

I Play Yu-Gi 981

Chapter 981: Interrupted Slumber!

Ice crystals flew and a white storm swept across. The Elemental HERO in plain white armor seemed to be descending slowly on a transparent path.

[Elemental HERO Absolute Zero, ATK 2500]

"Absolute Zero... One of the most powerful Elemental HEROes, who possess the ability to freeze all things?" Fujino gritted his teeth, "Oh, at this juncture, you actually summoned such a troublesome thing to me... "

“Activate the Spell Card ‘Advance Draw’! Tribute 1 face-up Level 8 or higher monster I control, and draw two cards from the deck!

I tributed the Level 8 ‘Elemental HERO Absolute Zero’ and drew two cards! "

Fujino's pupils shrank, realizing something was wrong.

Oops, the effect of this guy is...

Before Absolute Zero could stand firmly on his feet, his figure had disappeared, transformed into two beams of golden light, and flown to the card deck carried by Yuei Vu.

But even though the ice hero had disappeared, the blizzard that occupied the entire place was even more arrogant than when he was present. The storm raged, and white snow covered the riddled Tokyo Bay. The surrounding buildings, broken walls, and glass were all frozen, and the earth was as bright as a shining mirror.

"The effect of ‘Elemental HERO Absolute Zero’! When he leaves the field, all monsters on the opponent's field are destroyed." Yuei Vu shouted, "So according to this effect, ‘Thunder King, the Lightningstrike Kaiju’ is destroyed!"

Absolutely frozen, the seaside area instantly turned into a ten-mile glacier! Ice crystals spread along the city, and the endless sea water froze into crystal-clear ice!

The strongest Kaiju was also helpless in front of the ice hero and was quickly frozen and cracked into powder.

"Tch." Fujino frowned, "These endless heroes are really annoying."

After looking at the two newly drawn cards, Yuei Vu immediately played one of them: "Quick-Play Spell ‘Mystical Space Typhoon’! Target 1 Spell/Trap on the field; destroy that target!

I'll destroy the set card in your back row! "

A black whirlwind rolled up, and pale lightning was carried in the storm and rushed toward Fujino's back row!

Now that Fujino has lost the protection of the Kaiju on the front row, the set card in the back row was obviously his last line of defense. If that trap was also dismantled, he would have to face Yuei Vu's offensive without any defense!

The only monster left in Yuei Vu's field was "Radian, the Multidimensional Kaiju". Fujino, who had only 800 LP left, obviously could not withstand Radian's blow.

It would be too funny to die at the hands of the Kaiju he gave away!

Fujino couldn't let this happen: "Open the set card: Trap Card – Waboku!

I take no battle damage this turn, and my monsters cannot be destroyed by battle this turn!"

The trap took effect as soon as it was activated. The whirlwind flew into the air fiercely, and Fujino was covered by the holy white shield.

Waboku, one of the strongest defensive traps. As long as there was this layer of shield protection, you would be basically invincible for at least one round.

"Did you survive for another turn relying on traps?"

Yuei Vu said expressionlessly, but he still had no intention of stopping the movements of his hands.

"Then I activate the Continuous Spell 'Opening of the Spirit Gates' from my hand."

Fujino: "!?"

What kind of card is this?

The terrain of the frozen seaside area changed again, and golden pillars rose from the ground! The ice crystals laid out on the ground cracked, and seven pillars stood crookedly in the city. They were connected to each other by lightning as if they were exchanging energy through electric current.

It looked like the formation that sealed the Sacred Beasts on the island of Duel Academy.

"When the Continuous Spell 'Opening of the Spirit Gates' is activated, I can add 1 'Uria, Lord of Searing Flames', 'Hamon, Lord of Striking Thunder', 'Raviel, Lord of Phantasms', or 1 monster that specifically lists any of those cards in its text, from my Deck to my hand."

The light of the seven pillars rose sharply, and the current was also active to the extreme for a while. The ultra-high concentration of energy gathered in the middle of the seven pillars, and golden lightning fell from the sky. It happened to hit the energy gathering point, and a card seemed to appear in the churning electric light.

The card fell lightly and stopped firmly in Yuei Vu's hand.

He flipped the card over and revealed it: "I add 'Hamon, Lord of Striking Thunder' to my hand."

"Hamon?" Fujino's pupils narrowed slightly.

Is this guy actually... still planning to summon the Sacred Beast here?

"The second effect of 'Opening of the Spirit Gates' is activated!" Yuei Vu said, "Once per turn, I can discard 1 card; Special Summon 1 Fiend monster with 0 ATK/DEF from my GY!

I discard a card in my hand and special summon the 'Dark Summoning Beast' from the graveyard! "

The black pillar burst out from the underworld, and what was brought to the field was an ugly demon with wide wings and a long tail.

[Dark Summoning Beast, ATK 0]

"At this moment, the effect of 'Card of Safe Return'!" Yuei Vu said, "Because there are monsters in the graveyard that are Special Summoned, I will draw three more cards!

Then there is the effect of 'Dark Summoning Beast'! Tribute this card; Special Summon 1 Sacred Beast from my hand or Deck, ignoring its Summoning conditions! "

As soon as the words fell, the ugly demon fluttered its wings, turned into black mud, and disappeared from the field without a trace.

Thunder was rolling, lightning was falling from the clouds, and the phantom of the golden devil had emerged from the sky!

"Hamon, Lord of Striking Thunder is coming!!!"

Lightning pierced the sky, and lightning exploded on the ground! The huge demon's body seemed to be covered in armor made of bones, and the golden body of the demon shook the earth!

[Hamon, Lord of Striking Thunder, ATK 4000]

"Sacred Beast..." Fujino looked up at the giant demon and couldn't help but hum in a deep voice, "Oh, there are really a lot of troublesome things in a hellish place like Earth..."

But he then added: "But even the Sacred Beast's attack is meaningless. You can't cause me any battle damage during this turn."

"I know." Yuei Vu slowly drew another card from his hand, "My purpose was not to do battle damage.

Activate the Continuous Spell 'Cerulean Skyfire' from my hand! "

The sky was once again torn by lightning, and lightning fell from the sky. The heavy armor that resembled thunder and lightning covered the entire Hamon, Lord of Striking Thunder.

Fujino looked at the gorgeous special effects and couldn't help but feel a little concerned.

Is this Continuous Spell... a support card dedicated to the Lord of Striking Thunder?

"Set a card, I end my turn."

"This guy...actually called the Sacred Beast out." Fujino frowned.

Although he, The Light of Destruction, was not afraid of these gods and demons on the earth, it would still be a bit troublesome if these guys appeared one after another.

He must find a way to deal with it as soon as possible.

"My turn, draw!"

A new card was put into his hand. The moment he saw this card, his eyes lit up, his mouth twitched, and he started laughing wildly.

"Sacred Beast, huh? This kind of power is completely inferior to the Kaiju! Now let me show you the real power of the Kaiju!

Activate from my hand——

——Spell Card 'Interrupted Kaiju Slumber'! "

It was very obvious that this should be a card containing extraordinary power. But the moment the card turned into a projection and appeared on the field, the whole place began to shake, as if there was something underground and in the sea trying to rush out impatiently!

"The silent Kaiju will wake up from its slumber and devour everything!" Fujino shouted, "The effect of 'Interrupted Kaiju Slumber'!

Destroy as many monsters on the field as possible, then choose 2 'Kaiju' monsters with different names from my Deck, and Special Summon 1 on each side in Attack Position! "

Chapter 982: King of Kaijus!

"The Spell Card 'Interrupted Kaiju Slumber' is activated! All monsters on both sides of the field are destroyed!"

Of course, that's what he said, but the field on Fujino's side was empty, and only Yuei Vu's field had monsters.

The animated Sacred Beasts' resistance was "unaffected by the effects of Trap Cards, and is only affected by the effects of Spell Cards during the turn they are activated."

The trap resistance was absolute, but the spell resistance was a bit useless. "Only affected by the effects of Spell Cards during the turn they are activated", which meant that this resistance was limited to Equip Spell, Continuous Spell, Field Spell, and special Normal Spell like "Swords of Revealing Light" that would remain on the field after activation.

In fact, it could be seen from this aspect that most of the power of the Sacred Beasts was actually sealed in the miscellaneous supporting cards. If all the support cards are kicked away and only their own abilities are looked at, these three are not at the same level as the three Egyptian Gods.

But unfortunately, there was a support card corresponding to Hamon on Yuei Vu's field now!

"The effect of the Continuous Spell 'Cerulean Skyfire' is activated!" Yuei Vu shouted, "Once per turn, while I control an Attack Position 'Hamon, Lord of Striking Thunder', I can negate any Spell/Trap effect activated by the opponent, then change 'Hamon, Lord of Striking Thunder' to Defense Position.

