

Identity 2331

Chapter 2331

Walter's words, so that Wang Dongxue's heart suddenly tightened, that strong sense of oppression, so that her entire body feels like it is about to suffocate.

Although she was very disgusted and even hated the offer that Walter had given her, she also knew very well in her heart that this kidney source that Walter had found far away in the United States was the only kidney source that she currently knew of that could match her father's type, and nothing else.

If this kidney source was really bought by someone else, then he would have completely lost all hope.

Wang Dongxue had studied in the United States back then, so she knew the situation in the United States very well.

Compared to Warsaw, the overall level of rule of law in the United States was relatively loose.

Not only was there a proliferation of guns and drugs, even the trade in human organs had no controls to speak of.

If a person wanted to sell their kidneys, even in an American veterinary hospital, they would be able to complete the kidney removal surgery, and everything was very easy.

This also means that if this donor finds the right seller, he can sell the kidney in almost a meal.

Once the kidney was removed, it would immediately be shipped to the buyer in the fastest way possible.

In that case, he would no longer have a chance

However, Wang Dongxue was still unable to make a decision in her heart.

After all, the cost of wanting to leave this kidney source for father was too great.

It was even so big that it would require one to sacrifice everything of oneself.

Her own chastity, her own career, her own morals, and even her own life.

Walter saw her expression struggling immensely, deliberately smiled slightly and said seriously, "Winter Snow, since you are so difficult to decide, then forget it, you should not embarrass yourself anymore, I'll tell the other party that I don't want this kidney, let him sell it to the French himself, this will also save you from being so torn and sad, what do you think?"

As soon as the words were out of his mouth, Walter had pulled out his phone.

Almost unconsciously, Wang Dongxue blurted out, "No! Walter! No!"

Walter smiles and asks, "What? Have you changed your mind?"

Said Walter with a serious face and continued: "Winter snow, in fact, I give you a really good deal, you do not have to be so resistant, you dedicate your ten years of youth to me, and I give you a return, is 20 years or even 30 years you can not earn back, ten years later you are only 30 years old, there are plenty of opportunities, with a lot of cash, to start your life again! ."

"As for the children you have given me in the past ten years, if you think they will become a burden to you in the future, they can all be brought back to the United States to be raised by me."

"In that case, ten years from now, you will be a single woman worth hundreds of millions, even billions!"

"In the words of you Chinese, you are a typical diamond king."

"What could be more wonderful in life than to have countless 20-something, handsome young men who will be on their knees around you licking like dogs?"

Wang Dongxue's face was expressionless and silent, while her mother, who was crying on the sofa, could not stand it anymore and covered her ears with her hands.

She really wanted to throw Walter out, even fight out, but she and Wang Dongxue shared the same concerns.

Throwing Walter out is very easy, but that would also be tantamount to closing the door on the survival of Wang Dongxue's father.

Using the life of the other side of the family as a blackmail, Walter can be said to have done it to the extreme.

Chapter 2332

Wang Dongxue was silent for a long time and spoke up, "Walter, if I agree to be your lover and go to work for your company, can you promise me that you won't force me to divulge any of the Empire Group's trade secrets?"

When Walter heard this, he frowned and opened his mouth to ask, "Why are you so loyal to this company when you are nothing more than a professional manager at Imperial?"

Wang Dongxue said seriously, "It's the bottom of my professional ethics!"

Walter sneered, "Winter Snow, your value to me has a total of three aspects. The first aspect is your body the second aspect is your ability; and the third aspect is your mastery of the core secrets of the Imperial Group, these three aspects are indispensable in my opinion!"

Wang Dongxue questioned through gritted teeth, "Does it have to be like this Walter? I can agree to so many of your most nasty conditions, don't you have any room to bargain with me at all?!"

Walter smiled, "It's not that the room for bargaining can't be left, but the minimum principles can't be lost, for example, these three aspects, I insist that one of them is indispensable, but if you have a little problem with the details of one of them, we can discuss it instead."

At this point, Walter smiled flippantly and opened his mouth, "You for example, I am a person who loves children, and I also firmly believe in the reverence of the four words of the Chinese people regarding the prosperity of people, according to my plan, you follow me for ten years, at least give me five children, but if you think that five children is too much, you can bargain with me, and if you finally decide to give me three, I think also It's acceptable, and that, that's what I approve of as a counter-offer, do you understand?"

