

## I Play Yu-Gi 951

Chapter 951: Necrovalley

"The absolute blockade of Necrovalley." Yuei Vu nodded slightly, "It is indeed a bit tricky to set up the formation, and you have indeed made a lot of progress."

Marik couldn't help but feel a little carried away after receiving the affirmation, but of course he didn't forget about business because of it.

"I activate the effect of Gravekeeper's Supernaturalist' again! Divination of the Tomb Keeper!"

The Supernaturalist's staff tapped the ground gently, and the golden magic wave spread, as if it dissipated somewhere in the future.

"This effect can only be activated during the Main Phase. At the end of this turn, add 1 Gravekeeper' monster or 1 Necrovalley' card from my Deck to my hand."

After preparations were completed, Marik shouted: "Then it's the Battle Phase! First, the Gravekeeper's Supernaturalist' will attack the Silent Magician!"

The Supernaturalist closed his eyes and recited a spell. Densely packed golden spells climbed up his arm and onto the golden staff, hitting the silent mage like a spear piercing the air.

The white-robed mage groaned, and her body shattered like broken glass. The staff in her hand was thrown into the air and turned into golden powder and dissipated.

[Yuei Vu, LP 5000 LP 4000]

After the Silent Magician exited, a crystal-clear magic circle was left on the ground. The magic circle rotated slowly, but the flow of magic power was quickly blocked by some invisible restriction in the field. In the end, it had no choice but to stop rotating and the whole thing exploded into crystal fragments all over the sky.

"When the Silent Magician' is destroyed, a Silent Magician' monster can be Special Summoned from the hand or deck regardless of its Summoning conditions." Isis explained, "But because of the Hidden Temples of Necrovalley,' monsters other than the Gravekeeper cannot be Special Summoned."

"What a terrible formation." Aigami, who was watching nearby, murmured.

"Yes." Sera also agreed, "If my brother faces that person, he shouldn't have any chance of winning."

Aigami's face suddenly fell. But just as he was about to retort, when he thought about it, he felt that it was indeed like his sister said.

Cant monsters other than the Gravekeeper be Special Summoned?

Then his entire Cubic deck is stuck in the hand

"Then Gravekeeper's Oracle', attack directly!"

The burly figure sitting on the throne stood up, and the energy of the spell was like a bombardment from across the air! The golden light submerged Yuei Vu's entire silhouette, and the hem of his clothes undulated under the light.

[Yuei Vu, LP 4000 LP 1500]

The light curtain dissipated, and looking at Yuei Vu's tall figure standing in it, Marik couldn't help but smile: "For Mr. Yuei Vu, an attack of this level is not affected at all."

As expected of Mr. Yuei Vu, he looks so handsome even when he is being beaten!

"Set three cards, I end my turn." Marik said, "And at the End Phase, the effect of Gravekeeper's Supernaturalist' also takes effect!"

I added the second card "Hidden Temples of Necrovalley" from the deck to my hand. "

"The second Hidden Temple is it to prevent me from removing the first one?" Yuei Vu understood.

The core of this entire blockade system was obviously the Field Spell "Necrovalley". Without its presence, the effects of other cards would be negated. It's just that the Field Spell and the "Gravekeeper's Supernaturalist" had a two-way protection effect and could not be easily solved.

So maybe Mr. Ma wanted to be on the safe side here to prevent Yuei Vu from directly blowing up his temple by printing a typhoon on the spot.

And Yuei Vu seemed to be really capable of doing this.

"My turn, draw I activate the Spell Card Spell Books from the Pot', and both sides draw three cards from the deck."

Yuei Vu drew a card and calmly showed a card in his hand: "Quick-Play Spell Cosmic Cyclone! Pay 1000 LP, then target 1 Spell/Trap on the field; banish it!"

I want to banish the Field Spell Necrovalley!' "

[Yuei Vu, LP 1500 LP 500]

Marik: "!"

The Valley of Everlasting Sleep was the core of his entire blockade system. If it was blown away, the entire underworld environment he created would collapse in an instant!

Moreover, what Yuei Vu showed here was the "Cosmic Cyclone", which could be called the natural enemy of Necrovalley among all kinds of typhoons. Because unlike other typhoons, Cosmic Cyclone would directly remove the target from the game instead of destroying it.

The effect of the Supernaturalist could only protect the Necrovalley from being destroyed, but banishing it involved his blind spot.

But he obviously won't let that happen: "Open the set card: Counter Trap Imperial Tombs of Necrovalley!"

"Huh?" Yuei Vu was surprised, "The second copy of Imperial Tomb?"

Negate the activation of a Spell/Trap Card, or monster effect, and destroy it!"

The silent valley once again released the sentence of prohibition. The moment the whirlwind from the sky broke into this forbidden territory, it died down, and it failed to shake the valley until it dissipated.

Even the Cosmic Cyclone had failed, it was indeed a bit hurt. If he didn't find a way to solve Marik's underworld formation, Yuei Vu would not be able to operate smoothly.

Fortunately, there were other options.

"Then I will also activate Field Spell Temple of the Kings'!"

Marik: "!"

The solemn and silent valley was instantly filled with cracks, and the space itself was cracked like a mirror that had been hit hard with a hammer.

A huge temple fell from the sky, the sacrificial flames danced in the brazier, and the shadows cast by the firelight on the walls were like dancing demons.

Of course, it was impossible for Mr. Na to not have an impression.

This was the ultra-rare card that Yuei Vu stole from Ghouls back in the Battle City!

The Temple of the Kings was originally a Field Spell in the animation, but when it was turned into a real card, its effect was weakened and it was also changed from a Field Spell to a Continuous Spell.

Of course, since it came from Mr. Ma, the one in Yuei Vu's hand was naturally still a Field Spell. According to the rules that the two Field Spell Cards could not coexist during this period, the moment the new field was activated, the previous field would naturally be pushed out.

And this process was a rule-level destruction rather than an effect destruction, so even the protective resistance of the "Gravekeeper's Supernaturalist" was powerless.

Seeing that his field was cleared by the card that Yuei Vu had taken from his hand in the past, Mr. Ma, who probably should have been furious, was actually a little relieved at this time?!

Ha! The card that Mr. Yuei Vu snatched from me back then is actually still in use now!

Mr. Ma was so proud.

"The effect of the Temple of the Kings' should be familiar to you, right?" Yuei Vu said.

"Of course. The trap can be activated during the turn it is Set. And because Necrovalley leaves the field, the Hidden Temples of Necrovalley' will be destroyed."

While he was talking, the huge stone sacrificial hall had also cracked, and the sculptures on both sides were broken into powder and scattered all over the ground.

Marik smiled and said: "It is indeed beautiful to use this method to crack the absolute blockade of Necrovalley But the fact that two fields cannot coexist has long been included in my calculations, Mr. Yuei Vu!"

He waved his hand: "Open the set card: Continuous Trap Necrovalley Temple!"

Once per turn, during the Main Phase, if I control no card in my Field Zone: I can activate 1 "Necrovalley" directly from my hand or GY! "

The field card that had just been squeezed and sent to the graveyard immediately popped up from the duel disk.

So according to this effect, lets return to the field again, the forbidden place where the Pharaoh rests

Necrovalley, activate again! ! ! "

Chapter 952: Rebirth Judgment!

"The Field Spell Valley of the Royal Rest' is activated again!"

With the roar of terrain transformation, dust suddenly filled the field. The valley rises from the ground as if an invisible spirit has descended upon this majestic site.

"In the Necrovalley, any effects involving the graveyard will be invalidated." Marik smiled. "All magic, traps, and monster effects targeting cards in the graveyard will be invalid, and cards in the graveyard cannot be removed from the game. except!"

After a pause, he smiled and said: "What a pity, Mr. Yuei Vu. Could it be that you have come up with many different ways to solve the Necrovalley' in succession, but I have already been prepared for all these!"

"You are really talented." Yuei Vu said lightly, "But if this happens, Hidden Temples of Necrovalley' will no longer exist."

This was indeed a small loophole in Marik's formation. The Continuous Spell "Hidden Temples of Necrovalley" could only take effect when a Gravekeeper monster and the Field Spell Necrovalley' were on the field at the same time. If any one of them left the field, it would be automatically destroyed immediately.

Just now, Yuei Vu used the "Temple of the Kings" to push out the Necrovalley. Even though it was only for a moment, the Continuous Spell also exploded due to its own effect.

Perhaps it was because of this situation that Marik chose to add the third "Hidden Temples of Necrovalley" to his hand at the end of the last turn.

"Indeed, this way, the restrictions on the special summoning of monsters are now relaxed." Marik nodded, "But only for this turn.

Mr. Yuei Vu, you also know that I have retrieved the second Hidden Temples of Necrovalley'. Just wait until the next turn"

"One turn is enough." Yuei Vu interrupted him decisively.

Marik: "!"

As expected of Mr. Yuei Vu, so handsome and confident!

He wants to destroy my lineup in one turn, under the blockade of the "Necrovalley" What is he going to do?

