Chapter 961: God of Darkness' Five Consecutive Strikes

"Masked HERO Dark Law, another additional attack!"

Like a jackal's attack, the black claws tore the shikigami's body apart. Of course, Ukyo, whose attack power was only 800, could not be the opponent of the Masked HERO. He was killed on the spot with just one shikigami.

【Mizuchi, LP 3800 →LP 2200】

This was not the end yet. As the body of Ukyo was destroyed, a dark hole opened in mid-air. A powerful gravitational force was released, pulling the shikigami's shadow into it without saying a word.

“What?” Mizuchi was surprised, “This is...”

"The effect of Masked HERO Dark Law." Yuei Vu said, "As long as this card exists in the monster zone, any card sent to the opponent's GY is banished instead!"

Mizuchi: "!"

No wonder the Duel King chose to summon "Masked HERO Dark Law" for his last transformation instead of transforming into Anki with higher attack power again. This Dark Law actually has such a powerful effect.

Not only are monsters eliminated from the scene, but even the souls of the destroyed monsters are exiled to another dimension!

It's truly a terrifying ability.

“I see.” Kaiba Noah said, “‘Silver Spirit Sakyō’ and ‘Silver Spirit Ukyō’, no matter which one is Special Summoned to the field, the other one in the graveyard can be revived back to the field.

Mainly, if these two shikigami exist at the same time, they can activate various Spell and Trap effects to carry out attacks.

But if one of them is directly removed from the game...”

"Have you found a way to defeat me?" Saio Mizuchi raised his beautiful eyebrows, "The first-generation Duel King is able to do this in just one turn... I seem to understand why my brother considers you a huge threat."

“I activate the Spell Card ‘Card of Burial Magic’.” Yuei Vu said, “Banish 3 Spell Cards from my Graveyard. Draw 2 cards.” (Animation Card)

He revealed three cards from the graveyard.

“I remove the Spell Cards ‘Polymerization’, ‘Miracle Fusion’, and ‘Mask Change’ from the game and draw two cards.”

"Set two cards, I end my turn." Yuei Vu said.

“Then it’s my turn, draw.” Mizuchi said, “Spell Card – Card of Sanctity! Players on both sides will draw cards from their decks until they have 6 cards in their hand.”

A true duellist would never stay empty-handed, so it could be predicted that the next card of Mizuchi who was empty-handed here would definitely be a draw engine.

While drawing, Yuei Vu reminded her: “But at this moment, another effect of ‘Masked HERO Dark Law’ was also activated.

Once per turn, if the opponent adds a card(s) from their Deck to their hand, except during the Draw Phase or the Damage Step: I can banish 1 random card from the opponent's hand! ”

Dark Law's figure flashed like a ghost before appearing in front of Mizuchi. His sharp claws swiped across it, and a card disappeared out of thin air under the distortion of the dimension.

“It actually has such an effect...”

Mizuchi bit her red lips, and then showed another card: "Then I activate the Equip Spell ‘Sacrifice of Grave Goods’! Equip it to the ‘Silver Spirit Sakyo’ on the field!

The monster that is equipped with this card can be treated as 2 Tributes! ”

She drew a card from her hand.

“I sacrificed the ‘Silver Spirit Sakyo’ equipped with ‘Sacrifice of Grave Goods’! Tribute Summon!

The dark god who lives in the endless dark abyss——

——God of Darkness, summon!!! ”

A Level 10 monster, the strongest trump card held by Saio Mizuchi. The two sacrifices disappeared from the field, and a dark and twisted thing rose from the ground.

That was an extremely weird creature, completely different from any animal that people have ever seen on earth. It had a strange appearance, which was ugly but made people shudder, and its huge eyes were as cold as the abyss.

【God of Darkness, ATK 3000】

"God of Darkness," Yuei Vu looked up at the monster that exuded an ominous aura and said calmly, "These days, anything can claim to be a ‘god’."

"The effect of the Field Spell ‘Infinite Fiend Mirror’ is activated." Saiou Mijuchi quickly entered into his own rhythm, "When there is a ‘God of Darkness’ on my field, I can Special Summon as many ‘God of Darkness Tokens’ as possible!"

The field was activated, and the surrounding light pillars simultaneously transformed into mirrors. The light paths intersect, mirror projections, beams of light fall on the ground, and dark and twisted mud rises from the ground one after another on Mizuchi's field, all of which were transformed into the mirror image of "God of Darkness" in turn.

“Based on this effect, I Special Summon four ‘God of Darkness Tokens’! These Tokens all have the same Type, Attribute, Level, ATK, DEF, and monster's effect as the ‘God of Darkness!’”

【God of Darkness Token, ATK 3000】 x4

Even the artificial intelligence Kaiba Noah couldn't help but look shocked: "Monsters with an attack power of 3000... and she summoned five of them in an instant?"

“However, the God of Darkness also has its own shortcomings.” Mizuchi said, “That is, they cannot directly attack players.”

In other words, even if there were five gods of darkness present, they could only fire one shot in total. Once Yuei Vu's "Masked HERO Dark Law" was destroyed, the remaining four monsters could only stare and be unable to attack.

After a pause, she turned around and said, "But of course, I have also prepared tactics to overcome this flaw!

I activate the Quick-Play Spell ‘Half Shut’ from my hand!

Target 1 face-up monster on the field; it cannot be destroyed by battle this turn, also its ATK is halved until the end of this turn! "

"Huh?" Yuei Vu narrowed his eyes, "This is really... an interesting tactic."

“I choose the ‘Masked HERO Dark Law’ on your field. Its attack power is halved and cannot be destroyed by battle!”

【Masked HERO Dark Law, ATK 2400 → ATK 1200】

This was a bit disgusting.

Not only did it halve the attack power of "Masked HERO Dark Law" and double the battle damage, but also adding damage resistance to the Dark Law increased the attack from one shot to five consecutive attacks.

Five consecutive hits with an attack power of 3000, totaling 9000 points of combat damage. That would probably be enough to kill anyone.

“Battle !” Mizuchi gave the attack command, “God of Darkness No. 1, attack the ‘Masked HERO Dark Law!’”

"Open the set card: Trap Card – Damage Diet!" Yuei Vu said, "During this turn, all damage I receive will be halved!"

The impact of chaos hit the Masked HERO, the shock wave washed away from the dark armor, and the aftermath swept over Yuei Vu.

【Yuei Vu, LP 4000 →LP 3100】

The second shot followed, then the third, the fourth... The impact of the God of Darkness hit the Dark Law one after another. Although Dark Law, protected by magic, did not fall down, the strong armor had many cracks, and he could not help but kneel on the ground and gasp violently.

【Yuei Vu, LP 400】

“The last blow.” Saiou Mizuchi showed a proud and dangerous smile.

The Duel King Yuei Vu, who makes my brother fear him like a savage beast, seems to be nothing more than that.

Easily.

Life Points...six thousand seven hundred!?

Chapter 962: One Card Creates Everything

"Life Points... six thousand seven hundred?" Mizuchi was stunned, not knowing whether there was a problem with the program or herself.

Could it be a shady plot? Did the Duel King deliberately tamper with the Duel Disk?

He cannot be so shameless, can he?

"Trap Card 'Rainbow Life'." Yuei Vu calmly showed a card that was sent to the graveyard at that moment. "Discard 1 card. All damage I took this turn prior to this card's activation is negated. Increase my Life Points by the amount of damage negated by this card's effect." (animation effect)

Mizuchi's face changed slightly and became gloomy: "So, those attacks I just made...were you deliberately playing tricks on me? Mr. Duel King?"

"How can you say that?" Yuei Vu said sincerely, "Do you think I am that kind of person?"

Mizuchi: "..."

She remained silent and silently drew another card.

“Set two cards, I end my turn.”

Logically speaking, in the round just now, Yuei Vu only needed to use "Rainbow Life" to resist.

But he deliberately used "Damage Diet" first, and withstood four consecutive attacks from the God of Darkness in one breath. Only when his LP was only 400 and seemed to be in a desperate situation, he revealed the "Rainbow Life" that he could have activated long ago.

What does it mean?

Does this mean that even if such a card is missing, it will have no impact on the outcome of the duel?

It's not like there's nothing like this in the duel world. When the gap in strength between the two sides was too large, sometimes some people would indeed perform some unexplained operations to appear to be at ease.

Saio Mizuchi—or rather the personality born from The Light of Destruction—felt that this was an insult to herself!

"Then it's my turn, draw." Yuei Vu took a deep breath, "Okay, it's almost time for the game to end."

Mizuchi sneered: "That's not sure. Don't be too confident, Duel King."

"No, no, no, it's not confidence, I'm just stating the facts." Yuei Vu smiled, "Don't you two always like to talk about the so-called 'fate'?"

Then if there is such a thing as 'fate' in the world, then your fate is to be defeated by me here and now. "

Mizuchi: "!"

The other party was so arrogant. She originally wanted to speak out something to retort, but she couldn't get the words out of her mouth. She held it in for a long time and swallowed it back.

On the contrary, the uneasiness became more and more serious.

"I activate the effect of the 'Apprentice Illusion Magician' in my hand." Yuei Vu said, "This card can be Special Summoned directly from my hand by discarding 1 card!"

