

## I Play Yu-Gi 941

Chapter 941: Poisonous Unlucky Blood

"I said, fate is on my side! After all, you are just a mortal with a little luck," Saio started again.

"It's so noisy." Jonouchi was impatient and chose to ignore it.

However, even his always-unfavorable Time Wizard was defeated and it was indeed a bit hurt. He had to adopt the Plan B.

"Open the set card: Trap Card Red-Eyes Spirit!" Jonouchi said, "Special summon a Red-Eyes' monster in my graveyard!

Resurrect, Red-Eyes Alternative Black Dragon! "

The earth was broken open, and a black dragon wrapped in flames broke out of the earth, its iron-like body shining with a dark red luster like lava.

[Red-Eyes Alternative Black Dragon, ATK 2400]

"It's this guy again." Saio said, "But its power is not as powerful as the Arcana Force XV The Fiend!"

"Of course I know about this kind of thing!" Jonouchi waved his hand directly, "Come on! Red-Eyes Alternative Black Dragon, attack Arcana Force XV The Fiend!"

Alternative Black Dragon opened his mouth, and black flames washed away from the demon's body like water.

"Do you want to self-destruct?" Saio narrowed his eyes and waved his hand, "Then open the set card: Continuous Trap Lucky Punch!!!"

The trap flipped, and this time three trap cards appeared in mid-air at the same time, spinning above Saio's head.

Jonouchi's eyelids twitched.

Damn it, again?

Did you want to toss not just one but three coins at once this time?

"The effect of Lucky Punch can only be activated when the opponent declares an attack." Saio grinned ferociously, "Once per turn, I can toss a coin 3 times. If the result is 3 heads, draw 3 cards, but if the result is 3 tails, destroy this card.

And if this card is destroyed, I also have to take 6000 points of damage. "

He raised his arms and pointed at the three rotating cards above his head.

"The gears of fate begin to turn again!"

Jonouchi raised an eyebrow.

Toss three coins at once, and all three of them are heads?

Not even a God of Gamblers like me dares to bring such a mysterious card!

Wouldn't it be funny if this special meow could win?

The three cards stopped rotating one after another.

Three upright positions.

"Hahahaha!" Saio laughed, "According to the effect of Lucky Punch', I draw three cards!"

Jonouchi: ""

Damn, brother, are you burning your soul to burst your luck?

"But the Alternative Black Dragon's attack will still continue!"

But the tentacles of "Arcana Force XV The Fiend" scattered the flames with one sweep, followed by several tentacles piercing the air like spikes, and pierced the Alternative Black Dragon with one blow.

Jonouchi, LP 3250 LP 3150

Jonouchi ignored the slight impact of 100 points of damage and said with a smile: "You must not have forgotten the effect of the Red-Eyes Alternative Black Dragon, right?"

"Tch," Saio hummed, "When it is destroyed by battle or the opponent's card effect, you can special summon 1 Level 7 or lower Red-Eyes' monster in your GY."

"Exactly!" Jonouchi drew a card that popped up in the graveyard, "Come again, Red-Eyes Black Dragon!"

The body of the black dragon exploded, but the soul of the black dragon flew out as if breaking free from the shackles of the body. It was wrapped in a huge fireball and fell to the ground with the explosion of flames. It turned into a proud and dark dragon and came again, with lava rolling in its eyes!

"The follow-up effect of Red-Eyes Alternative Black Dragon!" Jonouchi said, "If the monster Special Summoned by this effect is Red-Eyes Black Dragon', its original attack power will be doubled!"

[Red-Eyes Black Dragon, ATK 2400 ATK 4800]

"Sure enough, the goal is still the Red-Eyes Black Dragon?" Saio sneered, "But this was already expected!"

Open the set card: Trap Card Threatening Roar! During this turn after this card is activated, the opponent's monster cannot declare an attack! "

The trap card was turned over, and the sharp and harsh roar continued on the field, and the sound waves spread like ripples.

"Hahaha! You have to harm yourself to summon a Red-Eyes Black Dragon, but it's unable to attack. Doesn't it feel like you finally figured out the answer to a question but can't continue to answer because the exam bell rang? What a pity hahahaha!! !

Looking at Saio laughing heartily, Jonouchi couldn't help but roll his eyes.

What kind of weird metaphor is this?

"Then if I can't attack, the Battle Phase will end." Jonouchi drew a card from his hand, "But my offense is not over yet!"

Activate the Spell Card Inferno Fire Blast! Choose a Red-Eyes Black Dragon' on my field and inflict damage to the opponent equal to the original attack power of that monster! But Red-Eyes Black Dragon' cannot attack the turn I activate this card."

"The original attack power value?" Saio was surprised, "The current original attack power of the Red-Eyes Black Dragon"

"That's right!" Jonouchi smiled, "The Red-Eyes Black Dragon special summoned by the effect of the Red-Eyes Alternative Black Dragon has its original attack power doubled! In other words, you will directly receive 4800 points of damage!"

The Red-Eyes Black Dragon opened its mouth, lava was churning in its mouth, and a pitch-black fireball blasted out in front of it, surrounded by fiery airwaves!

4800 points of damage was enough to instantly incinerate any opponent's LP. It was a single blow could directly determine the victory!

Boom! ! !

The black flame sphere exploded in front of Saio's face, the shock wave erupted, and the extremely high heat wave distorted the space.

However

Saio, LP 7800

"Hehehehehahaha!" Saio laughed with a distorted expression, and his body trembled violently.

"It's useless, absolutely useless!" He laughed, "Activate the Trap Card Energy-Absorbing Monolith! When an opponent's card effect that would inflict damage to me, that damage is negated and I gain Life Points equal to the amount I would have taken!"

"More than seven thousand Life Points!?"

This exaggerated value was indeed a bit shocking, and even Jonouchi couldn't help but lose consciousness for a moment.

But he quickly adjusted.

It doesn't matter! My luck seems to be a bit bad today for some reason, while Saio's face is so white that it reflects the light.

But things are different now! Now that Saio has drunk my poisonous unlucky blood, it will be impossible to hit the next coin!

"Set a card, I end my turn." Jonouchi ended the turn for the time being.

"Sure enough, you are only a duelist of this level after all, Jonouchi Katsuya." Saio had completely recovered his former arrogance at this time, and his facial muscles were once again stretched to a grotesquely distorted extent.

Jonouchi looked at that face, and the appearance of a certain six-year-old child in the past appeared in his mind unconsciously.

Don't tell me, it really has some charm.

"My turn, draw!"

After drawing the card, Saio looked at the card and suddenly started laughing uncontrollably.

"Interesting, interesting! Is this the revelation of fate? Well, I will let you die in the hands of your proud ace!"

He showed the card he drew: "The Spell Card Monster Reborn! Target 1 monster in either GY; Special Summon it!

The monster I want to resurrect is Time Wizard! "

Jonouchi: "!"

Damn it, you want to NTR my Time Wizard?

A huge rebirth symbol appeared the vortex in the GY opened, and the short and cute little old man with an alarm clock quickly jumped onto Saio's field, waving the time wheel staff in his hand.

"I activate Time Wizard's effect! Time Roulette!"

Saio's ability was activated, and the Time Wizard's card appeared above his head and began to rotate automatically.

Jonouchi's eyes widened without blinking, staring at the spinning card without blinking to express his anger.

"If it is in the upright position, all monsters on your field must be destroyed. If it is in the reverse position, all my monsters will be destroyed, and I will take damage equal to half the total attack power of all monsters."

Saio sneered ferociously.

"Of course, whether it's right or wrong, your fate has already been decided!" Saio shouted, "Stop it!"

The cards in mid-air stopped spinning.

Reverse position.

Saio: The smile gradually faded. JPG.

"W-w-what!?!?" Saio's face instantly deformed, "Impossible! Impossible!"

"Haha! That's right!" Jonouchi laughed, "With the backfire effect of Time Magic', all monsters on your field must be destroyed, and you must be damaged by half of the total attack power of those monsters!"

Time magic was activated, and the powerful magic of time and space covered Saio's entire field.

"Arcana Force XV The Fiend" bore the brunt and was destroyed by the distortion of time and space. Then the Time Wizard himself was not spared and was corroded and destroyed by the power of time and space.

Saio, LP 7800 LP 6300

Chapter 942: Of Course It Will Stop At The Upright Position!

Saio quickly recovered from the blow of the Time Wizard's self-destruction.

Coincidence, definitely a coincidence!

Although it is said that fate is absolute and the wheel of fate is unstoppable, dysfunction is inevitable, right?

Maybe it was just that the goddess of fate took a nap?

Yes, that's definitely the case!

Saio showed another card and said solemnly: "Equip Spell Premature Burial"! Pay 800 LP to resurrect 1 monster in my graveyard and equip this card to it!

Appear again, Arcana Force XV The Fiend! "

Saio, LP 6300 LP 5500

The vortex in the GY opened again, and the twisted and grotesque Tarot card demon appeared again, with soft and long tentacles dancing up and down.

