Chapter 2291

Su Zhiyi said, "I want to go back and find a master to give a fortune telling and see if he can give me some hints."

Su Zhi Fei couldn't help but laugh, "Didn't you just say you don't believe in this?"

Su Zhiyu seriously said, "There's no other good way, so why not give it a try."

After that, she asked Du Haiqing, "Mom, are there any famous masters in Yanjing? Don't you always go to the temple and donate money? Do you know any monks who have gained the way?"

Du Haiqing earnestly said, "Don't talk nonsense, high monks practice Buddhism, and fortune telling is a Taoist matter!"

Su Zhiyu busily asked, "Do you know any capable Taoist priest? I'll go ask him for a fortune and see!"

Du Haiqing thought about it and said, "I'm really not sure about this, I haven't asked anyone to start a fortune in many years, the last time I asked someone to start a fortune was when I was about the same age as you."

Saying that, she couldn't help but think of Ye Changya, and her heart sobbed again.

She then said to Su Zhiyu, "Right, I heard that the Ye family built their ancestral graves some time ago and specially invited Mr. Lai, the heir to the Lai family from the United States, your grandfather also has some personal friendships with Mr. Lai, if you really remember a fortune, you can ask your grandfather to ask if Mr. Lai is still in Yanjing."

"Mr. Lai?" Su Zhiyu frowned and asked, "How come I've never heard of it? Is that great?"

Du Haiqing said, "Mr. Lai is the successor of the Song Dynasty Feng Shui Master Lai Bu Yi, who is proficient in Feng Shui physiognomy and the five elements and eight trigrams, so he should be the most powerful master in the world today."

Su Zhiyu exclaimed in awe, "Really awesome?! Then I'll call Grandpa and ask him!"

After saying that, she quickly pulled out her phone and called her grandfather Du Zhenhua.

As soon as the call came through, she would ask Du Zhenhua on the other end of the phone, "Grandfather, my mother said that you know a Master Lai who is proficient in the five elements and eight trigrams, right?"

Du Zhenhua was surprised and asked, "O Zhiyu, why are you asking about this?"

Su Zhiyu said off the cuff, "Grandfather, I want to find that savior of mine, but I haven't made much progress, so I want to get a fortune from the master to see if I can find a breakthrough."

Du Zhenhua said, "Master Lai has returned to the United States some time ago."

"Ah? Going back?" Su Zhiyu was very disappointed and said, "When did you go back?"

Du Zhenhua said, "It wasn't long ago, just a year ago, he went back, after he came to Huaxia, he stayed in Ye Ling Mountain for more than three years, I guess he also wanted to go back long ago."

Su Zhiyu said with incomparable regret: "So [51 novels www.51ksbook.com] unfortunate then what to do Grandfather do you still know other masters?"

Du Zhenhua said, "I know quite a few masters, but the only one who can truly claim the word master is Master Lai."

Saying that, he added, "In that case, let me ask Master Lai for you, if he is willing, he can directly help you with a fortune."

Su Zhiyu was surprised and asked, "Grandfather, is what you said true?"

Du Zhenhua laughed, "Can Grandpa still lie to you? Master Major Lai is old and a bit odd tempered, so I can't promise you if he's willing to help with that."

Chapter 2292

Su Zhiyu busily said, "It's fine, it's fine if you ask for me."

Saying that, she then asked, "Right grandfather, in case he is willing to help, do I still have to go to America?"

"No need." Du Zhenhua said, "Master Lai is magical, if he agrees, I'll give her your birthdate and tell him roughly what you want to ask, it should be enough."

Su Zhiyu was amazed and said, "So magical?"

Du Zhenhua smiled, "I Ching Bagua is something like this, it's the supreme wisdom of our ancestors, it's said to be magical, we modern people have only enlightened a little bit of it."

Saying that, he added, "It's midnight on the American side, and I'm not too good at contacting Master Lai, so why don't you wait patiently for the evening, and when it's morning on the American side, I'll give Master Lai a call."

Su Zhiyu busily said, "Grandpa, that's up to you!"

At this moment, Ye Chen had already hurried home and made lunch.

Although Ma Lan had broken her leg, she still insisted on leaning on her crutches and gave him a hand in the kitchen.

After busy work to get the meal done, Ma Lan said with a face of shame, "Good son-in-law, it was supposed to be mom who cooked for you, but it's just that mom's leg is inconvenient, and she has to bother you to cook personally, mom this heart is really sorry!"

Ye Chen smiled slightly, "Mom, there's no need to be so polite, I don't have anything to do anyway, it's only right to do the housework."

Saying that, he said to Ma Lan, "Mom, Churan and Dad should be arriving soon, I'll cook another tomato and egg soup, and when they come back, we can have dinner."