I negate the 'Interrupted Kaiju Slumber'! "

Fujino: "!"

The powerful light of destruction has begun to rush out from the extraordinary power of the Spell Card, as if it has knocked open the unscrupulous beast in the cage. But at that moment, a bolt of blue lightning fell from the sky and suddenly hit the white light. The light exploded with a snap, and there was an unwilling roar in it.

The shaking of the earth and mountains stopped in an instant, the buildings fell back to their original positions, and the earth stopped shaking as if those restless souls were pushed back to their original positions.

[Hamon, Lord of Striking Thunder, ATK 4000 → DEF 4000]

Fujino's face was almost distorted.

I never expected that this golden Sacred Beast could have such terrifying abilities!

"Interrupted Kaiju Slumber" was the most powerful card in the entire Kaiju system. It could clear the opponent's field and freely accurately retrieve any powerful Kaiju from the deck to play at the same time. It was a divine weapon that determined victory or defeat with one card.

But this trump card, this most powerful spell, was so easily resolved!

Fujino was stunned for a long time, then bit his lip and made a last-ditch effort with a cold face.

"...I activate the effect of the Field Spell 'Kyoutou Waterfront'." He said solemnly, "Once per turn, while 3 or more Kaiju Counters are on this card: I can add 1 'Kaiju' monster from my Deck to my hand."

Every time a card enters the graveyard, one Kaiju Counter would be placed on "Kyoutou Waterfront". After Yuei Vu's turn, the number of Kaiju Counters naturally returned to five.

The lights of the Kyoto Tower were turned on, and the deck search program was started. A card automatically popped out of the deck and was drawn into Fujino's hand.

"I added the 'Super Anti-Kaiju War Machine Mecha-Dogoran' to my hand."

Yuei Vu raised his eyebrows.

Oh boy, Mechagodzilla?

Are you using Dr. Serizawa's deck?

Yuei Vu's expression turned cold instantly, and his cold and sharp eyes wandered back and forth on Fujino's Duel Disk.

Even I didn't pull out his deck at the time!

How dare you, an alien, pull out his deck under my nose? Who gave you the courage?

"Activate the Spell Card 'Trade-In!' Discard 1 Level 8 monster; draw 2 cards." Fujino said, "I discard the level 8 'Super Anti-Kaiju War Machine Mecha-Dogoran', draw two cards."

Hamon, Lord of Striking Thunder's ability to nullify the Spells and Traps was only once per turn, so it could no longer interfere with his actions. After drawing two cards, Fujino's deck seemed to be turning smoothly again.

"Spell Card 'Pot of Avarice!' Target 5 monsters in my GY; shuffle all 5 into the Deck, then draw 2 cards!"

The five Kaijus that had been used so far in the duel were popped out of the deck one after another, returned to the deck, and quickly shuffled, and then the two new cards were drawn out.

After catching a glimpse of one of the cards in his hand, Fujino immediately raised his head and laughed again.

"Hahahaha! It seems like fate is still on my side!"

He raised the card in his hand high, and before he could take it down, flames erupted!

"When the opponent has a 'Kaiju' on the field, this card can be specially summoned

—

—Dogoran, the Mad Flame Kaiju is coming!!!"

The pillar of fire broke through the sea level, and the flames swept like a whirlwind of fire. The seawater was evaporated, and the water turned into a white curtain.

The giant beast burst out of the sea, covered in flames. It raised its dinosaur-like head, roared loudly, and the flames shot straight into the sky!

[Dogoran, the Mad Flame Kaiju, ATK 3000]

Yuei Vu narrowed his eyes.

Good guy, you even NTRed Dr. Serizawa's Godzilla to fuck me?

Of course, Dogoran, who was forcibly NTRed, would definitely not be convinced. The powerful and terrifying roar also contained unwillingness and anger.

But even so, it had no other way than to vent its anger.

After all, in this world, the laws of duel were absolute. As a Kaiju, no matter how strong it was, it was still a duel monster spirit, so it had to obey the will of the duelist.

Of course, if the spirits were strong enough, they were not unable to resist. For example, the three Egyptian Gods could choose their own masters based on their preferences. There were only two types of duelists who could control the Egyptian Gods. The first type was those who were courageous enough to convince the three arrogant guys, and the second type was those who were strong enough that the three of them could not defeat...

Of course, the overall strength of Brother Godzilla in the Yu-Gi-Oh World was not bad, but now he was facing The Light of Destruction that resided in King Ghidorah's card, who was not the kind of ordinary duelist who could be conquered with thunder and fire. So he now could only place his hope on the duelist on the opposite side – that was, Yuei Vu. He hoped that the duelist on the opposite side could be more powerful and quickly deal with his damned current master...

"This is the guardian of your own earth, the power of the King of Kaijus! Feel it for yourself!" Fujino shouted, "The effect of Dogoran, the Mad Flame Kaiju is activated!"

Once per turn, remove 3 Kaiju Counters from anywhere on the field; destroy all monsters the opponent controls! "

The three shining lights on the Kyoto Tower went out, and red lotus-like flames erupted horizontally with Dogoran as the center!

The lava field expanded rapidly, and the ultra-high temperature melted everything in its path! The building was melted into red-hot molten iron, which fell to the ground in puddles, hissing and steaming with white smoke. The red-hot realm dominates everything and nothing can survive in it!

Radian, the Multidimensional Kaiju, and Hamon, Lord of Striking Thunder were unable to resist the overwhelming heat wave and were instantly burned to ashes in front of the heat wave that burned the sky and destroyed the earth.

At the same time, because two new cards entered the graveyard, "Kyoutou Waterfront" once again gained two Kaiju Counters, and the number of counters returned to four.

"But 'Dogoran, the Mad Flame Kaiju' cannot attack during the turn you activate its effect." Yuei Vu reminded.

"Of course I know." Fujino said, "But this guy's mission has been completed now, and he won't be needed anymore.

The effect of the Continuous Spell 'The Kaiju Files' is activated! Once per turn: I can target 1 'Kaiju' monster on the field; destroy that monster, then Special Summon 1 'Kaiju' monster with a different original name from my Deck to its controller's field."

He smiled evilly.

"Your mission is completed, please exit here.

I will destroy the 'Dogoran, the Mad Flame Kaiju'! Come again, and hold victory in my hands——
——Thunder King, the Lightningstrike Kaiju!!! "

Chapter 983: Demon and God

A storm of lightning swept across the earth, and the silver-white three-headed dragon came again riding on the storm!

[Thunder King, the Lightningstrike Kaiju, ATK 3300]

Golden lightning radiated like an overwhelming spider web, and electric light crackled along the buildings along the street. Buildings collapsed one after another, houses burst into pieces, and the debris in the sky was crushed into pieces one after another in the electric radiation.

"Thunder King, the Lightningstrike Kaiju's effect is activated!" Fujino shouted, "Once per turn, remove 3 Kaiju Counters from anywhere on the field; the opponent cannot activate cards or effects for the rest of this turn, also this card can make up to 3 attacks on monsters during each Battle Phase this turn!

I removed two Kaiju Counters from 'The Kaiju Files' and one Kaiju Counter from 'Kyoutou Waterfront'! Gravity Shock! "

The Lightningstrike Kaiju roared, and a gravitational field filled with electricity instantly erupted around it! The entire field of Yuei Vu was covered, and the powerful pressure was like an invisible plumb bob. Regardless of the cards in hand, the field, or the graveyard, all resources were locked within this gravitational field.

"It's over now!" Fujino roared wildly, "Go! Thunder King, the Lightningstrike Kaiju, attack directly!!!"

Lightning was like a sharp blade cutting through everything in its path. Electric lights exploded along the street, and pillars of fire connected into one.

Kuriboh, Kiteroid, and Swift Scarecrow were all life-saving artifacts, but obviously, they couldn't help Yuei Vu in this situation. The blockade of the Lightningstrike Kaiju was absolute. Once activated, no means could stop its attack.

Of course, this was only after the effect of the Lightningstrike Kaiju took effect.

The gravity lightning strike approached Yuei Vu like a rainbow, but it hit an invisible wall. It was a transparent shadow, like a barrier made of golden bones. The electric light hit the barrier hard, and black smoke billowed up.

That was Hamon, Lord of Striking Thunder!

"Hamon?" Fujino's expression changed, "But no matter what hidden abilities it has, it is ineffective in front of the Lightningstrike Kaiju!

You cannot activate any effects this turn, whether it is an Egyptian God or a Sacred Beast! "

What he meant might be: Don't BISS me. Hamon has been blocked by the effect of the Thunder King. How can it still block the attack for you?