[Arcana Force XV The Fiend, ATK 2500]

"When The Fiend is summoned, different effects will be obtained based on the random forward or reverse position," Saio shouted.

The secret card rotated rapidly and then stopped with a loud roar.

Upright position.

"Hahahaha, it turns out that fate has not wavered!" Saio regained his confidence.

"Then the Field Spell Mausoleum of the Emperor' is activated again! Pay 1000 LP and perform a Normal Summon without Tributing!"

Saio, LP 5500 LP 4500

He raised a card in his hand like crazy and almost shouted at the top of his lungs: "Arcana Force XXI The World!!!"

The air current raged and an astonishing force exploded. The steel body landed heavily on the ground, motionless but with amazing momentum as if the whole world was under its control!

[Arcana Force XXI The World, ATK 3100]

"Arcana Force The World" Facing the towering and huge body and the astonishing airwaves, Jonouchi couldn't help but swallow, "Is this your trump card?"

"When The World is summoned, different effects will also be obtained depending on the upright or reverse position!" Saio shouted, "Turn it, fate!"

The world's cards spun around and stopped a moment later amid Saio's shout.

Another upright position.

Saio's confidence continued to grow.

Sure enough, the Time Wizard's defeat just now was just an accident, and fate was still on his side!

"Die, die, die!" Saio shouted, "Battle! First, the Arcana Force XV The Fiend' attacks the Red-Eyes Black Dragon!"

The demon's attack power is only 2500, but the attack power of the red eye is 4800. At first glance, it may seem like a battle where there is a huge disparity in power and it is impossible to match them, but this is not the case.

"The upright position effect of Arcana Force XV The Fiend! When this card attacks, I can target 1 monster on the field; destroy it, and inflict 500 damage to its controller!

Destroy the Red-Eyes Black Dragon! "

The tentacles stabbed out as fast as invisible, the Red-Eyes Black Dragon's throat was twisted into pieces, and it screamed feebly and was blown to pieces.

[Jonouchi, LP 3150 LP 2650]

But Jonouchi then showed a card in his hand: "The effect of the Red-Eyes Retro Dragon' in the hand! If a Level 7 or lower Red-Eyes' monster on my field is destroyed by the opponent's attack or card effect and sent to my GY, I can Special Summon this card in Defense Position!

Then Special Summon as many of those destroyed monsters as possible in the same position they were in when destroyed! "

Jonouchi pulled out the "Red-Eyes Black Dragon" that popped up in the GY and displayed it together with the dragon in his hand.

"I special summon the Red-Eyes Black Dragon' and Red-Eyes Retro Dragon!'"

[Red-Eyes Retro Dragon, DEF 1600]

[Red-Eyes Black Dragon, ATK 2400]

"Ha, but in this way, the attack power of Red-Eyes Black Dragon' will also be reset." Saio sneered, "And the moment you activate this effect, I will activate this card from my hand.

Quick-Play Spell Demise of the Land!

It can only be activated when the opponent successfully special summons a monster. I can activate a Field Spell card from the deck! "

A card popped up in Saio's deck, and he pulled it out and displayed it: "Activate the Field Spell Light Barrier!'"

The ancient emperor's tomb began to collapse, with floor tiles cracking and warriors shattering. Intense and scorching light occupied the entire space, a huge barrier enveloped the site, the surrounding environment disappeared, and there was nothing but light.

"In the field of Light Barrier', all the effects of monsters other than Arcana Force' are negated." Saio shouted, "And in this barrier, when an Arcana Force' monster is summoned, I can freely choose to apply the upright or reverse position effect!

"Eh? Does this card have such a cheating effect?" Jonouchi said.

"The battle continues!" Saio said, "Use Arcana Force XV The Fiend' to attack the Red-Eyes Retro Dragon!'"

Countless tentacles pierced the Red-Eyes dragon, and the dragon hurriedly left with a mournful cry.

"Although it is in Defense Position and will not cause battle damage to you, the effect of Light Barrier' is activated!" Saio said, "If my Arcana Force' monster destroys an opponent's monster by battle: I gain LP equal to the destroyed monster's original ATK!"

Saio, LP 4500 LP 6200

"Then comes the Arcana Force XXI The World! Attack the Red-Eyes Black Dragon!"

The world adjusted its trajectory to lock on the target, and the laser knocked back the red eye without any explanation. The black dragon was blown off the ground into the air, its black bone wings were violently broken by the energy impact, and its body was torn apart again.

Jonouchi, LP 2650 LP 1950

"The effect of the Light Barrier'." Saio shouted, "I restore the LP equal to the attack power of the Red-Eyes Black Dragon!"

Saio, LP 6200 LP 8600

"It's not over yet!" Saio raised his voice, "The Battle Phase is over, but I want to activate the Equip Spell Sacrifice of Grave Goods' and equip it to Arcana Force XV The Fiend!" (Original card)

The corner of his mouth curled up and he smiled grimly.

"The monster that is equipped with this card can be treated as 2 Tributes." He said, "Then I activate the effect of Arcana Force XXI The World!"

At the End Phase, Tribute two monsters on my field and skip the opponent's next turn! "

"Ha!?" Jonouchi was surprised, "Skip the turn!?"

"Yes, this is the absolutely invincible ability of The World!" Saio shouted, "I use the Arcana Force XV The Fiend' equipped by Sacrifice of Grave Goods' as sacrifices!

The World! Time, stop! ! ! "

Time and space are still, everything is frozen, and even the light and air in the duel arena seem to be frozen. Only the monitors on the Duel Disks of both sides were rapidly changing from the "Draw Phase", and in the blink of an eye, they were fast forwarding to the "End Phase".

An entire turn was skipped, and it was Saio's turn again.

"My turn, draw."

"Hey, hey, it's a foul to skip a turn!" Jonouchi pointed at him.

"Hahaha, this is fate! Human beings are just tiny ants in front of this power!" Saio said, "Entering my Standby Phase, the Light Barrier' needs to be repositioned again.

If it's the upright position, it's all business as usual. If it's the reverse position, the effect of Light Barrier' will be negated until my next turn. "

The Light Barrier card appeared out of thin air and began to rotate like a wheel.

"Of course, the fate has been decided a long time ago!" Saio laughed loudly and pointed to the card above his head, "Of course, it will stop at the upright position!"

Click!

The Light Barrier card stopped rotating.

Reverse position.

Saio: The smile disappears again. JPG.

W-w-what!!??

Saio looked like he was crazy.

Shady! There is definitely something shady!

Chapter 943: No One Dares To Throw A Six In Front Of Me!

Saio stared straight at the card suspended in mid-air, his face full of disbelief and doubts about life.

Time Wizard was Jonouchi's card, so it's understandable that it might not work

But how could my own Arcana Force end up in the reverse position?

Could it be that fate has really abandoned me?

Saio was shocked for a long time, until the light on the field gradually dissipated, and the entire barrier gradually dimmed.

As a result, the barrier's effects were ineffective until Saio's next turn.

"Hey, it seems that the situation is not very good." Jonouchi covered his mouth and snickered, "Have you ever heard of conservation of luck, brother? It seems that my fortune has turned around"

"Tch." Saio gritted his teeth, "It's just a reverse position, and the fate won't be shaken by this! Enter the Battle Phase again!"

Arcana Force XXI The World, direct attack! Over Catastrophe! ! ! "

The world showed its fangs again, and a laser beam plowed clear marks on the ground, heading toward Jonouchi!

"Open the set card: Trap Card Defense Draw!" Jonouchi waved his hand, "Make the battle damage I take from this battle 0, and I can draw 1 card!"

A milky white barrier was formed, and the laser washed away violently on the barrier.

"It's a pity that you didn't succeed." Jonouchi wiped his nose.

"Hmph, it's just you struggle to survive one more turn." Saio continued to insist, "Set three cards, I end my turn!"

Will fate be shaken? Do not make jokes!

It's just a coincidence, an accident! This kind of accident will never happen again!

"Then it's my turn, draw!"

Jonouchi glanced at the drawn card and took a deep breath: "Okay! Now it's my turn to try my luck! Activate the Spell Card Roll of Fate!"

Roll a six-sided die. Draw cards equal to the result, then remove an equal number of cards from the top of my Deck! "

"Hey, you actually took the initiative to use this kind of card in front of me?" Saio sneered, "Huh, anyway, the number thrown out should probably be 1 at best it is 2 that is already an over limit performance.

However, Jonouchi ignored him. He threw the dice with his big hand and it fell, rolling twice on the ground

..a big "6".

"NaNani!!" Saio's face deformed again.

Impossible! How dare he throw 6 in front of me, Saio Takuma?

No one dares to throw a 6 in front of me!

"Ha! According to the effect of Roll of Fate', I draw six cards from the deck!" Jonouchi said with a smile on his face, "But then the six cards from the top of the deck must be removed from the game."

