

I FIND YOU MASTER CHAPTER 211–230

Chapter 211

“Tiger, what are you doing!?” Bai Fei was so shocked and angry that he retreated backwards, but how was he a match for Tiger, who took him down with just a few strikes.

The remaining five vajra, on the other hand, unanimously took out their phones and started videotaping.

Although Finn didn't know how to videotape, he also felt that the Big Five Vajra's angles were tricky and could take care of all aspects of Bai Fei's brother's perspective.

See Finn some speechless, one of them hehehe smiled: “Ye Shao, in order to earn more extra money, our brothers these days diligently practiced the camera, and even went to the studio to invite a professional teacher, although now did not change equipment, or mobile phones, but can also send a blockbuster feel, definitely more than the island's action movies to the exciting, wrestling more realistic, immersive in general!!”

Finn 's mind couldn't help but appear images, and then he vomited out the food he had just eaten, waving his hands incessantly, “Okay, okay, just send it to me after recording, I'm leaving first.”

This is the middle of nowhere, and no one is coming back, so Finn didn't need to keep a lookout, and left in his BMW.

No matter how many times, Finn 's heart resisted this feeling, two men playing a wrestling game, Finn can't imagine, the thought of it makes him want to vomit.

When driving back home, it was already nine o'clock at night, Finn simply showered and went to bed.

Early the next morning, Finn was woken up by Shangguan Yue.

Although the beautiful woman woke up service, so that Finn was very satisfied and satisfied Finn 's psychological needs. The first website m.

But physiologically, Finn couldn't afford it at all. Finn , who possessed the ability to get up, had become increasingly irritable lately, and even if he was woken up by a beautiful woman, Finn was still angry.

“What are you doing?”

Finn put the blanket over his body and curled up inside the blanket, wrapping himself up like a caterpillar.

When Shangguan Yue squealed, she opened the window, and a cool breeze blew into the house, blowing Finn even more into not wanting to get out of the blanket.

"Get up quickly, I have something to ask you." Shangguan Yue's eyebrows furrowed.

"What can't I wait until I wake up and say ah, in other words, aren't you going to cl A** today, why are you disturbing my sleep in nothing." Finn complained with dissatisfaction.

It was hard not to have to go to school, Finn was just like sleeping well at home, waking up and eating a full meal then going back to sleep.

This was the life that Finn really wanted.

Although Finn also knew that he couldn't live his life like this, but for Finn, it was nice to experience this kind of life for a few days, but since dropping out of school, Finn hadn't calmed down, and still something happened every day.

Finn even felt like he had a bad luck physique, as long as it was related to him, no matter what it was, something would go wrong.

"Then you can sleep after I ask you."

Seeing that Finn really didn't want to get up, Shangguan Yue was no longer reluctant, so she asked, "Do you know what happened to Bai Fei?"

"White Flight? What's going on?" Finn closed his eyes tightly.

He just wanted to go to sleep quickly and didn't even have the strength to open his eyes.

Shangguan Yue sighed, "At least Bai Fei is my childhood playmate, if you make a move on him, I hope you tell me truthfully, last night, Bai Fei didn't come home all night, there is still no whereabouts, and no one answered the phone call."

"Such a big man, where do you go to play might have no battery and no attention, what do you care about him, is he important or me? Interrupting my early morning dreams is for that jerk, you think he's important you go out and find him, what are you wasting your time with me, I'm trying to sleep, don't make a sound and disturb me!"

Finn said impatiently.

It was true that Bai Fei had something to do with him, but Finn didn't feel like he had a problem.

If it wasn't for Bai Fei finding someone to block him, he wouldn't have ended up in such a miserable situation.

Yesterday, Finn had seen the footage, and Bai Fei was wrestled by Ah Hu and made miserable, even unbearable, but to Finn, it was Bai Fei who had brought this on himself.

Especially now that Shangguan Yue was so concerned about Bai Fei, it made Finn feel even worse and jealous.

Now Shangguan Yue was his fiancée, but everything was considered from other people's point of view, and things always happened that were misunderstood, so Finn's fondness for Shangguan Yue also retreated a little.

But Finn didn't feel bad about what he did, he could do whatever he wanted to do. And he has not wronged Shangguan Yue, although Shangguan Yue is now his fiancée, but he has never slept with him intimately, not even once.

Finn was still someone who had a bottom line, he wouldn't casually occupy someone else's body and defile them.

Seeing Finn getting angry, Shangguan Yue also kept quiet, this was the first time Shangguan Yue saw Finn really angry.

Without Shangguan Yue making noise, Finn rolled over and went back to sleep, and when he woke up again, it was already three in the afternoon.

Only after stretching out a lazy waist comfortably did Finn sit up.

This sleep was really comfortable, if there was no disturbance from Shangguan Yue earlier, Finn might have been even more comfortable.

I don't know how Shangguan Yue is doing now.

Finn muttered in his heart, he just got up, the fire came and went quickly, and at the moment he was no longer angry. Instead, he was starting to feel that his words were a bit heavy, so he thought of going to find Shangguan Yue.

But as soon as he was about to turn around and get out of bed, he was surprised to see Shangguan Yue, standing at the end of his bed, silently crying.

"How long have you been standing here?" Finn's heart was a little apprehensive, he had a bad feeling, maybe Shangguan Yue had been standing for a long time, or rather, from the time he didn't let Shangguan Yue speak, Shangguan Yue was standing so quietly.

Because the tears at the corners of Shangguan Yue's eyes had dried up several times, these were the accumulation of time.

Seeing that Shangguan Yue didn't speak, Finn became even more nervous and was busy getting out of the bed to help Shangguan Yue.

But Shangguan Yue suddenly let out a loud cry, followed by a tilt of her head and p A**ed out.

Putting Shangguan Yue on the bed, Finn then saw that Shangguan Yue's fists were clenched so tightly that his nails had even cut through his palms, and he was bleeding.

Only then did Finn know that he had spoken too much, but if it was anyone else, they couldn't just wait.

Finn shook his head and in time, he didn't have time to think about it, so he invited a doctor to help Shangguan Yue see the doctor.

Not long after, the doctor finished confirming the diagnosis: "Don't worry, it's nothing serious, it's just a sad past and too tense, just have a good night's sleep. Remember, you can't let her break period and get stimulated again."

After saying that, the doctor left.

After the doctor left, Finn returned to the bedside and guarded Shangguan Yue, because he didn't know when Shangguan Yue would wake up, and if the doctor didn't allow Shangguan Yue to be stimulated, then he would have to stay by her side.

After all, he was the one who spoke too much and stimulated Shangguan Yue.

And at this moment, Finn only knew that Shangguan Yue regarded him so highly, which was something that Finn did not expect at all. Because Finn had not done anything for Shangguan Yue at all, appearing in this situation now was far beyond his expectation.

"Hey, how should I coax her?"

Evan was in deep thought.

212

"Evan, how long have you been here?"

Shangguan Yue woke up leisurely and found that Finn was right beside her, but it was already dark outside, at least for several hours, Shangguan Yue was inevitably a little touched that Finn would actually stay with her.

Finn smiled faintly, "The doctor said you can't be stimulated, so don't go out alone for a while, I'll keep you company."

"Good!" When Shangguan Yue nodded, she lay down again, but it wasn't her alone, but she pulled Finn to sleep with her.

The next day, Finn took leave for Shangguan Yue and took her out to play and relax.

The amusement park was fun, but it wasn't Finn 's first choice of place.

After all, all the amusement rides were rather exciting and not suitable for Shangguan Yue at the moment. After thinking for a long time, Finn came up with a superb idea, which was to climb up the mountain to the temple, burn incense and pray for good luck.

Although the idea was wonderful, the reality was harsh.

This morning, Finn and Shangguan Yue set out early to go to Fangzhou's more famous Yellow Dragon Mountain.

The Yellow Dragon Temple on the Yellow Dragon Mountain was very famous, not to mention in Fangzhou, but even in the surrounding area. The first website m.

Because of this, there are many people who want to go to Huangyongsi Temple to burn incense and worship Buddha, but Huangyongsi Temple is only one mountain road, although the road is still rugged, and I heard that after a few accidents, private cars are not allowed to go up the mountain.

Either hike up the mountain, or do Huanglong Temple special bus up the mountain.

Finn was prepared to hike up the mountain, but just now also said, the idea is only good, after walking for a while, Finn can not stand the sun, not to mention the side of Shangguan Yue.

At least a thousand gold lady, when have you ever walked so much, very early in the morning already dripping with sweat, but Finn did not squeak, Shangguan Yue also did not take the initiative to talk, so she willingly followed Finn to walk.

When Finn discovered Shangguan Yue's situation, Shangguan Yue was about to faint.

"Come up here!"

Evan crouched down, somewhat helpless.

"Where to?" Shangguan Yue was a bit confused.

"Of course, get on my back, I'll carry you, let's find a bus stop in front and we'll wait for the bus." Mouth Finn did not say, but Finn 's heart still ached for Shangguan Yue.

After things dawned on Shangguan Yue, she blushed shyly.

"Don't mind me being heavy oh." Shangguan Yue was a little worried, giving Finn a precautionary shot in advance.

Finn was a little sweaty and helplessly said, "Okay, come up, I won't say heavy."

"I've already come up, let's go." Shangguan also laughed, "Finn, you're not intentionally teasing me."

"Tease? What am I teasing you for, I think you're teasing me, come up here." Finn turned his head to see that there was already Shangguan Yue on his back, but Finn didn't feel it at all.

Shangguan Yue was really very light, and Finn couldn't feel any pressure at all.

As such, Finn sighed while carrying Shangguan Yue on his back, and soon arrived at the bus stop, only to wait for ten minutes for the bus to arrive.

If it was Finn's BMW i8, it would only take ten minutes to make a round trip.

The reason why the bus is so slow, mainly because there are many pedestrians here, as well as the rugged terrain, so the special line will become a sightseeing bus mode, and not deliberately drive fast, so as to ensure safety, but also to let the passengers can see the scenery along the way.

The Huanglong Mountains have not been mined, so the area is all kept in its original scenery and is very pleasant.

After getting into the car, there was only one empty seat left, so Finn naturally gave it to Shangguan Yue.

The current Shangguan Yue was wearing a white lace dress with white, slightly transparent boutique stockings on her legs.

Due to the fact that Shangguan Yue had just sweated a lot, the clothes were a bit transparent, faintly revealing a hint of underwear, which was the main reason why Finn let go of the position, that was, he didn't want Shangguan Yue to be seen with her body.

"Why don't you hold me and sit." Shangguan Yue was slightly shy, she also didn't want Finn to stand, Finn had just carried her all the way.

Finn was a bit flustered, but he still waved his hand, "No, you can sit, I'm not tired."

Finn also wanted to do it, and it was very nice to hug a beautiful woman and enjoy the envious and jealous gazes of others, but Finn was still afraid of getting a reaction and getting embarrassed again then.

But in Shangguan Yue's opinion, Finn was still too tired, and she had just been carried on her back and had actually slowed down, so she insisted on not sitting down and wanted Finn to sit.

The two of them humbled each other like this, and one stop p A**ed by.

And after the bus stopped, an old lady trembled and got on the bus, and when she saw this, Finn did not push her way.

Seeing the old lady, Finn thought of his grandmother, so he suggested, "Why don't you let the old lady sit down."

Shangguan Yue nodded her head and looked at Finn with even more admiration and pride, her man was not only strong, but also knew how to respect the old and love the young, he was truly a model for my generation.

As for Bai Fei, he had already been left behind by Shangguan Yue.

But just as the old lady walked in to sit down, a tattooed man strode in with his arms wide open. Obviously, the tattooed big man had seen the only seat as well .

"Good luck, there's room in the back of the car too, but I'm exhausted." The tattooed big man wiped a handful of sweat on his body, so he wiped it right on the old lady's body, then with a wave of his hand, he pushed the old lady to the side, "Old lady, get out of the way, what's in the way."

The old lady stumbled as she was pushed, fortunately Finn was quick-eyed, otherwise the old lady would have fallen to a broken horse.

When the old lady regained consciousness, she saw the tattooed big man already sitting in his seat, his feet still stirring on the backrest of the seat in front of him, with a face of Ça'yi peace. The old lady looked a little bad, but after being glared at by the tattooed big man, the old lady trembled and didn't dare to squeak.

"What kind of rascal are you playing here, this seat is let by us to the old grandmother, you get up quickly!" Shangguan Yue snapped in anger.

She and Finn had been humble for half a day, and it was hard to think of a good solution, but now she was being interfered by the tattooed big man, and also pushed the old lady, how could Shangguan Yue not be angry.

Originally Shangguan Yue was a jealous person, but now he just didn't have any men around, otherwise Shangguan Yue didn't even want to talk nonsense with the tattooed big man, so he just let someone beat the tattooed big man up.

The tattooed big man sneered, "Playing hooligan? How did I act like a hooligan, I got on the train and saw there was a seat here, I came over to sit down, how did it become you guys let the seat, it's really funny. Did you guys let me be the bad guy by looking at my ferocious looks, isn't it not right to judge people by their appearance like that?"

"You!" Shangguan Yue's face turned red, but she couldn't say half a word, although Shangguan Yue was known as a little witch in Fangzhou, but also in the upper class circles, after all, everyone feared her, she never said one thing, which one would refute her. Even if she refuted her, she told her men to deal with it directly.

Being disliked like this, this was the second time for Shangguan Yue.

The first time was when Finn got up before, that time made her faint, it showed how bad she was at fighting.

Finn was a little worried and was about to go forward, after all, Shangguan Yue could not be stimulated, this was what the doctor ordered.

But just at this time, Shangguan Yue's eyes turned and suddenly snorted, "You are just playing a hooligan, everyone on the bus saw and knew that it was us who gave up the seat to the grandmother, it was you who came over and pushed the grandmother away and stole the seat, you still dare to argue?"

"Oh, I'd like to know who saw it, then, and what did they see? Anyone who sees it, come out for a single chat!"

The tattooed big man looked fierce and narrowed his eyes to scan the circle.

Shangguan Yue laughed at once, like such a low end way of intimidation, it was strange that it could scare everyone.

"Don't worry, don't be afraid, everyone come out and talk." Shangguan Yue proudly said, as long as someone came out, this matter would be solved, after all, the tattooed man had already committed a public outrage by his actions and dared to threaten everyone, he really didn't know how to live.

However, just when Shangguan Yue was looking forward to it, not only did no one on the car stand up, they just praised Shangguan Yue for knowing how to respect the old and the young, but these kind-eyed grandparents turned their heads, pretending that they couldn't see what was happening over here in general, acting like they were afraid of causing trouble. Remember the website .

Shangguan Yue was dumbfounded, what was wrong with this world. Before looking at the little videos online, weren't we all up to besiege the evil forces, how come they are all silent now?

"Hahaha!"

The tattooed man let out a wild laugh, but to Shangguan Yue's ears, it was so harsh and sarcastic.

"See, I'm just a Five Good Young Man, don't wrong a good man ah." The tattooed man glanced proudly at Shangguan Yue, but he couldn't say half a word after this glance.

A girl as pure and touching as Shangguan Yue, with white skin, was many times stronger than the ones he had played with before, especially the sweat-soaked lace dress that showed through a bit of underwear, this hazy temptation was even more irresistible to the tattooed big man.

"Yo, little girl body strip good ah, let brother are a bit too much to bear it. Come, come, I'll give my seat to this old lady, and you accompany your brother for a quickie." The tattooed big man licked his tongue, a silver filth in his eyes, and started scanning Shangguan Yue up and down.

Not only that, the tattooed big man stretched out his unicorn arm and was about to grab Shangguan Yue's holy maiden peak.

Shangguan Yue's face changed drastically, her small face swishing pale, she had never seen such a brazen person who dared to do it directly without caring about the public.

However, the other p A**engers were the same as just now, all with an expression like they had nothing to do with me, obviously scrupulous of this tattooed big man.

What disappointed Shangguan Yue the most was the old lady from just now, who not only remained silent, but also spat out, "How dare you meddle in this world, eh."

From the old lady's point of view, she was old enough to stand as a workout, and it wouldn't bother her. But if she had an altercation with the tattooed big man and then made a big fuss, there was no telling what would happen, more trouble is better than less, which was why she hadn't opened her mouth.

