

Insanity 2161

Chapter 2161 Carefree Wisdom Heart

"The inkman elder told Ren Zu: "Even though wisdom Gu often stays within Qian Kun Crystal Wall, it is hidden very deeply. To find it, you will need to venture deep into the crystal wall, it will not be possible with just ink texts and the tiles that are formed below your feet. These tiles only record all sorts of information on the superficial level, with the endless barrage of other information the limited ink texts within the tiles will change in content, they will disappear quickly and cannot last for long."

The inkman elder said again: "Oh human, you need to turn all the information into knowledge. Only with knowledge can you explain information clearly, you will be able to write them down in words,"

"allowing you to create a real path instead of just tiles made of texts."

Ren Zu was troubled: "How can I turn them into knowledge?"

The inkman elder laughed: "There are many bookworms on Book Mountain, they record the knowledge that our inkman seniors have left behind. Oh human, you can go look at them."

"It is not difficult to gather the knowledge yourself either. Firstly, you need memory Gu to store all of this information inside your mind. Next..."

Before the inkman finished his words, cognition Gu appeared, saying to Ren Zu: "After that, I can help you to refine knowledge."

The inkman elder nodded with a smile: "Indeed, cognition can produce knowledge."

Ren Zu: "Then I will thank you all in advance."

"The inkman elder shook his head: "No need to stand on ceremony."

Cognition Gu: "Don't say that human. We have always been good friends, and this situation benefits myself as well."

If cognition did not take in new information, it would quickly get outdated. Only by receiving new information and thinking about it could cognition create useful new thoughts that were healthy and vibrant, innovative and lively.

Ren Zu gathered many bookworms on Book Mountain, he obtained a lot of new information.

Next, with cognition Gu's help, he created many new knowledge from the vast amount of information.

He used ink texts to write down his knowledge, scattering them on the ground and creating a black path made of ink texts.

Ren Zu and Great Strength True Martial walked on this path, they walked for a long time, far longer than any of their previous trips.

"Oh no, I don't have enough knowledge left." Ren Zu walked to the end of the path, feeling very dejected and upset. He had gathered many ink texts but the knowledge in his mind was insufficient already.

Ren Zu and Great Strength True Martial's first attempt failed, they had to return to Book Mountain.

Great Strength True Martial continued to collect ink texts while Ren Zu gathered all the bookworms, with cognition Gu's help, he refined even more knowledge from them.

With more and more knowledge, Ren Zu found that his mind was getting filled up.

"I have too much knowledge now." Ren Zu was very satisfied, he said confidently: "Let's go, I am sure we can reach the deepest part of Qian Kun Crystal Wall this time!"

However, they still failed in their second attempt.

"Why did this happen? My mind was already filled with knowledge." Ren Zu said dejected: "This is all the knowledge I can hold."

"No, oh human, look closely again." Self Gu suddenly spoke to remind him.

Ren Zu inspected his mind, he found a Gu hiding inside it.

Ren Zu realized at once: "So you are occupying my mind, preventing me from getting more knowledge. What Gu are you?"

The Gu answered: "I am pride Gu."

Ren Zu said anxiously: "Can you hurry and get out, you are occupying such a huge area, I want to fill the place with knowledge instead."

But no matter how anxious Ren Zu was, or how he urged, pride Gu refused to leave.

When Ren Zu was out of ideas, Great Strength True Martial spoke: "Oh father, don't be anxious. Don't forget that I still have humility Gu. I will give it to you."

Great Strength True Martial took out humility Gu and gave it to Ren Zu.

Pride Gu was chased away by humility Gu, it had to fly out of Ren Zu's mind and land on Great Strength True Martial instead.

Strong Gu was very happy: "The strong have their own pride!"

After Ren Zu chased pride Gu away from his mind, he returned to Book Mountain to continue gaining knowledge.

"After Ren Zu gained humility Gu, he realized that the more knowledge he had, the more he found that he was lacking knowledge, and the more he wanted to fill his mind with even more knowledge.

Ren Zu's mind was quickly filled.

Self Gu urged him: "Oh human, stop now, your mind is already full of knowledge."

But Ren Zu replied: "But I think that it is insufficient, I am certain that I still do not know a lot of things, I need to continue gaining knowledge."

Ren Zu continued to refine his knowledge, his mind was getting bloated, it was hurting and could not hold anymore information, but humility Gu made him feel like he was still lacking in knowledge.

Suddenly, there was a loud boom.

Eventually, Ren Zu's mind could not take it anymore, it exploded from an overload of knowledge."

The knowledge scattered on the ground as a little girl stood up from within.

"Father, father." The little girl hugged Ren Zu's leg happily: "My name is Carefree Wisdom Heart, I am your daughter."

...

Northern Plains.

Sincerity grassland.

Chen Cheng was dressed in green, his arms were crossed behind his back as he stood arrogantly upright.

He stared at the foreign female immortal before him as he shouted: "Who are you? Why did you request to meet me here?"

The female immortal standing before him wore a half-mask covered her nose, mouth and cheeks, only revealing the upper half of her face which "

showed her strong contours, sharp and long brows, bright eyes and a heroic aura.

She wore a dark gold armor that covered her whole body, bringing a heavy feeling of suppression on any that looked at it, she was definitely not an ordinary person.

"You can address me as Fairy Black Moon." This female immortal said.

"Fairy Black Moon?" Chen Cheng raised his brows: "Where are you from?"

Now that the five regions were merged, Gu Immortals no longer had region specific auras, that was why Chen Cheng asked the question."

Fairy Black Moon smiled lightly: "My identity and origin are not important. Chen Cheng, you are called the Sincerity Immortal, you cultivate rule path. Back then, you had an agreement with your friend, the loser in the battle would recognize the winner as their owner and assist them. Do you remember this?"

Chen Cheng's pupils shrank as he frowned: "I was young and arrogant then, I did not know what that truly meant, that was why the agreement was made. I was still a mere Gu Master back then, who are you exactly? You know such an obscure secret!"

Fairy Black Moon smiled coldly: "I'm only asking you, Chen Cheng, is this agreement still effective?"

Saying so, she took out a token.

Chen Cheng received it as his expression changed again: "This token is real, where did you get it? What relationship do you have with my friend?"

Fairy Black Moon said again: "I said these are not important."

Chen Cheng took a deep breath, he said with a solemn expression: "I understand now, you want us to have a fight, if you win, you will make me your servant! Since you took the initiative to find me, I am sure you are confident in your own strength. But I need to remind you, even though I am a lone cultivator, after roaming Northern Plains for so many years, I have gathered many trump cards. If you win this battle, I will acknowledge you as my master. But if you lose, I will be your master!"

Fairy Black Moon laughed heartily: "Everyone calls you the Sincerity Immortal, someone who keeps his words and promises. After meeting you, it seems that this is true after all. Let's fight!"

Chen Cheng was furious: "Regardless of who you are, today, I will see what you are capable of!"

At the next moment, thunder rumbled as the battle of two immortals ensued.

Inside the sovereign immortal aperture.

He Chun Qiu was taking charge of Four Elements Square Regret Blood Refinement Pool.

Splash splash splash.

The water of time moved erratically, creating the mesmerizing sound of waves.

A rank eight Immortal Gu was quickly forming, landing in He Chun Qiu's hands.

"Good, all of the destroyed rank eight Immortal Gu have been refined successfully." He Chun Qiu nodded, feeling satisfied about the progress.

Four Elements Square Regret Blood Refinement Pool had the ability of Regret Pool, any Immortal Gu that it refined would have an insignia left behind. When the Immortal Gu is destroyed, Four Elements Square Regret Blood Refinement Pool would use the power of the tributary of the River of Time together with the insignia to refine the Immortal Gu again, the success rate would be higher than refining a new rank eight Immortal Gu normally!

When Fairy Ming Hao forced Fang Yuan's subordinates to retreat earlier, Lu Wei Yin expressed his pity over the destroyed Immortal Gu.

But he did not know that Fang Yuan's refinement path methods were unimaginably powerful, in just a few days, he refined all three rank eight Immortal Gu that were destroyed in that battle.

But Fang Yuan was still not satisfied with his current refinement path attainment.

Several days had passed since Ming Hao defeated Lu Wei Yin and the rest.

These days, the three worlds were quiet and safe, battle had stopped, there was temporary peace.

Since it was not time for the actual fight yet, Fang Yuan used this time to comprehend the profundity of the place.

He had already investigated Paradise Earth's tomb, there were countless dao marks distributed in it, the structure was complex and profound, the scale was immense, he could not unravel it in a short time.

Fang Yuan spent most of his energy on the countless big and small worlds here, trying to comprehend the refinement path profundity that they contained.

"Sage, Savage Wilderness Great World's envoy seeks your audience." At this time, a Yellow Earth Gu Immortal reported respectfully.

"It's Bing Sai Chuan." Lu Wei Yin came over as well, bringing accurate information with him.

Fang Yuan smiled lightly: "It is about time they came here."

Earlier, the loss of Ice Crystal Immortal Monarch and Xiao He Jian was actually part of Fang Yuan's scheme.

Even though Heavenly Court lost to him before, Fang Yuan had never underestimated their foundation.

Heavenly Court placed a huge focus on Crazy Demon Cave, they even brought Divine Emperor City over, how could Ice Crystal Immortal Monarch and Xiao He Jian defeat Heavenly Court?

With the current situation, even though Longevity Heaven, Heavenly Court, and Fang Yuan had one of the three great worlds each, Heavenly Court was still the dominant party.

The three sides were contesting but there was still the strongest and weakest side among them.

Together with Bing Sai Chuan taking the initiative to cooperate with Fang Yuan during the fate war, after Lu Wei Yin and the rest returned in defeat, Fang Yuan waited patiently for Bing Sai Chuan's envoy to come.

It was just that Bing Sai Chuan, one of the Four Desolation Immortals, actually came here personally.

It showed Longevity Heaven's sincerity right away.

"Friend Fang Yuan, have you been well?" Bing Sai Chuan smiled.

But Fang Yuan's expression was cold: "I am working together with Paradise Earth Immortal Venerable to help him revive. Bing Sai Chuan, it is really unwise that your Longevity Heaven wants to cooperate with us. After all, when the time is ripe and Paradise Earth Immortal Venerable revives, our strength will rise sharply, we can even suppress Heavenly Court."

"This..." Bing Sai Chuan's expression froze immediately.

Chapter 2162: Cooperating Once Again

The purpose of Bing Sai Chuan's visit was obvious, he wanted to work with Fang Yuan and resist Heavenly Court.

Fang Yuan did not want to waste time, he directly stated the obstruction towards their cooperation instead.

Paradise Earth's tomb was huge as a mountain, Longevity Heaven and Heavenly Court knew about it long ago.

The reason why they attacked Yellow Earth Great World earlier was also because of this.

Bing Sai Chuan was a rank eight expert renowned in history after all, he laughed, the stiffness on his face vanished at once: "Fang Yuan, do you know where this Book Mountain originates from?"

Fang Yuan had a thought: "Book Mountain is not originally an arrangement of Heavenly Court?"

Bing Sai Chuan nodded: "Indeed, that is so. Book Mountain was originally in the ninth layer of Crazed Demon Cave, but because of Heavenly Court's immense foundation in wisdom path, they comprehended a portion of the profundity and took out Book Mountain from the ninth layer in advance."

"Oh?" Fang Yuan did not acknowledge nor reject the answer.

But Lu Wei Yin's expression changed.

This was something that the Gu Immortals of Yellow Earth Great World did not know of.

After all, it happened deep within Green Lotus Great World.

"Heavenly Court has such a method? They have already started comprehending the ninth layer and even managed to bring out Book Mountain? Did Limitless Demon Venerable's retaliative method not activate?"

Bing Sai Chuan sighed deeply: "If it worked, we would not have come here so urgently to seek an alliance."

Fang Yuan replied in a solemn tone: "Did you see Star Constellation Immortal Venerable?"

Bing Sai Chuan shook his head: "Not even once."

Fang Yuan asked again: "Then what is the relationship between Fairy Ming Hao and Star Constellation Immortal Venerable?"

Bing Sai Chuan replied honestly: "Since the arrangement of Limitless Demon Venerable exists, until the right opportunity arises, we will not use our full strength, thus, we did not force Star Constellation Immortal Venerable to show herself. But Heavenly Court had three female immortals that appeared, they all possess pseudo venerable battle strength, Fairy Ming Hao is one of them."

"These three female immortals are Ming Hao, Yu Xiu, and Feng Ya respectively, they cultivate wisdom path with star path secondarily. Your side has already seen Fairy Ming Hao's strength, Fairy Yu Xiu is stronger than her, days ago when we fought, our side had to send reinforcements to stall them and form a stalemate."

"As for Fairy Feng Ya, she seems to be even stronger but she has never taken action, she has been secluded in Crazed Demon Cave to comprehend the ninth layer profundity. Book Mountain is the fruit of her labor."

Lu Wei Yin could not help but sigh: "Heavenly Court is the number one force in the world after all, their foundation is unfathomably deep. After Duke Long died, they lacked pseudo venerable battle strength, but to think that three of them were hidden in Crazed Demon Cave! This shows the importance Heavenly Court is placing on Crazed Demon Cave."

Bing Sai Chuan added: "Other than these three pseudo venerables, there are also rank eight elites like Qin Ding Ling. In addition, regarding the forces they have out in the open, there are Divine Emperor City,

Demon Judgment Board, and Heaven Overseeing Tower. With Heavenly Court's foundation, it will not be strange for them to bring out more Immortal Gu Houses."

