### Chapter 1471

When Ye Chen heard this, he couldn't help but laugh, "This Kobayashi family is extremely untrustworthy, not only is there a precedent of stealing my divine medicine, but there's also the case of Kobayashi Jiro spending money to buy his own brother's life, working with such a family, we will definitely be calculated by them."

Saying that, Ye Chen made a slight pause and said, "Also, the Kobayashi family is a Japanese family after all, if we cooperate with them, we are bound to share our formula with them, once they plagiarize our formula, it is very likely that they will do something to cross the river or even kill the donkey, so we must not cooperate with them."

When Wei Liang heard this, he immediately spoke up and said, "Master Ye, this matter was ill-considered, please don't worry, I'm going to reject this Kobayashi Jiro right now!"

The company has been in the process of developing the new product for the past two years, and is now in the process of developing the new product for the next two years," he said.

Wei Liang busily said, "Okay Master Ye, I know!"

Saying that, Wei Liang asked: "Right Master Ye, our Jiu Xuan Stomach Powder market response is very good, do you think we should expand the production line as soon as possible? If you're interested, I'll quickly apply for industrial land with the authorities."

Ye Chen smiled, "It's too slow to build your own production line, isn't it? Isn't there several big ready-made production lines in front of this."

Wei Liang was surprised and asked, "Master Ye, are you talking about Kobayashi Pharmaceutical?"

"Right." Ye Chen said smilingly, "Kobayashi Jiro's brother, Kobayashi Ichiro is still in my hands, so I'll simply leave Kobayashi Jiro behind this time and let Kobayashi Ichiro go back to inherit the Kobayashi Group, but well, if Kobayashi Ichiro wants to go back, he has to transfer 80 shares of Kobayashi Pharmaceutical to my name, otherwise, he'll just continue to go into hiding and shovel shit for the dogs at Hongwu's dog farm!"

Wei Liang suddenly came to his senses and exclaimed in shock, "Master Ye, so that's what you were planning! This is a godsend! No wonder you're keeping that Kobayashi Ichiro for that!"

Ye Chen smiled, "If I let Kobayashi Ichiro back in, I'll keep Kobayashi Jiro as a hostage, and if this Kobayashi Ichiro doesn't cooperate well and I don't obey, then I'll let Kobayashi Jiro back in again and get him back to the dog farm. In short, whoever of these two brothers obeys me the most can go back to Japan and enjoy their blessings, and the one who doesn't obey me, or who isn't obedient enough, will stay in Jinling and keep the dogs honestly!"

"Master Ye, I understand!! I'm going to turn Kobayashi Jiro back down!"

After respectfully hanging up Ye Chen's phone, Wei Liang returned to the meeting room.

When Kobayashi Jiro saw him return, he stood up with anticipation and asked with a smile, "Manager Wei, what did your boss say? Surely he's interested in what I'm proposing?"

Wei Liang shook his head, "I'm sorry Mr. Kobayashi, our boss isn't interested in your cooperation, so I'm sorry that we at Jiu Xuan Pharmaceutical can't cooperate with your company."

Jiro Kobayashi frowned and asked, "Manager Wei, is your boss not satisfied enough with the split? How about this, let's cooperate, you take 70% of the net profit, we take 30%, and give you all the big bucks, this kind of can see my sincerity, right."

Wei Liang smiled casually, "I'm sorry, our boss said, no cooperation is no cooperation, it has nothing to do with the share ratio, Mr. Xiao Lin, please go back."

1472

The company has been in the process of developing the new product for the past two years, and has been working on the new product since its inception. Even if your medicine works, so what? Once you start a price war, your profit margins will drop indefinitely!"

Wei Liang said "Mr. Xiao Lin, if you want to have a price war, we naturally won't be afraid, but then again, since our boss is not willing to cooperate with you. Then there's no need for us to waste our breath here, if you have any grievances or any schemes or ideas, you can go back and display them to your heart's content, I won't accompany you."

After saying that, he said to Secret, "Send the guests away!"

Kobayashi Jiro was very annoyed.

He didn't really want to get into a price war with Jiuyuan Stomach Scatter.

After all, a price war was the last resort.

If the efficacy of the two were similar, a price war at this time would be tantamount to killing a thousand enemies at the expense of eight hundred.

But if the efficacy of the two is much lower, then to fight a price war at this time, it would be like killing a hundred enemies and losing a thousand.