Marik was actually looking forward to it.

"Activate the Spell Card A Hero Lives!" Yuei Vu said, "This card can only be activated when there are no face-up monsters on my field!

Pay half of my life points to Special Summon 1 Level 4 or lower Elemental HERO' monster from my deck! "

[Yuei Vu, LP 500 LP 250]

A card popped up from the deck and was drawn into Yuei Vu's hand.

"Level 4 Elemental HERO Shadow Mist' is Special Summoned!"

The floating mist condensed into the image of a graceful female hero in the middle of the field, and landed lightly on Yuei Vu's field.

[Elemental HERO Shadow Mist, ATK 1000]

"The effect of Shadow Mist If this card is Special Summoned: I can add 1 Change' Quick-Play Spell Card from my Deck to my hand."

Yuei Vu pulled out the card that popped up in the deck, flipped it over, and displayed it.

"I added Mask Change II' to my hand."

"Are you going to use the Masked HERO to fight back?" Marik asked.

Yuei Vu raised his hand and took another card: "I offer Elemental HERO Shadow Mist' as a sacrifice! Tribute Summon!"

The Dark Emperor in the depths of the netherworld

Caius the Shadow Monarch! "

Miss Shadow Mist disappeared, as if she was swallowed by the endless netherworld! The burly emperor's feet landed on the rocky ground, and the darkness was overwhelming!

[Caius the Shadow Monarch, ATK 2400]

"It's actually Monarch!?" Marik was shocked.

"When the Caius the Shadow Monarch is Tribute Summoned successfully, I can banish a card on the field!" Yuei Vu raised his hand and pointed to the solemn and mysterious valley, "I want to banish Necrovalley'!"

The Shadow Monarch opened his arms, intertwined his palms, and the cloak behind him flew up and down. The dark whirlwind seemed to lift the entire valley up from the ground, turning it into a shadow and blowing it away into smoke.

"The effect of the Gravekeeper's Supernaturalist' prevents the Necrovalley' from being destroyed by card effect," Yuei Vu smiled, "But if it is banished, there will be no problem."

"Under the constraints of so many restrictions, you came up with three ways to get rid of the Valley of Everlasting Sleep"

Marik was overwhelmed with admiration.

Then because the Necrovalley disappeared, the attack power of the Gravekeeper' monster naturally returned to its original state.

[Gravekeeper's Supernaturalist, ATK 2500 ATK 2000]

[Gravekeeper's Oracle, ATK 2500 ATK 2000]

"Battle!" Yuei Vu said, "Caius the Shadow Monarch', attack the Gravekeeper's Supernaturalist'!"

The Shadow Monarch raised his arms as if all the particles wandering around were gathered between his arms, turning into dark lightning spheres and blasting out of the air!

"Then I discard the Charm of Shabti' from my hand!" Marik said, "Until the End Phase, Gravekeeper' monsters I control will not be destroyed by battle!"

The transparent amulet image emerged, once again protecting the tombkeeper from destruction. Only a small amount of the whirlwind overflowed and passed through Marik.

Marik, LP 2500 LP 2100

"Can't it be destroyed in battle?" Yuei Vu showed the card he had retrieved this round, "Then the Quick-Play Spell Mask Change II' is activated.

Discard 1 card, then target 1 face-up monster I control that has a Level; send it to the GY, then Special Summon from my Extra Deck, 1 Masked HERO' monster with the same Attribute, but a higher Level than, the Attribute/Level the monster had when it was on the field!

I send Caius the Shadow Monarch' to the GY, transform! "

Marik was even more shocked and opened his mouth: "Use Monarch to transform into Masked HERO?"

The Shadow Monarch's figure was swallowed up in the dark storm, and solid armor appeared in the whirlwind. The black hero was wrapped in an exoskeleton suit and looked like a legendary ghost.

[Masked HERO Anki, ATK 2800]

"The attack power is 2800. If the battle is established, the damage will be 800"

Marik weighed it in his mind. With 2100 LP left, he could still withstand it.

Yuei Vu swept his arm.

"Masked HERO Anki can directly attack the opponent player, but in that case, the battle damage will be halved." Yuei Vu said.

Marik: "!"

Nani? Can he attack directly?

It's quite painful to eat this blow. Mr. Ma couldn't hold himself back anymore and waved his hand directly: "Then open the set card: Continuous Trap Nightmare Wheel!"

A huge wheel covered with spikes appeared, and the hero was firmly tied to the wheel before the Anki could make a move.

"The monster restrained by the Nightmare Wheel' cannot attack," Marik smiled, "and in the Standby Phase of the next round, 500 points of damage will be dealt to the controller of that monster!"

Yuei Vu, LP 250

Next to him, Aigami widened his eyes.

"No way? This person actually seems to be beating Mr. Yuei Vu?"

"The moment the End Phase is declared, it may be equivalent to Yuei Vu's loss." Sera also said.

Marik held his breath and stared at Yuei Vu, as if anticipating his next move.

"It's true that I'm very capable. But"

Yuei Vu snapped his fingers.

"Open the set card: Trap Card Rebirth Judgment!!!"

The trap card flipped. Its artwork was a ferocious face, half of it is human and half of it is a creepy mechanical part.

"Rebirth Judgment?" Marik was shocked, "What kind of card is this?"

Another thing I haven't heard of!

"Rebirth Judgment's effect Once per turn: I can declare 1 Monster Type; monsters in the GYs become that Type for the rest of this turn!" Yuei Vu said, "What I want to declare is, the Dragon Type! Within this turn, all monsters in both sides graveyards will turn into dragons!"

"Change Type?" Marik was a little confused.

Does this make any sense?

And soon he knew the meaning.

"Activate the Trap Card Destruction Sword Memories' from the graveyard!"

The trap card flew out of the graveyard spinning, opening a huge fusion vortex in mid-air!

"Banish this card from my Graveyard; Fusion Summon 1 Buster Blader, the Dragon Destroyer Swordsman' from my Extra Deck, by banishing Fusion Materials listed on it from my Graveyard!"

"Dragon Destroyer Swordsman!?" Marik was shocked.

Nani? Isn't this Muto Yugis trump card?

And it's a fusion trap launched from the graveyard Fusion from the graveyard!?

What's this latest kind of move?

From the graveyard, I banished Buster Blader and The Tricky who was transformed into a Dragon by the effect of Rebirth Judgment!

The eternal legend that transcends time and space, the destroyed dragon-slaying swordsman

Buster Blader, the Dragon Destroyer Swordsman, summon! ! ! "

A powerful energy burst out, and the heavy sword slashed through the light curtain. The swordsman in silver-white armor stepped out slowly, and there seemed to be a faint light flashing on the heavy armor and sword.

[Buster Blader, the Dragon Destroyer Swordsman, ATK 2800]

Marik narrowed his eyes, "But this attack power"

"The effect of Dragon Destroyer Swordsman! He gains 1000 ATK/DEF for each Dragon monster the opponent controls or is in their GY." Yuei Vu said.

"Dragon? But I don't have!?" Marik suddenly looked at the Continuous Trap in Yuei Vu's back row.

OopsOops!

"That's right, under the effect of Rebirth Judgment', all the monsters in our graveyards this turn are all Dragon-type!"

I said you are a dragon, so you are a dragon!

At this moment, there were a total of four monster cards in Marik's graveyard: Gravekeeper's Spiritualist, Gravekeeper's Commandant, Gravekeeper's Heretic, and Charm of Shabti.

Four dragons!

"So the attack power of the Dragon Destroyer Swordsman has increased by 4000!"

[Buster Blader, the Dragon Destroyer Swordsman, ATK 2800 ATK 6800]

"Dragon Destroyer Swordsman!" Yuei Vu ordered, "Attack the Gravekeeper's Supernaturalist!"

With a desperate slash, the destruction sword flashed out! The dragon-slaying swordsman's sword light poured out like the Milky Way, as if it was going to kill the heaven and the earth!

Marik, LP 2100 LP 0

Chapter 953: GX!

Marik, LP 0

Marik closed his eyes and took the devastating blow from the Dragon Destroyer Swordsman. His expression was calm and peaceful and he even seemed to be enjoying it.

A life of satisfaction.JPG.

The dragon-slaying swordsman's sword flashed, and the impact of the three-dimensional image was fleeting. Marik's frail body was pushed back two steps, his LP returned to zero, and the swordsman's image immediately disappeared into thin air.

Mr. Ma was even a little disappointed.

Is this the end? Is it too fast?

At the end of the duel, the onlookers applauded generously.

Mr. Yuei Vu, what do you think? Sister Ishizu asked.

"Not bad." Yuei Vu showed a childish expression, "The progress is greater than I thought."

Originally, he was thinking that when Marik relied on a crispy chicken to conquer the world, the core of the entire deck was basically the corpse bird's repeated jumps. Now that there was no Winged Dragon, Yuei Vu couldn't even imagine how he could play with his deck which had such a negative combat effectiveness.

