanted to high-five the master next to her. It's a pity that the Dark Magician kept a straight face and didn't react at all like a machine. The girl had no choice but to retract her little hand angrily.

"Well, as expected, Mr. Yuei Vu's tactics are not that easy to crack." Principal Samejima held his chin, "Whether you can be successfully selected as an outstanding teacher depends on your performance this time, Chronos-sensei."

Stimulated by the words "outstanding teacher", the shocked Chronos suddenly cheered up.

Yes! I don't have to win this duel, but I have to let Mr. Yuei Vu see my strength!

Be selected as an outstanding teacher, get promotions and salary increases, be promoted to principal, join the upper-class society, and reach the pinnacle of life!

The perfect plan. JPG.

Chronos' fighting spirit was instantly rekindled and he cheered up again.

"I'm going to be serious from now on, nanone! Draw!"

He looked at the cards in his hand, and while holding the cards, he gestured and muttered "this and this", which seemed a little funny.

"Okay, that's it! Activate the Spell Card Graceful Charity! Draw 3 cards, then discard 2 cards."

Chronos drew three cards and looked at them carefully, then sent two cards from his hand to the graveyard.

"At this moment, the effect of The Dark Magicians' is activated again." Yuei Vu said, "Once per turn, if a Spell/Trap Card or effect is activated: I can draw 1 card, then if it was a Spell/Trap, I can Set it."

Yuei Vu drew a card, checked it, inserted it directly into the Duel Disk, and set it on the field.

"Spell Card Pot of Greed, draw two more cards."

Drawing two cards, Chronos quickly began the operation of this round.

"Activate the Spell Card Ancient Gear Workshop!" Chronos said, "Target 1 Ancient Gear' monster in my Graveyard; add that target to my hand.

I return the Ancient Gear Golem to my hand. "

The Ancient Gear Golem in the GY popped out of the Duel Disk, and he took the card back from his hand.

"Then comes the Spell Card Crazy Summon Gear!" Chronos raised a card in his hand, "Select 1 face-up monster the opponent controls. The opponent must Special Summon up to 2 monsters from their Deck with the same Type and Level as their selected monster!" (anime card)

"Oh? Are you so polite?"

That's what he said, but Yuei Vu only had "The Dark Magicians" on the field now. He was a Level 8 Spellcaster monster.

There were not many Spellcaster monsters at Level 8, and many of them had effects that limited the summoning conditions and could not be summoned directly out of the deck.

Here there was only one option for Yuei Vu.

"Then I will special summon this card." Yuei Vu drew a card from the deck, "Level 8, Dark Magician of Chaos!"

Light and darkness intersect, a whirlpool of chaos. The power of chaos and the secrets of black magic were perfectly integrated, and the slender body in elaborate clothing flew out spinning. The wand was waved, and the stirring breath seemed to be impacting the barrier of time and space.

[Dark Magician of Chaos, ATK 2800]

"When Dark Magician of Chaos is summoned, add 1 Spell Card in my graveyard to my hand." (Old version effect)

Yuei Vu took out a card from the graveyard area.

"I retrieve the Pot of Greed' from the graveyard into my hand."

"Oh, the legendary Chaos Mage who experienced the baptism of light and darkness." Principal Samejima said, "Chronos-sensei, you gave the other party a very powerful monster. So, what would you do next?"

"The subsequent effects of Crazy Summon Gear'!"

The huge price should naturally be accompanied by corresponding effects. Chronos took back a card from his graveyard, and two other cards automatically popped up in the deck.

"After letting the opponent Special Summon a monster, I can select 1 monster in my Graveyard with 1500 or less ATK. I can Special Summon the selected monster and all other monsters with the same name from my hand, Deck, or Graveyard!

Chronos revealed the card that was sent to the graveyard at the beginning of this round.

"I special summon all three Ancient Gear Soldiers'!"

[Ancient Gear Soldier, ATK 1300] x3

"It's not over yet, nanone!" Chronos seemed to have found the feeling and started to continue the operation. "The Spell Card Spell Gear' is activated! Send 3 Ancient Gear' cards I control to the Graveyard. I can Special Summon up to 1 Ancient Gear Golem' from my hand and as many Ancient Gear Golem' as possible from my Deck, ignoring the Summoning conditions!

Then, destroy all monsters I control except Ancient Gear Golems'! (animation effect)

"Hey!" Principal Samejima's eyes lit up, "Is this the purpose?"

Mr. Principal was extremely looking forward to what would happen next.

"So according to this effect"

Chronos showed three cards in one breath and slapped the Duel Disk hard. The projection system was running at full speed, and the duel disk carried by the teacher was intertwined with light and shadow, like a guitar surrounded by colorful streams of light.

"I Special Summoned three Ancient Gear Golems' regardless of the summoning conditions!!!"

Chapter 713: Dark Cavalry

Three giant shadows broke through the earth, and countless gears meshed. The parts were assembled with precision, and countless complex mechanical devices were combined. The three exaggerated giants quickly grew taller, and their scarlet mechanical eyes were lit, accurately locking on the target to be struck.

[Ancient Gear Golem, ATK 3000] x3

"Not bad momentum, Chronos-sensei." Principal Samejima couldn't help but admire it, "It's rare to see three Ancient Gear Golems summoned at one go."

Even Yuei Vu also affirmed: "It is indeed impressive."

This was indeed true. Although after these years of development, the overall level of passerby duelists in the GX era had improved significantly compared to the past, the extent was still limited.

Even in the current era, if you could pull out three big monsters with an attack power of 3,000 in one turn, you were still an incredible duelist. Even in the professional league, you should be a leader who stands out from the rest.

Chronos was filled with joy.

Acknowledgment from the Duel King himself!

If this continues, I will be successfully selected as an outstanding teacher! Soon, I may get a promotion and salary increase, be promoted to principal, join the upper-class society, and reach the pinnacle of life

After thinking about it, Professor Greed tilted his mouth and started to giggle

"Ahem, Chronos-sensei, you are still dueling."

Principal Samejima reminded him to prevent Chronos from getting distracted.

"Ohoh." He came back to his senses and concentrated, "Then let's fight, nanone! Ancient Gear Golem, attack The Dark Magicians'!"

Three huge mechanical weapons were activated at the same time. The ancient giant took heavy steps, and the whole earth trembled.

The first Ancient Gear Golem waved its fist, and the sound of machine movement came from its arms, as well as the sounds of parts colliding and metal rubbing against each other. The Iron Fist was like a fired cannonball, with white steam erupting from the mechanical joints.

The body of the mechanical giant from that dark era contained terrifying power. In terms of destructive power, even the combined force of the magician and his apprentice could not resist it.

The master and apprentice both handed out their staffs and worked together to release a circular magic barrier, but it was only blown to pieces by the impact.

Yuei Vu, LP 4000 LP 3800

"But the effect of The Dark Magicians' is triggered." Yuei Vu said, "If this card is destroyed: I can Special Summon both 1 Dark Magician' and 1 Dark Magician Girl' from my hand, Deck, and/or GY.

I special summoned Dark Magician Girl from the graveyard and another Dark Magician from the deck! "

The master-disciple combination was defeated, but the two mages did not quit. They jumped away in opposite directions, landing on either side of their master, one on the left and one on the right, holding their staffs across their chests vigilantly.

[Dark Magician, ATK 2500]

Dark Magician Girl, ATK 2000

The Ancient Gear Golem had the effect of inflicting piercing damage when attacking monsters in defense position, so it was meaningless even if you wanted to place the monster in Defense Position.

Here, Yuei Vu simply let the summoned monster directly take the attack position, and it even made him take less damage.

"Then the second Ancient Gear Golem attacks the Dark Magician of Chaos'!"

Chronos felt that this forbidden chaos mage put more pressure on him than the mediocre teacher and disciple duo, so he chose him as a priority.

The steel fist hit the black-clad mage head-on, and the field of chaos magic was shattered under the attack of steam machinery.

Yuei Vu, LP 3800 LP 3600

"It's not over yet!" Chronos seemed to be getting more and more excited as he fought, "The third Ancient Gear Golem, attack the Dark Magician Girl!"