A card in the hand was discarded, and a cute and cute black-skinned magician girl jumped out onto the field. She had long silver-white hair under her magic hat and a very proud figure.

She looked exactly like the silver-haired, dark-skinned version of Dark Magician Girl, down to the chest size.

【Apprentice Illusion Magician, ATK 2000】

"The effect of 'Apprentice Illusion Magician' – If this card is Normal or Special Summoned: I can add 1 'Dark Magician' from my Deck to my hand." Yuei Vu said.

Mizuchi frowned: "A magician I've never seen before..."

"Then the card I just discarded is 'Elemental HERO Shadow Mist'." Yuei Vu said, "If this card is sent to the GY: I can add 1 'HERO' monster from my Deck to my hand.

I added 'Elemental HERO Stratos' from the deck to my hand. "

Pull out the card that pops up automatically from the deck and add it to your hand. Yuei Vu then reveals the other two cards in his hand.

"Activate the Spell Card 'Sacred Sword of Seven Stars'. Banish the level 7 'Dark Magician' in the hand and draw two cards from the deck.

Then I normal summon 'Elemental HERO Stratos'! "

In a milky white whirlwind, two white air waves were sprayed out from behind the hero and circled in the air several times before landing lightly.

【Elemental HERO Stratos, ATK 1800】

"The effect of Stratos is to add 1 'HERO' monster from my Deck to my hand when summoned." Yuei Vu drew another card that automatically popped up, "I added 'Vision HERO Faris' from the deck to my hand."

The deck was automatically shuffled, and at the same time, this Vision HERO was put on the Duel Disk.

“Discard 1 other ‘HERO’ monster and special summon ‘Vision HERO Faris!’”

“The effect of Faris – place ‘Vision HERO Increase’ from the deck. Then the effect of Increase – use Faris as a sacrifice, and special summon himself!”

“When Increase is Special Summoned, special summon ‘Vision HERO Vyon’ from the deck!”

“When Vyon is Special Summoned, send ‘Destiny HERO Malicious’ from the deck to the graveyard.

Then the second effect of the Vyon is activated! Banish ‘Vision HERO Faris’ in my graveyard and add 1 ‘Polymerization’ from my Deck to my hand. ”

After a series of preparations, Yuei Vu's field was filled with five monsters, facing off against the five gods of darkness on Mizuchi's side.

Perhaps this is the so-called "one card creates everything".

Mizuchi felt uneasy: "What on earth do you want to do?"

Yuei Vu ignored it: "I sacrificed the three monsters on the field, ‘Apprentice Illusion Magician’, ‘Masked HERO Dark Law’, and ‘Elemental HERO Stratos’!

The power of destruction brings about the end of the fate of all things, turning into the ultimate hero and coming——

——Destiny HERO Plasma!!!"

The three monsters disappeared one after another, and the water bubbles rolled in the bloody mire. The ferocious monster flew out of the mire with dripping blood, and the blood dripped down the unfolded bone wings.

He spread his wings and hung in the air, blood dripping down the complex patterns on his armor and bone wings. His arms carried a cannon-like dragon head, and his eyes were as scarlet as blood.

【Destiny HERO Plasma, ATK 1900】

"The effect of Plasma," Yuei Vu said, "When this card is on the field, the effects of all monsters on the opponent's field are negated!"

Mizuchi bit her lip.

Her "God of Darkness" had other hidden effects. It had protection against being destroyed by battle.

Because of the effect of "Infinite Fiend Mirror", all the "God of Darkness Tokens" on her field also inherited this destruction resistance, which was the most reassuring line of defense for her.

With the emergence of Plasma, this line of defense was torn apart so easily and silently.

“Destiny HERO Plasma's second effect is activated!” Yuei Vu said, “Once per turn, I can select 1 monster on the opponent's side of the field and equip it to this card, then Plasma's attack power will increase by half of the equipped monster's attack power!

I absorbed the ‘Dark God’ and obtained half of its attack power! ”

Plasma's bone wings spread out, and countless bright red tentacles thrust out from the air!

Chapter 963: Frontline Fusion

The tentacles of Plasma firmly bound the ferocious monster on the field of Mizuchi. The dark demon struggled with all his strength, letting out a weird and vague moan, and was dragged inch by inch towards Plasma, and was unwillingly absorbed into Plasma's broad bone wings.

"Destiny HERO Plasma can absorb a monster on the opponent's field once per turn and gain half of its attack power!" Yuei Vu said.

【Destiny HERO Plasma, ATK 1900 → ATK 3400】

“You actually absorbed my God of Darkness?” Mizuchi said.

"Then there is the effect of the ‘Elemental HERO Captain Gold’ in the hand." Yuei Vu continued, "Discard this card and add 1 ‘Skyscraper’ from the deck to my hand."

The image of a hero in gold armor and a red cloak flashed briefly, and a Field Spell popped up from the deck simultaneously. Yuei Vu raised his arm, and the extra field grid on the side of the Duel Disk popped up.

“The Field Spell ‘Skyscraper’ is activated!”

^ As the new field was launched, the existing field would naturally experience shocks. The space cracked open, and the surrounding mirrors were filled with cracks and exploded.

The mirror-like platform beneath both sides seemed to have been smashed by a heavy hammer, and replaced by high-rise buildings. Skyscrapers rose from the ground, and the bright moon hung in the sky.

"As long as Skyscraper exists on the field, if an ‘Elemental HERO’ monster battles a monster that has a higher ATK, it will gain 1000 ATK." Yuei Vu said, "And because the new field is activated, the ‘Infinite Fiend Mirror’ will disappear. ”

This meant that even if Mizuchi managed to get her "God of Darkness" back, she would not be able to special summon God of Darkness Tokens through the effect of "Infinite Fiend Mirror".

Of course, the premise was that there was still another round.

“I activate the effect of ‘Destiny HERO Malicious’ in the graveyard! Banish it and special summon a card with the same name from the deck!”

【Destiny HERO Malicious, 800】

“Activate Spell Card – Polymerization!” Yuei Vu said, “I fuse three monsters on the field, ‘Vision HERO Increase’, ‘Vision HERO Vyon’, and ‘Destiny HERO Malicious’!

The fusion condition is 3 'HERO' monsters!

Restrictions lifted! The ultimate posture of the Vision HERO——

——Vision HERO Trinity, Summon!!! "

The beam of light crashed to the ground, and the hero in red heavy armor crushed the ground. He put his hands on his hips, and the red core of his chest shone dangerously.

【Vision HERO Trinity, ATK 2500】

"In the turn Trinity is Fusion Summoned, its attack power becomes twice the original attack power!"

【Vision HERO Trinity, ATK 2500 → ATK 5000】

Mizuchi's expression suddenly changed: "Attack power...five thousand?"

"And," Yuei Vu added with a smile, "Vision HERO Trinity can attack monsters up to three times in one Battle Phase!"

Mizuchi's beauty faded like a withered flower.

Attack power 5,000... and three consecutive shots?

This will definitely too OP, right?

"Battle!" Yuei Vu said, "First, 'Destiny HERO Plasma', attack the 'God of Darkness Token'!"

The attack power of Plasma, which has absorbed the God of Darkness, has surpassed these Tokens. And under the domain suppression of Plasma, all the monster effects of the God of Darkness were negated, which meant that their resistance of "not being destroyed by battle" was also taken away.

The first attack passed without any hindrance. The God of Darkness Token was shot into a sieve by blood arrows all over the sky and exploded on the spot.

^ **【Mizuchi, LP 2200 →LP 1800】**

Mizuchi had three God of Darkness Tokens left on the field, and Trinity still had three attacks left.

The last blow.

"'Vision HERO Trinity', attacks God of Darkness Token!"

The red armor began to operate, and ultra-high temperature energy rippled in the core. A golden wave exploded, and an ultra-high-concentration energy beam headed straight for one of the Tokens!

But the moment the trio took action, the panic on Mizuchi's face suddenly disappeared, replaced by a smile as if her plot had succeeded.

"Open the set card!" The card in front of her was flipped, "Trap Card... Draining Shield!"

Yuei Vu raised his eyebrows slightly.

It's actually Draining Shield?

The shield with colorful brilliance was like an iris of water blocking the front of Mizuchi. The trio's beams of light washed violently on the barrier. At the same time, Mizuchi smiled from behind the

barrier: "When an opponent's monster declares an attack: Target the attacking monster; negate that attack, and I gain LP equal to that target's ATK.

In other words, Trinity's attack is ineffective this time...and I can recover 5,000 LP! "

^ 【Mizuchi, LP 1800 →LP 6800】

At the same time, she seemed to have finally given up on her ladylike image so far, showing a "Light of Destruction"-style smile.

“Hahahaha, it seems like you didn’t expect this move at all, Duel King! Didn’t you say that you’re going to finish me off in this turn? Can you still say such a thing now?”

Yuei Vu ignored her: "Vision HERO Trinity, continue to attack! The second shot!"

The armor of the Trinity continued to operate, and the energy beam plowed burning cracks on the ground! Another God of Darkness Token was sliced head-on by the laser and instantly exploded into pieces.