Although he did say that he would never touch dice again, he really had to admit that dice are really delicious to use

Watching Jonouchi's crazy drawing of cards, Saio quickly made up a seemingly reasonable reason in order to maintain the operation of his brain and avoid collapse-

I see!

It must be fate. She thinks just a few cards don't matter at all and has no impact on the direction of fate!

It's just a mere draw a mere six cards

My ass!

No matter what you think, it can't be irrelevant, right!?

Six cards! A whole six cards!

"I set a card on the field!" Jonouchi waved his hand, and then said, "The Spell Card Bait Doll' is activated! Target 1 Set card in the Spell & Trap Card Zone; reveal that target.

If it is a Spell Card, return it face-down!

If it is a Trap Card, it is forced to activate! In that case, if the timing of activating that trap is incorrect, the effect will be negated and it will be destroyed directly! "

He pointed to the card he had just concealed: "What I want to activate is the card I just set! This card is of course a Trap Card

Graverobber! ! ! "

Saio: "!"

Damn! Why are you bringing such an unknown-meaning card??

The Q version of the big-headed tomb robber popping out, holding a small shovel in his hand, dug a card from Saio's GY and ran back to Jonouchi's side.

"Graverobber allows me to take a card in the opponent's graveyard and activate it at any time I want during this turn." Jonouchi smiled and showed the card, "The card I want to activate is

Spell Card Suit of Sword X! "

This is reciprocity. You NTRed my Time Wizard, so I've NTRed your card too!

Saio's pupils shrank and he was obviously panicked. But he quickly forced himself to calm down and put on a calm and arrogant look: "Oh, you are not overestimating your own abilities, and you actually covet my power of destiny?

Fool! Then see with your own eyes how your fate of defeat is written! "

Jonouchi continued to ignore his arrogance: "The effect of Suit of Sword X!

If it stops in the upright position, all monsters on the opponent's field are destroyed!

If it stops in the reverse position, all monsters on my field will be destroyed! "

The Spell Card appeared above Jonouchi's head and began to rotate like a precise machine.

"Stop!" Jonouchi shouted.

Saio tried his best to pretend that "I'm in control and I don't panic at all", but at this time he couldn't help but crane his neck, widen his eyes, and hold his breath to stare at the Spell Card spinning above Jonouchi's head.

Suit of Sword X stopped turning.

Upright position.

"Yes!" This time it was Jonouchi's turn to perform face art, "The effect of the upright position will destroy all the monsters on the opponent's field!"

"WTF!?!?" Saio howled in a distorted voice, "Impossible!!!"

But no matter how much he couldn't accept it, the fact was the fact. A cold light flashed in the sky, and countless swords fell from the sky, tearing "The World" he was proud of into a sieve with his own sword.

Saio was miserable.

But this was just the beginning.

"I summon the Gearfried the Red-Eyes Iron Knight!"

[Gearfried the Red-Eyes Iron Knight, ATK 1800]

"The effect of the Black Metal Dragon' in my hand! Target 1 Red-Eyes' monster I control; equip this monster from my hand or field to that target. It gains 600 ATK!" Jonouchi said, "I equip Black Metal Dragon' to Gearfried the Red-Eyes Iron Knight!"

[Gearfried the Red-Eyes Iron Knight, ATK 1800 ATK 2400]

"Then there's the effect of the Iron Knight!" Jonouchi continued, "Once per turn, send 1 Equip Card I control that is equipped to this card to the GY, then target 1 Level 7 or lower Red-Eyes' monster in my GY; Special Summon it!

I sent the Black Metal Dragon' to the GY and resurrected the Red-Eyed Black Dragon' in the GY!"

"Muda!" Saio shouted, "Open the set card: Continuous Trap Head Judging!"

Jonouchi: "!"

"Hahaha! Your actions have been predicted by me, and your counterattack is destined to be in vain!" Saio shouted, "The effect of Head Judging!"

When a monster on the field activates its effect: I can make the activating player toss a coin and call it! If the guess is correct, this card is sent to the graveyard. If the guess is wrong, the effect will be negated, and control of the monster must be transferred to the other side! "

"Hey~ is it so disgusting?" Jonouchi gasped.

If I guess wrong, wouldn't it mean that I'm going to die immediately?

Saio laughed: "I will accept your monster!"

"Don't be complacent, I haven't guessed yet."

Looking at the trap card that appeared in the air and began to spin, Jonouchi pondered for a moment and said: "I guess it's Tail, aka the reverse position."

Saio said calmly: "It doesn't matter what you guess, anyway, fate is

Nani!?"

The card stopped in mid-air.

Reverse position.

Chapter 944: You Are Actually Very Unlucky?

"Yeah! Hit again!" Jonouchi snapped his fingers, "The activation of Head Judging' failed, and my monster effect continues to apply!"

Hey, you are boasting so much, but you are actually very unlucky? Hahaha just kidding"

Saio stood there blankly, his expression was wonderful.

It looked like his heart had just been broken.

Why? How can this be?

Once can be said to be a coincidence, and twice can be said to be an accident, but one after another

Saio almost collapsed.

Although being defeated by Yuel Vu made him doubt his life, at least he didn't make any mistakes during the whole process of tossing coins.

The goddess of fate might have disliked him a little at that time, but at least she was still protecting him on the surface.

But now

That goddess directly went to the other side, right? Don't you even cover it up?

At this time, the majestic Red-Eyes Black Dragon had flown back to Jonouchi's field. It raised its head to the sky and let out a long roar, with flames billowing all over its body.

[Red-Eyes Black Dragon, ATK 2400]

Then there is the effect of Black Metal Dragon! Jonouchi said, When this card is sent from the field to the graveyard, I can add 1 Red-Eyes' card from my Deck to my hand.

I added the second Red-Eyes Alternative Black Dragon' from the deck to my hand! "

After pulling out the card retrieved from the deck, he immediately revealed it: "Then the effect of Red-Eyes Alternative Black Dragon'! Tribute 1 Red-Eyes' monster in my hand or field and special summon this card from my hand!

I sacrificed Gearfried the Red-Eyes Iron Knight on the field and Special Summoned the Red-Eyes Alternative Black Dragon! "

The earth cracked open and lava rolled out. The flowing magma gradually fell, revealing the red body wrapped under it, and even the pair of scarlet eyes seemed to have lava rolling.

[Red-Eyes Alternative Black Dragon, ATK 2400]

"Then there is the effect of the Red-Eyes Darkness Metal Dragon'! By banishing 1 face-up Dragon monster I control, Special Summon this card from my hand!" Jonouchi's operation continued, "I banish Red-Eyes Alternative Black Dragon' from the field, and Red Eyes Darkness Metal Dragon' is Special Summoned!"

The Alternative Black Dragon Unit No.2 hurriedly exited the scene before it even touched the ground, and was replaced by a domineering black dragon covered in red lines, its body as red as red blood!

The real eldest brother of Red-Eyes, the dragon king who was the pillar in almost any dragon deck and led the overall situation!

[Red-Eyes Darkness Metal Dragon, ATK 2800]

"Darkness Metal Dragon's effect! Once per turn, special summon 1 Dragon monster from my hand or graveyard!

Come back to the field again, the first Red-Eyes Alternative Black Dragon! "

[Red-Eyes Alternative Black Dragon, ATK 2400]

After a series of actions, Jonouchi assembled an extremely luxurious lineup of Red-Eyes, each of which was a legendary dragon overlord in the world of duel monsters!

At this time, Jonouchi has indeed proved that even without using dice, he was a well-deserved legendary duelist, one of the top strongmen in the world of dueling!

Saio narrowed his eyes.

It's not over yet.

Even these three powerful Red-Eyes had a total output of only 7600. After sucking a lot of blood, his LP has reached a terrifying value of 8600 points.

Although it might hurt, he could still bear it. At this moment, he had even begun to plan how to fight back next.

With more than 8000 LP, can you OTK me?

I, Saio, really don't believe in this evil today

"Lastly, there is this card," Jonouchi smiled mysteriously and maliciously, then raised a card in his hand, "Spell Card Monster Reborn!"

Saio: "!"

"You resurrected my monster before, right?" Jonouchi smiled, "Then as a courtesy, I will also accept your monster!"

Come to my side! Arcana Force XXI The World! ! ! "

Saio: "!!?"

A huge symbol of rebirth appeared, the vortex of the underworld opened, and a huge steel body emerged from the storm, standing tall in front of Saio!

[Arcana Force XXI The World, ATK 3100]

"Damn you moron, how dare you use my monster without permission"

Saio gritted his teeth, but then his expression softened and he sneered: "I don't know how high you think of yourself, but 'The World' is not a force you can control.

When the world is summoned, you must flip a coin to obtain the effect of the upright or reverse position according to its head or tail.

It is impossible for you to control the power of 'The World', and the effect of the reverse position of 'The World' is"

Before he finished speaking, Jonouchi had already stopped the card spinning above "The World".

Upright position.

"No impossible!!!"

Saio went crazy.

"Look, I'm just telling you." Jonouchi chuckled, "Your luck is actually not that good.