"When there is a Dark Magician' in the cemetery, the Dark Magician Girl's attack power increases by 300." Yuei Vu said.

[Dark Magician Girl, ATK 2000 ATK 2300]

Of course, this increase was not enough, it could only be said to be better than nothing.

The giant stepped forward with a mountain-like sense of oppression, and its terrifying punches were overwhelming. The girl was so frightened that she covered her eyes and lowered her head, and was soon swallowed up by the mighty wind of fists and the impact of the explosion.

Yuei Vu, LP 3600LP 2900

"Set two cards, I end my turn, nanone!"

Chronos ended the round and felt his heart pounding in his chest, getting more and more excited.

He felt like he was gradually getting into the zone state!

Yuei Vu closed his eyes, calmly swallowed the virtual impact caused by the three-dimensional image, and raised the corners of his mouth slightly.

It was indeed a very effective attack. This elite teacher did show the strength he expected to see.

"My turn." Yuei Vu drew a card.

This was exactly why Yuei Vu came to him: to confirm his strength and the teacher's ability to complete the tasks Yuei Vu was going to give him.

Of course, that was after this card game was over.

Yuei Vu first showed off the sacred card that was recovered by the effect of "Dark Magician of Chaos" in the last turn, the Pot of Chronos sorry, Pot of Greed.

"The Spell Card Pot of Greed', draw two cards."

Chronos swallowed his saliva.

The Dark Magician's attack power was 2500. Although he seemed to be no match for the Ancient Gear Golem, he knew that it was just on the surface.

The power of a Dark Magician was not in himself, but in the endless black magic countless special spells and special vests.

Chronos did not doubt that Yuei Vu would be able to launch a powerful counterattack this turn. But no matter what, there were three Ancient Gear Golems on the field. Even the Duel King should not be able to easily defeat such a luxurious lineup.

Yuei Vu showed a card in his hand and raised it above his head. Before it was activated, the card surface erupted with a boundless radiance.

"Spell Card The Eye of Timaeus!"

Chronos's face suddenly fell.

"Mamma Mia! The legendary dragon, nanone!"

Many years ago, Dartz was defeated by some of the strongest duelists on earth. As time went by, the legend gradually spread among the people. Naturally, it inevitably involved the stories of the three "Legendary Dragons".

Now the legendary dragon has become a legend among duelists. And everyone also knows that the legendary dragon has left this world after the destruction of Doma. Only the Duel King Yuei Vu still had such a "The Eye of Timaeus" in his hand.

This was the only one left in the world.

Another reason to make the original Duel King a legend.

"The effect of The Eye of Timaeus! Target 1 Dark Magician' monster on my field; Fusion Summon 1 Fusion Monster from my Extra Deck that mentions that monster on the field as material, using it as the Fusion Material!"

The huge dragon soared out of the Spell Card, spreading its wings and hovering in mid-air. The Dark Magician flew up, and the dragon turned into two beams of light that broke through the air, and both merged into the golden vortex.

"Fusion Summon! The spell of black magic combined with the courage of a warrior, the magic knight who breaks the darkness

Dark Cavalry! ! ! "

Chapter 714: Dark Medieval

The Legendary Dragon and the Dark Magician both disappeared into the air, and the beam of light crashed down like a waterfall hanging from the sky. A dark horse as burly as a mountain galloped out, with dark magic flowing around its dark fur.

The cavalry in pitch-black armor straddled the backs of their horses, their armor heavy and filled with a dark whirlwind. He held a red spiral spear in his hand, and the tip of the spear swept out a black and transparent whirlwind.

The four horse legs were majestic and powerful, and the metal horseshoes bound on the horse's hooves were shimmering with silver. It carried the majestic cavalry out of the magic circle. The black magic circle was like a door between worlds. The incomparable majestic cavalry came from another world and broke the barrier with the spear in its hand.

[Dark Cavalry, ATK 2800]

"Dark Cavalry will gain 100 ATK for each Spell/Trap on the field and in the GYs."

Golden light flashed out from the graveyards of Yuei Vu and Chronos respectively, and each Spell and Trap Card briefly passed by, turning into power and superimposed on the cavalry. The red spiral spear was rippling with an invisible cyclone as if it had an energy field attached to it.

The total number of Spell and Trap cards on both sides' field and graveyard was 16, so the Dark Cavalry's attack power increased by 1600.

[Dark Cavalry, ATK 2800 ATK 4400]

"Activate the Spell Card Diffusion Wave-Motion' from my hand!" Yuei Vu continued, "Pay 1000 LP, then target 1 Level 7 or higher Spellcaster monster I control; this turn, it must attack all monsters the opponent controls once each, also other monsters I control cannot attack. The effects of monsters destroyed by these attacks cannot activate and are negated!"

Yuei Vu, LP 2900 LP 1900

"Mamma Mia!" Chronos lost his composure again, "Doesn't it mean that all my Ancient Gear Golems will"

"And because the number of Spell Cards increases, Dark Cavalry's attack power continues to increase."

[Dark Cavalry, ATK 4500]

"Oh." Principal Samejima held his chin, "The attack power is 4,500. If he attacks all three Ancient Gear Golems at once it seems that the winner has been decided."

"Battle!" Yuei Vu raised his hand, "Dark Cavalry, attack all three Ancient Gear Golems! Three consecutive hits!"

The sound of horse hooves shook the earth, and the dark horse galloped forward. The spiral spear in the cavalry's hand launched a thrust, which was a blow containing the surging power of black magic!

Violent piercing, like black lightning. The steel shell of the mechanical giant was punctured like a paper window, and the dragon-like gunshot smashed the mechanical structure in its body to pieces. The dark magic exploded countless times inside the giant machine, and the towering body staggered and collapsed.

"Oopen the set card! Trap Card Impenetrable Attack!" Chronos panicked and opened the set card, which was also the most powerful defense in front of him.

"I choose to take no battle damage during this Battle Phase!"

The giant was scattered into a mess of gears and parts and collapsed towards Chronos, but all impacts were resisted by the shield released by the trap.

"But according to the effect of Diffusion Wave-Motion', Dark Cavalry has two more attacks." Yuei Vu said.

Continuous piercing, the spiral spear was invincible. Three Ancient Gear Golems were penetrated by the domineering spear one after another and exploded to pieces. The steam engine was overwhelmed and exploded into pieces.

Of course, because of the protection of "Impenetrable Attack", no real damage was caused.

"Then I end my turn."

Chronos took a deep breath and took out a handkerchief to wipe the sweat from his forehead.

"What a critical moment, nanone"

"Three Ancient Gear Golems were summoned in one turn, and they were all destroyed in one turn." Principal Samejima nodded slightly, "What an incredible duel.

However, in this situation, can Chronos-sensei still have a way to fight back? "

The current attack power of Dark Cavalry was 4500, and it would continue to increase with the use of Spell and Trap cards by both sides.

Moreover, it also had the effect of inflicting piercing battle damage and has good resistance to Spell, Trap, and monster effects.

A monster of this level was already a big brother in the current dueling environment. Most duelists would surrender when faced with this kind of monster.

But Chronos didnt.

"My turn, draw!"

The card drawn did not seem to satisfy Chronos. The teacher looked at a card covered by his feet and bit his lip.

"I can only take a gamble, nanone Open the set card: Trap Card Sixth Sense!"

Yuei Vu raised his eyebrows.

"Declare 2 numbers from 1 to 6, then the opponent rolls a six-sided die." Chronos said, "If the result is one of the numbers I declared, I draw that many cards. Otherwise, send a number of cards from the top of my Deck to the Graveyard equal to the result!"

"Oh, is it left to luck?" Principal Samejima looked expectant.

"The numbers I declare are 2 and 5."

As Chronos said, a dice rolled to Yuei Vu's feet.

Yuei Vu: ""

He didnt know why, but when he saw the dice, he felt a headache

Yuei Vu said nothing and rolled the dice silently.

The cube rolled on the ground several times and then stopped after a while. The number facing up was a big "5".

"Jackpot!" Chronos was ecstatic and almost took off on the spot with excitement, "Then according to the effect of the Sixth Sense', I can draw five cards, nanone!"

