

## I Play Yu-Gi 761

Chapter 761: I Want To 1 vs 2!

The Labyrinth Brothers' faces darkened.

How did this fan girl talk? Does it imply that we are losing our hair?

This is our hairstyle. Do you understand the hairstyle?

President Sandbag was still confused: "Labyrinth Brothers? Who? Why didn't I have any impression?"

"No way, President, haven't you seen the original work?" Coke Sprite said, "It's the two bald heads who were crushed by Muto Yugi in the Duelist Kingdom, and then somehow became legendary duelists!"

Labyrinth Brothers: ""

Although its true, please dont make it sound like that, okay?

Besides, what does it mean to be crushed? Please respect the facts, okay?

After all, we managed to bring Muto Yugi's LP down to the state of a candle in the wind when he printed a Fusion monster to counter-kill us!

Being defeated by printing cardscan that be called a loss?

Seeing that President Sandbag still had an expression that said "there are such two guys" on his face, Coke Sprite couldn't help but feel unbelievable: "President, you really haven't seen it, have you? Look at these two big braised eggs, the image is quite distinct, right?"

President Sandbag held a different opinion: "No, no, the braised egg should be Nick Fury. These two should be considered boiled eggs at best."

Coke Sprite said thoughtfully: "You are right."

The blood pressure of the Labyrinth Brothers soared rapidly, and veins protruded on their bald foreheads.

What's going on with these two? Are you here to cause trouble?

At this time, Sprite's new student Tenjoin Asuka and her good sisters Junko and Momoe who were in the same dormitory happened to be passing by in the forest.

"Sensei?" Asuka stopped and noticed Coke Sprite who was having a heated discussion with President Sandbag about "braised eggs or boiled eggs".

"Eh? Asuka? What are you doing here?" Sprite turned around.

"We were going to the canteen"

"Hey, you're actually a teacher from the academy? That's easy." Labyrinth Brothers looked at each other and smiled, "Since you doubt our strength, how about testing it yourself as a duelist?"

Just in time, the two of you will fight against us brothers in a team duel. "

Coke Sprite and Just A Sandbag lowered their heads in synchronicity.

Because they received the prompt to trigger the side mission at the same time!

Good guy, the rewards for such a card game seem to be quite a lot.

"Ah!" Asuka's good friend Junko noticed the two bald heads at this moment, "Are these two could they be legendary duelists?"

The Labyrinth Brothers were recognized again, and they couldn't help but raise their tails and start posing.

Mei: "Wandering Guardian!"

Ky: "Labyrinth Brothers!"

Mei: "As long as we brothers work together"

Coke Sprite interrupts the chant: "Your head can be a lightbulb!"

The Labyrinth Brothers almost went berserk.

You cant get over this hair problem, can you?

After quickly studying the mission rewards, Coke Sprite and Just a Sandbag got together and started discussing and communicating.

The mission stated that the duel was voluntary, and they could either refuse the duel or specify the duel mode. They could either choose to accept the challenge for a 2-on-2 team duel, or they can propose a one-on-one duel with the opponent considering the opponent's status as "legendary duelists", there was a high probability that they would accept it.

The amount of rewards would be determined based on the comprehensive evaluation score of the player's performance in actual combat. The better the performance, the higher the score, and the better the reward.

And if you wanted to be bold and took a chance to maximize the rewards

"President." Coke Sprite volunteered, "How about I go alone?"

If one player could single-handedly defeat the two brothers, the mission reward could be maximized.

Although the Labyrinth Brothers were just two novices in the original work, so the first-year Judai, even with the load Marufuji Sho, could win, these two still held the title of "Legendary Duelists". If she could defeat them both in a 1 vs 2 battle, she might be able to get rich right on the spot!

President Sandbag pondered for a moment: "Are you sure?"

"Conventional means may not work."

In a one-on-two situation, there was a huge card gap disadvantage. It was obviously unreliable to use a normal deck to defeat two people.

But Coke Sprite changed the topic: "But if I use that deck"

"You want to use that deck'?" President Sandbag looked surprised, "But isn't that deck"

"There is no other way." Coke Sprite looked serious, "Life is a gamble. Maybe there is a chance? If it succeeds, it will be a big profit!"

They were speaking far away from the Labyrinth Brothers, and the two brothers couldn't hear what they were mumbling. But Asuka next to her heard it clearly.

Asuka's thoughts moved slightly after hearing this.

That deck?

The girl quickly imagined a traditional story about "a forbidden card set that was self-sealed by the teacher because it was too powerful."

Is it possible that today we will have the opportunity to see the true strength of our mentor with our own eyes?

However, Asuka didn't know that the last part of the sentence that President Sandbag swallowed but didn't say was

Isn't that deck a gimmick one?

Is it really reliable to do the mission with a gimmick deck?

But they finally reached an agreement.

Coke Sprite stepped forward and said: "I accept the challenge. But we won't go up together. I'll beat you two by my own. We'll use Battle Royal rules. In each round, you two will have one turn, and I will have one turn. Any objection?"

As soon as these words came out, everyone present could not help but gasp.

So courageous!?

Junko covered her mouth: "The opponent is a duo of legendary duelist! Asuka, is your teacher very strong?"

"I don't know." Asuka shook her head, but couldn't help but smile expectantly.

Her breathing gradually became faster, and her chest rose and fell.

She had a hunch that her teacher might be very powerful!

"Our brothers have never encountered such an arrogant opponent. It's interesting." Ky smiled and looked sideways at his partner beside him, "Brother, what do you think?"

"Since the other party said so, I naturally have no objection." Mei chuckled.

"Duel!" x3

Mei, LP 4000

Ky, LP 4000

Coke Sprite, LP 4000

"I'll make the first move, draw!"

Coke Sprite drew the card and unfolded her six cards in her hand with great anticipation, her breathing almost stopped

Winning or losing almost depends on this!

This was the specialty of the gimmick deck. If you didn't draw the key card player in your starting hand, you could basically surrender directly by overturning the cards. However, if you had a Heavenly Hand, the opponent may not even have time to play out the cards. Winning a duel could make the whole day happy.

However, if she wanted to withstand the disadvantage of double card difference and win a miraculous victory, a gimmick deck was the best option for Sprite!

However, when she unfolded the six cards in her hand and quickly scanned them with her eyes, she couldn't help but freeze in place with a somewhat stiff expression.

After a long silence, she took out a card.

"Set a card I end my turn"

Mei:"?"

Ky:"?"

That's it?

Seeing Coke Sprite's reaction, President Sandbag couldn't help but his expression twitched.

This expression is it a brick hand accident?

Chapter 762: Sending Warmth To The Opponent

Coke Sprite looked at the cards in his hand and felt a little bad.

She felt that this duel might be the end of her

Junko was a little confused and tugged on the arm of her good friend Asuka: "Hey, is this your master's tactic? Why doesn't she summon any monster?"

Asuka was also a little dazed: "It should be a tactic, right?"

*Tactics my ass!*

Coke Sprite's situation was simply an example of brick hand. None of the six cards in her hand could be used.

The Labyrinth Brothers didn't understand what was going on, but they did not relax their vigilance.

First of all, it's Mei's turn. Here he directly summoned a "Jirai Gumo". Although it was Level 4, it had an attack power of 2200 points, which was very terrifying.

Then he set a card and ended the turn.

The next turn to the younger brother's Ky, who took out a "Kaiser Sea Horse" first. Although it looks like just a Level 4 monster with an attack power of 1700, you should be able to tell from the name that this monster was extraordinary.

"Sea Horse" was actually pronounced as "Kaiba" in Japanese. The name of this humble monster actually contained the name of two strong men two generations of Yu-Gi-Oh! animations. It was really terrifying.

Then Ky activated the Spell Card "Tribute Doll". He used the "Jirai Gumo" on his brother's field as a sacrifice and Special Summoned the level 7 monster "Kazejin" in his hand.

The demon god rose from the ground, with a big word "Wind" printed on his chest, his arms are strong and powerful, and green storms formed around him!

Kazejin, ATK 2400

The little girls who were watching couldn't help but exclaimed: A monster with attack power of 2200 and a monster with attack power of 2400 come up!

They are legendary duelists after all!

But it's not over yet, he followed up with the Spell Card "Dark Designator", which could declare 1 Monster Card name. If the opponent had that card in the deck, it could be directly added to the hand.

The name he named was "Sanga of the Thunder". As a partner who knew each other well, it was natural for his elder brother to have this card in his deck. So Labyrinth Brothers accurately retrieved "Sanga of the Thunder" without spending a single card.

The little girls were amazed again.

That's awesome. Is this the essence of a team duel?

It can actually help teammates search accurately! It's so powerful!

But Momoe also quickly noticed the reaction of Coke Sprite: "But you see, Asuka's teacher's reaction is also very calm!"

You think it's just a small scene for a duelist of her level? She must have a countermeasure already! Junko also said.

Coke Sprite: It doesn't matter anymore.JPG

Rather than saying that she was confident, it was better to say that her current mentality was "a dead pig is not afraid of boiling water". Anyway, she felt that she was already 80% gone.

Due to Battle Royal rules, no one can attack in the first turn. Ky smiled, Then I end my turn. It's your turn, miss.

"Oh."

Coke Sprite regained her fighting spirit.

The reason why she said she wanted to 1 vs 2 was not without reason.

Well, the main reason was because of the generous rewards, but there was actually another reason.

Because according to the Battle Royal rules, all players could not attack in their respective first turn.

This meant that even if there were problems with the starting hand, she still had a chance to draw another card to break through the situation!

If this was the normal rules of one-on-one, if you set a card with an unknown meaning and then directly passed turn like Coke Sprite, you should be dead by now. But thanks to the Battle Royal rules, she has one more chance.

This time the card draw can really determine the outcome.

Draw!!!

YaDaZe (successful)!

Then the moment she saw the card in her hand clearly, Coke Sprite instantly regained her highlight.

*Fuck! A divine draw!*

*God bless me!*

The card drawn this turn immediately gave her hope!

So she naturally had no hesitation here and played this card directly

"I normal summon The Agent of Creation Venus!"

The Agent of Creation Venus, ATK 1600

The effect of Venus: I can pay 500 LP to special summon 1 Mystical Shine Ball from my hand or deck! I used this effect thrice!

Coke Sprite, LP 4000 LP 3500 LP 3000 LP 2500

Mystical Shine Ball, ATK 500x3

Then activate the Spell Card White Elephant's Gift! Send 1 face-up non-Effect Monster I control to the GY; draw 2 cards! I send the Mystical Shine Ball to the graveyard, and draw two cards!

The sacred sphere turned into a golden light point and disappeared, and Coke Sprite's hand was replenished.

