

Identity 2141

Chapter 2141

The moment the man soared into the air, he sadly discovered that he had been thrown by Ye Chen to the left of the cruise ship from which he had come, to the right of the cruise ship!

Moreover, the strength in Ye Chen's hands was so great that he threw him over ten meters at once!

The whole man fell in a giant parabola right into the icy waters!

It's not that far from the open sea anymore, the water is thousands of meters deep, and it's winter and the water is bone-chillingly cold!

As his entire body poofed into the seawater, the impact itself caused him a sharp pain all over his body.

Immediately afterwards, his clothes were completely soaked with cold water, and all of a sudden, he felt like his entire body was falling into an ice cave!

In this situation, he could only struggle as hard as he could to try to swim back to his ship.

However, the sea was very rough, and he happened to be downwind, so no matter how hard he tried to swim, he was never able to bring him even a few meters closer to the cruise ship.

Just when he was desperate, a few more puffs sounded from the sea.

It turned out that the few remaining people were also thrown into the sea one after another by Ye Chen like dumplings.

These people's lives were far worse than the first one.

After all, the first kid didn't get beaten up and was directly thrown down.

But the others weren't so lucky, they were first beaten up by Ye Chen and then thrown into the sea, which had basically removed half their lives!

The remaining half-life wouldn't be enough in such cold water!

Several of them shouted as they struggled to pounce, fearing that they would sink straight to the bottom of the sea and lose their lives.

The captain and a few sailors on the ship that carried Su Ruo Li were watching in awe!

What's going on? Su Ruo Li led the team, a total of seven people went to fight one another and six of them were thrown into the sea?

The sailor then spoke up and asked, "Captain, shall we go to the rescue?"

The captain's expression was indifferent as he said, "Save them? Don't forget our mission! Focus all your energy on Miss Su, and the deaths of the rest of these people are not worth mentioning at all!"

When the sailor heard this, he had to keep his mouth shut.

At this time, on the deck of the other ship.

Su Ruo Li's heart had gone cold for the most part!

She really didn't think that Ye Chen had such a perverted strength!

And not only is his strength perverted, but his style of work is perverted too!

He threw all of his men into the sea!

Is this a man's job?

As the saying goes, to kill or cut off the flesh to give a pleasure, they are not strong enough, even if they just kill them, there is no harm, but why throw them into the sea?

Thinking of this, Su Ruorui couldn't help but worry about herself again.

As such, it seemed that she was 80% not Ye Chen's opponent.

If he threw himself into the sea later, wouldn't it be a great shame?

Su Ruorui didn't doubt her abilities, she believed that she could easily swim back to the ship even if she was thrown into the sea.

It was just that she, Su Ruorui, had never suffered such a loss since she had grown up, and her heart wouldn't be able to accept it for a while.

At this time, Ye Chen had already thrown all six of his minions into the sea, clapped his hands and said with a despicable face, "Is that all the Su family's dogs are capable of? If the Su family is this weak, then I think it's about time for the Su family to give up the first family seat!"

Once Su Ruorui heard this, he became furious!

The last thing she could stand was someone daring to disrespect the Su family!

Although she was still just an unrecognized illegitimate daughter, she felt that she had the blood of the Su family running through her bones! first issue

So, no matter what, no one should be allowed to desecrate the Su family in the slightest!

Chapter 2142

So she angrily reprimanded, "Boy! How dare you disrespect the Su family, you're looking for death!"

Ye Chen sneered, "What? That's disrespectful to the Soviet family? I tell you, sooner or later, I'll make Su Chengfeng, and Su Shoudao, grovel on their knees before me and beg me to spare their lives!"

Su Ruo Li in this one only felt a buzz in his head!

So Sung-bong, he's her grandfather!

Su Shoudao, on the other hand, was her real father!

She'd been indoctrinated by her mother as a child to worship her father with a fascination!

Therefore, she was now itching to torture and kill Ye Chen on the spot to avenge his insulting her father!

At this moment, Su Ruo Li pulled out a sharp black-bladed dagger from his waist and said coldly, "Kid, today I will make sure you die without a burial place!"

Just say it!

Su Ruo Li shouted and rushed towards Ye Chen!

This time, she no longer wanted to analyze in her heart who was stronger or weaker, who won or lost between Ye Chen and herself, she had been overwhelmed by anger! I just want to kill Ye Chen before it's too late to protect my father and the dignity of the Su family!

