

## I Play Yu-Gi 871

Chapter 871: Kyoutou Waterfront

Yuei Vu ignored DD's taunt: "Activate the Spell Card Sacred Sword of Seven Stars"! Banish 1 Level 7 monster from my hand or field; draw 2 cards.

I banish one of the Dark Magicians' in my hand and draw two cards from the deck.

Next is the Spell Card Graceful Charity"! Draw 3 cards, then discard 2 cards. "

Yuei Vu then showed three cards in his hand: "Activate Spell Card Polymerization! I fuse Elemental HERO Blazeman' with Dark Magician!"

DD was shocked: "The fusion of a Dark Magician and an Elemental HERO!?"

Is there such an operation?

"The fusion condition is Dark Magician' + 1 Warrior monster! Fusion Summon!

The black magical cavalry riding on the strong wind

Dark Cavalry! ! ! "

While speaking, the black-robed mage and the Elemental HERO of flame had both left the ground and were involved in a golden vortex in mid-air.

A red spiral spear pierced out from the whirlpool, and a dark horse in armor galloped out. The horse's hooves stepped on the transparent magic circle in the air, and the black knight's eyes were sharp.

[Dark Cavalry, ATK 2800]

"Dark Cavalry" DD hummed, "Did you summon such an ace in the first turn?"

"The effect of Dark Cavalry This card will gain 100 ATK for each Spell/Trap on the field and in the GYs."

Yuei Vu pointed at his field.

"Now I have three set cards on the field, and this turn I also activated Card of Sanctity', Sacred Sword of Seven Stars', Illusion Magic', Graceful Charity' and Polymerization'. Plus a discarded card, that is nine cards in total.

Yuei Vu said and drew another card from his hand.

"Then I will set another card on the field. This will increase Dark Cavalry's attack power by a total of 1,000 points!"

[Dark Cavalry, ATK 2800 ATK 3800]

DD said to himself: "It's a monster with an attack power of 3800 from the beginning No, it's not just that."

This was not the first time that Yuei Vu had used the Dark Cavalry, and its detailed information was not a secret. The Dark Cavalry not only had high aTK, but also had excellent defense-penetrating

and killing capabilities, and also had the resistance of "discarding a card to negate the effects of cards on the field."

A powerful monster that combined both offense and defense.

But

DD curled up the corner of his mouth and revealed a sinister smile.

In the face of the invincible Kaiju, no matter how powerful the monster is, it is nothing more than food!

"My turn, draw!"

DD drew the card in an exaggerated manner, then laughed: "Duel King, feel for yourself the fear of being dominated by the power of a Kaiju!"

The words "Standby Phase" were displayed on the electronic screen of the Duel Disk. DD looked like he couldn't wait to enter his Main Phase to show off his trump card.

So Yuei Vu said without thinking: "Open the set card: Trap Card

Mind Crush! "

DD's eyelids twitched: "This card is!?"

"This card allows me to declare 1 card name; if that card is in the opponent's hand, they must discard all copies of it." Yuei Vu said, "Of course, if the opponent doesn't have that card, I must discard a random card in my hand.

DD calmed down quickly.

Although I just showed off my new ace Sea Turtle Kaiju, the Duel King probably doesn't know its name.

As far as DD knew, Kaiju was a power that had never appeared in this world, thus even the Duel King had no reason to know about it.

The effect of "Mind Crush" was powerful, but as long as he doesn't know the correct name

"The name I want to declare is Gameciel, the Sea Turtle Kaiju!"

Nani!?

Mind Break was activated, and DD was dumbfounded when he saw the Sea Turtle Kaiju flying out of his hands and disappearing out of thin air.

He looked at Yuei Vu in shock: "Why do you know!?"

"Who knows?" Yuei Vu made an innocent face.

It took DD a while to recover from the shock and said in a deep voice: "You know a lot, Duel King. I must admit, this surprised me but this cannot change the established ending! "

He drew a card and inserted it directly into the additional area on the side of the Duel Disk.

"Activate Field Spell Kyoukou Waterfront!"

The ruins were transformed in an instant, and countless modern steel buildings were erected. Metal iron towers tower into the sky, urban buildings stand neatly in rows, and blue waves lap at the port pier.

"I normal summon the Beast King Barbaros!"

The wild beast king warrior appeared on his field, half human and half beast, with a red spear dancing wildly in his hand.

[Beast King Barbaros, ATK 3000]

"Although the Beast King Barbaros was a Level 8 monster, it can be Normal Summoned without Tributing. When summoned by this effect, its original attack power becomes 1900."

[Beast King Barbaros, ATK 3000 ATK 1900]

"After gaining new power, my deck is completely different from the past!" DD shouted, "Activate Spell Card Advanced Draw! Tribute 1 face-up Level 8 or higher monster I control; draw 2 cards!

I sacrificed Beast King Barbaros and drew cards from the deck! "

Yuei Vu noticed that the iron tower towering into the clouds in the middle of the venue had two lights on the top of the tower at the moment.

"The effect of the Field Spell Kyoutou Waterfront! Each time a card is sent from the field to the GY, place 1 Kaiju Counter on this card for each sent card.

Because the Advanced Draw and Beast King Barbaros were just sent to the graveyard, the Kaiju Counters of Kyoutou Waterfront are now 2. "

He then showed two more cards in his hand.

"Quick-Play Spell Trap Booster! Discard 1 card. This turn, I can activate 1 Trap Card from my hand!" (Animation Card)

A trap was inserted into the Duel Disk and turned into a three-dimensional image that appeared in the back row of DD.

"The trap I want to activate is the Continuous Trap Remove Brainwashing!" DD said, "As long as this trap is on the field, control of all monsters on both sides will return to the original owner!"

This card was very compatible with the Kaiju deck, and it was a perfect match.

After all, the effect of all Kaiju monsters was to "Special Summon to the opponent's field in Attack Position, by Tributing 1 monster they control." So as long as there was "Remove Brainwashing", the moment he used a Kaiju to eat the opponent's monster on the field, that Kaiju would immediately jump back to his own field under the effect of the trap.

Not only could this combo "eat" any monster on the opponent's field, but it could also directly jump out a powerful Kaiju without consuming the Normal Summon opportunity.

"And because the Trap Booster' is sent from the field to the graveyard, the Kaiju Counter of the Field Spell Kyoutou Waterfront' increases by one again." DD's tone suddenly rose, "Then I activate the effect of Kyoutou Waterfront!"

Once per turn, while 3 or more Kaiju Counters are on this card: I can add 1 Kaiju' monster from my Deck to my hand. "

The Duel Disk immediately executed the retrieval process, and a card popped out of his deck with a click.

DD pulled out the card, and the deck was automatically shuffled. His face was filled with the sinister expression of a villain's success, and he showed the card at the same time.

I add the second Gameciel, the Sea Turtle Kaiju to my hand!

Yuei Vu raised his eyebrows.

Good guy, why does your sea turtle still have Unit No.2?

Chapter 872: Sea Turtle Kaiju!

Yuei Vu never expected that this guy would have more than one sea turtle in his hand.

Logically speaking, according to the villain's routine of acquiring a powerful rare card and then counterattacking to reach the peak of his life, shouldn't there generally be only one card?

Why do you have more than one soul card?

The effect of Gameciel, the Sea Turtle Kaiju! DD shouted, This card can be Special Summoned in attack position by sacrificing a monster on the opponents field!

I offer the Dark Cavalry as a sacrifice! Show up here now

Gameciel, the Sea Turtle Kaiju! ! ! "

The earth cracked, and the tsunami swept towards the city's pier. There seemed to be some extremely huge and terrifying existence hidden in the roaring waves, landing with tons of crashing sea water!

Yuei Vu's Dark Cavalry bore the brunt of the attack. The powerful magical cavalry had impressive stats and resistance, but it was helpless against the oncoming waves.

The sky-high sea water swallowed him up in an instant, and the short and sharp claws cut through the water curtain. The blue turtle beast tyrannically trampled the ground of the city, causing broken steel bars and gravel to fly everywhere.

The giant blue beast raised its head, and a roar erupted into transparent sound waves, shattering all the glass curtain walls along the sides. Countless fragments looked like broken gold under the reflection of the sun, falling freely.

Gameciel, the Sea Turtle Kaiju, ATK 2200

"Then at this moment, due to the effect of Remove Brainwashing', Gameciel, the Sea Turtle Kaiju returned to my field!" DD clenched his fist, "Come back, my Kaiju!"

Gameciel raised his head and roared violently, then walked through the buildings and returned to the DD field. When the huge body turned, its swinging tail cut off a building.

It was equivalent to getting rid of Yuei Vu's "Dark Cavalry" without using a single card.

