

I Play Yu-Gi 931

Chapter 931: Dystopia!

It unfolded exactly like the previous turn. Aster once again placed the Vision HERO in the S/T area, and then prepared to special summon the Minimum Ray at the expense of the Diamond Dude on the field as a sacrifice.

then the phantom of Minimum Ray in the back row was blown to pieces.

"The follow-up effect of Gemini Spark'," Judai smiled, "After destroying a card with this effect, I can draw 1 card! "

The Minimum Ray was blown up, and the Diamond Dude also went to the GY as a sacrifice. Judai not only interrupted his actions but even added a card to his hand. This confrontation was obviously a big loss for Aster.

But it still doesn't matter.

"Spell Card Over Destiny!" Aster shouted, "Target 1 Destiny HERO' monster in my GY; Special Summon 1 Destiny HERO' monster from my Deck whose Level is less than or equal to half of that target's Level!

I choose the level 4 Destiny HERO Diamond Dude in the graveyard and special summon it from the deck

Level 1, Destiny HERO Disk Commander! "

[Destiny HERO Disk Commander, ATK 300]

"Then the effect of Vision HERO Increase' in the S/T area!" Aster said, "I use Destiny HERO Disk Commander' as a sacrifice and special summon the Vision HERO Increase!"

Come on, Increase! "

[Vision HERO Increase, ATK 900]

Although the process was somewhat tortuous, Aster finally returned to the operating path engraved in his DNA.

"The effect of Increase! Special Summon Vision HERO Vyon' from the deck!"

[Vision HERO Vyon, ATK 1000]

"When Vyon is successfully summoned, send the Destiny HERO Malicious' from the deck to the graveyard." Aster drew a card from the deck and sent it to the graveyard, "Then there is the second effect of Vyon"

"Wait a minute!" Judai interrupted the chant again, "Open the set card: Trap Card Hero Blast! Target 1 Elemental HERO' Normal Monster in my GY; add that target to my hand, then if the opponent controls any monsters with ATK less than or equal to that target's ATK, destroy 1 of them!"

Judai showed the card that had just been sent to the graveyard: "I return the Elemental HERO Neos Alius' to my hand, and destroy the Vision HERO Vyon' whose attack power is less than 1900!"

Aster: "!?"

The phantom of the Neos Alius appeared, like a flying projectile! The silver-white afterimage penetrated the Vision HERO with one blow, and the black phantom was immediately blown into countless pieces.

Aster gritted his teeth: "Judai"

He has already seen the horror of this combo.

"Elemental HERO Neos Alius" could first be Tributed by "Gemini Spark" to blow up one of the opponent's cards, and then "Hero Blast" could be used to recycle it and blow up another opponent's card.

After some operations, not only did he interrupt the opponent's actions twice in a row, but in the end, "Neos Alius" was recovered back to his hand and could be reused in the next round. During this period, an extra card was even drawn through the effect of "Gemini Spark", and the resource gap was widened.

On Aster's side, the actions were interrupted one after another, and a series of subsequent developments were nipped in the bud.

If he followed the normal process, he should now use the effect of "Vision HERO Vyon" to retrieve the "Polymerization" Spell Card from the deck. That was the key point for the HERO system to operate.

But this crucial step was interrupted. Not only did Aster lose card advantages, but he couldn't even summon the big monster.

But Aster also had an alternative.

"Activate the effect of the King of the Swamp' in my hand." Aster said helplessly, "By discarding this card to the GY; add 1 Polymerization' from my Deck to my hand."

Not only could King of the Swamp retrieve Polymerization, but it could also be used as a substitute for any 1 Fusion Material. If possible, Aster would like to keep it as a fusion material, but now he had no other choice.

Activate Spell Card Polymerization! Aster said, I fuse Destiny HERO Dasher and Destiny HERO Decider in my hand!

The fusion condition is 2 Destiny HERO' monsters! Fusion Summon!

Destiny HERO Dystopia! "

Two beams of fate shot into the air, and majestic energy exploded downwards. The dark blue armor reflecting the metallic luster emerged from the storm. The hero calmly and slowly descended from the center of the energy vortex, with the mark of "D" printed on the helmet.

[Destiny HERO Dystopia, ATK 2800]

"This is Aster's new hero!" Judai's eyes started to shine again, "He's so handsome!"

"Oh, that's natural." Aster said proudly, "Stop drooling, you will soon experience the power of Dystopia for yourself!"

I activate the effect of Destiny HERO Dystopia! If this card is Special Summoned: I can target 1 Level 4 or lower Destiny HERO' monster in my GY; inflict damage to the opponent equal to that target's ATK! "

He showed one of the ones that had just been sent to the graveyard as fusion material.

"I choose level 4 Destiny HERO Decider', giving 1600 points of damage!"

The Dystopia flipped his right palm, and the golden beam struck him head-on. Judai staggered half a step back, his health value plummeting.

[Judai, LP 4000 LP 2400]

"Then activate the effect of the Destiny HERO Celestial' in the graveyard!" Aster shouted, "This effect can only be activated when I have no card in my hand! Banish this card and 1 Destiny HERO' monster from my GY; draw 2 cards!

I removed Destiny HERO Celestial' along with Destiny HERO Diamond Dude' from the game and drew two cards! "

Replenishing two cards in his hand, Aster only glanced at them and showed one of them: "Activate the Spell Card Card of Burial Magic' Banish 3 Spell Cards from my Graveyard and draw 2 cards. (animation card)

He showed three cards: "I remove three Spell Cards Over Destiny', Doctor D', and Burial from a Different Dimension' from the game and draw two cards!"

Aster then waved his hand: "Battle! Use Destiny HERO Dystopia' to directly attack Judai!"

Black electricity overflowed around the Dystopia, and the electric light condensed in his palm, transforming into a black ball of thunderous light, roaring out towards Judai!

"Oops," Asuka leaned forward subconsciously, "If Judai gets hit by this"

"After being interfered so many times in a row, he can still launch such a fierce counterattack." Misawa looked at Aster with a look of awe, "Is this the strength of a world champion?"

But Judai wouldn't let this pass: The effect of the Kiteroid in the graveyard! Once, while this card is in the Graveyard, I can reduce the battle damage I take from a direct attack to 0!

The phantom of the Kiteroid reappeared, and the thunderous offensive of the Dystopia was blocked and failed to penetrate at all.

"It's expected." Aster said lightly, "But this way you have no means of defense. Vision HERO Increase', attack directly!"

The Increase launched a sprint. Although the attack power was not high, the impact of the three-dimensional image still caused Judai's upper body to shake slightly.

[Judai, LP 2400 LP 1500]

"Oh, it's indeed Aster," Judai wiped his mouth and chuckled, "It's really effective."

Aster didn't say anything, but his tail-raised expression clearly said "Of course."

"Set two cards, I end my turn!"

Chapter 932: Where Would I Be?

"Huh~ Aster is really strong now." Judai cheered up, "Okay, then I can't lose! I also have my new partners and new heroes!

My turn, draw! "

Judai showed two cards in his hand: "Spell Card Convert Contact"! This card can only be activated when there are no monsters on my field.

Send 1 Neo-Spacian' from my hand and 1 Neo-Spacian' from my deck to the graveyard, then draw two cards from the deck! "

He then showed the card he had just recovered in the last turn: "I summon the Elemental HERO Neos Alius!"

[Elemental HERO Neos Alius, ATK 1900]

"Activate Quick-Play Spell Gemini Spark!"

Aster's face darkened: "Is this the trick again?"

"Tribute 1 face-up Level 4 Gemini monster, then target 1 card on the field; destroy it!" Judai shouted, "I sacrifice the Elemental HERO Neos Alius', and destroy the Destiny HERO Dystopia!"

The Neos Alius disappeared from the field, and the white lightning penetrated the dark blue armor. Broken fragments flew everywhere, and the body of the Destiny HERO was blown to pieces.

"Successful!" Judai was happy, "Then based on the effect of Gemini Spark', I will draw a card!"

"Don't get too proud too early!" Aster interrupted him, "Open the set card: Trap Card Destiny Mirage! When a Destiny HERO' monster I control is destroyed and sent to the Graveyard by an opponent's card effect: Special Summon, to my side of the field, all Destiny HERO' monsters that were destroyed and sent to either Graveyard this turn!"

Aster raised his arms.

"Come back! Destiny HERO Dystopia!"

A transparent barrier was built in front of Aster, cracking like a mirror struck by a heavy hammer. The Dystopia who just disappeared returned to the scene in the blink of an eye.

[Destiny HERO Dystopia, ATK 2800]

"Huh? You came back right away. As expected of Aster."

Before Judai could finish speaking, Aster interrupted with a sneer: "It's not over yet. The effect of Destiny HERO Dystopia! If this card is Special Summoned: I can target 1 Level 4 or lower Destiny HERO' monster in my GY; inflict damage to the opponent equal to that target's ATK!"

