

Insanity 2271

Chapter 2271: Left To Their Own Devices

At once, the situation became very complex.

Spectral Soul Demon Venerable broke through the heavenly chasm and chased after them.

Fairy Zi Wei and Ying Wu Xie were trapped in the middle.

Heavenly Court's three immortals, Golden Hooped Great Immortal, Seven Fiendish Primeval Monarch, and Duke Mei stood in front of the Shadow Sect members, while Feng Jiu Ge was indeed hiding nearby like what Fairy Zi Wei predicted.

If Spectral Soul Demon Venerable had his sanity, Feng Jiu Ge would not do this, that was too risky.

Fairy Zi Wei was really only trying her luck earlier.

She could not be certain of Feng Jiu Ge's location, this was only a possibility she deduced.

After all, Feng Jiu Ge did not kill them but used a method on them. This meant that Feng Jiu Ge wanted to make use of the two.

Fairy Zi Wei was in a desperate situation, she had to use all the methods she could think of, in that situation, Feng Jiu Ge became her hope.

But Feng Jiu Ge showed no signs of helping.

He squinted as he looked at the two Shadow Sect immortals from afar, he sighed internally: "It is

useless, I can already hear the cries of your destiny, even though it has some turbulence, it is en-route to the abyss, the outcome has been decided.”

During this period when he went missing, he had been cultivating the killer move destiny song, he made a lot of progress.

Spectral Soul Demon Venerable’s left head growled as soul balls appeared out of nowhere.

The soul balls had tiny tadpole-like tails behind them as they quickly got close to Fairy Zi Wei and Ying Wu Xie, before exploding intensely.

Fairy Zi Wei and Ying Wu Xie could not resist them, their souls shook and almost shattered on the spot.

“Attack!” At the other end, Duke Mei was the first to use his killer move.

Golden Hooped Great Immortal and Seven Fiendish Primeval Monarch followed closely after.

“I am going to die!” Ying Wu Xie’s expression was ashen.

“How can this be?” At the next moment, Fairy Zi Wei’s expression turned to shock.

Because the Heavenly Court immortals’ attacks were not aimed at them but Spectral Soul Demon Venerable instead, they resisted the soul ball method while helping to defend the Shadow Sect immortals.

Heavenly Court was saving the Shadow Sect immortals?

Even a wisdom path great expert like Fairy Zi Wei was stunned.

“Don’t tell me, because Star Constellation Immortal Venerable revived, she is allowing me to return to Heavenly Court in exchange for betraying master?”

“Or maybe, they want to capture the crucial split soul, Ying Wu Xie, to use a method against master?”

Methods to create clones were convenient but they also exposed a weakness.

In this world, nothing was perfect.

With benefit came cost.

Clone methods had many demerits, the main thing was that their connection to the main body could be exploited.

Spectral Soul Demon Venerable’s split soul had a weakness that was exposed long ago.

It was the sharing of attainment level.

It was an advantage and also a disadvantage.

When Spectral Soul Demon Venerable’s clone created sovereign immortal fetus Gu, a vast amount of attainment levels were expended, forming dream realms.

This caused Spectral Soul Demon Venerable’s own attainment level to fall as well.

Regardless of the intention of the three Heavenly Court immortals, the Shadow Sect immortals had survived because of them.

Far away, Feng Jiu Ge shook his head.

Be it the Shadow Sect immortals or Heavenly Court's three immortals, their efforts were all in vain.

As expected, the number of soul balls continued to increase, they grew to a scale that the five immortals had trouble defending against.

Be it Fairy Zi Wei or Duke Mei, they were all in desperation.

"Is this the might of a venerable?!"

"Spectral Soul Demon Venerable has lost his senses and even has such heavy injuries..."

"Damn it!"

The Heavenly Court immortals could not save the Shadow Sect immortals, they were implicated instead and became Spectral Soul Demon Venerable's next targets.

At the next moment, a huge number of soul balls would explode intensely and take the lives of these five immortals...

At this moment.

Feng Jiu Ge's expression changed.

"Oh?" At this moment, he felt a vast power rampaging into the battlefield.

This was the power of luck path, it was grand and vast!

“Luck path... is the representation of uncertainty.”

