### **Chapter 1111 - Trouble.**

"Evil corner shop!"

"Su Family convenience store deceives their customers!"

"Rotten business!"

"Give us explanation!"

"We have to sue the Su Family for selling expired merchandise!"

"Yeah. Let's sue the Su Family until their corner shop closes!"

One by one, the demonstrators expressed their rage at the Su family corner shop. They were furious because the Su family convenience store was selling expired merchandise.

At this moment, twenty-five people were standing in front of the Su family corner shop, shouting swear words continuously.

Of course, the employees of the Su family corner shop had tried to calm them down. But instead of calming down, their anger grew bigger as if they were an exploding mountain.

One of the employees even fell to the ground because the demonstrators pushed him when he was trying to calm them down.

For this reason, the employees only stood in front of the corner shop, stopping the demonstrators from entering the convenience store.

'Boss, please help us.'

All the employees hoped that the Su family would help them quickly.

At the same time, Su Ruanyi and the others were on their way to her corner shop.

Su Guanyu and Qian Na kept wearing displeased expressions since they knew what had happened to their convenience store.

Yes. One of the employees had told them the reason why many demonstrators came to their corner shop.

Expired merchandise!

The employee said two people were sent to the hospital after consuming snacks and drinks from their corner shop.

Su Guanyu and Qian Na were furious!

They always ordered their employees to check the expiration date of every product in their corner store every day to avoid something like this from happening.

At this moment, Xiao Tian felt something was wrong.

'Is it really because of the expired merchandise or...'

He suddenly suspected that someone was behind all of this.

Xiao Tian thought like this because of one thing. This incident happened after the sales of the Su family corner shop increased.

When the Su family convenience store only had a few customers, none of them were poisoned by expired products.

The timing of this incident also happened after the sales of the Su family corner shop increased as if someone had disliked this and decided to slander the Su family convenience store.

'I need to check it first.'

Since it was related to the reputation of the Su family, Xiao Tian could not act rashly.

First, he would ask the employees some questions. Second, he would check the food and drink the victims had bought.

And last, he would pay attention to all of the demonstrators.

If this incident was the work of someone, Xiao Tian was sure there were mastermind's people among the demonstrators.

When Su Ruanyi noticed Xiao Tian's expression, she inquired, "What are you thinking about?"

"Professor Su, I have the feeling that this is the work of someone." Xiao Tian gave an honest answer.

"What makes you think so, Xiao Tian?" Su Guanyu inquired.

"When the Su family corner shop only had a few customers, this kind of thing never happened but now suddenly there are two victims because of expired products." Xiao Tian replied, "Isn't this suspicious? And what makes me suspicious is that this incident happened after the sales of the Su family corner shop increased."

Xiao Tian then continued, "It looks like someone disliked the growth of the Su family corner shop and decided to slander it."

Su Ruanyi and her parents thought Xiao Tian's words made sense. They suddenly thought this was the work of their business rival.

"But we can't act rashly because it's related to the reputation of the Su family." Xiao Tian uttered, "We have to investigate this first. I'm sure we will know everything later."

"You are right." Qian Na said, "We will investigate it later."

Not long after that, Su Ruanyi and the others arrived at the Su family corner shop. They wasted no time and immediately walked towards their convenience store.

When Su Ruanyi saw the behavior of the demonstrators, she was suddenly worried about the safety of her parents.

'I hope nothing bad will happen to my parents later.'

Her parents were already old, so she was really worried about their safety.

Xiao Tian held Su Ruanyi's right shoulder before speaking, "Don't worry. I promise to protect them later."

Xiao Tian knew what she had in mind because he could tell everything from her expression.

"Un." Su Ruanyi decided to believe in Xiao Tian.

Of course, she would also protect her parents and try her best to solve the problem.

'If what student Xiao said is true, then the mastermind's people are among the demonstrators.'

After realizing it, Su Ruanyi decided to pay close attention to the demonstrators later.

She would also check the CCTV later because it could help her see the behavior of the demonstrators and find clues.

Because Xiao Tian did not want something bad to happen to Su Ruanyi and her parents, he walked close to them.

He would protect them if the demonstrators tried to hurt them. Su Ruanyi was important to him, so he would not let anything bad happen to her and her parents.

All the demonstrators instantly turned their heads towards Su Guanyu and the others when the demonstrators noticed them.

"Su family, you have to take responsibility for this!"

"Yes. You must take responsibility for this!"

"The merchandise from your corner shop has poisoned two people and they are in hospital now."

All the demonstrators immediately vented their anger on the Su family because they were corner shop owners.

Some of them even wanted to use violence. They had been consumed by their anger, so they could not think straight anymore.

"Everyone, please calm down." Su Guanyu tried to calm down the demonstrators. "You don't need to worry. I will take responsibility later. Let's talk with a cool head."

At this moment, two people, who were standing behind the demonstrators, smirked.

'Everything is according the plan.'

Since they knew it was dangerous to stay there, they left.

## **Chapter 1112 - We Are Not Wrong**

6-7 minutes

---

Su Ruanyi and her parents tried to calm down the demonstrators, but the demonstrators kept yelling at them, saying they were bad people or something like that.

Even though Su Guanyu and Qian Na had said they would take responsibility, the demonstrators were still angry at them.

Of course, Su Guanyu and the others did not give up and kept trying their best to calm down the demonstrators.

As Su Guanyu was trying to calm down the demonstrators, Xiao Tian and Su Ruanyi paid attention to the demonstrators carefully.

Of course, they stood next to Su Guanyu and Qian Na because they did not want something bad to happen to Su Ruanyi's parents.

After trying hard, the demonstrators finally calmed down and left.

Su Ruanyi, her parents and Xiao Tian immediately called all the employees and asked some questions regarding the expired products.

The employees immediately said they checked the expiry date of all products every day. They believed that they had moved all the expired products to the warehouse.

If a product were almost expired, they would immediately give a discount on that product so it would not be wasted and could turn into money.

They immediately checked the CCTV after hearing the employees' words because they wanted to see the product the victim bought.

"They bought a Potato snack and Lemon Drink." Xiao Tian spoke abruptly.

"Let's check the expiration date of the Potato snacks and Lemon drinks." Su Guanyu uttered,

Xiao Tian and the others immediately checked the expiration date of the Potato snacks and Lemon drinks.

"The expiration date of the Potato snack is still eight months from today." Su Ruanyi spoke after looking at the expiration date of the Potato snack.

"The expiration date of the Lemon drink is still six months from today." Qian Na added.

Xiao Tian looked at Su Guanyu and asked, "Uncle, can you show me the purchase history of Lemon drinks and Potato snacks?"

"All right." After saying that, Su Guanyu took the purchase history of Lemon drinks and Potato snacks.

After checking it, Xiao Tian uttered, "These items were bought three weeks ago."

'This is like what I thought.'

He added in his head.

"Someone is slandering my corner shop!" Su Guanyu stated.

After looking at the expiration date, CCTV and the purchase history, Su Guanyu and the others finally understood that someone had slandered their corner shop.

The victims claimed to have consumed expired products, but none of the products expired.

"Auntie, uncle, do you have any enemy lately?" Xiao Tian wanted to know if they had any enemy lately or not.