"It's just that the effect cannot be activated after the effect of the Lightningstrike Kaiju takes effect, but Hamon's effect was activated before that." Yuei Vu said calmly, "The Continuous Spell 'Cerulean Skyfire' can amplify Hamon's ability.

As long as 'Cerulean Skyfire' exists on the field, if a face-up Sacred Beast I control leaves the field, I take no damage this turn. "

"Damn." Fujino said unhappily, "Did it already activate when the effect of 'Dogoran, the Mad Flame Kaiju' cleared the field? Lucky guy.

Set two cards, I end my turn. "

"Then it's my turn, draw!"

Youyu closed his eyes briefly.

"It's almost time to end."

His reaction made Fujino feel a little uneasy, but at the same time, he was even more annoyed.

"Don't get too carried away, human being!" As he roared, the image of The Light of Destruction behind him seemed to be baring its teeth and claws.

Yuei Vu ignored it: "The effect of the Continuous Spell 'Opening of the Spirit Gates' is activated! Once per turn, I can discard 1 card; Special Summon 1 Fiend monster with 0 ATK/DEF from my GY.

I discard a card in my hand and special summon the 'Chaos Summoning Beast' that was discarded as the cost of activating the 'Opening of the Spirit Gates' in the previous turn! "

[Chaos Summoning Beast, ATK 0]

"By the effect of 'Card of Safe Return', I draw three cards!" Yuei Vu said, "Then comes the 'Chaos Summoning Beast', its effect is activated! Tribute this card; Special Summon 1 Sacred Beast from my hand, ignoring its Summoning conditions!"

Fujino's face twitched: "A new Sacred Beast!?"

Yuei Vu drew a card from his hand and suddenly slapped it onto the Duel Disk. Every line in the entire duel disk lit up with a faint blue light, and the electric current overflowed and exploded.

"Raviel, Lord of Phantasms, summon!!!"

A lightning strike struck, and the current split the high-rise buildings on the seaside into two halves!

The blue giant fell with great force, its scarlet eyes fierce and violent. The thunder blew objects along the street into pieces, and the road cracked in all directions.

[Raviel, Lord of Phantasms, ATK 4000]

"Lord of Phantasms," Fujino looked very ugly, "Is this the so-called strongest Sacred Beast?"

"Battle!" Yuei Vu ordered, "Raviel, Lord of Phantasms, attack the 'Thunder King, the Lightningstrike Kaiju!'"

The strongest Sacred Beast raised his fist and clenched his sharp claws into a fist. The huge iron fist was like a meteor dragging a blue storm!

Fujino's eyes flashed.

The attack power of the Thunder King was 3300, and it would cause 700 points of damage when attacked. And he had 800 LP, so after this attack he would still have 100 LP left.

But of course, it can't be that good.

"Discard 'Raviel, Lord of Phantasms – Shimmering Scraper' from my hand!" Yuei Vu said, "Target 1 'Raviel, Lord of Phantasms' I control; for the rest of this turn, its ATK becomes double its current ATK!"

Fujino: "!?"

Nani? Attack power doubled? Wouldn't that mean...

[Raviel, Lord of Phantasms, ATK 4000 → ATK 8000]

Oops!

If I eat this blow, I will definitely be beaten to the spot!

But it doesn't matter!

"Open the set card: Trap Card – Intrigue Shield!" Fujino said, "Equip it to 'Thunder King, the Lightningstrike Kaiju!'"

Once per turn, while the equipped monster is in Attack Position, it cannot be destroyed by battle. I take no battle damage from attacks involving it! "

Sure enough, as a shield engraved with repeated patterns appeared, the Lord of Phantasms's devastating punch was blocked midway. The shock wave spread, but it failed to cause any damage.

Fujino's lips curled up: "Haha, what a pity. If the Sacred Beast's attack had passed, you would have won the game. It's a pity that it's still a little short."

Yuei Vu's face was expressionless and he didn't seem too surprised.

"Then the Battle Phase is over." Yuei Vu said, "I banish the 'Destiny HERO Malicious' from the graveyard and special summon a card with the same name from the deck!"

[Destiny HERO Malicious, ATK 800]

"The effect of the 'Chaos Summoning Beast' in the graveyard is activated! When this card is in the graveyard, I can banish it and add a 'Fallen Paradise' from the deck to my hand."

Yuei Vu pulled out the card that automatically popped up in the deck.

"The Field Spell 'Fallen Paradise' is activated!"

The site descended, the space shook, a thick smoke screen swept away, and huge dark trees rose from the ground!

"The effect of the Field Spell 'Fallen Paradise'! Once per turn, when there is a Sacred Beast on my field, draw two cards." Yuei Vu said, "Then I normal summon the 'Elemental HERO Sparkman' from my hand."

[Elemental HERO Sparkman, ATK 1600]

Fujino quickly became alert.

An ordinary Elemental HERO in attack position?

"Activate the Spell Card 'Ancient Chant' from my hand." Yuei Vu said, "Add 1 'The Winged Dragon of Ra' from my Deck or GY to my hand."

Fujino: "!?"

It is the Egyptian God this time!?

Chapter 984: The King Has Fallen

Like the golden light of the sun, majestic energy gathered in mid-air and transformed into a golden card, which flew into Yuei Vu's hands on the golden light stream as if spiritually.

"The subsequent effect of 'Ancient Chant'! During the turn when this card is activated, I can Tribute Summon 1 monster during my Main Phase this turn, in addition to my Normal Summon/Set!"

Fujino's pupils contracted.

Oops!

"I sacrifice the 'Raviel, Lord of Phantasms', 'Elemental HERO Sparkman', and 'Destiny HERO Malicious'!

Let the ever-changing fire of heaven and earth turn into eternal light to illuminate the earth!

The Winged Dragon of Ra—arrives! "

The Lord of Phantasms: What, what, what?

Sparkman and Malicious were professional footholds in Yuei Vu's hands. Either they were used to integrate or transform or be a sacrifice, so they must be used to it.

But Raviel, the leader of the Sacred Beasts and known as the strongest Sacred Beast, actually became a sacrifice before he could even stand firm?!

I have never suffered such grievances!

You dare to use me, the Lord of Phantasms, as a sacrifice?

If you dare to use me, the Lord of Phantasms, as a sacrifice, if you dare to use me as a sacrifice, I will...

...Thank you so much!

The three sacrifices disappeared from the field, and gold filled the earth! Like the rising sun, the burning golden sphere hangs on the horizon, gradually deforming and spreading its wings, revealing the noble posture of the divine bird, with golden light rippling on its metallic body.

“You actually brought the strongest Egyptian God here for me...” Fujino said solemnly.

"The attack power of The Winged Dragon of Ra is equal to the total attack power of the monsters used as sacrifices." Yuei Vu said, "So the current attack power of the Winged Dragon is..."

【The Winged Dragon of Ra, ATK 10400】

“Attack power...10,400.”

But this exaggerated data did not seem to make Fujino lose his cool. He continued: “But the Battle Phase of this turn is over.

And even if you can manage to attack again, as long as the ‘Intrigue Shield’ is there, you still can't cause any battle damage...”

“Open the set card: Trap Card – Super Team Buddy Force Unite!” Yuei Vu snapped his fingers, “Target 1 face-up monster on the field; Special Summon 1 monster from my hand or GY, with the same original Type as that monster's, but with a different original name.

I choose ‘The Winged Dragon of Ra’! ”

Fujino: “?”

A monster of the same Type as the Winged Dragon... It cannot be! ?

“The scorching wind blew wildly across the earth, suppressing all things with absolute divine power! Resurrected from the graveyard——

——The God of Destruction, Obelisk the Tormentor! ”

The earth trembled with a loud noise, the earth's crust shattered, blue light beams rushed into the sky, and the giant with scarlet eyes seemed to break out of the underworld!

【Obelisk the Tormentor, ATK 4000】

"Of course, because Obelisk was resurrected from the graveyard, the effect of ‘Card of Safe Return’ was activated." Yuei Vu said, "I drew three cards."

"Obelisk?" Fujino frowned, "You actually summoned the Lord of Phantasms and the two Egyptian Gods in one turn. You are indeed a human being beyond our expectations.

But even Obelisk..."

"Obelisk the Tormentor's effect is activated!" Yuei Vu waved his hand, "Tribute two monsters, and destroy all the monsters on the opponent's field!"

Fujino was shocked: "Two monsters!? But you don't have enough on the field..."

...Wait, do you want to...? "

In this duel, Yuei Vu did not activate the skill "God's Anger", so this Obelisk was naturally the real-life version. Although it had many weaknesses compared to the original version, it also had more flexible characteristics.

