Chapter 2191: Fighting And Entering The Immortal Graveyard

Rumble...

Thunder rumbled ceaselessly. Immortal Zombie Giant Sun breathed out countless golden rays; Star Constellation Immortal Venerable emitted beautiful starlight; Fang Yuan's killer moves engulfed the battlefield.

Worlds shook like a huge pancake, mountains and rivers continued to be destroyed completely.

In such a battlefield, the three great worlds became food on a chopping board.

Fang Yuan breathed out indifferently; countless sword qi flew out like lumps of clouds, blocking the starlight. He then pushed with his hand as another killer move shot out like a divine wind that roared like dragons or tigers.

Fang Yuan was not able to do anything more than that in combat.

He had too many dao marks, his killer moves were also too powerful. He could only choose the weakest among those to use.

In fact, although the fight between the three was filled with explosions, Immortal Zombie Giant Sun and Star Constellation Immortal Venerable were also like Fang Yuan, they were holding back.

This was not Primordial Domain.

They could show their skills fully in Primordial Domain, but this was the eighth layer. Crazy Demon formation still needed the great worlds to act as clues and fuel, if this place was destroyed, it would definitely trigger Limitless Demon Venerable's retaliative measures.

"But it doesn't matter, we only need to restrain Star Constellation Immortal Venerable." Fang Yuan was happy to accept this outcome.

Both him and Immortal Zombie Giant Sun were delayed in Crazy Demon formation, resulting in Heavenly Court's victory in the fight between the great worlds.

With their return now, another change emerged in the overall battle situation.

Fang Yuan and Immortal Zombie Giant Sun joined hands to obstruct Star Constellation Immortal Venerable, while Zhan Bu Du and the rest counterattacked.

Qi waves surged as Demon Immortal Qi Jue ran rampant in the battlefield.

The phantom image of the damaged Xi Land appeared above his head, facing Seven Fiendish Primeval Monarch and Shabi Ninety-five once again.

Shabi Ninety-five roared towards the sky as it charged into the battle.

Immortal killer move — Xi Xi!

Demon Immortal Qi Jue was already prepared, immediately using his strongest method. Shabi Ninety-five's qi path killer move was absorbed by Xi Land, increasing Demon Immortal Qi Jue's foundation.

Shabi Ninety-five got a huge fright, retreating quickly.

If not for Xi Land being damaged and only thirty percent of it remaining, even some parts of Shabi Ninety-five's body would have been devoured.

"Senior, let me lend you a hand!" At the crucial moment, an Immortal Gu House in the shape of a tombstone flew over.

It was Gu Yue Fang Zheng in Demon Judgment Board.

Immortal killer move — Blood Extraction Light!

A scarlet blood light pillar pierced the skies and shot towards Demon Immortal Qi Jue.

"If not for my Xi Land being damaged and only thirty percent of it remaining..." Demon Immortal Qi Jue flew away, dodging this vast attack.

Right at this time, a qi wall suddenly spread out and seemed to connect heaven and earth, it suppressed Heavenly Court's Gu Immortals.

Qi Sea Ancestor had made his move.

There was similarly a secluded domain of heaven and earth above his head, it was Hu Land.

Using Hu Land as the core, his various qi path killer moves had boundless might and unparalleled vastness.

Qi wall killer move was originally only limited to defending, but Qi Sea Ancestor did the opposite, spreading it to entrap enemies.

Even Demon Immortal Qi Jue was surprised at such power.

He took several glances at Hu Land specially, commenting inwardly: "Truly the secluded domain of heaven and earth that is comparable to Xi Land. It is just that Xi Land is good at absorbing, while Hu Land is specialized in releasing. If both lands were gathered and used together in a complete circulation..."

Boom boom boom.

On the other side, Zhan Bu Du wore the blood-red cape and moved like a flash of red lightning.

Everywhere he went, Heavenly Court's Gu Immortals were beaten badly.

Qing Chou was already killed by Qi Sea Ancestor's Hu elevation, even if it was revived, it would need to recuperate for a long time in Divine Emperor City, and would not be able to participate in the battle for this period of time.

Without Qing Chou and the fact that Star Constellation Immortal Venerable was unable to use her full strength, the bulky Zhan Bu Du once again became a headache for Heavenly Court!

Zhan Bu Du tore through the sky, closing in on Duke Mei.

“Duke Mei, careful!” Duke Tong shouted while hurrying from afar.

Duke Mei shouted with fury: “Junior, don’t be arrogant!”

He activated his strongest method, his eyebrows and hair fluttered and grew tens of feet long.

His snow white hair could become hard and soft, it was used for both attack and defense. The skillful series of moves even immobilized the violently charging Zhan Bu Du.

Zhan Bu Du only felt that he could not use his strength. His violent force was diverted and dispelled, it was very stifling.

He immediately opened his mouth and roared, yellow lightning erupted from his roar, destroying the countless hair in his surroundings like they were dry twigs.

A part of the incomplete freedom transformation was thunder rush yellow bird transformation. This move was a fierce and powerful method that shot yellow lightning, its power was magnified several times in Zhan Bu Du’s hands.

Zhan Bu Du broke through the obstacles and arrived before Duke Mei, directly punching ahead.

Duke Mei’s killer move was broken, the backlash caused him to reveal a weakness. He dodged a second late as the punch broke his head like a watermelon, his brain matter splattering everywhere.

Duke Mei died but his phantom aperture that contained all kinds of Gu worms, immortal essence, and immortal essence stones flew towards the immortal graveyard.

Zhan Bu Du tried to catch it but the phantom aperture passed through his palm like an illusion.

Seeing Duke Mei dying right before him, Duke Tong shouted furiously: “Demon, you will pay with your life!”

His muscles that were bulging and shining with brass luster rained down punches after punches. Every punch broke through the sound barrier and had horrifying momentum.

Zhan Bu Du laughed fiercely: “Come at me.”

He charged head-on and fought Duke Tong in close combat without dodging.

Bam bam bam!

Punches and kicks interchanged, Zhan Bu Du just attacked without defending. Duke Tong’s punches struck his body, the pain made Zhan Bu Du attack even more wildly.

Soon, Duke Tong was unable to hold on and fell into disadvantage.

Heavenly Court Gu Immortals hurried over to reinforce him, using all kinds of killer moves to attack Zhan Bu Du.

Zhan Bu Du’s movements slowed down immediately as he was attacked by lightning, golden spears, and so on.

His robust body shook slightly, he endured it all and grabbed Duke Tong’s hand.

“You can’t run away!” Zhan Bu Du laughed malevolently, exerting strength in his hand.

Crack, Duke Tong’s large and rough arm was broken completely!

Duke Tong shouted in pain, his leg kicked like a whip, creating countless leg shadows that drowned Zhan Bu Du.

Zhan Bu Du’s eyes shone with a fierce light as he punched Duke Tong’s chest.

The two immortals staked their lives in attacking the other, blood and flesh splattered everywhere.

Duke Tong kicked Zhan Bu Du’s two shoulders again and again, Zhan Bu Du’s neck and face turned purple from a lack of blood flow. While his rib bones were shattered, his heart that had no protection was also destroyed by Zhan Bu Du!

Duke Tong’s heart was destroyed, but he still roared and continued to attack.

Zhan Bu Du gave an evil grin, he stretched out his hands like a bear and clasped Duke Tong’s head.

Zhan Bu Du pressed viciously; first, he pressed his thumbs into Duke Tong’s eyes, squeezing the eyeballs till they burst. Shortly after, with a crisp crack, Duke Tong’s head broke into pieces.

Finally, Zhan Bu Du clenched his fingers, crushing Duke Tong’s brains, his face, and the crushed head together.

Only then did Duke Tong’s attacks stop, his body fell while his phantom aperture flew away with his Immortal Gu.

Zhan Bu Du’s gaze was vicious as he followed the phantom aperture, his gaze landing on the immortal graveyard.

Just as he was about to charge into the immortal graveyard, an Immortal Gu House flew over and blocked his path.

Divine Emperor City!

Zhan Bu Du showed a solemn expression, he restrained his fearless momentum slightly.

After all, Divine Emperor City had the strength of painting path, Zhan Bu Du could not defend against it; if he was careless, he would also be captured and sealed in painting world by Divine Emperor City.

Star Constellation Immortal Venerable resisted Immortal Zombie Giant Sun and Fang Yuan while observing the whole battlefield, a trace of worry showed up on her face.

Heavenly Court lacked manpower. They could have the upper hand if they just fought Fang Yuan or Longevity Heaven. But when these two sides allied, they were in disadvantage.

Especially now that she was tied up and Heavenly Court lacked pseudo venerable battle strength, Heavenly Court was being beaten back by Zhan Bu Du and the rest’s crazed attacks.

Immortal killer move — Humble Reciprocation!

Star Constellation Immortal Venerable moved her left palm, a small phantom image of Book Mountain floated on it.

Thousands of killer moves bloomed like fireworks or like a chaotic tidal wave as they poured out in a torrent.

These killer moves had their respective target, each targeting their original owners. Demon Immortal Qi Jue, Qi Sea Ancestor, Zhan Bu Du, and the rest were 'taken care of', they had no choice but to divert their attention and focus on defending.

Immortal Zombie Giant Sun was also engulfed by golden rays, he was also targeted by humble reciprocation.

Undoubtedly, this move was truly suitable for the current situation.

It was not that Star Constellation Immortal Venerable did not have powerful methods like Hu elevation, but if she used them, it would trigger Limitless' countermeasures.

And humble reciprocation was only 'returning' the other Gu Immortals' attacks, the power of each move was not high and did not cross Limitless' bottom line.

At the same time, these killer moves targeted their original owners and not the three great worlds. Their owners had to focus on defending instead, this greatly stabilized Heavenly Court's situation.

Star Constellation Immortal Venerable was holding Book Mountain while pointing with another hand; stardust shot towards Fang Yuan.

She needed to pin down Fang Yuan herself.

Because Fang Yuan's killer moves could not be 'returned' by humble reciprocation.

These killer moves were compound killer moves, only Fang Yuan with his sovereign physique could use them. So, Star Constellation Immortal Venerable had to target Fang Yuan herself.

Fang Yuan gave a cold snort, suddenly using the compound killer move wind-light-fire-lightning wheel!

This move was modified from fire-wind wheel, adding in profundities of light path and lightning path.

Five rings surrounded Fang Yuan, the five rings rotated and carried him away rapidly.

Fang Yuan had been secretly inspecting and discovered that the aura of Heavenly Court's immortal graveyard kept on growing stronger, it was extremely odd. With Book Mountain already in Star Constellation Immortal Venerable's immortal aperture, only the immortal graveyard was left outside. It was a vital area of Heavenly Court!

Humble reciprocation burdened the mind and consumed too much thoughts, even Star Constellation Immortal Venerable was burdened.

Fang Yuan retreated from the fight and charged towards immortal graveyard, Star Constellation Immortal Venerable immediately experienced what Fang Yuan felt when she ran away from the fight before.

Star Constellation Immortal Venerable quickly moved to stop Fang Yuan, but Immortal Zombie Giant Sun noticed this. Even though there had been no communication, he decisively moved to stop Star Constellation Immortal Venerable.

Fang Yuan's main body charged into the immortal graveyard alone.

"Not good, this demon Fang Yuan is here!"

"He finally discovered the immortal graveyard's secret."

"That's fine, we don't have to keep on hiding here."

Duke Mei, Duke Tong, and others appeared to block Fang Yuan with a decisive and furious expression.

All of them had actually been revived!

Chapter 2192: Invading The Door of Life and Death

Immortal killer move — Year Beast Summoning.

Fang Yuan waved his hand, dozens of immemorial year beasts appeared from the air above him.

To complete the Twelve Zodiac battle formation, he had kept on fishing immemorial year beasts and gathered a complete set after much difficulty. As for these, they were all leftovers.

Immemorial year beasts roared and howled as they streaked across the air towards the immortal graveyard.

Duke Mei and Duke Tong were still blocking Fang Yuan's path.

At the same time, many Gu Immortal figures appeared from the immortal graveyard. They were those who had died in the battle before.

The Gu Immortals moved out, stopping all the immemorial year beasts.

Fang Yuan came to a realization after seeing this: "It seems like the Gu Immortals who revived in the immortal graveyard have intact cultivation and dao marks as well. As for the Gu worms, their phantom aperture brings them back to the immortal graveyard when they die."

Heavenly Court's Gu Immortal revival method was extremely advanced, with almost no flaws.

"Fortunately, Fang Yuan discovered this ambush in time!" Lu Wei Yin felt fortunate. If they were continued to be kept in dark, when the battle fell to a stalemate, and these Gu Immortals attacked, Longevity Heaven and Fang Yuan's side would be caught off-guard.

Star Constellation Immortal Venerable sighed inwardly.

The reason she concealed these Gu Immortals and did not let them participate in the battle immediately was to ambush at the crucial time, it was also to preserve strength for Heavenly Court.

The expedition to Crazy Demon Cave was not a fight to the death between the three sides, it was a competition to seize the derivation results of the Crazy Demon formation.

In this aspect, the main player was Star Constellation Immortal Venerable herself, others like Fang Zheng and Che Wei did not have the qualifications to take part in this kind of contest.

Moreover, with Heavenly Court weakened to a great degree, they had little manpower. Even if Star Constellation Immortal Venerable obtained the Crazy Demon formation's derivation and governed Heavenly Court in the future, she would need manpower to control Central Continent. She could not be a leader with no followers.

But now, Fang Yuan had discovered these people.

Star Constellation Immortal Venerable was aware: This demon Fang Yuan was crafty and cruel with not even a little pride, since he found this weakness, he was definitely going to take advantage of it.

People like Reckless Savage Demon Venerable disdained attacking those that were weaker than them.

Although Spectral Soul Demon Venerable slaughtered countless lives, he treated everyone the same. He killed the weak, he killed the strong, slaughter had become his nature and madness had seeped deep into his bones.

But Fang Yuan purposely bullied the weak! He liked attacking and bullying the weak, but if he met someone stronger, he would go into hiding. Before the fate war, Heavenly Court searched for him repeatedly, but he kept on hiding, using wisdom path methods to guard against deductions.

Stardust flew, Star Constellation Immortal Venerable had no choice but to move to support the immortal graveyard.

Immortal Zombie Giant Sun naturally stopped her with all of his methods.

