

## Insanity 1291

### Chapter 1291: Huge Assets

While evading deductions, Fang Yuan did not waste time, he inspected his immortal aperture.

Five regions, nine heavens.

The sizes were incredible, beyond this world's common sense.

335000km<sup>2</sup> of space was already shockingly huge, nobody would believe it if they heard of it.

But now, Fang Yuan's sovereign immortal aperture had exceeded 335000km<sup>2</sup> of space already.

This was because he had been slaughtering Gu Immortals and annexing their immortal apertures recently.

Because of the sovereign immortal body's special characteristics, Fang Yuan could completely annex other people's blessed lands and absorb all their dao marks without any wastage.

These immortal apertures added up to create many unique areas in the sovereign immortal aperture.

These areas were mainly managed by land spirits, Fang Yuan could save a lot of effort. They were like tiny pearls scattered all over the five regions and nine heavens.

"I have incredible amounts of space path resources. Normal Gu Immortals try by all means possible to expand their immortal apertures, but I have so much space that I have yet to develop."

Fang Yuan was satisfied with this, on the other hand, regarding the time path resources, he had a different feeling.

The sovereign immortal aperture's rate of time had slowed a lot.

It was one-to-sixty earlier, this was simply unmatched!

But now, it was below normal standards.

This was something he had no other way to deal with.

Before Fang Yuan changed his cultivation method, in order to stall calamities and tribulations, he had to do this.

He used the time path methods in Hei Fan's true inheritance to slow the time in his immortal aperture, with fewer time path resources now, Fang Yuan's immortal essence production fell greatly, not just that, all of his gains in his other resources also fell.

Thinking over it in detail.

Inside Mini Central Continent, there was the blood zhi forest, and mirror willows, they were from Hu Immortal blessed land. Other than these, there was a small jade light pit.

This small jade light pit had light path mortal Gu in it, the quantity was large.

This was created in his immortal aperture after Fang Yuan took reference from the jade light pit resource point of Northern Plains' Liu tribe.

Not long ago, Fang Yuan ransacked the jade light pit and took away all of the light path mortal Gu in it.

A portion of the light path Gu worms were placed into the aurora lights in the nine heavens, but the rest could not be sold easily.

Fang Yuan thus created a small jade light pit to temporarily store these light path mortal Gu.

Of course, this small jade light pit could not compare with the genuine article. The latter was a true resource point, it had a lot of light path dao marks and any insect group placed in it would become Gu over time. But the former was only created by Fang Yuan haphazardly to store his light path Gu worms, it had no production capabilities.

Mini Central Continent had the least development among the five mini regions.

Mini Northern Plains was at a higher level.

Mini Northern Plains had flat terrain that was mostly covered in snow and ice, becoming an icy plain.

But snow and ice were not its only features.

Closer to Eastern Sea, there was a shallow green beach, pieces of rocks were piled together to form a special lake. The aquatic plants inside were growing well, as spirit snakes lived in it.

This shallow beach was the blessed land of transformation path Gu Immortal Han Dong, after Fang Yuan annexed it, even the pinkish red spirit snake land spirit was moved over and managed the area for him.

Nearer to Western Desert, there was a bone burial field.

There was a mountain of skeletons here of all types, collarbones, skulls, leg bones, even those from flying animals, there were lots of immortal materials that were very valuable.

This bone burial field was the bone burial field that Fang Yuan took from Liu tribe.

After killing Liu tribe Gu Immortal Liu Yong, he moved this bone burial field directly into his immortal aperture.

Thus, he had this resource point that could generate bone path Gu worms.

“But compared to the original bone burial field, my bone burial field may have a lot of bones, but the bone path dao marks cannot match the original. In the original bone burial field, even the surrounding soil had bone path dao marks. Liu tribe can rebuild their bone burial field with no problems.”

Fang Yuan knew this deeply.

Of course, Fang Yuan had already taken eighty percent of this bone burial field, the most valuable thing were these bones.

The remaining twenty percent was the soil terrain, Liu tribe could rebuild their bone burial field, but to regain its former scale, they would need to expend a lot of resources.

And closer to Central Continent.

This was a sparse grassland with all sorts of wildflowers and grass, there were mainly blood sickle grass and red axe flowers.

These were from Hu Immortal blessed land too.

This grassland was huge, surpassing Han Dong blessed land. There were some pink flower rabbits, fox groups, water wolf groups, earth skin boar groups, poison beard wolf groups, and others, there was even a shark fin wolf and a desolate beast giant horned sheep, they were living in this grassland.

Mini Western Desert had the highest temperature.

Because most of the fire path dao marks were gathered here, the soil was sandy.

There were three main resource points here.

The first were the eerie fire dragon python dens, there were a lot of them in a particular area.

The second was the the sand gull soil beach.

It produced sand gull soil.

Sand gull soil was a Gu material, it was also the food of connect luck Immortal Gu.

But Fang Yuan did not have connect luck Immortal Gu anymore, sand gull soil was now a resource sold to help Fang Yuan earn immortal essence stones.

At the center of the sand gull soil, there was the dead egg of the worldly sand gull. It was filled with cracks, there were several small holes on it, as transparent egg white flowed out of the cracks slowly. Using the life essence in this egg, one could turn ordinary sand into sand gull soil.

The third was the rotten black swamp. This was formed when Fang Yuan went through tribulation, it was filled with dark path dao marks. Fang Yuan had already modified it to become a dark path Gu worm resource point now, but because it had just been made, its production was low.

Other than these three resource points, there were two blessed lands.

One was an earth path blessed land resembling a rotting swamp, there were five desolate beast mud monsters inside, and all sorts of earth path mortal Gu, it was managed by the small mudman land spirit.

The other was Liu Yong's enslavement path blessed land, there were more than twenty dog desolate beasts in it. These desolate beasts were all purchased in treasure yellow heaven by Fang Yuan. This was because Liu Yong blessed land's ownership requirement was to have twenty hound type desolate beasts. Among those were his six bone armor hounds. The entire blessed land was managed by a black hound land spirit.

Mini Eastern Sea's development was about the same as Mini Western Desert.

Wu Yi Hai's blessed land was here.

This was a sea that was well managed by Wu Yi Hai, there were three ancient desolate beast horned divine tortoises, a huge field of ancient desolate plant silent corals, and six desolate beast white letter blue feather seagulls, managed by the sea turtle land spirit.

Other than that, there was the original dragonfish group and two desolate beast dragonfish, air bubble fish group, as well as some rare literature carps and some oil water. There were large numbers of blue jade carps, blood jade carps, and an ancient desolate beast hidden room oyster (obtained in the turbulent flow sea area).

There was another blood lake, it had a large amount of desolate beast blood and Gu Immortal blood, Fang Yuan had once placed blood asset Immortal Gu here to recover.

Right now, blood asset Immortal Gu had fully recovered, but this blood lake remained.

In the five mini regions, Mini Southern Border was the richest.

Five Light Mountain, Immortal Succession Mountain, Heaven Sealing Mountain and others, for a total of more than ten mountains here.

Stalactite cave, regretful spider group, a small number of rockmen, a huge forest with musical trees, tea streams, and qi death birds singing.

There was a Become Dragon Mound, Fang Yuan had used pulling mountain Immortal Gu to move it into his immortal aperture from Northern Plains.

And in the nine heavens.

A small field of aurora lights were in Mini Orange Heaven. There were a lot of floating flowing light fruits in the aurora lights, and because he had obtained a lot of light path Gu worms from the jade light pit, the scale of the aurora lights and flowing light fruits expanded greatly on its original foundation.

And in Mini Yellow Heaven, there was a small gold fragment current.

In Mini Azure Heaven, there was a lot of pill azure incense, this was the food of change soul Immortal Gu. There was a heavenly crystal storage pool, it came from Hei Fan grotto-heaven and had no use for now.

Mini Black Heaven had the walking meat tree, Mini White Heaven had multicolored overlord flowers, three ancient remnant heavenly dogs, one ancient eagle hound, and seven desolate beast eagle hounds.

Mini Purple Heaven had the upper extreme heavenly eagle, although it had only desolate beast strength. More than eighty eagle nests were floating here. These were the loot from attacking Iron Eagle blessed land. The original eagle nest had already been fully eaten by the upper extreme heavenly eagle.

In Mini Blue Heaven, there was a lot of cloud soil, on top of them were the arrow bamboo forest, a star fragment grass field, and an infant falling star hound. The two desolate beast spinefin star dragonfish had already been sold, during the battle to defend Hei Fan grotto-heaven.

There was also a meteorite pit that produced stellar fire Gu and falling meteor Gu. After killing Ye Lui Qun Xing and obtaining his blessed land, Fang Yuan also placed it here, it was a floating island filled with star fragments, the star core land spirit was managing it.

There were also some blessed lands scattered around, and some other desolate beasts and desolate plants, there was no need to discuss them in detail.

As for Dang Hun Mountain and Luo Po Valley, they were in Lang Ya blessed land.

Reverse Flow River was temporarily placed in Mini Eastern Sea by Fang Yuan.

As for Gu worms —

Rank nine wisdom Gu was in Lang Ya blessed land. Sovereign immortal fetus Gu had already been used, it would not be counted.

Rank eight Immortal Gu: Attitude, Wisdom Sword, Years Flow Like Water (sealed).

Rank seven Immortal Gu: Sword Eyebrows, Wave Sword, Flying Sword, Sword Escape, Calamity Beckoning (with Chu Du), Year, After, Dragon Breath, Affection, Perseverance.

Rank six Immortal Gu: Unravel Mystery, Woman's Heart, Blood Asset, Dark Limit, Dog Shit Luck, Change Form, Strength Qi, Self Strength, Flying Bear Strength, Pulling Mountain, Pulling Water, Landscape as Before, Man as Before, Star Eyes, Spring Autumn Cicada (contains heaven's will, stored in the immortal zombie body), Bone Spike, Perceivable Dao.

The mortal Gu were of all different types, they will be skipped.

Hei Cheng's dark arrow Immortal Gu had self-detonated, Fang Yuan did not obtain it.

In terms of captives, there was Fang Zheng (in Lang Ya blessed land), Hei Cheng (intact body), Ma Hong Yun's soul, Liu Yong's soul, Ye Lui Qun Xing's soul. As for Shi Nu's soul, Fang Yuan did not obtain it. Shadow Sect had incredible attainment in soul path, Fang Yuan could not stop the soul from dissipating even though he captured it.

As for the rest, like Dong Fang Chang Fan's soul, the featherman Gu Immortal's soul, the Eastern Sea Gu Immortals' souls, they were all sold to Lang Ya land spirit for sect contribution points. They were probably absorbed by Dang Hun Mountain and made into guts Gu by now.

There was also the featherman Gu Immortal slave Zhou Zhong, he was sent to Western Desert by Fang Yuan to establish another plan.

Huge assets!

This was Fang Yuan's current portfolio, it was no exaggeration.