After all, although the efficacy of Xiao Lin Stomach Powder is much lower, the cost is no less than Jiuxuan Stomach Powder!

Even because the labor cost in Japan was relatively high, and the cost of shipping and tariffs for export was not low, so much so that the cost of Kobayashi Stomach Powder was much higher than Jiu Xuan Stomach Powder, which was much stronger than him.

If everyone lowered the price to a hundred dollars a box, then Kobayashi Stomach San might have to sell it at a loss, but Jiu Xuan Stomach San, there might still be a profit of ten or twenty dollars a box.

So, if Kobayashi Jiro didn't fight the price war, it was just a show of bravado, but if he were to fight, he wouldn't have the strength.

After thinking about it, he felt that the real solution to his problem would be to start with the theft of the prescription.

The first thing you need to do is to get back to your car and ask your assistant, "What did you find in Japan?"

Are you in Jinling now?"

The assistant was busy reporting to him "Chairman, I have mobilized a total of 16 experts this time, 9 of them have already arrived at the end of the day, and the remaining 7 will also be arriving by this evening."

"Good, very good!" Kobayashi Jiro nodded and said, "Let them set up an ambush on this road tonight, tie up that Wei Liang and torture him severely, he must be made to hand over the medicine as well as the formula!"

But for all patent medicines, the recipe is important, and so is the formula.

The recipe, contains all the types of herbs needed for this medicine, as well as the amount of each herb that corresponds to the dosage.

If the same 10 types of herbs are used, and each herb has a different portion ratio, the resulting effect is vastly different.

It was possible that more or less of a certain herb would turn this good medicine that could save people into a poison that could harm them.

So Kobayashi Jiro also knew that even if he could figure out what ingredients were in it, it would be difficult to formulate the correct ratio.

It might not be possible to figure it out in a few years just by guessing and experimenting.

In case this drug has more ingredients, it may be 10 years and 20 years to figure it out.

As for the formula, it is related to the pharmaceutical process.

Some herbs need to be fermented, some herbs and herbs need to react with each other, and some herbs need to be added before or after other herbs in order to have an effect, such as the concept of the medicinal primer in Chinese medicine.

This is like a tedious chemical reaction formula, in addition to the core raw materials, there are such things as catalysts, catalysts, when to add? How much more? These were vital, and if the slightest mistake was made, it would be a mistake of a thousand miles.

So the safest and quickest means is to just get your hands on the entire medicine and formula!

1473

The International University Scrimmage Competition is over.

The moment Qin Ao Xue wore the gold medal and jumped into Ye Chen's arms in the backstage lounge, the little girl cried pear-shaped tears.

The reason why she cried, on the one hand because of the emotion, and on the other hand because of gratitude.

Before this, Qin Aoxue had never thought that she would be able to get the world championship one day.

So at this time, she was in an extraordinarily excited mood.

Qin Ao Xue was also very clear that the reason why she was able to have such a creation was entirely because of her beloved Master Ye's help behind the scenes, and the help he brought to her was so great that she couldn't describe it with words.

When she threw herself into Ye Chen's arms, Qin Gang and Qin Aodong had self-consciously exited the lounge.

Qin Ao Xue, who was only wearing a sports bralette and shorts, hugged Ye Chen tightly, ignoring the fact that she was still a young girl who had never been in love.

She held Ye Chen in a death hug while lying on his chest and choked, "Master Ye, thank you so much! If it wasn't for you, Aoshi would never have gotten this gold medal."

The next step is to continue to train hard and face the next Olympic Games. If you can get the gold medal in the next Olympic Games, it will be a great honor for the country."

Qin Ao Xue busy "Master Ye, I've never participated in the Olympic Games before, and I don't know if our country's Olympic Committee can take a look at me. Every Olympic Games has a corresponding Olympic Committee, and every athlete who participates in the Olympics is selected by the Olympic Committee.

will."

Ye Chen smiled, "Don't worry, I'm sure the Olympic Committee people are also paying attention to the game today, they will not miss your rising star! So I'm sure it won't be too long before someone from the Olympic Committee comes looking for you!"

"Really?" Qin Ao Xue asked in surprise "Master Ye, do you think I really have a chance to represent my country in the Olympics?"

Ye Chen said firmly "I feel that not only do you have the opportunity and the qualification, you also have the strength!"

As I was saying, a knock sounded on the door.