Battle! DD shouted, Come on, Gameciel, attack directly!

The turtle beast opened its mouth. The Kaiju's body heated up rapidly, and red hot lines were imprinted on its steel-like solid body. White steam spurted out from the gaps in its skin, and plasma flames brewed and boiled in its mouth.

It was clearly a water-type monster, but it actually had a fire-type attack method!

"Then at this moment, I banish the Necro Gardna' in the GY." Yuei Vu said, "Negate the next attack this turn from a monster you control."

Muda (Useless)!

DD sneered: "Now let me show you the omnipotent power of the Kaiju! The effect of the Gameciel, the Sea Turtle Kaiju is activated!

When the opponent activates a card or effect: I can remove 2 Kaiju Counters from anywhere on the field; negate the activation and banish that card!

The effect of Necro Gardna is invalid! "

Negating the effects of all types of cards, aka Omninegate, was already the most powerful ability among duel monsters.

For example, the final ace monster of 5DS protagonist Fudo Yusei, the one that required a lot of operations and a Limit Over Accel Synchro to summon Shooting Quasar Dragon could only perform Omninegate once in one turn. But this effect was already quite powerful back then.

The Sea Turtle Kaiju also has effects similar to this, and it didnt even have the once per turn limit!

As long as there were Kaiju Counters on the field, no matter how many effects the opponent's card had, it would be negated by Gameciel.

At this time, the total number of Kaiju Counters in the Field Spell "Kyoutou Waterfront" was four. Gameciel used his ability once, and there were still two left.

"Then the effect of the Kiteroid' in the hand." Yuei Vu continued, "Discard this card to reduce the battle damage I take from a direct attack to 0."

"Muda Muda!" DD waved his hand, "Activate the effect of Gameciel, the Sea Turtle Kaiju' again! Remove 2 Kaiju Counters, negate the effect of Kiteroid' and banish it!

Not only did it negate effects, but the turtle's effect also had an additional sentence of "banish that card from the game", which was even more disgusting.

The simplest example was that even if the "Kiteroid" was negated and sent to the graveyard, Yuei Vu could still activate the second effect of "Kiteroid" from the graveyard to make the battle damage 0.

However, when the Sea Turtle Kaiju negated the effect of "Kiteroid", it conveniently threw the robot to another dimension. In this way, Yuei Vu could not use the effect of the Kiteroid in the GY to block the attack again.

However, in this way, Gameciels available Kaiju Counters had also been used up.

"Then open the set card: Trap Card Defense Draw!" Yuei Vu snapped his fingers, "Make the battle damage I take from this battle 0, and I can draw 1 card!"

The shadow of the Necro Gardna collapsed under the power of the Kaiju, and the Kiteroid's defense line was also burned through. But then the trap flipped, and the third line of defense stood in front of Yuei Vu in the form of a milky white shield. The impact of the Kaiju was finally blocked by the shield in front of him.

Tch, is this all blocked? DD frowned, This is the end of my Battle Phase, but my turn is not over.

He waved his hand.

Quick-Play Spell Surprise Attack from Beyond! Conduct a second Battle Phase. A monster that was Normal Summoned, Special Summoned, or Flip Summoned this turn may attack again as if it were a new turn! (Animation card)

The turtle beast roared up to the sky, spitting out hot waves of heat and white steam from its mouth.

Attack again! DD shouted, Gameciel, the Sea Turtle Kaiju, attack directly!

Plasma flames spurted out again, and the steel frames of the buildings along the way were burned and melted at high temperatures.

Yuei Vu felt that his body was instantly enveloped in ultra-high temperature water vapor as if every drop of water in his body was about to evaporate. It was as if the energy of shattered impulses was swimming through his internal organs, giving him a brief feeling of burning nausea.

Yuei Vu, LP 4000 LP 1800

It still hurts a little bit.

Hahaha, see? This is the power of Kaijus, the power of duel monsters beyond this world!

DD laughed. The power of light visible to the naked eye burst out from his body, transforming into a demonic figure in the city and under the dark night.

It was a white demon with no specific facial features, only an abstract and uncomfortable outline, and a big, grinning mouth.

That was the entity of the Light of Destruction.

With this power, I can do anything! Whether the league champion or the Duel King, they are no match for me.

Yuei Vu interrupted his inflated chanting without shame, "Do you have any cards left to play? If not, end it quickly."

Heh, are you so anxious to become the food for my Kaiju? DD chuckled, Set two cards, I end my turn.

Chapter 873: Sea Turtle Kaiju!

Yuei Vu never expected that this guy would have more than one sea turtle in his hand.

Logically speaking, according to the villain's routine of acquiring a powerful rare card and then counterattacking to reach the peak of his life, shouldn't there generally be only one card?

Why do you have more than one soul card?

The effect of Gameciel, the Sea Turtle Kaiju! DD shouted, This card can be Special Summoned in attack position by sacrificing a monster on the opponents field!

I offer the Dark Cavalry as a sacrifice! Show up here now

Gameciel, the Sea Turtle Kaiju! ! ! "

The earth cracked, and the tsunami swept towards the city's pier. There seemed to be some extremely huge and terrifying existence hidden in the roaring waves, landing with tons of crashing sea water!

Yuei Vu's Dark Cavalry bore the brunt of the attack. The powerful magical cavalry had impressive stats and resistance, but it was helpless against the oncoming waves.

The sky-high sea water swallowed him up in an instant, and the short and sharp claws cut through the water curtain. The blue turtle beast tyrannically trampled the ground of the city, causing broken steel bars and gravel to fly everywhere.

The giant blue beast raised its head, and a roar erupted into transparent sound waves, shattering all the glass curtain walls along the sides. Countless fragments looked like broken gold under the reflection of the sun, falling freely.

Gameciel, the Sea Turtle Kaiju, attack power 2200

"Then at this moment, due to the effect of Remove Brainwashing', Gameciel, the Sea Turtle Kaiju returned to my field!" DD clenched his fist, "Come back, my Kaiju!"

Gameciel raised his head and roared violently, then walked through the buildings and returned to the DD field. When the huge body turned, its swinging tail cut off a building.

It was equivalent to getting rid of Yuei Vu's "Dark Cavalry" without using a single card.

Battle! DD shouted, Come on, Gameciel, attack directly!

The turtle beast opened its mouth. The Kaiju's body heated up rapidly, and red hot lines were imprinted on its steel-like solid body. White steam spurted out from the gaps in its skin, and plasma flames brewed and boiled in its mouth.

It was clearly a water-type monster, but it actually had a fire-type attack method!

"Then at this moment, I banish the Necro Gardna' in the GY." Yuei Vu said, "Negate the next attack this turn from a monster you control."

Muda (Useless)!

DD sneered: "Now let me show you the omnipotent power of the Kaiju! The effect of the Gameciel, the Sea Turtle Kaiju is activated!

When the opponent activates a card or effect: I can remove 2 Kaiju Counters from anywhere on the field; negate the activation and banish that card!

The effect of Necro Gardna is invalid! "

Negating the effects of all types of cards, aka Omninegate, was already the most powerful ability among duel monsters.

For example, the final ace monster of 5DS protagonist Fudo Yusei, the one that required a lot of operations and a Limit Over Accel Synchron to summon Shooting Quasar Dragon could only perform Omninegate once in one turn. But this effect was already quite powerful back then.

The Sea Turtle Kaiju also has effects similar to this, and it didn't even have the once per turn limit!

As long as there were Kaiju Counters on the field, no matter how many effects the opponent's card had, it would be negated by Gameciel.

At this time, the total number of Kaiju Counters in the Field Spell "Kyoutou Waterfront" was four. Gameciel used his ability once, and there were still two left.

"Then the effect of the Kiteroid' in the hand." Yuei Vu continued, "Discard this card to reduce the battle damage I take from a direct attack to 0."

"Muda Muda!" DD waved his hand, "Activate the effect of Gameciel, the Sea Turtle Kaiju' again! Remove 2 Kaiju Counters, negate the effect of Kiteroid' and banish it!

Not only did it negate effects, but the turtle's effect also had an additional sentence of "banish that card from the game", which was even more disgusting.

The simplest example was that even if the "Kiteroid" was negated and sent to the graveyard, Yuei Vu could still activate the second effect of "Kiteroid" from the graveyard to make the battle damage 0.

However, when the Sea Turtle Kaiju negated the effect of "Kiteroid", it conveniently threw the robot to another dimension. In this way, Yuei Vu could not use the effect of the Kiteroid in the GY to block the attack again.

However, in this way, Gameciel's available Kaiju Counters had also been used up.

"Then open the set card: Trap Card Defense Draw!" Yuei Vu snapped his fingers, "Make the battle damage I take from this battle 0, and I can draw 1 card!"

