

I Play Yu-Gi 991

Chapter 991: Bet On The Fate Of Earth!

There was a roar in the sky, and a huge warship appeared in the sky where the two sides were fighting.

It was a fortress-like interstellar spacecraft. The main body was shaped like a flying saucer, with four wings. The front cargo compartment was shaped like a pair of jaws, and there were advanced laser turrets all over the body.

The Kozmo Forerunner corresponded to the famous legendary spaceship "Millennium Falcon" in Star Wars.

[Kozmo Forerunner, ATK 2800]

"Kozmo Forerunner cannot be targeted by the opponent's card effects." said The Light of Destruction.

"Wow, there suddenly be a more troublesome guy."

The effect of Grand Neos to bounce monsters back to the hand has been used this turn, and even if it has not been used, it was not effective on the Forerunner that "cannot be the target of the effect".

Judai had no choice but to draw two cards from his hand.

"Okay, then I set two cards, and my turn is over." He said, "At the end of the turn, the activity time limit of 'Elemental HERO Grand Neos' has expired, and it must be returned to the deck.

But I activated the effect of the Spell Card 'Neos Fusion' in the graveyard. If a Neos fusion monster would be shuffled into the Extra Deck by its own effect, I can banish this card from my GY instead."

Taking away the "Neos Fusion" that popped up in the GY, the Grand Neos had the opportunity to extend the activity time by one round.

"I'm sorry, Yuei Vu-sensei." Judai looked at Yuei Vu helplessly, "I couldn't make any effective progress."

"It's okay." Yuei Vu waved his hand, "The duel has just begun, cheer up."

"Yes, sensei!"

At this time, viewers from all over the world who were watching the duel through the broadcast couldn't help but start talking.

"This cosmic being is so strong. He can actually defend to this level in one turn."

"That guy's deck is his entire fleet? If we lose, will the earth be completely destroyed?"

"In such an important duel, why does the Duel King bring a student from the Duel Academy with him? Isn't it going to be a hindrance?"

Big bosses from all parties also put down whatever matters they were doing and focused on this fateful battle between humanity and alien invaders.

"Brother, at this rate, we will reach the Duel Academy Island in ten minutes!"

When he spoke, Mokuba was sitting in the passenger seat of the Blue-Eyes White Dragon jet.

As for President Kaiba, he was sitting in the driver's seat and flying the plane while watching Yuei Vu's live broadcast of playing cards.

"Alien invaders?"

Kaiba narrowed his eyes and looked at Yuei Vu through the screen.

I don't care who your opponent is, but if you lose, I won't forgive you, Yuei↑ Vu↓!

"Draw!" On the turn of The Light of Destruction, he said, "At the Standby Phase, the effect of 'Kozmo Forerunner' is activated. I restore 1000 LP."

[The Light of Destruction, LP 6500 → LP 7500]

"Spell Card 'Spell Books from the Pot', both sides draw three cards from the deck."

"Activate the Spell Card 'Reasoning'! The opponent declares a monster Level from 1 to 12, then I excavate cards from the top of my Deck until a monster that can be Normal Summoned/Set appears.

If that monster has the same level as the opponent's declared one, send all excavated cards to the GY.

If not, that monster is Special Summoned and all remaining cards are sent to the graveyard. "

"Shall I declare a level?" Judai was stunned, frowning and thinking.

Among the monsters summoned by the opponent so far, Tincan was Level 1, Dark Lady was Level 5, and Forerunner was Level 7. There was no pattern at all.

So Judai once again cast a questioning look at the teacher.

"It's your choice." Yuei Vu shrugged.

The levels in the Kozmo series ranged from one to ten, so this was a job purely based on luck, and naturally it had to be left to Judai.

Of course, in front of The Light of Destruction itself, even Judai may not have any advantage.

"Then I choose Level 3!"

The Light of Destruction flipped the card from the top of the deck, and the second card was a monster card.

"The card I excavated is 'Kozmo Goodwitch'." He said, "It is Level 4, so it is special summoned directly."

What appeared on the stage was a green-skinned female warrior with a beautiful face and curvy figures, a pair of pointed ears with elf characteristics, a pair of beautiful butterfly-like wings on her back, and holding a green lightsaber.

[Kozmo Goodwitch, ATK 1800]

"Ah, I didn't guess right." Judai gave his teacher an apologetic expression.

Yubel crossed her arms next to him: "Don't worry. Even if you let your teacher guess, the result will be the same."

But it doesn't matter!

"Open the set card!" Judai opened a card the back row, "Trap Card 'Fiendish Trap Hole'! Destroy a monster that the opponent Special Summoned by the card effect!" (manga card)

The dark hole opened up, and the devil's dark claws protruded from it, grabbing at the elf swordswoman with butterfly wings in a sinister way.

"Then I chain with the effect of 'Kozmo Goodwitch'," The Light of Destruction continued, "Banish this card; Special Summon 1 Level 5 or higher 'Kozmo' monster from my hand.

This effect can also be activated during the opponent's turn. "

The Goodwitch quickly turned into nothing and disappeared from the field, and the big black hand suddenly grasped nothing.

"Huh? It escapes again?" Judai was a little disappointed.

He felt that each of these "Kozmo" monsters were like slippery goldfish. They couldn't be caught no matter what method he used, and they would slip away the moment he didn't pay enough attention.

Judai's trap failed again, and The Light of Destruction simultaneously took out another card in his hand.

"Special summon 'Kozmo Sliprider'!"

With its smooth red fuselage and the huge engine at the tail spitting out blue flames, the starfighter drew a gorgeous arc in mid-air.

[Kozmo Sliprider, ATK 2300]

"The effect of Sliprider." Light of Destruction said, "If this card is Normal or Special Summoned: I can target 1 Spell/Trap Card on the field; destroy it.

Destroy the set card in your back row! "

The red fighter dived downwards, adjusted the wing angle slightly, locked the target, and the laser flew downwards along with the missile, instantly blasting the remaining set card in the backfield of Judai to pieces!

The fighter jet raised its altitude and flew over the two men's heads. Its tail flame blew away the smoke screen caused by its own bombing, dragging its long tail flame away.

But Judai curled up the corner of his mouth and showed a smile: "Hey, you've been fooled."

The shadow of the trap card appeared above his head.

"The card you just destroyed is the Trap Card 'Boo-Boo Game'!" Judai yelled, "If this Set card is destroyed by the opponent's card effect and sent to the GY: I can target up to 2 Normal Traps in my GY, except 'Boo-Boo Game'; Set them to my field!"

A card popped up in the graveyard, and was put back on the field with a wave of his arm.

"The card I Set from the graveyard is the trap card 'Mirror Force'!"

Chapter 992: Destroyer!

"The card I want to Set from the graveyard to the field is the trap card 'Mirror Force'!"

The back-row cleanup of The Light of Destruction caused a chain reaction. The famous "Mirror Force" was Set in the Judai's back row, like an invisible wall.

"And the trap Set by this effect can be activated this turn!"

Judai chuckled and wiped his nose.

After being educated by the teacher for so long, he was quite experienced in this area!

"Hey, this kid can do it!" Some viewers immediately expressed their admiration for Judai's routine.

"No wonder the Duel King would take him with him in such a crucial duel. This kid is at the top level even in the professional league, right?"

The friends from the academy who were watching the competition also expressed their admiration without hesitation.

"Beautiful!" Asuka said, "With the power of Mirror Force, the opponent won't be able to attack rashly!"

"Humph, it's ridiculous not to have this level of skill." Manjoume commented.

But unlike others, the person involved, The Light of Destruction himself, didn't seem to care too much. He just said calmly: "Enter the Battle Phase."

"Ah?" Judai was stunned.

Just as surprised as him were most of the people watching.

"Is this guy planning to fight?"

"Maybe aliens don't know how powerful the 'Mirror Force' is?"

"Ha, then it would be too easy to win."

The Light of Destruction actually took action so calmly: "Kozmo Forerunner, attack the 'Elemental HERO Grand Neos'!"

The Forerunner's weapon systems are all activated, the laser turret is fired at full power, and the interstellar missiles and high-heat beams are fired in full!

"Then open the set card!"

Although Judai didn't know what the opponent's plan was, since he was attacked, there was certainly no reason to hold back.

"Trap Card 'Mirror Force'! When the opponent's monster declares an attack, all Attack Position monsters on the opponent's field are destroyed!"

After a pause, Judai raised his voice and added: "Although 'Kozmo Forerunner' cannot be targeted by card effects, this effect does not target, so it must be destroyed!"

A hemispherical transparent shield emerged, and the spacecraft's laser cannons hit the shield one after another, causing a strong rebound. The dazzling blue light reflected back overwhelmingly with more force, like a mighty sea water that drowned everything on the opponent's field.

The huge battleship "Forerunner" and the spaceship "Sliprider" were both blown to pieces under the backlash of that power.

"Successful!" Judai's eyes lit up.

But before he could be happy for long, he heard The Light of Destruction continue to speak: "The effect of 'Kozmo Sliprider'! If this card is destroyed by battle or card effect and sent to the Graveyard: I can banish this card from my Graveyard; Special Summon 1 Level 4 or lower 'Kozmo' monster from my Deck."

He drew a card that popped out of the deck.

"I special summon the Level 2 'Kozmo Strawman'."