Spell Card Into the Void! If I have 3 or more cards in my hand, draw a card from the deck. However, at the end of the turn, all cards in my hand must be discarded!

The Labyrinth Brothers were shocked at the same time: "Are you discarding all the cards in your hand and not going to the next turn?"

I activate another White Elephant's Gift! Send the second Mystical Shine Ball to the graveyard and draws two cards!

I activate the third White Elephant's Gift to draw two cards!

The story of Coke Sprite started to go on endlessly. Watching her draw one card after another from the deck, and the thickness of the deck gradually decreased, although they didn't know what she was going to do, Labyrinth Brothers began to faintly notice that something was wrong.

The two brothers looked at each other and saw a hint of comfort in each other's eyes.

*Heh, what are you afraid of?*

*Could she be able to kill both of us in one go?*

Although the luck was quite good, the card drawing engine of Coke Sprite is obviously far from enough to support the deck. But it was enough!

"Open the set card!" The set card in front of Sprite flipped, "Continuous Trap Bad Reaction to Simochi! As long as this card remains face-up on the field, any effect of increasing your opponent's Life Points is changed to inflict the same amount of points in damage to your opponent's Life Points!"

Labyrinth Brothers: ?

*So what?*

Spell Card Upstart Goblin! Draw 1 card, then the opponent gains 1000 LP. Coke Sprite drew a card, Recover 1000 LP for Ky.

Of course, due to the effect of Bad Reaction to Simochi, this healing will become LP damage! "

Coke Sprite draws a card, and Labyrinth Brothers takes a mouthful of poisonous milk at the same time, directly draining him of 1,000 blood.

Ky, LP 4000 LP 3000

Ky curled his lips: "If it's only this extent"

The second Upstart Goblin! Sprite played the second card that she had already held in her hand. I will draw a card and continue to deal 1,000 damage!

Ky, LP 3000 LP 2000

The brothers gradually began to realize that something was wrong.

Ky: "Hey brother, is it"

Spell Card Rain of Mercy! Increase the Life Points of both players by 1000 points! I will restore 1000 LP to myself and Ky.

Of course, because of the Bad Reaction to Simochi, this still turns into harm! "

I will send warmth directly to the other party!

Ky, LP 2000 LP 1000

Coke Sprite, LP 2500 LP 3500

Ky's face suddenly changed: "Hey, this can't be"

Spell Card Soul Taker! Target 1 face-up monster the opponent controls; destroy that target, then the opponent gains 1000 LP! I destroy Kazejin and inflict another 1000 damage!

The menacing Wind Demon God was blown to pieces before he could make a move. The blood-returning effect was reversed again by the power of the "Bad Reaction to Simochi" and hit Ky's body head-on. Ky screamed "ahhhhhhhhhhhhhhhhhhhhhhhhhhhhhhh" and raised his head and was blown to the ground.

Ky, LP 1000 LP 0

Three little girls were all stunned.

Junko: "So strong!"

*So it turns out that cards can still be played like this?*

*In just one turn, she killed a "legendary duelist" instantly, and the opponent didn't even have the means to counterattack!*

*This is the first time I saw someone be healed to death!*

Set two cards, I end my turn!

Fortunately, Coke Sprite did not continue and directly declared the end of the turn.

Looked like she has exhausted all her moves.

Mei recovered from the shock and said coldly: "It seems that we underestimated you. But don't be complacent, even if you defeat my brother, you still have to face me!

My turn, draw! "

He glanced at his brother who had been beaten to the side and said: "Don't worry, I will not let you down. This is the power you entrusted to me!

The effect of Kaiser Sea Horse! This card can be treated as 2 Tributes for the Tribute Summon of a LIGHT monster!

I tribute the Kaiser Sea Horse!

This is the power entrusted to me by my younger brother

Sanga of the Thunder! ! ! "

Jumping lightning burst out, and the monster with the word "Thunder" printed on its chest broke out of the ground and landed on the field with a crash!

Sanga of the Thunder, ATK 2600

However

"Open the set card!" Coke Sprite waved her little hand, "Continuous Trap Dark Cure! When the opponent Summons monsters, they gain Life Points equal to half the ATK of 1 of the Summoned monsters!"

Nani!? Mei's expression was like being struck by lightning.

*Sending warmth again! ?*

*Stop! There is already too much warmth!*

*If you continue to send it, I will die!*

"Sanga of the Thunder's attack power is 2600, so you recover 1300 health points." Coke Sprite said, "But because of the Bad Reaction to Simochi', it will cause 1300 damage!"

Mei, LP 4000 LP 2700

Damn it, Mei gritted his teeth, But its still too early! In this turn, I will

"Open the set card!" Coke Sprite flipped over the last set card, "Trap Card Gift Card! The opponent gains 3000 Life Points!"

The expression on Mei's face froze instantly.

Seeing the beautifully packaged Gift Card trailing a fluorescent trajectory, he couldn't help but distort his expression, and he could only shout weakly

*Stop sending warmth! I'll be burned to death!*

*Being burn by healing cards, can you believe it?*

Uhhhhhhh!!!

Mei, LP 2700 LP 0

Asuka and her friends were stunned.

*So so strong! ! !*

Chapter 763: Asuka's Request

"The legendary duelist?"

In the principal's office, Principal Samejima's small eyes were filled with confusion.

"But as a student's opponent, wouldn't such an opponent be too much?" Samejima asked.

Although they had no idea that just ten minutes ago, the "legendary duelist" they called was being beaten violently in the woods behind the school

"I think there is no problem at all. The strength of Yuki Judai is obvious to all, and there are only a few opponents in the academy who can match his strength."

Professor Chronos said, paused, looked around a little mischievously, then leaned in front of the principal and lowered his voice: "Besides, that man' has also agreed."

The question involved Yuki Judai, and Principal Samejima naturally understood "that man" the professor referred to must be Yuei Vu, the real boss behind the scenes of the academy.

"He agreed?" Samejima raised his eyebrows.

"Promise personally." Chronos was very confident.

"Well in that case, I have nothing to say." Samejima nodded, "Then let's do it."

Professor Chronos left, and a few moments later a new visitor arrived in the principal's office.

This time it was Tenjoin Asuka who appeared.

Principal Samejima had a deep impression on this little girl. After all, her admission scores were extremely good, her dueling skills were among the top among the freshmen, and she was so popular among the students that it was difficult not to recognize her.

But today's Asuka seemed to be less ladylike and calm than usual, and she was a little anxious.

"Mr. Principal, I heard that the only targets for the punishment duel are Yuki Judai and Marufuji Shois it true?"

She had just watched and admired her mentor's gorgeous 1 vs 2 performance in the woods behind, and inquired about the Labyrinth Brothers' mission to land on the island. Naturally, she soon heard about it.

Asuka asked Coke Sprite if there was anything she needed to prepare for the punishment duel she was about to accept. Coke Sprite was stunned, and then immediately told her that she had nothing to do with the card game. The academy leaders had determined that only Judai and Sho would be punished this time

Now Asuka couldn't sit still.

It was obvious that she broke into the restricted area first and was taken hostage. Judai rescued her, but he actually had to bear the blame for her and was punished.

Asuka was a proud girl, and her self-esteem could not allow such a thing to happen.

"I was in that dormitory at the time, principal!" Asuka said, "Please punish me too!"

She knew that it would be useless to plead for Judai, so at least she wanted to bear the punishment together, even if it could only make her feel better.

Um? You said Marufuji Sho was also punished?

Asuka automatically ignored this little transparency

"Ah, this"

Principal Samejima scratched his bald forehead and sighed helplessly.

"I understand how you feel, Tenjoin-san." Samejima said, "But this is the decision of the upper management of the academy, and there is nothing I can do about it."

What? You said that as the head of a school, he doesn't even have any say?

Samejima said: What can I do?

The true boss of the academy, Seto Kaiba, personally named the person to be punished and that person happened to be the direct disciple of Yuei Vu, the other behind-the-scenes boss of the academy, the Duel King.

The bosses above were fighting, and he was just a little principal, pitiful and helpless, so what room could he have to intervene?

Asuka left the principal's office disappointed.

She stubbornly believed that Judai was in this crisis of dropping out of school because of her, but in the end she couldn't even stand beside him and fight side by side.

Could it be that because of her excellent admission scores, the college decided to exempt her from punishment?

Of course, the girl only saw the surface of things. Although she guessed part of it right, it was only a small part.

First of all, the reason Judai had to face the so-called "crisis", strictly speaking, was not her responsibility. The reason why it became like this was purely because President Kaiba showed up halfway

Secondly, the so-called "crisis" did not exist at all. With Yuei Vu here, even if Judai lost the punishment duel, it was unlikely that he would drop out of school.

At best, it would only develop into the following situation.

"As punishment for violating school rules, Yuki Judai must be expelled!" President Kaiba went into battle personally.

"What if I disagree?" Yuei Vu stood up and spoke tit for tat.

"Hmph, I knew it. Yuei Vu, let our strength speak for itself!" President Kaiba took out the duel disk.

So in short, it was impossible for Judai to drop out of school.

But Asuka didn't know these inside stories!

It seemed that Judai was about to be punished, but Judai himself was not in a hurry. He still did whatever he had to do every day, and his teacher was not in a hurry either. Not counting Judai's roommate who was also involved, Asuka may be the only one who worried about him

"Yo."

Asuka walked out of the academy building, and was thinking thoughtfully as she walked when she suddenly heard someone next to her calling her.

She came back to her senses, and when she turned her head, she covered her mouth and almost said in surprise: "Mr. Yuei Vu?"

Yuei Vu smiled: "I just happened to pass by the principal's office. I heard from Principal Samejima that you also want to accept punishment?"

Asuka recovered from the shock of seeing the idol and nodded quickly: "Yesyes. Judai and the others"

"I understand, then go back and prepare yourself." Yuei Vu patted her shoulder, "Get ready to duel as Yuki Judai's partner."

"Eh?"

Asuka was stunned for a while before she realized what she was doing. She hurriedly bent down and bowed. The excessive movement even caused some violent movements in some parts.

"Thank you so much!"

Mr. Principal's words may not be very effective among the higher-ups, but this is the legendary first-generation duel king!

Although Asuka didn't know why a big shot of this level would pay attention to such a trivial matter, she knew that she was definitely safe now!

Yuei Vu sighed leisurely as he walked away.

To be honest, President Kaiba didn't care about school rules at all. He simply wanted to target Judai or Yuei Vu's students.

Marufuji Sho was simply a by-product who appeared in an unfortunate place at an unfortunate time.