Lu Wei Yin gritted his teeth: "Heavenly Court even transferred a portion of the immortal graveyard into Crazy Demon Cave, this immortal graveyard was created here by using the Tomb Earth they collected. At the crucial moment, the immortal graveyard's slumbering experts in history would awaken, they have terrifying strength too."

"Precisely so." Bing Sai Chuan concluded: "Fang Yuan and Lu Wei Yin, both our sides need to cooperate. Otherwise, how can we force Star Constellation Immortal Venerable to show up? How can we defeat three pseudo venerables? How can we ensure the revival of Paradise Earth Immortal Venerable?"

Bing Sai Chuan's intention was obvious.

Heavenly Court's advantage was too great, if they were not stopped in time, even before Paradise Earth Immortal Venerable revives, Heavenly Court would have won already!

Thus, there was a need for them to work together.

Lu Wei Yin looked at Fang Yuan, who nodded slightly, agreeing to this cooperation.

Longevity Heaven seemed to have no fear regarding Paradise Earth Immortal Venerable's revival, they were very confident in themselves, their trump cards were definitely not few. But currently, with Heavenly Court in the lead, they had to do something to slow them down.

Savage Wilderness Great World and Yellow Earth Great World stopped fighting between themselves, they sent out troops to attack Green Lotus Great World together.

Even though there was cooperation with Longevity Heaven, the extent was quite limited.

Fang Yuan suggested that they should exchange true inheritances. He wanted to use venerable true inheritances of equal value to exchange for Longevity Heaven's luck path true inheritance of Giant Sun.

Bing Sai Chuan rejected him with a polite tone but his attitude was firm.

Fang Yuan also suggested that they should exchange immortal materials. He wanted rank nine luck path immortal materials but Bing Sai Chuan rejected him as well.

Fang Yuan's force had already inflated to this level, when he sent out his subordinates earlier, even Bing Sai Chuan was completely stunned from their collective strength.

Bing Sai Chuan and the rest had a strong opinion against Spectral Soul and Red Lotus! To help Fang Yuan destroy fate Gu, they had truly given him too much help.

In just these few days, Fang Yuan's force had already grown to this terrifying level!

And what about his own strength?

How much had he grown until now?

In this situation, how could Longevity Heaven make a transaction with Fang Yuan? Wouldn't that be helping his growth?!

Due to the cooperation of Fang Yuan and Longevity Heaven, the situation changed greatly.

But Heavenly Court seemed to have predicted this, even though the two sides attacked with their full strength, they were still defending themselves firmly.

At times, when the defensive lines were about to break, Fairy Ming Hao and Yu Xiu would take action personally, either maintaining Heavenly Court's position by forcing enemy Gu Immortals to retreat, or using the battle opportunity to invade Savage Wilderness Great World and Yellow Earth Great World instead, causing huge destruction and countless deaths.

Fang Yuan also saw Fairy Yu Xiu's strength for the first time.

Fairy Yu Xiu had an exceptional combat system. Her attacking methods were very special, they relied on the difference between the two sides' attainment level. The bigger the difference, the stronger the attacks.

Ever since the first time they reached the base of Book Mountain, Fang Yuan's subordinates made no such advancement again.

Like this, the three sides fought with each other, the situation was in a deadlock, days went by one by one.

A large number of Gu cultivators died, their sacrifice made the three worlds grow larger with an increasing number of stable dao marks. The more Gu cultivators died in this place, the more the boundaries of the three great worlds faded, and the larger the area which the worlds were connected to became.

On this day, at the peak of Book Mountain.

Fairy Yu Xiu gathered the Heavenly Court immortals, she spoke: "Right now, Fang Yuan and Longevity Heaven have cooperated, this is giving us huge pressure. Our immortal graveyard has a backup hidden force but Fang Yuan's Wu Shuai clone has not shown up yet, Longevity Heaven is also hiding their strength."

"Since the situation is now in a deadlock with all three sides wary of each other, the small worlds around the three great worlds will be the key to our victory."

"These small worlds might be weak but they still have Gu Immortals. If we can get them to join us, we will gain an advantage in the fight between the three forces."

During this time, Fang Yuan and Longevity Heaven cooperated, managing to suppress Heavenly Court.

Heavenly Court was losing more and more members.

Zhou Xiong Xin sighed: "These small worlds are easy to defend but hard to attack, even though we tried many times and are able to win by force, very few Gu Immortals decided to join us sincerely."

Prince Feng Xian added: "These Gu Immortal inhabitants lack sufficient intelligence, they are very stubborn as well, most of them bear animosity towards the three great worlds. They think that fusing their world into the great worlds would cause the destruction of their homeland, they hold a firm attitude."

“Thus,” Fairy Yu Xiu smiled: “I will hold a lesson at the peak of Book Mountain to teach the countless masses. Any Gu cultivator, mortal or immortal, can join this session.”

“How will you do that?” Wan Zi Hong asked.

Fairy Yu Xiu explained the details, Heavenly Court’s immortals had changes of expressions.

“Lady Yu Xiu has such an incredible method? We are truly in admiration!”

“In that case, we will not have to worry about these Gu cultivators not joining us sincerely.”

“These lowly Gu cultivators actually have such a great fortune to be able to get a Dao lesson from Lady Yu Xiu, this is too good for them.”

“Haha, they are all just cannon fodder, they will be sacrificed in the end, there is no harm in doing this.”

Heavenly Court’s Gu Immortals discussed among themselves, the atmosphere slowly became relaxed.

Divine Emperor City.

Qi howling painting world.

A group of beggars stood around Fang Di Chang, facing a huge elephant.

The huge elephant was pure white in color, its four legs stomped on the ground, it was unmoving like a sturdy mountain.

The beggars were in a stalemate for a long time, their morale was falling, they started to feel like they could not resist this huge elephant.

Fang Di Chang was frowning deeply: “This qi monster is made from righteous qi, the longer we fight it, the more disadvantageous it is for us.”

Qi monsters had all sorts of shapes and sizes they were not fixed, they could be made from all kinds of qi, having varying temperament and strength.

For example, qi monsters made of domination qi would be domineering, qi monsters made from death qi would love to be in places filled with many deaths. Qi monsters made of life qi would have strong recovery abilities, while qi monsters made from luck qi would be hard to kill, once they were killed, the benefits to the Gu cultivator would not be small.

Even though Fang Di Chang was Fang Yuan’s clone and shared his attainment level, he had lost his body and soul. With just his will left, he resided within the human path beggar Gu.

Thus, he could not resist this white elephant made of righteous qi.

But thankfully, the righteous qi white elephant was not rampaging, it did not make a move in the end, only staring at the beggars.

“I have arrived!” Shen Shang finally fought his way to them.

After finishing off his earlier opponent quickly, he came to help out Fang Di Chang.

He fought against a group of blood qi monsters earlier, he was bathed in blood.

Fang Di Chang immediately sighed in relief as he made the beggars fall back and let Shen Shang in.

Shen Shang fought against the white elephant using human path methods.

This rank eight Gu Immortal was indeed the human path quasi-supreme grandmaster chosen by Paradise Earth Immortal Venerable, he quickly gained the upper hand.

But right when he was about to finish off the elephant, the ground started to shake.

Rumble...

About ten thousand bull shaped qi monsters stampeded together while creating huge dust clouds behind them.

Shen Shang and Fang Di Chang's expressions changed.

The righteous qi elephant screeched in fear as it escaped in panic.

Shen Shang did not bother with it, he grabbed Fang Di Chang and quickly ran in another direction.

The stampede of countless bulls was like a tsunami that swept heaven and earth, it could not be stopped.

Shen Shang and Fang Di Chang managed to escape with their lives, they watched as the bulls charged away.

"These qi monsters are made of charging bull qi, but isn't the size of the group too big, who can block it?" Shen Shang sighed.

Fang Di Chang replied: "The bulls are running towards the closest camp. Who knows how many will die, but that camp is going to end up in ruins."

Shen Shang nodded: "Indeed, once the camp is destroyed, we can only retreat to another camp further back. Our exploration will get tougher."

Chapter 2163: Endless Learning

The two of them had deduced something earlier, thus they worked together and explored deeper into qi howling painting world, in order to find and communicate with Heavenly Court's enemy at the depths of the painting.

The enemy of an enemy was a friend.

But even after Shen Shang and Fang Di Chang did their best, they could not reach the deepest part of the painting.

Qi howling painting world was too huge, Fang Di Chang's strength was at a limit, even though Shen Shang had rank eight cultivation level, it was severely restricted in here, the difference between mortal and immortal was not evident.

The only good thing was that Shen Shang's illness was greatly alleviated here. Ever since he entered the painting world, he had not relapsed again.

According to Shen Shang's estimations, the dense human path environment here was helping him.

"Sigh, the ten children of human path have left. Without their help, how can we get through this painting and meet the one suppressed at the deepest part of the painting?" Fang Di Chang sighed.

Shen Shang was about to speak when his expression changed suddenly, he shouted: "This is?!"

Next, Fang Di Chang also sensed the aura of a rank eight Immortal Gu rapidly spreading towards him.

The two no longer cared about qi howling painting world, they quickly returned to the central area of the original painting world.

The two of them saw a rank eight Immortal Gu at the same time, it was floated in the air, shining with radiance.

"Divine Emperor City is truly deep, it actually contains this legendary Immortal Gu!"

"If I am not wrong, this should be the learning Gu recorded in <<The Legends of Ren Zu>>!!"

The two conversed, seeing the shock on each other's expressions.

"Learning Gu is a human path Immortal Gu, this is likely the highest ranked human path Immortal Gu in the current world." Fang Di Chang sighed.

"I get it now!" Shen Shang's eyes suddenly shined with bright light: "Why did beast tamers and qi cultivators appear earlier? It was the result of this learning Gu's effect. Of course, this should not be the only Gu used, it is likely a killer move. Genesis Lotus Immortal Venerable had such grand ambitions, his arrangements were truly deep."

Fang Di Chang frowned: "But why did this learning Gu activate on its own now? Did something happen in the outside world?"

Shen Shang was troubled, he did not know about the situation outside.

But he quickly reacted: "This is a prime opportunity! Learning Gu must be one of the cores of Divine Emperor City, regardless of what is going on outside that caused this core to be used alone, at this point, Divine Emperor City's intact structure has a crack in it, we can find this weakness and make use of it!"

"Good idea!" Fang Di Chang's pupils expanded as he looked at Shen Shang excitedly: "Let us work together and explore the secret of Divine Emperor City."

At the same time.

Crazed Demon Cave.

Eighth layer.

Green Lotus Dao field, above Book Mountain.

Fairy Yu Xiu sat at the peak of Book Mountain, within her immortal aperture, Divine Emperor City's learning Gu spread out its radiance, cooperating with Fairy Yu Xiu's other Immortal Gu to form a human path killer move —

Endless Learning!

At the middle and bottom of Book Mountain, there were countless Gu cultivators.

The killer move's radiance was light blue in color, it spread down and covered all of these Gu cultivators.

Their bodies shook intensely.

"This is?!"

The immortals' expressions changed, they were filled with deep shock.

An indescribable profundity of the Great Dao flowed into the depths of their hearts like a gentle river.

The attainment levels of these immortals started to rise!

"There is actually such an incredible killer move in this world, if I am not experiencing this personally, I will not be able to imagine it!"

"This is the teaching of the sage, the sage is merciful and benevolent!"

Many Gu Immortals were so touched they shed tears on the spot, others knelt down on the ground, kowtowing to Fairy Yu Xiu at the peak of the mountain.

These were all non-standard Gu Immortals, but they were receiving the most traditional Gu cultivation method now.

They were all clear about how hard it was to raise attainment levels!

This was truly an unprecedented fortuitous encounter for them!

"In this world, there are indeed other methods to raise attainment level other than dream realms. Human path... Genesis Lotus Immortal Venerable had already made his arrangements to this degree. It is definitely not wrong for Heavenly Court to develop human path!" Qin Ding Ling was very excited internally.

Heavenly Court's members, with her at the lead, sat down together and closed their eyes to comprehend calmly.

Fairy Yu Xiu opened her eyes slightly, looking down below her with a glance.

Sweat had gathered on her forehead, all the thoughts in her mind were used to sustain this move.

Endless learning was a human path method of strategical value, its benefit for any super force was huge beyond imagination.

Its greatest advantage was that it did not expend the user's true meaning, it created true meaning in the mind of the targets instead!

Rule path and wisdom path Gu Immortals were more adept at extracting their own true meaning compared to other paths.

When other Gu cultivators take the true meaning, their attainment levels of the corresponding path would rise sharply.

But the Gu cultivator who extracted their true meaning would experience a fall in attainment level, the losses could not be regained.

This was why true meaning was so rare in the world.

Endless learning was a killer move that made use of Fairy Yu Xiu's attainment level, the secluded domain of heaven and earth Book Mountain, as well as learning Gu.

This move could create new true meaning in the mind of the targets.

Once the true meaning was created, it would be instantly absorbed by the Gu cultivator and cause their relevant attainment level to rise.

This was the greatest advantage of the killer move endless learning, it did not consume anyone's attainment level.

But at the same time, this advantage was also its weakness.

Because the true meaning created by the killer move had limitations.

The limitations were the Gu cultivator themselves.

The Gu cultivator's aptitude, talent, comprehension and personal experiences were conditions that restricted their production of true meaning.

Attainment level profundity of the same level would vary across the different people who were comprehending them. If one reached their limit and could not comprehend the profundity, they would start to develop illusions.