Star Constellation Immortal Venerable used the illusion killer move once more, even if Immortal Zombie Giant Sun could find out the real copy, he would need some time to check.

Star Constellation Immortal Venerable succeeded in returning to the immortal graveyard.

But in just this short while, Duke Mei and Duke Tong had died miserably at Fang Yuan's hands once again.

Fang Yuan tried to catch their phantom apertures, but did not succeed.

"If the immortal graveyard is not destroyed, these Gu Immortals will still revive with their cultivation level restored. This is a big problem!" Lu Wei Yin also hurried over.

Following Star Constellation Immortal Venerable's movement, other Heavenly Court Gu Immortals also returned to the immortal graveyard.

The situation once again turned into an offense and defense battle. Heavenly Court was still the defending side, but this time, they were not guarding Book Mountain, instead, they were surrounding the immortal graveyard and fighting an intense battle!

"Hmph, once we kill these Gu Immortals and destroy the immortal graveyard, Heavenly Court will only have Star Constellation Immortal Venerable left. Hahahaha." Zhan Bu Du let out crazed laughter filled with killing intent.

However, Heavenly Court seemed to have expected this situation.

This immortal graveyard was already modified, Heavenly Court's Gu Immortals flew down and acted as the formation cores, forming an immortal formation.

The immortal formation created fog that quickly spread across the whole battlefield. Inside it, Gu Immortals could not see clearly, like they were inside thick clouds.

Not only this, Gu Immortal figures were still rising from the immortal graveyard.

Zhan Bu Du and the rest fought with these figures, these figures had the same battle strength as their main bodies, but after they were killed, they only broke apart into lumps of fog.

Immortal Zombie Giant Sun deduced for a while and said: "This is a painting path formation, but it also contains human path methods. This formation uses Divine Emperor City as the core, Heavenly Court Gu Immortals as supplementary cores, and Star Constellation Immortal Venerable as the main formation core. It will be extremely difficult for us to break this formation, do you have a good plan?"

Fang Yuan shook his head, his expression turned cold.

Once they entered a deadlock, it would be very disadvantageous to him.

Heavenly Court had infiltrated the Crazy Demon formation very deeply, they had a huge lead. If Heavenly Court was allowed to stall for time, when the three great worlds broke down into fuel for the Crazy Demon formation and the derivation of eternal life succeeds, Heavenly Court would have a much higher chance to seize the results than Fang Yuan and Immortal Zombie Giant Sun.

Heavenly Court was not a match for Fang Yuan and Immortal Zombie Giant Sun's alliance in a frontal fight. But under Star Constellation Immortal Venerable's strategic and decisive leadership, Fang Yuan and Immortal Zombie Giant Sun were the ones who fell into a passive state.

Fang Yuan was aware of the severity of this situation, immediately replying: "I know a bit about human path methods, but I don't know the first thing about painting path. Giant Sun, you are proficient in painting path, we need to join hands to have a chance at deciphering this formation."

Immortal Zombie Giant Sun nodded slightly, he had the intention of allying as well.

Immediately, the two stopped attacking. They only ordered Lu Wei Yin, Zhan Bu Du, Bing Sai Chuan, and the rest to try attacking the formation, so that they could gain all kinds of clues and test their speculations.

Fifteen minutes went by, Qi Sea, Qi Jue, and the rest continued attacking with no success, their injuries accumulated instead.

Heavenly Court's formation was still standing firmly.

Fang Yuan suddenly made his move, the Human Sea in his sovereign immortal aperture became turbulent, causing the fog in the outside world to fluctuate as well.

Immortal Zombie Giant Sun acted as well, spitting out rays of golden light. The golden light spread throughout the whole formation like ripples.

Wherever the golden light went, the fog dissipated, revealing the immortal graveyard.

The two sides' alliance army saw this and cheered.

But this did not continue for long, the golden light dissipated quickly; the fog was restored almost immediately, blocking the sight of the immortals again.

Zhan Bu Du and the rest tried to attack the formation, but they failed. They could not even sense the locations of the formation cores.

Immortal Zombie Giant Sun was astonished for a moment before smiling bitterly: "This formation should have already broken, but the main formation core is Star Constellation Immortal Venerable. She forcefully used a wisdom path method to stabilize this formation!"

Gu Immortals were the foundation of killer moves, the main part of any methods was still the person. Under Star Constellation Immortal Venerable's control, this formation of Heavenly Court's was forcefully stabilized, firmly obstructing Immortal Zombie Giant Sun's and Fang Yuan's alliance army.

Fang Yuan slowly shook his head: "Looks like we won't be able to break this formation in a short period of time."

Immortal Zombie Giant Sun did not reply, silently agreeing with this judgment.

When he and Fang Yuan attacked just earlier, it was already their strongest method that was allowed in this situation. Since it could not break this formation, they would need half a month or so to deduce and break this formation.

According to the current fusion rate of the great worlds as well as the Crazy Demon formation that was accelerated by Star Constellation Immortal Venerable, half a month was enough for the derivation to be complete.

Immortal Zombie Giant Sun's expression returned to normal, asking brightly: "Good formation! Star Constellation Immortal Venerable, can you tell me the name of this formation?"

Star Constellation Immortal Venerable's voice came from within the fog: "This formation is called Transient White Cloud City Suppression, it was created by Genesis Lotus Immortal Venerable but was not perfected. Only now, after Heavenly Court explored deeply into human path, we managed to fortunately complete it."

Right at this time, Fang Yuan attacked once again, causing the formation fog to turn chaotic.

Fang Yuan continued: "Giant Sun, since we cannot break the formation, we need to weaken Star Constellation Immortal Venerable for the future."

"That is reasonable." Immortal Zombie Giant Sun immediately shot golden light which spread throughout the whole formation.

Wherever the golden light went, the fog disappeared and everything was cleared.

But, Star Constellation Immortal Venerable still stabilized the formation, soon, the battlefield was covered in fog again.

Fang Yuan and Immortal Zombie Giant Sun attacked again and again, while Star Constellation Immortal Venerable stabilized the formation every time. Both sides had no other choice.

As this stalemate continued, Immortal Zombie Giant Sun's expression changed suddenly, he felt some changes in luck.

After dozens more rounds, Divine Emperor City suddenly shook, an immortal flew out of the painting world.

Immortal Zombie Giant Sun took this chance and shot out golden light, instantly, rays of golden light spread like ripples.

Divine Emperor City's shaking caught Star Constellation Immortal Venerable off-guard, the formation was not stabilized, causing the formation to break. Many Heavenly Court Gu Immortals who acted as the formation cores started coughing blood, every one of them was heavily injured!

Zhan Bu Du took the lead to kill his way into the immortal graveyard, shouting towards that Gu Immortal who broke through the painting world: "Shen Shang, ally with us in attacking Heavenly Court!"

This crucial character who broke the formation was the pseudo venerable of Eastern Sea's righteous path who cultivated human path, Shen Shang.

Shen Shang was shocked mentally and physically, but he immediately joined Fang Yuan's side without any hesitation and attacked Heavenly Court.

Star Constellation Immortal Venerable heaved a deep sigh as she waved her sleeve. She took all the Heavenly Court Gu Immortals and Immortal Gu Houses, and entered deep into the immortal graveyard.

Fang Yuan and Immortal Zombie Giant Sun naturally would not give up. They chased all the way and saw a secluded domain of heaven and earth in the depths of the immortal graveyard.

This secluded domain of heaven and earth was a tall pitch-black door, it emitted an aura of eeriness, deathly silence, terror, and power.

Secluded domain of heaven and earth — Door of Life and Death!

Star Constellation Immortal Venerable entered the Door of Life and Death, but Fang Yuan and the rest slowed down.

It was not easy to enter the Door of Life and Death.

<> recorded this in detail, Ren Zu had once asked wisdom Gu for guidance, wisdom Gu told Ren Zu the path to enter the Door of Life and Death was called the path of destiny. Living beings could enter the door through the path of death; if they wanted to exit, they needed to walk through the road of life. The path of death was filled with suffering Gu, while the road of life had three obstacles – Dang Hun Mountain, Luo Po Valley, and Reverse Flow River. Within the Door of Life and Death, there was Pacifying Soul Lake, fairness Gu, and so on.

Not only these, according to Fang Yuan's intel, it was clear that the Door of Life and Death had Spectral Soul Demon Venerable's main body as well as Ren Zu's eldest son Verdant Great Sun's soul!

Now, there was Star Constellation Immortal Venerable and the Heavenly Court immortals.

The Door of Life and Death had become a dangerous area.

Star Constellation Immortal Venerable entered the Door of Life and Death with no hesitation, there was close to zero possibility of there being no arrangements inside.

Chapter 2193: Spectral Soul's Shocking Awakening

Looking at the Door of Life and Death in front of him, Fang Yuan immediately recalled his previous luck inspection result.

The dark clouds that represented Spectral Soul Demon Venerable were corroded by Star Constellation Immortal Venerable's starry clouds.

"Let's look at it again." Fang Yuan willed and used Cooking Luck Pot.

His silver light pillar luck had condensed a bit. The dust around the base of the pillar was getting increasingly thick and solid, as for the three clouds above the pillar, the starry clouds and dark clouds had almost merged into one, Giant Sun Immortal Venerable's golden cloud was still suppressed to the bottom.

The starry clouds and dark clouds had become even larger, they were already beginning to corrode Fang Yuan's silver light pillar.

This change clearly indicated a problem.

"Heavenly Court has prepared abundantly in Crazy Demon Cave, looking at this, it seems like Spectral Soul Demon Venerable has actually allied with Star Constellation Immortal Venerable?"

"According to the current state, Heavenly Court has too much of a lead."

"It is very likely that the final victor will be Star Constellation Immortal Venerable."

Previously, there was Thieving Heaven's true inheritance, an external factor, that affected the silver light pillar.

But when Fang Yuan observed his luck now, there was no external factor remaining.

In fact, at his level, there were extremely few external factors that could influence him and this battle in Crazy Demon Cave.

Only factors like Thieving Heaven's true inheritance had the ability to influence it.

"Looks like I will have to rely on myself to resolve this situation." Although the result of the luck inspection was not good, Fang Yuan activated his method decisively.

A finger-thick rainbow of chaotic colors wriggled out of his body.

The rainbow first linked to the Qi Sea clone, granting him a multi-colored radiance that covered his whole body. The rainbow came out again and connected to Zhan Bu Du.

“This move will protect you when you move in the Door of Life and Death.” Fang Yuan said to Lu Wei Yin, Shen Shang, and Demon Immortal Qi Jue.

Demon Immortal Qi Jue smiled: “I have my own way.”

Shen Shang and Lu Wei Yin received this move.

Thereupon, the multi-colored rainbow connected them as well.

At the other side, Immortal Zombie Giant Sun put Calamity Luck Altar in his immortal aperture, his whole body was covered in a barrier of golden light. Right now, he was staring at above Fang Yuan’s head.

Ordinary Gu Immortals naturally could not see the hidden Cooking Luck Pot, but Immortal Zombie Giant Sun was its creator, he could somewhat sense it.

Cooking Luck Pot’s strong aura astonished Immortal Zombie Giant Sun.

But thinking back to this battle in Crazy Demon Cave and refinement path accomplishments of Fang Yuan, Immortal Zombie Giant Sun did not feel it strange.

Both sides activated their methods and charged into the Door of Life and Death.

They smoothly entered the Door of Life and Death without encountering any setbacks.

Inside the Door of Life and Death was a scene of vast darkness.

When Fang Yuan and the rest entered, it was like many torches were lit in a dark night. In an instant, countless soul beasts were startled, they started howling and roaring.

The soul beasts began to attack frantically, while Fang Yuan and the rest defended.

“So many soul beasts?!” Shen Shang was astonished.

“This is the place with the greatest concentration of soul beasts. The soul beasts here are beyond a hundred million, it is an inestimable number!” Lu Wei Yin said while activating a killer move which formed earthen walls.

“There are too many soul path dao marks here, my killer moves can’t even achieve fifty percent of their effects!” Demon Immortal Qi Jue’s face paled slightly after he tried several killer moves.

There were all sizes of soul beasts with all kinds of strength. There were countless ordinary soul beasts, as well as an inestimable number of desolate and ancient soul beasts. There were also many immemorial soul beasts.

The soul beasts were like a pitch-black tsunami, endlessly and fearlessly moving towards Fang Yuan and Immortal Zombie Giant Sun, trying to drown these Gu Immortals.

“What about Star Constellation Immortal Venerable?” Qi Sea Ancestor asked.

“If Star Constellation Immortal Venerable keeps on hiding, how can we find her in this situation?” Zhan Bu Du frowned.

Immortal Zombie Giant Sun and Fang Yuan had not attacked yet, they were activating all kinds of methods to inspect and try to find Star Constellation Immortal Venerable's traces.

But soon, the two gave up.

They failed.

"Since it is like this...." Immortal Zombie Giant Sun snorted, his whole body emitting golden light.

Instantly, it was like a sun had appeared in the dark Door of Life and Death!

The sun rose high, illuminating all the surrounding space!

The light was extremely piercing, wherever it reached, countless soul beasts melted like ice, without even being able to let out a scream.

The immortals were shocked.

"Could this person be?!" Shen Shang's eyes opened wide as he finally recognized Immortal Zombie Giant Sun's identity.

The power of this move was absolutely beyond Qi Sea Ancestor's Hu elevation.

Fang Yuan also could not help taking a few glances, his pupils shrinking slightly.

Since the battle in Crazy Demon Cave began, this was the first time he saw Immortal Zombie Giant Sun taking such an action. In Fang Yuan's hands, luck path was mostly used as support, but when Immortal Zombie Giant Sun used it at this moment, it showed extreme offensive power!

The golden light spread far, even immemorial soul beasts could not resist it. In an instant, there were uncountable casualties.

The battlefield that spanned thousands of li was cleared completely. At the periphery of the battlefield, a lake was revealed.

The lake was calm with no ripples. Even under the illumination of the golden light, it was still motionless like a mirror.

Pacifying Soul Lake!

There was a mountain range beside Pacifying Soul Lake.

The mountain range was majestic, it was so tall and vast that it seemed to touch the sky and spread beyond the range of the immortals' sight.

"Since when is there a mountain here?"

"<<The Legends of Ren Zu>> has no records of it."