Wang Dongxue boarded up and snapped, "Walter! You're just a beast!"

Walter smiled and said, "I'm flattered, my father has always taught me that man, beastly!"

"He was fond of the famous quote from one of your Warsaw sci-fi authors: for humans, much is lost if they lose their humanity, but everything is lost if they lose their bestiality!"

"The reason humans have survived and climbed to the top of the food chain in such a cruel society is because of bestiality!"

"Aren't cows and sheep cute? Cute, but humans just have to slaughter it for meat to fill their bellies!"

"Aren't foxes and mink cute? It's cute too, but humans are trying to protect them from the cold by taking their skin off and making clothes out of them!"

"Humans love sashimi, so they take the meat from living seafood!"

"Humans love foie gras, so they fill the stomachs of geese with food!"

"Mankind hates rats, so they will kill them!"

"Humans hate mosquitoes, so they invest huge amounts of money to develop all kinds of poisons that only work on mosquitoes!"

"This, is bestiality!"

"To put it bluntly, all beastly creatures are beasts! They're all animals!"

"So, the beast does not mean anything derogatory to me; rather, it is a compliment to me!"

With that, he stared at Wang Dongxue, sneered, and said, "Dongxue, for the sake of classmates, I'll help you again."

"Later I'll have my men in the U.S. pay that kidney donor \$20,000 as a down payment to keep that kidney for me for another 24 hours!"

"This is the last 24 hours left for you to make a decision!"

"In 24 hours, if you still don't accept my terms, then prepare your father's funeral."

"When the time comes, I will buy the best wreath in all of Jinling and personally deliver it to the funeral home!"

Chapter 2333

After Walter finished this speech, he turned around and left the hospital room.

Wang Dongxue looked at his back, the whole body trembled with anger.

Her mother Sun Yufang full of tears walked forward, pulling her hand, choking: "Dongxue, forget it, give it up, Mom really can not stand to see you jump into Walter that fire pit"

Wang Dongxue eyes a sore, tears do not dike: "Mom, Dad does not have much time left now" If you can't get this kidney source, then half a month's time may be"

Sun Yufang forcefully slapped her hands a few times, although painful, but still determined to say: "I and your father, have lived more than fifty years, the past fifty years, we have lived a full, happy, rich, also very satisfied, if your father is gone, I do not have any regret in my heart, after all, our mother and father have tried their best" "

Wang Dongxue choked: "Mom You did your best, but I haven't If I say yes to Walter, Dad's life will continue, and if I give up this time, for decades to come, I will probably live in guilt and be unable to escape It's likely that I'll never forgive myself in this life until I die" "

Sun Yufang asked her back, "Winter Snow, if you save your father's life in this way, your father may not be able to forgive himself in these next few decades ah! You brought him back to life and let him watch you live in dire straits every day, this could be even more cruel than death to him" "

Wang Dongxue hesitated for a moment, sighed heavily and spoke, "Hey Mom This matter, let me think about it again, there is still an hour left, I will consider it carefully" "

Sun Yufang wanted to say something, but the words were still swallowed back as they came to her mouth.

At a time like this, she didn't want to guide Wang Dongxue's decision too much, after all, this kind of thing, no matter how it was chosen, was full of pain behind it.

.....

When Ye Chen arrived at Qin Gang's house, none of the other guests had arrived yet.

The time of the dinner party was seven o'clock in the afternoon, and at this time, it was not not two o'clock in the afternoon.

When Ye Chen arrived at the villa by car, Qin Gang had already brought Qin Ao Xue and Qin Ao Dong, and was waiting anxiously at the door.

Qin Gang was in an extremely good mood today, because Ye Chen was not only hosting a banquet in his house, but also promised to give him a rejuvenation pill.

This time, Ye Chen had refined two kinds of pills.

It is a relatively low-grade pill that can cure all diseases and prolong the life of the patient to a certain extent, but it does not have the miraculous effect of the Rejuvenation Pill that can make the body more than ten or twenty years younger.

What he planned to do was to give each of the people who came to the banquet today one of these pills as his own return gift to them.

In addition, since Qin Gang had asked Qin Aoxue to give him a 400-year-old purple ginseng a few days ago, so that he was able to concoct 30 rejuvenation pills, he was going to give Qin Gang an additional rejuvenation pill.

As soon as Ye Chen parked his car, Qin Gang eagerly welcomed him with his daughter and nephew, saying respectfully, "Master Ye, you are here."