Outside the door, came Qin Gang's voice "Ao Xue, the head of sports in our province, President Luo, is here to see you!"

Ye Chen smiled slightly "Look, say Cao Cao Cao."

After saying that, he was busy with Qin Ao Xue separated, step to open the door.

The first thing you need to do is to take a look at the actual shoes and boots, and then you'll see that they're all in good condition. What a congratulations!"

At this time, he was the person in charge of the sports in the province, President Luo.

The whole province sports, are under his rule, under his management.

Qin Ao Xue said very politely, "President Luo you are overpraised!"

The company's president said, "Miss Qin, I just received a phone call from the Yanjing Olympic Organizing Committee, they entrusted me to formally invite you to join the next Olympic Games wrestling national team, if you agree, you can soon go to Yanjing to participate in the national team training, next summer, you will be able to represent the country, to participate in the next Olympic Games, I do not know what you think?"

1474

When Qin Ao Xue heard this, her tears of excitement connected into lines.

Even Qin Gang was trembling with excitement!

Even though he is already worth tens of billions of dollars, he is a true super-rich man, and can give Qin Aoxue a lifetime of food and clothing without worry.

But as a father, Qin Gang still hopes that his daughter can create her own glory and achievements.

Participating in the Olympics for the country and winning the gold medal in the Olympics, that's the daughter's own brilliance!

At this time, Qin Ao Xue desperately nodded her head, bean tears even thrown into the air, mouth agitated and resolute "I do!".

I'll communicate with Yanjing about the specific work involved, and if the national team's training call comes down, I'll personally send it to your home. I believe that with your strength, you will be able to succeed in winning a gold medal at the Olympics!"

After President Luo left, the Qin family father and daughter were crying in the backstage lounge.

Qin Gang was incomparably relieved, because it was already a great achievement for Qin Ao Xue to win this competition today, but he didn't expect that his daughter would have the chance to be selected for the national team for the next Olympics.

Qin Gang cried for a while before he dried his tears, looked towards Ye Chen, knelt on one knee and cupped his fists and said "Master Ye! It is possible to have today's achievements, all thanks to your grace, Master Ye is the great benefactor of my Qin family, please accept my worship, Master Ye!"

Qin Aoxue also hurriedly followed behind her father and knelt down on one knee, "Master Ye, please accept Aoxue's worship!"

As soon as Qin Ao Dong saw this, that still dared to have the slightest delay, immediately followed by kneeling down "Master Ye, please accept Ao Dong's obeisance."

Ye Chen smiled slightly and said to Qin Ao Xue "Ao Xue, from now on, you must redouble your efforts, you must win glory for your country in the Olympics."

Qin Aoxue cried and nodded her head and said firmly "Master Ye, don't worry, Aoxue will definitely do her best to prepare for the Olympics!"

Qin Gang wanted to throw a celebration banquet for his daughter at the Heavenly Fragrance House. and at the same time invited Ye Chen to attend.

But Ye Chen was really not in the mood, so he excused himself from the gym on the pretext that he had something at home and left alone.

Of course, he was also happy for Qin Ao Xue's victory, but when he thought about the fact that Ito Naija was still injured at this time, he was somewhat worried.

And unfortunately, he didn't even have Ito Nanaako's contact information.

Even a phone call to go over and say hello became an extravagant hope.

Ye Chen was a little confused as to why the always calm self would be so attentive to this Japanese girl.

But if you think about it, Itoh Cabbage's body just had such a different kind of temperament that attracted him.

I can't say that it made me fall in love with her, but at the very least, it did make me appreciate her very much.

Come to think of it, Itoh Cabbage Patch Kid should be on a plane back to Japan right now.

So Ye Chen could only hope that these doctors of the Ito family would be a little more helpful and not let this young girl's life be in danger or leave her with any after-effects.

At this time, his phone suddenly received a call from Gu Qiuyi.

On the phone, Gu Qiuyi came up and asked "Brother Ye Chen, your Jiu Xuan Stomach Dispersion sold exceptionally well as soon as it went on the market, congratulations to you."

Ye Chen gave a hmmm and smiled "With the endorsement of a top star like you, of course it's selling well!"

The company's main business is to provide a wide range of products and services to the public.

Ye Chen smiled, "It seems that your influence as a big star is truly extraordinary!"

"No it's not." Gu Qiuyi said seriously "It's mainly your medicine, the effect is really great, something so good will be highly sought after even if there's no one to endorse it."