But, how could Ye Chen be anything she could deal with!

Seeing her holding her dagger and charging in, Ye Chen stood still and waited for her.

The closer Su Ruo was to Ye Chen, the faster she was!

She had gathered all of her inner energy on her right arm, and with the titanium alloy blade in her hand, even a car could be sliced off in a hard chunk, let alone a body of flesh and blood!

Moreover, she knew very well that the more internal energy she gathered, the greater the momentum of the blade would be!

And the faster you run, the greater the inertia of the body itself!

Together, the force of this blow would be difficult for even a god to resist!

Therefore, she was now ready to kill Ye Chen with a single strike at this moment!

but

At the moment she rushed in front of Ye Chen, a sudden change occurred!

Ye Chen didn't retreat or dodge, but simply extended a hand, and with ease, he grasped Su Ruoli's wrist with a death grip!

Su Ruorui felt as if her wrist was completely immobilized, unable to move at all, and was horrified deep inside!

And her worldview was almost completely turned upside down at this moment!

She had studied the pinnacle of the Nether Family's martial arts since childhood, and at the age of eighteen, she was already the strongest one in the Nether Family's younger generation.

Moreover, in the entire Nether Family, she was only second to a few patriarchs, including her grandfather.

Her mother, He Yingxiu, who had lost an arm, wasn't even a match for Su Ruoli's strength!

From this, it was clear that she was no match for ordinary people!

At this time, she was incomparably horrified and said in her heart, "I just struck with all my might, even if the strongest grandfather of the Nether Family were here, he wouldn't be able to resist so easily! Grandfather must at least go all out to remove all the force of my strike!"

"But, this full force strike of mine is like child's play in front of this guy!"

"This guy just moved his hand and completely neutralized and brought my thunderous attack to a screeching halt!"

"What the hell is this capable of!"

Su Ruo Li knew that the overall strength of his strike was not weaker than a loaded bullet in the slightest!

Ye Chen stretching out his hand to block all her attacks was the same as stretching out his hand to squeeze the incoming bullets!

So, Su Ruo Li stretched out her alarm within, "This is simply not something one can do! What kind of prowess does this man before us have?!"

With a rare panic in her heart, she took off, "Who the hell are you?!"

"Me?" Ye Chen smiled indifferently, "To say something that is neither bragging nor pretentious, I am someone you, as well as your entire Su Family, cannot afford to mess with!"

Chapter 2143

The current Ye Chen had long been fearless.

Whether it was the Ye family or the Su family, it was impossible for him to be the least bit afraid.

With his strength, even if he were to take Su Chengfeng as well as Su Shou Dao's head among ten thousand people, it might not be a difficult task.

The reason why he hadn't immediately raised an accusation against the Su family yet was mainly because he wanted to wait for the right time to give the Su family a complete crush. first issue

Not only those who were stronger than the Su family, but also those who had an absolute advantage over the Su family in terms of industry, only then could the Su family truly grovel in the true sense.

However, Su Ruo Li didn't even know the depth of Ye Chen's strength.

She just felt that this man's strength was terrifyingly perverted!

But even so, he couldn't be a match for the entire Su Family!

But Su Ruo Li was also very clear in her heart, there was no point in talking about this now, the most crucial thing right now was how she could escape from this man with perverted strength!

Su Ruoli was not afraid of death.

However, when she thought of the fact that her father had spent a lot of energy, money, materials, and manpower to rescue himself, the desire to live within her instantly reached its peak.

So, she looked at Ye Chen and spoke, "If you let me go, our previous grudges can be wiped out! Otherwise, the Su family will definitely not let you go!"

Ye Chen laughed, "The Su family won't let me go? To tell you the truth, even if the Su's don't look for me, I'll still look for them!"

Su Ruo Li's expression was startled and asked off the cuff, "You you have a grudge against the Su family?"

Ye Chen nodded, "Of course! And it's an unmitigated vendetta!"

Su Ruoli's heart was dead.

She felt that since this young man in front of her had an unholy grudge against the Su family, he naturally could not let himself go.

It seemed that she was going to perish today.

Thinking of this, she remembered her parents who were still waiting for her to return home, and her eyes filled with tears.

Whirling around, she looked at Ye Chen and said seriously, "Since I'm not as skilled as others, I'll let you be killed or dismembered if you want!"

Ye Chen smiled indifferently, "Don't worry, I won't kill you."

"What?!" Su Ruo Li screamed, "You won't kill me?!"