To be honest, Yuei Vu didn't take the Labyrinth Brothers seriously at all. Back in the original animation, Yuki Judai was able to defeat these two rookies with the burden in the form of Marufuji Sho. Yuei Vu was confident that now his student could defeat them both in a one-on-two fight. Teammates? It doesn't matter at all.

Instead of bringing along this useless little brother, why not take advantage of this opportunity to increase the relationship with a beautiful female classmate

Yuei Vu came to Chika who was waiting for him to go to dinner not far away.

Chika held her arm and looked in the direction he came from while walking: "Is that the girl from last time?"

"Yes, she's called Tenjoin Asuka." Yuei Vu asked, "What do you think?"

Chika tilted her head and subconsciously imagined Judai and the girl together.

"Good."

After all, Asuka has an idol-like face, excellent grades, and excellent card skills, and she can also treat her friends sincerely

The only thing that made Chika feel uncomfortable was that there was too much fat in certain areas, which made her feel a little dizzy.

Such a nasty size at such a young age!

Chika thought for a while: "But have you ever felt that she looks a bit like that person?"

"Who?" Yuei Vu asked.

Chika thought about it carefully: "Well the one who dueled you before, the one who threw the dice in Battle City?"

"Jonouchi?"

Yuei Vu was stunned for a moment.

He thought about the handsome and unruly blond hair and eye color in the God of Gamblers, and then recalled Asuka's hair color and eye color

Wow, they are so similar!

If this wasn't nothing, Yuei Vu then thought of Asuka's biological brother, Tenjoin Fubuki, who was once known as the "King" in this academy. His ace monster happened to be the legendary rare card "Red-Eyes Black Dragon".

In today's world, which god's signature was the Red-Eyes Black Dragon?

This was quite a coincidence.

It's really hard to stop thinking about the relationship between these two siblings and the "legendary horse bone"

Chapter 764: Right Here?

In the end, the matter of forming a team for a punishment duel did not exceed Yuei Vu's expectations.

As mentioned before, the Labyrinth Brothers held the title of "legendary duelists", but they were just two second-rate duelists at best, not real masters. In the original work, Yuki Judai could win along with a loser like Sho, so it's not a problem here.

The duel process itself was relatively lackluster. The Labyrinth Brothers were pinned down with little room for fightback under the combination of Judai and Asuka. The two brothers experienced the sanction of "Justice Nether Hero" in a literal sense today. Their ace monster "Gate Guardian" was trapped before they could even stand firm.

The two were beaten by Judai and Asuka in a mixed match, and they were knocked down after three strikes and they even began to doubt life.

To be honest, the two brothers considered themselves quite knowledgeable in team duels. Although the title of "Legendary Duelists" was simply due to the beating they received at the hands of Muto Yugi, it was impossible to say that they had no strength at all.

As a result, they were invited to the Duel Academy. As soon as they arrived on the island, they were beaten up by a teacher who randomly appeared on the roadside and made fun of their hairstyle. When they got to the stage, they met two first-year students who had just entered the school. They were also tricked. Not to the north.

So the water in Duel Academy is so deep?

If you just grab any teacher or student who is so awesome, why are you looking for us two to do this?

The two brothers felt like two clowns at the moment, the kind that was watched by all the teachers and students in the school

"Very good!"

Judai happily grabbed the little hand of "good buddy" Asuka and gave her a high five.

"Asuka is indeed very strong!" He smiled.

"Hmm um," Asuka responded, her expression a little subtle.

"Ah, that's right." Judai seemed to have forgotten something, turned around jumped in front of the Labyrinth Brothers, and did a standard Yuki Judai pose, "Gotcha! That was a fun Duel!"

Labyrinth Brothers: ""

Taunting right at one's face is the most deadly.

The duel arena was bustling with activity, and everyone was still immersed in the "wonderful" duel just now after all, it was a student from their school who defeated the legendary master, and the teachers and students in the school also took glory in their faces.

It's like a classic proposition.

Our class president ranked first in grade = I am really awesome.

Until a sudden and inappropriate voice interrupted the cheers.

"How dare you call yourself a legend' with such a performance as a three-legged cat?" A cold and unceremonious voice sounded, "Stop laughing so hard! A duel with an opponent of this level can't prove anything, and it's completely meaningless!"

The loud voice echoed in the huge duel hall of the academy, and the noisy shouts suddenly stopped.

The Labyrinth Brothers suddenly became furious.

Their strength may not be very good, but after all, their status was still there. After so many years in the world, no one has dared to be disrespectful to them, let alone put such insulting comments on their heads.

Who dares to be so arrogant!?

The two brothers jumped up angrily, followed the voice, and looked towards the entrance of the duel field and then sucked in a breath of cold air at the same time.

Hiss~Seto Kaiba!

The two brothers immediately shrank their necks and sat down.

Sorry to bother you, it's okay.

Everything the boss said was right. JPG.

"Mama Mia!" Professor Chronos' nervous face in the stands looked more like a Pot of Greed, "Kaiba-sama has come here in person, nanone!"

Principal Samejima also came to greet him: "President Kaiba, you came in person today without notifying me in advance"

The principal was a little surprised. In the many years since the academy was established, President Kaiba has rarely visited the island in person in fact, in the original animation, Judai and the others were at the school for three years, and the president never came to the academy even once.

What kind of wind brought this top god here today?

Manjome in the audience looked around, wanting to say hello, but in the end, he held back and remained silent.

The time has not come yet.

He had to wait until he defeated Yuki Judai before revealing to everyone the fact that he was Seto Kaiba's student.

Kaiba glanced at the Labyrinth Brothers with disdain: "This kind of duelist who can't even win against a horse bone is not worthy of the name of legend'. Defeating such a weakling can't prove anything."

Samejima wanted to express a different opinion, but after thinking about it he still did not speak.

Then what should we do? I'm just a pitiful and helpless little principal who has no say in front of the big boss

Of course, another part of the reason was that he knew that there was no need to stand up for himself.

"This is not interesting, President Kaiba." A voice sounded from the other side.

Teachers and students followed the sound and couldn't help but once again contribute to global warming

His~ Duel King Yuei Vu!

Judai on the duel stage was still stunned: "Mr. Yuei Vu and President Kaiba why do they seem to be quarreling?"

He remembered that the teacher and the president were very close friends, weren't they?

"Silly boy." Yubel appeared like a ghost, "They are doing it for you."

"For me?" Judai was even more confused.

Yubel didn't explain anymore and just smiled proudly.

Ha, my Judai is indeed the best!

No matter which dimension you go to, you will always be the focus of attention from the strong!

A certain behind-the-scenes spirit once again fell into inexplicable obsession and intoxication.

"What the Duel Academy wants to cultivate is true duelists, the top warriors." Kaiba hummed, "If they are faced with some empty-handed losers, it will not be as effective as it should be."

Labyrinth Brothers: ""

So what? President, can you just hold back the mention of both of us

Yuei Vu looked at Kaiba with his eyes.

It sounds like that, but why haven't I seen you so concerned about students' education issues before?

Isn't it just targeting Judai?

To be honest, even though Yuki Judai from the future beat the president so badly that was six years ago!

President, you are going too far with your grudge, he is still a child!

"As long as we take care of the students' education, we will educate the best duelists." Yuei Vu said, "This is the responsibility of our teachers and my job, so I don't have to worry about it personally. .

Kaiba smiled and showed a "planned" expression, as if this unfolding was completely expected by him.

"Don't you want me to interfere in college affairs? Hum, that's not impossible. But"

Kaiba's eyes were sharp and he lifted the duel plate on his arm.

"But you must prove that you are competent with your strength. Come on, YueiVu! Duel!"

The whole place was in an uproar.

A duel between Duel King Yuei Vu and Seto Kaiba?

This was the showdown of the century!

Yuei Vu was speechless for a while: "That president, right here?"

Being defeated in public this isn't very good, is it?

Although he and Kaiba had sparred from time to time, they had never fought in public in the past few years.

The last time they faced off in public was many years ago. Countless viewers were also very curious about how the strength of these two legendary gods compares after so many years.

"That's right." Kaiba sneered, "Why, are you scared?"

"No then come on." Yuei Vu sighed and said, "But if I win, from now on student education matters will be handled by the college itself Does that sound fine, president?"

"Okay." President Kaiba agreed without blinking an eye.

Yuei Vu discovered that the president might not really be worried about "cultivating real duelists". It's possible that he just couldn't control his card addiction and urgently needed to find a reason to catch Yuei Vu to play cards

Chapter 765: The Strongest Evolved President!

"Duel!" x2

Kaiba, LP 4000

Yuei Vu, LP 4000

The news of the duel between Yuei Vu and Kaiba spread, and the whole island soon knew about it.

The leaders, teachers, students, various employees, and support staff of the academy all swarmed to the duel field after hearing the news.

Even some teachers who were in class temporarily decided to let the students out of the classroom when they heard the news and rushed to the venue with the students to watch.

This was a legendary duel!

Not only both sides were at the legendary level, but they were also the best among the best!

Ordinary people had no chance to come into contact with a duel of this level. No duelist could miss this opportunity to watch it live.

The players on the island were also very concerned about it although they had seen the duel between these two people before, it was version 1.0 that was, six years ago.

Who knows how far they have progressed now?

"I am the first to strike." Yuei Vu randomly got the first move, "Draw. I summon the Elemental HERO Bubbleman!"

Elemental HERO Bubbleman, ATK 800

"When Bubbleman is summoned, if there are no other cards on my field, draw two cards from the deck." (animation effect)

Yuei Vu drew two cards, added them to his hand, and then took out the other two cards in his hand.

Spell Card Polymerization! I fuse Elemental HERO Avian in the hand and Elemental HERO Bubbleman on the field.

The fusion condition is 1 Elemental HERO' monster + 1 WATER monster! Fusion Summon!

Emerging from the freezing abyss

Elemental HERO Absolute Zero! "

The ice broke out, ice crystals swept across the ground, and the plain white body broke through the ice, bathed in a luster as bright as a diamond.

Elemental HERO Absolute Zero, ATK 2500

As soon as Big Brother came out, the whole place was immediately in an uproar. Many people took out their portable devices to take photos and record screens.

Absolute Zero!

The strongest Elemental HERO owned by the legendary Duel King!

"

Set a card, I end my turn. Yuei Vu said.

"Humph, is this the same guy again?" Kaiba snorted disdainfully, "I've already figured out your depth!"

After all playing so many cards with Yuei Vu, Kaiba had long been no stranger to the big brother of Elemental HERO. Having been bombed a lot, he naturally developed his own set of strategies to cope with it.

That's hard to say, President. Yuei Vu smiled.

Kaiba narrowed his eyes: "My turn!"