Battle! The first is the 'Red-Eyes Black Dragon', attack directly! "

The red-eyed black dragon opened its huge mouth, flames roared, and the dark fire condensed into a burning sphere, piercing the space and exploding in front of Saio's door!

Saio, LP 8600 LP 6200

"Then comes the 'Red-Eyes Alternative Black Dragon'! Direct attack!"

The Alternative Black Dragon flew into the air, flapping its wings to create a vortex with heat waves. The high-temperature flames hit Saio like a ray of light, causing the latter to become even more bruised and swollen.

Saio, LP 6200 LP 3800

"Red-Eyes Darkness Metal Dragon, attack directly!!!"

It was the Darkness Metal Dragon's turn to open its mouth. It was different from the other two compatriots. It was a dragon covered with magic metal, and its attack was naturally more magical. The surging magic power intertwined with the black flames, almost evaporating the opponent's body and violently burning his soul.

Saio raised his head and groaned miserably, and the twisted Light of Destruction was briefly split from his body, struggling in the magical black flames like a drowning man.

Saio, LP 3800 LP 1000

Jonouchi was quite mischievous. He deliberately arranged the "The World" at the end, so that Saio would be killed by his own trump card

With only 1000 LP left, Saio's expression was distorted, his legs were shaking, black smoke was rising all over his body, and his body was shaking like a sieve.

"The final blow," Jonouchi said, "Arcana Force XXI The World, direct attack!"

Seeing his former ace begin to accumulate strength, feeling the overwhelming oppression and dying despair, Saio gritted his teeth and made a final struggle.

"Discard Arcana Force XIV Temperance' from my hand!" Saio shouted, "Reduce the battle damage to 0!!!"

The life-saving artifact Temperance was discarded, and Saio managed to survive this round of attacks. But at this time, his clothes were in a mess, he was sweating profusely, and his expression looked like he had just taken turns fighting with eighteen strong men

"Well, you can withstand my attacks, that's good. But what's next?" Jonouchi smiled, "I activate the effect of Arcana Force XXI The World! I will use the Red-Eyes Black Dragon' and Red-Eyes Alternative Black Dragon' as sacrifices, skip the opponent's next turn!

The World! Time, stop! "

"But before that, I have activated my set card!" Saio shouted at the top of his lungs, "Trap Card Gift of The Mystical Elf! Gain 300 LP for each monster on the field!"

Saio, LP 1000 LP 2200

The Black Dragon and Alternative Black Dragon disappeared as sacrifices, and The World's ability was activated. The field stopped, everything froze, the time flew by, and came to the next turn of Jonouchi.

"Enter the Battle Phase again!"

"At this moment, open the set card: Trap Card Trap of Darkness!" Saio shouted at the top of his lungs, "It can only be activated if my LP is 3000 or less!

Pay 1000 LP, then target 1 Normal Trap in my GY; this card's effect becomes that target's activated effect, then banish that target! "

Saio, LP 2200 LP 1200

"What I want to get is the effect of the Trap Card Threatening Roar! After this card is activated, the opponent cannot declare an attack during this turn!"

The trap flipped over and boundless sound waves were released, shocking the entire field of Jonouchi.

"How is it!?" Saio looked crazy and shouted with heavy breaths, "I said, fate is on my side! No matter what happens in the middle, I will definitely win, because that has been decided long ago"

"Oh, you are indeed very powerful, I almost admire you." Jonouchi smiled, "Then, I activate the effect of Red Eyes Darkness Metal Dragon'.

Once per turn, special summon 1 Dragon monster from my hand or graveyard. "

Saio: "!"

"You won't forget it, will you?" Jonouchi smiled, "Because of the 'The World' effect, it has jumped to the next my turn, so the once-per-turn effect of Red-Eyes Darkness Metal Dragon' has naturally been reset.

So I resurrected the Red-Eyes Black Dragon' in the GY. "

[Red-Eyes Black Dragon, ATK 2400]

Saio's pupils shrank and his mouth opened wide. His hideous face was full of fear, but he couldn't say anything at all.

Waitwait, wait, what are you going to do? Please don't

"The effect of Arcana Force XXI The World' is activated again!" Jonouchi shouted, "I sacrificed the Red-Eyes Darkness Metal Dragon' and Red-Eyes Black Dragon' and activated its effects again

The World! Time, stop! ! ! "

Time and space stagnated, rounds jumped, Saio's round was skipped again, and came to a new turn.

"Arcana Force XXI The World, attack directly!" Jonouchi shouted, "Over uh hey, over what?"

But Saio froze on the spot as if he had been spoiled, and seemed completely unable to answer his question.

"Uh Okay." So Jonouchi simply started to make up his own moves, "Then Jonouchi Impact!"

The blow of the world transcended the static time and space and hit Saio's body without any hindrance.

Saio, LP 1200 LP 0

Chapter 945: How Can Someone Die In A Duel?

"Already done!"

Yuei Vu was squeezing mayonnaise on the sandwich while replying to the message in the chat group.

"What do you mean by already done'?"

"It's the guy you shared in the group last time, the guy named Saio Takuma."

When Jonouchi replied to the message, he also gave him a smile emoji.

Yuei Vu was stunned for a moment and even stopped squeezing the mayonnaise on his hands.

Ha? Did Saio bump into Jonouchi?

Is this the Gamble King Tournament?

Judging from the fact that Jonouchi was chatting in the group as if nothing had happened the situation on Saio's side must not be good, right?

The bubbling of Jonouchi also immediately exposed a large group of divers. While the players admired the boss one after another, they also curiously asked how the duel went.

"I've said it all, it's done." Jonouchi said with a smile covering his mouth, "I have taken action myself, how can there be another result?"

Someone immediately wrote "Big Brother is awesome" below, and then a long list of "Big Brother is awesome" was swiped below, just like a bunch of repeaters.

Yuei Vu could tell that Jonouchi was in this group firstly to tell everyone that he had captured the wanted criminal and there was no need to worry, and secondly because his old habit of being in the limelight came back and he couldn't help but want to show off

Sure enough, Jonouchi quickly and vividly described the entire process of his duel to everyone. No one knew whether he was adding fuel to the fire or not. In short, the whole process was ups and downs and extremely exciting.

When hearing Jonouchi say that he had NTRed the opponent's Spell Card first, and blew up the entire opponent's field with one coin toss; then he NTRed the opponent's monster again, used "The World" to skip turn twice in a row and OTK Saio, everyone flattered him without hesitation.

Although it was flattering, everyone also meant it from the bottom of their hearts.

"God of Gamblers is awesome!"

"I think that guy is tired of living, as he dares to play with coins in front of the God of Gamblers"

Jonouchi made an angry expression.

"Stop calling me God of Gamblers. I haven't used this kind of card for a long time!"

Jonouchi said it was really not his fault this time, it was the other party who took out the coin first!

However, everyone was happier.

"God of Gamblers: You may not believe it, but the opponent made the first move."

"Is this the highest state of the God of Gamblers when you grab the opponent's dice and knock them down? I'm so impressed"

"Dueling the God of Gamblers with a gambling deck, this Saio is also very brave."

""

Seeing that the discussion in the group seemed to be going awry, Yuei Vu stepped forward in time and poked Jonouchi: "So, how is Saio now? Is he still alive?"

"Of course." Jonouchi replied, "How can someone die in a duel?"

These words were like touching the hidden switch of the repeaters again, and a bunch of people repeated below: "How can someone die in a duel?"

"That guy should be in the hospital now. He fainted for some reason after the duel." Jonouchi said. "The doctors said they couldn't find the cause of the coma. Anyway, he wasn't awake when I left."

Yuei Vu fell into thinking.

Saio Takuma, the BOSS of the second arc of "Yu-Gi-Oh! GX", the host possessed by the Light of Destruction

Could it be that he was fucked up by Jonouchi like this?

If that's the case, that's for the best, but Yuei Vu was still very concerned about who was the person who controlled Ghidorah to kidnap Saio last time. If Saio's light personality was really destroyed, there would be no way to ask him personally.

And there was still some doubt as to whether the Light of Destruction inside Saio was finished. It stood to reason that the Light of Destruction was not that easy to destroy, and only the darkness of the universe represented by "Neos" should be able to kill it.

Otherwise, only those who possessed extraordinary power of a high enough level such as the "Osiris the Sky Dragon" summoned by Yuei Vu when he first fought against the Light of Destruction could destroy it.

Although Yuei Vu didn't mean to look down on Jonouchi, he was still a mere mortal in the DM protagonist group, with no divine artifacts and no strong backing spirit. Yuei Vu had no doubt that Jonouchi could win Saio in a card game, but he may not be able to destroy the Light of Destruction.

Anyway, Yuei Vu asked Jonouchi for the address of the hospital and decided to take a quick look at Saio's condition to make sure that the Light of Destruction was really dead.

and pulled out his deck again by the way.

Yeah, that's right, it's completely incidental, that's not the point at all.