Saying that, she asked in a somewhat sentimental tone "Right brother Ye Chen, when exactly will you come to Yanjing ah? My dad's health, it's been a little rough lately."

1475

Hearing Gu Qiuyi say that Gu Yanzhong's health was not too good, Ye Chen hurriedly asked her, "Inan, what's wrong with Uncle Gu's body?"

Gu Qiuyi said sadly, "It's still pancreatic cancer, before when he came back from abroad, a little bit stable, but in the past few days there are signs of continuing to spread, the hospital here in Yanjing is already doing its best to treat him, using radiotherapy and chemotherapy means, and also using targeting drugs, but the effect is very ordinary ....."

At this point, Gu Qiuyi couldn't help but choke up and said, "Brother Ye Chen, the doctor has already told me and told me to prepare myself mentally, if there is nothing good to do, my father may only have three or four months left to live ....."

Ye Chen was busy comforting: "Inan, you don't need to be so sad now, I am still certain of Uncle Gu's condition, you wait for me to go over, I will do my best to save Uncle Gu."

Gu Qiuyi cried and asked, "Brother Ye Chen, then when exactly will you come?"

Ye Chen made a calculation.

Now that Qin Ao Xue's match was finished, the only thing left on his hands was the matter of Kobayashi Jiro and Kobayashi Pharmaceutical.

If he followed the plan and left Kobayashi Jiro at the dog farm and released Kobayashi Ichiro to inherit Kobayashi Pharmaceutical, he would definitely have to make another trip to Japan to supervise Kobayashi Ichiro and change the shares of Kobayashi Pharmaceutical to his own name.

However, since Gu Yanzhong's health was deteriorating right now, then he naturally couldn't delay any longer, and the matter of going to Japan could be postponed for a while, until he returned from Yanjing.

Thinking of this, he immediately said to Gu Qiuyi, "Inan, I still have a little matter at hand that needs to be dealt with, but it's only for a day or two, after I've finished the matter at hand in the next day or two, I'll immediately head to Yanjing!"

When Gu Qiuyi heard this, she was slightly relieved and choked out, "Brother Ye Chen, then I'll wait for you in Yanjing, you must be as soon as possible ah, I'm really afraid that dad will suddenly deteriorate one day ....."

Ye Chen comforted, "Don't worry, I'll try my best, just these two days!"

"Well!Then I'll wait for you!"

As soon as Ye Chen hung up on Gu Qiuyi, he immediately received another WeChat voice call from Richard Chen.

After receiving it, Richard Chen said respectfully, "Young Master, according to my informant's report, since this morning, many Japanese experts have come this year, and I suspect that they are all employed by Jiro Kobayashi, and probably have ill intentions towards your Jiu Xuan Pharmaceutical."

Ye Chen gave a hmmm and said indifferently, "The Kobayashi family is really all one hill of beasts, this younger brother is no different from his older brother, when he sees something good, he only wants to grab it, in that case, let's teach him a lesson."

After saying that, Ye Chen instructed, "Have your people closely monitor these so-called experts from Japan to see what kind of business they are plotting, when the time comes, you and I will teach these Japanese a lesson, and also leave Kobayashi Jiro in the hospitable Jinling."

Richard Chen smiled, "Young Master, are you leaving Kobayashi Jiro behind as well? Wouldn't the Kobayashi Clan be leaderless when both of their sons are in our hands then?"

Ye Chen smiled and said, "Leave Kobayashi Jiro behind and put Kobayashi Ichiro back, the Kobayashi family has such a high production capacity, I naturally can't let it go, so I need an obedient puppet to help me out with all this."

After all, Richard Chen was a wonderfully intelligent person, and as soon as he heard this, he immediately knew what Ye Chen was planning to do, and he couldn't help but exclaim, "Young Master, you are really good at this!"

Ye Chen smiled slightly, "Keep a close eye on it for me, and remember to call me if there's any movement."

"Okay young master!"

.....

When Ye Chen returned home, his mother-in-law Ma Lan was preparing lunch.

As for the old father-in-law Xiao Changkun and his wife Xiao Churan, neither had returned yet at this time.

Seeing Ye Chen arrive home, Ma Lan hurriedly leaned in and compensated with a smile and said, "Good son-in-law, that caviar skin care product you gave me, it's so good!! I've never used anything so good in my life!"

1476

Ye Chen smiled slightly, "It's good that it's valid."