This time he challenged Yuei Vu in public with great fanfare because he felt that this time was different from every time before!

He has just gained a brand new power the strongest power he has obtained through scientific research (printing) so far. He felt that this time would be his day of change!

He wants to trample the hateful Yuei Vu under his feet in front of everyone's attention!

"Activate the Spell Card The Melody of Awakening Dragon!" Kaiba said coldly, "Discard 1 card; add up to 2 Dragon monsters with 3000 or more ATK and 2500 or less DEF from my Deck to my hand.

Kaiba discarded a card in his hand, and two cards transformed from light blue data flow appeared in his hand.

Although Kaiba's design of "completely replacing cards with data" has not been widely promoted, now all the paper cards in the Duel Disk he used have been replaced by data. The cards he used for duels all came from the central database of Kaiba Corporation, and were directly transformed into the image of the cards through virtual images.

"I add these two dragons from the deck to my hand Blue Eyes Chaos Dragon', Blue-Eyes Chaos MAX Dragon!"

Blue-Eyes Chaos Dragon had 3000 ATK and 0 DEF. Blue-Eyes Chaos MAX Dragon had 4000 ATK and 0 DEF. Both of them met the search conditions of "The Melody of Awakening Dragon".

The Ritual Spell Advanced Ritual Art is activated! Kaiba shouted, Ritual Summon any 1 Ritual Monster by sending Normal Monsters from my Deck to the GY whose total Levels equal the Level of that Ritual Monster!

I sent the Level 8 Blue Eyes White Dragon from the deck to the graveyard! Ritual Summon!

The Dragon of Light gained the power of chaos and shattered everything

Blue-Eyes Chaos Dragon! ! ! "

As if the dragon's roar came from outside the void, the metallic armor wrapped the dragon's noble body. All the lights on the armor flashed a light blue luster at the same time. The swing of the metal wings and head made a rustling sound of steel friction.

Blue-Eyes Chaos Dragon, ATK 3000

But Kaiba still didn't stop: "Then I activate the Ritual Spell Chaos Form"! Ritual Summon any Chaos' Ritual Monster, by Tributing monsters from my hand or field, whose total Levels exactly equal the Level of that Ritual Monster!"

After a pause, he added in a deep voice: "Also, when using the Blue-Eyes White Dragon' as a ritual material, the Blue-Eyes White Dragon' in the graveyard can be banished from the game to replace the sacrifice!"

The "Blue Eyes White Dragon" that had just been accurately sent from the deck to the graveyard quickly popped up again, turning into a stream of light blue fluorescent data at Kaiba's fingertips and dissipating.

Ritual Summon! Kaiba shouted, The chaotic posture of the dragon of light with ultimate destructive power

Blue-Eyes Chaos MAX Dragon! ! ! "

There was turmoil like the opening up of heaven and earth, and the floor tiles of the duel venue cracked under the impact of the three-dimensional image effect. The sci-fi dragon in blue steel armor suddenly landed on the ground, surrounded by countless blue electric snakes, like an army obeying the command.

Blue-Eyes Chaos MAX Dragon, ATK 4000

The onlookers exclaimed in surprise.

Two super trump cards were called in the first round!

Blue-Eyes Chaos Dragon and Blue-Eyes Chaos MAX Dragon, either one was enough to directly kill more than 90% of the duelists in the field. To the audience, they were mythical beasts that could only be seen in dreams.

Bot Seto Kaiba actually summoned two of them in one turn!

One-Hit Man! Some players were also waving excitedly at the big brother of Blue-Eyes.

Damn, the president is so awesome. He accurately searched with his hand and used a white dragon as a sacrifice to pull out the two big brothers!

And the White Dragon is still sent from the deck

Sure enough, the president has not been idle these years!

"This time I am different from the past." Kaiba clenched his fist and said, "Take my soul attack, YueiVu! Today will be the end of the victory between us!"

Blue-Eyes Chaos Dragon, attack the Elemental HERO Absolute Zero! "

The Chaos Dragon's body spurs emitted sword-like blue light, and a rolling blue ball of light brewed in its mouth. Its metal neck swung as if it was about to throw the shining ball of light out of its mouth!

"At this moment, the effect of the Blue-Eyes Chaos Dragon!" Kaiba shouted, "The moment the Chaos Dragon declares its attack, I can change the battle positions of as many monsters the opponent controls as possible, and ATK/DEF of those changed monsters become 0!"

Countless electric currents erupted around the Chaos Dragon, beating like a dance! The lightning crackled and exploded like countless chains binding the hero's body. Absolute Zero's hands and feet were tied, and his body was trembling and suppressed to the ground, unable to move.

Elemental HERO Absolute Zero, ATK 2500 DEF 0

Also, Kaiba sneered, this turn, if this card attacks a Defense Position monster, inflict piercing battle damage!

All the teachers and students in the audience exclaimed again.

"Mamma Mia, doesn't it mean that as long as this monster attacks, it will definitely cause 3,000 points of damage?" Professor Chronos exclaimed.

"Not only that." Principal Samejima crossed his fingers and said, "President Kaiba's Blue Eyes Chaos Dragon' and Blue-Eyes Chaos MAX Dragon' both have the best immunity in the world of duel monsters. They can neither be targeted nor be destroyed by card effects."

"Mama Mia." Chronos thought about the situation when he faced the president, and couldn't help but take out a handkerchief to wipe his sweat, "Is this the true strength of the legendary duelist? It's really scary, nanone."

"Open the set card!" Yuei Vu waved his hand, "Trap Card Necro Fusion! Fusion Summon 1 Fusion Monster from my Extra Deck, by banishing Fusion Materials listed on it from my GY face-down, but it cannot attack this turn!

I remove Elemental HERO Bubbleman' and Elemental HERO Avian' in the GY from the game!  
Fusion Summon

Elemental HERO Great Tornado! "

Chapter 766: Are They Playing The Same Game As Us?

The hero slowly descended from the air, his cape flying behind him like a battle flag. The storm swirled and changed with his gestures, like countless elves swirling in compliance with orders.

[Elemental HERO Great Tornado, ATK 2800]

"The effect of the Great Tornado If this card is Fusion Summoned: Halve the ATK and DEF of all face-up monsters on the opponent's field!" Yuei Vu said.

The hero snapped his fingers, representing the turbulence of the wind element like a wild horse running wild. The strong wind seemed to tear off the roof of the arena, and even the two blue-eyed white dragons reinforced by exoskeletons were not immune.

[Blue-Eyes Chaos Dragon, ATK 3000 ATK 1500]

[Blue-Eyes Chaos MAX Dragon, ATK 4000 ATK 2000]

"Awesome response!" Gold medal commentator Misawa Daichi couldn't help but praise, "He is worthy of being the Duel King. He cleverly used the ability of the fusion Elemental HERO to weaken the power of two god-level monsters in one breath!"

"Huh, what a trick." Kaiba said disdainfully, "But because the number of monsters on your field changed, a Battle Replay occurred! Then I will attack again with the Blue-Eyes Chaos Dragon!"

The light ball brewing in the mouth of the Blue-Eyes Chaos Dragon disappeared briefly, and then became even hotter and shining! The roar of the dragon penetrated the sky, the dragon's head slowly swayed, and countless small parts deformed and folded.

"At this moment, the Blue-Eyes Chaos Dragon activates its effect again!" Kaiba said solemnly, "The moment the attack is declared, I can change the battle positions of as many monsters the opponent controls as possible, and ATK/DEF of those changed monsters become 0!"

The armor all over the dragon's body was activated, and it roared slightly with the engine power! A domineering force field erupted with the blue steel dragon as the center. It was a field bound by absolute power!

[Elemental HERO Absolute Zero, DEF 0 ATK 0]

[Elemental HERO Great Tornado, ATK 2800 DEF 0]

Chaos Dragon's target was still Absolute Zero. The terrifying blue shock wave easily tore the white hero's body apart. The hero's body evaporated in just an instant, and his tattered white cloak flew up in the blue energy storm.

[Yuei Vu, LP 4000 LP 2500]

Judai, who was watching from the sidelines, clenched his fist: "Very good! If Absolute Zero is defeated, his effect will cause all the monsters on the opponent's field to be destroyed instantly!"

"Little fool." Yubel in ghost form crossed his arms and reminded him behind him, "Those two dragons are not so easy to defeat."

Sure enough, the cold wave of ice left behind by Absolute Zero after his exit was seen pushing flatly toward the opposite field. However, the two dragons both roared lowly, and the mighty ice suddenly disappeared.

"Neither the Blue-Eyes Chaos Dragon nor the Blue-Eyes Chaos MAX Dragon can be destroyed by the card's effect." Kaiba clenched his fists powerfully, "After every duel, I will become stronger than before! This level of tactics has already been used against me. I don't fall to it anymore, YueiVu!"

Yuei Vu nodded: "The president has extraordinary strength and the speed of progress is unparalleled."

Anyway, I won't lose any money by saying a few nice words, but what if the president is in a good mood and gives me a salary increase?

"Huh, compliments are unnecessary. Take the move!" Kaiba waved his hand, "Blue-Eyes Chaos MAX Dragon, attack the Elemental HERO Great Tornado! Chaos Explosion!"

His pupils shrank, reflecting the arc and light radiating from the steel armor of Jilong, making him look as ferocious as a villain.

"It's your end, YueiVu!"

Many people among the onlookers have come to their senses.

"Blue-Eyes Chaos MAX Dragon I remember the effect of that monster is when attacking a monster in defense position, it can not only inflict piercing damage but also double the battle damage!" Misawa Daichi exclaimed.

The Blue-Eyes Chaos MAX Dragon's attack power remained at 2000, but the Great Tornado has been forcibly changed to the defense position by the "Blue-Eyes Chaos Dragon," and his defense power has been forcibly reduced to 0!

If the attack passed, this blow would directly cause 4000 points of damage!

"Mama Mia!" Cronos continued to cry, "Even if the attack power is completely halved, can you still complete an instant kill in one turn?"

Manjome was also impressed: "This is Kaiba-sensei's true strength"

Everyone was stunned.

It turned out that a duel could actually be so tyrannical!

This was Seto Kaiba, a duelist who pursued ultimate power and swept away any opponent with crushing combat power.

This legendary duelist's strength was not in the same dimension as theirs at all!

So the Duel King will be OTKed like this?

Yuei Vu calmly showed a card in his hand and stuffed it into the graveyard.

"Activate the effect of the Sphere Kuriboh' in my hand." Yuei Vu said, "When the opponent's monster declares an attack, discard this card, and change the attacking monster to Defense Position."