Unexpectedly, Mr. Ma, who was already the ancestor of nether players, actually made progress again after painstaking study and went further and further on the road of the underworld.

Okay, okay, let's make arrangements for Mr. Ma's participation.

It's time for the flowers in the Duel Academy's greenhouse to feel the cruelty of society.

"What a regret." Aigami said, "Just a little bit more"

His original intention may have been to comfort Marik, who lost the duel, and to express his admiration for his strength. Unexpectedly, Marik turned his head with a strange expression:

"Regret? Where? You don't think I can win Mr. Yuei Vu, do you?"

Aigami: ""

Ahem. Yuei Vu reminded him casually, Speaking of which, you seem to have mentioned that this deck has a set of replica

Ah, thats right!

Marik hurriedly took out a deck of cards and said with a smile, "I lost. According to the agreement, this deck will be given to you, Mr. Yuei Vu."

Yuei Vu was very satisfied with Mr. Mas current consciousness.

The Gravekeeper deck was definitely one of the best in terms of autism, and it had a devastating restraining effect on many versions of meta decks.

But the problem was that it has no compatibility with other systems. Even with the high duelist Rank, it was difficult to mix it into other deck systems.

After all, this "Necrovalley" lineup was so anti-social, and its bad habit was disgusting the opponent and yourself at the same time. Neither player could activate effects related to the graveyard, and neither player could special summon monsters other than "Gravekeeper" monsters.

But although it may not be useful for a while, this deck still has collection value. Maybe one day I will meet an opponent who is weak to Gravekeeper?

Seeing Yuei Vu accept the gift, Marik raised the corners of his mouth and even showed a winner-like smile to Aigami.

Ha, did you see it? He took my deck and doesnt want yours!

Aigami was confused again.

Is this kind of thing something to be proud of? ?

That night, duelists from all over the world landed on the Duel Academy Island.

The presence of Yuei Vu's name among the organizers was indeed quite intimidating, and many powerful players in the duel world were attracted to the island. For a time, the Duel Academy was bustling with activity, and all kinds of star players and big names in the card industry were all over the island.

Ishizu and Marik both stayed on the island to compete as contestants. According to Yuei Vu's original plan, he originally planned to let the Aigami siblings participate too. Because if Ishtar siblings were representatives of the nether style, making students realize the cruelty of society; then Aigami siblings, with the Cubic deck, were representatives of argo OTK style, allowing students to directly feel the suppressive power of a legendary duelist.

However, there was an accident where the Quantum Cube was lost, so Yuei Vu asked Aigami and Sera to go to the Kaiba Corp to help first.

The last time they met, Aigami and President Kaiba didnt get along very well. Yuei Vu just hoped they could go well this time.

At the opening ceremony that night, Yuei Vu personally took the stage and delivered a speech.

The speech itself was actually nothing special. It simply explained the rules of the competition and emphasized the philosophy and spirit of the Duel Academy.

In one sentence, it could be summarized as

O sea, you are all water.

It seemed like he had been speaking for a long time, but when you thought about it carefully, you found that he had said nothing.

Each contestant was distributed a badge with the word "GX" printed on it. These badges served as participation vouchers and points for the contestants. When players won a duel, they could win badges from each other.

The person who got the most badges at the end was the winner of the competition.

This meant that players must not only be strong enough, but also brave enough and have played enough games.

Not only you need strength, but you also needed stamina.

In addition, Yuei Vu also emphasized that, except for students from the school, foreign contestants must immediately exit the stage and leave the Duel Academy Island once they lost all the badges they hold.

Hearing this, all the professional players in the audience were gearing up, with high morale and eagerness to try. Everyone looked extremely confident.

They may also think very much the same way.

As the saying goes, it is easier to invite God than to send him away.

Most of the people present were well-known figures in the professional circle, and naturally they were somewhat arrogant. In addition, they learned that a large number of the contestants were students from the college, and their confidence could not help but expand.

Not to mention that there are more men among these professional players. And men well, as everybody knows, is the kind of creature like to go in but not like to go out.

Now that I'm here today, it won't be that easy to drive me away!

As the opening ceremony came to an end, Yuei Vu finished his words, and the world-famous GX Competition officially kicked off at Duel Academy.

At the same time that the players landed in large numbers, there was also an uninvited guest had visited the island through some informal channels.

In the Duel Academy, somewhere unknown.

There was a metal chair placed in a dark space. The woman was sitting in a chair, with a huge screen hanging in mid-air in front of her. On the screen was the live broadcast of the opening ceremony of the GX competition.

The flickering fluorescent light of the screen illuminated her face. She has long eyelashes and a delicate and attractive face, but her skin is unnaturally white and lacks any color.

In the screen, Yuei Vu was giving a speech on the stage. The camera deflected and zoomed in towards the student square. The magnification quickly focused on a certain student.

The certain jellyfish head in the picture has no consciousness of being monitored. At this moment, he was still talking and laughing with Marufuji Sho.

Yuki Judai, the one who is opposed to destiny?

She spoke softly, and the clear voice echoed in the dark space.

Chapter 954: Doctor of Mathematics

A man put his hands behind his back and walked slowly through the woods of Duel Academy at a steady and steady pace.

He had a curly mustache, wore a red suit and tie, and had an elegant and confident smile.

His name was Mathematica, nicknamed "Doctor of Mathematics". He was a famous mathematician duelist in the professional league. His final ranking of the last league was tenth.

He was in the top ten in the league, you could tell he was a ruthless character as soon as you heard him.

However, the professional league was really interesting. Although everyone participating in the competition was said to be a professional card player, in fact their professions seemed to be diverse.

There were dancers, bartenders, idols, and there is actually a doctor of mathematics here.

Maybe this mathematician studied mathematics hard for many years and obtained a doctorate degree before he finally figured out the real rules of how the world worked playing cards.

Perhaps he discovered that the ultimate puzzle in mathematics required going to the card game world to find the answer, so he decided to give up mathematics and start a duelist career.

Of course, considering that there was a serious criminal in jail among the top ten in the professional league, it seemed that there was nothing to make a fuss about with a doctorate in mathematics.

Today was the first day of the GX competition.

Dr. Mathematica walked on this open island, searching for his opponent leisurely and confidently.

As a top ten professional player, he entered this game with a relatively relaxed mentality. After all, a large number of the contestants were just Duel Academy students, and in his opinion, they were just experience packages.

As for meeting other professional players, there was nothing to be afraid of. Mathematica was confident that the vast majority of people in the league were no match for him.

The new world champion Aster Phoenix was said to be participating in this competition, but to be honest, he doesn't really pay much attention to this fledgling newcomer.

Due to the schedule, Matimotica was eliminated by others this season and did not directly encounter Aster himself, so he took it for granted that this newcomer might have some strength, but more of it was due to good luck. He rose to the top and won the championship.

If I'm in his place, I can do it too!

The reason why I didn't do well that time is because I didn't perform well!

While walking, Mathematica quickly discovered the target.

Um? A wild jellyfish head appears over there. He seems like a student from this school.

Hehe, you are out of luck. You are my first opponent in the first battle!

A few minutes later.

Math what? Judai was full of questions. Apparently, this convoluted name was too difficult for him.

A black line appeared on Mathematica's forehead, but he still maintained his professional elegance and smiled: "It's Dr. Mathematica."

Next to him, Sho said: "Brother, you usually don't care about the professional circle. This person is called Doctor of Mathematics and is a frequent visitor to the professional circle playoffs!"

Asuka, who for some reason was magically together with Judai, also introduced: "It is said that he is a professional duelist who is good at calculations and relies on careful thinking to defeat his opponents. This time he also won the rank of tenth in the league."

Oh, tenth in the league! Judai's eyes lit up.

The doctor of mathematics smiled and nodded, stroking his curly beard, and seemed to enjoy the compliments from the students.

But the next sentence made his blood pressure soar.

Didn't you even make it to the top eight? Judai muttered softly, "So weak."

Mathematica: ""

"Don't say that, he may just be in bad shape this time and have bad luck." Asuka held her chin, "Well, of course, there may be a problem with his strength."

Mathematica: ""

Marufuji Sho: "But if he's ranked tenth, you should be able to win easily, right? What good luck, you got the first badge of the GX competition so easily."

Mathematica: "."

Could you please stop saying such things in front of me as if I'm a dead person?

In addition, the conversation between these students made Mathematica think for the first time in his life that it was ridiculous to be ranked tenth in the profession.

This made him feel angry instantly.

Hehe, a few brats who have never been out of school, flowers in a greenhouse, actually dare to mock me, who has been in the league for so many years?

A bunch of brats who have high ambitions but low abilities!

Of course, this doctor didn't know that not long before the GX competition started, their league's world championship was lost to this jellyfish head in front of him. So from the perspective of these students, tenth seemed to be nothing.

Mathmatica decided to teach these arrogant brats a lesson!

So the duel began.