Ma Lan smiled obsequiously and said, "Good son-in-law, can mom discuss something with you?"

Ye Chen nodded his head: "You say."

Ma Lan was busy: "It's like this ah good son-in-law, although this big set of caviar skin care is a lot, but how can it be used up, Mom is afraid that after waiting for it to run out, if it can't be renewed, the anti-aging effect on this face will regress back to its previous state, so can you wait until Mom is about to run out, and then get a set for her?"

Ye Chen understood.

Ma Lan was actually afraid that after this set was finished, there would be nothing left to use, so she wanted to book the next set with herself in advance.

To be honest, nearly 400,000 sets of skin care was really nothing to himself, but this was not a small amount after all, and he couldn't just promise Ma Lan casually.

If she performed well, this would be no problem, but if she didn't perform well, she wouldn't buy her an expensive skin care set, even if it was a few dollars a bottle of Dabao.

So, he said indifferently, "Mom, we'll see how this goes then, you'll be able to use this set for more than half a year anyway, right?When you're about to run out, it won't be too late for us to talk about this matter."

Ma Lan was also a human shrewd and instantly understood the meaning of Ye Chen's words.

Definitely, he wanted to examine his performance before making a decision.

So she even smiled, "Good son-in-law, don't worry, in the future at home, mom will definitely take you as her head in everything, if you let mom go east, mom will never go west!"

Afterwards, he quickly asked, "Good son-in-law, mom has stewed ribs for you for lunch, and later mom will cook you a braised ribbon fish!"

Ye Chen nodded and said, "Mom, after the family's food, overall upward improvement improvement, not always those home-cooked food, occasionally also do some mountain treasures and seafood or something, Chorán works so hard every day, have to give her health."The first, the domain name, please remember

After saying that, without waiting for Ma Lan to speak, he took out his phone and said indifferently, "I'll give you WeChat to transfer 30,000 yuan, from now on, our family will follow the 30,000 yuan food standard every month."

As soon as Ma Lan heard Ye Chen say that he was going to give himself 30,000 yuan per month for food, he suddenly danced with joy!

How can a family of four eat with \$30,000?

I will casually deduct a little at that time, I can get out a little over ten or twenty thousand yuan a month.

Unexpectedly, Ye Chen said with a serious face at this time, "Mom, this 30,000 is for food, you can't secretly withhold it, you must spend 30,000 realistically every month on improving the family's food, of course, I won't treat you badly, I'll give you an extra 10,000 every month as your hard work."

As soon as Ma Lan heard this, she was not angry at all, but much more comfortable.

If she were to withhold indiscriminately, she was afraid that Ye Chen would be angry with her if she found out, but if she didn't withhold, she wouldn't have any pocket money in her hand in the future, and that life would be meaningless.

Now, Ye Chen giving himself an extra 10,000 hard-earned dollars a month is considered good.

However, 10,000 yuan is really not much, and you don't go out to make friends now, wearing a mask and sunglasses every day, leaning on your crutches to go to the nearby supermarket to buy food, and it's really not much to spend.

But in the future, if your leg is better and your teeth are fixed, you will still need to have a normal social life and expenses.

So, this 10,000 yuan per month, you can save it for yourself.

Thinking of this, Ma Lan couldn't help but sigh and surmise, "10,000 a month is really not much, and it's hard money to earn, it seems that if I want to live a good life in the future, I still have to ask Choran to hurry up and give Ye Chen a few more children ah! Wouldn't Ye Chen be rich when he gives himself hundreds of thousands of hard-earned money a month and lets himself take care of his children for him?"

1477

Ye Chen did what he said he would do, and 40,000 yuan was quickly transferred to Ma Lan's WeChat.

The fact that the money was given so readily also made Ma Lan believe even more strongly that this son-in-law of his, what he was telling himself was definitely not a joke!

If Xiao Churan really had a child, then Ye Chen would definitely be quick to give money then as well.

As soon as she thought of this, she decided, "No, I have to find a good opportunity to talk to Churan at night, she's not young anymore, what's she thinking about if she doesn't want a child soon? The sooner you have this, the better to have a second and third child! If you really want to wait until you're thirty to have your first child, then the second one is probably up in the air, not to mention the third and fourth."

"For myself, of course it's better to let my daughter have as many children as possible, because then, I can earn more as well."

By the afternoon, Ma Lan was very conscientious about going to the supermarket and buying a bunch of high-end ingredients.

