

I Play Yu-Gi 901

Chapter 901: The Monarch's New Path

Monarch, in the MonsterVerse, was a human organization that specialized in studying and finding giant monsters and would also intervene in battles with armed forces when necessary.

In the world of Yu-Gi-Oh!, there was Godzilla and Ghidorah, so it seemed reasonable to have the corresponding organization.

The transport plane stopped steadily in front of Yuei Vu. The hatch on the rear side opened and dropped to the ice like a gangway.

The first to come out was a heavily armed team, wearing uniform combat uniforms, black helmets on their heads, loaded with guns, and their faces covered tightly.

Yuei Vu's hands were always in his pockets, but the Dark Magician Girl suddenly jumped out vigilantly, her small body blocked in front of her master, and her face was full of vigilance to guard against this group of people being harmful to her master.

A person from the rear of the team stepped out of the cabin. Unlike this group of armed soldiers, this one wore glasses on his nose, a jacket, and a tie, and his appearance was that of a civilian official.

"Mr. Yuei Vu!"

The man came up to me very warmly and looked like he was ready to shake hands. But the dark magician girl stood in front of him with a small staff, making him freeze in place.

He smiled awkwardly: "Miss, don't be nervous, I don't mean any harm. We are on the same side as your master."

The Dark Magician Girl didn't believe it at all: "There are two vampires at home and they say they are on the same side as the master!"

She has never been on good terms with vampires, and she always felt that those two vampires must be up to no good!

It's just that she was not very smart and couldn't guess what they were planning

"Okay, it's okay." Yuei Vu patted her shoulder.

"oh"

The girl retreated but still did not dematerialize. She seemed to think that her presence could act as a deterrent.

Yuei Vu didn't know if she was effective as a deterrent or not, but this kind of cute girl showing off her long legs in the ice and snow was bound to attract attention.

Thinking on the bright side, at least she can distract the enemy, right?

"I have admired you for a long time, Mr. Yuei Vu, and I have always hoped to find an opportunity to meet you." The man was very polite, "The Duel King who dominates the world, the only remaining master of Egyptian Gods in the world, and the driver of the strongest duel monster. .."

"Just say babysitter." Yuei Vu was helpless.

Sometimes he felt that the three tsunderes were really like three older cats, and he was the babysitter who took care of them.

Unlike the Pharaoh whose orders they dared not disobey, the three of them were not Yuei Vu's servants.

When he called them, they had no obligation and no need to hear him. The reason why they could be summoned was firstly because they could walk around and get some fresh air, and secondly, it was to show off their face.

"Okay, let me make a guess," Yuei Vu said instead, "Don't tell me your name happens to be Ishiro Serizawa, right?"

The man adjusted his glasses in surprise: "How did you know?"

Damn, he really is

Dr. Ishiro Serizawa was an expert on the monsters in the Kaiju movie franchise particularly Godzilla. He was a typical "pacifist" who insisted that humans and monsters should coexist peacefully and tried to interact with Godzilla many times.

There was a Godzilla in the parallel world, so it seemed natural that there was a Serizawa.

Considering that this was the world of card players, you could come to a logical conclusion

"That Kaiju just now," Yuei Vu asked, "did you summon it?"

Serizawa was stunned for a moment, a little surprised.

"Mr. Yuei Vu is even sharper than the rumors say. Yes, it is my comrade-in-arms and my old friend."

As he spoke, he had already taken out the card and showed it to Yuei Vu.

Dogoran, the Mad Flame Kaiju!

"Kaiju." Yuei Vu said.

"I'm sure you have a lot of questions to ask." Dr. Serizawa stepped out of the way, "Why don't you come in and chat slowly?"

Yuei Vu didn't refuse and followed him on the plane generously.

The Dark Magician Girl followed behind, holding her small wand vigilantly at all times, and not forgetting to intimidate the surrounding group of soldiers with her eyes.

Super fierce. JPG.

Dr. Serizawa briefly explained their organization.

Decades ago, before human governments generally recognized and accepted the existence of duel monsters, Kaijus appeared in everyone's sight.

A shipwreck drew the attention of relevant authorities to these super-giant creatures, and the Monarch organization came into being. Their original purpose was to study and eliminate giant species that might pose a threat to humans.

Monarch, the organization that had just been established back then, had a bad start when it encountered the first Kaiju.

The thermal weapons that gave humans inflated confidence were unprecedentedly powerless in the face of the huge Kaijus, and their firepower achieved almost no results. In the eyes of the big monster, the entire fleet was simply a piece of meat that came to the door, and they were all eaten up.

At this time, something even more shocking happened Godzilla appeared.

Of course, here it was named "Dogoran" by the Imperial Project.

Godzilla suddenly made a sneak attack, and he suppressed the Kaiju that had beaten the fleet to pieces, and burned it into dregs with a single "Atomic Breath", which shocked the then American president.

After eating and drinking enough, Godzilla started taking a walk after dinner, but the USA at that time was quite frightened. It just so happened that the war was not long over at that time, the USA was still in awe of the power of a mushroom cloud, so the president approved the deployment of the nuclear bomb without saying a word.

Of course, it's still of no use.

If it was an orthodox monster worldview, then it may be time to enter a turbulent period, that was, a stage where various ancient monsters are resurrected and prehistoric behemoths begin to fight each other.

But fortunately, this was the Yu-Gi-Oh world. Monarch, which was helpless in the face of the existence of the ancient evil beasts, luckily found an effective means to deal with the evil beasts besides aircraft and cannons

play cards.

From a certain point of view, Mr. Pegasus was really one of the most glorious heroes in human history. When he dug up the slate of Duel Monsters in Egypt, he saved countless industries and people

The discovery of Pegasus stimulated the duel monster game to quickly become popular all over the world, and the potential contained in "Shadow Games" and monster spirits was gradually discovered.

This gave the organization a brand new entry point, a path that had never been imagined.

So the card was now in Dr. Serizawa's hand.

"So you solved the problem of Kaijus that has been bothering you for decades through a duel?" Yuei Vu asked.

"Almost." Dr. Serizawa smiled, "I need to thank Mr. Pegasus again. Without him, we might still be developing new missiles to fight against the Kaijus Ha, that would be stupid."

"Uh yeah." Yuei Vu coughed.

Indeed, it was quite stupid to not think about how to play cards but to develop missiles and cannons to solve problems all day long

"Times are changing, and we are being sucked into the wave of the new era." Dr. Serizawa shrugged, "Now only the United States is still clinging to their missiles and artillery but we all know those toys are almost out of date.

I have been in contact with their politicians and military officers, and all I can think about is their mushroom cloud eggs no new ideas after so many years. "

Although it sounded weird, Yuei Vu found it hard to disagree.

Nuclear weapons looked powerful, but they were actually very powerless. They couldn't handle the Kaiju, couldn't handle the Light of Destruction, couldn't handle Zorc, couldn't handle Dartz well it seemed to be of no use.

"Speaking of which."

Dr. Serizawa smiled and took out a Duel Disk.

"Mr. Yuei Vu, although it may be a bit presumptuous my old friend said he wants to fight you."

Chapter 902: Mad Flame Kaiju

"Duel!" x2

Yuei Vu, LP 4000

Serizawa, LP 4000

"I'm the first to go, draw!" Yuei Vu drew a card.

"Summon the Elemental HERO Solid Soldier' in defense position."

[Elemental HERO Solid Soldier, DEF 1100]

"The effect of Solid Soldier When this card is Normal Summoned: I can Special Summon 1 Level 4 or lower HERO' monster from my hand." Yuei Vu said, "I special summon the Elemental HERO Shadow Mist'."

[Elemental HERO Shadow Mist, DEF 1500]

"The effect of Shadow Mist If this card is Special Summoned: I can add 1 Change' Quick-Play Spell Card from my Deck to my hand." Yuei Vu pulled out a pop-up card from the deck, "I added the Quick-Play Spell Mask Change' to my hand.

Then set a card and I end my turn. "

The only information that Yuei Vu currently had was that the opponent's ace monster may be "Dogoran, the Mad Flame Kaiju", but it was difficult to judge the deck he used.

Kaijus had good compatibility with most decks, and they could be plugged into almost any series.

The function was to eat the big monster on the opposite side.

"Then it's my turn, draw!" Serizawa quickly drew a card, "Activate the Spell Card Graceful Charity!"

Yuei Vu's eyes moved slightly: "Then at this moment, open the set card: Quick-Play Spell Mask Change! Send 1 HERO' monster I control to the Graveyard, then Special Summon 1 Masked HERO' monster from my Extra Deck with the same Attribute.

I sent the DARK attribute Elemental HERO Shadow Mist' to the GY, transform!

The knight born from the abyss, the embodiment of the dark law! Coming here

Masked HERO Dark Law! ! ! "

The magic of transformation was activated, and Miss Shadow Mist was quickly covered by black mist. The dark mist embodied a strong and ferocious armor, quickly covering her and transforming her into a Masked HERO walking in the darkness.

[Masked HERO Dark Law, ATK 2400]

"At this moment, the effect of Elemental HERO Shadow Mist!" Yuei Vu said, "If this card is sent to the GY: I can add 1 HERO' monster from my Deck to my hand.