Pepper Qin Aoxue, also very blushing with shame, said: "Aoxue welcomes Master Ye!"

Qin Aodong followed suit and said respectfully, "Aodong welcomes Master Ye."

Ye Chen nodded gently and said with a smile, "Mr. Qin, I'm really a little disturbed that you chose to host the banquet at your house today."

Qin Gang hurriedly arched his hands and said, "Master Ye is too polite! It is a blessing for me that you have chosen to host a banquet at my house, and it is also a blessing for me that you have come."

Ye Chen smiled slightly, waved his hand and said: "Okay, polite words, and business blowing each other, let's not talk, let's go in first to talk, I also plan to give Aoxue some guidance this afternoon."

As soon as Qin Gang heard this, he immediately smiled and flashed away, respectfully made an inviting pose, and piously said: "Master Ye, you first!"

The Qin family's villa, which is located by the lake, was visited by Ye Chen once.

Chapter 2334

Pepper Qin Ao Xue also specially drove a speedboat to carry him to swim a large circle on the lake.

However, the weather is still cold at the moment, and the scenery of the lake is more or less depressed, not as lush and vibrant as it was last time I was here.

So, Ye Chen said to Qin Gang in passing, "Mr. Qin, this villa is slightly lacking in vitality once it's winter, don't look at these trees and grass are only temporarily withered, but in Feng Shui, these have to be considered as dead things, so it's better to try not to live here before spring, it will more or less have a little impact on your body and luck."

As soon as Qin Gang heard this, he said, "Oops! Thank you Master Ye for reminding us, in that case, we'll move back to the city tomorrow!"

Qin Ao Xue subconsciously said, "Dad! Why don't we buy a villa at Tomson? Not only is it a big place, but you can be neighbors with Master Ye!"

Qin Gang smacked his lips and muttered, "It's indeed a good idea, but all the villas in Thompson's were bought up when they went on sale, and I don't know if there's anyone reselling them outside, I'll have someone ask around later!"

Qin Ao Xue said with great joy, "That's really good!"

Saying that, Qin Ao Xue looked towards Ye Chen and shyly asked, "Master Ye, if we move to Thomson, we won't bother you, right?"

Ye Chen smiled, "Why not, if we really moved here, it would be a good thing for us to be neighbors."

As soon as he heard Ye Chen state his position, Qin Gang put his mind at ease and said with a smile, "Since Master Ye has said so, then Qin Mou will pay attention to it for the next two days!"

Qin Ao Xue's heart was naturally happy.

She actually didn't want to live in such a large and remote mansion at all, the main reason why she was living here was because there was a very complete set of training rooms, whether it was the size or the facilities, it was no inferior to those professional training rooms in the city.

However, if one really had the chance to be a neighbor to Ye Chen in the future, it wouldn't matter even if one didn't have such a good training room!

In the middle of the conversation, Ye Chen stepped into the living room accompanied by the three members of the Qin family.

Qin Gang invited Ye Chen to sit down on the sofa, and then he personally brewed a cup of good Golden Cymbidium black tea for Ye Sheng.

"Master Ye, this Golden Cymbidium, which I specifically found from Mount Wuyi, is of excellent quality, please try it."

Ye Chen nodded, took a sip of tea from his cup and said with a smile, "The tea broth is sweet in fragrance, the mouth is sweet and lubricious, and the aftertaste is lingering, it is indeed good tea!"

Qin Gang busily said, "Since Master Ye likes it, I'll bring you two pounds to try it later!"

Ye Chen thought that the old father-in-law loved tea, so he wasn't too polite and said with a smile, "Then it's up to Mr. Qin."

In fact, the master tea maker Qin Gang had entrusted to find the Golden Cymbidium tea, had fried a total of ten pounds of black tea last year.

Of this, Qin Gang himself bought two and a half pounds at a high price, accounting for a quarter of it.

Originally, it was Qin Gang's plan to keep it for a whole year's rations, and by now he had already drunk four taels, leaving about two catties and one tael left, but once he saw that Ye Chen liked it, he was ready to serve two catties of it in full without hesitation.

Ye Chen of course never took anything from others for free, and when he put down his teacup, he reached into the pocket of his jacket and pulled out two small boxes of rosewood.

