The Innocent Wife of Scheming President

Chapter 111: Beat the Love Rat

Bruce felt embarrassed. He had thought that his ex-wife would not abandon him so quickly. She loved him so much in the past. He thought she would come back to him with ecstasy if he gave her a little more hope, but apparently, he overestimated his position in her heart.

He didn't know that women were crueler than men.

Bruce calmed down and said, "Okay, 200,000 is not enough, give me a price."

"I think I am more pleased to spend my own earnings, although I am earning less in one month than that the money you gave me, but I am happy, I am willing to..."

When Olive arrived, she just heard Bruce's voice with impatience. "Believe it or not, if I want, I can make you lose your job."

Kind people often being bullied by others. Although she didn't know what they had said before, she almost got angry after listening to this threat.

What a damn man, what's wrong with her job to singing to others? It's a normal job, why is it inferior to others?

Ex-husband, their past has been cut off, Bruce, why you threaten Chloe here. Even if you have money and status in society, you don't have the right to bully her.

Bruce, he had not suffered this kind of fight, he turned over to hit back, but Ivy stopped him. "Mr. Lynn, you'd better not say this kind of immoral rumoring. I forgot to tell you that Olive is my girlfriend."

Chapter 112: Congratulations

Olive touched Chloe's cold arm and quickly put Ivy's coat on her. "You're freezing badly. You've been out for so long."

Chloe hugged herself, "It's okay, my heart is cooler."

Olive hugged her and said, "Well, this kind of man is not worth your nostalgia. And when we see him, I'll tell Ivy to hit him, until he's scared of it."

Ivy also said, "I am here, you won't lose your job. He dares not do anything to you."

But Chloe was worried, "If he really wants to deal with you, what should you do?"

"I have my own tricks, don't worry about it." Ivy was humorous. He saw them both freezing into ice beauties and said to them, "You go in first and watch out for a cold."

Chloe shook her head, "After this farce, I'm not in the mood anymore. You guys continue, I'll go back first."

Olive was afraid to let her go alone, the woman had something on her mind, "Then you wait for me and I'll tell them something and pick up the clothes in the lounge by the way. let's leave together. Ivy, why don't you take Chloe to the car first? It's freezing here."

"Good." Ivy naturally had no objection.

Ivy said, "Come on, don't make any wild guess."

"You know what. Alan seems to be looking for a woman who appeared five years ago, and that woman seems to be Olive." Chloe recounted the day she met Dave. "Think about it, Annie was more than four years old, plus in the belly of ten months pregnant time, it was exactly five years. And, the strangest thing is that five years ago I heard Olive said, she found a good job in Jiangcheng. She planned to bring her parents to Jiangcheng and lived with them when she settles down. But one day, suddenly she ran back home, and said she became pregnant. She did not say whose child it is. If you think about it, there are too many coincidences. She refused to work there even though she could get a raise or promotion, and Hengdu was acquired for nothing. There are so many hotels in Luo city, but Alan insisted live in the hotel where she works for. Tonight, she asked you to pretend to be her boyfriend. It seems that she wanted to deal with her enthusiastic boss in this way, but I think, she did this for Alan and Ophelia."

The imagination of a woman, always powerful, could connect the clues. The more Chloe thought about it, the more she felt that what she had said was true. She had almost been deceived by Olive's words.

"Hum, I will ask her carefully, I will not be easily deceived by her."

Chloe was so excited, for the mystery of many years would surface, she was so excited that she forgot about the unhappiness Bruce had brought to her.

But, Ivy's silence made her quiet, she knew that this big boy had a crush on Olive, but he had never expressed, she asked gingerly, "Are you upset?"

"No, I'm listening to you. I think it makes sense." In fact, Ivy thought something must have happened to them in Sanya, otherwise, why she resigned after she came back, and changed the mobile phone number.

However, although he suspected her, he did not dare to ask her, after all, she would not say, or she would choose to hide the truth with other reasons. The stubborn woman, for her, other matters were

negotiable, but she kept it a big secret who the baby's biological father was. But today, the secret seemed to surface, and the only thing she needed to do was to admit it.

Olive called Ted. "What's the name of the waiter who delivered food to the band members today?"

"Casper, what's the matter?"

"You ask him to come to my office when he comes to work tomorrow." She didn't believe that she couldn't find the traitor.

The man was so capable that he could buy off the staff of the hotel so quickly.

Olive parked her car in front of a pet market. Annie wanted a Chihuahua dog, and she wanted to give her a live one.

She wondered if Annie would jump out of bed when she woke up tomorrow morning and saw the dog running in the room. The little girl was a bit sleepy in winter. She always woke her up twice or three times when she should get up.

Olive went into a shop and there were different kinds of pets in the cage. Chihuahua is a kind of elegant puppy, with a petite and lovely body, which makes people happy just by looking at it.

The shopkeeper was a nice man, he got up from the oven and rubbed his hands and came over. "Which one do you like better?"

"How much is this one?" Olive pointed to one of the white Chihuahuas and asked, she liked this one best. Its eyes were round and bright. It looks at her as if it can speak."