Ye Chen nodded, "You yourself committed a capital crime in Japan, and now you're an escaped prisoner, I just need to hand you over to the Japanese judiciary, they will naturally sentence you to death."

At this point, Ye Chen suddenly frowned and whirled his eyes to look at Su Ruorui with cold eyes.

He looked Su Ruorui up and down and asked, "The Japanese judicial department hates you with a passion, the Su family should have spent no less money to save you in this situation, right?"

Chapter 2144

Su Ruoli was afraid that he would notice something and dodged his gaze, not daring to answer.

She was afraid that Ye Chen would know that she was the illegitimate daughter of Su Shou Dao.

That way, he might not only use her as a bargaining chip to threaten her father as well as the Su family, but he might even make her identity public.

Although she really wanted her father to acknowledge her identity, she also knew that her father was the son of the Su family after all, and had the original wife as well as a pair of children, if her identity was exposed at once, it would have a great negative impact on her father's reputation, as well as her family's happiness.

Su Ruoli had only wanted to share her father's worries all her life and never wanted to cause trouble for him, so she was terrified at this time, afraid that Ye Chen might notice.

Ye Chen saw Su Ruo Li dodge his eyes while keeping his mouth shut, he already realized something was wrong in his heart, he lamented to himself, "You are now the number one felon in Japan, to get you out under such circumstances, the Su family would have to spend at least billions of RMB, if not more, to make it happen"

Speaking of which, Ye Chen stared at Su Ruorui and said in a cold voice, "I've heard of the Su family's style of acting, I've also heard that the current head of the family, Su Chengfeng, is not a generous person, there's no way he would be willing to spend so much money to save a servant, even if you do have some strength, you're definitely not worth that much money!"

With that said, Ye Chen deliberately stretched his voice and sneered, "Unless you're not some kind of servant of the Su family!"

Although Su Ruo Li strength is very strong, but social experience as well as the heart of the emotional quotient is really not too over the top, one hears this, the whole person has been obviously some panic, three hundred and thirty taels of silver here and there said: "Not not what you think!! I am indeed a servant of the Soviet family."

Ye Chen sneered, "It seems that you do lack some social experience, and your eyes right now have given me a clear signal!"

Su Ruo Li panicked and asked, "Huh?!What signal?!"

Ye Chen smiled, "I guessed the right signal!"

Saying that, Ye Chen coldly questioned, "Who the hell are you from the Su family?I've investigated you, Su Ruo Li, a servant of the Su family and bodyguard of Su Shou Dao, although his surname is also Su, but he has no connection with the Su family."

Su Ruo Li nodded in panic, "Yes I am indeed just a servant of the Su family."

Ye Chen waved his hand, "No, I said that the Su family can't go to such lengths for a servant, so your identity as a servant of the Su family is not the key to having the Su family save you" Mobile One Second Remember provides you with wonderful doxology reading.

At this point, Ye Chen stared at Su Ruorui's somewhat terrified eyes and said indifferently, "So, you definitely have another identity!"

Su Ruo Li was frightened and shook her head repeatedly, her voice had taken on a bit of a plea, "I'm not, I really don't have any other identity, if you want to kill me, just kill me quickly, don't humiliate me like this anymore, okay?"

Ye Chen saw her nervous performance in his eyes and laughed coldly, "The Su family values you so much, and you defend the Su family so sincerely, this kind of performance has clearly surpassed the feelings between master and servant, could it be that there is a blood relationship between you and the Su family?After all, your last name is Sue too!"

Su Ruo Li shook her head desperately, "Although my surname is Su, but that's just a coincidence I only came to work for the Su family at the age of eighteen, my main job is to be Su Shou Dao's bodyguard, and occasionally I also take the other men of the Su family with me on some more secretive missions! For example, I'm responsible for killing Matsumoto Manmon! I'm telling you the truth, I really don't have any other identity."

Ye Chen smiled, "Alright little beauty, the more you explain, the more you want to cover up in my opinion, if you're really just a servant of the Su family and are ready to die for your master's family! And yet you can't even take your life, yet you're here explaining so much to me, you're obviously just trying to be sophomoric for the Su family!"

Saying that, Ye Chen ridiculed, "Let me guess, you're not the illegitimate daughter of someone in the Su family, are you? That's why they went to so much trouble to get you out, right?"

Su Ruo Li was scared white, desperately shook her head and even threw out her tears, choking out, "I'm really not the Su family's illegitimate daughter, please believe me."