There was wild turtle, imported high-grade beef, and fresh hairy crabs.

With one thousand dollars a day for food, Ma Lan really didn't dare to embezzle a single penny.

She knew that she had to behave well and make Ye Chen satisfied with herself at this time, and definitely could not lose a single penny!

When Xiao Churan returned from work in the evening, she was simply dumbfounded with surprise when she saw the table full of sumptuous dishes.

She had never dreamed that Mom would buy such expensive ingredients and cook with such care.

Even Xiao Changkun was stunned.

I thought to myself, "What's wrong with this Ma Lan today? On the wrong medication?"

Ma Lan said with a smile as she served the family's meal, "I'm telling you ah, from today onwards, the food standard for our family of four is one thousand dollars a day, and I, for one, will do everything I can to make sure that everyone eats better every day!"

Xiao Choran exclaimed in shock, "Mom, a thousand a day? That's 30,000 a month! Who has such a high standard of food, and besides, where did you get so much money?"

Ma Lan immediately pointed at Ye Chen and said with a smile, "Oh my, of course it's from my good son-in-law Ye Chen! But Ye Chen said, you have to actively prepare for pregnancy now, this body must be mended!"

Xiao Churan made a big blush when she heard this and looked at Ye Chen shyly, scolding, "Ye Chen, what are you talking nonsense with mom? When am I going to get pregnant?"

Ye Chen hurriedly left out the dry: "Wife, I didn't mean that, I meant that you're not busy with the company every day, it's harder to work hard, so I raised the food standards a little bit to give you a boost, not to make you prepare for pregnancy."

Ma Lan waved her hand, "Harm! It's time for you two to prepare for a pregnancy, of course it's better to do this kind of thing sooner rather than later!"

Xiao Churan was helpless and spoke up, "You don't need to worry about this matter."

Xiao Changkun on the side also inevitably sighed, "Churan ah, although most of what your mother said I don't agree with, but what she said today, I am still more supportive, you are also not young, Ye Chen is also not young, it's time to have a child."

Xiao Churan blushed as if to drip blood, opened her mouth and said: "Oh my, you two just don't worry about this idle mind, now the company is busy to death, a lot of projects lined up waiting to promote, if I get pregnant and give birth to a child at this time, with partners can't account for ah, and the company has now expanded quite a bit, there are more than a dozen employees, I can't say shake hands on the hands off, right?"

Ye Chen also spoke up, "Dad, Mom, Churan and I will slowly plan this matter, so you two don't need to worry about it for now."

Only then did Xiao Changkun nodded his head and lamented, "You two are temporarily focusing on your careers, this is of course good, but you can't be too absolute in everything, you have to pay attention to the combination of work and rest."

1478

Xiao Choran was busy saying, "I know dad, you don't have to worry about it, hurry up and eat!"

Xiao Changkun earnestly said, "I am imparting life experience to you, especially you ah Choran, every day busy work too ruthless, should be more like Ye Chen to learn, have something to go busy, nothing to rest, take care of the family, in my opinion ah, you can first take a few days off, with Ye Chen to go out for a trip or something."

Ye Chen spoke up at this time, "That dad, I might have to go out of town for the next two days."

"Go overseas?" Xiao Changkun curiously asked, "Good son-in-law, where are you going?"

Ye Chen said, "I'm going to go to Yanjing."

"Go to Yanjing?" Xiao Changkun was very surprised and asked, "What are you doing in Yanjing?"

Xiao Churan was also full of doubts.

In her impression, Ye Chen hadn't left Jinling in these nearly four years since he married himself, and she didn't know why he suddenly had to go so far away to Yanjing this time.

In fact, it was true that Ye Chen hadn't been abroad much, just a while ago, because of the matter of Suhang Beggars, he went to the border of two provinces, as for Yanjing, even more so, he hadn't gone back since he left back then.

At this time, Ye Chen came up with the excuse of reading feng shui again and said with a smile, "Someone introduced me to a job reading feng shui and went to Yanjing to check the feng shui of a rich family's new villa."

When Ma Lan heard this, she asked with an excited face, "Good son-in-law, a big family in Yanjing should pay quite a bit of money, right?"

Ye Chen nodded and said indifferently, "It says over there that if we go, we'll give five million, and if the feng shui looks good, we'll give another three million, for a total of eight million."