Yuei Vu: Don't get excited too much. In fact, you have suffered a loss. You should be bolder and guess 6 directly. I guarantee that the number I throw will definitely be 6

Chronos, who had cards to play, was doing well again: "Activate the Spell Card Ancient Gear Scrap Fusion' from my hand! Target any number of Ancient Gear' monsters in any Graveyard; Fusion Summon 1 Fusion Monster from my Extra Deck, using those monsters in the Graveyard as Fusion Materials, but its effects are negated! (animation card)

It was a bit like the Ancient Gear version of Miracle Fusion, but the effects of the Fusion Monster would be negated, and the Fusion Materials only needed to exist in the graveyard and did not need to be removed from the game.

"Now there are three Ancient Gear Golems' in my GY!" Chronos raised his arm, "So I fused the three of them!

Appear, the strongest overlord of the Dark Middle Ages

Ultimate Ancient Gear Golem! ! ! "

The earth roared, and a huge new existence emerged from the broken ruins. Its whole body was loaded with countless gears, which are tightly interlocked and interlocked with each other. Countless parts were assembled, and the Iron Giant's body was covered with ancient guns, bullets, and heavy artillery, like a mobile ordnance fortress.

[Ultimate Ancient Gear Golem, ATK 4400]

Chapter 715: Professionalism

Ultimate Ancient Gear Golem was summoned!

The ultimate crystallization of the wisdom and technology of countless top craftsmen, the ultimate mechanical weapon, with destructive power comparable to those of legendary mythical beasts!

"Is it the triple fusion of Ancient Gear Golems? As expected of Mr. Chronos!" Mr. Principal was full of praise, "But even so, its attack power is only 4400"

"Humph, of course, I know that!" Chronos chuckled, "So I want to activate the Spell Card Riryoku! Target 2 face-up monsters on the field; halve the ATK of 1 monster, and add that lost ATK to the other monster!"

He pointed at the Dark Cavalry: "I halved the attack power of Dark Cavalry! That part of the attack power was added to the attack power of Ultimate Ancient Gear Golem!"

"It's beautiful." Principal Samejima said, "In this way, strength and weakness can be reversed"

"Nice try." Yuei Vu waved his hand, "But the effect of Dark Cavalry' has also been activated! When a card or effect is activated that targets a card on the field: I can discard 1 card; negate the activation, and destroy it!"

A card in Yuei Vu's hand was discarded to the GY, and the dark cavalry swept across with a long spear. The domineering cyclone smashed the incoming magic waves into pieces. The horse under the knight lifted its front hooves off the ground and neighed, awe-inspiring and uncompromising.

"Oh, what a pity," Samejima said.

"Well it's not over yet! Then activate the Quick-Play Spell Concentrating Current! Target 1 face-up monster I control; it gains ATK equal to its current DEF, until the end of this turn!"

He raised his hand and pointed at the tall giant like a steel mountain above his head.

"I target Ultimate Ancient Gear Golem, so its attack power increases by the value of its defense power!"

[Ultimate Ancient Gear Golem, ATK 4400 ATK 7800]

"Attack power 7800!" The principal showed an astonishing expression, "Oh, if you hit like this"

"The effect of Dark Cavalry' is activated again!" Yuei Vu said, "Discard a card to negate the effect of Concentrating Current'."

The magic knight's spear swung again, and a spiral magic shock flew out along the tip of the spear. The overbearing impact intercepted the current released from the Spell Card and blocked the increase in the ultimate giant's power.

[Concentrating Current, ATK 7800 ATK 4400]

"Ah, that's right! The effect of Dark Cavalry' only requires a card or effect is activated that targets a card on the field'. It isn't limited to effects that target Dark Cavalry himself." Principal Samejima said, "He can even negate the cards that strengthen your own monsters. What a terrible knight"

Two consecutive counterattacks were blocked, but Chronos only curled his lips.

"Hmph, of course, I've already figured this out, nanone!"

He waved his hand and played another card: "Quick-Play Spell De-Fusion!"

Samejima was surprised: "De-Fusion!?"

"That's right!" Chronos looked proud, "Although the Dark Cavalry' is very powerful, he is still a Fusion Monster!"

And De-Fusion can return any Fusion Monster on the field to the Extra Deck, then if all the Fusion Materials that were used for its Fusion Summon are in the graveyard, they can be Special Summoned on the controller's field! (animation effect)

"I see." Yuei Vu understood, "If summoned according to the conventional method, the set of fusion materials for the Dark Cavalry should be Dark Magician' plus 1 Warrior monster'."

But my Dark Cavalry was summoned through the effect of The Eye of Timaeus

"That's right, so Mr. Yuei Vu, you don't have a complete set of fusion materials for summoning the Dark Cavalry' in your graveyard." Chronos put his arms on his hips and raised his chest, "De-Fusion' returns the Fusion Monster on the field to the Extra Deck, but the material monsters will not return!"

"It is worthy of the professionalism of an elite teacher!" Principal Samejima continued to affirm.

"Also, Mr. Yuei Vu, you have no cards left in your hand, so you can't use the effect of Dark Cavalry to negate De-Fusion', nanone!" Chronos said excitedly.

Plan pass.JPG.

"Did you aim to use De-Fusion' to deal with my Dark Cavalry' from the beginning?" Yuei Vu nodded slightly.

The same card could exert completely different powers in the hands of different duelists. As a professor, Chronos has fully demonstrated his value and strength.

De-Fusion was activated, and it worked just like Chronos' idea. Yuei Vu no longer had the cards in his hand needed to activate the effect of the cavalry. The Dark Cavalry was wrapped in magical power and quickly turned into flying points of light and dissipated. The playground became empty again, without any obstructions.

"Successful, nanone!" Chronos couldn't hide his excitement, "Ultimate Ancient Gear Golem, directly attack Mr. Yuei Vu!!!"

The giant took a step forward, and the metal soles of his feet were embedded in the earth. Its whole body's mechanisms were operating, the ground was collapsing, and an electric current was beating among countless large and small gears, surrounding the iron fist that blasted out like a cannonball.

Principal Samejima's eyes flashed: "Ms. Chronos did you win?"

Yuei Vu snapped his fingers and flipped the cards covered in front of him: "Open the set card!"

"Huh?" Chronos said, "But when Ultimate Ancient Gear Golem attacks, the opponent cannot activate any Spell/Trap Cards until the end of the Damage Step Oops!"

Only then did he realize something he had overlooked.

The "Ultimate Ancient Gear Golem" on the field was summoned through the effect of the Spell Card "Ancient Gear Scrap Fusion". The price of summoning in this way was that the monster's effect would be negated!

It was precisely because Yuei Vu remembered this detail that he dared to wait until the moment the opponent declared an attack before launching this hidden trap.

In his excitement, Chronos ignored this important fact for a moment.

"Trap Card Necro Fusion! Fusion Summon 1 Fusion Monster from my Extra Deck, by banishing Fusion Materials mentioned on it from my GY face-down!"

Two cards popped up in Yuei Vu's GY area, and he showed them to the opponent.

"I fuse the Dark Magician' with the Charging Gaia the Fierce Knight!"

"Gaia!?" Chronos exclaimed, "Mamma Mia! When did this kind of card"

"Oh!" Principal Samejima suddenly realized, "Did you discard it as the cost of activating the effect of the Dark Cavalry?"

Only then did Chronos become shocked.

It turned out that when his tactics were launched, exhausting the opponent's cards and forcing the powerful "Dark Cavalry" into a dead corner, Mr. Yuei Vu had already planned the next step!

The famous top mage "Dark Magician" and the legendary knight "Gaia The Fierce Knight" in the world of duel monsters. The two strong men flew up and turned into two beams of light, one black and one gold, that merged and intertwined in mid-air to form a Ink swirl.

Strong and gorgeous light effects burst out, and the magic circle unfolded among the gorgeous special effects. The armored black cavalry rode astride the horse, the light of magic rippled around them, and the horse's hooves galloped out of the air.

The Dark Cavalry was back!

"Mama Mia! You actually summoned the Dark Cavalry again, nanone!" Professor Chronos said with a pale face.