The shadow of the Necro Gardna collapsed under the power of the Kaiju, and the Kiteroid's defense line was also burned through. But then the trap flipped, and the third line of defense stood in front of Yuei Vu in the form of a milky white shield. The impact of the Kaiju was finally blocked by the shield in front of him.

Tch, is this all blocked? DD frowned, This is the end of my Battle Phase, but my turn is not over.

He waved his hand.

Quick-Play Spell Surprise Attack from Beyond! Conduct a second Battle Phase. A monster that was Normal Summoned, Special Summoned, or Flip Summoned this turn may attack again as if it were a new turn! (Animation card)

The turtle beast roared up to the sky, spitting out hot waves of heat and white steam from its mouth.

Attack again! DD shouted, Gameciel, the Sea Turtle Kaiju, attack directly!

Plasma flames spurted out again, and the steel frames of the buildings along the way were burned and melted at high temperatures.

Yuei Vu felt that his body was instantly enveloped in ultra-high temperature water vapor as if every drop of water in his body was about to evaporate. It was as if the energy of shattered impulses was swimming through his internal organs, giving him a brief feeling of burning nausea.

Yuei Vu, LP 4000 LP 1800

It still hurts a little bit.

Hahaha, see? This is the power of Kaijus, the power of duel monsters beyond this world!

DD laughed. The power of light visible to the naked eye burst out from his body, transforming into a demonic figure in the city and under the dark night.

It was a white demon with no specific facial features, only an abstract and uncomfortable outline, and a big, grinning mouth.

That was the entity of the Light of Destruction.

With this power, I can do anything! Whether the league champion or the Duel King, they are no match for me.

Yuei Vu interrupted his inflated chanting without shame, "Do you have any cards left to play? If not, end it quickly."

Heh, are you so anxious to become the food for my Kaiju? DD chuckled, Set two cards, I end my turn.

Chapter 874: How Can It Be!?

There was turmoil as if the heaven and earth were being penetrated, and a dark blue demon descended from the sky. With ferocious fangs and sharp claws shining like steel, he stood among the jungles made of reinforced concrete, like a mountain rising from the ground.

Raviel, Lord of Phantasms was summoned!

DD could no longer maintain his composure. He looked stunned: "These are three Sacred Beasts!? But how could it be aren't the Sacred Beasts in a sealed state?"

"Your news is out of date." Yuei Vu smiled, "The seal has been lifted a long time ago. The Sacred Beast has been quite happy to cooperate with me right?"

As he spoke, he winked at the summoned Lord of Phantasms.

Raviel, known as the most powerful Sacred Beast, felt his gaze and growled reluctantly. He looked a little awkward but still obeyed.

Bow to the evil forces. JPG.

There is no way, people have to bow their heads under the eaves. After all, Sacred Beasts also have to earn a living.

After being sealed by Yuei Vu, the three of them could still think of ways to cause trouble, so they supported Kagamaru, and used the original Sacred Beast Stone Tablet to create three duplicate cards to seek revenge on Yuei Vu.

But Kagamaru was so weak that he was defeated, and the three of them, along with a large number of their own stone slabs, became Yuei Vu's trophies.

The three of them have accepted reality.

Think about it carefully, the three arrogant Egyptian Gods are willing to submit obediently. It seems that we are not ashamed to bow to the Duel King, right?

The Lord of Phantasms stood tall and stood there, using his burly body to protect Yuei Vu behind him, and glared fiercely at the equally huge turtle beast in front of him

You are the one who dares to take action against my Master?

Part of the reason why Yuei Vu used the Sacred Beast here was to suppress the aura of the Sea Turtle Kaiju and the Light of Destruction that power was not comparable to that of ordinary duel monster spirits.

Another reason was to test the actual combat effectiveness of the Sacred Beast.

After defeating Kagamaru and officially capturing the three Sacred Beasts, this was the first opportunity to take them out and try them out.

As expected, Gameciel was no ordinary monster. Facing the god-level Lord of Phantasms among duel monsters, he didn't even show any intention of being timid. Instead, he roared tit-for-tat.

To be fair, regardless of the character of the monster and the strength of the spirit, from the perspective of the actual combat value, the practicality of the Sea Turtle Kaiju made the Lord of Phantasms a loser.

Except for the ATK/DEF stat.

[Raviel, Lord of Phantasms, ATK 4000]

"Battle!" Yuei Vu waved his arm down, "Raviel, Lord of Phantasms, attack Gameciel, the Sea Turtle Kaiju! Heaven-Crushing Fist!"

The Lord of Phantasms punched out, and the azure light and shadow transformed into layers of waves. The turtle beast hissed and resisted, but the plasma fireball it spewed was just a drop in the ocean in front of the power of the Sacred Beast. The Kaiju's body was instantly riddled with holes as if it had been chopped into pieces by thousands of sharp blades.

DDL 4000 LP 2200

The Sacred Beast's blow shattered the sea turtle, and the aftermath penetrated DD's body. The severe pain seemed to be eating away at the nerves, and he felt like a big burning hand was pulling his soul out of his body.

DD let out a shrill scream, and a ball of white light briefly separated from his body, turning into a face twisted in pain.

However, as the impact ended, the light quickly absorbed back into his body.

DD stood firm in pain, and when he raised his head, his eyes lit up with scarlet light. The left half of the lens of his glasses was cracked, and his entire face was twisted ferociously.

Commonly known as face art.

"Damn, bastard!" DD's voice suddenly dropped several degrees, sounding like it was accented, "You are just a mere human being, but you dare to resist the fate of destruction!"

"Has he finally appeared? The aggregation of evil in the universe, the Light of Destruction." Yuei Vu said calmly.

Yu-Gi-Oh's setting about the battle between light and darkness in the universe was very weird, and it was the opposite of many other works. In this worldview, light represents evil and darkness represents justice.

The evil that attempted to devour and destroy everything in the universe was the ultimate symbol of light. In the anime, the Light of Destruction possessed Saio, and the ace monster that materialized was "The Light Ruler".

The incarnation of justice that fought against this light and used the power of darkness was our Ultraman "Elemental HERO Neos".

(Tiga and Gatanothor gave a thumbs up)

Of course, the setting says so, but as the representative of the darkness of justice, the attribute of "Elemental HERO Neos" was LIGHT, which was a bit intriguing

Until just now, DD had only been controlled by the Light of Destruction, but after being punched by the Lord of Phantasms, the Light of Destruction seemed to be anxious, and directly took over DD's body and went into battle himself.

"You stupid human being who dares to resist the power of fate, all you do is like a mantis trying to stop a wagon." The Light of Destruction groaned, "Long before the duel, your fate of defeat has been decided! Wait until the next turn"

"Next turn?" Yuei Vu interrupted him, "Who made you think you still have a next turn?"

DD: "!"

"Open the set card." Yuei Vu flipped the last set card at his feet.

DD's pupils shrank and his expression changed drastically.

Is that the card that was set at the beginning of the last turn?

"Quick-Play Spell Instant Mask Change!" Yuei Vu shouted, "This card can only be activated during the Battle Phase. Send 1 Masked HERO' monster in my hand to the graveyard, then Special Summon 1 Masked HERO' monster from my Extra Deck with the same Attribute!" (Original card)

DD: "!"

Transform from the cards in your hand!?

"I send the LIGHT-attributed Masked HERO Ray' in my hand to the graveyard!" (manga card)

The low-level Masked HERO who has not been able to become a real-life card so far appeared on Yuei Vu's field. He was surrounded by dazzling light, and flying armor attached to him, quickly wrapping him from head to toe, and the helmet eyepiece lit up faintly. With blue light, the golden blades on both hands popped out lightly.

[Masked HERO Koga, ATK 2500]

"Masked HERO Koga, attack directly!"

The golden knight flew forward, trailing a gorgeous golden trail behind him. The sharp blades slashed across DD's body, cutting off the white light and shadow that was blasted out of his body.

DD's glasses flew into the air, and the lenses exploded into pieces. The light of destruction was also forcibly expelled from his body and fell apart under the blow of the Masked HERO.

[DD, LP 2200 LP 0]

The same moment, somewhere else.

In the hall filled with incandescent lights, countless tarot cards flew away like snowflakes in the sky.

Saio Takuma was sitting in the middle of the hall, looking at the Tarot cards flying out from his eyes in shock, and his whole body fell into a daze.

"How can it be!?"

Chapter 875: Let Me Foretell!

This guy was Saio Takuma, the second BOSS of "Yu-Gi-Oh GX" after Kagemaru.

But to be more precise, he was actually just a victim. He was the host chosen by The Light of Destruction, and his life was a tragedy.

Saio Takuma himself was a fortune teller, a person who was born with the ability to predict the future.