"Oh my god!" Ma Lan was overjoyed and said, "A trip to Yanjing and you can earn eight million? You're really something, son-in-law! Mom used to be really awkward, why didn't she see that you were so capable?"

Xiao Changkun gave her a blank look and coldly snorted, "You're a person who has always been above the fray, you used to look down on people Ye Chen in various ways, now you know, right? Even if Ye Chen doesn't have any family background, people can get to the top of their lives with their own hands!"

Ma Lan got anxious and scolded, "Don't you fart! Am I the only one who's ever been above the fray? 3 years before Yeh Chen and Chorán got married, you didn't seem to like her either, right? Why do you have the nerve to say I'm here now?"

Xiao Changkun's expression was a little embarrassed, and he fidgeted and said, "I I I at least realized it earlier than you!"

Ma Lan snorted, "Ninety-nine steps and a hundred laughs, you're really good at it too!"

"You you stop farting!" Xiao Changkun blushed and refuted, "You're the one who's farting! If you take a hundred steps, I'll take fifty at the most!"

Xiao Churan helplessly said, "Okay, okay, okay, how can you two argue about anything!"

Xiao Changkun trailed off, gave Ma Lan a glance and said, "Emotionally broken! Broken is certainly a good place to make a noise about anything."

Ma Lan slapped the table, "Xiao Changkun, it's not over, is it?"

Xiao Changkun shrank his neck, "Hmph, I'm not going to get along with you."

Xiao Chorán sighed and looked at Ye Chen, asking seriously, "Did you promise the other party about Yanjing?"

"Promise." Ye Chen smiled, "I'll go there in the next two days, but don't worry, it won't be long, I'll be back in a few days at most."

1479

Xiao Churan did not question Ye Chen's words.

In her impression, it was because Ye Chen could read feng shui that he gradually got to know many big people in Jinling.

In his heart, Ye Chen reading feng shui also did help the family a lot. Ye Chen Xiao Chorán Full Text Free Read 4545734

Otherwise, the family wouldn't be able to afford such a nice villa and live such a privileged life now.

In the past, Xiao Churan was worried that Ye Chen's feng shui reading was fooling people and was afraid that Ye Chen would explode into thunder one day.

But as time went on, she discovered that none of the big names that Ye Chen knew from Feng Shui seemed to have turned against him.

This was proof that Ye Chen should have real talent in reading Feng Shui, so she didn't have to worry too much.

So, she then softly instructed, "Yanjing is not Jinling, there are hidden dragons and tigers there, there are many very powerful people, if you go to Yanjing, don't do whatever you want like before in Jinling, especially don't start a conflict with others, we are just going to do something, come back as soon as you're done."

Ye Chen hurriedly nodded and said, "Okay wife, I know, don't worry, I definitely won't start any conflict with anyone, I'll come back immediately after I'm busy with the feng shui matter."

Xiao Churan nodded, "Okay, you should pay more attention to yourself."

Ye Chen thought, after he returned from Yanjing, he should have to go to Japan, saying that he had to get his hands on Kobayashi Pharmaceutical so that he could also speed up the production of Jiu Xuan Stomach Dispersion.

Moreover, there would be sufficient production capacity by then, and he could also prepare the trial production of the liver protection tablets.

Thus, he simply gave Xiao Churan a precautionary shot in advance and said, "Right Churan, after I return from Yanjing, I might have to go to Japan again."

"Go to Japan?" The three members of Xiao Chorán's family were all very surprised.

Xiao Chorán asked off the cuff, "No way? Do people in Japan also hire you to read feng shui?"

Ye Chen smiled, "Do you remember Wei Liang from Wei's Pharmaceuticals?"

Xiao Chu Ran nodded, "Remember, didn't you also show him feng shui?"

"Right." Ye Chen said, "His Jiu Xuan Pharmaceutical, next wants to acquire a Japanese pharmaceutical company, so he wants me to go to Japan to help him see if the feng shui of the company there is unified with that of his head office."

Xiao Chorán was confused and asked, "Is there so much more to feng shui?"

Ye Chen hmmm, "Wife ah, you don't know, there are a lot of things to talk about in feng shui, if the feng shui of his head office is fire, and the company over there in Japan that he wants to acquire is gold, then fire can grasp gold, he will naturally be able to have smooth sailing after the acquisition is completed."