Ye Chen ignored her, but shook his head and muttered, "Whose illegitimate daughter could you be? So Sung-bong? Not likely, that old dog Su Chengfeng is dying, he shouldn't be able to afford to raise another young girl like you, besides, if you were really his illegitimate daughter, he would never arrange for you to protect Su Shoudao, in that case, you could be found out by Su Shoudao at any time."

Speaking of which, Ye Chen looked Su Ruorui up and down and asked with a smile, "So, you should be Su Shou Dao's illegitimate daughter, right? Su Shoudao, in order to cover his tracks, simply kept you by his side as a bodyguard, so that he could get close and not be suspected, do you think I'm guessing right?"

Chapter 2145

Ye Chen was just speculating and saying it in passing to see Su Ruorui's reaction.

Unexpectedly, as soon as the words came out, Su Ruorui's delicate body trembled uncontrollably.

At this moment, Ye Chen's heart immediately understood that he had guessed correctly.

This Su Ruo Li, was Su Shou Dao's illegitimate daughter!

No wonder!

No wonder the Su family was willing to expend so much effort to save her from the Japanese justice department!

So this girl is Su Shoudao's flesh and blood!

That's interesting!

Su Ruo Li was scared to death at this point!

She hadn't expected this man in front of her to have guessed her true identity in such a short time!

One must know that in the entire Su family, there were only two people who knew their true identity.

One was his own father, Su Shou Dao, and the other, his grandfather, Su Chengfeng!

Even Su Zhi Fei and Su Zhi Yu didn't know that the self who had been acting as a bodyguard by their side was actually the sister of the two of them!

The original wife of Su Shou Dao was even more clueless.

Su Ruo Li was now afraid that this man in front of her would spill the beans on this matter, in which case, her father's reputation would surely suffer a huge blow!

Thinking of this, she immediately had the intention of seeking death within her, and sadly thought to herself, "As long as I live, I'm Su Shou Dao's daughter, and no matter how much I deny it, what flows through my body is his blood."

"But if I die, then no one will be able to sit on the fact that I'm the daughter of Su Shou Dao! Even if this man exposes my identity because I'm dead, Dad can vehemently deny my identity."

"It seems that only if I die will I be able to put an end to this once and for all and keep the secret of my identity forever!"

At that thought, she immediately said to Ye Chen with a pleading face, "Please, kill me! Or you can let go of my hand and let me end it on my own!"

Ye Chen laughed, "How is that possible? Not only will I not kill you, I won't let you kill yourself either!"

Su Ruo Li questioned in horror, "What the hell are you doing?!"

Ye Chen smiled, "Little girl, don't be afraid, I'll take you home! It must have been hard for you to hide your identity for so many years, right? Don't worry, I'll help you get back your identity as the Su Family's Eldest Miss, so you can enjoy everything you should have enjoyed long ago!"

"No!" Su Ruo Li immediately broke down crying, sobbing and begging, "I've killed countless people and sinned, so just give me the pleasure of doing so"

Saying that, she tried her best to struggle to break away from Ye Chen's hand.

However, Ye Chen's hand was as if it was fixed and she was completely unable to shake it for a single moment!

Ye Chen saw how she was bent on death and found it more and more interesting, deliberately ridiculing her, "It would be a pity if a girl as beautiful as you were to die! How could I do such a spicy and profligate thing?"

Su Ruo Li looked at Ye Chen and choked out in fear, "What do you want"

Ye Chen smiled, "I was thinking of something simple, isn't it nice to bring you back to China, make your identity public, and have your father give you a proper name?"

"I don't want" Su Ruo Li's tears connected into a line, the other hand began desperately trying to break Ye Chen's fingers, eyes aggrieved and frightened said: "I'm fine like this, I don't want to be the big sister of the Su family, I don't want to cause him any trouble, I'm begging you, kill me, kill me, then throw me into the sea, let me be done with this"

Ye Chen retorted, "What?Your father gave birth to you, and it's only right that he should acknowledge you for what you are, but how is it that in your eyes, it's causing him trouble instead?"

Although Su Ruo Li was in tears, she still said stubbornly, "I don't want to cause him any trouble, nor do I want to cause any trouble for my mother."

Ye Chen smacked his lips, "Tsk tsk, you're a really strange person, you could kill dozens of people for the Su Family without blinking an eye, but now you don't want to cause any trouble to the Su Family, how come you have such a selfless devotion to the Su Family?"