"This mountain is so dark, it is bursting with demonic aura. This is too strange!"

"Is Star Constellation Immortal Venerable on this mountain? Maybe this pitch-black mountain range is Heavenly Court's arrangement?"

The pseudo venerables discussed, but right at this time, Immortal Zombie Giant Sun suddenly said: "Found her."

Fang Yuan's gaze also moved over.

Following his gaze, the immortals discovered Star Constellation Immortal Venerable.

She was standing at the peak of the mountain. Starlight twinkled around her and her sleeves fluttered in the air, adding splendor to her unmatched elegance.

Star Constellation Immortal Venerable looked down at the immortals, saying with a smile: "The enemies are here, Spectral Soul Demon Venerable, you should wake up."

Her voice was calm, but it quickly spread and reverberated in this special world, like an echo in an empty valley.

At the next moment, the dark mountain range that spanned across heaven and earth shook, a voice could be heard: "Who... is disturbing my sleep?"

The mountain range shook with increasing intensity, the entire world was shaking, the ground cracked and mountains shattered!

Two blood-red suns suddenly appeared, each was much larger than Immortal Zombie Giant Sun's attack earlier.

These were Spectral Soul Demon Venerable's eyes!

This vast mountain range before the immortals was actually Spectral Soul Demon Venerable's main body!

"Strong enemies? Who are you... Kill, I will kill you!" Spectral Soul Demon Venerable's murmur shook the air, producing a vast whirlwind.

There was something wrong with his condition, he actually did not recognize Immortal Zombie Giant Sun and Fang Yuan, as if he had lost his memories.

Bam Bam Bam Bam...

Hands spread out from the mountain range, in an instant, it was like countless giant trees had grown and formed a terrifying forest of arms.

Rumble...

A huge explosion rang as Spectral Soul Demon Venerable changed from an inclined position to sitting cross-legged.

Even when sitting cross-legged, his shoulders still reached high into the sky, the immortals could not even see his head and could barely see most of his chest.

Spectral Soul Demon Venerable's main body was too huge. Compared to him, Fang Yuan and the immortals were like ants beside an adult.

Lu Wei Yin, Demon Immortal Qi Jue, and the rest were pale with fright.

They could sense that Spectral Soul Demon Venerable's main body was not just huge, the aura he emanated almost suffocated them. The soul path dao marks on him were too dense and of an enormous scale, even the current Fang Yuan could not compare.

Spectral Soul Demon Venerable opened his eyes, the two blood sun let out ominous light from the dark cloudy fog.

Spectral Soul Demon Venerable opened his mouth and breathed out.

At the next moment, dark soul fog moved with the fierce wind and covered the whole battlefield.

Whoosh whoosh whoosh!

The violent wind howled by their ears, the pseudo venerables' expression changed one after the other.

The dark soul wind was extremely terrifying, it shook them so intensely that they were almost swept away.

The soul wind did not target just their bodies, it also specially attacked their souls.

At the crucial moment, Fang Yuan called out, the multi-colored rainbow suddenly brightened, helping these pseudo venerables stabilize their souls and resist the soul wind.

"Fang Yuan!" Demon Immortal Qi Jue could not hold on, quickly asking for help.

Fang Yuan immediately activated the multi-colored rainbow, linking him as well and helping him resist the wind calamity.

Spectral Soul Demon Venerable saw that no one was blown away, he shouted in anger and pressed down with one of his huge hands!

The huge palm seemed to cover the world, it carried ferocious might and wind and lightning roared alongside it. It gave a feeling of being unblockable and unavoidable.

The giant palm's target was Demon Immortal Qi Jue!

Among the auras of the pseudo venerables, his aura was the weakest. He had been sealed for a long time in Divine Emperor City, much of his dao marks were extracted.

Demon Immortal Qi Jue wanted to dodge, but the giant palm had the ability to instill fear, he would not be able to move in a short period, and could only defend passively.

Boom!!!

The earth shook.

The immortals dodged, only Demon Immortal Qi Jue was left in the area.

He frantically used many defensive killer moves, but he was like an ant trying to fell the tree, he was instantly slammed down by the giant palm.

Demon Immortal Qi Jue's aura rapidly fell to rock bottom.

Spectral Soul's giant palm stamped on the ground and did not move. The palm that was stable as mountain roots or towering like a heavenly pillar let out a strange aura.

"One hand of Spectral Soul can suppress a pseudo venerable?" Even Immortal Zombie Giant Sun revealed an astonished expression, saying, "Save him quickly! Spectral Soul is trying to seal Qi Jue!"

Even without his reminder, Zhan Bu Du had already charged forward.

He was like a meteor as he pierced through Spectral Soul's arm with a loud crash.

Zhan Bu Du laughed loudly and was about to turn around to attack again, when another hand pressed down with an incredible speed.

Boom!!!

Another loud explosion rang, Zhan Bu Du was also slammed down on the ground by the giant palm, his aura falling violently.

"Even with such a large size, it is actually so fast!"

"Too terrifying!"

"Save them, we cannot wait anymore."

Qi Sea Ancestor, Lu Wei Yin, and the rest quickly attacked. The two heavenly pillar-like arms began to collapse from the strong attacks.

Right at this time, dozens of arms fell down from the sky.

Immortal killer move —Ten Li Time Wind.

With a cold snort, Fang Yuan raised his arms and pushed forward with his palms.

Immediately, boundless wind rose, blocking the dozens of giant arms.

This move contained the profundities of time path, rule path, and wind path. When Fang Yuan's palms formed into a claw shape, it could confine the enemy and lock the time of the target.

However, currently, Fang Yuan's hands were raised high, he was trying to grip with his fingers using all his strength, but they were trembling hard and he was unable to contract into a clenched shape.

He could only slow these dozens of giant arms, he could not completely lock their time.

"Good job!" Immortal Zombie Giant Sun praised, his figure suddenly transformed and became a soft rain of golden light.

Chapter 2194: Unification of Three Worlds

Immortal killer move — Golden Top Ox Hair!

The drizzle of dazzling golden light increased rapidly, it quickly spread and covered the dozens of giant arms.

Golden light rained down endlessly, penetrating into the pitch-black giant arms.

The giant arms shook, golden flowing veins appeared and moved up the arms while interweaving into an exquisite web.

When the golden web covered over half of the giant arms, the giant arms started shaking extremely fiercely.

The pressure on Fang Yuan reduced sharply, the giant arms could not even budge under the infiltration of the golden web.

This golden top ox hair killer move clearly also had the ability to confine its enemies. But it was different from Fang Yuan's ten li time wind, it infiltrated the target's body and controlled their movement.

When the golden web covered the giant arms completely, these dozens of giant arms came under Immortal Zombie Giant Sun's control. They moved up and attacked Spectral Soul Demon Venerable's main body!

Spectral Soul Demon Venerable was furious, at that instant, a thousand or so giant arms came down, destroying these dozens of traitorous arms.

The golden web lost its attached targets, turning back into a drizzle of golden light.

Amidst the golden light drizzle, Immortal Zombie Giant Sun's figure appeared slowly.

Spectral Soul Demon Venerable gave a shout, his thunder-like voice shook the whole Door of Life and Death.

A grey tornado immediately formed and moved towards Fang Yuan's group.

The grey tornado did not have absorption force, instead it had a huge repulsive force. Wind blades that were sharper than Luo Po wind rotated and cut the souls.

Immortal Zombie Giant Sun, Fang Yuan, and the immortals quickly retreated. Soul beasts rushed over from afar, but were dismembered by the wind blades.

After these soul beasts died, they were absorbed by the grey tornado, changing into grey soul bombs.

A soul bomb struck and exploded on Lu Wei Yin. Lu Wei Yin's soul was immediately injured heavily, he almost fainted.

He had exceptional defense but faced this situation. Other immortals like Qi Jue and Shen Shang were even more miserable, their souls might have been swept away if not for Fang Yuan's help.

The number of soul path dao marks in the Door of Life and Death was unimaginable.

Before Spectral Soul Demon Venerable awakened, these pseudo venerables could only use fifty percent of their strength because of the dao mark suppression.

Now that he awakened, pseudo venerables could only use twenty percent of their strength. Even Fang Yuan and Immortal Zombie Giant Sun could only use fifty percent of their strength!

"What's going on? Spectral Soul is also a supreme grandmaster."

“Although Spectral Soul Demon Venerable lost his physical body, he has already modified himself into gaining a soul beast body!”

“He has almost merged with the Door of Life and Death. With this environment, all his killer moves are amplified greatly, he can easily suppress us. This is the power of a Dao Lord!”

“What now?”

The immortals could not help but hesitate.

Spectral Soul Demon Venerable’s battle strength far surpassed the expectations of many of them.

Another crucial point was that the Door of Life and Death had too many soul path dao marks.

When fate Gu was intact, the soul of every dead being returned to the Door of Life and Death. Even when fate Gu was damaged, most of the dead beings’ souls still returned here.

Countless years accumulated, countless souls gathered and broke down to form the current Door of Life and Death.

Among all the secluded domains of heaven and earth, the Door of Life and Death was likely to have the highest number of dao marks!

At the crucial moment, Fang Yuan and Immortal Zombie Giant Sun collaborated to destroy the grey tornado and detonate the thousands of grey soul bombs.

Spectral Soul Demon Venerable bent over slightly, thousands of giant arms attacked from all sides. It was like the sky was falling, creating a suffocating feeling!

Fang Yuan and Immortal Zombie Giant Sun began to use all their strength.

The giant arms were destroyed one after the other. Their fragments fell to the ground, immediately changing into soul beasts that charged forward to fight once again.

Lu Wei Yin and the other pseudo venerables were in charge of killing these soul beasts.

After the soul beasts died, their fragments combined to form new soul beasts.

Moreover, these newly born soul beasts were stronger than the previous soul beasts. They possessed talents and abilities, thus they could counter Lu Wei Yin and the other Gu Immortals.

Fang Yuan, Immortal Zombie Giant Sun, and other Gu Immortals were at a disadvantage.

They were struggling to cope with the countless soul beasts and endless giant arms that attacked unceasingly.

Right now, soul path fully displayed its combat advantage by fueling itself through killing!

“Die! All of you, die!!” Spectral Soul Demon Venerable’s mind became even more chaotic, roaring like a wild beast.

Star Constellation Immortal Venerable smiled, her clear voice was not suppressed by the chaotic battlefield, instead it reached the immortals' ears: "Everyone, your valiance really makes me feel admiration. Fang Yuan, Giant Sun, I'll take a quick leave first."

Saying this, she leisurely retreated. Her body streaked across the dark world like a meteor, easily leaving the Door of Life and Death.

Since the battle began, she had been standing on Spectral Soul Demon Venerable's head, even though she was openly leaving now, she did not attract Spectral Soul Demon Venerable's attention.

This situation was frightening to see.

The grand Spectral Soul Demon Venerable actually became Star Constellation Immortal Venerable's puppet!

Lu Wei Yin suddenly shouted, his face was pale: "Oh no, Lord Fang Yuan! Star Constellation will definitely unite the three great worlds and destroy Paradise Earth's tomb. We must quickly go and stop her!"

However, this was easier said than done.

Spectral Soul's main body was a genuine Dao Lord inside the Door of Life and Death!

A soul path supreme grandmaster.

A complete rank nine venerable!

On the contrary, Fang Yuan was only at rank eight, and though Immortal Zombie Giant Sun was also a Dao Lord, how could he use the outside world's luck path dao marks to amplify himself in the Door of Life and Death?

Heaven and earth travel?

Fang Yuan had already tried it secretly, but it had no effect.

Heavenly Court knew Fang Yuan had fixed immortal travel Immortal Gu, how could they not have prepared for it?

No killer move was invincible. Just like Fang Yuan's ghostly concealment killer move, it showed no effect inside the Door of Life and Death!

The three great worlds were rapidly melting.

The boundaries had already shrunk by thirty percent.

As for the void in the eighth layer, it was originally vast and infinite, but the boundary was now sticking close to the bubbles of the three great worlds.

Star Constellation Immortal Venerable returned here and immediately set up a formation.

The formation activated, Heavenly Court's Gu Immortals split and invaded Savage Wilderness Great World and Yellow Earth Great World.

These two great worlds' main forces had almost all died in battle. Only a few remained, they were the old and weak Gu Immortals with no battle strength left, or elite Gu Masters.

Be they the former or latter, they had no ability to block Heavenly Court's advancement.

Heavenly Court continued to push in, setting a sub-formation after occupying each territory.

These sub-formations resonated with the main formation which was personally controlled by Star Constellation Immortal Venerable. The sub-formations let out grand lights that shot towards the sky and shone on the surroundings, making the vast and desolate Savage Wilderness Great World, and the hilly Yellow Earth Great World bloom with green.

Weeds and tree saplings grew at a visible speed, quickly forming a dense forest.

This was only the visible phenomenon, the true essence lied in Green Lotus Great World expanding continuously as it absorbed the other two great worlds into its territory!

If looked from above, the green color that was like moss spread from the Green Lotus Great World and slowly covered the other two great worlds.

After covering them, the lush green became even deeper in color.

At first, it was only light green, many areas with the sub-formations turned into deep green. The deep green then turned into dark green.

The three great worlds finally merged!

After reaching a certain extent, a storm started brewing indescribably.

The storm was not large, but its range was astonishing, covering the whole world.

Wind blew like the qi tides of five regions, it quickly merged the primeval energy of the great world and distributed it evenly.

"Limitless Demon Venerable's heaven and earth refinement method has already reached the peak. If I am not wrong, this wind will continue to grow until it becomes the winds of assimilation!"

Star Constellation Immortal Venerable controlled the main formation, she personally took part and helped the great worlds unite, so she gained many insight from this.

In fact, Star Constellation Immortal Venerable accounted for almost half of the heaven path research results in the Crazy Demon formation!

Why did Limitless Demon Venerable go to Heavenly Court in his later years and play this game with Star Constellation Immortal Venerable?

The reason was simple.

Star Constellation Immortal Venerable had merged with heaven's will of her own accord. The killer move human executing heaven's work was extremely profound, while she altered heaven's will, she was also comprehending heaven path.

So, Limitless Demon Venerable competed with Star Constellation to extract the heaven path mysteries, he also received the help of this wisdom path supreme grandmaster, Star Constellation Immortal Venerable, to deduce new heaven path research results.

