

## ILY Monster 134

By the time Sei entered their room, he slowly placed the girl carefully on the bed. And just as he was about to remove his hand on her back, Sei paused the moment his gaze landed on her peaceful sleeping face.

He watched her just like that for a long moment before he finally let go. He gently brushed aside the strand of hair on her face before he kissed her in her forehead.

And noticing that she's still wearing her sneakers, Sei quietly moved and carefully removed her shoes the gentlest way possible.

The silence in the room was deafening and yet for Sei, it actually wasn't. He could hear her slow soft breathing loud and clear as if they were music in his ears. Additionally, his heart still couldn't calm down to its normal pace.

And the next moment...

"Mmmmm..." the sleeping girl on the bed suddenly moaned. Causing Sei who was still busy removing the remaining shoe in her foot instantly halted. He didn't move at all, scared that he might wake her up. However, the next second...

The girl suddenly raised her foot and kicked him. Sei was stunned as he looked at her foot which just violently landed on his chest. And before Sei could touch her foot again, the girl suddenly rolled away towards the edge of the bed. Causing Sei to immediately leaped and grabbed her shoulder, fearing that she would fall.

But then again, before Sei could even breath for relief, the girl turned and her palm suddenly reached his face. That moment, Sei was just slapped for the first time in his life. Causing him to get stunned again. Thankfully, when he heard the girl's moan for the second time, he recovered quickly and his gaze fell back on her face.

That moment, Sei looks like an innocent boy, being pretty confused about what he should do in this situation. And too bad for him, but the kick and slap he just receive out of nowhere from his very own sleeping wife were not enough at all, it was because the moment Sei carried her to put her back on the middle of the bed, the girl suddenly bit his neck.

That point of time, no sound came out of Sei's mouth. He just froze as he tilted his head on her. He knew her bite was hard enough to leave a mark on his neck. And by the time she let go she suddenly started licking it as though she was trying to soothe the pain she caused. Jolting the man to the point that he almost dropped her.

"Mmmmm... why... this ice cream warm?" she uttered with such soft and forced voice before she stopped licking him and slept again.

Upon hearing her voice, Sei snapped back to his senses again. However, due to her, suddenly licking his neck, Sei felt his heart instantly leaping anxiously and his desire to kiss her again resurfaced. Sei's Adam's apple bobbed up and down as he felt tightness in his throat.

However, the next second, he snapped when his phone vibrated in his pocket. Causing him to close his eyes tightly as he took deep breaths before he finally put her down gently.

He took his cellphone and when the words, 'He's here' appeared on it, Sei gazed at the girl. He then moved and continued removing her shoe and by the time he was done, his gaze fell back to the girl again.

She was already in her deep sleep but recalling what she did just now, Sei felt unwilling to leave her. However, he has something to discuss with that man. Thus after thinking for a while, he pulled both the side tables quietly and moved them to create a wall on both sides of the bed.

After that, Sei spent minutes adorably circling the bed, like a super worrywart husband, ensuring that his beloved wife won't fall when he leaves. And when he finally convinced himself that nothing will happen to her, he bended again and kissed her forehead before he finally left the room.