"I sacrificed 'The Winged Dragon of Ra' and 'Obelisk the Tormentor'... and destroyed all your monsters!!!"

Obelisk's ability was activated, his fists glowed with dazzling blue light, and the aura of the sacrifice enveloped the two Egyptian Gods on the field.

The Winged Dragon screamed sharply as if to say: This guy is so courageous, he dares to use me as a sacrifice again!

Obelisk: When I go mad, I can even sacrifice myself. JPG.

The Winged Dragon of Ra turned into a gorgeous golden flash and poured into his fist, and then Obelisk himself turned into a transparent shadow. The divine fist that shattered everything exploded in the air, sweeping across Fujino's audience like a raging wave.

But Fujino still has the last set card!

“Activate the Continuous Trap ‘Safe Zone!’” He shouted against the storm of the Titan Soldier’s divine fist, “

Target 1 face-up Attack Position monster on the field; that face-up monster cannot be destroyed by battle or the opponent's card effects, the opponent cannot target it with card effects, also it cannot attack the opponent directly!

I use the ‘Safe Zone’ to protect ‘Thunder King, the Lightningstrike Kaiju!’ "

Another layer of defense has been put on the Thunder King. At this time, Ghidorah could almost be said to be invulnerable!

It could not be destroyed by battle, could not be destroyed by card effects, and cannot be the target of effects. Even if you attacked it, the battle damage would be 0.

An ultimate barrier that was almost impossible to tear apart!

“Hahahahaha!” Fujino laughed, “It seems that your obsession with defeating the Thunder King has gone to your head, Duel King!

In this way, both of your Egyptian Gods have disappeared, but my Lightningstrike Kaiju is safe and sound! By the next turn..."

Before he finished speaking, the second half was stuck back in his throat.

Fujino showed a look of astonishment.

The golden firelight dispersed the smoke screen, just like the legendary golden crow soaring in the sky. Its entire body was bathed in flames, its wings were surrounded by a golden halo, and the space it was in seemed to be distorted by the high temperature. Its body was completely covered in firelight with only a vague outline, and its eyes were as scarlet as blood.

Fujino was confused: "How could it be? Hasn't the Sun God been..."

"The Winged Dragon of Ra – Immortal Phoenix." Yuei Vu said calmly, "If 'The Winged Dragon of Ra' is sent from the field to my GY, this card can be Special Summoned from my graveyard."

Furthermore, the opponent cannot activate any effects in response to this summon. "

【The Winged Dragon of Ra – Immortal Phoenix, ATK 4000】

"Is it the hidden form of the sun god?" Fujino narrowed his eyes.

It doesn't matter, the current Thunder King is an iron wall. Not to mention that the Battle Phase has passed, and even if Yuei Vu can still fight, the battle damage will only be 700 points, which is not fatal.

And with the "Intrigue Shield" around, he couldn't even deal 700 points of damage. There is nothing to be afraid of...

"Quick-Play Spell – Emergency Provisions. I send the Continuous Spell 'Cerulean Skyfire' on the field to the graveyard to restore 1000 LP."

【Yuei Vu, LP 400 →LP 1400】

"The Winged Dragon of Ra – Immortal Phoenix's second effect is activated." Yuei Vu said, "By paying 1000 LP, It can directly wipe out any monster on the field..."

【Yuei Vu, LP 1400 →LP 400】

Seeing the phoenix screaming and spreading its wings, and the venue heating up rapidly, Fujino hurriedly reminded: "But with my 'Safe Zone', the Lightningstrike Kaiju cannot be the target of the effect, nor can it be destroyed..."

"This kind of resistance is useless against gods!" Yuei Vu interrupted, "The effect of the Immortal Phoenix is not to 'destroy', but to send the target monster directly to the graveyard!"

And this effect... is activated without targeting! "

Fujino: "!!??"

There is also such an operation!?

All resistance and all defenses have become useless! The phoenix flapped its wings, and the whirlwind of flames swallowed up the Lightningstrike Kaiju! The three-headed dragon screamed and struggled desperately but to no avail.

As Yuei Vu said, the effect of the Immortal Phoenix was to "send to the graveyard", which was more advanced than "destruction". It was equivalent to a law of direct obliteration. Looking at the entire world of duel monsters, there were few creatures that could resist it.

Thunder King, the Lightningstrike Kaiju was eliminated!

"Quick-Play Spell 'Mischief of the Time Goddess'. Skip to the start of the Battle Phase of my next turn." (animation effect)

Yuei Vu said calmly.

“Originally, during the End Phase, ‘The Winged Dragon of Ra – Immortal Phoenix’ needs to return to the graveyard... Of course, because the End Phase is skipped, there is no need to activate this effect.”

He raised a hand.

"The final blow! ‘The Winged Dragon of Ra – Immortal Phoenix’, direct attack!"

Like a strike from the sun itself, light and flame seemed to dominate the entire world, eclipsing even "The Light of Destruction" that resided in Fujino's body which claimed to annihilate all things.

“Uhhhhhhh!!!”

【Fujino, LP 800 →LP 0】

Chapter 985: Wormhole

"Ahhhhhhh!!!"

The "Immortal Phoenix" state was the strongest state even for the Winged Dragon. In terms of "force", a blow in this state was absolutely unmatched.

The Light of Destruction was defeated in an instant, and the blurry light group was blasted out of Fujino's body by the mighty flames, twisting painfully in mid-air. It didn't even have a chance to struggle for a few seconds before it was burned to ashes in the flames.

After the evil was blasted out of the body, Officer Fujino immediately collapsed like a puppet whose strings were cut.

Although the Winged Dragon's attack targets were mainly the Light of Destruction and the inner personality derived from that evil, and had no real impact on Fujino's own spirit, the scorching flames still made him sweat profusely and make him wet. It looked like it was just fished out of the water.

Those who didn't know thought he had just performed some strenuous exercise, but in fact it was just a game of cards...

The burning firebird in mid-air gave a sharp cry, flapped its wings, rushed into the sky and disappeared. The image created by the Duel Disk also disappeared, and the world began to spin. The scene of "Fallen Paradise" suddenly switched back to the command room of the sea base.

The Shadow Game was over, and the realm that bound this duel also disappeared.

During the Shadow Game, the two warring parties could not leave the realm, and people outside could not enter. Now that the duel was over, a group of sergeants who had been isolated outside immediately filed in and hurriedly checked the situation in the command room.

As soon as they entered the door, they saw their leader lying on the ground unconscious and sweating profusely in an inelegant posture, while Yuei Vu was squatting next to him, moving the hand toward his Duel Disk...

Everyone was confused for a moment and didn't understand the situation, but someone still said loudly: "Don't move! Get away from the commander!"

However, Yuei Vu didn't seem to hear it. He unhurriedly pulled out the deck from Fujino's Duel Disk, browsed it briefly and stuffed it into his pocket, and then reached out and patted his face.

"Hey, wake up."

Fujino woke up leisurely and opened his eyes in a daze. As soon as he regained focus, he was hit by a head-on critical hit with a charm value of 95.

He quickly shrank away like a reflex.

"What happened? What did you do!?"

Yuei Vu rolled his eyes at him: "This is the question I want to ask. You are possessed by 'The Light of Destruction', and the Quantum Cube may also be in your hand, so you'd better remember what did you do while you are possessed."

After The Light of Destruction was removed from their bodies, the Saio siblings all had memories of what happened under the control of their other personalities – even in the original work, Saio managed to resist when his other personality occupied his body.

If Fujino could also remember what he did while he was possessed, it would save him a lot of trouble.

But Yuei Vu seemed to have too high expectations.

"...Huh?" Fujino looked confused.

It was obvious that he couldn't be of much help.

But in fact, there was no need for him to provide information now, because it was too late.

The Light of Destruction's plan had succeeded.

Just one minute after the duel here ended, Yuei Vu received a contact from Kaiba Corp.

"Brother Yuei Vu, something bad is going to happen!" Mokuba sounded quite anxious.

"What's up?"

"It's the Quantum Cube." It was not Mokuba who answered first, but Aigami.

The Aigami siblings have been helping the Kaiba Corp to find the whereabouts of the Quantum Cube, and it seems that there is some progress.

"Did you find it?" Yuei Vu asked.

"Found it, but maybe it's too late." Aigami said seriously, "The Quantum Cube was somehow activated, and a huge energy similar to our 'Prana' was released in one breath.

Sera and I have never seen the cube act like this, and we didn't even know that the cube could be used like this... It's hard to describe clearly in words, but you can take a look at the results. "

The screen data was transferred to Yuei Vu's duel disk, and was quickly projected digitally.