Limitless Demon Venerable cultivated rule path, only by cooperating with the creator of wisdom path, Star Constellation Immortal Venerable, could he realize the insane concept of Crazy Demon Cave!

Limitless Demon Venerable achieved his goal, while Star Constellation Immortal Venerable also gained many benefits.

The three avatar fairies' method of influencing the emotions of many mutant Gu Immortals and making them join Heavenly Court was a result of heaven path.

Being able to control Spectral Soul Demon Venerable was also an embodiment of heaven path research results. Naturally, Star Constellation Immortal Venerable took advantage of this situation. Spectral Soul Demon Venerable's main body already had flaws.

"The three worlds have merged, the outcome has been decided." Star Constellation Immortal Venerable let out a breath of air, her eyes shining with starlight.

She had succeeded.

Fang Yuan and Longevity Heaven's alliance was very powerful. But she relied on her incomparable wisdom path attainment to take a lead step by step, maintaining her advantage and not letting the other two sides surpass her.

Although Heavenly Court was weak, Star Constellation Immortal Venerable used Book Mountain, Primordial Domain, the Crazy Demon formation, and the Door of Life and Death, she used everything that could be used to help claim victory.

This was Star Constellation Immortal Venerable.

This was the power of wisdom path!

Heavenly Court had already infiltrated the Crazy Demon formation, now that they united the three worlds and got hold of massive clues and fuel, it was like letting half of the Crazy Demon formation falling into Star Constellation Immortal Venerable's hands.

"It is your turn now, Paradise Earth." Star Constellation Immortal Venerable's eyes shone coldly.

She did not like Paradise Earth Immortal Venerable.

Even though Paradise Earth had the name of Immortal Venerable and had extremely high reputation, he loved and defended variant humans. Paradise Earth left Merman Imperial Court in Eastern Sea and also Mushroomman Paradise in Southern Border.

What repulsed Star Constellation Immortal Venerable even more was Paradise Earth Immortal Venerable's identity.

Paradise Earth had gone through many fortuitous encounters in his life that could have allowed him to change his fundamental identity to that of a pure human. But he did not do so, he was always a mixed blood which could never be accepted by Heavenly Court.

Immediately, sub-formations buzzed and tore the earth.

Ground crumbled, deep ravines spread quickly from all sides to Paradise Earth's tomb.

Paradise Earth's tomb was broken apart.

Afterwards, Star Constellation Immortal Venerable gave a cry, her gaze looking at the distant sky.

Soon, endless starlight condensed and solidified in the sky, turning into meteors that fell to the ground.

Like a rainstorm, the meteors smashed onto Paradise Earth's tomb.

Bam bam bam...

The explosions rang, starlight and rock fragments flew everywhere.

After a few minutes of time, Paradise Earth's tomb was leveled and turned into ruins.

Chapter 2195: Paradise Earth's Revival

Star Constellation Immortal Venerable's gaze crossed through thousands of miles and landed on the ruins of Paradise Earth's tomb. She checked carefully before giving a satisfied nod.

She collected the main formation, while Heavenly Court's immortals were in charge of collecting all the sub-formations.

Heavenly Court members gathered in one place and moved with Star Constellation Immortal Venerable.

After Primordial Domain disappeared, the eighth layer and ninth layer could be easily traveled to and fro.

They left the eighth layer and entered the ninth layer.

Star Constellation Immortal Venerable personally pointed the way forward. Qin Ding Ling, Che Wei, Fang Zheng, and the rest stepped into the Crazy Demon formation one after the other, they each stopped on a truthful floating ice piece.

Star Constellation Immortal Venerable told them the control method of the truthful floating ice in detail, she then went towards the center of the formation and faced the central truthful floating ice.

"Lady Star Constellation, what are you going to do?"

"If you insist on forcing your way, we will immediately activate practice Gu and destroy this truthful floating ice!"

Not Immortal was alarmed. Pang Shan and Secret Schemer immediately appeared, they tried to threaten Star Constellation.

Star Constellation Immortal Venerable smiled: "Truthfully, you three being able to control practice Gu was beyond my expectations. I had already sealed Limitless' will, I did not expect him to still be able to

bring you three here. However, the reason why I sealed Limitless' will was just as an additional layer of assurance."

"I am going to use all my strength to accelerate the Crazy Demon formation. This formation that Limitless set up back then is indeed astonishing and extraordinary, reaching the peak of the world. But he is still a rule path Gu Immortal and not of wisdom path. He naturally realized this, if not, why would he invade Heavenly Court and bet with me?"

Pang Shan and Secret Schemer looked at each other. The latter thought for a bit and mustered his courage to ask: "Since Lady Star Constellation Immortal Venerable has the same thought as us, why not come in? We are willing to hand over practice Gu."

Star Constellation Immortal Venerable smiled: "That is not necessary. This area is the Crazy Demon formation's core, it is easy to enter but difficult to exit. It also concerns the final deduction results, if I forcefully break out, I may destroy this truthful floating ice, ruining the million year derivation."

"I am already in control of half the Crazy Demon formation, and only with me leading my Heavenly Court's immortals outside to prevent any unexpected situation, can I safely push this Crazy Demon formation to the limit."

"I am already aware of your ambitions. No need to hesitate, go carve the truthful floating ice."

Pang Shan and Secret Schemer gritted their teeth. Right now, Fang Yuan was missing, and it probably bode ill rather than well. Since Heavenly Court had already controlled the situation, and these three immortals were unable to go out, even if they could go out, they definitely were not Heavenly Court's match. They could only continue to drill the truthful floating ice and resume their work.

Star Constellation Immortal Venerable began to activate the formation step by step.

Under her influence, the Crazy Demon formation's form started changing again and again, the derivation efficiency also continued to rise.

Many of Heavenly Court's members were controlling a truthful floating ice piece each, they listened to Star Constellation Immortal Venerable's arrangements as they controlled their respective truthful floating ice.

The melting speed of the eighth layer's great world sped up by several times.

Many peripheral truthful floating ice pieces were starting to thaw and shrink. But the central truthful floating ice piece was continuing to expand in size.

There would only be one truthful floating ice piece left in Crazy Demon formation at the end.

If Limitless' arrangements succeeded, then the one who obtained this truthful floating ice could gain eternal life!

Because the truth of eternal life would already be carved.

"Worthy of Lady Star Constellation Immortal Venerable. Under such a bleak situation, she fought one battle after another and made Heavenly Court emerge victorious." Qin Ding Ling was moved.

“With such a person leading Heavenly Court, our deaths would be without regrets.” Duke Mei and the rest conversed happily.

“No one else is more suitable than Lady Star Constellation Immortal Venerable to obtain eternal life! With her leadership, our Heavenly Court will definitely become a supreme existence once again, we will unite the five regions just like Crazy Demon Cave’s three worlds.” The immortals were looking forward to a beautiful future.

When Heavenly Court did not have an Immortal Venerable in charge, there was the tradition of having a wisdom path Gu Immortal lead them.

Past experience proved the sensibility of this system.

Now that the creator of wisdom path, a wisdom path supreme grandmaster, the number one person in wisdom path, Star Constellation Immortal Venerable, was controlling Heavenly Court, no one in Heavenly Court had any objection!

Even if Primordial Origin Immortal Venerable and Genesis Lotus Immortal Venerable were to revive, Star Constellation Immortal Venerable would still be much more suitable than them to obtain eternal life.

Inside the Door of Life and Death.

“All of you must die... why are you still not dead?” Spectral Soul Demon Venerable was sitting cross-legged. Pacifying Soul Lake was only a puddle in comparison, while Fang Yuan and the immortals were like insignificant ants.

But this group of ants made Spectral Soul Demon Venerable extremely angry.

Boom boom boom!

Countless giant arms attacked these ants.

Lu Wei Yin, Demon Immortal Qi Jue, and the rest used all their strength to counterattack. They were only second to peak level battle strengths like that of Fang Yuan, Immortal Zombie Giant Sun, and Star Constellation Immortal Venerable, but they were in an extremely miserable situation here.

If not for Fang Yuan and Immortal Zombie Giant Sun helping them time and again, some of them might have already perished.

Spectral Soul Demon Venerable’s main body was at rank nine, after transforming into a soul beast body and his attainment level having been raised to supreme grandmaster level, he had become a Dao Lord.

Originally, a venerable that had just become a Dao Lord was still not invincible, they had to refine dao marks of their path in the outside world and raise their strength.

But it just so happened that this Door of Life and Death was Spectral Soul Demon Venerable’s territory, he had occupied it since long ago.

And the Door of Life and Death had the highest number of soul path dao marks in the world, even Fang Yuan and Immortal Zombie Giant Sun were in a disadvantage.

The longer this dragged on, the more disadvantageous it would be for them. Fang Yuan and Immortal Zombie Giant Sun was aware of this, so they fought while finding an exit path.

Immortal Zombie Giant Sun made deductions and smiled bitterly at Fang Yuan: "This is not good. When Star Constellation Immortal Venerable left, it was Spectral Soul Demon Venerable who took the initiative to open a path. He has already completely refined the Door of Life and Death and become this place's master. It is impossible for us to leave like Star Constellation Immortal Venerable!"

Fang Yuan fixed his gaze on Spectral Soul Demon Venerable: "Who could have expected Star Constellation Immortal Venerable to turn Spectral Soul Demon Venerable into a puppet. Giant Sun, you should know that in the five hundred years of my previous life, Spectral Soul Demon Venerable possessed the sovereign immortal body and became the greatest mastermind behind the five regions chaotic war. He infiltrated Heavenly Court and made them a mere figurehead. Now, Star Constellation Immortal Venerable can be considered to have taken revenge for Heavenly Court."

Immortal Zombie Giant Sun was solemn: "There is no use in saying these things now. Our hope lies with you."

Fang Yuan nodded: "I know, I have already begun deducing!"

He knew what Immortal Zombie Giant Sun was pointing towards.

Back then, when Ren Zu tried to leave the Door of Life and Death through the road of life, he encountered three obstacles; Dang Hun Mountain, Luo Po Valley, and Reverse Flow River.

Ren Zu failed when he was in Reverse Flow River, if not for this, he could have escaped the Door of Life and Death.

And now, Fang Yuan was the Gu Immortal with the most secluded domains of heaven and earth. In fact, he had Dang Hun Mountain, Luo Po Valley, and Reverse Flow River!

As long as these three obstacles were used to create the road of life, they could escape the Door of Life and Death through it and return to fight Star Constellation Immortal Venerable.

Fang Yuan had a bitter expression: "Deductions need time and clues. I have no clue about this road of life, I just have these obstacles. And this Door of Life and Death has long been modified by Spectral Soul Demon Venerable and merged into himself, there is a huge difference between it and the records in <<The Legends of Ren Zu>>. Furthermore, Spectral Soul Demon Venerable does not have a clear mind, I need to split my attention to guard against his mad attacks."

Immortal Zombie Giant Sun heaved a sigh: "Spectral Soul Demon Venerable has astonishing attainment in soul path, he made the Door of Life and Death much more exceptional than before! Even though the situation is already like this, I still hope you will give your best effort."

Immortal Zombie Giant Sun's expression changed suddenly: "It is here again, follow me!"

He suddenly threw out Calamity Luck Altar.

Immortal killer move — Luck Changing Golden Light Path!

A dazzling path of golden light formed instantly.

The immortals knew the situation, quickly stepping on the path of light and letting it bring them away.

At the next moment, countless soul bombs, each the size of a mountain, shot down while having tadpole-like tails.

The giant tadpole soul bombs detonated with horrifying strength, the path shook intensely from the explosion and dimmed rapidly.

But the immortals managed to escape from the soul bombs.

They had already suffered once, Shen Shang and Demon Immortal Qi Jue had gotten heavily injured from the explosion. Fortunately, Shen Shang cultivated human path and was an expert in treating these injuries, he displayed human path's superiority, healing the immortals quickly.

After that time, every time the soul bombs attacked, Immortal Zombie Giant Sun used luck changing golden light path and moved the immortals away.

This move was extremely profound, it could forcibly create a survival route in a hopeless situation.

Soul beasts attacked and soul bombs detonated around the light path, many of their attacks canceled each other which instead kept the light path safe.

If it was before, Immortal Zombie Giant Sun could have already escaped with this move. But this Door of Life and Death was different, it was extremely troublesome; even if Immortal Zombie Giant Sun used luck changing golden light path multiple times, he could not succeed.

"Careful!" Qi Sea Ancestor alerted.

After all the soul bombs detonated, a soul river crashed down.

Countless wronged ghosts formed a black river. The ghosts cried and howled, the tragic and furious sounds slightly slowed the immortals' thoughts.

The soul river was extremely huge, covering thousands of miles!

The immortals could not evade it, so they used all kinds of methods. For a moment, they were carried up and down by the soul river, being tortured physically and mentally.

Profound light surrounded and protected Fang Yuan. Multi-colored rainbow bound other pseudo venerables, preventing them from getting washed away.

Under this perilous situation, once the pseudo venerables left the group for some time, they would die a miserable death.

The crucial point was that if they died here, their souls would be used by Spectral Soul Demon Venerable to target the remaining people.

This was what Spectral Soul Demon Venerable was good at.

So, Fang Yuan and Immortal Zombie Giant Sun were helping themselves by saving these people.

"I can hardly look after myself, how can I quickly deduce the road of life in this situation?" Fang Yuan showed a difficult expression as he looked at the tumultuous soul river.

The situation was bad, as time passed, Fang Yuan's chance of victory would be increasingly low.

If they were delayed for a long time in the Door of Life and Death, if Star Constellation Immortal Venerable obtained eternal life, she might come back to finish them with greatly increased strength.

At that time, if there was no improvement, Fang Yuan would not just be defeated but might even lose his life!

Right at this time, in the great world in Crazy Demon Cave's eighth layer, a yellow light shone.

The yellow light covered the ruins.

This was Paradise Earth's tomb!

The yellow light erupted, shooting towards the sky, before changing direction towards the Door of Life and Death.

A Gu Immortal appeared in the yellow light.

"Buried in the earth for a hundred thousand years,

Brushing dust off my clothes as I rise once more.

Wishing for all lives to be equal,

May all living beings compete in harmony."

After the recital, the Gu Immortal said: "Spectral Soul, please open the door. Paradise Earth... is here to pay a visit."