As expected, not long after, Gu cultivators on Book Mountain started to see illusions.

Some of them saw surging golden lotuses, some saw azure rain, some saw surging bloody water, some saw bone forests, or rainbow colored phoenixes that growled loudly.

"I, I can't persevere anymore!" A moment later, someone spat out blood and fainted.

More and more people followed.

But some Gu cultivators were still enduring.

With this, the talent, personal experiences and comprehension of the Gu cultivators were also clearly distinguished.

But by the time, those among Qin Ding Ling's group started to waver as sweat appeared on their foreheads, about ninety percent of Green Lotus Dao field's native Gu Immortals had already fallen.

"Even if these natives become Gu Immortals, they are still inferior to humans, who have the highest natural talent and intelligence." Fairy Yu Xiu nodded to herself.

After some observation, she had already gained a clear understanding of the strengths and weaknesses of the Gu Immortals from Green Lotus Dao field.

When Qin Ding Ling and the rest started to waver, the other Gu cultivators on the mountain had already fainted.

Bai Cang Shui fainted, Zhou Xiong Xin also fainted, followed by Jun Shen Guang.

Eventually, only three Heavenly Court members were left.

They were Qin Ding Ling, Che Wei, and Gu Yue Fang Zheng.

“Brother?” Gu Yue Fang Zheng’s eyes were filled with blood, he grunted before fainting.

Thereafter, Qin Ding Ling smiled bitterly as she lost consciousness as well.

Che Wei lasted until the end.

Fairy Yu Xiu nodded to herself: “As expected of the creator of weapon path. Hmm? I actually misjudged.”

Fairy Yu Xiu’s expression suddenly changed as she shifted her gaze from Che Wei to a meteor at the bottom of the mountain.

This meteor was large as an elephant, it was also a Gu Immortal.

Earlier, it had fallen into a state of semi-unconsciousness. Even Fairy Yu Xiu did not expect that a certain strength would gather within the rock.

At this point, the mystical strength reached its limit, there was a qualitative change occurring.

Rumble!

With a thunderous sound, the meteor shattered as golden light shined in all directions.

From the piercing and blinding light, a rock monkey flew out.

The rock monkey landed on the ground and scratched its ears, shouting: “Brilliant, truly brilliant!”

Plop.

At the other end, Che Wei could no longer endure it, he fainted on the spot.

Fairy Yu Xiu’s expression became even more peculiar: “This rock monkey is born from heaven and earth, it is extraordinary. It even has incredible talent surpassing Che Wei. With such potential, it will definitely reach great heights in the future!”

“Amazing, amazing.”

“What a pity, what a pity.”

Fairy Yu Xiu sighed continuously.

She was referring to Limitless Demon Venerable when she said ‘amazing’.

Limitless Demon Venerable created Crazy Demon Cave, the derivation of new heaven path dao marks went on for over a million years, the results were huge. This rock monkey was the proof of it!

This rock monkey's potential and comprehension ability even surpassed Heavenly Court's members, it defeated Che Wei!

If this rock monkey was nurtured well and grew successfully, it might create its own path in the future.

But this rock monkey was destined to have a pitiful ending, it could not live for long.

It was meant to be Limitless Demon Venerable's sacrifice!

Even Heavenly Court could not let it off.

Because it was not a pure human.

This was also why Fairy Yu Xiu said 'what a pity'.

The rock monkey lasted for a few more minutes before falling on the ground, unconscious.

Fairy Yu Xiu stopped using the killer move, she started to rest.

Even though she did not consume her attainment level, the price of using this move was quite high. Be they thoughts, immortal essence, or her own lifespan, they were expended.

Not long after, the Gu Immortals started to wake up.

They started to cheer, unable to control themselves.

Their attainment levels had all risen, the problems that they faced normally with killer moves or incomplete Immortal Gu recipes were all resolvable now.

Many Gu Immortals even had new ideas regarding the modification of their current killer moves.

"Thank you, sage, for imparting the Dao to us!"

"Sage has unsurpassed virtue for imparting the Dao to us!"

The Gu Immortals knelt on the ground of their own will.

Fairy Yu Xiu smiled, her voice spreading throughout Book Mountain, before spreading to the entire Green Lotus World: "Three days later, I will hold another session to impart the Dao on Book Mountain again."

The immortals were stunned, at the next moment, a thunderous cheer resounded.

Three days later, not only on Book Mountain itself, even a large number of Gu Masters gathered near the base of Book Mountain.

Gu Masters could only surround Book Mountain but not ascend it, on the mountain base and the sides, many new Gu Immortals showed up.

These Gu Immortals came from various small worlds, hearing that a sage was imparting the Dao on Book Mountain, they came of their own accord to benefit from it.

Fairy Yu Xiu used endless learning again.

As illusions started to show up, everyone saw different sights.

“I can see many flowers!”

“So many pig heads are flying in the sky...”

“Fairy, don’t run, you can’t escape from me! Hehehe...”

“That rascal is dead meat, I’m telling you, even a Gu Immortal cannot save him!”

“The man of my dreams is an unparalleled hero who will come and marry me while riding on a rainbow cloud, even though I am also a man.”

Chapter 2164: Ant Poison Appears Again

All sorts of illusions appeared.

Soon, the Gu Masters outside of the mountain quickly fell unconscious one by one.

Next, the ones on the mountain, those Gu Immortals who had attended the previous session also fainted in succession.

During the first session, they had already reached their limits. After just three days, the growth of their foundation was very limited.

Even Heavenly Court’s members were no exception.

After them were the various mutant Gu Immortals of the small worlds. They had deep foundations and this was their first time attending the Dao lesson.

“Hmm?” Fairy Yu Xiu expressed her surprise again.

Among these mutant Gu Immortals, she found another genius this time.

It was a lump of deep green colored tornado, it persevered until the end. The aptitude and comprehension ability it displayed was equally matched with the rock monkey.

When this tornado Gu Immortal fell unconscious, Fairy Yu Xiu also stopped using her killer move.

By the time they awakened, she announced again: Three days later, the next session will be held.

For the third Dao lesson, even more Gu Immortals came.

Not only the mutants of the various small worlds, even Savage Wilderness Great World’s and Yellow Earth Great World’s Gu Immortals came.

Eventually, the one who lasted until the end was a lizard Gu Immortal.

This immortal came from Savage Wilderness Great World, its aptitude was on par with the rock monkey and tornado, they were extraordinarily talented.

Fairy Yu Xiu conducted three Dao lessons in total, the influence was not just kept in the three great worlds, it even spread to the remaining small worlds. Not only the small worlds at the boundaries of the three great worlds, but even many other small worlds that were currently being drawn to the central area.

Fairy Yu Xiu achieved her goal, the effect was evident.

Their impression on the various Gu Immortals of Green Lotus Grand World improved greatly, many Gu Immortals chose to join them.

Yu Xiu chose three leaders from among them, they were the rock monkey Bu Tian Kong, the tornado immortal Nie Kuang Feng, and finally, the lizard Gu Immortal from Savage Wilderness Great World, Duan Hu.

But a large number of Gu Immortals still chose to watch on the fence.

These Gu Immortals mostly came from small worlds, their worlds were still moving now, they had not landed near the three great worlds yet.

“Since this change occurred in the void, the unification of the worlds cannot be avoided, we need to find a good allegiance!”

“Indeed, we are all rulers of our small world, we can influence where we end up in to a certain extent.”

“Green Lotus Great World’s sage gave a Dao lesson, I wonder if the other two worlds’ sages will do the same?”

Unavoidably, these Gu Immortals started to hold expectations.

A capable person will often choose to find a capable leader.

Even though they were native Gu Immortals that were not human, they had ample intelligence and were quite astute.

From Fairy Yu Xiu’s Dao lessons, they sensed that she was trying to recruit them.

The three great worlds were in heated conflict, the amount of losses was huge and severe, it was the stage for them to shine on.

They even started to spread the word.

“If the other two great worlds do not give such a benefit, we will join Green Lotus Great World!”

“The three great worlds have existed for so long, Green Lotus Great World’s sage imparted wisdom on everyone, they are truly magnanimous and benevolent. I am sure that the other two worlds’ sages are the same.”

“We will join whichever world gives the greatest benefits.”

These Gu Immortals wanted to gain the most benefits for themselves.

As for which world they would end up joining?

Haha, they can decide that after getting the benefits!

The situation changed abruptly, Lu Wei Yin quickly went to Fang Yuan for a discussion.

Lu Wei Yin sighed: “Currently, Heavenly Court has the initiative again, after cooperating with Longevity Heaven, we managed to destabilize Heavenly Court’s advantage over us, but with Fairy Yu Xiu’s Dao

lessons, all our efforts ended up in vain. But thankfully, the situation is salvageable, how should we go on to recruit those Gu Immortals who are still on the fence?"

Fang Yuan was silent.

These mutant Gu Immortals who were still roaming around were top tier cannon fodder, Heavenly Court's recruitment of them was a great move.

Fairy Yu Xiu's method also expanded Fang Yuan's horizons.

"Learning Gu... endless learning..."

Other than the dream realm, this was the first time Fang Yuan saw a killer move capable of directly raising attainment levels.

In the five hundred years of his previous life, he had no recollection of such a killer move.

From what he gathered and from Lu Wei Yin's information, there was no warning or hint that such a killer move existed.

This meant that the killer move was likely a new creation of Heavenly Court.

Heavenly Court had deep foundation and countless elites who progressed and developed with time.

Lu Wei Yin looked at Fang Yuan as he said: "This killer move is extraordinary, it can raise the power of an entire force. Attainment level is very hard to raise, even I am slightly moved by Heavenly Court's offer. There is also something more worrying, within <<The Legends of Ren Zu>>, there are records that Ren Zu and the other two went into Primordial Domain using true meaning."

"Heavenly Court possesses the killer move endless learning, this means that they have a method of creating true meaning that is unique in this world. This method might allow them to enter Primordial Domain earlier than others, or even like Book Mountain, they might be able to obtain Primordial Domain from the ninth layer!"

Fang Yuan nodded slightly.

Lu Wei Yin was very astute, all of his words made sense.

Primordial Domain was the key factor in the conflict of the three parties, even if a venerable revives successfully, to become a true Dao Lord again, they need to rely on Primordial Domain.

One could say that whoever obtains Primordial Domain first would gain the greatest advantage, they would become the eventual winner of this fight!

Fang Yuan pondered: "Endless learning is truly incredible and useful, but we also have a strategic level killer move ourselves. I have already used it."

Lu Wei Yin's expression turned to joy as he guessed: "That lingering poisonous ant plague killer move?"

Fang Yuan nodded while adding: "I used this move in Eastern Sea before, let's see how Heavenly Court deals with it. Other than that, we need to keep an eye on Longevity Heaven, I am quite curious about their following actions."

Lu Wei Yin thought about it and added: "Lord, since you have already used lingering poisonous ant plague, we should take the initiative to attack and exert pressure, when Heavenly Court is busy dealing with it, they will not have the time or energy to resist this move."

Fang Yuan had already shut his eyes: "You can go handle this matter. I want to deduce the Paradise Earth true inheritance here."

Lu Wei Yin immediately took his leave, his best idea was to communicate with Longevity Heaven and attack in unison.

After getting Lu Wei Yin's invitation, Longevity Heaven did not hesitate, they cooperated smoothly.

The truth was, their pressure was higher.

Many Gu Immortals defected from Savage Wilderness Great World to Green Lotus Great World, even more than Yellow Earth Great World. The most famous among them was Duan Hu.

This rank eight expert was very famous in Savage Wilderness Great World, with him taking the lead to join Heavenly Court, the influence on Longevity Heaven was dire.

Days later, Longevity Heaven and Fang Yuan sent out their troops again to attack Green Lotus Great World.

In the sky, Gu Immortals fought intensely.

"Kill!" Golden Fur Immortal Monarch held two large hammers on both hands as he attacked aggressively.

He was covered in thick golden fur, he had many Immortal Gu and killer moves, allowing his defense to be tight, he had no worries about charging forward.

The formation of Heavenly Court's mutant Gu Immortals were disrupted many times because of him.

"Don't be too arrogant." A child-like wood path Gu Immortal with grass growing on his head gritted his teeth as he blocked Golden Fur Immortal Monarch.

Golden Fur Immortal Monarch's advancement was halted, he fought against this immortal.

After dozens of rounds, there was no clear victor.

"Hmph!"

"I am Grass Head Child, I was born with an Immortal Gu, I am blessed with great fortune."

"You have Immortal Gu, but my Immortal Gu are also not fewer than yours!"

This wood path Gu Immortal shouted with a confident disposition.

Suddenly, his expression became distorted as his body started twisting around.

"So itchy!" Suddenly, Grass Head Child could not endure the intense feeling.

Wave of ants crawled out of his body, piercing his grass skin.

“What is going on? What are these things!” Grass Head Child was shocked, he quickly retreated.

“Hahaha, where are you going!” Golden Fur Immortal Monarch saw the chance and chased relentlessly.

Grass Head Child was hit by the killer move lingering poisonous ant plague, he was greatly distracted and lost his momentum, after several rounds, he was smashed into pulp by Golden Fur Immortal Monarch’s hammer, dying on the spot.

Similar scenes were occurring to the other mutant Gu Immortals.

With the activation of lingering poisonous ant plague, the situation was immediately changed.

Originally, Heavenly Court had many mutant Gu Immortals, they were able to enter a deadlock with Fang Yuan’s subordinates who were better equipped, but now that their immortal apertures were getting attacked, they lost all their morale, they had no will to fight.