Chapter 2146

Su Ruorui was unable to speak by Ye Chen's question.debut

The reason for this dedication is because of the brainwashing education she has undergone since childhood.

She firmly believed that she should give everything for the Su family and her father, even if it was her life.

However, naturally, she couldn't say such words to Ye Chen.

So she could only continue to beg with a crying voice, "Sir, although my life is very short, I have hardly ever begged anyone, today I beg you once, please give me a pain, don't torture me anymore, okay please"

Ye Chen shook his head and said indifferently, "Sorry, you can't die yet!"

At this moment, in the cockpit of another ship.

Both the captain and the sailor had been watching in awe!

They really couldn't understand why, after just one move with that man, Su Ruo Li was standing still as if under a spell!

And the scene of her nodding, shaking her head, and crying bitterly for a moment was a bit too magical for these people on board.

The captain immediately pulled out his satellite phone and called a domestic number.

On the phone, he spoke in detail about what had happened here, and then when he heard the instructions on the phone, he hurriedly nodded and said, "Okay, I got it!!I'll execute this as you wish!"

Saying that, he hung up the phone and said in a cold voice, "Quickly go inform Mr. Xu and tell him that the master has a new order!"

A sailor beside him turned around hastily and ran to the bottom cabin of the cruise ship.

The bottom cabin had a locked door, he knocked on the door and opened his mouth and shouted, "Mr. Xu, the captain asked me to tell you that the master has a new order!"

A man's gloomy, incomparable voice came from the room, "Okay, I'm going up there!"

The door was opened just after the voice had fallen.

A middle-aged man with triangular eyes and a hawkish nose was carrying a specially customized heavy compound crossbow in his hand.

The composite crossbow, of all crossbow weapons, was the most powerful, and the power of a single crossbow shot even exceeded that of a gun.

Professional hunters loved to use heavy compound crossbows to hunt large prey, such as thick-skinned wild boars.

When bullets from ordinary pistols and light rifles hit the boar, it is difficult to penetrate the boar's skin, which is covered with turpentine and mud, and the bullets may even be refracted on the boar's skin.

However, a heavy compound crossbow, if used properly, would be able to shoot through the boar with a single arrow, and its power would be no less than that of a heavy sniper rifle!

What's more, the compound crossbow has a long range and high accuracy, and when paired with a sniper scope, it's used to snipe at long range, not inferior to a sniper rifle at all!

Compound crossbows are not only powerful and accurate enough, but they also have the great advantage of being extremely quiet, making them especially suitable for assassination!

What's more, most countries around the world are gun-ban countries with strict legal restrictions, and it's much harder for ordinary people to get a handgun, let alone a sniper rifle.

But composite crossbows don't have so many restrictions, for example, the composite crossbow this person is holding in his hand is a sports crossbow reinforced and modified to be extremely powerful, even a bulletproof vest can pierce, is a wonderful weapon for assassination!

This man took this compound crossbow and stepped up to the top cockpit.

The captain immediately said to him, "Mr. Xu, quickly, Master has orders to kill the man on the opposite ship immediately!"

The man took a glance at Ye Chen and Su Ruo Li on the opposite boat, a cold smile wiped across the corner of his mouth, and said indifferently, "So close and still unmoving, isn't this a fucking living target?"

Saying that, he immediately pushed open a window and aimed the crosshairs of the sniper scope on his compound crossbow at Y Chen's left temple!

Chapter 2147

The heavy compound crossbow was powerful enough to penetrate a person's skull at such a close distance.

Plus, this Mr. Xu, himself, was a top assassin who was extremely good at killing people with a crossbow, so he had absolute certainty that he could kill Ye Chen with a single blow.

He had been in the killer field for fifteen years, and he had never failed to kill anyone with a crossbow.

Therefore, after aiming at Ye Chen with extremely fast speed, he then pulled the trigger without hesitation!

The composite crossbow's bowstring emitted a buzzing sound, and then a crossbow arrow made of titanium alloy and carbon fiber raced straight towards Ye Chen's temple.

The speed of a composite crossbow exceeded a hundred meters per second, not to mention that this heavy composite crossbow was again a modified killing weapon with a speed approaching almost two hundred meters per second.

At such a close distance, the speed left for the opponent to react was no more than zero point five seconds.

In other words, the opponent didn't even have the chance to turn their head to take a glance!

Therefore, that Mr. Xu also already had his chest full of confidence and regarded Ye Chen as a dead man.