Chapter 2196: Spectral Soul Versus Paradise Earth

For an instant, the fighting in the Door of Life and Death suddenly stopped.

The furious Spectral Soul Demon Venerable stopped roaring, countless giant arms stopped moving like space had frozen.

"What happened?" Qi Sea Ancestor was puzzled.

At the next moment, Spectral Soul Demon Venerable opened his huge mouth, letting out an earth-shattering roar.

The roar contained anger, hatred, as well as excitement towards meeting a great enemy!

"You revived..."

"You revived as well!"

"I finally meet you. Since you are here, come in."

"So that I can... kill you!!"

Spectral Soul Demon Venerable did not remember Fang Yuan and Immortal Zombie Giant Sun, but he seemed to have a deep impression of Paradise Earth.

Suns of blood color rose in the sky, these were Spectral Soul Demon Venerable's eyes.

He had three heads; only one head had awakened in the previous battle, now the remaining two heads also opened their blood colored eyes!

The entrance of the Door of Life and Death opened, forming a huge vortex that let out a terrifying suction force.

The entrance opened and closed in an instant. When Fang Yuan and the rest came to their senses, a Gu Immortal was pulled into the Door of Life and Death.

He had a shiny bald head and wore plain clothing.

He had a kind expression and his entire body let out a faint radiance.

"Paradise Earth!" Fang Yuan and Immortal Zombie Giant Sun called out.

"Lord Paradise Earth, you succeeded in reviving!?" Lu Wei Yin was surprised and happy. He suddenly shouted, "Careful!"

Bam bam bam...

Hundreds of giant arms repelled the air as they ruthlessly charged towards Paradise Earth while producing thunderous rumbles.

Battle erupted once again!

The Crazy Demon formation turned chaotic.

Heavenly Court's Gu Immortals were heavily injured, their expressions were pale and bewildered.

This was all caused by Paradise Earth's revival.

Star Constellation Immortal Venerable revealed an astonished expression.

Ever since the battle in Crazy Demon Cave started, this was the first time she showed such an emotion.

The reason was that although Paradise Earth revived, his revival method was beyond Star Constellation Immortal Venerable's expectations.

"I thought you would revive as an earth path venerable, but to think you would take another path."

"I underestimated you."

"You actually converted to heaven path, Paradise Earth's tomb was only a target. Only through its destruction could you revive."

Star Constellation Immortal Venerable let out a breath of air, but did not move towards the Door of Life and Death. At the moment, the Crazy Demon formation was rotating like a tornado, she could not get away easily.

Moreover, although Paradise Earth revived, he had converted to heaven path and the tomb was destroyed much earlier by Star Constellation Immortal Venerable, so his current cultivation was only at pseudo venerable level.

If Yellow Earth Great World had annexed the other two great worlds and Paradise Earth's tomb was destroyed along with the great world, the revived Paradise Earth might have venerable cultivation!

Right now, the main focus was still on the Crazy Demon formation. The sensible Star Constellation would never abandon the larger goal for smaller gains. Moreover, even if she returned to the Door of Life and Death, her battle strength would also be suppressed greatly, it would not be worth the effort.

Inside the Door of Life and Death.

"Careful!" Lu Wei Yin's shout had just landed.

A giant web appeared in front of Paradise Earth.

The milky white web was extremely thick, every thread of the web had the size of an elephant, giving a monumental and majestic feeling.

Spectral Soul Demon Venerable's attacks were completely blocked by this giant web.

"What kind of killer move is this, it actually has such defensive prowess!?"

"This aura, I have never felt it before..."

"Wait a moment! Paradise Earth Immortal Venerable does not have rank nine cultivation, he is only at rank eight level like us!"

Demon Immortal Qi Jue, Zhan Bu Du, and the rest were greatly shaken.

"This is a heaven path killer move! Paradise Earth converted to cultivating heaven path, he revived but did not regain his venerable cultivation, this might be the price!" Immortal Zombie Giant Sun was somewhat aware.

Fang Yuan's emotions were slightly complex.

He had also once considered progressing in heaven path.

Who could have expected Paradise Earth's scheme to be deeper than his, he had even greater progress. Through this revival, he directly became a pseudo venerable in heaven path!

Using heaven path's advantage, the suppression of the Door of Life and Death on Paradise Earth was the smallest.

Spectral Soul Demon Venerable was roaring in fury, he half-squatted from his cross-legged position!

Thousands of giant arms attacked, the five fingers of every hand were placed together like a drill, and the sharp nails stabbed like spears.

Countless giant hands stabbed the web of light, Paradise Earth's expression did not change, but the heaven path giant web that did not even budge before was shaking slightly.

"Although he cultivates heaven path, he is only a pseudo venerable. Reinforce him." Fang Yuan immediately saw through the situation and alerted others.

Lu Wei Yin was the first to charge forward, but was blocked by giant arms midway.

Fortunately, Fang Yuan and the rest followed closely to reinforce Paradise Earth.

After Spectral Soul Demon Venerable adapted, the giant arms changed shape, a large number of spikes extended from the fingernails, his action changed from poking to tearing.

Slash, slash... countless giant arms tore layers of webs of light, continuously breaking them.

Although Paradise Earth only had pseudo venerable cultivation level, his defensive method was exceptional and was at Immortal Venerable level. It was just that when Spectral Soul Demon Venerable used his full strength, Paradise Earth Immortal Venerable had to retreat even after obtaining the reinforcement.

The immortals' situation was still as perilous as before.

After blocking for a while, Paradise Earth transmitted his voice: "Spectral Soul Demon Venerable's condition is strange, his mind is not clear, his emotions were probably tampered with by Star Constellation Immortal Venerable. I have a method that can dispel all emotions and make someone's rationality as calm as ice."

Wisdom path had three main elements; thoughts, wills, and emotions.

Star Constellation Immortal Venerable was definitely at the peak in these three aspects.

Fairy Feng Ya deduced Limitless' arrangements, always being ahead of others. This was the attainment of thoughts.

Limitless' will was sealed by Star Constellation Immortal Venerable, this was a method of will.

Spectral Soul Demon Venerable's emotions were agitated and in disorder, he did not have even a trace of rationality. This showed Star Constellation Immortal Venerable's might in terms of emotions!

Regarding this, Fang Yuan, Immortal Zombie Giant Sun, or other pseudo venerables had all made an attempt.

However, Spectral Soul Demon Venerable's condition was the same, never showing a sign of regaining his sanity.

The immortals' attempts failed, they agreed that it was because Star Constellation Immortal Venerable's method was exceptional. Star Constellation Immortal Venerable was a wisdom path supreme grandmaster, the number one in the world in this path, since she left confidently, she naturally had full confidence in her method, she believed this method would not be broken for a short period of time.

Right now, although Paradise Earth mentioned this idea, the immortals did not object, they cooperated with him quickly.

Spectral Soul's attacks were extremely fierce, Paradise Earth's appearance had agitated his state even further.

All kinds of soul path killer moves were used one after the other; some were sinister, some were weird, some were domineering, and some were unrestrained. The immortals were too busy dealing with them.

Paradise Earth was protected at the center, but he was disturbed again and again. The killer move's activation progress was minimal.

After a long while, Fang Yuan snorted coldly: "All of you, move aside!"

The immortals quickly retreated.

Fang Yuan's face was indifferent but his eyes shone as he faced the tsunami-like wave of soul beasts. He opened his arms and roared towards the sky.

Along with his roar, specks of light flew out of his immortal aperture.

The specks were of all kinds of color, they rapidly collided in the air, turning into dragons, wolves, tigers, fishes, and other beings.

These were all totem killer moves!

Countless totems of all kinds and shapes charged forward. Wherever they went, soul beasts cried out miserably as they were torn into shreds, burned into ashes, drowned, cleaved by lightning...

In an instant, Fang Yuan released hundreds of totems that he had gathered on his body.

These killer moves were all at rank eight, that was to say, Fang Yuan used hundreds of rank eight killer moves in an instant.

Peerless might!

The immortals immediately felt the pressure on them reducing sharply.

Countless soul beasts were slaughtered, even when the giant arms attacked, ten or so totems attacked one giant arm and destroyed them.

"Thirty percent of my immortal essence was used up!" Fang Yuan let out a breath of air, returning to the group.

The immortal essence expenditure of releasing so many totem killer moves was extremely terrifying.

According to Fang Yuan's current immortal essence reserves, he could only use this move three times at most.

Among the present Gu Immortals, the lowest cultivation was at pseudo venerable. Yet. when they looked at Fang Yuan, their expressions were all shaken and even contained vague fear.

Totem killer moves were quick and convenient, but Fang Yuan released so many totems at once, which was the thing that really shocked them.

Ignoring anything else, with just this method, Fang Yuan could exterminate almost any super force in the world!

Even Immortal Zombie Giant Sun stared at Fang Yuan for a while.

He knew of totem killer moves, so he understood the advantages and weaknesses of this kind of killer move.

Totem killer moves were indeed quick and convenient, but they were difficult to nurture.

However, Fang Yuan had actually nurtured so many rank eight totems, this made Immortal Zombie Giant Sun shocked at Fang Yuan's wealth.

"Good method!" Paradise Earth praised before concentrating on preparing his killer move.

Spectral Soul Demon Venerable's three heads opened their mouths and breathed out a vast soul river.

Three soul rivers converged into a soul river of an unprecedented scale. It crashed down like dark clouds covering the sky.

Totem killer moves flew and charged into the soul river as they fought.

The soul river's speed of descent fell, while these totems' radiance was extinguished one by one.

Thoughts moved rapidly in Fang Yuan's mind, all kinds of thoughts sparked as he madly dispatched the totems and coordinated their actions.

His immortal essence was expended rapidly, his mind was beginning to overheat as it reached the limits of his wisdom path capability.

Totem killer moves were far superior to immemorial desolate beasts because they could coordinate with each other and be controlled casually. More importantly, each of them possessed extreme prowess, comparable to immemorial desolate beasts that had wild Immortal Gu, or even immemorial desolate beasts that grasped immortal killer moves.

These totems gained twenty-two breaths of time for Paradise Earth.

Finally, Fang Yuan heaved a sigh as he collected the remaining twelve totems in his immortal aperture.

These totems survived fortunately but they were in an extremely damaged state. The other hundreds of totems had all died in battle.

Naturally, accompanying their deaths were countless soul beasts and dozens of Spectral Soul's giant arms.

Fang Yuan retreated to the depths of the group, he had to rest his mind and it seemed difficult for him to battle for some time.

Immortal Zombie Giant Sun stood up and took his place.

He had already prepared his killer move, using it with no hesitation.

Immortal killer move — Unforeseen Disaster!

Immortal Zombie Giant Sun grabbed at his head repeatedly with his palms that were covered in a layer of light.

The pure gold light around his palms was rapidly dyed black and red.

Every time Immortal Zombie Giant Sun grabbed, he threw them as well.

The dark-red bad luck flew in the air, turning into lumps of dark-red clouds that flew everywhere.

Each lump of dark-red cloud was not large; wherever they went, soul beasts within a hundred li howled for a few breaths of time before losing their lives, giant arms broke, large segments of the soul river also broke apart.

Immortal Zombie Giant Sun repeatedly grabbed his bad luck and threw them at his enemy.

Spectral Soul Demon Venerable's body itself was becoming unstable after being hit by this method. His left head shouted as it used burning soul bursting luck, his luck immediately rose and offset Immortal Zombie Giant Sun's method.

Immortal Zombie Giant Sun attacked for a while before stopping.

It was not that his immortal essence was not enough or his mind got tired, it was because he had used up all his bad luck.

Chapter 2197: Killing Spectral Soul?

"This method is really good." Fang Yuan was slightly moved as he observed Immortal Zombie Giant Sun.

If he could use all of his bad luck to attack, then his own luck would always remain at the highest level.

Immortal Zombie Giant Sun had an excellent combat system, this method definitely had high importance in this combat system.

With Immortal Zombie Giant Sun's help, Paradise Earth got the time to prepare and activate his killer move.

Immortal killer move — Emotionless Heaven and Earth!

White waves of light spread from between Paradise Earth's brows, the light waves immediately spread towards the whole battlefield and covered Spectral Soul Demon Venerable completely.

Waves of light activated one after the other, Spectral Soul Demon Venerable did not feel anything at first, but he soon showed a response. The killing intent in his blood-red pupils decreased rapidly as they revealed flickers of rationality.

But at this time, the silhouette of a figure showed itself on Spectral Soul Demon Venerable's stomach.

The immortals heard this figure speak: "Heaven and earth is emotionless, that is correct, but humans have emotions."

Saying so, this figure laughed.

Spectral Soul Demon Venerable's pupils were filled with killing intent once again, the trace of rationality just earlier had vanished without a trace.

"Who was that?" The immortals were astonished.

Clearly, this figure had caused Paradise Earth's killer move to fail.

"Is it Verdant Great Sun?" A thought emerged in Fang Yuan's mind.

According to Spectral Soul's memories and the records in <<The Legends of Ren Zu>>, Ren Zu's eldest son Verdant Great Sun's soul lay on the shores of Pacifying Soul Lake.

But right now, there was nothing around Pacifying Soul Lake.

It was very likely that Verdant Great Sun's soul was devoured by Spectral Soul Demon Venerable.

But for some reason, Spectral Soul Demon Venerable who cultivated soul path and food path could not 'digest' Verdant Great Sun, he was instead controlled.

It was very likely that Star Constellation Immortal Venerable had played a crucial role in this.

Paradise Earth revealed a troubled expression at seeing his killer move have no effect.

Spectral Soul attacked once again, Immortal Zombie Giant Sun and Fang Yuan glanced at each other as the former said: "Fang Yuan, have you gained any comprehension?"

Fang Yuan shook his head, his expression was solemn: "There is no progress."

"I have an idea." Shen Shang suddenly said, "Since the fate war, I have been lurking inside Divine Emperor City while cultivating human path. Besides the gains, I also pondered on how to get out of difficult situations, so I thought of a human path method. Right now, I have already deduced ninety percent of this method, only the final ten percent remains. When I saw Lord Paradise Earth activate the human path killer move, my intuition told me that this is the final ten percent I require. With it, I can complete this killer move."

"This..." The other Gu Immortals murmured softly.

Shen Shang's intention was to ask for Paradise Earth's heaven path research results, this was quite an impudent request.