"No." Su Guanyu replied as he shook his head.

"Yes. We don't have any enemy." Qian Na added. "We always make sure to treat people nicely because we hate a trouble."

"If so, then the mastermind is probably your business rival because this incident happened after the sales of your corner shop increased." Actually, Xiao Tian had suspected this because the incident happened after he managed to increase the sales of the Su family corner shop.

"But who is it?" Qian Na inquired.

"How many people own a corner shop around here?" Xiao Tian asked curiously.

"There are a few people who have a corner shop around here." Qian Na replied instantly.

"Let's go home first. We can discuss this again at home." Su Guanyu thought it was better for them to return home first because they could make plans in peace later.

"Alright." Xiao Tian agreed with Su Guanyu's idea.

Su Ruanyi took the CCTV footage to check it again later.

They immediately made a plan after arriving home. However, something unexpected happened when they were making a plan.

Two police officers came to their home!

Su Ruanyi's expression immediately turned sad and worried.

"Mr. Su, you are arrested for selling expired products and causing two people to be sent to the hospital." one of the police officers said while showing an arrest warrant. "Please come with us to the police station for questioning."

"Officer, my husband is not wrong. Someone is slandering us." Qian Na tried to defend her husband.

"We will investigate everything later but we have to take him to the police station first." One of the police officers replied.

Several people reported him to the police station, so they had no choice but to arrest Su Guanyu.

Su Ruanyi immediately grabbed her mother's hands and spoke, "Mother, please calm down. We will solve the problem and get father out of the police station as soon as possible."

Even though she was sad, she knew she had to suppress her sadness because they could not do anything against the police.

Xiao Tian really wanted to help Su Guanyu, but the police officers came with an arrest warrant, so he knew he could not do anything.

Everything would have been more complicated if he had caused trouble to the police officers because they still had not solved their problem.

Unlike Qian Na, Su Guanyu was still calm. "Wife, calm down. You have to focus on finding the mastermind because with this, we can prove that we are not wrong."

Qian Na stopped trying to help her husband because what he said made sense. The only way to help her husband was to find the mastermind and prove that they were not wrong.

Su Guanyu then looked at Xiao Tian and uttered, "Xiao Tian, help and take care of them. I will leave them in your care now."

"Don't worry, uncle. I will take care of them and solve the problem as quickly as possible." Xiao Tian did not want Su Ruanyi to continue to be sad, so he wanted to solve the problem as quickly as possible.

"Good!" after saying that, Su Guanyu looked at the police officers. "Officer, let's go."

As the police officers and Su Guanyu walked toward the police car, Qian Na and the others looked at them.

Sadness filled Qian Na and Su Ruanyi's hearts when they saw Su Guanyi getting into the police car.

After the police officers left, Xiao Tian looked at Su Ruanyi and her mother, "Let's continue making plans again."

"All right.." Su Ruanyi and Qian Na entered the house again.

### **Chapter 1113 - Going To Hospital**

7-8 minutes

---

After stepping into the family room, Xiao Tian and the others instantly sat on the couch. They began to discuss what they should do first.

As usual, Xiao Tian had a few ideas about what they should do to solve the problem. Of course, his plan included violence.

That was why he wanted to ask their opinion first. To his surprise, Su Ruanyi and her mother agreed without thinking twice.

Previously, Xiao Tian thought they would refuse his ideas because they looked like someone who would not resort to violence, but he was wrong.

He was utterly wrong because they agreed with his idea without a second thought.

Xiao Tian was startled. But after remembering what happened to their corner shop and Su Guanyu, Xiao Tian understood their behavior.

Xiao Tian loved people like them. In his eyes, they should show no mercy to their enemies because they were the ones who caused trouble first.

After discussing their plans, Xiao Tian called Mu Huo and ordered him to come to Luzi city with sixty people.

It would be challenging to solve the problem alone, so Xiao Tian decided to call his underlings because, with this, he could solve the problem faster later.

Xiao Tian looked at Su Ruanyi and uttered, "Professor Su, let's visit the victims now."

"All right." Su Ruanyi nodded her head.

Xiao Tian then shifted his gaze from Su Ruanyi to Qian Na. "Auntie, you stay here. Don't open the door except for us."

Because someone had bad intentions towards the Su family, Xiao Tian did not want Qian Na to meet other people alone.

"All right." Qian Na replied, "I will wait here."

Without waiting for another second, Xiao Tian and Su Ruanyi went to the hospital to visit the victims.

Of course, Xiao Tian gave his underlings the location of Qian Na's house. He also ordered them to hide around her house to protect her in secret.

After arriving at the hospital, Xiao Tian and Su Ruanyi headed to one of the victim's patient rooms.

However, they did not go to the victim's room alone because a doctor and a nurse followed them.

The reason was simple. The patient was one of the victims of the Su family corner shop, so the doctor and nurse did not want Xiao Tian and Su Raunyi to do anything bad to them.

Of course, Xiao Tian and Su Ruanyi were not surprised with their decision because they had guessed this before.

Xiao Tian's lips curled into a grin.

'This is like what I thought. Good!'

He would do a bad thing to one of the victims in secret later, so in his view, this was much better.

That was why Xiao Tian was pleased with their decision because the doctor and the nurse could be the witnesses that he did nothing to the victims.

After stepping into the patient room, Xiao Tian saw a mature man about thirty-five years old lying on the bed.

Xiao Tian knew the name of that mature man because he had already got the information of the victims.

Han Zhi.

Yes. The name of the mature man was Han Zhi, someone from a lower-class family.

When Han Zhi saw Xiao Tian and Su Ruanyi, he immediately pointed his right index finger at them. "What are you doing here? I don't want to see your face because your Su family is the reason why I'm being treated here."

Su Ruanyi immediately replied, "We only want to visit you and know your cond-"

However, before she had finished her words, Han Zhi interrupted her. "I don't need it! Your Su family is an evil family. Get out now! I don't want to see your face anymore!"

'It would be dangerous if they remained here.'

He added in his mind.

Su Ruanyi gritted her teeth. She was furious, but she could still suppress her anger.

Xiao Tian then held Su Ruanyi's right shoulder, "Professor Su, let's get out and visit the other victim."

"All right." Su Ruanyi nodded her head.

The doctor and the nurse were startled.

'What?! They did not fight back?! Is this for real?!'

Previously, they thought Xiao Tian and Su Ruanyi would threaten him or do something bad to Han Zhi.

This was the reason why they decided to follow Xiao Tian and Su Ruanyi because they did not want something bad to happen to the victims.

What they did not know was that Xiao Tian sprinkled Guzu powder in secret before leaving. Guzu powder was a powder created by Long Jingxian a few days ago.

Even though this powder would not kill the target, but this powder was terrifying because the target would feel immense pain in his/her body later.

After inhaling it, the powder would immediately enter the target's body. This powder would not hurt the target immediately, but it would hurt them step by step.

One hour after inhaling the powder, the target would feel their legs hurt. The next hour, they would feel their arms hurt.

After that, they would feel immense pain in the chest and head. This was the reason why this powder was terrifying because the target would feel tremendous pain later.

The target would feel as if countless needles were piercing their bodies every second. It was like torturing the target endlessly.

