Chapter 9

Katrina's POV

When I wake up in the morning, I feel a strong arm wrapped around my waist and my skin is tingling. I almost freak out until I realize that it's just my mate. It's weird calling Alpha Harris that, but I'm sure I'll be able to adjust to the idea of having another mate.

I turn around and see that Harris is still sleeping. He looks so cute and peaceful as he sleeps. Well,

when he's awake he always looks so tense and serious, so it's nice to know that he's not always like that.

I'm suddenly overwhelmed by an urge to pre-

791

I try to get out of bed, but Harris just pulls me closer to him and rolls over. Now, I'm basically underneath him, and no matter how hard I try, I can't get his hands to loosen.

I start pushing against his chest, but he still doesn't budge. Okay, I really need to use the bathroom before I pee on myself. How embarrassing would that be?

"Well, are you doing... anything?" Harris says in his husky morning voice. Okay, that was really hot, and I'd lying if I say that I didn't swoon a little.

"Princess,

"Umm, I have to go to the bathroom, but you won't let me go." He's quiet for a few seconds before

slowly letting me go.

"You have 5 minutes to use the bathroom. If you're not out by then, I'm coming in," he says with a

voice that leaves no room for argument. I nod quickly before jumping out of bed and running to the

bathroom.

Alter Harris and I got ready for ille day, we walked down the stairs Once we make it to the kitchen, all of his pack members stop talking, and they stare at us This happens for a few seconds before I'm pulled into a bone crushung lup

The girl that's hugging me is about the same height as me. She has pretty red hair, and her eyes are a gorgeous green. They alinust look like mine, but her's are a little lighter..

She squeezes me a little lighter before she lets go for someone who is so small, she sure is strong

Lund It's so nice to finally meet you! I'm Susan! I'm so glad Harris finally found you!" she says with a huge stole on her face Her senile is so cute and contagious, and I can't help but give her a ciuile that's as big as hers I'm smiling, so inuch, you can even see ny dimples.

". paikneters Unle and 1 poduce teiselves toile ile afiice that the ball who

defended me yesterday was in fact Harris's beta, and that Susan is his mate.

Once the introductions are done, we all sit down and eat breakfast together. I don't say much because I'm not used to being around so many people. If it weren't for the fact that Harris is right next to me, and Susan talking enough for the both of us, I don't think I would be able to do this,

After breakfast, Susan decides that we should go shopping so we could get to know each other better. I'm a little nervous for this trip because I've never really been shopping for mysell, so I don't really know what I like

Once we get to the mall area, Susan is basically jumping up and down

"Ok, Luna, first we have to go and get some everyday clothes, then we can get some sleep wear clothes, and after that, we can get sexy clothes to impress Harris!" she says as she pulls me into the first shop we see. I blush at the last part though, there is no way I'm getting some 'sexy clothes to impress Harris."

After 4 hours of shopping, Susan is finally stopping so we can get something to eat. We have a bunch of bags, and the pack members that were sent to watch us, each have at least to bags. Obviously they are used to Susan doing this since they are not complaining

We get food from Subway before we sit down in the food court.

"So, what do you think of the clothes we got you, Luna?" Susan asks after we start eating

"I really like them. You have a great sense of fashion," I say with a smile. She blushes slightly before she thanks me.

After we ate, she tried to get me to try on some "sexy outfits that would blow Harris away," but I refused. I would never be confident enough to wear something like that.

Once she realizes that I'm not going to budge, we decide to head home. We've been gone for

basically the entire day, and I'm tired. I had a lot of fun though, and Susan and I are on our way to

becoming good friends.

We get home around 7:30pm, and by that time, I just want to crawl in bed and pass out. We've been out since 11:30 in the morning, so that's probably why I'm so tired.

Harris and Alex are waiting for us when we get out of the car. The pack members that went with Susan and I brought my bags into Harris's room. As soon as I get close enough, Harris wrapped his strong arms around me and pulled me to his chest. I glance over and see that Susan is in a similar position

"How was your day, sweetheart?" Harris asks after he kisses my cheek. My wolf purrs happily.

"I had an amazing day. Susan is awesome," I say with a shy smile

"Aw, thanks, Luna! You're not too bad yourself," she says with a wink aimed towards me.

"Alright, let's get you to bed, love. You look like you're about to pass out." Harris says before he picks me up and carries me to our bedroom

"Oui

I like the sound of that. My wolf yips happily in my head, agreeing with me

After I get changed into some of the clothes I got today, I walk out of the bathroom and crawl into bed

Harris is already there waiting for me. I shove up into his warm and clothesless chest as he wraps

his arms around me and pulls me impossible closer

I turn around so I'm facing him, and I start racing his abs. He growls in approval, and I smile

"How was your day. Harris," I mumble while still tracing his abs

"It was ok, but I missed you" I blush at his statement No one has ever missed me. I suddenly think

of soinetung

"Well, since I'm your mate, that implies that when you leave I have to go back with you I can't leave! What about my brother!" I say while trying to sit up Harris just pulls me closer to him

"Mine!" He growls while putting his head near my neck and sniffing

Once he calms down, he starts rubbing, tugging back

"Your brother can come with us. I don't want you two to be separated, or for you to be unhappy"

"Really? You'd let him join your pack just for me?"

"Of course, and yes, I would do anything to make you happy." I throw my arms around him and I mumble a bunch of thank you's

"Since you spent all day with Susan, tomorrow, you and I are spending the day together. We also need to ask your brother if he wants to join my pack"

I nod my head in agreement before snuggling into his chest again

How did I get so lucky My life before was terrible, but things look like they are looking up now.

I fall asleep with a smile on my face