"However, if the company over there in Japan is water, then water governs fire, not only will he not be able to take it to the next level after the acquisition is completed, he will probably even be influenced by it over there to the extent that the entire company will go downhill, so he wants me to go over there to help him take a good look at it, and if there are any hidden problems in feng shui, I will then directly help him over there in Japan to change the feng shui bureau."

Xiao Changkún was enthralled and said excitedly: "Oh, good son-in-law, say more, say more, I am listening to you, say more, so I can brag to others later!"

On the other hand, Ma Lan was very happy and asked, "Good son-in-law, if you're invited to go to Yanjing and pay eight million, wouldn't it be tens of millions to go to Japan?"

Ye Chen smiled slightly, "Pretty much."

"Ouch!" Ma Lan applauded happily, "Good son-in-law, good son-in-law! The speed at which you make money is no different than running a money printing machine! Why didn't you learn the skill of reading feng shui earlier, then our family wouldn't have had to be looked down upon in every way these past few years, don't you think?"

Xiao Changkún said in a serious manner, "You don't know shit, it's called a good meal without fear of being late!"

Ma Lan exploded: "Xiao Changkún, you're sick today, aren't you? Why do you have to dislike me no matter what I say? I'll give you a face when the time comes, won't I?"

Xiao Changkún was a bit of a mouthful, always looking for a chance to squeeze Ma Lan, but if Ma Lan really launched into a ruthless rage, he was no match at all.

It was still Ye Chen who came out to smooth things over: "Mom and Dad, you two should stop always quarreling and bickering, it's still a family after all, don't make such an unpleasant scene."

Ma Lan said to Xiao Changkún, "For the sake of my good son-in-law's face, I won't get along with you!"

After dinner, Xiao Changkún was watching TV in the living room, Ma Lan was cleaning up in the kitchen, Xiao Chorán said to Ye Chen, "Hubby, I'm a bit tired today, go up and take a bath first to relieve my fatigue."

Ye Chen nodded and said, "Honey, you fill the bathtub with water and put some bath salts in it, take a good bath."

"Okay, then I'll go up first."

As soon as Xiao Choran's side went upstairs, Richard Chen called Ye Chen and said, "Young Master, the dozen or so experts that Kobayashi Jiro gathered from Japan have already left."

"Oh?" Ye Chen hurriedly asked, "Where are they starting from? Where did it go?"

Richard Chen said, "They all left from the Jinling International Hotel and headed to Jiu Xuan Pharmaceutical, recently Wei Liang has been working at Jiu Xuan Pharmaceutical until late every day, I suspect that they want to kidnap Wei Liang."

Ye Chen asked, "How are your people preparing for this?"

Chen Zekai said, "My men have all been arranged out, a total of more than fifty people, all with guns, this group of experts from Japan are unarmed, not enough to be feared, in addition, Hongwu has also sent more than a hundred people, ambushed in Jiu Xuan Pharmaceutical and along the way, this time to ensure that this group of Japanese have no return!"

Ye Chen asked again, "Where is Kobayashi Jiro? Where is he?"

Richard Chen said, "Kobayashi Jiro has also departed, I guess he wants to personally take on Wei Liang this time."

Ye Chen then said, "Good, you send me a location, I'll rush there now as well."

Richard Chen said, "Young Master, I happen to have a foreign bus disguised on my side, so I can avoid exposure, how about I pick you up by the way?"

Ye Chen mmed, "Then come over as soon as possible."

A few minutes later, Richard Chen told Ye Chen on WeChat that he had arrived at the door of Tang Chen Yi.

Ye Chen hurriedly got up and said to the old father-in-law, "Dad, I have something to go out."

The old father-in-law smiled, "Using the car? I'll give you the keys?"

Ye Chen waved his hand, "No dad."

After saying that, he stepped out of the door.

At this time, a luxury bus with more than forty seats was parked at the entrance of Thomson One.

The bus was a Suhang license plate, and the words "Suhang to Jinling" were written on the front of the huge windshield.

Ye Chen will smile, it seems that this Richard Chen really has some tactics.

If you are a Kobayashi Jiro and set up an ambush on Wei Liang's way home, in addition to Wei Liang's own vehicle, you will certainly also pay attention to the other cars coming and going, because Wei Liang may have bodyguards to protect you.

However, one would never pay attention to a bus with a foreign license plate.

If you see such a long-distance bus with a foreign license plate in the process of setting up an ambush, you will definitely only treat it as a passing car.

This would definitely catch Kobayashi Jiro by surprise when the time came!