I added Elemental HERO Stratos' to my hand. "

Serizawa said: "According to the effect of Graceful Charity', I draw three cards from the deck, and then discard the two cards."

But the two cards he picked had just been put into the graveyard, and soon they turned into golden projections and disappeared under the cover of the evil forces.

"The effect of Masked HERO Dark Law." Yuei Vu said, "As long as Dark Law is on the field, all cards sent to the opponent's graveyard will not go to the graveyard but be removed from the game instead!"

Serizawa frowned slightly and took away the two cards that popped up from the Duel Disk's graveyard it seemed that this disturbed him quite a bit.

"Another effect of Dark Law." Yuei Vu said again, "Once per turn, if the opponent adds a card from their Deck to their hand, except during the Draw Phase or the Damage Step: I can banish 1 random card from the opponent's hand!"

The black claws grabbed it in the air, and the black scratches randomly hit a card in Serizawa's hand. That card immediately disappeared into another dimension under the overbearing dark power.

Serizawa: ""

Before the fight even started, Yuei Vu had already given Dr. Serizawa a heavy blow. He hadn't even started operating yet, but Dark Law's two "unfriend" effects had already given him a lesson

The Masked HERO of the evil forces stood beside Yuei Vu with his arms folded, exuding the arrogant air of a friend.

"Spell Card Pot of Greed'." Dr. Serizawa said helplessly, "Draw two cards from the deck."

While drawing the card, he also glanced at the fierce-looking black Masked HERO warily and added: "The second effect of Masked HERO Dark Law can be used only once per turn, so he can no longer interfere with my hand. "

Yuei Vu nodded: "Indeed."

"Activate the Spell Card Terraforming!" Dr. Serizawa said, "I can add a Field Spell from the deck to my hand. The card I want to add to my hand is of course this card

Kyoutou Waterfront! "

"As expected of an expert in researching and countermeasures against Kaijus, you have prepared quite well." Yuei Vu murmured.

"Activate the Field Spell Kyoutou Waterfront!"

The scene changed rapidly, from the duel arena in the transport plane to the Kyoto seaside again a paradise where Kaijus were rampant.

Dark Law folded its arms and acted arrogantly for a few seconds, but he didn't expect that he would soon be punished.

"I offer Masked HERO Dark Law' as a sacrifice, and Special Summon this card in attack position on your field, Mr. Yuei Vu

Gameciel, the Sea Turtle Kaiju! ! ! "

The tsunami rolled in from the pier and swept along the streets of the property market. The Masked HERO Dark Law was caught off guard and was engulfed by the tsunami, and was instantly chewed and devoured by a huge creature riding in the tsunami

and ended his sinful but short life.

The blue sea tide receded, and the huge turtle beast, carrying its heavy turtle shell, landed in front of Yuei Vu. He even turned his head and roared vaguely at him, as if to say "Hey, we meet again." .

[Gameciel, the Sea Turtle Kaiju, ATK 2200]

"Oh?" Yuei Vu asked curiously, "You also have the Sea Turtle Kaiju in your hands?"

"Gameciel is indeed a very rare species, but Monarch also captured one." Serizawa smiled, "It is the same species as the one you encountered in the city, Mr. Yuei Vu."

After a pause, he added: Because Masked HERO Dark Law entered the graveyard, the Kaiju Counter of Kyoutou Waterfront increased by one.

Each time a card is sent from the field to the GY, place 1 Kaiju Counter on this card for each sent card. But I think you already know that, right? "

Yuei Vu was noncommittal and asked: "Is this really good? Specially summoning Kaijus on my field means that I can also activate the effects of Kaijus.

The Sea Turtle Kaiju can negate any effects by removing 2 Kaiju Counters from anywhere, including the opponent's field. It is a very powerful field control ability. "

Serizawa didn't take it seriously and just smiled: "As long as we defeat him before then."

He drew a card and held it high.

"Dogoran, the Mad Flame Kaiju Summons!!!"

That giant shadow came from the sea outside Kyoto Pier.

Tons of seawater were thrown high and evaporated, and hot white gas filled the sky hissingly.

The seawater swept across the city as if it was about to swallow Kyoto, and a huge black beast landed on the coast.

It advanced slowly, making the floor collapse with each step, leaving burning footprints on the ground that seemed to be burned into it. It had a red field, and all the steel and concrete near it were melted. As it advanced, the high-rise buildings turned into balls of softened molten iron and fell to the ground at high speed.

The burning Kaiju stood tall and roared while spitting out scorching rays that split the sky!

[Dogoran, the Mad Flame Kaiju, ATK 3000]

Chapter 903: VS Dogoran

Dogoran, the Mad Flame Kaiju was summoned!

"The effect of Dogoran." Serizawa explained, "When the opponent has a face-up Kaiju' monster on the field, this card can be Special Summoned directly from the hand in attack position."

This was also a common effect across the entire "Kaiju" series. The strategy of the Kaiju deck was basically the same first use a Kaiju to eat the big monster of the opponent and jump to the opposite field, and then jump out a stronger one directly from your hand.

"Normal summon the Sabersaurus' in attack position!"

[Sabersaurus, ATK 1900]

"Battle!" Serizawa said, "Use Dogoran, the Mad Flame Kaiju' to attack Gameciel, the Sea Turtle Kaiju!"

Dogoran's body began to react. Its body buzzed like an engine, and high-temperature energy was brewing toward its open mouth. The lava in the gaps in its body seemed to be pulled, and all of it converged toward its mouth.

Atomic Breath!

Like a red dragon rushing out of a volcano's crater, its hot breath turned into a spiral beam of light and penetrated the turtle's body, leaving a charred black hole dripping with flesh and blood.

The sea turtle was blown to pieces with a groan, and the super-high temperature explosion melted the surrounding buildings into molten iron.

[Yuei Vu, LP 4000 LP 3200]

"Then the attack of the Sabersaurus' will follow!" Serizawa continued to order.

The red dinosaur charges lumbering down the streets of Kyoto. Elemental HERO Solid Soldier's armor was penetrated by the white horn, and his body was shattered into pieces.

"In this way, the number of Kaiju Counters on Kyoutou Waterfront' increases to three." Serizawa continued, "The effect of Kyoutou Waterfront' is activated!"

Once per turn, while 3 or more Kaiju Counters are on this card: I can add 1 Kaiju' monster from my Deck to my hand! "

The three indicator lights on the tower flashed. A card popped out of the deck and was drawn into Dr. Serizawa's hand.

I added the Super Anti-Kaiju War Machine Mecha-Dogoran to my hand!

Yuei Vu narrowed his eyes.

Good guy, there is even a Mechagodzilla, so this set is quite complete.

Yes, it was very obvious from this gorgeous and loud name that the prototype of this card was the man-made monster that first appeared in the 1974 movie "Godzilla vs. Mechagodzilla" and appeared again in the "Godzilla vs. Kong" movie produced by Hollywood.

"Set two cards, I end my turn!"

"Then it's my turn, draw!" Yuei Vu said, "The Spell Card Akashic Record'. Draw 2 cards and reveal them. If any of those cards have been played during the Duel, remove that card from play. (animation card)

Yuei Vu added the drawn card to his hand, and then immediately drew the card retrieved by Shadow Mist in the previous turn.

"I normal summon Elemental HERO Stratos'!"

[Elemental HERO Stratos, ATK 1800]

"When Stratos is successfully summoned, I add Vision HERO Faris' to my hand.

Then activate the effect of Vision HERO Faris'! Discard 1 other HERO' monster; Special Summon this card from my hand! "

[Vision HERO Faris, ATK 1600]

"When Faris was successfully summoned, I can place 1 Vision HERO' monster from my Deck, except Vision HERO Faris', in my Spell & Trap Zone as a face-up Continuous Trap. I placed a Vision HERO Increase'.

Then there is the effect of Increase. Tribute Vision HERO Faris on the field, and this card can be Special Summoned from the Spell & Trap Zone! "

[Vision HERO Increase, ATK 900]

"When Vision HERO Increase is the Spell & Trap Zone: I can Special Summon 1 Level 4 or lower Vision HERO' monster from my Deck. Special summon Vision HERO Vyon' from the deck!"

[Vision HERO Vyon, ATK 1000]

"When Vyon is summoned, send the Destiny HERO Malicious' from the deck to the graveyard."

Yuei Vu drew the Malicious from the deck and threw it to the graveyard. The deck was still automatically shuffling in the slot. He had entered the follow-up process: "Another effect of the Vyon!

I banish Vision HERO Faris' in the graveyard, and add 1 Polymerization' from my Deck to my hand!

I added the Spell Card Fusion Substitute' to my hand! "

Another card popped out of the deck and was added to Yuei Vu's hand, while the deck was quickly shuffled.

"The effect of Malicious Banish this card from the graveyard and special summon a monster with the same name from the deck!"

[Destiny HERO Malicious, ATK 800]

"Activate the Spell Card Fusion Substitute! I fuse Vision HERO Increase', Vision HERO Vyon', and Destiny HERO Malicious' on the field!