In total, even though he was rank seven, he could fully rival ordinary rank eight Gu Immortals in assets.

Just those secluded domains of heaven and earth were incredibly valuable. And his Gu worms were plentiful, the number shockingly high!

Look at Gu Immortal Hei Fan, he was a rank eight Gu Immortal. how many Immortal Gu did he have?

But many Immortal Gu would create the problem of feeding them.

Fang Yuan was still at this stage, trying to provide food for his Immortal Gu.

The rank six and seven Immortal Gu were basically fine. The problems were attitude Gu and wisdom sword Immortal Gu, these two rank eight Immortal Gu.

The new perseverance Gu that he obtained fed on Reverse Flow River's water, Fang Yuan could easily feed it. Affection Gu fed on the same thing as love Gu, hope and fear, Fang Yuan could easily resolve that, he bought a large number of hope Gu and fear Gu from treasure yellow heaven.

For Fang Yuan, developing his immortal aperture was not the main point now.

As long as he slaughtered Gu Immortals and annexed their immortal apertures, his immortal aperture's foundation would continue to grow.

He was facing the problem of insufficient immortal essence.

Pursuing Ying Wu Xie and gang, the Reverse Flow River battle, and escaping from Mao Li Qiu, Fang Yuan expended a lot of immortal essence.

This caused his red date immortal essence storage to fall to a critical level.

"Originally, with my time path resources, the rate of time was fast, my immortal aperture produced a lot of red date immortal essence."

"But after using my time path methods, the immortal aperture's time is close to the five regions' time, I can only replenish my immortal essence through transactions."

Reverse flow protection seal used a lot of the Gu Immortal's mental energy and immortal essence.

Thankfully, Fang Yuan was a rank seven Gu Immortal now, if he was still using green grape immortal essence, he would have ran out of them.

Without red date immortal essence, Fang Yuan did not have much confidence.

While resting, he sold all of the desolate beast corpses in treasure yellow heaven.

These desolate beast corpses were immortal materials of high quantity. Fang Yuan had exterminated these desolate beast groups while he was pursuing Ying Wu Xie in Earth Trench.

Among them were a group of nightmare demonic colts, if these dream path immortal materials were sold in treasure yellow heaven, a huge commotion would arise, many Gu Immortals would fight for them.

But Fang Yuan kept all of these nightmare demonic colt corpses with him, he had better use for them.

After resting for a while, he made several transactions.

After subtracting the transaction fees of treasure yellow heaven, Fang Yuan earned a lot of immortal essence stones.

One immortal essence stone could convert to one bead of green grape immortal essence.

Fang Yuan was a rank seven Gu Immortal, using a hundred immortal essence stones would create one bead of red date immortal essence.

While he was replenishing his red date immortal essence stockpile, he received some information.

“This is a letter from Sixth Hair.”

Fang Yuan felt strange.

After checking it, he felt shocked: “Shadow Sect wants to negotiate a truce with me, they even want us to work together?”

Author’s Note: Collating Fang Yuan’s assets was too tiring!

### **Chapter 1292: Attitude Gu’s Problem**

Fang Yuan’s gaze was flickering.

Shadow Sect’s letter was out of his expectations.

But thinking about it, it was completely logical.

In the battle of Reverse Flow River, even though Fang Yuan did not obtain a lot of cultivation resources, his battle strength rose drastically, he was at the level of the strongest person under rank eight, on par with Feng Jiu Ge.

The increase in his battle strength gave rise to his heightened status.

Actually, before this letter, he also received others.

Like the one from Chu Du. Chu Du spoke very politely in the letter, congratulating Fang Yuan for his victory and expressing regret at not being there. Next, he talked about his own situation, Chu Sect was now Chu tribe, and the supreme elders were now all external supreme elders. The disciples of Chu Du were his god-children now, and finally, Chu Du talked about his own difficulties, because he created a tribe and became part of the righteous path, he had to expel Fang Yuan from Chu Sect. This was not his own wish, he was forced to do so.

There was also one from the Three Crazy Demon Eccentrics. Other than congratulating Fang Yuan, they invited him enthusiastically to explore Crazy Demon Cave. They said: Even if Northern Plains did not welcome him, Crazy Demon Cave would always be his home. These words were very mushy, it showed their brand new attitude towards him.

Regarding Longevity Heaven, they were putting up arrest warrants for Fang Yuan. After all, he killed Ma Hong Yun.

However, Liu tribe and Ye Lui tribe, who were pursuing Fang Yuan earlier, had quietened down.

Fang Yuan’s battle strength shocked them completely. They quickly recalled the members they sent out to find him.

Instead, they were afraid that Fang Yuan would take revenge on them. After all, Fang Yuan’s strength was incredibly famous in Northern Plains now, well beyond Chu Du.

“And now, Shadow Sect has sent a letter seeking cooperation. Hehe.”

“Shadow Sect has a rank eight Gu Immortal, but he has a major weakness, he becomes insane at times.” Fang Yuan thought about it, he had fought Purple Mountain True Monarch in Reverse Flow River, he learned something about his condition.

Actually, if Fang Yuan did not refine perseverance Gu and create the immortal killer move reverse flow protection seal, he would have likely lost in the battle of Reverse Flow River, he would have fallen into Ying Wu Xie’s trap.

All along, Shadow Sect’s remnant forces were Fang Yuan’s biggest threat. Heaven’s will set an arrangement using Fang Yuan to steal sovereign immortal fetus Gu, causing Fang Yuan and Shadow Sect to have unresolvable enmity.

If Shadow Sect wanted to refine sovereign immortal fetus Gu again, they would follow a method similar to what Old Ancestor Xue Hu was using to refine Fortune Rivalling Heaven, he used Ma Hong Yun as the main material for the Gu refinement.

If Fang Yuan ended up in Shadow Sect’s hands, he would not escape that fate, he would be used as the immortal material for that Gu refinement, he would be better off dead.

But now, Fang Yuan’s strength grew to a point where he could stand up to rank eight Gu Immortals, thus, Shadow Sect sought cooperation with him.

This difference in attitude made Fang Yuan sigh deeply.

Reverse flow protection seal was like a weaker Immortal Gu House, he could be unscathed against rank eights, this gave Fang Yuan a lot of confidence.

“But cooperating with Shadow Sect is like walking on a tightrope!”

Even though Sixth Hair was saying the truth, and the reasons he gave were legitimate, there were indeed benefits to all of them if they cooperated. Disregarding anything else, just the soul path trap in Fang Yuan’s immortal zombie body, and the secret of the sovereign immortal body, could be settled if they cooperated.

However, Fang Yuan could not trust Shadow Sect!

It was still the same problem.

Fang Yuan and Shadow Sect could not trust each other.

They were mortal enemies, how could they easily turn into allies?

Even if they were rational people who prioritized benefits, the basis of cooperation between Gu Immortals was not a person’s reputation, but their information path methods instead.

However, Fang Yuan was lacking in information path, this was his weakness. And Shadow Sect possessed powerful information path methods.

Spectral Soul was a great grandmaster in all paths, ignoring everything else, just looking at Zombie Alliance and the organization ‘Defy’ in Central Continent, they had used very powerful information path methods. Any organization was built upon the basis of alliance agreements.

Fang Yuan could not trust Shadow Sect and did not dare to. If by cooperating, he was plotted against by them using information path methods, he would be an idiot.

However, Fang Yuan did not reject them.

He sent back a letter to probe Shadow Sect's sincerity. In the letter, he listed a request — Give me attitude Gu directly if you want to cooperate.

Speaking of which, even though Fang Yuan had been using attitude Gu all along, it was not his, it was borrowed from Hei Lou Lan.

Back then, when lending the Immortal Gu, both sides had an agreement, there was a time when he needed to return it.

If he went past the time limit, Fang Yuan would not be able to use attitude Gu. That was because Hei Lou Lan's will was inside attitude Gu, not Fang Yuan's.

And now, there was little time until the deadline.

Attitude Gu was a legendary Gu worm that could be used with mental energy alone, it had outstanding effects with relatively low costs. Ever since Fang Yuan obtained it, he had passed many difficulties with its huge help. Even though attitude Gu had no offensive methods, it was legendary in the support aspect, it had unlimited uses.

Without attitude Gu, the influence on Fang Yuan would be huge.

Firstly, familiar face would be unusable. Even though Fang Yuan could use his transformation path grandmaster attainment level to redesign this immortal killer move, without that rank eight core, the entire immortal killer move would weaken severely. The chance of getting exposed when he pretended to be Wu Yi Hai would be huge, it was very dangerous.

"If I can use this opportunity to resolve attitude Gu's problem, that would be best." Fang Yuan was feeling somewhat hopeful.

It was about time, Fang Yuan used dark limit Immortal Gu to increase its effect on him.

Next, he stored his immortal aperture and set off.

Towards the southwest direction.

Central Continent, Heavenly Court.

Inside the hall, Fairy Zi Wei sat as she used her immortal killer move.

Her entire body was emitting faint purple smoke from all of her pores.

She was using wisdom path methods to deduce.

Soon after, Fairy Zi Wei's forehead was full of sweat as she opened her eyes.

"I have already used seven killer moves, but I could not deduce the location of our Gu Immortals." Fairy Zi Wei sighed.

Central Continent's Gu Immortals attacked Northern Plains, after the battle of Reverse Flow River, Fang Yuan fled the scene as Central Continent fought against Old Ancestor Xue Hu and Longevity Heaven in an intense battle.

Central Continent wanted to reinforce them and send help.

But this first batch of Central Continent Gu Immortals had gone missing in black heaven. Fairy Zi Wei could not deduce their locations, how could she save them? There was nowhere to send these reinforcements to!

Duke Long beside her opened his eyes.

He was still very weak, he was thin and frail like an old man.

"It seems that Giant Sun Immortal Venerable made many arrangements in Northern Plains, have you deduced Liu Guan Yi's location?" Duke Long asked.

Fairy Zi Wei shook her head: "He seems to have defensive methods to resist wisdom path deductions, but they are not strong. However, we know too little about him. If we had some crucial information, he would be exposed to us."

Duke Long heard this and nodded, after a while, he spoke: "So be it, continue deducing the location of our Gu Immortals, as well as Liu Guan Yi. Also, send me to Hidden Dragon Cave."

Eastern Sea.

Fang Yuan sighed helplessly, he had to place his immortal aperture down again.

Liu Guan Yi was famous in all five regions, Dark Limit's power was constantly being consumed on Fang Yuan's body, at a rapid rate.

To maintain his secret, Fang Yuan had to stop many times.

His immortal aperture's entrance opened, he drew in large amounts of heaven and earth qi.

The sovereign immortal body could absorb heaven and earth qi from all five regions.

Ordinary Gu Immortals could only absorb the heaven and earth qi of their region, if they placed their aperture in other regions, even though they could absorb it forcefully, because of the differing heaven and earth qi, their immortal apertures would shake and many resources would be destroyed.

