

Identity 1681

Chapter 1681

Tanaka Koichi didn't expect that the eldest sister's voice would suddenly become incomparably excited after hearing the news of Ye Chen's arrival in Japan.

He couldn't help but wonder, "Did I not say what I just said clearly enough? This Ye Chen, he owes your father 4.5 billion dollars! Why do you seem as if you were excited at the news of his coming to Japan?"

However, Tanaka Koichi naturally didn't dare to ask this question.

At this time, when Ito Nana-chan saw that he didn't respond, she hurriedly asked him again, "Tanaka-san, you have to answer me! Ye Chenjun really came to Japan?"

Tanaka Koichi could only honestly say "Yes my lady, he came to Japan, in Tokyo, I saw him today."

Ito Nana-chan followed up "He came to Japan to receive Kobayashi Pharmaceutical?"

"I guess so." Tanaka Koichi answered truthfully "I'm not sure about the situation too specifically, but it should be to receive Kobayashi Pharmaceuticals."

Ito Nanaiko had some regret in her heart and thought "Ye Tatsuo-kun came to Japan only to receive Kobayashi Pharmaceutical, then he should only stay in Tokyo for a few days, after the business is finished, I'm afraid he will have to return to China, right? He definitely won't be coming to the capital, so I definitely won't get to see him either"

Thinking of this, a very strong thought suddenly came to Ito's mind, she wanted to go to Tokyo, she wanted to see Yatsuo!

So she hurriedly asked Tanaka Koichi "Tanaka-san, do you know how many days Yatsuo-kun will stay in Tokyo?"

Koichi Tanaka said awkwardly, "My lady, I'm not sure about that."

Itachi was busy, "I'll have Watanabe san get ready and take the bus back to Tokyo in the morning."

"Back to Tokyo?" Tanaka Koichi asked, "My lady, haven't you always wanted to recuperate in Kyoto? Why do you suddenly want to come back at this time? Could it be for Mr. Ye?"

"Right!" Without thinking, Itachi said offhandedly, "I want to meet Yatsuo-kun, but if I don't go back, I'm afraid I won't get the chance!"

Tanaka Koichi realized at once that something didn't seem right.

He couldn't help but mull it over in his mind

"Eldest Miss has always been incredibly reserved, never messing up because of any opposite sex."

"But now, she's so excited at the news of Ye Chen's arrival in Tokyo that she's even planning to return to Tokyo tomorrow morning to meet Ye Chen, which is just too abnormal."

"Is it,"

"Has Missy already fallen in love with Ye Chen?!"

Tanaka Hao's entire body had been shocked at the thought, he surmised "Miss has always admired martial arts experts with superior strength, and Ye Chen is a master among masters, his strength is jaw-droppingly powerful, it makes sense if Miss is really smitten with him."

"But Lord Chairman is a thorough nationalist, he has already made it clear that in the future, when Missy gets married, she must not marry a man from any country other than Japan, if Missy really likes Ye Chen and Lord Chairman knows about it, he will be shocked and angry!"

At that thought, Tanaka Koichi hurriedly said, "My lady, you mustn't do anything!"

Ito Nabiki was surprised and asked "Why? Tanaka-san?"

Tanaka Koichi blurted out, "If Chairman-sama knew that you were in love with Mr. Ye, he would be extremely angry, and then not only would you not be able to see Mr. Ye, but you would probably even be grounded by Chairman-sama, and I'm afraid that Chairman-sama would speed up your marriage plans as a result!"

1682

Itachi and Tanaka blushed instantly at his words, despite being separated by the phone..s.

She fidgeted and explained, "Tanaka-san you misunderstood, I I didn't and don't have a crush on Mr. Ye"

Tanaka Koichi sighed "My lady, I have served the Ito family for many years and have followed you for a long time, I still know you very well, you don't have to hide anything from me, and I am not trying to pry into your privacy, the point is, if I can see what you are thinking, Lord Chairman's discerning eyes are even more impossible to hide, and then I am afraid that you won't see Mr. Ye and instead divulge your thoughts in front of Lord Chairman"

"This" Itachi was speechless all of a sudden.

She knew that Koichi Tanaka had warned her entirely out of the goodness of his heart.

She also knew that her father, Yuuhiko Ito, would never allow himself to develop any possibility of a relationship with a foreign man, and he had already made it clear to himself countless times that he could only accept her future marriage to a Japanese man of pure Japanese descent.