“Run!”

“Why are there ants on my body as well?”

“Don’t kill me, I surrender!”

The formation collapsed entirely, Fang Yuan’s subordinates chased after them and obtained great results.

“This is the outcome for siding with Green Lotus Great World!”

“All the Gu Immortals who sided with them faced the judgment of lingering poisonous ant plague.”

“Kill all the captives, our master has given orders, we will not accept them!”

Ice Crystal Immortal Monarch and the rest cheered loudly, resounding in the entire battlefield.

They worked with another group from Longevity Heaven, making great advances and forcing Heavenly Court’s mutant Gu Immortals to run in fear, unable to retaliate.

The defeated mutant Gu Immortals found that they could not resolve lingering poisonous ant plague killer move, they had to rush to Book Mountain and kneel towards the peak, requesting for the sage’s help.

At the peak of Book Mountain.

Qin Ding Ling frowned: “Fang Yuan used that move after all! If we cannot resolve it, our great advantage is going to be lost entirely.”

Many of the mutant Gu Immortals were still watching in anticipation.

If Green Lotus Great World was too weak, even if the benefits were huge, they would not join them.

After all, great benefits were pointless unless one had sufficient lifespan to enjoy them.

At this moment, Fairy Yu Xiu defended Book Mountain while Fairy Ming Hao went to the front lines, preventing Longevity Heaven’s troops from causing any more trouble.

Fairy Yu Xiu was also quite troubled: "You have already given us the information of this lingering poisonous ant plague killer move. This is quite an impressive move, it contains poison path, enslavement path, refinement path, wood path, food path, and even heaven path profundity."

"It contains heaven path profundity?" Qin Ding Ling was deeply shocked: "No wonder Eastern Sea's Righteous Qi Alliance can only alleviate the effects of this move but not remove it completely!"

Chapter 2165: Operation of Heaven and Earth

Peak of Book Mountain.

Regarding Fang Yuan's lingering poisonous ant plague, Fairy Yu Xiu explained: "Thankfully, this move had already been used in Eastern Sea before, you also made Zui Xian Weng infiltrate Righteous Qi Alliance and obtained first-hand information about it. Thus, I am prepared against it."

"But the current lingering poisonous ant plague has been modified by Fang Yuan. My original method isn't going to be suitable, I need to modify it as well."

Qin Ding Ling heard this as her expression eased up slightly: "That will be good."

Fairy Yu Xiu smiled: "I only need three days to succeed. During this period, Heavenly Court can spread the news regarding lingering poisonous ant plague to everyone."

Qin Ding Ling acknowledged and left.

Not long after, the mutant Gu Immortals learned of the situation, they became very angry.

"Yellow Earth Great World's sage is truly too vicious!"

"I've heard that Yellow Earth Great World's Gu Immortals are united and harmonious. To think that their sage is such a vicious person, this is really a huge disappointment to everyone."

"In comparison, Green Lotus Great World's sage is really magnanimous, they have the disposition of a sage. Even Savage Wilderness Great World's sage pales in comparison."

The observing Gu Immortals were very disappointed. They waited for so long but neither Longevity Heaven nor Fang Yuan gave the response that they wanted.

They gained nothing from waiting, Yellow Earth Great World and Savage Wilderness Great World directly sent their troops and started the war!

These mutant Gu Immortals were very disappointed, but they also started to get angrier.

"The sages of these two great worlds are acting like this, are they not afraid that we will join Green Lotus Great World?"

"Hmph, the sages of these two worlds are too high and mighty."

"Forget it, I will join Green Lotus Great World instead!"

All of the observing mutant Gu Immortals chose to join Heavenly Court.

“Heavenly Court’s wisdom path method is quite formidable. The emotions of these mutant Gu Immortals were influenced, according to what I know, many Gu Immortals made the decision to join Heavenly Court in a spurt of anger.” Lu Wei Yin sighed as he explained to Fang Yuan.

Heavenly Court first spread information of Fang Yuan’s vicious method before helping the mutant Gu Immortals resolve their lingering poisonous ant plague without asking for compensation, finally, they even used a method to influence the emotions of these mutant Gu Immortals.

After this series of actions, not only did they alleviate lingering poisonous ant plague’s terrifying effect, they even retaliated and caused Fang Yuan and Longevity Heaven’s position to be worse than before.

“Currently, Heavenly Court has recruited many mutant Gu Immortals, their advantage in numbers is increasingly evident. Should we recall our troops at the front lines?” Lu Wei Yin asked.

Fang Yuan smiled as he waved his hand: “Heavenly Court is formidable, according to my deduction, this mysterious wisdom path killer move contains heaven path profundity too, it is similar to heaven’s will and has the ability to influence the thoughts and emotions of living beings.”

“Lingering poisonous ant plague has been troubling the Righteous Qi Alliance but Heavenly Court managed to resolve this move so easily.”

“In fact, I even modified this move once again.”

“However, Longevity Heaven is taking action now, let’s watch and see before making a decision.”

Gu Tou Luan was one of the mutant Gu Immortals who joined Heavenly Court.

After making the agreement with Heavenly Court, she traveled through the void and returned to her small world.

Using several days, she set up an immortal formation.

This immortal formation was Heavenly Court’s reinforcement, after activating it, it could influence the travel route of the small world, allowing it to land on the boundary of Green Lotus Great World.

“Green Lotus Great World’s sage is truly unfathomable. This immortal formation is amazing and has huge power but the expended immortal essence is so little.”

Gu Tou Luan praised internally as she activated the immortal formation.

The immortal formation burst out with profound light, spreading from the inside to the outside of the small world.

The small world had always been moving towards the center of the void, but under the effect of the immortal formation, it started to change its trajectory slightly.

“Hmm?!” After several breaths of time, Gu Tou Luan’s expression turned to shock.

“What is going on? I activated the immortal formation but the small world is uncontrollable, it is forcefully moving towards another direction!”

“Is the immortal formation ineffective?”

Gu Tou Luan quickly checked and was shocked to find out: It was not that the immortal formation was useless, but a profound force had been influencing her small world from long ago.

Compared to this vast force, the immortal formation had no strength to counter it.

Gu Tou Luan could only watch as her homeland flew and landed on the boundary of Savage Wilderness Great World.

This was not a unique situation, many small worlds were influenced and landed on Savage Wilderness Great World, while others were still on their way.

Gu Tou Luan and the other mutant Gu Immortals were stunned.

They joined Green Lotus Great World, but their own small worlds ended up in Savage Wilderness Great World, they would definitely be absorbed by Savage Wilderness Great World and fuse into it.

“This is the method of Savage Wilderness Great World’s sage!”

“Unbelievable, that sage already took action long ago. He is actually able to attract all the small worlds.”

“Only those small worlds at the periphery were spared.”

“What do we do?”

Many Gu Immortals were starting to feel regret. Had they known this, they would not have joined Green Lotus Great World so quickly.

Peak of Book Mountain.

“This is Giant Sun’s heaven and earth luck method.” Qin Ding Ling sighed: “Fate is fixed while luck is a variable. Longevity Heaven disregarded the cost and brought Luck Suppression Heavenly Palace here, they have already started to influence the heaven and earth luck of the eighth layer of Crazy Demon Cave. Thus, these small worlds were all drawn to them.”

“It is a venerable method after all.” Fairy Yu Xiu sighed. Even though they could understand Longevity Heaven’s method, they had no way of resolving it.

Not only because Longevity Heaven was superior to Heavenly Court in terms of luck path methods.

But because this method was used by Luck Suppression Heavenly Palace, to resolve it, they had to destroy the palace.

And Luck Suppression Heavenly Palace had been hiding deep within Savage Wilderness Great World, now that pseudo venerables could not use their full strength, who could reach it and destroy it?

Heavenly Court had no answer, they could only sit and wait.

This way, Heavenly Court gathered most of the mutant Gu Immortals, they had advantage in numbers. Longevity Heaven obtained most of the small worlds, Savage Wilderness Great World was growing and expanding rapidly.

Only Fang Yuan’s side was the weakest, during this period, not only did they not recruit many mutant Gu Immortals, they also failed to get many small worlds.

Heavenly Court started to instruct the mutant Gu Immortals to retaliate, the front lines that went deep into Green Lotus Great World started to be pushed away outwards again.

Gu Masters gathered into armies, fighting and killing all over the battlefield.

Immortals fought in the air, it was an intense battle.

Rock monkey Bu Tian Kong roamed unhindered, with a sudden roar, it vanished on the spot.

“This move again!” Bing Zhuo’s eyelids were twitching, he quickly looked around him: “Where? Where will he show up?!”

But Bu Tian Kong did not attack Bing Zhuo, it teleported behind Shi Zong instead.

“Take my fist!” Bu Tian Kong shouted.

Shi Zong quickly defended himself but his defensive killer move was quickly broken through.

Bu Tian Kong’s fist pierced Shi Zong’s chest, protruding out of his back.

Bu Tian Kong snickered, its body shook as a killer move was activated, Shi Zong exploded and shattered into pieces that flew everywhere.

Shi Zong and Bing Zhuo were rank eight Gu Immortals, while Bu Tian Kong also had rank eight cultivation level, to think that he managed to kill Shi Zong while going up against two opponents.

“No matter what formation this is, I will send it flying!” At the other end, Nie Kuang Feng, who was inside the Rotting Smell Vicious Cloud formation, shouted.

The six eggman Gu Immortals from Rotten Egg grotto-heaven formed into the ancient battle formation Rotting Smell Vicious Cloud as they trapped Nie Kuang Feng for some time, at this point, they were unable to hold on anymore as the latter broke out from within.

The six eggman Gu Immortals spat out blood in response, they were either dead or injured.

And on another battlefield.

Duan Hu fought against Lu Tong Lan.

Lu Tong Lan was the Desolate Extremity of the Eight Extremities, but she actually fell into a disadvantage.

Duan Hu’s attacks were powerful and wild, its body was tough like a mountain, when colliding, it felt like one was colliding with the world itself, Lu Tong Lan’s blue phoenix totem killer move was almost destroyed in the fight.

“These three immortals were born with immense innate luck, they are the luck children of Crazy Demon Cave’s eighth layer. Originally, Yellow Earth Great World should have produced such an expert too, it is a pity...”

Fang Yuan understood the reason behind these three immortals’ existence, he casted his gaze at Paradise Earth’s tomb.

Using luck inspection killer move, he saw that this Paradise Earth's tomb had immense luck that resembled a yellow soil mountain, it was unmoving and incredibly dense.

These days, with their losses at the front lines, many of Fang Yuan's subordinates also died.

But Fang Yuan remained calm as ice, these fatalities were just numbers to him.

The longer this dragged on, the more advantageous it was for him.

Fang Yuan had already comprehended a lot of the profundities regarding Paradise Earth's tomb, in the past he did not have the ability to create his own Tomb Earth, but now, he could create a huge graveyard in the sovereign immortal aperture to act as a node of the earth vein.

Most of Fang Yuan's time and energy were spent comprehending the refinement path profundity here.

Ordinary Gu Immortals refined Immortal Gu, while Limitless Demon Venerable refined the worlds of heaven and earth.

This gap in refinement path was now quickly filled up by Fang Yuan, he was even gaining huge results from it.

At the same time, Fang Yuan gained a deeper and clearer understanding of Limitless Demon Venerable's arrangements.

"It is time." Fang Yuan muttered lightly, he gazed afar with his deep abyss-like eyes.

Crack!

A shocking flash of lightning landed on the battlefield.

The immortals on the battlefield were shocked.

In an instant, lightning bolts crashed down like a forest, the immortals had to stop and retreat immediately.

Thereafter, tribulations of various intensity rained down like a torrent, occurring to all three great worlds and their boundaries.

At the peak of Book Mountain, Qin Ding Ling was shocked: "What is going on?"

After making some deductions, Fairy Yu Xiu explained confidently: "This is Limitless Demon Venerable's method, so it turns out that when the fusion of worlds reach a certain stage, tribulations will befall."

At the same time, Fang Yuan's gaze focused on these tribulations that were extremely far away.

Waves of comprehension emerged in the depth of his mind.

"All tribulations are superb methods in refining heaven and earth."

"Gu Immortals manage their immortal aperture, under normal circumstances, their main source of dao marks come from tribulations."

“When Gu Immortals successfully pass a tribulation, they would gain a large number of dao marks. These dao marks will modify the immortal aperture and cause the environment to change, this is the refinement of heaven and earth.”

By expanding this logic, all tribulations were refinement path methods.

Fang Yuan smiled lightly.

At this point, the refinement path profundity regarding the refinement of the world and heaven and earth had already been comprehended by him to a large extent.

“Earlier, my luck gave me an indication. Now is the time to use that move.”

Fang Yuan started to activate heaven’s envy Immortal Gu!

Chapter 2166: Heaven Envy Heroic Geniuses

The sky was in chaos, Gu Immortals fought intensely everywhere.

Wild winds blew, wind blades shot all over the place.

Ice Crystal Immortal Monarch paused for a moment, his body was surrounded by wind blades from all directions.

Ice Crystal Immortal Monarch’s square face was covered in frost, he snorted coldly, he shot out immense crystal frost qi that destroyed all the wind blades.

But at the next moment, Nie Kuang Feng suddenly arrived right before him.

Nie Kuang Feng was a green tornado to begin with, it condensed into a ball and burst out with a terrifying suction force!

Ice Crystal Immortal Monarch wanted to dodge but it was too late, he was trapped by the tornado, unable to escape for the moment.

