

I Play Yu-Gi 81

Chapter 81: I Won't Give It To You, Are You Angry?

The Dark Magician with a red robe and dark skin landed domineeringly on Pandora's half of the field, folded his arms, and looked at the opposite side with such a sinister smile on his face.

[Dark Magician, ATK 2500]

After the last encounter, Pandora's entire deck was pulled out by Yuei Vu, and the three Dark Magicians were no exception.

However, as we all knew, Ghouls was the world's number one fake card manufacturer. In the manga, even the God card "The Winged Dragon of Ra" has been copied dozens of times (although all the people who have used it are cold). Dark Magician must also be mass-produced.

"Hey, did you call out the trump card this time?" Yuei Vu looked at the Dark Magician, "It does seem to have made some progress."

"This is the end of your arrogant attitude! Another effect of Magical Dimension', I can destroy a monster on the field. Go away, Breaker the Magical Warrior! "

A box shaped like a coffin appeared from behind the Breaker the Magical Warrior, dragged him in, and slammed it shut. Immediately afterward, the golden coffin exploded with a heavy roar and shattered together with the magic warrior locked inside.

Yuei Vu raised his hand slightly to block the airflow and dust caused by the explosion.

"Dark Magician!" Pandora shouted, "Attack directly, tear this guy to pieces for me!"

The Dark Magician took the order and flew up, his slender body hovering briefly in mid-air. The whirling magic turned into a ball on the raised wand, with a scarlet electric current, like a demon poised to grin at its prey.

"I'm going to activate the set card at this moment," Yuei Vu pressed the start button on the duel plate, "trap card Magician Navigation!"

"What!?" Pandora was shocked, he quickly straightened her mask and carefully looked at the trap on the Yuei Vu Field.

The card artwork was clearly a Dark Magician and a Dark Magician Girl, who was flying out of the dark circle. Obviously, this was also a support card for Dark Magicians, but

Why did he never hear of it at all!?

Pandora claimed to be the Master of Magicians and confidently believed that he was the world's top Dark Magician user. He was very familiar with the various tactics and combos of Dark Magician, and he thought that he should recognize all the cards related to the series.

However, he hadn't even heard of this "Magician Navigation".

In fact, at first, Pandora thought that Yuei Vu's Dark Magician deck should be based on the one he snatched from him last time, so he was so confident when he came to find Yuei Vu this time.

After all, no one knew the strengths and weaknesses of his previous deck better than him.

But whether it's the Dark Magician Girl or Magician Navigation, he has never heard of them at all, so obviously, it didn't come from his previous deck.

Pandora was really starting to panic now.

Where did this kid get these cards?

"The effect of Magician Navigation' I can special summon directly from the hand

Dark Magician! "

The magic circle on the ground opened, and the black shadow flew from the magic circle into the air and landed after a brisk somersault. The surging magic power turned into a scarlet storm, and the green staff spurted out. The mage reached out and grabbed it precisely in his hand.

[Dark Magician, ATK 2500]

Two Dark Magicians with exactly the same skin stood on both sides of the field. The fields of magic squeezed each other, and a cold whirlwind rolled up in the space.

Of course, Pandora didn't know that the Dark Magician in front of him was actually a quest reward given to Yuei Vu by the system.

He took it for granted that Yuei Vu was using the card he had stolen from him.

At this moment, he looked at the Dark Magician with an inexplicable sense of humiliation. Seeing his former ace standing opposite him, he couldn't help but turn red with anger, and when he closed his eyes, he seemed to see the endless grassland

"It's not over yet! When the Magician Navigation' is activated, I still need to Special Summon 1 Level 7 or lower DARK Spellcaster monster from my Deck." Yuei Vu pulled out the deck, "I special summon Magician's Robe' ."

[Magician's Robe, DEF 2000]

Another card that Pandora didn't recognize. And that monster looked a bit like the robe of a Dark Magician, so it should be a support card for a Dark Magician.

So why are there so many cards that I don't know!?

Pandora couldn't help but want to roar what the hell am I playing with fake cards or are you playing with fake cards? Does your family run a card printing shop?

Well, in fact, he knew it was impossible.

Dueling monster cards were impossible to forge. Even Ghouls, who had the world's top counterfeit card technology, could only copy from existing cards.

Because the production of dueling monster cards not only involved technology but also involved some mysterious powers that could not be explained by existing technology. It was impossible to print the card privately.

(All protagonists of Yu-Gi-Oh!: Yes, yes, printing cards is so unscientific, how could such a thing happen?!)

At this time, the audience in the live broadcast room by Miss Yuehua was climaxing again.

"Magician Navigation! See, I said earlier that Yuei Vu must have a Magician Navigation!"

"Wait for a warning from the Dark Magical Circle."

"Wait for a warning from the Eternal Soul."

"There shouldn't be any of these, right? Otherwise, it would be too OP. If there is such a set, I am afraid that in this environment, it is not possible to directly sweep to the end of the DM?"

""

Well, they really got it right. Yuei Vu didn't even see a shadow of these two cards after spending tens of thousands of crystals

He could only guess that there were no such powerful cards in the system card pool in version 1.0. To be honest, acquiring a cope Magician Navigation was already a pleasant surprise.

Because in fact, in this environment, "Magician Navigation" was also a little bit OP.

The effect of special summoning a Spellcaster monster from the deck was mandatory, but there was only one Dark Magician in Yuei Vu's deck. Therefore, no matter what Spellcaster monster was summoned, it would be destroyed by Pandora's Dark Magician this turn.

The reason why he chose "Magician's Robe" was not only because this monster has the effect of self-resurrection in the HY, but also because he knew that Pandora must have never seen this monster before, so he deliberately pulled it out to show him

Eh, look, he's another magician you haven't seen before, isn't he that powerful?

Do you want it?

I won't give it to you, are you angry?

Chapter 82: Lost 100 Million

Sure enough, this taunting tactic was still effective. Yuei Vu could see that the exposed half of Pandora's face became green with anger. He roared: "Dark Magician! Smash that false phantom for me! Attack the Magician's Robe!"

The Dark Magician's interrupted attack continued, the mighty magic shock roared out from the staff, and the powerful wave instantly destroyed the illusory robe.

However, because Magician's Robe was in the defense position, the attack didn't cause any harm to Yuei Vu, and it had no meaning other than venting Pandora's anger. After the smoke cleared away, the Dark Magician on the opponent's field was still standing and looked at him with a contemptuous smile in the corner of his mouth, which made him even angrier.

It felt a bit like his wife ran away with others and didn't forget to show up in front of his face,

"Set a card and I end my turn."

After Pandora ended his turn, he still glared at the Dark Magician on the Yuei Vu's side, as if saying, "You traitor."

"My turn, draw."

Yuei Vu glanced at the cards in his hand and thought for a while.

Should I use my Dark Magician to exchange with his?

In that case, my field will be empty, and in the next turn, I will be passive.

"Then I'll set a card too." A face-down card appeared at Yuei Vu's feet, "I end my turn."

"Hey, don't you dare to attack?" Pandora began to sneer again, "It really fits the style of a cowardly duelist like you. But dueling is a game in which the brave can win, and those who are blindly defensive will only become more passive. The situation will only get deeper and deeper in the end.

Now, let me teach you a lesson. My turn, draw a card!

What I want to activate is the spell card Thousand Knives! "

Dark Magician's signature spell card was played. The Dark Magician on the Pandora field sneered indifferently, and the flying knives emerged one after another out of thin air, hovering in the air to form a dense array of knives.

"Thousand Knives' can only be activated when there is a Dark Magician on my field. I can destroy a monster on the opponent's field. The target I want to destroy is your Dark Magician! Slash that odious traitor with a thousand swords!"

With a wave of Pandora's Dark Magician's wand, the flying knives in the sky immediately burst into the air and surrounded them from all directions with a sharp screeching sound.

But Yuei Vu was already prepared: "Flip the set card Mystical Refpanel!"

The trap card was opened, and a young lady with long blue hair was projected on the field, holding a huge mirror in her hand.

The wizard adjusted the mirror to align the spell card projected on Pandora's field, and quickly reflected the image of the spell card in the mirror. At the same time, the flying knife suddenly disappeared out of thin air, and there was no trace at all.

Pandora was shocked: "What did you do?"

"Mystical Refpanel can be activated when the opponent activates a spell card targeting the player or monster, and the effect of that spell card is negated and sealed!" Yuei Vu explained, "and by sending the Mystical Refpanel' to the Graveyard, I can activate the sealed spell card as my own effect!" (anime effect)

Pandora's pupils shrank: "So my Thousand Knives"

"That's right, I sent the Mystical Refpanel to the graveyard and activated the effect of Thousand Knives! Destroy the Dark Magician on your field!"

The mirror in the elf's hand flashed, and the sealed spell card glowed with golden light. Thousands of blades shone with icy silver light, burst out of the mirror like raindrops, and flew straight towards the Dark Magician on Pandora's side.

"Damn Then open the set card: Spell Card Mystic Box!"

A black magic box full of question marks appeared, and the door quickly opened. Pandora's Dark Magician flew back two steps and hid in the magic box, and the door of the box was tightly closed.

"Hahaha! Dark Magician is a mage who can master any spell. This level of attack is useless!

"Pandora laughed, "Mystic Box allows the Dark Magician to escape when he becomes the object of any attack or effect!" (anime effect)

Yuei Vu wanted to remind him that this seemed to be a normal spell card but forget it.

Although he had achieved phased results after negotiating with President Kaiba, and successfully persuaded Kaiba to revise and add some rules, he did not mention advanced rules like Spell Speed, the chain, and timing.