As for the rest, even the immigrants who came from China and the Korean Peninsula a hundred or two hundred years ago and have been living in Japan for three or four generations, in his eyes, they are not pure Japanese.

Like Sun Masayoshi, the chairman of the SoftBank Group who invested in Alibaba, although he is the richest man in Japan in the open, in the eyes of Yukihiro Ito, he is not Japanese at all.

The reason is that Sun's grandfather's generation was originally from Daegu, Korea.

Many years ago, he immigrated from Daegu, Korea to Japan to work as a miner, and Masayoshi Sun himself was born and raised in Japan.

In most people's eyes, he was already a standard Japanese man.

However, to nationalists like Yukihiko Ito, Masayoshi Sun is Korean-Japanese at best.

It was like Americans, looking at Chinese Americans, even though Chinese Americans had American citizenship, they were still seen as Chinese by some Americans.

It's because Itochi knows her father very well that she is reeling from her hasty decision.

Koichi Tanaka was right, if she suddenly had to return to Tokyo and was adamant about meeting Yatsuhito, Yuuhiko Ito would be furious and might even ground Ito Nachiko, or even interfere with her freedom of marriage, directly find her a marriage partner, and force her to marry.

Thinking of this, Ito Naija-chan's heart was incomparably lost, she mumbled "Thank you Tanaka-san, I understand"

Koichi Tanaka hurriedly followed up with "My lady, so are you going back to Tokyo tomorrow?"

Ito Cai-chan bit her lower lip lightly, and was silent for a long time before she spoke somewhat sadly, "It's better not to go back, so as not to cause a rampage, in case we cause trouble for Mr. Ye Tatsu-kun again."

Tanaka Koichi let out a sigh of relief and said "My lady is wise, right now the chairman is very angry with Mr. Ye, if it wasn't for the fact that he still has to take into account the cooperation of the Su family at the moment, the chairman is afraid that he would have already tried to do something about Mr. Ye, if you come to Tokyo to see Mr. Ye at this time, it will definitely add fuel to the fire"

Itachi Nabiki said softly, full of frustration "I see Tanaka-san, also, can I ask you for one thing?"

Tanaka Hiroshi was busy, "If you need anything, you can tell me!"

Itachi Nao "If the conflict between father-sama and Ye Tatsun-kun intensifies, please make sure Tanaka-san stops father-sama from doing anything to hurt Ye Tatsun-kun because of a momentary rush"

Tanaka Koichi said awkwardly, "My lady, to tell you the truth, Mr. Ye is now relying on the Chairman-sama for 4.5 billion dollars, even if you like him, you can't turn your elbow outward!"

Ito Cabbage was incomparably serious "I am not trying to protect Ye Tatsunjun, but to protect my father-sama, the Ito family is no match for Ye Tatsunjun, if we offend Ye Tatsunjun, I fear doom."

1683

It was clear to Ito Cabbage's heart that Ye Chen's strength was far beyond his own knowledge .. org

Master Yamamoto Kazuki had stated after his injury that the palm that Ye Chen had crippled him with was never just brute force, but with what was called internal strength in Chinese martial arts, and it was this internal strength that had truly destroyed his veins and tendons.

Yamamoto Kazuki had also come into contact with some ninjutsu experts, and although his actual fighting ability was quite a bit inferior to that of a ninjutsu expert, he was at least able to go through a few moves under the ninjutsu expert's hands, unlike in front of Ye Chen, who was completely defenseless.

From this, it could be seen that Ye Chen's strength was even far above that of a Japanese ninjutsu expert.

It was only after recognizing this that Ito Naozi clearly knew that neither her father nor the Ito family might be a match for Ye Chen.

However, Ito Yuuhiko was not aware of this level.

He just felt that Yatsuo was just a little stronger than Yamamoto Kazuki and a little stronger than his two personal bodyguards, but if he was to really compare with the ninjutsu experts, Yatsuo must be a few points inferior.

Once Tanaka Hiroshi listened to Itachi's words, his entire body was in awe, and he was busy saying, "My lady, I understand what you mean, please don't worry, if the chairman-sama clashes with Mr. Ye, I will definitely try to persuade him!"

Ito Naija mmm, a light sigh, said "Okay Tanaka San, that's it, just let me know if there is anything in time."

Tanaka Hao freezhu a busy "Okay Missy, then I will not disturb your rest!"

After hanging up the phone, Itoh Cabbage held the phone in both hands and looked up at the sky, her heart despondent.

During this time, she missed Ye Chen every day and night, hoping to meet him again, and at the same time, she felt in her heart that the chances of seeing him again were very slim.