Mathmatica's deck must be very unfamiliar to card players because basically all of his main cards were animation cards and had not been translated into real cards. But his idea of playing cards was not unfamiliar among players, and it even had a slight taste of the real card environment.

Because this guy was actually famously autistic in the professional circle.

As the duel progressed, his tactics were quickly revealed to several people.

Judai had "Elemental HERO Neos Alius" on his side of the field, and three set cards in the back row. The lineup layout was very powerful.

The core of the math doctor's strategy was in his backcourt, which was the Continuous Trap card "Gravity Bind" of the autistic professional. All monsters above level 4 on both sides cannot attack.

This card was also known as the "Four-Star Net", and it was obvious from the effect that it was a favorite among people with autism. By using traps to block the attacks of the opponent's high-star monsters, you could take the opportunity to do whatever you wanted to do to the opponent, which was very despicable.

Then there was a Level 3 monster, Transistor the Warrior. This thing looked like a transistor turned into a spirit. Level 3 was not restricted by the "Gravity Bind", but the most important thing was that it could directly attack by Tributing a monster on the field.

This idea was very obvious. Use the "Gravity Bind" to block the attack, and then use the "Transistor the Warrior" to directly slap the opponent. Theoretically, it only took four slaps to kill the opponent!

Its just that the artwork on this card was very interesting. The picture was a white-haired ninja with red paint on his eyes, a red coat, wooden clogs on his feet, making hand seals, and a big toad under his feet.

It really made people wonder if the lustful Sennin from Konoha next door came to make a friendly cameo.

I special summon Mid Shield Gardna to your field!

[Mid Shield Gardna, DEF 1800]

"Eh? So good?" Judai looked at the extra monsters on his field and couldn't help but be dumbfounded, "Is that okay? I'll take it then."

"You're welcome." The math doctor smiled, "But in return, you have to choose a monster from the deck and give it to me."

Huh? Is that so?

Judai thought about it for a while, took out the deck, and thought for a while.

Well, lets take this guy!

I special summon the Lava Golem on your field! "

The Lava Golem rose from the ground and appeared behind Doctor Mathematics. The cage hanging in front of him locked him firmly in the middle.

[Lava Golem, ATK 3000]

Mathmatica's face changed slightly.

Do you actually give me an eight-star beatstick?

Does this jellyfish have such a good heart?

Chapter 955: Why Is Your Duel So Bright?

The Continuous Spell "Illegal Summon" allowed players to send a monster to the opponent's field. This was also a routine used by Mathmatica.

But so far, most of the opponents he has met tend to give him low-level monsters that were weak and had poor effects. He had never seen anyone directly give him an eight-star treasure

To be honest, sending a Lava Golem in this situation was really logical. Because of the "Gravity Bind" on Dr. Mathematics' field, the Level 8 Lava Golem could not attack, but he will be deducted 1000 LP every turn

But it didn't matter!

Mathmatica waved his hand: "Continuous Trap Fatal Abacus! Each time 1 monster is sent from the field to the Graveyard, inflict 500 points of damage per card to the respective card owner's Life Points!"

"A monster sent to the GY will cause 500 damage" Judai thought for a while, his eyes fell on the "Transistor the Warrior", and he couldn't help but think of something.

"It seems you have discovered it." Mathmatica smiled triumphantly, "Yes, if I use the effect of Transistor the Warrior to Tribute the Lava Golem', it can directly attack you.

And because the Lava Golem is your monster, when Tributed, he will not enter my graveyard but yours, so you are the one who takes 500 points of damage! "

Sho on the side couldn't help but gasp.

Hiss~ Are you so autistic?

Block the opponent's attack, and use the monster on the opposite side as a sacrifice. After that, you can not only directly slap the face, but also deduct the opponent's LP?!

Do all you mathematicians play cards like this?

Even Judai couldn't help but admire him.

Wow! So nether, so autistic, so strong!

So Judai opened the set card directly: "Then I activate the Quick-Play Spell Gemini Spark! Use the Elemental HERO Neos Alius' on my field as a sacrifice and destroy a card on the field!

I destroyed the Transistor the Warrior! "

"Nani?"

Matimotica was shocked when he saw that the warrior on his field was blown to pieces before it had time to activate its effect.

"And at this moment, I activated the Continuous Trap Skull Invitation!" Judai opened another set card, "Every time a card is sent to the graveyard, the owner of that card must receive 300 points of damage!"

I directly activate the invitation of the underworld! Send the venue for this duel to the underworld!

Mathmatica's eyelids twitched even more, and he looked at the trap opened by Judai in astonishment, and then at the "Fatal Abacus" in his back row.

It's actually the same type of trap as mine!

Originally, he activated Fatal Abacus with the intention of sending the "Lava Golem" as a sacrifice to the GY to damage Judai, but he never expected that he would shoot himself in the foot instead.

At this moment, his own "Transistor the Warrior" was blown up, and 500 LP had to be deducted from his side. Coupled with the "Skull Invitation", he needed to deduct a total of 800 health points.

Of course, as "Gemini Spark" entered the GY, Judai also needed to deduct 300 LP.

Mathmatica, LP 4000 LP 3200

[Judai, LP 4000 LP 3700]

But Mathmatica said that this level was just a drizzle for a professional player! So he immediately took a Monster Reborn and directly resurrected his warrior!

Mathmatica, LP 3200 LP 2900

Transistor the Warrior: Haha! Didn't you expect that? I jumped sideways repeatedly!

Then Judai also waved his hand: "Then open the set card: Trap Card Hero Blast! Target 1 Elemental HERO' Normal Monster in my GY; add that target to my hand, then if the opponent controls any monsters with ATK less than or equal to that target's ATK, destroy 1 of them!

I returned Elemental HERO Neos Alius' to my hand and destroyed Transistor the Warrior' whose attack power is less than 1900! "

Transistor the Warrior: Nani!?

The warrior, who had not yet gained a firm foothold, was split open twice. The two netherworld traps took effect at the same time, and the LP of both sides was once again reduced at the same time.

[Judai, LP 3700 LP 3400]

Mathmatica, LP 2900 LP 2600 LP 1800

The math doctor was a little cracked, and the way he looked at Judai was completely different from before.

So careless, I'm so careless!

This kid took a picture of the Elemental HERO as soon as he came up, making me mistakenly think that the jellyfish head played a HERO deck that mainly summoned powerful monsters to spread out strong attacks.

I never expected that he was actually a nether player!

So it turns out that heroes can still play like this?

Lava Golem, Skull Invitation, and then endless explosions of cards Is this the latest style of HERO?

But it still didn't matter.

After all, even if the deployment was not smooth, he still had the Lava Golem with an attack power of up to 3,000, plus the "Gravity Bind" that blocked the attack, it was not that easy to defeat

"I summon the Elemental HERO Ice Edge!" Judai took out another monster.

Mathmatica raised his eyebrows.

Ice Edge? What kind of hero is this? Let me see

"This card can attack directly".

Mathmatica: ""

WTF!?

Isn't this the underworld trick I plan to play?

Referee, let me report! This person is cosplaying me and I can't even beat him!

And the most debilitating thing was that this damned Ice Edge was also Level 3 like his ace Transistor the Warrior. It meant he could directly slap his face without being restricted by the "Gravity Bind"

[Elemental HERO Ice Edge, ATK 900]

Mathmatica took a deep breath.

No, it still doesn't matter. This thing's attack power is only 900, I can still withstand it

"Activate the Continuous Spell Common Soul! I Special Summon Neo-Spacian Flare Scarab!" Judai said, "Then the attack power of Flare Scarab is added to the Ice Edge!"

[Neo-Spacian Flare Scarab, ATK 400]

Mathmatica: "!"

If the attack power is added to Ice Edge, is it 1300? It does hurt a little, but

"The effect of Flare Scarab This card gains 400 ATK for each Spell/Trap the opponent controls." Judai said, "You have Gravity Bind, Fatal Abacus, Illegal Summon, and a set card on your back row, so its attack power increases by 2000!"

[Neo-Spacian Flare Scarab, ATK 400 ATK 2400]

[Elemental HERO Ice Edge, ATK 900 ATK 3300]

Mathimoteka was shocked.

WTH!?

The attack power is more than 3000, being able to attack directly The key thing is that it is Level 3?!

Why the hell don't you go to heaven?

"The effect of Ice Edge Once per turn, during your Main Phase 1: I can discard 1 card; this card can attack the opponent directly this turn!" Judai discarded a card and waved his hand, "Come on Ice Edge, attack directly!"

Judai, LP 3400 LP 3100

Mathmatica, LP 1800

If he ate this blow, there was no doubt that he would be killed immediately!

Not only did he lose to a student from Duel Academy, but the opponent used the same tactics as him, a train of thought that he was proud of. No, his tactics were even stronger!

How could he, the tenth in the professional league, accept this?

"Open the set card!" Mathmatica used his last trick, "Continuous Trap Mirror Wall! The attack power of the opponent's attacking monster is reduced to half!"