The fusion condition is 3 HERO monsters! Fusion Summon

Vision HERO Trinity! ! ! "

The triple fusion of heroes, the burly hero in red armor broke the ground and walked with his arms akimbo across the ruined streets of Kyoto that were invaded by Kaijus!

[Vision HERO Trinity, ATK 2500]

"When Trinity is Fusion Summoned, for the rest of this turn, this card's ATK becomes double its original ATK!"

[Vision HERO Trinity, ATK 2500 ATK 5000]

Serizawa's expression changed slightly: "Attack power five thousand"

"Another effect of Fusion Substitute' is activated!" Yuei Vu said, "Banish this card from my GY; return 1 Fusion Monster in my GY to the Extra Deck, then draw 1 card.

Yuei Vu drew a card that popped up in the graveyard: "I return Masked HERO Dark Law' to the deck, and then draw a card!"

Drawing a new card from his hand, Yuei Vu only glanced at it and immediately inserted it into the duel disk: "Quick-Play Spell Mask Change! Send 1 HERO' monster I control to the Graveyard, then Special Summon 1 Masked HERO' monster from my Extra Deck with the same Attribute!

I sent the Elemental HERO Stratos' to the GY, transform!

The lonely hero puts on the mask of revenge and tears apart the evil with the cutting wind

Masked HERO Blast, summon! ! ! "

Gorgeous dark green transformation special effects, dark green armor covering Brother Sky's whole body. The round red eyepiece was lit like a headlight, and the scarf rippled in the wind.

[Masked HERO Blast, ATK 2200]

"When Blast is summoned, the ATK of a monster on the opponent's field is halved." Yuei Vu said, "I halve the attack power of the Dogoran, the Mad Flame Kaiju!"

The gust of wind shook the body of the Mad Flame Kaiju as if it was going to extinguish the fluttering flames above its head.

[Dogoran, the Mad Flame Kaiju, ATK 3000 ATK 1500]

"It actually weakened Dogoran's power" Serizawa muttered to himself.

"The subsequent effect of Blast," Yuei Vu continued, "Once per turn, I can pay 500 LP, then target 1 Spell/Trap the opponent controls; return it to the hand!"

I'm going to return the set card on the left side of your back row! "

Yuei Vu, LP 3200 LP 2700

But Serizawa was well prepared, and he took the initiative to flip the set card the moment before the green blast hit it.

"Trap Card Ballista Squad! Tribute 1 monster and destroy a card on the opponent's field!" Serizawa shouted, "I sacrificed Dogoran, the Mad Flame Kaiju' whose attack power was halved to destroy the Vision HERO Trinity!"

With the blessing of the trap effect, the Mad Flame Kaiju roared violently and headed toward the Vision HERO menacingly. The two sides collided violently, and Dogoran exploded on the spot like an overloaded reactor. The Vision HERO's armor was torn into pieces, and the surrounding buildings exploded and collapsed.

This was a one-for-one exchange.

But Yuei Vu didn't take it seriously: "Then activate the Spell Card Polymerization again! I fuse Masked HERO Blast' on the field with Masked HERO Ray' in my hand!"

Masked HERO Ray, a lower-level "Masked HERO" in the original manga as the main deck of Yuki Judai in the comic, Masked HERO of course could not only have fusion monsters and no lower-level monsters, but when they were converted into real cards, only fusion monsters were released.

Serizawa narrowed his eyes slightly: "The fusion of Masked HEROes?"

"The fusion condition is 2 Masked HERO' monsters! Fusion Summon!

From light to darkness, and then from darkness to light, using the power of awakening to create the world

Contrast HERO Chaos! "

Chapter 904: Super Anti-Kaiju War Machine!

The storm of chaos rises from the ground, and the powerful energy seems to break through the dimension. The slender hero was covered in two-color armor. His black and white body emerged from the raging storm, and two-color streamers flew in the air.

Contrast HERO Chaos was summoned! ! !

[Contrast HERO Chaos, ATK 3000]

"Contrast HERO Chaos"

Dr. Serizawa raised his head and watched the two-color wind roaring through the streets. The Masked HERO was suspended in the air like a god, and the masonry fragments were swirling around him.

"This is the ultimate Masked HERO." He murmured to himself.

Serizawa was so distracted that he didn't react until Chaos' flying kick broke his "Sabersaurus". The strong virtual shock brought him back to reality, causing him to take several steps back.

Serizawa, LP 4000 LP 2900

"Cover three cards, the round is over." Yuei Vu said.

"Taking the rumored final form of the Masked HERO as my opponent It seems that my old friend is also excited." Serizawa chuckled, "Then for my turn, draw!"

He pressed the button on the Duel Disk and directly activated the remaining set card.

"Spell Card Monster Reborn! Target 1 monster in either GY; Special Summon it! I resurrect the Dogoran, the Mad Flame Kaiju!"

The ground in the city began to shake again, and the masonry fragments jumped restlessly. The ground cracked and cracks spread, as if some giant thing was moving beneath the ground, ready to break out of the ground at any time.

Yuei Vu waved his hand: "The effect of Chaos! Once per turn, I can target 1 face-up card on the field; negate that target's effects until the end of this turn! And this effect can also be activated during the opponent's turn!"

He pointed straight at Serizawa's back row.

"I invalidated the effect of the Spell Card Monster Reborn!"

The power of chaos erupted from the ground, instantly covering the trap that bound Dr. Serizawa's backfield. The shaking of the ground stopped instantly, and the vague outline of Dogoran that had just emerged also dissipated again.

Dr. Serizawa gritted his teeth: "Then the effect of Kyoutou Waterfront' is activated again! Once per turn, while 3 or more Kaiju Counters are on this card: I can add 1 Kaiju' monster from my Deck to my hand.

Add Kumongous, the Sticky String Kaiju' from the deck to my hand! "

A new Kaiju was recruited, which meant Serizawa had gained a new means of clearing the battlefield. With just a simple command, he could command the Kaiju to eat the opposing heroes on the field.

But Yuei Vu has already made countering arrangements.

"Open the set card!" He waved his hand, "Continuous Trap Mask of Restrict!"

Serizawa: "!"

Seeing that ugly and ferocious mask with a big word "Seal" written on its head jumping out onto the field, Serizawa had to admit that he was really shocked for a moment.

Because this thing was literally the natural enemy of all Kaijus!

Kaijus could Special Summon themselves to the opponent's field by Tributing 1 monster the opponent control, which was their most powerful point. This allowed them to ignore almost any effect and any resistance, and simply and crudely eliminate almost any big monster in the existing Yu-Gi-Oh system.

.but it's only "almost".

This advantage could also turn into a weakness in a few cases.

Because the Kaijus must "Tribute 1 monster the opponent control" before subsequent summon could be carried out.

The effect of the Continuous Trap "Mask of Restrict" was also very simple and crude
Neither player can Tribute cards.

It was undoubtedly equivalent to breaking the spine of the Kaiju.

There were two ways for Kaijus to appear either they ate a monster on the opposite side and jumped to the opposite side, or they could jump out of the hand directly when there was a Kaiju on the opposite side. But it must start with a Tribute.

Moreover, all Kaijus were above Level 4. Even if you wanted to Normal Summon them by Tributing, that wouldn't do.

If the tribute method was blocked, the entire system of the Kaiju would also be blocked.

"Then I activate the Spell Card Sacred Sword of Seven Stars.'" Serizawa also immediately changed his mind, "Banish 1 Level 7 monster from my hand or face-up on my field; draw 2 cards.

I banished the Kumongous, the Sticky String Kaiju' from my hand and drew two cards from the deck! "

With two new cards in hand, he then drew one of them and another card in his hand: "Spell Card Trade-In!' I discard Super Anti-Kaiju War Machine Mecha-Dogoran' and draw two more cards!

Then I summoned the Crawling Dragon #2 in attack position! "

[Crawling Dragon #2, ATK 1600]

"The Spell Card White Elephant's Gift' is activated! I send Crawling Dragon #2' to the graveyard, and draw two cards!

Dr. Serizawa drew cards one after another, and while frantically filtering out cards, he accumulated more and more resources.

"The Spell Card Card of Burial Magic!' Banish 3 Spell Cards from my Graveyard. Draw 2 cards!" (Animated Card)

"Then the Spell Card Spacetime Transcendence' is activated!" Serizawa showed another card in his hand, "This card can only be activated by banishing 2 or more Dinosaur monsters from my GY.

Special Summon 1 Dinosaur monster from my hand or GY whose Level equals the total Levels of those banished monsters! "

Yuei Vu understood: "Dinosaur monsters So when Tributing was sealed, you changed the to this method?"

"I banish Level 4 Sabersaurus' and Level 4 Crawling Dragon #2' from the graveyard!"

A card popped up from Dr. Serizawa's graveyard and was raised above his head.

"Dogoran, the Mad Flame Kaiju is resurrected!!!"

That card was put on the Duel Disk, and the earth roared violently at the same time! The ground cracked, and the flaming dragon rushed into the air. A black shadow like steel rose up, and the churning lava flowed between the gaps in its body.

[Dogoran, the Mad Flame Kaiju, ATK 3000]

"Roar!!!"