That's why she not only didn't sympathize with Shangguan Yue, instead she blamed Shangguan Yue for meddling in her affairs and even involving her in it.

She was no match for the tattooed man, even if it was too late for her to avoid it, how could she dare to go over and take a seat.

At the news, Shangguan Yue's face grew cold, never would have thought that people's hearts would be like this nowadays, it was really chilling. But what worried Shangguan Yue more was still the clutches of the tattooed big man, how to escape was the key.

"Damn it, how dare you touch my woman!"

Finn had been silent just now just looking for weapons, he just aimed at the tattooed big man, he knew that the tattooed big man was not good. And stole their seats, this alone made Finn very angry, not to mention that he dared to irritate Shangguan Yue.

The doctor had told him not to irritate Shangguan Yue, but the tattooed man was tantamount to killing her, so how could Finn endure this?

After searching for a while, Finn found the small hammer he was now holding in his hand, the hammer was not big, it was a safety hammer equipped by the bus, but it was still enough to deal with people with bare hands.

In the past, before Finn didn't have money, he was also good at fighting, although not that great, but he also knew those positions could beat people down in one go.

With the hammer, Finn covered the tattooed big man's head and smashed it down, precisely at the temple.

This was the most vulnerable spot of the human body, if it was smashed down, it was either death or injury!

But the tattooed man was clearly a practiced fighter and reacted in time, grabbing Finn's wrist at once.

"Kid, just now I saw you sneaking around, and you still want to sneak up on me, dreaming!" The big tattooed man sneered and was about to snatch the hammer from Finn's hand.

In the eyes of the other p A**engers, this scene was a mantis, completely looking for death, and they couldn't help but all sneer.

However, in Shangguan Yue's eyes, it was completely different. Although Finn wasn't wearing battle armor and stepping on the seven-colored auspicious clouds, the Finn at the moment was a hero in Shangguan Yue's eyes!

Not bad for my man!

Only now Finn's situation is very dangerous, and his weapons are about to be taken away.

The tattooed man also saw that Shangguan Yue and Finn are one and the same, in order to play with Shangguan Yue completely, the tattooed man was not in a hurry to take care of Finn, but language suppression: "Kid, even you want to save a beauty, you little punk, just stay calm, today let alone you, even if the king of heaven Laozi came, it's useless, in this area of the Yellow Dragon Temple, no one dares to stop me, A Wei anyThings!"

As soon as A Wei said this, the p A**engers who didn't help just now even sucked in cold air, glad that they didn't help.

Even if A Wei is not a murderous criminal, he is a notorious hoodlum, which can be seen from the driver's indifference in the beginning.

A Wei didn't even put in a coin, and the driver didn't stop him. Originally, Shangguan Yue thought it was because he didn't want to cause trouble, but now it seemed that he should have already gotten used to A Wei's misdeeds.

Although she didn't know how strong A Wei was, at the moment, Shangguan Yue could understand that their situation wasn't very good, or even, very dangerous.

Yet Finn didn't show the slightest bit of cowardice, but instead, because of A Wei's words, it aroused even more ferocity.

In these few months, Finn hadn't met any bad guys, even the perverts had met several, and now the scene was a small one. The only danger was that there was no little brother beside Finn, and Yu Yao himself was just doing it himself.

But the Avi in front of him was so complacent and even relaxed his guard, but it greatly gave Finn the opportunity.

Without even thinking about it, Finn kicked out at A Wei's crotch!

214

Finn's move could be described as quick and accurate, and he did not show the slightest mercy.

He knew that being gentle to others was being cruel to himself.

"Bang!"

Avi was bragging and showing off his status, not at all defensive, nor did he think that Finn would dare to strike. After all, in the past, those who heard his name were on their knees begging for mercy and offering women with their hands, so where would be the resistance?

So, Finn's strike succeeded, along with a sound of eggshells breaking, A Wei suddenly intuitive chicken and egg, "ow" scream, on his knees, hands covering the crotch trembling unceasingly, cold sweat down the brain constantly left, but the pain is no longer able to make a little sound.

Finn grasped the right moment, and that was a crazy kick.

Snatching the small hammer, Finn hammered furiously at A Wei.

If it was a small fight, Finn would only calmly pretend and look down on the other party, so he acted like a big brother and made the other party apologize, but the way A Wei did this, he even almost irritated Shangguan Yue and had to move his hands on him, which made Finn completely too generous.

Finn had never been like this before now, trying to hammer a person down.

During these months, although Finn didn't feel growth, unconsciously, Finn also really grew up and learned some bad habits, which was to take a death blow when he caught an opportunity, not giving the other party the slightest chance to turn the tables, if there was any chance, it was a deadly danger.

So Finn 's action was even more violent, beating Ah Wei's head and blood, Ah Wei was dizzy and woke up from the pain, woke up and was beaten by Finn , completely not giving Ah Wei a chance to live.

Shangguan Yue was standing on the side watching with great relief, but at that moment, the old lady came over and grabbed Shangguan Yue's arm.

"What is it?"Shangguan Yue's tone was icy cold, completely losing the enthusiasm she had just now.

This was also Shangguan Yue's nature, and she had no sympathy for these p A**ersby who were watching the fun.

Originally, Shangguan Yue was just giving up her seat to the old lady because she was modest with Finn .

But now Shangguan Yue felt it was so ridiculous, even if such an old lady fell on the road, even if she wasn't a porcelain taker, Shangguan Yue wouldn't do anything about it anymore, just because, it wasn't worth it.

Yes, such a person was completely unworthy of the slightest sympathy from Shangguan Yue.

But what Shangguan Yue didn't expect was that the old lady actually said, "Young lady, you advise the young man to stop fighting."

Shangguan Yue couldn't help but frown, "No more fighting?Didn't you just feel aggrieved.And it's none of your business if I fight or not?"

"What's the grievance, the more the merrier.Little girls, you are still young and ignorant.This A Wei is a well-known scoundrel in this area, but you have no way to live if you offend him.Let A Wei go now, maybe A Wei will be kind enough to let you stay with him for a while, and this matter will be over."

"Pah!"

The old lady hadn't finished her sentence, she was smacked away by a slap, and it was Finn who struck out.

The old lady said the first half of the sentence is quite in the middle of listening, but the second half of the sentence that is a human being to say it.

After living for so long, still shamelessly say such words, simply not human!

Seeing Finn do it, the other p A**engers not only talked about it with seven mouths, pointing at Finn and Shangguan Yue, saying that the two of them couldn't help but cause trouble and also beat up the old lady, what a scum of society.

Finn was laughing in anger, these people really have a problem, they are only period strong and afraid of the weak.

"You guys shut up for Ben Shao, just now A Wei made a move, why didn't you stop it, why didn't you say something, now here with me pointing fingers, who used to your stinky habits!"

Finn a low drink, not only did not wake up the crowd, but also made these p A**engers more angry.

In particular, the old lady who had just been hit by the fly, got up from the ground and also cursed: "Stinky brat, your mother did not educate you how to behave, do you know how to respect the elderly, but also dare to hit me, what a bastard – seed!"

"sh*t!"

This sentence mongrel – seed, completely made Finn furious.

In fact, in Finn 's opinion, A Wei is just an ordinary ground snake, and a beating would be enough, but the group of p A**engers in front of him are really brainless, a bunch of stupid pigs who go with the flow and don't distinguish between right and wrong, only bullying and fearing.

Said to be stupid pigs, are insulted pig.

But Finn didn't hit anyone, these people whether he can beat them or not is one thing, the point is that beating these people also does not long memory.

Finn thought about it and said, "Xiao Yue, call your home, give me a thorough check on these people, and publish all the scandals they've had in the past on the internet."

That's right, for such people, Finn didn't want to deal with them himself, didn't these people like to talk about others, then publish the scandals of these people to the internet so that more people would talk about them.

Finn is not a saint, but Finn also knows that it's useless to beat these people, or make them lose their jobs, or disappear forever, only if they also taste the bitterness of being talked about, these people will remember.

The only thing is that if the above-mentioned official's power were to publish a scandal about these people, these people probably wouldn't need to hang around Fangzhou at all. If the scandalous event is exposed for a long time, these people will probably be discussed wherever they go.

Finn was to be so desperate, and this was also Finn 's creed.

People respect him one foot, he respects others one foot. But if others dared to harm him, even if it was a mosquito matter, Finn would return the favor ten times a hundred times.

"What makes you guys, who do you think you are!" These p A**engers sneered, thinking that Finn was crazy.

Finn directly lit up his phone, on the screen was precisely the news of Shangguan Yue, especially the four words Shangguan family, deeply engraved in the eyes of all the p A**engers.

Some of them had never heard of the Shangguan family, but they all knew about the Shangguan family's industry, all of them were the leading industry in Fangzhou, that background was needless to say, these people suddenly changed their faces and begged for forgiveness.

"I I I, I was wrong, it's a misunderstanding ah!"

"Young Master, let me go!"

"I'm sorry, I'm sorry, I just have a bad mouth, please don't really go investigating me, I really know I'm wrong!"

Hearing the p A**engers apologize, however, Finn smirked, now knowing that it was too late to beg for mercy!

Only, Finn was most concerned about the old lady just now, but the old lady was indifferent and even somewhat proud.

It suddenly dawned on Finn that the old lady should be old and not afraid to say, what a shameless person, invincible in the world.

But on second thought, Finn laughed, "Little Yue, this old lady you don't expose her scandal, she is so old, I guess the old lovers are buried, you go investigate his children, and then investigate her grandchildren."

This statement, the old lady was shocked, she was busy begging for forgiveness, "brat, no, young master, young gentleman, please don't investigate my daughter, it's all my fault, I apologize to you, my daughter has just found the man of her dreams, if my son-in-law finds out that my daughter has cheated, divorced, had an abortion, or cheated on her legs before, then it's over!"

"Begging me for this attitude?" Finn coldly said.

The old lady's body trembled, so she knelt directly in front of Finn, she really didn't dare to offend Finn for the sake of her daughter.

But Finn most he smiled and said, "Okay, then I won't investigate your daughter."

Turning his head, Finn smiled at Shangguan Yue, "Xiao Yue ah, you can just go to the Internet and release the news, her daughter has cheated, divorced, aborted, cheated on her legs, remember these four key points, don't leave any of them behind to publicize out."

"You don't keep your word, didn't you say you wouldn't investigate my daughter?" The old lady was suddenly angry.

Finn nodded, "Don't worry, I'm not as untrustworthy as you are. I'm not going to investigate, but those were your own words just now, I said I wouldn't investigate, but I didn't say I wouldn't release information ah, I'm not spreading rumors either, those are your own words."

Taking out the phone, Finn said proudly again, "By the way, I have the habit of making video recordings, the scene just now, what a coincidence, all recorded. I guess making it into a video, your son-in-law will definitely leave your baby daughter, hahaha!"

215

What happened on the bus made Finn very upset, and he was no longer in the mood to go to the Yellow Dragon Temple, so he took Shangguan Yue home with him.

But as soon as he arrived home, Shangguan Yue received an invitation, it was a monthly club reunion.

Finn originally wanted to refuse Shangguan Yue to go out, after all, being irritated would be more than enough.

But after thinking about it, Finn still didn't have the heart to say it, after all, it was a regular gathering, and if he didn't go, it would seem a bit unkind.

"Then I'll go with you." Finn finally finalized his mind and planned to accompany Shangguan Yue.

Naturally, Shangguan Yue was very happy, after all, Finn had already compensated Lin Mengqi for so long before, and she also envied the feeling of having Finn accompanying her, so she went back to her house to dress up and didn't leave until six in the evening.

The party is very simple, there is no food link, is singing, hi singing, about the location but Finn has never heard of a big rich KTV club.

Although the name was very domineering, but the consumption was very ordinary, and the regular consumption only needed thousands of dollars to be taken down.

Having been to clubs with hundreds of thousands or even millions of dollars, this thousand dollar consumption level KTV, in Finn 's opinion, was a small price to pay.

But on the way, Finn had heard that this KTV was already relatively good this time around. First URL m.

Although it was a party for the whole cl A, but it was not paid by everyone, but by the cl A cadres to treat the guests, in the past, the cl A** cadres would just treat a few hundred yuan karaoke, this time the thousand yuan level, it was already very good.

Finn thought of himself, if he was still an ordinary student, a thousand yuan consumption was indeed very high, so he didn't care. It was someone else spending money anyway, so Finn had nothing to be picky about.

After parking in the basement, Shangguan Yue led Finn to the main entrance of the KTV, and the next thing Finn saw was a man in a white suit, slightly slutty.

The man was very maturely dressed, but in fact could not hide his youthfulness, after all, he was just a student who had not yet left the school.

Seeing Finn , the man's eyebrows wrinkled unnaturally, but he soon loosened them and turned to a bright smile, "I didn't expect that Shangguan student could come even on leave, you really give me face as a cl A** president, hahaha!"

Finn judged on the spot that this man had love for Shangguan Yue, but he was fine with it, anyway, Shangguan Yue didn't like this so-called cl A** president.

Shangguan Yue nodded indifferently and turned her head to Finn , " Finn , this is our cl A** president Jiang Yanglu, let's not bother him to pick up the other students here, let's go in."

Finn glanced at Jiang Yanglu with some disdain in his heart.

It's not just singing a song, just say private room is not on the line, but also deliberately stand at the door to pick up, and really think of himself as the master?

Finn previously the most despised is this kind of pretend, seemingly enthusiastic, but in fact is to treat the other students as an unseen hillbilly, otherwise, Jiang Yanglu here one by one to pick up, and in detail to say the route is why?

Only these little tricks, but Finn did not care about them, nodded his head and strode into the KTV, while Shangguan Yue was like a little daughter-in-law, pacing behind Finn step by step. Finn clearly saw that Jiang Yanglu was so angry that his forehead was covered in veins, but yet he still had to maintain a polite smile, this expression was not to mention how funny.

Finn was also considered a celebrity in the school, always generous, was blown away by the second cl A, and was also the cl A president of the second cl A** before that, so many students usually knew Finn .

When they saw Finn and Shangguan Yue coming in, many male students cast their eyes in a different way, envy and jealousy and hatred layered on top of each other, if Finn wasn't used to this kind of eyes, he might not be able to bear this kind of pressure now.

Shangguan Yue was holding Finn 's arm, as if she was cheering him up. But in the eyes of the other students, this was a provocation.

The goddess of their first cl A** was being picked up by someone from the second cl A**, how could they endure it.

Especially the black evening dress worn by Shangguan Yue today, perfectly matched with the black suit on Finn , it was like a golden boy and jade girl, making these cl A**mates envious and jealous.

It didn't take long for the people to slowly arrive, and instead of mingling with the boys, the girls were all around Finn .

As expected, the girls are now smart and realistic, knowing that Finn is rich, they can't wait to please the relationship.

Except that there was indeed no one here who was better looking than Shangguan Yue, not even half as good as Shangguan Yue's existence, and Finn was also lacking in interest, so he sat paralyzed on the sofa with his legs crossed, watching Shangguan Yue play with the girls, while he, on the other hand, was quietly drinking.

"Today, it's an honor to have me, the cl A** president, ask everyone to sing, I won't say anything more, today everyone let go and play, food and drink are all covered by me!" Jiang Yanglu picked up the mike and said briefly.

It was only two sentences, which made the students boil, obviously the usual Jiang Yanglu is a man of many words, now two sentences finished, it is inevitable that everyone will buy it.

After the applause stopped, Jiang Yanglu did not put down the microphone in his hands, but continued: "In order to ensure that everyone can have fun, I propose that everyone take turns to sing a song, and I would like to hear whether or not the former cl A** president of the second cl A, Finn , is also better at singing than the cl A president of my cl A**."

The words fell, the boys in cl A** one boiled, they were just watching the fun, and such a suppression to cl A** two, especially suppressing the Finn who snatched away their goddess, these male students were extraordinarily happy.

Finn is a bit helpless, unexpectedly still dug by Jiang Yanglu.

The first time I heard it, I couldn't help but listen to it a second time, because of the taste of aged wine.

Of course, this wasn't Finn boasting, it was what others had said before when he was still a poor student. And the main credit for catching up with Tina in the first place was also due to singing.

So in terms of singing, Finn was still really confident.

To be on the safe side, Jiang Yanglu chose a popular song, which had once been a hit on a certain short video platform, and many students would sing it, not only was the melody simple, but it was also easy for everyone to relate to it.