The new rule only added that "Normal Spell cards cannot be activated in the opponent's turn", but in your own turn, you could use it as you like without any restrictions

"Then according to the effect of the Mystic Box'," Pandora chattered and laughed twice, "I can choose your Dark Magician to be destroyed as a substitute! Disappear for me, betrayer!"

A black magic box suddenly appeared on Yuei Vu's side of the field, and he shut his Dark Magician in without a word. And Pandora's Dark Magician somehow slipped out of the magic box magically, holding his arms and floating on the opposite side with a smug look on his face.

The flying knife flew straight towards the magic box on the field and was about to stab the Dark Magician who was locked in it into a sieve.

The corners of Yuei Vu's mouth rose: "Is this really going to be the case?"

Pandora was surprised again.

Could it be that he still has some tricks left?

No, he already has no set card on the field, and the only set card "Mystical Refpanel" has just been used, so there should be no way to remove my "Mystic Box".

But looking at the other party's self-confidence, Pandora couldn't help but wonder if she had overlooked something.

Is it!?

Pandora was shocked and realized if he had overlooked something.

"Mystic Box" was a spell card specially designed to work with Dark Magicians. Only Dark Magicians could escape from this magic box.

But he overlooked one thing, that was, the monster on the Yuei Vu's field was also Dark Magician!

In other words, the opponent's Dark Magician might be able to escape from this magic box, and this "Mystic Box" might not be effective for the opponent!

Damn it! I actually overlooked such an important issue!

However, in fact, Yuei Vu didn't even think in that direction at all. Or if he knew about the explanation in Pandora's own brain, he would feel that he lost 100 million.

Why didn't I think of that?

Sure enough, he was still too young and simple to keep up with the brain circuits of the DM duelists

But at this time, Yuei Vu didn't realize this at all, he waved his hand: "Activate the trap card from the graveyard, Magician Navigation!"

Looking at the pitch-black vortex opening on the ground and the red trap flying out of the ground in a whirl, Pandora was even more shocked this time: "From the graveyard activate a trap!?"

"If there is a Dark Magician on my field, I can banish Magician Navigation' in my GY, then target 1 face-up Spell/Trap my opponent controls; negate its effects until the end of this turn.!

I negate the effect of the Mystic Box!' "

The trap card that flew out of the graveyard swirled up into the air, and dissipated in a burst of golden light.

At the same time, a huge magic circle opened up on Yuei Vu's field. The black magic box cracked instantly, and Yuei Vu's Dark Magician reappeared on the field, holding a green staff high, and the magic vortex twisted the magic box into pieces.

"Next, the effect of the spell card that has been unsealed from the Mystical Refpanel' will continue to activate." Yuei Vu waved his arm, "Your Dark Magician will be destroyed by the effect of the Thousand Knives!"

"Well"

Pandora gritted his teeth angrily, but he was powerless. He could only watch her Dark Magician get stabbed into a sieve by Thousand Knives that repeatedly hopped across the field for several rounds, and then turned into pieces and buried in the graveyard.

A round of fierce offense and defense swap, but in the end, Pandora still lost.

Pandora began to doubt life.

Am I really not as good as this kid?

He stole the Dark Magician' from me in less than a month. A month ago, he was only a third-rate duelist with a trump card of 1600 attack power!

(Sparkman: (#`O'))

"Can this little kid surpass me? Can he surpass me in the control of the Dark Magician? I will never admit it!" Pandora gritted his teeth, "I haven't Normal Summoned this turn yetI activate the spell card Dark Magic Curtain! Pay half of my LP; Special Summon 1 "Dark Magician" monster from my Deck! (Anime effect)

Come out from my deck, the second Dark Magician!' "

Pandora, LP 1550

A black curtain emerged, and the demons like bones opened up the mysterious curtain. Dark red magic poured out from under the fluttering curtain, and a dark red figure flew down and landed on the field in front of Pandora.

[Dark Magician, ATK 2500]

Although he lost a lot of LP, it somehow avoided the embarrassment of having an empty field. With the remaining cards in hand, it should be enough to survive the next turn.

Pandora continued: "Then I set two more cards, and I end my turn

! ! ? ? "

Pandora suddenly found in shock that the spell card 'Dark Magic Curtain' that he activated, unexpectedly ran to the opposite field at some point!

What's the situation? You have NTR-ed my monster, do you even have to NTR a spell card!?

"'Dark Magic Curtain' was a card that can pay half LP to Special Summon 1 Dark Magician' monster." Yuei Vu smiled slightly, "But this effect also applies to me this turn. "

In fact, what was written on the card of this animation card was "Players can pay half of LP to special summon 1 Dark Magician' monster from the deck." However, if Yuei Vu relied on himself, he could never think that the "player" here actually included the opponent.

Moreover, the description of "Summoning the Dark Magician" here was really a mystery. In this era, Dark Magician hasn't become an archetype yet

but it didn't matter!

In the animation, when Yami Yugi played against Pandora, he had clearly taught him how to use BISS on this card, and now he just needed to follow the example!

As a result, before he even opened his mouth, Pandora was shocked and quickly completed his explanation: "That's right! The Dark Magic Curtain effect is players can special summon the Dark Magician', and of course, the players here also include the opposite that means you can also use the effect of this card!"

Yuei Vu nodded slightly.

Mmmm, I don't even need to open my mouth to explain it myself, this understanding is really good.

Yuei Vu didn't have a second Dark Magician, but he had this one.

Now I will show you a scene from the anime!

"The Dark Magic Curtain's effect is activated!"

Yuei Vu, LP 4000 LP 2000

"Special summoned from the deck, the great apprentice of the Dark Magician Dark Magician Girl!"

The curtain was lifted, and the energetic magic breath was immediately released from it. The cool and beautiful magic girl flew out from the fluttering curtain, blinked her eyes playfully, and landed next to the master on her own small staff like a broom.

[Dark Magician Girl, ATK 2000]

Chapter 83: The Same Plan

"My turn!" It was Yuei Vu's turn to play again.

Pandora's LP still had 1550 LP left, and there was only one Dark Magician left on his field.

Yuei Vu has a Dark Magician and his apprentice on the field. This turn, as long as he used his Dark Magician to exchange with the opponent's one, and then let the Dark Magician Girl attack directly, it would be his victory!

Under the condition that there was no pit among Pandora's two set cards.

To be fair, Pandora has set all cards in his hand after using Dark Magic Curtain in the last turn, so it should be more likely to be a bluff.

He was not the protagonist, but a rare card hunter who played fake cards. He should have no bond with his deck. How could he print cards accurately?

Yuei Vu blindly guessed that he might have bluffed with two spell cards!

A true duelist couldn't back down from the battle, just rush!

Yuei Vu waved his hand: "Attack with my Dark Magician! Dark Magic Attack!"

The Dark Magicians on both sides raised their wands at the same time. They held their hands in exactly the same posture. At the same time, they charged up for a while, and then they flew out at the same time. The wands in their hands danced dazzlingly.

what? Why do you think the top mages rushed to fight melee?

Wasn't it common sense for top mages to fight in close combat?

Among the initial 10 attribute points, distributing 2 points for illuminate spell, 4 for Strength, and 4 for Agility. Isn't this the standard for mages?

Then Pandora seemed to have actually printed the card on the spot: "Ha! I have long expected an attack of this level! Activate trap card Black Illusion!"

This card can only be activated when there is a Dark Magician on my field. Until the end of the turn, the Dark Magician will not be destroyed by battle and will not be affected by the effect of the opponent's card! (anime effect)"

Pandora paused and laughed: "Sure enough, in terms of magician's skills, I am still better! In this way, only your Dark Magician will be destroyed, and the situation will lean on my side!"

Well, he really did print it. I may have really underestimated the opponent. Maybe Pandora is also a true duelist who can always draw just the right cards.

but it still doesn't matter!

"Activate a spell card from my hand Dark Magic Twin Burst! This turn, 1 "Dark Magician" I control gains ATK equal to the combined ATK of all "Dark Magician Girl" currently on the field and in the GYs!" Yuei Vu quickly played another card.

What? You said why this kind of card is not activated first?

If the rules allow you to use spell cards as Quick-Play, of course, you must make the most of it!

The Dark Magicians on both sides were wielding their wands at high speed, fighting with each other in a head-to-head battle. At this time, the Dark Magician Girl on Yuei Vu's side flew into the battlefield, the dark light surging on the small wand, and the magic power condensed

then stabbed him in the waist like a gun.

After all, the master and the apprentice were in the same line, and if the master took the lead in rushing up to compete with others, then the apprentice must not fall behind.

Yuei Vu thought that this skill might even have a name, which was "Wand Fighting Techniques", which was a well-known high-end technique in the magician world. He thoroughly studied various angles and postures of wand to knock people out

Well, he couldn't make it up anymore.

The effect of Dark Magician Girl was that she gained 300 ATK for every "Dark Magician" or "Magician of Black Chaos" in the GY, so her attack power was now 2300.

[Dark Magician (Yuei Vu), ATK 2500 ATK 4800]

The attack power of the Dark Magician soared to a considerable 4800 points in one go! Even if Pandora's Dark Magician couldn't be destroyed by battle, the damage calculation should still apply, and 2300 points of damage were still enough to destroy the remaining LP of Pandora!

Boom! ! !

The collision of magic power caused a roar, and the explosion turned into a dark storm and rose into the sky.

It swept toward Pandora like a tide.

However, when the battle was over and the magic power dissipated, Pandora was still standing across from him with a smile on his face, and his Dark Magician was still on the field.

And it seemed not only that

Pandora, LP 1550 LP 3250

Yuei Vu raised his eyebrows.

So not only did the LP not get a deduction but raised instead?