“Oh no!” Ice Crystal Immortal Monarch’s expression changed.

It was too late to use extreme ice crystal light immortal suppression coffin now.

Normally speaking, the stronger the killer move, the longer the time needed to use it. When fighting against Nie Kuang Feng, Ice Crystal Immortal Monarch could not find the time or opportunity to use this move.

At the crucial moment, this move could no longer be used. During a deadlock, using this move would expose weaknesses for the enemy to exploit. Even if he used it, with the enemy on guard, the effect would not be decisive either.

“Hehehe, this is my signature killer move — Wind Suction Life Twister! I spent thirty years to painstakingly create it, before spending a hundred years to modify it. Nobody has ever survived against this move, you will be no exception.”

Nie Kuang Feng laughed wildly.

Ice Crystal Immortal Monarch's expression was grim, it was too late to dodge now, he could only activate his defensive killer moves desperately.

"Ahh—!"

Ice Crystal Immortal Monarch cried out in pain.

First, his arms were absorbed into Nie Kuang Feng's body, even though they were covered in thick ice crystals, they only lasted for a few moments before disintegrating.

Ice Crystal Immortal Monarch's arms were directly shredded into particles!

Next was Ice Crystal Immortal Monarch's body.

"I am finished." Ice Crystal Immortal Monarch felt despair at this moment, but suddenly, a bolt of black lightning shot down.

Nie Kuang Feng was directly hit and suffered a huge blow, its suction force stopped for a moment.

The speed of Nie Kuang Feng's wind ball tornado fell greatly, within the green wind, there was a large area of black ink-like color that got corrupted.

"Damn it, tribulations appeared again." Nie Kuang Feng gritted its teeth.

Since several days ago, tribulations started to occur at all corners of the various great worlds.

Especially places with more Gu Immortals, they would encounter more tribulations.

Now that there were many Gu Immortals fighting intensely on the battlefield, it was not strange to have many tribulations occurring here.

Nie Kuang Feng's attention was drawn to Ice Crystal Immortal Monarch again: "Die!"

Ice Crystal Immortal Monarch tried his best to break free but he could not get away from Nie Kuang Feng's suction force, he was pulled into Nie Kuang Feng's body inch by inch.

"I am finished!" Ice Crystal Immortal Monarch felt despair at this moment once again, but suddenly, a bolt of black lightning shot down.

Crack, the black lightning bolt landed on Nie Kuang Feng.

Nie Kuang Feng froze again, the black color in the green wind tornado became denser.

"This tribulation is so strong, it can actually cause such injuries to me." Nie Kuang Feng sighed, growling at Ice Crystal Immortal Monarch: "But you cannot escape, your life is mine!"

Ice Crystal Immortal Monarch was sucked into the tornado again.

"It seems that my life is really going to end here." Ice Crystal Immortal Monarch sighed again, but at this moment, a bolt of black lightning shot down on Nie Kuang Feng.

Nie Kuang Feng's movements froze, the tornado twisted and almost seemed like it would explode!

"What happened?"

“What is going on with this tribulation?!”

“Why did it hit me three times in a row? I am so close to Ice Crystal Immortal Monarch yet it did not even hit him once?”

“Is his luck that good? I don’t believe it!”

“I’ll suck him in with me!”

Crack.

Black lightning shot down, landing on Nie Kuang Feng.

Nie Kuang Feng refused to believe its luck: “I’ll do it again.”

Crack.

“I do not believe it, I’ll draw him in!”

Crack, crack, crack!

Nie Kuang Feng could not take it anymore.

As black lightning bolts continued to shoot down, they landed on his head without any deviation.

Nie Kuang Feng’s body almost collapsed, it could not draw in Ice Crystal Immortal Monarch anymore.

Ice Crystal Immortal Monarch took the chance to retreat, quickly getting away from Nie Kuang Feng.

“I actually survived? What in the world is going on?” Ice Crystal Immortal Monarch was lucky to survive, he was filled with disbelief and surprise.

Far away, black lightning continued to land on Nie Kuang Feng.

No matter where Nie Kuang Feng went, black lightning seemed to target it specifically.

No, not only black lightning, soon, tribulations like blood dragons and grey spirits also went to approach Nie Kuang Feng.

Nie Kuang Feng was going crazy, at this moment, it felt like the entire world was going against it!

Of course, tribulations also landed on other Gu Immortals, but Nie Kuang Feng experienced the most animosity from these tribulations.

While Ice Crystal Immortal Monarch healed himself, he observed and found another person who faced the same situation as Nie Kuang Feng.

It was rock monkey Bu Tian Kong!

This unlucky monkey was currently fighting against several rank eight Gu Immortals like Solid Rock Warrior.

Countless bats and white flying cranes attacked him, disrupting the rock monkey’s attacks and causing it to lose momentum.

Even though Solid Rock Warrior and the rest were also affected by the tribulations, they were less targeted and found an opportunity to retaliate fiercely.

The rock monkey was very troubled, in this situation, it could only turn from offensive to defensive.

Peak of Book Mountain.

“What is going on?” Qin Ding Ling stood up, her expression had changed.

Book Mountain was an information path secluded domain of heaven and earth, because of Heavenly Court’s method, it had been collecting the information of the two battlefields.

Thus, even though Qin Ding Ling stayed at the headquarters, she quickly observed many of the changes in the battlefields.

Currently, Heavenly Court’s troops had already moved into Savage Wilderness Great World and Yellow Earth Great World.

The tribulations in Savage Wilderness Great World were quite low regardless of strength or quantity.

Green Lotus Great World had an ordinary number of tribulations.

But Yellow Earth Great World was clearly abnormal, not only were they more severe, they even targeted Nie Kuang Feng and Bu Tian Kong.

“What is going on here?” Qin Ding Ling was uncertain and shocked.

Fairy Yu Xiu had started her deduction long ago, after getting the result, she said: “Amazing move, this should be Fang Yuan’s work. This mysterious killer move can actually amplify calamities and tribulations of heaven and earth, prioritizing the targets that have the most outstanding aptitude and talent.”

“Nie Kuang Feng and Bu Tian Kong represent the small worlds and Green Lotus Great World respectively, they are two of those who have the greatest innate luck among all the inhabitants of Crazy Demon Cave’s eighth layer.”

“Thus, they were targeted specifically!”

“Hmm?” Saying this, Fairy Yu Xiu’s expression suddenly changed: “This killer move’s range is increasing rapidly, it has already arrived here.”

“Oh no.” Qin Ding Ling’s expression changed yet again as she raised her head to look up.

Above Book Mountain, tribulation clouds rumbled, covering the entire sky with endless thick layers of over ten thousand li of space!

“The tribulations are still intensifying, what is going on?” Qin Ding Ling gritted her teeth, even someone like her felt a terrifying might from the tribulation clouds above her.

Fairy Yu Xiu’s expression was grim: “This tribulation is targeting Fairy Feng Ya. She possesses talent Gu, she has been in closed cultivation to deduce Limitless Demon Venerable’s arrangement to the best of her abilities.”

When wisdom path Gu Immortals made deductions, they were also exposing themselves.

Thus, heaven and earth detected Fairy Feng Ya's existence, it started to create a tribulation to exterminate her!

"Fang Yuan's mysterious killer move actually makes use of Limitless Demon Venerable's arrangement to attack our Heavenly Court, he is really vicious." Qin Ding Ling said in anger: "Lady Yu Xiu, please allow me to bring Divine Emperor City to the front lines and find trouble with Fang Yuan so that he cannot use this move casually."

"No. That is exactly what Fang Yuan wants to see." Fairy Yu Xiu shook her head and said with a firm attitude: "The key now is to protect Fairy Feng Ya. We will gather our formation and resist the tribulation, we will give Fairy Feng Ya the most optimal environment to make deductions."

At almost the same time, in Luck Suppression Heavenly Palace.

Immortal Zombie Giant Sun also sensed Fang Yuan's method, he praised in amazement: "This method contains heaven path profundity, it is truly out of my expectations that Fang Yuan seems to be cultivating heaven path! I wonder what the name of this move is?"

"Hmph!" Desolate Extremity Jiao Huo said in displeasure: "Fang Yuan has already allied with us, yet he is using this move on our Savage Wilderness Great World as well, causing our subordinates to face its effects too."

Immortal Zombie Giant Sun smiled lightly: "When we made the alliance agreement, he had already considered this, thus he used the loophole and is not breaking our alliance. After all, this move is mainly targeting the Gu Immortal Duan Hu."

"But our Gu Immortals are being weakened by the tribulation, that is the truth." Jiao Huo said.

Immortal Zombie Giant Sun nodded, his gaze turning deeper: "He is forcing me to take action. Hahaha, very interesting, then I shall make my move to deal with this method."

"Master!" All the Gu Immortals in the hall shouted in concern.

Immortal Zombie Giant Sun waved his hand: "Don't worry, the fate war has ended for a long time already, my strength has been recovering steadily. Moreover, I am taking action now not just to deal with Fang Yuan's killer move but also to participate in the operations of the worlds, I want to observe Limitless Demon Venerable's arrangements more deeply."

At the next moment, Luck Suppression Heavenly Palace shot out with a beam of light soaring to the sky, it was grand and powerful, shining in golden radiance.

"Very good, Longevity Heaven took action already." Fang Yuan soon sensed the commotion at Savage Wilderness Great World.

He looked over there, his gaze crossing a huge distance as he analyzed Savage Wilderness Great World.

"Longevity Heaven had a trump card indeed."

"At this moment, Luck Suppression Heavenly Palace activated and surged with luck path aura. This effect mixed into the operations of the worlds, combining with Limitless Demon Venerable's arrangements to hasten the fusion of the small worlds."

“No, there is also the method of all living beings luck in use.”

“Longevity Heaven’s subordinate mutant Gu Immortals are being taken care of, they are facing less pressure from the tribulations now.”

Fang Yuan observed for some time and gained great insights.

At his current level, he could already gain comprehension of other paths using his own as a foundation. Right now, by just observing a move from Immortal Zombie Giant Sun, Fang Yuan could deduce a lot of the profundity of all living beings luck and heaven and earth luck.

The move that Fang Yuan activated was called heaven envies heroic geniuses, it used heaven’s envy Immortal Gu as the core and targeted those people with outstanding talents.

Originally, Fang Yuan wanted to use this move on venerables, but now, it was unleashed at a superb timing, it complemented Limitless Demon Venerable’s arrangements and used his power to allow this move to spread out across the various great worlds, amplifying its strength!

Chapter 2167: Wooden Statue Lord Wu Guang

It rained not long ago.

The sky of Northern Plains was pale white, it looked extremely clear.

A Gu Immortal lowered his altitude, he was only tens of feet above the ground, flying rapidly as he scanned the area below him, seeming trying to find something.

This Gu Immortal was bare chested, his body was well proportioned and his muscles were bulging. He has an ordinary face, a sharp nose and pursed lips, giving the impression of a man with perseverance.

He looked at the ground with lush growing grass, a field of green filled his vision. But observing closely, he found that the ground below the grass were cracked and shattered, there was something going on here.

Because the Northern Plains Gu Immortal had sensed something amiss here, he came to investigate.

Now, he had already inspected the range of a hundred li.

Suddenly, a green shadow flashed in the crack of the ground.

“Found you!” The Northern Plains Gu Immortal’s eyes shined, he flew down rapidly with a grey shadow around him, he was filled with determination like an eagle hunting its prey.

Rumble!

The Northern Plains Gu Immortal directly crashed into the ground, causing a huge explosion, rocks flew while grass swayed in the air from the shock wave.

The Gu Immortal hit the target with one attack!

“Hmm?” At the next moment, his pupils contracted.

The ground cracked open, revealing a huge body below the topsoil, it resembled a huge yellow dragon.

But looking closely, it was not a dragon but a huge trunk of a ginseng.

The ginseng trunk was yellow in color, covered in wrinkles and gave people a feeling of great strength.

Even though it was attacked, the ginseng trunk exploded with terrifying power, as if a giant dragon was turning over its body.

Boom, boom, the surrounding ground was cracked again, grass and soil splattered, the Northern Plains Gu Immortal was sent flying by this action.

He flew up into the sky and saw the entirety of the ginseng. In the surrounding hundred li of area, yellowish ginseng roots were protruding out of the soil, it looked like a forest had appeared.

Several hundred roots that resembled yellow dragons attacked the Northern Plains Gu Immortal in a frenzy.

The Gu Immortal took a deep breath, grey shadows appeared around his body.

Under the cover of the grey shadows, his figure became blurred like a shadow, he alternated between intangible and solid.

As the ginseng roots landed on his body, they passed through like he was an illusion, there was no effect.

The Northern Plains Gu Immortal was like the moon in the lake, no matter how the water rippled, he was completely unaffected.

The Gu Immortal thus regained his footing and started to prepare his offensive method.

As the killer move was unleashed, greenish grey wooden spikes with the size of ancient trees stabbed into the ginseng roots, pinning them to the ground.

The Gu Immortal continued to use this move as the surrounding ginseng roots fell in number.

“What a good thing!” The Northern Plains Gu Immortal was called Wu Guang, he was a rank seven wood path Gu Immortal, titled Wooden Statue Lord.

He observed the ginseng roots for some time, his gaze becoming increasingly heated.

This yellowish ginseng was a mysterious product, even the wood path cultivator Wu Guang did not know much about it.

But this was quite a common situation. After the five regions merged, earth veins rumbled and qi tides surged, a vast quantity of cultivation resources appeared one by one, among which were many strange and mysterious things.