^ 【Mizuchi, LP 6800 →LP 4800】

2000 points of damage was quite painful in theory. Mizuchi suffered the impact, and her thin body was crumbling like a flower in the wind.

However, she curled her lips and said, "Oh, I feel nothing at all. Do you really have the strength?"

Yuei Vu still ignored it: "The third shot!"

The Vision HERO moved without stopping, and the laser blasted out again. Another God of Darkness Token was destroyed by the powerful beam impact and was annihilated into dregs.

^ 【Mizuchi, LP 4800 →LP 2800】

The last token of the God of Darkness was left, and Mizuchi still had 2800 LP, but Yuei Vu's attack seems to have come to an end.

"What's wrong, Duel King? I still have 2800 LP." Mizuchi's face art became more and more arrogant, "Aren't you trying to convince me?"

Didn’t you say you were going to knock me down this turn? Is this the only result? "

She thought that Yuei Vu had nothing to do, and was taunting him arrogantly, but unexpectedly she caught a glimpse of the corner of his mouth rising into a slight smile.

Mizuchi: "!"

Yuei Vu slowly drew another card from his hand, “Quick-Play Spell – Frontline Fusion.”
(Animation Card)

Mizuchi: "!?"

Frontline Fusion? A fusion card I’ve never heard of...

“This card can only be activated during the Battle Phase. Fusion Summon 1 Fusion Monster from my Extra Deck, using monsters from your hand or my side of the field as Fusion Materials.”

Yuei Vu showed two cards in his hand.

“I fuse ‘Elemental HERO Sparkman’ and ‘Elemental HERO Avian’!

The fusion condition is 2 ‘HERO’ Normal Monsters! Fusion Summon——

——Elemental HERO Grandmerge! ! ! ”

Strong light burst out in the fused vortex, and energy beams penetrated the sky and the earth. The golden current tore through the light curtain. The hero was dressed in extremely gorgeous armor, with a gun barrel overflowing with electricity on the back of his hand, and behind him were white and wide wings.

【Elemental HERO Grandmerge, ATK 0】

“Grandmerge will gain ATK/DEF equal to the combined original Levels of the materials used for its Fusion Summon x 300.” Yuei Vu said, “Sparkman’s level is four and Avian’s level is three, the total is seven, so the ATK increases by 2100.”

【Elemental HERO Grandmerge, ATK 0 →ATK 2100】

After seeing the fused hero's posture clearly, Mizuchi breathed a sigh of relief, and the mountains on her chest rose and fell violently.

"Heh, what did I think it was? An Elemental HERO with an attack power of 2100 cannot defeat the remaining God of Darkness Token on my side..."

"Grandmerge, attack the last God of Darkness Token!"

“Nani?” Mizuchi suffered another cardiopulmonary arrest, and the mountain rose.

“You actually used a hero with lower attack power...”

"Have you forgotten?" Yuei Vu smiled slightly and pointed to the place where the two of them were.

"This field... Skyscraper!?" Mizuchi was shocked, "Oops..."

"Skyscraper's effect! When my ‘Elemental HERO’ is battling the opponent's monster that has a higher ATK, it will gain 1000 ATK!"

【Elemental HERO Grandmerge, ATK 2100 →ATK 3100】

100 points of attack power became an unovercomeable chasm. Grandmerge spread out his snow-white wings, and his body was almost engulfed by golden lightning. His whole body impacted like an electromagnetic railgun, and one blow penetrated the dark beast from front to back and exploded it into pieces.

^ **【Mizuchi, LP 2800 →LP 2700】**

She gritted her teeth: "You can actually attack to this point... But even so, you still can't kill me in this round..."

"The effect of Grandmerge." Yuei Vu said slowly, "When this card destroys an opponent's monster by battle: I can Tribute this card; Special Summon 1 ‘Elemental HERO’ Fusion Monster from my Extra Deck, ignoring its Summoning conditions! ”

“Na...Nani!?”

Mizuchi’s beautiful and delicate face had changed shape, and her facial expressions were almost the same as her brother's.

Grandmerge disappeared from the field into golden light spots all over the sky, and the sacred brilliance shone throughout the space! The silver-white armor flew out, and its wings of energy filled the sky with fluorescent light. The ultimate Elemental HERO seemed to be emitting invisible tail flames as he landed gently.

【Elemental HERO Shining Flare Wingman, ATK 2500】

Mizuchi was stunned for a moment, and then she forced herself to say: "Ha... haha, its attack power is 2500, even if the attack passes, I still have 200 LP left!

Looks like you can't beat me here after all..."

“The effect of ‘Elemental HERO Shining Flare Wingman’! For each ‘Elemental HERO’ in my graveyard, his attack power increases by 300.”,

As he spoke, the Elemental HERO cards in Yuei Vu's graveyard emerged one after another, floating in the air.

Absolute Zero, Nova Master, Stratos, Shadow Mist, Captain Gold, Sparkman, Avian, and Grandmerge...

A total of eight heroes!

“So the attack power of ‘Elemental HERO Shining Flare Wingman’ increases by 2400.”

【Elemental HERO Shining Flare Wingman, ATK 2500 → ATK 4900】

"Attack power...four thousand nine hundred!?" Mizuchi couldn't help but twitch her face.

“Elemental HERO Shining Flame Avian, attack directly!” Yuei Vu said, “Shining Shoot!”

Silver-white beams of light flew toward her! This time there was no monster that could act as a wall, and there was no trap in the back row. The beam passed through Mizuchi's petite body without any hindrance.

She let out a scream, her body was thrown high into the air, and then she fell hard back to the ground of the virtual world, with data streams sputtering around like sparks.

【Mizuchi, LP 2700 →LP 0】

Chapter 964: Just Let Him Go

In the original animation, the force of The Light of Destruction that came to the earth was not that strong. It only possessed Saio Takuma and did not attack his sister. Therefore, the pretty sister Mizuchi also escaped the fate of having to perform face art.

However, she obviously couldn't escape it here.

In the moment before being knocked away by the Flashing Flame Winged Man, Mizuchi's face art reached the extreme, as if The Light of Destruction attached to her body was exerting all its strength in the final struggle before facing the final blow that decided life and death.

Although this was playing cards in the data world, and the two warring parties were technically not in the same place, it didn't affect the Shadow Game.

You must know that at the beginning of DM, President Pegasus was able to make a life bet with Atem through a videotape. After that, he also abducted the soul of the millennium hostage Sugoroku Muto through the TV screen (Sakado called him an expert and even wanted to learn to play cards), which was enough to show that Shadow Games could ignore the constraints of common sense.

You could play through a videotape, so there's nothing wrong with playing a Shadow Game along the network cable.

The consequences of losing would naturally be self-evident. The Light of Destruction that resided in Mizuchi's body was obviously not as strong as her brother's. Yuei Vu could also intuitively feel this from the duel just now.

Therefore, there were not any surprises in the end. This part of The Light of Destruction was quickly cleared and disappeared with the defeat of the duel.

But before they died, like many villains, they said a harsh word at the end.

"Don't think this is the end, your destiny has not changed at all!"

The pale and twisted light separated from Mizuchi's body and dissipated while shouting with the remaining strength.

"The fate of destruction will soon come to this planet, and the light will purify everything! Until then, enjoy the time you have left!!!"

With that, it was torn into pieces and disappeared.

Saio Mizuchi's expression also returned to normal, and her body no longer twitched in pain.

In fact, she was pretty good-looking, with a beautiful face and a promising figure. But if the experience just now was recorded for her, it would probably be regarded as black history.

The Light of Destruction disappeared, but she still fell to the ground unconscious and motionless.

This was a data world, and the professional skills of ordinary doctors were not useful here. So Yuei Vu turned to Kaiba Noah and asked: "What is her condition now?"

Isn't it true that I accidentally applied too much force and broke her?

"She's fine, she's just mentally tired." Noah stepped forward, "In order to facilitate movement in the data world, The Light of Destruction digitized her consciousness.

Now her consciousness and body have been separated, which is equivalent to being trapped in the data world. "

Yuei Vu remembered: Saio Mizuchi seemed to have been trapped in the data world in the original work too, didn't she? But she was voluntary at that time, because she saw through the plan of The Light of Destruction that possessed her brother to use orbiting satellites to destroy mankind, and deliberately digitized herself to invade the backdoor of the satellite to prevent its launch.

"Can you help her recover?" Yuei Vu asked.

"Of course." Noah smiled confidently, "Who do you think I am?"

There may indeed be no one who was more expert than him in the digitization of human consciousness. Although strictly speaking, he was not a human, but an intelligent program that replicates the complete human consciousness. But Noah had done something like this when he locked the consciousness of the protagonist group in a virtual world, and he was professional in this regard.

"First, let her wake up and ask some questions."

Kaiba Noah snapped his fingers, and Mizuchi seemed to be stimulated by something. Her long eyelashes twitched, and then she opened her eyes with some difficulty.

She looked confused.

"You're awake." Yuei Vu said straight to the point, "Saio Mizuchi, you have just been possessed by an evil will called the 'Light of Destruction' and attacked the internal network of Duel Academy.

Now you are in the virtual world developed by Kaiba Corp, and I have some questions."