"And at the end of the last turn, I had an extra set card on the field. You also used Ancient Gear Scrap Fusion', Riryoku', Concentrating Current', and De-Fusion', a total of four cards. So Dark Cavalry's attack power will be further enhanced.

[Dark Cavalry, ATK 5000]

"Attack power five thousand!?" Principal Samejima gradually lost his composure, "Higher than the Blue-Eyes Ultimate Dragonno, it is equivalent to the attack power of the Five-Headed Dragon!"

However, because this time the Dark Cavalry was summoned again during the Battle Phase, the change in the number of monsters on the field caused the battle to roll back, and Chronos could choose to terminate the attack.

However, Chronos did not choose to terminate!

"Ah, keep attacking, nanone!" Chronos shouted, "Ultimate Ancient Gear Golem, attack the Dark Cavalry!"

"You still want to attack!?" Principal Samejima was surprised, "If you lose the Ultimate Ancient Gear Golem here, this duel will end"

But the order given could no longer be withdrawn, and the body of Ultimate Ancient Gear Golem roared again! Countless metal parts seemed to be screaming sharply at the same time, the steam engine was humming, black electric snakes wrapped around the giant's body, and white steam spewed out from the gaps in the armor.

The magic cavalry sprinted without fear, and the piercing of the spiral spear brought a series of air explosions!

The confrontation between machinery and cavalry, the ultimate collision of strong men. In the moment before the two sides clashed, Chronos played the next card.

That card was

"Quick-Play Spell Limiter Removal!" Chronos shouted, "Double the ATK of all Machine monsters I currently control, until the end of this turn!"

The shackles of steel are released, and the boundaries bound by metal parts are broken. The electric current in the mechanical giant's body exploded like a scream, and every joint was overloaded. The steam engine roared like a scream, and even the steam it spit out was burned red!

[Ultimate Ancient Gear Golem, ATK 4400 ATK 8800]

The attack power was nearly nine thousand!

Chapter 716: Come For The Third Time

"Attack power 8800!?" Principal Samejima exclaimed.

In comparison, even the Five-Headed Dragon was trash!

Ultimate Ancient Gear Golem, ATK 8800

[Dark Cavalry, ATK 5100]

The attack command was re-issued after the battle had resumed, and the fight was unavoidable. The magic cavalry sprinted at full speed, the golem's mechanical punch crashed down at full speed, and electric sparks jumped out of the mechanical joints of their arms

Boom! ! !

The three-dimensional image effect caused by the confrontation with such a level of attack power was naturally quite impressive. The huge impact was like a tsunami along the coast, with light effects and smoke screens engulfing everything. The visibility in the venue was reduced to the minimum, and the aftermath made Principal Samejima's bare forehead hurt.

"How's the situation?" He squinted his eyes.

Yuei Vu, LP 1900

Principal Samejima was stunned for a moment.

Yuei Vu's LP had not changed at all, and the black cavalry was still standing in front of him. The ultimate mechanical giant retreated to its original position, and the arm it had just waved had exploded from the joints under the load, exposing a large number of broken lines.

Not only the principal but Chronos was also surprised: "What's going on? Why are you still fine, nanone?"

"During the opponent's turn, I can banish Necro Gardna' from my Graveyard; negate the next attack this turn from a monster you control." Yuei Vu smiled.

My apprentices card. JPG.

"Why?" Chronos was like a defeated rooster, "Even such an attack can't defeat him"

"It's a pity that it didn't work, but it was already a very beautiful attack, Mr. Chronos." Yuei Vu said.

"Well, even though that's the case the situation is still very unfavorable for Chronos-sensei."

Principal Samejima began to analyze, "Limiter Removal' is a powerful card that can instantly increase the explosive power of the machine race, but that power also comes with corresponding risks.

Forcibly increasing the output and power of a machine will inevitably lead to overloading of the machine itself. "

Indeed, monsters that have been boosted by the effect of "Limiter Removal" must be destroyed at the end of the turn.

If the Ultimate Ancient Gear Golem was destroyed, Chronos would have to face the next round with an empty field. That would basically be equivalent to a death sentence.

Chronos gritted his teeth for a moment and quickly took the next step: "Then I activate the Quick-Play Spell Trap Booster"! Based on this effect, I can activate a trap card from my hand." (Animation card)

He waved his hand to activate a trap.

"Trap Card Cross-Dimensional Duel!" Chronos said, "Target 1 Ancient Gear' monster I control; banish it. During the next Standby Phase, return that banished monster to the field, and its ATK becomes double its original ATK until the end of that turn!"

He pointed to the majestic steel giant on his field.

"I banish Ultimate Ancient Gear Golem!"

The dimensional space was distorted, the figure of the ultimate giant was erratic, and the scarlet mechanical pupils flickered on and off like an indicator light with poor contact. In just a moment, the giant disappeared from the field without a trace.

"Beautiful!" Principal Samejima nodded, "This way not only did he avoid the side effects of Limiter Removal', but Ultimate Ancient Gear Golem's attack power will also be doubled in the next turn!"

"Set a card, I end my turn, nanone!"

However, this added a total of three Spell/Trap cards to the field and the graveyard, further increasing the Dark Cavalry's attack power.

[Dark Cavalry, ATK 5400]

"My turn, draw." Yuei Vu said.

"At this moment, the effect of Cross-Dimensional Duel' is activated, and the Ultimate Ancient Gear Golem' returns to the field, and its attack power is doubled, nanone!"

The dimension was distorted, as if the space was torn apart from the outside by a strange force. The metal giant standing tall on the ground came with heavy steps, the metal soles of his feet trampling the floor to pieces, and his body seemed to be twice as big as before.

Ultimate Ancient Gear Golem, ATK 8800

8800 ATK. This number not only sounded good, but it was not that easy to defeat. At least the current attack power of the cavalry was obviously not enough.

In this case

"Spell Card Monster Recovery!" Yuei Vu said, "Return all monsters on my side of the field and cards in my hand to my Deck. Shuffle the Deck, then draw 5 cards."

All cards were recovered, naturally including the Dark Cavalry with an attack power of 5400 on the field. This meant he wanted to use the new five cards to create a lineup with over 8800 attack power.

Seeing the Dark Cavalry return to the deck in the form of golden light for the second time, Chronos couldn't help but feel a little uneasy.

Having given up on the Dark Cavalry are you planning to use other more powerful tactics to attack?

Yuei Vu quickly gave an answer: "I banish two monsters in the GY, the LIGHT-attribute Charging Gaia the Fierce Knight' and the DARK-attribute Dark Magician Girl!"

"Banish monsters with light and dark attributes?" Principal Samejima quickly thought of something, "Could this summoning condition be"

"Heaven and earth are opened! Taking the souls of light and darkness as sacrifices, they descend in the chaotic field, and the legendary strongest warrior

Black Luster Soldier Envoy of the Beginning! ! "

The golden light reaches the sky and the earth, and thunder surges out from the sky. The blue-armored warrior suddenly fell down, his armor with staggered patterns, his sword blade shimmering with light, and his resolute face seemed to be made of steel, controlling the wind and thunder around him.

The warrior of chaos who opened up the world, the Envoy of the Beginning!

[Black Luster Soldier Envoy of the Beginning, ATK 3000]

"Oh! The legendary warrior!" Principal Samejima continued to explain professionally, "The strongest warrior in the legend who has the power to conquer any obstacle!"

Yuei Vu waved his hand: "The effect of Black Luster Soldier Envoy of the Beginning! Once per turn, target 1 monster on the field; banish it."

The warrior raised the sword in his hand, and the sword light fell. The golden crescent-shaped light swayed down, and the space was distorted. What was brewing there was the chaotic sword energy that was enough to split the space in half!

Chaos Dimension Slash!

"If a monster is directly banished, no matter how high the attack power is, it will be meaningless!" Principal Samejima said, "Chronos-sensei is in a bit of danger."

"I target the Ultimate Ancient Gear Golem!"

"Wait a minute! Before your effect is resolved, I chained this card, nanone!" Chronos still had a countermeasure, "Quick-Play Spell Forbidden Dress! Target 1 face-up monster on the field; until the end of this turn, that target loses 600 ATK, but cannot be targeted or destroyed by other card effects.