After walking out of Han Zhi's patient room, Xiao Tian and the others visited the other victim.

At the same time, Han Zhi smirked after Xiao Tian, and the others left.

'You will get the same treatment from the other victim!'

He was sure that the other victim also would not want to meet Xiao Tian and Su Ruanyi later.

And what he had guessed was right because the other victim, Mu Zen, immediately told them to get out of his room.

Mu Zen also yelled at them and blamed the Su family for what had happened to him. Like what he did before, Xiao Tian immediately brought Su Ruanyi out of Mu Zen's room.

His actions much surprised the doctor and the nurse again. They were dumbfounded by Xiao Tian's behavior.

Because Xiao Tian and Su Ruanyi could not say anything to Han Zhi earlier, the doctor and the nurse thought Xiao Tian and Su Ruanyi would do everything to talk to Mu Zen.

However, they were wrong. They were utterly wrong because Xiao Tian and Su Ruanyi immediately left when Mu Zen asked them to get out of his room.

The doctor and the nurse often exchanged a glance with each other.

Of course, the doctor and the nurse could understand the victims' behavior because the Su family was the reason why they were being treated in the hospital.

Unlike before, Xiao Tian did not sprinkle Guzu powder in Mu Zen's room.

He did this on purpose because he wanted Mu Zen to know what would happen if someone caused trouble to the Su family.

Because a doctor and a nurse accompanied Xiao Tian, and they did not know that he had sprinkled Guzu powder in Han Zhi's room earlier, they would not suspect Xiao Tian and Su Ruanyi later.

After walking out of the hospital, Xiao Tian and Su Ruanyi went straight home.. At this time, Xiao Tian's underlings had arrived at Su Ruanyi's house and were guarding the house in secret.

### **Chapter 1114 - What's Wrong With Him?**

7-8 minutes

---

After arriving home, Su Ruanyi used her laptop to get more information about the victims.

Xiao Tian and Qian Na, who were sitting on both sides of her, paid attention to her laptop carefully.

Even though Luzi city was not a big city, but Qian Na did not know all the people who lived in Luzi city.

That was why she wanted to know more about the victims.

"All the victims are from lower-class families." Qian Na spoke abruptly.

"I'm sure the mastermind paid them to slander your corner shop, auntie." Xiao Tian uttered.

If the victims were from rich families, there was a high possibility that they were real victims.

However, they were from low-income families, so Xiao Tian was even more sure that they were people who had been paid the mastermind.

"Auntie, did you find anyone suspicious among the demonstrators?" Xiao Tian inquired,

Previously, Xiao Tian asked her to look at the CCTV footage before traveling to the hospital.

"I did not find any suspicious demonstrators." Qian Na had watched the CCTV footage a few times, but she did not find any suspicious demonstrators.

Because Qian Na said so, Su Ruanyi played the CCTV footage again. Xiao Tian and the others paid attention to it carefully, checking every demonstrator.

"It seems like they immediately left after inciting people to demo in our corner shop." Su Ruanyi uttered.

"They know what to do after inciting people. It looks like this isn't the first time they've done something like this." Xiao Tian thought the mastermind's people would remain among the demonstrators because this was what usually happened.

"They are evil people! I hate them." Qian Na stated angrily.

At this moment, all the demonstrators were evil people in her eyes. Not only did they slander her corner shop, but they were also the reason why her husband was arrested by the police.

When she paid attention to all the demonstrators in the CCTV footage, she also saved their faces in her mind.

Even though some of them were completely innocent, but they took part in the demonstration, which resulted in her husband being arrested by the police.

She would remember her hatred forever and would not help them if they needed her help. This was what she promised in her heart.

-----

Yu Hospital, Han Zhi's Patient Room.

Han Zhi was currently feeling pain in his legs. Not only that, but the pain became more and more unbearable by the minute, to the point that he felt as if countless needles were pricking his legs.

'What's wrong with my legs? Why do my legs hurt so much like this?'

He had no idea as to why he suddenly felt immense pain in both of his legs.

Previously, his legs were fine. He even could move his legs as he pleased, but now he could not do that.

The pain he felt was getting unbearable when he tried to move his legs. Because he could not bear the pain anymore, Han Zhi pressed the button next to his bed.

It was a button to call the nurse. Not long after that, a nurse entered his room.

"What's wrong?" The nurse inquired.

"Nurse, my legs hurt so much." Han Zhi explained the reason why he called her. "And the pain is getting worse every minute."

"Let me check your condition first." After saying that, the nurse checked Han Zhi's condition.

'It's weird! His legs are normal so why is he feeling pain?'

She did not find any strange symptoms on Han Zhi's legs.

"Wait here. I will call a doctor now." Because she had no idea what was wrong with his body, she decided to call a doctor.

Not long after that, the nurse returned with a doctor. The doctor wasted no time and immediately checked Han Zhi's legs.

However, he didn't find any strange symptoms on Han Zhi's legs either. He checked Han Zhi's body three times, but the results were the same.

'Did he lie to me?'

The doctor suddenly suspected that Han Zhi lied to him because he could not find any strange symptoms on Han Zhi's legs.

"Your legs are normal! I don't find any strange symptoms on your legs." The doctor uttered,

"But my legs hurt so much!" Han Zhi replied while enduring immense pain. "It feels as if countless needles are piercing my legs continuously."

At this moment, Han Zhi remembered something.

'Don't tell me.'

His eyes widened for a second when he remembered Xiao Tian and Su Ruanyi visiting him an hour ago.

'It's them! I'm sure this must be their doing!'

Han Zhi immediately blamed Xiao Tian and Su Ruanyi because they were enemies.

He immediately looked at the doctor before speaking, "Doctor, I'm sure this is the work of the Su family. Yes. I'm sure this is because of the Su family. You saw them visiting me earlier, right? I'm sure they did something to me earlier."

"What makes you think so? Didn't you immediately kick them out as soon as they entered your room earlier? They were far from you and they were also in your room less than twenty seconds, so why are you suspecting them?" the doctor was always with Xiao Tian and Su Ruanyi, and he didn't see them do anything to Han Zhi earlier.

What the doctor said was true, but Han Zhi still blamed Xiao Tian and Su Ruanyi for the pain he felt. "I'm sure they did something to me earlier. You should check the CCTV now."

Because Han Zhi insisted on wanting them to check the CCTV, the doctor granted his wish. The doctor immediately checked the CCTV footage.

However, he did not find any suspicious actions from Xiao Tian and Su Ruanyi. He even showed the CCTV footage to Han Zhi.

Xiao Tian carefully sprinkled the powder before leaving, so he looked like he did not do anything on CCTV.

Because Han Zhi could not find the evidence, he could only grit his teeth and endure the pain on his legs.

Because the doctor was busy, he could not stay with Han Zhi all the time. He injected painkillers into Han Zhi's body to help him reduce the pain before leaving.

However, it was useless because Han Zhi still felt immense pain. Not only that, but he also felt pain in his arm within the next hour.

The worse part was that his head and chest hurt so much in the next two hours. Han Zhi's whole body was in immense pain.

He never felt so much pain like that. Not only did he feel like countless needles were piercing his body, but he also felt as if someone kept hitting his head with a hammer.