Upon hearing this, Mizuchi's eyes flashed, as if she was recalling something quickly. She hurriedly grabbed the hem of Yuei Vu's clothes and interrupted: "Mr. Yuei Vu, you must stop my brother!"

"Calm down, your brother Saio Takuma has been defeated." Yuei Vu said, "He met Jonouchi Katsuya outside the Kaiba Corp. After losing in a duel, 'The Light of Destruction' in his body has been removed.

He is currently in Domino Hospital."

"No, you don't understand." Mizuchi shook his head desperately, "The Light of Destruction has not been destroyed at all! My brother... he has not been saved either!"

Yuei Vu frowned: "But I personally went to the hospital to confirm. Although Saio Takuma is still unconscious, there is indeed no abnormal energy reaction in his body."

"Because that power is no longer in his body at all, and neither is his own consciousness!"

Mizuchi grabbed the hem of his clothes with her little hands and tried her best to stand up, but it seemed that even in the virtual world, she had very little strength left, and her legs and feet were not in control and she could not stand up at all.

"My brother... when he lost to Katsuya Jonouchi, the power of The Light of Destruction enveloped his consciousness and transferred it to the online world through the 'Duel Link' system in the Duel Disk!"

Yuei Vu: "???"

WTF? Is there such an operation?

No, wait a minute.

Considering that in the original work, Mizuchi digitized herself and hid in the online world, and the Mizuchi I just faced who was possessed by "The Light of Destruction" was also causing trouble in the online world...

Doesn't this really seem impossible?

"So now my brother's body is just an empty shell." Mizuchi said, "He used the 'Duel Link' system as a medium to hide in a corner of the online world and wait for the opportunity.

And the purpose of The Light of Destruction that just possessed me was not to defeat you at all.

It hacks into the projection system of the Duel Academy, creates large-scale chaos, and disrupts the GX competition. In fact, its purpose is just to deceive others and attract attention, especially your attention.

In this way, my brother who is hiding in the online world has the opportunity to fish in unclean waters."

Yuei Vu's face darkened, and after a moment he asked, "Then what is your real purpose?"

"A student of the Duel Academy possesses the dark power equivalent to the natural enemy of 'The Light of Destruction'. The instructions of the Tarot Card show that he is a crucial duelist who may shake up the destiny."

After a pause, Mizuchi solemnly revealed the name that Yuei Vu had already guessed in his heart.

"Yuki Judai." She said, "They want to draw Yuki Judai over and become the Light's partner."

Yuei Vu understood: "So that's it."

Kaiba Noah looked at Yuei Vu with some curiosity: "Mr. Yuei Vu, are you not worried at all when you hear this? I mean, you have fallen to a feint! Isn't Judai your student?"

"You're right, he's my student. So what?" Yuei Vu said with a smile, "Do you think that if I weren't here, he would have been defeated at the speed of light, been used as a hostage to blackmail me, or simply been brainwashed to go to the opposite camp to disgust me?"

Noah and Mizuchi looked at each other and said nothing.

Apparently, these two people do seem to think so.

Yuei Vu was happy.

Good guys, who do you think Judai is? A professional hostage?

"Don't worry, if Saio wants to trouble my apprentice, just let him go." Yuei Vu shrugged, not panicking at all, "It's just that he may have to prepare his own coffin."

Chapter 965: How Can't I Beat Your Student?

The information revealed by Mizuchi was indeed correct.

After Saio was possessed by The Light of Destruction, his actions were repeatedly blocked. The Society of Light that he worked so hard to develop was dismantled at the speed of light, and he was beaten to a black and blue face by the Duei King of this world.

It would be fine if he just lost a game of cards, but then he encountered the legendary God of Gamblers in this world, and he actually failed in the field of coins and dice that he was most proud of.

This made Saio a little bit intolerable.

No matter how reluctant he was to accept it, he had to admit that the fate they initially observed might indeed have been shaken. Maybe the power of those so-called "legendary duelists" was really enough to shake fate and prevent things from moving forward according to their planned trajectory.

But it didn't matter, they had other ways.

After researching and discussing, The Light of Destruction decided that the next breakthrough would be the student from Duel Academy named Yuki Judai!

First of all, there were the Neo Space heroes who were chasing after him from the universe. They had the power of "The Gentle Darkness", and there were also feared cosmic heroes like "Elemental HERO Neos". In terms of camp, they were The Light of Destruction's natural enemies.

And these people selected Yuki Judai, which made Judai one of the most noteworthy targets on this earth.

In addition, this Yuki Judai also has another identity, that was, the only student of Duei King Yuei Vu.

This quickly made The Light of Destruction feel that it had found a breakthrough. Judai and Neos were originally the targets that they had to eliminate on the road of invasion, and if they were the first to capture Judai, they could use him as a hostage and in turn threaten the Duei King Yuei Vu, making him unable to fight back.

Although he heard that this Yuki Judai was extremely gifted, Saio didn't take it to heart.

Gifted? No matter how talented he is, he is still just one student, right?

If he's really that awesome, why doesn't he play in competitions and win trophies? Why is he still studying?

Therefore, Saio was determined to win this match.

He felt that the only difficulty in this entire plan was how to conceal himself from others and get close to Yuki Judai without attracting unnecessary attention.

Hey, Duei King, you can't think of it, right?

Maybe I can't beat you, but how can't I beat your student?

Saio had even thought about it. He will not simply defeat Judai. After winning, he will use the traditional art of The Light of Destruction to brainwash him into a member of the Society of Light and directly arrange for him to become the main fighter.

After that, when the abominable Duei King Yuei Vu comes to cause trouble again, he would let the brainwashed Judai go up and have the master and his disciple compete in a deathmatch – whoever lost would be killed on the spot.

When the time came, if the Duei King could not bear to hurt his own student, he would definitely be tied up and unable to exert his full strength. If Saio was lucky, he might be killed by Yuki Judai because of his soft-heartedness. And even if he was ruthless and killed his apprentice with his own hands, he would definitely be mentally disturbed, and Saio would take advantage of the situation and be able to avenge his past shame. ...

Ha, I'm such a genius!

Saio was very proud.

There was nothing wrong with this plan itself. After all, it was a routine used by villains in all the multiverses. Using dirty methods similar to mental manipulation to play things like family members killing each other, was old-fashioned but really effective.

It's just that Saio may not realize that there was a small loophole in his perfect plan.

That's whether he could win against the hostage he picked or not...

...

"Huh?"

Judai stood in the open space of Duel Academy and looked around blankly. There was no one in all directions. On the path below the teaching building and in the woods at the back of the mountain, there was not a single human being as far as the eye could see.

"It's strange." He said to himself while looking around, "Duel Academy is currently in the GX competition, so there should be a lot of people. Where have everyone gone..."

Yubel floated out immediately. She opened her mouth, but before she could say anything, someone interrupted her off guard, blocking everything she was going to say back into her throat.

"Be careful, Judai!" The one who spoke was the Elemental HERO Neos, "This is not the real world, but the virtual space!"

In the virtual space built by Kaiba Noah back then, duel spirits could not come in.

But later, President Kaiba seemed to have taken this into consideration when developing a new type of Duel Disk, and used their group's all-powerful black technology to upgrade the Duel Disk system, so that the extraordinary power contained in the cards could also be perfectly reproduced in the "Duel Link" system.

In this way, the spirits in the duelist deck could also log in to the "Duel Link" system with them.

This feature caused quite a stir when it was first launched. Many people in the industry who knew Seto Kaiba were surprised. They never expected that President Kaiba, who has always scorned supernatural things like "Duel Spirits", would actually make such changes in the new Duel Disk.

There were rumors that the reason why the president made such a targeted upgrade was actually because he picked up a certain spirit and couldn't put it down, so much so that he even wanted to take her with him when playing cards online...

Yubel glanced at Neos, feeling unhappy.

I used to be responsible for looking after Judai's safety! Why are you, a newcomer from space, joining in the fun?

"Virtual space?"

Judai then checked his duel disk and quickly said "Ah".

"Duel Link system? But I don't remember that I logged in..."

"Hehehehe...hahahahaha!!!"

The devil's deep laughter reverberated throughout the space as if surrounding them from all directions. It seemed a bit eerie and strange in conjunction with the lonely and uninhabited atmosphere.

A bolt of lightning fell from outside the sky! The blue thunder was like a twisted dragon, striking straight towards Judai's position!

"Kia!"

Neos flew out quickly – the omnipotent Neos was actually capable of fighting in the data world. Countless light particles condensed into the entity of the Elemental HERO. He volleyed his sword in the air and immediately flew away the lightning.

"'Elemental HERO Neos', the hero who connects to the Neo Space... You are also a problem."

The voice sounded again.

White light gathered from all directions, like flowing water. The light transformed into a human form in front of Judai, wearing a white robe, long blue hair, purple pupils that shrank to the size of a needle tip, and a face that was too distorted to look like a human being.

"Oh, so ugly!" Judai said what was in his heart without even thinking.

"Don't be careless Judai," Neos reminded, "This person... is very strong!"

"Haha, you're right." Saio sneered, "Yuki Judai, the final moment of your destiny is coming. Get ready to welcome the final chapter of your destiny!"