After a pause, he added: "This effect does not select a target to activate, so even the resistance of the Blue-Eyes Chaos MAX Dragon' cannot resist it."

The Chaos MAX Dragon's devastating impact swept forward and hit the small golden Sphere Kuriboh head-on. The impact of chaos came to an abrupt end. The powerful Blue-Eyes Chaos MAX Dragon was restrained by some seemingly irresistible force and had no choice but to fold its wings and lie down.

[Blue-Eyes Chaos MAX Dragon, ATK 2000 DEF 0]

With just one card, a small and inconspicuous Kuriboh no less, the offense of the Blue-Eyes Chaos MAX Dragon known as "One-Hit Man" was resolved on the spot!

Not only that but Chaos MAX Dragon was forced into the defensive state and its defense was only 0. This meant that in the next turn, it would be almost undefended and could be defeated easily!

The onlookers were the first to boo.

"The spherical form of Kuriboh is mighty!"

"Sure enough, a duel with the president will always involve Kuriboh."

"After all, they are lifelong enemies"

President Kaiba has been fooled by Kuribohs from his previous life three thousand years ago to today. He has been fooled by Kuriboh, Clear Kuriboh, Sphere Kuriboh, etc., but until now he never had the thought of "if you can't beat them, join them." He never had the intention of staying with Kisara in a locked room together for a week and producing a "Blue-Eyes Kuriboh" or something like that.

Maybe this is the pride of the strong

"Hmph, is it this guy again?" Kaiba snorted, "Well, if you were defeated at this level, you are no longer worthy of being my recognized opponent.

Then set a card and I end my turn! "

As Kaiba finished his declaration, everyone in the room couldn't help but let out a sigh of relief.

"It's unbelievable, this is only the first turn" Asuka said while looking at the two steel dragons on the field.

This was also what most teachers and students thought.

In the minds of most duelists, it was only possible to summon one monster in the first turn at most set another card and then pass the turn directly.

But these two people exchanged offense and defense so frequently in just one turn. It felt like even the slightest mistake would be shattered in an instant!

In normal duels, everyone felt that 4000 LP was quite a lot. Even if you had an empty field, it was more than enough to survive for one or two turns.

But in the confrontation between these two people, 4000 LP was as fragile as a layer of paper that could be penetrated with just one poke!

Are they playing the same game as us?

"My turn, draw." It's Yuei Vu's turn. "First is the Spell Card Take Over 5'. Send the top 5 cards of my Deck to the Graveyard."

Five cards were sent to the grave one after another, and then he showed a divine card that had just been released with the launch of Link World 2.0 version.

"Spell Card Legacy of the Hero'!" Yuei Vu said, "When there are 2 or more Level 4 or higher HERO' monsters in my GY, draw 3 cards!" (manga effect)

Onlookers vomited three liters of blood on the spot.

"What the hell? Is there such a card?"

"If this thing is real, doesn't it mean my HERO will fly to Tier 0?"

Immediately, a player went to the Yugipedia search engine and found out that there was really such a card in the card pool!

However, as per Consortium K's normal practice, this kind of OP thing must have been severely nefted when it was turned into a real card.

Legacy of a HERO (Spell Card): Return 2 Fusion Monsters from your Graveyard to the Extra Deck that lists a "HERO" monster as Material; draw 3 cards.

Although the effect has not changed, the change in activation cost directly made this card useless

Chapter 767: Divine Wind!

"Spell Card Pot of Greed, draw two more cards from the deck."

Replenishing the cards in his hand in one breath, Yuei Vu immediately launched a counterattack: "Activate the Spell Card Polymerization' again, and fuse the Elemental HERO Clayman' and Elemental HERO Sparkman' in the hand!"

Seeing the two familiar heroes turning into torrents and rushing into the whirlpool in mid-air, Judai couldn't help but get emotional: "Oh! The fusion of Clayman and Sparkman the Thunder Giant is coming!"

But no.

"Fusion Summon! Elemental HERO Grandmerge!!!"

The storm of elements erupted from the fused vortex. The hero wore golden armor like Sparkman and had the same white wings as Avian. He landed lightly on the ground with the scattered electric light.

[Elemental HERO Grandmerge, ATK 0]

"Grandmerge can be summoned by the fusion of any two HERO' Normal monsters," Yuei Vu said. "Furthermore, he gains ATK/DEF equal to the combined original Levels of the materials used for his Fusion Summon x 300.

The total level of Clayman and Sparkman is 8, so his attack power increases by 2400! "

[Elemental HERO Grandmerge, ATK 0 ATK 2400]

"Battle!" Yuei Vu said, "First, I use Elemental HERO Grandmerge' to attack the Blue-Eyes Chaos Dragon!"

The Chaos Dragon's attack power was halved due to the interference of Great Tornado. At this moment, its beautiful head was still drooping, unable to recover. Grandmerge spread his wings, flapping the green whirlwind, and flew into the air. The impact gun on his wrist fired a burst of electricity that penetrated the dragon's thick steel armor and exploded it into pieces.

[Kaiba, LP 4000 LP 3100]

The president stood upright and received the impact of the virtual current calmly and calmly, without even blinking.

"Another effect of Grandmerge." Yuei Vu said, "When this card destroys an opponent's monster by battle: I can Tribute this card; Special Summon 1 Elemental HERO' Fusion Monster from my Extra Deck, ignoring its Summoning conditions, but it cannot attack monsters with an equal or lower Level than it."

Yuei Vu pulled out a fusion card and raised it high above his head.

"The glorious hero appears here

Elemental HERO Shining Flare Wingman! "

Endless light shone down, and the mechanical silver-white armor covered the hero's body. The shining light flowed slowly on the surface of the armor, and the image was like a dream.

That was a big brother among the Elemental HEROes, who was famous for his powerful burst and killing abilities Elemental HERO Shining Flare Wingman!

[Elemental HERO Shining Flare Wingman, ATK 2500]

"Shining Flare Wingman gains 300 ATK for each Elemental HERO' card in my GY." Yuei Vu said, "There are five heroes in my graveyard now!"

The five cards were listed in order, namely Absolute Zero, Clayman, Sparkman, Grandmerge, and Stratos who was blindly thrown into the graveyard through the Spell Card effect.

"Therefore, the Shining Flare Wingman's attack power increases by 1500!"

[Elemental HERO Shining Flare Wingman, ATK 2500 ATK 4000]

"His attack power is four thousand!" Some viewers were not calm again.

These two people summoned a super monster with an attack power at the level of Obelisk, and it was as easy as eating and drinking!

Of course, One-Hit Man on Kaiba's field was currently on the defensive, so his attack power was not that important. What Yuei Vu planned to use here to complete the OTK was the powerful effect of the Shining Flare Wingman!

"Elemental HERO Shining Flare Wingman, attack the Blue-Eyes Chaos MAX Dragon!"

The metal hero flew into the air dragging a shining trajectory and dived at an accelerated speed! He penetrated the Blue-Eyes Chaos MAX Dragon's armor with the front of his body, and endless light spurted out from the hollow hole in the MAX Dragon's body like a spring, like extremely gorgeous blood.

Because Blue-Eyes Chaos MAX Dragon was in Defense Position, it would not cause battle damage, but the moment after the battle was settled, the Shining Flare Wingman flashed and appeared in front of Kaiba like a ghost.

"The effect of the Shining Flare Wingman!" Yuei Vu said, "If this card destroys a monster by battle and sends it to the GY: Inflict damage to the opponent equal to that monster's original ATK in the GY!"

"The original attack power of the Blue-Eyes Chaos MAX Dragon is 4000." Yubel folded her arms behind Judai and explained, "It seems that the winner has been decided."

However, she felt subtly unhappy when she saw Judai's adoring look with stars in his eyes.

"Yuei Vu-sensei is really awesome!" he said excitedly, "The hero is so handsome!"

Asuka on the side heard Judai habitually calling Yuei Vu "sensei" unintentionally, but after thinking about it, she felt that Yuei Vu, as the honorary principal, was indeed a teacher of the academy, so she didn't find it strange.

With four thousand points of effect damage, this shot could undoubtedly take Kaiba's remaining LP away!

But Kaiba had been studying HERO decks for so many years, so, of course, it was impossible not to know the effect of this "Shining Flare Wingman".

"Open the set card: Trap Card Damage Translation!" he shouted, "All effect damage I received during this turn will be halved!"

[Kaiba, LP 3100 LP 1100]

The damage was still considerable, but the president shook his body and steadied his steps firmly. His posture seemed to say "I can still fight."

"What a terrible duel, nanone." Cronos continued to wipe his sweat, "I thought it was going to end again"

"Indeed, these two people understand everything about each other. They can OTK each other instantly This is completely different from the battles of ordinary duelists." Principal Samejima also said, "But in this way, the attack on Duel King's side has come to an end.

The attack power of the Great Tornado was reduced to 0 by the effect of the Chaos Dragon, and there should be no way to continue attacking for the time being"

"Quick-Play Spell Mask Change." Yuei Vu showed the remaining card in his hand, "Send 1 HERO' monster I control to the Graveyard, then Special Summon 1 Masked HERO monster from my Extra Deck with the same Attribute."

The whole audience exclaimed.

At such a critical moment, he played this legendary key card that symbolized the Duel King's identity, Mask Change!

A transformation means an opportunity for additional attacks, and it also means that President Kaiba was once again pushed to the edge of the cliff called defeat!

"I sent Elemental HERO Great Tornado' to the graveyard." Yuei Vu said, "Transform!

Masked HERO Divine Wind! "

The storm briefly subsided, and the raging wind began to shrink and gather, all converging on the tall suspended hero. The special effects of the whirlwind transformed into green armor, and the violently flying white cloak seemed to be integrated with the storm.

This was the highest-level Masked HERO with the WIND attribute, and it was the first time he had appeared in public so far.

[Masked HERO Divine Wind, ATK 2700]

"Because it is Special Summoned during the Battle Phase, the Divine Wind can still attack!" Yuei Vu ordered, "Masked HERO Divine Wind, attack President Kaiba directly!"

The hero jumped lightly, put his feet together, and kicked down from above. The cloak was pulled straight by the strong wind, and the green storm swirled around his body, making him look like a piercing spear!

The audience's breathing stopped again, and many students stood up from their seats involuntarily, craning their necks and looking towards the center of the venue, fearing that they might miss this crucial moment in the blink of an eye.

President Kaiba looked sharply.

"Hmph, using Mask Change' to transform the hero and add additional attacks to complete the final beheading Do you think I still have no defense against this method?"

President Kaiba, who has been defeated by this trick countless times, said that this trick no longer worked on him!