Although Jiang Yanglu was a bit of a trickster, but Finn also had to admit that Jiang Yanglu was indeed quite witty.

Very quickly, the song reached the chorus part, which was commonly known as the high mocking part, and suddenly the whole cl A** chorused, and some of the high notes that couldn't go up were also carried over perfectly by the students, which was very suitable for the atmosphere at the moment.

Even Finn even had the idea of wanting a chorus, yet just as everyone was singing happily, the door was kicked open!

Chapter 216

I saw two drunken, red-faced mental boys barge in, slightly drunkenly scanning the entire room before scratching their heads and saying, "Oops, wrong door, haha."

Saying that, the two of them were going out.

And because the door was kicked in, the singing stopped abruptly, and the joyful atmosphere just now was also low again. This made Jiang Yanglu extremely dissatisfied and lowly cursed, "Damn, bad luck!"

Now was the time for him to perform, just to be able to perform well in front of Shangguan Yue and prove that he was better than Finn .

As long as the song defeated Finn , Jiang Yanglu would not only be able to beat Finn 's face and gain Shangguan Yue's favor, but he would also be able to use this opportunity to show the incompetence of the second cl A** and win even more glory for the first cl A, gaining the approval of the whole cl A.

The position of cl A** president was not just about reputation, there were other practical benefits as well.

Even though the two spirit lads drank too much wine, their ears were still smart, and Jiang Yanglu's low curses reached the ears of the two spirit lads. Both of the

two spirit lads who had already walked out, suddenly turned back and kicked open the door again, snarling, "Which fury said the words, come out to me!"

"What? Just come out, what else can you do!" Jiang Yanlu did not pander in the slightest and directly stood out.

He also had to come out at this moment, after all, the whole class was watching, and if he wimped out at this moment, it would have a great impact on his reputation. And in his opinion, as long as he took the lead, the other students would also support him.

After all, there were only two people on the opposite side, and it wasn't enough evidence. Remember the URL . . . net

"Kid, do you know who I am, just tell me bleeping bleeping bleeping bleeping, come on, take it or leave it!" One of the spiritual guys with dyed white hair took a big step forward and rushed towards Jiang Yanlu.

Jiang Yanlu's face changed, never thought that these people really dared to fight, but even if they couldn't fight, the momentum can't be wimped out, picking up the wine bottle on the table and smashing it directly over.

The other male students saw this, where they could still hold back and got up.

Twelve boys struck at the same time, and in three strikes, the mental boy with dyed white and pink hair was beaten to death.

"Why don't we go back."

While the whole class was cheering, Shangguan Yue came to Finn's side worriedly.

After what happened to Avi in the morning, Shangguan Yue was actually worried that the spirit boy just now was also a gangster, and it would be bad if he brought a group of people here to cause trouble.

She didn't come out equipped with bodyguards, so it would be worse if she was bullied. The point was that Finn was also here, she didn't want Finn to get hurt.

Finn nodded his head and said, "Let's go then, after all, it's a gangster, if we kill a comeback, these little arms and legs are really not enough."

Finn went out and made preparations, having the six villains squatting outside the KTV all the time, but even so, Finn was still worried about Shangguan Yue's condition.

The doctor had said not to let Shangguan Yue be stimulated, and if it was because of the scuffle, then it would be a bit more than worth it.

Besides, there was really nothing to do here, just a bunch of people singing, and no other entertainment, Finn also felt a bit bored.

Hearing Finn 's words, the whole cl A** of girls fell into contemplation.

In their opinion, Finn was right, they had just won the fight because there were only two people on the other side, if a whole bunch of people came on the other side, then they really wouldn't be able to eat their way out.

Jiang Yanglu also saw the grudging looks coming from the girls, and suddenly his face turned blue and red, he also knew that he was indeed impulsive just now.

But he had spent so much money on this party, if he just left, he would get nothing.

Moreover, Jiang Yanlu wasn't afraid of these spirit boys.

After giving a cold snort, Jiang Yanglu sneered, "Who cares what kind of thugs, I don't believe they still dare to bring people to make trouble, if they dare to come, I'll let my uncle arrest them all."

Once this was said, the students only remembered that Jiang Yanglu was no ordinary student, in Jiang Yanglu's uncle was a deputy director of Fangzhou, there really was trouble, but also could be settled.

With this shot in the arm, the students returned to their seats and began to play at ease.

And Jiang Yanglu was proudly looking at Finn , slightly provocative: "Everyone play at ease, I'm here for everything, do not be afraid of them these evil forces. Our first cl A** can't be wimpy, don't follow the example of the second cl A's cl A leader like this, it's easy to be laughed at."

Saying that, he also King Shangguan Yue said, "Shangguan student, don't worry about playing here. If someone wants to leave, let him go, I'll protect you."

The words fell, and the whole cl A** burst into laughter, looking at Finn 's expression with a few more times of disdain, including the girls who had previously shown their affection to Finn and avoided him.

Seeing that the effect was good, Jiang Yanlu fell into a fantasy of Shangguan Yue slapping Finn furiously, mocking Finn for not being a man, and then throwing herself at him.

But the truth was just the opposite, only to see Shangguan Yue get up and slap Jiang Yanglu's face, snorting, "Next time you dare to talk about my husband, I don't mind taking your skin off!"

To Shangguan Yue, Finn was her backbone, and she forbade others to insult Finn in any way.

Finn couldn't help but wince and looked at Jiang Yanglu again, only to feel that Jiang Yanglu was just a clown.

Jiang Yanglu was blindsided by the slap, and just when he wanted to fight back, the door was kicked open again, and the sound was even louder than before, even as the door creaked and was about to shatter.

"Damn it, you're the ones who did it to my little brother!"

A tattooed big man with a bare upper body walked in, with a group of mental boys behind him.

It didn't surprise Finn that White Hair and Pink Hair were in the group, but what did surprise Finn was that the tattooed big man who bore the brunt of it was none other than Avi!

Finn was all a bit speechless, A Wei was really awesome to meet here.

The most important thing was that A Wei's wounds had actually recovered so quickly, except for the bandages on his head, all the wounds on his body had already scabbed over, and he just looked a bit hideous and horrible.

"And slow down, and slow down."

After Wei came in, a man in a suit walked in, it was the manager of Megaman KTV, he said with a bitter face, "Master Wei, look at this matter and just let it go, the protection money we turn in every month has never been worse than once."

"Count it off! Isn't it normal to give full protection money." A Wei glared at the manager, but did not make a move, but straight at the white and pink hair: "Are you blind, can't you see my brother was beaten up, I'm not making trouble, I'm here to take revenge. Understand? Get the hell out of here if you understand!"

The manager was too scared to squeak, apparently succumbing to Avi's silverware.

And A Wei's words are reasonable, A Wei is only here to take revenge. If you don't let A Wei take revenge, not to mention whether the manager is capable of it or not, the point is that the manager doesn't have the guts either.

However, right at this moment, one person on this side of Cl A** I stepped forward!

217

The one who stepped forward was none other than Jiang Yanglu.

Jiang Yanglu saw A Wei's vicious expression and trembled in fear, but thinking of the cl Amates behind him, in order to always stand as cl A president, Jiang Yanglu walked over with a hard scalp and said, "This matter is just a

misunderstanding, how about we forget about this matter, in the future, well water does not offend river water, both sides of the road, each side of the road, what do you think?"

"I don't see sh*t, you're nothing." Wei sneered.

The manager, seeing an opportunity, stepped forward at the right time and reminded, "Master Wei, this kid is Wu Dalong's nephew."

"Wu Dalong? That deputy director?" A Wei was slightly surprised, and after looking deeply at Jiang Yanglu, he waved his hand and said, "I'm still giving face to Director Wu."

Jiang Yanglu's apprehensive mood relaxed, not expecting that Wu Dalong was really quite good at it. He drifted up again, proudly looking at Shangguan Yue, now Shangguan Yue should regret it, what's the use of choosing that rich one Finn, he still has to rely on his connections at critical moments. Unconsciously, he thought of Shangguan Yue's throwing his arms around him again.

"Alright, you can go aside." Avi stepped forward and pushed Jiang Yanglu away with one hand.

Jiang Yanglu was blinded and puzzled, "What do you mean?"

A Wei sneered, "I see that you're Director Wu's nephew, I'll spare you once, you should leave quickly, I won't let the others go."

As soon as this was said, Jiang Yanglu was stunned in place. A second to remember to read the book

I didn't expect to give face, but it was so given.

Jiang Yanglu was in an awkward place, he wanted to speak again at the moment, but when he saw the group of people behind A Wei, he knew that the whole cl A** couldn't be beaten, and if he didn't speak, the cl A** leader's reputation wouldn't be preserved.

After some consideration, Jiang Yanglu still made up his mind that the cl A** monitor would not be needed, and that he should protect his own safety.

After thinking it through, Jiang Yanglu pushed it aside.

All the students couldn't help but chill at the sight of him.

"Rubbish."

Finn couldn't help but snort out, Jiang Yanglu's wimpy appearance like a grandson was really displeasing to Finn.

At any rate, he was the cl A** president of a cl A, and also spoke out of turn, but now he actually disregarded the safety of the other students in order to save himself, and this was worthy of a cl A president?

But Finn 's voice drew Avi's attention, and before much thought was given to it, Avi raged, "Damn, it's you kid!"

He was just beaten up by Finn in the morning, and Ah Wei still didn't know where to go to take revenge, but I never thought that Finn would appear on such an occasion, and God had given him the chance.

When the other students saw Finn speak, they thought that Finn knew A Wei and were very happy. But this angry statement from A Wei made the students' hearts cold, where is Finn a savior, he is totally pulling hatred.

But A Wei didn't rush to do anything, but instead swept around, and eventually his eyes fixed on Shangguan Yue's body, his eyes suddenly revealed greed.

A Wei licked his lips and said, "As expected you guys are a piece of cake, can't help but let me get my revenge and f*ck this chick of yours, it seems like the heavens aren't bad to me!"

Immediately afterwards, Ah Da waved his hand and said, "Guys, later on, when I have a good time, you all have a part to play. There are quite a few other girls too, a little less posture, but they're all student girls, so they should be good to play with, so let's get high tonight!"

As soon as this was said, each of the spirit boys behind Avi was suddenly silver-eyed and had begun to scan every girl present, like a cheetah picking its prey, their eyes filled with possessiveness.

On the other hand, the students of the first cl A** were already looking like dirt, thinking of a bad ending. What's more, they were blaming Jiang Yanglu in their hearts, if it wasn't for Jiang Yanglu's action just now, they wouldn't have gotten into these things.

Or if they had listened to Finn 's persuasion and left just now, they wouldn't have been killed by these thugs.

Especially at this moment, Jiang Yanglu was still hiding behind like a grandson, he was really very unmanly, or to be precise, a wimp.

"Mom, you kid behave yourself, just be at ease and be a wimp, don't give me shame!" A Wei glanced at Jiang Yanglu, scaring him so much that Jiang Yanglu quickly threw his phone on the ground.

Although Jiang Yanglu had retreated, he also wanted to call his uncle, and when the time came, he could still say that he was retreating to make progress, but now this little action was also completely seen by A Wei, he really had no other choice, and also looked like a loser, so he stood aside, like a loser.

"Yeah, there's nothing wrong with just being a wimp honestly, hahaha!" When A Wei saw Jiang Yanglu's wimpy appearance, he laughed even more recklessly.

When he turned his head, A Wei looked greedily at Shangguan Yue's body, sweeping up and down, Jie Jie said with a strange smile, "Little girl, you won't get away this time!"

"Look at you paralyzed!" Finn was suddenly furious, even if he was looked at that way by A Wei, he felt that A Wei had insulted Shangguan Yue, not to mention that Shangguan Yue couldn't be stimulated right now.

Without much thought, Finn copied the bottle and threw it at A Wei, and came with a bang to explode his head.

A Wei's head was like a burst watermelon, bursting with red juice.

It was just a bottle, not enough to beat down Avi.

Avi screamed in pain, and after touching the donated blood on his head, he burst into rage and said, "Damn it, give it to me, chop this kid into mincemeat!"

Once this statement was made, not to mention Finn, even the other students were scared out of their wits.

Originally thought it was just a beating, but A Wei actually wanted to kill, and it didn't matter if Finn was killed, the rest of them were also worried about being killed and were even more scared out of their wits, but not indifferent, they also wanted to fight back desperately.

However, before the spirit guys could do anything, the door was kicked open and then six big men over one meter nine meters rushed into the private room.

Don't look at the spirit guys there are more than a dozen people, but they are also hollowed out by alcohol, even if they have the skills, some kung fu, are all three feet of the cat kung fu, dealing with students is okay, for adults did not fold.

And these six big men weren't ordinary people, they were the same six vajra that Finn had brought earlier.

The Gao family spent a lot of money to train their thugs, and they didn't need to think much about it to know that they were more awesome than these spirit boys, not to mention that they themselves had a height advantage.

So, before the dozen or so spirit guys could react, the six vajra took a baseball bat and thunderbolt was a beating, directly wiping out the spirit guys.

Only Wei was left stunned in place who hadn't reacted yet.

The appearance of the six big kings made the students excited. When Jiang Yanlu saw this, his eyes turned and he said proudly, "Cl A**mates, I was just retreating to advance, these are the helpers I found."

Upon hearing this, all the students revealed a look of shame at Jiang Yanglu, somewhat regretting having doubted Jiang Yanglu's good intentions.

Jiang Yanglu was so proud of himself that he was about to take out the money and secretly stuff it into the Six Vajra to accompany the act.

But the Six Vajra was the first to kneel in front of Finn and said, "Ye Shao, we're late, please punish us!"

Seeing this, all the students instantly dawned on the truth of the matter .

On the other hand, Jiang Yanglu was also completely disheveled....

218

Jiang Yanglu couldn't have imagined that after messing around for half a day, these people were actually Finn 's men, which was embarrass A**ing.

He was bragging just now, but the fact in front of him was like a slap, mercilessly slapping Jiang Yanlu's face.

"Oh, that's it?"

"This too Pepe as our squad leader?"

"Jiang Yanglu is a big liar!"

"Not only is he a liar, but he's also a wimp!"

The students complained, and even if they didn't strike at Jiang Yanlu, it was like a punch to the face.

On the other hand, the attitude of the students towards Finn was completely different.

"Wowse, Finn is so handsome!"

"As expected of a second cl A** leader, he's so much better than that Gao Xingyu!"

"It's so reliable, that's the kind of man I want."

Without waiting for Finn to speak, Shangguan Yue waved her hand, "Insolent, don't get ideas about my husband, he's mine!"

Finn shook his head helplessly, but these boasts were still very useful to him, and the fact that so many people were bragging made Finn a bit floored as well.

“Old rules, take these people down and deal with them.” Finn said to the six vajra.

Ah Hu scratched his head and said, “Ye Shao, I’m afraid I can’t physically eat with so many people.”

“If you can’t eat it, eat it slowly, perform well and double the bonus.” Finn’s tone couldn’t be denied.

And hearing the prize money doubled, Ah Hu also came to his senses. After all, one time was nearly a million, and doubling it was two million, he simply couldn’t refuse.

“Don’t worry, Ye Shao, let me handle this matter!” Ah Hu beamed with joy.

Finn glanced at the trembling Ah Wei and said again, “Especially Ah Wei, one time is far from enough, it’s better to do it ten times eight times, let him also experience what those women he bullied before felt, next time I forgive him he won’t dare!”

Ah Wei’s face changed dramatically, at this moment could he still not understand what Finn meant?

Where this was a beating, it was a wrestling exercise that made the back door bloom.

Seeing the eyebrows Ah Hu cast over, Ah Wei was so scared that he just rolled his eyes and fainted.

Ah Wei made trouble, the students had no intention of playing, the most important thing was that it was still Jiang Yanglu’s treat, if Jiang Yanglu fell off, they would have to pay out of their own pockets.

So while Jiang Yanglu was still in the room, all the students scattered and left the room.

Naturally, Finn also took Shangguan Yue along with the people left the KTV and drove the BMW I8 and brought it back home.

In the next few days, Finn didn’t have anything to do, so he took Shangguan Yue to walk around and play everywhere.