But she never expected that Ye Chen would come to Japan!

Before, Ye Chen was separated from her by the sea, and she was on this side of the sea and Ye Chen was on the other side of the sea.

Now, Ye Chen and her were on the same piece of land, no more than four hundred kilometers apart, and if they drove, they could arrive in four or five hours; if they took the Shinkansen, they would be there in just over two hours.

When she thought of the yearning Ye Chen, who was no more than a few hours' drive away from her, Ito Naija really wanted to see him in her heart.

However, thinking again that she was now immobile and meeting him in Tokyo would inevitably be known to her father, she could only reluctantly give up on the idea.

At this time, the dense dark clouds in the sky, at some point quietly dispersed, one star after another gradually revealed from the clouds.

Itachi sighed and said to herself, "Looks like there won't be any snow tonight."

With that, she put away her phone, took control of her wheelchair with both hands, and left the deserted courtyard to go back to her room.

With the help of her maid, Itachi soaked in the hot spring for a while.

nia her physical pains were still very severe, and she suffered from them almost 24 hours a day, all the time.

Originally, the doctor recommended that she wear a pain pump, which is a device that automatically and uniformly infuses fluids and constantly pushes painkillers into her veins.

Usually, people who have suffered serious injuries, or who have just undergone surgery, wear pain pumps, which can relieve pain to a great extent.

But Itachi has been reluctant to use it.

That was because the painkillers would cause some damage to her nerves, and once the painkillers had been in place for a long time, it would be even harder for her to heal in the future, and she would probably be an invalid who could no longer practice martial arts.

That's why she kept gritting her teeth and relied on her strong willpower to fight the physical pain.

The natural hot springs in the mansion, taken from the eye of the hot spring underground, were rich in minerals as well as rich in selenium, which was very beneficial to the body and could relieve body pain to some extent.

However, because her body still carried injuries, she couldn't soak in the hot springs for long periods of time, not more than an hour a day at most, so the happiest time of the day for cfsnake Itoh was the time spent soaking in the hot springs.

Soaking her body in the hot spring, cfsnake Ito couldn't help but think of Ye Chen again.

She remembered the time when she went to the villa area where Ye Chen's family lived to look for him with the shyness of a young girl.

1684

At that time, she was nervous in front of Ye Chen like a little quail..taiwanvod.

When at a loss for words, handed the cup of milk tea in her hand to Yechen, and also lied that it was to buy him a drink, but did not expect that he actually took a sip of the milk tea.

hunanv And just before Yeh Chen drank it, Itoh Naija had just used that straw, and that kind of indirect kissing was the most ambiguous thing Itoh Naija had ever done with a man since she had grown up.

It was also that indirect kissing that made Itoh Cabbage keep reminiscing to this day.

Thinking of Ye Chen's appearance, she subconsciously lifted her slender and slender fingers, and on the surface of the water, she wrote down the traditional Chinese characters for Ye Chen.

The surface of the water rippled with a gentle water ripple, but was unable to retain any of the strokes she had written.

It was precisely such fleeting traces that allowed Ito-chan to feel confident and bold, writing Ye Chen's name, over and over again, on the surface of the water, and then leaving no trace of it.

This night, Itoh Cabbage couldn't sleep for a long time.

That night, the skies of Kyoto gradually cleared.

The heavy snowfall forecast by the weather department did not come.

The early morning weather forecast said that the heavy snow that was expected to fall last night was estimated to be two to three days later than originally planned because of the air currents.

The snow was postponed, and Itachi was somewhat sorry.

She always felt that it was a sign of the weather.

Thinking back to Ye Chen who was only a few hundred kilometers away from her and yet she was unable to make it to meet him, a listless thought suddenly came to her mind

Perhaps, he was just destined to be with Ye Chen!

The next day, Jinling.

The site workers feverishly began to play packing boxes, he will be on the side urged "all herbs in the box before, must be manually checked to ensure that the herbs are not installed wrong, without any deterioration and damage, but also to ensure that the amount of herbs are sufficient, all understand?".

"Understood Mr. Qin!"

A group of employees hurriedly responded.

Only then did Qin Gang nodded in satisfaction and continued, "By this afternoon, be sure to have the first batch of drugs ready and sent to the airport, I've already contacted the air cargo company to take off at ten o'clock tonight and deliver the goods to Tokyo!"

At the same time, at the Su Family Residence in Yanjing.

The Su family's old man held a daily morning meeting in the main hall of the mansion for twenty years as one day.