Rolling clouds covered the sky, and the sun was blocked behind the thick clouds.

Golden beams of light shot into the sky, and countless light particles floated in the air. There seemed to be a gap in the sky, and it was a dark vortex, as if a wheel was slowly turning.

It was like a door, or a wormhole.

"This is a channel activated by the 'Quantum Cube'. We don't know what means they used to make the 'Quantum Cube' operate in a way we have never imagined, opening a huge wormhole."

"So what's on the other side?" Yuei Vu asked.

"I don't know." Aigami said, "But you said before that the thing that stole the cube was an alien thing called 'The Light of Destruction'? Then I guess it might be its true self on the other side? Is it an alien monster? Or Or... an army?"

"..."

After a brief silence, Yuei Vu continued to ask: "This wormhole, where is it?"

"This is the next shocking place." Aigami said in a deep voice, "It's right above Duel Academy."

...

In World Link Online version 2.0, Duel Academy Island was the absolute center.

Just like what Chairman Kagamaru and Saio Takuma said to Judai in the final season of "Yu-Gi-Oh! GX", this island may be cursed to some extent.

The dimensional space it was located in may be more loose than other places, or it may be the so-called illusory guidance of fate that made it frequently become the center of various events.

People often say that it is dark under the lamp, what is most easily overlooked is actually the most obvious place.

Yuei Vu really didn't expect that the "Quantum Cube" that so many people had been looking for day and night was actually hidden in the Duel Academy where he was personally in charge.

A beam of light from behind the island's volcano shot straight into the sky, opening a black vortex above the clouds. Everyone on the island quickly noticed the movement over there, and many people couldn't help but stop and watch.

"what's the situation?"

"Is it some special event of the GX competition?"

"Is it another projection? Just like that time..."

The academy leadership, which was already in chaos due to Mizuchi's cyber attack, has not yet recovered, and things have taken another twist.

After a moment of silence, there was movement in the whirlpool in mid-air.

Blue and red lights lit up in sequence from the black hole, like a pair of eyes of a beast. The beasts sleeping in the darkness were suddenly awakened and rushed out of the hole in groups!

The huge battleship cut through the sky like a black sword, followed closely by spaceships and fighter planes, like overwhelming locusts!

Everyone on the island, including teachers, students and contestants, saw this scene clearly.

As Saio Mizuchi's light personality said at the time, what appeared this time was no longer a three-dimensional projection.

What came to the island this time and appeared in front of everyone was a real alien fleet!

Chapter 986: Space Fleet!

The alien fleet arrived suddenly, countless small shuttles swooped down like birds of prey, and laser bombardment was overwhelming. The entire island seemed to be instantly ignited.

"Ah? Is this also a three-dimensional image?" Judai looked at the series of flames soaring into the sky and couldn't help but be stunned.

While he was stunned, a shuttle happened to swoop down towards his location. The blue-blazing laser beam was like a thrown javelin heading straight for his face!

Judai was still in a daze, but a shadow had separated from his body. Yubel materialized in front of him. With a wave of her claws, the beam was immediately reflected back in front of her power, which in turn blew the shuttle into pieces.

"Idiot, they have launched a general attack. Do you think this looks like a three-dimensional projection?" Yubel rolled her eyes at him.

"Eh? Does that mean these are real aliens!?" Judai suddenly woke up, "It's so exciting!"

The academy immediately entered a wartime state, and all duelists temporarily put aside the competition. Those without special abilities were evacuated directly under the arrangement of the academy, while those with abilities summoned their own duel monsters to fight back.

Even though this looked like an academy, in fact it may be more difficult to fight than many military facilities. All kinds of duel monsters jumped into the sky and quickly fought with the alien formation.

"Destroyed destiny brings the end of all things, show up! Destiny HERO Plasma!"

Aster slapped his ace hero to the Duel Disk. The bloody dark hero flew out with fluttering wings, wide bone wings spread out, and blood arrows shot towards the shuttle like a rain of flowers all over the sky!

Countless hit alien shuttles fell one after another, but they also attracted the attention of aliens. They quickly mobilized their troops to besiege Plasma.

But Plasma was very powerful and had quite strange abilities. His power exploded, opening up a bloody field with himself as the center. Any enemy who rushed into that area only felt the pressure doubled. Even the weapons and equipment of the shuttle seemed to be less convenient than usual, and a large number of them were shot down in a short time.

But the number of enemies was astonishing, and they were surrounded from all sides. Plasma flapped his wings and shuttled back and forth between the dense lasers. With just one mistake, his arm was immediately wrapped around a light whip.

Plasma's body was restrained and it was difficult to break free in a short time. Countless alien shuttles immediately seized the opportunity, and dense beams of light came from all around!

"Plasma!" Aster shouted anxiously.

But at this moment, a golden light suddenly appeared, and the brilliance condensed into the white human shape of the hero!

Elemental HERO Neos appeared in the shining light, standing squarely in front of Plasma. With a flick of his palms, the circular barrier formed by the energy hit the beams that were about to besiege Plasma and scattered them all.

Then he swept his arm and slashed through the air with his sword. The plasma-like energy light sword slashed out, and the shuttle exploded into a large area with a muffled sound along the way.

"Judai!"

Seeing Aster coming to support Judai, he briefly showed an expression of surprise. But this expression was fleeting and soon turned into a cold and unhappy expression.

"Hmph, mind your own business, I don't need your help."

"Of course." Judai smiled, "But I need Aster's help."

Aster curled up the corner of his mouth and showed a smile that said, "That's pretty much it."

"Okay, then I will reluctantly cooperate with you this time. But don't hold me back."

"Of course."

Jushidai patted his chest to express his confidence that I was safe.

After all, his Ultraman was professional in dealing with aliens.

However, there were only a few students with fighting abilities like them, and most people still chose to follow the guidance of the academy to take refuge.

Here, Sho Marufuji was following the crowd in the shelter with his head down. When he saw a familiar figure in the distance, his eyes lit up: "Ah, Asuka!"

Asuka looked around as if she was looking for something as she walked. When she saw Sho, her eyes lit up and she quickly squeezed through the crowd.

Before she opened her mouth, Sho Marufuji shook his head: "Aniki is not here, he is not with me, and I don't know where he went."

He was already experienced, Asuka would mention his Aniki at least once per three sentences.

"That's it." Asuka was a little disappointed.

"But don't worry, Aniki must have gone to seek refuge, and he will be fine."

"Well, I hope"

^ “”

Plasma was flying in mid-air. He shot his tentacles into a shuttle and snatched an alien shuttle back.

He stepped on the top of the shuttle, and the countless tentacles extending from the wings penetrated into the cabin. He controlled the light cannon under his feet to fire continuously, sinking several aircraft in succession.

Ed was a little proud, and turned to look at Judai: "See, I have destroyed more enemies than you, and my Destiny HERO is stronger than your Elemental Hero!"

Judai still only smiled: "That's natural."

But as soon as he finished speaking, he saw that Neos in mid-air had borrowed the power of his Neo-Spacian companions to sublimate into the form of "Nebula Neos", and a laser shot out like a galloping river, accompanied by a series of rumble blew up an entire alien flight formation.

Aster: "..."

In addition to the security team on the island, the instructors stationed in the forest behind the teaching building also actively participated in the battle. They rushed forward one by one, rushing to the front line without fear of life or death, and they even seemed to be very happy.

"Ha! I knew I could get into big events in the academy!"

"Brothers, let's form a party! Fight monsters to gain experience!"

Of course, the screwballs themselves did not have the ability to materialize monsters, but they had props.

During the large-scale fight against Doma, the Industrial Illusions specially prepared disposable envelopes containing dark power. Before the "force" in the envelope was exhausted, the holder could briefly obtain the dark power, including the ability to materialize monsters.

After that incident, Yuei Vu added this special prop to his personal store. Many players bought some envelopes from him and stored them in order to be able to deal with such sudden and important tasks.

Alien technology was ahead of Earth's, and their weapons and equipment may be ahead of Earth's, but the duel monsters summoned here were not weak at all.

In particular, Neos, the main output brother who basically occupied the C position in this island war, was now in the form of "Nebula Neos". Although this form could only last for three minutes, at least during these three minutes, this big brother was like a God of War, slaughtering all demons and gods standing in the way, rushing back and forth in an alien formation like entering a deserted land.

It seemed that the firebombing failed to achieve the expected effect, and the invasion of the alien fleet quickly entered the next stage.

Spaceships descended from the wormholes one after another, casting golden beams of light towards the islands below. One after another, strange figures descended along the light pillars, as if they were descending on an elevator.

They were various biological robots, each wearing an alien instrument similar to a Duel Disk on their hands.