After a few days, when Finn saw that Shangguan Yue’s mood was stable, he took Shangguan Yue to the hospital to find a psychiatrist for a follow-up visit, as long as he was sure that Shangguan Yue was fine, Finn was able to take care of one thing.

This morning, Finn brought Shangguan Yue to the hospital, because it was a temporary arrangement and there was no appointment, so he just had to go through the process and register for a queue.

Finn didn't want to be a nuisance, so he just honestly registered his number in the queue.

To be honest, Finn had never been to a hospital before, how could he know the process was so complicated, but he also took it as fun and enjoyed every process.

Finally after an hour of busy work, Finn finally got the number plate.

There were quite a few people coming to see the doctor, and just now Finn asked the nurse that it would take until the afternoon for Finn 's turn, Finn was going to take Guan Yue to have lunch first, and then come back when he finished eating, and there was plenty of time.

Because there was no need to take blood tests, the meal was also unaffected.

But as soon as he returned to the place where Yue Guan was waiting, Finn couldn't help but frown, because beside Yue Guan was sitting next to a balding middle-aged man in a black suit with a large belly.

The balding middle-aged man was speaking spitefully, while Shangguan Yue was frowning and looked very reluctant.

Without saying a word, Finn went over and kicked the balding middle-aged man with a flying kick, directly knocking him to the ground.

Finn didn't have any nonsense to say, he wouldn't let go of this kind of man who har A**ed his woman, especially if it was this kind of dirty uncle.

"Stop, don't fight." Shangguan Yue hurriedly pulled Finn .

Finn couldn't help but frown, "Don't fight? He's har A**ing you, how can I stand it."

"He didn't har A** me." Shangguan Yue blinked her eyes, looking surprised.

Finn was suddenly confused and said, "He didn't har A** you? Then why were you so disgusted to avoid him?"

"This uncle is a director and also came to see a patient, and when he saw that I looked good, he thought of inviting me to just act, but I didn't want to act, so I was refusing." Shangguan Yue explained.

"What, a director?" Finn 's newly recovered face was cold again, although he had never seen a director, but he also knew that directors are not good things, all have subliminal rules or something, come to find Shangguan Yue, not still gluttonous Shangguan Yue's body.

But nothing happened now, Finn is not going to fight again, after all, it's in the hospital, it's no longer good to scare other patients with a casual hand.

"Pay attention next time, don't just invite." Finn snorted coldly and brought Shangguan Yue to walk out.

"Ouch!" A scream from the balding uncle suddenly attracted many people, who could not help but watch.

The balding uncle held his leg and screamed, "Ouch, my leg, it hurts, what's wrong with young people nowadays, how can they just hit people!"

Finn frowned and was about to do something, but was stopped by Shangguan Yue.

"Why are you stopping me?" Finn frowned, he is not stupid, just now he obviously kicked the bald uncle's arm, but at the moment the uncle is holding his legs, this is obviously pretend.

With this bear look of the director, in Finn's opinion, it was a porcelain touch.

"The more the merrier, I think it's better to forget it." Shangguan Yue consoled, it wasn't that she was a saintly mother, the second was that this was a hospital, not any other place. There were many patients who were perhaps just as afraid of being irritated as she was, and it would be a big taboo if it irritated the patient and caused a seizure.

"Let me handle this matter." Shangguan Yue patted Finn's shoulder and walked towards the balding uncle.

Finn nodded his head and also wanted to see how Shangguan Yue handled it.

In fact, from the time he met Shangguan Yue, Finn had never seen Shangguan Yue take action. And as a little witch, how could she be so easily irritated, she was not really a little witch.

In Finn's opinion, Shangguan Yue was more like a little sister next door, a little flower in a greenhouse, not at all as cold-blooded and cruel as the rumors.

Taking this opportunity, Finn also wanted to see how exactly Shangguan Yue became famous.

Only Shangguan Yue walked up to the balding uncle and lowered himself, "Uncle, may I ask which leg is hurting you?"

"My right leg hurts." The balding uncle was holding the right leg, and right now it was just by saying right leg, the performance was so strong that there was hardly any flaw.

Especially the sweat oozing from his forehead made the crowd of onlookers feel even more real.

If it wasn't for the fact that it was Finn who just did it, I'm afraid Finn would have believed that the balding uncle was real, and that the uncle's acting was really strong, would he become a director!

219

"Right leg pain? And how exactly does that hurt?" Shangguan Yue faintly spoke, not panicking in the slightest as she continued to ask.

"It hurts, the pain of not being able to stand up, I feel like my leg is ruined." The balding uncle didn't know what Shangguan Yue meant, but he still quickly said a thought, otherwise, he would be seen to be broken.

And there was no flaw in his statement, anyway, just saying that he couldn't stand up, he didn't believe that Shangguan Yue dared to do anything.

"Ah, the pain of not being able to stand up ah, how does that uncle want us to compensate, we will definitely compensate properly, just say a number." Shangguan Yue said again.

Hearing the money given, the balding uncle brightened up, but he still didn't get on board, but snorted, "I don't want compensation, what do you take me for, what I want is an apology, a sincere apology, you really think money is great, I'm poor, but I also have ambition, I won't give in for a little money, I want you to kneel down and apologize to me!"

The balding uncle's words were met with a sudden applause from the crowd.

Most of the people were poor, and they just wanted to see this kind of positive energy that didn't give in for money.

Finn secretly bad, bald uncle is really a master, just now if you say money, that is and porcelain touching no mistake, or low-level porcelain touching, but now also do not want money, so that in the eyes of p A**ers-by, it is not porcelain touching, because not for the name and not for profit, is to take offense, it is very clear, is bald uncle really hammered leg like.

Finn was about to make a move, but Shangguan Yue indicated with her eyes that Finn should not be anxious.

Seeing that Shangguan Yue was so calm, Finn nodded his head and loosened his clenched fist, anyway, now he was here, he wasn't afraid of the balding uncle misbehaving with Shangguan Yue. The first website m.

Shangguan Yue took out a card from her bag, "I understand that you want me to kneel down and apologize, but my knee is worth a thousand gold, so I'll give you

a thousand gold, I'll discount you a hundred million according to the market price, so that's enough."

Saying that, Shangguan Yue handed the card to the balding uncle.

Everyone was shocked at this statement, as no one would have thought that Shangguan Yue was so rich.

"Of course, if you don't want the card, WeChat transfer is fine." Shangguan Yue said and took out her phone, only to see that the WeChat balance was as high as 500 million.

Finn couldn't help but wonder, after all, being the daughter of the Shangguan family, it was reasonable for her account to have so much money.

And now the problem is thrown to the balding uncle, either to collect the money, but this will also be seen as a porcelain touch, but if you don't collect the money, then you will also be treated as an idiot.

No matter who it was, 100 million was no small amount.

To put up with it for 100 million for the sake of 100 million, anyone else would have chosen to ask for the money, after all, it was too good to be true.

The balding uncle was also in deep thought as a result, after all, 100 million was not a small amount for him either.

However, at this moment, what no one had expected was that Shangguan Yue's 12cm high heels stepped directly onto the balding uncle's right leg.

These 12cm heels, if they stepped on the leg, they would definitely be crippled on the spot.

Some of the onlookers at the scene suddenly shouted, "Uncle, watch out!"

The balding uncle was deep in thought, and upon being reminded, he jumped up in a jolt, avoiding a kick from Shangguan Yue.

"So close, so close, thank you, little brother." The balding uncle patted his chest after fear and said, "I've thought about it, I'll ask for money, after all, you're also a little girl, I don't want to embarrass A** you, so you can just transfer money to me."

But when the words fell out, the bald uncle sensed that the atmosphere was wrong, and Finn also ran straight out and kicked over the bald uncle.

"Damn, everyone see it, this is a porcelain touch!"

Actually, no need for Finn to say it, everyone saw it too.

Because just now, the bald uncle jumped straight up, if he really couldn't stand up, how could he dodge it, and his movements were excessively flexible, it didn't look like he had been injured at all.

The p A**ersby at the scene suddenly praised Yue Shangguan for his resourcefulness and being able to expose the balding uncle so easily.

But Finn knew that it wasn't simple, if he had stepped on it directly, the balding uncle would have been able to endure his instinctive reaction and would have received a kick from Shangguan Yue.

But Shangguan Yue used one hundred million to put the balding uncle in a difficult situation, and then launched a surprise attack, so that the balding uncle was caught off guard and did not have the time to react, with such a chain reaction, only then did he succeed in getting the balding uncle trapped.

It was only at this moment that Finn felt that Shangguan Yue was really smart and a true little witch, it was also really amazing that she could come up with such a solution.

The next thing was simple, no matter how Finn fought, the crowd wouldn't say anything, or even join together.

After all, the balding uncle was just a liar who had just cheated them out of their sympathy, and they didn't want to spare this kind of porcelain touching liar lightly.

For a while, after Finn got tired, he left the hospital with Shangguan Yue to go eat.

"Really!" Finn gave a thumbs up to Shangguan Yue, because Shangguan Yue's performance was really too amazing, it completely impressed Finn .

But just like that Shangguan Yue was also irritated by him, so that meant one thing, that Shangguan Yue really put him first in his heart.

Thinking of this, Finn felt even more guilty about Shangguan Yue.

Shangguan Yue seemed to have seen what was in Finn 's heart and also sighed, "I'm also to blame, if I hadn't mentioned that person, it wouldn't have made you angry, I won't mention that person again, and you won't yell at me in the future either, okay, I'm really afraid that you won't want me."

"I was wrong, I won't, I won't even yell at you in the future, I'll definitely spoil you to the heavens and become a little princess!" Finn hugged Shangguan Yue tightly and kissed him deeply.

A little girl like Shangguan Yue was similar to Ye Jiaqi, but her heart was actually simpler and turned for him.

Everything was because Finn was overthinking.

In fact, the main thing was still Finn 's heartfelt lack of confidence, after all, he was not a rich man since childhood, but was found by his family, in essence, Finn still felt that he was a poor hangman, a poor orphan.

Everything in front of him seemed like a bubble, and he was very afraid that it would suddenly disappear.

So everything the family asked of him, he tried to do the best he could, just to make the family happy so he could have a better life.

Only Finn suddenly realized that he was the one who was over-intentional.

Because he was born with a golden key in his mouth from birth, even if he lost it, his genes were excellent genes from his parents and also later on his parents came to find it, so it was like a dream that shattered all those years of his hanging life before.

At this moment, he was back to being like a rich man again.

Just a simple thought, Finn was not so inferior, so he took the shy-faced Shangguan Yue to dinner.

Because the two of them had solved their misunderstanding, their relationship was once again sublimated, and just eating, they fed each other countless times, making the p A**ersby both envious and jealous.

220

However, Finn 's words never seemed to count, every time he said to spoil a woman, the woman would leave at this time, as if it was like a spell.

In the afternoon, after going for a recheck, Shangguan Yue didn't have any problems, which also made Finn 's mind at ease.

Half a month p A**ed and Shangguan Yue finally regained her original appearance, the only difference was that Shangguan Yue was even more dependent on Finn , and was like glue and shadow to Finn .

However, just on this night, Finn suddenly received a call from Wang Kexin.

"Kexin, how are you doing lately?" Finn was concerned.

"No, I'm not okay, I'm about to be sent to be a star by my family, I don't want to, Ye Shao when can you come, take me away."Wang Kexin cried out.

However, the voice was not loud, and seemed to deliberately lower the volume.

In the meantime, Finn 's brows knitted.

Earlier, Wang Kexin had told him that as long as it was not a marriage, he was going to be a star.

Finn had been busy in Fangzhou and had really forgotten to go to Wang Kexin, but now on this side of Fangzhou, there was no need for him to carry it all the time, and it was just as well to pick up Wang Kexin. Remember the URL .

“Kexin, don't worry, I'm leaving for your family, you stall the family for a few days, wait for me, I'll be right back.”

Finn said comfortingly, and had already started to operate the computer to order plane tickets.

Finn knew that Wang Kexin's home was in Hundred Flowers City.

The distance from Fangzhou wasn't too far, and it would take three hours by plane to reach Hundred Flowers City.

“What's wrong?Did something happen?”Shangguan Yue hugged Finn from behind and also saw that Finn had booked the ticket.

Finn touched Shangguan Yue's hair and sighed, “It seems I can't go to my appointment to accompany you properly again, something happened on the side of Kexin, the family forced Kexin to be a star, that is, to give up on her, I'm going to pick her back.”

“Kexin sister ah, then you quickly go, you also do not say miss appointment, this half month you really good company me, I feel like a princess, this half month I have dreamed enough, now is also time to wake up, I have a few other sisters up there, always have to share you with them, you just go, Kexin sister over there things are more urgent!”Shangguan Yue had already known that Finn had several other women before and had accepted it at the beginning.

But the more sensible Shangguan Yue was, the more Finn felt indebted to Shangguan Yue, hugging Shangguan Yue tightly, Finn said seriously, “Don't worry, once everything is over, I'll take everyone to Ye Island to get married, never separate, and accompany you every day.”

“Alright, alright, I know.You focus on your career now, you have to be strong yourself, this is the man that my Shangguan Yue sees, just....Just come back to see me when you have time.”Shangguan Yue patted Finn 's back, but her voice was getting smaller and smaller, and tears were falling down without a fight.

“There's no rush now, the latest flight is in three hours, so there's still enough time.” Finn was a little distracted, he didn't like sad separations, and he wanted to be happy even if he left.

And this half month, the relationship between the two had already broken through the last step.

Shangguan Yue's face was instantly shy: "Nasty, you still want to do bad things at this time, you pull the curtains, I don't like too bright."

"Okay!"

Finn got out of the bed to draw the curtains, then he transformed into a big bad wolf and pounced on Shangguan Yue....

"Whoosh!"

With a sound that cut through the sky, the plane that Finn boarded had rushed into the sky.

Reminiscing about the beauty of Shangguan Yue, he was now embarking on a flight to Hundred Blossoms City.

It was worthy of being a flight to Hundred Flowers City, the entire plane was particularly fragrant.

It wasn't the first time Finn had been on a plane, normal planes didn't smell of perfume, they were all ordinary air, without the slightest odor, whether it was fragrant or smelly.

But this flight was a strange perfume, but it was light, not so pungent, not very strong, just light, making people feel very good.

Evan couldn't help but take a few deep puffs and look satisfied.

In a short while, the radio sounded, explaining the real reason for the aroma in the plane.

It wasn't actually the plane's specialness, but rather because of the specialness of the Hundred Blossoms City.

The Hundred Flowers City was called Hundred Flowers City because there were more than a hundred kinds of valuable flowers in the city, other flowers were countless, and Hundred Flowers City had four seasons, so the whole city was fragrant.

It was rumored that most homes in Hundred Flowers City were wooden houses, which were very intentional.

Finn even felt that Hundred Flowers City was inhabited by a group of ancient people, and he couldn't help but envy Wang Kexin.

Wang Kexin's reclusive family had chosen to live in such an antique city, which could be considered very correct. However, Finn also had a suspicion that it was possible that the existence of the Wang family was the reason why Hundred Flowers City had developed into what it was now.

I heard that the Wang family is in the incense industry, not only incense, but also spices and perfumes and so on, as long as the products related to incense, all are related to the Wang family.

There were also rumors that flower cakes came from Hundred Flowers City, and Finn even thought that it was invented by the ancestors of the Wang family.

The aroma on the plane was because the plane was a single line, flying only from Fangzhou to Hundred Flowers City, and it was a Hundred Flowers City plane, so it had been stained for a long time, and that was why it had the current fragrance and was a major feature.

"It's worthy of being Hundred Flowers City." Finn exclaimed.

"Sir is right, Hundred Blossoms City is also proud of this." The flight attendant wearing a cheongsam left after handing Finn a gl A** of Coke that he had ordered.

Finn took a deep look at the cheongsam-robed flight attendant.

Unlike the flight attendants on the other cars, the attitude of the flight attendant on this flight was exceptionally kind, and there was a complacency in mentioning Hundred Flowers City, this was the girl cultivated by Hundred Flowers City, are so natural and generous.

Seeing the flight attendant, Finn thought of Wang Kexin, especially thinking of the situation Wang Kexin is now in, the good mood was suddenly ruined, and could not help but clench his fists.

"Sir, please take care of yourself."

Just at this moment, Finn heard a familiar voice.