"Activate a trap card from the graveyard!" He raised his arm high, "Spiritual Swords of Revealing Light!' During the opponent's turn, I can banish this card from the graveyard. This turn, the opponent cannot attack directly!"

The golden lightsaber flew out from the ground, forming a defensive sword formation in front of the president! The flying kick of the Divine Wind bombarded the golden sword formation head-on, causing the defensive barrier to tremble violently.

"That's a new, President. You actually started burying a trap in the graveyard." Yuei Vu smiled nonchalantly, "Is it the card you discarded when you first activated The Melody of Awakening Dragon'?"

Kaiba snorted: "To deal with an opponent like you, I will naturally need multiple layers of insurance."

"Then the Battle Phase is over and we enter the Main Phase 2." Yuei Vu inserted another card into the Duel Disk, "Activate Continuous Spell Mirage of Nightmares'. During the opponent's Standby Phase, this card allows me to draw cards until I have 4 cards in my hand.

Its just that during my Standby Phase, I must randomly discard to the Graveyard the same number of cards I drew with this card's effect.

I end my turn. "

"At the End Phase, another effect of the trap card Damage Translation' is activated." Kaiba said, "Special Summon 1 Ghost Token' in Defense Position for each time I took effect damage this turn'."

[Ghost Token, DEF 0]

Chapter 768: Blue-Eyes Abyss Dragon

It's Kaiba's turn again: "My turn, draw!"

"At this moment, the effect of the Continuous Spell Mirage of Nightmares' is activated." Yuei Vu said, "I will draw cards until I have 4 cards in my hand!"

Kaiba didn't take it seriously: "I set a card on the field, then activate the Spell Card Card of Demise'. I will draw cards until I have 5 cards in my hand. During my 5th Standby Phase after activation, send all cards in my hand to the Graveyard."

"Activate Spell Card Graceful Charity!' Draw 3 cards, then discard 2 cards."

Kaiba sent two cards from his hand to the graveyard and immediately put them into action.

"Activate Spell Card Dragon's Mirror"! Fusion Summon 1 Dragon Fusion Monster from my Extra Deck, by banishing Fusion Materials listed on it from my field or GY!"

He revealed the two cards that had been discarded into the graveyard.

"I fused the Lord of D' and the Divine Dragon Ragnarok' in the graveyard! Fusion Summon King Dragun! ! ! "

The Lord wearing golden armor held a dragon-shaped piccolo, his lower body was integrated with the golden dragon, and the golden scales shone brightly.

[King Dragun, ATK 2400]

"The effect of the King Dragun!" Kaiba said, "Once per turn, I can Special Summon 1 Dragon monster from my hand! The card I want to special summon is this!

The dragon of the abyss appears from ancient times, show your power here

Blue-Eyes Abyss Dragon! ! ! "

It was a beautiful white dragon with feminine features, a pair of unforgettable deep eyes, gorgeous wings with flowing light, and a noble body with soft and elegant lines.

She raised her neck as long as a swan and let out a sharp and crisp dragon roar.

[Blue-Eyes Abyss Dragon, ATK 2500]

Yuei Vu narrowed his eyes.

Its a new vest again The president and Kisara are never idle when they are locked up at home at night. Many vests are produced in such a short time

"The effect of the Blue-Eyes Abyss Dragon! If this card is Special Summoned: I can add 1 Ritual Spell or 1 Polymerization' from the deck to my hand."

The blue data stream transformed into a card in Kaiba's hands.

"I added Polymerization' to my hand."

He added this card to his hand, and then revealed the other two cards in his hand.

"Then I will reveal the Blue-Eyes White Dragon' in my hand to Special Summon this guy!" Kaiba slapped the card onto the duel disk and shouted at the top of his lungs, "Show your invincibility here

Blue-Eyes Alternative White Dragon! ! ! "

The floor tiles were broken open, and a huge white dragon rose into the sky, surrounded by its body, and its huge bone wings flapped into a silvery white whirlwind that was visible to the naked eye!

[Blue-Eyes Alternative White Dragon, ATK 3000]

Marufuji Sho in the audience was dumbfounded: "So so strong. The chaos dragon lineup has just been eliminated, and suddenly there are three such powerful dragons"

"Is this the strength of Seto Kaiba?" Even Marufuji Ryo, who was known as the Academy's Kaiser, was not at peace in his heart. "This is the real strong man!"

"But even though these three dragons are very powerful, they are no match for the Shining Flare Wingman' on the Duel King's side" Misawa Daichi raised a flag at the right time.

Kaiba immediately said: "The effect of Blue-Eyes Alternative White Dragon! At the cost of giving up this turn's attack, a monster on the opponent's field will be destroyed.

The eyesore Shining Flare Wingman, disappear for me! ! ! "

The Shining Flare Wingman was known for his high attack power. He was an Elemental HERO with the ability to OTK, but he had no resistance to special abilities.

Blue-Eyes Alternative White Dragon opened his sharp-edged mouth, and the blue light bullet dragged out a clear airwave and hit it. One blow melted through the silver-white armor and blew the Shining Flare Wingman into pieces.

"Ah! Yuei Vu-sensei's Shining Flare Wingman was suddenly" Judai was momentarily distracted.

"But this way Alternative White Dragon will lose the right to attack." Asuka said next to him, "Mr. Kaiba's remaining two dragons are no match for Masked HERO Divine Wind"

"Quick-Play Spell Shrink!" Kaiba shouted, "Halve the attack power of Masked HERO Divine Wind!"

[Masked HERO Divine Wind, ATK 2700 ATK 1350]

"The attack power has been overtaken!" Misawa shouted.

Kaiba waved his arm down: "Blue-Eyes Abyss Dragon, defeat the Masked HERO Divine Wind' for me!"

The white dragon flew up in circles, its wings slowly opened, and its flexible tail swept gently, as if dancing gracefully in mid-air. The wings spread out behind her lit up with a light blue light, like the interlaced lights in a ballroom.

The blue impact hit Divine Wind's body head-on. The Masked HERO groaned, but stubbornly withstood the impact. His cloak was blown straight by the energy flow, and the armor shell crackled.

Yuei Vu, LP 2500 LP 1350

"Masked HERO Divine Wind cannot be destroyed by battle." Yuei Vu explained, and at the same time a card popped up in the graveyard, "Then there is the effect of Vision HERO Increase' in the graveyard.

If I take battle or effect damage while this card is in my GY: I can place this card from my GY in my Spell & Trap Zone as a face-up Continuous Trap! "

The phantom of a hero appeared in his Spell & Trap Zone, but there was only a vague outline and the image could not be seen clearly.

"Hmph, then use King Dragun' to attack Masked HERO Divine Wind' again"

Kaiba gave an order, but his dragon king didn't respond as if he was deaf.

"It's a pity, but you can't do that, President." Yuei Vu said, "As long as Masked HERO Divine Wind' is on the field, the opponent can attack with only 1 monster during each Battle Phase."

"It can't be destroyed by battle and it can also limit the opponent's attacks?" Misawa said, "He is worthy of being the Masked HERO of the Duel King, what a powerful suppressor!"

"Huh, I end my turn." Kaiba said coldly, "The subsequent effect of Blue-Eyes Abyss Dragon'. At the end of the turn, I can add 1 Level 8 or higher Dragon monster from my Deck to my hand."

Another digitized card appeared in his hand.

"I add Blue-Eyes White Dragon' to my hand."

"At the same time, at the end of the turn, the effect of Shrink' ends, and the attack power of Masked HERO Divine Wind' returns to its original state." Yuei Vu added.

[Masked HERO: Divine Wind, ATK 1350 ATK 2700]

"It's my turn, draw!"

"Now the Mirage of Nightmare' side effect will be activated." Kaiba said coldly, "You must randomly discard four cards in your hand."

"No." Yuei Vu said, "In the Draw Phase, I'll activate the Quick-Play Spell Mystical Space Typhoon'. Destroy the Mirage of Nightmare' on my own field."

The black storm rolled up the eternal magic, and a bolt of lightning blew it into pieces.

"In this way, the side effects will no longer exist." Yuei Vu said, "At the same time, during the Standby Phase, the subsequent effects of the Spell Card Take Over 5' in my graveyard can also be activated.

Banish the Take Over 5' in my graveyard and the card with the same name in the deck, and I can draw 1 card. "

After adding another card and entering the Main Phase, Yuei Vu glanced at the cards in his hand and immediately showed a card in his hand.

"I summon the Elemental HERO Shadow Mist'!"

[Elemental HERO Shadow Mist, ATK 1000]

"Then activate the effect of the Vision HERO Increase' in my Spell & Trap Zone. Tribute the Shadow Mist, and special summon the Increase'!"

[Vision HERO Increase, ATK 900]

"The effect of Shadow Mist! If this card is sent to the GY: I can add 1 HERO' monster from my Deck to my hand." Yuei Vu pulled out a card that popped up in the deck, "I add the Destiny HERO Plasma' to my hand."

"Then when the Increase' is Special Summoned, he Special Summons Vision HERO Vyon' from the deck!"

[Vision HERO Vyon, ATK 1000]

"The effect of Vyon sends the Destiny HERO Malicious' from the deck to the graveyard." Yuei Vu continued, "The effect of Destiny HERO Malicious'! I can banish this card from my GY; Special Summon 1 Destiny HERO Malicious' from my Deck!"

[Destiny HERO Malicious, ATK 800]

Kaiba said in a deep voice, "Humph, are you coming?"

I sacrificed the three monsters Destiny HERO Malicious, Vision HERO Increase, and Vision HERO Vyon and Special Summoned this monster!

The power of destruction brings about the end of the fate of all things, turning into the ultimate hero and coming

Destiny HERO Plasma! ! ! "

The bloody hero rose from the bloody mire, with blood gurgling on his broad bone wings, like a ferocious demon!

[Destiny HERO Plasma, ATK 1900]

"The effect of Plasma!" Yuei Vu said, "Once per turn, I can select 1 monster on the opponent's side of the field and equip it to this card! I absorb the Blue-Eyes Alternative White Dragon! Bloody Capture!"

"Eh?" Manjome in the audience looked around, "But when the King Dragoon is present, all Dragon monsters cannot be targeted by card effects"

Yuei Vu, who was on the field at this moment, explained: "When Destiny HERO Plasma exists, the effects of all monsters on the opponent's field will be negated! Therefore, King Dragoon's protective ability is naturally also invalidated

Of course, you should already know these presidents. "

Kaiba snorted and didn't answer.

Alternative White Dragon roared and was captured by the power of Plasma. He turned into a ball of blue light and became part of the blood hero's power.

"The attack power of Plasma will increase by half of the equipped monster's attack power." Yuei Vu said.