Aster revealed a card that pops up in the graveyard.

"I choose the Destiny HERO Decider' in the GY again!"

[Destiny HERO Decider, ATK 1600]

[Judai, LP 1500]

The whole place was in an uproar again!

"Did the destruction of the Dystopia actually pave the way for Aster's fatal blow?" Misawa exclaimed.

"It's not good," Sho Marufuji shouted, "Now, my Aniki will"

Manjoume stood up from his seat, clutching the railing behind the front seat with both hands, veins popping out on the back of his hands.

Still, no one dared to say a word among his brothers. But when it seemed that Yuki Judai was going to lose, Manjoume seemed to be more nervous than Judai himself.

"This is the end, Judai!" Aster shouted, "Dystopia! Pummeling Palm!"

"Then I discard the Clear Kuriboh' in my hand," Judai said. "During either player's turn, when the opponent activates a monster effect that would inflict damage: I can discard this card; negate the activation!"

With a perfect defense, the entire palm of the Dystopia fell on Kuriboh's defense line and was dissolved invisibly in just an instant.

Many people breathed a sigh of relief at the same time.

"Are you being defended again?" Aster frowned, "As always, you are like the legendary "C" who can't be beaten."

"You too, Aster." Judai smiled, "Then it's my turn to perform! I activate the Quick-Play Spell Quick Summon! Normal Summon a monster from my hand!" (Animation card)

He drew a card from his hand, paused slightly, and whispered: "Let me borrow the new power that Yuei Vu-sensei gave me yesterday!"

Aster: "!"

"I summon the Neo Space Connector!"

Another Neo Space warrior with a silver body appeared. Although he was not Neos, he still had the face of an M78 civil servant, just shorter and looked a bit cute.

[Neo Space Connector, ATK 800]

"The effect of Neo Space Connector!" Judai said, "When this card is Normal Summoned: I can Special Summon 1 Neo-Spacian' monster or 1 Elemental HERO Neos' from my hand or Deck in Defense Position!"

A card popped up from the deck, and Judai showed it directly.

"I special summon the Elemental HERO Neos!"

A beam of golden light flew out and rushed into the air, as if breaking through the clouds and rushing into the universe. A waterfall-like white beam of light descended from the sky, bringing the heroes from the universe crashing to the ground, with dust flying like a curtain.

[Elemental HERO Neos, DEF 2000]

"Neos" Aster stared intently at the Elemental HERO emerging from the light, "Is this your brand new power?"

"That's right, this is my latest power, my trump card! It's the new symbol of my deck!" Judai rubbed his nose and put his hands on his hips for a while, "How about it, isn't it handsome?"

Aster glanced away.

After a long while, he muttered: "A little bit handsome"

Not far behind Judai, Yubel showed an unhappy expression.

What's so good about this alien?

It's only been a week since he arrived, and he's already a "trump card" and "symbol of the deck".

Giving him a month, where would I be!?

Judai continued: "Neo Space Connector's subsequent effect! Tribute this card, then target 1 Neo-Spacian' monster or 1 Elemental HERO Neos' in my GY; Special Summon it in Defense Position!

I used the Neo Space Connector' as a sacrifice to resurrect the Neo-Spacian Grand Mole' in the GY!
"

The Neo Space Connector disappeared from the field, the ground was drilled open, and the yellow-furred mole with a drill on its head returned to the field again!

[Neo-Spacian Grand Mole, DEF 300]

This was just the second time he saw this yellow-haired mole, but Aster was already starting to feel a headache.

Wait, even if the Grand Mole was summoned, he was still in a defensive state now.

Aster narrowed his eyes.

If he remembered correctly, Grand Mole needed to fight with the opponent's monster to trigger the effect.

"I return the Elemental HERO Neos' and Neo-Spacian Grand Mole' on the field to the deck! Contact Fusion!"

Neos and the Grand Mole both flew up. Two beams of light penetrated the sky, broke through the atmosphere, and sank into the center of the galaxy. A meteorite bombarded from the sky!

"Contact Fusion!?" Aster was shocked.

Is there such an operation?

"The form of the earth, the power of courage! Fusion Summon!

Elemental HERO Grand Neos! "

Neos, who had changed his form, was wearing a bulky armor, with a shocking silver-white drill in his hand, and landed heavily with a roar!

Chapter 933: Nebula!

Elemental HERO Grand Neos was summoned!

Grand Neos is Neos a hero who can reasonably switch forms to deal with various situations by borrowing the power of different Neo-Spacian? Aster whispered softly.

Even though it was the first time he saw this hero, Aster already realized that this hero was definitely something special!

The effect of the Grand Mole itself was to bounce the opponent's monsters back to the hand. Grand Neos was the form of Neos that borrowed Grand Mole's power, so there was a high probability that he would also inherit this ability.

In this case, he must be dealt with before this ability is activated!

Open the set card: Trap Card D-Chain!

Aster opened the cover card, and a high-tech iron chain suddenly appeared in the hand of the dystopian. Blue lightning flashed on the steel chain.

"Target 1 Destiny HERO' monster I control; equip this card to that target," Aster said, "The equipped monster's attack power increases by 500!"

Destiny HERO Dystopia, ATK 2800 ATK 3300

"Is the attack power higher than Mr. Kaiba's Blue-Eyes White Dragon?" Judai was stunned for a moment.

Yes, but that's not the point. Aster smiled, raised his arm, and pointed at his hero, The effect of Destiny HERO Dystopia is activated!

If this card's current ATK is different from its original ATK, I can target 1 card on the field; destroy it, and then this card's ATK becomes equal to this card's original ATK! This effect can also be activated during the opponent's turn! "

Destiny HERO Dystopia, ATK 3300 ATK 2800

I destroyed the Elemental HERO Grand Neos! Noble Justice!

The chain dragged the black lightning and was thrown out, drawing a gorgeous arc in mid-air. Before Grand Neos had time to gain a firm footing, he was struck by a blow from the chest to the back!

Ah! Sho Marufuji cried out, Aniki's new hero was defeated before he even had a chance to take action

"Ha! Did you see, Judai?" Aster started to raise his tail, "Even compared with your space hero, my Destiny HERO is better!"

"It's really not that easy for me to succeed when facing Aster." Judai scratched his head, smiled, and continued, "Then activate the Spell Card Magic Planter'. Send the Continuous Spell Common Soul' on the field to the graveyard and draw two cards." (animation effect)

Judai continued: "Spell Card Foolish Burial!! Send a monster card from the deck to the graveyard. I sent the Elemental HERO Neos' that just returned to the deck to the graveyard!"

Neos was accurately drawn from the deck, Judai sent it to the graveyard, and then showed another card: "Spell Card O Oversoul! Special Summon 1 Elemental HERO' Normal monster in my graveyard!"

Come back to the field, Elemental HERO Neos! "

White light rushed out, and Neos, who had just exited the stage, flew out and returned to the stage again!

Elemental HERO Neos, ATK 2500

"It seems you really like that hero." Aster chuckled, "But with his power, he is not enough to fight against my Dystopia"

I know! Judai chuckled, So I will activate the Spell Card Contact Gate!

Banish 2 Neo-Spacian' monsters with different names from my GY; Special Summon 2 Neo-Spacian' monsters with different names from my hand, Deck, and/or GY! "

Nani? Aster's face changed slightly.

I have banished the Neo-Spacian Aqua Dolphin discarded through Convert Contact, and the Neo-Spacian Sky Hummingbird discarded through Card Destruction!

The two Neo-Spacians disappeared one after another, and at the same time, two other cards had popped out of his deck.

Special summon Neo-Spacian Dark Panther and Neo-Spacian Grand Mole!

Neo-Spacian Dark Panther, ATK 1000

Neo-Spacian Grand Mole, ATK 900

"There are two new Neo-Spacians." Aster's expression changed slightly, "Do you mean you want to"

"Aster, watch carefully! This is the real power of the Neo-Spacian!" Judai raised his fist high, "I return Elemental HERO Neos', Neo-Spacian Dark Panther', and Neo-Spacian Grand Mole' to the deck"

Triple Contact Fusion! "

Three figures soared into the sky at the same time, breaking through the sky and flying into the vast Milky Way!

Neos was in the middle, with two Neo-Spacians on either side of him. Dark Panther and Grand Mole turned into two beams of black and golden light, respectively superimposed on Neos's body, causing drastic changes, and his body was briefly engulfed in strong light.

Neos: Dark Panther, Grand Mole, lend me your power!

Contact Fusion! Break the stars, the mysterious light

Elemental HERO Nebula Neos! ! ! "

The vast and boundless universe was dyed with a light curtain colorful as a rainbow. The fused hero fell from outside the galaxy, covered with a dazzling aura that made it impossible to look directly at him.

That light was really too shining, too sacred, soft yet domineering, like an overlord who rules a galaxy.