Legs, arms, chest, head. Every part of his body was in pain. Like before, he called the nurse and the doctor again.

Due to how painful it was, Han Zhi kept screaming in pain. He kept gritting his teeth and his eyes flooded with tears.

At this moment, he finally knew what it was like to be tortured endlessly.

Mu Zen, the other victim, was curious about what was happening to Han Zhi.

'What's wrong with him?'

Because their room was next to each other, he could hear Han Zhi's scream.

Coincidentally, a nurse suddenly entered his room.

Mu Zen wasted no time and immediately asked, "Nurse, what's wrong with Han Zhi?"

### **Chapter 1115 - Kidnapping Mu Zen's Wife**

7-8 minutes

---

"Nurse, what's wrong with Han Zhi?" Mu Zen asked curiously.

At this moment, the doctor had tied Han Zhi's mouth with clothes so that his scream would not disturb other patients.

They were in the hospital, so Han Zhi's scream could make the condition of other patients worse.

For this reason, the doctor and the nurse decided to tie Han Zhi's mouth with clothes. Sure, they knew what they did was cruel.

However, they had no choice but to do this because the condition of other patients was important too.

"Oh! His whole body suddenly hurts." the nurse gave an honest answer. "The doctor is still checking his body right now."

Like Han Zhi, Mu Zen suddenly thought of the Su family. They had slandered the Su family, so there was a high possibility that they were the reason why Han Zhi felt immense pain like that.

The feeling of deep fear suddenly blossomed within him.

'What should I do? What should I do? What should I do?'

He did not want to feel what Han Zhi felt.

'Should I confess everything? But if I did that, I would be put in jail later.'

Mu Zen wavered whether he should confess everything or not.

He had used the money given by the mastermind so he could not return it because he was from a poor family.

However, he did not want to feel immense pain like what Han Zhi felt.

'What should I do?'

At this moment, he kept praying to God to protect him.

-----

Currently, Xiao Tian and his underlings were in the backyard of the Su family house.

"How is it?" Xiao Tian inquired,

"You are right, sir. Han Zhi and Mu Zen are the people who have been paid by the Fu family." Chun Hua replied, "But we can't do anything to the Fu family for now because we don't have evidence."

Previously, Xiao Tian ordered thirty people to investigate everything.

'The Fu family, huh?'

At this moment, Xiao Tian wanted to go to the Fu family and destroy them immediately, but he changed his mind.

It was related to the reputation of the Su family and he also had no evidence so he could not act recklessly.

'I will make them regret their actions later!'

Xiao Tian's lips curled into a grin.

"Mu Huo, bring two people with you and go to Han Zhi's house. Burn his house but make it look like his house is on fire because of gas cylinders." Because Han Zhi slandered the Su family for money, Xiao Tian wanted to burn Han Zhi's house.

'This is the right punishment for you!'

Xiao Tian was sure that the money Han Zhi got from the Fu family was not as much as the price of his house.

With this, Han Zhi would suffer more later. Not only did he feel immense pain in his body, but he would also lose his house later.

Xiao Tian believed that Han Zhi would regret his actions later.

"All right." Mu Huo nodded his head before leaving with two of Shadow gang members.

Xiao Tian then looked at Chun Hua and spoke, "Chun Hua, bring four people with you and kidnap Mu Zen's wife. This is the photo of his wife."

"All right." After taking the photo, Chun Hua and four of the Blue Ice Lotus gang members left.

"All of you stay here and protect this house." Xiao Tian uttered,

"Understood, leader." Xiao Tian's underlings replied in unison.

Without waiting for another second, Xiao Tian entered Su Ruanyi's house.

'Should I tell them who the mastermind is?'

He wavered whether he should tell Su Ruanyi and Qian Na about the Fu family or not.

When Su Ruanyi saw Xiao Tian, she immediately asked, "Student Xiao, how is it?"

After sitting on the couch, Xiao Tian looked at Su Ruanyi and Qian Na.

"I have found out who the mastermind is." It took him four seconds before he could answer Su Ruanyi's question.

"Who is it?" Su Ruanyi and Qian Na asked in unison.

"The Fu family." Xiao Tian gave an honest answer.

"Fu family?!" Su Ruanyi and Qian Na looked at each other.

"Are you sure about this, student Xiao?" Su Ruanyi wanted to make sure that the mastermind was really the Fu family.

"One hundred percent sure." Xiao Tian believed that his underlings would not lie to him.

"Now I finally knew the reason why they slandered us." Qian Na knew that the Fu family also had a corner shop not far from theirs.

"It looks like they lost their customers and hate us because our corner shop sales increased yesterday." Su Ruanyi also knew that the Fu family had a corner shop like them.

"Auntie, I'm sorry. I only wanted to help you increase the sales of your corner shop, but I ended up causing trouble for your family." Xiao Tian suddenly felt guilty after remembering what happened to the Su family and Su Guanyu. "But I promise to solve this problem and get uncle out of prison as quickly as possible."

"You don't need to apologize. This is not your fault." Qian Na did not blame Xiao Tian because she knew that Xiao Tian only wanted to help them.

Su Ruanyi held Xiao Tian's right shoulder before speaking, "Don't blame yourself, student Xiao."

Xiao Tian was relieved after hearing their words.

'I will make the victims and Fu family regret their actions later.'

He clenched his left fist.

-----

At the same time, Mu Huo and two of Shadow gang members did their task smoothly. They managed to burn down Han Zhi's house and make everyone think it was about of gas cylinder.

Like Mu Huo, Chun Hua and four of the Blue Ice Lotus gang members also did their tasks smoothly.

They managed to kidnap Mu Zhen's wife without a problem and brought her to an abandoned factory.

At this moment, Han Zhi and Mu Zen still did not know anything because they were still in the hospital.

When Chun Hua called him and told him that they had done their tasks, Xiao Tian immediately went to the abandoned factory.

----

Luzi City, Abandoned Factory.

Inside the abandoned factory, a young woman about thirty years old was being tied to a chair.

Her yellow eyes were filled with tears and her mouth was tied with clothes. In front of her, thirty masked people were standing and looking at her coldly.

Some of them stared at the young woman with killing intent while the others said cruel things to her.

If anyone saw them, they would immediately understand what was happening in the abandoned factory.

Kidnapping!

Yes. The young woman was being kidnapped by these people.

At this moment, the young woman looked at these people with a terrified expression. Sure, this was her first time seeing them, but she knew that they were bad people.

That young lady was none other than Cai Shan, Mu Zen's wife.

"Hmm...Hmmm...Hmmm..." Because Cai Shan's mouth was being tied with clothes, she could not say clearly.

\*Slap...

One of the Blue Ice Lotus gang members slapped her in the face hard.

"Shut up!" she said coldly.

Cai Shan's body trembled non-stop. She immediately lowered her head because she was afraid that they would hit her again later.

At this time, Xiao Tian arrived at the abandoned factory.. Like his underlings, he also wore a mask.

### **Chapter 1116 - You Are Lying!**

7-8 minutes

---

As soon as Xiao Tian entered the abandoned factory, his underlings looked at him and greeted him.

"Leader..."

"Leader..."

"Leader..."

"Leader..."