This ancient desolate plant was one of them.

It was found by Wooden Statue Lord Wu Guang by chance.

This gigantic ginseng had extraordinary value.

If Wu Guang could successfully obtain it, it would be a profitable source of revenue in the long run. But it was not easy to subdue a wild ancient desolate plant, compared to those desolate plants who were cultivated from saplings.

Subduing an ancient desolate plant required enslavement path methods, this was not Wu Guang's expertise.

But he was not asking for much now, he wanted to kill the giant ginseng and get a huge quantity of immortal materials.

Problems would arise if this dragged on, he was currently in the territory of the Huang Jin bloodline tribes, if they found him, the lone immortal Wu Guang would not reap any gains.

Immortal killer move — Decaying Wooden Death!

After the roots surrounding Wu Guang thinned to a certain extent, Wu Guang pushed with both palms, a loud explosion could be heard, a grey light pillar shot through the sky, landing on the trunk of the ginseng.

On the ginseng trunk, a huge hole was formed, it got instantly pierced by the light pillar.

The roots that were still attacking Wu Guang seemed to have lost all their strength, they fell to the ground like feeble insects, no longer having their strength like before.

"It is over." Wu Guang smiled lightly, but suddenly, his expression changed!

Rumble!

At the next moment, the ground shook intensely like heaven and earth was flipping around. A thousand ginseng roots appeared at once, they were tall and mighty, each being over a hundred feet in height, roots filled the entire place as their shadow cast down on Wu Guang's body.

Wu Guang was greatly shocked to realize that the ginseng trunk he perceived earlier was merely a larger branch of the entire plant.

"This ancient desolate plant likely has tens of thousands of years of history. It is very close to rank eight, it is at the peak of an ancient desolate plant!" Wu Guang was deeply shook.

Countless roots slammed down.

Wu Guang quickly dodged them.

But right at this moment, the wild Immortal Gu living in a certain part of the ginseng burst out with power, causing Wu Guang's speed to fall rapidly.

Wu Guang was hit by many roots at the same time.

At the crucial moment, the grey shadows appeared again!

A thousand ginseng roots rampaged like huge whips, cracking the air as they moved, creating huge shock waves.

Wu Guang's body shook intensely, his immortal essence expenditure was very high.

“Oh no.” Wu Guang could sense the aura of death. At this rate, his immortal essence storage was going to be emptied.

Even though he relied on a defensive method and managed to stay alive, this defensive killer move had a huge flaw, once activated, the Gu Immortal could not move, they had to stay at the same spot.

Wu Guang fell into danger again.

The situation changed too quickly, at the next moment, he was at the brink of life and death.

Wu Guang was feeling bitter internally.

He had been too overconfident, he did not investigate the situation more clearly.

As a matter of fact, the ginseng had been moving underground, it was not easy for Wu Guang to find it and force it to come to the surface. If he had to make a thorough investigation, by the time he finished, the ginseng would have escaped into the ground already.

“It is too late to say anything now, to think that I, Wu Guang, would die in the hands of an ancient desolate plant.”

As his immortal essence dried out, Wu Guang started to feel despair.

Roar—!

Right at this moment, a fierce tiger attacked.

The tiger was black in color and gave off a metallic luster, it was huge like a mountain and had sharp and powerful claws, it easily tore the ginseng roots to shreds, it was extraordinarily fierce.

“What ancient desolate beast is this? No, wait, this is a killer move.” Wu Guang stared with wide eyes, feeling surprised and curious.

The black tiger fought against the ginseng roots, the two were stuck in a deadlock, being evenly matched.

Rumble!

At the next moment, the ground shook again.

The ginseng roots suddenly straightened before falling to the ground with a loud thud, no longer moving again.

“What? This mysterious ancient desolate plant got killed by someone in one move!” Wu Guang was shocked, his internal worry became much deeper.

Often, humans were much scarier than beasts or plants.

Wu Guang did not need to think to know that the Gu Immortal who killed the ancient desolate plant was very strong, extremely strong!

Once Wu Guang escaped death, he saw a green robed Gu Immortal.

Wu Guang knew this person, he immediately cupped his fists: "So it was you who saved my life, Chen Cheng."

Gu Immortal Chen Cheng waved his hand: "I was only assisting, the one who saved your life is my master."

"Master? Whose servant did you become?" Wu Guang was shocked.

At this moment, the ground cracked as a figure flew up into the sky.

Wu Guang stared with wide eyes at this female immortal, she wore a half-mask that covered the lower half of her face.

Her brows were sharp and her eyes shined with brilliant light, she wore a black-gold armor with an aura of domination around her, intimidating her foes.

The one who entered the ground to kill the mysterious ginseng was Hei Lou Lan.

Roar—!

The black tiger roared as it returned to her, turning into a tattoo on Hei Lou Lan's skin.

It was the totem killer move — Dark Capital Strength Tiger.

Wu Guang had never seen this move or even heard of it, upon seeing this sight, his shock intensified.

Hei Lou Lan looked down at him at an angle: "I saved you, how will you repay me?"

Wu Guang's body shook, he quickly expressed his gratitude: "I will not forget the debt of saving my life! I wonder what I can do for you? As long as you tell me, I will do my best to complete your request."

But Hei Lou Lan laughed as she looked at Chen Cheng: "I see that you are acquainted with him, what use does this person have?"

Chen Cheng: "Master, we are heading to Crescent Moon Mound to challenge Yin Wu Que, this person has a close relationship with him, he can lead the way."

Wu Guang quickly added: "I am acquainted with Brother Yin, but the challenge..."

Chen Cheng smiled as he explained: "Master succeeded in her cultivation, she came out of seclusion to challenge the experts of the world, she wants to face off against the various geniuses. I lost to her and according to the agreement, I became her servant."

Wu Guang took in a deep breath: "So that's it..."

He was hesitant.

Yin Wu Que was his good friend, if he had to lead this expert to his friend for a fight, regardless of result, he would feel very troubled.

But Hei Lou Lan did not care about Wu Guang's feelings, she said: "Lead the way."

Wu Guang shook internally.

Hei Lou Lan's tone was filled with dominance that did not allow rejection.

Wu Guang was sure that if he defied her, he would end up like the ginseng earlier.

"Please follow me, benefactor and Chen Cheng." Wanting to preserve his own life, Wu Guang led the way.

Inside the sovereign immortal aperture.

Milky white sea water rose and fell with the tides, the sea was covered in thick fog, one could not see anything including their five fingers.

In this milky white fog, countless people seemed to be moving in it rapidly at all times.

Shi Zong's mind was completely chaotic, he was muddled and dazed, he was submerged in the sea water at times, while floating in the white fog at other times.

He could vaguely hear a voice calling him: "Shi Zong, since you are awake, why are you not coming out?"

Thus, he followed this voice and walked out of the sea, arriving at the shore.

He was bare naked with no clothing on him, after leaving Human Sea, he suddenly jolted awake.

Looking at the dense white fog and sea around him, he checked his own body.

He was in disbelief: "Didn't, didn't I die already?!"

"Shi Zong, you have already revived in master's secluded domain of heaven and earth, Human Sea. But your cultivation level has been lost, you are a mortal and will need to cultivate from the start again." The Gu Immortal who led him out smiled as he said.

Shi Zong was speechlessly dazed, after a while, he fell to the ground as he knelt by the shore.

"I was able to revive all thanks to master's kindness and generosity!" Shi Zong raised his head and shouted, tears flowing down his face in excitement.

Chapter 2168: Unifying Human And Gu

Before Fang Yuan entered Crazy Demon Cave, the secluded domain of heaven and earth Human Sea had already been completed.

In order to construct the complete Human Sea, Fang Yuan ordered the slaughter of countless humans, he had unsurmountable sin and blood on his hands, but he also achieved his goal as he obtained the results that he expected at this moment.

Evidently, if news that dead Gu Immortals could revive through Human Sea spread among his subordinates, Fang Yuan's force would gain a huge boost in morale!

The truth was, in the five hundred years of his previous life, Human Sea secluded domain was used by Eastern Sea's Xia clan.

In Fang Yuan's first life of five hundred years.

When Xia clan's Gu Immortals died outside, they were not truly dead, they could revive from Human Sea. Although their Immortal Gu and immortal aperture's accumulations would be lost, they would still retain their cultivation level and immortal aperture itself.

Eastern Sea's Xia clan gained a huge reputation because of this, for the following period of time, they invaded Southern Border. Southern Border's Gu Immortals fought against Xia clan, over time, they learned about Xia clan's background and foundation, eventually, Chai clan mimicked Human Sea and created their own Human Mountain secluded domain.

In the five hundred years of his previous life, fate Gu was only damaged but not entirely destroyed. Now, fate Gu was completely gone.

Thus, Human Sea could revive Gu Immortals with much less difficulty.

But Fang Yuan did not let those Gu Immortals who revived become Gu Immortals again immediately.

Firstly, to revive a Gu Immortal who retained their cultivation level, it would cause a huge expenditure to Human Sea. After a few uses, he would need to slaughter a massive number of humans and variant humans to replenish it.

It was not that Fang Yuan could not bear to do that, but it was troublesome.

Also, if these Gu Immortals became mortals again and had to cultivate all over again, Fang Yuan could make use of them.

Firstly, these revived Gu Masters had the foundation of a Gu Immortal, they had rich cultivation experience, it was probable that they would succeed in immortal ascension again. During their ascension, the natural inspiration would be a good chance for Fang Yuan to get answers he wanted!

Secondly, when these Gu Immortals re-cultivate, they would need to undergo tribulations, Fang Yuan could help them with that and gain heaven path dao marks.

Finally, after these Gu Immortals cultivate from the start, they might gain inspiration and innovate new killer moves. In the process, they would also be more reliant on Fang Yuan, it would mean that he would gain greater control over them.

But at this moment, after using the killer move human revival sea, his heart shook as inspiration flashed in his mind.

At this moment, he obtained a crucial breakthrough in refinement path.

"So the human body Gu refinement method is like this." Brilliance flashed in Fang Yuan's mind, a light sense of joy appeared in his heart.

The so-called Human Sea revival method was in essence using a Gu cultivator method to refine the human body and soul. This was a human path method indeed, but it was also using Gu to refine a human!

Fang Yuan lacked insight on the human body Gu refinement method earlier. When he researched on Ni clan, he found that the human body Gu refinement method was related to blood path and others, this conclusion was not wrong.

“Using a human to refine Gu and using Gu to refine a human, the two are interchangeable in essence.”

These two were like the two sides of a coin, they existed with one another.

The true core was — Unifying Human and Gu!

It was like sovereign immortal fetus Gu, it was a Gu worm that could turn into a human body after activation. But it did not provide a soul, instead, the sovereign immortal body would be created with the most compatibility with the Gu cultivator’s soul.

When Fang Yuan used Human Sea to revive a Gu Immortal, he was refining a human body and also a human soul.

Looking at the legendary immemorial desolate beast Qing Chou, it was originally a killer move that was converted into a life form.

This meant that any life form could be created with a Gu cultivation method!

This was totally possible in theory.

And the truth was, this was already hinted in <<The Legends of Ren Zu>>.

In <<The Legends of Ren Zu>>, chapter three section fourteen, it was clearly stated. The myriad lifeforms in the world were originally secluded domains of heaven and earth — Gu worms within the Blue Sea of Life. These Gu worms were washed ashore by the waves of the Blue Sea, turning into all sorts of lifeforms.

All the countless methods converged into the same origin.

Using Gu to refine Human, using Human to refine Gu, Human and Gu were one to begin with!

Although Fang Yuan understood this logic, he had only fully comprehended the complete details of this logic at this moment in time.

This comprehension broke through the thin barrier that obstructed him, Fang Yuan could see a bright scene beyond it.

He only needed to make a small deduction now to design a killer move that could unravel Ni clan’s Gu Immortal method, he could extract all sorts of Immortal Gu from the Ni clan members’ bodies.

It was not easy to reach this stage.

Fang Yuan had a foundation in this aspect already, after all, he used the human isolation style Gu refinement method in the five hundred years of his previous life.

In this life, he had all sorts of encounters and accumulations in this aspect.

Even though Ni clan was not his breakthrough point, by studying and analyzing them, Fang Yuan gained a deeper foundation.

Eventually, the immense foundation led to a qualitative change, Fang Yuan unexpectedly succeeded in his breakthrough due to Human Sea.

Throughout history, refinement path had two styles.

The first was the hairy man nature Gu refinement method, it used nature and dao marks to refine Gu.

The opposite was Limitless Demon Venerable using Gu worms to refine heaven and earth.

The second was the human isolation style. Ni clan's Gu Immortal, the refinement path quasi-supreme Ni Ren, used humans to refine Gu, implanting all sorts of Immortal Gu deep within the bloodlines of his Ni clan descendants.

The opposite was sovereign immortal fetus Gu, the Human Sea revival method, and the Blue Sea of Life which used Gu to refine human.

"The depth of refinement path supreme grandmaster should likely comprise these four aspects. Currently, I have already comprehended human and Gu refinement methods, I only lack the final 'using Gu to refine heaven and earth' aspect! By comprehending the arrangements of Limitless Demon Venerable, I have already broken through this hurdle, I have passed the initial stage with no obstacles remaining, as long as I continue progressing, I will eventually comprehend all the profundities." Fang Yuan evaluated.

Treasure yellow heaven.

Bai Ning Bing's divine sense roamed around within it.

She was selling immortal materials.