Many students stood up involuntarily, and even the teachers showed incredulous expressions.

Even though it was just an ordinary duel, the summoned monster should theoretically be just a three-dimensional projection, but everyone clearly felt at this moment a power far beyond what a three-dimensional projection should have.

That was the power that should belong to a top spirit of the legendary level!

Elemental HERO Nebula Neos, ATK 3000

Even Yuei Vu, who was watching from a high place, was a little surprised.

Hey that boy Judai is really capable of surprising things.

Chika, who was next to him, tilted his head and asked, "Isn't this the card you gave him?"

This week, Kaiba Corp and Industrial Illusions have achieved some results in their research on the power of Neos. Yuei Vu gave several sample cards to Judai for testing.

However, Yuei Vu shook his head: "At most, we have developed some support Spells and Traps. How can there be such high-end things?"

There was no doubt that this "Nebula Neos" was printed by Judai himself.

According to the progress of the original work, Judai in the "Society of Light" arc could only fuse Neos and a single "Neo-Spacian", which was probably equivalent to being able to change into some ordinary forms to deal with combat.

At the beginning of the Different Dimension arc, Judai discovered the "triple contact fusion" technique, which began to allow Neos to borrow the power of two Neo-Spacians to transform into more powerful forms.

Now it seemed that Judai-san had mastered the trick in the first week

Even Aster was a little shocked: "Nebula Neos does this kind of Elemental HERO actually exist in the world!?"

Doubt of life. JPG.

Dont be too surprised yet, Aster, Judai said with a smile, The power of Neos will be truly demonstrated now!

Chapter 934: Battle of Heroes

Elemental HERO Nebula Neos was summoned!

The effect of Elemental HERO Nebula Neos! Judai waved his hand, If this card is Special Summoned from the Extra Deck, I can draw cards equal to the number of cards the opponent controls!

Nani! Aster was shocked, Is it such a powerful resource replenishment capability?

Aster, you have three cards on the field, Judai said, So, I will also draw three cards from the deck!

After further drawing cards, Judai continued: "And Nebula Neos' has subsequent effects! Negate the effects of 1 face-up card on the field until the end of this turn.

I negated the effect of Destiny HERO Dystopia! "

Nebula Neos opened his fingers, and the surging power of nebula exploded. The Destiny HERO was instantly suppressed and unable to move, and the luster on the blue armor seemed to dim a bit.

Of course, this didn't really affect him. Although Dystopia had a powerful effect of exploding cards during the opponent's turn, this effect could only be activated once per turn, and Aster had already used this ability this turn.

What worried Aster more was the powerful draw card effect, and its ATK was also higher than that of Dystopia.

However, Judai's attack was not over yet: The Equip Spell Favorite Hero is activated! This card can only be equipped to a Level 5 or higher HERO' monster!

I equip it to Elemental HERO Nebula Neos'. "

It was impossible for Aster not to know the power of this card. His face changed slightly: "This card is"

Enter the Battle Phase! Judai said, At this moment, the effect of Favorite Hero is activated! At the start of the Battle Phase, I can activate a Field Spell card from the deck.

What I want to activate is a card that comes from the Kingdom of Light in the universe, the real stage where Neos is active! "

Judai drew the card that popped out of the deck.

The Field Spell Neo Space is activated!

The site changed, and the rippling colorful aurora filled the entire space. Colorful and dazzling light shines in the sky, and active light particles converge toward Nebula Neos from all directions, continuously filling the blue spherical crystal on his chest.

The Field Spell Neo Space can increase the ATK of Elemental HERO Neos and all Fusion Monsters that list Elemental HERO Neos' as a Fusion Material Monster by 500! Judai said.

Elemental HERO Nebula Neos, ATK 3000 ATK 3500

Then there is the effect of the Equip Spell Favorite Hero! Judai continued, If there is a card in my Field Zone, the equipped monster gains ATK equal to its original DEF!

Elemental HERO Nebula Neos, ATK 3500 ATK 6000

6000 ATK!? All the students exclaimed.

Aster also gritted his teeth.

Furthermore, when equipped with Favorite Hero, Nebula Neos cannot be targeted by the opponent's card effects!

Judai shook his fist.

Come on, Nebula Neos! Attack the Destiny HERO Dystopia!

Space was distorted, the aurora was turbulent, and a huge hole appeared in the center of the Neo Space! The dark vortex released majestic energy toward the drill bit raised in Neos's right hand. As he thrust in the air, it surged like a flood from a dam!

Facing this fatal blow, Aster

actually took out a Kuriboh!

Sphere Kuriboh's effect is activated! Aster shouted, When an opponent's monster declares an attack: I can send this card from my hand to the GY; change the attacking monster to Defense Position!

Kuriboh opened a light yellow barrier, and Neos's powerful strike was immediately blocked! The powerful Nebula Neos also had to switch from offense to defense.

Nebula Neos, ATK 6000 DEF 2500

"Kuri Kuri!" The spherical Kuriboh left two crisp screams before disappearing from the field.

Did you see it? Even Ultraman is afraid of someone like me!

Heh, nice try, Judai. But you're still 20,000 years too early to win against me!

As Aster said this, he couldn't help but wipe his sweat.

To be honest, he had felt pressure when being locked in by the power of Nebula Neos.

"Oh, Aster is really too strong." Judai said, "Then I will set two more cards and my turn is over."

After a pause, he explained: "Neos' Fusion monster can only exist on the field for one turn, and will return to the Extra Deck at the end of the turn.

However, when the Field Spell Neo Space exists on the field, I can also choose not to activate this effect. "

Aster understood.

I see, because he is an Elemental HERO who lives in the universe, is there a time limit for his activities?

My turn, draw!

After Aster drew the card, a card popped up in the graveyard without even looking at it.

The effect of Destiny HERO Diamond Dude! He said, The Spell Card thrown to the graveyard through the effect of Diamond Dude can be activated directly without any conditions!

Therefore, the effect of the Card of Sanctity' is directly activated. Players on both sides draw cards from the deck until their hands are filled with six cards! "

Looking at the cards that were being replenished, Aster couldn't help but twitch his lips.

Humph, Judai. He said, Don't think you are the only one making progress. I am also constantly getting stronger, gaining new strength, and breaking through my current self!

He drew a card from his hand: "Spell Card D Soul Burst"! Select 1 Destiny HERO' monster I control; its ATK becomes half its current ATK, and each player takes damage equal to that lost ATK!" (animation card)

He pointed to the only Destiny HERO on his field.

I choose Destiny HERO Dystopia and halve its ATK!

Destiny HERO Dystopia, ATK 2800 DEF 1400

Both of us must suffer this value, which is 1400 points of damage!

The Dystopia man roared "Ah, ah, ah", powerful energy burst out with him as the center, and scorching waves of air swept through the two of them.

Judai, LP 1500 LP 100

Aster, LP 2100 LP 700

Judai raised his arms in front of his face to block the impact, then raised his head and said: "Oh no, the effect of the Dystopia"

That's right. Aster smiled and clenched his fist, Once per turn, when its ATK is different from its original ATK, Dystopia can destroy a card on the field and its own ATK will return to its original value.

The Nebula Neos equipped by Favorite Hero cannot be the target of any cards effect! Judai said.

"I know! But the effect of Favorite Hero' can only take effect when the field exists." Aster raised his voice, "So the card I want to destroy is the Field Spell Neo Space!"

Destiny HERO Dystopia, ATK 1400 ATK 2800

Noble Justice!

The right palm of Dystopia blasted out, and the powerful impact stirred up the new space. Cracks spread across the entire field in an instant, and it fell apart like fragile glass products.

In this case, the effect of Favorite Hero will be invalidated, Aster said.

Elemental HERO Nebula Neos, ATK 6000 ATK 3000

Furthermore, Aster continued, the moment I was damaged by the effect of D Soul Burst, the effect of Vision HERO Minimum Ray in the graveyard was also activated!

If I take battle or effect damage while this card is in my GY: I can place this card from my GY in my Spell & Trap Zone as a face-up Continuous Trap! "

The phantom of the hero appeared in Aster's back row, his outline flickering.

Activate the Spell Card Vision Fusion! Aster said, Fusion Summon 1 HERO' Fusion Monster from my Extra Deck! And when using this card to fuse, I can also use up to 2 monsters in my Spell & Trap Zone that are being treated as Continuous Traps as Fusion Material, by banishing them.

I fuse the Vision HERO Increase' on the field with the Vision HERO Minimum Ray' in the trap area!

The fusion condition is 2 HERO monsters! Fusion Summon!

Vision HERO Adoration! ! ! "

Two phantoms disappeared in the whirlpool, dark energy pillars pierced the earth, and the Vision HERO with fluttering black belts descended among the cracked stone fragments flying in the sky!

Vision HERO Adoration, ATK 2800

Its not over yet! He shouted immediately, Activate the effect of Destiny HERO Malicious in the graveyard! Banish this card from my GY; Special Summon a card with the same name from the deck!