Chapter 966: Colluding

"Judai, this is The Light of Destruction that I mentioned to you before, the one who is trying to destroy the universe!" Neos said, "It seems that the decisive moment is finally here."

"Eh?" Judai was stunned for a moment, "He?"

Only then did Judai take a closer look at his opponent.

This guy was furious, and his long blue hair was so flowing that it almost defied physics. His facial muscles stretched exaggeratedly, and his expression was extremely distorted. Although his expression was extremely ferocious, he still seemed to be in the human category.

"I always feel...it's different from what I imagined."

After listening to the descriptions of Neos and Neo-Spacian partners before, "The Light of Destruction" in Judai's mind should be a very terrifying and extremely huge monster. It may even be some kind of indescribable horror that cannot be looked directly at.

But this looked like a human with a facial nerve problem...

"The Light of Destruction can attach itself to any living creature, and humans are no exception," Neos explained.

"Oh, that's right..."

A Duel Disk was transformed from the data on Saio's arm: "Come on, Yuki Judai! This battle will determine your fate!"

When I win this duel, darkness will be expelled by light, and your body will be filled with light that annihilates all things! Your body...will be mine! "

"Huh? What do you want me to do? Uh... never mind, it's just a duel anyway, right?"

Judai quickly put aside questions that normal people might want to sort out, such as "Who are you and where am I?", opened the Duel Disk, and his deck was quickly and automatically shuffled in the slot.

Anyway, he understood that he had to play cards.

It didn't matter whether he was playing cards with a human or a ghost, Judai didn't care. In short, if there was a card game to play, he must not miss it!

"Duel!" x2

【Judai, LP 4000】

【Saio, LP 4000】

"Then I'll go first, draw!"

Saio drew the card, and at the same time, he was still laughing sinisterly, with a sharp voice like an eunuch from the Eastern Depot.

"Hey, after the previous defeat, I have adjusted my deck. Now I am stronger than before. It is easy to deal with a little kid like you."

He put the first card on the Duel Disk.

"I summon 'Arcane Power 0 – The Fool' in defense position!"

The data flow transformed into a card and appeared on the field. A thin monster appeared on the card lying horizontally on the field, squatting on the ground with its arms crossed in front of it to protect it.

[Arcana Force 0 – The Fool, DEF 0]

Judai was stunned: "A monster with 0 DEF?"

"Not only the DEF, but its ATK is also 0." Saio chuckled strangely, "But using this monster to deal with you, Yuki Judai, maybe the most suitable."

"A monster with 0 attack and defense power..." Judai was instantly alert.

He remembered Yuei Vu-sensei seemed to have said something like this... How did you say it?

All those with 0 ATK are monsters, don't be careless!

"The effect of 'Arcana Force 0 – The Fool'! The moment it is summoned, the cards above its head will randomly stop in the upright or reverse position, and obtain different effects!"

The card spinning in mid-air came to a standstill.

Reverse position.

This obviously boosted Saio's confidence.

Although there were a lot of bad things that happened last time when dealing with the phenomenal luck of Jonouchi, it seemed like it was just an accident. His fate was still stable!

"Set two cards, I end my turn." Saio said, "The gear of fate has moved forward another round, and now it's your turn!

Struggle to your heart's content and meet your destined destiny! "

"..."

Obviously, Saio, who was betrayed by the goddess of fate, still has no long memory. From visual inspection, he still seemed to be obsessed with the so-called fate...

After all, he had no choice.

Who made his entire deck revolve around tossing coins?

He didn't know how to play cards without coins...

"Then it's my turn, draw!" Judai said, "I activate the Spell Card 'Graceful Charity', draw three cards from the deck, and then discard two cards from my hand to the graveyard.

Then I activate the trap card 'NEXT' from my hand! "

The data flow condensed into a red trap card, which appeared in front of Judai.

Saio frowned: "Activate a trap from the cards in your hand?"

You jellyfish head want to talk nonsense to me?

"'NEXT' can be activated from my hand when there are no cards on my field!" Judai said, "Special Summon any number of monsters with different names from the hand and/or GY, that are all 'Neo-Spacian' monsters or 'Elemental HERO Neos'!"

The two cards that were just discarded to the graveyard have been popped up one after another.

"I resurrect the two monsters discarded through 'Graceful Charity'! Come, 'Elemental HERO Neos' and 'Neo-Spacian Grand Mole'!"

Two beams of light burst out from the ground, and the Grand Mole, which looked harmless but was actually extremely vicious, landed first. Followed by a gorgeous beam of light, Neos soared into the sky like a giant.

[New Spaceman Grand Mole, DEF 300]

[Elemental HERO Neos, DEF 2000]

After purchasing this Neo-Spacian card set, in just one or two months, Grand Mole had basically become Judai's favorite Neo-Spacian.

Because this mole was too autistic...

However, the monsters Special Summoned by the effect of "NEXT" must be in Defense Position, and their effects were also negated. Therefore, the invincible Mole could not exert his power here.

But it didn't matter!

"I return 'Elemental HERO Neos' and 'Neo-Spacian Grand Mole' from the field to the deck!
Contact Fusion!"

Judai raised his fist, and the two heroes flew into the air, turning into beams and shooting through the sky and into the depths of the galaxy.

"The form of the earth, the power of courage—

—Elemental HERO Grand Neos! "

The fused ball of light descended from the Milky Way and transformed into a human form in mid-air. He was wearing heavy armor and was equipped with a heavy auger drill in his hand. The moment he landed, there was a roar and a huge explosion of dust.

[Elemental HERO Grand Neos, ATK 2500]

"A fusion form of Neos and Neo-Spacian?" Saio looked at this unyielding body unhappily, "Humph, I'll make you leave soon!"

"Elemental HERO Grand Neos's effect!" Judai shouted, "Once per turn, return a monster on the opponent's field to your hand!"

I return the 'Arcana Force 0 – The Fool' to your hand! "

Grand Neos raised his arms, started the electric drill on his arm, and aimed for a while, but soon put it down again.

"No, Judai." He turned his head and said to Judai, "I can't use my ability against that guy."

"Eh? Why?" Judai was stunned.

"Hahahahaha!!!" Saio laughed, "Arcana Force 0 – The Fool's reverse position effect! This card cannot be the target of the opponent's effect, and it is not affected by the effect of the opponent's card!" (Animation effect)

"That strong?" Judai was surprised.

It could neither be the target of card effect nor be affected by card effect. This was almost the strongest resistance you could imagine in this game. Even gods could rarely match this resistance.

Fortunately, the stats of this thing were terrible. Then just keep fighting...

"Arcana Force 0 – The Fool, whether in the upright position or the reverse position, cannot be destroyed by battle." Saio sneered.

Judai:!"

Ha?

It cannot be destroyed by battle, cannot be the target of effects, and is not affected by any effects. Isn't this invincible?

Seemingly seeing through what he was thinking, Saio laughed triumphantly: "That's right! The Fool in the right position is an absolute defense, an impenetrable line of defense! No matter what means you use..."

Before he finished speaking, Judai drew a card from his hand: "Then I will use the 'Arcana Force 0 – The Fool' on your field as a sacrifice, and Special Summon 'Gameciel, the Sea Turtle Kaiju' on your field!"

Saio: "....."

He was cracked.

F*ck! Your righteous Ultraman is colluding with the Kaiju! Do you have any shame?

Chapter 967: The End of Destiny

Arcana Force 0 – The Fool. In the anime, it was originally a card that Saio secretly inserted into Judai's deck before the duel, and then was forcefully special summoned to Judai's field during the duel.

The Fool who appeared on Judai's field in the anime was in the upright position. The effect of this card's upright position was that it was not affected by card effects from its controller.

Moreover, this card could not be destroyed by battle, and this card summoned in Attack Position could not actively change to Defense Position.

So at that time, this thing was a living target on the Judai field. Its attack power was 0 and it could not be turned to defense. If it was hit, it could not be destroyed in battle. Even if you wanted to use card effects to get rid of it, it would not accept any effects from its controller. The effect of the card was like a professional traitor, and he was worthy of the name "The Fool".

But if it was in the reverse position, its effect became "cannot be the target of the opponent's effect and is not affected by the opponent's effect". Coupled with the resistance to combat damage, it was an almost invincible shield.

...Of course, just almost.

In the end, he became the food for the invincible Sea Turtle.

Saio saw the big and stupid blue turtle rumbling out of the ground on his field. The huge claws picked up The Fool, threw him into its mouth, and started chewing.

After eating, the sea turtle poured it into the bowl with satisfaction, and directly lay down on Saio's field.

[Gameciel, the Sea Turtle Kaiju, ATK 2200]

Saio wanted to curse.

What is this f*cking thing?

I don't want you, get out of here!

Then Judai continued: "Then I activate the effect of 'Elemental HERO Grand Neos'! Once per turn, return a monster on the opponent's field to the owner's hand!"

Saio, who was still going crazy in his heart just now and told Sea Turtle to go away, was suddenly startled.

This effect... It cannot be!?

"That's right." Judai smiled brightly, "I want to bounce 'Gameciel, the Sea Turtle Kaiju'! And because the owner of 'Gameciel, the Sea Turtle Kaiju' is me, it will return to my hand!"