What appeared was a thin and frail robot that looked as if it could be blown apart by a gust of wind.

[Kozmo Strawman, ATK 500]

"Then there is the effect of 'Kozmo Forerunner'. If this card is destroyed by battle or card effect and sent to the Graveyard: I can banish this card from my Graveyard; Special Summon 1 Level 6 or lower 'Kozmo' monster from my Deck."

He popped another card from the deck.

"Specially summon another 'Kozmo Dark Lady'!"

[Kozmo Dark Lady, ATK 2200]

"Ah?" Judai was surprised, "Even if it is destroyed, will a new monster be summoned immediately?"

"Don't be nervous." Yubel said, "Even so, the 'Mirror Force' is not useless. It seems that when his 'Kozmo' is destroyed, he can only summon a monster with a lower level than the destroyed monster.

Thanks to this, the two new monsters that have appeared over there now are no match for the 'Grand Neos'."

"Yes yes"

But before he could feel relieved, The Light of Destruction said again: "The effect of 'Kozmo Strawman' is activated! Banish this card; Special Summon 1 Level 3 or higher 'Kozmo' monster from my hand.

Same as others, this effect can be activated during the opponent's turn. "

"Eh?" Judai said in surprise, "Doesn't it mean that I can continue to summon?"

"Banish 'Kozmo Strawman' from the field." The Light of Destruction raised its volume and raised another card, "Special Summon from my hand..."

Kozmo Dark Destroyer! ! ! "

The cards were slapped onto the Duel Disk, and the energy of destruction was inspired by them, exploding toward the sky.

But nothing appeared.

After a while, someone pointed to somewhere in the sky and exclaimed: "There!"

The space seemed to be slightly distorted, and a giant ship emerged from the invisible force field, gradually showing its wild and ferocious outline to everyone.

It was a white spaceship with a round cabin and a shape like a curved giant knife.

It is obvious from its name that this ship was the "Scimitar" in the Star Wars series, also known as the "Sith Infiltrator".

[Kozmo Dark Destroyer, ATK 3000]

"When the 'Kozmo Dark Destroyer' is Normal or Special Summoned: I can target 1 monster on the field; destroy it." Light of Destruction said coldly, and stretched out his finger, "Destroy the 'Elemental HERO Grand Neos'!"

Scarlet lasers shot out from both sides of the wings, slicing through Neos's strong armor, instantly blowing it into pieces!

Judai raised his hand to block the impact: "Neos..."

"And it's still in the Battle Phase." Light of Destruction said coldly, "So the battle continues. 'Dark Destroyer', attack directly!"

The huge battleship made a buzzing start-up sound, and thick red-hot lasers blasted out!

But Judai also had a final defense!

"Discard the 'Kuriboh'!" Judai quickly showed the card in his hand, "Make the Battle Damage inflicted to my Life Points by 1 of the opponent's monsters become 0!"

"It's useless." The voice of the Light of Destruction was still calm, "The effect of 'Kozmo Dark Lady'! Once per turn, when a monster's effect other than this card's is activated, pay 1000 LP to negate that activation and destroy it."

[Light of Destruction, LP 7500 → LP 6500]

"Oh, no, Elvaba's effect." Judai's expression changed slightly.

This time even the invincible Kuriboh was powerless. The fluffy little guy jumped out onto the field, only to see "Kozmo Dark Lady" lift the lightsaber in her hand, flashing purple light, and scatter Kuriboh with just one blow.

"The attack continues." The Light of Destruction said, "Dark Destroyer, Dark Lady, all attack directly!"

Direct attack with two consecutive shots!

The beam of the spaceship bombarded the field where Judai and Yuei Vu were, and the lightsaber sliced through them, and the searing pain felt like the internal organs were about to melt!

[Yuei Vu x Judai, LP 8000 → LP 5000 → LP2800]

Yuei Vu was only affected by the shock, but quickly withstood the impact, turning his head to look at Judai: "Judai, are you okay?"

"It's not bad." Judai took a deep breath, "I'm sorry, sensei. More than half of our LP was cut off in one go."

Before it came to Yuei Vu's turn, he received more than 6,000 damage in one go.

Neos's attacks on his side were defused one after another, and even the many traps laid were easily countered by the opponent. Even the "Kuriboh", which was an all-inclusive hand trap, failed today.

This also made Judai realize something.

If it weren't for the two people sharing 8000 LP in the duel, if I had faced this opponent alone, I might have lost by now.

This guy is strong!

Definitely stronger than all the villains I have encountered so far!

Chapter 993: Go All Out!

"Sensei, this person is so strong"

"It's okay, you did a good job." Yuei Vu took a step forward and said, "Leave it to me next."

"Duel King Yuei Vu, the guardian of this world." The Light of Destruction said lightly, "My clone has fought against you before, and your duel is indeed impressive."

"Then I'm really flattered." Yuei Vu said calmly.

"Set three cards, I end my turn." The Light of Destruction said.

"Then it's my turn, draw!" Yuei Vu said, looking sideways at Judai, "I'll borrow your card, Judai.

At the Standby Phase, I activate the effect of 'Take Over Five' in the graveyard! Banish this card and a card with the same name from the deck, and draw a card. "

Seeing Yuei Vu banishing the Spell Card thrown to the graveyard by Judai in the last round and the card with the same name in his own deck, the eyes of the Light of Destruction seemed to flicker vaguely.

"I see, you have similar deck construction, so you can link up with each other?"

"That's right!" Judai suddenly became excited, "This is the bond between Yuei Vu-sensei and me!"

"Spell Card 'Graceful Charity'." Yuei Vu said, "Draw 3 cards, then discard 2 cards.

Then I normal summon 'Elemental HERO Solid Soldier' in defense position. "

[Elemental HERO Solid Soldier, DEF 1100]

"When Solid Soldier is successfully summoned, he will Special Summon 1 Level 4 or lower 'HERO' monster from my hand." Yuei Vu said, "I will special summon the 'Elemental HERO Shadow Mist'."

[Elemental HERO Shadow Mist, DEF 1500]

"The effect of Shadow Mist." Yuei Vu said, "If this card is Special Summoned: I can add 1 'Change' Quick-Play Spell Card from my Deck to my hand."

"Do you want to perform a mask transformation?" said The Light of Destruction, "According to the duel data, the 'Masked HERO Dark Law' transformed from a DARK attribute hero has the absolute suppression power of graveyard blockade.

If you summon that guy, things will be a little more troublesome. "

Although his "Kozmo" deck did not particularly rely on the graveyard, his piles of fighter planes, space battleships, etc. must be "destroyed by battles or card effects and sent to the graveyard" to call other monsters out.

If Dark Law appeared, then this ability would undoubtedly be equivalent to being sealed.

"That won't work." Light of Destruction waved his hand, "The effect of 'Kozmo Dark Lady' is activated. Once per turn, when another monster's effect is activated: Pay 1000 LP; negate the activation and destroy that monster!

I negate the effect of 'Elemental HERO Shadow Mist' and destroy it! "

[The Light of Destruction, LP 6500 → LP 5500]

The witch flicked her wrist and raised her lightsaber. The light blade shot through the air and cut the Shadow Mist into two pieces.

"Ah, Yuei Vu-sensei's Shadow Mist has also been disabled," Judai said, "This way the Dark Law can't appear either."

"Then I activate the Continuous Spell 'Card of Safe Return' from the hand." Yuei Vu's expression remained calm, "As long as this card is on the field, whenever a monster is specially summoned in the graveyard, I will draw three cards."

He then raised his hand.

"Then the effect of 'Makyura the Destructor' discarded by 'Graceful Charity' is activated. This turn, I can activate trap cards from my hand.

So I activate a Continuous Trap from my hand...

Hyper Blaze! "

The trap card appeared on the field, and terrifying power exploded. A ferocious red dragon was engraved on that card, with volcano-like flames in its mouth!

The Light of Destruction: "Oh? This card is..."

"The effect of 'Hyper Blaze'! Once per turn: I can discard 1 card; add to my hand or Special Summon 1 Sacred Beast in the graveyard, ignoring its Summoning conditions." Yuei Vu said, "I discard a card in my hand and resurrect the dormant Sacred Beast in the graveyard!

The thunderbolt fell from the lost paradise, punishing the world with thunder..

Hamon, Lord of Striking Thunder, descend! ! ! "

The thunder from the sky was like a rumble shaking the nine heavens! The thunder enveloped a giant shadow, rising from the ground like a demon made of gold, like a mountain made of skeletons!

[Hamon, Lord of Striking Thunder, ATK 4000]

In fact, according to the adjustment of the real card, the Sacred Beasts that have not appeared through regular methods were subject to summoning restrictions and could not be resurrected directly through "Hyper Blaze".

However, in the animation, Yubel could call out of the GY Sacred Beasts that had not been properly summoned. It was obvious that there was no such restriction in the anime version.

"Oh oh oh, Sacred Beast!" Judai's eyes lit up, "Yuei Vu-sensei is serious!"

"A Sacred Beast, one of the most powerful monsters on this planet." The Light of Destruction looked up at the huge Sacred Beast in the air, his tone still calm, "It seems that if I want to purify this world, this is also an obstacle that I have to overcome."