Dogoran roared, and the roar triggered a terrifying sound wave that seemed to be caught in a heat wave, shattering the glass along the way into shards and melting the steel into water.

"But it is Special Summoned by the effect of Spacetime Transcendence', so it cannot attack during this turn." Yuei Vu reminded.

"I know, but Dogoran doesn't need to attack." Serizawa smiled, "The effect of Dogoran, the Mad Flame Kaiju is activated! Once per turn, by removing 3 Kaiju Counters from anywhere on the field destroy all monsters the opponent controls!!!"

The Godzilla roared in a low voice, and his whole body started to work like a red-hot reactor!

That was comparable to the destructive power of the banned card "Raigeki", which was regarded as a scourge in this era. Just one strike could wipe out the opponent's entire lineup.

And its a Raigeki that could be activated again and again at every turn!

He was worthy of being the Godzilla. This ability may be mediocre in the later Yu-Gi-Oh environment, but in the GX era, this kind of thing that could be retrieved, could be easily summoned, had high ATK, and could clear the field with almost no cost was already a divine weapon.

The furnace in Dogoran's body was like an explosion. A red-hot impact erupted from it, and anything in the way was melted and destroyed, like a huge hemispherical energy shield!

"Open the set card!" Yuei Vu immediately turned over the backcourt, "Trap Card Interdimensional Matter Transporter"! Target 1 face-up monster on my field; remove that target from the game until the End Phase!

Remove Contrast HERO Chaos from the game! "

I directly sent my monster to another dimension!

The terrifying red lotus impact swept everything, but Contrast HERO Chaos disappeared at the other end of the dimension at a critical moment, and Dogoran's overbearing impact only hit the air.

Although Yuei Vu's field still became empty, Serizawa could not launch an attack for the time being. The monster summoned by "Spacetime Transcendence" itself has attack restrictions, not to mention that Dogoran could not attack during the turn when it activated the effect of completely destroying the opponent's monsters.

But Serizawa has obviously already figured this out: "The Continuous Spell The Kaiju Files' is activated!

Once per turn: I can target 1 Kaiju' monster on the field; destroy that monster, then Special Summon 1 Kaiju' monster with a different original name from my Deck to its controller's field. "

He pointed at the Godzilla on his field who had an attack restriction imposed on him.

"I destroyed the Dogoran, the Mad Flame Kaiju!"

Dogoran let out a dull roar, and its red-hot body gradually melted, decomposing and disappearing under the scalding heat.

A new card popped out of his deck simultaneously.

"Super Anti-Kaiju War Machine Mecha-Dogoran is summoned!!!"

Chapter 905: Mecha-Dogoran

Blue light spots gathered in front of Yuei Vu, and the energy gradually shaped into an entity. The transparent mechanical parts rub together and assemble, gradually transforming into a steel entity.

The long tail of metal smashed into the street, and the lamppost fell down with electric sparks.

Countless metal parts are assembled into a whole, rising at a speed visible to the naked eye.

Super Anti-Kaiju War Machine Mecha-Dogoran, ATK ?

Mechagodzilla!

If in the past this was just a star in the tokusatsu circle and was well-known among tokusatsu movie lovers, then after the release of the movie "Godzilla vs. Kong", this guy's popularity increased several times.

Mechagodzilla was a mechanical monster modeled after Godzilla, the strongest creature on Earth. In some versions, it even had terrifying combat power that surpassed Godzilla himself.

"The effect of Mecha-Dogoran is activated!" Serizawa yelled, " Once per turn: I can remove 2 Kaiju Counters from anywhere on the field; equip 1 Kaiju' monster from my hand or Graveyard to this card!

I removed 2 Kaiju Counters from 'Kyoutou Waterfront' and equipped Dogoran, the Mad Flame Kaiju' from the graveyard! "

The black vortex in the cemetery opened, and Dogoran's red lotus-like hot energy was extracted, turned into nutrients and quickly charged into the body of the machine.

The cold machine seemed to wake up instantly! Its whole body began to light up with a dazzling blue light one after another, its lowered head slowly raised, and its neck made a clicking sound of metal friction.

The heavy cannon carried on its shoulders was rippling with light blue light, and the blue claws of its hands flew through the air, leaving blue trails in the air across the broken walls like tofu.

Super Anti-Kaiju War Machine Mecha-Dogoran, ATK ? ATK 3000]

Mecha-Dogoran's attack power will be increased equal to the combined original ATK of the Kaiju' monsters equipped to it by this effect

"Does that mean that with each turn, its attack power will get higher and higher?" Yuei Vu understood.

Not bad. Serizawa smiled, This is a Kaiju mechanical weapon developed by us humans using the Kaiju as a template and relying on our own technology!

He waved his hand.

Enter the Battle Phase! Mecha-Dogoran, directly attacks Mr. Yuei Vu!!!

The mechanical monster's weapon power was fully activated, its mouth opened, and a gun barrel protruded from the mouth. The two heavy cannons on its shoulders also dropped, brewing a dangerous blue flash.

Yuei Vu, LP 2700

If this passed, it would undoubtedly kill him instantly!

But Yuei Vu simply waved his hand: "Quick-Play Spell Emergency Provisions! I will send the Continuous Trap Mask of Restrict' on the field to the graveyard, restoring 1000 LP."

Yuei Vu, LP 2700 LP 3700

As if an atomic bombing was going to annihilate everything, the blue beam of light swept through Yuei Vu's field like water, and everything in the way seemed to be broken down and scattered at the atomic level.

Yuei Vu, LP 3700 LP 700

Even the Mecha-Dogorans attack is not enough

Serizawa murmured and drew two more cards.

Set three cards, I end my turn.

At this moment, the effect of the Interdimensional Matter Transporter ends, and Contrast HERO Chaos returns to the field!

Contrast HERO Chaos, ATK 3000

"My turn, draw!" Yuei Vu glanced at the drawn card and immediately activated it, "Activate the Spell Card Card of Variation'. Draw 2 cards. At the end of this turn, I either send 1 card from my hand to the Graveyard or take 3000 damage." (Animation card)

Is this the last struggle? Dr. Serizawa asked.

I activate the effect of Destiny HERO Malicious in the graveyard! Remove Malicious from the game, and special summon Destiny HERO Malicious from the deck again!

Destiny HERO Malicious, ATK 800

Then use the Destiny HERO Malicious on the field as a sacrifice! Tribute Summon! The emperor in charge of light and thunder

Zaborg the Thunder Monarch! ! ! "

The Malicious quickly turned into a point of light and disappeared, and thunder struck the ground. The Thunder Monarch with a white body stands on the ground, surrounded by black smoke.

Zaborg the Thunder Monarch, ATK 2400

"The effect of Thunder Monarch If this card is Tribute Summoned, I can destroy a monster on the field!" Yuei Vu said, "Destroy the Super Anti-Kaiju War Machine Mecha-Dogoran'!"

Golden lightning fell with the arrival of the Thunder Monarch, and the endless lightning in the sky had locked onto the mechanical Kaiju!

Quick-Play Spell Forbidden Chalice! Serizawa immediately countered, Increase the attack power of Zaborg the Thunder Monarch by 400 points, but the monster effect is negated!

But Yuei Vu also had a countermeasure: "Then the effect of Contrast HERO Chaos' is activated! Once per turn, during either player's turn: I can target 1 face-up card on the field; negate that target's effects until the end of this turn.

I negate the effect of Forbidden Chalice! "

The Contrast HERO was not a vegetarian either. The activation of the Holy Grail was immediately met with a chain of restraining. Once this effect was negated, the Mecha-Dogoran would be shattered in front of the power of the Thunder Monarch!

Activate the trap Dimension Guardian! Serizawa responded immediately, Target 1 face-up Attack Position monster I control. As long as it is protected by the Dimension Guardian, that monster cannot be destroyed by battle or effects!

The one I want to choose is, of course, the Super Anti-Kaiju War Machine Mecha-Dogoran! "

A series of fierce attacks and defenses, with interchangeable effects, the powerful Holy Grail ultimately failed to corrode the Thunder Monarch the Contrast HERO revoked the magic order. However, the Thunder Monarch's ferocious offensive also failed to defeat the Mecha-Dogoran. His lightning was deflected by the dimensional barrier before it touched the mechanical monster itself.

"Then I set a card onto the field." Yuei Vu continued, "The effect of Destiny HERO Celestial' in the graveyard is activated. While I have no cards in your hand, I can banish this card and 1 Destiny HERO' monster from my GY; draw 2 cards."

Drawing two new cards, Yuei Vu thought for a while: "Open the set card: Spell Card Miracle Fusion! Fusion Summon 1 Elemental HERO' Fusion Monster from my Extra Deck, by banishing Fusion Materials from my field or GY!

I banished the Elemental HERO Stratos and Elemental HERO Solid Soldier from the graveyard and Fusion Summoned

Elemental HERO Gaia! ! ! "

The vortex of fusion opened in mid-air, Stratos and Solid Soldier flew into it, and the beam of light struck the earth like a heavy hammer. The earth's crust shattered, and the thick black steel giant broke out, trampling the ground into pieces with its footsteps.