Even though Xiao Tian was wearing a mask, they still recognized him because they were familiar with his body and a golden mask.

Cai Shan instantly lifted her head and looked at Xiao Tian. She was startled when she found out that he was still young.

After one of his underlings placed a chair in front of Cai Shan, Xiao Tian sat on it before speaking, "Do you know why we kidnapped you like this?"

Cai Shan instantly shook her head because she also wanted to know why they suddenly kidnapped her.

She believed that she never caused trouble to them. No, she even never met them before.

Xiao Tian was not surprised because the one who caused the trouble was her husband. "To put it in short, it's because of your husband. You know what had happened to the Su family corner shop, right?"

Cai Shan nodded her head. Of course, she knew about it because many people talked about it since two days ago.

However, she had no idea as to why her husband was related to the incident that happened to the Su family corner shop.

"It's because your husband is the reason why so many people demonstrate in front of the Su family's corner shop." Xiao Tian gave an honest answer. "Not only did he slander the Su family corner shop, but he also incited people to demo."

"Hmm...Hmmm...Hmmm...Hmmm." She wanted to say that Xiao Tian lied to her, but she could not do that because her mouth was being tied with clothes.

Xiao Tian looked at one of his underlings and spoke, "Untie her mouth and let her talk."

After Xiao Tian's underling untied her mouth, Cai Shan immediately said, "You are lying! My husband will never do something like that!"

Of course, she did not believe Xiao Tian's words because her husband had never done bad things since she knew him.

This was the reason why she agreed to marry him because, in her eyes, Mu Zen was one of the good people in Luzi city.

"I don't have the evidence right now because we have investigated it." Xiao Tian was not surprised by her behavior. "Your husband met the Fu family four days ago and they paid him to slander the Su family corner shop."

Like before, Cai Shan did not believe Xiao Tian's words. "You are lying!"

"It's up to you to believe it or not." Xiao Tian rose to his feet before turning around. "We have investigated it but we still don't have evidence. If your husband keeps his mouth shut, then you will stay here forever."

The reason why he ordered his underlings to kidnap Cai Shan was to get evidence. He wanted to make Mu Zen confess everything.

If Mu Zen loved his wife, he would confess everything. But if he kept shutting his mouth, Xiao Tian would order his underlings to kidnap Mu Zen's parents and son.

"Don't let her escape." Xiao Tian uttered, "Chun Hua, follow me."

"Do you have anything you want me to do, sir?" Chun Hua inquired.

"Go to the hospital at midnight and tell Mu Zen everything." Xiao Tian went straight to the point. "Let him know what will happen if he refuses to confess everything."

"Understood." After saying that, Chun Hua returned to take a picture of Cai Shan.

---

The following morning, three people came to Han Zhi's patient room to inform him about what had happened to his house.

Han Zhi's life became even more miserable after knowing what had happened to his house. His whole body was still in pain, and here, his only house caught fire.

He did not know why something like this happened to him. The money he got from the Su family was very little compared to his house.

At this moment, he blamed the world and god for everything that happened to him.

Mu Zen, who knew what had happened to Han Zhi's house, felt even more uneasy. He believed it was related to the Su family because they were enemies.

However, he could not say it because they did not have any evidence. Sure, everyone believed it was because of the gas cylinder, but he did not believe it.

He was sure the Su family paid someone to burn down Han Zhi's house last night.

'This is getting more dangerous. What if they also burn down my house later?'

Because he also slandered the Su family corner shop, he was suddenly afraid that they would burn his house too.

He only had one house, and he also got it from his parents, so he did not know where to live if they burned down his home too.

At this moment, a spark of regret suddenly appeared within him again. If he did not slander the Su family corner shop, something like this would not have happened to him.

However, everything was already too late. He only hoped God would show mercy to him later.

-----

Su Ruanyi's House, Backyard.

Currently, Xiao Tian was sitting on a wooden bench under a tree. Even though he looked like he was staring at the sky, but his mind was thinking about something else.

Yes. He was thinking about how to solve the problem faster than his previous plan.

As Xiao Tian was thinking something, Su Ruanyi walked towards him from behind him. "Student Xiao, what are you doing here?"

Xiao Tian instantly turned his head towards her. "I was thinking how to solve the problem faster."

After sitting next to him, Su Ruanyi inquired, "Were you the one who caused the fire at Han Zhi's house?"

Su Ruanyi knew that Han Zhi's house caught fire last night. Because Han Zhi was one of their enemies, she suddenly thought it was Xiao Tian's doing.

"What are you saying, professor Su? Wasn't the fire at Han Zhi's house caused by a gas cylinder?" at first, Xiao Tian wanted to tell the truth, but he changed his mind after thinking for several seconds.

"You don't need to hide it. I won't blame you or think of you as a bad person." Xiao Tian did it for her family, so there was no way she would think of him as a bad person.

After staring at Su Ruanyi's pretty face, Xiao Tian decided to reveal the truth. "Yes. I ordered my underlings to burn down his house. I want to teach him a lesson."

"So, why did you only order your underlings to burn down Han Zhi's house? Why didn't you do the same to Mu Zen's house?" Su Ruanyi inquired.

"It's like this." Xiao Tian began to reveal his new plan.

He told her the reason why he only ordered his underlings to burn down Han Zhi's house. Xiao Tian did not hide anything from her.

"I see. So you want Mu Zen to confess everything, huh?" Su Ruanyi said after hearing everything.

"Yes." Xiao Tian replied as he nodded his head. "If everything goes smoothly, Mu Zen will confess everything tomorrow or the day after tomorrow."

"Thank you, student Xiao." Su Ruanyi expressed her gratitude.

"You are my woman so it's my job to protect you and your family." Xiao Tian uttered.

"Your woman?" Su Ruanyi was startled after hearing his words.

#### **Chapter 1117 - Chun Hua Goes To The Hospital**

7-8 minutes

---

"Your woman?" Su Ruanyi was a little surprised after hearing his words.

She did not expect him to say something like that. Of course, she was thrilled because she had fallen in love with him.

However, they were still not officially lovers. Their relationship was still as sex friends.

Sure, they expressed their feelings for each other when they had sex in his apartment a few days ago, but their relationship was still the same.

The corner of Xiao Tian's lips twitched. "Do you still think of me as your sex friend?"

Even though he knew that Su Ruanyi had feelings for him, but she always said they were only sex friends.

Xiao Tian did not understand it.

'Why did she keep lying to her feelings? Sigh!'

When he chased Long Jingxian, she never behaved like this.

'Oh, women!'

He just did not expect his former professor to be such a complicated person.

Instead of answering his answer, Su Ruanyi winked her left eye and inquired, "What do you think?"

Of course, she already considered him as her lover, but she did not want to say it because she had just divorced Da Shan.

"I'm sure you already think of me as your lover." Xiao Tian instantly corrected his words. "Wait. Maybe you have considered me as your future husband now."

Because Su Ruanyi still played hard to get, Xiao Tian decided to tease her. Sure, her mouth kept denying him, but at least, he already got her heart.

"You are overconfident!" she did not expect him to say something like that.

When Xiao Tian was about to say something again, Qian Na walked towards them before speaking, "Xiao Tian, Ruanyi, let's visit my husband at the police station now."