"Because the Sacred Beast was resurrected from the graveyard, the effect of 'Card of Safe Return' was activated, and I drew three cards from the deck." Yuei Vu continued, "Then I activated the Continuous Spell 'Cerulean Skyfire'!

When this card is on the field, the power of Hamon will be increased! "

Thunder entangled, one after another wrapped around Hamon's body, like a thunder and lightning armor.

"Activate Spell Card – Polymerization!" Yuei Vu raised another card in his hand, "I fuse 'Elemental HERO Solid Soldier' on the field with 'Elemental HERO Sparkman' and 'Elemental HERO Woodsman' in my hand!

The fusion condition is 3 'Elemental HERO' monsters!

Magma erupts and the earth's core strikes! Feel the wrath of the third planet...

Elemental HERO Core! ! ! "

Triple fusion of Elemental HEROes! The beams of light merged into the air, churning and merging in the huge vortex.

Fiery beams of light burst out from the sea below! A large amount of water evaporated into white water vapor, and the lava fire pillars shot straight into the sky and penetrated into the huge fusion vortex in mid-air.

The fierce flames dispersed the pillar of fire, revealing the white body of the hero, with a fiery red core on his chest, lava flowing in the bright red lines all over his body, and the high temperature distorted the space.

[Elemental HERO Core, ATK 2700]

Audiences around the world gasped.

Summoning a Sacred Beast and an Elemental HERO of the same level in one breath, he is worthy of being the Duel King!

With this kind of strength, even a cosmic being can be easily killed instantly, right?

"The effect of Solid Soldier." Yuei Vu continued, "If this card is sent from the Monster Zone to the GY by a Spell effect: I can target 1 'HERO' monster in my GY, except 'Elemental HERO Solid Soldier'; Special Summon it in Defense Position.

I special summoned 'Elemental HERO Shadow Mist' back to the field. "

[Elemental HERO Shadow Mist, Defense 1500]

"At this moment, the effect of 'Card of Safe Return' is activated again!" Yuei Vu said, "Draw three cards!"

It's a pity that the retrieval effect of Shadow Mist could only be used once per round. Even if the last activation was negated, it could not be activated again.

"Battle!" Yuei Vu shouted, "Elemental HERO Core, attack the 'Kozmo Dark Destroyer'!"

The Core's body was covered in lava, and his power exploded. Pillars of lava and fire erupted from the sea level below, and the huge space ship was crumbling in the torrent of magma!

"Attacking with monsters with lower attack power?" The Light of Destruction said.

"The effect of 'Elemental HERO Core'! When this card battles, its ATK doubles." Yuei Vu said, "And when this card destroys a monster by battle, I can select two additional cards on the opponent's field to destroy!" (manga effect)

[Elemental HERO Core, ATK 2700 → ATK 5400]

Countless spectators were excited.

An Elemental HERO with an attack power of over 5000!

This kind of stat was even stronger than the Five-Headed Dragon, and it also comes with the ability to explode cards. How can he lose! ?

"I see." The Light of Destruction said, "Then when the attack is declared, open the set card: Trap Card – Kozmojo! Target 1 'Kozmo' monster I control; destroy it, then banish 1 card the opponent controls or in their GY.

I destroyed 'Kozmo Dark Destroyer' on my field and removed 'Elemental HERO Core' from the game! "

After a pause, he added: "The three Sacred Beasts are not affected by any trap card effects, but this Elemental HERO does not have such ability."

As he spoke, the trap had flipped, and a black figure emerged, slowly stretching out an arm, opening his palm and pointing at the Core who was activating his ability.

That was the legendary "Force"!

But the mere force didn't work on Yuei Vu!

"The effect of the Continuous Spell 'Cerulean Skyfire'." Yuei Vu waved, "When 'Hamon, Lord of Striking Thunder' is on the field in Attack Position, once per turn, I can negate any Spell/Trap effect activated by the opponent!"

Hamon roared, and blue thunder descended! The force trap was immediately hit by thunder and shattered on the spot.

"After this effect is applied, 'Hamon, Lord of Striking Thunder' changes from Attack Position to Defense Position."

[Hamon, Lord of Striking Thunder, ATK 4000 → DEF 4000]

"Then open the set card: Trap Card – Battle Simulation! When a monster battles another monster: Halve the ATK of both those monsters during this Battle Phase only, also they cannot be destroyed by that battle." (Animation card)

[The Light of Destruction, LP 5500 → LP 4300]

"Ah, it was still blocked." Judai felt regretful.

"If his monster is not destroyed, the subsequent card-destroying effect will also not be applicable." Yubel also said.

Judai: "Furthermore, in order to activate the effect of 'Cerulean Skyfire', the Lord of Striking Thunder has also changed to Defense Position and cannot continue to attack."

But Yuei Vu's Battle Phase was not over yet!

"Quick-Play Spell 'De-Fusion'." Yuei Vu showed another card in his hand, "Cancel the fusion of 'Elemental HERO Core'!

Come back! Woodsman, Sparkman, Solid Soldier! "

[Elemental HERO Woodsman, DEF 2000]

[Elemental HERO Sparkman, DEF 1400]

[Elemental HERO Solid Soldier, DEF 1100]

"Because there are monsters resurrected in the graveyard, the effect of 'Card of Safe Return' will let me draw three more cards!"

"Deliberately defused the Core and turned him into three weak monsters.. wait, three monsters?" Yubel suddenly realized something, "Does he want to...!?"

"Activate the Quick-Play Spell 'Quick Summon' from my hand!" Yuei Vu said, "I can Normal Summon or Set 1 monster from my hand!" (Animation card)

At this time, the Light of Destruction also realized what was about to happen.

But he didn't seem surprised at all, and instead seemed quite calm.

"Hey, it's finally here."

"Woodsman! Sparkman! Solid Soldier!" Yuei Vu raised a card in his hand, "Send these three monsters to God as sacrifices!

Appearing in the chaos of thunder, running through reality and the underworld...

Osiris the Sky Dragon, descend! ! ! "

Chapter 994: Pay Back Sooner Or Later

The three sacrificed monsters disappeared, and a beam of light shot straight into the sky.

A pair of fiery red wings slowly spread out on the horizon, as if they were burning in flames. The shadow of a dragon appeared in the middle of the pair of wings, sacred and noble, its sinuous body looming among the black clouds.

The huge dragon's head poked out from behind the clouds. It opened its upper and lower mouths at the same time. The moment it roared, it was like an invisible sound wave erupting, almost shaking the clouds in the sky!

Osiris the Sky Dragon descended!

"Oh... appeared, Yuei Vu-sensei's Egyptian God!"

Although this was not the first time he had watched it up close, Judai was still a little dazed when he saw the arrival of the Egyptian God at such a close distance.

No matter how many times I see it, it always feels so awesome!

Audiences around the world are also excited.

Egyptian God!

The existence that had been worshiped by countless duelists for many years and represented the supreme power of this world!

With Duel King Yuei Vu personally controlling the Egyptian God here, invaders are not worth a damn!

"The attack power of Osiris depends on the number of cards in the player's hand." Yuei Vu said, "The number of cards in my hand now is four, so the attack power of Osiris is four thousand!"

[Osiris the Sky Dragon, ATK ? → ATK 4000]

"And because it comes through the effect of 'Quick Summon', Osiris can still attack during the Battle Phase!" Yuei Vu shouted, "Osiris, attack 'Kozmo Dark Lady'!"

Superconductive Wave Thunder Cannon! ! ! "

Although the warship named "Dark Destroyer" seems to be the bigger monster that should be defeated, Yuei Vu knew that all the spaceships and warships in the "Kozmo" series have last-will effects. When they were defeated, they would call out other guys who may be more difficult.

In comparison, "Dark Lady", who had the ability to negate monster effects once per turn, was a greater threat.

So of course he had to clear up this trouble first.

The Sky Dragon was also very happy to come out to work this time. To be honest, although the three tsunderes were sometimes incompetent and didn't really care much about their job, Earth was their home, thus they couldn't allow any small fry in the universe to come out and cause trouble.

We must let these outsiders know that Earth is under the protection of heroes...ah, no, of the gods!

The sky dragon opened its mouth, the rolling thunder brewed into a lightning ball of light, and the golden impact was like a rushing river!

Dark Lady seemed to be trying to intercept with the small lightsaber in her hand, but such a small thing was too weak in front of the torrent of destruction, and it was not enough to see. She was shattered into pieces by the roar of the waves.

[The Light of Destruction, LP 4300 → LP 2500]

"Very good! It caused a lot of damage!" Judai was excited, "This way, our LP value has overcome his!"

He couldn't help but look at the teacher with even more admiration.

As expected of Yuei Vu-sensei! He easily does what I couldn't do even with all my strength!

Countless spectators on-site and online also burst into excited shouts.

Summon Sacred Beasts, top Elemental heroes, and even Egyptian Gods one after another in one round!

He is worthy of being the Duel King, the most reliable guardian of this planet!

Even the president in the cabin could not help but evoke the corners of his mouth: "Hum, sloppy."

Mokuba: "Well, although Brother Yuei Vu's duel is very important, onii-san, maybe you should concentrate more when flying the plane..."

The Egyptian God's attack is indeed effective. The entire body of the Light of Destruction flashed violently for a while under the roar of the superconducting wave, and the body made purely of light seemed to be almost blown away and disintegrated.