“This power was initially small, but as the luck path dao marks in the two heavens grew, a huge variable was created. Who is the source of this?”

Feng Jiu Ge pondered deeply.

The power of luck path was so grand it was on par with a rank nine killer move!

Crack crack.

The power of luck path changed the two heavens, it changed the entire battlefield.

Originally, the two heavens were fusing together, black heaven and white heaven were joining together piece and piece. The five immortals were in the area of white heaven.

But now, the immemorial black heaven fragment flew towards them from afar.

White heaven had abundant light path dao marks, while black heaven had more dark path dao marks, because of the conflict of dao marks, as the immemorial black heaven approached, white heaven's fragment shattered.

A large number of black and white heaven fragments created a huge current.

The current swept like a torrent, bringing Spectral Soul Demon Venerable along with it.

Without Spectral Soul Demon Venerable's control, the soul balls stayed at their spots without

moving or exploding.

“We need to go!” Using this chance, Fairy Zi Wei brought Ying Wu Xie along as they flew into the immemorial black heaven that was right beside them.

“Wait.” The three Heavenly Court immortals quickly chased them.

Spectral Soul Demon Venerable was swept away by the two heavens’ current, but after it weakened, he was freed again.

Spectral Soul Demon Venerable was covered in injuries currently, heaven path dao marks were carved all over his injuries. There were even fragments of the two heavens stabbed into his body, it was as if he was stabbed by countless mirrors.

Because he was far away and due to the heaven path dao marks on his injuries, Spectral Soul Demon Venerable could no longer sense Ying Wu Xie.

He was senseless and could not use investigative or tracking methods.

Spectral Soul Demon Venerable roared in anger and vented for some time before he was lured towards a nearby grotto-heaven.

This was Flickering Light grotto-heaven.

Inside, the leader of Flickering Light grotto-heaven, Gu Immortal Liang Jing Jing, was already trembling in fear.

In the past, with Flickering Light grotto-heaven hidden and condensed into a tiny spot, Spectral Soul Demon Venerable would not be able to find it in his current state.

But now, the fusion of the two heavens had reached the most intense moment, as a heaven vein node, Flickering Light grotto-heaven was affected by it and got exposed to the outside world.

“Alliance Leader, save me!!” Liang Jing Jing did not hesitate, she quickly asked Fang Yuan for help.

“I am willing to contribute light heaven for a large amount of contribution points in exchange for Lord Alliance Leader’s help to save my Flickering Light grotto-heaven!” Liang Jing Jing screamed out in terror.

“Light heaven?” Fang Yuan quickly received Liang Jing Jing’s distress message while he was unsealing the truthful floating ice.

After receiving the letter, he learned of light heaven.

Flickering Light grotto-heaven had devoured many fragments of the immemorial nine heavens, but its inner space was still too small.

A certain generation’s Flickering Light Grotto Lord came up with a brilliant plan to develop the grotto-heaven, that was to create an artificial heaven.

That was the source of light heaven.

From then on, the generations of Gu Immortals of Flickering Light grotto-heaven spent their lives to work on this grand plan, contributing everything into this.

They collected heavenly light and refined them carefully, slowly expanding the light heaven of

Flickering Light grotto-heaven.

Its current size had already surpassed the original space of Flickering Light grotto-heaven itself.

Fang Yuan quickly considered this.

His original plan was to let Zhan Bu Du stabilize the immortal aperture while he built more resource points and created more dao veins. After that, he would absorb the Primordial Domain and gain a huge boost of attainment levels.

With the attainment levels and stabilized the sovereign immortal aperture, he would be able to annex more grotto-heavens of the two heavens.

In the current situation, Flickering Light grotto-heaven was going to be destroyed, Fang Yuan's plans were unable to keep up with the development of events.

Fang Yuan was currently only a master in light path.

If he wanted to defend Flickering Light grotto-heaven, he would need to fight against Spectral Soul Demon Venerable. If the battle becomes too intense and obscured heavenly secret fails, he would be exposed, causing Giant Sun Immortal Venerable and Star Constellation Immortal Venerable to attack him at the same time.

And most crucially, against other venerables, Fang Yuan did not have much of an advantage.