In the original anime, he saw his future fate of corruption through tarot card divination many years ago. He saw the light that distorted everything descending from the sky, and only destruction awaited him in the future.

Saio was actually a very contradictory character. On the one hand, he believed in fate and felt that the established future was difficult to reverse, but on the other hand, he still tried his best to resist.

Under the guidance of tarot cards, he found the young Aster at the time, hoping that one day in the future Aster would be able to help him when he fell. In the original work, he was also Aster's closest friend after the boy lost his father.

He could see destiny but rarely changed it. He knew very well that sometimes fate was a bitch, a ruthless and stubborn bitch.

Yuei Vu destroyed The Light of Destruction that resided in the Plasma card and greatly rewrote the future. But the ruined future that Saio foresaw did not waver.

Or rather, it got worse.

The destruction of the fragment of The Light of Destruction on Earth six years ago seemed to have attracted the attention of its main body deep in the universe. A wave of light was released, and it accurately found this place by following the coordinates where its companions were defeated.

After that, the fortune teller Saio Takuma was picked by The Light of Destruction that descended on the Earth.

The world line has changed and history has shifted, but Saio failed to escape from the fate he predicted.

Gradually, Saio's own consciousness was pushed to the edge, and what controlled this body became a new personality born from Saio's own consciousness under the influence of cosmic fluctuations.

If the personality born from the Millennium Items was called a dark personality, then the Saio born from the power of The Light of Destruction should perhaps be called a "light personality."

Since his birth, this light personality of Saio has never been as shocked as he is now.

He inherited the host's own ability to "predict the future" and even derived new powers based on this. Under the influence of The Light of Destruction, he could even influence the gears of destiny to a certain extent, making the future develop in a direction that was beneficial to him.

He believed that fate was the only absolute thing in the world, a behemoth that could not be shaken, and was also an ally on his side.

What was shown in the animation in the duel was that all effects related to "rolling dice" and "tossing coins" would definitely be in his favor.

When he needed to throw a Head, he would never throw a Tail, and when he needed to throw a Tail, he would never throw a Head.

This was the only character in the entire series of animations whose actual combat performance in this aspect could overshadow even God of Gamblers. If Jonouchi was still at the super lucky level, then this guy could no longer be explained by luck, it was just cheating.

Saio firmly believed that fate was on his side, which was the main reason why he was so confident. He believed in this more than his duel strength.

Even destiny belongs to me, so how can I lose?

But his absolute confidence had just been shaken.

As mentioned before, Saio had the ability to make the future develop in his own favor. Sometimes this happened naturally, and other times it required a gentle push from him.

Through his own eyes, he could see everyone's destiny. He knows who was useful to him and who must be eliminated.

He knew where and when everyone must be, and where every decision would lead to.

He felt that he was a chess player and everyone was his pawn. He laid out a winning chess game on the chessboard called Destiny and pushed this torrent with his own hands.

For example, this down-and-out DD got "Gameciel, the Sea Turtle Kaiju", this was part of his destiny. This was just the beginning, a choice of fate, and the prelude to a series of epic ruins that would follow.

The turtle monster's rampage should have caused an even greater disaster. What Saio saw was that half of the city was instantly destroyed by the power of the Kaiju, leaving a deep scar on the entire world.

Yes, the Sea Turtle Kaiju would be subdued in the end, and this DD who was so proud of getting a little strength would eventually be subdued. This was all part of Saio's calculations.

The problem is that this is too fast, right?

The Kaiju just took a walk along the street. He was neatly pressed down before he could do anything.

This chapter is not in the script, right!?

Of course, Yuei Bu who defeated the Sea Turtle Kaiju attracted Saio's attention.

As a fortune teller, he naturally relied on his best ability, divination.

Tarot cards were flying all over the sky like life, crisscrossing and overlapping in mid-air. Saio sat back in his chair, clasped his hands, and stared intently at the afterimages of cards in the sky.

The washed spleen would automatically fall back in front of him. The divination card array would reveal everything, and no one could escape the light of destiny.

And what happened next was a scene that stunned Saio.

His tarot cards flying all over the sky, charting the trajectory of destiny, then they exploded.

With a loud "snap", each card was freed from its control as if colluded and scattered all over the place like snowflakes.

Saio was shaken all over.

Exploded? What does it mean?

Could it be that fate is preventing me from seeing the future of this Duel King?

No, that's impossible!

Saio's expression quickly turned cold.

Destiny is on my side, I can see anyone's future, anyone's ending, anyone!

He had to confirm this again.

Saio took out the crystal ball and looked through this prop. He could see almost any corner, anywhere, and anyone on the earth.

Through the crystal ball, he clearly saw the city area after the duel, and saw DD, who was unconscious and collapsed on the ground.

He also saw Duel King Yuei Vu, who was removing the deck.

While pulling it out, he muttered: "As the manager of the Duel Monsters Department of the Kaiba Corp and the chairman of the Duelist Alliance, I have every reason to suspect that your deck has an unknown origin and is very evil, so I will temporarily keep it for further investigation."

Saio: ""

Oh, that's all, this DD and the "Kaiju" deck in his hand were just cannon fodder anyway. They have already played their due role. If the Duel King wanted it, just let him take it.

Saio then noticed Aster Phoenix, the hot new guy who just won the world championship tonight, appearing in the crystal ball. From the looks of it, he seemed to have a good relationship with this duel king.

The tarot cards scattered all over the place began to fly again under the pull of invisible forces. They flew intertwined in mid-air, weaving the trajectory of fate in this unique way.

The tarot cards fell back in front of him.

Saio turned over the top card.

The Tower.

A high tower was struck by lightning, and two people fell from the tower.

Destiny revealed to him its future influence through this card.

Aster Phoenix's LP returned to zero and he lay helpless on the ground. The heroes he trusted flew out of the Duel Disk and slowly covered his body.

This was his ending, a fate that could not be avoided and symbolized "destruction".

Saio was very satisfied.

His power has not failed, the wheel of fate continued to rotate, and he could still see the trajectory clearly.

This led him to believe that the failure just now was just an accidental mistake.

Then let us discuss the fate of this duel king

Bang!

The tarot cards flying in the sky exploded again.

Saio almost exploded, and he was so angry that he threw the table away.

Its unnatural!

Why don't you let me foretell??

Chapter 876: I Want To Enroll In Duel Academy

"Brother Yuei Vu!"

Aster Phoenix walked as fast as he could, nimbly approaching from among the collapsed rocks that were scattered all over the place.

"Brother Yuei Vu, are you okay?"

But before Yuei Vu could reply, he smiled to himself: "What am I talking about? Of course, there is nothing wrong that can happen to you."

After all, Brother Yuei Vu is number one in the world.

He had always believed so firmly.

The young man seemed to take off his mask as a professional duelist in an instant. He was elegant, calm, and unfazed by the world, and instantly transformed back into the young and shy boy he was before.

"What about you? Are you okay?" Yuei Vu asked.

"No injuries." Aster smiled, "Thanks to Brother Yuei Vu for coming in time."

"I came here early because I wanted to celebrate your victory. I didn't expect to encounter such a thing. It's really lucky to think about it."

Aster glanced at the unconscious DD: "Who is this guy?"

"An ordinary duelist," Yuei Vu said, "but we have to find out how he got the card in his hand. This guy is just a minor character and doesn't have the ability to make such a big fuss."

Aster looked at the man carefully for a moment, then held his chin and said seriously, "He doesn't look like a good person."

However, in the original world timeline, you recognized him as your father.

Of course, this must not be said.

"Okay, just leave the rest to me." Yuei Vu patted Aster on the shoulder, "You don't have to think too much."

"Oh."

Entrusting the matter to Brother Yuei Vu, Aide was naturally relieved. But he didn't just leave. He hesitated and said, "By the way, Brother Yuei Vu, I will be fifteen years old soon."

"Oh? That's good."

At this moment, Yuei Vu was leaning over and taking out the card deck from the unconscious DD, unfolding the deck, and replying casually while browsing.

"So your birthday is coming soon. Why don't you come to the academy with your dad to celebrate your birthday?"

"Actually, Yuei Vu-sensei, I have already made a decision." Aster looked serious.

Yuei Vu glanced at him sideways and found that his face was serious.

"What to decide?"

"I'm going to enroll in Duel Academy tomorrow!"

Yuei Vu stared at him for a while before making sure he was not joking.

"ha?"

What is Aster's status now?

The rising star in the professional circle, the annual world champion!

So many students from Duel Academy have worked very hard to study for three years. What are they trying to achieve? Isn't it just to have a better start in the professional world?

For example, Ryo Marufuji-san in the original work.