[Destiny HERO Plasma, ATK 1900 ATK 3400]

"Battle!" Yuei Vu said, "Destiny HERO Plasma, attacks the Blue-Eyes Abyss Dragon!"

Plasma opened his wings and flew into the air, his wide wings flying downwards and shooting out a rain of blood in the sky!

"Hmph, I've already expected it!" Kaiba waved his hand, "Trap Card Security Orb! When the opponent declares an attack, target that attacking monster; change that target's battle position!"

Although Plasma had a powerful suppressive effect on monsters, he did not have resistance to spells and traps. The electric current shot by the Security Orb pierced the blood and hit his body, forcing him to turn into a defensive state.

[Destiny HERO Plasma, ATK 3400 DEF 600]

"Then the Masked HERO Divine Wind attacks the Blue-Eyes Abyss Dragon!"

The hero of the wind flew out like a cutting blade. The green whirlwind seemed to be carrying rotating saw teeth, and the graceful white dragon exited with a mournful cry.

[Kaiba, LP 1100 LP 900]

"The third effect of Masked HERO Divine Wind." Yuei Vu said, "When this card destroys an opponent's monster by battle and sends it to the Graveyard: I can draw 1 card."

Yuei Vu glanced at the newly drawn card, and a brand new plan quickly flashed in his mind.

After pondering for a moment, he drew two of the cards.

"Set two cards, I end my turn."

Chapter 769: President, You Are Going Too Far

"My turn!"

President Kaiba did not hesitate at all and immediately organized a counterattack.

"Activate the Spell Card Dark Core' from my hand!" Kaiba discarded a card from his hand into the graveyard. "By discarding a card, remove a monster from the opponent's field from the game!

I banish Destiny HERO Plasma from the game! "

This was the card used by President Kaiba in the "Pyramid of Light" movie. Although it was equal to -1 hand advantage, it was still a powerful spell with a violent elimination effect in the early environment.

Plasma, which did not have spell resistance, was obviously not good at dealing with this kind of trouble. A dark energy core opened rapidly and swallowed up the Destiny HERO. Plasma let out a thick roar and struggled fiercely for a while, but was finally dissolved into the dark material.

At the same time, the Blue-Eyes Alternative White Dragon that was adsorbed to Plasma was also liberated. The white dragon turned into a blue shadow and roared loudly, then turned into a beam of blue light and shot into the graveyard area in Kaiba's Duel Disk.

"Then comes the Spell Card Monster Recovery!" Kaiba said, "All the cards on my field and in my hand are returned to the deck and shuffled, and then I draw five cards."

The form of the King Dragun on the field disappeared, and all the cards in Kaiba's hand also turned into data streams and disappeared. The data transformed into five new cards and popped out of his deck.

President Kaiba drew five cards into his hand and glanced at them quickly: "The Spell Card Spell Books from the Pot'. Both sides draw three cards."

Then he waved and took out a card that he had entered the graveyard before.

"Activate the effect of The White Stone of Ancients' that was just discarded to the graveyard through Dark Core'." He said solemnly, " Banish this card from my GY, then target 1 Blue-Eyes' monster in my GY; add it to my hand.

Return to my hands again, Blue-Eyes Alternative White Dragon!' "

Judai outside the field said: "Ah, that troublesome dragon back into his hand again"

"Then I reveal the Blue-Eyes White Dragon' in my hand again," President Kaiba shouted, "The Blue-Eyes Alternative White Dragon' in my hand is special summoned!"

The shadow of the dragon flashed past, and the blue light seemed to break through the earth like countless sharp swords. The white dragon flew into the air and shed a white light!

[Blue-Eyes Alternative White Dragon, ATK 3000]

"Have you awakened yet? YueiVu! I told you, today will be the end of the battle between us!" Kaiba's voice was almost hoarse, "Activate the effect of Blue-Eyes Alternative White Dragon' again! Once per turn, destroy the monsters on the opponent's field!

Destroy the Masked HERO Divine Wind'! "

Alternative White Dragon shook his head, endless blue light gathered, and the mighty torrent exploded out surrounded by the flashing sphere of electricity!

"Divine Wind cannot be destroyed by battle, but card effect is another matter." Professional commentator Misawa Daichi continued to broadcast the battle situation, "Mr. Yuei Vu's side is in danger."

Yuei Vu raised his arm: "Activate Trap Card Interdimensional Matter Transporter! A monster on my field will be removed from the game until the end of the turn!

I removed Masked HERO Divine Wind from the game! "

Dimensional fluctuated, and a special mechanical device emerged. With a burst of space distortion, Divine Qind was transmitted to the other side of the dimension. As a result, Alternative White Dragon's effect lost its target, and the domineering energy sphere roared past the audience and disappeared.

"Huh, are you temporarily letting the monster escape to protect it? It's a meaningless move because you don't have the next turn, Yuei Vu!"

He immediately played his next card.

"Activate the Spell Card Polymerization'!" he shouted, "I fuse two Blue-Eyes White Dragon' cards in the hand and the Blue-Eyes Alternative White Dragon' on the field when the Alternative White Dragon exists on the field, its name is treated as Blue-Eyes White Dragon' according to the rules.

So I fused these three Blue-Eyes White Dragons! Fusion Summon!

Beyond the shackles of time and space, the strongest and ultimate dragon in history

Appear, Neo Blue-Eyes Ultimate Dragon! ! ! "

The three white dragons merged into one in mid-air, and the three heads protruded from the light. The gorgeous brilliance covering the huge body seemed to be shaken away by a high-pitched dragon roar, and the majesty of the gods descended on the audience.

[Neo Blue-Eyes Ultimate Dragon, ATK 4500]

The whole place was almost boiling.

"Here he appears! The legendary ace of Seto Kaiba, the Blue-Eyes Ultimate Dragon!"

"And it's the Neo Blue-Eyes Ultimate Dragon, with the power of three consecutive shots that destroy everything!"

Manjome held the metal railing in front of him with both hands, his fingers trembling slightly from the exertion. He looked at President Kaiba with admiration in his eyes, imagining that one day he would stand on that field and become someone like his teacher.

A strong man who could truly dominate a duel with his absolute strength!

Neo Blue-Eyes Ultimate Dragon had an attack power of 4500 and can even perform three consecutive shots. This terrifying destructive power was simply a ruthless harvester in an environment with 4000 LP. Ordinary duelists didn't even dare to imagine facing such an existence.

But Kaiba knew that the person in front of him was no ordinary duelist.

He knew that this figure he had been chasing for so many years, the man at the top of the dueling world, could not be defeated so easily.

"See it? The new heights that Blue-Eyes and I have reached together, the ultimate power!" Kaiba said coldly, "This is the new power we have reserved to defeat you!"

Yuei Vu: "?"

President, what did you two secretly print while I wasn't paying attention?

Kaiba then took the next card.

"Activate the second Dragon's Mirror' from your hand! Remove the fusion materials in the graveyard from the game and Fusion Summon the Dragon-type fusion monster!

I banished two Blue-Eyes White Dragon' and one Blue-Eyes Alternative White Dragon' in the graveyard! "

Kaiba's voice was hoarse, his right hand was raised high, and he shouted "Ah, ah, ah!" as if he was spending a lot of stamina to do something.

In a daze, Yuei Vu saw the elf of the blue-eyed girl Kisara appearing next to Kaiba, emitting an extremely shining white light. The dazzling and soft light merged with the data flow radiated from Kaiba's Duel Disk, converged into his hands, and gave birth to a brand new card!

Yuei Vu was stunned for a while.

Damn it!

Is it appropriate for you and your wife to work together to print cards in front of me?

But no matter what, the president just printed it, and the card was quickly slapped onto his Duel Disk.

The entire Duel Disk system started cheering instantly! The system was on the verge of overload, and three beams of light rushed into the air from the ground! The shadows of the three dragons flew up, intertwined, and gradually merged.

The light was like a volcano erupting, like a dragon wearing silver armor flying out of it, swinging its long tail. When the spine twisted, every joint made a crisp sound like a metal skeleton. The

wings shed silver light, and the figure was beautiful and majestic. Its condescension contained a might that made mortals dare not look directly at it.

Yuei Vu's mouth twitched.

President, you are going too far

"Fusion Summon! The dragon's soul merges into one, showing its ultimate posture, dominating all things

Blue-Eyes Alternative Ultimate Dragon! ! ! "

Chapter 770: Alternative Ultimate Dragon

Among the various versions of the "Blue Eyes Ultimate Dragon" vest that Yuei Vu has seen so far, this one was definitely the most intimidating one.

No wonder the president confidently said that this time was different from any time in the past. This time he was confident that he would win and end the battle between the two of them.

It turned out that he came prepared!

"The effect of Blue-Eyes Alternative Ultimate Dragon is activated!" Kaiba still roared, "Once per turn, at the cost of giving up its attack rights for this turn, it can destroy a card on the opponent's field!

Moreover! When using a monster whose original card name is "Blue-Eyes Alternative White Dragon" as a Fusion Material, I can destroy up to 3 cards instead! "

"Nani!?" The audience was surprised.

"In one turn destroy three cards!?" Misawa exclaimed, "What a terrifying ability!"

"Mamma Mia!" Professor Cronos continued to bite the handkerchief, "It is really the ultimate power that can crush any opponent in an instant, nanone!"

"And the Neo Blue-Eyes Ultimate Dragon' can attack three times in one turn." Asuka was also fascinated by the sight, "Use the power of the Alternative Ultimate Dragon' to sweep the entire field, and then use the Neo Ultimate Dragon' to OTK

Can anyone really resist the oppression of this absolute power? "

The Blue-Eyes Alternative Ultimate Dragon's ability was activated. The three heads opened their mouths at the same time, and explosive light bombs burst out continuously! It was the power of destruction that could crush everything in the world, and could turn the deepest darkness into light.

But just before the attack hit, Yuei Vu flipped the last set card.

"Open the set card: Trap Card Massivemorph!" He waved his hand, "Target 1 face-up monster the opponent controls; its ATK and DEF become double its current ATK and DEF!"

Kaiba frowned: "Blue-Eyes Alternative Ultimate Dragon' can neither be targeted nor be destroyed by the opponent's card effects"

"It doesn't matter, the one I want to target is Neo Blue-Eyes Ultimate Dragon'!"

[Neo Blue-Eyes Ultimate Dragon, ATK 4500 ATK 9000]

"Increase the opponent's attack power!?" Marufuji Sho was stunned, "In this way, if the Ultimate Dragon fires three consecutive shots, wouldn't it be 27,000 points of damage"

"No, that's fine." Misawa, who was sitting next to him, was worthy of being a gold medal commentator. "Monsters whose attack power is doubled by the effect of Massivemorph' cannot make direct attacks."