Qin Gang looked at the two wooden boxes in Ye Chen's hands, so nervous that he couldn't even stop breathing, and waited with bated breath for the contents of these two wooden boxes

He knew that with Ye Chen's character of saying one thing and not another, one of these two wooden boxes must contain the rejuvenation pills that made him dream and dream of himself!

Chapter 2335

Under Qin Gang's gaze, Ye Chen handed the two wooden boxes to him and said, "Mr. Qin, the two pills inside are my small token of appreciation. The one on the right, which is slightly larger in size and darker in color, is the blood dispersing and heart saving pill I gave you before; as for the one on the left, which is slightly smaller in size and brighter in color, it is the newly made one. The rejuvenation pills are now."

Qin Gang's entire body was thrilled with no way to attach it, and he shivered and said, "Ye Master Ye How can I be worthy of having you send Qin such a valuable rejuvenation pills, this This"

If this rejuvenation pill is put on the market and auctioned, it can be sold for two to three billion dollars, it's really It's really too valuable"

Although Qin Gang was incomparably looking forward to the Rejuvenation Pill, he knew deep down that the value of the Rejuvenation Pill was too high and too valuable, far from being comparable to the four hundred year old superb purple ginseng that he had given Ye Chen.

Therefore, when Ye Chen brought out the Rejuvenation Pill, Qin Gang, deep inside, backed up a bit.

This also reflected Qin Gang's character from some aspects.

If it was someone who only knew how to take advantage, and someone gave such a valuable thing, they would naturally accept it without hesitation, lest the other party go back on their word.

But if it was this kind of person who knew how to take advantage of rituals, then the first thought that came to his mind when he received it from someone else, the valuable thing was how he should repay the favor.

The Qin family was rich, and their assets added up, but it was at the level of ten billion.

Most of this was real estate, as well as the market value of the business, and the amount of cash that was truly freely available was actually just a handful of hundred million.

If Qin Gang really had to take out two billion in cash to buy a rejuvenation pill, he would also feel overwhelmed.

Now that Ye Chen had given him such an expensive pill, he was inevitably a little terrified deep inside.

Ye Chen saw that his expression was torn and with a bit of apprehension, he smiled slightly and spoke, "Mr. Qin, how much the Rejuvenation Pill can be sold for is not something you need to be concerned about, because I am not refining something like the Rejuvenation Pill to make money per se."

"Over this period of time, I have successively taken out a batch of rejuvenation pills as well, but as you know, the only one that was actually sold was the one from Li Tailai, and the rest were basically given to friends or taken out to save the day when a friend was in trouble."

At this point, Ye Chen continued, "The most important medicinal herb for refining the Spring Return Pill is the finest purple ginseng that is over a hundred years old, the one you had Ao Xue send to me last time was of even better quality than the one I sold at the auction last time, so I'll take it that you used that finest purple ginseng to take a stake in it."

Ye Chen said, not smiling, and said, "Then in that case, you are also considered one of the shareholders of this batch of rejuvenation pills, and now this rejuvenation pill is the reward for your shareholding, what else are you embarrassed to accept?"

As soon as Qin Gang heard this, his entire heart had been moved beyond words.

He knew very well in his heart that the reason why Ye Chen said that was to take care of his own feelings, so that he could accept the Springback Pill more peacefully.

Moreover, he also realized that after Ye Chen said that, in his heart, he really wasn't as torn up as he was just now.

Of course, he was also well aware that Ye Chen was only saying this because he was giving face to himself by offering a Purple Ginseng, but he was actually not talking about his shares at all.

One had to know that the price of such an excellent purple ginseng would probably be around four to five million.

Chapter 2336

The reason why the last time it had fetched 100 million at the auction was entirely because Ye Chen had deliberately confronted Xiao Yiqian and forcefully flipped the price up.

Even if it was really an equity stake, the cost of four to five million would not be able to return two to three billion in return, so no matter what, it was truly a great favor for Ye Chen to give himself a Rejuvenation Pill.

When he thought of this, he immediately got up, took a step forward, fell on his knees, cupped his hands and said respectfully, "Master Ye's great kindness, I have no teeth to forget, please accept my worship!"

Ye Chen assisted him up with one hand and said with a smile, "Take the pills and put them away quickly, of all the people I invited today, only you are the only one who has the rejuvenation pills, so please keep it a secret for me, don't let anyone else know about it, otherwise I'm also afraid that everyone will think too much in their hearts."