No need to think much, there was still a familiar voice on the plane, it must be the flight attendant from earlier.

Finn hurriedly turned his head to look, after all, this flight attendant gave Finn a good impression, he wanted to see what was going on, and didn't mind mind minding his own business.

Turning his head, Finn saw a large fat hand tightly grasping the small hand of the flight attendant, and even sniffed the fragrance, "Not worthy of the Hundred Flowers City, so fragrant, hahaha!"

Along with his laughter, the companions around him also laughed out loud.

It suddenly dawned on Finn , no wonder there was trouble on the plane, he had an accomplice.

But when it came to accomplices, Finn naturally also had them, and on this trip, in order to prevent any untoward encounters, Finn had brought all of his six vajra with him.

On the one hand, to protect the safety, on the other hand, also brought the six vajra reunion built up.

But unexpectedly, before even getting off the plane, it was of great use right now!

Chapter 221

“Sir, please take care of yourself.”

The stewardess turned pale and dodged somewhat, trying to get away from these fat hands.

However, these hands gripped tightly, and even tugged hard to pull the air hostess into her arms.

If you want to get rid of them, you need to get rid of them, and then you need to get rid of them.

The reason why Finn was meddling, for no other reason, was that the air hostess had a slight resemblance to Wang Kexin in her temperament and even appearance, which made him think of Wang Kexin who was oppressed in the Wang family at the moment, similar to witnessing the emotions of a person.

Anyway, Finn didn't want the stewardess to be defiled by this fatty right now.

The hands were touched and dirty, they could be washed. But if the body was hugged and the face was kissed, then it would probably cause irreversible mental trauma to the flight attendant.

“Let go of me!”

Finn saw that it was too late and hurriedly drank to stop.

Although a stern shout didn't play a critical role, it had a substantial effect, at least the fat man was frightened for a bit, and also gave the stewardess a chance to breathe – breath. The first website

But what Finn did not expect was that the stewardess raised her hand as she approached the fat man and aimed an elbow strike at his chin.

With a bang, the fat man's chin cracked, and then blood seeped out of the corner of his mouth.

"Wang Kolan, are you crazy!"

Another flight attendant rushed over from the other cabin and grabbed Wang Ke Lan.

Wang Kolan scratched his head and threw out his tongue, "Sorry Sister Ling, I didn't control it for a moment, I'll be sure to pay attention next time."

Sister Ling held her forehead and said, "How dare you have a next time? Tell me, how many times is this the third time just this month, even if you're a member of the Wang family, you can't be so unruly, I'm afraid the captain will definitely report it this time, you're finished ah."

"If it's in the newspaper, it's in the newspaper, anyway, it's this dead fatty who laid his hands on me, and he's not blaming me, it's reasonable to say it anywhere, I don't believe it's going to be finished." Wang Ke Lan pouted to, taking no notice of Sister Ling's words.

The first thing you need to do is to take a look at the product and make sure that it is in the right place. Forget it, you go down first, I'll handle this side."

"Alright then." Wang Ke Lan pursed her lips, somewhat dissatisfied, but still listened to what Sister Ling said, and just left in big strides.

Before reaching Finn's side, Wang Ke Lan patted Finn's shoulder and said, "Little brother, thank you."

"You're welcome, I didn't do anything." Finn even waved his hand like he was sending away Wang Ke Lan like a plague.

Just now when Wang Ke Lan patted him on the shoulder, he thought he was going to have an over-the-shoulder fall.

Finn was unexpected that such a beautiful little girl still had such a violent gene, it was really terrifying.

He was also considered to be redundant, he reckoned that if he didn't do anything, Wang Kolan could easily KO the fatty. Just now, Ling had said that Wang Ke Lan had beaten three times this month alone, so obviously she already had experience in dealing with such hard A**ing customers. Maybe being grabbed by the hand instead of directly resisting was also a preparation for an elbow strike.

Wait, Finn was suddenly stunned, thinking of the most important sentence of Ling's.

Wang Kolan was a member of the Wang family, and the names Wang Kolan and Wang Kexin both sounded so similar, could it be that it was the same Wang family that Finn was going to?

Are the Wang family all martial arts experts?

Finn wasn't concerned about Wang Ke Lan's identity, but rather worried that the Wang family were all experts, after all, Wang Ke Lan, a little girl, was so powerful, not to mention the Wang family's professionally trained thugs. If that was the case, I'm afraid that if Finn came to the door single-handedly, he would all be crippled.

"No, this matter can't be rushed, we still need to find some experts."

Finn returned to his seat and began to contemplate, he had thought that even if he went to the Wang family with the six vajra, he wouldn't be wimpy at all, but now that he looked at the situation, it didn't seem that simple.

It seemed that going to Wang Kexin would also require a long term plan.

If we go straight to Mang, we might not have saved Wang Kexin, but instead be captured by the Wang family.

Even if the Ye family came out at that time, Charles rushed to solve things, but also relied on the family, what Finn wanted was his own growth, so he couldn't rely on the family, everything had to be meticulously planned, so that if he succeeded, there would still be successful experience, thus being able to progress.

But on the plane, Finn couldn't think of anything good to do.

By the time Finn came back to his senses, the fat man was already honestly immobile, apparently being tidied up and submissive by Sister Ling.

Finn was a little surprised, according to common sense, the fatty was beaten up must be even more trouble, how could he be so quiet, and even Wang Kolan is so listened to Sister Ling, then Sister Ling is obviously not an ordinary person.

As soon as his eyes turned, Finn pressed the service bell on the plane and called for Sister Ling.

When Sister Ling saw that it was Finn, she smiled professionally and said, "Thank you for helping out just now, may I ask what you need?"

"I have a few things to ask you, but it's not very convenient with all the people here, so do you think you could move to talk?" Evan inquired.

"Sorry sir, there's no privacy on the plane." Ling saw that Finn's expression was serious, so she said again, "First class here is already considered the least crowded place, so why don't we talk here."

Finn swept a glance at the first class cabin, and there were only eight people in it, counting Fatty and Fatty's friends. And apart from Fatty and Fatty's friend, the other six were exactly the six.

"You guys take them both to the economy class for a while, I have something to consult with this flight attendant." Finn spoke indifferently, but there was an unquestionable tone in his voice.

Sister Ling was slightly startled, because the natural superiority that Finn emitted from his body made even her a little overwhelmed and her legs weak. This aura she had only seen on the family master, but what status was the family master. And the one in front of her was nothing more than a teenager, especially the words of command, which seemed overbearing but at the same time, were useless.

Everyone else was a passenger, so how could they listen to Finn's orders.

But what Ling never expected was that as soon as Finn's voice fell, there was a unified voice from the other seats, "Yes, Ye Shao!"

The next thing Ling saw was a unified group of six strong men over one meter and nine inches apart from Fatty and Fatty's friend standing up and racking Fatty and Fatty's friend and heading straight to the economy class without giving Fatty a chance to speak.

"Are they all your men?" Sister Ling frowned slightly, although Finn was overbearing like this, it was also breaking the rules, after all, what was the difference between taking another guest without permission and kidnapping, both were restricting personal freedom.

Finn faintly spoke, "Just don't want others to hear, can we talk now?"

222

"Say, what's on your mind?" Sister Ling's expression was also serious.

Seeing this, Finn laughed, really Sister Ling was not an ordinary flight attendant, if it were anyone else, she would have been frightened by this scene long ago, it was too late to go to the captain to inform him that there was a kidnapping, how could she stay here safely.

"Are you a member of the Wang family?" Finn inquired.

"The Wang family, you know the Wang family?" Ling was slightly surprised, but quickly relieved, "Since you can equip a bodyguard with a first class cabin, you're not an ordinary family, it's normal to know about the Wang family, and yes, I'm Wang Keling."

"It's good that you dare to admit it, my name is Finn, I'm Wang Kexin's fiancé." Finn also bare his identity.

“Wang Kexin’s fiancé? Wang Kexin of our family?” Wang Keling’s eyebrows furrowed slightly, looking at Finn’s expression, more than a little suspicious.

“Ben family? You mean there’s still a separation.” Finn caught the gist of it.

Wang Keling didn’t hide it either: “Kolan and I are separated.”

“So that’s it.” Finn instantly came to a sudden realization, no wonder the Wang family would become airborne.

According to what Wang Keleen had said, the worst of the Wang family without marriage value would be sent out as stars, but even being a star was a very high status in the eyes of ordinary people, so how could they become tiny air travelers. Remember the website .

Now Finn did understand that the worst person to be a star that Wang Kexin had said before should be referring to the present family. And the branch of the Wang family should be the unheralded part of the Wang family, which is the branch, just ordinary people, just a little bit more privilege compared to ordinary people, maybe even a little bit more.

But this wasn’t really useful to Finn, Finn still asked what he wanted to know the most.

“Are there many experts in your Wang Family? Does everyone know martial arts?” Finn went straight to the point.

He just asked and actually didn’t expect that Wang Keling would answer.

So there was a surprise, Wang Keling refused to answer the question and said coldly, “Who the hell are you? Investigating our Wang family, is it an ill-advised attempt at our Wang family?”

Finn secretly said badly, knowing that he probably couldn’t ask anything now.

He realized at this moment that people used to answer all questions because of his identity, but when faced with someone like Wang Keling who didn’t know his identity, he couldn’t ask half a word.

Even if Finn said that he was Wang Ke Xin’s fiancé, but Wang Ke Ling who was a part of the family wouldn’t have the means to confirm whether things were true or not.

Shaking his head helplessly, Finn just waved his hand and said, “Forget it, go away, don’t ask.”

Anyway, even if he didn’t ask Wang Keling, Finn would still have a way to find someone else to ask. No matter how bad it was, going to a private detective to investigate would be fine. Even if you can’t find out the strength of this family,

you can at least investigate the strength of the branch family, and in this way, you can also deduce how strong this family is.

Making up his mind, Finn closed his eyes and waited for the plane to land.

Wang Keling saw that Finn was so calm and didn't directly question too much, her heart was actually similar to Finn's thoughts, that is, looking for a chance to investigate Finn, after all, as long as Finn chose to do something against the Ben family, then sooner or later, the traces would be revealed.

The only way to split up the family and promote to this family was to make a huge contribution, if Finn was also a family young master and was going to brutalize this family, then she would be able to promote to this family with this.

After taking a deep look at Finn, Wang Keling didn't want to startle the snakes at the moment, so she just left.

Soon, the plane arrived at Hundred Flowers City, so Finn got off the plane with the six villains and headed straight to the presidential suite of a five-star hotel.

As long as there was a five-star hotel, Finn would go for it, after all, the environment or the service was very good, and just now on the plane, Finn also knew that the Wang family's force was extraordinary, so he didn't dare to just let the six Donkey Kong stay too far away, so he had to arrange for the six Donkey Kong in the presidential suite.

Fortunately, the presidential suite had several rooms and there was plenty of space.

After ensuring his safety, Finn went straight out to find more experts.

Although the Six Vajra were very reliable, they were still not enough for Finn. After all, this was against the Wang family that had home field advantage, and it was definitely not to be taken lightly.

But after checking a lot of security companies with his phone, Finn was blinded, and also for all the security companies that were involved with the Wang family, not that Finn was suspicious, but that was the way it was in the name, such as Wang's security, Wang's security, Wang's bodyguard center.

These names made Finn not want to go at all, because even if he spent money to find people, if these people knew that they wanted to deal with the Wang family, these people would definitely turn against the water, very unreliable.

When Ah Hu saw that Finn was despondent, he couldn't help but ask, "Ye Shao, what's wrong?"

"I need to deal with a very strong opponent now, just relying on you guys isn't enough, I wanted to go to the security company to find someone, but for some

reason, none of them can be used for me, eh.” Finn still had nothing to hide from Ah Hu.

Tiger clapped his hands and said, “So it’s because of this thing, this is simple.”

“Simple?” Finn frowned slightly, but didn’t say much, since Ah Hu said simple, then there must be something to say.

Tiger explained, “For example, before I was in the Gao family, I wasn’t working in a security company, ordinary security personnel are all about maintaining order, even the bodyguards are not very strong, they are all a retired veteran, actually no different from ordinary people, just stronger and know some military body punches, but compared to us, they are still not quite as good.”

“And where do you come from?” Finn was suddenly interested.

Tiger continued, “We all come from martial arts schools, and although most of them are very frustrated, it’s also because we’re not from childhood, and those of us who have been practicing martial arts since childhood and have solid basic skills, it won’t be a problem for one to fight three people. That’s why I suggest that you, Ye Shao, go to a martial arts school to find someone.”

“Martial arts school? Great idea!” Finn’s eyes were sparkling, indeed, a martial arts school was a very good idea, after all, martial arts schools had their own heritage, different martial arts schools also had different backgrounds, and definitely wouldn’t be afraid of the Wang family just because they were awesome here.

Especially some old martial arts schools that had opened martial arts schools all over the country, it was possible that this kind of heritage was actually quite a bit more powerful than even the Wang family.

Thinking of this, Finn was ready to take the Six Vajra to the martial arts school.

But before he left, Finn discovered the most important thing, which was that they didn’t have a car.

That’s right, being new to this place, in Hundred Flowers City, they didn’t have a car that was their own.

It would be fine if they stayed in Hundred Flowers City for a day or two, but how could they not have a car when Finn wasn’t even sure how long they would be staying. Especially if they still had to bring the six vajra with them, one car might not be enough, they would need two cars.

Finn does not like that kind of van, now so rich to buy a van is too advantageous level, so Finn stopped the car, with the six big King Kong first to buy a car.

Very soon, Finn brought the six villains to the car dealership.

This was a large comprehensive car dealership that mixed this kind of car models, saying that it was selling cars, it was more like an exhibition hall, it was very large and looked like a small gymnasium to the eye, it was very compelling.

Finn did not have time to marvel at it, so he was ready to buy the car first.

Now the priority is to buy the car and go to the martial arts museum, now it is already two in the afternoon, if we delay too much time in buying the car, the matter of going to the martial arts museum may be ruined.

The first thing you need to do is to look up the martial arts school in Hundred Flowers City with your phone on the way here.

If you counted the different factions such as Intercepted Fist Do, Taekwondo, Muay Thai, Sanshou and so on, all the martial arts schools together exceeded twenty, if it wasn't for the fact that Hundred Flowers City was known for its flowers, Finn would have thought it was a martial arts town.

Especially Finn checked or regular big martial arts schools, as for the small martial arts schools, there are even more, Finn would not go to the small martial arts schools to find people, after all, martial arts schools make big, they all have sitters, small martial arts schools are still difficult to have sitters.

Martial arts museums usually close at six o'clock, Finn doesn't know about other places, at least Hundred Flowers City is like this, so after buying a car, Finn will have to go to a few more martial arts museums to see, he doesn't want to waste time on a boring car purchase.

The first time he bought a car, Finn was delighted, the second time he bought a car Finn was a bit tasteless, and as for the third time today, Finn was already a bit impatient.

But spare him the impatience, the annoying will still exist, will appear.

"Buying a car is it, the van over there suits you guys." The car sales lady looked at Finn, and after looking up and down, she didn't see what brand of goods it was, so I guess it was a miscellaneous brand, and she didn't feel good.

The car sales lady can't just not see that the clothes Finn is wearing are wearing handmade custom-made, foreign masters personally designed, and the logo is the evolution of Finn's name, a brand that is not even available in the market.

But the value is very high, not Finn bragging, the cost of his clothes is as high as 50,000, the fabric is very close to the body not to mention, and very three-dimensional, but also very breathable. Finn won't describe it, anyway, for Finn, it's just very comfortable to wear, very comfortable.

Finn is not interested in what the car sales lady thinks, nor does he want to explain his outfit, he just wants to buy a car, the shortest time to buy a car and then go to the martial arts school.

Don't look at Finn here, but Finn 's heart had all flown to the martial arts school.

"Tiger, which car do you fancy, choose two and we'll leave." Finn opened his mouth somewhat impatiently, not paying any attention to the car sales lady.

In Finn 's opinion, the car sales lady was a mosquito, and she was just buzzing in his ears.

In normal times, Finn had some patience and could still make a few noises, but now he was completely out of that mind and was only thinking of heading to the martial arts school immediately.

Ah Hu was suddenly excited, he was very fond of cars, but had never had the money to buy one.