Yuei Vu was eating breakfast and socializing with the group. At the same time, Yubel was floating behind him in a ghostly form, folding her arms and humming disdainfully.

"Light of Destruction? Ha, since it is said to be the enemy of Neos, it seems to be nothing more than that, not something to be afraid of."

Yuei Vu rolled his eyes at her.

Who was the one completely broken into the shape of the Light of Destruction in the original work? You are not qualified to say that, right?

As the guardian around Judai, Yubel was clearly supposed to be in an agent of the Darkness of Universe, but in the end, she rebelled gorgeously and directly became the most powerful general in the Light of Destruction camp in the entire anime series (Of course, Judai also had some responsibility in this matter.)

"By the way, does Judai know that you came to my place early in the morning?" Yuei Vu continued to peek at the screen to read the group messages.

"He doesn't need to know." Yubel crossed his arms. "I'm helping him follow the latest news. He must know the enemy's movements."

"Or maybe he has a new friend recently, so you have fallen out of favor?"

Yuei Vu said this half-jokingly, but Yubel immediately exploded on the spot.

"Nonsense!" she said angrily, looking like a cat whose tail had been stepped on, "Judai will not ignore me! He is just busy for the time being"

As she spoke, her voice couldn't help but become softer.

Thinking about it carefully, after the arrival of Neos and the annoying Neo-Spacians these days, Judai seemed to have spent a lot of time with them, listening to them tell all kinds of anecdotes about the universe. He didn't talk to her much anymore.

Thinking of this, she couldn't help but get angrier and hummed: "I can tell those Neo-Spacians are not good people at first glance."

"Oh?" Yuei Vu smiled, "How do you know?"

"The monster effect can reflect the spirit themselves!

Like that water-colored dolphin who always aimed at the opponent's hand, or the mole who liked to forcefully kick other monsters back. This kind of nether thing does not look like serious heroes at first glance!"

"Then based on this analysis, your monster effect is to get beaten. Doesn't it mean that you are a masochist?" Yuei Vu glanced at her.

Yubel didn't say anything, but she put her hands on her hips and puffed out her chest, as if to say, "That's who I am."

She even looked a little proud.

Yuei Vu: ""

Just after finishing breakfast, and before he had time to digest it, Yuei Vu received news from Mokuba.

"Brother Yuei Vu, there's a big problem!"

"What?"

"It's the Quantum Cube! The Quantum Cube stored in the company headquarters is missing!"

Chapter 946: Meeting of The Century

Quantum Cube?

Yuei Vu frowned.

The Quantum Cube was the key prop of the "Dimension Shuttle" device developed by Kaiba Corp, which was the system that allowed the president to go to the underworld to play cards with Atem. It was also the basis for further improvement of the Duel Link system under development.

According to President Kaiba's vision, the Duel Link system was still in the testing stage. After the design was completed, it should be able to bring the strongest duelists from different times and spaces and different timelines together to play cards.

In this way, the president could not only go to the time and space of the underworld to play cards with his old friends, but also duel with strong duelists from ancient times, future duelists, and even strong men from other times and spaces, which could satisfy his growing addiction to cards to the maximum extent.

But now the "Quantum Cube" that was the key to all this has been stolen?!

President Kaiba was very angry and immediately mobilized all the power of the company to conduct a search.

And the results came out quickly. Within half a day, they found a certain director within the company and immediately took him under control for interrogation.

The agents of Kaiba Corp had conclusive evidence to prove that it was the director who took the cube, but the problem was that the person involved seemed not to remember anything. He swore that he had not come to the company at all last night because he had been studying foreign languages in the villa all night.

This performance naturally reminded Yuei Vu of the Light of Destruction.

In the original work, the students hypnotized by the Light of Destruction, including Manjoume and Asuka, seemed to have no memory of what happened while they were controlled after being defeated by Judai and returned to normal.

According to Jonouchi's words, the location where he met Saio Takuma seemed to be not far from the Kaiba Corp headquarters. Maybe the director was controlled by Saio and took away the Quantum Cube?

But why?

What does the Light of Destruction need the Quantum Cube for? They're all not the same painting style, right?

Originally, Saio might be able to answer this question, but unfortunately, he was bedridden and unconscious in the hospital after the battle with Jonouchi, and he didn't seem to be able to answer the question now.

But as it happened, Yuei Vu was waiting for some special guests at the moment.

Some of them might be able to help.

The passenger ship docked at the dock of Duel Academy Island at ten o'clock.

Marik Ishdar stepped onto the dock, dragging his suitcase in his hand, with the surging sea water on his back, and looking at the towering teaching building not far away, he couldn't help but feel a surge of emotion.

That person is waiting for me right here!

Marik subconsciously tightened his grip on the suitcase handle in his hand, and his eyes turned fiery as he looked at the building.

"We haven't seen him for so long. Mr. Yuei Vu should be different now."

The speaker was Ishizu Isiltar, Marik's sister.

This sister was still wearing a loose white robe with local characteristics of her clan and golden jewelry. But even though it was so loose, the curve was still very obvious.

There was no way, her size was even more extreme than in the Battle City in the past.

"That's natural." Marik said, "Mr. Yuei Vu is unparalleled, and there are few duelists as talented as him in the world. In addition, he has a wide variety of cards, and his collection should be more comprehensive after not seeing him in these years. , the construction of the deck must also be more complicated, and it is definitely not something that ordinary people can compare with."

At this point, Mr. Ma's eyes actually twinkled, and his tone was respectful and reverent as if he was describing a highly respected and capable senior.

As he spoke, he even felt a little proud: "And I also have a large part of the credit for it. I don't mean to brag, but at least 50% no, at least 60% of Mr. Yuei Vu's card library is collected from me back then!"

Ishizu: ""

She remembered when Marik set up Ghouls to cause trouble, but the thugs sent to attack Yuei Vu not only failed one after another but also lost the deck and the Duel Disk.

Marik decided to take action himself, but he was also defeated. Later, Yuei Vu simply destroyed the entire Ghouls in one go, and took all the cards in their storage, whether real or copied.

As a result, many years later, Marik mentioned this matter not only without any resentment but even beaming as if it was an achievement worth bragging about.

Ishizu was about to speak but hesitated, and finally, she thought for a while and remained silent.

Forget it, as long as my brother is happy.

Besides, they now had a pretty good relationship with the Duel King, and Yuei Vu could be regarded as their benefactor. As the saying goes, it's easy to enjoy the shade under a big tree. The stronger Yuei Vu became, the more cover they could get.

"I don't understand, so what's so good about the Duel King?"

When Marik heard this, he immediately turned his head instinctively and frowned, like a cat who smelled a mouse.

Um? Did I just hear someone being disrespectful to the Duel King?

This is unacceptable. I must re-educate that guy well.

He took a closer look and found that the person speaking was a dark-skinned young man with blue hair. His hairstyle looked like he was good at playing cards.

Next to him was a slim and cute girl, her skin was also dark, and a little short, but her curvy appearance was very cute.

"Brother, Mr. Yuei Vu is kind to us." The girl's voice was very soft and thin, but her smart eyes were full of seriousness.

The young man muttered something vaguely. Marik couldn't hear clearly what he said, but he obviously had different opinions.

He pulled out my deck, hacked my artifact, and was so awesome that he almost kidnapped my sister!

"Kind to us" my ass!

Yes, these two were Aigami and Sera who gave up their ascension and voluntarily stayed in this dimension.

Sera may be short due to genetic reasons, but she has grown a lot over the years. Although she was not tall, her body proportions were good, so visually she gave the illusion of long legs.

But the more this happened, the less Aigami wanted to take his sister with him.

This Duel King Yuei Vu is not only good at playing cards, but more importantly, he is also extremely handsome!

Who can withstand this?

From Aigami's point of view, taking his sister with him was like leading a little sheep for a walk in front of a vicious hungry wolf!

If possible, he wouldn't even bring a Duel Disk or deck!

But there was nothing he could do about it. For some reason, his sister felt that this person was a senior hero who deserved admiration. And he, as the older brother, had no right to speak and could not defeat his sister, so he had no choice but to obey.

Marik stared at the brother and sister for a while and quickly recognized them: "Are you Aigami?"

When he heard someone calling him, Aigami couldn't help but stop and look at Marik for a moment.

Soon he also recognized this legendary boss.

"Marik Ishtar?"

Meeting of the Century. JPG.

Chapter 947: Two Main Matters

Yuei Vu was a little surprised when the Aigami siblings and the Ishtar siblings came in together.

"Hey, it's quite a coincidence that you guys arrived together."

Marik took the lead and said, "Mr. Yuei Vu, long time no see."

"It's been a long time indeedyo, you've grown up a lot."

Marik smiled: "People always have to grow up. After all, we have always been taken care of by Mr. Yuei Vu"

After saying that, he suddenly had a strange question.

Wait a moment, Mr. Yuei Vu said who has grown up a lot?

Are you talking about me or my sister?