"Hehe, it's really dangerous, but I used this card in an emergency." Pandora smiled lightly and popped a trap from the duel tray grave area, "I activated the trap card Nutrient Z'.

This card can be activated when I take more than 2000 battle damage, and I can recover 4000 LP before the damage is resolved. "

Okay, he was trapped again.

This card was indeed a trap produced in the DM era. If Yuei Vu remembered correctly, it was first used by Jonouchi.

However, this thing seemed to be very powerful to recover 4000 LP in one breath, but in fact, it has been forgotten by modern Yu-Gi-Oh players for a long time.

And with the effect of the Black Illusion, it was impossible to defeat the opponent's Dark Magician within this turn.

"Then I will set another card, and I end my turn." Yuei Vu said.

Although he survived this turn, Pandora's hand had already been empty, and the probability of turning over with the card drawn in the next turn was really not high.

That's why it was said that LP in Yu-Gi-Oh was a very confusing thing. Recovering 4000 LP sounded much, but it's really useless. He was basically a dead man after losing all the cards in his

hand. When Yuei Vu's next turn, he would be taken away in one battle, several thousands of LP made no difference at all.

Unless he can print another Pot of Greed in the next turn

"Hahahaha! It seems that today is your doomed day!"

Pandora let out a smug laugh, and that voice made Yuei Vu think about a vampire of the studio next door, and lines like "This is my escape route" echoed in his ears

"Activate the spell card Card of Sanctity! Each player draws until they have 6 cards in their hand!"

Yuei Vu: ""

This bro, you're boring.

Cheating in such a clear way, who want to play cards with you after this?

Well, Yuei Vu thought about it carefully and felt that maybe he really shouldn't have hope.

Looking at the six completed animations of Yu-Gi-Oh, have you ever seen any duelist get stuck in an empty field after hundreds of episodes?

And why did that guy not put such good things in his deck when I grabbed his deck last time?

If he had stuffed a few cards earlier, I wouldn't have to work so hard to unpack

While Yuei Vu was thinking, both hands were refilled with six cards.

The originally unfavorable situation on Pandora's side also turned around in an instant. This was also the reason why the real card game altered "Card of Sanctity" because it had such a powerful force that could make duelists break the game in an instant.

"Hahaha here! It's finally here!" Pandora held up a card, "Let me show you the hidden true power of the Dark Magician, the true form of the strongest magician!"

Look carefully, this is my new power, my new ace, who returned from hell with resentment and annoyance after being defeated by you last time! "

Yuei Vu moved his eyebrows.

What was so powerful?

"Open your eyes and look at it, this is the form that only the true master of the Dark Magician can control!" Pandora laughed and played out the spell card, "Activate Ritual Spell Card Black Magic Ritual!"

By tributing the level 1 Mystic Lamp in the hand and the level 7 Dark Magician on the field, Ritual Summon a level 8 monster!

A true magician will show his true form in the chaotic darkness, and release the power that can reverse the law! The ultimate magician

The Magician of Black Chaos! "

The Dark Magician and the Mystic Lamp disappeared into the sacred altar. The two undercurrents converged and erupted above the altar.

In the vortex of magic power, the figure of a dark mage appeared, with a slender body, a tight-fitting attire, a long black staff, and the sacred magic power lingered all over the body.

[Magician of Black Chaos, ATK 2800]

Yuei Vu really showed surprise this time: "This is"

"The ultimate magician, the true form of a Dark Magician!" Pandora swelled to the extreme, "Chaos magic is the end of black magic, and a duelist of your level is absolutely impossible to defeat it!"

Is that so, Magician of Black Chaos?

As expected of Ghouls who claimed to be able to copy any card, Yuei Vu always thought that this card was only available in Yugi Muto's hand.

"Next is the spell card Diffusion Wave-Motion!" Pandora shouted, "Pay 1000 Life Points. Select 1 Level 7 or higher Spellcaster-Type monster on my side of the field. During this turn, only the selected monster can attack and it attacks all monsters on the opponent's side of the field. The effects of Effect Monsters destroyed by the selected monster in battle cannot be activated!"

Come on, Magician of Black Chaos, crush everything with your chaos magic! "

Pandora, LP 3250 LP 2250

The dark magician raised his staff and began to chant the ancient spell. The words of the ancient priests crawled around his body, forming a surging magic power along the trajectory of the specific magic circle, and gathered into the top of the staff.

The Magician of Black Chaos swung down suddenly, and the blasted magic shock was divided into two parts under the effect of "Diffusion Wave-Motion", one flew toward the Dark Magician and the other flew toward Dark Magician Girl on the Yuei Vu's field.

Boom! ! !

The sound of the explosion soared into the sky, and the smoke screen that erupted engulfed the figures of the magician and his apprentice.

"Hehe, so the magician master and apprentice are all defeated. Your life will soon be

! ? "

When Pandora said this, he suddenly paused as if biting his tongue and looked at the opposite side in astonishment.

After the dissipated smoke screen gradually revealed, there was also a slender body with a straight waist, a tight-fitting dark outfit, a slender black staff

It looked just like the "Magician of Black Chaos" on Pandora's field!

"How come!?" Pandora was shocked.

"I didn't expect that we had the same plan in the end." Yuei Vu chuckled and pointed to a spell card beside him, "At the moment when Dark Magician was attacked, I activated a Quick-Play spell Dedication through Light and Darkness. By Tributing a Dark Magician on my field, Special Summon from my deck

'Dark Magician of Chaos!' "

Chapter 84: Battle of Magicians

The magician in black armor appeared domineeringly on Yuei Vu's field, just like a mirror image of the "Magician of Black Chaos" on Pandora's field.

[Dark Magician of Chaos, ATK 2800]

On Yuei Vu's side was the "Dark Magician of Chaos", which was Special Summoned by the Quick-Play spell "Dedication through Light and Darkness", an Effect monster.

On Pandora's side was the "Magician of Black Chaos", which was Ritual Summoned by the Ritual Spell "Black Magic Ritual", a Ritual monster.

However, even though the two cards were different, from the perspective of dueling monsters, both sides were actually summoning the same monster, just with different counterparts.

Pandora's "Magician of Black Chaos" was the version of the DM era, a monster without any special abilities.

Yuei Vu's "Dark Magician of Chaos" was the new version of the mage when he reappeared in Yu-Gi-Oh! GX. Monsters destroyed by his battle were not sent to the Graveyard but directly removed from the game, and the player could add a Spell Card from their Graveyard at the end of the turn during which he was Special Summoned.

In fact, this was the effect after the adjustment and correction of the K Company. The earliest effect of the Dark Magician of Chaos was "add 1 Spell Card from your Graveyard to your hand when the summoning is successful", which was indeed a powerful effect worthy of his title as the strongest mage.

Of course, such a powerful effect also directly caused the magician to be a frequent guest on the Forbidden List for a long time and has been a banned card for many years.

But that's all history. The adjusted effect of the Dark Magician of Chaos has eased, and he has already been released from the small dark room.

Because Yuei Vu drew this card from the system card pool, the Dark Magician of Chaos in his hand naturally had a modified effect.

But it didn't matter. In the current era, this was already a powerful monster.

Another wave of explosive rhythms was in Miss Yuehua's live broadcast room.

"Shocking news! Dark Magician of Chaos!"

"6666, this is too awesome, isn't it?"

"A Thousands of Years Banned Card! Receive my respect"

"Bro, the ban of Dark Magician of Chaos has been lifted for long"

Pandora's expression became exciting again at this moment: "How is it possible!? This is the top magician, the ultimate posture of a Dark Magician, and its rarity is even higher than that of a Dark Magician How could this stinky brat have such a card!?"

And in his cognition, the Magician of Black Chaos should be a Ritual monster!

Dedication through Light and Darkness This is another card that I have never heard of!

Pandora began to gradually suspect whether or not he was playing a fake Dark Magician for so many years!

"Damn, but even so, the Dark Magician Girl can still be destroyed." Pandora said, "Then I will continue to attack the Dark Magician Girl with the Magician of Black Chaos!"

The powerful chaos magician turned and rushed towards the magic girl. The staff swirled, and the waves of pitch-black chaos rushed towards the petite and helpless girl

The girl pouted and waved her staff to counterattack without retreating. The fluctuations of the two magic powers collided in mid-air, the aftermath of the shock was released, and the magic power spread in all directions.

The scene looked a bit like the collision between two Kamehameha.

Then Pandora's eyes widened, and he saw the dark magic power of the Magician of Black Chaos being shattered. The shock released in the girl's small wand pushed the wave back and slammed it on the magician.

The high-end magician was slammed in the opposite direction under the tyrannical impact, turned into black smoke, and disappeared from the field.

Pandora, LP 2250 LP 2150

"What?" Pandora continued to doubt life,

"Why can't the ultimate magician defeat that little magician girl?"

Have I been punished by Heaven for playing fake cards? I can't beat it because it's a genuine card and I play a counterfeit card??

"Remember the effect of Dark Magician Girl? She gains 300 ATK for every "Dark Magician" or "Magician of Black Chaos" in both GYs." Yuei Vu explained with a smile.

"But even so, there's only!?"

Pandora suddenly understood when he saw the Dark Magician of Chaos with awe-inspiring eyes on Yuei Vu's field.

"The Spell card you played just now"

"That's right, Dedication through Light and Darkness used a Dark Magician on the field as a sacrifice to special summon the Dark Magician of Chaos'. At that moment, the Dark Magician on my field also went to the Graveyard."

Yuei Vu raised the Duel Disk, and at the same time, the shadow of the master appeared behind the Dark Magician Girl.