Elemental HERO Gaia, ATK 2200

The effect of Gaia, Yuei Vu said, When this card is Fusion Summoned: Target 1 face-up monster the opponent controls; until the End Phase, its ATK is halved and this card gains the same amount of ATK!

Gaia Shock! "

Then open the set card! Dr. Serizawa waved his hand, Trap Card Spellbinding Illusion! Negate the effect of Elemental HERO Gaia, and his attack power is reduced by 500!

Gaia punched out, and the ground shattered. The impact swept towards the Mecha-Dogoran along the cracks, but was bounced off as if it hit an invisible wall.

Elemental HERO Gaia, ATK 2200 ATK 1700

Dr. Serizawa finally breathed a long sigh of relief.

Succeeded, and he finally took over all the opponent's attacks.

At this point, the dust should have settled. Although there were three powerful monsters on Yuei Vu's field, they were all unable to break through the defense line of Mecha-Dogoran.

Coupled with the protection of the "Dimension Guardian", the Mecha-Dogoran could not be destroyed in any form.

At the next turn, the effect of Mecha-Dogoran could be activated again, a new Kaiju could be absorbed as equipment, and the attack power could easily soar to more than 5,000.

And Yuei Vu only had 700 LP left, so he only needed one last blow

I offer Contrast HERO Chaos, Zaborg the Thunder Monarch, and Elemental HERO Gaia, three monsters as sacrifices!

Serizawa: !?

Use three monsters as sacrifices!?

Yuei Vu showed a card in his hand.

This card can only be Special Summoned by Tributing 3 monsters! The devil of fantasy, the strongest Sacred Beast

Raviel, Lord of Phantasms! ! ! " (anime effect)

The power shook the entire area, the space shook violently, blue light pillars rose into the sky, and the huge demon seemed to come from outside the sky!

Raviel, Lord of Phantasms, ATK 4000

Serizawa's expression changed involuntarily.

This is Sacred Beast!?

"That's right." Yuei Vu smiled, "Come and meet my new friend."

Maybe its because of the so-called from zero to one is hard, from one to two is easy, but Raviel, who appeared for the second time, was obviously much more cooperative than the last time. When Yuei Vu mentioned "new friends", he roared cooperatively, as if to prove our deep friendship

Even the fact that he was ordered around was no longer awkward.

The other two brothers, Uria and Hamon, have not had a chance to come out and claim credit!

"Battle!" Yuei Vu said, "Raviel, Lord of Phantasms, attacks the Super Anti-Kaiju War Machine Mecha-Dogoran!"

The devil's sharp claws clenched into fists, and the sound of that punch was like the mighty blue ocean!

Serizawa tried to calm down.

Hang on, even if the battle is established, the damage is only 1000, and the Mecha-Dogoran cannot be destroyed under the protection of the trap effect.

The effect of Mecha-Dogoran will be activated again next turn, absorbing new Kaijus to replenish its power. In that case, even the Lord of Phantasms will not be its opponent

"The effect of the Raviel, Lord of Phantasms Shimmering Scraper' in the hand is activated." Yuei Vu said lightly, "Discard this card and target 1 Raviel, Lord of Phantasms' I control; for the rest of this turn, its ATK becomes double its current ATK, also it can attack all monsters your opponent controls once each!"

Nani!? Serizawa's pupils narrowed.

Attack power doubled!?

Raviel, Lord of Phantasms, ATK 4000 ATK 8000

The mechanical Kaiju was overwhelmed by the impact wave, and its metal skeleton let out a sharp scream, and could only be swallowed up by the boundless power of the ravaging fist of heaven.

Chapter 906: Lagged Intelligence

"Hasn't it been repaired yet?"

Officer Fujino was very anxious and paced back and forth in the cabin.

Twenty minutes ago, their aircraft was attacked by the three-headed Kaiju. Fortunately, Duel King Yuei Vu summoned the god of the underworld in time to fight with the opponent, and they were able to avoid the fate of being buried in the dragon's belly.

But as the saying goes, mortals suffer when gods fight. The battle between the Kaiju and the Egyptian God radiated lightning, and the aftermath of the lightning swept their aircraft, which was already out of balance.

They plunged into an iceberg in Antarctica.

Engineers were already working hard to repair it, but they had not yet been able to get the aircraft into the air again. The communication system was temporarily unable to operate experts speculated that the lightning radiated during the battle between the three-headed dragon and the Egyptian God may have affected their electronic equipment.

Fujino was distraught.

At that time, the Duel King jumped out of the cabin without looking back, and now there was no news.

Although I don't like this Duel King very much, if he has a problem, how can I face President Kaiba when I go back

Eh no, I mean what a loss this would be to mankind and society!

So now that the vehicle was scrapped and communications were blocked, Fujino was extremely anxious. Looking at the white snow outside the window, he couldn't help but worry about where Yuei Vu was

Just as he was thinking about it, a searchlight fell on his cabin and came through the porthole.

The black transport plane was suspended in the sky above them, looking down from a superior height. The word "Monarch" was clearly printed on the thick metal plate outside the black cabin.

A few minutes later, Officer Fujino was already standing in the transport plane of the Monarch organization.

"So you just had a duel here?" Fujino looked at Yuei Vu and moved his eyebrows.

Fujino looked a little unhappy.

It's freezing cold over there, and we're still worried about something happening to you while we were repairing the plane. We're as anxious as an ant on a hot pot, but you're lucky enough to be playing cards leisurely with others while the air conditioner is blowing?

"It's a friendly exchange of ideas." Yuei Vu said seriously, "I just exchanged techniques with Dr. Serizawa from Monarch. He is a very good duelist. He allowed me to see the strength of this organization and also see the power of Kaiju.

No, we are still far behind Mr. Yuei Vu. Serizawa adjusted his glasses, Mr. Yuei Vu's teachings have made us aware of our own limitations and the gap between us and the truly strong.

Dr. Serizawa could actually be said to be the ace of Monarch after all, this world respected card player. So Serizawa, who was an expert in Kaiju research and could control the "Raging Kaiju Togolan", is of course the strongest weapon of this organization, much more effective than any intercontinental missile oxygen bomb.

The exchange of business bragging between the two seemed to make Fujino, who felt like an outsider, very uncomfortable. He turned to Serizawa with an unkind expression: "Our department has taken over the affairs of Monster Zero. Get your people out, Serizawa."

Monarch has always been responsible for matters related to Kaijus. Maybe you haven't heard it yet? Dr. Serizawa kept smiling.

"Really? I've never heard of that." Fujino was not polite at all. "If you didn't remind me, I would have thought you were specializing in the matching of guys."

Yuei Vu raised his eyebrows: "Matching of guys?"

He didn't quite understand what it was about.

They intentionally didn't come to meet the generals at the last meeting. Fujino chuckled sarcastically, Only a handyman was left to play a short movie about gay s*x on the projector in the hearing room.

Yuei Vu was a little surprised.

Is there such a thing?

The young man who was watching the whole process couldn't sit still anymore, stood up from his seat, raised his hand and said: "Uh, correct me, I'm not a handyman, I'm Dr. Serizawa's secretary. Okay, maybe I work as a handyman for the doctor.

But I remember that the documentary was censored! "

After a pause, he seemed a little less confident: "Well at least the key parts should be censored, maybe"

Yuei Vu:

But Yuei Vu probably figured out what Fujino meant.

Monarch was an old organization that was established many years ago. The purpose of their establishment was because of "Kaijus" giant creatures that may pose a large-scale threat to humans. It's just that their original intention was not to eliminate the Kaijus but to study them from a scientist's perspective.

Department D was a new organization responsible for all supernatural affairs in the world, and its main task was to deal with and eliminate them.

Officer Fujino seemed to feel that the Monarch had robbed them of their jobs.

"Now is not the time to discuss authority." Serizawa said solemnly, "I have just communicated with Mr. Yuei Vu, and we agreed that the top priority now should be to concentrate all resources on tracking the whereabouts of the Monster Zero And the Society of Light'."

Fujino was very confident: We are enough for this.

"Really?" Yuei Vu looked at him sideways, "But I remember you never mentioned to me that Monster Zero in ancient times had something to do with The Light of Destruction'?"

Fujinos face froze, and the momentary confusion on his face seemed to say: What?

"The Light of Destruction', the destructive malice coming from the depths of the universe." Dr. Serizawa said, "In ancient times, the three-headed king of the Kaijus, The One Who is Many' King Ghidorah which we have always called Monster Zero' has come to earth.

After many years of investigation and research, we have evidence that this Kaiju is the carrier of "The Light of Destruction", coming for slaughter and destruction, with the intention of leveling our world. "

While he was introducing it, the secretary had already projected the relevant information on the big screen in the cabin. The screen contained a large amount of text information, as well as various vague outlines about the "Thunder King, the Lightningstrike Kaiju".

Fortunately, there were resistors on the earth at that time, he said. Some monster spirits came forward to resist the invaders from outside. The main force of the resistance was the Kaiju Dogoran.

Yuei Vu has also heard other versions of this part of the story in monster movies. Countless years ago, King Ghidorah came to the Earth, had a battle with the Earth's king Godzilla, and was subsequently frozen in Antarctica.