Mr. Ma was surprised to find that this question was a bit difficult to answer.

Sera came up next: "Mr. Yuei Vu."

"Sera? Oh, you are really a lot taller." Yuei Vu looked her over.

Indeed, although she was still very petite compared to others, at least Sera had grown a lot compared to herself back then. In Yuei Vu's impression, Sera was still a little lolita, but now she could be considered a slim woman.

It's just that her development seemed to be limited to the vertical direction, but no horizontal waves. Especially when compared with the big-hearted sister Ishizu standing side by side, the gap became even more obvious.

Yuei Vu then glanced at the last person present. Aigami seemed to be trying to reduce his presence since he entered the door. Now seeing that he couldn't hide anymore, he stepped forward and said, "Well Mr. Yuei Vu, my deck is still the same Cubic as before, there is nothing new"

Yuei Vu couldn't laugh or cry.

Good guy, do you think I came all the way to ask you to send me a deck?

Am I so boring?

Besides, who doesn't know that your Cubic is so limited? I don't want to be given this kind of thing whose ornamental value is greater than its practical value

"By the way, although there are no new Cubic monsters, there are still some other cards." Sera took out a few cards from nowhere and handed them to Yuei Vu, "You can see if you are interested."

Aigami: "!"

Good guy, my sister secretly prepared a gift for him!

Why don't I, the older brother, know this?

Before Yuei Vu could say anything, Marik also took action: "By the way, Mr. Yuei Vu, I told you before that there are some new cards that you might be interested in, and I brought them all today."

He also took out a few cards and handed them to Yuei Vu.

Aigami was even more shocked.

Wait, what's going on with Mr. Ma? I heard that he was beaten to a pulp by Mr. Yuei Vu that his God cards were robbed and the organization he found was destroyed. Shouldn't they hate each other?

Is it possible that after his deck was taken away, this person has developed some kind of strange dependence on Duel King?

Sister Ishizu seemed to see that the opportunity was almost there. She raised her hand and took out a golden pendant from somewhere under the loose robe.

"I have been studying alchemy for a while in my spare time these past few years. I have gained some experience. My technique should be much more advanced than before." Ishizu said, "This is the spiritual weapon I have recently refined by myself. I hope it can be useful to Mr. Yuei Vu."

Aigami: ""

Good guy, after all this time, it turns out Im the only one here empty-handed?

"Ahem, you misunderstood. I didn't call you here this time for this kind of thing."

Yuei Vu coughed, accepted everyone's gifts, and stuffed them into the desk drawer while explaining.

"I have two main matters today."

He thought for a while, working out the order of the narrative, and then turned his eyes to Aigami. The latter sensed his gaze, his eyelids twitched, and he subconsciously took half a step back.

"The first is the Quantum Cube"

"No more!" Aigami quickly interrupted, "The Quantum Cube is a unique artifact left to us by Lord Shadi, and it exists for the purpose of achieving a dimensional leap'.

It cannot be reproduced and there is only this one. It has been given to you. We really dont have it anymore! "

Yuei Vu: ""

Why do you sound like a kid who is scared?

"I know there is only one." Yuei Vu said helplessly, "I mean, the Quantum Cube' has been kept in the hands of Kaiba Corp and is the key to the development of the Duel Link' system.

But recently it was stolen. "

"Ah?"

Aigami and Sera showed surprised expressions at the same time.

"Stolen?" Sierra asked, "By whom?"

"A certain high-level executive of Kaiba Corp, but it's obvious that he was just being manipulated." Yuei Vu said, "The real mastermind is still under investigation, and Cube's location is also unknown."

After a pause, he glanced at the two of them: "But when it comes to the Quantum Cube, there should be no one in the world who is more familiar with it than you. So I thought, maybe you can help?"

Aigami and Sera looked at each other.

"Well although we no longer have the power of Prana, we still have a relatively thorough understanding of the operation of the Quantum Cube." Sera thought for a while, "If we use the technological equipment of the Kaiba Corp, as long as whoever stole the cube used its abilities, we should at least have a way to locate it.

She nodded and said, "Diva and I are happy to help."

Aigami: Wait a minute, why dont I remember I expressed my opinion

"That's great." Yuei Vu said, "I'm planning to go to the Kaiba Corp later, so you can come with me."

Aigami tried to resist for the last time: "I can do this kind of thing, but Sera doesn't have to"

"No, this is of great importance. If someone wants to abuse the power of the Quantum Cube, then it is also my responsibility to stop him." Sera's attitude was very firm.

Aigami: ""

Mr. Ma glanced at Aigami, and somehow seemed to understand this man's mentality.

To be honest, when Yuei Vu and his sister were locked in the room all day long, learning alchemy from morning to night, Marik's mentality was actually a bit similar to Aigami's now.

But then Mr. Ma had already thought about it.

After careful reflection, he discovered that it was actually all his own random thoughts, and he was making up some random things in his head all day long.

Mr. Yuei Vu is a gentleman!

After all, if you see how superb his card skills are, you will know that he definitely doesn't have a woman in his heart. There is no need for you to have such unnecessary worries (cross out)

To be honest, now Marik was starting to worry about his sister. After so many years, his sister has become more and more beautiful, but she has never found a partner, which made him, her younger brother, very worried.

Sometimes he even felt that if Mr. Yuei Vu had done something else when he was locked in the room with his sister besides learning alchemy, then he wouldn't be so anxious now

After the matter was finalized, Yuei Vu immediately continued: "The next thing is"

At this point, he paused for a moment, then took out a silver-white round badge from under the desk and threw it on the table. The word "GX" was engraved on the badge.

Marik picked up the badge and asked curiously: "This is?"

"Tickets for the GX' competition." Yuei Vu crossed his fingers and rested his chin, "I need you to participate in this competition duel with my students."

Chapter 948: The Ancestor Of Nether Players

"With Mr. Yuei Vu's with your student?" Marik was a little dazed.

He was confused.

If you ask me to participate in this kind of competition, doesn't it mean that you don't want your student to be the champion?

I may not be worth a penny in front of you, but I'm still a serious legendary duelist! The serious kind, unlike some stinky fish and shrimps who just boasted about being killed instantly by Muto Yugi!

Mr. Yuei Vu doesn't think I can't win against a group of students who haven't graduated yet, right?

Seemingly sensing Marik's thoughts, Yuei Vu smiled: "Don't be too confident, my students are not that easy to deal with. If you are not careful, you may also lose."

Marik was clearly unimpressed.

"Mr. Yuei Vu, we haven't seen each other for a long time, and you may not know much about my current strength." Marik mentioned the Duel Disk, "It's better to do this.

I am happy to help you, Mr. Yuei Vu, compete in this game, but there is a condition. I want to fight you again first. "

Without waiting for Yuei Vu to reply, he smiled again: "To be honest, I actually came here with the intention of discussing with you. My deck is completely different from what it was back then, and I guarantee that there are some in it that will impress you too.

If you win, Mr. Yuei Vu, I have prepared a complete set of copies of this deck and treat it as a trophy. How about it? "

Next to him, Aigami was simply stunned.

Damn it, have you evolved from being forcefully pulled out to being given away for free? Are you so skilled in losing your deck?

Yuei Vu also raised his eyebrows.

Good guy, so confident?

"Okay." Yuei Vu stood up, "Just let me give it a try how much better is the current you compared to you back then."

"Duel!" x2

Yuei Vu, LP 4000

Marik, LP 4000

"I'll go first, Mr. Yuei Vu!" Marik said, "Draw!"

Marik said that he switched to a new deck and that he has completely changed compared to his past self. Of course, this didn't seem to prove anything.

After all, Mr. Ma's record back then was even worse than that of his six-year-old personality, and he never won a serious card game in the entire DM.

But since Mr. Ma vowed that his new card would definitely be of interest to Yuei Vu, then Yuei Vu was still looking forward to it.

"Summon the Gravekeeper's Spiritualist'!"

The first person to appear was a black-robed psychic lady, wearing a navel-baring robe, with a smooth and flat lower abdomen, and half of her face was covered by a jackal-shaped mask.

[Gravekeeper's Spiritualist, ATK 1500]

"Activate the Field Spell Necrovalley'!"

The landscape changed, and towering valleys rose from the ground, blocking the scorching sun hanging in mid-air. The sun shone through the only crack, and the entire valley was cold and desolate, filled with the breath of death.

Appeared, the valley of the underworld.

The effect of this field was very simple and crude, basically a "graveyard blockade". It could cut off the passage between the underworld and the underworld, and invalidate most of the effects involving the GY.

"The effect of Gravekeeper's Spiritualist!" Marik continued, "If there is a Necrovalley' on the field, I can Fusion Summon 1 Spellcaster Fusion Monster from my Extra Deck, using this card and other monsters from my hand or field as Fusion Material!

I fuse the Gravekeeper's Spiritualist' on the field and the Gravekeeper's Commandant' in my hand! "

The two tomb-guarding warriors turned into beams of light and disappeared between the valleys, and a whirlwind of magic erupted in the valley.