Ma Lan was busy, "That's really hard for you good son-in-law, Mom will wash the tomatoes for you!"

Ye Chen put the best food, wife Xiao Churan and father-in-law Xiao Changkun, also drove back home one after another.

As soon as Xiao Churan came back, she said to Ye Chen with some excitement, "Hubby, today Emperor Group's Wang Dongxue Wang, the deputy director, called me and said that that six-star hotel under construction by their Emperor Group will soon start bidding for the design of the overall interior decoration."

"Yes?" Ye Chen asked with an act of surprise, "This project should be very large, right?"

The company has been in the process of developing the newest and most advanced technology in the world, and is now in the process of developing the newest and most advanced technology in the world, and is now in the process of developing the newest and most advanced technology in the world."

Just say, Xiao Chu Ran continued to introduce: "The entire hotel two billion budget, half to buy land and infrastructure, the other half almost all for the post-decoration, of which at least 300 million hardcover, soft furnishings and a variety of top home furnishings, beds, bathrooms, electrical purchases almost six or seven hundred million or so, now those domestic big brand home furnishings, bathrooms and decorative building materials executives are running to Jinling! up, and is getting ready to bid on the back!"

Ye Chen smiled and asked, "Then how much budget has the Imperial Group prepared for the renovation design?"

Xiao Churan said: "This kind of commercial decoration design quotation, generally in three hundred yuan a square meter up and down, Emperor Group this six-star hotel, business area a total of 130,000 square meters, remove part of the same room type in the repeat design, that design project volume is at least 70,000 or 80,000 square meters, just decoration design fee, it will be 20 or 30 million!"

Marashi, who was on the other side, was surprised to hear this and said, "Mom! Chorán! You're not kidding Mom, are you? You're just going to do some renovations and you're going to pay \$20-30 million for a design?!"

Xiao Chu Ran nodded and said seriously, "No joke, this price is still a relatively low offer, if it's a big design company, or a well-known designer, the price will be even higher, a square meter of design costs at least eight hundred to one thousand!"

Chapter 2293

Hearing this, Mashiro was shocked, "Mom! A square meter design fee of 800 to 1,000 yuan, that would be 50 to 60 million yuan, wouldn't it? That's too scary!"

Xiao Chu Ran smiled and said, "What's so scary about this, some internationally renowned designers charge hundreds of millions of RMB for the exterior design of a building!"

Lan Ma touched her chest and hurriedly asked her, "Good girl, are you planning to take on this project?"

Xiao Chorán seriously: "Of course I want to take it, but my studio is currently not so large, to take such a project, I'm afraid that the bidding can not compete with rivals, and too much pre-preparation work, if I want to bid, now I have to immediately devote myself to go in and do bidding preparations."

Saying that, Xiao Chorán couldn't help but sigh again and said, "Hey, the company is pretty big after all, and I'm afraid that I can't digest such a big project."

Ma Lan was surprised and asked, "Isn't design just moving the computer? What can't you digest?"

Xiao Chu Ran said, "It's not as simple as you think, with a business area of more than 100,000 square meters, there are more than a dozen room types, several restaurants of various types, as well as a leisure and entertainment section, an administrative office section, and security and fire protection planning, the overall design volume is very large."

"It's like making an animated movie, doesn't the average person think it's just getting a bunch of people to draw? But in reality, twenty drawings are needed for a second picture, and for an hour and a half animated movie, at least tens of thousands, even more than a hundred thousand drawings are needed, the amount of work behind it, several hundred people have to do it well for several years."

Said Xiao Chu Ran: "We don't have many people in the studio, even if we can next such a big project, we can't finish it ourselves, we have to subcontract to other design studios to do it together, and we need at least dozens of designers and more than half a year of time to finish it"

"And this is just the first phase, when the construction starts, we will have to follow up the whole process, the construction cycle will be at least a year, so the whole follow up will take a year and a half."

"Dozens of designers, a year and a half, good designers earn big hundreds of thousands a year, ordinary ones at least 200,000, so the salary cost alone will be tens of millions!"

Marashi was surprised to get out, "My goodness! Tens of millions in salary alone? That's a bit harsh, isn't it?"

Xiao Chorán seriously said, "That's how it was, I'm still all conservative estimates, if the construction period is longer and the program is modified more, the whole time cost and manpower cost will also increase."

Ye Chen on the side asked curiously, "Wife, what are you going to do then? Should we go for it?"

Xiao Chu Ran nodded and said: "Although my studio is not strong, but I still want to try, if I can get this project, I can do this project, along with the merger of several small design team, in that case, when this project is finished, then my studio can at least improve at least two orders of magnitude, can reach the upper middle! The scale of it!"