"Alan, for god's sake, can you give me a break?" She said it coldly, but the phone was hung up.

Alan, you did what you want, and I didn't care if you were playing with Miss Meyer.

She threw the phone aside, stepped on the accelerator. The snowflakes had started flying all over the city.

At the end, she had decided to give upon their love, but Alan, why were you still so snarled.

Time went back to when Olive had just left, Ophelia rubbed her forehead, as if she had no bones attached to Alan, "Alan, I seem to drink too much, and I have a little headache, what shall I do?"

"I'll take you back to your room to rest." Alan held her.

"No, you have so many friends here. Some of them came all the way here." Ophelia pretended to be drunk. This woman knew what to say and what not to say.

When marriage news was announced, in fact, she was very nervous, she was afraid of this man denying what she said. But he acquiesced.

The silence, though, made her uneasy. But at least he didn't object.

After five years of waiting, she finally saw some hope.

He had never said he liked her, but he doted and guarded her, and he never reproached her if she had done something wrong. It was the first time that he treated her so cold.

She had made great efforts to get the medicine. Alan's self-control was too strong, she was afraid the medicine was not enough, so she quietly called her friend to drop two pills into the wine

By rights, he should be losing control now. But she could not see any desire in his eyes, and his body was as still as a mass of stagnant water.

In this way, the embarrassed lips touched each other, but she had no way to go further, she also did not know how to let herself end it.

He stood so calmly, neither pandering to nor rejecting her, with an air of alienation that made her kiss a little ridiculous and she didn't know how to end it.

Even if it works, why did he not go to the doctor but ask for her help. Idiot.

But fear was like a pervasive poison in her body. She slammed on the brake and parked her car on the side of the road for fear that she would become a road killer if she lost control suddenly.

It's not far from Wattingbar. She needed to calm down before she can meet her friends.

"Olive, where are you now? We're all here waiting for you."

Wait for her to explain to them.

"I'll be there soon, you can enjoy yourself first." Olive said, no one knew the contradiction in her mind at the moment was churning, just like she was walking on a crossroads, she had found a straight road, but suddenly found that there was another crossroad ahead.

A voice said to her that she should go ahead, that's the direction of waittingbar, her dearest friends were waiting for her.

Another voice said, Looking back, that's the direction of Angel Hotel. The man she used to love was waiting for her.

Olive touched the little pet, its body was small and soft in the palm. "Little puppy, what should I do? It's not that I don't love him. Actually I dare not love him. Do you understand?"

The little puppy stretched out his tongue and licked her finger. How could it understand her?

"There's something urgent to deal with in the hotel, Chloe. Sorry, I can't come now. I may not be able to accompany you tonight." With Alan's training, her ability to lie was also growing, and she no longer needed to prepare a draft before she lied.

"What, you will not come?" Chloe screamed disappointedly.

Olive inadvertently looked out of the window and saw a familiar figure flashing by. "Chloe, can you give the phone to Ivy?"

Ivy answered the phone. "Olive, Is anything wrong in the hotel?"

Nothing happened, except that jerk.

"Ivy, did you see Xenia at the party today?" She was busy dealing with all kinds of situations and almost forgot about it.

"Xenia? No." Ivy was confused.

Listening to his words, Olive knew that he didn't see her, because she hadn't seen Xenia since he introduced himself as her boyfriend.

Olive slowly closed her eyes and suddenly lost her strength to escape. His kiss slowly became intense.

"It's hurt..." The doorknob hit her back and hurt her waist.

Alan held her up and put her on the bed. Olive looked at the bright crystal lamp over her head, and suddenly had some tears in her eyes.

Olive did not know what they should do after tonight.

"Sometimes, girl, I really want to strangle you." His face was buried on her shoulder, like a child being angry with her, "But I can't bear to hurt you..."

Even if she found a man to anger him, he still couldn't hurt her.

She hugged his head and put her finger in his thick black hair. "Do you know who the girl you called is?"

"My girl is Olive, Olive is my girl." He said it like a tongue twister, he suddenly smiled at her mysteriously as if he had seen through all the secrets.

Olive suddenly felt nervous.

The arms suddenly tightened round her waist, which made she could hardly breathe.

"You know it, but I do not mind telling you again. Be my woman and have babies for me."

His voice seduced her. Olive lowered her head to look at the floor. But her heart was flipping for him.

She almost wanted to say yes.

"Give me some time to think about it."

"Don't play with me." He could easily see what she was thinking.

Olive smiled softly. "I dare not. Mr. Hoyle can easily get what you want. Don't have to mention a woman, you even can get one to your left and one to your right."

To be honest, it was not because that she didn't want to be his woman, she just couldn't convince herself to share him with another woman.

Alan heard the sarcasm in her words and smiled. "You are jealous."

Realizing this, his gloomy mood was suddenly clear.

Olive's ears were hot, though they were not face to face, she could feel his eyes staring at her from behind, which made her slightly uncomfortable. "Whatever you say. "

Alan still smiled and suddenly said. "I have never touched Ophelia."