Grand Neos raised his arm, and the drill bits on his arm were spinning. The drill in his hand pierced through the air, and a dark vortex opened up behind the turtle monster like a nebula, and the terrifying power involuntarily sucked it into it!

Nebulous Hole!

The sea turtle turned into a beam of golden light and flew back to Judai's hand.

Saio realized the seriousness of the matter.

Eat my monster with the Turtle Beast... and then the Turtle Beast can be recycled?

Damn it, doesn't this mean that smelly turtle can still eat my monster next turn!?

Hiss—

Saiou, who finally realized how terrible this tactic was, couldn't help but gasp.

However, in fact, this was not the most nether.

If you used the Grand Mole in conjunction with the Sea Turtle, you could even achieve an infinite cycle – use the Sea Turtle to eat the monster on the opposite side, then summon the Grand Mole to attack the Sea Turtle, and bounce both the Mole and the Sea Turtle back into your hand. Then in the next turn, you could repeat the combo...

Even Judai, who was used to using all kinds of autistics, can't help but admit that the cooperation between these two cards was simply amazing!

No wonder Yuei Vu-sensei stuffed my deck with such a turtle, saying that it was suitable for me... Looking at it like this, Yuei Vu-sensei really knows what's going on!

He even felt that this "Gameciel, the Sea Turtle Kaiju" was tailor-made for his Grand Mole!

These two are truly a golden pair!

"I haven't done any normal summons this round yet," Judai said, "I summon the 'Elemental HERO Neos Alius' in attack position!"

A white light suddenly appeared, and the diminutive Neos jumped out onto the field.

[Elemental HERO Neos Alius, ATK 1900]

"Battle!" Judai said, "Elemental HERO Grand Neos, attack directly!"

The drill on Grand Neos's arm turned into an afterimage and swirled around. Energy continuously poured out of his body and attached to the drill, and a spiral beam of light shot through the air!

Of course, Saio would not give up that easily: "Open the set card: Trap Card – Nitwit Outwit!"

Discard 1 monster, then target 1 face-up monster on the field; it loses ATK equal to the discarded monster's original ATK! "

He revealed the card in his hand.

"I discard the 'Arcana Force XVIII – The Moon' in my hand so that the attack power of 'Grand Neos' is reduced by the attack power of 'The Moon' – that is, 2800 points!"

"Arcana Force XVIII – The Moon" appeared in front of Saiou in a ghostly form. The spiral beam hit its body, but it did not successfully penetrate and was offset instead.

[Elemental HERO Grand Neos, ATK 2500 → ATK 0]

"Then 'Elemental HERO Neos Alius', attack directly!"

The mini Neos followed closely and rushed to attack, but he still seemed to be within Saiou's plan.

"Discard the 'Arcana Force XIV – Temperance', and the damage in a battle becomes 0!" Saio sneered, "Muda muda muda!"

The transparent shadow of control appeared and blocked the charge of Neos Alius.

"They're all blocked... You are not bad."

Veins popped out on Saio's forehead.

Not bad? What makes you think that I'm not good enough?

"Set two cards, I end my turn." Judai said, "The activity time of 'Elemental HERO Grand Neos' is only one round, and it must return to the deck at the End Phase."

Grand Neos jumped up with a roar and disappeared into the sky without a trace.

"Does Neos only have one round of activity?" Saiou frowned.

Originally, he thought that Grand Neos, whose attack power had dropped to 0, would be a breakthrough, but he did not expect that Neos would automatically withdraw from the field. Neos's side effect of "only existing for one round" has had a positive effect.

"My turn, draw." Saio waved his hand, "Open the set card: Trap Card – Sixth Sense! Declare two numbers from 1 to 6, and the opponent will roll a dice!

When the result is one of the numbers I declared, I can draw that many cards from the deck!

But if it is not, I have to send the cards from the top of the deck to the graveyard equal to the result.
"

"Is it another luck-based card?" Judai said eagerly, "If it's about luck, I'm quite confident!"

"Luck? Hahaha, I don't need this kind of thing that only mortals need!" Saio said arrogantly, "The numbers I want to declare are five and six!"

"Wow, is it the biggest number right off the bat?"

Judai took a deep breath.

"Okay! Then I'm going to roll!"

The huge dice fell from mid-air, spun several times, and stopped in the middle of the duel field.

A big "6".

"Eh? Is it really 6?" Judai was surprised.

"Hahaha, I told you a long time ago that fate has been decided!" Saiou said proudly, "Based on the effect of 'Sixth Sense', I drew six cards from the deck!

The movement of destiny is about to come to an end! Yuki Judai, this will be the last round of your destiny! "

Chapter 968: Is This Kid The Legendary 'C'?

"I summon 'Arcana Force I – The Magician' in attack position!"

Saio took a card from his hand, and a new monster appeared. He was a gorgeously dressed magician, and his appearance seemed a little funny based on his costume.

[Arcana Force I – The Magician, ATK 1100]

Similarly, like other Arcana Force monsters, a card appeared above the magician's head the moment he summoned it and began to spin rapidly.

"Needless to say, of course, it will be in the upright position!"

Sure enough, just as he said, the final stopping position was still the upright position.

"The effect of The Magician's upright position!" Saio said, "During a turn in which a Spell Card was played, this card's ATK becomes double its original ATK."

After a pause, he slowly pulled out another card from his hand and smiled grimly.

"Then let me use this effect now." He showed the card, "I activate the Spell Card 'Suit of Sword X'! This card will randomly stop in the upright or reverse position, and obtain different effects!

The effect of the upright position destroys all monsters on the opponent's field!

The effect of the reverse position destroys all monsters on my field! "

"Ah?" Judai was a little dazed, "Is this person so confident in his luck?"

"I said, there is no such thing as 'luck', only destiny!" Saio raised his voice, "Fate, stop it!"

The cards in mid-air stopped rotating.

It's indeed the upright position.

"Hahaha, the effect of the upright position!" Saio laughed, "All monsters on the opponent's field are destroyed! And because the Spell Card is activated, The Magician's attack power will be doubled!"

Dots of cold light turned into countless sharp swords in mid-air, shooting down from the sky like thousands of arrows piercing the heart!

"Wow, it's really the upright position!" Judai was surprised, "This person's luck is really better than mine!"

"Idiot, is this the time to marvel at this?" Yubel scolded.

"I know." Judai waved his arm, "Open the set card! Quick-Play Spell 'Gemini Spark'! Tribute 1 face-up Level 4 Gemini monster, then target 1 card on the field; destroy it!

I use the 'Elemental HERO Neos Alius' as a sacrifice to destroy the 'Arcana Force I – The Magician'! "

Neos Alius turned into countless points of light and dispersed, barely dodging the sword's fire. He turned into white lightning and struck out, which in turn blew the magician into pieces.

"Then based on the subsequent effect of 'Gemini Spark', I draw a card." Judai said.

"Did you keep an extra trick? Ha, but it doesn't matter." Saio didn't care and continued to draw a card, "Spell Card 'Foolish Burial'! Send a monster card from my deck to the graveyard.

I sent 'Arcana Force XXI – The World' from the deck to the graveyard. "

After a pause, he immediately sneered strangely.

"Tremble in the face of fate and accept your own powerlessness! Activate the Spell Card 'Soul Charge'!

Special summon any number of monsters from the graveyard, and I will take 500 points of damage for each monster summoned! ” (animation effect)

Whirlpools opened up on the ground one after another, and Arcana Force monsters appeared one after another from the dark whirlpool. It was really as if fate itself had transformed into an unattainable mountain lying in front of Judai!

"The Fool, The Magician, Temperance, The Moon, The World, five Arcana Force monsters are all revived here!!!"

[Arcana Force 0 – The Fool, DEF 0]

[Arcana Force I – The Magician, ATK 1100]

[Arcana Force XIV – Temperance, ATK 2400]

[Arcana Force XVIII – The Moon, ATK 2800]

[Arcana Force XXI – The World, ATK 3100]

As five Arcana Force monsters appeared at the same time, Saio's LP was also paid out.

【Saio, LP 4000 → LP 1500】

"There were five monsters all at once!" Judai was a little frightened.

"That's right." Saio sneered, "Of course, Arcana Force monsters must toss a coin at the moment of summoning, and obtain positive or negative effects according to the result.

I special summoned five 'Arcana Power' monsters, so I had to toss a coin five times. "

"Can all five coins get the upright position effect?" Yubel murmured.

"How is that possible?!" Judai said.

The probability of a coin coming up heads was 1/2, but the probability of five heads at the same time...

...Isn't it very, very low? (Judai: Math made my head hurt)

Five upright positions in one breath, isn't that a joke?

The five cards spinning in mid-air stopped rotating one after another...all of them were in the correct position.

Judai:!"

Ha?

Does this person really not cheat?

But he quickly came to his senses: "However, monsters Special Summoned by the 'Soul Charge' effect cannot attack during this turn!"

Although Judai, who either skipped class or slept during class time, obviously didn't pay much attention to the lecture, he still listened very carefully when Yuei Vu gave one-on-one tutoring.

He clearly remembered that Yuei Vu specifically mentioned this "Soul Charge", saying that this thing was a "card printed with the butt", "the strongest resurrection card", etc., so he was still deeply impressed.