And after meeting Finn , although he had a lot of money, but if he spent it all at once it would be a bit unbearable, at the moment Finn let pick the car, where would he be reserved, and then he waved his hand and said: "Brothers, go, go choose the car!"

"Hooray!"The other Big Five Vajra were also very excited and rushed over to the expensive car.

Seeing the six vajra's momentum, the car sales lady turned pale and shouted, "Security, come security, someone is causing a disturbance!"

In the car sales lady's opinion, these six giant men over one meter tall were here to cause trouble, and probably robbery.

Otherwise I have never seen anyone buying a car come to such a large group of people, and still go straight to the luxury car, how to look at it is not normal.

If there were rich people, the car sales lady would be able to see, but the six big villains are all bandits on their bodies, not a little expensive, they are still wearing the most ordinary clothes, although it is not a street stall, but it is a few hundred dollars of small brands, and those luxury cars are millions of dollars, those who can afford that kind of luxury car are wearing thousands of anima, how can they wear a few hundred dollars of small brands.

The security guard rushed in on the news, but when he saw the six big ones, he was also scared to death and froze in place.

The security guard was just a normal person of one meter eighteen, quite tall compared to an ordinary person, but when faced with Six King Kong, he was like Chicken Little, completely disproportionate.

When he saw the Six King Kong, the security guard trembled in fear and ran away without thinking much about it, not daring to stop him.

The car sales lady was confused at the sight, this was the first time she had encountered such a situation, and she didn't know what to do.

However, at this moment, a low voice came out.

"How dare you make a faux pas here!"

The car sales lady was like grasping a straw, hurriedly followed the voice to find out, and saw a teenager around eighteen years old.

The car sales lady showed a sudden disappointment, because the teenager was too young, he looked like he didn't even have any hair, although he had some temperament, he still looked extremely young, not even as young as the temperament on Finn .

"Little old brother, go away, I'll figure out what to do here, I'm already ready to call the police."The car sales lady even waved her hand, telling the teenager not to come over.

But the teenager was as healthy as flying, and rushed in front of Ah Hu in three steps and two steps.

A tiger dodged too late and was suddenly hit by a punch, but A tiger is not a soft man, the impromptu reaction is also very good, first arms held, blocking the momentum of the punch, then a sweeping kick to the teenager.

The teenager grunted coldly and rolled back, but it was a backflip, it looked very natural and smooth, it looked like he was a practitioner.

Finn 's tightly furrowed brows also re-stretched, revealing his surprise.

He had been very dissatisfied with the uninformed car sales lady went to the security guard, but attracted the teenager, but is deeply pleased with Finn .

Finn was looking for a master, although the teenager in front of him was very young, but so young, he was able to fight with Ah Hu instead of being killed by a second move, then the teenager's master must be very powerful, which made Finn couldn't help but have a love for talent.

"Ah Hu, pay attention, don't hurt him!The others surround him, don't let him escape." Finn didn't want Ah Hu to injure the teenager, if this was used to make a grudge, it would be difficult to invite the teenager's master, and surrounding the teenager was also Finn 's worry that the teenager was flexible and couldn't fight and escape.

After the order, Finn began to watch the battle and take a closer look at the teenager's path.

Although Finn does not know any martial arts, but for some simple moves still some judgment, after all, different factions have the best moves, and these moves, previously Finn has seen on television.

The young man was like a swallow, very flexible, hit it and retreat, not in love with the battle, that is, constantly moving around, looking for Ah Hu's flaw.

The more he looked, the more surprised Finn was, because this was no longer a common martial art, but more like a young warrior inside a martial arts novel, like having light skills, making Finn unable to help but be appalled!

Young man, what school do you come from?

224

The young man seemed to know how to lighten up, constantly loitering around Ah Hu, whenever Ah Hu punched him, the young man would always avoid it in time.

The juvenile was like a fierce tiger charging forward and retreating like flowing water, very natural and smooth.

It even made Finn feel like a male lead in a movie, very awesome.

"Everyone go together, catch him!" Finn hurriedly shouted.

The teenager was so awesome, Finn was very fond of him, so he wanted to get the teenager no matter what, and most importantly, the master behind the teenager must be even more awesome.

Finn didn't believe that such a young man could be self-taught, there must be even more powerful masters, and if luck was on his side, it would be even better if the teenager still had a few older brothers.

As the saying goes, two fists can't defeat four kicks, and the six Vajra surged past at the same time, not to mention the teenager alone, even if a different fighting champion came, there was nothing he could do.

The six vajra themselves are all over one meter tall brawny men, each is a muscle devil, light pressure can also crush the opponent.

As it turned out, the six vajra attacked at the same time, and the teenager's face changed dramatically, but he couldn't escape the encirclement and was captured alive by the six vajra in a short while.

"Tie me up first, I'll ask him for words later." Finn faintly opened his mouth, then walked towards the counter.

The noise here was tremendous, not to mention the car sales lady, even the cashier lady was terrified and trembled when she saw Finn walk in.

Finn helplessly shook his head and said, "Do I look like a bad guy? How could it be so troublesome if it wasn't for that frakking pen just now blindly barking."

Take out the phone Finn just scanned the code, "Hurry up and do the paperwork for me, three Range Rovers, want 2020 Sheng Shi Edition."

Range Rover, 2020 models, 3.0L6 Sheng Shi Edition, a price is 1,225,000, three units counting fractional handling fees and the like, Finn did not bother to calculate, directly transferred to four million.

"Paypal to the account, four million dollars!"

Along with Finn 's payment, there was the familiar sound of Paypal's payment collection prompt.

As soon as this sound rang out, there was silence in the room.

The cashier lady was shocked, "Sir, you really bought a car?"

"Are you stupid, I'm paying for the car, don't I buy you?" The first time I saw it, I thought it would be a good idea for me to get it," he said. Don't be ridiculous. I'm custom-made in this dress, a hundred thousand to start, not counting the AJs on my feet, after the eyes to rub highlights, today if I didn't have time to argue with you, I would have thrown you into the river to feed the fish, what do you count, and dare to waste my precious time!"

After speaking, Finn waved his hand and drove off directly in the Land Rover.

Only the car sales lady was left speechless and embarrass**ed.

And just at this time, hearing the commotion, the manager also came out, saw the scene of chaos, and asked the cashier lady.

The cashier lady will narrate the course of events once, the manager suddenly kicked the car sales lady, complaining that the car sales lady offended the big customers.

At the moment, Finn have left, can not see this scene, the manager can only regret regret, did not make such a local hero friends, not by all the anger vented on the car sales Miss, and finally comfortable, and mercilessly dismissed the car sales Miss.

A total of three Land Rover, Finn alone one, six diamond divided the remaining two.

Finn left the dealership, drove to a secluded deep alley, before stopping the car.

The six vajra escorted the teenager out of the car.

At this moment, the teenager also understood that he had misunderstood Finn and the others, and was somewhat embarrassed, "Big brothers, I didn't expect that it wasn't you guys who were causing trouble, it was that big sister who was blindly provoking trouble, I'm to blame for not seeing the truth, I sincerely apologize to you guys, you let me go."

"Let you go?" Finn glanced at the teenager and laughed furiously, "Why are you so naive, you directly attacked us, if it wasn't for our strong bodies and large numbers, you might have really finished beating us and sent us to the bureau for tea."

"This...." The young man looked embarrassed, indeed, what Finn said was very reasonable.

If it wasn't for Finn's powerful men, I'm afraid he really would have sent these people to the bureau.

"Then what do you big brothers want to do, I'm quite poor, and I don't have any money, nothing." The young man looked torn.

Finn didn't help his forehead: "You still don't have anything? It's enough that you're so strong, I actually want to hire a force to help me do a job, you're so powerful you should be the proud disciple of which martial arts school, just help me introduce your master and talk about a business, in terms of money, I'll give a satisfactory figure."

"What? Are you going to pay to hire me and my martial arts school?" The teenager was first surprised, then showed surprise.

"What's wrong?" Finn was a little startled, not knowing why the teenager was so excited, according to common sense, none of them should be like this, after all, the martial arts school origin, all of them had righteousness in them, and all of them were disdainful of money.

The teenager said excitedly, "Do you know why I'm at the car dealership? Just because I don't have a job or an income, I wanted to see when there's a robbery and I'll come on board to save the day, and then the dirtbags there will be able to match me and hire me as a bodyguard."

"Huh?" Finn did not expect the teenager to think like this.

In fact, according to the teenager's strength, it was completely possible to go to some family town scene, after all, so young to challenge Ah Hu, its strength felt not weak, the future is unlimited.

In particular, the teenager's body technique was incomparably powerful, making Finn all a bit jaw-dropping.

The youngster nodded, "Young Master, if you want to hire, I'm willing to introduce you, but can you give me priority? I see you're also quite rich, so why

don't you hire me first, I don't want much, just give me five thousand a month to cover food and accommodation."

"....."

This sentence made Finn completely speechless, I can't imagine that such a powerful existence would want five thousand to cover food and lodging, how could they ask for so little.

But thinking carefully, it dawned on Finn .

Because not to mention the teenagers, let's say Ah Hu and these people, at that time in the Gao family, it was only ten thousand a month, and it was estimated that it was only a few thousand at the beginning.

Now that Finn still had nearly two billion in cash on him, if the juvenile was even doubling the price, Finn would be able to hire quite a few.

Thinking of this, Finn nodded and said, "Alright then, take me to your martial arts school, I will give you priority in hiring you."

"Thank you, young master."The young man jumped up in excitement and took out a business card from his bosom and handed it to Finn .

What Finn didn't say was that he actually wanted to directly hire an entire martial arts school, or if one martial arts school wasn't enough, he wanted to find two martial arts schools, after all, the Wang family wasn't that easy to deal with, everything had to be steady.

Receiving the business card, it had the name of the martial arts school and the teenager's name and a cell phone number on the front.

Martial Arts Pavilion; Lin Mu Mu; 138....

225

Turning over the business card, the back of the business card wrote the project, and after seeing the project, Finn was blinded.

The Martial Court's purpose: the customer is God, the mission will be achieved.In addition to killing and setting fires, any business is accepted, if the amount of money is sufficient, killing and setting fires is also acceptable.

This sentence was not something that Finn had made up, but was the original, the words written on the business card.

The first thing you need to know is that you can't find any other way to get rid of the problem.

As long as money could solve things, it wasn't a matter.

"Let's go, lead the way ahead, Ah Hu will drive Lin Mu Mu." After Finn instructed, he got into the Land Rover.

The crowd set out on their journey once again, aiming for the Martial Pavilion.

When they arrived at the Martial Pavilion, Finn was stunned, it wasn't Finn's problem, but the impact the Martial Pavilion had on Finn was too great.

Finn thought that the Martial Dao Pavilion that cultivated a genius like Lin Mu Mu must be an extraordinary existence, but it was a little too extraordinary.

The Martial Dao Pavilion wasn't set up in the city center like other martial schools, but in the suburbs. The debut website m.

Just now in the car, Finn even uneasily checked the martial arts cabinet, but did not find the address, but also did not suspect Lin Mu Mu.

Because Lin Mumu's business card is definitely not forged, unless Lin Mumu has a premeditated plan to deceive Finn, but is it necessary? They don't know each other and have no previous grudges.

In fact, the Martial Arts Pavilion was nothing in the suburbs, but the point was that it was in an abandoned building, and there were many signs of "demolition" on the outside of the building that clearly stated that dangerous buildings were off limits.

"Are you sure this is the right place?" Finn was a little worried, he was really afraid that if he went in, he wouldn't be able to get out, this kind of building collapses when it says it's going to collapse, no one can say for sure.

Lin Mumu saw Finn's worries, so he took the initiative and said, "Let's say, all the big brothers wait for me here, I'll go call the curator to come out."

"Okay." Finn nodded, he really didn't want to go in.

Lin Mumu tumbled over the fence and jumped over the fence into the abandoned building, not long after, he came out with a middle-aged man with white sideburns.

To Finn's surprise, the middle-aged man looked very decent, not at all like someone who lost his dignity for money.

However, Finn wasn't sure, because Lin Mu Mu was also all righteous, but he was breaking his back for five thousand dollars, so Finn also couldn't understand a bit.

"Mumu, is this what you call a rich man?" The middle-aged man glanced up and down at Finn, but didn't see any doors, but when he saw the three Land Rovers

listening behind Finn , he exclaimed, "F*ck, Land Rover, or the newest 2020 model, these three will be nearly four million!"

When he turned his head, the middle-aged man patted Mumu's shoulder in satisfaction, "Mumu ah, you've done a good job this time, you can go back now."

"Master, what do you mean?" Lin Mu Mu frowned.

The middle-aged man chuckled, "What do you mean, of course it's up to my master to do it for you. You're still young, you don't know the dangers of society, and your skills aren't up to par, according to my master, you still need to hone your skills for a few more years."

Finn suddenly looked speechless, because the middle-aged man was also too shady, even his own disciple, as expected he was not a good thing, not the same as it looked. Where is this decent, just an old scoundrel ah!

The middle-aged man then handed a business card to Finn , "Young Master, hello, my humble name is Xu Qingfeng, I am more suited to serve you than my apprentice, do you see what services you need? I'm not asking for much, twenty thousand a month, just food and shelter included."

"Twenty thousand?"

Finn was surprised, could it be that Xu Qingfeng was four times stronger than Lin Mu Mu?

But it really wasn't possible, because Xu Qingfeng was the curator, or Lin Mu Mu's master, if he had the strength.

"Does Young Master find it expensive? I can counter-offer you up to fifteen thousand, it can't go any lower, if it goes any lower, I won't even have the money for the child's milk powder." Xu Qingfeng revealed a miserable expression.

Finn was even more speechless, this girl, she really knows how to pretend.

But with such a little money, Finn really didn't care.

"You can have it, twenty thousand is fine, but I want to try your skills."

Finn faintly opened his mouth, just talking without practicing fake tricks, he also wanted to see Xu Qingfeng's methods.

Finn then waved his hand, and Ah Hu went out of the battle.

"Good!"

Xu Qingfeng nodded, the roguishness in his eyes disappearing in an instant, followed by determination.

Finn knew that Xu Qingfeng was not playing around, so he quickly made his way out of the way to give Ah Hu and Xu Qingfeng enough space.

Lin Mu Mu was a little unsure, "Young Master, why don't you send one more person, I feel like one person doesn't seem to be enough."

"What?" Finn couldn't help but frown, but it soon dawned on him, after all, Ah Hu was evenly matched against Lin Mu Mu, let alone Xu Qingfeng, who was the master, and was definitely even more superior.

But it was all over now, because Xu Qingfeng had already rushed out.

Tiger put up a full frame, he wasn't good at attacking, because of too much muscle, he actually didn't act that flexible, if the game, Tiger was the type of heavy tank.

The only drawback was his flexibility.

The few times he had done it, Tiger could also see that Tiger's best attack was not an active attack, but a defensive one followed by a heavy punch and a counterattack the moment the opponent hit him.

Although this was a disadvantage, it was an easy task for Ah Hu who had a high defense, it was just a hairy damage.

But this time, Finn was worried for Ah Hu, because Ah Hu's opponent, however, was Lin Mu Mu's master.

In the lightning, Xu Qingfeng arrived in front of Ah Hu's body, his speed was even a few points stronger than Lin Mu Mu, and vaguely, Finn seemed to see an afterimage.

But it was fleeting, and Finn even felt that he was seeing an illusion. But no matter what, the punch was still punched out by Xu Qingfeng.

"Bang!" "Bang!"

With a loud bang, Tiger flew out upside down, but the second sound was not the sound of Tiger landing or Xu Qingfeng striking, but the sound of a sonic boom coming from Tiger who flew out upside down.

Listening carefully, Finn even heard the sound of bones breaking.

Xu Qingfeng's strength was truly not to be underestimated, and just the might of a single punch had broken Ah Hu's bones.

"f*ck, stop stop stop!"

Finn was so frightened that he ran over and helped Tiger up, ready to check his injuries, but Tiger's hand was like a soft as a bony snake, he didn't resist at all, but he broke the bone of his hand.

Nima, this was too brutal.

No matter what, Finn did not expect Xu Qingfeng to be so strong.

But what made Finn even more unexpected was Lin Mu Mu's faint words.

"That's it, my master isn't serious yet..."