This morning meeting was like the ancient emperor's morning court, in which the Su family's sons would report to the old master on the progress of all business in the daily morning meeting.

The Su family's sons and daughters had to report the progress of their business to the old man in the morning meeting. The old man's orders would also be announced in the morning meeting.

The Su family was prosperous, and the many sons and daughters and relatives who attended the morning meeting added up to more than thirty people.

The rules at the morning meeting were also very strict, and the old man's sitting collapse, on a half-meter high dais, facing the crowd, was very dignified.

The children, grandchildren, and foreign relatives, on the other hand, sit down in several rows according to their identities and generations.

The first thing you need to do is to take a look at the newest addition to the list, which will be the first thing you need to do, and you'll be able to see the newest addition to the list. It's going to have to be pushed a little faster!"

1685

The Su family is a large family that was born in Huizhou, but has been standing in Yanjing for a hundred years..boyaec.

During the Qing Dynasty, when the Taiping Heavenly Kingdom movement swept across China, the Su family followed Hu Xueyan, a red-roofed merchant, and risked their lives to deliver arms and grain for the Qing army, which was appreciated by the Qing government.

The Su family moved from their home in Huizhou to Yanjing with a strong family fortune, and since then, the family has been in the forefront of the business community for generations.

In the previous decades, the Su family was competing with the Ye family, originally under the sniping of Ye Chen's father, Ye Changya, had been slightly exhausted, but after Ye Changya's untimely death, the Su family immediately stepped on the Ye family head-on and became the country's number one.

The Su family's old man, the great name Su Chengfeng, was named after Su Shi's famous piece on the Westwood wall.

As the saying goes

There are different heights from far and near, and different peaks from side to side.

I don't know the real face of Lushan Mountain, but I am here in the mountain.

This is where Su Chengfeng got his name.

Su Chengfeng is seventy-six this year, not very old, but he is no longer in his prime either.

By all accounts, he had already achieved great success in his life, but he was still dissatisfied.

He hoped to lay a solid foundation for the Su family before he retired, at the very least, to realize the long-cherished dream of "1 is greater than 23".

Since ancient times, no one in the field of business can truly achieve a single family.

The real meaning of the so-called 1 greater than 23, refers to the first-ranked family, the comprehensive strength is greater than the second-ranked family, and the sum of the third-ranked family.

To be more specific, it was also equivalent to the fact that the combined strength of the Su family was greater than the combined strength of the Ye family and the Gu family.

This way, even if the second and third ranked ones were to join forces against themselves, they wouldn't have to worry.

Only in this way, the Su family could truly be able to rest easy.

Now, the gap between the Su family and the Ye family is indeed getting bigger and bigger, but if you want to truly achieve 1 over 23, you still need at least a few hundred billion in assets.

Therefore, the Su family was now actively seeking a breakthrough overseas, hoping to achieve this ambitious goal in one fell swoop.

Once this goal is achieved, there will no longer be the concept of three big families in Yanjing, and instead, the Su family will be replaced by a new pattern of defying all the big families.

Therefore, Su Chengfeng attached great importance to this shipping business.

Hearing that the old man incomparably attached importance to ocean shipping, a son of the Su family, could not help but show off in front of the old man Su said "grandfather, Sun'er feels that now the development of the world economy have encountered considerable resistance, the import and export trade of all countries have a great contraction, still do not know when foreign trade will be able to face recovery, this situation, rashly bet on ocean shipping, in fact, the risk is still very large, it is very likely to bottom copy in the middle of the mountains, so Sun'er advised you to think twice before acting".

"Sanshi" Su Chengfeng snorted and ignored him, but looked to the middle-aged man beside him and snapped harshly "Old Fifth, you are such a disciplinarian son's hair is not even long, and you dare to question my decisions here, really think that I am Lian Po old, still able to eat?"

The one who was called Old Five was Su Shouxin, the fifth son of Master Su.

The Su family had five sons and two daughters in this generation.

These seven children, the middle character of their names is the guardian "Shou", and the seven characters behind, from the largest to the smallest, are Dao, Virtue, Benevolence, Righteousness, Ritual, Wisdom, and Faith.

These seven characters are the seven realms of morality that Lao Tzu said in the Tao Te Ching.

Su Shouxin was the fifth son of Master Su, and the last of the seven children.

The young man who spoke just now was Su Shouli's youngest son, Su Zhiyuan.

Su Zhiyuan was just eighteen years old this year, and was considered an academic genius, having already entered Harvard University on his own last year.