After saying that, she said with some concern, "However, the size of my studio is indeed a bit small, and with so many companies bidding this time, I really don't know how sure I am."

Ye Chen smiled, "Wife, if you're interested, feel free to go ahead and do it, if you make it, it's an excellent opportunity, if we don't make it, we have no real loss, it's just a waste of energy, what do you think?"

"Yes" Xiao Chu Ran nodded lightly and said, "I just want to try my hardest, so from today onwards, I'm going to work overtime with my team to come up with a proposal, make a bid, and prepare for this bid with all my might!"

Saying that, she herself said with some emotion, "But I've heard that many design companies are looking around for someone to prop them up in order to get this big order, and there are even people who want to stuff money and give kickbacks to the executives of the Imperial Group, so I don't know if the Imperial Group will then engage in any underhanded operations..."

Ye Chen laughed, "How can a large group with a market capitalization of over 100 billion like the Imperial Group engage in any underhanded operations on a design project worth tens of millions of dollars, it's not up to it."

Chapter 2294

However, although the words are so, but Ye Chen has already made up his mind at this time, to say hello to Wang Dongxue, without revealing this project to Xiao Churan.

The Empire Group was originally his own property, and since his wife was so interested in this project, he naturally wanted to give her a chance to practice.

So, he then said to Xiao Churan, "Churan, you don't need to think so much now, just focus on the preparations, I'm sure you'll be able to do it!"

"Well!" Xiao Chu Ran also nodded very firmly and said, "I will definitely cheer! Try to get this big project off the ground!"

After lunch, Xiao Churan went to the office, so Ye Chen returned to his room and gave Wang Dongxue a call.

As soon as the call came through, Wang Dongxue spoke up, "Young Master, you're calling because of Madam's bid, right?"

Ye Chen smiled, "You guessed it."

Wang Dongxue busily said, "Young Master, originally the design project of our hotel's decoration, I wanted to entrust it directly to Madame's company, but I was also worried that if I gave the project directly to the past, Madame would be suspicious in her heart, so I told her about it and planned to start a bidding session so that Madame's company could get the project through internal bidding, so it would also seem more natural. "

Ye Chen praised, "Dongxue, you have done a good job in this matter, and you have thought about it very comprehensively, I am calling to tell you about this matter as well, my idea is the same as yours, let Chorun participate in the bidding normally, then the group side will directly internalize her studio, at that time let her feel that it is her own test strength to win the bid just."

Wang Dongxue assured, "Young Master you can rest assured, I will arrange all these."

Ye Chen asked her, "When does the group plan to officially start bidding?"

Wang Dongxue said, "I'm going to give a week to come up with a rough draft and start bidding after a week."

"Good, then this matter is in your hands."

After hanging up Wang Dongxue's phone, Ye Chen thought that there was nothing important in the afternoon, so he didn't plan to go out again.

Thinking about the New Year, he promised to prepare some pills for the crowd who came to his home to give gifts in return, so he planned to take advantage of this free time to refine the pills.

He called Qin Gang, who answered the phone and asked with incomparable respect, "Master Ye, what is your order?"

Ye Chen said, "Master Qin, help me prepare some medicinal materials and bring them to my home this afternoon."

As soon as Qin Gang heard Ye Chen say that he had to prepare medicinal materials, he instantly realized that Ye Chen should be planning to concoct medicine, so he said excitedly, "Master Ye, which medicinal materials you need, feel free to tell me, and I will immediately have someone prepare the best to send them over to you!"

Ye Chen said, "This way, I'll send you the recipe on WeChat later, just prepare it according to my requirements."

Qin Gang said without hesitation, "No problem Master Ye, send me the list and I'll have Aoxue send it to you when I'm ready!"

Chapter 2295

Hearing that Ye Chen was refining medicine again, Qin Aoxue was happy beyond words.

She was happy, not because she was so eager for Ye Chen's divine medicine, but because her father had asked her to deliver medicine to Ye Chen, and this gave her the opportunity to meet with Ye Chen.

Qin Ao Xue had been home for the winter holidays, other than her daily routine training, she basically had nothing to do, and her days could be said to be boring.

She really wanted to find a chance to meet with Ye Chen and even ask him to give her guidance again, but she heard that Ye Chen had been quite busy lately, so it was not a good idea to come over and bother her.

It was just as well that, taking the opportunity of delivering medicine, she could meet with Ye Chen and find an opportunity to invite him to come and sit at his home.

After preparing all the herbs neatly according to Ye Chen's needs, Qin Gang handed them all over to Qin Aoxue in a medicine box and instructed, "Aoxue, you send these herbs to Master Ye at Tangchen."