But this one did the opposite. He has already won the world championship and is at the top of the professional circle. Now he actually wants to go back to school?

Do you want to come here to study or to teach?

However, Aster didn't do it on a whim. He had already decided to go to Duel Academy.

When he announced this decision, everyone around him, including his father and his agent, was surprised. His agent and some friends in the professional world also tried to dissuade him, saying it was a waste of time.

However, Aster was determined to go to the academy to study, and no one could persuade him to not do so.

According to the regulations, you can register for the Duel Academy entrance exam when you are fifteen years old. No regulation stated that world champions cannot participate!

Why don't you let me go?

Yuei Vu glanced at Aster and asked, "You are so determined to enroll in school. Is it because you miss Judai?"

Ed's face suddenly changed: "Brother Yuei Vu, what are you talking about? Who would miss an idiot like that?"

The reason why he wanted to go to the academy was just to spend more time with Brother Yuei Vu and have the opportunity to learn from him.

It definitely has nothing to do with that rough-and-tumble card-playing idiot!

"It's so dishonest." Yuei Vu said helplessly, "When you were young, you two ate the same bowl of rice and slept in the same bed. There's nothing awkward about it."

"Then that was all in my childhood." Aster looked strange and muttered something vaguely.

For a while back then, Judai and Aster had an almost inseparable relationship. No matter what they did, the two children would stick together and it would be difficult for them to separate.

As a child, Judai was probably a typical naughty child, active, energetic, and often noisy. Aster, on the other hand, was the complete opposite of him. He was the kind of quiet and shy young lady who would lower his head and dare not say hello to strangers.

In the past, their group was basically led by Judai. When Judai said what he wanted to do and where he wanted to go, Aster followed him obediently, rarely expressing his own subjective opinions and rarely raising objections.

However, unlike Yuki Judai whose scores in various subjects were always hovering on the edge of the passing line, Aster has been a standard academic since he was a child. He has an excellent memory and can pass every subject in any subject.

If he only scored first in the class, it would be called a step back. He has been the unbeatable number one in the school since elementary school.

Yuei Vu had caught Judai secretly copying Aster's homework more than once, or when he was more arrogant, he even asked Aster to write it for him.

Of course, if Yuei Vu caught him doing something like this, he wouldn't let it go easily. A penalty would definitely be inevitable, and sometimes both were punished.

Yuei Vu not only gave them extra homework but also required each of them to write an examination of no less than 5,000 words.

Five thousand words was not a small number.

Yuei Vu once had a friend who was a web novel writer on the Internet. He once said that 1000 words per day is the limit of the human body, two thousand was called explosive growth, and three thousand was called cheating.

If it's four thousand a day, darling, that's no longer a human being, it's a tentacle monster.

Of course, the friend who said this seemed to have never written a serious and completed book in his memory.

Although Yuei Vu did not agree to accept Aster as his student, to be fair, he taught him a lot, including most of Aster's current card-playing ideas and deck-construction routines, etc., were taught by Yuei Vu.

However, Mr. Phoenix still needed to live in the United States due to work needs, and Aster had to follow him. As they grew older, their relationship with each other also changed.

For example

Aster: Idiot.

Judai: Those who say others are idiots are idiots themselves!

Aster: Hey, lets duel!

Judai: Okay, just what I want!

""

Soon after.

Judai: Ha! Gotcha! That was a fun Duel!

Aster: Damn it, you're lucky this time.

Judai: You lose, then you are an idiot today! Hahaha!

Aster: We didn't say beforehand that the loser would be an idiot, right?

Judai: Huh? (After thinking about it carefully, I think this is the truth)

""

Thinking about the silver-haired young shota who followed Judai inseparably back then, and then looking at Aster now, Yuei Vu couldn't help but sigh.

Such a Kawaii shota, how did you grow into the shape of President Kaiba?

Besides, its not like the president doesnt have other advantages! Why do you want to learn his tsundere?

Chapter 877: OTK Has Its Limits

Time flies by, and in the blink of an eye, Judai's first year at Duel Academy has come to an end.

For Judai and his friends, this just meant that they were one year older and had entered a new grade. But for third-year graduates, this also meant farewell.

If it were placed in an ordinary school, outstanding graduates would have to have a stage to give a speech. But it was clear that this was not an ordinary school.

It was said that this custom was left by Seto Kaiba, one of the founders. The academy had a dueling arena for both big and small matters. The content of the teaching assessment was card playing, and extracurricular entertainment activities were also card playing. Conflicts between classmates were solved by playing cards, and leadership decisions were made by playing cards. Playing cards during festivals, school activities, and school trips must also have a card-playing theme

Under this background, it was conceivable that the graduation of third-year students would definitely involve playing cards.

The outstanding student representative with the highest score among the graduates would select the person he most wished to fight with among the current students, and the two parties would perform a duel to see off the graduates. This was the rule of the duel academy.

This year's outstanding graduate representative, without any doubt, was of course Ryo Marufuji, known as "Kaiser".

And of course, the student designated by Ryo Marufuji was the first-year Yuki Judai.

So at the end of the graduation ceremony, the theme naturally evolved into a card game between Judai and Ryo.

"Judai, I am different today than I was in the past." Ryo Marufuji was full of fighting spirit.

"Speaking of which, I must thank you. The experience of losing to you last time allowed me to complete my transformation! That is the change I can never achieve with my own strength!

I am completely different now! Thanks to you, I have been able to expand my vision that have been limited until now and touch a new realm that I could not see in the past! "

"Oh? You look so awesome!"

Judai obviously didn't understand, but he felt Kaiser's fighting spirit and momentum, and couldn't help but look forward to it with excitement.

For Judai, as long as there were cards to play, that's enough.

"Duel!" x2

Judai, LP 4000

Ryo Marufuji, LP 4000

Almost all the teachers and students of the school gathered at the academy's duel field, full of expectations for the collision between the two strongest students in the academy.

The first was the decision of which player would go first. It's just a bit unfortunate for Ryo-san. As a Cyber Dragon player, he got the first turn

But it didn't matter.

Ryo Marufuji was completely different now from the past. Even if going first attack was extremely disadvantageous for Cyber Dragon, he has prepared countermeasures!

Ryo drew a card, and normal summoned "Cyber Dragon Core" in Defense Position, and then activated its effect to add 1 "Cyber" Spell/Trap from the Deck to his hand.

Then he waved his hand and set two cards.

Judai looked at Marufuji's Cyber Dragon Core that looked like a miscellaneous fish on the field, and then looked at the two set cards in the back row. For a moment, he instinctively felt that there was something wrong.

According to Yuei Vu-sensei's teachings, he would try his best to understand his opponent before any duel began. Not to mention developing a set of targeted strategies, you must at least be aware of the enemy's common tactics and the effects of the ace monsters.

So based on experience, shouldn't Kaiser perform a four-for-one exchange and bring out the Cyber End Dragon as the first mover?

Looking back now, Ryo Marufuji's arrangement did not look like the Kaiser that everyone is familiar with, but instead looked like Yuki Judai!

Very strange.

However, it was still necessary to play the cards. Next up was Judai's turn. This time our Judai started to summon the model worker duo who followed Yuei Vu in Duel City Solid Soldier and Blazeman.

First, he summoned Solid Soldier, and then Solid Soldier's effect could special summon Blazeman in the hand. Then the effect of Blazeman retrieved a "Polymerization" from the deck.

Ryo Marufuji narrowed his eyes slightly as he watched his position pull out the fusion spell from the deck.

Is it really coming? Launch an attack with your best fusion in one go

Judai did as he expected and waved his hand to indicate that he would Fusion Summon now!

"Fuse the Elemental HERO Blazeman' and Elemental HERO Solid Soldier' on the field! Fusion Summon! Come, Elemental HERO Nova Master'!"

The hero of the two elements of fire and earth merged. The hero emerged from the vortex and appeared handsomely wearing red and gold armor!

[Elemental HERO Nova Master, ATK 2600]

"Then there is the effect of Elemental HERO Solid Soldier'! When this card is sent from the Monster Zone to the GY by a Spell effect, the Elemental HERO Blazeman' in the graveyard is Special Summoned in defense position."

[Elemental HERO Blazeman, DEF 1800]

"Battle!" Judai said, "Elemental HERO Nova Master, attack!"

And even at this lightning juncture, Marufuji's set card in the backcourt had already flipped over Trap Card Cybernetic Overflow!

Cybernetic Overflow, commonly known as "Cerebral Hemorrhage", could remove a "Cyber Dragon" from the game, directly causing the opponent player to suffer a sudden cerebral hemorrhage (crossed out)

"Banish Cyber Dragon(s)' with different Levels from my hand, face-up field, and/or GY, then destroy an equal number of cards the opponent controls!" Ryo Marufuji explained.