Right now, the sovereign immortal aperture had too many resources, along with desolate beasts and ancient desolate beasts. Each time he absorbed heaven and earth qi, the commotion was huge, it was like a typhoon occurring.

Especially after he obtained Reverse Flow River, this secluded domain of heaven and earth had a heavy burden on the immortal aperture.

**Chapter 1293: Thoughts of Trading Gu**

It was fine if Reverse Flow River was outside, but if it stayed in the immortal aperture for long, it would consume a lot of heaven and earth qi. Once he lacked heaven and earth qi, his immortal aperture would be unstable.

Thus, Fang Yuan had to constantly place his immortal aperture outside to absorb heaven and earth qi and replenish it.

After he finished his absorption, Fang Yuan closed his immortal aperture's entrance.

Arriving at Reverse Flow River, he held an immortal zombie body.

It was his original body.

He tossed the immortal zombie into Reverse Flow River.

The immortal zombie body flowed along it.

Using perseverance Immortal Gu and Reverse Flow River, Fang Yuan made his experiments, he used all of the methods he could think of.

However, it was pointless.

"As expected."

"The immortal zombie body's soul path dao marks cannot be destroyed or suppressed by Reverse Flow River. After all, these are soul path dao marks, not Immortal Gu."

"Rank one to eight Immortal Gu cannot be used in Reverse Flow River. But dao marks still work. It is like before, before I conquered Reverse Flow River, my dao marks still defended me. Thus, rank eight Gu Immortals were the strongest in that river."

Fang Yuan continued to analyze and think about his failed experiment.

He wanted to use Reverse Flow River to resolve his soul path trap, it was impossible.

Fang Yuan was not disheartened, in fact, he had expected this before trying it.

He placed the immortal zombie body back inside Heaven Sealing Mountain, using the Gu formation to seal it again.

Next, he refined Gu.

A nightmare demonic colt corpse was in front of him.

Fang Yuan's fingers moved like blades, golden light shone as he move them.

The golden light entered the nightmare demonic colt's body and vanished. The nightmare demonic colt's front leg was cut off.

There was no blood.

These nightmare demonic colts died in battle, Fang Yuan asked his immortal aperture's land spirits to process these materials first. The blood had been drained and kept elsewhere.

Fang Yuan lifted the leg and immediately tore it away.

Next, he breathed out fire and started to process this leg.

Three days later, the leg was finally melted into a dark purple liquid.

Fang Yuan continued to throw in Gu worms to refine Gu.

Over a dozen steps took up only fifteen minutes.

The dark purple liquid exploded, as a hundred dream path mortal Gu flew around chaotically in the sky.

But Fang Yuan willed and they quickly went back to Fang Yuan's side.

A hundred dream path mortal Gu!

This was only a leg of this nightmare demonic colt.

Processing this immortal material took the most time. This step took three days. The rest of the steps only took less than an hour.

Such efficiency was very high, it was a clear contrast to Fang Yuan refining Gu in his dream realm previously.

In the dream realm, Fang Yuan had to collect dream path Gu materials before refining Gu. There was a risk in entering the dream, he even sometimes had to use the immortal killer move, unravel dream, to pass the dream realm. Refining dream path mortal Gu but using immortal killer moves, the cost was very high.

But now, Fang Yuan had these nightmare demonic colts, refining these dream path mortal Gu was no longer like before.

"It is like earlier, when I used the spring dream fruit to refine mortal Gu, the efficiency was great."

"Actually, my Gu refinement method can be improved. Like the cutting method earlier, I used metal path methods, it was not the best, some of the dream path dao marks were consumed. When processing immortal materials, I can try other methods to see if there is a better way."

While he was refining Gu, Sixth Hair sent another letter.

Using Lang Ya blessed land, Sixth Hair was already the middleman between Fang Yuan and Purple Mountain True Monarch.

In the letter, Purple Mountain True Monarch did not give in, he said bluntly: If Fang Yuan wanted to control attitude Gu, he would need to cooperate first. As long as they worked together, attitude Gu would be his. This time, Shadow Sect even mentioned the sovereign immortal aperture's drawback, as for what it was, they did not say it.

"Rank eight Gu Immortals are truly hard to deal with."

"Drawback? Is Shadow Sect lying, or is it true?"

This information had a huge impact on Fang Yuan.

But soon, he calmed down.

He had gone through many difficulties, this scheme or threat was nothing to him.

“It seems I can only work hard myself.”

Fang Yuan sent a letter, he bargained and continued negotiating with Shadow Sect.

But he had already realized that Shadow Sect would not give attitude Gu to him before cooperating.

Fang Yuan started to design a new immortal killer move.

He wanted to use this immortal killer move to refine attitude Gu.

He was soon met with a problem, the reason was that even though he had many Immortal Gu, they were not suitable for this purpose.

It was not like the creation of reverse flow protection seal.

Fang Yuan had pulling water Immortal Gu and perseverance Immortal Gu, they were suitable as the two cores of this immortal killer move.

But now, Fang Yuan’s other Immortal Gu were not especially useful for refining attitude Gu, they had limited connection to it and a lot of mortal Gu were needed.

“If only there is a chance to trade Gu.”

This thought appeared in Fang Yuan’s mind and rooted itself deeply.

Trading Immortal Gu!

Fang Yuan had too many Immortal Gu now, it was shocking.

But in fact, a portion of the Immortal Gu were not suitable for him, or rather, they did not have much use for the time being.

Wisdom Sword, Years Flow Like Water, even though they were not usable now, they were rank eight, Fang Yuan would not exchange them.

Fang Yuan did not have many sword path dao marks, his sword path attainment level was ordinary as well, but Sword Eyebrows, Wave Sword, and Sword Escape, these sword path Immortal Gu sustained a portion of his battle strength, he could not lose them.

Looking over the situation, change soul Immortal Gu could be traded.

Woman’s Heart was poison path, it had little use as well.

Flying bear strength Immortal Gu was strength path, but Fang Yuan used ancient sword dragon transformation, this Immortal Gu was not useful.

There was also bone spike Immortal Gu, it was completely irrelevant to Fang Yuan’s current circumstances.

Perceivable dao Immortal Gu could inspect dao marks, it had a mystical use, but to Fang Yuan, it was not very useful, he had to weigh up its value later.

All in all, Woman's Heart, Flying Bear Strength, and Bone Spike, these three Immortal Gu had little use to Fang Yuan, if they could be traded for other Immortal Gu, that would be best.

But trading Gu, how difficult was that?

During the five regions chaotic war, it was very common. But now, there were few opportunities for Gu Immortals to undergo high end trading sessions.

This way, Fang Yuan continued to travel and stop.

He wanted to go faster, but it was too difficult.

Along the way, when placing his immortal aperture, he refined dream path mortal Gu and deduced immortal killer moves, attempting to refine attitude Gu to make it his own.

This time, as Fang Yuan stored his immortal aperture and prepared to set off, his expression suddenly changed, he noticed traces of Gu Immortals fighting.

#### **Chapter 1294: Reappearance of Chu Ying**

"We're finally past the regional wall." Ying Wu Xie let out a breath of air, looking at the sea, he felt mentally fatigued.

Hei Lou Lan and Bai Ning Bing, who were beside him, were in no better condition.

After leaving Northern Plains, Shadow Sect's group left for Eastern Sea. They did not have the sovereign immortal body, each time they passed the regional wall, it was a huge test.

Thankfully, they were all powerful and were elites among Gu Immortals. Even though their immortal apertures were damaged, they did not die.

They were not leaving urgently.

After entering Eastern Sea, they chose a random island.

On this nameless island, Ying Wu Xie directed Bai Ning Bing and Hei Lou Lan to start arranging a refinement path Gu formation.

The Gu formation succeeded in activation, Ying Wu Xie came to the center and took out the purple gold rock, processing this immortal material.

As for Bai Ning Bing and Hei Lou Lan, they were outside the Gu formation, standing to defend against any intruders.

Not long after, the purple gold rock melted as the miniman Gu Immortal, Purple Mountain, True Monarch woke up again.

He was a rank eight Gu Immortal, if he wanted to cross the five regions, he would normally have to use black heaven or white heaven. But now, the parts of black heaven and white heaven above Northern Plains were influenced by Luck Suppression Heavenly Palace, it was controlled by Longevity Heaven.

Shadow Sect's group were not going to enter a trap. The outcome of Central Continent's Gu Immortals were displayed to them.

Shadow Sect had deep foundation, Purple Mountain True Monarch went into hibernation again as a purple gold rock formed around his body.

His aura was completely concealed, his vitality was indiscernible, he was just like a dead object.

Using such incredible methods, Ying Wu Xie brought Purple Mountain True Monarch through the regional walls and arrived in Eastern Sea.

The thin layer of purple gold rock was easily refined by Ying Wu Xie, who had the right method, it was way easier than the time when Lady Wan Shou had to process it.

"Eastern Sea..." Purple Mountain True Monarch woke up and sighed as he looked at the vast sea area.

Under his lead, Shadow Sect's group first dismantled the Gu formation and stored its components, wiping all traces of it.

Then, the four Gu Immortals started to use the ancient battle formation Omni-directional Travel.

A moment later, they arrived in the turbulent flow sea area.

Purple Mountain True Monarch led the way, none of the sea currents could pose as obstacles.

Soon, Shadow Sect's group arrived at the center of the turbulent flow sea area.

"Hmm? Where is the tributary of the River of Time?" Unable to find the thing they needed, Ying Wu Xie asked this in confusion.

"Don't tell me this tributary of the River of Time is already gone, it is at the fringe of the turbulent flows?" Hei Lou Lan guessed.

After some investigation, Purple Mountain True Monarch found some clues.

"That tributary of the River of Time has been taken away by someone." He said grimly.

"How can that be? Who did it? Is it Fang Yuan?" Ying Wu Xie first thought of Fang Yuan.

But Purple Mountain True Monarch shook his head: "This method should not be his. It is someone else, forget about it. Since we cannot use this tributary of the River of Time, we will go to the next location, there is a tributary of the River of Time there too."

Shadow Sect's group left the turbulent flow sea area again.

Elsewhere in Eastern Sea.

There was a vast sea and sky.

Above the sea, a life and death battle was unfolding.

“Quickly leave, I was hit by his lightning soul needle, he can sense my location, I cannot escape, I cannot implicate you.” Immortal Hua Die lay in a man’s arms, speaking weakly.

This woman was dressed in a raiment, her sleeves were fluttering, she wore light pink. Her eyes were showing signs of weakness, blood was flowing out of the corner of her mouth, her injuries were severe.

Especially on her skin, there were tiny sparks shining at times, it was the sign of the immortal killer move lightning soul needle’s effect.

“No.” The male Gu Immortal rejected unhesitantly.

He had broad shoulders and a thin waist, he wore a suit of battle armor, and even though he was covered in injuries, his valiance could not be concealed.

“How can I abandon you? If I escape now, how can I face Lord Miao Ming Shen?” Even though he said that, when he looked towards Immortal Hua Die, there was love in his eyes.