Come back, Malicious! "

Destiny HERO Malicious, ATK 800

"Then activate the Spell Card Fusion Substitute!" Aster shouted, "Fuse the Destiny HERO Dystopia' and Destiny HERO Malicious' on the field!"

Ah!?! Judai showed a surprised face, Arent the Dystopias your trump card, Aster?

Can it actually be possible to fuse again?

Heh, look at Judai, this is my new power, the strongest form of my Destiny HERO!

He raised his arms high, and a golden light erupted behind him. The scorching storm lifted the hem of his clothes and bangs.

The fusion condition is Destiny HERO Dystopia + 1 Destiny HERO monster! Fusion Summon!

Transcend destiny and open up a new future

Destiny HERO Dusktopia! ! ! "

Chapter 935: Grand Mole Asked To Fight

The two heroes of destiny reunited, and a golden flash burst out from the vortex of fusion!

Countless flying particles gathered and combined to form a pair of golden armor. The Destiny HERO wore a gorgeous and shining battle suit, like a general in battle, with golden wings on his helmet and a clear mark of "D" on his face.

The upgraded form of Dytopia, Asters true ace, the last trump card that has never been shown even in the professional arena

Destiny HERO Dusktopia!

[Destiny HERO Dusktopia, ATK 3000]

"Dusktopia?" Judai exclaimed, "Aster, your new hero is so awesome"

Aster smiled: "Maybe your Neo-Spacian is really strong, Judai! But it's still far behind my Destiny HERO!

Battle! The first is Destiny HERO Dusktopia! Attack Elemental HERO Nebula Neos! "

The afterimages of the Dusktopia flew up, golden fist shadows flew like barrages, and the shadowless fist dance overwhelmingly surrounded Nebula Neos!

"Open the set card: Trap Card Widespread Ruin!" Judai did not flinch, "When the opponent declares an attack, destroy the monster with the highest attack power on the opponent's field!"

The monster with the highest ATK on Aster's field was undoubtedly the Dusktopia who appeared just now and looked like a golden saint. The landmine was triggered, and a series of gorgeous explosions swept towards the hero, as if a detonating fuse was pulled!

"It's useless!" Aster shouted, "The effect of Destiny HERO Dusktopia is activated! Once per turn, I can target 1 monster on the field; until the end of this turn, it cannot be destroyed by battle or card effects!

I use this effect to protect the Destiny HERO Dusktopia itself! "

The hero raised his right palm, and the energy released condensed into a transparent barrier. The flames of the mine explosion were blocked, and the aftermath of the flames licked past the golden armor, but it was only unscathed.

Without the protection of the trap, Nebula Neos could only explode under the shadow of flying fists.

"Then comes Adoration!" Aster shouted, "Judai, this is the final blow! Ambition Sanctions!"

Adoration spread out his arms, countless belts fluttered messily in the wind, and the energy pillar was like a volcano erupting from the ground, swallowing up Judai!

The field was completely empty, with only 100 LP left, Judai had no means of counterattack. It seemed that he was finally going to face the fate of defeat under the attack of the Dusktopia of course not!

"The effect of the Clear Kuriboh' in the GY!"

The Kuriboh that was thrown into the GY before jumped out in front of Judai.

"When an opponent's monster declares a direct attack: I can banish this card from my Graveyard; draw 1 card!"

Judai's finger was already on the top of the deck.

"If it is a monster, I can Special Summon it in Attack Position, then change the attack target to it."

Aster's eyelids twitched.

The attack power of Adoration was 2800, and the probability of Judai drawing a monster with an attack power above that was so small that it was almost negligible. Judai's life value is only 100, and the monsters specially summoned by "Clear Kuriboh" must be in Attack Position. At first glance, this kind of struggle was meaningless, and there was a high probability that he would still be defeated.

but that's generally speaking.

You know, the one standing here at this moment is Yuki Judai!

Aster knew Judai's divine draw skill better than anyone else, and he had no doubt that Judai's draw would definitely turn things around.

Now the question was, what was Judai going to draw

"Draw!"

Judai's right hand drew a beautiful arc in mid-air.

His eyes lit up immediately.

YaDaZe (Success)!

"The card I drew is," Judai showed the card, "Neo-Spacion Grand Mole!"

Nani! ! ?

While Aster was shocked, the whole audience burst into exclamations.

At the moment of life and death, the last moment when a single blow determines the outcome, the last desperate draw from that thick stack of cards turned out to be the invincible Grand Mole! ! !

[Neo-Spacion Grand Mole, ATK 900]

"According to the effect of the Clear Kuriboh!" Judai laughed, "Adoration must continue to attack the Grand Mole!"

"Exactly." Aster curled his lips and muttered, "It's just the same shitty luck as always Adoration, continue to attack the Grand Mole! Ambition Sanctions!"

"Grand Mole!" Judai also refused to step back, "Please!"

"Leave it to me!"

The honest and honest Brother Mole behind the scenes actually made an OK gesture to his master, then the shoulder armor on both sides closed and turned into a spinning drill, wrapping its head in the middle, and then lifted off the ground and hit it in the direction of Adoration.

"The effect of Grand Mole!" Judai said, "Before damage calculation, if this card battles an opponent's monster: I can return both the opponent's monster and this card to the hand!"

After a pause, he smiled: "Because Vision HERO Adoration' is a Fusion Monster, it naturally does returns to the Extra Deck instead!"

The hole opened, and the two forces rebounded separately. The Grand Mole turned into a golden beam of light, while Adoration turned into black. Both parties flew back to their master's hands.

"You did a pretty good job, Judai." Once again, the fusion monster was forcibly eliminated by the invincible Grand Mole. Aster was not angry at all, but said calmly, "But it just gave you a slight advantage. If you cant defeat Dusktopia, you cant defeat me.

"Ah, I know." Judai nodded, "My turn, draw!"

I activate the Spell Card Convert Contact' again. When there are no monsters on my field, send 1 Neo-Spacion' from my hand and 1 Neo-Spacion' from my deck to the graveyard, then draw two cards! "

He paused and smiled: "You have shown me the new possibilities of Destiny HERO, the strongest and most handsome posture, but you haven't fully seen the power of Neo-Spacion yet, Aster!"

"What?"

"I summon Elemental HERO Stratos' in attack position!"

[Elemental HERO Stratos, ATK 1800]

"The effect of Stratos! Add 1 HERO' monster from my Deck to my hand." Judai pulled out a card that popped up in the deck, "I added the Elemental HERO Neos' to the hand again! "

"It's this guy again." Aster crossed his arms.

Even Yubel, who was watching from the front row, was muttering this sentence in her heart.

This new alien's appearance rate in one game has exceeded my appearance in the entire year!

Yubel: Danger!

"Open the set card: Trap Card NEXT!" Judai waved his hand, "Special Summon any number of monsters with different names from the hand and/or GY, in Defense Position, that are all Neo-Spacian' monsters or Elemental HERO Neos', but negate their effects!"

Three cards popped up from Judai's graveyard, and he drew them together with the Neos he had just retrieved.

I special summon Neo-Spacian Grand Mole, Neo-Spacian Flare Scarab, Neo-Spacian Dark Panther from my GY, and Elemental HERO Neos in my hand!

[Neo-Spacian Grand Mole, DEF 300]

[Neo-Spacian Flare Scarab, DEF 500]

[Neo-Spacian Dark Panther, DEF 500]

[Elemental HERO Neos, DEF 2000]

"Neos! Flare Scarab! Grand Mole!" Judai raised his fist, "Triple Contact Fusion!"

Aster shouted: "Another Triple Contact Fusion!?"

The three beams of light flew into the air again, disappeared outside the earth, merged in the Milky Way, turned into burning fireballs, and crashed down!

It was as if lava was flowing on the surface of the armor, and the hero's footsteps left deep marks on the ground. The ultra-high temperature refracted light distorted the space, making the burly body look even more like a god.

[Elemental HERO Magma Neos, ATK 3000]

"The effect of Magma Neos!" Judai said, "This card gains 400 ATK for each card on the field!"

On the field now are Stratos, Magma Neos, Dark Panther, Dusktopia, and the Continuous Trap Sea Stealth Attack' that still remains on the field, a total of five cards.

So the attack power of Magma Neos increases by 2000!"

[Elemental HERO Magma Neos, ATK 3000 ATK 5000]

"Another attack power of 5,000!?"

Many people were shocked.

Why can these various vest of Neos soar their attack power as if they were playing for fun! ?

"Judai wins now!" Asuka almost stood up.

"Battle!" Judai waved his fist, "Magma Neos, attack Dusktopia!"

Magma Neos raised his arms, the churning lava gathered in his palm, and the flaming meteor shot through the atmosphere from the sky, blazing and crashing towards Aster's field!

Super Heat Meteor! ! !