There was an example here, despite Fang Yuan having three crucial secluded domains of heaven and earth, Immortal Zombie Giant Sun had never asked to borrow these secluded domains of heaven and earth to deduce the road of life to escape from the Door of Life and Death.

But in the current situation, Shen Shang's overbearing request had some reason behind it.

The crucial point was that he and Paradise Earth had a peculiar relationship.

Shen Shang was an Eastern Sea Gu Immortal, he secretly committed many sins to cultivate human path. After Paradise Earth learned of it, he immediately took action.

Shen Shang could not even take one strike from Paradise Earth, but instead of killing or confining him, Paradise Earth gave him a chance to atone for his sins.

Thus, Shen Shang entered the blue dragon whale and cultivated bitterly.

After obtaining Paradise Earth's help, Shen Shang made progress time and time again, advancing stably.

With heal injury Immortal Gu as the foundation, he developed and created saving dead healing injuries, light injuries, heavy injuries, fatal injuries, sensory injuries, seven laborious injuries, and other killer moves. Later, he created the killer move countless injury marks, from which he deduced the Immortal

Gu recipe of injury mark Immortal Gu. Finally, he refined injury mark Immortal Gu, and changed it to his vital Gu.

When Fang Yuan explored the blue dragon whale's aperture, he released Shen Shang.

Shen Shang cooperated with Fang Yuan according to Paradise Earth's instructions and participated in the fate war. At the crucial moment, he played a key role and set the crucial foundation for Fang Yuan's victory over Heavenly Court.

Shen Shang's and Paradise Earth's relationship could be said to be extremely close.

Back then, when Shen Shang cultivated human path in blue dragon whale, he had received Paradise Earth's guidance.

The connection between the two was very deep, second only to the relationship between Lu Wei Yin and Paradise Earth.

Thus, Shen Shang made this seemingly impudent request. Because back then, Paradise Earth guided him, there was a high chance of him guiding Shen Shang again now that he had revived.

The only difference was that it was human path before, and now it was heaven path.

Sure enough, like Shen Shang expected, Paradise Earth directly imparted the information of emotionless heaven and earth to him without any hesitation.

"I thank lord's guidance!" Shen Shang bowed with his hands cupped before him, his voice slightly shaking from excitement.

Paradise Earth nodded, saying with a smile: "Shen Shang, your appearance here can be considered a fortune. Whether we can leave here or not will depend on your talent."

"Junior will do his best to not let down lord's expectation!" Shen Shang was even more excited.

He was a grand pseudo venerable, but in front of Paradise Earth, he positioned himself as a junior and was extremely humble and respectful.

He was indebted to Paradise Earth!

In fact, many people and forces were indebted to Paradise Earth.

Everyone knew Paradise Earth was the most popular among the ten venerables, even many people of Central Continent respected him.

The amount of good deeds Paradise Earth had done over his life and the number of people he had helped was inestimable!

After receiving Paradise Earth's approval and encouragement, the other Gu Immortals were slightly expectant of Shen Shang.

Most of them were still placing their hopes on Fang Yuan.

Fang Yuan had made crucial breakthroughs during battles before, he had created reverse flow protection seal, he was the person who defeated Heavenly Court. There were precedents for this.

Moreover, at present, Fang Yuan's position was higher than Shen Shang's.

The immortals fought and evaded Spectral Soul's attacks.

Another head grew on Spectral Soul Demon Venerable.

This was because Immortal Zombie Giant Sun, Paradise Earth, and Fang Yuan's joint attacks had cleaved one of his heads into two.

However, the halved head split, one turning into two, Spectral Soul Demon Venerable gained another head.

Not only the head, no matter how many of Spectral Soul Demon Venerable's arms were destroyed, they quickly grew again.

His arms were increasing in number, becoming even more sturdy and strong.

Spectral Soul Demon Venerable's strength was still continuing to grow!

The fiercer Fang Yuan's group counterattacked, the faster the speed of Spectral Soul Demon Venerable's growth.

Nurturing strength through battle!

Spectral Soul Demon Venerable was already a special venerable, but he could still grow. Compared to the full strength he used before, his strength had clearly risen a lot.

The immortals were not able to estimate his limits, which firmed up their decision to leave.

It was too disadvantageous to fight Spectral Soul Demon Venerable inside the Door of Life and Death.

There were endless soul beasts, there was no use no matter how many were killed.

All kinds of soul path killer moves covered the world, forcing the immortals to defend with all their strength and concentration.

"Hmm?" Fang Yuan suddenly showed a peculiar expression.

This change in expression immediately attracted the gazes of the immortals.

Immortal Zombie Giant Sun asked with hope: "Fang Yuan, you made some progress?"

Fang Yuan nodded before shaking his head: "Yes, there is progress, but it is not the road of life. Let me try this!"

The moment he said this, Fang Yuan's aura turned eerie and dark.

Inside the sovereign immortal aperture, Dang Hun Mountain and Luo Po Valley started buzzing and shaking slightly as they resonated with each other, emitting an increasingly bright radiance.

After the preparation was complete, Fang Yuan's aura became restrained. He pushed his palm, from which a lump in the form of a grey-white square seal flew out.

The square seal's speed was slow, but wherever it passed by, all the souls disintegrated into ashes.

A large area of the soul beast army was immediately cleared up, even immemorial soul beasts did not have a trace of resistance against this grey-white square seal, they were thinner than even paper!

The vast soul river that had been shrouding the sky also crumbled apart.

Most of the soul path killer moves were greatly suppressed and weakened in front of this grey-white square seal.

The immortals surrounding Fang Yuan were also terrified, a bone-chilling cold feeling spread from the depths of their soul.

The whole battlefield was silent, even Spectral Soul Demon Venerable's breath turned rough when he guarded against this square seal.

Since the battle started, this was the first time he was breathing roughly and stopped his tsunami-like attacks!

Immortal killer move — Dang Hun Luo Po Seal!

“Strong... too strong...” Shen Shang was shaken.

Even Paradise Earth's eyes opened wide, turning speechless!

“This move is terrifying, it can be considered as soul path's nemesis!” Immortal Zombie Giant Sun was stunned for a bit before complimenting. He saw the grey-white seal rise up, a hundred of Spectral Soul Demon Venerable's giant arms that were in its path were destroyed.

Even though the grey-white square seal was finally destroyed, the areas where Spectral Soul Demon Venerable's hundred or so giant arms were destroyed still remained empty for a while as if the regenerative ability was exhausted.

Immortal Zombie Giant Sun's unforeseen disaster killer move was similar to Dang Hun Luo Po Seal, but these soul beasts could still resist unforeseen disaster killer move for a while. However, against Dang Hun Luo Po Seal, they had no ability to resist.

Fang Yuan heaved a sigh: “I am ashamed, I did not manage to deduce the road of life, but gained this instead.”

“This move is called Dang Hun Luo Po seal, it uses the two sacred lands as the cores, its foundation is the Luo Po seal I created before.”

“Spectral Soul had once said that Dang Hun Mountain and Luo Po Valley were sacred lands for soul cultivation. My killer move was developed from the foundation of soul path and suppresses it fundamentally. It is a pity that I only have the two sacred lands, if I had Pacifying Soul Lake as well, I might be able to restrain all soul path methods completely.”

Demon Immortal Qi Jue's eyelids twitched, from Fang Yuan's tone, it seemed he was still not satisfied with this killer move?

“Great!” Immortal Zombie Giant Sun praised again, encouraging, “Fang Yuan has already combined the two obstacles now, if you can add in Reverse Flow River as well, you should be able to deduce the road of life.”

Zhan Bu Du gave another suggestion while pointing towards a direction: “No, from what I see, as long as we put this move to good use, with us supporting my main body, there is a huge chance of killing Spectral Soul Demon Venerable. Take a look!”

Following Zhan Bu Du’s finger, the immortals immediately discovered: It was deathly silent in the areas destroyed by Dang Hun Luo Po Seal, they did not restore quickly like before.

As for Spectral Soul Demon Venerable, although the hundred or so giant arms destroyed were regenerating, the speed was very slow.

Dang Hun Luo Po Seal was a pure soul path killer move, it was amplified in the Door of Life and Death. The soul path dao marks that this move left behind were like the winds of Luo Po Valley and the vibration force of Dang Hun Mountain, they made it difficult for soul beasts to condense into being.

Immortal Zombie Giant Sun frowned, analyzing: “Although Spectral Soul Demon Venerable is a Dao Lord and can control the soul path dao marks here to amplify himself while suppressing Fang Yuan’s Dang Hun Luo Po seal, his state of mind is not clear, he only has a Dao Lord’s instincts, so Dang Hun Luo Po seal can also receive amplification here!”

The immortals’ eyes shined as they saw a new possibility —

Killing Spectral Soul?

Chapter 2198: Star Constellation Versus Giant Sun

Thoughts began to surge rapidly in the immortals’ minds!

Dang Hun Luo Po Seal was truly amazing, it was a killer weapon against Spectral Soul Demon Venerable, who had lost his sanity.

Zhan Bu Du was correct. In the current situation, there was indeed a possibility of relying on Dang Hun Luo Po Seal to kill Spectral Soul Demon Venerable.

“Barring unexpected surprises, it is feasible indeed...”

“It will be very difficult to find an escape route under Spectral Soul Demon Venerable’s crazed attacks. However, directly eliminating Spectral Soul Demon Venerable is also an option!”

“This place is controlled by Spectral Soul Demon Venerable, there is small hope of finding a way out. But going against Spectral Soul Demon Venerable and killing him will definitely be a life and death battle!”

They were all speculating.

Qi Sea Ancestor’s expression sank: “The fact is, don’t we need to step past the obstacle, Spectral Soul Demon Venerable, to leave the Door of Life and Death? Even if we shake him off and leave the Door of Life and Death, what if he chases us? At that time, we will have to deal with both Star Constellation and

Spectral Soul! It is better to use this chance when Star Constellation Immortal Venerable is busy with infiltrating the Crazy Demon formation to kill Spectral Soul Demon Venerable!”

The immortals’ minds jolted.

“Indeed.” Lu Wei Yin mumbled, “We will need to go against Heavenly Court to fight for the eternal life research results. If we can kill Spectral Soul Demon Venerable now, Heavenly Court’s threat will immediately be halved.”

“Hmph!” Zhan Bu Du snorted coldly, “What are you still hesitating for? Everyone, the longer we delay, the deeper Star Constellation’s infiltration becomes, she will be closer to the eternal life research results. Regardless of which plan we choose, we need to decide now.”

Immortal Zombie Giant Sun, however, frowned, saying in a heavy tone: “It is not that simple, Fang Yuan. Star Constellation Immortal Venerable is the number one expert in wisdom path, will she leave behind such an obvious loophole? Right now, I am worried that Star Constellation Immortal Venerable’s control over Spectral Soul Demon Venerable has a time limit. Once the time limit is up, Spectral Soul Demon Venerable might get out of this predicament by himself. At that time, we will have Spectral Soul Demon Venerable as an ally.”

“If we really attack Spectral Soul Demon Venerable, whether we win or Spectral Soul Demon Venerable wins, even if it is a draw, both sides will be injured, Star Constellation Immortal Venerable will still be the biggest winner.”

The immortals were silent.

Immortal Zombie Giant Sun made sense, since this was Star Constellation Immortal Venerable, there was no such thing as overestimating her planning.

“Giant Sun, when do you think Spectral Soul Demon Venerable will leave the control and gain his rationality?” Fang Yuan asked with a sharp gaze, “Let’s take your speculation a step further. Suppose Star Constellation Immortal Venerable intentionally left this loophole and lured us into thinking this way, in fact, even if Star Constellation can only control Spectral Soul Demon for some time, if she were to obtain the eternal life research results during this time, what do we do?”

“Then, Fang Yuan, you are intent on fighting to the death? Under this situation?” Immortal Zombie Giant Sun fixed his gaze on Fang Yuan.

Fang Yuan did not yield, matching his gaze.

The atmosphere between the immortals suddenly became tense.

Right at this time, Shen Shang shouted: “I succeeded, I succeeded. My killer move is complete!”

Paradise Earth said with a heavy voice: “Shen Shang, what are your chances?”

“Eighty percent!” Shen Shang was excited, “This move was incomplete before as it lacked heaven path results. But the lacking part is not the crucial core. My intuition is telling me strongly that this move has an eighty percent success rate. There is still room for improvement, but it is already complete now and can be used.”

Fang Yuan and Immortal Zombie Giant Sun retracted their gazes.

Fang Yuan said: "Then, let's protect Shen Shang while he attempts it."

Previously, Fang Yuan and the rest succeeded in protecting Paradise Earth. With Dang Hun Luo Po Seal, there was no problem in protecting Shen Shang.

Immortal killer move — Heaven Always Leaves A Way Out For People!

After a while, amidst the tidal wave-like offense of Spectral Soul Demon Venerable, Shen Shang activated the killer move, creating a narrow path.

The path was long and winding, it could not compare to luck changing golden light path. But it pierced through the Door of Life and Death, the immortals even saw the vague scene of the outside world at the end of the path.

The immortals were surprised and joyous.

Shen Shang laughed heartily, calling out with his arms raised: "It succeeded."

Paradise Earth smiled: "I was right about you."

"Hundreds of years eastern immortal leader, with half of a venerable's talent, your reputation matches your abilities indeed." Qi Sea Ancestor cupped his fists.

"We all owe you a favor for getting out of this predicament." Demon Immortal Qi Jue did not stint on praising.

"Let's go." Zhan Bu Du still took the lead, he was very suitable in opening up a path.

The immortals did not have any hesitation, they protected each other as they stepped on the narrow path.

Shen Shang's killer move was unique, even the Door of Life and Death could not stop these Gu Immortals from escaping successfully.

When the immortals got out of the Door of Life and Death, they prepared for a fight.

Spectral Soul Demon Venerable's mad roars came from the Door of Life and Death, the whole giant door shook constantly.

But in the end, Spectral Soul Demon Venerable did not step out of the Door of Life and Death!

"So it was like this, Spectral Soul Demon Venerable is not able to exit the Door of Life and Death for some reason."

"No wonder Star Constellation Immortal Venerable lured us inside."

"Maybe Spectral Soul Demon Venerable can come out, but Star Constellation Immortal Venerable's method of control is most effective inside the Door of Life and Death."