Qin Gang immediately nodded his head and said firmly, "Master Ye, don't worry, to death, I won't reveal this matter to anyone."

After saying that, he hurriedly instructed Qin Ao Xue and Qin Aodong, "Listen to me, both of you, never, never reveal half a word about the Springback Pill to the public, understand?!"

Qin Ao Xue and Qin Aodong said at the same time, "Understood!"

Qin Gang looked at Qin Ao Dong and said seriously, "Ao Dong, you kid has gotten into trouble before and went so far as to hang out with that Yu Jing Hai from Hong Kong, so you must take this as a warning, while keeping in mind what I just said, understand?"

How dare Qin Aodong say half a word, immediately stated, "Second Uncle I know, don't worry, if I dare to reveal half a word to the public, let Master Ye strike me to death with a heavenly thunderbolt."

Only then was Qin Gang satisfied, turned to Ye Chen and said, "Master Ye, Ao Xue has always treated you with incomparable respect, you can rest assured, although this child Ao Dong used to be a bit of a jerk, but this time is indeed much more honest, you do not need to worry."

Ye Chen nodded his head and smiled, "Alright Qin, you quickly put this rejuvenation pill in the safest place in your villa, I, the reason I came so early is to give Ao Xue some more guidance, so I won't waste any time here."

Qin Gang immediately said, "No problem Master Ye!"

Saying that, he turned to Qin Ao Xue and spoke, "Ao Xue, you take Master Ye to the practice room."

Qin Aoxue's heart was both shy and happy, nodding her head, "Master Ye, please follow Aoxue to the practice room."

Ye Chen nodded and got up to join Qin Ao Xue and went to her practice room.

When she arrived at the practice room, Qin Aoxue said to Ye Chen, "Master Ye, Aoxue has been practicing diligently lately, but it always feels like the overall progress is very slow, and it's almost hard to even make any significant progress, is it possible that the effect of the pills you gave Aoxue before is so strong that I'm now unable to bring my strength up any further by practicing?"

Ye Chen smiled slightly and opened his mouth, "Those loose fighting techniques you usually practice are like a five-year-old child who needs to hold a basketball with both hands to practice shooting, and that pill is equivalent to giving you the abilities of an NBA player all of a sudden, in this case, if you still practice basketball the way a five-year-old child does, it won't have any effect on your overall strength! Too great an improvement, instead, it's a great waste to your current abilities."

Qin Aoxue couldn't help but nod her head and sighed, "I won't hide it from you Master Ye, Aoxue does have this feeling recently, I always feel that with my current physical quality, it's a bit of a waste to continue practicing my loose fighting techniques, but I don't know what else I can practice other than these loose fighting techniques"

Ye Chen nodded his head and smiled, "That's why I came over early today, I want to give you a new route in the direction of martial arts!"

Chapter 2337

"A new route?!"

Qin Ao Xue was not surprised: "Master Ye, what do you mean by changing the route ah? Did Is it going to make me practice judo or taekwondo or something?"

"Of course not. Xuan" Ye Chen smiled profoundly and said seriously, "Whether it's our country's ordinary traditional martial arts, or Taekwondo, Intercepted Fist Do, Shotokan, Combat, Fighting, Boxing, they are actually all on the same path, and if you change back and forth between them, you can only change directions at most, not to mention a completely new route. Say "

Qin Aoxue was puzzled and asked, "Master Ye, what you said, Aoxue is a bit confused, these items are now common competitive martial arts items, if I don't practice these, then what should I practice?"

Ye Chen said indifferently, "Have you ever heard of internal martial arts?"

"Internal boxing?!" Qin Ao Xue was stunned and asked, "Is it Is it the most core, most secret boxing technique of those top martial arts families?"

Ye Chen laughed and said, "Right. Hen."

Qin Ao Xue said off the cuff, "Master Ye I have heard of the four major martial arts families of Huaxia, it seems that each of them has their own set of internal martial arts skills, this has always been

the secret of their families, only the direct blood relatives of the family will be passed down, outsiders will not be able to learn it even if they spend a lot of money, I Can I have such an opportunity?"

In Qin Ao Xue's opinion, internal martial arts was simply not something she could have the opportunity to practice. Hen.

This kind of internal martial art is the hidden secret of the top martial arts families, and is also the core of the family's survival, just like the secret formula of medicine, it will never be revealed to outsiders.