He was Feng Jiang.

Feng Jiang, Immortal Hua Die, Gui Qi Ye, these three were subordinates of the Eastern Sea space path expert Miao Ming Shen.

Miao Ming Shen wanted to find a tributary of the River of Time in the turbulent flow sea area, thus these three Gu Immortals would take turns to guard the turbulent flow sea area. When they saw any Gu Immortals approaching the turbulent flow sea area, they would talk to them and ask for their help.

“Then you lovebirds can die together!” There was only one person in pursuit, he had rank seven cultivation level.

He was named Ge Wen, he wore a blue robe and had tough, dry skin, like tree bark. His eyes were shining with red light, his teeth were sharp, he had a sinister expression.

This person was quite a senior and had some reputation in Eastern Sea.

He was a lightning path grandmaster, but once when he was using an immortal killer move, he failed and suffered a backlash, leading to him having no choice but to become an immortal zombie.

Even so, he had outstanding battle strength, he possessed two Immortal Gu, the rank six Immortal Hua Die and Feng Jiang were forced to flee.

“Hand over the year cycle powder, you two are quite daring to snatch my immortal material. If you hand it over, I might leave you a proper corpse!” Ge Wen chuckled as he approached with overwhelming demonic aura.

Immortal Hua Die was anxious: “We found this year cycle powder first, how can it be yours?”

“I have been here for half a month already, but the moment I looked away, you two took it!” Ge Wen growled.

Immortal Hua Die was incensed: “Lord Miao Ming Shen found this year cycle powder three years ago and set a Gu formation here. Once every few months, I would come there and take care of it. No matter how you distort the facts, you cannot change them.”

Immortal Hua Die said the truth, Ge Wen stopped denying it, his expression turned grim: "Hmph, you have a sharp tongue, you will be the first one I kill."

"Demonic scoundrel, don't be cocky!"

At this moment, there was a clear voice that resounded in their ears.

"Who?" Ge Wen's expression changed, he shouted.

The moment he said that, the sea level rose up like a small mound.

Next, from within the 'mound', a fierce beast charged out, causing winds to blow and water to splatter.

A blue scaled sea dragon appeared before the three immortals, speaking: "Demon, hand over your life!"

The three immortals saw this and understood that this blue scaled sea dragon was a Gu Immortal's transformation.

Immortal Hua Die and Feng Jiang were happy and shocked.

Ge Wen was furious: "Why are you a busybody! Take my killer move."

Saying this, he breathed in deeply, spitting at his right palm.

He did not spit out saliva, of course, it was an egg-sized flash of lightning.

The lightning entered Ge Wen's right palm and exploded into a beam of lightning that shot out from his palm.

The blue scaled sea dragon did not dodge, it opened its mouth towards the approaching beam of lightning.

Dragon's breath!

Ge Wen saw this and laughed in his mind: "My move can last for several minutes, while dragon breath needs to be used breath by breath, how can he last?"

But the blue scaled sea dragon's breath did not end!

The dragon's breath was like a beam of water colliding with the beam of lightning, next, the powerful dragon breath smashed through the lightning pillar.

In a few breath's time, it got to Ge Wen.

"How can this be? What dragon breath is this?!" Ge Wen showed disbelief and shock on his face.

He quickly dodged.

But the blue scaled sea dragon turned around and its dragon breath continued to sweep the battlefield.

Ge Wen frowned deeply, grunting: "You guys are lucky, I will spare you this time!"

Saying this, he retreated, turning into a flash of lightning with incredible speed.

The blue scaled sea dragon did not give chase, it watched as Ge Wen left.

“He wants to return to the Gu formation, a lot of the year cycle powder is left.” Immortal Hua Die pointed out Ge Wen’s plan.

Feng Jiang placed Immortal Hua Die down and cupped his fists at the blue scaled sea dragon: “Virtuous friend, you defeated the powerful foe, we will not forget the gratitude of saving our lives. I would like to know your esteemed name!”

The blue scaled sea dragon suddenly transformed into an ordinary looking Gu Immortal, he smiled: “I am Chu Ying, Fairy Hua Die, have you been well?”

Immortal Hua Die was surprised and joyful: “To think that you are Chu Ying!”

Seeing Feng Jiang’s gaze, Immortal Hua Die explained: “It was thanks to Chu Ying that we found that tributary of the River of Time in the turbulent flow sea area. He was the reason Lord Miao Ming Shen could take away that tributary of the River of Time.”

### **Chapter 1295: Eastern Sea Trading Convention**

“So there was such a connection!” Hearing Immortal Hua Die’s words, Feng Jiang’s expression turned to joy, his suspicions were dispelled.

This Chu Ying was naturally Fang Yuan in disguise.

After he stored his immortal aperture, he found that there were traces of Gu Immortals fighting in the sea areas around him.

Out of curiosity, he followed the traces and wanted to see if there were some gains for him. In the end, he found that Immortal Hua Die and another person (Feng Jiang) were being pursued by an enemy.

And the pursuer was a rank seven immortal zombie. At this point, such a person was a weakling to Fang Yuan.

Fang Yuan had helped Immortal Hua Die some time ago, he wanted to get in contact with the space path Gu Immortal expert, Miao Ming Shen, who was behind Immortal Hua Die.

This person knew of a method to enter and explore the blue dragon whale.

And this blue dragon whale was not ordinary either, it was nurtured by Paradise Earth Immortal Venerable and awakened its immortal aperture, it possessed a huge treasury.

It was like the dog tail life extending ferret Mao Li Qiu of Northern Plains.

But the blue dragon whale’s wisdom was not enhanced, it could only swim freely in the ocean according to its instincts.

Not only did Paradise Earth Immortal Venerable awaken its immortal aperture, he also used an immortal killer move on its body. Thus, this blue dragon whale had almost no predators or dangers.

The blue dragon whale was mild in temperament and posed no danger, but its defensive power rendered all of those who wanted to harm it helpless.

This was the style of Paradise Earth Immortal Venerable.

According to a secret rumor in the five hundred years of his previous life, Paradise Earth Immortal Venerable had left a true inheritance in the blue dragon whale's body.

Fang Yuan remembered that Miao Ming Shen had explored the world inside the blue dragon whale many times. However, even though he had gains each time, he did not obtain the true inheritance from start to finish.

Fang Yuan naturally cared about this. Thus, when he saw Immortal Hua Die being pursued, he realized that this was a rare chance, he could express goodwill to Miao Ming Shen again.

Thus, he intervened and chased the lightning path immortal zombie Ge Wen away.

He did not transform into an ancient sword dragon.

The ancient sword dragon form could not be used openly now.

Because Liu Guan Yi had used it to kill Ye Lui Qun Xing in Northern Plains.

Right now, Liu Guan Yi was the Reverse Flow River Lord that was able to go unscathed against rank eights. His reputation was renowned all over the world, almost everyone knew of him.

Countless people were interested in Liu Guan Yi, they tried to deduce his origins.

The fact that Liu Guan Yi possessed an ancient sword dragon transformation was known to all.

Thus, once Fang Yuan used the ancient sword dragon transformation, other Gu Immortals would immediately think of Liu Guan Yi.

This was the burden of reputation.

Even though Fang Yuan could not use ancient sword dragon transformation, he had change form Immortal Gu, he could turn into countless things in this world at will.

Thus, he transformed into the blue scaled sea dragon that was exclusive to Eastern Sea.

This was also an ancient desolate beast.

But its might could not rival the ancient sword dragon.

However, Fang Yuan's dragon breath Immortal Gu could still be used.

Worth mentioning was that the dragon breath of the blue scaled sea dragon was also used breath by breath. Earlier, he could defeat the lightning path immortal zombie Ge Wen because Fang Yuan had used perseverance Immortal Gu at the same time.

Rank seven perseverance Immortal Gu, after obtaining it, Fang Yuan had tried to learn more about its ability.

Gu Immortals nurture, use, and refine, these three aspects needed a lot of time and investment.

After being in Eastern Sea for several days, Fang Yuan had already understood some of the uses of perseverance Immortal Gu.

Other than conquering Reverse Flow River, perseverance Immortal Gu could allow other Immortal Gu or immortal killer moves to last for a longer time.

For example, the blue scaled sea dragon's breath.

If Fang Yuan used dragon breath Immortal Gu solely, it could not break away from the normal limits of dragon breath, it would be used breath by breath, it could only be increased in strength.

But if he used perseverance Immortal Gu along with the dragon breath, then the dragon breath would be used for a long time without stopping!

Of course, he could not sustain it for too long. Dragon breath had a huge burden on the throat, even real blue scaled sea dragons breathed it out breath by breath. This was the self-defense mechanism of lifeforms after a long process of evolution.

Thankfully, although that Ge Wen had some fame, he retreated wisely after a short battle with Fang Yuan, realizing that he was a strong opponent.

After all, demonic path Gu Immortals focused on profits.

"This friend is?" Fang Yuan looked at Immortal Hua Die.

"I am one of Lord Miao Ming Shen's subordinates, Feng Jiang. Lord Chu, you are my savior, I wonder how I can thank you." Feng Jiang immediately introduced himself, it was very passionate and filled with gratitude towards Fang Yuan.

"No need to thank me, it was just a helping hand. I met you two coincidentally, thus I stepped in. Even though I am a secluded cultivator in Eastern Sea, I have been moving around recently, I cannot stand these demonic acts. I have this personality, and because Fairy Hua Die is an acquaintance, I had no reason not to help." Fang Yuan was very humble.

Immortal Hua Die and Feng Jiang heard these words and felt closer to Fang Yuan.

The three immortals talked for a while as Immortal Hua Die sighed: "It is a pity. There was so much year cycle powder, they are mostly in Ge Wen's hands now. Our efforts have been in vain. We should have made that Gu formation even more hidden."

Feng Jiang consoled: "Alright, Little Die, don't blame yourself. Eastern Sea is so big, but Ge Wen found this Gu formation so coincidentally. We are not skilled in formation path, this Gu formation is already the best that can be done. If we hide it even more deeply, we will need Immortal Gu."

Fang Yuan smiled: "I have something to say, even though the year cycle powder is lost, your lives are preserved, this is hope. Don't be disheartened, there are losses and gains in life, aren't our lives just a cycle of losing and winning anyway?"

Feng Jiang laughed: "Lord Chu speaks deeply, this is truly insightful."

Immortal Hua Die's brows were locked, she was sorrowful: "I understand this too, and at a different time, so be it if this year cycle powder was lost. But right now, Lord Miao Ming Shen is attending a trading convention, one of his Gu Immortal friends need this. Lord Miao Ming Shen has already agreed

to his request, there are only a few days left until the convention, but the year cycle powder was taken away, what should we do?"

Hearing this, Feng Jiang's expression sank: "That's right, we are going to return empty handed. Even if Lord Miao Ming Shen does not blame us, we will be at fault, we failed in our task. And most importantly, we will cause Lord Miao Ming Shen's reputation to suffer, this is our fault!"