Even though he had two rank nine Immortal Gu, he had not created complementary killer moves to use them with. He also had refinement path as his main path, it was not specialized in fighting.

“If the venerables end up fighting, I only have an advantage in immortal essence. However, if they join up to suppress me, my immortal essence will be countered by their sheer number.”

“I cannot save Flickering Light grotto-heaven!”

Fang Yuan decided to abandon Flickering Light grotto-heaven resolutely.

“Lord Alliance Leader, this light heaven is incredibly valuable, if you place it in the sovereign immortal aperture, it will be a great addition.” Liang Jing Jing urged, this was the only thing that she could offer to Fang Yuan now.

“Lord Alliance Leader, can you hear me? Please reply to me!!!” Liang Jing Jing stomped her feet in anxiety.

But now, Spectral Soul Demon Venerable had already arrived, with a loud sound, he destroyed the grotto-heaven’s entrance.

Hundreds or thousands of arms entered the immortal aperture, wherever they went, lives were slaughtered, nobody could defend against the might of the venerable!

Liang Jing Jing had to hide in light heaven while she cried and sought help from Fang Yuan.

Fang Yuan had an indifferent expression, he knew that this decision would affect his prestige, but fighting against Spectral Soul Demon Venerable was even worse.

These subordinates were only tools in his contest against the venerables, he would not sacrifice his own benefits for just one of these tools.

Chess pieces were pieces because they were meant to be used, they were also meant to be

discarded when necessary.

“Fang Yuan, I hate you, I hate you! How dare you call yourself Great Love Immortal Venerable?

I was wrong about you, you are leaving us to die, you are not fit to be the alliance leader!!”

Liang Jing Jing cursed in despair.

At this moment, Fang Yuan showed a joyful expression.

He had reached a qualitative development in unsealing the truthful floating ice.

His heaven path attainment level reached grandmaster!

The number of heaven path dao marks rose drastically, while other paths’ attainment level also grew slightly.

And most importantly, he gained heavenly secret Gu’s rank nine recipe!

“Rank nine heavenly secret Gu?”

This was an unexpected gain for Fang Yuan.

Even someone like him could not help but feel his eyes light up.

“It was really wise to not save Flickering Light grotto-heaven.”

“That was close...”

“If I had interfered to save Flickering Light grotto-heaven, it would trigger a battle between venerables later. I would have been a step away from obtaining rank nine heavenly secret

Immortal Gu's recipe!"

This Immortal Gu recipe came at the perfect timing, it was very useful to Fang Yuan.

Fang Yuan immediately decided that his third rank nine Immortal Gu would be — Heavenly Secret!

Chapter 2272: Doing Everything To Help

Qin Ding Ling and Jun Shen Guang flew rapidly along the way.

Ever since Qin Ding Ling used her luck path killer move, the two of them had a smooth journey with nearly no hurdles.

Jun Shen Guang sighed in admiration and praised it many times.

Qin Ding Ling explained: "The might of the move far exceeded my usual limits, I have already comprehended a part of the reason for the resonance with heaven and earth."

"Back then, Giant Sun Immortal Venerable placed Luck Suppression Heavenly Palace in Northern Plains' black heaven, it was there for three hundred thousand years."

"In these three hundred thousand years, Luck Suppression Heavenly Palace had been exerting its effect to lay out luck path dao marks, spreading nearly throughout the entire immemorial black heaven."

"Precisely because of this terrifying accumulation, it caused us to fail and suffer huge losses when Central Continent invaded Northern Plains to try and take fortune rivaling heaven Gu."

"Giant Sun Immortal Venerable had already predicted that the two heavens would fuse, thus, he

moved Luck Suppression Heavenly Palace away and used it in the battle in Crazy Demon Cave.”

“But the three hundred thousand years of accumulated luck path dao marks are all carved in Northern Plains’ immemorial black heaven. Furthermore, the number is too vast to imagine.”

“After the two heavens fused, both black and white heavens broke into countless fragments of various sizes, this caused the luck path dao marks to spread out as well.

Jun Shen Guang asked: “So why did your luck path killer move get amplified by these luck path dao marks? Is it because a move was made by Giant Sun Immortal Venerable?”