There were so many of them, they were densely packed all over the academy island...

...And open the Duel Disk to whomever they encounter first.

"Exterminate... all obstacles," they said, "Receive the baptism of light, and then be destroyed!"

Chapter 987: Invasion By Playing Cards

Ten minutes ago, the alien fleet sent the first batch of spaceship troops to the Duel Academy island through the wormhole for firebombing, but they encountered a powerful counterattack by the Duel Monsters summoned by the academy.

Among them, there was a certain civil servant from M78, who was unstoppable and caused huge damage to the alien formation.

It seemed that it was discovered that the resistance of these duel monsters to conquer by force was not as easy as imagined, so the aliens immediately entered the second stage of invasion-

-Playing cards.

In fact, this tactic was actually quite scientific.

The duel monster spirits controlled by their masters could more fully exert their power in this world, and even if you defeat them and blast them into powder with black technology particle cannons, they will just return to the master's deck to sleep.

As long as the duelists who controlled the spirits could still hold on physically and energetically, they could continue to summon new monsters to materialize and join the battle.

From the perspective of war, a duellist was the commander-in-chief of an army. As the saying goes, "Defeat the enemy by capturing their king first", as long as the commander was defeated, the entire army in his hands would be equivalent to falling apart.

So there was absolutely nothing wrong with the idea of going directly to the commander-in-chief of the army to challenge him and solve the problem by playing cards.

Maybe the interstellar wars between galaxies in the universe also followed this routine. Everyone first used the fleet and the Star Destroyer to bombard each other. When they found that no one could defeat the other by force, they went to the commander to play cards. Which fleet lost the card game? Instant explosion.

At first, everyone on the island was still a little panicked when they saw the alien fleet that looked like locusts in the sky. But now everyone realized: Hey, aliens actually play cards so that we won't be powerless.

As a result, Duel Academy islands blossomed all over the place, and card games were played everywhere.

Most ordinary students have gone to take refuge, and the remaining duelists were mostly strong men with good skills, and they were at least among the best in the professional circle.

And the level of those alien pioneers seemed to vary between good and bad. Among them, there were some who are relatively strong and could compete with professional players, but it seemed that there were also some cannon fodder just to make up for the numbers.

Finding out that the aliens' dueling skills were not very high, and the cards they used didn't seem to be fake cards that could overturn heaven and earth in seconds, the duelists who were still a little timid suddenly became more confident.

Not to mention the players involved, these people don't know how to write the word "fear" to begin with.

Here Brother Noragami was facing off against one of the cosmic beings.

It's a bit unfortunate for Native Noragami that the opponent took the lead this time. As a player who focused on traps, he definitely preferred to go first. As long as he got the first move, he could prevent the opponent from even summoning a monster.

Mr. Alien took the initiative. This player from space definitely had a style. He threw two cards directly into the graveyard in his first hand, indicating that he just exchanged three for one and special summoned "Candelato, the Beast of Light"!

"The attack power of Candelato is equal to the number of cards in my hand x 1000 points!"

【Candelato, the Beast of Light, ATK 3000】

Brother Noragami was immediately shocked.

Good guy, what's your relationship with Traitor Sky Dragon? Distant relative?

"However, while Candelato exists on the field, I must skip my Draw Phases." The alien explained.

Brother Noragami suspected that he had heard wrongly.

What?

There is such a trash? Not only it costs two cards to play, and it doesn't have any decent abilities, but it also has such fucking side effects?

Then the alien was extra arrogant, as if he had stabilized himself with this blame.

"There's no need to draw new cards, 'Candelato, the Beast of Light' is enough to finish you off!" He shouted, "My turn is over!"

Native Noragami felt so unreal.

Finish me off? Just by this thing?

He felt insulted.

It came to Brother Noragami's turn. He first played the Field Spell "Megaroid City" and then Normal Summoned "Mixeroid".

Then he activated the effect of "Mixeroid", Tributing itself to Special Summon the invincible "Submarineroid" from the deck...

Three minutes later.

The alien's whole body was broken and he lay on the ground. Electric sparks were crackling in the broken shell, and he was still muttering intermittently: "Earthlings don't know how to play cards with virtues... they won't duel with me in an upright manner..."

Then it tilted its neck, its eyes went out, and then it burped.

Quickly beating the alien to death with a few slaps from the invincible Submarineroid, Brother Noragami immediately turned around and started looking for the next target without stopping.

EXP! Each of these is a walking EXP package!

I mustn't let others take the lead!

Other screwballs were also dueling in full swing at this time.

Alien: "Open the set card: Trap Card – Raigeki Break! I discard a card and destroy the 'Great Shogun Shien' on your field!"

Yuei Cannot Escape Fae: "Quick-Play Spell – My Body as a Shield! I pay 1500 LP, negate the effect of 'Raigeki Break'! Then Great Shogun Shien attacks directly!"

Alien: "Then I activate the trap card 'Mirror Force'!"

Yuei Cannot Escape Fae: "Muda! When Shien is on the field, the opponent can only activate 1 Spell/Trap Card each turn!"

Alien: Nani!?! (LP 0)

^ “...”

Of course, players had varying strengths and unstable performance, and not everyone could do so smoothly.

Coke Sprite, with the help of the guild, has put together a deck of the same style as her lovely apprentice Tenjoin Asuka. She searched and drew a lot of cards in one turn, and then completely wiped out the opponent's field. The Cyber Angels stepped forward and pushed directly to achieve OTK.

Quickly dispatching her opponent, she turned around and was stunned: "Huh? Where is our president? The one who was behind me just now?"

"Oh, you mean President Sandbag." A player casually replied while playing cards with the alien, "He just said he wanted to play one versus three, to save trouble and effort."

Coke Sprite was in awe: "Is President Sandbag so fierce? What about others?"

"It seems that he has a brick starting hand, and then three aliens on the opposite side directly killed him. He should be waiting for respawn at the moment."

Coke Sprite: "..."

President Sandbag, once again, died because not believing enough in Heart of the Cards.

Coke Sprite didn't know whether it was an illusion or not, but she felt as if whenever there was any major plot event in the main plot, President Sandbag was always at the forefront and the first to fall.

The battle was getting intense when suddenly a muffled thunder exploded in the air, lightning streaked down from the sky, and the dragon's roar shook the sky and the earth.

The duelists and the aliens in the battle all looked over and saw the writhing dragon shadow in mid-air.

The divine beast that controlled the sky, the god in charge of thunder, with endless oppression and momentum, hung condescendingly above the fleet of spaceships in the sky.

Compared with that sacred and great creature, the alien shuttles all over the sky were just like toys!

Osiris the Sky Dragon had arrived!

Chapter 988: Starship

Osiris the Sky Dragon!

Now everyone in the circle knew that after the soul of the Pharaoh in Muto Yugi left, the three remaining god cards in the world were all concentrated in the hands of Duel King Yuei Vu.

...Oh, by the way, there were rumors that President Kaiba Seto also seemed to have the ability to print cards out of thin air and dig out Obelisk from the floor, but after all, they were just rumors and no one has seen them with their own eyes, plus this statement was too fantasy and nonsense, thus most people didn't believe it.

So the appearance of Osiris here meant that the Duel King Yuei Vu had arrived in person!

This made the duelists in the battle feel refreshed, and many loyal fans of the Duel King couldn't help but cheer.

Mr. Ma, who was sandwiched between the duelists and the aliens, laughed outright, pointed at the alien in front of him, and said with a smile, "Haha, you had a chance to run away just now, but now you are all finished..."

Seeing the help of the Sky Dragon, the screwballs who were already in high spirits all worked harder. Play cards hard, and pull cards even harder...

Many aliens have never seen something like this before, and they were stunned like idiots for a while. The group of screwballs were like Japanese invaders entering the village. The first thing they did after defeating the enemy was to get down and pull out the deck and the Duel Disk. It seemed that compared with the goal of "repelling the invaders and defending their homeland", they were more interested in the enemy's deck.

The alien soldiers were all stupid. They traveled across the starry sky and conquered countless galaxies, but they had never seen such a weird scene before.

Osiris took action.

The red dragon was entrenched in the sky, its huge body covering a large area below it like a black cloud. It opened its mouth, and golden electric light gathered in its mouth. The beam of light blasted out along with the thunder, like a cannon that shot through the sky!

Superconductive Wave Thunder Cannon! ! !

Thunder bombardment seemed to explode in everyone's ears, and the sound waves kept hitting the eardrums like drumsticks. Everyone on the entire island clearly saw the beam of light that tore through the sky, passing through the alien fleet with great force.