We have also found signs that the Society of Light that has been making waves in the underground world recently is also related to the fluctuations of The Light of Destruction. We believe this is also the reason why their organization is so interested in Monster Zero.

Yuei Vu once again looked sideways at Fujino: "I'm pretty sure you guys must have discovered this a long time ago, but you just didn't mention it on purpose due to the complicated confidentiality regulations?"

"Hmmyeah, that's right." Fujino looked away, "The military's confidentiality regulations are very strict, that's right."

It looks like your intelligence network may need to be updated, Serizawa said.

"I think it's okay." Yuei Vu said seriously, "Actually, their intelligence information is not slow, and sometimes it's quite informed." After a pause, he added, "If you compare it with the news and newspapers."

That's what he said, but Yuei Vu already felt a little strange.

Although he has always had no good impression of Fujino's Department D, his impression was that their intelligence network was not so stretched. At least it played a lot of role in the previous incident involving Big Lobster and the Three Sacred Beasts.

Why did they feel like a blind when it came to issues related to the Light of Destruction? Especially when compared with this Monarch organization, it felt like the intelligence lagged far behind others.

Fujino said with a dark face: "But these contents are of little help. After researching for a long time, you only know that this Lightningstrike Kaiju may be a thug of The Light of Destruction, and may be related to the current Society of Light.

But so what? What needs to be done remains the same. These are just beautiful background stories and have no practical use for action"

Yuei Vu and Serizawa looked at each other.

Well, actually that's what I was about to say. Serizawa coughed, The leader of the Society of Light, Saio Takuma, the fortune teller who has disappeared from the world for many years we may have found his location. "

Fujino: !

Chapter 907: Has Fate Changed Repeatedly?

Antarctica, not so long ago.

The endless thick ice layer made everything look white, the glacier blocked the view. There seemed to be a sharp knife hidden in the humid air, constantly cutting across the ice and rocks.

A realm ruled by low temperatures, a territory where living creatures may not originally exist. Severe cold and snow dominated here, and the environment was extremely harsh. The temperature could reach minus 80 degrees or even lower. It was known as the "White Desert."

Countless generations of explorers with advanced ships and brave sailors have constantly challenged this forbidden territory, and countless people have failed here.

But in such a white desert, two people walking on foot appeared.

One of them was a man who did not have any protective gear and was only wearing an ordinary white robe, walking steadily on the endless ice field. The cold wind that penetrated his bones made his white robe flutter, but it couldn't even make him blink.

Saio Takuma, the host of the Light of Destruction, and the leader of the Society of Light.

Beside him was a subordinate of the Society of Light, a girl named Shia. Unlike Saio, the girl was wrapped in a thick velvet cotton-padded jacket and wearing goggles, but she was still shivering from the blow.

But like other members of the organization, she was the most loyal believer of Saio and would never question any of the master's decisions.

After all, even such a huge thing as fate was in the hands of the master, how could they dare to question the authority of Lord Saio?

The intelligence from Monarch was correct. The "Thunder King, the Lightningstrike Kaiju" that came to the earth many years ago was indeed the host of the Light of Destruction.

It was just that it was defeated by the duel monster spirits and the "Dogoran, the Mad Flame Kaiju" on the earth at that time, and was temporarily frozen in Antarctica, and the Light of Destruction in its body also died out.

But now that the Thunder King has been awakened, that power has also reawakened.

So of course Saio couldn't let it go. He must find that part of the ancient Light of Destruction before other humans and merge their powers.

Department D had the video of the Lightningstrike Kaiju, and so did Saio himself. Although he had never seen it with his own eyes, he knew how powerful that Kaiju was, and he could also imagine how powerful the Light of Destruction that resided in that card was.

If they could join forces, they would surely sweep everything in the world, and any Fuel Kings or gods would be powerless in front of them!

Eh~ That's right, our Yu-Gi-Oh villain had his daily dose of arrogance.

Although it seemed that there were people other than them who were inquiring about the whereabouts of the Lightningstrike Kaiju, it didn't matter. Their Society of Light was not only well-informed, but their biggest advantage was that their leader was a fortune teller!

Saio's inflated self-confidence mostly came from the support of fate.

Fate has already shown him the future trajectory. To him, everything in the world was like the stars in the night sky, and he could see through the sky and calculate the trajectory of each star.

Before this trip to Antarctica, he had observed the sky at night and divined the results. As his most loyal partner over the years, fate was once again on his side.

Tarot divination shows that his trip to Antarctica would be a great success. He would successfully merge with the Light of Destruction that descended on Earth from ancient times and would also successfully gain the power of the "Thunder King", known as the most powerful Kaiju.

This matter was so important that he did not feel safe sending any pawn in his hands. He was there in person just to ensure that he could grasp that power with his own hands.

Fate even generously allowed him to glimpse the prospect of sweeping everything and flattening the world.

Saio was in a good mood, with a "healthy smile" on his face as he walked.

As he was walking on the ice and snow, he suddenly felt a sense of disobedience in his heart.

It was a sense of dissonance that ordinary people could not detect, as if someone had plucked the strings of fate, causing changes in the world timeline.

Aware that something was wrong, Saio quickly activated his extraordinary power again. A red carpet, a small round table covered with white cloth, a stool, and his tarot cards appeared out of thin air on the white ice.

Hmm, that's right, he wanted to do the fortune-telling again on the spot.

The afterimages of the Tarot cards interspersed in mid-air, dancing along a specific trajectory under the powerful blessing of the Light of Destruction, trying to depict the tip of the iceberg of the trajectory of destiny.

Shia stood by the side in a daze, tightening her cotton-padded jacket.

Even though she was very surprised as to why Lord Saio was walking in the ice and snow and suddenly started setting up a stall to tell fortunes without saying a word, she didn't dare to ask any more questions.

Perhaps Master has received another revelation from God?

Just as she was thinking this, she saw the group of tarot cards flying in the air

Exploded.

Shias big eyes under her goggles blinked blankly.

Ah, this

The girl was a little confused.

Isn't Saio-sama's divination absolute?

Isn't it true that fate is always on our side, revealing to us the determined future?

How can it still explode?

She looked blankly at the leader whom she worshiped with admiration. In her eyes, Saio-sama was the agent of Godno, maybe even God had to act on his behalf. Saio-sama must have a suitable explanation.

Then she was even more surprised to find that Mr. Saio seemed to have exploded too

Ahhhhhh!!!

Saio angrily overturned his table, and the tarot cards scattered like snowflakes all over the floor.

Yuei Vu, it's that Yuei Vu again! ! !

Although he didn't get any result, he didn't need the revelation of fate to know that it must be that damned Yuei Vu again!

Because only that guy could prevent him from seeing the revelation of fate!

Why did that damn duel king come to a place like Antarctica, where birds don't poop, instead of having a good match? Sightseeing?

It doesn't make sense!

Before coming to Antarctica, he had clearly seen his destiny he would successfully obtain the "Thunder King, the Lightningstrike Kaiju", gain new power, and conquer everything from then on.

This fate has been set, how can it be changed?

Has fate changed repeatedly?

Facing the angry boss, Shia shrank her head and did not dare to say a word. She just squatted down obediently and helped him pick up the tarot cards on the ground one by one.

Unexpectedly, after Saio calmed down, he immediately made strategic adjustments

Retreat!

"The curtain of fate has not yet been unveiled, which means that the time has not yet come. It is not yet the time to confront the Duel King." He said to himself.

Its definitely not because Im afraid of that Duel King!

So Saio flicked his sleeves and tossed his coat

Slip away.

He was lifted off from the spot, went directly to the sky, and disappeared without a trace.

Shia, who was leaning over to pick up tarot cards, was suddenly lifted into the sky. She couldn't help being shocked and awe

What the hell, Saio-sama can still do this?

He is worthy of being an omnipotent master, even his escaping has such momentum!

Chapter 908: I Need No Proof!

Saio, who had escaped back to the headquarters of the Society of Light, sat in the center of his hall, resting his chin on his fingers with his hands intertwined, and resting his elbows on the table.

His face was livid, his fingers were clasped tightly, and his body was trembling slightly from the exertion.

Shia, who had just followed him back, had just taken off her clothes her cotton-padded jacket. At this moment, she was still trembling with her arms folded, and she wanted to sneeze but tried hard to hold it in.

She was so frightened that she dared not speak out when she saw Lord Saio's expression was not kind and the veins on the back of his hands were bulging.

But at the same time, she was also curious.

Who is so powerful? Not only can they prevent Lord Saio from peeking into the future, but can they also scare him so much?

Everyone in the Society of Light believed that Saio was omnipotent, and all his predictions were absolute. The so-called fate and he were both close friends who breathed out of the same nose.

Yet this Saio was so frightened that he fled back to the headquarters from Antarctica?

"Duel King." Saio narrowed his eyes and muttered, "It's interesting that he actually appeared in Antarctica. Are you trying to stop me on purpose? Or"

Shia's mind was quick and active.

Duel King? Which Duel King? Could it be Yuei Vu?

I have long heard that the duel king is very powerful and extremely handsome

Saio snorted.

Yuei Vu's intrusion disrupted his plan and he had to start over.