It took him a while to adjust.

"...You are indeed different from many enemies I have encountered." Light of Destruction said lightly, "There are few strong men like you in the universe."

After a pause, he lowered his voice: "But this doesn't change anything. Whether it's a Sacred Beast or an Egyptian God, gods and demons are just an insignificant part of this universe and cannot resist the torrent of fate.

It's my turn! "

After drawing the card, he glanced at it and quickly showed it.

"The Spell Card 'Monster Recovery'." He said, "Return all monsters on my side of the field and cards in my hand to my Deck. Shuffle the Deck, then draw 5 cards."

After reshuffling the cards, everything else in the Light of Destruction field disappeared. The huge "Dark Destroyer" also dissipated and returned to the deck – after all, it was obvious that the firepower of this ship could not compete with the powerful "Osiris".

Yuei Vu narrowed his eyes.

Even for later-generation decks like "Kozmo", Osiris should not be that easy to solve.

Now Yuei Vu's sky dragon has an attack power of up to 5,000, and it also has a powerful interference effect "Thunder Summoning Bullet". It was a very serious restraint on the Kaiju series, and the Light of Destruction could not easily solve it...

"Spell Card 'Pot of Greed', I draw two more cards." The Light of Destruction said, "Then I activate the Field Spell 'Kyoutou Waterfront' from the hand."

Yuei Vu: "..."

Seeing the seawater sweeping across the entire venue, the area around everyone quickly turned into a seaside city, with countless building towers rising from the ground, and Yuei Vu suddenly had a bad premonition.

Damn it!

I actually forgot that although the opponent seems to have been using "Kozmo" so far, the invincible "Kaiju" series from the beginning was originally his...

Moreover, Kaiju itself was also a highly compatible staple. Because the performance of a single card was so excellent, it was not surprising that it could be put into almost any deck system.

Speaking of the "Kaiju" series and the "Kozmo" series, they were cards from the same period in the real card environment.

"Activate the Quick-Play Spell 'Twin Twisters'! Discard 1 card, then target up to 2 Spells/Traps on the field; destroy them."

Although there was "Cerulean Skyfire" on Yuei Vu's side, its ability to negate spell and trap effects could only be activated when the Lord of Striking Thunder was in attack position.

Because Hamon used this effect in the turn when he was just summoned, he was now in defense position, so this ability could not be triggered.

"I destroy the Continuous Spell 'Card of Safe Return' and the Continuous Trap 'Hyper Blaze' on your field!"

The two cards were hit by tornadoes respectively, flew into the air, and were chopped into pieces.

"The card I discarded was the Spell Card 'Card of Compensation'. When this card is sent from my hand to the Graveyard, I can draw two cards!"

"In this way, 'Twin Twisters', 'Card of Safe Return' and 'Hyper Blaze', a total of three cards on both sides of the field have entered the graveyard, thus three Kaiju Counters are placed on 'Kyoutou Waterfront'."

The Light of Destruction raised its right hand high.

"The effect of 'Kyoutou Waterfront' is activated! Once per turn, while 3 or more Kaiju Counters are on this card: I can add 1 'Kaiju' monster from my Deck to my hand.

I added "Thunder King, the Lightningstrike Kaiju" from the deck to my hand! "

Yuei Vu sighed softly.

Okay, if you go out and mess around, you will have to pay it back sooner or later.

"Use 'Osiris the Sky Dragon' as a sacrifice," Light of Destruction revealed the card retrieved, "Special summon 'Thunder King, the Lightningstrike Kaiju' in attack position on your field!! !"

Chapter 995: Eclipser!

As if just in the moment when a bolt of lightning struck down, the sky dragon turned into golden light spots all over the sky and disappeared out of thin air, as if the existence of the infinitely powerful Egyptian God was just a mirage that could burst at the gentlest touch.

The golden storm engulfed the location of the sky dragon, and thunder and lightning radiated like spider webs, turning all the houses and buildings around the Tokyo Tower into dust!

A pair of strong and powerful wings flapped violently, scattering the huge storm. Three giant dragons appeared from the center of the storm. Their noble and powerful bodies were clearly reflected on the glass curtain wall. The gravitational fluctuations caused the street lights to shine on the road. Trees were uprooted and struck by lightning in the air one after another!

[Thunder King, the Lightningstrike Kaiju, ATK 3300]

"Then there is the Quick-Play Spell 'Trap Booster'. Discard 1 card. This turn, I can activate 1 Trap Card from my hand." The Light of Destruction then revealed a card in the hand, "So based on this effect, I activate a Continuous Trap from the hand –

——Remove Brainwashing!

When this card is on the field, control of all monsters on both sides must return to the original owners. "

He stretched out a palm made purely of light particles.

"Return to my field, Thunder King, the Lightningstrike Kaiju!"

After taking care of Osiris, the three-headed dragon king flapped his wings arrogantly, and his huge body stood up and flew back to the field of The Light of Destruction.

The impact on the audience was quite big.

"Are you kidding? The legendary Egyptian God was actually..."

"What is that three-headed dragon!? Why is it so strong?"

"This is the power of space monsters..."

There was no way, this was where the Kaiju was unreasonable. They were simply a mudslide in the world of duel monsters, a universal tool for clearing the field. Looking at the entire Yu-Gi-Oh system, Kaijus were the most powerful means of clearing the field.

"The Light of Destruction," Yuei Vu frowned, "You may indeed be considered the strongest among the enemies I have ever encountered."

"Soon to be the only one."

"Now the number of Kaiju Counters in my 'Kyoutou Waterfront' has reached four." The Light of Destruction raised his voice, "Then I will activate the effect of 'Thunder King, the Lightningstrike Kaiju'!

Once per turn: I can remove 3 Kaiju Counters from anywhere on the field; the opponent cannot activate cards or effects for the rest of this turn.

And within this turn, Thunder King, the Lightningstrike Kaiju can attack monsters up to three times! ! ! "

As soon as these words came out, the audience who had never seen Thunder King exploded.

"Can't activate any effects...and it can attack three times in a row!?"

"Is this how powerful the space monster is?"

Even Judai was shocked: "Huh? Doesn't this mean that whether it's a trap or a monster effect... you can't even use Kuriboh?"

"Yes, this is the ability of the 'Thunder King, the Lightningstrike Kaiju'! It can suppress any counterattack with absolute power and complete the killing in an instant." said The Light of Destruction.

"However, even if it can attack three times, its attack power is only 3300." Judai said, "We still have the 'Hamon, Lord of Striking Thunder' here, and this attack is not enough..."

"Of course this kind of thing is also included in the calculation." The Light of Destruction continued, "Sacred Beast is resistant to Spell effects and is completely immune to traps.

Even with the 'Cerulean Skyfire' to increase his power, Hamon, Lord of Striking Thunder can only negate Spell and Trap effects...and Hamon, who is currently in defense position, cannot even do this. . "

Yuei Vu: "..."

"I activate the Spell Card 'Monster Reborn' from my hand!" Light of Destruction raised his hand, "Special Summon the monster that was previously sent to the graveyard by the effect of 'Kozmo Tincan'—

——'Kozmo Dark Destroyer'!!!"

The dark vortex leading to the underworld opened, and there was a heavy engine hum!

The huge steel creation rose heavily and slowly from the black whirlpool, and the fuselage was like a sharp blade hanging above people's heads, ready to chop down at any time!

[Kozmo Dark Destroyer, ATK 3000]

"Dark Destroyer's effect is activated." Light of Destruction said, "If this card is Normal or Special Summoned, a monster on the field is destroyed.

Destroy 'Hamon, Lord of Striking Thunder'! "

Several laser turrets of the spacecraft fired at the same time, and the interstellar artillery penetrated Hamon's defense line head-on! Several charred holes were blown out of the bones that Hamon was protecting in front of him. Golden debris flew everywhere, and the Sacred Beast collapsed like a collapsed building.

"Ah!" Judai said, "The Lord of Striking Thunder was also..."

But then he thought of something: "Ah, by the way, the effect of 'Cerulean Skyfire' will be triggered at this moment! In the turn any type of Sacred Beast on our field leaves the field, we will take no damage!

Yuei Vu-sensei must have figured this out..."

"In the turn where the effect of 'Thunder King, the Lightningstrike Kaiju' has been applied, the effects of any cards cannot be activated." The Light of Destruction said dryly, "This card is no exception."

After all, even if it was a Continuous Spell, the description of the effect of "Cerulean Skyfire" clearly stated that it "activates when any type of Sacred Beast leaves the field". As long as the word "activate" was included, it would be blocked by the power of the Thunder King.

"Ah!" Judai scratched his head, "Wouldn't that be very bad..."

As a result, Yuei Vu and Judai were left with the lone Shadow Mist on the field.

Miss Elemental Heroine crossed her arms in front of her. Faced with the three-headed dragon that seemed to be ready to use her as food at any time, and the interstellar warship armed to the teeth, she was under great pressure... ..

To be honest, it should be Ultraman's job to fight with either of these two, right?

I, Shadow Mist, is just the kind of hero who manages street security. In other superhero worldviews, I might just catch some gangsters on the streets. How could I fight a monster of this level alone?

But the other party even seemed to think that this was not enough.