"Cannot attack...it's true." Saio sneered softly, "But if there is 'The World', this restriction doesn't matter!"

Arcana Force XXI – The World's effect is activated! By sacrificing two monsters on the field, I can skip the opponent's next turn! "

"Skip my turn!?" Judai was shocked.

"That's right! This is the power of 'The World'! I offer two monsters, 'Arcana Force I – The Magician' and 'Arcana Force XIV – Temperance', as sacrifices!"

The World! Time, stop! "

The ability of "The World" was activated, time and space are distorted, and the duel arena was stopped. The Magician and Temperance both disappeared from the field, and it jumped to the next Saio's turn.

"My turn, draw!" Saiou smiled coldly, "Arcana Force XVIII – The Moon's upright position effect! Once per turn, during my Standby Phase: I can Special Summon 1 'Moon Token'!"

[Moon Token, ATK 0]

"Then enter the Battle Phase again!" Saio shouted at the top of his lungs, "Arcana Force XXI – The World, direct attack! Over Catastrophe!!!"

"Open the set card!" Judai shouted, "Quick-Play Spell 'The Flute of Summoning Kuriboh'! Special summon a 'Winged Kuriboh' from my deck!"

"Kuri Kuri!"

The fluffy little guy flapped his white wings and landed on the field, bravely blocking the attack path of the shock ray.

[Winged Kuriboh, DEF 200]

Boom!

The World's high-heat rays instantly evaporated the Winged Kuriboh, turning it into ashes.

But at the same time, a transparent force field emerged around Judai, protecting him in the middle like a ring-shaped shield.

"The monster effect of Winged Kuriboh." Judai raised his arm to protect the impact, "In the turn it was destroyed, I take no battle damage!

In this way, even if you skip a turn, you can't cause battle damage! "

"Muda Muda Muda!" Saiou shouted, "Then the effect of 'The World' is activated again! Use the 'Moon Tokens' and 'Arcana Force 0 – The Fool' on the field as sacrifices!

The World! Time, stop! "

Another time jump! The two monsters disappeared from the field one after another, time flew by, and soon it was Saio's new turn!

"Be careful, Judai!" Yubel said, "It's coming again!"

"In the Standby Phase, the effect of 'Arcana Force XVIII – The Moon' is activated again, and a 'Moon Token' is Special Summoned!"

[Moon Token, ATK 0]

"Go to hell!" Saiou shouted, "Use the 'Arcana Force XXI – The World' to attack directly! Over Catastrophe!!!"

"Discard the 'Kiteroid' to reduce the battle damage I take from a direct attack to 0!" Judai said.

The burst of rays hit the shadow of the Kiteroid, once again this fatal blow was blocked!

"Muda Muda Muda! Then 'Arcana Force XVIII – The Moon', attack directly!"

This attack passed through without any hindrance and exploded at Judai's feet, causing him to fall to the ground.

[Judai, LP 4000 → LP 1200]

"It's not over yet! The effect of 'Arcana Force XXI – The World' is activated again! Use 'Moon Token' and 'Arcana Force XVIII – The Moon' as sacrifices!

The World! Time, stop! "

Another additional time jump!

Judai breathed heavily and struggled to get up with his knees bent, black smoke rising all over his body.

"Brace yourself," Yubel reminded, "it's coming again!"

"I know."

Saio shouted: "Over Catastrophe!!!"

The World opened fire again, and the red-hot impact seemed to penetrate the air, bringing a blow that transcended time and space and destroyed the world!

"The effect of the 'Kiteroid' in the GY is activated again!" Judai said, "Only once, while this card is in the Graveyard, I can reduce the battle damage I take from a direct attack to 0!"

Bom! ! !

Another explosion, even though it was blocked by the Kiteroid, the aftermath of the impact still made Judai stagger back.

"Tch, are you even blocking this? What a stubborn guy." Saiou frowned.

Is this kid the legendary "C"?

Chapter 969: Forms of Neos

"Brat, I'll let you live for one more turn." Saiou snorted, "Then I normal summon the second 'Arcana Force 0 – The Fool' in defense position!"

[Arcana Force 0 – The Fool, DEF 0]

The upright and reverse position effects of Arcana Force were a double-edged sword, but it was particularly different in "The Fool". The Fool in the reverse position was almost an immovable fortress, while in contrast, The Fool in the upright position could trap his master into self-isolation.

Of course, this risk was negligible to Saio Takuma, who was known as the King of Cheaters.

The Fool's card stopped spinning, and as expected it was in the reverse position again.

"The Fool's reverse position effect." Saio said, "This card can neither be the target of the opponent's effect nor affected by the opponent's card effects!"

Judai found that he seemed to be gradually becoming numb to the fact that the opponent could toss a coin right at will.

"Set a card, I end my turn!"

"Then it's my turn, draw!" Judai said, "Spell Card 'Card of Adversity'! If I control no monsters and the opponent controls a Special Summoned monster: Draw 2 cards!" (animated card)

Two cards were drawn, and Judai immediately took three cards out.

"I set three cards in my hand onto the field, and then activated the Spell Card 'Card of Demise'! I can draw cards until I have 5 cards in my hand. During my 5th Standby Phase after activation, send all cards in my hand to the Graveyard."

Saiou chuckled: "Hey, did you immediately replenish your hand and prepare to organize a counterattack?"

"When 'Watapon' is added from my Deck to my hand by a card effect: I can Special Summon this card!"

[Watapon, ATK 200]

"Open the set card: Spell Card – Polymerization!" Judai said, "I fuse 'Elemental HERO Neos' and 'Neo-Spacian Grand Mole' in the hand!"

The fusion condition is 'Elemental HERO Neos' + 1 Level 4 or lower Effect Monster! Fusion Summon!

A glorious hero, a gesture of courage——

——Elemental HERO Brave Neos! "

Neos and Grand Mole merged, and the light ball condensed into a human shape in mid-air. The hero's white body was painted with red and blue stripes, and his chest was a green round energy core. His appearance was basically the same as that of Neos, except that the lines and colors on his body had been changed, and his shoulder armor was also wider.

[Elemental HERO Brave Neos, ATK 2500]

Saio looked coldly at the new Neos: "Has he changed into a new form? But no matter how many forms there are, it is meaningless..."

"I summon the 'Neo Space Connector!'" Judai said.

[Neo Space Connector, ATK 800]

"When this card is Normal Summoned: I can Special Summon 1 'Neo-Spacian' monster or 1 'Elemental HERO Neos' from my hand or Deck in Defense Position!" Judai pulled out a card that popped up from the deck, "Come on! Neo-Spacian Flare Scarab!" "

A ball of fire broke through the earth's crust and transformed into a hero wearing black beetle armor. In the middle of the helmet was a tentacle that seemed to be pointing to the sky.

[Neo-Spacian Flare Scarab, DEF 500]

"Neo Space Connector's follow-up effect! Tribute this card, then target 1 'Neo-Spacian' monster or 1 'Elemental HERO Neos' in my GY; Special Summon it in Defense Position!

I specially summon the 'Elemental HERO Neos'!" "

A white beam of light erupts, and Neos returns to his basic form and appears again!

[Elemental HERO Neos, DEF 2000]

"I return the 'Elemental HERO Neos' and 'Neo-Spacian Flare Scarab' on the field to the deck! Contact Fusion!" Judai raised his fist.

"Fire power, burn like a blazing fire——

——Elemental HERO Flare Neos!!! "

The white hero and the beetle wrapped in flames broke through the atmosphere, merged in the starry sky, and turned into a blazing fireball, and fell back to the ground!

The heat wave of the impact spread along the ground. Neos put on black and red armor and spread out wide metal wings behind him. The armor seemed to be burned red in the flames.

[Elemental HERO Flare Neos, ATK 2500]

Saiou frowned: "Did you summon two different forms of Neos in one go..."

"It's not over yet!" Judai cheered, "Activate the Spell Card 'Hero Mask' from my hand! Target 1 face-up monster I control; send 1 'Elemental HERO' monster from my Deck to the Graveyard, and that target's name becomes the sent monster's name until the End Phase."

A card popped up from Judai's deck.

"I send the 'Elemental HERO Neos' from the deck to the graveyard. Until the end of this turn, the 'Watapon' on the field can be used as Neos!"

The shadow of Neos appeared behind the Watapon.

"Change the name to Neos?" Saio was stunned, "What do you want to do?"

"Open the set card: Spell Card 'Miracle Contact'! Shuffle into the Deck, from my hand, field, or GY, the Fusion Materials that are mentioned on an 'Elemental HERO' Fusion Monster that mentions 'Elemental HERO Neos' as material, then Special Summon that Fusion Monster from my Extra Deck, ignoring its Summoning conditions!"

Judai was in high spirits.

"I return the 'Watapon' on the field whose name is changed into 'Elemental HERO Neos', and the 'Neo-Spacian Grand Mole' in the graveyard to the deck, and perform contact fusion!

The form of the earth, the power of courage! Show up again——

——Elemental HERO Grand Neos!!!"

The Hero of the Earth, who had hurriedly exited due to lack of power in the last round, came again, wearing heavy armor and landing with another perfect score, creating a tomb of dust on the ground.