"All right." Xiao Tian and Su Ruanyi replied in unison.

Without waiting for another second, they went to the police station to visit Su Guanyu. They talked for about fifteen minutes before finally, they returned home.

At midnight, Chun Hua went to the hospital to meet Mu Zen. However, she did not enter the hospital through the door; instead, she used the window.

She wanted to tell Mu Zen that they had kidnapped his wife, so it would be dangerous if anyone knew about it. That was why she decided to enter the hospital through the window.

Mu Zen instantly woke up when he heard the sound of someone entering his room through the window.

"Who are you?" He was surprised and afraid at the same time.

Because Chun Hua came to the hospital at midnight and entered his room through the window, he knew that she was not a good person.

Mu Zen believed that Chun Hua had bad intentions to him.

'Did the Su family send her?'

He instantly thought of the Su family when he saw Chun Hua.

'Is she going to kill me?'

Because they were enemies, he suddenly thought that Chun Hua came to the hospital to kill him.

'I have to run away now!'

His instincts told him to run away from Chun Hua.

"Don't try to run away, or I will kill you now!" of course, Chun Hua would not let him run away because it would be dangerous if the doctor or nurse knew she was in the hospital.

Mu Zen felt his blood freeze. The fear within him grew bigger when he saw Chun Hua's terrifying eyes.

"Wha...what do you want?" he tried his best to hide his trembling body.

Instead of answering his question, Chun Hua threw a picture of her wife being tied to the chair.

Mu Zen suddenly felt as if someone stabbed his heart with a knife when he saw the picture of his wife being tied to the chair.

'Cai Shan?'

Something he feared the most had finally happened.

Because they had burned down Han Zhi's house, he believed that they would do something to him later.

However, he did not expect them to kidnap his wife.

'Wife...'

Even though he was furious, Mu Zen did not do anything because he would not be able to defeat Chun Hua.

"We still haven't done anything to her, but we will torture her if you refuse to confess everything." Like before, Chun Hua looked at Mu Zen with terrifying eyes. "We will give you half a day to decide it. If you refuse to confess everything, you won't be able to meet her forever."

Mu Zen was depressed. Of course, he knew the meaning of her words.

Kill!

They would kill his wife if he refused to confess everything.

Chun Hua then took the photo back. "Oh, I forgot to say this. If you refuse to confess everything, not only will you not be able to meet your wife forever, you will not be able to meet your son and parents forever too."

Mu Zen gritted his teeth.

'So they will kill my family if I refuse to confess everything.'

He knew what he did was wrong, but he did not expect that his actions would put his family in danger.

"Don't you dare report this to the police, or you will regret it later." after saying that, Chun Hua left through the window again.

Mu Zen's heart was filled with regret, and his eyes dimmed.

When he found out what happened to Han Zhi, he thought he was lucky because the Su family did not burn down his house and hurt his body what they did to Han Zhi.

But now he finally realized something.

He was wrong!

'Should I confess everything tomorrow?'

Mu Zen did not want anything bad to happen to his family, but at the same time, he also did not want to confess everything.

Sure, he could save his family from danger if he confessed everything, but he would be sent to prison after that.

He did not want to live in prison because he would not be able to spend time with his family later.

Not only that, living in prison was hard, and the food was bad. There was even a high possibility someone would bully him in prison later.

However, the Su family would kill all of his family if he did not confess everything. He also could not report this to the police because Chun Hua had warned him not to do that.

He was even sure that someone was monitoring him every day.

'Wife, I'm sorry.'

The feeling of deep regret arose within him.

If he had known something like this would happen to him, he would have refused the Fu family's offer, but everything was already too late now.

At this moment, Mu Zen finally knew how terrifying the Su family was.

In front of the hospital, five of Xiao Tian's underlings were monitoring Mu Zen.

"Why don't we just torture him and force him to confess everything? Isn't this much easier?" the red-haired woman asked angrily.

"Fool! If we did that, the public would know everything later." the green-haired lady replied.

"She is right. It's related to the reputation of the Su family, so our leader did not want to do that." the red-haired man added.

"Well, professor Su is our leader's future lover, so I can understand his actions." The blue-haired man uttered.

"I'm hungry!" the brown-haired woman spoke as she touched her stomach.

The red-haired woman and the others twitched their lips after hearing the brown-haired lady's words.

### **Chapter 1118 - Mu Zen Confesses Everything**

7-8 minutes

---

The following morning, Xiao Tian headed to the abandoned factory after eating breakfast with Su Ruanyi and her mother.

He talked with his underlings and asked about the progress of their plans. He also chatted with Mu Zen's wife for a few minutes.

Like yesterday, he told her what they would do if her husband refused to confess everything later.

Cai Shan was terrified after hearing his words. She did not expect him to be so cruel like that.

He even said he would kidnap and kill their family if Mu Zen refused to confess.

At that time, she really hoped her husband would confess everything because it was related to the safety of their family.

-----

Fu Family House, Living Room.

In the living room, two people around forty-two years old were sitting on the couch with happy faces; a man and a woman.

The middle-aged man had white hair while the middle-aged woman had blue hair. From their smile, anyone could tell right away that they were in a good mood.

The smile on their faces grew bigger when they remembered what had happened to the Su family corner shop.

Yes, these people were the masterminds of what had happened to the Su family corner shop.

These two people were none other than Fu Xiong and his wife, Lei Qing.

"Since we slandered the Su family corner shop, our sales have increased greatly." Fu Xiong laughed happily after saying this.

"Your idea is great, husband." Lei Qing praised her husband.

At the same time, a young man around nineteen years old stepped into the living room with tea and snacks in his hands. "Father, mother, here are the tea and snacks."

He was Fu Xiong's son, Fu Zhiqiang. Lei Qing and Fu Xiong immediately sipped their tea.

Fu Xiong looked at his son and spoke, "Zhiqiang, let's go to the game store later. I will buy you the game you've always wanted."

"Really?" Fu Zhiqiang asked happily.

"Yes." Fu Xiong nodded his head.

"Thank you, father." Fu Zhiqiang replied with sparkling eyes.

"But don't play a game all the time later." Fu Xiong did not want his son to play the game all the time because it would ruin his future.

"I understand, father." Fu Zhiqiang replied instantly.

"Good! Hahaha." Fu Xiong laughed happily again.

Fu Zhiqiang and Lei Qing also laughed.

----

Mu Huo, who was wearing a silicon head mask, traveled to the hospital to see Mu Zen. He wanted to know whether Mu Zen refused to confess everything or not.

The reason why he wore a silicon head mask was that he wanted to pretend to be Mu Zen's family.

He wanted to ask something important, so he did not want anyone to follow him because it could ruin everything later.

If he visited Mu Zen with the identity of his cousin, he believed that doctors and nurses would not be suspicious of him later.

Of course, it was Xiao Tian's idea. This was one of the reasons why Xiao Tian went to the abandoned factory after eating breakfast with Su Ruanyi and her mother.

And like what Xiao Tian had guessed, he could enter Mu Zen's room easily. He was even allowed to visit Mu Zen alone.

'Everything is according to the plan.'

Before entering the patient room, Mu Huo hid the voice recorder in his pocket.

\*Click...