This effect was quite impressive. One was because it did not limit the number of cards that could be blown up as long as you had enough ammunition, you could blow up all the cards on the opponent's field in one go. The other was because it was easy to see from the description that this card nuking effect did not target.

Judai was stunned for a moment: "But there is no Cyber Dragon' on your field or in the GY."

"When Cyber Dragon Core' exists on the field or in the graveyard, its name can be treated as Cyber Dragon'." Ryo Marufuji explained, "So I banish Cyber Dragon Core' and destroy your Elemental HERO Nova Master'!"

The Cyber Dragon Core disappeared from the field as the cost of activation, and the dazzling electric light flew out of the trap card, blasting the powerful Elemental HERO into pieces!

The higher-level Elemental HERO hurriedly exited the stage before he could gain a firm foothold, causing an uproar in the audience.

"Damn, Marufuji didn't summon Cyber End Dragon when he started!" Definitely from a screwball player.

Someone in the forum watching the live broadcast has already started posting in real-time.

"Ryo Marufuji; Judai, the more I play with Cyber Dragon, the more I realize that OTK has its limits!"

"Judai: What do you want to say, Kaiser!?"

"Ryo Marufuji (takes out the Cerebral Hemorrhage): I won't do OTK anymore, Judai!"

""

Judai's side had a bad start. The hero from his three-for-one exchange had fallen and he suffered huge losses.

But it didn't matter.

A true duelist must be able to lose all his cards as if nothing happened, and then be able to charge them back the next round while talking and laughing, as if by magic.

"The Continuous Spell Mirage of Nightmares' is activated. This card allows me to draw cards until I have 4 cards in my hand.

Set three cards, I end my turn! "

Judai only had one Blazeman in the front row, but he had three set cards in the back row, which made Ryo Marufuji frown.

Hiss~ Three set cards in the back row, one more than me!

It seems that I still have a lot of room for improvement

## Chapter 878: Cyber End Dragon Has Its Limits

Judai declared the end of his turn, and then it was Marufuji Ryo's turn. However, at the moment when the card was drawn, the effect of "Mirage of Nightmare" was activated, and Judai's hand was replenished to four cards in one go.

That's why I said that the real Duel King was never afraid of losing cards, because there were 1001 ways to replenish cards that you couldn't imagine.

But in fact, unexpected things happened occasionally.

For example, a card game with Yuei Vu-sensei was still fresh in Judai's memory.

Yuei Vu: "Judai, you are empty-handed and your LP is like a candle in the wind. Can you still make a comeback from this situation?"

Judai smiled: "You never know what will happen until the last moment. Isn't that the fun of dueling, sensei? Then it's my turn, draw!"

Yuei Vu's face was expressionless: "Open the set card: Trap Card Mind Crush! Declare a card name. If the opponent has that card in his hand, it must be discarded. I declare Elemental HERO Bubbleman'."

Judai (looking at the Bubbleman that he just drew): ""

GX animation viewers all knew that just like Kaiba would never win against Yugi and Sakuretsu Armor would never be activated successfully, there were also some iron rules in GX that seem to be determined by the "will of the universe".

For example, if Judai was empty-handed, the next card he drew would definitely be the Greed Hero. Well, maybe it couldn't be said to be 100%, but the probability was very high.

Bubbleman could be Special Summoned directly when he was the only card in the hand, and then the player could draw two more cards when there were no other cards on the field.

In this case, the next two cards Judai drew were also fixed. One of them must be the "Pot of Greed", and the other was most likely the Equip Spell "Bubble Blaster".

It made people feel like he hasn't shuffled his deck in the past two hundred episodes.

In Ryo Marufuji's turn, he actually played the Spell "Fusion Gate" directly.

Cyber Dragon was a series focused on fusion, so it's okay, but this Fusion Gate was a bit surprising. In fact, Fusion Gate was considered a rare card in this world, and only Yuki Judai used it in the anime.

It could be seen that Ryo Marufuji has adjusted his deck very much during this year, and his tactical ideas were very different from the past.

Judai, who saw the Fusion Gate, began to look forward to it again: "Oh, a fusion is going to happen, is it finally coming out? Cyber End Dragon!"

Unexpectedly, Ryo Marufuji waved his hand: "I fuse the Proto-Cyber Dragon' and Cyber Dragon Vier' in my hand!"

The fusion condition is 2 or more Cyber Dragon monsters! Fusion Summon

Chimeratech Rampage Dragon! ! ! "

Two steel dragon heads protruded from the dark fortress. The metal parts were assembled and deformed, and countless electric snakes jumped along the surface of the steel body.

[Chimeratech Rampage Dragon, ATK 2100]

"Eh? Not the Cyber End Dragon?" Judai was stunned.

"It's so strange." The younger brother Sho Marufuji in the audience felt something was wrong, "My brother seems a little different today."

"Why is it different?" Misawa asked on the side.

"He hasn't summoned the Cyber Dragon, Cyber Twin Dragon, or Cyber End Dragon until now It seems like this is the first time I've seen a duel like this."

Misawa was startled: "Is that so?"

Indeed, in the original work, until he hit a wall in the professional league, Ryo Marufuji had always adhered to his own persistence

Respect the duel and respect your opponent.

He must also pursue the use of the "Cyber End Dragon" to end the battle. He believed that it was a manifestation of his all-out effort and the best respect for the enemy.

"Thanks to you, I realized how narrow my vision was in the past." Ryo Marufuji looked at Judai seriously and said, "Being rigid about the Cyber End Dragon and restricting myself too much to my own duel, that kind of thing is not really an all-out effort at all!

Do everything you can to win, no matter what the means, this is the real duel! "

"Ohoh." Judai nodded confusedly.

Although I dont understand it, it seems to be very powerful

Cyber End Dragon had its limits.

So Ryo Marufuji decided to go beyond this limit!

"Look Judai, this is the limit that I reached when I graduated!" Ryo Marufuji yelled, "The effect of Chimeratech Rampage Dragon' is activated! When this card is Fusion Summoned: I can target Spells/Traps on the field, up to the number of materials used for its Fusion Summon; destroy them.

I'll destroy the two set cards in your back row! "

Ryo Marufuji pointed at the two cards in Judai's back row.

"Hey~ Is it actually an effect that clears the back row?" Judai looked surprised.

Ryo, you have changed.

In the past, when someone had three blocks in the back row, you would just ignore them order Cyber End Dragon to attack, and make a fool of yourself

"Then I activate the Quick-Play Spell Emergency Provisions'!" Judai waved his hand and opened the set card, "Send Mirage of Nightmare' and another set card selected by Chimeratech Rampage Dragon' to GY to restore 2000 LP!"

[Judai, LP 4000 LP 6000]

Appeared, Supreme King's secret skill Mirage of Nightmare followed by Emergency Provisions. Everyone who has used the 502 skill praised its quality.

Marufuji couldn't help but twitch his lips when he saw the card that Judai had sent to the GY.

Trap Hole of Spikes: When an opponent's monster that was Normal or Special Summoned this turn declares an attack: Destroy that attacking monster, and if you do, inflict damage to your opponent equal to half the original ATK of that monster.

"What a pity. If I had attacked rashly, I would have been counterattacked. "

"Yes, yes." Judai nodded with deep understanding.

"Then another effect of Chimeratech Rampage Dragon'! Once per turn: I can send up to 2 LIGHT Machine monsters from my Deck to the GY, and for each monster sent to the GY, this card gains 1 additional attack during each Battle Phase this turn.

I send Cyber Dragon Core' and Cyber Dragon Zwei' from the deck to the graveyard, adding two additional attacks. "

"Add two more attacks?" Judai began to snap his fingers, "So the Chimeratech Rampage Dragon"

"Can attack three times this turn!" Marufuji finished the line.

"Huh? So strong?" Judai was surprised.

It can clear the backfield, attack multiple times, and also accurately stack graveyards from the deck This new Cyber Dragon I've never seen before seems a bit ridiculously strong!

"Battle!" Ryo Marufuji shouted, with the momentum of a king commanding thousands of troops with his sword unsheathed, "Chimeratech Rampage Dragon's attack! First shot!

I attack the Elemental HERO Blazeman'! "

"It's too strong. Facing this kind of monster, I will be killed instantly if I am not careful."

Judai said as he drew a card from his hand.

"Then I activate the effect of Sphere Kuriboh' in my hand! When an opponent's monster declares an attack: I can send this card from my hand to the GY; change the attacking monster to Defense Position."

[Chimeratech Rampage Dragon, ATK 2100 DEF 1600]

The invincible Kuribo jumped out of thin air and shouted "Kuri Kuri" twice. The arrogant Cyber Dragon monster immediately turned to defense, and all three attacks were strangled to death in the cradle.