He felt that there must be some special reason for the Duel King's inability to see through, but in any case this made him the only special opponent for Saio.

Saio was not afraid of Yugi Muto, Seto Kaiba, Katsuya Jonouchi maybe not.

Because he felt that any of the legendary duelists were just pawns manipulated by fate. No matter how powerful they were, they could not escape from the chessboard of fate.

Until the appearance of Yuei Vu.

This made him immediately regard Yuei Vu as the biggest enemy in the world, an opponent he must eliminate no matter what.

Saio, who was used to seeing the overall situation, was not used to things outside of his control. Although he couldn't figure out Yuei Vu's future, he could still see the present.

Saio took out his crystal ball and started casting spells.

Let us know where the Duel King is at the moment

The crystal ball quickly gave the answer. He saw the blue sky and leisurely white clouds, quickly passing by the screen of the crystal ball.

This made Saio stunned for a moment.

What is this place? Can you give it a little more iconic scenery?

Then the perspective was pulled down. He saw the urban area, the crisscrossing roads, the towering iron towers, and the white buildings located among a green woodland, shrouded in an almost polluting white light curtain

Wait a minute, isn't this my home?

Saio was a little confused.

The one I want to see is the Duel King. Why are you showing me where I live? Are you afraid that I'll be so angry that I can't find my way back?

This made him look at the crystal ball doubtfully.

Is this thing broken?

Boom!

The roof was blown to pieces in an unexpected moment, with rubble and heavy dust rolling down. The explosive impact knocked Shia to the ground.

A man was standing in the center of the entire palace of light amid the flying smoke. His raised windbreaker slowly fell down, and there was a huge hole above his head.

Shia sat on the ground blankly, looking at this tall and unrestrained figure that looked like a dream without blinking.

Duel King, Yuei Vu.

Yuei Vu stood opposite Saio across the table with the crystal ball.

The crystal ball clearly showed the scene of Yuei Vu standing in his hall exactly the same inside and outside.

Saio Takuma. Yuei Vu spoke first, We finally meet.

Confronting the culprit who made him uneasy, Saio quickly calmed down.

He quickly took stock of his current situation and calmed down.

Although in the anime, Saio, who was possessed by the Light of Destruction, brainwashed a large number of students and princes and hijacked satellites intending to destroy the world, he could be called a heinous evildoer

But now he hasn't done anything yet!

It was with this in mind that Saio quickly made up his mind.

To be honest, he was still in the stage of accumulating strength. So far, all he has been concentrating on was developing the Society of Light, annexing other organizations, and recruiting more members.

Although he really wanted to cause trouble, he didn't have time to do anything yet!

It can't be said that I have to be killed just because I hatched a plan to destroy the world, right? Is imagination also illegal?

Then I'm afraid not a single keyboard hero on this planet can escape

So Saio controlled his emotions, leaned back slightly like a big boss strategizing, leaned back in his chair, and said slowly: "Mr. Yuei Vu, you come so sudden Looking at such a desperate look, is there something urgent? "

Yuei Vu narrowed his eyes.

Good guy, are you still pretending to be stupid with me?

"I think we should skip the part of pretending to be stupid." Yuei Vu directly took out the Duel Disk, "You should know why I'm looking for you, Saio Takuma."

Hey, maybe I don't understand a bit. Saio crossed his fingers.

Yuei Vu glanced at the dumbfounded girl lying aside, and looked at Saio again: "You don't want to say that you are just learning foreign languages here, do you?"

"Provide guidance in faith." Saio smiled, "I have some extraordinary talents and can see the trajectory of destiny. Therefore, I am often willing to guide the lost people."

Seemingly receiving the hint from BOSS's eyes, Shia, who fell to the ground, quickly realized: "Ah yes, I'm lost. I'm so lost that I can't find the north at all. I'm here to find Saio-sama for navigation. No, it's to give direction."

Yuei Vu rolled his eyes at Saio. Saio remained unmoved and sat in his chair with his arms folded.

His reaction reminded Yuei Vu of criminal suspects in detective movies. When the detective deduced the crime process through careful logical reasoning, he often said arrogantly: "It is indeed very good reasoning, very creative. Your imagination fascinates me. But the problem is, you have no evidence"

Indeed, Yuei Vu had no evidence. He found out the location of Saio and came over immediately.

But if Saio thought so, then he was obviously wrong.

Evidence? Hehe, my special surname is Vu, not Holmes. I'm here to fight today, not to investigate the case. I need no proof!

I, the Duel King Yuei Vu, never need evidence when handling cases!

Close the door and release the dogah, no, release the Dark Magician Girl!

The Dark Magician Girl, who had been ready to attack, suddenly materialized, and with a wave of her little staff, a magic shell was blasted out!

Saio's face suddenly changed, and he waved his hands without thinking. A white trajectory rebounded the magic artillery shell. Almost at the same moment, Masked HERO Dark Law appeared out of thin air, kicked the rebounding magic ball sideways, and exploded a load-bearing pillar of the hall into two pieces.

Saio could no longer remain calm. He said with a stern face: "Mr. Yuei Vu, what do you mean?"

Chapter 909: The World!

Saio's face looked ugly.

He really didn't expect that a decent person like this Duel King would take action without asking anything. Isn't there generally at least a process that should be followed?

But Yuei Vu didn't mean to talk nonsense with him at all. He started the Duel Disk directly, and the deck of cards was automatically shuffled.

The meaning expressed was very clear: Either play cards or directly pull out the deck. Don't waste my time!

It doesn't matter if there's evidence or not, and it doesn't matter if you are the real mastermind behind it, anyway, it's you that I'm going to beat today!

"All right."

Saio tried to keep his coolness. He stood up calmly and straightened his clothes. The crystal ball, round table, and tarot cards in front of him all disappeared out of thin air. White light transformed into a Duel Disk and appeared on his wrist. The deck was already installed in the slot.

"It seems that there is nothing to talk about, Duel King. Okay then." He narrowed his eyes, "I have wanted to give it a try for a long time, my Arcana Force' and your HERO', which one is stronger?"

Of course, you will know the result even without trying it. "

He hummed and smiled, closing his eyes briefly, and then his eyes suddenly widened, and his expression became ferociously distorted.

"Because fate has been decided a long time ago, hahahaha!!!"

Yuei Vu had no expression on his face and took a few steps back to distance himself.

"Duel!" x2

Saio, LP 4000

[Yuei Vu, LP4000]

"I'm the first to go, draw!" Yuei Vu said, "I summon the Chocolate Magician Girl'."

A magic circle opened, and a magical girl who looked like a cute little devil flew out, her wand spreading fluorescent light.

[Chocolate Magician Girl, ATK 1600]

"The effect of Chocolate Magician Girl' Once per turn: I can discard 1 Spellcaster-Type monster; draw 1 card."

After drawing a card and adding it to his hand, Yuei Vu immediately picked out another card.

"Set a card, I end my turn."

"Magician Girl? It is too weak!" Saiou laughed with a distorted expression, "Arcana Force' is the strongest deck to promote destiny! Both the attack power and the effect are far superior to Magician Girl!

My turn, draw! Activate the Spell Card Graceful Charity! Draw 3 cards, then discard 2 cards. "

The two cards in his hand were discarded to the graveyard, and then he immediately revealed a card in his hand: "The Spell Card Necro Sacrifice! Select one or two monsters in my graveyard and special summon them on the opponent's field!" (Animation card)

The two cards that had just been discarded into the graveyard were quickly ejected from the graveyard area of the Duel Disk and returned to Saio's hand. He pulled out the two cards and sneered at the corner of his mouth.

"According to this effect, I special summon Arcana Force VII The Chariot' and Arcana Force IV The Emperor' on your field!"

Two black vortexes opened in front of Yuei Vu, releasing rapid air currents. A strange, black machine with a metal shell appeared on his field, its body covered with silver-white steel tentacles. The other one is a black chariot covered with tentacles and with a circle of strange eyes on its shell.

[Arcana Force VII The Chariot, ATK 1700]

[Arcana Force IV The Emperor, ATK 1400]

The Emperor and The Chariot appeared on the playground, one on the left and the other on the right, with the Chocolate Magician Girl sandwiched between them. The poor magical girl shrank her head, like a little cute girl shivering between the bosses.

Two rotating cards appeared above the heads of the two Arcana Force monsters.

"Each of the Arcana Force' monsters corresponds to a tarot card. When they are summoned, the cards above their heads will randomly stop in the upright or reverse position."

While Saio explained, there was a sinister smile on his lips.

Just like the upright and reverse positions of Tarot cards represent different prophecies, Arcana Force monsters will also obtain different effects depending on the upright and reverse positions.

Upright positions gave beneficial effects on the controller, bringing powerful power and leading to victory.

On the contrary, reverse positions gave side effects that would backfire on the controller. "

Having said this, he couldn't help but open his arms, like a fanatical believer.

"This is the Arcana Force', and it is the most suitable monster to represent the choice of destiny! Hahahaha!"

Saio's mouth was filled with amusement.

"Then Mr. Yuei Vu, can you guess whether the two Arcana Force' I gave you are in the upright position or the reverse position?"