1686

Because of his young age and the fact that he has always been favored at home, Su Zhiyuan's desire to express himself is very strong..999wenxue.

However, he used to perform in front of his own parents, not much opportunity to perform in front of his grandfather, today he finally grasped the opportunity to debate with the old man on his thoughts, as well as to show his extraordinary talent and wisdom, but he did not expect that just one sentence, and it angered Su's old man.

The company has been in the process of developing the new product for the past few years, and has been working hard to develop the new product.How dare you question your grandfather's decision here?!"

"I "Su Zhiyuan covered his face, his whole body aggrieved and hated to die here.

Having never been beaten since he grew up, he simply couldn't understand why, after angering his grandfather with one sentence, his father, who had always spoiled himself, would want to whip himself to death like this.

And that's in front of the entire family.

Su Shouxin is now hating this unproductive son!

He was well aware of the old master's pressure, even his own big brother, Su Shou Dao, wouldn't dare to contradict the old master, let alone his own untalented young son.

That's not how you get to be famous!

It's highly likely that with this one sentence, he'll be completely put in the cold by the old man in the future, and won't even have the chance to return to work in the Su family after he graduates from college!

The reason why Master Su Chengfeng was so tyrannical and authoritarian had a great deal to do with his upbringing.

When he was young, he had many brothers.

It was still during the Qing Dynasty, and not only did his father have a full house, he also married six aunts and seven wives, giving him over thirty children, of which there were as many as twenty-three sons alone!

Su Chengfeng, however, was only one of these twenty-three sons.

Just like an ancient prince seizing the throne, Su Chengfeng had been fighting openly and secretly with his twenty-two brothers for fifty years since he was a child before he finally inherited the Su family's headship.

Therefore, fifty years of constant fighting had made his temperament extremely domineering and ruthless.

If anyone threatened his authority, even if it was his own son or grandson, he would never tolerate it.

Su Zhiyuan was young and ignorant, and with the aura of a genius, daring to contradict Master Su in search of existence, an action that was no different from seeking death in everyone's eyes!

Su Shouxin slapped Su Zhiyuan dozens of times in a row, smacking him so hard that his entire body could barely stand up to faint, only then did Master Su snort and say, "Okay, stop fighting, have someone take him out, let's continue the meeting!"

Su Shouxin had already drawn his heart to the point that it was dripping blood, but the old man didn't speak, he simply didn't dare to stop.

Seeing that the old master finally spoke, he only closed his hand, forcing down his heartache, and snapped at the servant standing next to him, "Don't hurry up and pull this unfilial son out!"

Several servants immediately went forward and dragged Su Zhiyuan, who was spitting blood and dizzy and ringing in the ears, out.

Only then did Master Su clear his throat and continued, "This cooperation with the Japanese, not only should we take over at least 20 percent of the operating rights of Tokyo, Yokohama and Osaka ports, but also let them provide at least three million tons of displacement of all kinds of cargo ships and oil tankers, whoever can put out the most resources will have a chance to become one of us, so this time, going to Japan, we mustWe must examine the true strength of the Ito and Takahashi families, and in addition, we must force them to put up the most resources!"

The eldest son, Su Shou Dao, took off, "Father, I wonder who you plan to have work with these two Japanese families this time?"

Master Su was silent for a moment and spoke, "Zhi Fei, you are the eldest son and grandson, it's time for you to take the lead on your own, so let's let you take the lead on this one!"

Su Zhi Fei, the eldest grandson of Master Su and the eldest son of Su Shou Dao, was twenty-eight years old, and was the most outstanding male heir of the Su family's generation.

As soon as he heard that he had been chosen, Su Zhi Fei immediately stood up and said firmly, "Please don't worry grandpa, Zhi Fei will do his best!"

Master Su nodded gently, and his gaze fell back on the stunningly beautiful girl with full coldness beside Su Zhi Fei.

It was also at this moment that the old master's gaze was finally not so hard, replaced by a few dotting eyes, and said with a smile, "Zhifei, you will soon graduate from Yale, it's time to go out and exercise, this time you should go with your brother, learn more, see more, and gain some experience!"

That gorgeous and cold girl stood up and bowed slightly, her expression not cold, her eyes not warm, and her tone not salty, and said, "Okay grandpa, know fish knows."

1687

When the old man announced that Su Zhi Fei and Su Zhi Yu siblings went to Japan together, their father Su Shou Dao's expression surfaced with a few proud colors..zhulang.me

In his opinion, the fact that the old master had entrusted such an important matter to his own pair of sons and daughters was proof that he, as the eldest son, was the most trusted by the old master.