[Elemental HERO Ice Edge, ATK 3300 ATK 1650]

Ice picks hit the sky, and the math doctor's body was shaky, but he managed to hold on.

Mathmatica, LP 1800 LP 150

"Wow, you can actually survive this. You are worthy of being the tenth in the professional league." Judai applauded, "Then I end my turn."

"You brat" The math doctor curled his lips and said gloomily, "My turn, draw."

It's not over yet.

Although the odds of winning are a bit slim, as long as there was still LP left

Then he suddenly thought of something, and his movements suddenly stopped stiffly.

After a moment, he raised his head somewhat sluggishly and saw the big, ugly Lava Golem on top of his head. The bean-like eyes were looking at each other, looking naive and stupid.

By the way, the effect of Lava Golem

Gives the controller a thousand points of damage during the Standby Phase!?

"Ahhhhhh!!!"

The math doctor screamed.

Why is your duel so bright? ! !

[Mathmatica, LP 150 LP 0]

Chapter 956: Dare Not Say Or Ask

The GX competition was in full swing, and students and players from the professional circle had more or less had their first round of confrontation.

The results of the battle so far have surprised both sides.

The professional players were surprised to find that the students in this academy were not as easy to deal with as they thought. They originally came to this conference with a relaxed mentality similar

to bullying the newbie, but they never expected that they would have been surprised by the end of the day. If they were not careful, they might be bullied by the newbie

Some of the students' tactics seemed to them to be completely unconstrained, with a bunch of tricks they had never seen in the professional world for so many years and they had miraculous effects.

From the perspective of the students, they were equally surprised to find that professional players who were previously regarded as scourges

didn't seem to be as strong as imagined?

The newly recruited tutors this semester have had a very significant effect.

When Yuei Vu recruited these new tutors, he made it clear that their biggest main task this semester was the "GX Competition". Tutors needed to make the students they guide make a qualitative leap in the shortest possible time, and the GX competition was their quality assessment.

In the original animation, the ordinary students of Duel Academy were completely helpless under the intrusion of professional players and had no power to fight back. And Yuei Vu's request to the instructors was that this situation must be changed.

Maybe these students could not compare with the prominent plot characters, but against the professional duelists who only have a few seconds of footage in the original work, they must at least be able to fight, right?

If you couldn't even touch the average level of the professional circle, then you shouldn't hang out in our academy.

Of course, Yuei Vu did not forget to launch special store promotions for tutors again during the competition. The card sets related to the students guided by the tutors were all discounted in Yuei Vu's private store during the event, and there were even exaggerated words like 70% OFF or even 80% OFF.

Players had the least resistance to this kind of word. For a time, their spirit was so high that the students were forced to work overtime with their instructors, and their strength increased dramatically.

Needless to say, there was no need to mention the protagonist group as representatives of the academy's top combat power.

Throughout the whole day, Judai basically killed people, killing demons, and killing gods indiscriminately. Unsurprisingly, he won a complete victory on the first day

Incidentally, it also severely damaged the confidence of a group of professional duelists, including Mathematical Ph.D. Mattimotika.

The doctor who was known as the tenth in the professional league was actually eliminated on the first day. It is said that when he was disqualified and boarded the ship off the island, he sat on the deck as if he had been played out, with a look of despair on his face, and muttered like a repeater: "It's too much, it's too much, this is not a duel at all"

Then there was Sommelier Parker, the eighth-ranked player in the professional league, a bartender duelist who unfortunately faced Tenjoin Asuka in the first battle.

Asuka operated for three minutes in one round, stacking graves, drawing cards, and retrieving. The Cyber Angels jumped out of the deck one after another as if they were free, which was dizzying.

Within one turn, the thickness of Asuka's deck was visibly reduced. There were a lot of resources in the graveyard and in her hand. On the field, there were "Cyber Angel Dakini" with an attack power of 3700 and "Cyber Angel Izana" with an attack power of 3500.

Looking back at Mr. Bartender's field, the front and back rows were completely cleared. He was as miserable as a naked little boy, blocked in the corner by curvy Cyber Angels, pitiful and helpless

The sommelier was dumbfounded.

He was a bit underestimating the enemy because he thought his opponent was just a little girl in school, so he didn't take it seriously. He even thought that the little girl had an outstanding appearance and curvy figure. As a gentleman, his instinct of pity for women was acting up, he even wanted to go easy a little bit.

He never expected that he, ranked eighth in the league, would be defeated in one turn!?

The sommelier wanted to say you were so awesome, why did you still go to school!?

Wouldn't it be nice to come to the professional circle and become a world champion?

But there was an even worse unlucky guy. It is said that he is a "Doctor Duelist" ranked twenty-fourth in the pro league. He wore a white coat, a mask, and surgical gloves when playing cards, and even muttered something like "the patient's fate" which had very unclear meaning before starting the fight

It's just that this unlucky doctor picked Marufuji Sho he may have thought that this dwarf was easy to bully at first glance, and he felt that he should be cautious and pick out the soft ones.

Then

Then he was slapped by the invincible submarine and became autistic.

On the boat leaving the island that day, the doctor happened to be sitting next to Mathematica, a Ph.D. in mathematics, with his knees in his arms. He also sat with his knees in his eyes and kept muttering: "It is too much, it is too much, this is not a duel at all"

The two looked at each other, and they actually felt sympathy for each other

The first day also went smoothly for Aster as a world champion, he has already proven that he has the ability to sweep the professional circle, so naturally there were no surprises. He also killed all demons and gods in front of him. On the first day, his points soared like a rocket to the first echelon among all players.

But unexpectedly, when they met that night, Aster was surprised to find that even though he was so fast, he was still slightly behind Judai in points.

Aster immediately became unhappy.

But Judai smiled and scratched his head: "It's just good luck. It's all because Aster, you are too strong, you are the world champion, so naturally everyone has to avoid you.

It's different for me, I'm just a nobody, so I have more duels, and my points are only slightly higher, but that doesn't mean anything"

After hearing this, Aster thought: That seems to be the truth.

So its because Im stronger, so Im lagging behind in points?

The unhappy mood was instantly swept away. Aster crossed his arms and snorted: "Humph, as long as you know what's going on. In fact, I don't care that much about points"

"Of course." Judai smiled, "Aster is already a world champion, so of course the points in this kind of academy competition are dispensable."

Aster pretended to be calm and indifferent to merit and fame, but he couldn't help but the corner of his mouth rose crazily.

I'm so awesome. JPG.

Also winning all day long was Manjoume.

But for some reason, after a day of victory, when Manjoume confidently logged into the GX Competition website that night to check the rankings, he found that

The abominable Yuki Judai was actually riding on his head again!

That was not all. When he took another closer look, he almost fainted and his vision went dark.

That Aster Phoenix ranked immediately behind Judai was actually above him!

These two guys actually formed a team to hold me down!

Why!?! I obviously won one day and didnt lose a single one!

Manjoume was so angry that his teeth itched, and he couldn't help but squeeze out another sentence from between his teeth: "Yuki Judai! Just wait for me!"

The boys next to him looked at each other, but no one said a word.

They found that the eldest brother's attacks seemed to be more and more frequent recently and lasted longer and longer.

In the past, it was once every few days, but since Aster came, it has gradually become once a day now it's three or five times a day.

Although they wanted to remind the eldest brother to be more restrained and pay attention to his body, so as not to get too angry and easily damage his liver, seeing how angry he was, no one dared to speak, for fear that he would get into trouble and if they showed even a little disagree with him, he would catch them to play cards to vent his anger

We dare not say or ask. JPG.

Chapter 957: System Invasion

The accident happened on the third day of the GX competition.

First, some students in the duel noticed that the volcano was out of control. The volcano on which the academy was located suddenly erupted into a column of dark smoke. The extinct volcano that countless experts had sworn would never go berserk woke up as if it had been sleeping for thousands of years, and released a plume of smoke into the sky. Dazzling fire dragon.

The lava was thrown into the sky, and the dark red magma was shot into the air under the invisible impact, and then swooped down like a sky full of meteors. The sky was dyed blood red, and the dome was like a burning pot lid that fell upside down, as if it had entered the end of the world in an instant.

All duels were terminated and the students fled in panic. Duel Academy immediately entered the highest level of alert, and the emergency plan was loaded into the startup sequence.

Immediately afterwards, before everyone had time to recover, a new round of blows followed.

The bloody dome seemed to be cut into two pieces by a dark sword, and the sky was shattered.

But that's not a sword, but an exaggeratedly huge super-giant battleship!

That was technology that humans absolutely did not have, and it was interstellar equipment that only existed in fantasy. The battleship, like an unsheathed black sword, slowly advanced in the atmosphere, and the blue tail flames ejected from the end were like the gaze of death.

More small battleships, spaceships, and shuttles followed, covering the Duel Academy densely like locusts.

It's like an alien fleet invasion, the prelude to the end of the world.

"Oh my God! Aliens are really coming!" Some students shouted.

"The end of the world! The end of the world is here!"