"The disciple will inherit the teacher's will and become stronger." He said, "In your Graveyard, there are two Dark Magicians who were destroyed by Thousand Knives and used as ritual sacrifices. There are three in total in both GYs."

So now the attack power of the Dark Magician Girl is"

[Dark Magician Girl, ATK 2900]

When he explained here, the elf Dark Magician Girl proudly held out her chest, with an expression of "Peak of Life.JPG".

Even if my master changed his form, he couldn't beat me! Master, don't you compliment me?

But in fact, from another angle, this passive skill was quite sad for the master. Simply put, the more the master died, the more powerful the apprentice would be

"But my turn is not over yet." Pandora narrowed his eyes.

"I activate from my hand Monster Reborn! The Magician of Black Chaos' in the Graveyard is resurrected!"

[Magician of Black Chaos, ATK 2800]

He called the unlucky ultimate magician back to the field again, but at this time his attack power was only equal to that of the Dark Magician of Chaos on Yuei Vu's field, and not even as high as that of the Dark Magician Girl.

"Set a card, I end my turn."

"At this moment, the effect of Dark Magician of Chaos' is activated. I return the spell card Dark Magic Twin Burst' from the GY to my hand."

The graveyard of Yuei Vu's Duel Disk lit up with pale golden light, and the selected spell card automatically popped out and returned to his hand.

"It's that card again," Pandora said solemnly.

Do you want to do it again?

"Then it's my turn, draw!" Yuei Vu added the drawn card to his hand, and drew another card from his hand, "It's the last turn, Pandora!"

Pandora: "!"

"Spell Card Dark Magic Veil is activated! Pay 1000 LP to revive the Dark Magician in my graveyard!"

Yuei Vu, LP 2000 LP 1000

[Dark Magician, ATK 2500]

[Dark Magician Girl, ATK 2900 ATK 2600]

Dark Magic Veil (Spell Card) Pay 1000 LP to Special Summon a Spellcaster-Type DARK monster from your Graveyard or your hand.

It's similar to the "Dark Magic Curtain" that Pandora activated before, but it's a different card.

Pandora gritted his teeth: "Don't hesitate to reduce the attack power of the Dark Magician Girl Are you going to use that trick again?"

What happened next was just as he expected. This time, Yuei Vu didn't hesitate to play the spell card that he had just recollected last turn: "Activate spell card Dark Magic Twin Burst! The attack power of the Dark Magician increases by the attack power of the Dark Magician Girl!"

[Dark Magician, ATK 2500 ATK 5100]

"Battle!" Yuei Vu directly declared, "Attack with the Dark Magician! Take over the joint power of master and apprentice!"

The wands of the sorcerer and his apprentice intertwined again, and the magic powers of the two converged in one place. The red and black currents spilled out in all directions, and the swirling magic power turned into consecutive magic spheres and shot out!

With an attack power of up to 5100, even the so-called strongest Magician of Black Chaos was powerless to resist!

"Hahaha! This is not necessarily!" Pandora laughed, waving his arms violently, "Look, what are the tactics of a top magician! Then this is the real end of this duel!"

Open the set card Unbreakable Spirit!"

Unbreakable Spirit (Trap Card) If you control only 1 face-up monster: Target that monster; until the end of this turn, it gains ATK equal to the ATK of the monster your opponent currently controls with the lowest ATK.

Yuei Vu understands: "The monster with the lowest attack power on my field is the Dark Magician Girl"

"That's right! So my Magician of Black Chaos, until the end of the turn, gains 2600 ATK!"

[Magician of Black Chaos, ATK 2800 ATK 5400]

"Hahahaha, attack power 5400! The current Magician of Black Chaos can even knock down the legendary Blue-Eyes Ultimate Dragon!" Pandora began to be proud again, "I won the magician's final confrontation!"

Yuei Vu twitched the corner of his mouth and smiled, "Is that really true?"

"I said, this is the last turn." Yuei Vu drew another card from his hand, "This will be the last card to end the duel!"

Activate Spell card Brave Attack! "

Pandora's face turned green again: "Thisthis card is!?"

This time it was finally a card he recognized.

After playing for so long, Yuei Vu finally took out an original DM animation card. Players who were used to playing real cards may not recognize it, but Pandora, a local duelist, was no stranger to this.

It was precise because of this that he felt an extreme fear a fear of defeat and the ending that waited for the loser of the Shadow Game.

"Brave Attack can combine the ATK of all Attack Position monsters I control to attack one of my opponent's monsters. At the end of the Battle Phase, destroy all my Attack Position monsters."

Yuei Vu paused: "But you can't see that time anymore."

He pointed towards the Dark Magician on the field.

"Due to the effect of Brave Attack', the attack power of the Dark Magician has once again increased by the attack power of the Dark Magician Girl and the Dark Magician of Chaos on my field! Therefore, the attacking power of the Dark Magician is. .."

[Dark Magician, ATK 5100 ATK 7700 ATK 10500]

Pandora began to tremble, his teeth rattled, and he couldn't even use his tongue: "Ten thousand 10,500 attack power!?"

It's just a nightmare.

"The battle continues!" Yuei Vu shouted, "Three Musketeers of black magic, joint attack!"

The Dark Magician of Chaos also joined in, and the three wands were superimposed. The three magic powers are concentrated and released together, and the moment they erupt is like a dark and boundless ocean.

The defense on Pandora's side was blasted through in an instant, his monster was drowned in the sea of magic, and even the sharp screams were drowned out by the sound of the explosion

Pandora, LP 2150 LP 0

Chapter 85: Pick A Card, Any Card

"Ughhhhhhhh!"

Pandora, LP 2150 LP 0

Ghouls' rare hunter, Pandora, was defeated!

"So so amazing!" Miss Yuehua, who watched the battle from the side, cheered and her eyes lit up, "The attack power of 10,000 is this too strong?"

The streamer girl obviously didn't know much. When she saw the five-digit attack power, she felt incredible. Watching this duel, she felt like her whole body was boiling and burning. At the same time, she also felt that the back of Yuei Vu, who was driving the magician, was infinitely tall, so handsome like an angel

However, Yuei Vu didn't pretend to be self-conscious again. In his opinion, he was just an ordinary black magician commanding 10,000 attack power, and he just smashed the opponent into scum.

When you have seen Emperor Hope with an attack power of more than 200,000, you would think 10,000 attack power was insignificant

(In the decisive battle of Yu-Gi-Oh! ZEXAL, the protagonist, Yuma Tsukumo, summoned the Number 39: Utopia with an attack power of 204,000)

But of course, that was the age of Xyz. In the DM era, Five Headed Dragon with an attack power of 5000 was already a super monster, and it belonged to the boss-level monster in the animation. In this environment, stacking 10,000 attack points was still an achievement.

In addition, due to the fact that it was a Shadow Game, the damage caused by the attack was quite astonishing. Such a shot almost tore Pandora's soul to shreds.

Mr. Magician was lying on the ground with his mouth open, twitching from time to time to prove that he was still breathing temporarily, but his eyes no longer had any light. It felt like a person has lost his soul, and was on the verge of death

The comment in the live broadcast room started again.

"Is this a Shadow Game duel?"

"Then this Pandora brother is a bit miserable. It's all turned into a mosaic, right?"

"LP-9999999 warning."

On Yuei Vu's side, the menu also indicated that the quest had been completed. And since the Shadow Game seemed that it was in a high level, the soul of the loser would be swallowed by the eternal darkness, so this visual inspection should solve this original BOSS once and for all.

Thinking about it this way, it seemed a little memorable. After all, it was the first Boss that Yuei Vu met after his rebirth. From another angle, it could be regarded as his first dime

If the soul was swallowed through the Shadow Game, then 99% may be really hopeless.

After all, there was only one Jonouchi in the world the man who not only fell in the Shadow Game but also faced the flame of the sun god. Yet he was able to jump off the hospital bed the next day, and he didn't seem to have the slightest sequelae, and he might even jump on the face of the sun god to be arrogant: "That's it? That's the wrath of the gods?"

Years later, when the duel king Yugi Muto talked to his younger generation about the Battle City of the first generation, he might describe it like this: "When we entered the semi-finals, there were only four of us left.

I hold the Osiris the Sky Dragon; Kaiba holds the Blue-Eyes White Dragon and the Obelisk The Tormentor; Marik holds The Winged Dragon of Ra, and constantly relies on the Shadow Game to win ..

and the Jounouchi-kun who kept rolling the dice and tossing coins. "

""

Jonouchi was inhumanly strong!

Looking at it this way, it was no wonder that Pegasus later counted Jonouchi as one of the top five legendary duelists in the world. The God of Gamblers really deserved his name.

Seeing that Pandora "twitched all over and then became dull" for a while, his whole body softened. Yuei Vu was thinking that this guy was finally going to die, but he didn't want this guy to suddenly bounce up like a tumbler.

He opened his eyelids and glared at him, almost not startling Yuei Vu.

What's the situation? Terminal lucidity?

It doesn't seem to be

Yuei Vu quickly found out that although it looked a bit like a corpse, the one in front of him was no longer Pandora.

At this moment, his eyes were white, and his limbs were hanging limply, like a thread-pulling puppet being pulled by an invisible thread. The golden eye on his forehead brightened, and another person took over his body.

Yuei Vu narrowed his eyes: "Marik Ishtar."

"Exactly." Pandora's mouth made a mechanical sound.

The soul named Pandora was no longer in this body, and there was only an empty shell left. The one who was talking to Yuei Vu now was Marik.

"Yuei Vu, a new star in the Nightcrawler World?" Marik said with interest, "I have heard a lot of news about you recently. As a newcomer, you are quite famous in the underground world."