"Trading convention?" Fang Yuan was moved.

Earlier, he was thinking about trading away some of the unsuitable Immortal Gu that he had.

To think that this would come in such a timely manner, he actually encountered one of Eastern Sea's trading conventions.

Eastern Sea was the most abundant in resources out of the five regions, even Central Continent could not match it.

Eastern Sea Gu Immortals were usually more affluent.

This resulted in Eastern Sea's trading conventions to be very famous in the five regions, they involved high-end items and often, Gu Immortals would exchange Immortal Gu with each other.

Of course, this was not to say that the other four regions had no trading conventions. But they were too few of them, Fang Yuan could not join them either.

Only Eastern Sea's trading conventions served as his opportunity.

"I have Immortal Gu that I want to trade away, is it possible for me to join this trading convention?" Fang Yuan did not hide his intention, he asked directly.

Immortal Hua Die and Feng Jiang looked at each other, the former said: "This trading convention is very high class, we are not qualified to join it, nor do we have the rights to recommend others. But Lord Chu Ying is different, you are our benefactor. How about this, can you follow us to meet with our lord, and see what he says?"

"Alright." Fang Yuan nodded: "Shall we set off now?"

He was very rushed.

Because time was limited.

Dark Limit's power was dwindling as other Gu Immortals deduced matters about him.

Immortal Hua Die and Feng Jiang were a little hesitant, their mission to collect the year cycle powder had failed, they actually wanted Fang Yuan to help them take back the year cycle powder, but they could not ask it outright.

Actually, Fang Yuan was aware about their intentions, but during their conversation, he held the initiative of the topic and did not give them any chance to ask.

Right now, even though Fang Yuan could go unscathed against rank eight Gu Immortals.

There was a flaw, it could not be used openly.

Be it ancient sword dragon transformation or reverse flow protection seal, they could not be easily used. Once he did, he would have to consider how to keep them a secret.

If too many traces were leaked out, Fang Yuan's identities and secrets might get deduced.

By then, Wu Yi Hai's identity would be exposed too.

Fang Yuan had gone through so much to enter the super Gu formation and interact with the giant dream realm. If he lost this opportunity, it would be a terrible setback to his future cultivation.

Immortal Hua Die and Feng Jiang had no choice, they could only bring Fang Yuan away from here.

They really had no courage to ask him.

He had saved their lives, but they still wanted their benefactor to fight against a strong foe. They really had no face to ask him to do that.

The three immortals moved quickly without stopping.

But along the way, they talked and conversed a lot.

As a matter of fact, Immortal Hua Die had seen Fang Yuan twice and had a deep impression of him, but she was unclear about the background of this Chu Ying.

Fang Yuan knew about her intention to probe him, thus he gave her half-truths about his origin.

In the five hundred years of his previous life, he had stayed in Eastern Sea for some time. Thus, his words were not lies. Especially some small details and experiences that he had, they were realistic, these experiences resonated deeply with Immortal Hua Die and Feng Jiang.

How could Fang Yuan show a flaw here?

By the time they met Miao Ming Shen, Immortal Hua Die and Feng Jiang already had very good feelings towards this 'easygoing' rank seven secluded cultivator, Chu Ying.

But they did not know that Fang Yuan was the true demon. Compared to him, what was immortal zombie Ge Wen's act of snatching some year cycle powder?

Not long ago, Fang Yuan had taken Reverse Flow River directly from Old Ancestor Xue Hu!

## **Chapter 1296: Light Shine Fungi**

Eastern Sea.

In an ordinary sea area, there was a nameless mountain, it was desolate and barren, there were only rocks and caves in it.

Several Gu Immortals descended from the sky.

Among them were Fang Yuan, Immortal Hua Die and Feng Jiang.

“To think that this trading convention would be held on such an empty island.” Fang Yuan stepped on the island as he sighed to himself.

“Brother Chu, you might be unaware that large trading conventions like this usually have their locations decided several days before the meeting, to prevent others from having ill intentions.” A Gu Immortal beside Fang Yuan said.

This male Gu Immortal was neither tall nor short, neither fat nor thin. In terms of appearance, he looked ordinary, only his flat and wide nose left a heavy impression on others.

This person was a famous rank seven space path Gu Immortal expert in Eastern Sea — Miao Ming Shen.

In terms of appearance, he was not outstanding, but after Fang Yuan interacted with him, even though it was a short time, he could feel that this person was impressive, his appearance was deceiving.

Fang Yuan had saved Immortal Hua Die and Feng Jiang under the identity of Chu Ying, learning about the trading convention.

Next, he followed Immortal Hua Die and Feng Jiang to meet Miao Ming Shen.

Miao Ming Shen had no hesitation as he agreed to Fang Yuan’s request of joining the trading convention: “Friend, you have helped me twice, you are also the benefactor of Little Die and Little Feng. This is just a trading convention, how can I reject you? Please do grace us with your presence!”

He was a rank seven Gu Immortal expert, but Chu Ying was a secluded cultivator with no reputation. Yet Miao Ming Shen did not put on airs, he was very amiable. He spoke politely and warmly to others.

Thus, Fang Yuan and Miao Ming Shen came to attend the trading convention.

The four of them had just stepped onto the island when a Gu Immortal came out of a rock.

“Miao Ming Shen, you are here.” A midget Gu Immortal with a big head and small body welcomed them.

“Haha, Tu Tou Tuo, long time no see!” Miao Ming Shen said warmly, he laughed as he quickly went up to the person.

“Come, let me introduce the two of you. This is a secluded cultivator of Eastern Sea, Chu Ying, this is a rare earth path grandmaster in Eastern Sea, Tu Tou Tuo.” Miao Ming Shen said.

“Greetings to you.” Fang Yuan was polite but his expression was stiff, he pretended to be a secluded cultivator who was not good at interacting with people, it was flawless.

Tu Tou Tuo looked at Fang Yuan with several glances, he smiled with his yellow teeth: “You received Miao Ming Shen’s recommendation and are here for the first time? Haha, in the past, I also joined in after Miao Ming Shen’s recommendation.”

Tu Tou Tuo was also quite polite.

He thought: “Miao Ming Shen has good foresight, the people he invites are all talented experts. This Chu Ying looks unassuming and has no reputation, but since he has Miao Ming Shen’s recommendation, he is not simple.”

While thinking of that, Tu Tou Tuo said: "Follow me, I was the first to arrive, there is nothing much to do but wait now, we can create a space underground first."

"I will trouble Brother Tu. After all, this time, I am the host of the trading convention..." Miao Ming Shen said courteously.

"Haha, it is just an underground cave, it is nothing much. Come!" Tu Tou Tuo looked at Miao Ming Shen like an old friend, he grabbed his arm and led him underground.

Everywhere he went, the tough ground melted like flowing water, opening a wide path that extended underground.

Tu Tou Tuo and Miao Ming Shen walked ahead while Fang Yuan, Feng Jiang and Immortal Hua Die walked behind them.

Tu Tou Tuo and Miao Ming Shen talked along the way.

Miao Ming Shen had incredible interpersonal skills, Tu Tou Tuo was laughing as he talked, his laughter was reverberating in the cave.

Furthermore, Miao Ming Shen did not give the cold shoulder to Fang Yuan, he turned around to talk to Fang Yuan.

His words seemed ordinary, but they felt natural and did not make Fang Yuan feel like he was alone, or that he was neglected.

The underground cave was very ordinary, but it was wide enough.

There was a platform, and several chairs in front of it, they were huge. There were carvings on the chairs, they were fluid patterns. This showed Tu Tou Tuo's incredible skills, and the meticulous aspect that he had.

Fang Yuan counted, there were six chairs.

"It seems that this trading convention only had six people originally. Immortal Hua Die and Feng Jiang are not part of this, they will leave when the trading convention starts and guard the area." Fang Yuan guessed.

"There is a new member, I will add a chair." Tu Tou Tuo stomped lightly as a mound appeared on the ground, it started to rotate like a ball.

In the blink of an eye, a chair was carved out like it was made by an artisan.

Fang Yuan and the rest sat down while waiting for the other immortals.

Not long later, two Gu Immortals appeared.

The former was a girl, she looked like a child with two ponytail braids, her eyes were round and watery, but there was deep maturity in them.

She was Tong Hua.

A rank seven light path Gu Immortal famous in the north of Eastern Sea.

The latter was a male immortal. He had an aquiline nose, his gaze was dark and he wore a black robe, having messy hair.

He was Wu Ma Yang, a dark path Gu Immortal, having exemplary battle strength among rank seven Gu Immortals. His immortal killer move, dark arrow veil, had once defeated three rank seven Gu Immortals working together, this battle caused his reputation to surge in Eastern Sea for some time.

Tong Hua talked a lot, while Wu Ma Yang was uncommunicative.

The two sides continued to mingle, and under Miao Ming Shen's intentional guidance, the atmosphere became congenial.

Fifteen minutes later, a third Gu Immortal entered this space.

He was Gong Liang Bai, a wisdom path Gu Immortal who also cultivated wood path. Wisdom path was his main focus, but wisdom path Gu Immortals were few in numbers, especially those like Fang Yuan who possessed a complete wisdom path Gu Immortal true inheritance.

However, not only did Gong Liang Bai have a complete wisdom path true inheritance, he even had some achievements in his cultivation, even though he could not match the top three wisdom path experts, among lone immortals, he had a huge network and was willing to deduce for people in exchange for payment.

The saying goes: Jia Dan sits in twin polar, Hua An hides in Nan Gong, there is also Dragon Head Tortoise, living inside adversity sea.

This saying refers to the publicly recognized three most powerful wisdom path Gu Immortals in Eastern Sea currently.

Song Jia Dan, Hua An, they were righteous path members, they rarely deduced for lone immortals. And Dragon Head Tortoise was always inside adversity sea, his traces were hard to find, it was hard for people to seek help from him.

"Gong Liang Bai, after these trades, let's have a good talk. I have some things for you to deduce." While talking, Miao Ming Shen said.

"Is it that Liu Guan Yi? I have received many requests from others, they are all after this person." Gong Liang Bai said.

"Of course not." Miao Ming Shen denied.

Gong Liang Bai nodded: "Then that is fine. Speaking of which, I have already made five deductions, I failed each time. There are simply too few clues, and that Liu Guan Yi has methods to defend against deductions."

Fang Yuan listened by the side, his expression did not change, though he felt a little awkward.

This topic attracted everyone's attention.

Tu Tou Tuo shouted: "This Liu Guan Yi is so popular now, he is completely famous!"

“Anyone who can render rank eight Gu Immortals unable to deal with them as a rank seven will go down in history.” Tong Hua sighed.

“Resisting rank eight with rank seven cultivation level, this is truly a goal to set.” Miao Ming Shen smiled bitterly: “It is a pity that I’ve had no opportunity to befriend such a person.”