"It's not that easy!" Aster shouted, "The effect of Dusktopia! Once per turn, target 1 monster on the field; until the end of this turn, it cannot be destroyed by battle or card effects!

I use this effect to protect Dusktopia himself! "

The golden light all over the Dusktopia man's body swelled, and the shining golden halo swirled around his body, as if another layer of invisible energy armor protected his whole body!

"But even if there is no damage, the battle damage still needs to be calculated!" Judai said.

"No!" Aster interrupted, "Monsters protected by the effect of Dusktopia won't cause any battle damage to neither player!"

"Eh?"

Judai was stunned, and the explosion that reached the sky had swallowed up Dusktopia's figure. The scorching heat wave spread everywhere, and the floor seemed to be melted under the erupting lava.

But just as Aster said, Dusktopia was still unscathed.

"Oh, it's so awesome! Cannot be destroyed by battle, cannot be destroyed by effects, cannot even deal damage, isn't it invincible?!" Judai expressed in amazement.

"That's right!" Aster said proudly, "Dusktopia is invincible, an absolute line of defense! He will not be defeated"

"Quick-Play Spell Contact Out'." Judai showed another card in his hand, "Cancel the fusion of Magma Neos' and special summon the fusion material monster back to the field."

[Elemental HERO Neos, ATK 2500]

[Neo-Spacian Grand Mole, ATK 900]

[Neo-Spacian Flare Scarab, ATK 500]

Aster: "?"

Wait, what do you want to do?

Aster smelled something bad and his breath was cut off involuntarily.

Judai smiled brightly and warmly.

Aster's pupils shrank, showing a horrified expression.

Hey, wait a moment, I have something to say! Dont bounce my Dusktopia, please

"Then the battle continues." He said, "Use Neo-Spacian Grand Mole' to attack Destiny HERO Dusktopia' again!"

The Grand Mole slapped its chest: "Leave it to me!"

The invincible rat shoulder armor shrank into a drill bit again, and a nebula hole opened in front of it. He disappeared from the hole, and in the blink of an eye, he instantly moved in front of Dusktopia, and plunged into him with a phase rush.

"The effect of Neo-Spacian Grand Mole! Before damage calculation, and all monsters on both sides are bounced back to the holder's hand!" Judai smiled, "Dusktopia cannot be destroyed by battle, cannot be destroyed by effects, cannot cause battle damage

But using the effect of the Grand Mole is no problem, right? "

Aster: ""

He had nothing to say.

The invincible Dusktopia fell.

Aster couldn't help but fall into deep contemplation as he watched the Dusktopia man turn back into a card and bounce back to his hand.

"Neos!"

Judai put on the pose of "That was a fun Duel."

"Direct attack!"

The white hero jumped up, soared into the air, dived down like a sonic boom, and struck Aster hard in the face with a "Superman Punch".

One hit KO.

[Aster, LP 700 LP 0]

Chapter 936: Sorry For Making Everyone Laugh

Aster, LP 0

After countless rounds of fierce attack and defense, the heroes fighting each other in dazzlingly gorgeous new forms, this high-level and breathtaking battle ended with the "Elemental HERO Neos" the most basic form of Neos. The Normie hero with an attack power of 2500 ended the battle with a simple "Superman Punch".

It felt like "drive high and go low" in a physical sense.

At the end of the duel, Aster's LP value went down to 0 and finally stopped.

No one in the audience could even react at the first time.

To be honest, this result was beyond the expectations of most people present. Before this duel, everyone's predictions about the outcome were basically the same including the most staunch fans in the academy who supported Judai, no one thought he could win this match beforehand.

After all, his opponent was the world champion, a man with the top title in the world of dueling. No matter how strong Judai was, he was just a student of Duel Academy. No one would doubt that he had the level of a professional league player, but a world champion? That's too much nonsense.

At this moment, the result of the duel shocked everyone, and they couldn't recover for a long time.

Before, it was surprising enough that Aster, a professional champion, had to come to the academy to learn how to play cards. By now, not only did he fail to dominate the entire school, but he suffered defeat at the hands of the elder brother of the academy as soon as he came. He once again set a new benchmark for everyone's three views.

At this time, everyone's gaze towards Judai could not help but change

Fuck, you are so awesome, why don't you become a professional player?

Why are you still staying at the school? Wouldn't it be nice to just go and fight as a world champion?

However, soon, under the leadership of an unknown person, the audience gave thunderous applause to the duel.

No matter what the result was, this was undoubtedly a high-value duel, worthy of the admiration of every duelist present. The ace showdown between Neos and the Destiny HERO may be a height that none of them could ever reach.

The strength of both sides deserved their recognition and worship.

Aster was half kneeling on the ground, looking a little depressed.

"It's an interesting duel, isn't it, Aster?" Judai stepped forward, smiled, and extended his hand to him.

Aster rolled his eyes at him and said coldly: "Don't get carried away, Judai! Although I still failed this time, I will definitely"

"I was just lucky." Judai tilted his head and thought, "I just got lucky once in a while. Aster, didn't you also say that you won more before?"

Aster was stunned for a moment.

Ah, it seems that this is the setting

So he quickly put away his frustration, stood up, straightened his clothes gracefully, and hummed: "Yes, you are lucky this time. But it won't happen next time!"

Yes, yes, I was lucky enough to win just a little bit this time. Judai scratched his head and chuckled, I might not be so lucky next time.

Aster was satisfied, his eyes seemed to say "This is pretty much it".

While the two were talking, Yuei Vu had already walked up the steps on the side of the duel arena and applauded the two students vigorously.

Yuei Vu-sensei!

Mr. Yuei Vu!

The two of them eyes lit up at the same time.

The onlookers also quickly became quiet, and many students' eyes widened.

Fuck! Honorary principal!

Although they knew that Yuei Vu is sitting on the island, not every student had the opportunity to meet this legend. After all, he didn't have any substantive work and didn't teach in person. The chances of students seeing him on the TV screen were much greater than in reality.

It was a good fight. Yuei Vu stood in the middle of the stage, Both of you are.

Judai and Aster's eyes showed joy at the same time.

For them, a word of praise from the teacher may be much more precious than a title such as world championship.

Yuei Vu turned to the students: "Did everyone enjoy watching this duel?"

Enjoyed! Many people shouted.

So do you think most duels in professional leagues can match the level of this duel?

Everyone discussed in whispers and gave sporadic answers, but it was obvious that most people's answer was "no".

As a student of Duel Academy, it was almost impossible for anyone to have never watched a professional league duel. Anyone with eyes could basically tell that the level of most duels in the league was really not as good as the following two students.

In fact, after the footage of this duel leaked out and was seen by some professional commentators and players in professional leagues, many people were indeed shocked and shocked by the gorgeous confrontation between Neos and Destiny HERO.

Even a host specifically asked Yuei Vu about this in an interview. At that time, Yuei Vu just smiled calmly and said: "Sit down, sit down, that's our school's bottom student playing cards with the first-year rookie, sorry for making everyone laugh"

This matter caused a huge sensation in the professional circle at that time, and the name "Duel Academy" once again became the focus of attention in the circle.

This was exactly the effect he wanted.

So you can see that the outstanding students trained in our academy are no worse than professional players! What we want to train are strong people who are above the professional level! They are truly top students in the field of dueling!

We will prove it, and society will soon realize it!

This is why after discussing with Principal Samejima, we decided to use Duel Academy as the stage to hold a large-scale cross-border duel event! "

Everyone pricked up their ears and realized that Mr. Duel King might release a bombshell next.

Sure enough, Yuei Vu took out a round silver-white badge from the inside of his shirt, with the word "GX" clearly engraved on it.

The duel competition is codenamed GX! At that time, the academy will widely invite professional players in the league and strong duelists in society to participate.

As for the students in our college, as long as they do not pass the review under special circumstances, they will be regarded as participating by default! "

The whole place was in an uproar.

Ha? Shall we compete with professional players?

"More than that, in order to heat up the scene of this game," Yuei Vu smiled mysteriously, "I will also invite some of my friends to participate in this game as players."

As soon as this statement came out, the students even exploded.

Friends of the first Duel King? Arent they all legends?

We are just here to study in the academy. How can we compete with such big shots?

But soon some people figured out some joints.

Its a competition anyway, there are only a few places in total, the important thing was to participate. The worst-case scenario was that when the time came, they would just hang up or hide somewhere.

But before the students had time to feel relieved, they saw Yuei Vu smiling again.

"Oh, by the way, I discussed it with Professor Chronos and reached some consensus." He paused and said, "In order to prevent students from participating passively and avoiding the duel, we agreed that the points everyone gets in the GX competition

will be directly linked to the final exam scores. "

Students: "

Nani! ! ? ?

Chapter 937: The Tower

The entire venue exploded in an instant, and the students who were still immersed in the excitement of watching the master's duel went from heaven to hell in one second, and they were all dumbfounded.