Qin Aoxue immediately said happily, "Okay dad, I'll drive to Master Ye's house!"

Qin Gang nodded and said, "You wait a moment."

After saying that, he stood up, took out an exquisite rosewood wooden box from the safe, put it in Qin Aoxue's hand and explained, "This is a four hundred years old superb purple ginseng, it is even better than the three hundred years old superb purple ginseng that Master Ye got at the auction before, help me take it to Master Ye and say that it is my filial respect to him."

Qin Ao Xue carefully took the wooden box and said seriously, "I know dad, these herbs along with this excellent purple ginseng, I will definitely deliver it to Master Ye's house by myself."

"Mm!" Qin Gang nodded his head and lamented, "Last time at the Chinese Medicine Expo, Master Ye threw a lot of money to buy that three hundred year old superb purple ginseng, not long after that, Master Ye came up with the Rejuvenation Pill, so I presume that this superb purple ginseng is the medicinal material needed to make the Rejuvenation Pill, with this superb purple ginseng, Master Ye might be able to make another batch of Rejuvenation Pill out. "

Qin Ao Xue hurriedly said, "Dad! I'm not going to ask Master Ye for medicine for you this time! The last time Master Ye refined a miracle pill, you made me shamelessly beg Master Ye for a gift, and I've been feeling particularly embarrassed"

Qin Gang busily said, "Don't worry, this time you just give this superb purple ginseng to Master Ye, and don't worry about anything else, I believe that if Master Ye really uses it to refine the rejuvenation pills, he should not forget our Qin family."

Qin Ao Xue was relieved and said, "Dad, then I'll go over first!"

"Okay, you go."

Qin Ao Xue drove her own car out of the door, and then rushed to Thompson's in a hurry.

Half an hour later, Qin Ao Xue arrived at the door of Ye Chen's villa.

When she pressed the doorbell, Ma Lan was taking a nap in her room on the third floor.

Ye Chen came down from the second floor, opened the courtyard door, and when he saw it was Qin Ao Xue, he smiled and said, "Ao Xue, it's hard for you to make a special trip."

Qin Aoxue was always uncontrollably shy in front of Ye Chen, and with some nervousness and fidgeting, she said, "Master Ye Ye, how have you been lately?"

Ye Chen smiled, "It's pretty good, why do you ask?"

Qin Ao Xue was busy explaining, "I heard that you have been particularly busy this time, and also went to Japan for sister Wan Ting's matter, in case you are overworked"

Ye Chen waved his hand, "No, this little thing is nothing to me."

Chapter 2296

"That's good!" Qin Ao Xue smiled sweetly, busy handing over the medicine box and the rosewood box to Ye Chen, introducing: "Master Ye, inside the medicine box are the herbs you need this time, my father has helped you to prepare them all. Just let me bring it to you."

Ye Chen was a bit surprised and said, "Four hundred years of excellent purple ginseng? Where does your dad get such good stuff?"

Qin Ao Xue threw up her tongue: "I don't know about this, my father usually receives medicine in a special channel, many medicine merchants and farmers in the South China Sea and North China are specialized in supplying him, whoever has some excellent medicinal herbs, they are also the first to take them to him for a look, I guess the medicine merchants received them and then sent them over."

Ye Chen nodded his head and thought, "The last time I refined thirty rejuvenation pills, I myself ate most of them, the rest of the points, selling and sending, basically also consumed almost, originally thought to have a chance to refine a little more, but also know that it's not easy to find the best quality purple ginseng over three hundred years, so I haven't found a chance to refine it, didn't expect Qin Gang this let Qin Ao Xue send it over"

In fact, although Ye Chen didn't have a 300 year old Premium Purple Ginseng in his hand, he did have a Thousand Year Snow Ginseng that Wei Liang had sent to him and that had been inherited from his mother's family.

The value of the Thousand Year Snow Ginseng was much higher than the three hundred year old Premium Purple Ginseng, and that kind of herb, if used to refine the Rejuvenation Pill, would be really a great waste.

According to the Jiu Xuan Heavenly Scriptures, the uses of Thousand Year Snow Ginseng were far more than the three hundred year old Premium Purple Ginseng!

Thinking of this, he took a closer look at this strain of Premium Purple Ginseng sent by Qin Ao Xue and couldn't help but exclaim, "The quality of this strain of Premium Purple Ginseng looks even better than the one I won at the auction before! Your father must have spent a lot of money too, right? Such an expensive gift is indeed somewhat deserved."

Qin Aoxue was busy saying, "Master Ye, you mustn't say that, with your kindness to our Qin family, not to mention a purple ginseng, even if you were to give all the assets of the Qin family to you, it would be the right thing to do!"