Ever since she saw Fang Huan's revival by chance and killed him, Bai Ning Bing obtained a large number of desolate beast and ancient desolate beast corpses. She even obtained the true inheritance from searching Fang Huan's soul.

Bai Ning Bing's immortal materials were already about to be sold out.

Only the last portion was left.

"How are you selling these immortal materials?" At this time, a divine sense came and asked for the price.

Bai Ning Bing explained the sale price.

After Little Immortal Xing Luo heard the price, she shrank slightly and wanted to bargain: "Can it be a little cheaper?"

Immediately after, Little Immortal Xing Luo stated her quote: "If you sell at this price, I'll buy it directly!"

Bai Ning Bing wanted to refine Gu herself, she created the killer move breath concealment ice pearl, if she could refine an ice pearl Immortal Gu, it would supplement this killer move greatly.

She had already collected most of the immortal materials now, Bai Ning Bing did not excel at trading, she wanted to nod and agree to the transaction when suddenly, another divine sense got closer.

"Oh, someone is actually selling the mala[1] duck's neck? This food path ancient desolate beast is very rare, where did you find it from?" The divine sense asked.

Bai Ning Bing was unwilling to expose clues about herself, she asked directly: "Are you buying or not?"

"What price?"

Bai Ning Bing expressed the price while the divine sense said: "I'll buy it, I'll buy everything. Do you need immortal essence stones or immortal materials?"

Bai Ning Bing gave the list of ice and snow path immortal materials she needed.

The divine sense smiled: "I have them all, just wait a moment."

In Eastern Sea, Zui Xian Weng withdrew his divine sense and contacted the Righteous Qi Alliance.

The Righteous Qi Alliance had abundant immortal materials in the inventory, Zui Xian Weng used his contribution points to exchange for some ice and snow path immortal materials.

Next, he sent these immortal materials into treasure yellow heaven, allowing Bai Ning Bing and Zui Xian Weng to complete the transaction.

After getting the immortal materials she wanted, Bai Ning Bing turned around and left treasure yellow heaven.

Central Continent's Little Immortal Xing Luo's divine sense was still lingering around: "It's such a huge pity."

She failed to obtain the immortal material she wanted.

Little Immortal Xing Luo was a lone immortal, she was a single person with only rank six cultivation level. She could not match Zui Xian Weng in wealth, not to mention the fact that he took out ice and snow path immortal materials that the seller requested.

"I'll continue looking around." Little Immortal Xing Luo was very disappointed but she did not want to give up, she continued to look around in treasure yellow heaven.

"What is this?" Not long after, she was shocked to find that a huge mountain appeared in treasure yellow heaven!

"Who put an entire mountain in here?" Sensing this situation, Little Immortal Xing Luo stared with wide eyes as this was the first time she had seen such a 'gigantic' transaction.

The appearance of the mountain caused a small commotion to occur.

Many divine senses came over and many Gu Immortal wills even gathered to observe the commotion.

"Who is so amazing to be able to sell an entire mountain?"

"It is not easy to do this, they will need deep earth path attainment."

"This mountain is quite good, it contains abundant moon path dao marks. But this large resource point is very valuable, who would sell it? Selling it in treasure yellow heaven will also incur a huge fee of immortal essence stones."

The discussions had just started when this mountain vanished instantly.

“Someone actually bought it!”

“It seems that the transaction was made beforehand.”

“The mountain earlier seems to be Southern Border’s Moon Bowl?”

It was indeed Southern Border’s Moon Bowl.

Fang Yuan had left a batch of Gu Immortals in Southern Border, Eastern Sea and various areas.

After negotiating with Wu clan, Moon Bowl was sold by Wu clan, sent into the sovereign immortal aperture through treasure yellow heaven.

“Moon Bowl has arrived, catch it, catch it!”

“Good, good, move to the left, move a bit to the right.”

Bam!

The earth shook slightly as Moon Bowl landed on the ground.

Immediately, a rockman Gu Immortal came forward and used a killer move, manipulating Moon Bowl’s mountain roots to stab into the ground, turning it into a node of the earth vein.

The other variant human Gu Immortals were free for the moment, they watched while conversing.

“Did you hear? Shi Zong revived!”

“Not just Shi Zong, any Gu Immortals who died in the outside world were revived through Human Sea.”

“Master has divine might, he is all-powerful! Reviving us Gu Immortals is nothing more than a piece of cake!”

“But we will lose all our cultivation level and need to start all over again.”

“Hmph, there is only hope for the future if we are alive, so what if we become mortals? We just need to re-cultivate!”

“If only I can receive the missions for combat.”

“Don’t even think about it. Those Gu Immortals who are able to take those missions have strong battle strength, even though you have rank seven cultivation level, you have just advanced, you still lack sufficient Immortal Gu.”

“That’s right, we need to take one step at a time. Let’s work hard and do these missions to elevate ourselves first.”

While a portion of Fang Yuan’s elite subordinates fought outside, the rest helped to manage the sovereign immortal aperture, they worked hard and contributed their blood and sweat.

Even though unexpected events constantly occurred in the sovereign immortal aperture, it was still orderly and well managed.

[1] Mala is the spicy and numbing flavor in Chinese cuisine, which is made from Sichuan peppercorn, chili pepper and various spices simmered with oil.

Chapter 2169: Shocking Find of Thieving Heaven's True Inheritance

Northern Plains.

A few rounds of an intense battle had just passed.

Yin Wu Que retreated constantly while pointing his finger, aiming at Hei Lou Lan.

Immortal killer move — Crescent Moon Thrust!

Ching!

At the next moment, there was the crisp sound of unsheathing blades as a translucent pale blue crescent moon shot out from the ground like a sword towards Hei Lou Lan.

Hei Lou Lan was prepared against this, she jumped up at almost the same time, avoiding it.

Yin Wu Que's pupils contracted slightly, this move was very fast and ordinary Gu Immortals could not dodge it easily. But Hei Lou Lan succeeded in that, it showed that she had an exceptional investigative killer move.

"My method has only failed against Tian Xia Xin and Zhou Ye Zi. The former is a wisdom path Gu Immortal capable of deductions while the latter cultivates time path, he had an investigative method that could peer a few breaths into the future."

"To think that today, it would fail against this mysterious female immortal. Even though this person cultivates strength path, she is not to be underestimated!"

Thoughts flashed in Yin Wu Que's mind as he retreated at the same time.

Rumble!

Hei Lou Lan exerted strength as her body charged forward like a meteor, pushing aside the air in front of her, arriving before Yin Wu Que in a few breaths of time.

Yin Wu Que gritted his teeth, he raised both hands and used a killer move — Moon Rise.

Moonlight gushed out of his forehead as he started to float up, but before he got far, Hei Lou Lan's fist already landed.

Bam.

With a loud sound, Yin Wu Que was sent flying by Hei Lou Lan like a rubber ball.

His thin body was sent flying far away, he landed on the ground and bounced along the surface for tens of steps, causing a gorge to form in his path.

Raising his head again, Yin Wu Que's vision was filled with Hei Lou Lan's figure, as well as her fist!

Yin Wu Que's heart jumped.

The fist earlier caused considerable injuries to Yin Wu Que despite his defensive method.

He did not want to face another punch.

“You fell for it!” Yin Wu Que suddenly smiled, he stretched out five fingers and aimed at Hei Lou Lan.

Clang, clang, clang, clang, clang!

Instantly, five translucent light blue crescent moonblades shot out, they were created from nothing, targeting Hei Lou Lan who was at the center from all directions.

Hei Lou Lan’s eyes shined with cold light, she did not dodge but attacked with her fist instead.

Yin Wu Que’s smile froze on his face, he watched as this fist got larger and larger, before landing on his eye socket.

Boom!

Yin Wu Que was originally lying on the ground with his head raised, after taking this terrifying hit, his head was pushed down into the huge pit that was created below him.

Ground shook as rocks were sent flying.

The spectators, Wooden Statue Lord Wu Guang and Sincerity Immortal Chen Cheng, had twitching eyelids as they watched Yin Wu Que get punched, they could feel his pain from over there.

Yin Wu Que was sent crashing underground from this punch, he was tens of feet below the ground surface.

Dust clouds spread but Hei Lou Lan did not chase him, she retreated rapidly instead!

Clang clang clang...

An unceasing number of moonblades were produced and shot towards Hei Lou Lan in a frenzied state.

Hei Lou Lan had a calm expression as she continued to dodge. Her actions were simple and agile, most of the moonblades were evaded while some were shattered by her fists.

Yin Wu Que attacked desperately, he finally obtained some time to regain his footing.

He flew out of the deep pit, rising towards the sky.

Currently, he was covered in dust and one of his eye sockets had cracked, the eyelid was swollen and turning purple, the vision in his eye was extremely blurred, his gaze flickered with lingering fear.

“The two punches earlier almost made me unconscious. It was so dangerous! Thankfully, the moon has already risen successfully.” Yin Wu Que let out a breath of air.

Earlier, moon qi appeared from the top of his head, it had already gathered into a waxing crescent moon hanging in the sky under broad daylight.

The moonblade killer move was still being used continuously as Hei Lou Lan dodged while diverting some attention to look at the waxing crescent moon in the sky.

“Earlier, the moonblades could only be formed from the ground, but now they can appear from thin air, is this the effect of the moon in the sky?” Hei Lou Lan thought rapidly.

As her thoughts collided, they sparked brightly: “But this amplification is not worth paying such a huge price, Yin Wu Que endured two punches from me in order to activate this crescent moon.”

Hei Lou Lan was calm and composed internally.

Earlier, she took the initiative to attack, now, she focused on defense, her actions were meticulous and allowed her to advance or retreat at will.

Yin Wu Que was still using his moonblade killer move.

Crescent moonblades continued to form, the attack was unceasing, but Hei Lou Lan managed to defend herself stably and even had the chance to attack the crescent moon in the sky with her fists.

The waxing crescent moon suffered an impact from her punch, but it only shook slightly like the mirage in a desert.

“The crescent moon is getting larger?” Bright light flashed in Hei Lou Lan’s eyes as she found out new information at this moment.

“So that’s it.” Hei Lou Lan had some sort of insight in her mind.

After she stopped moving back, she charged ahead instead, enduring the attacks of the crescent moonblades in order to attack Yin Wu Que.

Yin Wu Que’s heart jumped: “This female immortal’s combat instincts are too powerful, it seems that she has seen through my combat system!”

Yin Wu Que had an immortal opportunity in his earlier days, he inherited the inheritance of a certain Olden Antiquity moon path Gu Immortal great expert, he thus had a complete and stable combat system.

The waxing crescent moon was hanging in the sky, it amplified the various moon path killer moves of Yin Wu Que. At the same time, when Yin Wu Que’s moon path killer moves get destroyed or countered, the lingering moon path dao marks would be absorbed by the waxing crescent moon, causing it to grow.

The waxing crescent moon would grow into a half moon, before becoming a full moon.

Once it becomes a full moon, Yin Wu Que’s offense and defense would be amplified to the strongest state.

Because Hei Lou Lan had seen through this tactic, she started to use her strongest offenses.

Yin Wu Que knew from the start that he was not Hei Lou Lan’s match at the moment, he had to choose a delaying tactic to retreat while blocking her offenses.

Hei Lou Lan engaged in a full frontal charge.

The two immortals chased and escaped respectively, they fought intensely, rocks were sent flying wherever they went, nobody in their path was spared.

Immortal killer move — Eight Directional Strength Fight!

Hei Lou Lan shouted as her body flickered, eight figures flew out and encircled Yin Wu Que.

Yin Wu Que was caught unguarded and got surrounded in the middle.

“Oh no!” Yin Wu Que’s expression turned pale at once.

...

Fang Yuan’s divine sense expanded and spread out in the sovereign immortal aperture.

The sovereign immortal aperture was simply too big, it was hard to inspect it entirely, he had to extend his divine sense for some time before he could see the entire landscape.

Strange events were still occurring in various places, but with Star Collection City controlling the situation, these events were mostly dealt with by Gu Immortals nearby.

There was no longer any disturbance, Fang Yuan focused on observing the earth vein this time.

Originally, the earth vein was already created but it was crude and simple. More than ten nodes formed into a line which made a circle around the five regions, connecting the first and the last nodes.

But after this period of development, although the current earth vein was still following a singular trail, there were many branches developing away from the main trail already, it was no longer as empty as before.

“After some time, the nodes at the end of these branches will be interlinked to form a second ring that is even larger. By then, the earth vein will have two different layers of connected lines.”

In the current five regions, not only were Southern Border’s super forces transacting with Fang Yuan, the Righteous Qi Alliance was also preparing for this matter under Qi Sea Ancestor’s orders.

Two sea islands had already been sold to the sovereign immortal aperture through treasure yellow heaven, they were used as the earth vein nodes in Mini Eastern Sea.

Eastern Sea’s righteous path forces were still kept in the dark.

They did not know that the buyer was Fang Yuan.

There was profit to earn, a large sum at that, thus they were very enthusiastic.

Fang Yuan had abundant capital now, even though he faced a lack of resources in his initial investment period, this problem no longer existed.

Fang Yuan had a vast number of immortal materials!

He used these immortal materials to pay for the sea islands and famous mountains.

The immortal materials from the first six layers of Crazy Demon Cave were chaotic and could not be transacted. But the seventh layer’s dao marks were obtained by Fang Yuan through Thieves Den, they became pure rank nine immortal materials.

These rank nine immortal materials were all extraordinarily valuable, there was no way to quantitatively define the price. Thus, Fang Yuan's wealth also soared, giving him great confidence in transactions.