Qin Ding Ling had a grim expression: “If that is so, this will be part of Giant Sun Immortal Venerable’s scheme. But this is quite unlikely, because I have already asked Star Constellation Immortal Venerable about it, she told me that these luck path dao marks are natural dao marks, they do not belong to Giant Sun Immortal Venerable.”

Jun Shen Guang was more confused now: “So why was there a resonance?”

Qin Ding Ling shook her head: “Forget about this for now, the matter at hand is to recruit Flickering Light grotto-heaven!”

Regarding this, Jun Shen Guang was even more confident than before: “Lady Qin Ding Ling’s luck path killer move is unparalleled, in my opinion, we will definitely succeed this time.”

A while later.

The two immortals got close to Flickering Light grotto-heaven.

They were shocked to see that Spectral Soul Demon Venerable was rampaging inside Flickering Light grotto-heaven.

He did not enter the grotto-heaven physically, but he broke the grotto-heaven door and extended hundreds of arms inside to slaughter and destroy everything he could reach, be it mortals or immortals, it was a cruel sight.

Qin Ding Ling went into a daze.

She had never expected such a thing to happen.

The immemorial two heavens were too huge.

It was very improbable for Spectral Soul Demon Venerable to find trouble with Flickering Light grotto-heaven at this very moment.

Jun Shen Guang's mouth opened wide as he stared at Spectral Soul Demon Venerable before turning around to look at Qin Ding Ling with a complex expression.

He seemed to be asking: "Is this the effect of your luck path killer move?"

Qin Ding Ling coughed and said awkwardly: "Spectral Soul Demon Venerable is a venerable, even if my luck path method was amplified by the resonance of heaven and earth, it should not have such an immense effect."

Jun Shen Guang was dazed: "What should we do?"

They had originally planned to recruit Profound Literature grotto-heaven, but Old Immortal Hua Yu displayed the specialty of an information path expert.

He hinted to them that if they could recruit Flickering Light grotto-heaven, he would join them as well.

But now, after Qin Ding Ling and Jun Shen Guang took the time to travel all this way to Flickering Light grotto-heaven, they found that Flickering Light grotto-heaven was about to be destroyed by Spectral Soul Demon Venerable!

“Quickly escape, grotto lord!”

“Let us draw the attention of Spectral Soul Demon Venerable!”

“Flickering Light grotto-heaven is going to be destroyed, but your immortal aperture and our clansmen are all alive, please, you need to think of the big picture.”

At this time, six Gu Immortals flew out of Flickering Light grotto-heaven.

Rank eight light path Gu Immortal Liang Jing Jing was covered in heavy injuries, she was flying away in tears now as the other Gu Immortals used their lives to defend her.

However, even if Spectral Soul Demon Venerable was not sane now, he was still a venerable.

He had overwhelming killing intent, seeing that these Gu Immortals were trying to escape, he followed his instincts and tried to kill them.

The Gu Immortals of Flickering Light grotto-heaven were in imminent danger.

“A chance!” Jun Shen Guang shouted uncontrollably.

“So that’s it.” Qin Ding Ling understood at once: “So this is the true effect of my luck path killer move.”

Often, precious opportunities were hidden in dangerous situations.

“Let us help you!” Qin Ding Ling shouted and made a move first.

Jun Shen Guang quickly followed after her.

The Gu Immortals of Flickering Light grotto-heaven were initially fearful, according to their current faction, they were enemies. But after realizing that the Heavenly Court immortals were really helping them, these Gu Immortals developed an intense feeling of joy and gratitude.

Eventually, with the help of Qin Ding Ling and Jun Shen Guang, the Flickering Light grotto-heaven Gu Immortals managed to escape.

Of course, they paid a huge price for this.

Qin Ding Ling was lightly injured while Jun Shen Guang was heavily injured, only three Gu Immortals from Flickering Light grotto-heaven were left, one was unconscious while two were heavily injured.

“This is the power of a venerable, we had no way to retaliate!” Jun Shen Guang sighed, although he was safe now, he still sighed while feeling lingering fear.

He was a rank eight expert, but when chased by Spectral Soul Demon Venerable, he was fragile as a baby.

And this was when Spectral Soul Demon Venerable had no sanity, his actions were akin to a soul beast.