Ye Chen laughed and ridiculed, "You're really a pup selling your son's field without a heartache, your Qin family has worked hard for generations to build such a family business, and you gave it all away to me as soon as you asked?"

Saying that, he put away his joking tone and said seriously, "Alright, I'll take this purple ginseng, you help me thank your father, and also tell him that when I use this excellent purple ginseng to refine a pill, I will definitely give him one."

When Qin Ao Xue heard this, her heart was also excited, she even bowed and said, "That's really a big thank you to Master Ye!"

Ye Chen smiled slightly and said indifferently, "It should be, no need to be so polite."

After saying that, he said to her, "Ao Xue, come in and sit for a while, I will make you a cup of tea."

Qin Ao Xue subconsciously wanted to say yes, but on second thought, she was a little worried and asked, "Master Ye, is your wife at home? Would she be unhappy if she saw me come to the door?"

Ye Chen smiled: "How could it be, Chorán is very nice and treats guests very warmly, if he was at home now, he would have invited you in himself, it's not my turn at all."

Qin Ao Xue was surprised and asked, "Is your wife not at home?"

"No." Ye Chen casually said, "Her company is quite busy, she has already resumed work long ago, only my mother-in-law is at home."

Qin Ao Xue was busy: "Then I can't go in even more, in case your mother-in-law misunderstands, it will cause trouble for you."

Ye Chen smiled, "No no, my mother-in-law has suffered a little injury on her leg, and now she basically takes a nap in her room every afternoon, and when she wakes up, she basically doesn't go downstairs."

Only then did Qin Ao Xue put her mind at ease, and with a smile, she said, "Then I'll shamelessly beg for a cup of tea made by Master Ye!"

Ye Chen flashed his body, made an inviting gesture, and said, "Come in!"

Chapter 2297

Seeing Ye Chen's sincere invitation, Qin Ao Xue nodded and happily followed Ye Chen into the villa.

After entering the house, Ye Chen invited Qin Aoxue to take a seat on the living room sofa, then he took out the tea set and made a pot of tea for her.

Qin Aoxue carefully carried the tea made by Ye Chen and spoke, "Right Master Ye, I went to see Sister Wanting two days ago!"

"Oh?" Ye Chen asked curiously, "Did you go to her company or to her house?"

"Went to her house." Qin Ao Xue said, "I was worried that sister Wan Ting was in a bad mood after going through so many things, so I went to her home to see her."

Ye Chen nodded, remembering that he hadn't had time to visit her again since he had solved the Song family crisis and allowed Song Wanting to regain the Song family heir position, so he asked Qin Aoxue, "How is Wanting's current state?"

Qin Ao Xue tilted her head and said, "Sister Wan Ting is in pretty good shape."

Saying that, she remembered something, busy saying, "Right Master Ye, Sister Wanting's family has an Akita dog, especially purebred and cute, I don't think the whole Jinling can find an Akita with such a good pedigree, she said that your friend gave it to her?"

"Right." Ye Chen smiled, "When I was in Japan the other day, I brought her to stay at a Japanese friend's house, that Japanese friend had many Akita dogs at home, and when she saw that Wan Ting liked it, she gave her one."

Qin Ao Xue's eyes were filled with envy, and said, "Wan Ting's sister's Akita is called Little You, it's a girl, I've made a deal with her, when Little You grows up, I'll let Little You have a litter of puppies, and then I'll get one for her!"

Ye Chen smiled, "Then you have to wait at least a year."

Qin Ao Xue said, "It's fine, a year will pass quickly."

Saying that, she then asked Ye Chen, "Right Master Ye, do you have time in the last few days?"

Ye Chen curiously asked, "What's the matter?"

Qin Ao Xue said somewhat shyly, "It's like this since the last time I beat Itoh Cabbage in the competition and won the championship, I have been practicing hard at home, but I always feel that my progress is slow, I think the main thing is that I don't have a senior coach to teach me by hand, so if you have time, I would like to invite you to sit at my home again and give me some guidance by the way, I don't know if it's convenient for you, Master Ye"

Ye Chen thought about it and said with a smile, "That's a small matter, let's say, when I finish refining the medicine, I will naturally invite you all to sit down and have a meal together, and give you the medicine by the way, then I will bother your father to prepare a banquet at home and invite everyone to your home for a small gathering, I will go over a few hours earlier and give you guidance then. "

When Qin Ao Xue heard this, she said excitedly, "That's really great Master Ye! In that case, I'll go back and tell my father to prepare the best banquet at home!"

Ye Chen nodded and said with a smile, "By the way, do you know who gave your sister Wanting that Akita to her?"