He was even ready to witness Ye Chen's head explode open with his own eyes.

Moreover, he knew very well that the crossbow's arrow was quenched with poison, and even if it only cut the opponent's skin a little, the opponent would definitely die!

However, what he never expected was that Ye Chen didn't even look this way, just casually stretched out his hand and grabbed a handful of that streaking crossbow bolt!

"How is this possible!"

That Mr. Xu is already stunned!

The captain was stunned as well and blurted out, "Mr. Xu, I'm not blind, am I! That guy is clutching that crossbow you just shot over?!"

Mr. Xu broke out in a cold sweat, "Yes this guy is a freak! I've never seen anyone so tough."

Saying that, Mr. Xu hurriedly pursued, "Who the hell is he?!"

The captain was filled with trepidation, "I don't know! I was just ordered by His Lordship to inform you to kill him."

Mr. Xu gritted his teeth, "I'll shoot him one more arrow, I don't believe he'll catch it!"

This compound crossbow, with two sets of bowstrings, could be loaded with two crossbow arrows, and two crossbow arrows could be made to fire continuously.

After both crossbow arrows were fired, the bowstring had to be reloaded, and loading the bowstring was not an easy task for such a heavy crossbow, even if the one surnamed Xu operated it himself, it would take at least ten seconds to do so.

Therefore, the remaining crossbow was almost his last chance.

Just at this moment, the captain suddenly stopped him and took off, "Mr. Xu, the master has his life, if you can't dry him, activate the emergency plan! Are you absolutely sure that you can kill him with this last crossbow bolt?"

Mr. Xu was stunned, hesitated for a moment, and shook his head, "I didn't."

The captain said with a cold expression, "Mr. Xu, if you're not absolutely sure, then let's implement the emergency plan."

Mr. Xu nodded gently and said, "Good, then execute the emergency plan!"

At this moment, on the deck of another ship.

Su Ruo Li watched as Ye Chen grabbed a broken crossbow with one hand, his entire body was already in a state of horror!

In her mind, she screamed, "Is this person this person or not a person! This crossbow bolt is stronger and much faster than the one I just struck! He could even grab it with one hand without even looking at it! What level is this person's martial dao?!"

At this time, Ye Chen, seeing Su Ruoli's startled expression, smiled faintly, "What? Does it feel like your worldview has been turned upside down?"

Su Ruo Li nodded his head gently with difficulty.

Chapter 2148

Although unwilling to admit his failures and shortcomings, the man in front of him was indeed unimaginably strong and had completely exceeded his knowledge of the martial arts.

Ye Chen sneered and turned his head to look at the ship across the street.

The killer in the boat with the compound crossbow was shocked by his gaze.

With a slight hesitation, he whispered to the captain, "This arrow of mine, whether it can hit or not, you must first turn the ship's horsepower to its maximum and leave as fast as possible, that man on the other side is too strong, the farther away we are from him, the better!"

The captain immediately put his hand on the engine power gear while saying to the first mate beside him, "After Mr. Xu shoots his second crossbow bolt, you will immediately left full rudder, and I will simultaneously turn up the horsepower to maximum, do you understand?"

The first mate immediately took off and said, "Understood!"

"Yes!" The captain nodded and looked nervously at Mr. Xu at the side.

That Mr. Xu took a deep breath, then, immediately pulled the trigger and shot a cold arrow!

He then immediately shouted, "Retreat!Retreat!"

The captain and the first mate immediately began to cooperate, controlling the left full rudder of the ship and preparing to flee at full speed.

The moment he shot the crossbow bolt, Ye Chen had felt it hurtling towards him.

He originally wanted to reach out and grab it, but suddenly gave up on his movements.

Because he sensed that the crossbow bolt, was not coming towards him!

Instead, it was running to Su Ruorui who was beside her!

In the next moment, Su Ruo Li suddenly felt a sharp pain in her thigh.

She screamed in pain under her breath and looked down to see that her right leg had been completely pierced by a crossbow bolt!

The intense pain made her clench her teeth, while her mind was filled with amazement.

"Why?Why did they shoot a crossbow bolt into my leg?!"

As soon as she thought of this, she immediately felt a powerful energy flowing along her blood vessels at the wound.

She was a martial artist and had a certain amount of internal strength, and she realized at once that this energy was none other than a violent poison that could kill a person!

Her face went pale!