Therefore, even though Qin Gang already had a ten billion dollar fortune, his daughter, Qin Ao Xue, could only practice fighting and scattering such a big road product.

A martial arts family that has mastered the internal martial arts method is even a very small handful of the top in the martial arts field.

And such a family was far beyond the control of a family of the Qin family's size.

The four martial arts families of Huaxia are almost all trillion-dollar top families, and even if they depend on these top families to survive, the martial arts families will never give up their internal martial arts techniques, because this is the key to their ability to survive.

However, the internal martial art, which is highly respected by martial arts people, is worthless in Ye Chen's eyes.

In the Jiu Xuan Heavenly Sutra, there were at least hundreds of internal martial arts techniques of different levels, and these were only some very low-end techniques.

In fact, the really powerful techniques are not internal martial arts at all, but true qi and aura.

If we measure the difference between the internal martial arts and the true qi and aura by the voltage and current, the internal martial arts is like an ordinary No. 5 battery, with a voltage of only 1.5 volts, and the current is so small that it is negligible.

Compared with true qi and spiritual energy, the internal martial arts are like extra high-voltage electricity, starting at half a million volts or even a million volts.

The difference is simply worlds apart.

Therefore, Ye Chen didn't even take the internal boxing techniques in the Jiu Xuan Heavenly Sutra into consideration.

It's just that he found that Qin Aoxue can't find a suitable boxing method to practice, so he suddenly thought of these internal boxing methods and was ready to pick one of them for Qin Aoxue to practice.

So, he smiled and said to Qin Aoxue, "I just know an internal martial art that is suitable for girls to practice, called Four Elephant Palm, if you are interested, I can teach you to practice."

As soon as Qin Ao Xue heard this, the whole person was shocked and unable to speak!

She doesn't know what the Four Elephant Palm is, but as long as it's in the category of internal martial arts, it's priceless!

Chapter 2338

And Ye Chen was now willing to teach himself this priceless treasure, what a gift it had to be. pride

Ye Chen saw that Qin Ao Xue didn't speak, so he smiled and asked her, "What, don't like it? Do you want a different one?"

"No no no!" Qin Aoxue's eyes filled with tears, waving her hands in a row, "Master Ye, Aoxue doesn't dislike it, Aoxue just finds it too incredible For many martial arts families, the internal family boxing method is a family heirloom, the basis of the family's foothold, never to be passed on to outsiders, and even many are only passed on to men but not women, how are you willing to teach such a precious internal family boxing method to Ao Xue"

Ye Chen smiled, "In the eyes of others, this internal fist technique may indeed be very precious, but in my eyes, it's really nothing, this Four Elephant Palm, you just practice it first, if one day I feel that it's no longer worthy of your strength, I'll give you another one. Xuan"

What exactly does the so-called "Four Elephant Palm" mean? Again, who left behind the internal martial art, Ye Chen didn't really know, he only knew that in the records of the Nine Xuantian Scriptures, this internal martial art was more suitable for girls to practice.

Moreover, in the records, the Four Elephant Palm was divided into a total of nine layers, and the technique was also divided into nine parts from one layer to nine layers, so Ye Chen wrote out the first layer and gave it to Qin Ao Xue.

It wasn't that Ye Chen was stingy, but this kind of internal heart technique was like a student's textbook, with different grades corresponding to different levels.

If one was just about to move from preschool to elementary school, the best way to do so was to get down to the first semester of the first grade of elementary school to learn the textbook. .

If at this point, throwing the entire 9 years of compulsory education all the textbooks to her, instead, she would lose her priorities at once.

Therefore, Ye Chen's idea was to give her the first layer of the Four Elephant Palm to get her into the internal martial arts first, and if she practiced well and made rapid progress, then he would give her the second layer at that time.

For Qin Ao Xue, the Four Elephant Palm's Heart Technique was almost like opening a new world door to her perception.

She carefully looked at the entire set of heart techniques and fiddled with them, "Master Ye, I I can't seem to understand it There are so many names of acupuncture points and meridians in this, what does it mean?"

Ye Chen smiled slightly and explained, "The biggest difference between internal and external martial arts is that there is an additional internal qi."

As he said, he said seriously, "As the saying goes, one breath of qi is trained internally, and the skin and bones are trained externally, and the most important thing in internal martial arts is that qi in the body."