"You praise me too much." Yuei Vu smiled, "You are certainly a senior based on your experience in the underground world, but you're not much earlier than me. If you have to say it, we can still count as the same period."

Marik laughed dryly a few times, and the voice that came out through this empty throat was very strange.

"You're an unexpected variable," Marik said. "I'm very interested in you, but we don't have to be hostile."

"I understand." Yuei Vu stretched out a hand to stop him from continuing, "Now it's time for you to make an offer that I can't refuse, and let me join your Ghouls, right?"

Anyway, most of the villains had no new ideas. Nine of the ten villains had similar lines, and the remaining one may be forgotten.

"Oh? It seems you understand very well."

Marik was a little relieved. He originally only asked Yuei Vu with the attitude of having a try, but he didn't expect this eye-witness to be surprisingly easy to talk to.

As long as Yuei Vu was willing to join him, then everything would be easy. Anyway, apart from the only real confidant Rishid, in Marik's entire organization, all the others in Ghouls were brainwashed and manipulated by him with the Millennium Rod.

He just needed to give a blank check and let Yuei Vu see some benefits to coax him in, and then brainwashed this guy, wasn't it a strong subordinate for free?

So here Marik decided to directly show the splendor of being the boss: "Then let me hear your conditions! You may also know that our Ghouls have the best copy card technology in the world. You can designate any rare card, our Ghouls can definitely help you get it!"

Having said that, he smiled complacently.

"Hey, even cards like the Exodia the Forbidden One, or the three Egyptian Gods can be easily copied with our technology."

Yuei Vu couldn't help rolling his eyes.

Oh, do you think that I don't know your little trick?

What Marik said was true. There were indeed a dozen copies of three Egyptian Gods in Ghouls' storage, but whether he has the ability to control them was another matter.

Up to now, all those who dared to use the fake God card have been buried

Marik has a very bad heart. He deliberately seduced the opponent with a huge temptation that most duelists couldn't resist, but he didn't tell the other party about the potential risks. It was obvious that he was digging a hole and waiting for Yuei Vu to jump in.

However, Yuei Vu didn't care and instead pretended to be serious and thoughtful: "I don't care about the God card, but I do have the card I need. If you can get it, it's not impossible to join Ghouls"

Marik's heart was overjoyed, and he felt a play.

Yuei Vu's strength was undoubted. Just because Yuei Vu alone has defeated so many rare hunters of Ghouls in a row, this talent was worth recruiting.

Not to mention that there were rumors all over the underground world recently, saying that Yuei Vu had suppressed Kaiba Seto, and even forced out Obelisk the Tormentor in the end!

Because a large number of spectators are members of Nightcrawlers World, therefore, when news spreads from them, it was inevitable that there would be some extra ingredients.

Some of the older brothers simply described the situation as being completely one-sided, Kaiba was powerless to fight back under Yuei Vu's fierce offensive, and in the end, he was unable to turn the table even with Obelisk. If it wasn't for that fellow Kaiba pulling the screw fast, he would definitely lose in the end!

Although Marik estimated that these rumors were exaggerated, as the old saying, "there is no smoke without a fire", the rumors must not be baseless.

If he could convince Yuei Vu to join, then his plan of revenge for the Tomb Keepers would surely come true!

Marik has already made up his mind, no matter what card Yuei Vu wanted, he would satisfy him first, so he waved his hand: "Tell me, what do you want? Any card will do. Even the replica card of the legendary Blue-Eyes White Dragon is not out of my reach."

As expected, Ghouls' technology was so powerful, even being able to clone President Kaiba's wife.

However, Yuei Vu waved his hand generously: "You don't need such an expensive rare card. My requirements are not that high. I think about it Then get me a Stratos first."

Marik didn't even want to think about it and immediately tried to pretend: "Okay, no problem! With our Ghouls technology"

Then he realized something was wrong.

"Uh wait, what did you just say you wanted?"

"Stratos."

Yuei Vu repeated it, and at the same time put on a skeptical expression, "You haven't even heard of the famous Stratos, have you?"

"Elemental HERO Stratos." He added.

Marik: "?"

What is that?

Chapter 86: Die By Anger

"Elemental HERO Stratos, the sky hero." Yuei Vu repeated it again, still with an expression of "You don't even have this, right?"

Marik: ""

Fortunately, at this moment, he was talking to Yuei Vu through a puppet, and his own expressions and reactions were invisible. Otherwise, Yuei Vu would have been able to see that the newly-promoted behind-the-scenes boss in the underground world was having a sore face at this moment.

Marik's reaction now is a bit like a deaf janitor

What did you say about the sky?

What hero?

What?

No wonder he felt embarrassed. As the head of the world's largest fake card dealer, he just finished boasting that he has all kinds of cards. Then came a card he had never even heard of

"Ahem, our Ghouls's card library is very comprehensive and rich in variety. Sometimes I can't remember all their names. Can you describe the card you're talking about in more detail?"

Of course, there was no pressure on Yuei Vu. Stratos's effect must be branded into the DNA of every HERO player, and it can be written down when blindfolded.

"Level 4, Warrior-Type, ATK 1800, DEF 300, with two special abilities. When this card is Normal or Special Summoned: You can activate 1 of these effects.

Destroy Spells/Traps on the field, up to the number of "HERO" monsters you control, except this card.

Add 1 "HERO" monster from your Deck to your hand.."

Marik was lost in thought.

Marik, who thought he had a lot of experience in reading people, felt that the other party was not fooling him. Judging from the fact that the other party could give the card description so quickly and in detail, he thought that this card might actually exist.

However, he never heard of it

But Marik didn't expect that Yuei Vu seemed to be surprisingly easy to talk: "It's fine if you don't have it, I also have some other needs. Besides HERO, Dark Magician is also one of my main decks, and I happen to be missing some supporting cards "

As soon as he said this, Marik got excited again: "For the Dark Magician series, we Ghouls have everything in our hands! Come on, which card do you need?"

"I think about it," Yuei Vu thought for a while, "Thengive me a Dark Magical Circle?"

"Dark Magical what?" Marik felt that he was deaf again.

What is that?

"The Continuous Spell Card which is the key to the Dark Magician's deck there is no such thing? Forget it. What about the Eternal Soul'? This should be there, right?

No? Okay, okay, how about Dark Burning Magic'?

What kind of broken organization are you? Why don't you have even one good card?

You don't even know how to print cards yourself, just faking some meaningless cards all day long. Now I understand why you can't beat Yugi"

The image of the golden eye on Pandora's head flickered for a moment, and it seemed that Marik on the other end was almost exploded out of anger.

He said gloomily: "So, you don't plan to join us?"

"I don't plan to, I think you bastards are doomed." Yuei Vu shrugged.

Marik snorted heavily.

Obviously, before he came to contact him, he had long thought that Yuei Vu would reject his proposal, but he never expected that he would be so angry after being rejected.

"Very good, then don't regret this choice." Marik said coldly, "Your choice will attract the wrath of God. Not only that, but also your weak organization will sink into the dark

what are you doing! ? "

Marik couldn't help but stop halfway through speaking.

Because at this moment, Yuei Vu strode to the body controlled by Marik, raising his arms.

Then, in front of Marik, he graciously raised Pandora's Duel Disk, and without a word, pulled out the entire deck

At this moment, Marik looked down at the empty Duel Disk in his hand and fell into deep thought for a long time.

Dude, when I said harsh words

you still have the mood to pull my deck? ? ?

What are you so

Even Miss Yuehua's live broadcast room was full of joy.

"666666, I really didn't expect him to pull out the deck halfway through the conversation."

"I would like to call you the strongest!"

"I laughed so hard, the rare card hunter now becomes the hunted"

"False Rare Card Hunter: You must win a card game before you can honestly steal a card. Real Rare Card Hunter: I just skip the plot dialogue and pull the entire deck"

Yuei Vu shook the deck of cards in his hand and explained, "Oh, according to the rules of the duel city, the winner can take only one card. But most of your deck are fake cards, and I can't find out which one is the genuine card, so I had to take it back and pick it slowly.

Don't worry, I'm a man who keeps his word. In case we can meet again in the future, I'll return the rest after the selection"

Is it too much? Yuei Vu didn't feel that at all.

The second time he won against Pandora, the system gave him another Dark Magician, but it was a task reward after all. According to the rules of Battle City, he could also take a rare card from Pandora.

Actually, it's a pity that Pandora was defeated here, because it meant that he won't have the chance to beat Pandora for the third time in the future, and his third Dark Magician was also missing.

Although more than half of the Pandora decks may be fake cards, even if he took them back and sell them as scraps, he could get a little back.

What? You said that according to the rules, the winner could only take one card from the opponent. Too much was a foul?

Then you may have forgotten that Yuei Vu was not only a contestant at the moment but also a consultant of the dueling monster department of the Kaiba Corp, barely half of the organizer of the competition.

As the organizer, I found out that my opponent was suspected of using fake cards during the competition, so I temporarily brought the deck back to test and check it. Is there any problem?

Anyway, he felt that there was nothing wrong with his logic

At this moment, Marik, who was remotely controlling Pandora at the other end, was already full of the character "Well" which was unique to comic characters.

Marik controlled Pandora to raise his arm and pointed at Yuei Vu angrily: "You can still be arrogant now! Do you think that if you find the protection of a second-rate organization like Nightcrawler World, I won't dare to do anything to you?"

Don't be too proud! I'll leave my words here today, the Battle City will be your burial place! You wait for me, and I'll"

Before he could finish speaking, he saw Yuei Vu turn around again, and took off the Duel Disk he was wearing on his raised arm.

Marik: ""

Ah, ah, ah, I'm so pissed off! How could there be such a shameless duelist! ! !