"Reverse position." Yuei Vu said without thinking.

Saio's power as a BOSS was "fate control", which can make all futures develop in a direction that is beneficial to him. So when he tosses a coin, it must be in his favor.

It's a very abnormal ability. Even God of Gamblers would stumble and get an unwanted result sometimes, but Saiou would not.

It's just that this ability was completely useless against Yuei Vu.

It's not that Yuei Vu's luck value was so sky-high that even the goddess of fate couldn't shake it. On the contrary, it's because his luck value was too low so Saiou's so-called "superpower" could be ignored.

As a result, he never expected that the two cards of the Arcana Force were actually parked in positive positions that were beneficial to the controller.

Yuei Vu raised his eyes slightly.

What's going on?

Could it be that I bully the passers-by for too long, enough for my Luck 20 to be accumulated, so when I fight BOSS, my luck explodes?

But looking at Saio's reaction, he knew that he was probably overthinking it, and Saio laughed loudly: "It seems that you are lucky, Mr. Yuei Vu.

The upright position effect of Arcana Force VII The Chariot: When this card destroys an opponent's monster by battle, you can special summon that monster on your field!

The upright position effect of Arcana Force IV The Emperor: The attack power of all Arcana Force' monsters on your field increases by 500! "

[Arcana Force VII The Chariot, ATK 1700 ATK 2200]

[Arcana Force IV The Emperor, ATK 1400 ATK 1900]

Yuei Vu frowned.

There are tricks, there are definitely tricks.

He had always had absolute confidence in his own luck. When he tossed a coin, it would come up wrong.

He didn't even forget to check his attribute panel again. His Luck value was still an unshakable 20, and there was no change.

This was worth pondering.

As we all know, gifts from opponents were worthy of careful attention, and there must be something wrong with them.

"Of course, giving you two monsters is not without cost." Saio said, "The subsequent effect of 'Necro Sacrifice'. I can reduce the number of Tributes required for 1 Tribute Summon, equal to the number of monsters Special Summoned this way.

I Special Summoned Arcana Force VII The Chariot and Arcana Force IV The Emperor on your field, a total of two monsters, so I can reduce the sacrifices required for the Tribute Summon by two! "

Saio held up a card in an exaggerated manner and shouted at the top of his lungs.

"Come! Arcana Force XXI

ZA WARUDO! (The World)! ! ! "

Chapter 910: Time, Stop!

"Arcana Force XXI The World!!!"

Saio looked ferocious, almost roaring with a maniacal laugh. A huge impact erupted with him as the center, and a milky white whirlwind swept across the entire place.

White light appeared in the air like a mocking devil, and huge machinery fell from the sky. It floats in mid-air, its body silent and tall, as if it is overlooking its entire life indifferently.

[Arcana Force XXI The World, ATK 3100]

Yuei Vu couldn't help but twitch the corner of his mouth when he heard Saio shouting "ZA WARUDO" in his throat, and felt a strange sense of dj vu.

"Hahahaha, this is the final member of the power of Arcana Force, The World! It is the representative of the ultimate destiny. Even you can't fight against this power!"

Saio said and showed another card in his hand: "I activate the Spell Card Owner's Seal! Control of all monsters on the field returns to the original owner!"

"Oh?"

Watching The Emperor and The Chariot both release their restraints and fly back to Saio's field, Yuei Vu suddenly understood why the two Arcana Force monsters summoned to his side were actually in the upright position.

Because these two monsters were destined to be sent back to Saio from the beginning.

"I gain the upright position effect of Arcana Force IV The Emperor'," Saio laughed, "The attack power of all the Arcana Force' monsters on my field increases by 500!

Therefore, Arcana Force XXI The World also accepts this effect, and its attack power increases! "

[Arcana Force XXI The World, ATK 3100 ATK 3600]

At this time, many members of the Society of Light in the building had heard the commotion and gathered over to watch the duel.

"Lord Saio is dueling himself!?"

"The opponent is the first-generation Duel King!"

"This is such an invincible lineup right from the start. Saio-sama is so awesome! Even the Duel King has no power to fight back!"

"Of course, Lord Saio said that all human beings are just dust in front of the torrent of fate. The Duel King is certainly no exception."

The group of people were all wearing white uniforms, and they looked like they had been deeply brainwashed by Saio. They always said, "Saio is awesome".

"Battle is!" Saio waved his hand, "Let's go! First, Arcana Force IV The Emperor' attacks the Chocolate Magician Girl!"

The emperor waved his arms, and countless steel tentacles stabbed through the air at the helpless magical girl from all directions!

"Chocolate Magician Girl's effect is activated!" Yuei Vu said, "Once per turn, if this card is targeted for an attack: I can target 1 Spellcaster-Type monster in my Graveyard, except Chocolate Magician Girl'; Special Summon it!

After that, change the attack target to it, and the attacking monster's ATK becomes half its current ATK! "

The card that Yuei Vu discarded and went to the graveyard in the last round popped up.

"I special summon the Dark Magician Girl!"

The black magic circle opened, and a slender figure flew out from it, like a lively lark.

[Dark Magician Girl, ATK 2000]

[Arcana Force IV The Emperor, ATK 1900 ATK 950]

"Dark Magician Girl, counterattack!" Yuei Vu waved his hand.

The girl waved her hand and fought back. The surging magic power smashed all the silver tentacles into pieces. A black magic blast hit The Emperor's body head-on, blowing it into pieces with one blow.

Saio, LP 4000 LP 2950

The first battle was unfavorable, but Saio didn't panic at all and just smiled: But in this way, the magical girl's defensive ability has been used up.

The battle continues! Use Arcana Force VII 'The Chariot' to attack the Chocolate Magician Girl!"

[Arcana Force VII 'The Chariot', ATK 1700]

Because The Emperor retired, the attack power of other Arcana Force monsters naturally dropped back to its original state.

The Chariot started buzzing, and the two light cannons on the wriggling tentacles locked onto the magical girl at the same time. The laser light cannons blew the poor chocolate girl away and dissipated into pieces in mid-air.

"Open the set card: Continuous Trap Magicians' Defense!" Yuei Vu said, "While I control a Spellcaster-Type monster, all damage I receive will be halved!"

Yuei Vu, LP 4000 LP 3950

"Oh, weak defense! Muda Muda Muda!" Saio laughed, "The upright position effect of Arcana Force VII 'The Chariot'! When this card destroys an opponent's monster by battle, I can special summon that monster on my field!"

Become my servant, Chocolate Magician Girl! "

The girl who just left the field returned again in a daze, but this time she was on the opponent's field.

[Chocolate Magician Girl, ATK 1600]

"It's not over yet! Next comes the attack of Arcana Force XXI 'The World'!" Saio's palm fell, "Destroy the Dark Magician Girl!"

[Arcana Force XXI 'The World', ATK 3100]

Being called the strongest Arcana Force, that monster obviously also contained quite terrifying power. The ray of destruction annihilated everything. Although the Dark Magician Girl tried her best to defend herself, her defensive circle was vulnerable to the power of 'The World', and she resigned reluctantly in just a moment.

"The effect of Magicians' Defense!" The shield in front of Yuei Vu continued to take effect, "Battle damage is halved!"

[Yuei Vu, LP 3950 LP 3400]

"But then no magician can protect you." Saio shouted, "Go ahead, Chocolate Magician Girl! Attack your master directly!!!"

The chocolate girl pursed her lips in grievance, looking like she was about to cry, but she could only wave the staff helplessly under the restraints of 'The Chariot'.

The magic light bomb exploded with a bang, and Yuei Vu staggered back two steps in the wave of explosions, black smoke rising all over his body.

[Yuei Vu, LP 3400 LP 1800]

"As expected of Saio-sama!" Someone else in the crowd began to flatter him, "Lord Saio beat that Duel King to the point where he was completely unable to fight back!"

"Ha, just watch, the fun is yet to come."

Sure enough, after the battle stage was over, Saio raised his head and laughed, his confident look as if he had seen the goddess of victory smiling at him.

Oh, as expected, fate is still on my side!

Although I don't know why I can't pry into Yuei Vu's fate, it doesn't matter anymore! Just remove this obstacle!

"At the end of my turn, the final effect of Arcana Force XXI The World' is activated!"

Saio's facial muscles were severely distorted, and he yelled at the top of his voice.

"ZA WARUDO! TOKI YO TOMARE! (The World! Time, Stop!)"

In an instant, the time and space in the duel venue seemed to be distorted. As a duelist, Yuei Vu seemed to feel the air solidify, and the floodgates of time suddenly crashed down, cutting off the endless river of time.

It was as if the time of this round belonging to Yuei Vu had been stopped, or in other words, it had been poached from the duel.

"Draw!"

Entered Saio's Draw Phase.

Arcana Force XXI The World still stands, but the chocolate girl and the chariot beside it have disappeared.

"That's right, your turn was skipped, and now it's my turn again!" Saio laughed loudly, "This is the ability of The World', the strongest and most unsolvable power!"

The upright position effect of Arcana Force XXI The World: At the End Phase, Tribute two monsters on my field and skip the opponent's next turn! " (anime effect)