"Yuei Vu, the guardian of this world, and Yuki Judai, the holder of the 'Cosmic Darkness'." The Light of Destruction said, "You are indeed rare opponents, and you are also the best among the countless worlds I have conquered.

Then as a tribute, I will also show strength that matches yours. "

As he spoke, he showed another card in his hand: "Summon the 'Kozmo Soartroopers' in attack position."

[Kozmo Soartroopers, ATK 1000]

"The effect of Soartroopers – Banish this card; Special Summon 1 Level 4 or higher 'Kozmo' monster from my hand."

The Light of Destruction paused briefly, and the tone suddenly rose.

"I have banished the 'Kozmo Soartroopers' from the game, and hereby call for the strongest mothership of Starfleet, the Star Destroyer –

——Kozmo Dark Eclipser!!!"

Chapter 996: Omninategate

A huge ship like a dark iron claymore came to play. A solid black shell wrapped its whole body, and purple-red eye-catching lines surrounded its body.

This was the strongest battleship in the entire fleet brought by The Light of Destruction. It was the emperor's ship, functioned both as a command ship and a super destroyer.

Its name was Eclipser!

[Kozmo Dark Eclipser, ATK 3000]

"So... so big!" Judai looked up at the super giant destroyer and couldn't help but marvel.

"Dark Eclipser cannot be targeted by an opponent's card effects." Light of Destruction said, "And when a Trap Card is activated: I can banish 1 'Kozmo' monster from my Graveyard; negate the activation and destroy that card."

"Cannot be the target of card effects?" Judai said, "These ships are so troublesome..."

If just one big monster "cannot be targeted by card effects", although it was a bit difficult to deal with, there were many ways to get rid of it.

But it would be a bit troublesome if all the big monsters in the opponent's entire deck "cannot be targeted by card effects".

Kozmo was such a deck. Battleships and spacecraft such as the Forerunner, the Destroyer, and the Eclipser all had built-in resistances that prevent them from being targeted.

And even if you destroyed them through a full-field nuking effect like "Mirror Force", or defeat them directly through battle, their last will effects could still drag out new spaceships and battleships from the deck, which was quite difficult to deal with.

"Not only that, as long as this thing is on the field, Trap Cards are blocked." Yubel behind Judai also said, "It is a very troublesome opponent."

Saying that, Yubel also narrowed her eyes.

"This 'Light of Destruction'... is very strong."

"This is the end." The Light of Destruction said coldly, "'Kozmo Dark Eclipser', attack 'Elemental HERO Shadow Mist'.

Single-Axis Super Laser Cannon! "

The super battleship revealed its thick and terrifying gun barrel, and the rotating light particles quickly gathered in the black hole of the gun barrel, forming an ultra-high concentration of energy flow.

When the heavy cannon came out of its chamber, its momentum was like a plume! The moment the Shadow Mist came into contact with the terrifying power, she was overwhelmed, and the burst of energy swept across the field of Yuei Vu and Judai.

Last turn, Yuei Vu deliberately left Shadow Mist on the field because when she was sent to the GY, her last will effect could retrieve a "HERO" monster from the deck.

It's a pity that at this time, under the suppression of the ability of "Thunder King, the Lightningstrike Kaiju", the effect of Shadow Mist could not be activated.

"This way your field will be completely empty." The Light of Destruction said calmly.

He waved his arm down.

"Thunder King, the Lightningstrike Kaiju, attack directly!"

King Ghidorah roared, and endless thunder gathered in its mouth! It was an almost despairing thunder, and the golden lightning in the sky merged into its three huge open mouths under the pull of the gravitational field!

"Oops!" The onlookers and passers-by began to panic, "If they take this blow, everything will be over!"

"Ju↑ dai↓!" Veins popped out on Manjoume's clenched fists, "Things between us haven't been settled yet, are you going to stop moving forward here!?"

Everyone's heart was raised to their throats.

It's as if this is the moment when the fate of the entire planet faced judgment.

The total LP of Judai and Yuei Vu was 2800, the attack power of the Lightningstrike Kaiju was 3300, and they could no longer activate any effects including hand trap and grave trap this turn...

A dark cloud called despair spreads quietly on the blue planet.

"Farewell, guardian of this world." The Light of Destruction said.

boom! ! !

Gravity lightning struck, the rolling thunder lingered for a long time, and the explosion was earth-shattering.

".....Um?"

The Light of Destruction was a bit surprising.

[Yuei Vu x Judai, LP 2800]

"Huh~ I was scared to death." Judai breathed a long sigh of relief with lingering fear, "I thought I was dead..."

Then he cast an admiring look at Yuei Vu: "You are indeed awesome, sensei! There is still a way to defend ourselves in this situation... Uh, but what's going on?"

The Light of Destruction also had the same doubts: "Why weren't you defeated?"

Soon he noticed a certain shadow that was dissipating in the field between the two of them. The golden demon with a body like a skeleton was gradually dissipating.

"Hamon, Lord of Striking Thunder? Impossible. When Hamon left the field, the effect of 'Cerulean Skyfire' had been blocked by the Thunder King..."

"It's not the effect of 'Cerulean Skyfire', but Hamon himself. In the turn when Hamon in Defense Position is destroyed, all damage we receive will be 0." (Animation effect)

Yuei Vu showed the Lord of Striking Thunder who had exited the GY and explained.

"The 'Cerulean Skyfire' can protect us from harm as long as any Sacred Beast leaves the field, while Hamon's ability can only take effect when it is 'destroyed', and it also has a requirement to be in Defense Position.

However, the effect of the Lord of Striking Thunder does not need to be activated and does not start a chain, so it is naturally not interfered by the Lightningstrike Kaiju's effect."

Hamon roared proudly in the void, as if to say: See my power?.

"I see, even if no effect can be activated, is there still an 'unclassified effect' that does not start a chain?" The light of destruction said clearly, "You are really versatile, Duel King Yuei Vu."

This part may be a bit too profound for local duelists, and most people don't actually understand what's going on.

But this was not important. The audience only needed to know that even under the terrifying suppression of "no effects can be activated", Duel King Yuei Vu still found a way to save the day and block the fatal blow.

The mood has gone through ups and downs, and the audience's admiration for this first-generation duel king has also risen to a level beyond words.

The Duel King is truly a god!

"It's a beautiful defense, but in the end it's just a temporary delay." Light of Destruction said, "Then my turn is over."

"Okay! Now it's my turn!"

The unprecedentedly powerful enemy and the burden of the entire planet on his shoulders did not seem to deter Judai. On the contrary, he was still full of energy and determined not to let the teacher down this turn.

Maybe this kid is just crazy, but even so, this quality is extremely rare among duelists.

Perhaps this is one of the reasons why he can become the protagonist.

"Then it's my turn, draw!"

Judai looked at the cards he drew, and then looked at Yuei Vu: "Sensei, I want to borrow your card too."

Yuei Vu nodded as if saying: Take it, don't be polite to me.

"Activate the Spell Card 'Magic Planter'! Send 1 Continuous Spell Card on my field to the graveyard and draws two cards!" (animation effect)

Judai pointed to a card in their backfield.

"I send the Continuous Spell 'Cerulean Skyfire' to the graveyard and draw two cards!"

"Then there is the Spell Card 'Legacy of a HERO'. When there are two or more Level 4 or higher "HERO" monsters in my graveyard, draw three cards!"

He glanced at the Lightningstrike Kaiju on the opponent's field with their teeth and claws snarling, and then looked at the modern urban environment of reinforced concrete around them.

If "Kyoutou Waterfront" was present, the ability of the Lightningstrike Kaiju could be activated again in the next turn. With the complete blockade of spell, traps, and monster effects, plus the instant burst of three consecutive attacks, this offense was quite terrifying.

This field must be solved first.

Although "Kyoutou Waterfront" has resistance that can replace destruction by removing a Kaiju Counter, it is only limited to effect destruction.

If it's a rule-level destruction, there is nothing that can be done about it.

"I activate the Field Spell 'Temple of the Kings' from the cards in my hand!" Judai raised a card in his hand, "A new field appears, so the 'Kyoutou Waterfront' must be destroyed!"

Chapter 997: True Pure HERO

The Tokyo Tower disappeared and the ancient golden temple took its place. Egyptian-style palaces and statues of gods rose from the ground.

With the loss of the home-field advantage, the majestic three-headed dragon suddenly shrank, and its momentum became weaker.

“Activate the Spell Card ‘The Warrior Returning Alive.’” Judai said, “Add 1 Warrior monster in my graveyard to my hand.

I added ‘Elemental HERO Neos’ to my hand. ”

The card popped up from the graveyard and was added to Judai’s hand.

“Then activate the Spell Card ‘Double Fusion!’” Judai said, “Pay 500 LP. Up to two times this turn, I can send, from my hand or my field to the Graveyard, Fusion Material Monsters that are listed on a Fusion Monster Card, and Fusion Summon that monster from my Extra Deck!” (animated card)

【Yuei Vu x Judai, LP 2800 → LP 2300】

“First, I fuse the ‘Elemental HERO Sparkman’ and ‘Elemental HERO Liquid Soldier’ in my hand!

The fusion condition is 1 ‘Elemental HERO’ monster + 1 WATER monster! Fusion Summon!

Born from the extremely cold abyss, freezing everything with the absolute power of ice and snow...