"You, you, you"

Pandora's body pointed at Yuei Vu, angrily as if he wanted to say something, but in the end, he didn't seem to be able to say anything. , twitched twice and stopped moving.

Yuei Vu: ""

Marik doesn't he die by anger?

The comment section in the live broadcast room was blooming with joy.

"66666, it's okay to be pissed off."

"In ancient times, Kong Ming killed Zhou Yu, but now there is Marik who exploded in situ"

Of course, it was too exaggerated to die by anger, but Marik was really angry and exploded in place. At that time, an emotional person accidentally disconnected the tele-control of Pandora and dropped the line directly.

It's just that because the disconnection was too sudden, it seemed as if he had been pissed off and was very happy

At this moment, somewhere far outside the city of Domino, Marik was sitting on a stone chair, trembling with anger.

His most loyal confidant, the big man Rishid came up: "Lord Marik"

Clang!

That was the sound of the Millennium Rod in Marik's hand smashing to the ground, and sparks burst out from the end of the golden rod.

"The plan has changed." Marik said solemnly, "Let's go to Domino now."

Did he feel sorry for those cards that Yuei Vu pulled out? Or because of the Duel Disk?

Of course not. Such a loss meant nothing to Ghouls.

He was angry at the guy's attitude.

He actually stole away the most important card and Duel Disk from the duelist, is this scum still worthy of calling himself a duelist!?

The head of the world's largest card robbery group/fake card publishing group, Marik Ishtar thought.

Chapter 87: How Far Will She Fly?

Seeing the end of Yuei Vu's duel, the items that Boss dropped has also been picked not even the Duel Disk. At this time, Miss Yuehua finally got her chance.

At this time, Miss Yuehua, who has been in the game area for many years and has cleared more than 100 reverse-harem Otome games, quickly simulated a follow-up battle plan according to the game routine in her mind.

Now she must wait behind the corner, when the other party turned around unprepared, she would slam her head into his arms and create the most romantic encounter!

Wow, it's simply a LOVE FANTASY!

Cough, of course, Miss Yuehua told herself that this was all for the effect of the show, just the effect of the show. After all, the streamer is always shouldering the burden of mobilizing the atmosphere of the live broadcast room.

I, Miss Yuehua, was definitely not a nympho!

After all, she's been in the streaming industry for so many years, how could she be undignified enough to desire NPC's body? Simply ridiculous!

Okay, all the units are in their places! Pay attention, the target is coming!

Seeing that Yuei Vu seemed to have walked to the wall behind the corner, Miss Yuehua took a deep breath, closed her eyes, and rushed forward!

However, at this moment, the NPC actually stepped aside

Did he just dodge!?

Therefore, the girl's carefully planned collision came to nothing, and she couldn't even stop herself because the momentum was too strong, and stumbled several steps forward.

The battle plan didn't work out, yet the atmosphere in the live broadcast room was boosted, though not as she planned

"66666! This is too beautiful, isn't it?"

"Shit, I laughed so hard"

"Everyone, take a good look and study hard. This is the talent to be single."

"Thank you, Brother Yuei Vu, you have already taught us an important lesson."

At this time, Yuei Vu was also puzzled.

Why won't this guy find someone else to play cards with?

You know that duel with me is "suicide" with more letters, right?

However, Yuei Vu didn't want to accept the player's challenge. After all, the players were all his potential hunters. In his opinion, they were actually in the same camp as him.

After all, the player's card is mine, and my card is still mine.

Because of this, he felt that it would be a loss for him to eliminate players from the same faction.

So now he pretended not to see it and walked away casually

"That's right, Yuei Vu!" Miss Yuehua suddenly remembered something, "I saved a lot of crystals before and the game started before I could find you. Can I still buy a card now?"

""

Yuei Vu, who had already walked away, turned around unexpectedly, with a kind smile on his face: "Huh? Isn't this the customer lady who visited our store before? It's a coincidence to meet you in the Battle City "

Miss Yuehua: ""

Dress up, let's put this one on!

You just hid so quickly and you told me you didn't see me at all? Even a person with high myopia and amblyopia plus astigmatism couldn't be that blind!

However, as soon as she saw Yuei Vu's warm smile and the high-level beauty that she never encountered ever, she immediately felt that all dissatisfaction disappeared

Damn, I'm so spineless!

because he's so handsome

But this way, Miss Yuehua was convinced that she had found a way to attract Yuei Vu's attention.

It seemed that Yuei Vu was particularly interested in doing business. As long as you patronize his business a lot, your favorability would definitely increase!

In layman's terms, it was the kind of NPC that was designed to loot your money.

Miss Yuehua, as a well-known streamer in the game area who has played countless games, understood this truth. That little bit of planning can't deceive her at all!

The words say so, but she still bought it when it's time to buy.

After the transaction was over, Yuei Vu continued: "Okay, with these cards your deck must have been strengthened considerably."

Realizing that he was about to leave, Miss Yuehua hurriedly said, "Let me go with you!"

This was also the ultimate goal that she decided when she participated in the competition to be a front-row photographer, to live broadcast the whole process of Yuei Vu's Battle City promotion!

Anyway, it's not practical for her to advance to the next round. She, a rookie, has never had this idea at all. This time, her goal was to follow Yuei Vu, a popular NPC, to gain a lot of popularity, and try to make it to the top popularity list of the live broadcast platform this week.

However, Yuei Vu obviously didn't mean this: "We are all duelists, and we are rivals with each other during the competition. It would be inconvenient to act together. Why don't we work hard by ourselves and strive for another chance in the final"

"That's right, Yuei Vu! I defeated a duelist on the way here and won a card. Are you interested in receiving it?"

"Um?"

Yuei Vu took a closer look and saw that Miss Yuehua took out a trap card. The card artwork was a dignified bearded old man wearing a long white robe

!?

Wait! Is this "Solemn Judgment"?

Solemn Judgment (Counter Trap Card) When a monster(s) would be Summoned, OR a Spell/Trap Card is activated: Pay half your LP; negate the Summon or activation, and if you do, destroy that card.

Divine card! A true divine card!

Can this kind of card be snatched from a passerby who was casually defeated?

Before the Battle City, Yuei Vu opened thousands of card packs in the store, and he didn't even see a single sign of Solemn Judgment. He thought that such a discordant card had not been released in this era, but turned out that even the trashy fish on the roadside had one in his hand?

It seemed that it could only be attributed to his luck

The activation condition of "paying half of LP" may have persuaded 90% of the duelists in the DM. People still generally thought that LP was the most valuable thing in a duel. It was a bit of a loss to exchange half of your life for an effect activation or monster summoning.

However, in the real Yu-Gi-Oh! real card environment, everyone started with 8,000 HP, so most of the time when Solemn Judgment was activated, 4,000 points would be deducted, and no one felt pain at all.

What? Loss of blood? Isn't that 4000 points left?

4000 LP for a chance to interrupt the opponent, this deal was quite beneficial!

Yuei Vu was very interested in this card and was also very satisfied with the performance of this leek eh, player.

So as soon as he was happy, he decided to make an exception, and took out the super high price of 500 crystals to take back this Solemn Judgment!

Miss Yuehua was overjoyed.

One card was exchanged for 500 crystals! If I honestly do quests, God knows how long it will take to gain this amount!

As expected of Yuei Vu-san, not only was he handsome, but he was also lavish!

Yuei Vu was also very satisfied.

Five hundred crystals for a Solemn Judgment! What a harvest!

"So can I follow you?" the player girl asked cautiously.

Yuei Vu turned his head to the side and looked at her big eyes that were fluttering and blinking, those pitiful and expectant eyes, and suddenly he couldn't help thinking

Such a cute girl, if I kicked her at this moment, she would have flown very far, right?

Chapter 88: Something Seems To Be Wrong?

In the end, Yuei Vu brought the girl with him.

With a wave of transactions and a Solemn Judgment, Miss Yuehua finally managed to gain 5 points of favorability from Yuei Vu and became a full-time cheerleader after him!

She turned around and changed the name of the live broadcast room

I was reborn as an OB in Battle City!

Then the cover was replaced with a screenshot of Yuei Vu.

Screenshot angle, post-processing, etc. were not necessary. Anyway, Yuei Vu had a good enough appearance, there was no death angle, and even the back of his head was about two to three times more handsome than ordinary people.

Then the popularity of the live broadcast room soared as expected, and after a while, it rose to the highest peak this month.

Miss Yuehua was so happy that she couldn't close her legs.

As expected of my Yuei Vu, he is amazing, and his popularity is simply overwhelming! Going on like this, rushing to the top of the list is like eating and drinking!

This is just a morning with Yuei Vu. If I could always be by his side, would I still be so hot in the future?

Maybe it's possible to become No.1 in the streamer circleAhaha, just kidding.

But thinking of this, Miss Yuehua's eyes couldn't help but heat up, and when she looked at Yuei Vu, a small heart thumped.

If there is a chance, it is not impossible to be his Mrs. Vu

At this time, Yuei Vu also felt that it was not bad to bring such a player.

After all, the traffic of a famous streamer was not small, and the whole process of filming his duel in the city for two days was right to advertise.

Although the Open Beta players should all be working hard for their puzzle cards now, and 80% of the audience were casual players who have not qualified for the Open Beta, most of them should still come after the official server launch.

Now, a wave of advertisements in advance was considered an investment for the future, and when the server was officially launched, a new wave of leeks can be cut, which was perfect.

Moreover, Yuei Vu didn't have the hands to hold the Duel Disk that was confiscated from Pandora at the moment, so he handed it over to Miss Yuehua behind him.

Tool man, it's so easy to use!