Mu Huo entered the room without knocking on the door.

Mu Zen was startled when he saw Mu Huo. He remembered that he had never met Mu Huo before.

"Who are you?" Mu Zen inquired.

"Lower your voice if you don't want to die!" Mu Huo said coldly.

Mu Zen's blood froze.

'He is one of them!'

Because Mu Huo behaved coldly, Mu Zen knew that Huo was someone sent by the Su family.

At this moment, he suddenly recalled what happened last night. He remembered what Chun Hua said before she left.

"So, what is your answer?" Mu Huo went straight to the point.

Xiao Tian ordered him not to waste time because they had to kidnap Mu Zen's family if Mu Zen refused to confess everything.

Mu Zen clenched his fists. He had been thinking about this since last night because it was an important matter to him and his family.

"I..." at this moment, he still wanted to refuse, but the thought of his family dying suddenly appeared in his mind.

Chun Hua said they would kill his family if he refused to confess everything. That was why he wavered again.

"Make up your mind now!" like before, Mu Huo said coldly. "I don't have much time. If you don't make up your mind quickly, I will inform my boss to kill your wife first."

"No!" Mu Zen said in reflex. "I...I will reveal everything."

"Good!" Mu Huo was pleased with Mu Zen's decision. "Tell me everything now."

Mu Zen began to tell Mu Huo everything, from when the Fu family paid him until how he slandered the Su family corner shop.

He did not hide anything because it was related to the safety of his family. Sure, he knew he would end up in prison later, but at least he would not lose his family later.

'Yes. This is the best option.'

He was going to be imprisoned for a few years, but at least he could meet his family again after being released from prison.

If he refused to confess everything, not only would he lose his family, but his safety was also not guaranteed.

That was why revealing everything was the best option. After Mu Zen confessed everything, Mu Huo returned to the abandoned factory to meet Xiao Tian.

\*Sigh...

Mu Zen looked at the sky through the window.

His heart was filled with sadness, and his eyes lost its natural shine. Because he had revealed everything, he knew what would happen to him later.

'At least, my family is safe now.'

He really regretted it.

If he could turn back time, he would refuse the Fu family's offer because the Su family was more terrifying than the Fu family.

'At least my fate is better than Han Zhi.'

Mu Zen felt lucky when he remembered what had happened to Han Zhi.

Not only did Han Zhi feel immense pain until now, but the Su family had also burned down his house.

'Han Zhi, we made the wrong decision this time.'

Even though Mu Zen had tried to accept everything, but some part of him wanted to escape from the hospital.

However, he changed his mind when he remembered that Mu Huo and the others would kill his family if he did that.

'I will take this as a lesson so that I won't make the same mistake in the future.'

Mu Zen promised he would become a good person from today onwards.

-----

Abandoned Factory, Front Yard.

"How is it?" Xiao Tian inquired.

"He confessed everything, boss. You can hear it." Mu Huo gave the voice recorder to Xiao Tian.

After hearing it, a satisfied smile appeared on Xiao Tian's face. "Good."

Because Xiao Tian wanted to give the good news to Su Ruanyi and her mother immediately, he went straight to their house.

'There, they are.'

Xiao Tian saw Su Ruanyi and her mother sitting on the couch in the living room.

After sitting on the sofa, Xiao Tian immediately spoke, "Professor Su, auntie, I have good news."

### **Chapter 1119 - Releasing Su Guanyu From Prison**

7-8 minutes

---

After stepping into the living room and sitting on the sofa, Xiao Tian immediately said, "Professor Su, auntie, I have good news."

He went straight to the point because he believed they wanted to hear the good news immediately.

Su Ruanyi and Qian Na, who were watching a movie, instantly turned their heads towards Xiao Tian.

'Good news?'

They were startled by his words.

"What is it?" Su Ruanyi and Qian Na asked curiously.

"We can free uncle from prison and catch the mastermind now." after saying that, Xiao Tian took the voice recorder out of his pocket. "We have the evidence now."

Without waiting for another second, he played the voice recording.

After hearing the contents of the recording, Su Ruanyi and Qian Na exchanged a glance with each other.

'We have solid evidence!'

They were thrilled.

Not only could they free Su Guanyu from prison, but they could catch the mastermind too.

They even could clear their bad reputation later. This was the reason why happiness danced in their hearts.

Due to how happy they were, they even forgot to ask how Xiao Tian got the evidence.

Tears of happiness flooded Su Ruanyi's blue eyes.

'Thank you, student Xiao.'

If her mother were not with them, she would have hugged Xiao Tian and kissed him.

Happiness shimmered inside him when Xiao Tian saw the expression on the faces of Su Ruanyi and Qian Na.

He was glad because he could see their happy faces again because he had never seen it since the Fu family slandered their corner shop.

Not only that, but the sadness in their hearts grew bigger when Su Guanyu was arrested by the police.

"Xiao Tian, Ruanyi, let's go to the police station now." Qian Na wanted to free her husband immediately because they had the evidence now.

"All right." Xiao Tian and Su Ruanyi immediately nodded their heads.

Actually, Xiao Tian had guessed this before. That was why he was not surprised by Qian Na's words.

After arriving at the police station, they immediately gave the voice recorder to the police officer.

Because of this voice recorder, they could free Su Guanyu from prison immediately. Not only that, but the police officer also issued an arrest warrant for the Fu family.

-----

Su Family, Living Room.

"Thank you, Xiao Tian." Su Guanyu thanked Xiao Tian for what he had done until now.

On their way home earlier, his wife and daughter told him that Xiao Tian was the one who got the evidence.

If it were not for Xiao Tian, they would not get any evidence until now, and they would not be able to free Su Guanyu from prison either.

"Don't mind it, uncle. I'm glad I can help you." Xiao Tian was delighted when he saw Su Guanyu's happy smile.

"Husband, you must have suffered in prison." Qian Na held Su Guanyi's hands and wore a sad face.

"It's fine." Su Guanyu did suffer when he was in prison. Luckily, no one bullied him in jail. "At least, I have been released from prison and can be with all of you again now."

Su Guanyu was already old, and the food in prison was bad, so it was normal if he suffered in prison.

However, he did not care about it because he could spend time with his family again.

"We only need to think how to clear our bad reputation now." Su Ruanyi uttered.

Even though the Fu family was the mastermind, but the public still did not know about it.

"Don't worry, professor Su. I have handled it. I'm sure everyone in Luzi city will know the truth later. At most, they will know the truth tomorrow." Previously, Xiao Tian ordered all of his underlings to spread the truth.

They needed to clear the bad reputation of the Su family, so he had to do that.

"What?! You have handled it?!" Su Ruanyi and her parents said in surprise.

"Yes." Xiao Tian nodded his head.

"How did you do that?" Qian Na asked curiously.

"I paid someone to spread the truth earlier." Xiao Tian could not tell her that he had ordered his underlings to spread the truth.

"Thank you, Xiao Tian." Qian Na showed her gratitude.

"Please don't keep saying that because whatever happens, I will help and protect the Su family." Xiao Tian replied instantly.

"Un." Qian Na nodded her head.

At this moment, Su Guanyu and Qian Na were not suspicious of Xiao Tian because Su Ruanyi never told her parents that Xiao Tian was a gang leader.