Elemental HERO Absolute Zero! ”

The magic released a double vortex, and the two Elemental HEROes disappeared in one of the vortexes. An ultra-high-intensity energy burst, and the blizzard hit the ground. The Elemental HERO in plain white armor fell lightly, with his cape flying behind him.

【Elemental HERO Absolute Zero, ATK 2500】

“Liquid Soldier’s effect – If this card is used as Fusion Material for a ‘HERO’ monster, and sent to the GY or banished: I can draw 2 cards, then discard 1 card.”

Judai then pointed at the remaining vortex in the air again.

“Then I used the effect of ‘Double Fusion’ again! I fuse ‘Elemental HERO Absolute Zero’ on the field and ‘Elemental HERO Neos’ in the hand!”

Sho Marufuji, one of the onlookers, was the first to be surprised: “Neos and Absolute Zero? Is it actually the fusion of Big Brother’s two ace heroes?”

“The fusion condition is ‘Elemental HERO Neos’ + 1 Warrior monster!

The light of the galaxy cuts through the darkness! Fusion Summon!

Elemental HERO Neos Knight! ! ! ”

Neos: Let’s borrow the power of ice!

Absolute Zero turned into a ball of blue light and poured into Neos's body. The stripes on Neos' silver body changed rapidly, transforming into a red and white knight's armor, a huge shield, and a double-edged sword with a flashing cold light.

【Elemental HERO Neos Knight, ATK 2500】

“The attack power of Neos Knight will be increased by half the attack power of the other fusion material monster besides ‘Neos’, which is ‘Absolute Zero!’”

【Elemental HERO Neos Knight, ATK 2500 → ATK 3750】

"A monster with the attack power of 3750 is called instantly." said The Light of Destruction.

“It’s not over yet!” Judai smiled, “When ‘Elemental HERO Absolute Zero’ leaves the field, all monsters on the opponent’s field must be destroyed!”

The ice storm rolled up, and the ice and snow swept away centered on the place where the Neos Knight descended!

The Star Destroyer battleship which once swept across the galaxy, the spaceships loaded with ammunition, and the silver three-headed dragon traversing the universe were all instantly frozen in front of the power of the Elemental HERO who controlled the cold!

Judai had made great progress, and only one blow caused the powerful lineup of The Light of Destruction to fall apart!

Many people were happy and excited about it, and for a while there were endless voices cheering and praising Judai.

But The Light of Destruction remained calm: "Then when the ‘Kozmo Dark Eclipser’ is sunk, its effect will be activated. Banish this card from my Graveyard; add 1 Level 8 or lower ‘Kozmo’ monster from my Deck to my hand."

He drew a card that popped up from the deck.

“I add another ‘Kozmo Dark Destroyer’ from the deck to my hand.”

He then waved his hand.

“Then there is the effect of the ‘Kozmo Dark Destroyer’ that was just destroyed and sent to the graveyard. Banish this card from my Graveyard; Special Summon 1 Level 7 or lower ‘Kozmo’ monster from my Deck.

Bring it on! ‘Kozmo Tincan’! "

【Kozmo Tincan, DEF 0】

It's this monster again, this little robot that looked harmless to humans and animals. It's also the first monster summoned by The Light of Destruction in this duel.

It might not seem like a threat, but now everyone knew that this thing had the power to remove itself from the game at any time and special summon superior "Kozmo" monsters from the hand.

And because when the "Eclipser" was sunk, its effect was used to retrieve another "Dark Destroyer" from the deck, so now everybody knew that The Light of Destruction had a Dark Destroyer in his hand.

The effect of "Dark Destroyer" was that when its summoning was successful, it could blow up any monster on the opponent's field. It was a powerful effect that could freely interfere with the opponent's turn by bombing cards.

If the Judai entered the Battle Phase now and attacked with the Neos Knight, there was no doubt that the opponent would directly jump out of the "Dark Destroyer" from the hand, and in turn blown the Neos Knight up on the spot.

In this way, Judai's side would become empty again, while the Light of Destruction would have a space battleship station with an attack power of 3,000 and resistance to target effects, and the situation would be reversed again.

"Tch, he's such a troublesome guy." Aster below couldn't help but curl his lips.

"This enemy is so strong that it's a foul." Shoya Marufuji muttered.

Misawa said: "Indeed. Not only does the deck have the ability to operate at high speed, but it also has the interference ability to nuke the front and backfields during the opponent's turn, and all his battleships and spaceships are resistant to effects.

Even if all are destroyed through battle or non-target effects, it will immediately trigger the next wave of more powerful counterattacks."

Not only them, but also the professional players watching the game couldn't help but think about themselves in their hearts.

If I have to face this invader myself, how many turns can I last?

Many people fell silent.

Even the most confident professional players have to admit that they may not be able to do better than the Osiris Red student above.

"It really poses a problem for us." Yubel said, "If we fight directly, the Neos Knight will definitely be counterattacked by the space battleship."

She glanced at Judai.

"But you know what to do, Judai?"

"Yeah, I know!"

Speaking, Judai also glanced at Yuei Vu and smiled brightly.

"Let me use the power that the teacher lent me before the war began without any courtesy!"

Yuei Vu smiled and nodded.

Has he drawn that card?

"I set a card on the field!"

Judai did not rush to enter the Battle Phase but took further steps.

“Then the effect of ‘Temple of the Kings’ effect is activated!” Judai raised his voice, “I can activate 1 Trap Card the turn it was Set!

Based on this effect, I directly activated the trap card ‘NEXT’! ”

Originally, any traps would be ineffective when "Dark Eclipser" was present, but now that "Dark Eclipser" has retreated under the power of Absolute Zero, Judai's traps naturally could be used again.

“Choose any number of ‘Elemental HERO Neos’ or ‘Neo-Spacial’ monsters with different names from my hand or graveyard, negate their effects, and they are Special Summoned in defense position!

I Special Summoned three Neo-Spacials from the graveyard, namely ‘Neo-Spacial Grand Mole’, ‘Neo-Spacial Dark Panther’, and ‘Neo-Spacial Glow Moss’! ”

【Neo-Spacial Grand Mole, DEF 300】

【Neo-Spacial Dark Panther, DEF 500】

【Neo-Spacial Glow Moss, DEF 900】

“Then activate the Spell Card ‘Space Gift’! Draw 1 card for each different ‘Neo-Spacial’ name on the monsters I control!

There are three types of ‘Neo-Spacial’ on my field, so I draw three cards! ”

At this point in the operation, Judai paused briefly, turned his head, and glanced at Yuei Vu again, and Yuei Vu also gave him an encouraging look.

Come on, Judai!

Let the world see what a true pure HERO deck is!

Judai took a deep breath.

“I sacrificed three monsters: ‘Neo-Spacial Grand Mole’, ‘Neo-Spacial Dark Panther’, ‘Neo-Spacial Glow Moss’!

The burning wind blew wildly across the earth, suppressing all things with absolute divine power.”

“Wait!?” Aster stood up, “This is...”

Manjoume’s eyes widened: “What does this guy want to do!?”

Countless eyes around the world were focused on this moment, and even President Seto Kaiba who was on the plane almost stood up from his seat (if he wasn't wearing a seat belt).

Asuka covered her mouth: "Judai, do you want to do it?"

“The God of Destruction is coming!”

Judai slapped the card in his hand hard.

“Obelisk the Tormentor!!!”

Chapter 998: Endless Mode

"The God of Destruction is coming!" Judai slammed the card in his hand, "Obelisk the Tormentor!!!"

The wind howled, the fiery wind swept across the earth, and all living things were devastated! The blue storm shot straight into the sky, and the giant descended from the rolling black clouds with infinite power!

The existence that reigns over all things on this planet, the guardian of the earth, Obelisk, the God of Destruction!

【Obelisk the Tormentor, ATK 4000】

Everyone was stunned.

"Obelisk? Is it really that Obelisk!?"

"That student summoned the Egyptian God!?"

"Isn't it true that only certain duelists can control the Egyptian God?"

Perhaps no one else could compare to the Ishtar siblings in the degree of shock caused by this incident.

"Impossible!" Marik was shocked, "Only the pharaoh and the priests can control the three Egyptian Gods. Anyone else calling the gods will only lead to destruction!"

After saying this, he realized there was something omitted.

After all, there was already an exception: Yuei Vu.

But now Mr. Ma has long accepted this setting. In his opinion, Mr. Yuei Vu was Mr. Yuei Vu, he was unique and different, and it was not surprising that he could do incredible things.

But why can this boy with a jellyfish head do it?

"Yuki Judai, a disciple personally selected by Duel King Yuei Vu." Ishizu murmured, "This child indeed has his own extraordinary qualities."

Of course, the one summoned by Judai here was the real version of the Tormentor.

After all, the 100% original version of Obelisk could only be extracted through Yuei Vu's Duel Skill. There was no way to give it away and he could only use it himself.

"Obelisk is also one of the Egyptian Gods that protect this planet." On the contrary, The Light of Destruction seemed to be the calmest, "You guys really keep surprising me."

"It's not over yet!" Judai shouted, "Activate the Spell Card 'Miracle Contact'! Return to the deck, from my hand, field, or GY, the Fusion Materials that are mentioned on an 'Elemental HERO Neos' fusion monster, then Special Summon that Fusion Monster from my Extra Deck, ignoring its Summoning conditions!"