The truth was, if he did not use them to refine Gu, these rank nine immortal materials could only be sold to rank eight Gu Immortals or super forces.

Rank six or seven Gu Immortals were not able to even make use of rank nine immortal materials.

These immortal materials were too high-end, even many rank eight Gu Immortals did not have the capability to use them.

Only those super forces wanted to stock up on them.

After inspecting the earth vein and seeing nothing wrong, Fang Yuan retracted his divine sense after noting that the development was progressing well.

As his attention returned to the main world, Fang Yuan willed as Cooking Luck Pot shook slightly.

Fang Yuan started his luck inspection.

He saw that some changes had occurred to his silver light luck pillar.

The silver light pillar had become more condensed.

It was half the size of earlier, but the density was at least five times of before!

Be it the earth vein construction or Fang Yuan's own refinement path comprehension, they were reasons that caused the silver light pillar to become more condensed.

The three clouds representing Star Constellation, Spectral Soul, and Giant Sun were still at the top of the pillar of light, showing intentions to suppress and obstruct him.

But at the bottom of the silver light pillar, the original soil dust circulating around had already turned into a mound that covered the silver light pillar, it seemed like the foundational base of the pillar.

"Recently, I have been comprehending Paradise Earth's tomb, I gained some insight, I can now create my own Tomb Earth."

"Using Tomb Earth, I can make Gu Immortals revive! Even the Immortal Gu that they had when they were alive can be produced alongside the person."

"Looking at the luck phenomenon, if I can comprehend Northern Plains' Paradise Earth true inheritance, it will help me greatly too!"

"Huh?"

Right when Fang Yuan was thinking, his luck changed again.

He saw that above the silver light pillar, a dazzlingly bright star appeared between the three clouds.

This star was shining in a silver-white light, it penetrated the cloud layer and shined directly onto the surface of the silver light pillar. They were similar silver lights, they seemed like they would benefit the silver light pillar a lot.

“What is going on?” Fang Yuan’s body shook: “So that’s it! I understand now.”

He gazed afar, through ten thousand li, looking at the central area of the intersection between the three great worlds.

A small world revealed itself over there, emitting the intense aura of Thieving Heaven Demon Venerable.

It was Thieving Heaven’s space!

It was very likely to contain one of Thieving Heaven’s true inheritances!

Chapter 2170: Thieving Heaven Versus Limitless

Crash crash crash....

A series of brutal assaults hit Yin Wu Que, who was on the ground.

Yin Wu Que shielded his head with both arms, he was curled up into a ball, desperately activating his defensive killer move!

However, after a barrage of punches and kicks, his defensive method soon broke apart.

“I admit defeat, I admit defeat!” Yin Wu Que shouted loudly in panic and desperation.

“Fairy Black Moon, it’s over, spare him.” Wu Guang who was at the side came to urge her.

Hei Lou Lan was only wanting to spar and had no intention to kill, immediately, she stopped using her method.

She turned to Chen Cheng and asked: “Yin Wu Que has been defeated, who is the next opponent?”

While she was asking, two Gu Immortals flew over from the sky.

One female and one male immortal.

The male had a skinny body and a sharp face, he had bean-like eyes, he emitted rank seven light path aura.

The female immortal had the body of a young child, her eyes were watery and bright, her petite body was cute and delicate, she was a rank seven wood path Gu Immortal.

They were Liu tribe’s Liu Chang and Liu Luo.

Chen Cheng and Wu Guang looked at each other, they did not speak.

Liu Luo was the first to ask: “What is happening here?”

As nobody answered her, Liu Luo quickly turned to Yin Wu Que.

Yin Wu Que was still lying on the ground, he received Wu Guang’s treatment as he smiled bitterly: “This Fairy Black Moon came to challenge me, she has outstanding methods, I am not her match.”

Liu Chang heard this and his eyes shined, he smiled and said: "Fairy Black Moon? May I have the honor of knowing your name? To think that a new outstanding figure would emerge in Northern Plains' Gu Immortal world."

Liu Luo mocked Yin Wu Que: "Yin Wu Que, do you know the difficulties of a lone immortal now? Our Liu tribe invited you to be our external supreme elder, it is something that would benefit you. At least, after joining our tribe, if any Gu Immortal challenges you, it will incur the wrath of my Liu tribe!"

Yin Wu Que smiled bitterly and shook his head: "Thank you for the repeated offer, but I am used to being alone, I have no intention of joining any super force."

Liu Luo frowned: "Can you not see what's good for you?"

Ever since the fate war ended, in order to prepare against the five regions chaotic war, Longevity Heaven had ordered the various Huang Jin tribes to unify Northern Plains' Gu Immortal world. Many Gu Immortals were recruited into Huang Jin tribes, while many demonic immortals were killed as well.

At the other side, Hei Lou Lan showed no intention of answering Liu Chang's question.

She said to Chen Cheng: "Let's go."

"Hold on!" Liu Luo's sharp voice interrupted her, she looked at Hei Lou Lan: "You are very brazen, do you not know that Yin Wu Que is the target of our Liu tribe's recruitment? Now that you injured him, you want to leave so easily?"

"Sister." Liu Chang called out, feeling helpless internally.

Liu Luo had just gone from rank six to seven, with the rise in strength, her temperament was also more arrogant now.

If she was alone, she might not act like this, but with her brother Liu Chang here with her to rely on, Liu Luo showed a casual and carefree attitude.

But because Liu Chang doted on his sister, he did not chide her, he stared at Hei Lou Lan: "Fairy, why be in a rush to leave? Are you interested in joining our Liu tribe? If you can become Liu tribe's external supreme elder..."

"Shut your dog mouth." Hei Lou Lan replied plainly.

"What?" Liu Chang was stumped.

Liu Luo stared with wide eyes, she was filled with rage and shock: "How dare you! Bitch..."

Before she finished, Hei Lou Lan interrupted again: "Two dogs that block my way, bark once more and I will kill you."

Seeing that the situation was going out of control, Chen Cheng quickly came in to mediate the situation.

Liu Luo called out in a shrill voice: "Today's matter will not end like this, I want to see if..."

Boom!

Hei Lou Lan attacked fiercely, a strength path phantom appeared before Liu Luo abruptly, punching the latter's face and sending her flying.

"Sister!" Liu Chang was enraged, he was about to attack.

Boom, he was also sent flying by Hei Lou Lan.

Liu Chang was a famous rank seven expert of Northern Plains, his strength far exceeded Liu Luo, he quickly stabilized his footing and said: "You dare to attack us Gu Immortals of Liu tribe?"

Boom boom boom!

Eight strength path phantoms appeared around Hei Lou Lan, the dark capital strength tiger totem was also summoned, beating the Liu tribe siblings to a pulp.

"This, this, this..." Chen Cheng watched with a dumbfounded expression.

"It cannot be resolved amicably now." Wu Guang was tongue-tied, he smiled bitterly towards Yin Wu Que: "So Fairy Black Moon's temperament is like this, Brother Yin, it was really lucky that you managed to survive at her hands."

Yin Wu Que snorted: "If Fairy Black Moon really kills the Liu tribe siblings, do you think Liu tribe or Longevity Heaven will let us off?"

Wu Guang was dazed, he showed an unsightly expression.

"Are we going to take action to help the Liu tribe siblings?" Wu Guang asked helplessly.

Yin Wu Que gritted his teeth: "Do you want to hug Longevity Heaven's smelly feet? Ever since Giant Sun Immortal Venerable created the Imperial Court contest, the entirety of Northern Plains became his kingdom. For the last three hundred thousand years, have we, the lone cultivators of Northern Plains, not suffered enough?"

Most of the immortals knew about the truth behind the Imperial Court contest.

Northern Plains' lone immortals and demonic cultivators had a poor impression of Giant Sun Immortal Venerable. Back then, Five Elements Grandmaster, who was still a lone cultivator, invaded Longevity Heaven, he was the proof of this mindset.

Longevity Heaven desired to rule Northern Plains' Gu Immortal world, but the difficulty was too high.

Many Gu Immortal experts did not want to submit to the Huang Jin tribes, they did not want to obey the words of these people they detested.

With the exception of two cases.

One was during the five regions chaotic war, when Northern Plains' Gu Immortal world faced great external pressure, these Gu Immortals would have no choice but to band together as one.

The second was if Giant Sun Immortal Venerable revives successfully, his invincible might would force all these demonic immortals and lone cultivators to submit to him.

The truth was, even in the five hundred years of Fang Yuan's previous life, Longevity Heaven managed to unify Northern Plains' Gu Immortal world because of Ma Hong Yun.

Ma Hong Yun had the power of Fortune Rivalling Heaven, he seemed to be someone who started from a humble origin, he was able to unite many lone and demonic immortals as a result. But he was in fact Longevity Heaven's chess piece, an arrangement of Giant Sun Immortal Venerable.

By relying on this, Longevity Heaven was able to unify Northern Plains' Gu Immortal world after the five regions chaotic war started.

But now, the five regions chaotic war had yet to start while Ma Hong Yun was killed by Fang Yuan, the difficulty for Longevity Heaven to unite Northern Plains was simply much harder.

"Fairy Black Moon, I will definitely find you in the future to repay the shame of today's defeat." Liu Chang brought Liu Luo away, they escaped in anger.

He was very strong but he could not display his strength.

Hei Lou Lan targeted Liu Luo constantly, it made Liu Chang hold many reservations, he could only take hits passively, it was a terrible feeling.

"They finally escaped." Chen Cheng let out a breath of air, he had been holding his breath in anxiety earlier.

"Hmph, they cannot escape. After I defeat the lone and demonic immortal experts, I will challenge these Huang Jin tribes, I will let the whole of Northern Plains know of my might." Hei Lou Lan smiled coldly.

Chen Cheng was feeling a headache, he did not expect his master to have such grand ambitions. not only did she want to defeat the lone and demonic immortals, she even wanted to challenge Northern Plains' overlords, the Huang Jin super tribes!

"Fairy, if you have such an ambition, I, Yin Wu Que, am willing to travel alongside you as your entourage." Yin Wu Que was standing with Wu Guang's help, he walked towards Hei Lou Lan.

"Oh?" Hei Lou Lan raised her brows.

Yin Wu Que smiled bitterly: "The truth is, if I do not travel with you, when Liu tribe's Gu Immortals come to find me, they will not let me off. I do not want to be a member of the Huang Jin tribe."

"Alright." Hei Lou Lan nodded: "Back then, Chu Du also wanted to challenge the Huang Jin tribes. We both cultivate strength path, how can I be inferior to him? Let's go together."

"I will come along too." Wu Guang said: "This is an interesting matter, I want to watch it with my own eyes."

Thus, Hei Lou Lan's group grew larger again.

Crazed Demon Cave, eighth layer.

Three hundred thousand years ago.

In the void, worlds were created and destroyed like bubbles.

Suddenly, chains appeared, making loud clanking sounds as they formed into a chain domain that intertwined in the surrounding area.

"I was actually discovered." Thieving Heaven Demon Venerable was slightly surprised, having been forced to reveal himself.

Limitless Demon Venerable's will appeared: "Do stop, new venerable. The Space Door that you seek is not here."

As he spoke, countless chains shot out towards Thieving Heaven Demon Venerable from all directions.

Thieving Heaven Demon Venerable moved like lightning, traversing between the chains, he was agile like a fish in water.

"Limitless Demon Venerable's will?" Excitement shined in his eyes: "How do you know I am looking for Space Door? Are you saying that because you do not want me to destroy your arrangements in Crazy Demon Cave? You hid the ninth layer too deeply, I actually could not decipher it immediately, why don't you let me in and take a look, as long as Space Door is not there, I will take my leave!"

Limitless Demon Venerable's will said: "Thieving Heaven, even though I do not leave Crazy Demon Cave, I know many things about the current world. The current you cannot even control yourself, how can I allow you to enter the ninth layer?"

"Cannot control myself? Why can't I control myself?" Thieving Heaven Demon Venerable raised a brow: "I just want to go home, I just want to go back and see my friends and family, but all of you want to obstruct me!!"

Thieving Heaven Demon Venerable spoke with increasing agitation.

Limitless Demon Venerable was silent, the chains attacked even more fiercely now.

Thieving Heaven Demon Venerable snorted coldly, he stopped moving far away, no longer dodging.

A blinding blue jewel-like light burst out with radiance, Thieving Heaven Demon Venerable activated his killer move, the blue light faded, forming into a huge suit of armor around his body, turning him into a metallic giant.

The metallic giant was covered in electric sparks, it moved rapidly towards Limitless Demon Venerable's will.

The endless chains came to obstruct him but they were all pushed aside by the metallic giant.

Thieving Heaven Demon Venerable rode in the metallic giant and charged his way forward, forcing his way to the central area of the chain domain, grabbing onto Limitless Demon Venerable's will.

But at the next moment, Limitless Demon Venerable's will dissipated.

At almost the same time, another lump of Limitless' will appeared, saying calmly: "This is Crazy Demon Cave, my will can regenerate endlessly in here, there is a limitless supply of it."

"Is that so?" Thieving Heaven Demon Venerable smiled coldly: "Then have a taste of my methods."

Bam bam bam...

A shocking battle erupted at once.

Within the void, countless worlds were implicated, they were all destroyed in the process.

Limitless Demon Venerable's will had the territorial advantage, he was able to fight evenly with Thieving Heaven Demon Venerable initially. But as time went by, Thieving Heaven Demon Venerable was superior after all, he started to gain the upper hand.

Limitless Demon Venerable had died long ago, this was only his will controlling Crazy Demon Cave after all.