Thunder detonated shuttles all over the sky one after another, and spacecraft continued to explode, exploding into fireballs all over the sky. The beams and lightning strikes penetrated the entire formation and continued unabated, penetrating along the teleportation wormhole in mid-air.

The thick golden beam broke into the formation and went straight to the center as if it hit the core hidden in the depths. Until the light dissipated, the thunder continued to roll.

With just one shot, the whirlpool in mid-air was cleared of a large space.

The sky dragon twisted its body, and its huge body rushed out at an unscientific high speed, rushing straight toward the wormhole like a red lightning bolt.

A small black shadow followed it closely in mid-air.

That's Yuei Vu.

At this time, Yuei Vu was being carried by the Dark Magician Girl. Their bodies were protected in a shield constructed by a complex magic circle like they were wrapped in a thin eggshell.

Although Yuei Vu's Dark Magician Girl was a little stupid, her black magic skills were quite good. Her defensive spells could isolate the influence of the outer space environment, and her creative spells could also provide the oxygen necessary for breathing.

So her combat effectiveness among the spirits held by Yuei Vu may not be very good, but she was still pretty good as a mount.

At this time, Neos also fell next to Judai.

"Judai, Mr. Yuei Vu has cleared a path directly to the other end of the wormhole. This is an excellent opportunity!" He reminded, "Let's go there too!"

It is our mission to defeat 'The Light of Destruction' that is ravaging the universe! "

Yubel muttered something, as if she thought this kind of thing was too dangerous and should be left to Yuei Vu. She suggested that Judai could just paddle in the back row...

But Judai simply ignored her.

"Okay, okay!" Judai directly grabbed Neos's arm, "Then let's leave quickly, otherwise we won't be able to catch up with Yuei Vu-sensei!"

Yubel: "..."

Seeing that the dragon in the sky was leading the way, it had already flown halfway. But suddenly he saw a flash of light behind the black hole, and a beam of incandescent light suddenly blasted out, hitting it head-on!

This bombardment came from the other end of the wormhole and came suddenly without any warning. It was already too late for Osiris to charge up the "Superconductive Wave Thunder Cannon". He only opened the second mouth above his head and fired a "Thunder Summoning Bullet" head-on!

The bombardment from outside the black hole was truly extraordinary, and it was not on the same order of magnitude as all the previous attacks from spaceships and warships. Everything seemed to be eclipsed by the light of that cannon. The moment energy poured out of the wormhole, the earth screamed as if it was on the verge of collapse, and a restless hurricane rolled up on the horizon.

Although it may be just an illusion, just that incandescent beam seemed to be enough to sweep across the entire planet!

The thunderbolt hit the white light head-on. Although the thunder ball containing the divine power of Osiris still failed to completely offset it, it successfully deflected the trajectory of the shot.

The incandescent light path drew a huge arc in mid-air and shot out diagonally toward the sky.

Huge gaps were torn apart in the clouds, and the beams of light penetrated the atmosphere and plunged into the dark and endless depths of the universe.

A huge gap was left in the dark and thick clouds in mid-air.

Everyone on the island truly felt the terrifying power that could destroy the world. No one doubted that the one shot was definitely enough to evaporate the entire island.

If it weren't for the Egyptian God here, the consequences would be disastrous!

The source of the power soon appeared in front of everyone.

A dark thing appeared at the portal, slowly emerged from it, and revealed its complete posture bit by bit.

It was a battleship like a black iron sword, with purple and black lines all over its body. It drove out slowly, without any sound from the engine, as quiet as a beast sleeping. Propulsive flames jetted silently from its rear.

It covered the sky and the sun, like a large steel cloud covering the island, covering everything with despair.

Many people were so frightened that they were stunned. They looked up at the terrifying battleship and were speechless for a long time.

Of course, the screwballs were still as happy as ever. It was clearly an enemy ship, but many people were so excited that they danced.

"Holy shit! Eclipser! Star Wars!"

"Star Destroyer! Damn, it's a Star Destroyer!"

"..."

This ship, or the card corresponding to this ship in the Yu-Gi-Oh system, was called "Kozmo Dark Eclipser".

Its prototype comes from a well-known science fiction movie series – "Star Wars". It was a combination of the "Eclipse" class and the "Executor" class from the Star Wars series.

As the name suggested, it was a Star Destroyer.

Chapter 989: Galaxy Fleet

The Star Destroyer from the "Star Wars" series corresponded to a series called "Kozmo" in the Yu-Gi-Oh deck system.

Its design elements were mainly based on the literary work "The Wizard of Oz" and the science fiction movie "Star Wars" series.

Because the deck was mainly composed of interstellar shuttles, fighter jets, and various warships, the deck may still be more in the style of "Star Wars".

But the "Eclipser" didn't open fire after it arrived. It seemed that the purpose of the ship's appearance was more to demonstrate.

A ball of white light poured out from the cockpit of the black battleship as if it had transformed into an abstract monster. It bared its teeth and claws, and the white light transformed into fangs and claws, and its hollow and deep-set eyes were like staring into the abyss.

Osiris landed behind Yuei Vu, with a violent roar that shook the sky, as if he was ready to take action if he said anything wrong.

The white light swayed and twisted in mid-air for a moment, then shrank and gathered together, turning into a human-like shape. But he had no facial features, and his body was still an abstract outline made of pure light.

His arms bulged, and the white light turned into a Duel Disk. He was suspended high in the sky and raised the Duel Disk in his hand towards Yuei Vu, as if provoking.

It looked like the fleet commander in charge of playing cards finally showed up.

Yuei Vu could feel the wave of The Light of Destruction from this guy who was completely different from any previous individual. Whether it was the previous Saio, Mizuchi, or Fujino, The Light of Destruction in any of them could not be compared with the person in front of him.

This guy might be the true body of The Light of Destruction.

Yuei Vu lowered his height and came to the figure. He signaled the Dark Magician Girl to release a transparent magic circle in mid-air as a foothold, and he landed on the magic circle.

“Are you ‘The Light of Destruction’?” Yuei Vu asked.

“You can understand it that way.”

The figure spoke, his calm voice without any emotion, sounding like a machine.

“In the beginning, there was endless darkness. We chased the darkness, and from the darkness came the dark matter that gave birth to life, and the light that burned everything was born.

Entropy continues to increase until it is guided to the inevitable end, where everything comes to an end. ”

The position of the humanoid's eyes flickered, and there seemed to be a sharp gaze shooting out of the face without facial features.

“I am what you call ‘The Light of Destruction’, but I am not, because I have not come here in person. The earth alone is not worthy of my coming in person.

This planet will also be involved in the fate of the universe. The end of all things, the beautiful and desperate moment, that is the inevitable end for anyone or anything. So are you.

And I am just here to help you speed up the process.”

“Then it looks like we have to thank you.” Yuei Vu complained.

“No need.” The Light of Destruction said coldly, “It’s just a program. What we represent is the will of the universe itself.

The ultimate goal of the birth of life is death, and the very meaning of the creation of all things created by chaos is destruction.

And we, the supreme Light of Destruction, are the implementation of the will of the universe. We are destruction itself. This is the meaning of our existence and the law of the operation of the universe."

"You are wrong!"

A voice sounded, and Neos soared from the ground, carrying his master Judai.

"The meaning of life is not given by anyone." Neos said firmly, "All creatures in the universe should have the right to control their own destiny and work hard to live. No one can deprive them of this!"

"That's right!"

Judai didn't know if he understood what they were arguing about, but in short, what his spirit said was definitely correct.

The Light of Destruction glanced sideways at his natural enemy, the elemental hero Ultraman, and said slowly: "Are you there again, representatives of the 'Darkness of the Universe', people of the Neo Space?"

You are a cancer on the trajectory of this universe, a virus that tries to hinder the process of the universe on your own.

Well, let me remove you all here. "

"Yuei Vu-sensei!" Judai said, "Let me fight alongside you!"

Yuei Vu originally wanted to say it was too dangerous, but then he thought about it. Strictly speaking, his lovely student was the real protagonist of the world, the one with the main character's aura. This Light of Destruction was originally Judai's enemy, and maybe the other party would be defeated by Judai instead.

"Fine."

Yuei Vu nodded in agreement, turning his head and signaling to the Dark Magician Girl to generate a magic circle for Judai as a platform to stay.

"Thank you, sensei!" Judai's face was full of joy.

It's good that this kid was very simple. When ordinary people face this kind of duel that "bets the survival of the planet" for the first time, they may be overwhelmed by the heavy burden, and then unable to exert even half of their usual strength.

But Judai didn't. His card addiction overshadowed everything else.

What? Play cards with an alien overlord?

Wouldn't that be more exciting!?

Yuei Vu opened the Duel Disk. Before shuffling the cards, he thought about it, took out a card, and threw it to Judai from the air.