Su Ruanyi thought it was not the right time to tell her parents who Xiao Tian was because it would make everything become complicated later.

"Now, let's change the topic." Su Guanyu said and paused for a second before he continued, "Xiao Tian, Ruanyi, what is your relationship? I want both of you to tell us honestly now."

"That's right." Qian Na added. "I want to know about it too."

They only knew that Su Ruanyi had an affair with Xiao Tian, but they still had no idea about their real relationship.

Of course, they knew that Xiao Tian and Su Ruanyi were no longer a student and a professor because Su Ruanyi had told them about this.

If their relationship was still a student and a professor, they would not accept their relationship because it was taboo.

"I'm in love with professor Su." Xiao Tian gave an honest answer.

He did not feel shy because, in his view, there was no point in feeling shy. It would only make it seem like he was not serious later.

After hearing Xiao Tian's answer, Su Guanyu and Qian Na shifted their gaze from Xiao Tian to Su Ruanyi, "What about you, Ruanyi? Do you have feelings for him?"

Su Ruanyi did not answer their questions immediately; instead, she looked at Xiao Tian. At this moment, she did not know if she should tell the truth or not.

'Should I tell the truth to my parents now?'

She had confessed her feelings to Xiao Tian a few days ago, but she did not know if she had to tell the truth or not because her parents were the ones who asked that question.

Because Su Ruanyi still did not say anything, Su Guanyu repeated his question. "Do you have feelings for him? Don't worry. We only want to know the truth. We won't interfere with your love life."

Su Ruanyi was old enough to take care of her own life, so they just wanted to know the truth.

At this moment, Xiao Tian turned his head to look at Su Ruanyi. She said she loved him when they were in his apartment, so he wanted to know if she would say the same thing or not.

They were in front of her parents, so Xiao Tian did not know if she would hide the truth from them or not.

Like before, Su Ruanyi did not say anything and only stared at Xiao Tian and her parents.

'What should I say at this moment?'

If the person who asked the question were her friend, she would say yes immediately.

Qian Na held Su Ruanyi's right hand and looked at her eyes. "Ruanyi, can you tell us now?"

Because her parents really wanted to know her feelings for Xiao Tian, Su Ruanyi decided to answer it.

## **Chapter 1120 - It Seems Like Someone Is Happy Right Now**

6-7 minutes

---

After looking at her parents and Xiao Tian, Su Ruanyi gave an honest answer. "I'm in love with him."

She decided to tell the truth because she believed her parents liked Xiao Tian too. He had helped them many times, so there was no way her parents disliked him.

Happiness welled up inside Xiao Tian like a burst of fireworks. Sure, she had confessed her feelings to him a few days ago, but admitting it in front of her parents was different.

It was as if she gave him a sign that she was serious with him. That was why Xiao Tian's heart was filled with happiness.

At this moment, Xiao Tian wanted to lift Su Ruanyi's body and kiss her, but he could not do that because her parents were next to them.

Su Guanyu and Qian Na smiled. They only wanted to know the truth because her relationship with Xiao Tian was more than friends but less than lovers.

Now that Su Ruanyi had told the truth, they only hoped that her relationship with Xiao Tian would last forever.

Su Ruanyi shifted her gaze from her parents to Xiao Tian. "It seems like someone is happy right now."

"Haha." Su Guanyu and Qian Na laughed after seeing Xiao Tian's happy face.

Xiao Tian only smiled and did not say anything because what Su Ruanyi said was right.

-----

Fu Family, Living Room.

Fu Xiong, Lei Qing, and Fu Zhiqiang were currently in the living room. Previously, they went to a games store to buy PlayStation for Fu Zhiqiang.

Both Fu Xiong and Lei Qing smiled happily when they saw their son playing the game with a smile on his face.

However, their happiness only lasted for twenty minutes because two police officers suddenly came to their home with an arrest warrant in hand.

They immediately explained the reason why they came to their house.

Of course, Fu Xiong and the others did not admit that they were the mastermind of what happened to the Su family corner shop.

However, they could not do anything when the police officers showed the evidence to them. As a result, both Fu Xiong and Lei Qing were taken to the police station.

At the same time, four police officers also came to the hospital to arrest Mu Zen and Han Zhi.

Han Zhi's body was still in pain, so he could not defend himself. As for Mu Zen, he did not fight back when the police wanted to arrest him.

----

After Xiao Tian talked with Su Ruanyi and her parents for several minutes, he went to the abandoned factory to meet Cai Shan.

"Your husband has been arrested by the police." Xiao Tian spoke abruptly.

Currently, he was sitting in front of Cai Shan. Of course, his underlings were standing behind him.

Cai Shan did not say anything and lowered her head. She knew what her husband did was wrong, so she could not defend him.

Xiao Tian then looked at his underlings before speaking, "Untie her."

Without waiting for another second, one of his underlings immediately untied Cai Shan.

"You are free now." Xiao Tian stated. "But if you dare to reveal everything to anyone, I will kill you and your family!"

He did not forget to threaten her because he did not want her to cause trouble in the future.

He was kind enough to release her, so he did not care about her feelings. Actually, he wavered whether he should kill her or not earlier.

However, he decided to release her after remembering Su Ruanyi's words.

Yes. Su Ruanyi wanted him to release Cai Shan!

Cai Shan was innocent, so Su Ruanyi did not want him to hurt Cai Shan. Mu Zen had been sent to prison, so in her view, it was already enough.

Cai Shan immediately rose to her feet and walked to her house. Her heart was filled with sadness because her husband was in prison now.

However, she could not do anything because it was his fault. If he did not slander the Su family corner shop, nothing bad would happen to him.

'I hope he learns from this mistake.'

Because she was his wife, she decided to visit him later.

-----

The next day, everyone in Luzi city learned the truth. They finally knew that the Fu family slandered the Su family corner shop.

Now their hatred shifted from the Su family to the Fu family. They even threw rotten eggs to the Fu family corner shop.

Some of the demonstrators were guilty to the Su family after learning the truth because they had done something cruel to the Su family corner shop before.

They even reported the Su family to the police, causing Su Guanyu to be arrested by the police. For this reason, some of them suddenly wanted to meet the Su family and apologize.

At the same time, the Su family corner shop was crowded with customers again. It was as if nothing bad had happened to the Su family corner shop before.

Not only that, but the Su family corner shop was more famous and in-demand than before.

Su Guanyu and the others were pleased by this.

Of course, they were grateful to Xiao Tian because he was the reason why they could solve the problem and raise the sales of their corner shop.

"How about we celebrate this by eating at a famous restaurant?" Su Guanyu inquired.

"Un." Su Ruanyi and Qian Na nodded their heads.

Without waiting for another second, they went to one of the most famous restaurants in Luzi city.

They talked, joked, and laughed together. They spent time at the restaurant for about forty minutes before finally, they went home.

On the way to their house, Su Guanyu often laughed. Not only had he been released from prison, but his corner shop became famous and in-demand now.

After arriving home, they saw something unexpected.

They saw some of the demonstrators standing in front of their house!

Qian Na's eyes were instantly filled with coldness. "Why are you all in my house? Do you want to cause trouble for us again?"