However, a moment later she felt a moment of relief, "In itself, I was a bit begging for life and death at the hands of the man in front of me, and now I'm going to die of poison soon no matter what, so that my identity will never be made public and I won't bring trouble to my father"

Thinking of this, she suddenly had a look of relief on her face.

When Ye Chen saw this, he couldn't help but frown and said in a cold voice, "Want to die so badly?Don't worry, the more you want to die, the less I'll let you die that easily!"

Saying that, he immediately grabbed her wrist and fingertips and channeled a trace of aura from her pulse gate, relieving the severe poison in her body, while temporarily sealing all her meridians, making her completely immobile.

He then slammed the first crossbow bolt clutched in his hand towards the boat that was about to escape.

That Mr. Xu was staring at the two of them, wanting to see when Su Ruo Li would die from the poison, but he didn't expect a shadow to suddenly fly in front of him!

Immediately afterwards, he felt a sharp pain in his forehead, and in the next second, the crossbow bolt pierced through his skylight, causing his entire body to die violently on the spot!

The captain of the ship as well as the other crew members in the cabin saw this scene, and one by one, the captain was so frightened that he twitched and died, pushing the power control lever and yelling out of his mouth, "Why is this ship moving so slowly!"

The first mate, holding the rudder, shouted at the top of his voice, "Captain! Full left rudder already! It's hard to pick up speed when you're steering in place, just wait until you turn around!"

As the ship was desperately trying to turn and flee, Ye Chen took a few steps on the deck to help him run and leapt so suddenly that the man had already jumped onto the other side's deck!

At that moment, one of the crew members twitched in fear, "Captain that man has jumped on our ship!"

Chapter 2149

The gang on the boat, screaming in terror at that one word!

At this moment, there were no experts on board who could still fight Ye Chen!

Su Ruo Li had been hit by a poisoned arrow and was afraid that he would die soon, while the remaining few of the Su family's men were all thrown into the sea by Ye Chen, and a few of them had already sunk into the water due to their physical exhaustion.

The remaining one was that Mr. Xu.

He himself was the killer hidden in the boat, and even Su Ruorui didn't know of his existence.

However, he was now completely dead as well.

The only people currently remaining in the ship's cabin, aside from the captain and first mate, were a few sailors.

They had never practiced martial arts at all, so they were even less of a match for Ye Chen.

Just when everyone didn't know what to do, the door of the cockpit was suddenly kicked open by Ye Chen.

In the next second, Ye Chen had stepped in.

Several sailors' legs weakened in fright, and one of them directly poofed to his knees, crying and begging, "Brother, spare my life! I'm just a crew member of the Su, I haven't done anything to hurt anyone!"

The others also knelt down and begged, "Yes big brother, we're just ordinary crew members, we don't know anything else!"

Ye Chen ignored these people's pleas and asked, "Who is the captain?"

The crowd hurriedly pointed their fingers at the same man.

The captain, trembling, raised his hand and said, "Big brother, I am the captain."

Ye Chen nodded and said in a cold voice, "Bring the ship back to port and turn off the engines!"

"Good brother" that captain didn't dare to make a faux pas and hastily ordered the first mate, "Right full rudder!"

The first mate hurriedly did as he was told, and they posted the ship back towards the one Ye Chen was on.

Then, Ye Chen coldly commanded, "Everyone, line up on deck with your hands behind your head and climb into the opposite ship!"

The crowd saw that so many people had already died, at this time, how could they dare to disobey Ye Chen's [PEN www.xbqg5200.xyz] meaning, so they immediately walked out of the cockpit with their hands on their heads and in a line honestly.

Under the leadership of that captain, one by one, everyone climbed over the railing and carefully climbed onto the deck of another ship.

At this time, Su Ruo Li was still standing here, unable to move her entire body.

But it was good that there was that aura of Ye Chen's, so she was not in any danger for the time being.

At this time, Ye Chen pulled that captain in front of Su Ruorui and spoke, "Come, tell me, why did that guy just now, shoot this beautiful woman beside me with a crossbow?"

The captain's expression was torn, and then he spoke up, "I don't know about that ah probably might have accidentally shot the wrong way."

Ye Chen sneered, "Accidentally shot crooked?The man's first arrow went straight for my temple, hardly any deviation, extremely accurate, why would the second arrow accidentally miss?"

Although Su Ruo Li on the side didn't say a word, she also wanted to know the answer in her heart.

The captain was busy saying, "Big brother, I don't know what's going on with him ah I'm just an order to sail the ship, I don't know anything else."