Of course, the one I want to choose is the Ultimate Ancient Gear Golem, nanone! "

[Ultimate Ancient Gear Golem, ATK 8800 ATK 8200]

The protection from the Spell Card from the "Forbidden" was like an iron wall-like barrier. The Chaos Warrior paused, and the "Chaos Dimension Slash" that was gathering momentum could not continue to strike.

The effect of Black Luster Soldier Envoy of the Beginning' continued to resolve, but "Ultimate Ancient Gear Golem" now could not be selected as the effect target. Since his effect has already been activated, the Chaos Warrior himself suffered the side effect of his ability and was unable to declare an attack this turn.

Yuei Vu began to appreciate this teacher even more, and realized that he was only put into the role of a comedian due to the need of the plots.

Even the "Chaos Dimension Slash" was resolved, his dueling skill was really good.

but

"Then activate the Spell Card Fusion Recovery'." Yuei Vu said, "From my GY, add 1 Polymerization' and Dark Magician' that was used as material for a Fusion Summon back to my hand. "

"Huh?" Chronos was stunned, "But shouldn't the Dark Magician' have been banished by the Necro Fusion""

"That is the Dark Magician' used as the fusion material for the Dark Cavalry'. But have you forgotten? There is another Dark Magician' in my graveyard."

Yuei Vu took back the "Dark Magician" card from the graveyard of the Duel Disk, showed it to Chronos, and smiled.

"This is the one that was sent to the graveyard as the fusion material of The Dark Magicians'."

Chronos was shocked: "Mamma Mia! I completely forgot that there is such a thing, nanone!"

"Activate Spell Card Polymerization! I fuse the Dark Magician' in the hand and the Black Luster Soldier Envoy of the Beginning' on the field!"

The merging vortex emerged in mid-air. The magician and the legendary warrior both left the ground and turned into beams of light and shot into the vortex. The surging waves were like a flood that broke a bank.

"The fusion condition is 1 Dark Magician' + 1 Warrior monster!"

Fusion Summon! The spell of black magic combined with the courage of the warrior, the magic knight who breaks the darkness, comes for the third time

Dark Cavalry, summon! ! ! "

Chapter 717: Space-Time Breakthrough Slash

The spear broke through the space like a beam of red flash, and the black knight rushed out of the magic circle on horseback. He was ready to go, tirelessly, and pointed his sharp gun forward without confusion.

Dark Cavalry, came for the third time!

If someone had to be awarded an "Employee of the Month" after this duel, it would definitely be the Dark Cavalry. In a duel, he repeatedly jumped back and forth between the deck and the field. In the short confrontation, he appeared three times, which was really respectable

[Dark Cavalry, ATK 2800]

"Dark Cavalry will gain 100 ATK for each Spell/Trap on the field and in the GYs." Yuei Vu said, "Because the number of magic traps in the graveyard has increased again this round, the cavalry's attack power will also increase accordingly.

[Dark Cavalry, ATK 2800 ATK 5600]

"But it seems it's still not enough." Mr. Principal murmured.

Indeed, the current Ultimate Ancient Gear Golem's defense could be said to be an iron wall. It had an attack power of up to 8200 and could not be targeted or destroyed by effects.

In the current environment, a big monster with such resistance and attack power could be said to be unrivaled.

"But if it's Mr. Yuei Vu there should be a strategy, right?"

"Although the attack power of 5600 is powerful enough, it is still far from the attack power of the Ultimate Ancient Gear Golem', nanone." Chronos put his hands on his hips.

This was almost his limit. With more than 8000 attack power plus such a powerful effect immunity, he dared not ask for a more perfect scene.

Even if you are a Duel King, you can't just kill such a monster, right?

"Spell Card Spider Web'." Yuei Vu said, "Select 1 card in the opponent's Graveyard that was sent there the previous turn, and add it to my hand." (Animation Card)

The white thread ejected from the Spell Card and accurately penetrated the grave area of the Duel Disk on Chronos' chest. Following his weird "ouch" cry, a shiny green Spell Card flew back with a silk thread.

Yuei Vu added the card to his hand and turned it over: "The card I added to my hand is De-Fusion'."

"De-Fusion?" Principal Samejima wondered, "Are you also planning to follow Mr. Chronos's example and use De-Fusion' to return the Ultimate Ancient Gear Golem' to the deck?"

The fusion material of Ultimate Ancient Gear Golem is Ancient Gear Golem, and Ancient Gear Golem cannot be Special Summoned due to its effects.

If you use De-Fusion to return the Ultimate Ancient Gear Golem to the deck, the Ancient Gear Golem will indeed not return to the field. But"

"Because of the effect of Forbidden Holy Cloth', Ultimate Ancient Gear Golem' cannot be selected as the effect target during this turn." Chronos expressed doubts, "Mr. Yuei Vu should know this. ..."

"I know." Yuei Vu added "De-Fusion" to his hand. Without explaining too much, he just drew another card, "Equip Spell Excalibur'! Double the equipped monster's original ATK, but I must skip my Draw Phase each turn, or this card will be destroyed." (Animation card)

Chronos was shocked: "The original attack power of the Dark Cavalry is 2800"

"That's right." Yuei Vu said, "Because of the Excalibur', the total attack power of the Dark Cavalry has been increased by 2900!"

[Dark Cavalry, ATK 5600 ATK 8500]

"Attack power 8500!?" Chronos was dumbfounded.

"Battle!" Yuei Vu waved his hand, "Dark Cavalry, attack the Ultimate Ancient Gear Golem!"

The dark horse raised its front hooves and sprinted forward with a neighing sound! The horse roared as if it contained lightning, a magic circle with complicated patterns spread out from the end of the spiral spear, and the red spear summoned the dark wind.

Of course, the Ultimate Ancient Gear Golem was not to be outdone. The three steam engines in its body were at full power, and they hit it head-on with their iron fists.

Two big monsters with more than 8000 points of attack power faced off, but the difference was only 300 points. It was an evenly matched battle, but under the constraints of the duel rules, there was no suspense.

The black knight was unstoppable, and his long spear dispersed one attack after another. The magic power inspired by the gun first shattered the mechanical giant's thick arms, and then the core of its chest. The giant's head was blown away by a series of black magic bombardments, and the broken metal structure rolled to the side, which looked a bit weird.

Chronos, LP 1200 LP 900

Chronos held his head in his hands to block the virtual impact, and seemed to be still trying his best to avoid the scattered fragments projected in the sky. But he did not forget to shout at the same time: "Ultimate Ancient Gear Golem's final effect!

When he was destroyed, I could Special Summon 1 Ancient Gear Golem' from my graveyard, ignoring the summoning conditions! "

The steel fortress was defeated, and parts and debris were scattered everywhere, but that was not the end!

The sound of gears biting was continued again, and the steel giant emerged from the debris everywhere. The figure of the cavalry was reflected in the scarlet eyes. The huge steel palms rested on the debris everywhere, supporting its huge body from the wreckage. The mechanical structure buzzed with force.

[Ancient Gear Golem, ATK 3000]

Chronos held his breath.

Very good, I should be able to survive this round

"Quick-Play Spell De-Fusion." Yuei Vu said.

Chronos: "!"

Only then did he realize in shock that this "De-Fusion" was not prepared for his Ultimate Golem. It turned out that its target had been the Dark Cavalry himself from the very beginning!

"Undo the fusion of the Dark Cavalry' again!" Yuei Vu smiled, "This time my Dark Cavalry' was summoned through regular fusion, and the monsters used as fusion materials all exist in the GY.

So get back on the field, Dark Magician! Black Luster Soldier Envoy of the Beginning! "

After completing the most perfect sprint, the Cavaliers once again retired. The power that was fused into the cavalry separated and transformed back into the "Dark Magician" and the "Black Luster Soldier Envoy of the Beginning", both of which fell back onto the field.

[Dark Magician, ATK 2500]

[Black Luster Soldier Envoy of the Beginning, ATK 3000]

"De-Fusion' was a Quick-Play Spell. If the fusion is released during the Battle Phase, the summoned fusion materials can attack immediately."