Chapter 226

If that's not serious, what is?

Is it only serious if you beat Tiger to death?

Finn used to think that someone who could kill a bull with one punch was a joke, until he saw Xu Qingfeng, he didn't know that such a person really existed in the world, it was really scary.

"That, young master, do you think I'm qualified?" Xu Qingfeng put away his serious color and showed the old traitor's expression again, very much a yardstick.

Finn said furiously, "You've broken his bones, who told you to use such force."

"How can I hold back my hand for someone who steals my job with me, he's ruined so that my apprentice can join your team with me ah!" Xu Qingfeng was unconvinced.

Finn was also speechless, after all, the strongest was the best, losing would be eliminated, and Xu Qingfeng's words were not unreasonable.

But Ah Hu was the one he brought out, he didn't want Ah Hu to be useless just like that, so he inquired, "Is there a hospital around here, I'll take him to see a doctor, and we'll talk about your business later."

"A hospital? There's no need for that, why don't you give me the medical expenses and let our people treat him, it's definitely better than the hospital." Xu Qingfeng spoke up, his expression even more filled with excitement as he discovered the business opportunity.

Finn was a little speechless, but after looking at Lin Mu Mu and seeing Lin Mu Mu nodding, Finn had no choice but to agree. Remember the website .

Finn still had a bit of trust in Lin Mu Mu.

Xu Qingfeng had taken the initiative to carry Ah Hu because he could earn money, which was something that Finn did not expect at all.

Explosive power was explosive power, but to be able to carry a Tiger that was over one meter tall and weighed over two hundred and eighty, it was enough to see that Xu Qingfeng's strength was far from just like that, it was obviously even more powerful, just like what Lin Mumu had said.

Finn was very worried about Ah Hu and afraid that Xu Qingfeng would do something, so he also brought the five vajra to follow him in.

When he entered the abandoned building, Finn was shocked, because inside the building, it was even more shabby than he had imagined.

And a scream on the ground, Finn counted, a total of sixteen people, but each body with injuries on the ground.

The only activity is a young girl, the girl now walked to a wounded man, and then very skillfully unbuttoned the man's shirt, followed by a slap, the man suddenly a mouthful of blood sprayed out.

The maiden then shoved a pill into the man's mouth, and then the man stopped screaming right after that.

"Could it be that she is the doctor?"

Finn was a little surprised opening his mouth, he couldn't believe what was happening in front of him.

And this was the first time he had seen this kind of healing technique, it was like reading a novel, it was very puzzling.

Many of the methods were unreasonable, but it was able to make these injured people stop screaming, and it seemed that the treatment was still fast.

"That's right, this girl is my daughter, if you like her, young master, I'll let her marry you, but the fortune is a bit expensive, if you give me 100 million I'll marry her to you." Xu Qingfeng smiled heedlessly.

Finn was speechless, "Didn't you just say that your child is still drinking milk powder, big liar."

Xu Qingfeng's old face turned red and he didn't speak.

The young girl came over and gave Xu Qingfeng a glance, then she looked at Tiger's hand.

Finn didn't know exactly how the young girl saw the injury, anyway, the young girl turned Ah Hu's hand up and down several times, then slapped it out, followed

by Ah Hu spitting out a mouthful of blood, then the young girl put a pill in Ah Hu's mouth.

A miracle happened, Tiger didn't even cry out in pain anymore, and the cold sweat on his forehead faded away, and his hand recovered as fast as the eye could see.

"f*ck!"

Finn couldn't help but be surprised, this was too amazing.

When he turned his head, Finn took out his cell phone, "That, Curator Xu, I agreed to your request just now, I'll give you 100 million, marry her to me, even if you don't marry me, stay by my side."

"Are you sure you'll give me a hundred million?" Xu Qingfeng was even more surprised than Finn, and he didn't expect Finn to be so rich.

Finn frowned, "Are you joking? Still don't think it's enough, if 100 million isn't enough, I'll give you 500 million!"

For this kind of power that could heal others with an outstretched hand, Finn was very eager to have it.

If a young girl is around, wouldn't it mean that in the future, as long as Finn is sick, just let the young girl pat two times, at least it's a universal medicine ah, the guarantee of life.

Although Finn felt that the maiden was a bit outrageously strong for this treatment, but it was reasonable to exist, and Finn didn't delve into it, he wanted to take the maiden immediately.

Even if he couldn't use it now, sending the maiden back to her parents would be a great achievement.

Such a powerful technique, if Ye Island were to carry it forward, it would definitely cultivate many medical powers and make a major contribution to Ye Island as well.

Even Finn felt that this contribution was not inferior in any way to finding a jade medallion.

After all, medical care was the most important part of human development.

But what Finn didn't expect was that Xu Qingfeng didn't say anything, the young girl happily handed out a business card, "Hello, my name is Xu Fallow, take me if Young Master appreciates me, but I have a condition."

"What condition?" Finn felt that as long as Xu Fellows didn't go overboard, Finn could agree to it, even if the maiden wanted one billion, or even two billion.

Xu Fallow smiled sweetly and said, "Can this bride price money not be given to this old guy, can all of it be given directly to me, or else this old guy will split it in half, and I'll have too much less. How about this, you give me 500 million, I'll do whatever you want me to do, I'll be your person from now on!"

"Huh?"

Not to mention Finn, even the six vajra behind Finn were blinded.

Had Xu Fallow fallen into the money eye?

Or rather, whether it was Xu Fallow, Xu Qingfeng, or Lin Mumu, all of them were very fond of money, and were already beyond the common sense thirst.

Although it was true that 500 million was a lot of money, and any ordinary person would have agreed to it, but it was a little too scary to agree to it so quickly, Finn even felt that it was a fairy jump, and when Finn paid the money, these people would bury them alive.

Thinking of this, Finn was a little worried and sent a text message to Charles, asking Charles to come over personally.

Actually no matter what, whether it was a fairy jump or not, he needed Charles.

Because the group of capable people in front of him was completely out of Finn's control.

After sending the text message, Charles assured that he would be there in three hours, so Finn put down his phone at ease.

"That, are you guys hungry, why don't you have a meal first."

Finn suggested, in fact he was just worried that there was nothing to do before Charles arrived and he couldn't hold off for three hours, so he might as well treat these people to a meal.

Because these people loved money, Finn then continued, "I'm staying in a five-star hotel, how about not taking you guys to my hotel to eat?"

As expected, these people bounced up and down at the mention of high consumption places and even agreed.

Finn was even more speechless at this....

227

"Wow, is this a five-star hotel." After Xu Fallow entered the hotel, it was like Lou Lou entering the Grand View Garden, looking at everything felt particularly new, left to look, right to touch.

And it wasn't just Xu Fallow, Lin Mu Mu was also so left to look and right to touch, seeing something happy and even turning two heels, making Finn extraordinarily speechless and humiliated.

Even if he hadn't come to a five-star hotel before, he hadn't been so disoriented. Or rather, Finn was also because he was restrained in the past, and when he came to a five-star hotel, he was fearful, which was not as self-indulgent and liberating of nature as Xu Fallow and Lin Mu Mu.

The only thing that surprised Finn was that Xu Qingfeng did not fluctuate in the slightest, just faintly spoke, "Well, don't make a scene, public places are not shy."

Finn was somewhat surprised to see Xu Qingfeng, this sentence always seemed a bit strange coming out of Xu Qingfeng's mouth.

Don't look at Xu Qingfeng's immortal appearance, but Finn knew how obsessed with money Xu Qingfeng's bones were, and how Xu Qingfeng was able to control such a high-end place, how could he think that there was a problem.

Maybe I was wrong about it.

Finn muttered in his heart, because from the time he entered the five-star hotel, on the way to the compartment, Xu Qingfeng had always been calm and unruffled, as if he had already seen the big scene.

Until he entered the compartment, Finn knew that he was wrong, and it was a big mistake.

Where Xu Qingfeng was unperturbed, simply frightened, just like the original Finn, who was so reserved because it was his first time here. Remember the URL . . . net

As soon as he entered the box, Xu Qingfeng couldn't help but start looking around, touching everything a few times, looking even a bit like an idiot – man, even more exaggerated than Xu Fallow and Lin Mu Mu.

Finn saw the situation, and even suspected that this group of people were possessed by poor ghosts, even if it was their first time here, they weren't so happy, a little overjoyed.

But Finn didn't stop it, he also didn't forget the purpose of coming here to eat, as long as he could delay these people, when Charles arrived, everything would be fine.

Not to mention the other people, Xu Qingfeng's superb strength, Xu Fallow's amazing medical skills, and Lin Mu Mu's amazing talent, these three people should not be underestimated.

Finn didn't know how Ye Island was, but even though Ye Island was full of experts and elites, these three were definitely great powers that could occupy a seat.

Finn had already planned, he asked Charles for help, of course he couldn't ask the family for help for nothing, there was still an interchange of interests. He just wanted Xu Qingfeng and the others to take orders with him, went to the Wang family to snatch back Wang Kexin, and then handed the three of them over to Charles, which could be considered as a contribution to Ye Island.

The only thing that worried Finn was that three hours was not good to p A, after all, it was just a meal, even if he let the back kitchen deliberately drag for an hour, there were still two hours that were not good to p A, after all, you can't eat for two hours just to eat, unless you drink.

But the thought of drinking would break the film, and not knowing the depth of these people's alcohol consumption, Finn was really worried that he would get drunk first.

However, Finn was still nosy, because from the time the food was served, these people kept eating as if they had never eaten before.

In Lin Mumu's words, it was, "A bite of such an expensive thing is dozens or hundreds of pieces, one more bite will earn you a bite, only a fool would eat just enough, as long as it doesn't hold me up, I'll be able to go to my death!"

And Lin Mumu and his brothers and sisters and others were all like that, eating desperately.

So Finn didn't even eat much, he just watched these people eat.

These people were all very thin, but one could eat more than the other, and even Xu Falling, who Finn felt was the least useful, ate for an hour before he was willing to stop.

Xu Fallout kept eating, more powerful than the online eating broadcast king, Xu Fallout alone ate six plates of food.

Each plate of food was over five thousand, and Xu Fallout alone ate fifty to sixty thousand in.

Satisfied patting her stomach, Xu Fallout waved a big hand, "Brothers refuel, eat more and earn more, whoever eats less, don't blame me for being rude after going back, say again, what is our purpose!?"

What? There's a purpose?

Finn deeply suspected that these people were in the marketing business, and they were also making enough of a corporate culture.

However, Finn still wanted to hear about the purpose of their Martial Arts Pavilion, after all, it was a martial arts practitioner, there must still be something, which made Finn very interested.

Immediately, Finn heard a group of people put down their chopsticks in unison and shouted at the top of their voices.

“Rich bastards don’t make money!”

Upon hearing this, Finn was momentarily speechless, was this the purpose of the Martial Court?

Is this a mandatory lesson for martial arts practitioners?

If it wasn’t for the fact that Finn knew that these people had real talent, Finn even felt that these people were just rivers and lakes cheats, cheating on food and drinks.

But this is also good, as long as they can keep serving high priced food, these people can keep on eating, Finn will save his mind, and he doesn’t have to think about how to delay to retain them.

But the thing that Finn didn’t expect was that even though Charles appeared, he still didn’t stop these guys in front of him.

“Young Master?Are you sure these are experts?”There was also a fluctuation on Charles’s trembling face.

Evan clearly saw the corners of Charles’s eyes draw in.

“Indeed.” Finn didn’t know how to explain, so his eyes darted to Ah Hu.

Ah Hu was in a stir, “Ye Shao, please spare the little one, I have just the right hand, it’s quite difficult, why don’t you try someone else?”

Finn was also a little heartbroken for Tiger, after all, only those who experienced this kind of pain would know, so he waved his hand and said, “Forget it, I’ll think of something else.”

“Why don’t I try it myself.”Charles spoke faintly.

“It’s not appropriate for you, that Xu Qingfeng’s mighty punch is probably enough to kill a cow.” Finn was busy blocking Charles.

Charles was the great steward of Ye Island, if he was killed like this, he wouldn’t even know how to explain to his parents.

Charles waved his hand and said indifferently, “It’s okay, I haven’t exercised my legs for a long time, it’s just time to see what kind of strength the young people are nowadays.”

Saying that, Charles got up on his own and walked towards Xu Qingfeng.

Xu Qingfeng seemed to have sensed something and stood up as well, looking dignified.

“Senior, may I ask what your name is, from which sect or school?”

Charles’s face paled, “Don’t you know to give your name first at a young age, no big or small. Let’s see the real thing under your hands and see if you’re as good as the young master says you are.”

“Then junior will not be stingy!”

Xu Qingfeng didn’t get angry, instead, he looked condensed.

Only when Xu Qingfeng took a deep breath, his stomach, which was a bit round from eating just now, contracted at a speed visible to the naked eye, returning to its pre-eating appearance.

Finn was suddenly amazed, just this move alone was amazing!

228

Finn was still surprised why Xu Qingfeng could eat so well, but there was a unique secret technique that could make things in his stomach disappear.

This scene was just like a fantasy novel, very magical.

Finn didn’t know what to say anymore, and couldn’t help but look at Charles, a little worried.

After all, Xu Qingfeng was so powerful, he was not a human being, he still didn’t want Charles to get hurt.

For Charles, Finn had a deep affection for him, not just the relationship between the butler and the young master, but also that of a mentor and friend.

“Watch out!”

When Finn saw Xu Qingfeng move first, he couldn’t help but scream.

Xu Qingfeng was very fast, still nearly five meters away from Charles, yet he had already touched Charles’ facade in the blink of an eye.

The point was that Xu Qingfeng’s fist had been saving up for a long time, and this punch would either kill or cripple Charles.

And Xu Qingfeng did not show any mercy, when he faced Tiger, Xu Qingfeng’s fist seemed to be dominating, but it was not fluctuating, but the punch that hit Charles, but the hand full of veins. A second to remember to read the book

Finn only felt like he was watching a movie, although it didn't seem fast, it seemed very fast, and Finn couldn't even tell if it was fast or slow. If it was slow, but he could see everything clearly.

"Bang!"

Before it even hit Charles' body, the fist sliced through the air and smashed out a sonic boom.

This punch, even if it was a lion, it would be a blood hate on the spot.

Finn was a little afraid to look on, he regretted very much inside, he should have known that he wouldn't let Charles come, if Charles died under this punch, then he would probably feel guilty for the rest of his life!

And what angered Evan the most was that he didn't use his full strength to face Tiger, so why should he use his full strength to face an old man like Charles? Just because Charles is a foreigner, you despise Charles?

There were many more thoughts, but Evan didn't have time to think of more, and the punch still hit Charles' voice.

"Boom Boom!"

Three sonic booms rang throughout the arena.

Facing Tiger at first was just two sound explosions, but this time it was three.

"How is this possible!"

Evan was so alarmed that he thought Charles must be sorry.

But that wasn't the case, and he saw everything that happened before his eyes very clearly.

Just as Xu Qingfeng landed his fist, Charles retreated instead of advancing, and what seemed like a slight punch struck out, but the first sound explosion was made.

Right after Xu Qingfeng flew backwards was the second sound blast.

As for the third sonic boom, it was the sonic boom of Xu Qingfeng falling to the ground and smashing a large human-shaped hole in the ground.

"You..."

Xu Qingfeng didn't finish half of his sentence before "poof" spurted out a mouthful of blood and fainted on the spot.

"fck....fck...!"

Naive learning did not learn well, Finn could only say a word of lying to represent the mood at the moment.

He felt that Charles would be defeated, but it was so simple, like swatting a fly, just a light wave of his hand, as strong as Xu Qingfeng, he was also defeated in one move.

"Young Master, now you can let the medical expert you said show off his medical skills." Charles walked up to Finn 's side and faintly spoke.

Finn quickly jumped away, afraid that if Charles touched him, he would also be seriously injured on the spot.

And Charles's words were simply the words of the devil.

Beating down the martial arts expert in Finn 's mind, and then having the medical expert in Finn 's mind do it, it was really a chain of events.

No need for Finn to say anything, Xu Falling had already rushed out.

In the same old way, first, he punched at the place where Xu Qingfeng was struck, knocking Xu Qingfeng out of a mouthful of blood again, and then he stuffed small pills into Xu Qingfeng's mouth.

A shocking scene happened, and Xu Qingfeng woke up.