Qin Ao Xue hurriedly asked him, "Then how to train a breath of qi internally? I simply can't perceive those acupuncture points and meridians"

Ye Chen smiled, "An ordinary person can't perceive, not because he doesn't have the ability, but because he can't grasp how to perceive the meridians and acupuncture points."

Saying that, Ye Chen asked her, "Have you ever heard of a kind of stunt or acrobatic performance called ventriloquism?"

Qin Aoxue hurriedly asked, "Ventriloquism? Is that the way to keep your mouth still and talk with your stomach?"

Ye Chen nodded his head: "Right! That's it!"

When I was young, my father took me to see a circus ventriloquism performance, the performer holds a doll in his hand, and then he can talk to his own doll. When he speaks, he opens his mouth to speak like an ordinary person, but when he needs the doll to speak, he will close his mouth and speak in ventriloquism. "

Ye Chen smiled and said, "Actually, ventriloquism is not really talking with the stomach, but after he learns to master the breath, he presses the breath down into the abdominal cavity and then uses the breath in the abdominal cavity to drive the vocal cords to vocalize, so that there is no need for the mouth and tongue."

Qin Ao Xue exclaimed, "Ah?! It's too hard, isn't it?"

Ye Chen smiled, "We normal people will definitely feel as if this kind of thing is difficult, because we can't even feel where this so-called breath is when we speak, but after you learn and practice the breath for some time, you'll be able to get a handle on it."

"At that time, you will naturally be able to freely control the breath to sink into the abdominal cavity, or down into the dantian!"

Chapter 2339

Listening to Ye Chen's analogy, Qin Ao Xue seemed to understand some of it.

She asked curiously, "Master Ye, as long as I practice hard enough, I can feel the breath and guide it through my body?"

Ye Chen nodded and said with a smile. You should never think that this is so profound, like we ordinary people sing and open our mouths, while professional singers can control their breath and use a part of their body to participate in the resonance of their voices when they sing."

"Some singers can resonate with the head cavity, while some use the chest and abdominal cavity, it's not really anything mysterious at all, as long as you find the right and appropriate method to practice diligently, you can take it in and out."

Qin Ao Xue said excitedly, "Thank you, Master Ye! Ao Xue will definitely practice hard and never let Master Ye down!"

Ye Chen smiled in satisfaction and nodded his head, "You must practice well, if you can train your internal martial art to a certain level, then it's possible that you'll be an opening sect master in the future. Little"

Qin Aoxue threw out her tongue and said seriously, "Aoxue doesn't dare to dream of opening a sect, as long as it can disappoint you, Master Ye, that is Aoxue's greatest satisfaction!"

Ye Chen nodded, "Good, it's good that you have the determination, this thing won't take effect in a day or two, not to mention internal martial arts, even a ventriloquist performer might need to practice for a year or two to get started, so you have to be calm, don't be anxious or impatient. Net"

Qin Aoxue immediately assured, "Master Ye you can rest assured, Aoxue will control her emotions and play steadily, never be impatient!"

Ye Chen smiled, "That would be the best!"

Then, Ye Chen began to help Qin Aoxue so that she could gradually familiarize herself with the knack of the Four Elephant Palm, but as he said, this kind of thing should not be rushed, and it was almost a fool's dream to make Qin Aoxue master the knack of the internal boxing method in one afternoon.

By five o'clock in the afternoon, Qin Gang ran over to Ye Chen and said, "Master Ye, Chen Zekai Chen and Hong Wu have come over and are having tea in the living room, do you want to come out and sit down?"

Ye Chen smiled, "Okay, I'll be right over. Say"

After saying that, he said to Qin Aoxue, "Aoxue, you have also practiced for an afternoon, why don't you call it a day."

Qin Aoxue was now covered with fine sweat and was also a bit tired, so she nodded and said, "Okay Master Ye, then you go have tea first, I'll go back to my room and take a shower before coming down."

Ye Chen nodded, and then he went to the living room with Qin Gang.

In the living room, Chen Zekai and Hong Wu had just sat down.

As soon as they saw Ye Chen come in, they immediately stood up in unison and said respectfully, "Greetings, Master Ye!"

Both Chen Zaiji and Hongwu knew Ye Chen's identity, knew that he was the young master of the Ye family, and called him young master in private, but as long as there were other people around, they would uniformly change their title to Master Ye Chen.

Ye Chen nodded lightly at the two of them and smiled, "You two are chatting early enough, did you come here together?"