Fang Yuan was sitting right beside him, hearing this, he said expressionlessly: “I heard that Liu Guan Yi could resist rank eights as a rank seven because he became the Reverse Flow River Lord. This Reverse Flow River is a secluded domain of heaven and earth, but how can it be so powerful as to leave rank eight existences without options?”

Thus, the immortals’ topic of discussion turned from Liu Guan Yi to Reverse Flow River.

Fang Yuan had subtly changed the conversation’s direction.

The Gu Immortals talked until night time.

When night appeared and the moon rose, the trading convention began.

The other two Gu Immortals also had arrived.

The trading convention officially began.

According to the rules set earlier, Tong Hua stood on the platform.

“This is a desolate plant, I found it when exploring a deep sea. That place was dark as an abyss, but I saw some light far away. When I found the source, I took several minutes to reach it. The place was like a paradise of light path. It was so dazzling with rays of light extending immeasurably far.”

“Initially, I thought that it was light from the corals. But soon, I found some green fungus on the surface of the corals. This green fungus is a desolate plant seen all over that place, I named it light shine fungus, it contains light path dao marks and can emit strong light.”

Tong Hua talked about her findings, and the process of her naming.

Fang Yuan was surprised, to think that he found something he wanted when the trading convention had just started.

Light shine fungi!

### **Chapter 1297: Divination Tortoise Shell Immortal Gu**

Fang Yuan needed light.

He had first used aurora light, he had bought large numbers of dazzling light Gu to increase the aurora light in his immortal aperture. The more intense the aurora light, the more flowing light fruits could be formed. And rank eight attitude Gu fed on these fruits.

Light shine fungus was a type of desolate plant that provided light which was not like the multicolored aurora light.

But this was not absolute.

Humans had the highest intelligence, they were most skilled in adapting flexibly. There were methods to modify and graft plants in this world.

Wood path Gu Immortals excelled at this.

Each path has its own specialties, and wood path Gu Immortals were often skilled at managing immortal apertures.

Thus, if Fang Yuan brought in light shine fungi, he might be able to modify them in the future using wood path methods into aurora light shine fungi, it was possible.

Other than attitude Gu, there was wisdom sword Immortal Gu.

Wisdom sword Immortal Gu fed on multicolored overlord flowers.

If Fang Yuan wanted to plant multicolored overlord flowers on a large scale, he needed to fulfill three conditions. Illumination, sweet scents and pearl soil.

The latter two were easy to achieve, but illumination was hard.

Fang Yuan's immortal aperture had light path dao marks, and he had also annexed a light path blessed land, but it was far from Fang Yuan's goal.

If he used light shine fungi, he would be able to solve the problem of mass production of multicolored overlord flowers.

But there was an uncertainty in this.

Light shine fungi grew in the deep sea, could they still survive in other environments?

"This should not be a problem, after all, light shine fungus is a desolate plant."

"Even ignoring aurora lights, earlier, I plundered Liu tribe's jade light pit, I gained a lot of replenishment. Even though I am still not at the required standard, I am close."

"But multicolored overlord flowers are different, their scale is far from optimal. I have too few light path dao marks currently, and not all of my light path dao marks can gather at the multicolored overlord flowers. My other lifeforms need light too."

"Oh, that's right, I have transformation path dao marks, in crucial moments, I can convert them to light path dao marks temporarily."

While Fang Yuan was thinking, Tong Hua spoke: "I am willing to trade these desolate plant light shine fungi for storey building water elephants, three of them."

Once she said that, a Gu Immortal responded: "Storey building water elephants... I have a few, how many storeys do you want from the water elephants?"

Storey building water elephants were a special type of beast in Eastern Sea, they had varying sizes, with white tusks and blue skin. Water elephants with one storey buildings were like boats and had blue jade

exoskeleton on their backs resembling buildings. Two storey building water elephants were larger, with two floors of blue jade exoskeleton on their backs.

Similarly, six storey building water elephants had wide backs and were like huge boats, they were desolate beasts. Seven storey building water elephants were ancient desolate beasts, and eight storey building water elephants were immemorial desolate beasts, they were extremely rare. Nine storey building water elephants did not exist.

Be it beasts or plants, or even variant humans, there were no rank nine versions of them. Among humans, there were only ten of them, rank nine Gu Venerables, they were unique among all lifeforms.

Tong Hua showed the scale of her light shine fungi and told the Gu Immortals that she wanted a total of three six storey building water elephants.

This was not expensive, it was very standard.

But that Gu Immortal frowned: "I only have one six storey building water elephant, the light shine fungi can be split up, would you like to trade?"

Tong Hua hesitated.

He might not be speaking the truth.

After considering it, Tong Hua nodded: "Then let's trade."

Thus, the first deal was made, both sides transacted quickly.

"I would like some light shine fungi, but I do not have storey building water elephants, do you accept immortal essence stones?" Fang Yuan asked.

Tong Hua shook her head, but she did not reject him entirely: "If there are no storey building water elephants, never mind. But my light shine fungi will be sold in treasure yellow heaven, you can buy them then."

In fact, Eastern Sea had mostly water path Gu Immortals.

And light shine fungi suited Eastern Sea Gu Immortals a lot. Like Wu Yi Hai for example, his immortal aperture was a sea.

Tong Hua was only testing the waters with this new discovery, seeing if she could gain benefits from it.

As for selling them for immortal essence stones, Tong Hua did not want that.

Because she did not know the market price.

This was a new finding, she was selling it for the first time, Tong Hua did not know its value.

However, she was very expectant about it.

Thus, she rejected Fang Yuan without hesitation. What if this light shine fungus was very popular in treasure yellow heaven, then wouldn't her sale price be at a loss now?

But if she sold it for too high of a price, the other party would not trade. Treasure yellow heaven was the best place for that.

Tong Hua did not want to sell it, Fang Yuan was helpless.

But he understood her.

This was a new desolate plant, she could use some methods to raise the prices later.

Even though this world's economy was not developed, Gu Immortals were astute people, they knew how to jack up prices.

Especially this light shine fungus, in the world, currently only Tong Hua had it.

If it were Fang Yuan, he would also elevate the price at the initial stage to earn a huge profit.

This light shine fungus was just a rank six desolate plant, once it was in the market for some time, people would research about it, and Tong Hua's monopoly would be gone.

After all, Eastern Sea was so big, light shine fungi would not grow in only one place.

Gu Immortals could create a method to seek out light shine fungi after some research. That would cause the supply of light shine fungi to rise sharply.

Seeing that no one else was interested, Tong Hua stepped down.

Next, the second Gu Immortal went up onto the platform.

This was the rule of the trading convention.

In each round, the Gu Immortals would go up in order that was decided earlier. They could only put up one resource each round.

This ensured relative fairness.

As for Fang Yuan, a newly joined member, he could also transact and go on the platform, but he was the last person.

"This is marrow sucking stone, rank seven immortal material, I want some thousand year floating wood." The Gu Immortal who went up expressed himself quickly, explaining his item.

Once he said that, he displayed it.

This marrow sucking stone was black and looked like an ordinary rock by the beach. But in fact, as long as a life form that had bone marrow got close to it, they would be sucked inside.

Thus, marrow sucking stone was known as a demon stone.

Demon stone was a name coined by mermen.

Mermen were a type of variant human, most mermen in the world lived in Eastern Sea.

Mermen could live underwater and breathe, when they met marrow sucking stones, they had suffered from them, thus, they feared and called them demon stones.

In Eastern Sea's history, there were some merman tribes who treated these demon stones as deities to worship.

But to Gu Immortals, this marrow sucking stone was just an immortal material.

This transaction was successful as well.

Thousand year floating wood might be rare in the market, but the Gu Immortals here were all affluent, otherwise, they would not have gathered for this trading convention.

Birds of a feather flock together, Gu Immortals who associated with Miao Ming Shen were not simple.

One could say, this small trading convention was a rare gathering of experts in Eastern Sea.

After the second Gu Immortal, Tu Tou Tuo went up.

"I have an ancient desolate beast queen toad. It can command all huge toads at rank six level and below. If raised well, it can nurture enslavement path Immortal Gu as well. Anyone interested?"

The queen toad had a lot of enslavement path dao marks.

But Tu Tou Tuo's transaction failed.

The fourth Gu Immortal: "I am looking for clues to qi sea. Anyone know how to find qi sea and how to get in? I am willing to pay a high price for relevant information."

It was also possible to trade information, but the Gu Immortals present stayed silent.

This transaction also failed.

Qi sea was a special and mysterious sea area in Eastern Sea.

The Gu Immortals present might be unsure of it, or some might know but did not want to trade.

The Gu Immortals went up one by one.

The first round was about to end.

Fang Yuan was the final one.

And Miao Ming Shen was second last.

He went up: "I have a rank seven divination tortoise shell Immortal Gu, anyone wants to trade?"

Fang Yuan heard this and his eyes shined!

## **Chapter 1298: Trading Gu**

The trading convention was underway.

As the host of this trading convention, Miao Ming Shen originally was to be the final person to get on the stage.

But because Fang Yuan joined in, he became the last person.

Miao Ming Shen was now the second last to trade.

In this aspect, Fang Yuan could see Miao Ming Shen's great interpersonal skills.

Gu Immortals who got to trade first had the bigger advantage. Miao Ming Shen, as the final person, was expressing goodwill to everyone.

But he could not place Fang Yuan before him.

This was against the rules.

Newcomers had to be last.

If he went against this, everyone would be unhappy. After all, Miao Ming Shen was the host of this session, but what about the next?

Interpersonal skills were nothing much, it was just one's attitude when interacting with people.

Miao Ming Shen had a good grasp of this, he made the people that he interacted with feel friendly towards him.

However, Fang Yuan's mind was not on Miao Ming Shen, his gaze was shining as he looked at the Immortal Gu that Miao Ming Shen was holding —

Rank seven, divination tortoise shell Gu!

Fang Yuan was greatly enticed.

Why?

Because Fang Yuan had many methods that he could not use. Like ancient sword dragon transformation or reverse flow protection seal, if they were used, Fang Yuan had to make sure there were no survivors. Otherwise, intelligence on him would leak and Gu Immortals would be able to find out more information about him, he would be forced into a corner.

This was quite awkward, actually.

As Fang Yuan got stronger, the problems he created were getting bigger.

Shadow Sect, Heavenly Court, Longevity Heaven... looking at his opponents and enemies, all of them were colossal forces.

Recently, he even made enemies with Old Ancestor Xue Hu, the number one rank eight in Northern Plains!

Thus, Fang Yuan was facing great pressure, he had not reached rank nine.

Only after reaching rank nine would Fang Yuan be able to announce his identity openly, nobody would be able to stop him.

Before reaching rank nine, even if Fang Yuan cultivated to rank eight, Longevity Heaven and Heavenly Court could still find trouble with him.

Currently, rank seven Fang Yuan had to act with a low profile, he had to disguise himself and cultivate rapidly to accumulate strength.