"The fusion condition is 2 Gravekeeper' monsters! Fusion Summon!

The guardian of the resting place, the messenger of supernatural powers

Gravekeeper's Supernaturalist! ! ! "

A figure appeared in the center of the magic storm. The golden staff tore open the light curtain, and the dark-skinned guardian walked out of the whirlwind with light but steady steps. He holds a staff, has striking white hair, and has clear and sharp eyes.

[Gravekeeper's Supernaturalist, ATK 2000]

It was also the monster used by Ishizu back then, and was exclusive to the Gravekeeper family. So far, there was nothing surprising.

However, it was worth mentioning that this monster looked somewhat similar to Mr. Ma himself. Watching Mr. Ma summon this monster felt a bit cliché

"The effect of Supernaturalist he will gain ATK/DEF equal to the combined original Levels of the materials used for his Fusion Summon x 100." Marik said, "Both Gravekeeper's Spiritualist' and Gravekeeper's Commandant' that I used as fusion materials are Level 4, so the total level is eight.

Therefore, the attack power of Supernaturalist increases by 800! "

[Gravekeeper's Supernaturalist, ATK 2000 ATK 2800]

"The effect of Gravekeeper's Supernaturalist' is activated! Divination of the Tomb Keeper!"

The Supernaturalist lifted up the golden staff and touched its end lightly on the ground, and the golden and transparent energy fluctuations spread out like waves.

"This effect of Gravekeeper's Supernaturalist can only be activated during the Main Phase." Marik explained, "After activation, at the end of this turn, add 1 Gravekeeper' monster or 1 Necrovalley' card from my Deck to my hand."

He waved his hand, and three more set cards appeared at his feet.

"Set three cards, I end my turn.

Then at this moment, Supernaturalist's effect was activated! I take this card from the deck"

He pulled out the card that popped up in the deck and displayed it briefly.

"I add the Continuous Spell Hidden Temples of Necrovalley' to the hand!"

Yuei Vu frowned slightly.

Now he knew why Marik was so sure that he would be interested in his new card.

This was the ultimate autism!

Hidden Temples of Necrovalley could only be activated if both a Gravekeeper' monster and Necrovalley' were on the field.

The activation conditions of double restrictions were naturally accompanied by very abnormal effects. As long as this card remains on the field, both players could not Special Summon any monsters except "Gravekeeper" monsters.

Special Summon blockade was also another famous type of effect in Yu-Gi-Oh's anti-meta history. This type was headed by the Continuous Trap "Vanity's Emptiness", and was as famous as the originator of autism "Macro Cosmos". It has always been something that countless players were afraid of rather than winning the game, it was more about "driving the opponent crazy".

Necrovalley had its own GY blockade, which was enough to drive most meta players crazy. Adding another restriction of Special Summon blockade

Thinking of this, even Yuei Vu couldn't help but look serious.

Mr. Ma was worthy of being the ancestor of nether players. His autism could even keep pace with the times.

Compared with this kind of total blockade of autism, the nether deck full of red traps that the six-year-old had back then was simply child's play.

It seems that Mr. Ma is determined to stick to the nether route and prepare to reach the top in this field?

Chapter 949: A Family Bucket of Autism

"My turn, draw." Yuei Vu said.

Although it was already known that Marik had the "Hidden Temples of Necrovalley" on his hand, this card was retrieved at the End Phase through the effect of "Gravekeeper's Supernaturalist", which meant that Marik would not be able to use this card until the next turn at the earliest.

Therefore, Yuei Vu must seize the opportunity in this turn before the blockade was formed.

"First I activate a Spell Card Graceful Charity'. Draw 3 cards, then discard 2 cards." Yuei Vu said, "Then I activate the Spell Card Akashic Record'. Draw 2 cards and reveal them. If any of those cards have been played during the Duel, remove that card from play." (Animation Card)

"Then I summon the Elemental HERO Stratos' in attack position!"

A milky white whirlwind and blue armor fit on the hero's slender body, and the turbines of the metal wings flew, making it hang in the air.

[Elemental HERO Stratos, ATK 1800]

"The effect of Stratos!" Yuei Vu said, "When this card is Normal or Special Summoned, add 1 HERO' monster from my Deck to my hand. I added Vision HERO Faris' from the deck to my hand."

The card popped up automatically, and the deck started to shuffle automatically the moment it was drawn out.

Next was the operation engraved in DNA.

"Discard a HERO' monster in my hand, and Special Summon Vision HERO Faris'!"

[Vision HERO Faris, ATK 1600]

"The effect of Faris If this card is Normal or Special Summoned: I can place 1 Vision HERO' monster from my Deck, except Vision HERO Faris', in my Spell & Trap Zone as a face-up Continuous Trap." Another card popped up from Yuei Vu's deck, "I placed the Vision HERO Increase'!"

"Then there is the effect of Increase! By using the Dushan Man as a sacrifice, special summoning himself from the Spell & Trap Zone!"

[Vision HERO Increase, ATK 900]

"When the Increase is successfully Special Summoned from the Spell & Trap Zone, he will special summon Vision HERO Vyon' from the deck!"

[Vision HERO Vyon, ATK 1000]

"The effect of Vyon If this card is Normal or Special Summoned: I can send 1 HERO' monster from my Deck to the GY." Yuei Vu showed a pop-up card and quickly threw it into the graveyard after showing it. "I sent the Elemental HERO Shadow Mist' to the graveyard!"

As soon as they entered the GY area, the Shadow Mist girl immediately popped up again.

"The effect of Shadow Mist in the graveyard! If this card is sent to the GY: I can add 1 HERO' monster from my Deck to my hand."

A new card was drawn from the deck, and at that moment a bloody wind seemed to blow up in the field.

"I add Destiny HERO Plasma' to my hand!"

Marik narrowed his eyes.

Is it actually Destiny HERO Plasma?

Gravekeeper's Supernaturalist was the guardian of the eternal resting place. Yuei Vu clearly knew that as long as there was "Necrovalley" on the field, Gravekeeper's Supernaturalist and any card in its controller's Field Zone would not be destroyed.

While he was guarding this quiet valley, the valley of everlasting sleep also provided him with resistance.

But this kind of resistance was useless in front of the invincible Plasma.

Originally, at the end of this process, Vyon's effect should be activated to retrieve the "Polymerization" Spell Card from the deck by banishing 1 HERO' monster in the graveyard, but this was not possible because there was "Necrovalley" on the field.

So Yuei Vu directly raised the card known as "Ultimate D".

Take the Elemental HERO Stratos, Vision HERO Increase, Vision HERO Vyon on the field as sacrifices!

The power of destruction brings about the end of the fate of all things, and turns into the ultimate hero

Destiny HERO Plasma! ! ! "

The three heroes disappeared one after another, disintegrating into light particles that filled the sky.

The sky was dim, and the dome seemed to be covered with a bloody filter, making even the sunlight look ferocious and distorted.

A blood-red puddle appeared on the ground, and a pair of bone wings dripping with blood stretched out from the mud. A body slowly rose up, dragging a large amount of blood, like a demon crawling out of a deep hell.

[Destiny HERO Plasma, ATK 1900]

"When Plasma is on the field, the effects of all monsters on the opponent's field are negated!"

Plasma roared and spread his wings. The blood-red energy loomed over the superpower, cutting off his connection with the resting place.

[Gravekeeper's Supernaturalist, ATK 3300 ATK 2500]

"Have the effects of Supernaturalist been taken away?" Marik murmured to himself.

"Destiny HERO Plasma's follow-up effect!" Yuei Vu said, "Once per turn, I can select 1 monster on the opponent's side of the field and equip it to this card, then Plasma's attack power will increase by half of the equipped monster's attack power!"

Plasma roared angrily, and the tentacles on the unfolded bone wings pierced, and entangled the hands and feet of the Supernaturalist respectively!

"I have been waiting for this moment!" Marik waved his hand, "Open the set card: Counter Trap Imperial Tombs of Necrovalley!"

Yuei Vu frowned.

Good guy, you actually had such a disharmonious thing?

Imperial Tombs of Necrovalley can only be activated while both a Gravekeeper' monster and Necrovalley' are on the field!

Negate the activation of a Spell/Trap Card, or monster effect, and destroy it! "

Malick pointed at the snarling antihero in front of him.

"I negate the effect of Destiny HERO Plasma' and destroy it!"

The quiet valley seemed to suddenly wake up, and surging magic power surged in! Plasma's tentacles were shattered, and the powerful magic power backfired on him, instantly exploding him into pieces!

"Did you see that, Mr. Yuei Vu?" Marik said proudly, "Compared with the past, I am completely different now!"

Is it because your level of autism has reached a new height? Yuei Vu cursed.

What did Mr. Ma play in the past? Nightmare Wheel, Revival Slime, Malevolent Catastrophe, etc all seemed to be ordinary traps with average performance.