Since there was a precedent of Radian the Multidimensional Kaiju landing on the island and fighting Elemental HERO Neos, the academy was already wary of the aliens' comeback.

But no matter what, this is a bit too fast, right? No sign at all!

Are you aliens so ungrateful when it comes to war? Even the step of declaring war is omitted? Is this blitzkrieg?

But Duel Academy was not a vegetarian.

The security forces stationed in the academy immediately took action. Although it was a school that focused on teaching and educating people, thus the island was not equipped with any military weapons

there were so many card players!

The Duel Disks of the security forces were equipped with mass projection functions, and they quickly summoned materialized duel monsters to fight back.

In addition, some of the professional duelists on the island have the power of Shadow Games, and they also summoned their own spirits to fight back.

But in just a few minutes, everyone realized that this was not true at all.

The erupting volcano, the endless alien fleet, the entire apocalyptic scene were all just three-dimensional projections.

That's right, it was the most common stereoscopic projection they usually used when playing cards. It's just that after so many generations of updates, the projection system developed by Kaiba Corp

reached a point where it was indistinguishable from the real, so no one immediately noticed that something was wrong.

But here comes the problem. This kind of ultra-large-scale three-dimensional projection that covered the entire island and even occupied the entire sky was obviously not something that the imaging system equipped with ordinary Duel Disks could achieve.

Principal Samejima also quickly received a report from the security department.

"It's the large-scale projection device installed around our island!" The department manager reported to Principal Samejima sweating profusely. "It was originally a projection device used by the school every school year to welcome new students, anniversary celebrations, and other large-scale events. It has a more realistic effect and island-wide imaging range

but that device has now been hacked! "

"Who did this?" Principal Samejima asked immediately.

"I don't know yet, we are still sizzling investigating sizzling"

The picture distorted for a while, and then the entire screen went out.

Principal Samejima sat up straight: "Hello? Are you still there? Hello?"

He then tried to contact other departments and tried to make phone calls, but all in vain.

The projection device was hacked, first a volcano, then an alien fleet, then all kinds of giant monsters and monsters, all kinds of monsters and monsters appeared.

Immediately after the signal was cut off and the security system was disrupted, sirens sounded throughout the academy, and the chaotic evacuation alarms plunged the academy into complete chaos.

Of course, since it was only an invasion at the program level, and the enemies that appeared were only stereoscopic projections, there was actually no real threat, and it would only cause chaos at best.

Chaos, that's what the culprit needed.

At this moment, the woman who caused all this was walking slowly in a dark space.

She was wearing a loose kimono and wooden sandals. Her face was pale and her lips were thin, and her long black hair was like a waterfall.

Her name was Saio Mizuchi, Saio Takuma's younger sister.

She was now in a completely digital state. She digitized her consciousness in an almost impossible way and personally entered the virtual data world.

For her now, the codes of 0 and 1 blowing through her hair like a breeze are the most real world. She moved freely in this space, any door in front of her would automatically open, and the surging data flow obeyed her command like a spirit.

From this level, it was not easy to hack into the academy's system.

But creating chaos was only a means, not an end. What she wanted to target was actually a specific person on the island, the high-profile star student Yuki Judai.

Like his brother Saio, Mizuchi also had the ability to predict fate and see the future. Destiny led her here and directed her direction to Yuki Judai.

It was as if this jellyfish-headed student was the center of the torrent of fate, the son of destiny.

If she wanted to control her destiny, she must control this Yuki Judai and the certain mysterious power he possesses.

It's just that the Duel Academy is heavily guarded and monitored, and Duel King Yuei Vu was here, so it's too difficult to take action directly. That's why she needed to create chaos first and create an opportunity

Saio Mizuchi's pupils shrank slightly and his steps stopped.

She was surprised to notice that, unknowingly, this virtual space constructed of pure data seemed to deviate from the direction she controlled.

Suddenly, the surrounding scenery began to change rapidly. An extremely large data stream rolled past her, and the dark and profound scene quickly passed away, replaced by high-rise buildings made of steel and concrete.

The floors were rising from the ground, and when she regained consciousness, Mizuchi was already standing on a modern street. It's just that there seems to be no one in the city. The light blue data flow between the floors was blowing like the wind.

"How dare you invade Duel Academy's system and do it under my nose. Sister, you are very powerful."

The voice sounded. Saio Mizuchi turned his head and saw a green-haired young shota standing on the empty street with his hands behind his back. His appearance and face made people really think of him

"Kaiba Seto?" Mizuchi frowned.

But she soon realized something was wrong.

Kaiba Seto was not that young, and his temperament was not the same.

"No. Although it is always easy for people to mistake me and Seto, I am not him." Koshota smiled, "You can call me Kaiba Noah."

Mi Shouzhi actually didn't really care who the other person was. She looked around at the tall buildings next to her and asked, "Is this a place independent of the Duel Academy system a completely independent new system, a virtual world space?"

"Big sister is very keen, yes. This is a new space that Seto and I have been working together to create, a vast virtual world based on the existing Duel Link System' as a template, and its name is World Link Online. "

Chapter 958: Who Will Play Cards With Me?

"World Link?"

Mizuchi's long eyelashes twitched. This term felt unfamiliar to her.

"Well, Seto is a really ambitious person. He was the first to find me and take the initiative to talk about this project. To be honest, at that time even I was a little scared."

Kaiba Noah said in a calm tone.

I once built a complete virtual world with my own hands, a huge space that I have lived in for decades and is so big that you may not be able to imagine it.

World Link Online was designed based on that space, so I am the administrator of that place as of now.

Seto plans to build this place into a super-large duel space that transcends geographical constraints and even dimensions. People from all over the world and even dimensions outside this world can share this space and duel each other with virtual images and identities. "

"That is a huge project that has never been done before," Mizuchi said.

"Yeah, it sounds very incredible. Especially crossing dimensional barriers or something like that is basically impossible based on humankind's current scientific knowledge"

After a pause, Kaiba Noah added: "It should have been impossible. Until we had that thing"

He narrowed his eyes: "the Quantum Cube stolen by you."

Mizuchi did not deny it.

"A force from outside the universe, 'The Light of Destruction', right? We have heard your name a lot recently." Kaiba Noah continued, "Saio Takuma is the main host, but you have no reason to spare his sister, right?"

You have taken over Saio Mizuchi's body and are dormant in the data world, serving as a backup left behind by Saio Takuma's early defeat. "

Mizuchi closed her eyes lightly and smiled slightly.

"You know a lot. I have repeatedly reminded my brother not to underestimate the Kaiba Corp, but unfortunately, he has never listened to my advice"

She slowly opened her eyes, and a red wave occupied her eyes.

"That's right. I was another personality of Saio Mizuchi, born from 'The Light of Destruction' possessed her body." She said calmly, "I appear here to continue to complete what my brother failed to complete.

Of course, my brother's failure has proven that his method is not advisable. So I'll do it my own way. "

"Your method is to directly invade the system of Duel Academy? And take away the Quantum Cube?" Kaiba Noah said, "Speaking of which, we haven't figured it out yet, what do you, 'The Light of Destruction', want to do with the Quantum Cube? ?

Saio Mizuchi showed a sweet but chilling smile.

"You have been studying it for so long, so you should know the operation method and specific functions of this so-called 'The Eighth Millennium Item', right?"

"I probably understand." Kaiba Noah nodded, "An artifact that enables instant movement in space and even dimensional jumps through the control of the level of thinking and consciousness.

But the power Prana' used to drive it has disappeared, and now the Quantum Cube"

"It can't reach that level, right?" Mizuchi sneered, "That's because the technological level of you humans is only at this level.

Our knowledge is beyond your imagination. Our words can completely stimulate the potential of that Quantum Cube', release its energy in an unprecedented way, and ultimately form a huge and stable wormhole. "

"A wormhole?" Kaiba Noah frowned, "Is that your purpose?"

Saio Mizuchi smiled softly, his smile was charming but penetrating.

"You don't think that the picture we just showed through the stereoscopic projection device is completely fictitious, do you?"

Kaiba Noah immediately understood what she was referring to.

The large black spaceship that just appeared on the island, the warships that blocked the sky, and the locust-like shuttles came from beyond the starry sky and brought the end of the world

"Your fleet?"

"To be precise, it's the fleet we captured." Mizuchi smiled, "We The Light of Destruction' have wiped out one civilization after another and swept across one galaxy after another.

What you are about to face is one of our strongest trophies so far, a super fleet that you cannot imagine. As long as that army comes, your earth's technology will have no room to fight back.

By then, Earth will be just another number added to the civilization we are sweeping through. In the blink of an eye, the world will turn into ashes. "

"That's really powerful."

The voice came from behind again.

Saiou Mizuchi turned his head and saw countless data streams converging into a light blue entity, and a half-crouched figure landed among the deserted streets.

After landing in this space, Yuei Vu patted his clothes, stood up, and looked directly at Saio Mizuchi: "So, can you tell me who the card player will play against me then?