The cards in the Judai's GY popped up one after another.

“I return ‘Elemental HERO Neos’, ‘Neo-Spacian Grand Mole’, and ‘Neo-Spacian Dark Panther’ to the deck!”

Neos and the two Neo-Spacians in the GY flew out at the same time and rushed into the air. The two new cosmic heroes transformed into golden and black beams of light respectively, superimposed on Neos, and sank into the depths of the universe together as if miraculous power was summoned from the other side of the distant starry sky!

Triple Contact Fusion!

“Treading on the stars, the mysterious light...”

Elemental HERO Nebula Neos! ! ! ”

The light group flew from the other side of the starry sky and transformed into the posture of a hero! The radiance spread and the hero who was wearing heavy armor appeared. The energy core on his chest shone like a sapphire, and the top of his head was like a nebula hole that led to the sky!

【Elemental HERO Nebula Neos, ATK 3000】

The audience was almost stunned.

“Not only did he summon the legendary ‘Obelisk’ in one turn, but he also summoned so many monsters close to that level in one go.”

“Is he really a student of Duel Academy?”

“What kind of monsters come out of Duel Academy!?”

Judai continued: "Elemental HERO Nebula Neos's effect is activated! When he is summoned successfully, I draw cards equal to the number of cards on the opponent's field!

Now you have ‘Remove Brainwashing’ and ‘Kozmo Tincan’ on the field, so I draw two more cards.
"

After drawing the card, he continued: "Then there is the subsequent effect of Nebula Neos. Negate the effects of 1 face-up card on the field until the end of this turn!"

“Even if you choose ‘Kozmo Tincan’, the opponent will activate the effect of Tincan in a chain, removing himself from the game and summoning the ‘Dark Destroyer’. There is no point in doing so.” Yubel reminded.

"I know." Judai shouted, "Then the card I want to negate is the ‘Elemental HERO Nebula Neos’ itself!"

The Light of Destruction: "Do you negate yourself?"

“Yes, Nebula Neos must return to the deck at the end of the turn.” Judai said, “But if its own effect is invalidated, there is no need to return at the end of the turn!”

"I see, have you made any further plans?" said The Light of Destruction.

There was still the second half that Judai did not say.

The negation effect of Nebula Neos only lasted one turn. Then at the end of the next turn of The Light of Destruction, if Nebula Neos could still stay on the field, he would activate the effect of automatically returning to the deck again.

And when "Nebula Neos" returned to the deck due to its own effect, all cards on both sides of the field would be banished face-down!

In this case, the Light of Destruction would have to enter Yuei Vu's turn with an empty field!

Of course, the premise was that there was a next turn.

"Battle!" Judai said, "Use 'Elemental HERO Neos Knight' to attack 'Kozmo Tincan'! With the effect of Neos Knight, he can attack twice in one turn!"

Neos Knight flew out, the double-edged sword in his hand was covered with a faint golden light, and the golden halo shimmered.

"At this moment, the effect of 'Kozmo Tincan' is activated." Light of Destruction said, "Remove Tincan itself from the game, and Special Summon 1 Level 2 or higher 'Kozmo' monster from my hand.

I special summon the "Kozmo Dark Destroyer" in defense position! "

The Tin Man disappeared under the gravity of the black vortex, and the huge scimitar battleship appeared again with a roar!

【Kozmo Dark Destroyer, DEF 1800】

"Dark Destroyer's effect is activated." Light of Destruction said, "If this card is Normal or Special Summoned, destroy a monster on the field."

He paused, and his eyes briefly fell on Judai's side, the most arrogant and impressive blue giant.

"Obelisk is a god, not a monster!" Judai said, "He cannot be selected as the target of magic, traps, or monster effects!"

"Then destroy the 'Elemental HERO Neos Knight'."

The laser turret fired all its missiles. Neos Knight waved the double-edged sword in his hand to block it left and right. In the end, he was still unable to completely defend himself and was blown to pieces under the intensive firepower.

But this was also within Judai's expectation.

"Then the 'Elemental HERO Nebula Neos' will continue to attack the 'Kozmo Dark Destroyer'!"

Nebula Neos raised his palm, and the dark thunder and lightning surged in his hand and gathered into a huge sphere. It was like an impact that penetrated the galaxy. Just one shot blew the huge warship to pieces!

“The effect of Dark Destroyer.” Light of Destruction said, “When this card is destroyed, banish this card from my Graveyard; Special Summon 1 Level 7 or lower ‘Kozmo’ monster from my Deck.

I special summon ‘Kozmo Delta Shuttle’.

【Kozmo Delta Shuttle, DEF 2000】

“Then the battle continues!” Judai said, “Obelisk the Tormentor, attack!”

The God of Destruction raised his right fist, and the heavy punch blasted the shuttle into the air like a bombardment, and it was instantly blown to pieces!

“Then the effect of ‘Delta Shuttle’ will continue to be activated.” Light of Destruction said, “When this card is destroyed, banish this card from my Graveyard; Special Summon 1 Level 4 or lower ‘Kozmo’ monster from my Deck.

Special summon ‘Kozmo Scaredy Lion’ in defense position.

【Kozmo Scaredy Lion, DEF 500】

“Wow, it’s really endless.” Judai scratched his head.

Indeed, the opponent's deck gave him the feeling of an endless interstellar fleet. No matter how many battleships and spaceships were sunk, there would always be more spaceships to pounce on him.

It’s almost like facing an endless mode.

“It is indeed an iron wall of defense.” Neos also floated out and commented, “It is a watertight defense that is very difficult to break through.”

“Well, then I will set a card.” Judai said, “At the End Phase, ‘Nebula Neos’ can stay on the field without returning to the deck because its own effect is negated.

My turn is over.”

Chapter 999: Planetary Fortress

“Is it over? Then it's my turn.”

The Light of Destruction calmly revealed a card in his hand.

“Activate the Spell Card ‘Roll of Fate’! Roll a six-sided die. Draw cards equal to the result, then remove an equal number of cards from the top of my Deck.”

The image of the dice appeared in mid-air.

“Ah, it’s the dice again? It’s not like they’re all 6s when they’re thrown out again, right?”

Obviously, the last duel with the "Light of Destruction", that was, the BOSS battle with Saio Takuma, left a deep impression on Judai's young mind.

However, Judai quickly clenched his fists: "But this time, Yuei Vu-sensei is with me! If the two of us combine our luck together..."

Yubel: "..."

Yuei Vu: "..."

The dice stopped rolling.

It's another big "6".

"Eh? Our combined luck can't resist fate?" Judai was surprised.

Yuei Vu: Actually, if I hadn't been with you, maybe he wouldn't have been able to throw a 6.

"This is of course, because the fate of this planet and this universe has already been decided. The supreme light will purify everything, and that is the future that the universe itself shows us."

The Light of Destruction drew cards calmly.

"According to this effect, I draw six cards from the deck!"

After replenishing the cards in his hand, he quickly glanced at the two remaining monsters on Yuei Vu and Judai's field.

"Nebula Neos, our old rival has gained new power on this planet." He said, "Although I really want to attack him first, it seems that the Egyptian God as the guardian of this planet is more troublesome."

The eyes of the Light of Destruction once again emitted a sharp and fierce light.

"Then let's start from here." He showed another card in his hand, "The effect of the 'Kumongous, the Sticky String Kaiju' in the hand!

Take the 'Obelisk the Tormentor' on your field as a sacrifice, and Special Summon 'Kumongous, the Sticky String Kaiju' in attack position! "

It was almost a rule-based method of clearing the field, and even the Egyptian God could not resist it. The giant god roared, but the huge body still helplessly turned into countless blue light spots and dissipated, replaced by a huge Kaiju in the shape of a spider.

【Kumongous, the Sticky String Kaiju, ATK 2400】

It was indeed frustrating that the Tormentor was solved like this, but neither Judai nor Yuei Vu was surprised.

Sky Dragon in the GY: Yo, brother, are you here too?

Obelisk (angered): Ah ah ah, I want to kill that damned spider!

"Following this is the effect of the Continuous Trap 'Remove Brainwashing'." The Light of Destruction said lightly, "All monsters controlled by both parties will have control rights returned to their original owners."

Come back, Sticky String Kaiju. "

"Can even a god be defeated by that kind of thing easily?" A passerby felt incredible, "There are actually monsters with such terrifying power in the world."

This was also what the countless spectators who are watching this card game in fear were thinking.

This duelist from outside the world, whether it was the deck he used or his personal strength, was completely beyond their imagination!

Many professional duelists who were originally full of confidence had to accept a cruel fact at this time. When they discovered that alien invasion also relied on playing cards, they thought they had nothing to fear even if they faced powerful aliens in this professional field, but now they all realized that they were wrong.

Even through a duel, the strength of the invaders was not at the same level as theirs!

All they could do now was to place all their hopes on the two men who were fighting.

"The effect of 'Kozmo Scaredy Lion'." The Light of Destruction continued, "Once per turn, pay 500 LP to return up to three banished 'Kozmo' monsters to the graveyard."

【The Light of Destruction, LP 2500 → LP 2000】

He revealed three more "Kozmo" cards from the banished zone and said: "I return three 'Kozmo' cards to the graveyard. And after that, I can inflict 500 points of damage to the opponent."