The other sons and daughters were each envious and jealous.

The old master wanted to exercise Su Zhi Fei, this point is no one's opinion, after all, he Su Zhi Fei is the eldest son and the eldest grandson, if put in ancient times, this is the standard imperial prince, no matter how strong the other princes are, they will have to bow their heads when they see the eldest son and the eldest grandson.

But to have Su Zhi Fei go for a workout and incidentally bring Su Zhi Yu with him, that would really be a bit eccentric and excessive!

Under normal circumstances, when encountering something like this, one should let the eldest son and eldest grandson take the lead, and then from the second, third, fourth or even fifth family, choose one or two sensible and capable juniors with cultivation value, and let them go out to see the world along with the eldest son and eldest grandson.

However, the old man's eyes were filled with nothing but his eldest grandson and the one he doted on the most, his eldest granddaughter!

In other words, it was tantamount to the old man stating his position that all the other grandchildren, except for his eldest grandson, were in his eyes of lesser status than Su Zhiyu, a woman!

This could make a few other families feel bad.

Everyone in Yanjing knew that the Su family was thriving.

The old master had twenty-two brothers and a dozen sisters back then, and in his line, he still had thirteen grandchildren as well as two granddaughters.

But who would have expected that, in his eyes, the most favored was Su Zhiyu, the eldest granddaughter.

The reason, in fact, is because the old man's requirements and management of the family's male heirs has always been harsh, so with his sons and grandsons, he has always had a black face.

The first thing you need to do is to take a look at the newest addition to your family, the newest addition to your family.

The company has been in the process of developing the new product for the past two years, and is now in the process of developing the new product for the next two decades.

In fact, the extent of the old man's spoiling of Su Zhiyu could be seen from Su Zhiyu's name.

The junior of the Su family, the generation character is the word for know.

Su Zhi Fei's name is used to mean knowing right from wrong and not taking detours.

In addition, there is Su Zhiyuan, which means to drink water to know its source.

Su Zhi En, which means to know and repay kindness.

Every grandchild's name can be said to be full of Master Su's admonitions and warnings to his grandchildren.

Only Su Zhiyu.

The old master gave her this name, which means the pleasure of knowing fish.

In Zhuangzi's Autumn Water, there is a dialogue between Huizi and Zhuangzi, in which Huizi said, "If the son is not a fish, then An knows the joy of the fish.

The Master named her Su Zhiyu because he wanted her to be happy, joyful, simple and blissful, and since he could know the happiness of the fish, he could also know the happiness of people.

1688

It can be said that the incomparable doting of Su Zhiyu by Master Su is evident everywhere..aisuren.

And because of this, the entire Yanjing's young talent was filled with desire for Su Zhiyu.

To take care of Su Zhiyu is not only to take care of a cold and beautiful super beauty, a super student who stays in the United States all year round and receives the world's top high-end education, but also to take care of the entire Su family.

Some people joked that whoever married Su Zhiyu could potentially obtain a huge fortune of up to trillions of dollars.

Therefore, Su Zhiyu still had a verbal nickname among the large family groups in the country, the name was simple and crude, it was called Su Trillion.

After the old man Su Chengfeng announced his decision, he said to his eldest son Su Shou Dao, "Shou Dao, you, Zhi Fei and Zhi Yu grabbed the time to discuss a rough plan, and then you grabbed the time to prepare for the departure, the faster the better."

Su Shou Dao immediately stood up and respectfully said "Father don't worry, I will discuss a plan with the two of them as soon as possible, and try to leave for Japan tonight!"

Su Chengfeng nodded and instructed "But whenever this kind of two-choice thing, who we contact first is particularly important, Ito family and Takahashi family over the years, although somewhat down because of the overall economic recession in Japan, but the overall strength in Japan is still maintained in the top, you have to carefully decide which one to contact first."

Su Shou Dao immediately said, "Okay father, we will start discussing immediately and report to you with the results first thing."

Su Chengfeng smiled in satisfaction and said "Shou Dao, eighteen years ago, you won over Ye Changshang and became the most dazzling one among the Yanjing young generation, but in these eighteen years, you failed to create a greater glory, of course, it's not your fault, it's our Su family that we haven't met any more decent opponents in the country in these years."

At this point, Su Chengfeng sneered and stood up, impassioned, "There's no room for incremental growth in the domestic market anymore, if we want to continue to grow and expand, we must go abroad, to the ocean!"