The first morning of the Battle City Tournament has passed, and it may be almost time for lunch.

As a player, Miss Yuehua didn't have this problem, but she thought that Yuei Vu might stop to find something to eat first.

At this moment, she couldn't help but slap her forehead.

Oops! I'm so stupid, really!

If I bought food for him in advance and delivered it in time, wouldn't I be able to get more favorability?

Damn, why didn't you think of it before? I don't know if it's too late to fix it now

In front of Yuei Vu's footsteps suddenly stopped, and Miss Yuehua, who was thinking wildly, almost collided with her head.

After returning to her senses, she found that another man appeared in front of Yuei Vu at an unknown time.

That guy was muscular, with shoulders as wide as two Yuei Vu, a stout body like a tree trunk, and a face full of stubborn flesh.

With the keen intuition of senior gamers, Miss Yuehua quickly realized that this might trigger the plot again.

Another enemy attack!

And she thought that there was a high probability that it may still be from Ghouls's side. After all, when she looked at this shoehorn face, she could tell it didn't belong to a good person!

Sure enough, the atmosphere has become solemn at this time. She saw Yuei Vu's footsteps pause for a moment, and then he continued to walk toward the muscular man. And the man narrowed his eyes, and then strode up to meet him.

There was a feeling of PK at the top of the imperial city. (1)

The two quickly approached, and they were about to face. The eyes of the two collided, making invisible sparks in the air, and a war was about to break out

then their hands were held together.

Miss Yuehua: "?"

Wait,

No, there is a problem

You don't play cards?

"Ha, you seem to be in good shape. You must have collected several puzzle cards, right?" The brawny man laughed.

"No, it's only one. It was snatched from a Ghoul." Yuei Vu shrugged, "What about you, Kuroda? I heard that you also signed up for the competition. How's your record?"

That's right, in Miss Yuehua's eyes, the "bad guy who looked like a shoehorn" was Kuroda of the Nightcrawler World.

Kuroda was a little embarrassed: "Haha, I was knocked out by another duelist."

"Oh? Someone who can defeat Mr. Kuroda, that sounds like a very strong duelist, right?"

"Well, it's Mako Tsunami with the ocean-themed deck, which was third place in the national competition before. I tried it out, and it's really a mess."

Mr. Kuroda gritted his teeth, "In front of his sea tactics, I have no power to fight back. He hid monsters in the sea and launched a sneak attack on me. Most of my monsters do not have the ability to fly and can't cross the ocean, and they can't fight at all "

Yuei Vu: ""

So the ocean he mentioned 80% was the field spell "Umi", and the effect was to increase the attack power of various types of monsters related to the water system?

Unable to attack if unable to cross the ocean? It could only be said that this was worthy of the era of BISS. Adding one or two rules simply can't seal the imagination of duelists in this era

Yuei Vu remembered that in the original manga, when Jonouchi fought this Mako Tsunami, he seemed to be slapped like that. However, Jonouchi obviously learned some essence after staying with Yugi for a long time, so he printed cards on the spot, and used spell card Polymerization to let his monster Alligator's Sword ride on the "Baby Dragon" with flying ability so that the monster gained flying ability

Jonouchi said: Didn't you say that my monsters can't swim so they can't attack you? Okay, now my monsters can fly, so my monsters can ignore your front row and fly over from the sea, attacking players directly!

When the animation production team saw this scene, they must have thought it was too shocking, so when the animation was made, the content was deleted, and the effect of Alligator's Sword Dragon was changed into "This card can attack your opponent directly if the only face-up monsters they control are EARTH, WATER, or FIRE".

"Sure enough, I still lack training." Mr. Kuroda didn't seem to be annoyed by people's bullshit, but only said, "If I were as strong as you eh, that's all. Don't say it. Anyway, it's definitely not a problem for you to reach the top eight, right? Our association is counting on you."

Hearing what he said, Yuei Vu suddenly felt like he had the "hope of the whole village"

"But of course, I won't give up on it." Kuroda grinned, "I've decided since the last fight that I want you to be my target."

Next time I will be different, next time it will be your turn to be the naked one"

Bang!

The Duel Disk that Miss Yuehua was holding in her hand fell to the ground at once, with "Fuck" written all over her face.

Yuei Vu instantly realized that there might be some serious misunderstanding.

In order to consider the harvest of leeks in the future, he must explain clearly: "Oh, this is Mr. Kuroda, we are only opponents who duel once"

Miss Yuehua nodded dumbfoundedly, and before she regained her senses, she heard the muscular uncle add: "Yes, but Yuei Vu was too strong, and I was defeated throughout, hahaha!"

"I see." Miss Yuehua had a frightened expression on her face.

It almost scared me to death, I thought the male god came out to be gay, and my dream was shattered

As a result, Kuroda scratched his head and said embarrassedly, "Oh, but the person who loses according to the duel bet has to do a striptease on the stage. Hahaha, this is my first time, it's really shameful."

Miss Yuehua nodded while listening.

Oh, so that's true, it's okay, I thought it was just a strange hobby that the male god came out of the closet

Wait, something seemed to be wrong!?

Chapter 89: The Confrontation At Domino Pier

Yuei Vu had to explain the ins and outs of the matter.

About how he joined the Nightcrawler World, the duel challenge he accepted when he joined

And then of course he tried to emphasize that the gay man's bad taste request was definitely not made by him, it was Kuroda's initiative!

Miss Yuehua and her audience in the live broadcast room were all stunned, and they all breathed a sigh of relief fortunately, our male god was still straight, otherwise, some irritable brothers may

have booked a flight ticket and carried a knife across the ocean to find the person in charge of the game design to talk about life.

But it was an unsolicited request. It seemed that this Mr. Kuroda was not normal.

Miss Yuehua silently decided to keep a little distance from this muscular man.

However, she soon found herself thinking too much.

Yuei Vu quickly followed Mr. Kuroda to the nearby stronghold of the Nightcrawler World to eat something to rest for a while. Miss Yuehua, who was a small attendant, was also followed by a charter.

Then here, she intuitively and truly realized what was called "the Manchu-Han Banquet"

The little girl was caught in the middle of a room full of big men. The rough voices of a group of men like thunder shook her eardrums. The space was filled with the hormonal scent of brotherhood, and her eyes were full of muscles.

The well-informed and experienced streamer suddenly had the illusion that the sheep had strayed into the wolf's den, huddled in the corner, weak, pitiful and helpless.

"By the way, what kind of organization is this that Yuei Vu-san joined?" A comment asked.

"Is this really a poker club?"

"Bro, I'm in!"

"I suspect you have a problem"

In the middle of the noisy lunch, a man suddenly rushed through the door in a hurry. He looked around anxiously two times, but he didn't seem to find the person he was looking for, so he casually asked the person beside him, "Is President Gai here? There is something urgent."

Before the person next to him could say a word, he heard a muffled voice in front of him: "Here."

The man looked for a while in a daze when he heard the voice. Where?

Oh, it's so far away in the sky, so I'm sorry, the size of the president is too small. I just didn't see it.

Kawasaki Gai was very unhappy: "What's the matter?"

"That's right, our intelligence network has just learned that a large number of new rare card hunters have been dispatched by Ghouls to prepare to land in Domino City. If the information is correct, it should be arriving at the dock soon."

"Unreasonable!" President Kawasaki Gai scolded, "Does that guy Marik really want to die?"

When Yuei Vu heard this, he thought: "President, why don't I take someone to see it?"

"No need, you just need to concentrate on the game." The president smiled boldly, "Hehe, my Archfiend deck has long been craving blood. It just so happened that Marik dared to send cannon fodder to die, so let me kill them. Treat it as a sacrifice to the darkness"

Next to him, Manager Nanmoku casually reminded: "You mean the pure Archfiend deck with an insect stuffed in it?"

President Gai gave him a blank look as if he was saying that "even if you don't speak, no one will treat you as a dead person".

"That's right, President!" The man added, "I heard that Marik Ishtar himself came this time!"

"Heh, a small question, no matter how many cannon foders come wait, you said he came in person?" The expression of President Gai changed slightly.

Marik himself was well-known in the underground world. After all, he has one of the legendary Millennium Items in his hand, and his strength was close to the peak of the Shadow Duelist. Coupled with God cards in his hand, ordinary duelists simply did not dare to confront him head-on.

President Gai pondered for a moment, then suddenly took out his mobile phone: "Hello? It's mewhat!? The daughter-in-law of the nephew of the relative of the third aunt's family has dystocia? Well, wait for me and I'll go there right away "

Then he turned around and patted Yuei Vu's shoulder heavily: "Well I seem to be in a hurry at home. I'm really sorry, why don't you lead the team this time?"

""

The house was eerily silent for a while.

President, you can act a little more fake, your phone didn't ring at all, right?

And what is the relationship between the nephew's daughter-in-law of the relative of the third aunt's family and you?

But in the end, the president went there himself.

The reason was that "if a leader hides behind when subordinates are charging, he is not qualified to continue to lead the group."

President Kawasaki Gai was ugly, short, and fierce like a hairless chicken. At first glance, he was not a good person

but he was actually quite nice.

Of course, in the end, he brought Yuei Vu with him. The reason was also very simple. The president knew very well that, except for Yuei Vu, in their entire association, no one could possibly win against Marik Ishtar.

A group of strong men had an attitude that was almost a little bit afraid of the name Marik, it felt like wizards mention Voldemort.

Yuei Vu expressed puzzlement about this: The Marik you mentioned is really so powerful?

Then a group of strong men immediately explained: Of course! He had a Millennium Item, who is not afraid? Along with two God cards, it's invincible, right?