Is he the commander of your so-called super fleet? I guess your battleship must have a duel arena, right? "

"Yuei Vu, the Duel King, the guardian of this world." Mizuchi said calmly, "Don't be too arrogant. You are just the king of this world, but the vastness of the universe is beyond the imagination of you frogs in the well.

Even in a duel with you, you are definitely no match for us"

Although she still spoke arrogantly, Yuei Vu still caught the key point, which was that she did not seem to deny that "the fleet commander will play cards with you."

No matter how awesome the alien fleet was, after all, it was still a fleet in the Yu-Gi-Oh! world. Yuei Vu boldly speculated that as long as the commander couldn't win the game, their Star Destroyer Cannon wouldn't be able to fire

Mizuchi turned his attention to Kaiba Noah beside him.

"So you're telling me this just to delay?"

She glanced at Yuei Vu.

"Are you waiting for Duel King to log in and go online?"

"That's part of the reason, and we're also interested in what you revealed." Noah Kaiba admitted.

"Then it means that if I can't win the duel, I can't get out of this programis that what you mean?"

"This is the basic setting of World Link Online'. Just like the world we live in, dueling is the most basic law." Noah smiled, "Actually, it's not impossible to fight you by myself. I am still relatively confident in dueling.

Of course, to be on the safe side, it is more appropriate for Mr. Yuei Vu to deal with you. "

"Just to be on the safe side your choice is indeed the right one."

Mizuchi gently lifted her black hair with her hand, and her beautiful eyes suddenly turned as red as blood, and she looked straight at Yuei Vu.

She stretched out her hand from the wide sleeves of her kimono, and the data storm gathered towards her, and her slender arm turned into a Duel Disk.

"Then come on, Duel King. You can defeat my brother, so let me challenge you!"

Chapter 959: Saio Mizuchi

"Duel!" x2

Yuei Vu, LP 4000

Saio Mizuchi, LP 4000

"Then it's me who goes first, draw!"

Mizuchi was a relatively petite woman, but her exquisite curves were still faintly visible even under the wide kimono.

The virtual network system developed by Kaiba has not yet been completed, and only a small area of the entire map has been completed. If nothing else, this should be the first time someone has dueled in this system.

Noah stood beside them with his hands behind his back, recording the entire process of the duel.

"Activate the Spell Card Graceful Charity', draw three cards and discard two cards."

Mizuchi drew three cards, and then gently twisted out two of them with her long fingers and sent them to the Duel Disk tomb area. The two cards quickly decomposed into data streams and poured into her Duel Disk.

"Then activate the Spell Card Monster Reborn' from my hand to resurrect a monsters in the GYs!" Mizuchi raised his voice, "Show up! Silver Spirit Sakyo!"

Black whirlpools opened on the ground, and the strong wind lifted the wide sleeves and hem of Mizuchi's kimono. The masked ninja landed on her field on a whirlwind, white streamers undulating in the wind.

[Silver Spirit Sakyo, ATK 600]

Sakyos effect! Miju knew, When this card is successfully Special Summoned, I can Special Summon Silver Spirit Ukyo from my graveyard.

Show up! Silver Spirit Ukyo! "

The whirlpool leading to the underworld then opened again, and a second ninja landed on the field, his appearance and dress were exactly the same as the one just now.

[Silver Spirit Ukyo, ATK 800]

"Then"

The corners of Saio Mizuchi's mouth raised slightly, revealing a smile with unknown meaning.

"I set the rest of my hand and my turn is over."

She inserted a large number of cards in her hand into the Duel Disk one after another, and five black cards appeared in her back row, like an iron wall.

Yuei Vu: ""

Little sister, you are quite capable.

Setting five pits in the backrow as soon as you come up?

Damn, you definitely didnt learn this dueling skill from your brother, right?

Kaiba Noah was observing and recording the data.

"Saio Mizuchi," Noah murmured to himself, "could she be the same type of duelist as Muto Yugi?"

Of course, even if the back row has five pits, what Yuei Vu had to do still remained the same. It's impossible to say that he didn't dare to play because he was bluffed by a bunch of traps.

If he remembered correctly, Mizuchi Saio was also the kind of player whose entire deck was all original cards from the animation, not having any real-life version.

"My turn, draw." Yuei Vu said, "Summon the Elemental HERO Bubbleman!"

Water burst out from the ground, and the azure water washed away from the hero's armor. An Elemental HERO, wearing a cross-section steel helmet and carrying a water gun on the back of his hand, fell through countless splashing bubbles, with his cape flying behind him and a confident smile on his lips.

Although our Bubbleman's stat was mediocre, we always have that extremely confident smile on our face. There's no way, the Greed Hero just had this capital.

"Elemental HERO Bubbleman's effect If there are no other cards on the field when this card is summoned, draw two cards from the deck."

Aster drawing two cards, Yuei Vu quickly revealed one of them and another card in his hand at the same time.

"Activate Spell Card Polymerization!" Yuei Vu said, "I fuse Elemental HERO Blazeman' in the hand and Elemental HERO Bubbleman' on the field!

The fusion condition is 1 Elemental HERO' monster + 1 WATER monster!

Born from the extremely cold abyss, freezing everything with the absolute power of ice and snow  
Elemental HERO Absolute Zero! "

A storm of ice and snow rolled up, flames and water flow alternately melted, the storm of ice and snow surrounded the light pillars and crashed to the ground, and a cold current swept across.

The hero in white armor crossed his arms, his plain white cloak fluttering in the snow, like the ruler of the ice and snow.

[Elemental HERO Absolute Zero, ATK 2500]

"At this moment, open the set card!" Mizuchi raised his hand, "Quick-Play Spell Demise of the Land! When the opponent Special Summons a monster, I can activate a Field Spell Card from the deck!"

A card popped up from the deck, and was gently pulled out by Mizuchi, and placed into the extra field grid of the Duel Disk.

"The Field Spell Infinite Fiend Mirror' is activated!!!"

The mysterious black mist immediately surrounded the field, and the black storm enveloped the two of them. A circular venue with mirrored panels appeared under their feet, with beams of light rising from all sides.

Yuei Vu frowned slightly.

This "Infinite Fiend Mirror" was also an anime-only Field Spell Card.

According to the animation process, Mizuchi should first activate a Continuous Spell called "Full Moon Mirror". It would place a counter every time a monster is destroyed on the field.

Only by sending the Full Moon Mirror with ten counters to the graveyard could the Field Spell "Infinite Fiend Mirror" be activated.

But it seemed that she used the effect of "Demise of the Land" to skip this cumbersome activation condition and directly activated this field from the deck.

"Then activate the Spell Card Miracle Fusion'."

Yuei Vu showed the Spell Card, and the two heroes that had just been sent to the graveyard popped up.

"Banish the Elemental HERO Bubbleman' and the Elemental HERO Blazeman' from the graveyard, and fuse them again!

The fusion condition is 1 Elemental HERO' monster + 1 FIRE monster! Fusion Summon  
Elemental HERO Nova Master! "

The flame pillar rose from the ground, and the Elemental HERO in red gold armor landed on the ground surrounded by flames, his cloak fluttering behind him.

[Elemental HERO Nova Master, ATK 2600]

"Two powerful high-level heroes were summoned in an instant. The Duel King is indeed as rumored. He masters the power of Elemental HEROes as skillfully as his own hands and feet."

Mizuchi smiled mysteriously.

"But facing this formation, do you dare to fight directly?"

Yuei Vu knew that she was referring to the back row.

Indeed, the four traps whose details were unknown appeared to be somewhat dangerous. And the shikigami with only 600 and 800 attack power were still in attack position. This kind of formation was like a naked little girl, saying it with a smile, let's have fun together

There must be fraud.

but

"Battle phase." Yuei Vu said without thinking, "Elemental HERO Absolute Zero' attacks Silver Spirit Sakyo'."

"Oh? Should I choose to call directly?" Mizuchi smiled, "What a courageous decision."

Yuei Vu said nothing.

He had a vague impression of the duel in the animation, and remembers the tactics of Mizuchi.

"Silver Spirit Sakyo" and "Silver Spirit Ukyo", these two monsters were actually the key to her trap formation. The trap she used to defend against attacks was, if nothing else happened, the "Mirror Bind".

Mirror Bind (Trap Card): Activate only if you control a face-up "Silver Spirit Ukyo" and "Silver Spirit Sakyo" when an opponent's monster declares an attack. Destroy the attacking monster and a face-up monsters your opponent controls with ATK equal to or less than the attacking monster. (anime card)

On Yuei Vu's side, Absolute Zero's attack power was 2500, Nova Master's attack power was 2600.

So here you should use Absolute Zero, who has lower attack power, to attack first.

"Open the set card!" Saio Mizuchi opened the backcourt, and it was just as Yuei Vu expected, "Trap Card Mirror Bind!

I can activate this card when both Silver Spirit Sakyo' and Silver Spirit Ukyo' exist on my field and the opponent declares an attack. Destroy the opponent's attacking monster, and then destroy an opponent's monster whose attack power is lower than the attacking monster! "

She raised her hand and swung her wide-sleeved robe, revealing a section of her white and slender forearm.