A ball of light flew out, and the soldiers split into two groups, knocking Yuei Vu and Judai back half a step respectively.

【Yuei Vu x Judai, LP 2300 → LP 1800】

"Then remove the 'Kozmo Scaredy Lion' on the field from the game to activate its effect." The Light of Destruction said, "Special Summon 1 Level 3 or higher 'Kozmo' monster from my hand.

The card I want to special summon is this card...

...super star destroyer, Kozmo Dark Eclipser!!! "

The black vortex opened, the transparent storm rolled up, and the huge battleship as thick as a sword rose into the sky, with flames spitting out from below!

【Kozmo Dark Eclipser, ATK 3000】

Eclipser Unit No.2!

"Yuei Vu, and Yuki Judai, as human beings, you have really made me remember you." The Light of Destruction briefly stopped the operation and said, "You have won glory for yourself, and you will see the true nature of the fleet. This fortress is a trump card that no one has ever seen before.

Feel proud, even among all the ants drowned in the torrent of fate, you are also the most unique group. "

At this point, the whole body of The Light of Destruction suddenly surged with white light, and the majestic energy swept across like a wave. The beam of light penetrated the sky and flew straight into the huge wormhole in mid-air.

As if calling for something extremely terrifying on the other side of the wormhole!

“The effect of the ‘Kozmo Dark Planet’ in the hand is activated!

This card cannot be Normal Summoned or Set. It must be Special Summoned by banishing ‘Kozmo’ monsters from my hand whose total Levels equal 10 or more!

I banish another ‘Kozmo Dark Planet’, which is Level 10!

The ultimate weapon to conquer the galaxy, the planetary fortress...

Kozmo Dark Planet! ! ! "

The first time that card was put on the Duel Disk, no one even realized where the monster he summoned was.

Everyone only saw a beam of white light rising from the duel disk and shooting out of the sky, followed by a short and suffocating silence.

Until there were waves of low roars in the sky.

Something huge appeared in the sky, broke through the clouds, and sank darkly. It exudes a strange green light, looks like a super giant sphere with only the tip of the iceberg exposed, and is surrounded by some kind of metal structure.

Everyone who saw that thing almost instinctively questions their own eyes.

“Is that thing also a monster?”

“It’s too big anyway!”

Like a planet.

Of course, it just referred to the visual effect. No matter what, this was still a duel monster bound by the rules of this duel.

Kozmo Dark Planet's corresponding prototype in the Star Wars series seemed to be very obvious.

That was the Death Star, a giant battle space station the size of a satellite built by the Galactic Empire in the Star Wars series!

Chapter 1000: Death Star!

[Kozmo Dark Planet, ATK 4000]

"Did the Death Star appear?" Yuei Vu murmured as he looked at the huge fortress that appeared in the sky.

Such huge monsters were actually not completely absent in the original work. For example, the monster "Number 9: Dyson Sphere" that appeared in "Yu-Gi-Oh! ZEXAL" was a ridiculously huge super giant monster that was large enough to encircle the Sun.

However, although a huge size could bring powerful oppression, when it came to dueling monsters, bigger was not always better.

"Activate the Continuous Spell 'Supply Squad'! Once per turn, when a monster on my field is destroyed by battle or effect, I can draw a card."

"Entering the Battle Phase." said The Light of Destruction, "Use the 'Kozmo Dark Planet' to attack the 'Elemental HERO Nebula Neos'."

Planet Buster Roar Cannon! "

The huge Death Star seemed to be awakened from its slumber, and its core engine began to run at full speed. The green light filled the entire planet from the inside out, and the restless energy found an outlet to vent. It was amplified by multi-faceted crystals and condensed into a powerful laser energy beam!

The prototype of Dark Planet was the "Death Star", the ultimate weapon in the Star Wars series. If it was set according to its prototype, this should be a super bombardment with strength comparable to that of a star and enough to shatter planets!

Nebula Neos made a move with his palms, and a golden shield barrier immediately formed in front of him. But after only holding on for a moment, the barrier fell into pieces, and Nebula Neos was also destroyed by the bombardment.

[Yuei Vu x Judai, LP 1800 → LP 800]

The air wave after the laser cannon knocked Judai to the ground, and he got up with some difficulty. "Neos..."

"Don't worry about the alien guy yet, worry about yourself." Yubel reminded in a hurried tone, "The next shot is coming!"

"Dark Eclipser," said the Light of Destruction, "attack directly."

After a pause, he said coldly: "This time is really the final blow."

Yuei Vu glanced at Judai, who didn't disappoint him either.

"Open the set card!" Judai waved, "Quick-Play Spell 'The Flute of Summoning Kuriboh'! Special summon a 'Winged Kuriboh' in defense position from the deck!"

Marufuji Sho below clenched his fists: "Very good! Winged Kuriboh has the effect of nullifying battle damage for the entire turn when it is destroyed!"

If it is summoned..."

"It's useless." The Light of Destruction said calmly, "The effect of 'Kozmo Dark Planet'! When the Spell Card is activated, banish a 'Kozmo' monster from my graveyard, negate the activation, and destroy that card."

The Light of Destruction revealed a card from the graveyard.

"I banished 'Kozmo Tincan', which returned to the graveyard through the effect of 'Kozmo Scaredy Lion', and negated the effect of 'The Flute of Summoning Kuriboh'."

"Nani!?"

Almost all the onlookers were shocked.

Spell Cards can no longer be used!?

"Oops." The face of Misawa was unprecedentedly solemn. "When 'Dark Planet' exists on the field, Spell Cards will be negated. When 'Dark Eclipser' is present, Trap Cards will be negated."

"Doesn't this mean that the spells and traps have been completely blocked!?" Sho Marufuji's face turned green.

He couldn't imagine how to fight in this situation.

"Not only that, but neither the 'Dark Eclipser' nor the 'Dark Planet' can be the target of any card effect." Misawa frowned, "To be honest, facing this situation... ..I don't know what to do anymore."

Not only them, but almost all viewers who could understand the situation deeply felt the despair at this moment through the picture.

Even alone, this invader is hopelessly powerful!

If the first-generation Duel King loses here, is there really anyone on this planet who can stop this enemy?

"Judai." Yuei Vu turned his head and looked at Judai, "Use my card."

".....that's right!"

Judai's eyes lit up and he waved his hand hurriedly.

"Then I activate the effect of the 'Kuribohrn' in the graveyard!" Judai said, "When the opponent's monster declares an attack, banish this card from my GY, then target any number of 'Kuriboh' monsters in my GY; Special Summon them!"

A card popped up from the graveyard area of Yuei Vu's Duel Disk, and he quickly threw it toward Judai.

"I special summon the card that Yuei Vu-sensei discarded as the cost of activating the effect of 'Hyper Blaze' – Winged Kuriboh!"

[Winged Kuriboh, DEF 200]

The star warships bombarded the sky with overwhelming force, and the fire from the successive explosions instantly swallowed up the little guy with white feathers. The Kuriboh disappeared in the firelight but left a layer of milky white and transparent shield in front of the two people.

"In the turn when the Winged Kuriboh is destroyed, all battle damage will become 0!" Judai said.

The whole world breathed a sigh of relief at this moment.

It was as if the scythe of the Grim Reaper had approached the main artery of the planet, but only a faint wave of the sword passed by with a sinister wind.

Watching this duel made everyone felt like they all needed a box of quick-acting heart-saving pills...

"Brother Judai and Mr. Yuei Vu... have such a good understanding." Sho Marufuji murmured.

"It's really the opportunity caused by the bond. They have survived this turn." Misawa also wiped his sweat and said, "But the unfavorable situation has not changed.

Mr. Yuei Vu and Judai are still in a state where the spells and traps are completely blocked. Under such a disadvantage, they have to find a way to defeat the monsters who had 3000 ATK and 4000 ATK respectively and have strong resistance."

Asuka bit her lip, her eyes unblinking: "Judai..."

"You are indeed worthy of praise for being able to defend yourself." said The Light of Destruction, "but how far can you go in this situation?"

Set two cards, I end my turn. "

Judai took a deep breath. Even he couldn't help but feel nervous at that moment.

"It's so dangerous, if not for Yuei Vu-sensei's care..."

"Kuri Kuri!"

Judai heard the sound of Kuriboh.

He turned his head and saw Winged Kuriboh floating beside him in a ghost state, and nodded with a smile: "Yeah, thank you very much. It was really thanks to your help just now, otherwise we would all be doomed!"

Winged Kuriboh flapped its little wings harder, flying up and down: "Kuri Kuri!"

"Eh? You said this isn't important?"

Judai was worthy of being the "true world protagonist" with a perfect level of Kuriboh language. He immediately understood what Winged Kuriboh was talking about.

He looked down at his deck and found that a card had popped up automatically, seemingly waiting for him to draw it out.

Judai was stunned.

Did I activate any deck search effect just now?

But since it was a card retrieved automatically by the Duel Disk, there must be nothing wrong with it.

Judai pulled out the card in confusion and couldn't help but let out an "ah" sound.

A Spell Card.

Sabatiel – The Philosopher's Stone, the ultimate alchemist's proof, a peerless artifact that could create something out of nothing and make miracles.

"This is...the card entrusted to me by Daitokuji-sensei!"