Ye Chen nodded, "I don't know right, good, then let's go to the sea and feed the sharks!"

After saying that, Ye Chen immediately grabbed his collar with one hand and directly lifted him up and dangled his legs in the air.

Chapter 2150

The captain was so frightened that he pissed his pants on the spot and cried out, "Brother, spare my life!! I said!! I'll say it all!!"

Then the captain choked, "I've been driving a cruise ship for the Master, and this time I was specially sent by the Master on a mission to Japan, and originally the Master didn't really plan to save Miss Su back tonight, because once you save Miss Su back, not only will it cost a lot of money, but it will also leave a great deal of trouble, so that the Japanese government will have a long-standing grudge against the Su family, and that's why he deliberately set up a game".

Ye Chen frowned and asked, "What kind of game was set up?"

The captain said truthfully, "According to the plan, after the ship sails tonight, I will sail directly to a designated location on the high seas, the Japanese Maritime Self-Defense Force is already there in ambush, once the ship arrives at the designated location, they will immediately conduct a siege to capture and arrest Miss Su"

Ye Chen was even more surprised, "Capture back? After all this effort to get her out, why did you go to all this effort to get her back?"

The captain shook his head and said, "I don't know about this one, I only know that this is what the Master told us to do."

Ye Chen asked again, "What about that crossbowman just now?"

The captain was busy, "That crossbowman's surname is Xu, called Xu Chao Qian, he is the king of cold weapons with a great reputation in the killer world, Master means to use him as a contingency plan"

Ye Chen pursued again, "What does the emergency plan mean? You better tell me all about it once and for all, or I'll kill you!"

The captain cried out in fright, "I say I say! I'll say it all at once! The contingency plan is that in case the Japanese Self-Defense Force fails to capture Miss Su, then let Mr. Xu finish Miss Su off with his crossbow and hand over the body to the Self-Defense Force!"

As soon as the words came out, Su Ruorui went white as a sheet

She said in a loud, incredulous voice, "What did you say?! His Lordship's contingency plan is to kill me?!"

"That's right" the captain nodded repeatedly and seriously, "The original plan was to go directly to the predetermined location after you boarded the ship, but you suddenly wanted to chase down and kill this big brother, the master also agreed, so our route has temporarily changed, the master also specifically called to explain me, let me first take you to kill this big brother, and then drive the ship to carry you to the predetermined location, meet with the Japanese Self-Defense Force, he also said that any uncontrollable situation, must let Mr. Xu to implement the emergency plan, to kill you, said that is the only way to eliminate the aftermath forever"

Su Ruorui's eyes filled with tears as she desperately shook her head and said, "Impossible! You've got to be shitting me! How could Master let you kill me? I'm his."

At this point, she realized that she had said the wrong thing and immediately shut her mouth.

In fact, what she was thinking was that she was Su Chengfeng's own granddaughter, how could he want to kill her?

Besides, even if he really wanted to, Dad Su Shou Dao wouldn't be able to say yes!

The captain saw that Su Ruo Li didn't believe it, and said, "Miss Su, I really didn't talk nonsense Master did explain that you must not be allowed to leave Japan alive, even if you die, you have to hand over your corpse to the Japanese Self-Defense Force"

Su Ruoyi muttered, "No way this can't be this isn't logical and there's no reason for it!"

Ye Chen sneered at the side, "Why is this impossible? You have to die so that the Su family won't get into huge trouble, you have to know that you are a felon in the eyes of all Japan, anyone who rescues you out of there would be working against all of Japan, and the Su family, even if they are rich and powerful, absolutely can't take that kind of pressure!"

Su Ruo Li shouted angrily, "You're lying!"

"I bullshit?" Ye Chen sneered, "Although I don't know exactly how that old thing from the Su Family is planning, I'm sure what they're saying is all true!"

Su Ruo Li shook her head and said, "I don't believe it! I don't believe a word they say!"

Ye Chen said calmly, "It doesn't matter if you don't believe me, I naturally have a way to make you believe!"

Saying that, he looked at that captain and questioned, "What method did you use to contact the old thing in the Soviet Union?"

The captain was busy, "It's a satellite phone!"

Ye Chen asked again, "Where is the satellite phone?"

"It's in the inside pocket of my shirt."

Ye Chen commanded, "Call that old man right now and tell him that Su Ruoli has been killed by me! Listen to what he has to say!"