"According to this effect, Elemental HERO Absolute Zero' is destroyed!"

The mirror stood tall, and all the ice picks shot by Absolute Zero were engulfed in the mirror. After a moment, they were reflected back from the mirror with undiminished momentum. In turn, Absolute Zero was shot into a sieve and exploded into pieces!

"But the remaining monster on my field, Elemental HERO Nova Master', has a higher attack power than Absolute Zero, so it cannot be destroyed by the power of Mirror Bind'."

Saio Mizuchi frowned slightly.

"Furthermore, at this moment, Absolute Zero's effect is activated! When he leaves the field, all monsters on the opponent's field will be destroyed!"

The Elemental HERO who left the stage floated in the air in the form of a phantom, and the surging cold wave swept away the beautiful Shouzhi venue, freezing both ninjas into ice sculptures in an instant.

Absolute Zero!

"Mr. Yuei Vu predicted the counterattack of the opponent's trap, and deliberately used the opponent's trap to trigger the Absolute Zero effect to further counterattack?" Noah, who was watching, murmured, "It is indeed Mr. Yuei Vu."

"In this way, all your monsters will be destroyed." Yuei Vu said, "The battle continues! Elemental HERO Nova Master, attack directly!"

Chapter 960: Add Another Attack!

"Elemental HERO Nova Master, attack directly!"

The hero's armor was engulfed in flames, and the flames wrapped around his arms and torso. The energy shock enveloped the high temperature of the distorted space and shot straight towards Mizuchi's face!

But the remaining set card of Mizuchi was not just a decoration: "Open the set card: Continuous Trap Call of the Haunted! Target 1 monster in my GY; Special Summon that target in Attack Position!"

I resurrected Silver Spirit Ukyo! "

[Silver Spirit Ukyo, ATK 800]

The black storm rolled up, and the soul was called back from the underworld. The masked ninja flew lightly back to the field, streamers flying in the wind.

The effect of Silver Spirit Ukyo when this card is successfully special summoned, you can special summon the Silver Spirit Sakyō in the graveyard!

Meishuzhi raised her slender and well-proportioned arms.

Special summons Silver Spirit Sakyō!

Silver Spirit Sakyō, DEF 800

"Suddenly Sakyō and Ukyō were gathered at the same time" Kaiba Noah frowned, "But the Mirror Bind' has already been used Or is there something fishy?"

Even if Sakyō and Ukyō were resurrected, their stats would still be too low. Especially for Ukyō who was in attack position, if he is attacked, he could only offset 800 points of battle damage for Mizuchi. It seemed too uneconomical to consume a "Call of the Haunted" just to save such a small amount of LP.

"For the sake of safety at this time, perhaps he should stop attacking"

Continue to attack. Yuei Vu's face was expressionless.

Nova Master did not stop, the flames wrapped around his body, and spiral pillars of fire burst out from the palms of his hands!

Trap Card Mirror Trap! Mizuchi waved his hand, Select 1 Normal Trap Card in my Graveyard that was activated this turn, and Set it to my side of the field. It can be activated this turn!"

Noah suddenly realized: "That's it! That's why she wants to resurrect Sakyō and Ukyō together"

The trap which Mizuchi wanted to return to the field was naturally self-evident. The data stream poured out of her Duel Disk, transformed back into the shape of a card at her fingertips, and was held in her hand.

I retrieve the trap card Mirror Bind and set it on the field again. She said, Then activate it immediately!

The set card composed of data flow briefly appeared, and then immediately flipped over, turning into a towering mirror lying in front of Mi Shouzhi.

"Mirror Bind's effect! Destroy the opponent's attacking monster, and then destroy an opponent's monster whose attack power is lower than the attacking monster!"

The image of Nova Master was clearly reflected in the mirror. The scorching energy beam hit the mirror straight and was quickly absorbed. In the blink of an eye, it was reflected back with even greater momentum and hit Nova Master himself.

The Elemental HERO was blown to pieces in the explosion.

Mizuchi chuckled: "This way your field will be empty. It seems that I am slightly better this turn."

"That's not necessarily true."

Yuei Vu showed two more cards in his hand.

"Quick-Play Spell Instant Mask Change! Send 1 Masked HERO' monster from my hand to the Graveyard, then Special Summon 1 Masked HERO' monster from my Extra Deck with the same Attribute!" (manga card)

Yuei Vu staggered the two cards in his hand and showed the one that was blocked behind.

I sent the Masked HERO Dusk Crow to the graveyard, transform!

The ghost who walks in the darkness and kills monsters

Masked HERO Anki, summon! "

The lower-level masked hero with DARK attribute appeared briefly, and his body was quickly surrounded and covered by flying armor. A jet-black energy flow erupted, and the Masked HERO wearing black armor and having a "ghost" shape fell lightly.

Masked HERO Anki, ATK 2800

Mizuchi frowned slightly: "You eat my Mirror Bind' twice in a row, and you can still continue to attack?"

Yuei Vu said, Masked HERO Anki, attack Silver Spirit Sakyo!

Anki's footsteps were fierce, and his figure seemed to disappear out of thin air. He flashed out in mid-air like a ghost, turning into a ghostly afterimage, like a cannon barreling down!

As expected of a Duel King, you are really unyielding. But

Mizuchi's eyes suddenly showed a cold light, and his sight was like a cold dagger.

Open the set card: Trap Card Buried Soul Talisman! she shouted, It can be activated during the turn 2 or more monsters were destroyed and sent to the Graveyard!

Destroy an opponent's monster, and Special Summon 1 Level 5 or higher monster from my hand! "

Her wide kimono sleeves swayed, and her jade-white fingers locked onto the Masked HERO who was diving and kicking.

I destroyed Masked HERO Anki and specially summoned Magic Mirror Spirit Nayuta from the graveyard!

The new shikigami made a grand debut. This was a shikigami with long silver-white hair. She wore a white cat-eared mask and a wide kimono. Under the clothes, his long white legs are exposed.

Magic Mirror Spirit Nayuta, ATK 2600

"On the basis of counterattack, she further summoned a higher-level monster." Noah Kaiba nodded slightly, "This woman is also quite difficult to deal with."

According to the effect of the Buried Soul Talisman, Masked HERO Anki will exit the stage here. Mizuchi covered her mouth and chuckled.

The spells floated out like a whirlwind, and one after another stuck to the Anki's armor, and were ignited by sparks one after another, as if they were about to explode at any time.

Quick-Play Spell Mask Change! Yuei Vu waved his hand, Send 1 HERO' monster I control to the Graveyard, then Special Summon 1 Masked HERO' monster from my Extra Deck with the same Attribute!

I sent Masked HERO Anki to the graveyard, transform!

The hero of darkness, the ghost who kills monsters

Masked HERO Anki, summon again! "

Anki instantly broke free from the shackles of the talisman with the help of transformation effects! The dark mist erupted with him as the center, and the mist quickly transformed into the shape of armor and attached itself to his body again, transforming into the ghost's armor again!

Using Anki to transform into Anki again, making Buried Soul Talisman lose its effect in the process? Mizuchii looked surprised.

At this point, her five traps in the back row have been completely consumed, leaving no trick left.

Even after getting to this point, the Duel King's offensive has not been blocked yet!?

Mizuchi's confidence was somewhat shaken.

She felt that Yuei Vu's offensive was so continuous, one wave after another, one wave overpowering the other. Mizuchi, who was originally confident that she could survive no matter how many waves, now felt a little overwhelmed and unable to bear it

The battle continues! Masked HERO Anki, attack the Magic Mirror Spirit Nayuta!

The Anki who transformed again jumped up high, holding his body and spinning in mid-air, and hit the towering part of the magic mirror shikigami with a flying kick.

Miss Shikigami groaned and was kicked out, her body split into pieces.

Mizuchi, LP 4000 LP 3800

"The effect of Masked HERO Anki." Yuei Vu continued, "Once per turn, when this card destroys an opponent's monster by battle and sends it to the GY: I can add 1 Change' Quick-Play Spell Card from my Deck to my hand."

Mizuchi's eyelids twitched.

Adding 1 Change' Quick-Play Spell Card doesn't this mean!?

I added the Quick-Play Spell Mask Change to my hand again. Yuei Vu said, Then I activated Mask Change again!

Send Masked HERO Anki' on the field to the graveyard, transform!

The lonely vengeful hero, the embodiment of the dark law

Masked HERO Dark Law, summon! ! ! "

Transformed again, the dark transformation special effects turned into a wolf-like ferocious armor, and the silver-white blades were like shining fangs.

Masked HERO Dark Law, ATK 2400

Mizuchi's face changed slightly.

Can you transform again?

There were too many attacks, and she finally seemed to be a little unable to bear it.

Because it's the Battle Phase, the attack can continue! Yuei Vu shouted, Masked HERO Dark Law, add another attack!