Ryo Marufuji: ""

## Chapter 879: Lightning-Struck Tower

The three consecutive strikes of Chimeratech Rampage Dragon were easily resolved by a Kuriboh, and Ryo Marufuji had no choice but to end the round.

Its not over yet. After replenishing the cards in his hand, Judai then fused the Blazeman on the field with the Sparkman in his hand to fusion summon The Shining!

Elemental HERO The Shining, ATK 2600

The Shining gains 300 ATK for each of my banished Elemental HERO monsters!

At present, four Elemental HEROes of Judai have been removed from the game, so the number has increased by 1200 in one breath!

Elemental HERO The Shining, ATK 2600 ATK 3800

"Judai are about to launch an all-out attack!" Professional commentator Misawa continued to explain, "The Flame Wingman can inflict damage to the opponent equal to the ATK of the monster it destroyed, plus The Shining's attack"

Brother! Sho Marufuji also started to worry.

Battle! Judai waved his hand, Flame Wingman, attack the Chimeratech Rampage Dragon!

The flame-winged man flew like a cannonball, and his burning body penetrated the Cyber Dragon from the black core. The two twisting dragon heads broke apart and were involved in the ensuing explosion and turned into metal fragments.

Because Chimeratech Rampage Dragon is in defense position, it will not cause battle damage, but Flame Wingman can inflict damage to the opponent equal to the ATK of the monster it destroyed! Judai said.

Marufuji Ryo, LP 4000 LP 1900

Judai chuckled and rubbed his nose: "Then I will win this duel! Elemental HERO The Shining, attack directly!"

The Shining rushed towards his face, golden light shone behind him, and a strong eye-scorching white light swept toward his face.

But Ryo Marufuji's eyes were firm and he faced The Shining hero's sprint without fear, his expression as if made of steel.

No, I dont want to lose, and I wont lose. My duel will not end in this place!

Marufuji Ryos eyes were sharp and he directly showed a card in his hand.

I'm going to activate my younger brother's card!

"Discard Kiteroid' from my hand, and the battle damage of a direct attack becomes 0!"

Seeing that The Shining's fatal blow was blocked by the "Kiteroid" in phantom form, the whole audience was in an uproar!

The players who gathered around to watch the duel were especially lively.

What the hell, Kaiser, how do you use your younger brothers card?

Where is the glory of your Cyber Art? What about the promised pure Cyber Dragon deck?

Why do you still bring such disharmonious things!?

Sho was also shocked: "Brother used the same card as me!?"

Oh Kaiser, you actually brought this kind of card!

Judai touched his head.

Strange thing, why do I feel like Kaiser's duel looks more and more like me? Could it be that he was also taught by Yuei Vu-sensei?

The attack was neutralized by the powerful Kiteroid, so Judai's side had no way to continue the attack, and could only pass the turn with two more set cards.

To be honest, The Shining's attack power was 3800, which was still very high. Although this attack power seemed to be 200 lower than the high-end combat power calculation unit "Obelisk the Tormentor", in fact, this was an unattainable number for more than 99% of the students in the academy. .

But unfortunately, Ryo Marufuji happened to be the remaining one percent!

The specialty of Cyber Dragons was high attack power!

Draw!

Jushidai waved his hand: "Trap Card Battle Mania! This card can only be activated during the opponent's Standby Phase. All face-up monsters the opponent controls are changed to Attack Position, and must attack this turn, if able!"

Do you want to decide the outcome in this turn? Just what I want! Marufuji said brightly, Spell Card Pot of Greed, draw two more cards from the deck!

Marufuji lit up and launched a counterattack, and he directly played a "Future Fusion"!

Future Fusion, as the name suggested, allowed your monsters to fuse in the future.

At this point you might want to ask: Then why didnt you fuse in the present (cross out)

Well, if things were that simple, Future Fusion wouldn't become a Thousands-Of-Years Banned Card. Many years later, it was released by Consortium K after its effect was modified. So Ryo Marufuji naturally used the old version of the effect here: "Select a Fusion Monster, send the fusion materials from the deck to the graveyard, and that monster can be fusion summoned in the Standby Phase two turns later."

Here Marufuji Ryo chose "Chimeratech Overdragon". The fusion condition for Chimeratech Overdragon was "Cyber Dragon" plus one or more Machine-Type monsters.

This was very interesting. Because this "Chimeratech Overdragon" had no upper limit on the number of fusion materials. As long as the condition of "Machine-Type monsters" were met, you could fuse as many monsters as you want.

So Marufuji's duel disk automatically retrieved and popped up all the monster cards he needed. He pulled out the thick pile of cards in one go and flicked it coolly

I directly discard my deck!

I sent all seventeen Machine-Type monsters in the deck to the graveyard!!!

Many spectators exclaimed, and some students couldn't help but stand up from their seats, leaning forward as hard as they could, eyes wide open for fear of missing even a moment of the next scene.

In this way, the "Chimeratech Overdragon" with seventeenfold fusion would arrive after two rounds, but obviously, Marufuji Ryo felt that this was still too slow.

He was afraid that even his ashes would be cold in two turns, so he must fuse immediately!

Ryo Marufuji showed another card in his hand: "Quick-Play Spell Cybernetic Fusion Support"! Pay half my LP; once, if I Fusion Summon a Machine Fusion Monster this turn, I can banish monsters from my hand, field, and/or GY as the Fusion Materials!

So I activated the effect of Fusion Gate and fused the three Cyber Dragons in the graveyard! ! ! "

Marufuji Ryo, LP 1900 LP 950

Three Cyber Dragons were removed from the GY, metal parts collided and assembled, and the giant steel shadow climbed higher and higher like a mountain until it turned into a three-headed dragon standing tall in the sky. Even the audience was not immune to the pressure of dominating the entire scene!

Cyber End Dragon, ATK 4000

Battle! Kaiser shouted, The attack of the Cyber End Dragon! Eternal Evolution Burst!!!

Oh oh oh, its finally out, the Cyber End Dragon! But Judai smiled slightly, As expected, you still have to use the Cyber End Dragon to complete the final blow.

He pressed the button on the duel disk and flipped the card in front of him.

Trap Card High Speed Aria! Discard a Spell Card to the Graveyard; this card's effect becomes that Normal Spell Card's effect when that card is activated! (Animation card)

Marufujis eyes twitched.

Discard a Spell Card from your hand

Masaka!? (It cannot be?!)

Dont tell me that card is

The card I discarded is the Spell Card System Down! Judai shouted, Pay 1000 LP; banish all Machine-Type monsters the opponent controls and in their Graveyard!"

The entire duel venue erupted.

What the hell? Is this real or fake!?

Then the entire deck of Ryo will be banished!?

Destroy his body is not enough, you even want to destroy his heart!

System Down, commonly known as "Lightning-Struck Tower", was the natural enemy of the Machine Type. It has the ability to paralyze the entire Machine deck in an instant. It can kick all the mechanical resources on the opponent's field and graveyard to another dimension in an instant.

Whats even more unfortunate was that Ryo Marufuji had just activated Future Fusion, dumping his entire deck to the GY.

So now his deck has gone to another dimension

The invincible "Eternal Evolution Burst" failed to connect. Even a powerful Cyber End Dragon could not escape the sanction of "System Down". Its body crackled and exploded, disappearing out of thin air.

Even Cyber monsters in Ryo Marufuji's graveyard could not escape this disaster, and they were all destroyed by the force of Lightning-Struck Tower.

it's over.

Marufuji Ryo's deck didn't even have a single monster left, and his combat effectiveness was completely paralyzed. Unless he could print a monster out of thin air and it must be a big monster that could turn the tables with one card, there was no suspense about the outcome.

No one spoke for a while, and the whole venue was eerily quiet.

No, it's not absolutely quiet.

Because Marufuji Ryo was actually smiling?!

Hmm hum ha ha ha ha ha ha ha ha ha!!!

Judai:"?"

Chapter 880: A Hundred Steps Ahead

"Judai, you will use System Down' to eliminate my Cyber Dragon This kind of thing is already within my expectations!" Marufuji shouted.

"Eh?" Judai blinked.

I activate Future Fusion and send all the Machine Type monsters in the deck to the graveyard. If you have System Down, you will definitely not give up this perfect opportunity.

Because this way you can remove all my monsters from the game, and cripple my deck. "

Marufuji smiled and changed the topic: "But this time I already think further than you!"

To briefly translate, it meant that when Ryo took a picture of "Future Fusion", Judai thought Ryo was on the first step, and when he took a picture of "System Down", he was actually on the third step. Little did he know that Kaiser was actually on the fifth step This was basically his bait to trick Judai use the Lightning-Struck Tower.