Principal Samejima felt that he had seen the ending.

"Next, as long as the Black Luster Soldier Envoy of the Beginning' and the Ancient Gear Golem' die together, and then the Dark Magician' completes the final blow, the duel will truly come to an end."

The principal sighed.

As expected, Mr. Yuei Vu can also use "De-Fusion" with ease. But Chronos-sensei played well enough. Its not that he cant be considered to be an outstanding teacher

"Black Luster Soldier Envoy of the Beginning'." Yuei Vu has indeed given the final order, "Attack the Ancient Gear Golem'!"

The legendary warrior flew up and struck out with his sword. The silver sword blade turned into afterimages all over the sky in mid-air, hundreds of sword lights flashed, and every sword energy shot out was accompanied by the sound of an air-piercing explosion.

Double-Destruction Slash of Creation! ! !

The Ancient Gear Golem also raised his fist, not to be outdone. The heavy punch made a crisp sound of the air being torn apart, and the iron-colored fist slammed into the sky full of sword energy.

Chronos had no set cards, no cards in his hand, and no means of counterattack. The "Ancient Gear Golem" he placed his last hope on would perish together with the sword light of the Chaos Warrior, announcing his defeat at the same time

but it was not the truth.

This teacher still had a last resort!

"Activate the trap Cross-Dimensional Duel' from the graveyard, nanone!" Chronos shouted.

"Oh?" Samejima's eyes lit up, "A trap launched from the GY?"

"The subsequent effect of Cross-Dimensional Duel! If 1 or more Ancient Gear Golem' or Ancient Gear Golem Ultimate Pound' I control would be destroyed by battle or card effect, I can banish this card from my GY instead, nanone!"

The trap flew out from the GY and hung high in the air. The Chaos Warrior was still sprinting, and endless sword light slashed away. The mechanical giant also waved his fist fearlessly, but with the appearance of this card, the situation was completely different in an instant!

According to the effect of "Cross-Dimensional Duel", only the Chaos Warrior would be destroyed in this battle, while the Ancient Gear Golem would survive tenaciously. In this way, there was only Dark Magician with 2500 attack power left on the field of Yuei Vu. The difficulty of surviving the next turn would be handed back to Yuei Vu!

This card changed the situation again!

However

"Well played."

Yuei Vu smiled and showed a card in his hand.

"I activate the effect of Envoy of Chaos'," He said, "During the Battle Phase, I can discard this card, then target 1 Black Luster Soldier' monster or Gaia The Fierce Knight' monster I control; it gains 1500 ATK until the end of this turn."

[Black Luster Soldier Envoy of the Beginning, ATK 3000 ATK 4500]

Chronos: "Mamma Mia! Attack power 4500!?"

A card was stuffed into the graveyard, and the situation changed again in a flash of lightning. The chaotic cyclones between heaven and earth seemed to be drawn by invisible forces and all gathered together, condensing on the warrior's body, making every sword he drew shine as brightly as sunlight.

The giant's body was split open by countless sword energy and exploded continuously. Broken gears and cracked iron blocks flew everywhere, and steam erupted from the entire body of the industrial giant, which smashed into pieces on the ground.

Chronos, LP 900 LP 0

Chapter 718: The Back Door?

"Oh, I feel like it's just a little more and I can win, nanone."

Chronos squatted on the ground and drew circles.

Principal Samejima smiled and patted his shoulder: "Okay, Chronos-sensei, your performance is already good enough. After all, your opponent is Mr. Yuei Vu, and you have already played very well."

"That's right, nanone."

Although Professor Greed sometimes seemed a bit evil-minded, he was still a very simple person. As a professor, he sometimes acted like a child, which was inexplicably cute.

"The principal is right." Yuei Vu put away the duel disk and nodded, "I will write you a recommendation during the next election."

"Really?" Chronos's eyes suddenly lit up, "That's great, nanone! With this, getting promoted to principal with a higher salary won't be a dream"

"Huh?" Principal Samejima raised his eyebrows.

Good guy, are you already thinking about the chair below my butt?

"Ah, no, I mean" Chronos realized that he had said the wrong thing.

Principal Samejima thought for a moment and said: "Chronos-sensei, after thinking about it, you may have been in our school for a short time. Being rated as excellent so quickly may not convince the public. Personally, I think you should postpone it for two years, leave the opportunity to other teachers first"

"Nani, why is this happening!?" Chronos felt like he was struck by lightning.

The so-called life may be full of ups and downs

"Ahem, let's get down to business." The principal, who managed to keep the chair under his butt, quickly changed the subject, "Mr. Yuei Vu, you said you have a task for us this time, right?"

"Well, I need to tell you something first."

Yuei Vu took out a photo from the inner pocket of his jacket, and the heads of the principal and professor came together.

That was a group photo of Yuei Vu and a very cute girl. She was not tall, and her small head could only reach Yuei Vu's nose. But due to the proportions of her body, her legs appeared very slender and the shape of her legs was perfect.

She had eye-catching long silver hair, and her face was slightly stiff in expression, but her cheeks were rosy, with a slight green temptation, like an unripe apple.

In the photo, she had her hands wrapped around Yuei Vu's arms and her head resting on his shoulder, like a small pendant.

"Oh, it's Miss Chika." Principal Samejima nodded while holding his chin.

Chronos also nodded: "You two look very affectionate, nanone."

Yuei Vu glanced at the photo in his hand, realized something was wrong, and took it back into his coat at the speed of light.

"Sorry, I took the wrong one. I was talking about this one." He took out another photo.

Chronos x Samejima, who was inexplicably fed dog food: ""

However, Yuei Vu acted as if nothing had happened.

This was the secret technique he learned from President Kaiba

As long as I am not embarrassed, the embarrassed one will be others.

"Ahem." Principal Samejima took the photo, and Chronos' head poked over.

This time it looked like an ID photo. In the photo was a little boy wearing a black jacket. He had eyes as pure and flawless as flowing clouds, as clear as day, had perhaps the purest and brightest smile in the world, and had an unforgettable jellyfish head.

"Oh? Isn't this Judai?"

After all, Principal Samejima had met Judai in the dojo back then, and he was quite impressed. Although they hadn't seen each other for many years, he still recognized him at a glance.

But Chronos didn't know Judai yet: This boy looks like an idiot, nanone.

Principal Samejima glanced sideways at him and said leisurely: "This is the disciple whom Mr. Yuei Vu personally selected. His name is Yuki Judai."

"Mamma Mia!" Chronos exclaimed, "Mr. Yuei Vu, I don't know"

"It's okay." Yuei Vu waved his hand magnanimously, "You are telling the truth."

After all, he does look like a typical passionate idiot

"So, Judai should be almost fifteen years old this year?" Samejima began to recall, "It's almost time for him to enter school."

Its interesting to say that although Yuki Judai has not yet entered school, he was already a legend in Duel Academy.

This was thanks to Ryo Marufuji, who entered the school two years earlier than him.

The skills Judai showed in the Cyber Dojo back then really shocked the kid Ryo Marufuji, who had not yet mastered the art of divine drawing at that time. Since then, Marufuji Ryo has regarded the jellyfish head, who was two years younger than him, as a powerful opponent on the road to cultivation, an opponent worth pursuing.

Not long after that, Ryo Marufuji mastered the skill of divine drawing to a great extent, and he was so good at playing the 502 secret skill. When needed, he could accurately draw out three Cyber Dragons and one Fusion spell from the forty-card deck with just one draw. Its accuracy was enough to make most card players exclaim that the deck was not shuffled.

With such a talent, Ryo Marufuji naturally attracted widespread attention not long after entering the academy. Soon he became the leader of the entire school, favored by countless teachers, worshiped by all students, and was even given the title "Kaiser" to match his current status.

Of course, these were all titles placed on him by outsiders. Rto himself has never been proud of it. Instead, he only said to everyone who praised his talent that it was nothing.

"There are always people better than you in the world", this is the truth he liked to talk about most. He often told everyone that there was a junior boy outside who was born with an unparalleled talent. Starting with Heavenly Hand was a common occurrence. Drawing a divine card against the wind was like eating and drinking. It was destined to fight back in desperate situations.