“Becoming Wu Yi Hai has a weakness, or rather, I have a flaw...”

Fang Yuan could not fight when he was Wu Yi Hai.

Because he was not the real Wu Yi Hai!

After soul searching Wu Yi Hai, Fang Yuan found that Wu Yi Hai had three transformation killer moves. One was a coral form, one was a seagull form, and the third was a tortoise.

Earlier, during the battle in the regional wall, Wu Yi Hai had turned into a tortoise to defend himself.

Fang Yuan remembered clearly that it was a horned divine tortoise. An ancient desolate beast with a tough shell, it was top ten in that regard among Eastern Sea’s ancient desolate beasts.

Actually, this could be seen from Wu Yi Hai’s immortal aperture.

Wu Yi Hai’s immortal aperture was a sea. There were three types of lifeforms inside, sea turtles and tortoises with the ancient desolate beast horned divine tortoise, corals with the ancient desolate plant silent coral, and seagulls with the desolate beast white letter blue feather seagull.

As a transformation path Gu Immortal, he would often raise the species that he transformed into.

Firstly, these lifeforms were resources that could help with his transformation path cultivation. Like the horned divine tortoise that Wu Yi Hai cultivated, if he needed any Immortal Gu in the future, he could kill these horned divine tortoises to refine it.

Secondly, transformation path Gu Immortals had to have a clear understanding of these lifeforms that they transformed into to raise their battle strength. Raising them in the immortal aperture would allow them to observe the lifeforms and eventually have realistic transformations with greater battle strength.

As for Fang Yuan, this was just a method.

Fang Yuan’s transformation path attainment level was raised from dream realms and tribulations.

Once his attainment level rose, it would influence all these cultivation aspects, including this.

Thus, Fang Yuan saved a lot of trouble, he could skip a long time of observation and practice.

“If I can have this Immortal Gu, it would be very useful to me.”

Fang Yuan became more enticed as he thought about it.

The divination tortoise was a wisdom path ancient desolate beast, it had one ability, to defend against deductions. Many Gu Immortals wanted to capture this ancient desolate beast, but using wisdom path methods to deduce its location was too difficult.

If Fang Yuan became a divination tortoise, it would help him greatly when traveling.

This, he concluded that this Immortal Gu was extremely useful.

Or rather — it was too useful!

For others, rank seven divination tortoise shell Immortal Gu might be useless. After all, it could only defend one's back. But if one wanted its deduction prevention ability, it was instead not as effective as other methods.

Thus, it had little use. Furthermore, why would a Gu Immortal face deductions all the time? Was everyone Liu Guan Yi?

Fang Yuan, however, was different.

He was extremely famous in the five regions now, even his fake identity was.

Furthermore, Fang Yuan could transform into a divination tortoise and use the transformation path dao marks, it was an immortal killer move. The ability to defend against deductions would be far stronger than using divination tortoise shell Immortal Gu alone.

Fang Yuan looked around, what made him happy was that these people were not very interested in the Immortal Gu.

Transactions of Immortal Gu were only done through exchange.

This was because Immortal Gu were unique, their value could not be determined easily. The value of Immortal Gu completely depended on the person. The same Immortal Gu could be a burden to someone, after all, the price of feeding Immortal Gu was huge, but to others, they would pursue it relentlessly, they would treat it like a treasure if they got it.

"Immortal Gu."

"To think that he is trading Immortal Gu in the first round."

The Gu Immortals sighed, they spoke softly, but they stayed on their seats, not moving.

Miao Ming Shen smiled.

He had anticipated this.

They were few transformation path Gu Immortals, among those present, Chu Ying was the only one. And even Chu Ying might not be very interested in this Immortal Gu.

Transformation path Gu Immortals usually cultivated two or three transformations, too many was pointless. Unless they had the essence of transformation path — change form Immortal Gu, it could allow them to turn into any form.

But Miao Ming Shen had his intentions in doing this.

He was the host of this trading convention. If news that an Immortal Gu trade had occurred in the first round got out, it would elevate the status of this trading convention, it would attract more Gu Immortals with greater wealth here.

"I am willing to trade for this Immortal Gu." Fang Yuan stood up from his seat.

At once, the Gu Immortals looked towards Fang Yuan with surprised expressions.

Miao Ming Shen was slightly dazed, before reacting and smiling even wider now.

“I wonder what you would like to trade for?” Fang Yuan asked.

Miao Ming Shen chuckled: “Chu Ying, this is your first trading convention, and you are my benefactor. How about this... I do not have much use for this Immortal Gu, we can trade anything.”

This time, Fang Yuan was dazed, he did not expect Miao Ming Shen to list such an easy condition.

But even so, Immortal Gu transactions could only be done with Immortal Gu, other things were not usable.

Fang Yuan thought about it: “I have flying bear strength Immortal Gu...”

“Deal.” Before Fang Yuan finished his words, Miao Ming Shen agreed without hesitation.

Fang Yuan could not help but look at Miao Ming Shen, realizing why this person was doing so well in Eastern Sea’s Gu Immortal world. He was a lone immortal, but he actually had several Gu Immortals that were so loyal to him!

But some things had to be stated clearly.

He smiled bitterly: “Friend, I am in admiration towards your intentions, but I have not finished my words, my flying bear strength Immortal Gu is only rank six.”

Miao Ming Shen’s expression changed.

The other immortals’ expressions also turned grim, they looked at Fang Yuan with dark gazes.

Flying Bear Strength was a strength path Immortal Gu, while divination tortoise shell Immortal Gu was transformation path.

Strength path was declining, but transformation path was still popular and strong. Between the two, flying bear strength Immortal Gu was already less valuable than divination tortoise shell Immortal Gu.

And now, Flying Bear Strength was only rank six.

How could a rank six Immortal Gu and rank seven Immortal Gu be traded?

The value was completely different.

### **Chapter 1299: Another Trade**

The difficulty of refining one rank six Immortal Gu was very different from refining a rank seven Immortal Gu.

Fang Yuan wanted to use rank six flying bear strength Immortal Gu to exchange for rank seven divination tortoise shell Immortal Gu, if spoken nicely, he was dreaming, but to be blunt, he was simply too greedy, he was trying to take advantage.

This ‘taking advantage’ also gave a feeling of disdain.

Who did he think Miao Ming Shen was?

Was he easy to bully?

Or did he think the others were fools?

Thus, the Gu Immortals having grim expressions was understandable.

Fang Yuan smiled.

He saw these immortals' attitude and expressions, he knew why these people had a change of emotion.

But he still asked: "Will you exchange it?"

Miao Ming Shen smiled forcefully, but he nodded: "Yes! You have helped me twice, these will suffice."

The other Gu Immortals heard this and looked at Miao Ming Shen in a different light, their disdain towards Fang Yuan increased.

One of them even snorted coldly, expressing his unhappiness towards Fang Yuan.

Fang Yuan suddenly laughed.

He said: "Everyone has said how incredible Lord Miao Ming Shen is, I was disbelieving, but after today, I completely agree. How can I take advantage of you? I will compensate you with something else, you will definitely be pleased!"

Saying this, Fang Yuan transmitted to Miao Ming Shen secretly.

Miao Ming Shen heard this and his expression changed, he became excited: "Chu Ying, are you serious?"

"Hahaha, let's do the deal now, you will know if it's true or false." Fang Yuan laughed again.

"Sorry, we need to do this transaction alone." Miao Ming Shen said as Fang Yuan followed him to leave the cave.

They went outside for the transaction, afterwards, the two returned with smiles on their faces.

Fang Yuan was relaxed, while Miao Ming Shen was smiling in a pleased manner.

The two were walking together closely, everyone could tell that their relationship had gotten closer.

After sitting down, Miao Ming Shen cupped his fists at Fang Yuan: "I owe you a third favor."

"Your demeanor is truly magnificent. This is merely a transaction, there is no favor." Fang Yuan was very polite.

These words made the Gu Immortals very perplexed.

At once, they started guessing: What did Chu Ying trade to make up for the difference, and make Miao Ming Shen so happy?

Miao Ming Shen sat down but Fang Yuan did not.

After this transaction, it was Fang Yuan's turn, he went on the platform.

The immortals looking at him had different gazes now, they were solemn and curious, with probing intentions.

At the same time, they were curious about what Fang Yuan was going to offer.

This was because they did not know Fang Yuan, he was a stranger.

According to Fang Yuan's offer, they would be able to guess some information about him. Like what immortal materials he had in abundance, they were often produced in their own blessed lands. This way, some intelligence could be deduced, like how developed Fang Yuan's immortal aperture was, and what types of dao marks he had inside.

If it were one or two damaged ancient desolate beast corpses, they were often the Gu Immortal's spoils of battle. If an ancient desolate beast reared in the immortal aperture died, the corpse would not be damaged. Such corpses would allow the immortals to assess Fang Yuan's battle strength as well.

Gu Immortals focused heavily on gathering intelligence.

On this aspect, information path Gu Immortals had the greatest advantage.

But what Fang Yuan took out shocked them.

"Everyone, take a look, this is a bone path rank six Immortal Gu, Bone Spike. I obtained it by chance, but I am not a bone path Gu Immortal, I want to trade with it, does anyone want this? As for what I want in return, I am like Lord Miao Ming Shen, I have no specific preference." Fang Yuan smiled.

"An Immortal Gu again."

"This is the first round, there are actually two Immortal Gu transactions."

"This Chu Ying is quite rich, he is a transformation path Gu Immortal but he had two Immortal Gu of other paths."

"The first transaction is done, but this one might not succeed. There are no bone path Gu Immortals here."

The Gu Immortals talked to each other secretly, they were close with one another.

"None?" Fang Yuan waited for a while, but no Gu Immortal spoke.

He felt no disappointment.

The rank seven Immortal Gu, Divination Tortoise Shell, was worth coming to this trading convention.

Just when Fang Yuan was about to step down, a voice said: "Wait, I think... we can trade with this Immortal Gu."

The immortals turned to look, it was Wu Ma Yang.

"Strange, he is a dark path Gu Immortal, why does he want a bone path Immortal Gu?" This question appeared in everyone's minds.

Bone spike Immortal Gu had no relation with dark path.

But if Wu Ma Yang had any immortal killer moves that needed bone spike Immortal Gu, then it was possible for him to want this Immortal Gu.

Everyone had their own secrets, even though the Gu Immortals were puzzled, they held in their questions and watched quietly.

“There is a Gu Immortal who wants bone spike Immortal Gu?” Fang Yuan was also curious.

He asked: “I wonder what you would like to trade with?”

Wu Ma Yang frowned, he hesitated a little before gritting his teeth: “I will trade this Immortal Gu.”

He displayed this Immortal Gu.

It was a rank six Immortal Gu, on the same rank as bone spike Immortal Gu.

The Gu Immortals looked as someone cried out: “This is day Immortal Gu.”

That’s right, this was the rank six time path — day Gu!

Fang Yuan was stunned.