“If Spectral Soul Demon Venerable chased after us with all his strength, we would not have survived. Thankfully, his attention was mostly on Flickering Light grotto-heaven, he only chased us for a while before returning to destroy the grotto-heaven!” Qin Ding Ling said.

“Sigh...”

“Our homeland...”

Of the three Gu Immortals of Flickering Light grotto-heaven, one was unconscious while two had pale expression, they had a heavy mood and felt deep sadness, pain, anger, and helplessness that could not be concealed.

“You have my condolences. Venerables are invincible while us rank eights are ants. It was already our great fortune to have been able to escape.” Qin Ding Ling consoled.

Liang Jing Jing suddenly bowed and paid respects to Qin Ding Ling and Jun Shen Guang: “I will never forget the debt of saving our lives. We were enemies but you risked your lives to save us, such righteousness and magnanimity is truly astounding, we are in deep awe.”

“Heavenly Court is truly the leader of humanity, you will forever be the number one force in the world!”

“Compared to you, it is truly the biggest irony that our alliance leader called himself Great Love Immortal Venerable and created the Heaven and Earth Great Love Alliance.”

Speaking of Fang Yuan, Liang Jing Jing felt immense hatred.

Qin Ding Ling and Jun Shen Guang looked at each other, seeing the joy in each other's eyes.

The other Gu Immortal from Flickering Light grotto-heaven who was awake said: "Friends from Heavenly Court, our Grotto Lord is not a scheming person, Fang Yuan had really gone overboard!"

"We had already asked him for help, we placed light heaven in treasure yellow heaven and transacted it to him."

"But he took our light heaven and ignored our plight, he showed no intentions of helping us, he directly abandoned us!"

"We are his subordinates, we are members of his Heaven and Earth Great Love Alliance!"

"Such an action is truly disappointing and shameful. To think that we believed he would change his ways and become righteous after becoming venerable!"

Qin Ding Ling and Jun Shen Guang were very happy now.

Even without them saying anything, the Gu Immortals of Flickering Light grotto-heaven were already hinting that they wanted to jump ship and join them!

"Lady Qin Ding Ling's luck path killer move is truly profound and mystical." Jun Shen Guang praised internally.

Qin Ding Ling had a solemn expression: "I won't hide this from you, we came here because of a certain reason."

Next, Qin Ding Ling explained the details of why she came, she even requested for Liang Jing Jing to help convince Old Immortal Hua Yu.

After hearing her words, Liang Jing Jing and the rest were also quite joyful.

They had no choice now but to try to join Heavenly Court, they were very uneasy about betraying Fang Yuan.

If Fang Yuan came to them to settle the score, they would be in trouble.

Even if Star Constellation Immortal Venerable could block Heaven Refining Demon Venerable for some time and protect, how could she guard them forever?

If Fang Yuan bore hatred and wanted to kill these traitors, he would have the initiative. He could attack anytime he wanted to.

If he attacked on a random day, the Gu Immortals of Flickering Light grotto-heaven would not be able to block him or wait for reinforcements.

They were absolutely sure of that now.

Because earlier, they saw the terrifying might of Spectral Soul Demon Venerable.

He was just a senseless venerable.

If he had sanity, if their enemy was Fang Yuan instead of Spectral Soul Demon Venerable, that

would be incredibly terrifying. These Gu Immortals had no way of escaping at all.

The Gu Immortals of Flickering Light grotto-heaven confirmed that they were betraying him now, in that case, they needed more traitors on this ship, so that his attention would be split among them.

Thus, Liang Jing Jing did not even care about her injuries, she decided to go with Qin Ding Ling to try and convince Old Immortal Hua Yu at Profound Literature grotto-heaven.

The group met with Old Immortal Hua Yu as they conversed secretly.

Qin Ding Ling spoke convincingly: "Lady Star Constellation Immortal Venerable has already deduced the result, Spectral Soul Demon Venerable seem to be roaming aimlessly and causing destruction, but there is a pattern with his actions."

"He is destroying the pillars that hold up immemorial white heaven. For example, the heavenly chasm, heavenly pillar, or even heaven vein nodes like Flickering Light grotto-heaven."