The results of the GX competition are directly linked to the final exam! ?

Doesn't it mean that if my performance in the competition is too low, I will directly fail the exam at the end of the semester?

Of course, there were only so many rankings in the competition. If a student had to get a ranking to pass, then this year's passing rate must be a teaching accident. Visual inspection showed that not many students have passed.

But Yuei Vu said that they were not devils. Considering that students after all were not professional players, the difficulty must be lowered.

He briefly explained the rules.

First of all, each contestant would be issued a badge with the word "GX" on it. This thing is similar to the original Battle City's puzzle card. It was a participation voucher and could also be used to calculate points.

The winner could take the GX badge from the loser, and the eight people with the most badges could advance to the quarterfinals and compete for the championship in the final knockout round.

The number of badges a student won in the competition would be converted into grade points and added to the final exam score. The more points earned by students, the higher their final grade will be. If you earned enough points, you could even pass the final exam by skipping it.

Of course, even if the results in the competition are unsatisfactory, you will not fail at the end of the semester, but the difficulty of the exam will be much higher than that of other students.

In fact, according to Yuei Vu, he felt that it would be better to take the competition instead of the final exam, which was much more valuable. After all, actual combat with real swords and guns was definitely more reliable than paper tests.

But Principal Samejima and Professor Chronos insisted that this kind of competition with professional players would be too cruel for the students, so they proposed such a compromise plan.

Yuei Vu actually disagreed.

Pros? What happened to the professional players? Believe it or not, they can't beat even someone with the lowest grade in the academy?

However, he finally approved the plan.

After hearing the news, Aster suddenly became energetic again. He stood up and said solemnly to Judai: "It seems that we will have a chance to fight again soon, Judai!

Although I lost this time, it was different on the field. Just wait, Judai, the champion of the GX competition must be me! "

Even in the finals of the professional league, Aster had never shown such high fighting spirit and desire for victory. It seems that in his mind, the World Professional League was far less important than this academy competition.

"Okay!" Judai agreed wholeheartedly, "By the way, Aster, let's go to dinner together tonight! By the way, please let me take a look at your new hero. He's so handsome. I want to see it."

Upon hearing the compliment, Aster's lips curled up involuntarily, feeling a little proud.

In fact, he was also very impressed by Judai's various forms of Neos, and he also sincerely wanted to observe and appreciate this brand-new cosmic hero up close.

There doesn't seem to be anything wrong with exchanging appreciation with Judai, right?

That's what he thought, but when the words came to his lips, it turned into

"Hmph, who wants to eat with you?" Aster straightened his clothes and turned around gracefully, "Unlike you carefree idlers, I am very busy.

That's it, see you on the field. "

"Oh." Judai didn't take it seriously. He just stood up on tiptoes and waved vigorously at his back, "I will be in the cafeteria of the red dormitory at night, the seat by the window on the far right. If you change your mind, just come to me~ "

Aster ignored him and walked straight off the duel stage.

However, all he could think about was the shockingly gorgeous and handsome Neos just now, and Judai's silly and bright smiling face.

He shook his head desperately but found that he could not get this guy out of his mind no matter what.

The secretary was already waiting under the stage. At this moment, her white little hands were holding the tablet, and her long white fingers were rapidly operating the schedule on the screen.

She didn't say a word, but she had silently crossed out her original schedule for the evening and changed it to "go to the Osiris Red dormitory for dinner."

Although the boss didn't say it, she just knew that this should be changed.

Bosses are fickle. Sometimes they have made up their mind about something in their hearts but they won't say it. Sometimes they don't even know that they have made up their mind.

And it was the duty of a little secretary like her to find out the boss's intention.

Somewhere unknown.

The Tarot cards flew all over the sky along the established trajectory, falling lightly one after another and stacked on the round table covered with white cloth.

Saio Takuma stared at the table intently and turned over the first card that fate revealed to him.

It was a picture of a tower struck by lightning and a man falling from the top of the collapsed tower.

A card symbolized "destruction".

Saio once again overturned the table in anger, and the tarot cards were scattered on the floor.

He felt distraught.

Ever since he lost to the Duel King named Yuei Vu, everything seemed to be in chaos.

This was the first time since the birth of his personality that his fate seemed to be shaken. It felt like he was riding the chariot of destiny, charging with great momentum, but he hit some kind of mountain that was far bigger than destiny, and was knocked upside down on the spot.

A shadowy figure appeared in the dark corner.

The man glanced at the tarot cards scattered all over the floor and said calmly: "I took the risk to save you from the Duel King, but I didn't want you to abandon yourself here."

Saio turned his back to him without looking back: "Is there any progress?"

"It's hard to say." The black figure said slowly, "But I found what we were looking for. At least I have the exact coordinates."

Saio frowned: "Then why don't you just take it?"

"It's not that easy." The black figure said, "That thing is in the Kaiba Corp, and the security protocol is the highest level. Seto Kaiba himself seems to attach great importance to that thing, and it is the key to some cutting-edge technology he is developing."

"Can't you handle Seto Kaiba?" Saio crossed his arms.

"Not really, but it's not easy for me to take action from my position." He said, "

Kaiba is not a simple man, and I might be exposed if I take action rashly. I don't plan to confront him directly so soon."

Saio understood clearly: "You want me to get that thing."

"That's right."

Saio snorted disdainfully.

"That's your plan, not mine." He crossed his arms.

"Your plan is fragile and has failed. If it weren't for me, you would have become the Duel King's prisoner." The black figure said lightly, "So do you want to go out and die again, or do you want to do it my way?"

Saio fell into a brief silence.

"Okay, let's do it your way."

He compromised, and his eyes lit up scarlet.

"Leave it to me."

Chapter 938: Have We Met Somewhere Before?

The Kaiba Corp was now almost the largest conglomerate in the world. Its owner, Seto Kaiba, has been ranked first in the world's richest list for two consecutive times due to his leading position in various industries (but mainly in the card game industry).

This company had the world's top technology, the most cutting-edge talents, the most powerful card players, and even had its own team of agents. Its strength was beyond the imagination of ordinary people.

There was only one tiny flaw

Its just that their security system was like a big leaky pot.

Its very strange to say that it was obviously a company with such advanced technology, but its system was hacked or physically invaded every three days. The access and entry were so frequent that it was outrageous.

Today, Saio thought he was going to pick up some key objects from this company.

But it was difficult to do it by himself. After playing cards with Yuei Vu before, he had been exposed and was basically equivalent to a wanted criminal in the duel world.

According to the information he learned, his wanted poster has been widely circulated in multiple duelist circles, including professional circles and underground organizations. He was labeled an "intruder with evil intentions" and rated as "extremely dangerous."

Saio was very angry when he learned about this.

Lies! It's all lies!

I can tell with my toes that it must be the handiwork of that shameless Duel King!

Although he was indeed an intruder, and he did want to destroy the world, the problem was that he had done nothing so far. He was sitting in his living room when the Duel King suddenly fell from the sky and attacked him!

Doesn't your planet do things without evidence and without respecting the law? Can the Duel King do whatever he wants?

Saio was angry, but there was nothing he could do about it. Anyway, his face was already famous now.

Considering that the news was spread by Yuei Vu, and then recounting Yuei Vus own social circle, he must assume that the legendary duelists on this planet also remember his appearance.

So now he had to keep a low profile and could not appear in person.

Of course, this was not a problem for Saio who possessed the power of "The Light of Destruction".

Brainwashing and hypnosis were his specialty. He could make the entire Society of Light loyal to him without any second thoughts. Naturally, he could also brainwash other people within Kaiba Corp.

He managed to find a senior member of Kaiba Corp's board of directors who, at that time, was "studying foreign languages" all night long in bed in a suburban villa.

Saio directly pulled the guy out from the bed and forced him to play cards. After a game of cards, the director was suddenly enlightened and turned into the shape of light. Even the charming blond naked "teacher" on the bed suddenly felt bored, and all he could think about was dedicating himself to the cause of light.

The security of Kaiba Corp is like a public toilet, so it was not difficult to get such an insider to sneak in.

So in the dead of night, when most people in the company had gone home from get off work, he arranged for the director to sneak into the headquarters to find what he wanted.

Saio himself was wearing a loose white robe and a wide-brimmed hood that covered most of his face, hiding in a dark alley across the street and waiting patiently for the results.

Placing chess pieces to sneak in, getting the things out, and then deleting all relevant memories of this director and cutting off the connection with himself. By the time the Kaiba Corp reacted, he, Saio, had already taken what he needed and ran away.

The plan was perfect.

if it werent for these unexpected changes that occurred during the period.

Late at night, ordinary people have already counted the sheep to fall asleep.

Several figures appeared at the entrance of the alley. These were several young men with strange looks. One of them had a silver skull ornament hanging around his neck. Several of them had cigarettes in their mouths. They were noisy and very loud on the street at night.

It was a group of gangsters active in several nearby areas.