Qin Ao Xue shook her head, "Sister Wan Ting said it was your friend, but she didn't say who exactly."

Ye Chen laughed, "It's the Itoh Cabbage that you won in the competition."

"Ah?!" Qin Ao Xue exclaimed in shock and spoke out, "It's her?"

Ye Chen smiled, "Yes, it's her."

Qin Ao Xue hurriedly asked, "Master Ye, how is Itoh Cabbage's injury? Last time in the competition, I didn't control the potency of the pills you gave me very well, so I injured her by mistake, and I don't know how well she's recovering."

Saying that, Qin Ao Xue sighed somewhat guiltily, "In fact, the strength of Cai Cai Zi has always been much stronger than me, the champion of that competition should have been her, I was completely dependent on the divine medicine you gave Master Ye, only in a short period of time to improve my strength, although I won the competition, but winning is not glorious"

In addition to the fact that you have passed the doping test, it proves that you have not taken any drugs that are banned by the competition. It's contraband, so it's all in line with the competition regulations."

Saying that, Ye Chen added, "It's like the black-tech shark skin bionic swimsuit that swimmers used to use exclusively for competitions."

"This bionic high-tech swimsuit can make swimmers greatly reduce the resistance in the water, and American swimmers, including Phelps, have broken 14 world records in just one month with the shark swimsuit, and Phelps alone has won more than twenty Olympic gold medals."

"Among them, naturally, there is no help from this kind of swimsuit, but at that time, none of the rules of the competition explicitly forbade this kind of swimsuit, so people's gold medals won peace of mind, nothing dishonorable."

Qin Ao Xue nodded gently and said, "I understand what you mean."

Ye Chen smiled slightly: "Competition, playing with the rules, so in this regard you do not need to have any psychological burden, not only can you not have a psychological burden, in the future, you have to continue to participate in such international competitions, strive to win more glory for the country!"

Qin Aoxue hurriedly said, "Okay Master Ye, Aoxue will definitely do her best and win a few more championships in the future!"

Saying that, Qin Aoxue looked at the time and said somewhat shyly, "Master Ye, you must have something else to do in the afternoon, Aoxue will not bother you much, you must not forget what you have just agreed to do."

Ye Chen nodded his head and said, "Don't worry, I will contact your father after I have refined the medicine."

Qin Aoxue nodded, stood up and said respectfully, "Master Ye, then you stay, Aoxue will take her leave first!"

Ye Chen also stood up and said, "I'll send you."

Chapter 2298

After sending Qin Ao Xue out of the house and seeing her off, Ye Chen took the medicinal herbs she had sent and went back to his bedroom on the second floor with Xiao Churan.

These medicinal herbs sent by Qin Ao Xue were enough for him to refine a batch of wound healing pills and a batch of rejuvenation pills.

The pills to cure injuries were no longer of any use to him, but this kind of medicine did still have a great effect on ordinary people, Song Wanting had met with misfortune in Japan at that time, and relied on that one pill to save her life.

So, refining a batch of these pills and giving them to Qin Gang, Wang Zhengang, as well as Li Tailai and Shi Tianqi could be regarded as his own reward for their gifts years ago.

As for the Rejuvenation Pill, Ye Chen also planned to make another batch, one of which would be given to Qin Gang, while the rest could be kept for emergencies.

In one afternoon, Ye Chen had refined thirty each of the ordinary wound healing pills and the rejuvenation pills.

Looking at this batch of newly concocted pills, Ye Chen suddenly thought of his mother-in-law, Ma Lan, at a certain moment.

In fact, for an injury as small as a broken leg, at most a quarter of the healing pills would keep her alive.

And in her own hand, there were as many as thirty of them.

Calculated, it was enough to break her leg a hundred and twenty times.

At this moment, Ye Chen also hesitated whether or not to reward her with a bit of medicinal residue so that she could recover sooner.

But on second thought, he immediately dismissed the idea and muttered, "Forget it, she doesn't deserve it!"

While Ye Chen was refining the pills, Du Zhenhua, who was far away in Yanjing, made a call to Lai Qinghua, who was on the other side of the ocean.

Lai Qinghua was nearly a hundred years old, but was still in a very robust physical state because of the rejuvenation pills he took.

He usually wakes up at five o'clock in the morning and plays a set of Taijiquan and then a set of Five Animal Fist in order to strengthen his body.

After the boxing, he would go to his study and use the three ancient coins to simply give himself a divination.

Three ancient coins divination, is the most commonly used hexagrams eight trigrams.

Unlike most feng shui masters, Lai Qinghua's three ancient coins were almost all treasures among the ancient coins.

The largest one was the invaluable Warring States Three Hole Cloth.