"I think he should be about the same age." Marufuji said with emotion a few days ago, "It should be almost time to enter school."

But Ryo Marufuji had a delicate mind. He knew that Judai might come to this academy one day, and his excessive reputation might become a burden to the other party. Therefore, he never mentioned this junior student's name to anyone once.

Therefore, although few people in the academy have heard of the name "Yuki Judai" rumors about him have been everywhere in the world.

"Speaking of which, this month is the freshman selection exam." Principal Samejima thought, "Did Judai also apply for our school?"

"That's right." Yuei Vu said.

"That's easy to say." Principal Samejima felt that he understood, "I will go and say hello to the admissions department later and ask them to take special care of you."

With Yuei Vus status in this school, it was human nature to use a back door to create convenience for his only student. Principal Samejima said that it was completely understandable.

When the time comes, I will ask the teachers in charge of the assessment to go easy

"You may have misunderstood, Mr. Principal." Yuei Vu smiled, "Actually, I said that what I wanted to ask for was that Professor Chronos would personally serve as the examiner of Judai."

"Eh?"

Both of them looked confused.

Chronos was the top professor in the entire academy, and he also belonged to the practical type. Logically speaking, elite teachers like him would not serve as examiners for freshmen, as that would be too cruel to the freshmen.

"And there is no need to configure a deck dedicated to examiners." Yuei Vu said, "Just use the deck you just used, teacher."

Chronos blinked, thinking that he might have heard wrong.

Using his Ancient Gear deck against students?

Why dont you ask students to prove the limit theorem of a sequence in the primary school entrance exam paper?

People are looking for a relationship just to go through the back door. When you are looking for a relationship you are probably not using Rashomon, right?

"It's okay" Chronos responded vaguely.

"By the way, you should also take these cards. You might be able to use them when the time comes."

Yuei Vu handed Chronos a few cards. Chronos took a look and found out that they were something like "Chthonian Polymer", "Non-Fusion Area" and the like

Chthonian Polymer (Trap Card): Activate only when your opponent Fusion Summons a Fusion Monster. Tribute 1 monster to take control of that Fusion Monster.

Non-Fusion Area (Continuous Trap): Neither player can Fusion Summon.

"What Judai is best at is Fusion Summoning. These cards should have their use." Yuei Vu said seriously.

Chronos: ""

He wanted to ask: Is this jellyfish head really your apprentice?

Why do I feel like you want to torture him to death

Chapter 719: Are You Waiting For Someone?

After explaining what he had to do and declining Principal Samejima's invitation to have lunch, Yuei Vu left.

But he did not leave the island. Yuei Vu walked out of the office, left the college building, and walked around to the woods behind the building.

Chika was already waiting there.

The girl stood among the mottled tree shadows, slim and graceful, her figure much more mature than a few years ago. She wears a blue and white striped uniform on the upper body the style was quite similar to the "Obelisk Blue" student uniform in the animation, and denim shorts on the lower body.

The girl's legs were slender and her skin was fair and flawless. The shape of the legs was just right, well-proportioned but not lacking in a little voluptuousness, the bones and flesh were evenly balanced, and the lines were smooth and elastic.

She's simply a goddess for those with leg fetish.

Even Chika-chan's airport chest was wider and more spacious than before, and it looked like there were signs of expansion.

It could only be said that although she had such a pair of good legs, Chika-chan's talents in other parts may be average.

Well, that's right, it's about playing cards.

"Have you been waiting for a long time?" Yuei Vu stepped forward.

"No."

Chika shook her head, her expression as calm as ever. She hugged one of Yuei Vu's arms and tilted her head to rest on his shoulder.

"Eating?" Yuei Vu asked.

"Eat."

"Should we go to the cafeteria of the dormitory to eat?"

Obelisk-Blue was the best dormitory area for studying, and its living facilities were the most luxurious. The cafeteria not only has rich dishes but also generous portions. Whether it was "Ra Yellow" or "Osiris Red" dormitory, it could not be compared.

Yes, this school has a total of three major dormitories, which were divided according to the names of the legendary three Egyptian Gods.

Initially, according to the idea of investor Seto Kaiba, "Obelisk Blue" was the most advanced dormitory, specially designed to accommodate top students, similar to the "Rocket Class" in some high schools.

"Ra Yellow" accommodated students with average levels and relatively balanced in all aspects, corresponding to the traditional "Parallel class".

And "Osiris Red" was the concentration camp for poor students.

From the division of the dormitories, it could be seen that President Kaiba carried personal opinions. On the surface, Kaiba appeared to be a very informal tyrant, but in fact, only those who knew him well knew that this guy actually had a narrow-minded side.

Obviously, because "Obelisk" was the Egyptian God he once held, he deliberately made this academy the best, and the other two Egyptian Gods had to step aside for him.

When this academy was built in the animation, the three Egyptian Gods had all gone to the underworld with the Pharaoh, so it didn't matter what he did. However, these three guys still had vests in Yuei Vu's hands now.

When the plan to divide the status of the three colleges was first proposed, these three spirits almost made Yuei Vu's head spin.

Most duelists only knew that the Three Egyptian Gods were the supreme beings in the world of dueling monsters, but they didn't know that the three were all arrogance.

Especially the sky dragon and the sun god, each one had a bigger complaint than the other.

Ra: Obviously I am the strongest Egyptian God, so why is that stupid giant on top of me?

Osiris: I dont care, I dont care, I dont want to be the one at the bottom!

Obelisk: (Although he did not speak, he was secretly happy)

Being annoyed so much by these three ancestral-level spirits, Yuei Vu had no choice but to find the president and suggest that he revise the academy's grading system.

Yuei Vu's reason was that dividing students into three, six, or nine grades may be detrimental to cultivating diverse duelists, so he suggests that the academies can be divided based on the differences in duelist styles and personalities, rather than who was better than anyone else.

At that time, Kaiba rolled his eyes at Yuei Vu and snorted.

"It's not impossible to modify this proposal." He said coldly, "But"

As he said that, he showed the Duel Disk.

"Come on! Yuei Vu! If you can beat me, you have the final say today!"

""

Therefore, in principle, the status of the three major dormitories that you see today was equal, and there was no distinction between superiority and inferiority.

"Let's go to the Osiris Red dormitory. There are fried shrimps there today." Chika said, "I'm a little tired of eating the dishes in the Obelisk Blue dormitory these days."

Fried shrimp?

Speaking of the fried shrimp in the red dormitory, Yuei Vu couldn't help but think of his cute jellyfish-headed student first.

He remembered that Judai loved the fried shrimp in the red dormitory the most in the anime. Every time he had fried shrimp, he was as happy as if he was celebrating New Year's Eve.

Thinking of this, he couldn't help laughing.

Chika is really similar to Little Jellyfish in some aspects

"What are you laughing at?" Chika tilted her head.

"It's nothing. Okay, let's go to the red dormitory." Yuei Vu also followed her wishes.

Chika had just graduated from college and was now an intern assistant in the infirmary of Duel Academy. She would become a full-time employee in two months.

What? You said that Chika is not so good at playing cards, why can she apply for a position at Duel Academy even if it's just a school nurse?

This is a long story.

The day of the job interview.

Chika walked into the room. The interviewer was a teacher wearing an Obelisk Blue uniform. He had a pair of glasses on the bridge of his nose and looked very friendly with a smile.

The interview teacher took Chika's resume, glanced at it briefly, and put it aside. It seemed that he didn't intend to take a serious look at it.

He smiled kindly: "Is it Miss Chika?"

"Yes." Chika bowed, "Hello."

"You're welcome, just be casual." The interviewing teacher smiled and said, "I heard that Mr. Yuei Vu works in your card store?"

Chika shook her head: "That was a long time ago."

"Ah?" The interviewing teacher was stunned, "Then your relationship"

"It's nothing special"

The interview teacher's kind smile gradually disappeared, he cleared his throat, adjusted his glasses, and picked up the resume he had thrown aside.

"I'm just his girlfriend." Chika finished the second half of the sentence.