“I did not expect this, this trading convention was really worth it!” Fang Yuan rejoiced internally, but his expression was blank, he seemed to be in deep thought.

There was no need to think!

The moment Fang Yuan saw this Immortal Gu, he wanted it.

The reason?

Because he had Hei Fan’s true inheritance, he had rank seven year Gu, after Immortal Gu, and Years Flow Like Water, as well as a bunch of time path immortal killer moves.

He remembered that in the true inheritance, Hei Fan had been talking about immortal level day Gu and month Gu non-stop.

He remembered those four immortal killer moves, days pass like years and the rest.

“If the inheritor can obtain immortal level day Gu or month Gu, these four immortal killer moves would not need to expend so many mortal day Gu and month Gu, the effect would even rise greatly.”

These were the words recorded in Hei Fan’s true inheritance.

Fang Yuan saw this and did not think much of them.

He was not overly ambitious, year Gu was enough to satisfy him.

But destiny was very mystical, when Fang Yuan had placed no attention on immortal level day Gu and month Gu, day Gu appeared right in front of him like this.

“Let’s exchange it.”

“Even though I am not familiar with time path, feeding bone spike Immortal Gu is certainly a burden.”

Fang Yuan said.

“My day Gu consumes the water of the River of Time, it has no feeding problems. However, I cannot use this Immortal Gu, I might as well trade it for bone spike Immortal Gu, to add into my immortal killer moves.” Wu Ma Yang said.

The two traded quickly.

The original wills inside the two Immortal Gu left as the other party’s immortal essence entered.

The Gu Immortal’s will inside the immortal essence was the true key to refining Gu.

In Earth’s terms, wills were like a preset program to Gu worms.

Wills could think. Wild Gu worms had their own wills. Refining wild Immortal Gu was simply using the Gu Immortal’s will together with immortal essence to erase the wild will.

Wild wills had the instinct to survive, they could not destroy themselves, thus, even though it was tough for Gu Immortals to refine Immortal Gu, it was not risky.

Other people’s Immortal Gu were different.

A Gu Immortal’s will was vastly different from wild will.

Trying with brute force to refine someone else’s Immortal Gu would only destroy it. For example, Fang Yuan could recall his Immortal Gu with just a special will set inside them. Basically all Gu Immortals would not allow another person to refine their Immortal Gu directly.

Once that was happening, the will inside the Immortal Gu would destroy the Gu worm.

Unless wisdom path methods were used to suppress the Immortal Gu’s will. But usually, it would be hard to suppress all of it in an instant. With a small flaw, the Immortal Gu would be destroyed.

Precisely because of this, even though Fang Yuan captured Hei Cheng, he did not obtain dark arrow Immortal Gu.

And because of this, even though Fang Yuan and Hei Lou Lan’s alliance agreement was gone, he could not directly refine attitude Gu, it was a problem.

### **Chapter 1300: Refining Attitude Gu**

“This particular trading convention is very different.”

“That’s right, it is truly not normal. In our usual trading conventions, even though there are Immortal Gu trades, they will not appear in the first round.”

It was traditionally hard to trade Immortal Gu, most of the members in the trading convention had limited chances. Thus, they would usually put up the items which were unlikely to be traded to the end.

Thus, even if they wanted to trade away their Immortal Gu, the Gu Immortals would choose to do it in the last few rounds.

This was normal in trading conventions.

But this time, it was different.

Not only was there an Immortal Gu trade in the first round, it happened twice. And more importantly, both times succeeded!

And in these two transactions, Fang Yuan played a pivotal role.

Even though this was the first time he came to a trading convention, the Gu Immortals present did not dare to underestimate this newcomer, Chu Ying, anymore.

“We will start the second round now, Fairy Tong Hua, please.” Miao Ming Shen said.

He was very happy.

The trading convention had just started and Immortal Gu were already traded, this result would help him a lot when he traveled over Eastern Sea’s Gu Immortal world.

Tong Hua went onto the platform, she wanted to trade another type of desolate beast.

“It seems that she is trying to develop her blessed land.” Fang Yuan, who was sitting beside Miao Ming Shen, spoke to him.

Miao Ming Shen smiled: “Brother Chu, you might not know, but Fairy Tong Hua had just passed a tribulation recently.”

“So that’s it.” Fang Yuan understood.

After a Gu Immortal passed a tribulation, their immortal aperture’s resources would be greatly damaged, but they would gain a lot of dao marks too. These new dao marks would modify the immortal aperture’s environment, causing it to be more accommodating to different types of resources.

Thus, Fairy Tong Hua tried to trade for all sorts of resources in this convention, planning to develop them in her immortal aperture.

“This Immortal Tong Hua is very affluent. Not only is her immortal aperture managed well, she also has a personal sea area, called rainbow aurora sea. Whenever it is dawn or dusk, aurora light shines above the sea area, weaving with the sky, it is extremely beautiful. This sea area is not far away. After the trading convention ends, Fairy Tong Hua will invite everyone to her sea area for a gathering. By then, Brother Chu can go with us.” Miao Ming Shen said, giving Fang Yuan some information about Tong Hua.

Fang Yuan gained more understanding of her.

“Then I will thank you for a recommendation. To speak the truth, I am interested in her light shine fungus.” Fang Yuan said directly.

“No problem, I can help you with that.” Miao Ming Shen was someone who knew the best way to interact with someone, he gladly took on this task.

After the trading of Immortal Gu, his relationship with Fang Yuan improved greatly.

Fang Yuan knew why Miao Ming Shen’s attitude had changed.

The reason was none other than — lifespan Gu!

What could interest Miao Ming Shen was undoubtedly lifespan Gu. Fang Yuan used a rank six Immortal Gu to trade for a rank seven Immortal Gu, and he even used a declining strength path Gu.

But Miao Ming Shen was very satisfied with the transaction. This was because Fang Yuan used a hundred years of lifespan Gu to make up for the difference.

Lifespan Gu was only a mortal Gu, but it was really rare.

Many Gu Immortals would keep them in their hands and refuse to trade them. They would keep these lifespan Gu for the time when they really needed it.

Miao Ming Shen's lifespan was not near its end, but he did not have a lot left.

Thus, he was looking for the tributary of the River of Time, he wanted to find some methods to extend lifespan.

In the five hundred years of Fang Yuan's previous life, Miao Ming Shen had entered the blue dragon whale many times to look for the lifespan Gu inside.

Fang Yuan offered him lifespan Gu, why would Miao Ming Shen not be happy with it?

Furthermore, Fang Yuan took out a hundred years of lifespan Gu, what did that mean?

Miao Ming Shen was not dumb, he thought: This meant that Chu Ying had more lifespan Gu. Otherwise, why would he use them so 'unsparingly'?

Thus, Miao Ming Shen wanted to improve his relationship with Fang Yuan.

But he did not know that this was Fang Yuan's intention.

Fang Yuan's motives were deeper.

The blue dragon whale!

According to his previous life's information, Fang Yuan had a greater understanding of this opportunity than Miao Ming Shen currently.

The transactions continued.

During the second round, Gu Immortals went up one by one, and most of their transactions succeeded.

Soon, it was Fang Yuan's turn.

Immortal Gu Woman's Heart.

Fang Yuan was about to trade this rank six Immortal Gu away when his expression suddenly changed.

"Sorry, something happened, everyone, I need to leave early." Fang Yuan said.

The Gu Immortals were shocked.

This trading convention was a rare chance, to think that Fang Yuan was giving up now.

But the trading convention was not a restricted event, it was fine if Fang Yuan wanted to leave, they could not stop him.

“What happened? Do you need my help?” Miao Ming Shen sent Fang Yuan off.

“It is not a big matter, but it is urgent. This is such a waste, I am missing out on the trading convention!” Fang Yuan sighed.

Miao Ming Shen quickly said: “Don’t worry, when such a trading convention happens again, I will inform you.”

“I will thank you in advance, goodbye.”

“See you again.”

Fang Yuan flew off into the clouds, vanishing from sight.

Miao Ming Shen sighed, looking at Fang Yuan vanish, he turned around and went back into the cave.

While flying in the clouds, Fang Yuan’s expression was ugly.

He had left earlier because a wisdom path great expert had suddenly tried to deduce his whereabouts.

The power from Dark Limit was almost used up, with this huge expenditure now, Fang Yuan was forced to leave the trading convention prematurely.

“Damn it, which Gu Immortal is deducing me? I wonder if they are deducing Fang Yuan or Liu Guan Yi?”

Fang Yuan felt some regret.

If he had some more time, he might have traded woman’s heart Immortal Gu away.

Such opportunities were incredibly rare.

After one convention, many Gu Immortals would lay low for many years before wanting to trade again.

After he got to a safe distance, Fang Yuan used the new divination tortoise shell Immortal Gu, as well as change form Immortal Gu.

Immortal killer move — Divination Tortoise Transformation!

Transformation path killer moves were so simple and straightforward.

Because he lacked the help of mortal Gu, this killer move’s effect was not outstanding. But because of change form Immortal Gu, this panacea, although the transformation had none of the battle strength from the divination tortoise, Fang Yuan could use it.

This divination tortoise transformation was to give Fang Yuan more time.

A while later, he found a safe environment and placed his immortal aperture.

For several days, he stayed inside the immortal aperture.

He started to think about how he could refine attitude Gu.

Even though he had two new Immortal Gu, they were not useful for refining attitude Gu.

Fang Yuan was helpless about this.

Maybe the third Gu for Woman's Heart could have been a suitable Immortal Gu.

But Fang Yuan missed this opportunity.

He needed to stay inside the immortal aperture for some time so that Dark Limit could be used again.

By then, the trading convention would be over.

"This means I can only borrow Immortal Gu from Lang Ya blessed land." Fang Yuan had a backup plan.

But this was a secondary method.

The best situation was for Fang Yuan to settle it himself.

Borrowing Immortal Gu was not a feasible plan.

If Fang Yuan used his own Immortal Gu to deduce an immortal killer move to refine attitude Gu, it would help him greatly, he could even fuse this immortal killer move into reverse flow protection seal.

Think about it, by then, Reverse Flow River would flow around Fang Yuan's body, and any Immortal Gu that flew inside would be refined by Fang Yuan. How tempting was that?

Fang Yuan had a long term goal regarding this.

But it was a pity, even though he joined the trading convention, he did not gain any progress in this aspect.

But thankfully, Lang Ya blessed land had no lack of refinement path Immortal Gu.

Through treasure yellow heaven, and after expending Lang Ya Sect contribution points, Fang Yuan borrowed some Immortal Gu.

A commotion occurred in treasure yellow heaven again, but Fang Yuan had no choice but to do this.

Using these refinement path Immortal Gu, Fang Yuan came up with an immortal killer move using Reverse Flow River to refine attitude Gu.

Fang Yuan purposely slowed his movement, half a month later, he successfully refined attitude Gu.

And now, he finally owned this legendary rank eight Immortal Gu..