Hong Wu smiled at this time and said, "Master Ye, I happened to be doing some business near General Manager Chen's hotel, so I made an appointment with him and came over together."

Ye Chen smiled slightly and spoke, "Right Hongwu, I gave that Liu Zonghui's Shangmei Etiquette Company to my wife's cousin to manage, you know about this, right?"

Chapter 2340

Hong Wu hurriedly nodded and said, "Master Ye, I know about this, that bastard Ma Zhongliang has already told me that I slapped him twenty times as punishment for aiding and abetting the evil-doer, and I've warned him that if he dares to participate in any forced prostitution in the future, I'll abolish him!"

Ye Chen nodded and said seriously, "In the future, say hello to those brothers of yours from the underground world, we can all mix and mingle, but we must have the proper discipline, porn, gambling and drugs are the red line, never touch them, no matter how profitable they are!"

Hong Wu hurriedly said, "Master Ye, don't worry about that, I've already told all of my men, after hearing about what Liu Zong Hui did at that ceremonial company this time, I also gave a special explanation to my men, whoever dares to do this kind of thing under my nose again, I will definitely not spare him!"

Only then was Ye Chen satisfied, and said, "Right, my wife's cousin's side, you usually have any etiquette needs, you can take care of her business, but don't make it too exaggerated, Xiao Weiwei's character used to be very floating, I'm afraid that she will be complacent again after gaining power. Xuan Xiao"

Hong Wu nodded, "Okay Master Ye, I got it!"

After saying that, he was also a bit confused and asked, "Master Ye, haven't you and this sister-in-law of yours been very much at odds? I remember that she seemed to have treated you badly before, she used to be so bossy with you when she followed Xiao Yiqian, and then when she followed that Wei Changming of the Wei family, it seems like she even licked the urinal at the Splendid Club, why are you still taking care of her?"

Ye Chen smiled, "Knowing one's mistakes can be corrected, there is no greater good, Wei Changming and that lecherous old man of his, didn't I also keep them alive and let them reform well in the Changbai Mountain. Proud."

After hearing this, Hong Wu nodded gently and exclaimed, "Grandmaster Ye, you have been able to net someone who has offended you in the past and give them a chance to mend their ways, you have a heart of gold that Hong Wu extremely admires!"

Chen Zhai Kai also couldn't help but lament, "Yes Master Ye, if it were anyone else, with your strength, when facing these dregs, I'm afraid that you would just kill them in one go. Say"

Ye Chen shook his head, "If a person's own sin is not to die, but he has to be punished by dying, this is overexerting himself."

"It is true that the Beggar's Gang Xue Nanshan's gang who lost their conscience deserved to die, but it is also true that Wu Donghai's crime is not worthy of death;"

"Wei Yongzheng, Wei Changming and his sons, although arrogant and domineering, but it is true that they did not commit any capital crimes, if I kill them, how will I be able to convince people in the future?"

Saying that, Ye Chen sighed slightly and said from the bottom of his heart, "I want my strength to continue to increase, but I also want the lineup under my command to become stronger and stronger, since I want to expand the lineup under my command, I have to make sure that I can reward and punish people and obey them with virtue, otherwise, how can I make everyone willingly use them for me?"

Hong Wu cupped his hands and lamented, "Master Ye is right, Hong Wu has been taught!"

As he was saying that, Qin Gang walked in again with Wei Liang, the current general manager of Jiuxuan Pharmaceutical. Net.

Before Wei Liang even reached the front, he cupped his fists very respectfully and said, "Greetings, Master Ye!"

Ye Chen nodded and smiled, "I was talking about the Wei family and you came here."

Wei Liang curiously asked, "Master Ye, you were talking about the Wei family? What happened to the Wei family?"

Ye Chen said indifferently, "Just chatting about your father and that half-brother of yours, I said that the main reason why I sent the two of them to the Changbai Mountain was also because their crimes did not deserve death."

Wei Liang couldn't help but nod, "Master Ye, you are a compassionate and righteous man, my father has always despised my mother's birth and the Changbai Mountain where I grew up, for you to send him to the Changbai Mountain to spend the rest of his life, is the best punishment for him!"

Ye Chen nodded slightly and said, "By the way Wei Liang, I haven't taken the time to ask you recently, how has the sales of Nine Xuan Stomach Dispersion been this period of time?"