Judai took the card blankly, picked it up and looked at it, and was immediately shocked: "Eh? Sensei, this is..."

Yubel, who was floating behind him, couldn't help but look at Yuei Vu with some surprise when he saw this card: "You are really generous."

"Take it." Yuei Vu waved his hand, "I have wanted to give this card to you for a long time. If it were you now, you would definitely be able to control it."

"Oh oh."

Since the teacher said so, Judai didn't ask any more questions. He just silently added the card to the deck, and the deck was automatically shuffled.

Since I was a child, I have never missed Yuei Vu-sensei's words.

At this time, all the fighting on the island has stopped, and everyone's eyes are focused here.

It's natural that a duel of this level would be broadcast. Miss Yuehua, Yuei Vu's official video recording gadget, has already started live broadcasting the whole process, relaying the scenes to the majority of players. At the same time, the Duel Academy videotaped this card game of the century and simultaneously broadcast the footage to all parts of the world.

This was the first time that mankind has officially come into contact with an alien civilization, and the first-generation Duel King would personally go into battle against the extraterrestrial invaders!

A duel where the fate of the earth was at stake!

Next, a surprising scene occurred.

The Light of Destruction raised its arms and raised the Duel Disk on its wrist. A powerful wave was released, and the transparent wave of light spread to the entire sky.

Then under everyone's gaze, the spaceships and battleships that filled the sky disappeared one after another.

The locust-like starfighters, the huge battleships that covered the sky, and the huge fleet disappeared in an instant. They turned into streaks of white light and flew into the Duel Disk in the hand of The Light of Destruction.

They turned into cards one by one, forming a deck, which was automatically shuffled in the slot of the Duel Disk, and was completed.

Everyone was stunned.

In other words, the invincible alien fleet that swept across everything just now...

...Actually just this person's deck!?

Perhaps he was actually the only one who came to invade the earth.

It's just that he alone was equal to an army!

Of course, on the other hand, winning this duel here was equivalent to defeating the entire Galaxy Fleet.

Then things became simpler.

Of course, it might not be that simple.

Yuei Vu, who was at the scene, could feel the aura that only a super strong person could have from the seemingly ethereal and illusory body of The Light of Destruction.

This guy was undoubtedly very strong.

Comparing The Light of Destruction in Saiou, Mizuchi, and Fujino's bodies to the image in front of them, it was like the difference between a stream and the vast ocean.

In terms of Duelist Rank, he should be at least level ten...maybe even higher!

This was definitely the strongest opponent Yuei Vu has ever encountered in the GX era so far.

"Duel!" x3

Chapter 990: Kozmo

"Duel!" x3

[Yuei Vu x Judai, LP 8000]

[The Light of Destruction, LP 8000]

In this duel, Yuei Vu and Judai are regarded as the same team, sharing 8000 LP, which was the total health points of both players. The Light of Destruction alone had 8000 LP.

The fields and graveyards could be shared, but the decks and hands were not.

The Duel Disk randomly determines the order of playing.

"Looks like I'm the one to take the lead, draw!" Light of Destruction said coldly, "I summon the 'Kozmo Tincan' in Defense Position."

The first one to appear was a space mechanic robot, a short tin man with no fighting ability at first glance.

[Kozmo Tincan, DEF 0]

"Set a card, I end my turn."

The Light of Destruction then raised an arm.

"At this moment, the effect of Tincan is activated. Once per turn, during the End Phase: I can pay 500 LP; reveal 3 'Kozmo' cards with different names from my Deck.

Then the opponent randomly picks 1 for me to add to my hand, and I send the rest to the GY."

[The Light of Destruction, LP 8000 → LP 7500]

Three cards popped out of his deck one after another, popping up in front of the two people in the form of a three-dimensional projection.

After only a brief display, the three cards were turned over, with the backs of the cards facing the direction of Yuei Vu and Judai.

"Okay, let's choose one." Light of Destruction said.

"Sensei?" Judai turned to Yuei Vu and cast a questioning look.

"You choose." Yuei Vu gave up this right to Judai.

Blindly picking one card from three cards was undoubtedly a job that required luck. Yuei Ve knew best that he must leave it to Judai.

"Then the one on the far left!" Judai said.

The selected card was flipped over.

"Then I add 'Kozmo Dark Lady' to my hand." The Light of Destruction said, "The remaining two cards are sent to the graveyard."

Dark Lady's card design prototype was a combination of the famous Darth Vader in "Star Wars" and the Wicked Witch of the West in "The Wizard of Oz".

So she might be a girly version of Darth Vader...

"Okay, then it's my turn!" Judai said enthusiastically, "Draw!"

Judai-san was very excited now, extremely excited.

For the first time in my life, I fought side by side with my teacher, and against such an interstellar overlord-level duelist!

I must perform well today!

But before he could play his cards, the Light of Destruction said calmly: "Another effect of 'Kozmo Tincan' was activated.

By banishing this card from the field, Special Summon 1 Level 2 or higher 'Kozmo' monster from my hand.

This effect can be activated during the opponent's turn. "

He showed the card he had just retrieved and raised his voice: "I banish 'Kozmo Tincan' from the field, come on –

——Kozmo Dark Lady! "

The small metal sheet disappeared from the scene, and a woman in a black dress appeared. She had long curly hair, wore a tall top hat, a purple mask obscured her face, and she held a purple-red lightsaber in her hands covered with black leather gloves.

[Kozmo Dark Lady, ATK 2200]

"Did you summon a higher-level monster immediately?"

But Judai's operations would not stop because of this.

"Spell Card 'Take Over Five'! Send the top 5 cards of my Deck to the Graveyard!"

Judai then revealed the next card in his hand.

"I normal summon 'Neo Space Connector'!"

[Neo Space Connector, ATK 800]

"The effect of Neo Space Connector! When this card is Normal Summoned: I can Special Summon 1 'Neo-Spacian' monster or 1 'Elemental HERO Neos' from my hand or Deck in Defense Position!

I will summon 'Elemental HERO Neos' from the deck..."

"Are you ready to summon that troublesome spaceman? That won't work." The Light of Destruction said, "Dark Lady's effect is activated.

Once per turn, when a monster's effect other than this card's is activated, pay 1000 LP to negate that activation and destroy it. "

"Ah!" Judai was surprised, "This monster has such a powerful effect!?"

[The Light of Destruction, LP 7500 → LP 6500]

Dark Lady indifferently stretched out a hand with her palm open, as if some invisible force had strangled the throat of the "Neo Space Connector" from the air.

The poor Connector groaned twice in pain, was dragged into the air, and then exploded into pieces with a bang.

"But this effect can only be used once per turn." Yuei Vu said, "Now this restriction no longer exists."

"Very good, then now is the opportunity to attack!" Judai took a deep breath, "Activate the Spell Card 'Neos Fusion' from my hand!"

Many onlookers present and online exclaimed.

"Damn it, Neos Fusion!"

"Has it been printed so early? This Judai is so strong..."

Neos Fusion could be said to be the mainstay of the entire Neos system. With just this card, you could easily call various forms of Neos, and also accurately stack graves from the deck, which was very powerful.

"This card allows me to fuse Neos in the deck!" Judai said, "I send 'Elemental HERO Neos' and 'Neo-Spacian Grand Mole' from the deck to the graveyard, and Special Summon the corresponding Fusion Monster from my Extra Deck, ignoring its Summoning conditions!

The power of courage, the form of the earth——

——Elemental HERO Grand Neos! "

Neos and Grand Mole both flew out of the deck, rushed into the sky and merged in mid-air. Neos, wearing heavy armor, arrived in a brand new form!

[Elemental HERO Grand Neos, ATK 2500]

"The effect of Grand Neos! Once per turn, a monster on the opponent's field will be returned to the owner's hand!" Judai shouted, "Of course I chose 'Kozmo Dark Lady'! Bounce the witch back into your hand!

Nebulous Hole! "

The drill on the Grand Neos's arm flew around and struck out from the air. A black vortex opened up behind Dark Lady, and the boundless gravity pulled her into it like invisible claws!

But the voice of the Light of Destruction was still cold, calm, and without any emotion: "Then I chain with another effect of 'Kozmo Dark Lady' – Banish this card; Special Summon 1 Level 6 or higher 'Kozmo' monster from my hand.

This effect can also be activated during the opponent's turn. "

Dark Lady, who was locked by the black hole, instantly turned into golden light and dissipated, then the nebula black hole swirled, and the beam of light blasted by Grand Neos suddenly hit the air.

“Banish 'Kozmo Dark Lady' on the field and special summon from my hand——

——Kozmo Forerunner!!! ”