Someone among them quickly noticed Saio who was wearing a white robe and a hood. This group of young people immediately started making a noise and swarmed him. The leader quickly pushed him against the wall.

What, its actually a man.

What a letdown

The gangsters started talking.

Soon, someone among them started making noises, saying that a man had holes too

Saio frowned.

He felt more and more that his power to control the future seemed to be gradually fading away. The future was spinning out of control, and fate no longer seemed to be as firmly on his side as it was before.

In the final analysis, it's all that damn Yuei Vus fault!

Although Saio was not sure what the principle was, it was probably the power of the Duel King that shattered his power of destiny to some extent!

Thinking of this, Saio couldn't help but feel even more resentful.

This feud must be avenged!

Of course, now he had to deal with the people in front of him first.

To the power of the "Light of Destruction", these ignorant gangsters were certainly not a problem. He could easily brainwash these people into his own minions, and even make a few of them disappear if he wanted.

But before he could take action, he heard a voice shouting at the entrance of the alley: "Hey you guys! What are you doing!?"

Just as the saying goes "When you see injustice on the road, you roar", a certain blond young man with an upright and awe-inspiring appearance appeared at the entrance of the alley like an ally of justice descended from the sky.

The leading delinquent raised his eyebrows.

There are still people in this territory who dare to stir up trouble with us?

He seemed to feel that his authority and status had been challenged. The bad guy waved his hand and motioned for the brothers to come directly!

A group of delinquents immediately rushed forward, led by the eldest brother. Several people surrounded the blond young man and tried to knock him down.

The leader sneered inwardly.

He was all too familiar with this kind of stupid young man who liked to stand out. That guy was nothing more than a passionate young man who had watched too many hero movies and fantasized about being the protagonist of movies and TV shows who could fight a group of bad men alone.

Who do you think you are? Kazuma Kiryu?

How can you kill us all by yourself?

A few seconds later, the bad guys fell to the ground in a mess.

The leader fell to the ground with a bruised nose and face, looking helplessly at the blond young man standing among them. This person lightly beat them until they were unconscious. Afterward, he even looked neatly dressed, making people suspect that he didn't even break a sweat.

The leader looked at him in disbelief: "Who are you?"

He did not believe that such a capable fighter would be an unknown person on the road, and he even doubted in his heart

Are you still a human? Not a super soldier?

But the man was calm and smiled: "Just a duelist passing by, not worth mentioning."

Duelist?

The bad guy looked at the other person's face and finally remembered something, and couldn't help but exclaim: "Dice! Dice! Dice!"

Just like the secret message sent by the Japanese army during the surprise attack on Pearl Harbor: "Tiger! Tiger! Tiger!"

The man's face suddenly darkened: "You are the dice! Your whole family is the dice!"

At this time, the face of the "victim" Saio, who was rescued from the evil hands and should have been relieved and grateful, turned out to be as dark as the bottom of a pot.

Because he has recognized the identity of the person

Legendary duelist, Katsuya Jonouchi!

A few delinquents were not trouble, and making them disappear was just a piece of cake for Saio. But the legendary duelists were a different story.

Moreover, he was now equivalent to a wanted criminal in the duel field. If he is recognized here, it may be in vain.

So Saio chose to remain silent and wanted to use the "invisible me" method to sneak away without the other party paying attention

Then Jonouchi turned his head with a puzzled face: "Speaking of which, you look familiar. Have we met somewhere before?"

Saio: ""

Chapter 939: Bet On The Honor Of God of Gamblers!

Saio was in a very complicated mood now.

He didn't know if it was an illusion, but he felt that since Saio's original personality was destroyed and his current personality was born, he had never been so unlucky so far

From the birth of his light personality, fate has been a plaything in his hands. Things would always go the way he wanted, and the plans he made would be executed exactly like a script, and everyone was a pawn on his chessboard.

But why did things get out of control?

Why did he always run into accidents beyond his design again and again?

Could it be that in the last duel, he absorbed the duel king Yuei Vu's LP through the effect of "Light Barrier"?

It was because he absorbed the unlucky blood that the goddess of fate disliked him (crossed out)

"Ah!" Jonouchi slapped his forehead and exclaimed, "You are that who is that? Don't remind me, I can remember myself Saio! The crazy fortune teller who wants to destroy the world!"

The word "angry" appeared on Saio's forehead again.

That shameless Duel King described me to you like this?

I am described as a lunatic in a mental hospital!

Saio narrowed his eyes and looked at the famous top duelist in front of him, and a cruel smile appeared at the corner of his mouth.

At this time, he might have given up the mission and escaped, but he didn't. Instead, there was a trace of fighting spirit in his eyes.

Jonouchi Katsuya was known to be favored by fate, and his luck was unlike that of a human being. Some people even suspected that he had superpowers that could influence fate invisibly.

Exactly the opponent Saio needed at this time.

Saio's pupils shrank, and he lifted up his white robe, revealing the uniform underneath and the Duel Disk on his arm.

"Jounouchi Katsuya!" Saio sneered, "Now that you have seen me, don't even think about coming home alive today. Come on! Your dice or my Arcana Force', who is the one favored by fate? Lets fight to the death!

What? There were black lines all over Jounouchis face.

Damn! The gangster just now says that and so is this BOSS who popped up out of nowhere. Why do you all just remember the dice when seeing me?

I'm a legendary duelist! Legendary!

Even if I dont use dice, my dueling skills are still top-notch, right?

Okay! Jonouchi opened the Duel Disk, In that case, lets do it!

Duel! x2

Jounouchi, LP 4000

Saio, LP 4000

"I'll go first, draw!" Jounouchi shouted, "I'm in a hurry here, so let me end you quickly!"

Tonight he was discussing Taoism too deeply with his good brother Valon, and he reached this point of time accidentally. Mai originally sounded unkind when she called him to urge him to go back. If he delayed for a longer time

Jounouchi shook his head, not daring to imagine that scene.

In short, it must be resolved quickly!

Activate the Spell Card Cards of the Red Stone! Jonouchi said, Send 1 Level 7 Red-Eyes' monster from my hand to the GY; draw 2 cards!

After that, I can send 1 Level 7 Red-Eyes' monster from my deck to the graveyard! "

He discarded the cards, drew the cards, and at the same time revealed a card that popped up from the deck: "I sent Red-Eyes Black Dragon' from the deck to the graveyard!"

"Red-Eyes is indeed a rare deck, bringing infinite possibilities to the legendary Black Dragon." Saio sneered, "Do you intend to not rely on the power of fate, but simply use the legendary Black Dragon to challenge me?"

Jonouchi was furious again: "Can you stop? I have already given up gambling for the rest of my life. I will defeat you with my Red-Eyes and my strength!"

Saio laughed.

"Hahahaha! Do you rely on strength? It's interesting. From the perspective of this duel, it may be a wise choice." Saio smiled, "Because fate is on my side, even when facing you, Jonouchi Katsuya!"

That's a lot of nonsense. Jonouchi rolled his eyes and once again drew two cards from his hand, I used the Red-Eyes Wyvern in my hand as a sacrifice to special summon this card!

After a long period of evolution, the Black Dragon Soul has taken on a new look

Red-Eyes Alternative Black Dragon is coming! ! ! "

The three-dimensional projection simulated the image of a burnt red rock. The rock broke open, and a jet-black dragon rushed out wrapped in magma. The lava flowed on the beautiful and ferocious black body, and the wings made of steel slowly opened.

Red-Eyes Alternative Black Dragon, ATK 2400

Red-Eyes Alternative Black Dragon can be Special Summoned from my hand by Tributing 1 Red-Eyes' monster from my hand or field. Jonouchi said, Set a card, I end my turn!

Is it an alternative form of the Red-Eyes Black Dragon? Having such a rare and powerful monster in your hands, you are indeed a legendary duelist.

Saio muttered, and then raised his voice: "My turn, draw!"

After looking at the cards he had drawn, his expression changed slightly, then he narrowed his eyes and said to himself: "Just in time, I'll let you take a look first, Katsuya Jonouchi. In the face of the torrent of fate, even you can't Just as insignificant as other humans!"

He showed the card in his hand: "Activate the Spell Card Cup of Ace!"

The green Spell Card appeared above Saio's head and started to rotate in a clockwise direction.

Cup of Ace was a famous luck tester among card players. Its effect was very simple and crude, just toss a coin. If it landed at Head, it would be a Pot of Greed, and if it landed at Tail, it would be a Gift of Greed.

But of course, this small test was not difficult for Saio.

Of course, it's in the upright position! Saio shouted, Stop!

The Spell Card "Cup of Ace" stagnated in mid-air, and it was in the upright position as expected.

Hahahaha! Did you see it? This is the power of fate! Saio laughed, The effect of the upright position, I draw two cards from the deck!