The remaining two, both extremely rare in the world, are Taixia Zhenxing.

Many people who had played with ancient coins all their lives might not have the opportunity to see one of them.

Just as he was finishing his trigram and comprehending the trigrams presented by the few coins in front of him, Du Zhenhua's phone call came in.

Lai Qinghua answered the phone and smiled slightly, "I was curious why today's gossip seemed like a visit from an old friend, while the inner image seemed to be separated by a thousand mountains and rivers, but I didn't expect your call to come."

Du Zhenhua exclaimed, "Master Lai is truly brilliant, I admire, admire, ah!"

Lai Qinghua laughed, "Zhenhua, there's no need to be so skittish between you and me, what do you want to see me about so early in the morning?"

Du Zhenhua was busy saying, "Master Lai, it's like this, I have a granddaughter who has been trying to find her savior, but after looking for a long time I still found nothing, so I would like to ask you to help me start a fortune and give her a little hint, I don't know if it's convenient for you."

Lai Qinghua smiled, "This granddaughter of yours does know how to know how to repay her kindness, in that case, you give me her birthdate, and then tell me the approximate clues about her rescue, I'll take a gossip to see."

Du Zhenhua hurriedly informed Lai Qinghua of Su Zhiyu's birthdate and the approximate time and course of her and Su Zhifei's kidnapping encounter in Japan.

Lai Qinghua muttered to himself, "The incident happened in Japan, Japan is east of China, and the east is in feng shui terms, it is the position of the Green Dragon"

Saying that, Lai Qinghua pinched his fingers to calculate, then grabbed the ancient money on the table, closed his eyes and shook it in his hand for a moment, then threw it out immediately afterwards.

This look didn't matter, his eyebrows immediately furrowed and he spoke, "Strange! Zhenhua, there is a dragon finding omen in your granddaughter's fortune telling!"

"Seeking the dragon?!" Du Zhenhua was surprised and asked, "Master Lai, what do you mean by seeking the dragon?"

Lai Ching-Hua squarely said, "The search is the search of the search, the dragon is the dragon of the true dragon, and this gossip shows that the person your granddaughter is looking for has an extremely strong and uncomplicated destiny!"

Chapter 2299

When Du Zhenhua heard this, although he was surprised, he was not without joy.

He couldn't help but smile, "Master Lai, this person is said to be able to kill a number of top ninjas in Japan with his own strength, his strength is truly extraordinary, it should be normal for him to have a harder fate, right?"

Lai Qinghua said very seriously, "Zhenhua, there are a lot of people with hard fates, not to mention anything else, but any widow who has a husband is as hard as iron, but the fate of a true dragon is extremely rare, if put in ancient times, I don't dare to say that it can definitely achieve nine or five, at least it would have to be a king and a general, not a mortal ah."

Du Zhenhua was silent for a moment and said seriously, "Master Lai, that granddaughter of mine really wants to find this person, I wonder if you could give me a hint?"

Lai Qinghua exclaimed, "This man's destiny is superior to mine, I, I can't see through it."

Du Zhenhua exclaimed, "Master Lai, and the destiny you can't see through?!"

Lai Qinghua laughed bitterly and said seriously, "Fate is something like an ancient official title, since ancient times, an official's rank is overwhelming, and a level bigger than me is something beyond my ability and in any case, I can't see through."

Du Zhenhua was surprised and asked, "If you can't see through it, then how do you know that he is the fate of a true dragon?"

Lai Qinghua smiled, "My destiny is a python, in the laws of feng shui destiny, python is second only to dragon, so the only one above me is the dragon. It's like a prime minister, the only one who can override him is the 9-5, and as long as I can't see through the destiny, it must be the true dragon's destiny."

Saying that, he recalled Ye Chen's appearance in his mind, and said with full respect in his tone, "I once had the honor of meeting a person with the fate of a true dragon, and the skills on that person were already beyond the imagination of mortals, although I don't know how much skill this person your granddaughter met has, but I don't think it's not bad"

To Ye Chen, Lai Qinghua has always been filled with reverence.

In the beginning, he calculated that he was approaching the end of his life, and at the same time he calculated that the East had the chance to extend his life, so he agreed to Ye Zhongquan's request to go to Yanjing and find a feng shui treasure land for the Ye family.

It was only when he arrived at the Ye family that he saw that Ye Chen was in a situation where the dragon was trapped in the shallows.

At that time, Ye Chen's entire life was at the lowest valley of his life as well as destiny, and his destiny was no match for him.

That's why he was able to calculate Ye Chen's fate of the time.

Ever since he broke the dragon trapped in the shallows, Ye Chen's destiny soared to the sky and from that moment on, he could no longer see Ye Chen's destiny.