[Elemental HERO Grand Neos, ATK 2500]

Saio gritted his teeth.

"Summoned three different forms of Neos in one turn!?"

The speed of this combo was quite incredible in this day and age. Even in the professional circle, very few people could do this in one turn.

In the last turn, Saio used "The World" to skip several turns in a row, but he was blocked by this kid one after another. And Judai, who survived that desperate situation, was able to organize such a terrifying counterattack in just one turn...

Saiou looked at Judai with a wavering look.

Is this kid... really a student?

Even if he is called the Duel King's apprentice, is that too much? If you have this kind of strength, why wouldn't you go to the professional world?

"The Field Spell 'Neo Space' is activated!"

The Field Spell was pushed into the Duel Disk from the side, the environment changed, and the colorful aurora rippled, quickly filling the entire field.

Let's summon M78 civil servants directly!

"In the Neo Space, the attack power of all 'Neos' monsters will increase by 500!"

[Elemental HERO Brave Neos, ATK 2500 → ATK 3000]

[Elemental HERO Flare Neos, ATK 2500 → ATK 3000]

[Elemental HERO Grand Neos, ATK 2500 → ATK 3000]

"Brave Neos will gain 100 ATK for each 'Neo-Spacian' and 'HERO' monster in your GY.." Judai said, "There are 'Elemental HERO Neos' and 'Elemental HERO Neos Alius' in my graveyard, so his attack power increases by another 200."

[Elemental HERO Brave Neos, ATK 3000 → ATK 3200]

"Flare Neos will gain 400 ATK for each Spell/Trap Card on the field." Judai said, "There is a Field Spell 'Neo Space' on the field and a set card on each side of the field, so his attack power increases by 1200 more!"

[Elemental HERO Flare Neos, ATK 3000 → ATK 4200]

"But I can't defeat 'The Fool' with attack power alone, right?" Judai smiled.

Saio frowned and remained silent.

Indeed, no matter how high the attack power was, it could not penetrate the defense of "Arcana Force 0 – The Fool". Although The Fool's DEF was only 0, he could not be destroyed by battle and was unaffected by the opponent's card effects. As long as the Fool was still there, Saio's side was absolutely safe.

However.....

"Then I activate the effect of the 'Gameciel, the Sea Turtle Kaiju' in my hand again!" Judai drew out the card, "Take 'Arcana Force 0 – The Fool' as a sacrifice, and special summon Gameciel on your field!"

Saio: "..."

Chapter 970: Neos VS Arcana Force

Seeing that the invulnerable "The Fool" on his side was once again swallowed up by the hateful-looking sea turtle, who then sat down on his field with satisfaction, Saio even wanted to burst into tears.

The most important thing was that these Ultramans, who considered themselves righteous men, not only didn't see anything wrong with relying on the power of Kaijus to solve the problem, but they even repeatedly colluded with the evil forces.

"Activate the effect of 'Elemental HERO Grand Neos'! Once per turn, a monster on the opponent's field will be returned to the owner's hand!" Judai shouted, "I return 'Gameciel, the Sea Turtle Kaiju' to my hand!"

Nebulous Hole! "

The Grand Neos raised his arm and released the power of Neo Space, opening a dark wormhole in Saio's field area. The drunken sea turtle turned his head and glanced at the hole, as if he had glimpsed the way home, then he dragged his heavy body and swayed in.

With a swipe of the ground, the Kaiju turned into a card and returned to Judai's hand.

Saio: "..."

This scene gave people a very subtle feeling, as if this big turtle came here arrogantly to eat his monster, patted its butt, and left after eating and drinking.

Saio even imagined the scene where the stupid sea turtle smiled and waved and said, "Thanks for the treat, I'll come back next time."

Fortunately, he, the Light of Destruction, was not a human being in the strict sense, otherwise he would gain a cerebral thrombosis.

The funniest thing was that now he remembered that this sea turtle might have been given away by himself.

But that was clearly what fate had instructed back then! Give "Gameciel, the Sea Turtle Kaiju" to the down-and-out duelist named DD, and let him use the power of the Kaiju to cause disaster. He did everything according to the direction of fate!

How come he was tricked by this sea turtle in the end?

Could it be that from that moment on, the goddess of fate was lying to me?

"Then let's fight," Judai said, "Elemental HERO Brave Neos, attack 'Arcana Force XXI – The World!'"

Brave Neos flew out at the lead, dragging a silver-white trajectory with his sword and slashing hard at The World's body that was stronger than steel!

"Open the set card: Trap Card – Hierophant's Wand!" Saio shouted, "The opponent draws 1 card. This turn, cards on my field cannot be destroyed!"

Although he wanted to use this card to protect the Fool, unfortunately being eaten by a Kaiju did not count as destruction, so the invincible Hierophant's Wand couldn't do anything.

【Saio, LP 1500 → LP 1400】

"Furthermore, because the number of Spell/Trap Cards on the field goes down by one, the attack power of 'Elemental HERO Flare Neos' must also decrease!" Saio shouted.

[Elemental HERO Flare Neos, ATK 4200 → ATK 3800]

"Flare Neos, attack the 'Arcana Force XXI – The World!'"

Flare Neos intertwined his palms, and the boundless fire energy converged towards his palms from all directions, forming a condensed and undispersed flame sphere. The size of the fireball expanded rapidly, and it suddenly shot out as he waved his arm!

Burn to Ash!

The World was hit again, and the high-temperature flames seemed to melt the steel body, but it finally held on tenaciously. The aftermath of the impact swept across Saio's body.

【Saio, LP 1400 → LP 700】

"My turn is over.

In the End Phase, because 'Neo Space' is on the field, 'Neos' Fusion Monsters do not need to return to the Extra Deck. "

Judai clenched his fists.

"Very good, just a little bit close! Just keep working hard like this."

"Tch, don't be too proud, this LP value is more than enough to knock you down!"

Saio raised his voice.

"My turn, draw!" He glanced at the cards in his hand and showed a dangerous smile.

"Oh, the Neos who represent the 'darkness of the universe' will be destroyed by me under the endless light!" Saio shouted, "Activate the Field Spell 'Light Barrier'!"

The Neo Space with its rippling colorful aurora was instantly shattered into pieces under the alternation of the new field. Strong light filled the space, and the huge barrier fell to the ground like a projection, making it difficult to see directly.

"In the Light Barrier, the effects of all monsters except for the 'Arcana Force' monsters are negated!" Saio clenched his fists hard, "Just let me invalidate your effects, Neos! "

[Elemental HERO Brave Neos, ATK 3200 → ATK 2500]

[Elemental HERO Flare Neos, ATK 3800 → ATK 2500]

[Elemental HERO Grand Neos, ATK 3000 → ATK 2500]

"Ah!" Judai said, "All the powers of Neos have disappeared."

"Yeah, a bunch of useless guys." Yubel didn't forget to sarcastically mock him at the critical moment.

However, at this time, even if she went in person, she would probably be destined to be invalidated by this effect too. Moreover, as a Level 10 monster, her attack power was only 0. If the effect was negated, she was actually far less useful than Neos.

"Set two cards onto the field." Saio pulled out three cards in his hand in one breath, "Then activate the Spell Card 'The Heaven Road'! Send 'The Material Road' and 'The Spiritual Road' on the field to the graveyard!" (anime card)

Three cards, three beams of light soared into the sky.

"The ultimate light, the spokesperson of destiny, the god of mysteries..."

Arcana Force EX – The Light Ruler! ! ! "

The beam of light disappeared into the air, and the behemoth crashed down on the three-in-one beam of light! It was a huge, dark dragon with a steel neck and two dragon heads with fangs!

[Arcana Force EX – The Light Ruler, ATK 4000]

"The effect of the Field Spell 'Light Barrier'! When I summon an 'Arcana Force' monster, I can choose the upright position or the reverse position to apply the effect accordingly!

Of course, I chose the upright position! "

This time the card above the Arcana Force monster did not rotate at all, it just stopped in the upright position.

"Did you even skip the step of tossing the coin?" Judai asked.

"It's not over yet," Saio's expression twisted, "Spell Card 'Card of Sanctity!' Each player draws until they have 6 cards in their hand.

Then I normal summon 'Arcana Force III – The Empress' from my hand! "

[Arcana Force III – The Empress, ATK 1300]

"Activate the Equip Spell 'Reverse Reborn!'" Saio said, "Special summon 1 'Arcana Force' monster in my graveyard, and equip this card to that monster!

The equipped monster gains the effect of reverse position. ” (animation card)

A card was ejected from the graveyard area of Saio's Duel Disk.

"I resurrected 'Arcana Force I – The Magician!'"

[Arcana Force I – The Magician, ATK 1100]

Saio sneered softly.

"In this way, preparations for the last Arcana Force are completed."

Judai:"?"

The last Arcana Force?

What about this "God of Mysteries"? Isn't this Ruler of Light, who looks like a BOSS at first glance, not the final trump card?

"I send the three monsters on the field, 'Arcana Force XXI – The World', 'Arcana Force I – The Magician', and 'Arcana Force III – The Empress', to the graveyard!

A monster born from the light that destroys all things, the ruler of all darkness in the world...

Arcana Force EX – The Dark Ruler! ! ! "