The wheel of fate has started turning again, and no one can stop it"

It was as if this coin flip had allowed him to regain his self-confidence that was severely damaged by Yuei Vu. His facial muscles twitched, and he even couldn't help but start to show off again.

Jonouchi looked at him with empty eyes and cursed secretly.

Isn't it just a coin flip that comes up Head? It makes you happy as if you have never seen Head in your life

Unexpectedly, Saio actually drew another Cup of Ace, so he activated it again without saying a word.

Of course, its still in the upright position!

Seeing the second straight position, Saio finally regained his confidence and laughed boldly like a man who had regained his glory.

The effect of the upright position, I draw two more cards!

Even Jonouchi couldnt help but raise his eyebrows.

Damn it, this guy seems to have some skills?

Two consecutive Heads are really a bit abnormal

The Field Spell Mausoleum of the Emperor is activated!

The landform changed, dust rose, clay soldiers lined up in neat square formations in the deep pits on both sides, and brightly lit halls rose from the ground.

Mausoleum of the Emperor allows me to Normal Summon or Set monsters without Tributing, by paying 500 Life Points x the number of monsters needed for the Tribute Summon. (animation effect)

Saio raised a card in his hand.

According to this effect, I pay 1000 LP to summon this card

Arcana Force XV The Fiend! ! ! (animation card)

Chapter 940: Can You Still End Up In The Upright Position?

Saio, LP 4000 LP 3000

At the cost of 1000 LP, the clay soldiers on both sides flew into the air, turning into light points and dissipating in mid-air. A black storm swept across, and a twisted monster with protruding eyes and red tentacles descended onto the field!

[Arcana Force XV The Fiend, ATK 2500]

At the moment of summoning, the monster card simultaneously appeared above the head of the indescribable monster and began to rotate mechanically.

"Arcana Force XV The Fiend's effect! The moment it is summoned, the cards above its head will randomly stop in the upright or reverse position, and obtain different effects." Saio shouted, "The upright position of Arcana Force will have a beneficial effect to the controller, while the reverse position will have a side effect to the controller!"

Jonouchi stared at the spinning card with wide eyes.

To be fair, it's incredible enough for Saio to hit two Cup of Aces in two consecutive upright positions just now. Wouldn't it be nonsense to shoot three consecutive upright positions?

"Of course, the fate has already been decided! So The Fiend naturally will appear in the upright position! "

The rotating monster card stopped in its correct position.

Ha!?

Jonouchi raised his eyebrows.

Is this person cheating? Why are there so many hits in the upright position?

"Hahahaha! Yes, that's the feeling, that's it! The power of fate is still in my hands!" Saio laughed, "Battle! Arcana Force XV The Fiend, attack Red-Eyed Black Dragon! Devil Disaster! ! ! "

At the same time, he waved his hand.

"At this moment, the upright position effect of The Fiend is activated! When this card attacks, it can select and destroy 1 monster card on the field. But if no monster is destroyed, The Fiend itself must be destroyed. (anime effect)

I destroyed the Red-Eyes Alternative Black Dragon! "

Countless tentacles penetrated Alternative Black Dragon's body, and the black dragon was blown to pieces with a shrill scream.

"It's not over yet!" Saio continued, "The controller of the monster destroyed by this effect must suffer 500 points of damage!"

The tentacles that pierced the black dragon continued unabated and penetrated Jonouchi's body, causing severe pain that was far beyond the reach of ordinary duels.

Of course, Jonouchi, who has experienced hundreds of battles, was no stranger to this kind of unconventional duel.

[Jonouchi, LP 4000 LP 3500]

"The troublesome obstacle has been cleared, then The Fiend's attack will continue! Attack directly!"

"Don't think about it!" Jonouchi interrupted him and shouted, "The effect of Red-Eyes Alternative Black Dragon! If this card is destroyed by battle or the opponent's effect, I can target 1 Level 7 or lower Red-Eyes' monster in my GY, except Red-Eyes Alternative Black Dragon'; and Special Summon it!"

A card popped up in the GY area, and turned into a fire dragon wrapped in flames in the city's hand and rushed into the sky. Then it hit the ground hard, and the noble posture of a black dragon appeared in the center of the scattered flames!

"Red-Eyes Black Dragon, summon!!!"

[Red-Eyes Black Dragon, ATK 2400]

Saio said: "In terms of attack power, The Fiend is still higher."

"Red-Eyes Alternative Black Dragon still has subsequent effects." Jonouchi smiled, "If the monster Special Summoned by this effect is Red-Eyes Black Dragon', its original attack power will be doubled!"

[Red-Eyes Black Dragon, ATK 2400 ATK 4800]

"4800 ATK? Then the attack is terminated and my battle is over." Saio said calmly, drawing another card from his hand, "I activate the Spell Card Suit of Sword X'." (Animation card)

A Spell Card appeared above his head again, as if it was rotating under the influence of the thread of fate.

"If Suit of Sword X stops in the upright position, destroy all monsters on the opponent's field.

But if it stops in the reverse position, all monsters on my field must be destroyed. "

Jonouchi: "!"

Damn it, is it so exciting to play such a gamble?

By the way, what's going on with this guy? Is he my fanboy or something? Why are the decks full of coin-tossing stuff?

Jonouchi probably never expected that even though he had already kicked all the gambling cards in his deck, he would have to continue gambling.

After all, even if he sealed his gambling deck, he can't stop the opponent from bringing coins and dice.

However, even after retreating into retirement, Jonouchi still had absolute confidence in his luck. To be honest, a prodigy like Saio who could perform three upright positions in one breath in front of him was a rare sight for him.

Can you still give me the fourth random upright position in a row?

This Jonouchi really doesn't believe in this evil today!

The Spell Card stopped spinning.

It's the upright position again.

Jonouchi: "!"

"Hahahaha, the effect of the upright position!" Saio laughed, "All monsters on the opponent's field are destroyed!"

A few cold lights flashed in the sky, and countless swords fell from the sky dragging silver light! The Red-Eyes Black Dragon was instantly penetrated by ten thousand swords. It had nearly five thousand attack power but was unable to use it, and was directly blown into pieces.

Jonouchi: ""

Referee, where is the referee?! There is someone blatantly cheating here, why don't you care?

Jonouchi now felt that he may actually understand a little bit about the mentality of his opponent when they was so angry and scolded him for cheating.

I never thought that karma always comes back and that I would also have such bad luck.

"Hidden three cards, the round is over." Saiou smiled, "Okay, it's your turn, Katsuya Jonouchi. Let me see how far the legendary duelist can go when fate is his opponent! "

Jonouchi rolled his eyes at him unhappily.

"Tch! My turn, draw!"

Jonouchi's eyes lit up when he saw the card drawn.

Want to play dice and coins with me? good! Then I'll stay with you until the end!

"I summon the Time Wizard!"

A little old magician in the shape of an alarm clock jumped out onto the field, dragging a long cloak behind him.

""

Let me tell you a joke, "Seal The Deck".

Well, Jonouchi did kick almost all gambling cards out of the deck, but Time Wizard was different. After all, this was his soul card, and it was also the friendship card given to him by Yugi when he was a rookie. It could not be replaced in any way.

But its just right to face this situation.

Jonouchi took a deep breath: "Let me, Jonouchi, defeat your so-called destiny! I activate the effect of Time Wizard!"

Time Roulette! "

The Time Wizard raised the staff in his hand, and the clock-like roulette pointer on the staff began to rotate rapidly.

"The magic of Time Roulette has a 1/3 chance of destroying all the monsters on the opponent's field, but there is also a 2/3 chance of destroying all the monsters on your own field, and in that case, you will take damage equal to half the total attack power of the destroyed monsters!"

Saiou crossed his arms and sneered: "Hey, not only did you not avoid it, but you relied on luck to launch a frontal attack on me?"

"Shut up and watch my fortune!" Jonouchi shouted, "Stop!"

The wheel of time stopped.

The pointer decelerated rapidly and slid inch by inch to the junction of the hit area and the skull area on the roulette wheel. It swung from side to side with great difficulty. It looked as if the goddess of fate was in an extreme dilemma about which side to help.

Then

it stopped at the location of the skull mark.

Jonouchi: Nani! ! ? ?

"Hahahaha!" Saio laughed, "Time magic failed to activate. Due to the backlash, your Time Wizard' itself will be destroyed, and you must also be damaged by half of its attack power!"

[Jonouchi, LP 3500 LP 3250]

Seeing the Time Wizard self-destructing and disappearing, the God of Gamblers was dumbfounded.

Flip a coin five times in a row and win all five times?

Is this man the biological son of the goddess of fate or what? I'm known as the God of Gamblers, but I've never been so arrogant!

Aren't you afraid of being banned for cheating so hard?

At the same time, Jonouchi couldn't help but start to fall into self-doubt.

Could it be that the problem lies with me?

Is it because I'm determined not to touch the gambling card, and the goddess of fate feels that she has been abandoned and is determined to take revenge?