Right now, he couldn't figure out who the person Su Zhiyu was looking for was, so he could also conclude that the person Su Zhiyu was looking for was the fate of a true dragon.

When Du Zhenhua heard this, he sighed helplessly and said, "So it seems that if this granddaughter of mine wants to find this person, I'm afraid she'll have to do more work!"

Lai Qinghua said seriously, "Zhenhua, I don't really recommend your granddaughter to continue looking."

Du Zhenhua was surprised and asked, "Why? Master Lai, what do I say to that?"

Lai Qinghua earnestly said, "The divination shows that this granddaughter of yours and the person she is looking for clash with each other's life forms, and the other is the supreme and strongest Dragon, it's like a bicycle and a heavy-duty train moving at high speed, if the two don't collide, they will naturally be able to get along, but if they do, the bicycle will have no chance of winning."

When Du Zhenhua heard this, his entire body couldn't help but suck in a breath of cold air.

He was extremely trusting of Lai Qinghua.

So, he hurriedly said, "Master Lai, thank you for your reminder, I'll call that granddaughter of mine and tell her not to look any further."

Ye Fan Chapter 2300

Lai Qinghua gave a hmmm and said seriously, "It's time to make her stop, or else she'll be like a moth to a flame, and she'll end up hurting herself."

Du Zhenhua thanked him repeatedly, then hurriedly hung up the phone, followed by sending a video call over to Su Zhiyu.

The reason why he was sending a video call was because he knew that when the other party picked up the video call, they would directly default to using the speaker, so that what he was about to say could be heard not only by Su Zhiyu, but also by his daughter Du Haiqing and grandson Su Zhifei.

What Du Zhenhua is afraid of is that Su Zhiyu doesn't believe in divination and gossip, if she is explicitly told that there is a tiger in the mountain, she is likely to not only not retreat, but also prefer the tiger mountain.

So, he wanted to tell Du Haiqing's family this in front of them, even if he couldn't persuade Su Zhiyu, Du Haiqing and Su Zhi Fei.

It was dinner time, Su Zhiyu was indeed eating with her mother and brother, and when she received a video call from her grandfather, she was suddenly delighted, thinking that the divination had already yielded results, so she immediately pressed the call button.

The video was connected, and Du Zhenhua asked with a smiling face, "What are you doing, Zhiyu ah?"

Su Zhiyu was busy, "I'm getting ready to eat Grandpa, how about you?"

Du Zhenhua smiled and said, "I've finished eating."

After saying that, he asked, "Where are your mother and your brother?"

Su Zhiyu immediately switched the camera and took both her mother and brother in, saying, "Mom and brother are here, by the way grandpa, have you had that master help with the math yet?"

Du Zhenhua nodded and said, "It's counted."

Su Zhiyu could not hide her excitement and asked, "Really? Did that master give any clear clues?"

Du Zhenhua hesitated for a moment, sighed softly, and said, "Zhiye ah, Master Lai helped you with a divination, but the divination shows that the person you're looking for has an extremely high destiny and is extremely hard, so even Master Lai can't see any clues related to him."

"Huh?" Su Zhiyu was incredibly disappointed and said, "Grandfather, didn't you say that this Master Lai is very good? Why can't you find any clues at all?"

Du Zhenhua explained, "It's not that I can't find a clue, it's that I can't see through it, even Master Lai's destiny is a little lower than the one you're looking for."

Su Zhiyu said in annoyance, "What lower and higher, I think that Master Lai just couldn't find any clues, so I found an excuse to justify it."

Du Haiqing hurriedly said, "Zhiyu, don't be rude!"

Su Zhiyu blurted out, "Mom, isn't what I said the truth? Isn't that Master Lai just looking for excuses to cover up his incompetence if he can find out and says he can't, but has to say something superior and inferior?"

Su Zhi Fei at the side spoke up, "Zhi Fish, you shouldn't be so extreme, if it's really those Jiang Hu liars, he definitely won't tell you one thing he can't see through, he'll only give you some ambiguous or unfounded words."

"For example, if you're looking for someone, he'll probably tell you faithfully that the person you're looking for is in the northwest, and then let you find the rest on your own, as to whether you can find them or not, it doesn't really have anything to do with him."

"And since this Master Lai can directly say that he can't see through it, then I'm sure it's no excuse."

Although Su Zhiyu didn't believe in this, he didn't want to argue too much with his family at this point, so he could only say, "Since even this Master Lai can't see through it, then I'll just rely on myself to find it slowly."

Du Zhenhua then hurriedly said, "Zhiyu ah, listen to grandfather's advice, this person should stop looking for him."