Even the "Cyber End Dragon" he summoned, his once proud ace and his old friend, was just a decoy.

Ryo Marufuji has thought clearly that a duel that only strived for victory and the obsession to pursue victory no matter what sacrifices were made were the behaviors that truly showed respect for the opponent with all one's strength.

It didnt matter what method or form you used!

Even his old friend "Cyber End Dragon", who once made him extremely persistent, is not inexhaustible!

The profound insights from a Cyber Dragon player who was once instantly killed by a Lightning-Struck Tower.

"Open the set card: Quick-Play Spell

Cyberload Fusion! ! ! "

Kaiser's set card flipped, directly opening the vortex leading to another dimension.

Cyberload Fusion: Fusion Summon 1 Fusion Monster from your Extra Deck that lists a "Cyber Dragon" monster as material, by shuffling the Fusion Materials listed on it into the Deck, from among your cards on the field and/or your face-up banished cards.

We directly merged the entire deck that was sent to another dimension back!

Including the "Cyber End Dragon" that just disappeared from the field, there were a total of twenty-two banished Machine-Type monsters.

"I shuffle all twenty-two monsters back into the deck!"

"Nani!?" x10086

The jaws of the onlookers dropped in shock, and Mr. Chronos rubbed his eyes frantically on the teacher's desk.

Twenty-two-fold fusion of Cyber Dragons!

This wasn't something you see every day. Looking at the ferocious fusion vortex in mid-air, the more than twenty Machine-type monsters churning in the vortex, the countless scraping of parts, and the combination of metals. Even Principal Samejima, the first-generation teacher of the Cyber Art Dojo, stared straight in the eyes.

He deeply felt that Ryo Marufuji, a student, had surpassed himself as a teacher no, it should be said that he had left him too far behind.

However, as he became stronger, Ryo also changed a lot from the student he was familiar with in the past.

Samejima didn't know whether this was a good thing or a bad thing.

Marufuji shouted: "Look at this, Judai! This is my full strength now, my last struggle!

Fusion Summon! Chimeratech Overdragon! ! ! "

The ultimate fusion, the combination of twenty-two mechanical beings. The huge fortress hit the ground with great force. Multiple dragon heads protruded from the steel fortress, casting a huge shadow on the ground with teeth and claws, like a steel fortress that stretched straight to the sky!

[Chimeratech Overdragon, ATK ?]

"The attack power of the Chimeratech Overdragon becomes equal to the number of Fusion Materials used for its Fusion Summon x 800!" Ryo Marufuji shouted, "Because the number of Fusion Materials is twenty-two, its attack power is"

[Chimeratech Overdragon, ATK ? ATK 17600]

"Attack power 17600!?"

"Not only that, Chimeratech Overdragon' can attack the opponent's monsters a number of times each Battle Phase, up to the number of Fusion Materials used for its Fusion Summon." Ryo Marufuji added.

"The number of Fusion Material monstersthat is, twenty-two consecutive shots!?" Judai was shocked.

The attack power was more than 17000. If he were to fire 22 rounds, wouldn't it all be blown into a mosaic?

"Take it, Judai, my full strength!" Ryo Marufuji yelled, "Chimeratech Overdragon, attack Elemental HERO Flame Wingman'!!!"

All the dragon heads opened their mouths at the same time, and the energy core was operating. Each mouth was charged at the same time, as if nothing could resist it, and all obstacles would be turned into powder under the power of the destroying flame.

But Judai's eyes were sharp: "I do feel your determination and strength, Kaiser! But my strength is not just that! Open the set card: Quick-Play Spell Battle Fusion!

When an attack is declared involving a Fusion Monster I control and an opponent's monster: That monster I control gains ATK equal to the ATK of the opponent's monster, until the end of the Damage Step! "

The whole audience was shocked again.

Nani? Doesn't this mean

[Elemental HERO Flame Wingman, ATK 2100 ATK 19700]

Kaiser, you didnt expect that, did you? Im actually on the ninth step!

"Attack power 19700!?" Marufuji Sho's face turned green.

Is this kind of attack power beyond this dimension?

Isn't this an area that only legendary duelists can touch?

When did my elder brother and my Aniki become so strong?

At this time, the onlookers were vaguely aware of what was about to happen, and some people had already started shouting about "famous scenes" and "classic re-enacted".

Sure enough, the next scene was a complete replica of the anime exactly the same as the graduation duel in the original work!

"Same purpose, but different timing!" Marufuji shouted, "Quick-Play Spell Battle Fusion! Chimeratech Overdragon gains ATK equal to the ATK of Elemental HERO Flame Wingman!"

[Chimeratech Overdragon, ATK 17600 ATK 37300]

Attack power 37300!

Judai, you didnt expect that, did you? Im actually on the eleventh step!

"Mama Mia!" Professor Chronos bit his handkerchief, "An attack power of more than 37,000! He is indeed the strongest student in our academy, nanone!"

Principal Samejima stood up: "That's great! They are both great!"

If this battle was established, Judai would suffer 17,600 battle damage in one breath and be defeated!

The onlookers have begun to boldly predict the outcome, and a certain name has begun to pop up in the forums and live broadcast room comments

Final Fusion.

Final Fusion (Trap Card): During either player's Battle Step, when a Fusion Monster you control battles an opponent's Fusion Monster: Target both those Fusion Monsters; negate the attack, and if you do, each player takes damage equal to the combined ATK of both those Fusion Monsters.

This was the case in the original animation. Judai used "Battle Fusion" first, but Kaiser also relied on a "Battle Fusion" to overtake him. Judai finally used the trap "Final Fusion" to overturn the table. Both sides suffered the highest effect damage in the history of Yu-Gi-Oh and the duel ended in a DRAW.

Many people were boldly predicting that this was the end of the world line despite the changes in history, fate still led the two people to end up in the same duel with the same chain.

Of course, it should be the same ending.

Chimeratech Overdragon breathed out the ultimate flame, and the Flame Wingman sprinted fearlessly. The expansion of power released a dazzling light, and the endless light curtain was like a sweeping wave, briefly taking away the vision of everyone in the room.

Everyone stood up straight and tried their best to open their eyelids under the stimulation of the bright light, trying to confirm what was happening on the field.

Did Judai lose?

Or is it a draw?

Or

When the light dissipated and the situation on the field was clearly seen, everyone was stunned.

Almost no one immediately understood what happened in that electric moment.

Chimeratech Overdragon still stood domineeringly on Ryo Marufuji's field, seemingly unharmed. But looking at Judai's side, the Elemental HERO Flame Wingman with an attack power of more than 19,000 have disappeared.

No, even The Shining has disappeared.

In its place was a flipped-over trap card and the demon with jet-black wings and feminine features.

[Yubel, ATK 0]

"What a critical moment." Judai wiped his sweat and breathed a long sigh of relief, "Just now, I activated the Continuous Trap Ultimate Offering!. During my Main Phase or the opponent's Battle Phase: I can pay 500LP to perform a normal summon.

So I took the Elemental HERO Flame Wingman and Elemental HERO The Shining as sacrifices  
Tribute Summon! Come, Yubel! "

Yubel crossed her arms and looked at the majestic Chimeratech Overdragon in front of her with interest.

"Heh, do you have to rely on my power again, Judai?" Yubel crossed his arms and chuckled.

Judai scratched his head: "Sorry, but this time my opponent is really strong"

"It doesn't matter, Judai, you can rely on me at any time~ I will help no matter what."

Yubel smiled and turned to the towering and huge mechanical monster in front of him.

"A monster with an attack power of 37300 you really provoked an incredible guy, Judai."

After a pause, she licked her lips again.

"But I like it."

Yubel said that she likes monsters with high attack power the most, and the higher they are, the more she likes them.

Marufuji's eyes moved slightly.

He remembered that this monster seemed to be one of Judai's aces and it was the kind of ace that he would not use easily. So far, he had only seen him during the duel between Judai and Chronos during the entrance examination.

He remembered that the effect of this one was

Marufuji Ryo, who thought about this section, realized something was wrong, but it was already too late.

In the Standby Phase of this turn, Judai activated the trap "Battle Mania" all of Ryo Marufuji's monsters must attack forcibly.

Chimeratech Overdragon opened all its mouths, and the mouths were shining with supernova-like flames. That was the ultimate ray that symbolized destruction and shattering But this time, the one who was destroyed might be himself.

The attack power of 37300 is like a blow that will lift the entire stadium. However, Yubel indifferently stretched out a palm and lazily caught the heaven-destroying flame.

"The effect of Yubel." Judai said, "The battle damage caused by Yubel to me will be borne by the opponent."

Ryo Marufuji closed his eyes.

He lost, defeated again, and was just as convinced as last time.