The girl felt that after so many years of perseverance, she had almost succeeded or at least it was close.

At least when she boldly said this in front of Yuei Vu, he didn't refute it.

The interviewer's hand shook violently and his resume floated to the ground. He hurriedly picked up his resume, adjusted his glasses, and regained a spring-like smile on his face.

"You are accepted." He said with a smile, "We are in need of talents with excellent professional knowledge like you."

Chika: ""

After that, Chika was assigned to be a teacher in the health room.

When Yuei Vu heard about this, he didn't know whether to laugh or cry.

However, Chika majored in a related major at university and is more than qualified for this position.

And she was better at caring for others than before.

""

Since the peak meal period had not yet officially arrived, there were not many people in the cafeteria.

Chika was preparing food in front of the window, while Yuei Vu went to line up to get them two drinks.

After preparing two meals, Yuei Vu hadn't come back yet, so Chika took the dinner plate, found an empty table, and sat down.

"Eh? Chika-chan? What a coincidence, you are also eating in the cafeteria of the red dormitory today?"

Chika turned around following the sound, and what appeared in front of her was a tall woman with long fiery red hair, and a mind that could make Chika dizzy.

"Ayukawa-sensei?"

Emi Ayukawa, also a school nurse, was Chika's senior.

Ayukawa asked: "Do you occasionally come to the Osiris Red dormitory to change the food?"

"Uh-huh."

She smiled: "Then it seems that we thought of it together."

Ayukawa sat down with the plate but soon noticed another plate in front of Chika.

"Are you waiting for someone?"

Chika's face turned red briefly.

"My boyfriend."

Chapter 720: Being Fed Dog Food

Ayukawa Emi's eyes lit up, and she held her breath for a moment and lowered her voice: "You mean Mr. Yuei Vu? He is here today?"

Everyone in the academy knew that Yuei Vu, their honorary principal, had rarely been seen in this school since he took office.

"Yeah." Chika nodded.

Ayukawa suddenly blushed.

"Oh my God, Mr. Yuei Vu I have never seen him with my own eyes." She held her breath and quickly began to adjust her clothes and hairstyle, "What do you think of my image?"

You know, I am a fan of Mr. Yuei Vu. Is he as handsome as the rumors say? "

Chika: ""

"Okay, just kidding." Ayukawa smiled, "It looked like someone was wary of me poaching her boyfriend"

They were very familiar with each other. Emi knew that Chika usually had such an expression, which made her find it more interesting to tease Chika.

"Hey, Chika-chan, you chose papaya again today."

Emi showed a sly smile, and her eyes glanced across the girl's chest intentionally or unintentionally.

"It looks like someone cares about it~"

"Nono." Chika looked away, "I just like to eat."

"Would you like me to recommend you a set of breast massage tips? I have a whole set of books, limited edition. They are very effective."

Emi said as if to prove her statement, she proudly straightened her body without hesitation.

"No need," Chika said firmly.

After pondering for two seconds, she secretly glanced at Emi and couldn't help but ask in a low voice: "Is it really effective?"

Meihui laughed out loud: "Of course, sister, can I still lie to you? I will bring it to you tomorrow."

As she said that, she smiled mischievously: "I heard that it would be better to have someone else help with the massage. Do you want to consider asking your boyfriend?"

Chika blushed, picked up the plate, and stood up as if ready to leave.

"Okay, sister is wrong~ Just kidding." Emi pulled her back and stuck out her tongue.

Chika sat back at the dining table, looking as if she was angry and silent, but she couldn't help but have wild thoughts in her little head.

She felt that this proposal might not be impossible?!

Emi noticed that before Chika moved, she was picking up the green peppers from Yuei Vu's plate one by one towards her.

"Huh?" Emi was confused, "I didn't realize you loved green peppers so much before."

"I don't like to eat green pepper." Chika's face was expressionless.

"Then why?"

"Because Yuei Vu doesn't like eating it either."

Emi: ""

"Ah." Chika suddenly thought of something and turned around to explain to her seriously, "But don't tell Yuei Vu. He doesn't know that I don't like green peppers."

Emi: ""

The old maid Ayukawa Mie, who had a stiff expression, finally realized her stupidity until this moment.

Fuck, what kind of nerves did a Christmas cake like me have three have to eat at the same table with a couple?

Is this really rice?

I was caught off guard and stuffed a mouthful of dog food into my mouth. It was so salty.

Could this be the so-called "good dogs never wait for people to feed them, they find their own food and sleep on their own"?

The rice on the plate suddenly no longer smells good!

Emi had a stiff face, took a few bites at random, and stood up with the plate in hand.

"I've eaten."

"So fast?"

Emi didn't say anything, she just walked away with the plate in her hands.

When Yuei Vu came back with drinks, he only saw her retreating back. He turned his head and asked Chika: "Your colleague?"

"Yes. Emi-senpai. I have mentioned her to you before."

Chika took the soft cup of milk tea from Yuei Vu and looked at the label on the cup.

Pearl milk tea, iced and 50% sugar, her favorite flavor.

Chika held the soft cup with both hands. Although the milk tea was iced, she only felt warm in her heart.

He remembers my taste!

"Ayukawa Emi"

Yuei Vu was also somewhat impressed by this name.

She was the head nurse of Duel Academy, and the head of the "Obelisk Blue" dormitory. In the GX animation, she was a marginal supporting character whose name could not be found in the character list, at least she still had a name and a surname.

Yuei Vu had an impression of this character because she did have a card game in the original work.

When the entire Duel Academy was transferred to another dimension by Yubel's power, and a large number of students were infected and turned into zombies

That's right, it's zombies.

It's just that the zombies here may be different from the zombies in the traditional sense in "Resident Evil" and "The Walking Dead". Even the zombies in the GX animation were very Yu-Gi-Oh they were all card-playing zombies.

People who lost in card games would turn into zombies, and those who become zombies will only think about catching people and playing cards, and they would never tire of it.

After this beautiful and pitiful teacher Emi was breached in the infirmary, she was forced into a corner by a large group of tall zombies, and took turns playing cards. Eventually, she was exhausted and degenerated. Later, she also became a card-playing zombie. Then she fought against Yuki Judai

Because the plot was relatively crude, Yuei Vu still has an impression of it.

Yuei Vu glanced at her dinner plate: "So many papayas?"

Chika's face froze, and she suddenly began to be vague: "I'm not, I don't have it, I don't need a massage"

Yuei Vu: "?"

What did she say? It's like my ear is blocked and I can't hear clearly

What does it have to do with massage?

Chika began to change the topic: "By the way. Speaking of which, Yuei Vu, you seem to have been going to Kaiba Corp more frequently recently"

"Is that so?"

"And you've been going to the Industrial Illusions more recently." Chika said seriously, "You have stocked up on a lot of new cards, a lot of cards that you don't plan to use."

Yuei Vu smiled: "Oh? You observed it very carefully."

"I also saw that you have been refining those things called spiritual weapons' these days, all kinds of weird ones."

Chika stretched out her white little hand and made a gesture.

"And the lotus leaf-like decoration on my neck looks so silly."

Silly? That's right!

"Preparing to sell." Yuei Vu said.

"Would anyone buy this kind of thing?"

Chika tilted her head, feeling that she couldn't imagine someone wearing something like that around their neck.

If anyone buys this kind of thing, aren't they out of their mind?

Then she remembered that many years ago, when she was still in the card shop, the screwballs wandered around the shop all day long, wearing strange headgear and accessories, singing and dancing

To be honest, Chika still misses those idiots sometimes.

For a while after they left, Chika still felt strangely uncomfortable.

"Ah." Chika thought of something, "Those people Yuei Vu, you said before that they were duelists from other dimensions. Are they coming back?"

"oh?"

Yuei Vu glanced at her and nodded slightly.

I can't tell, but Chika-chan turns out to be quite sensitive.

She actually guessed all this.

"Yes they're about to come back."

As Yuei Vu said this, he couldn't help but open the system panel and glance at the crystal inventory, which had not increased much in the past few years.

Then he couldn't help but smile like an old farmer.

Finally there are leeks to harvest again.

And this time, he had other plans for the screwballs.