In fact, it sounded like Marik in this world was indeed a top duelist, but Yuei Vu, who has watched the animation, really couldn't feel that way.

Speaking of which, Marik seemed to be very strong and arrogant, but in the animation, he was really a load. Not to mention the Yami Marik personality hidden in his body, it seemed that Marik has never won a duel.

Originally, Yuei Vu was ready to go straight to the dock to meet Marik on the spot, but what he didn't expect was that the goods didn't show up at all.

A group of big men from the Nightcrawler World with a weak and helpless female streamer in the middle came to the pier, and it didn't take long for Ghoul's boat to dock after setting up their posture.

A large group of strong rare card hunters in black robes jumped off the boat one after another, and they formed a formation not far from the crowd.

The formation laid out by the pier was like a confrontation between two armies in ancient times. At that time, the dark clouds would form, the wind would be surging, and the air would be filled with a strong smell of gunpowder, as if the war of the century was about to break out

then everyone raised the Duel Disk one after another, staring at the enemy formation, preparing to catch someone to play cards for a while.

Then the crowd of people in the Ghoul's camp separated, and a black man appeared in the crowd.

Yuei Vu recognized him at a glance: Isn't this Marik's right-hand man, Rishid?

Kawasaki Gai narrowed his eyes: "Is that Marik?"

Although Marik was very famous, he was usually accustomed to using Millennium Rod to control the puppet to do things for him remotely. He rarely showed up in person, so almost no one has seen his true face.

"That's right." Rishid said coldly, "I am the leader of the Ghoul's, Marik Ishtar."

Yuei Vu: "Who are you trying to fool? You are not Marik."

Rishid narrowed his eyes. Although he didn't know why the other party said that, he still took out a golden tin rod from behind him: "Look! This Millennium Rod is the proof!"

Yuei Vu was disdainful: Oh, isn't it just a toy that the street stall sells with the price of \$3 for one, \$5 for 2? Do I look like an idiot to you?

However, he was not in a hurry to expose the other party immediately, because he found something more interesting.

Yuei Vu noticed that behind Rishid, there were a bunch of colorful strings of different lengths floating above the phalanx of the rare card hunters

Unexpectedly, there were so many players in the Ghoul's camp!

Chapter 90: It Had To Be Resolved By A Duel Anyway

There were players who joined Ghoul's camp in the Closed Beta phase before, and the number of Ghoul's players increased after the Open Beta.

Ghoul's was originally a famous villain group in the original animation. Although this group was a rising star in the underground world and has not been established for a long time, in the eyes of players who understood the worldview through animation, this is definitely the most famous group.

Players didn't care if it was good or evil at least most didn't. They only cared about how to earn more crystals to buy more cards and how to upgrade faster.

Because Ghouls has a lot of troubles, and there were many quests involving Shadow Game duels, the upgrade rewards were naturally relatively rich.

Found that joining the Ghouls camp could quickly obtain benefits and rewards, naturally, some players would invest in it.

As for being hostile to the protagonist group? Has the original plot been rewritten?

Who cares so much about playing a game? Shouldn't those be the designer's concerns?

However, the players who were not afraid of the sky and the earth are starting to be a little commotion at this time.

"Wait a minute, the NPC on the other side looks familiar, but I can't remember it right away. Is there such a character in the DM?"

"What NPC are you talking about!!? I'm so isn't that Yuei Vu who has been frantically surfing the forum recently?"

"Fuck, it really seems to be him!"

"Wait, is Yuei Vu related to the DM main plot? Why has no one said before that he and Ghouls are hostile?"

The players on the Ghouls' side began to have an internal fight in their minds.

Although the advantages of joining Ghouls were not small, compared with the things displayed in Yuei Vu's personal store, it was too poor.

Because even if players joined Ghouls, the only channel for them to get cards were quest rewards and system card pools. They still couldn't get things that didn't exist in the card pool like Pot of Greed or Card of Sanctity.

The only way to get those specific cards in the game was to have dual identities of players and NPCs like Yuei Vu, so those cards could be converted and exchanged.

This also made Yuei Vu the thickest golden thigh of the players in the entire Yu-Gi-Oh! World Link Online. The son of the cards, the protagonist of the world, etc.. all had to stand aside when he came.

The players on Ghouls' side have all received quests. The description of the quest was to follow the leadership of Rishid to defeat the troops of the Nightcrawler World.

Originally, this quest reward was relatively rich in the eyes of players, but now players have begun to hesitate.

Is it really worth it to offend the thickest golden thigh in the game in order to stay in this broken faction that was expected to be beaten by Yugi, and may be disbanded soon?

Even someone thinking with their butt could easily have the answer.

After hesitating for a while, a player walked out of the crowd behind.

Rishid was stunned: "You, what do you want to do?"

The player ignored the team leader and went straight to Yuei Vu: "Speaking of which Is it too late to change the faction now?"

Rishid: "?"

Everyone in the Nightcrawler World: "?"

What do you mean? This rare hunter is saying he wants to change side?

Everyone in the audience, regardless of side, was confused. Only Yuei Vu was not surprised at all. He nodded with a friendly smile: "Yes, of course, there is no problem. Our Nightcrawler World welcomes any capable duelists to join at any time."

Of course, he didn't just make decisions on his own, but turned his head to seek the opinion of the leader: "Right, President?"

President Kawasaki Gai finally recovered his mind and said, "Ah yes, that's right. Welcome! Anyone who wants to join our association would be welcomed!"

Added to our number and decreased the number of enemies before the two armies started to fight against each other. Is there any reason not to accept it?

The players who were still hesitating on the opposite side saw that the buddy who went up first was simply accepted.

If the faction relationship could still be changed, there was no need to hesitate.

For a time, half of the hunters in the Ghouls camp rushed over like a tide. Among them, there were a lot of strange ones: some running and jumping at the same time, some rolling, and some running while calling out "Yuei Vu-san". Even the men of Nightcrawler World were a little scared by this posture

President Kawasaki Gai wiped his small eyes and was a little confused for a while.

He originally thought that he had been rolling and crawling in the underground world for so many years, and he had climbed step by step to the position he was in today. How could there be something he have never seen?

Then today he opened his eyes

A collective mutiny before the battle has started? What kind of fight was this?

President Kawasaki Gai felt that he really couldn't find a reason, so he couldn't help but glance at Yuei Vu beside him.

Could it be that you can really do whatever you want when you are handsome?

While accepting these players, Yuei Vu kept saying: "No hurry, no hurry, come one by one, we have a lot of places here"

Rishid was also stunned, he had never heard of such an operation.

He couldn't help but took out a Millennium Rod (fake) and shouted: "Stop it! Have you all forgotten? You have all been brainwashed by the power of the Millennium Item. If you dare to betray, you will all die a horrible death!"

The trend of players came to a screeching halt. A group of players stopped in the middle of the two camps, and looked at each other.

So, it seemed that they were indeed brainwashed when they joined the club?

At that time, the system interface reminded them that they had entered a "brainwashing state", and Marik's dark power remained in their consciousness. As long as Marik wanted, the power in their brains may explode at any time.

It was worth mentioning that even if Marik used a Millennium Rod to read the memories of the players, all he could see was their experience in the World Link Online, which was a bit like a video replay, and could not really affect the spirit of the player's body.

The players fell into a brief hesitation and communicated with each other for a while and then involuntarily decided to continue rushing towards Yuei Vu together.

What? Brainwashing? Heads blow up?

Who cares?

If you die once, it will be gone, right?

This is just a game, what's the matter when someone can't afford to die?

As mentioned earlier, players had three chances to die within a week, and each time they died, they needed to wait several hours to revive. If three chances have been used up, they would not be able to go online again within a week.

However, after death and rebirth, all negative states would be cleared and the stats would automatically return to full. Of course, the mental influence of brainwashing would no longer exist.

Anyway, there were not many places where playing card games consumed life, so it didn't feel like a loss to spend a life betraying the faction here.

All the players have joined the side of the Nightcrawler World, and the hunters on Ghouls' side have been reduced by half. Now they were already at an absolute disadvantage.

"Okay, no one should be ready to change jobs, right?" Yuei Vu took a step forward, and raised the Duel Disk, "Then why don't we start it officially?"

According to the tradition of the underground world, the team battle between the two sides directly adopts the Battle Royal mode to conduct a Shadow Game, and anyone whose LP returns to 0 is a loser. How about it? "

The Battle Royal mode was a feature of Yu-Gi-Oh's animation, specially designed for team battles. To put it bluntly, it was actually a group fight.

In the case of a Battle Royal, the side with more people would have more LPs, more hands, and even more venues.

Obviously, this set of so-called Battle Royal rules was actually quite painful and unscientific, so there was no such mode in the real-life card game.

Of course, Shadow Games have always paid attention to fairness, and in this case, the weaker party was not without other options.

Rishid raised the rod and pointed it directly at Yuei Vu: "Before that, I want to challenge you."

This was another Shadow Game that can be chosen according to the rules of the underground world. The weak side could also reject the Battle Royal rule which would result in being crushed by the number of people. Instead, the strongest on both sides would fight to decide the outcome.

It felt a bit like two armies facing each other in ancient times, sending each other generals to fight alone, and the soldiers on both sides cheering by drums.

There was only one chance to challenge. If the challenger succeeded in winning, they could at least get out of it today.

"Okay." Yuei Vu accepted without hesitation.

Originally, this was in his plan. Because Rishid had a rare card in his hand that was suspected to be unique in the DM world, and that was his goal today.

"You also have a puzzle card, right?" Yuei Vu raised the Duel Disk and said, "Since we are still in the territory of Domino, this duel will also follow the rules of the Battle City, how about that?"

Rishid said lightly, "It's exactly what I want."