"Otherwise, the old Western families, including the Rothschilds, would still pop up every now and then to disgust and disgust us!"

"Therefore, this ocean strategy is a good opportunity for the Su family to create a new glory, and a good stage for you to lay a higher achievement!"

"If this battle is fought beautifully, I will be considered complete and can retire to enjoy my family life, and at that time, you will be the head of the Su family!"

As soon as Su Shou Dao heard this, he immediately bowed deeply and shouted, "Don't worry father, Shou Dao will do his best! Create a new glory for the Su family!"

After the meeting was over, Su Shou Dao returned to his residence with a pair of sons and daughters with a great deal of excitement.

As soon as he got home, he called his children to his room and said with high morale, "Zhi Fei and Zhi Yue, this is a good opportunity for our family to create a new glory in the Su family, you two must get the best terms of cooperation. The benefits!"

Su Zhi Fei immediately said, "Dad, should we contact the Ito family or the Takahashi family first on this trip to Japan?"

So Shoudao asked "What do you think?"

Su Zhi Fei said "I think it's best to contact the Ito family first, because the Ito family is strong in both Tokyo and Kyoto, Tokyo has the port of Tokyo, and near Kyoto are the ports of Osaka and Nagoya, in theory, the Ito family has more potential in the field of ports and shipping."

"Hmm" Su Shoudao nodded lightly and said approvingly "Your point of view makes sense, and I'm inclined to contact the Ito family first."

Su Zhiyu frowned and said in a nonchalant tone "Father, brother, I do think that we should contact the Takahashi family first."

"Oh?" They looked at Su Zhiyu and Su Shoudao opened his mouth to ask "Zhiyu, why do you see it that way?"

1689

In response to his father's and brother's questions, Suchiyo replied calmly, "First of all, although the Ito family has strong resources in Tokyo and good power in Osaka and Nagoya, the real super seaport in Japan is actually the port of Yokohama next to Tokyo..twvod."

"While the Takahashi family is slightly less powerful than the Ito family in Tokyo, they are very strong in Yokohama, and it can be said that Yokohama is the Takahashi family's home base."

"Secondly, the Ito family is more or less in trouble right now, Yuuhiko Ito's daughter, who was seriously injured in an international scrimmage tournament in Jinling some time ago, is currently convalescing, Yuuhiko Ito himself dotes on this daughter, and her health condition will more or less distract him, once this person's energy is not 100% focused on his work, it will have an impact on our cooperation!, even if that impact is only 1, it's still a real impact."

Su Shoudao frowned, "Yuuhiko Ito's daughter is injured? I've never heard of this before."

Su Zhiyu said indifferently, "I had someone fully investigate these two families before, including their family heirs."

Big brother Su Zhi Fei couldn't help but give a thumbs up, "Zhi Fish, you're still the most thorough in your consideration!"

Su Zhiyu said in an ancient manner, "Brother, don't flatter me here, it's you who will be the one to stand alone in the future, I'm just helping you think about it a little more for now."

Su Zhi Fei smiled and said [Pencil Fiction www.qbxs.xyz]: "Having such a good sister, I can really save my mind in the future!"

Su ZhiFei gave him a blank look and said, "There's another thing, I found out that the Ito family was previously bent on investing in a Japanese pharmaceutical company called Kobayashi Pharmaceutical, this matter will also distract him to some extent."

Su Zhi Fei nodded, "I know that company, well Kobayashi Stomach Disperse, I used it before, the effect was really good and powerful."

"That was before." Su Zhi Fei faintly said, "Now, there is a Jiu Xuan Stomach Dispersion in China, it has surpassed them in terms of production strength."

"Oh," Su Zhi Fei smiled, "I have a feeling that that Jiu Xuan Pharmaceutical should soon rise up in a different way, first catching up with Kobayashi Pharmaceutical and eventually catching up head on."

At this point, Su Zhi Fei seriously suggested again, "If possible, I do think that investing in Jiu Xuan Pharmaceutical now is a good opportunity, and I might be able to have a return on investment of more than ten times in a few years."

Su Shoudao waved his hand and said, "A pharmaceutical company that makes even bigger is only 100 billion level remarkable, the significance is not very great, let's focus on the larger market and opportunities, this ocean project is the key to the Su family's internationalization."

Su Zhiyu wanted to say something, but swallowed back as the words came to his mouth, nodded and said, "Let's get back to business, dad, what do you think, which one should we contact first? I still think it's better for the Takahashi family as a whole, with Yuuhiko Ito's internal and external problems, and other things pulling on his energy."