In about a minute's time, Xu Qingfeng was alive and well again, as if he hadn't been injured. If it wasn't for the large pit on the ground and the blood on Xu Qingfeng's chest, Finn even felt that Xu Qingfeng was uninjured.

Finn was somewhat speechless, Xu Falling's medical skills were like demon magic, no matter what it was, it was too exaggerated to be able to treat it through a small pill with a punch.

"Butler Charles, how do you see this medical skill?" Finn was proud of the fact that Xu Qingfeng hit his face, but Xu Falling's medical skills were still very strong and stable.

"This is..." Charles opened his mouth and stammered again.

Finn had seen Charles stammer a few times, but each time it was because of the jade tag, could it be that this time it was also related to the jade tag?

"Is it a jade sign?" Finn ton revealed surprise, if it was a jade medallion, then it would be a great bargain to pick up.

Charles took a hard deep breath and then nodded his head violently, "That's right, it is rumored that the rabbit jade medal has the effect of bringing back the dead, this involves a Xin secret, the jade medal is actually not a thing on earth, but a special jade medal created by a meteorite outside the sky, and each jade medal as long as it is developed a second time, in addition to obtaining the mausoleum of Qin Shihuang, but also able to obtain special abilities. Right now like this, I can't even explain if it's not a rabbit jade medallion."

Charles's figure flickered and arrived in front of Xu Falling.

"What are you doing?" Xu Qingfengton blocked Xu Fallout with a flash, although he feared Charles, he still blocked it.

Finn are a little touched, worthy of being Xu Fallen's father, still seems to know how to protect his daughter somewhat.

Charles was silent, his left hand extended then clenched hard, followed by his right fist swinging out, not hitting Xu Qingfeng, but hitting his own left hand.

"Ka-ching!"

With a piercing sound, Evan could see Charles' left hand, broken!

"Charles, what are you doing?" Evan was momentarily blinded, Charles' behavior was too much for Evan to comprehend.

Charles clenched his teeth and said, "Little girl, treat me!"

"Hurry up, hurry up!" Finn was busy urging, Charles' contribution to Ye Island was terrifying, how would he account for it if he were to waste away here.

Xu Luoliang hesitated, but didn't do anything.

Xu Qingfeng pondered for a moment before sighing, "Fallout, treat him, it seems like it can't be hidden."

"Alright!" Xu Falling looked a little bad, but instead of punching out or feeding the pills, he reached out his jade hand and held Charles' hand, followed by a strong grip.

Then Finn saw the recovery of Charles' arm at a speed visible to the naked eye, and in just ten seconds, it completely recovered.

"It really is the Rabbit Jade Brand!" Charles shouted out in excitement, the fact that Charles, who was injured and not even moving a muscle, would be excited at this moment, showed the importance of the jade medallion.

Seeing that Charles was fine, Finn stepped forward and said, "Charles, what the hell is going on, why don't you need to punch and take medicine to recover."

Charles looked at Xu Fall and spoke, "Young Master, it's better to let them explain, I just heard rumors, some of them might be undesirable."

Finn's line of sight turned to Xu Fall, but Xu Fall didn't open her mouth.

229

Instead, Xu Qingfeng spoke up, "We are descendants of Xu Fu from the time of Qin Shihuang, and at that time, in order to find medicine to find Penglai Immortal Island, Xu Fu brought the Rabbit Jade Plaque and Monkey Jade Plaque given by Qin Shihuang, and after Xu Fu discovered the effects of the Rabbit Jade Plaque, he recovered his manhood, and again with the Monkey Jade Plaque, he gained a strong constitution and cultivation, so he spread his branches in the island. And these two jade medals have been passed down ever since."

Sighing, Xu Qingfeng said again, "Except that the Rabbit Jade Plaque is extremely special and exists in companionship, and when Xu Fu gave birth to a son, the Rabbit Jade Plaque automatically entered the second son's body and melted into one! And the second son possessed the effects of the rabbit jade medallion, after that every generation will have the ability to possess the rabbit jade medallion, in order to avoid trouble, we went incognito, unexpectedly we met someone in my generation who is familiar with the rabbit jade medallion, hey..."

Charles shook his head helplessly and said, "If it wasn't for your ancestor being too flamboyant, he wouldn't have let the Xu family perish and fall to this level."

Finn heard the story from this, it should be that the ancestors of the Xu family originally relied on the jade medallion to rise in popularity, but they were missed by bad people, causing their family to fall apart, and the last person managed to escape, so that they would be passed down to this day.

But what confused Finn was, why was Xu Qingfeng willing to tell these secrets?

By all rights, this was all an important matter that needed to be hidden, especially if you encountered an expert like Charles.

But with a simple thought, Finn understood that since Charles had decided that it was a jade medallion, he would definitely not let the Xu family go, so he might as well just admit it.

The only thing that disappointed Finn was that the rabbit jade medallion was a companion jade medallion, which was a bit too mythical.

However, after seeing Charles's swing, Finn was actually relieved, there should be a lot more in this world that he hadn't come across.

The reason why the family didn't tell him, then it proved that he was incapable.
First URL m.

Originally, Finn sometimes wondered why Ye Island was so powerful and why he needed to become stronger. Now it seemed that there were just a lot of unknown forces, and it was these unknown forces that really threatened Finn, right?

Finn secretly clenched his fist, determined to speed up his efforts, otherwise if he encountered unknown forces again in the future, then he would be a burden to his family.

Sitting on the chair stunned, Xu Qingfeng and Xu Luoliang had already been taken out by Charles to talk about things next door.

Finn didn't take the initiative to go over there, since Charles didn't ask for his opinion, he obviously couldn't let him know about things, he didn't pursue it, after all, he also knew that he couldn't do it, and it wasn't necessarily good to know some things, it was better to prepare according to the original plan, save Wang Kexin first, and after that, go collect the jade plaques honestly.

Now Ye Island already has four jade medals, just now Xu Qingfeng said Xu family has two, respectively rabbit jade medal and monkey jade medal, so Finn now the task is lightened quite a bit, only six left to find.

Finn was happy when he found two jade plaques. If it wasn't for coincidence, he would never have found them in his life.

And Finn could not have imagined that the rabbit jade medal was still a companion.

No wonder Charles said that the jade medallion was hard to find, it seemed to be very difficult indeed.

"Hey, there's a long way to go!"

Finn sighed, not daring to think about it, these things were too big for him to think about.

"Bang!"

However, at this time, the door was kicked open, followed by a young man in a suit drunkenly walked in, drinking: "Which pen knocked on the floor, disturbing the master's elegance, do not know a moment of spring is worth a thousand gold, master waste you!".

"Fury, get away." Finn glared at the youth, and then Ah Hu took heart and racked the youth out.

Finn looked at the human-shaped pit on the ground, and also knew that it must have been the shock that hit the bottom, if not for the thick floor of this five-star hotel, without cutting corners, it would probably have smashed through the ground.

The first thing you need to do is to get your own personalized copy of the book.

But the ones downstairs even came up directly to revile, which made Finn unable to bear it.

Especially since Finn was distracted at the moment and had a headache from being pressured by many things, how could he not be angry when a fury suddenly came to make trouble?

“Mother, let go of the young master, do you know who the young master is, open your dog eyes and see clearly, the young master is the second young master of the Wang family, Wang Kefeng!”

“The second young master of the Wang family? Wang Ke Feng?” Finn couldn’t help but frown, to be able to call himself Young Master, it must be this family, maybe it was still Wang Kexin’s brother or something.

“How about it, now you know you’re scared? Then hurry up and kneel on the ground and apologize to the young master, I’m in a good mood today, so I won’t bother with you!” Wang Kefeng smiled proudly, looking like he was winning.

“It’s just the Wang family, tie it up.” Finn faintly spoke.

Don’t say Wang Kefeng, even if the Wang family’s master came, Finn wouldn’t give face, he wouldn’t forgive him if he scolded him like that. Moreover, the Wang family was trying to drive Wang Kexin away from the arts, which was an insult to Wang Kexin, which was also not giving face to Finn’s fiancé.

So, there was no need for Finn to give the Wang family the slightest bit of face.

From the moment Finn decided to look for the martial arts school, he had decided that the worst-case scenario was to save Wang Kexin. And the Wang Kefeng in front of him was the appetizer, and also just as a hostage of the Wang family.

“Well, it’s good to know that it’s wrong, so why don’t you hurry up....Hm? Tied up? How dare you kidnap me?” Wang Ke Feng was halfway through his speech before he reacted, but instead of letting him go, Finn wanted to tie him up.

This time, Wang Ke Feng panicked.

Wang Kefeng wasn’t an idiot, he spoke out his name and the other party dared to do something, either he wasn’t a local or he wasn’t afraid of the Wang family, or he wasn’t afraid of him.

Wang Kefeng’s color changed and said, “Do you know the Wang family?”

“Naturally, I know that Wang Kexin is my fiancée.” Finn spoke indifferently, this was something he wasn’t too proud to conceal.

“What!?”

Wang Kefeng was blinded, he had wanted to side-step and see if Finn was a local or not, but he was actually Kexin’s fiancé, which was a bit of a coincidence.

Wang Kefeng was busy saying, “You are Kexin’s fiancée, then hurry up and release me, I’m Kexin’s only real brother, the same father and mother!”

“What?”

Now it was Finn’s turn to be confused, he didn’t expect it to be such a coincidence that the first person to encounter the Wang family was actually Wang Kexin’s own brother.

Finn’s face changed several times, finally settling on a smile before he came to Wang Kefeng’s side and personally untied Wang Kefeng, “Oh my, so it’s brother-in-law, it’s a pleasure to meet you!”

230

“Are you Evan? You’re Evan, right?”

Wang Kefeng suddenly thought of something like, and was suddenly alarmed.

Then he took out his phone and flipped out a photo of none other than Finn and Wang Kexin.

“My sister said that you will definitely stay in a five-star hotel when you come to Hundred Flowers City, so I waited at this one, after all, this is the only five-star hotel, I didn’t expect to meet you so coincidentally.”

Finn smiled awkwardly at the words, “That’s right, it’s really a coincidence.”

What’s a coincidence, if it wasn’t for Charles and Xu Qingfeng fighting just now, it wouldn’t have attracted Wang Ke Feng.

But after seeing the photo, Finn also completely believed Wang Ke Feng’s words.

Finn didn’t know Wang Ke Feng very well, but he knew Wang Ke Xin very well, and by virtue of Wang Ke Xin’s behavior, he also felt that he wouldn’t make a claim with strangers that he would come to Hundred Flowers City, much less give a photo.

Because those who knew him knew that they absolutely couldn’t put his photos on the internet, and if Wang Kexin didn’t believe in Wang Kaifeng, he would never give them all to Wang Kaifeng.

And because of this, Finn let out a cheerful laugh, this time it was serious: “Big brother-in-law, it’s really an honor to meet you!” First web site

Immediately afterwards, Finn went forward and hugged Wang Kefeng's shoulders, with a look like he hated to see each other.

Since he was Wang Kexin's own brother, he was definitely on the same team as Wang Kexin, and was also friend not foe to Finn .

Wang Kefeng was slightly startled and said, "Ye Shao, I didn't expect you to be such a person, originally looking at your picture I thought you were the type that wasn't easy to approach."

Wang Ke Feng was very clear about Finn 's power, and to be able to have Wang Kexin marry him, at least it proved that it was not a small family, but also a hidden family.

Although Wang Ke Feng wanted to find out Finn 's identity, Wang Kexin didn't want to say anything, obviously not wanting him to know, so he didn't pry, which was also a sign of respect for Wang Kexin.

Just by touching the fabric of Finn 's clothes, Wang Ke Feng knew that Finn 's family was indeed very rich.

Wang Kefeng thought that the Wang family was already a very awesome family, but his clothes were just a mere 10,000 yuan out of custom-made clothing, which was already very good, but it must still be a bit small compared to Finn 's.

He was very concerned about all these external accessories, and just by touching them, he knew that they were from Italian fabrics.

Usually, Italian masters would definitely bring their names with them, which meant that they were the master's prized work and also showed their status.

But the logo on top of Finn 's clothes was surprisingly unseen, and upon closer inspection, it was the artistic font formed by the word Finn .

To be able to make the Italian master so, Finn must be even more terrifying than he imagined.

The reasoning was also simple, although there were designers who would listen to their customers, but top masters would never, and the clothes on Finn 's body, whether it was the design or the concept, were consistent with the masters he was familiar with.

Even if Wang Kefeng could be wrong again, it was definitely a top master's shot. After all, such an expensive fabric wouldn't find a small designer, and there are only a total of twenty true top masters, and these twenty are all top of the line, and to be able to condescendingly write Finn 's name as a logo, there are only two possibilities.

One was that Finn had paid a very large amount of money, and the other was that Finn 's family was even in awe of the masters.

Either way, it was a representation of Finn 's high status.

Like Wang Kefeng, change into good clothes, are bound to pay extra attention, each clothes although just wear a day to change, but the change is also the same as never worn, very neat. But Finn 's clothes are sprinkled with wine and some oil stains, a look is not properly noticed.

For such expensive clothes are so casual, a look at Finn is a real landlord, or even a divine hero, to be so spoiled.

Wang Ke Feng would only be so reckless when wearing a few hundred ordinary brands, but Finn is so casual for tens of thousands of pieces of clothing, if the positive ratio is calculated, that is Finn 's value and the family behind it is ten or a hundred times his.

And although Wang Ke Feng didn't investigate, Finn 's surname was Ye, and there was only one family that could be surnamed Ye among the hidden families, and that was Ye Island.

Thinking of Ye Island, Wang Kaifeng couldn't help but shiver, that was a real biggie.

So, Finn , the prospective brother-in-law, being able to not put up a fight, was already giving Wang Ke Feng enough face, and Wang Ke Feng could say that he was flattered.

"Don't call Ye Shao, just call your brother-in-law." Finn smiled and patted Wang Kefeng's shoulder.

Wang Ke Feng was so upbeat, Finn was also very happy, just in case Wang Ke Feng was also a stubborn person, so spontaneous, it was also just what Finn wanted.

Wang Kefeng was also not polite, he was eager to be on such a big boat.

"Brother-in-law, then I'm not going to be polite ah, your outfit is not bad, the beauty of it is that it's missing one thing." Wang Kefeng frowned slightly.

"Missing one thing?" Finn was a little baffled.

Although his clothes were dirty, they were already very good, so what could they be worse?

You can't spend a million dollars for a piece of clothing, even if Finn doesn't feel bad about the money, but it's similar to the 100,000 clothes on his body, the only thing that can be worse is the diamonds on it.

Wang Ke Feng stretched out his left hand and pointed at his left wrist, "Brother-in-law, I don't know if you forgot to wear it today, but this watch is a

symbol of a man's dignity, if it's missing, it's easy to be belittled, especially in a circle like ours, they're all competing to compare this thing."

"A watch?" Finn was slightly startled, but soon brightened up and said, "Yes, it seems like that's really what you're saying, I did forget to buy a watch, thank you for reminding me, how about this, let's meet abruptly, or let's go buy a watch together, when I give you a meeting gift, what do you think?"

Finn previously knew a saying, now time has changed, the car is no longer the most important. It's a popular saying: poor people play with cars, rich people play with watches.

Before no one reminded him, Finn really did not pay attention to these things, but now that Wang Kefeng mentioned it, Finn also feels that he should buy a watch.

In the future, the number of big family scenes he would face would definitely increase gradually, after all, he was going to inherit Ye Island, so the dressing aspect still needed attention, and a man besides a handsome suit and a luxury sports car, what was more important was the watch on his wrist, which was a symbol of a man's dignity.

Especially now that Finn also saw that Charles and Xu Qingfeng can't seem to finish talking about things for a while, and it's boring to bring it now, so why not take this opportunity to send a meeting gift to Wang Kaifeng?

After all, this was the first big brother-in-law that Finn had met!

"I also didn't expect to meet my brother-in-law here, so how about this, I'll buy one for you as well. My brother-in-law is so unconcerned with details, so I must not know much about watches, but I do know a little bit about them, and I can give you some advice." Wang Ke Feng's nature was also cheerful, and he directly agreed to Finn's request.

Finn nodded his head and was about to leave with Wang Ke Feng.

However, at this moment, Lin Mu Mu pulled Finn .