The Gu Immortals let out sighs of relief as they made guesses.

“Quick, let’s go to the Crazy Demon formation. So much time has passed, who knows how much progress Star Constellation Immortal Venerable has made?” Demon Immortal Qi Jue reminded.

Before the immortals left, they used their methods to try to destroy the immortal graveyard.

However, the killer moves were all absorbed by the Door of Life and Death.

“No use. Star Constellation Immortal Venerable’s arrangements are exquisite, this immortal graveyard is closely connected with the Door of Life and Death. If we want to destroy the immortal graveyard, we need to destroy the Door of Life and Death first.” Immortal Zombie Giant Sun sighed and left.

It was because they saw through this, he and Fang Yuan had chosen to invade the Door of Life and Death.

Naturally, there were also many other reasons.

“This method can be broken, and we can separate the immortal graveyard from the Door of Life and Death. But we don’t have time. Let’s go, onwards to the Crazy Demon formation!” Fang Yuan also turned around and left.

The immortals did not delay as they followed closely behind.

After the destruction of Primordial Domain, the eighth and ninth layer could be easily traveled to and from.

When Fang Yuan, Immortal Zombie Giant Sun, and the rest once again arrived before the Crazy Demon formation, only thirty percent of this formation remained.

A large number of truthful floating ice pieces were already melted, the remaining truthful floating ice pieces had expanded several times their previous size.

Bam.

Right at this time, a truthful floating ice piece suddenly detonated, turning into countless ice fragments.

Most of the ice fragments dissipated on the spot, and a small portion floated towards the formation, joining other truthful floating ice pieces.

“In this battle, Primordial Domain was lost, Giant Sun, Star Constellation, and even Spectral Soul have already become supreme grandmasters. If these eternal life research results derived by the Crazy Demon formation for over a million years are also seized by these people, that would truly be a crushing defeat!”

“If I cannot compete for it, I might have to destroy the final truthful floating ice piece and let no one gain anything.”

Fang Yuan’s gaze was icy as he charged towards the formation.

The other Gu Immortals also charged forward.

This group contained the strongest people of the current world; Fang Yuan, Giant Sun, Paradise Earth, Qi Sea, Zhan Bu Du, Shen Shang, Qi Jue, and Lu Wei Yin. This lineup was truly horrifying and suffocating.

“Terrifying!” Gu Yue Fang Zheng’s face was pale, he felt the intense killing intent even inside Demon Judgment Board.

“Don’t even think of it!” Even under the huge pressure, Heavenly Court Gu Immortals still walked forward.

It was Duke Mei!

Not only Duke Mei, Duke Tong, Golden Hooped Great Immortal, and others moved forward to block the path.

“Get lost!” Immortal Zombie Giant Sun shouted coldly. Golden light bloomed, turning into a giant palm that sent several people flying.

Hu Land appeared above Qi Sea Ancestor, qi waves surged and turned into a qi wall that blocked Ruan Dan and Fairy Maiden Soul.

Seven Fiendish Primeval Monarch attacked while riding on Shabi Ninety-five, Shen Shang and Demon Immortal Qi Jue were stopped by the killer move, their momentum stopping immediately.

“Damn it!” Demon Immortal Qi Jue furiously activated the killer move Xi Xi, suppressing Seven Fiendish Primeval Monarch.

Shen Shang attacked in coordination with a cold expression.

Seven Fiendish Primeval Monarch held on for a few breaths of time before he was killed by Qi Jue and Shen Shang. Shabi Ninety-five was also hacked into two, dying on the spot!

Although Heavenly Court’s members were strong, they were too weak in front of Fang Yuan’s group, of which the weakest was still at pseudo venerable level.

Moreover, they did not have the help of immortal formations or Immortal Gu Houses in this fight, they were using their lives to delay the enemies.

In just a short while, Heavenly Court’s side suffered huge casualties.

However, they also achieved their goal; Fang Yuan’s group’s momentum slowed down.

“Heavenly Court has the Door of Life and Death and the immortal graveyard, so what if these Gu Immortals died? They will revive soon without any loss to their battle strength.”

“If we want to fight our way into the formation, we need to control a part of it.”

Lu Wei Yin and Zhan Bu Du called out.

Starlight appeared, before Lu Wei Yin and Zhan Bu Du could react, they were sent flying by the starlight.

Starlight specks shone as Star Constellation Immortal Venerable revealed herself. She looked around and sighed: “You are all too anxious, Crazy Demon formation’s derivations are at the final juncture, you cannot act recklessly. What will we do if Limitless’ painstaking efforts of over a million years are destroyed?”

Fang Yuan's expression was cold, while Immortal Zombie Giant Sun smiled and said with his gaze fixed on Star Constellation Immortal Venerable: "Since that is the case, I might as well wait for them. But we cannot waste time now. Star Constellation, let us settle this once and for all!"

Star Constellation Immortal Venerable's gaze lingered: "I would like to see your skills too. Please go ahead and make your move."

The moment she finished speaking, the void fluctuated, stardust flew, creating vertical and horizontal starry paths, forming a grand chessboard.

At the center of the chessboard was the Crazy Demon formation, while Heavenly Court, Fang Yuan, Longevity Heaven, and other Gu Immortals were all inside the chessboard.

"Star Constellation Chessboard!" Immortal Zombie Giant Sun's eyes shone sharply.

Paradise Earth smiled as he came to realization: "So Star Constellation Chessboard was an Immortal Gu House as well as an immortal formation. But there are no records of this transformation."

Star Constellation Immortal Venerable answered Paradise Earth: "This was modified by me after I regained my Dao Lord status. Please do critique it."

Qi Sea Ancestor attacked directly without waiting for her to finish speaking.

Qi surged and shook the surroundings.

For a moment, starry paths vanished and stardust was swept away.

Star Constellation Immortal Venerable threw down a chess piece.

The chess piece turned into Nine Spiritual Fairy in midair. Nine Spiritual Fairy had already activated her transformation path killer move to turn into a kingfisher, she shot towards Qi Sea Ancestor with an astonishing speed.

Qi Sea Ancestor fought with her. After three to four rounds, there was still no clear victor.

Nine Spiritual Fairy was clearly strengthened by the formation.

After five to six rounds, Nine Spiritual Fairy had already transformed three times, but was starting to fall into danger.

But right at this time, chess pieces fell down; Wan Zi Hong, Bai Cang Shui, Jun Shen Guang, Zhou Xiong Xin, and other immortals attacked. The battlefield instantly turned chaotic.

After just a few rounds, Immortal Zombie Giant Sun saw the ingenuity behind this.

These Heavenly Court members were formation cores of Star Constellation Chessboard Formation. Under Star Constellation Immortal Venerable's control, their coordination was extremely good.

As more and more Gu Immortals entered the battle, the situation became increasingly chaotic, and Heavenly Court's advantage got bigger.

Immortal Zombie Giant Sun snorted coldly, he broke free from the chaotic battlefield and charged directly towards Star Constellation Immortal Venerable.

Star Constellation Immortal Venerable did not evade this time, she met Immortal Zombie Giant Sun head on.

A fight between two venerables could be said to be unprecedented!

Starlight flickered strongly, golden light spread, the whole battlefield was dyed golden and blue.

The aftermath of the two venerables' fight created a vast qi tide that was much worse than the past qi tides.

On one end, there was a wisdom path supreme grandmaster, the second generation Immortal King of Heavenly Court, an unmatched strategist with dazzling achievements. On the other end, there was the number one person in luck path who changed the luck of countless lives, he controlled Northern Plains and spread his bloodline widely.

They were evenly matched!

Chapter 2199: Star Constellation's Difficulty

All kinds of killer moves and methods were activated endlessly by Star Constellation Immortal Venerable and Immortal Zombie Giant Sun.

Some killer moves were domineering, spanning across heaven and earth. Some methods were exquisite and dazzling, splitting the universe.

Immortal Zombie Giant Sun was like a golden meteor, charging forward bravely.

Star Constellation Immortal Venerable's body flickered as she moved around in Star Constellation Chessboard Formation, leaving behind starlight shadows that attacked Immortal Zombie Giant Sun.

Moreover, even when fighting, Star Constellation Immortal Venerable was still controlling Star Constellation Chessboard Formation to help Heavenly Court members.

Prince Feng Xian used phoenix flames, Bai Cang Shui let out a large blue river, flower petals rained down below Wan Zi Hong... All kinds of killer moves were used repeatedly, and under Star Constellation Immortal Venerable's support, the conflicts between them were greatly reduced, forming waves of attacks that followed one after the other with short gaps between each other. Lu Wei Yin and others got a feeling of Heavenly Court's attacks being continuous and unending.

Fang Yuan frowned, commenting in his mind: "Star Constellation Immortal Venerable has astonishing wisdom path attainment, even though Immortal Zombie Giant Sun is fighting her, he is not able to force out her limits. She still has the energy to support others and control the whole battlefield."

"So, from another angle, Immortal Zombie Giant Sun also hasn't used his full strength?"

The two venerables were fighting, although there were huge explosions and countless methods used, their power did not go beyond Qi Sea Ancestor's Hu elevation killer move.

Be they Star Constellation Immortal Venerable or Immortal Zombie Giant Sun, they were wary of triggering Limitless' countermeasures.

A venerable's foundation was unfathomable, if any one side were to trigger Limitless' countermeasures, the other side would gain an advantage.

Naturally, the important thing was that both venerables wanted to obtain the eternal life research results!

The value of this research was enormous to the point of being inestimable.

In the deadlock between venerables, if a venerable could obtain the eternal life research results, they could likely break the balance and become the strongest among the venerables!

Even Star Constellation Immortal Venerable and Immortal Zombie Giant Sun were coveting the eternal life research results, so they had to restrain themselves right now. If they destroyed this formation in the midst of the intense battle, that would be a huge problem.

They were not Limitless, these truthful floating ice pieces were nurtured for over a million years. If any one of them was destroyed, the venerables would not be able to substitute it.

"Since it is so...." Fang Yuan's eyes shined brightly for a while, he suddenly commanded, "Qi Sea!"

Qi Sea Ancestor received the main body's voice transmission, he immediately used a killer move without hesitation.

Immortal killer move — Hu Elevation!

The terrifying qi path killer move descended once again.

The immortals evaded immediately.

Even the allied group of Qi Jue and Lu Wei Yin was the same.

"Are you insane?"

"Aren't you afraid of triggering Limitless' retaliation again?"

"No, maybe this is Fang Yuan's intention. Truly... amazing!"

The Gu Immortals were bewildered for a while before coming to a realization.

Lu Wei Yin's group was joyous, while the Heavenly Court Gu Immortals were worried.

Sure enough, at the next moment, chains appeared from thin air and bound Qi Sea Ancestor.

But the thing was, Qi Sea Ancestor was currently on Star Constellation Chessboard Formation.

Limitless' countermeasures attacked Qi Sea, they naturally would not leave Star Constellation Chessboard Formation out.

Fang Yuan wanted to get the help of Limitless' countermeasures to break Star Constellation Chessboard Formation!

But at the next moment.

Star Constellation Immortal Venerable suddenly got away from Immortal Zombie Giant Sun: “Fang Yuan, your scheme is wonderful, but how could I have not prepared for such a huge flaw? Please take a look.”

The moment her words landed, starlight bloomed, many of the horizontal and vertical starry paths moved and attached on Limitless’ chains.

After a few breaths of time, Limitless’ chains were bound by starry paths and were under Star Constellation Immortal Venerable’s control now.

Star Constellation Chessboard Formation was not disturbed by Limitless’ countermeasures, instead, it made use of them. The strength of these chains were used to make Star Constellation Chessboard Formation even firmer.

“How could this be?!” Demon Immortal Qi Jue’s expression changed.

Lu Wei Yin said through gritted teeth: “Star Constellation Immortal Venerable has prepared too well, her infiltration of Crazy Demon Cave is too deep.”

This was not strange.

After all, when Crazy Demon Cave was just constructed, Limitless Demon Venerable attacked Heavenly Court and made a bet with Star Constellation’s will.

That was to say, Heavenly Court had begun infiltrating Crazy Demon Cave the moment it was established.

This infiltration lasted over a million years!

Immortal Zombie Giant Sun obtained Savage Wilderness Great World, his infiltration of Crazy Demon Cave was about three hundred thousand years or so, it was not even half the time of Star Constellation Immortal Venerable’s infiltration.

Moreover, Star Constellation Immortal Venerable cultivated wisdom path, which excelled in infiltrating.

And Paradise Earth Immortal Venerable’s Yellow Earth Great World was only established over a hundred thousand years ago.

As for Fang Yuan, he was the most miserable one.

Although he came in touch with Crazy Demon Cave about ten or so years ago, his infiltration time of the Crazy Demon formation was almost zero.

If the Door of Life and Death was Spectral Soul Demon Venerable’s home ground. Then Crazy Demon Cave was over fifty percent the home ground of Star Constellation Immortal Venerable, while Immortal Zombie Giant Sun only had less than half the home ground advantage. Fang Yuan was like a guest, his understanding of Crazy Demon Cave mostly came from Paradise Earth’s information.

Star Constellation Chessboard gained Limitless’ chains, becoming even more powerful.

Heavenly Court Gu Immortals were unafraid of death, they used their lives to tie down the pseudo venerable opponents.

After all, an Immortal Venerable was helping them.

Naturally, they could not obstruct Fang Yuan's main body!

Fang Yuan's main body moved towards the sky and joined Immortal Zombie Giant Sun's and Star Constellation Immortal Venerable's battle.

As for Qi Sea Ancestor, he was bound by the chains. He could not even be put back into the sovereign immortal aperture, and could only leave his protection to Zhan Bu Du and others.

"Then, let's try this move." Fang Yuan took a deep breath, his gaze shining brightly.

Immortal killer move — Five Restriction Profound Light Qi!

Five colored light qi rapidly spread from around Fang Yuan. Be they Heavenly Court Gu Immortals or Lu Wei Yin's group, they all retreated.

They would suffer backlash every moment they fought in this five restriction profound light qi.

Five regional walls were manifesting once again through Fang Yuan's hands!

"This move again!" Prince Feng Xian and others gritted their teeth.

This move came from Tao Zhu, it had repeatedly made things difficult for Heavenly Court during the fate war and in Thieving Heaven's true inheritance space.