Su Shou Dao looked at Su Zhi Fei and asked, "What do you think, Zhi Fei?"

Su Zhi Fei immediately spoke up, "I think it's better to listen to Zhi Fish's advice to eat a full meal, after all, those who have an investigation have the right to speak!"

Su Shou Dao nodded his head in satisfaction and said with a smile, "Both of you siblings are the most outstanding among your peers that I've ever seen, and you two working together, you're bound to be famous all over the country and even the world!"

Su Zhi Fei smiled and said, "I don't dare to compare with Zhi Yue, this girl is a pervert, twenty-two years old, her psychology is as old as forty-four years old, I really don't know what kind of target I will have to find in the future to cure her."

Su Zhiyu stared at him and said angrily, "Want you to worry about me ah? It's better to think about yourself first, you've been secretly in love with that Gu Qiu Yi for so long, when are you going to confess to her?"

Su Zhi Fei was so embarrassed that he blurted out, "Don't you talk nonsense! That's an acquaintance relationship between me and Gu Qiuyi, not even a friend."

"Of course." Su Zhiyu snorted and said in a despicable manner, "You can't even speak well when you meet someone, so of course you can't even be friends!"

Su Shou Dao on the side frowned and asked him, "Zhi Fei, do you have thoughts about that girl from the Gu family?"

"No ah dad" Su Zhi Fei quickly waved his hand, "I'm just simply more appreciative of her..s."

Su Shou Dao nodded, and after a slight pause, he spoke up, "The Gu girl is really good, if you truly like her, I don't have a problem with it, but I'm just afraid that your grandfather won't look up to the Gu family, that's not going to be easy"

Su Zhi Fei was delighted when he heard this and asked off the cuff, "Dad, are you really okay with this?"

Su Zhiyu blurted out, "Brother, are you stupid?Can't you hear that Dad is deliberately lying to you?"

"Huh?!"Su Zhi Fei panicked and was busy looking at Su Shou, "Dad, what exactly do you mean?"

Su Shou Dao sighed and said seriously, "Zhi Fei ah, you really aren't as smart as your sister!"

Su Zhi Fei was embarrassed.

Su Shou Dao at this time in the spirit of a face, said: "You are the son of the Su family, the future Su family's third generation heir, and the Gu family strength in front of the Su family is really not enough, your grandfather will never agree, I will not agree, you do not forget, the Gu family girl, and Ye Changba's son since childhood in a marriage contract, Ye Changba and I are incompatible, will never let you marry the Gu family that girl!Get in the door!"

Su Zhi Fei sighed, "Dad, when was that, it's all stale and rotten, besides, hasn't Ye Changba's son been missing for many years?"

Su Shou Dao looked at him and said seriously, "Putting this matter aside, your grandfather once discussed your marriage with me, he would prefer the Su family to have you with the United States after completing internationalization, and it's also true that there are no more lady's maidens worthy of you."

Su Zhi Fei was a bit anxious and got out of the conversation, "Dad, I don't like American women."

Su Shou Dao said seriously, "This kind of thing never has anything to do with the word like, it's nothing more than the four words door to door, understand?"

Su Zhi Fei was a bit dejected all of a sudden.

Su Zhiyi, who was on the side, reminded at this time, "Dad, let me state first ah, I don't care how you arrange my brother, but no one is allowed to influence my marriage in the future!"

Su Zhi Fei was furious, "Hey, Su Zhi Fish!You're just going to sell your brother out?"

"No ah."Su Zhifei said with an indifferent expression, "Our situation is different, if I find a man who can make my heart beat, I'll marry out, everything in the Su family is no longer related to me, and in the future I'll give birth to my husband and give birth to children without the surname Su, but you're different ah, you're the one who's going to carry on the Su family."

Su Zhi Fei was speechless all of a sudden, his expression was very depressed.

Su Shou Dao helplessly looked at Su Zhi Fei and reminded, "The premise that you're looking for a match, you also have to be from the right family!"

Su Zhiyu waved her hand, "What door to door, it doesn't exist, whoever this lady has her eyes on is whoever she wants, whether he's a heavenly king or a peddler."

"Bullshit!" Su Shou Dao said in exasperation, "If you really are a poor man, what guarantee do you have for your happiness in this life?"

Su Zhiyu trailed off, "I don't believe that I can't afford to raise a poor man, even though I'm the eldest Miss of the Su family?"