"That's right!" Marufuji Sho suddenly figured it out.

"Blue-Eyes Alternative Ultimate Dragon cannot declare an attack in the turn when it has activated the field-clearing effect. Neo Ultimate Dragon's attack power is doubled by Massivemorph', and it cannot attack directly. And the only monster left on Mr. Yuei Vu's field has been removed by his own Interdimensional Matter Transporter' In other words, President Kaiba's attack has been blocked."

Asuka-san looked at Yuei Vu's back with more and more admiration.

"Solving the crisis of death by just one card"

"Of course." Judai smiled, "He is the Duel King! Yuei Vu-sensei is the strongest!"

Kaiba curled his lips, feeling a little unhappy.

"Huh, are you as good at lingering as ever?" Kaiba drew out the remaining cards in his hand, "But this meek delaying tactic is meaningless. You will still be defeated in the next turn, YueiVu! Set three cards, I end my turn!

Yuei Vu sighed quietly.

He didn't know whether he should say that President Kaiba was brave or had a short memory. He had said similar lines countless times in the past duels. At the end of every card game, he looked like an old general on the stage covered with flags

Okay, then I should live up to the president's expectations.

Yuei Vu knew that even though the president was shouting so loudly now, if he accidentally lost, the president might be very disappointed

"At the end of the turn, the effect of the Interdimensional Matter Transporter' is over." Yuei Vu said, "Masked HERO Divine Wind' returns to the field."

The space was slightly distorted, with a burst of dimensional fluctuations, and the Masked HERO in green armor fell back onto the field lightly.

[Masked HERODivine Wind, ATK 2700]

"It's my turn." Yuei Vu drew a card from the deck.

Kaiba watched him draw the card and squinted his eyes. He felt that the heartbeat in the center of his chest was gradually accelerating, and every cell in his body was unbearably hot, as if he was vaguely expecting something.

He was looking forward to Yuei Vu's next move.

Come on, YueiVu!

Let me see how you solve this situation!

"The first is Equip Spell Favorite Hero'," Yuei Vu waved and played a card, "Equip it to Masked HERO Divine Wind!"

He smiled slightly: "I don't need to explain the effect of this card too much, right?"

Kaiba clicked his tongue and said nothing.

"I set two cards on the field, and then enter the Battle Phase!" Yuei Vu said, "Then at this moment, the first effect of Favorite Hero' is activated! I can activate 1 Field Spell directly from my hand or Deck!"

A card popped up in his deck.

"What I want to activate is the Field Spell Temple of the Kings!"

The real-life "Temple of the Kings" has been modified into a Continuous Spell, but the original temple was a Field Spell, so it could be retrieved by the effect of "Favorite Hero".

The solemn and ancient temple rose from the ground, and the underground was quickly transformed. The statue of Anubis stands beside the golden pillars, and an ancient sealed cabinet is placed at the end of the hall.

"The second effect of Favorite Hero!" Yuei Vu said, "If there is a card in my Field Zone, the equipped monster gains ATK equal to its original DEF, also the opponent cannot target it with card effects!"

[Masked HERO Divine Wind, ATK 2700 ATK 4600]

"Attack power 4600!" Judai shook his fist, "It exceeds the attack power of the Alternative Ultimate Dragon!"

Yuei Vu did not hesitate and directly issued the attack command: "Masked HERO Divine Wind, attack the Blue Eyes Alternative Ultimate Dragon!"

The Masked HERO flew up on the green whirlwind, with his feet together, dragging the spinning tornado behind him, and kicked towards the huge white dragon with indomitable momentum!

"Huh, stupid." Kaiba curled his lips and waved his hand, "The same trick no longer works on me! See this, YueiVu! The roar of my soul!"

Trap Card Soul Strike!

If my LP is 4000 or less, when an attack is declared involving a monster I control and an opponent's monster: Pay half my LP, then target 1 face-up monster I control; it gains ATK equal to the deficit between my current LP and 4000 until the end of the opponent's turn! "

[Kaiba, LP 900 LP 450]

Kaiba's whole body was wrapped in the projection of blue flames. He roared, as if he was turning his soul into pure power and filling it into white dragon's body.

[Blue-Eyes Alternative Ultimate Dragon, ATK 4500 ATK 8050]

The three mouths of the Blue-Eyes Alternative Ultimate Dragon opened at the same time, and a white energy hurricane was brewing, facing the Masked HERO swooping down from the sky, brewing a fatal counterattack!

"Then I activate the Quick-Play Spell Battle Fusion' from my hand!" Yuei Vu said, "When an attack is declared involving a Fusion Monster I control and an opponent's monster: That monster I control gains ATK equal to the ATK of the opponent's monster, until the end of the Damage Step!"

[Masked HERO Divine Wind, ATK 4600 ATK 12650]

"Attack power12,650!?"

Everyone was stunned.

An attack power of more than 10,000 was a value that many duelists may never see in a lifetime of playing cards. The visual impact of this kind of data was reflected in the monster's overwhelming oppression. Even the three-dimensional image was enough to make people tremble!

Masked HERO Divine Wind once again gained the upper hand. His feet had already kicked on the incandescent impact blasted by the white dragon, and were tearing apart the shattered jet beam like a torrent, as if he had hit a torrent that bifurcated into two halves.

"Hmph, is it really like this again?" Kaiba's eyes darkened, "I did lose to this card oncebut that is in the past."

"Oh?" Yuei Vu's eyes moved slightly.

"I said, I am completely different from the past." Kaiba shouted, "This time, it will be the real ending between us!

Open the set card: Trap Card Covering Fire! "

Yuei Vu: "!"

Good guy, the president actually pulled out the trap that I used to trick him when we first met?

"During the Damage Step, if an opponent's monster attacks my monster: Target 1 other face-up monster I control; my attacked monster gains ATK equal to that target's ATK, during the Damage Step only!" Kaiba sneered, "Of course, you should be familiar with this effect, right?"

Yuei Vu: ""

"So the attack power of the Alternative Ultimate Dragon is increased by the attack power of the Neo Ultimate Dragon!"

Asuka said: "The attack power of the Neo Ultimate Dragon was doubled by Mr. Yuei Vu's Massivemorph!"

Gold medal commentator Misawa also said: "Did the Duel King's trap backfire"

[Blue-Eyes Alternative Ultimate Dragon, ATK 8050 ATK 17050]

"Mamma Mia!" Cronos almost jumped up, "Attack power seventeen thousand!?"

"Hahahaha!" Kaiba laughed, "Can you still beat this attack power, YueiVu!?"

Yuei Vu: ""

"This is the end!"

Kaiba's eyes showed ecstasy, as if the thing he had been pursuing for many years was finally in his hands.

"Don't worry, President." Yuei Vu smiled, "Have you forgotten? Because of the presence of the Field Spell Temple of the Kings', the traps I set on the field this turn can be activated this turn."

Kaiba: "!"

This guy could there be a trap that turned the situation!?

"Open the set card!" Yuei Vu raised his hand, "Trap Card Final Fusion! During either player's Battle Step, when a Fusion Monster I control battles an opponent's Fusion Monster: Each player takes damage equal to the combined ATK of both those Fusion Monsters!" (Animation effect)

All the audience stood up almost simultaneously.

"Self-destruction!?"

"The attack power of Masked HERO Divine Wind is 12650, and the attack power of Alternative Ultimate Dragon is 17050 the total damage is 29700!"

Could it be that the outcome of this duel would actually be a DRAW! ?

The trap effect was activated, and powerful light effects and smoke screens erupted between the impact of Masked HERO and Alternative Ultimate Dragon. Everyone was blinded by the light curtain, and the impact of the explosion made people's ears ring and dizzy, and they couldn't see anything clearly for a while.

Marufuji Sho crawled out from under the seat: "How how is it?"

Manjome opened his eyes desperately against the bright light: "Who won?"

The smoke screen gradually dissipated.

The first person to emerge from the diffuse black smoke was President Seto Kaiba.

Kaiba, LP 450

Manjome's pupils shrank.

Mr. Kaiba won! ?

As the smoke screen gradually dissipated, everyone could clearly see the field in front of him. In front of President Kaiba, the last set card was opened.

Barrel Behind the Door (Counter Trap): Activate only when a card's effect that would inflict damage to you is activated. Your opponent takes the damage instead.

Kaiba's eyes were stern.

He wanted to win this battle. He was determined to trample Yuei Vu under his feet through this duel and took the throne that he has never touched!

A DRAW was unacceptable!

So this was his last resort, his final counterattack. Counting the rebound damage, Yuei Vu would suffer 59,400 damage, and would be defeated without any suspense

But then, Kaiba's pupils shrank, and his breathing almost stopped for a moment.

Yuei Vu, LP 1150

His hit points are also unchanged.

Then Kaiba's eyes fell on the trap that was opened in front of Yuei Vu through the effect of "Temple of the Kings".

"It's really dangerous, President." Yuei Vu breathed a long sigh of relief, "Fortunately, I had already launched this before you launched the Barrel Behind the Door' Otherwise, it might really have been over. "

Kaiba recognized that card of course he recognized it, because it was originally his card, and Yuei Vu had taken it out of the Kaiba Corp's card library.

Enhanced Counter (Trap Card): Negate any damage you would take, and if you do, make 1 monster you control gain ATK equal to that amount of damage you negated, during this Battle Phase only. (anime effect)

In the "Dark Side of Dimension" movie, when President Kaiba fought against the Atem Bot, he used the Neo Blue-Eyes Ultimate Dragon to attack the Dark Magician of the Atem Bot's field, but was rebounded by the "Dimension Reflector". 4500 damage came back, and then Kaiba used this "Enhanced Counterattack" to negate the damage and increase the Ultra Dragon's attack power to 9000.

From the very beginning, Yuei Vu had no intention of dying together. He had already activated this trap before "Battle Fusion" was activated.

Kaiba never expected that this time, he would actually fall into his own card.

[Masked HERO Divine Wind, ATK 12650 ATK 72050]

[Blue-Eyes Alternative Ultimate Dragon, ATK 17050]

The whole place fell into a brief and eerie silence.

Marufuji Sho swallowed, and his voice was so hoarse that it almost didn't sound like his own: "Attack power 70,000!?"

"The battle continues." Yuei Vu said, "Masked HERO Divine Wind, continue to attack."

There was a great disparity between strength of both sides, thus there was no longer any suspense in the battle. The flying kick of the Masked HERO Divine Wind completely crushed the white dragon's jet, piercing the body of the ultimate dragon head-on, and the white light sprayed out like blood.

[Kaiba, LP 450 LP 0]