Right now, it became Star Constellation Immortal Venerable's issue!

Five restriction profound light qi was spreading in Star Constellation Chessboard Formation, Star Constellation Immortal Venerable immediately felt its effects as she started suffering backlash.

Those chains of Limitless on starry paths began to shake, eager to take action.

"Five restriction profound light qi is suppressed in this formation. But it looks like Star Constellation Immortal Venerable has not been able to find a way to break it."

"However... this method will trigger Limitless' countermeasures."

Fang Yuan observed carefully.

It was not strange for it to trigger Limitless' countermeasures. Five restriction profound light qi was the nemesis of Gu formations and Immortal Gu Houses, the Crazy Demon formation was also restrained. Inside five restriction profound light qi, the Crazy Demon formation would also suffer backlash, breaking apart eventually.

Limitless' arrangements would naturally detect this threat, so it was normal for five restriction profound light qi to trigger the countermeasures.

This was why Fang Yuan did not use five restriction profound light qi earlier.

As for the Door of Life and Death, there were too many soul path dao marks, even five restriction profound light qi would be suppressed. Moreover, even if the light qi became dense and formed five regional walls, Immortal Zombie Giant Sun and the rest would also be endangered, it was not worth it.

But the current situation was different.

Star Constellation Immortal Venerable's methods were amazing, she actually used Star Constellation Chessboard Formation to forcibly merge Limitless' chains. At this stage, Fang Yuan suddenly used five restriction profound light qi to oppose it!

In an instant, the amount of things Star Constellation Immortal Venerable needed to calculate increased by over ten times.

She had to deal with Immortal Zombie Giant Sun, help Heavenly Court members fight the pseudo venerables, forcibly control Limitless' chains, and also accelerate the Crazy Demon formation to quickly produce eternal life research results.

Now, Fang Yuan activated five restriction profound light qi in Star Constellation Chessboard Formation, Star Constellation Immortal Venerable had to endure the backlash as well as suppress Limitless' chains.

Fang Yuan's five restriction profound light qi was of extreme threat to the Crazy Demon formation, Limitless' chains were doing everything they could to shackle him. But Star Constellation Immortal Venerable must suppress it, if she did not suppress it and let it take effect freely, it would severely interfere and ultimately destroy Star Constellation Chessboard Formation.

Once the formation was destroyed, just these Heavenly Court Gu Immortals, even if they had the immortal graveyard, could not block the bloodthirsty pseudo venerables.

At that time, even if Star Constellation Immortal Venerable blocked Immortal Zombie Giant Sun and Fang Yuan, she would not be able to guard the eternal life research results, and the pseudo venerables would gain them.

There were no two ways about it, Heavenly Court had too little manpower after all.

Even though Star Constellation Immortal Venerable had revived, her enemies were too numerous!

"Five restriction profound light qi, what an amazing move!" Shen Shang praised as he saw through the situation.

Even he felt bad for Star Constellation Immortal Venerable!

Chapter 2200: Luck Gamble!

Fang Yuan activated five restriction profound light qi which inflicted backlash to Star Constellation Immortal Venerable at every moment. But Star Constellation Immortal Venerable needed to suppress Limitless' chains and control them, she was basically protecting Fang Yuan.

Star Constellation Immortal Venerable heaved a deep sigh.

Even if she was the number one person in the wisdom path, she had more problems than she could cope with.

From her point of view: Immortal Zombie Giant Sun was the strongest enemy in her life, she had to pay enough attention to him. Comparatively, Fang Yuan's threat was lower, but he could not be ignored.

After all, many venerables had invested in him, even Star Constellation's will had invested in him when Spectral Soul refined sovereign immortal fetus Gu.

Fang Yuan could not be left alone, if he was allowed to act as he pleased, he would give her huge problems!

Having this understanding, Star Constellation Immortal Venerable suddenly took out Book Mountain.

A chess piece flew out, it was Zhou Xiong Xin!

Zhou Xiong Xin landed on the middle of the mountain and controlled it with all his strength.

Book Mountain let out golden light, they were actually Immortal Zombie Giant Sun's luck path killer moves.

These luck path killer moves attacked Immortal Zombie Giant Sun, stopping him temporarily.

Almost at the same time, Star Constellation Immortal Venerable attacked Fang Yuan.

Fang Yuan did not activate Dang Hun Luo Po Seal.

This method was amplified by his countless dao marks, it was far stronger than Hu elevation. Star Constellation Immortal Venerable could disregard the cost to retrieve Star Constellation Chessboard Formation and release Limitless' chains.

Adding on the previous accumulated 'hatred' towards five restriction profound light qi, Fang Yuan would be fiercely shackled by Limitless' chains, his situation would be even worse than Qi Sea Ancestor's.

At that time, Fang Yuan would lose his battle strength, Star Constellation Immortal Venerable could take out Star Constellation Chessboard again and make the situation greatly advantageous for Heavenly Court.

Naturally, in the process of Star Constellation Chessboard being stored and taken out, it would be damaged, and even Star Constellation Immortal Venerable would suffer damage.

But how great would this damage be?

According to Fang Yuan's estimation, Star Constellation Immortal Venerable could endure it.

So, Fang Yuan did not attack, instead he retreated into the five restriction profound light qi.

Star Constellation Immortal Venerable smiled.

Fang Yuan's action was within her expectations.

Information about Dang Hun Luo Po Seal had already been transmitted from the Door of Life and Death. Star Constellation Immortal Venerable was slightly disappointed that Fang Yuan did not use this method.

But, Fang Yuan retreating into the five restriction profound light qi made it convenient for Star Constellation Immortal Venerable to take her next action.

At the next moment, Star Constellation Immortal Venerable gave a cry. Hundreds of vertical and horizontal starry paths twisted and turned like water waves, they quickly gathered and weaved an azure sphere, covering all the five restriction profound light qi and Fang Yuan inside.

Fang Yuan was actually sealed.

Five restriction profound light qi was still continuing to spread, but the space inside the azure sphere was vast. It would take a long time to fill it completely.

“An excellent response.” Fang Yuan praised.

Star Constellation Immortal Venerable used wisdom path and star path to imitate space path. Star Constellation Immortal Venerable did not break five restriction profound light qi, but found a way to restrain it.

This response was amazing, not only did she use Star Constellation Chessboard Formation to a whole new level, there were extraordinary methods like dao embroidery used as well.

Fang Yuan was trapped, but he was not hurried.

He waited for Immortal Zombie Giant Sun’s performance.

Immortal Zombie Giant Sun was extremely shrewd, he definitely realized Heavenly Court’s weakness and his side’s advantage.

Star Constellation Immortal Venerable took the risk to deal with Fang Yuan, Immortal Zombie Giant Sun had a good chance of success over on his end. On the contrary, if Star Constellation Immortal Venerable dealt with Immortal Zombie Giant Sun, Fang Yuan could make some arrangements. Although the strength of these cheap tricks was small, they would definitely cause great annoyance to Star Constellation Immortal Venerable. If they were not resolved immediately, these cheap tricks would become the key to suppressing Heavenly Court!

Sure enough, Immortal Zombie Giant Sun shouted, a giant wave of golden light pushed Book Mountain aside as it charged towards Star Constellation Immortal Venerable.

Book Mountain was sent flying like a meteor.

Zhou Xiong Xin, who was on the mountain, was already smashed to a pulp. This was the price of forcefully controlling Book Mountain!

This rank eight expert used all his strength but only stopped Immortal Zombie Giant Sun for a few breaths of time. This was the case even when he had Star Constellation Immortal Venerable’s help, Immortal Zombie Giant Sun had also restrained his strength to prevent damaging Limitless’ formation.

Immortal Zombie Giant Sun managed to get some free time, he immediately began preparing a method.

This chance did not come easily. When he fought with Star Constellation Immortal Venerable earlier, they attacked constantly, he had no such chances.

However, at the next moment.

“This killer move is finally complete.” Golden Hooped Great Immortal suddenly appeared, “Giant Sun Immortal Venerable, you fooled me, I invited you to Heavenly Court as a guest, but you took the chance to make your arrangements. During the fate war, Heavenly Court headquarters was ambushed by your Longevity Heaven!”

The moment he finished speaking, Golden Hooped Great Immortal used his life and all his cultivation to activate a killer move.

The mysterious light shone down and fell on Immortal Zombie Giant Sun’s head, turning into a golden hoop.

The golden hoop bound Immortal Zombie Giant Sun’s forehead, causing his mind and body to turn slightly sluggish.

A female immortal appeared behind Immortal Zombie Giant Sun.

It was Qin Ding Ling!

“Giant Sun, I am repaying you for all the humiliation you have given me back then!!” Qin Ding Ling shouted, slamming her hands on Immortal Zombie Giant Sun’s back.

Immortal killer move — Luck Gamble!

A black and white Gu worm resembling a die flew out of Qin Ding Ling’s phantom aperture, it rolled rapidly before coming to a stop.

Immortal Zombie Giant Sun — Three!

The die Gu worm rolled once again before coming to a stop, revealing a number on its surface.

Qin Ding Ling — Five!

Bam!

In an instant, Immortal Zombie Giant Sun’s vast luck was transferred to Qin Ding Ling.

Qin Ding Ling’s body shook, her face reddened, and her teeth clattered together. She could only endure with all her strength and had no strength to fight for the moment.

“Back then, when I forcibly took away a portion of Crazy Demon Cave’s Thieving Heaven true inheritance, a mysterious Immortal Gu escaped, I could not catch it in time. It seems like it was obtained by you in the end.” Immortal Zombie Giant Sun came to a realization.

Qin Ding Ling perspired profusely as she took in the endless luck while replying with hatred: “To deal with you, I gave up on metal path, I sealed and buried myself deep under the earth in a metal coffin, cultivating in seclusion as I comprehended luck path. During these three hundred thousand years, this gamble Gu was attracted to me and came to the metal coffin one day. From that moment, I realized this was the backlash of you forcefully taking Thieving Heaven’s true inheritance, it is also my fortuitous encounter to take revenge. Gamble, gamble, let us gamble with our lives!”

The intense golden light around Immortal Zombie Giant Sun dimmed rapidly.

Immortal Zombie Giant Sun's expression turned solemn.

The foundation of his combat system was based on powerful and prosperous luck. He had all kinds of killer moves that helped him to maintain positive and powerful luck, for instance, the unforeseen disaster killer move he used in the Door of Life and Death, to extract his bad luck to deal with the enemy. Although it reduced the size of his luck, his luck path methods quickly restored it, on the whole, his luck became even better.

Once Immortal Zombie Giant Sun's positive luck was stronger than the enemy's, his defense, offense, healing and other aspects would also rise based on the difference, always being higher than his enemy's.

Giant Sun Immortal Venerable's methods were extremely powerful and exquisite. Under the support of such a combat system, Giant Sun Immortal Venerable was invincible.

His luck path methods had never been spread, how could other Gu Immortals seize his luck?

Most Gu Immortals' luck would fall to rock-bottom within ten or so rounds, while Giant Sun Immortal Venerable's strength would continue to rise.

While it looked like Immortal Zombie Giant Sun was in a stalemate with Star Constellation Immortal Venerable, the fact was that he had already accumulated a huge advantage in terms of luck. At the final juncture, when the Crazy Demon formation stops and the eternal life research results emerge, without Limitless' retaliation anymore, Immortal Zombie Giant Sun could erupt with extreme strength.

But now, Qin Ding Ling dug at his foundation!

Qin Ding Ling had almost performed a miracle!

Just based on gamble Gu, Thieving Heaven Demon Venerable's retaliation would not be able to accomplish this.

Just Qin Ding Ling alone also could not accomplish this.

Even Star Constellation Immortal Venerable's arrangements and schemes alone could not dig at Immortal Zombie Giant Sun's foundation.

But these three factors joined to achieve a miracle-like achievement!

Immortal Zombie Giant Sun immediately activated a killer move, his thoughts increased and collided rapidly: "I fell for Star Constellation's scheme."

"She had already prepared this trump card to deal with me, but just did not have a chance before."

"When Fang Yuan used five restriction profound light qi, she saw the chance."

"She intentionally left to deal with Fang Yuan, even throwing out Book Mountain, it was just to show me weakness."

"She succeeded after all!"

Book Mountain was a secluded domain of heaven and earth, but in Star Constellation Immortal Venerable's eyes, it was only a chess piece that could be casually thrown.

In fact, many Heavenly Court members on Star Constellation Chessboard Formation were all Star Constellation Immortal Venerable's chess pieces.

Even Fang Yuan was used by Star Constellation Immortal Venerable to lure Immortal Zombie Giant Sun!

Just like how Immortal Zombie Giant Sun took Heavenly Court as his enemy, Heavenly Court also considered Longevity Heaven and Immortal Zombie Giant Sun as an obstacle.

Fang Yuan?

Although Fang Yuan was very strong, even destroying fate Gu, he was selected by heaven's will and received the help of venerables. Star Constellation Immortal Venerable used Fang Yuan, Giant Sun Immortal Venerable also made arrangements for Fang Yuan...

Fang Yuan was a chess piece.

Even if Fang Yuan's ambition was huge, wanting to become a refinement path venerable, turning into a player from a chess piece, Primordial Domain was already destroyed, how could he become refinement path Demon Venerable?

If he could not become venerable, even if he had more dao marks, he would only be a pseudo venerable.

Immortal Zombie Giant Sun and Star Constellation Immortal Venerable had already returned to being Dao Lords!

Star Constellation Immortal Venerable left Fang Yuan and returned to fight Immortal Zombie Giant Sun.

"Go." Star Constellation Immortal Venerable pointed at Qin Ding Ling, Star Constellation Chessboard Formation activated, the chess piece Qin Ding Ling immediately disappeared on the spot and appeared at the edge of the battlefield.

The killer move luck gamble was already activated, Qin Ding Ling had completed this crucial part!

Luck gamble!

After Qin Ding Ling recovered, she activated the killer move again.

Immortal Zombie Giant Sun — Three!

Qin Ding Ling — Two!

Boom...

At this time, Qin Ding Ling's luck surged out and transferred back to Immortal Zombie Giant Sun.

Luck gamble killer move's power was like this, it could not be controlled by people. The numbers determined victory or defeat, but the outcome was determined randomly, even Qin Ding Ling, who was the user could not influence it.