Compared with Mr. Ma's current family bucket of autism such as blockades and negations, there was no comparison at all. (1)

Although it was only one round of confrontation, Yuei Vu's purpose of testing the depths had actually been achieved.

He was now convinced that Mr. Ma was definitely qualified for the job of "educating students" in the GX competition.

I just hope that the students taught by him will not give up their enthusiasm for dueling because of this.

"Then I discard a card in my hand and special summon The Tricky'."

There was a ripple of magic power, the white cloak fluttered, and the magician with eye-catching question marks on his face and chest fell gracefully.

[The Tricky, ATK 2000]

"The card I just discarded was Skull-Mark Ladybug'. When this card is sent to the Graveyard, increase my Life Points by 1000 points."

Yuei Vu, LP 4000 LP 5000

"The attack power is 2000?" Marik said, "But the attack power of Gravekeeper' monsters will be increased by 500 points under the effect of the Necrovalley'. Even if you want to cause a mutual kill, they can't do it."

Although Plasma has fallen, his ability to suppress monster effects has reset the ATK of "Gravekeeper's Supernaturalist" back to 2000, and it's increased to 2500 through field amplification.

However, Yuei Vu did not launch an attack, but waved his arm instead: "Then I used the Spellcaster-Type The Tricky' as a sacrifice!

The silent mage who harnesses the spell of light

Silent Magician, summon! "

Chapter 950: The Forbidden Place of Eternal Rest

The white and transparent magic array bloomed as a bud, and holy white light overflowed. The white-robed mage stepped out lightly, and her smooth and slender white legs were looming under the flying robe.

[Silent Magician, ATK 1000]

"Silent Magician gains 500 ATK for each card in my hand." Yuei Vu said, "I have two cards in my hand, so her attack power will increase by 1000 points."

[Silent Magician, ATK 1000 ATK 2000]

"The attack power still hasn't changed." Marik murmured, "What's the point of doing this?"

Before he could think clearly, he saw Yuei Vu wave his arm: "Battle! Silent Magician' attacks the Gravekeeper's Supernaturalist'!"

The Silent Magician raised her little hand, holding the white staff tightly in his snow-white gloves, and the magic power condensed into a vortex and shot out along with the staff!

"Supernaturalist, fight back!" Marik was not to be outdone.

But of course, Yuei Vu didn't just let the Silent Magician go up and die. He quickly showed a card in his hand: "Quick-Play Spell Silent Burning'!"

Marik was shocked: "The Spell Card with the same name as the Silent Magician's attack now it is terrible."

"During the Battle Phase, if I control a Silent Magician' monster, each player draws until they have 6 cards in their hand!" Yuei Vu said, "And this card's activation and effect cannot be negated!"

The words "DRAW" popped up in the Duel Disks of both sides at the same time, and several cards popped up automatically one after another and were drawn into the hands of their respective owners.

"At this moment, the Silent Magician's attack power increases." Yuei Vu said, "Because the number of cards in my hand has reached six, the Silent Magician's attack power increases by 3,000!"

[Silent Magician, ATK 1000 ATK 4000]

"Did her attack power reach 4,000 at once?" Marik was surprised.

The torrent of magic power surged, and the white vortex defeated the tombkeeper's incantation like a torrent and hit the tombkeeper's body hard.

Marik, LP 4000 LP 2500

It was still quite painful, and the magic explosion blow instantly cut off more than half of Marik's LP. The impact of the projection of the magic vortex made his whole body tremble, causing pain.

But somehow, he still looked a little excited?!

It felt like all the combative cells in the body were activated by this blow, instantly entering a state of excitement and preparation for battle.

Yes, this is the feeling I want!

As expected of Mr. Yuei Vu, he hit his mark right away and aroused my fighting spirit which had been dormant for many years!

"Open the set card: Trap Card Rite of Spirit!" Marik shouted, "Special Summon 1 Gravekeeper' in my graveyard!"

And the activation of this card is not affected by the Field Spell Necrovalley'! "

The spirit-calling ceremony was started, and the tombkeeper who had just left the scene quietly walked out of the valley where he had been sleeping for a long time.

[Gravekeeper's Supernaturalist, ATK 2000 ATK 2500]

"Set a card, I end my turn." Yuei Vu said, "Of course, as the number of cards in the hand decreases, the Silent Magician's attack power will also decrease."

[Silent Magician, ATK 4000 ATK 3500]

"Then it's my turn, draw!"

He first activated another trap that was covered last time: "Trap Card Reckless Greed"! Draw 2 cards and skip the next 2 Draw Phases!"

After replenishing the cards in his hand, Marik directly revealed the anti-social card that he had retrieved in the last round without any hesitation.

"The Continuous Spell Hidden Temples of Necrovalley' is activated!" Marik shouted, "This card can only be activated if both a Gravekeeper' monster and Necrovalley' are on my field!"

As long as this card exists, players on both sides cannot special summon monsters other than "Gravekeeper" monsters! "

The magic took effect, and the landscape of the sleeping valley changed again. A certain group of buildings rumbled up in the corner where the sun didn't shine, rising out of the ground bit by bit.

"Then at this moment, I activate the effect of Silent Magician'!" Yuei Vu waved, "Once per round, Silent Magician can negate the activation of a Spell Card!"

The activation of Hidden Temples of Necrovalley' was negated! "

Marik: "!"

He saw the Silent Mage's delicate wrist flipping, and some powerful magical power was released. The building that was rising from the ground was immediately suppressed, and soon collapsed and sank back into the valley.

"I see, when you summoned the Silent Magician, you were already on guard against the Hidden Temples of Necrovalley." Ishizu said softly, "As expected of Mr. Yuei Vu, he is as impeccable as ever."

But Marik hasn't stopped yet: "Then I activate the Spell Card Graceful Charity', draw three cards from the deck, and then discard two cards.

There is the Spell Card Card of Compensation' among the cards I discarded. When this card is sent from my hand to the Graveyard, two more cards will be drawn! "

After replenishing a large number of cards in one breath and getting a new hand of cards, Marik's eyes lit up as if he saw a turning point.

"I normal summon Gravekeeper's Heretic'."

The white-haired tombkeeper stepped onto the field, wearing a black robe and holding a golden staff. His appearance was quite similar to that of the "Gravekeeper's Supernaturalist" beside him.

[Gravekeeper's Heretic, ATK 1800]

"Activate the Spell Card Necrovalley Throne! I can activate one of two effects:

I can add 1 Gravekeeper' monster from my deck to my hand, or I can Normal Summon 1 Gravekeeper' monster from my hand! "

Marik showed another card in his hand: "Although this Gravekeeper's Oracle' is a Level 10 monster, this card can also be Tribute Summoned by Tributing 1 Gravekeeper' monster!

I sacrificed the Gravekeeper's Heretic on the field! Tribute Summon!

The Gravekeeper's Oracle is here! "

The heretic turned into scattered points of light and disappeared from the field, and a stone throne appeared out of thin air in the valley. A luxuriously dressed tombkeeper sat on a stone seat with his legs crossed, holding a long Egyptian-style cane, and his eyes were cold and majestic.

[Gravekeeper's Oracle, ATK 2000]

"When the Gravekeeper's Oracle is Tribute Summoned, it will obtain different effects based on the number of Gravekeeper' monsters Tributed for its Summon." Marik said, "I used 1 Gravekeeper' monster as a sacrifice, so I can choose one of the three effects to activate:

This card gains ATK equal to the combined Levels that all monsters Tributed for its Tribute Summon had on the field x 100;

All face-down monsters on the opponent's field are destroyed;

Or all monsters the opponent currently controls lose 2000 ATK/DEF! "

The tombkeeper's staff on the throne fell hard, and golden transparent ripples swept over, quickly penetrating through the Silent Magician.

The Silent Magician bit her bloodless lips, and her long white robe kept rising and falling in the fluctuation of magic power, revealing two slender and shapely white legs.

"I chose the third effect. The ATK and DEF of all your monsters are reduced by 2000!" Marik shouted.

[Silent Magician, ATK 3500 ATK 1500]

"Then Gravekeeper's Oracle will also gain 500 ATK under the effect of the Necrovalley'!"

[Gravekeeper's Oracle, ATK 2000 ATK 2500]

"Then I'm going to activate this card again." Marik smiled mysteriously, "It seems like I'm lucky, Mr. Yuei Vu. Even by drawing cards, I drew this card again.

The Continuous Spell Hidden Temples of Necrovalley' is activated! "

After he showed it, he immediately inserted it into the Duel Disk.

The second copy of Hidden Temples of Necrovalley!

Of course, considering that he replenished so many cards in one go, it didn't seem surprising that he drew it.

The landscape changed, and stone palaces rose from the ground. The quaint palace was nestled in the shadow of the valley, with giant-like sculptures on the left and right.

"As long as the Hidden Temples of Necrovalley exist on the field, players on both sides cannot perform special summons other than Gravekeeper' monsters." Marik smiled, "That's it, Mr. Yuei Vu!

The absolute blockade of Necrovalley! "