"Your Profound Literature grotto-heaven is the same as Flickering Light grotto-heaven, you are both heaven vein nodes of immemorial white heaven. Spectral Soul Demon Venerable will definitely come to destroy Profound Literature grotto-heaven in the future."

Liang Jing Jing added: "Old Immortal Hua Yu, we've known each other for many years. You've seen what happened to me, Fang Yuan abandoned us, he even took away our light heaven, he is cold, cruel, and shameless to the extreme!"

"Do you want to entrust your life to such an alliance leader?"

"You have to decide now. Once Spectral Soul Demon Venerable comes to find you, it will be too

late for Profound Literature grotto-heaven to relocate.”

Chapter 2273: Giving Heavenly Court Two Slaps

Old Immortal Hua Yu was convinced, he gritted his teeth and said: “Does Heavenly Court have a way to relocate my grotto-heaven?”

Qin Ding Ling smiled lightly; “Of course we do. The foundation of Heavenly Court cannot be matched by Longevity Heaven or Fang Yuan. Believe me, joining Heavenly Court is the wisest decision!”

Old Immortal Hua Yu sighed deeply and replied: “This is a huge matter, do allow me to return to the grotto-heaven and hold a meeting with the other Gu Immortals.”

“We will wait here for the good news.” Qin Ding Ling showed a very understanding demeanor.

After Old Immortal Hua Yu returned to the grotto-heaven, he assembled the immortals and explained the situation to them.

Although they were shocked, after three days and nights, they all agreed with Old Immortal Hua Yu’s decision to switch sides to Heavenly Court.

Li Xiao Bai was among them, he also agreed to join Heavenly Court but he was feeling nervous internally.

If Star Constellation Immortal Venerable used an investigative method on him, she might find out his relationship with Fang Yuan. But he was just one person, while the intention to join Heavenly Court had already been acknowledged among everyone.

Old Immortal Hua Yu led the immortals out of the grotto-heaven, they met with Qin Ding Ling

and Jun Shen Guang.

“Good, good, good.” Qin Ding Ling welcomed them as she said: “Everyone, by joining the right side, not only will you gain immense benefits, you will also create a brighter future for your descendants.”

Old Immortal Hua Yu followed: “Indeed, we should share such joyful news with others. I hope Lady Qin Ding Ling and Lord Jun Shen Guang can help, I am willing to take a risk and rescue more friends from this demonic Heaven and Earth Great Love Alliance.”

Qin Ding Ling and Jun Shen Guang heard his words and laughed joyfully.

With Old Immortal Hua Yu taking the lead, and an example like Liang Jing Jing, because Qin Ding Ling also used a luck path killer move earlier, their journey in convincing the rest to join them went smoothly.

Several days later.

Nearly all of the human forces of the two heavens’ grotto-heavens had betrayed Fang Yuan, they went to join Heavenly Court.

To speak the truth, Qin Ding Ling had only planned to recruit Old Immortal Hua Yu, but after they took action, the results were actually much better than expected.

Such news could not be hidden, soon, the entire five regions’ Gu Immortals went into an uproar.

“Heavenly Court is still Heavenly Court after all!”

“Fang Yuan suffered a loss again.”

“Earlier in Western Desert, Heavenly Court won and forced Fang clan to sell all their resource points as they fled from their territory.”

“Now, Fang Yuan’s influence in the two heavens has mostly been uprooted by Heavenly Court.”

“Even though Fang Yuan is a venerable, he cultivates refinement path. Star Constellation Immortal Venerable is a wisdom path venerable, she is most skilled at plotting and making use of people’s feelings.”

“To speak the truth, I can understand why they chose to join Heavenly Court. After all, Fang Yuan did nothing and allowed Spectral Soul Demon Venerable to slaughter and cause destruction in the two heavens, this is not what a leader should do. There are even rumors that Fang Yuan took Liang Jing Jing’s light heaven without helping out!”

The Gu Immortals discussed among themselves.

Every action of a venerable, no matter how small, was a huge matter in the Gu Immortal world, it would draw the attention of everyone.

Many people started to guess what Fang Yuan would do now.

Would he take revenge? Would he take action to pursue those grotto-heaven forces that betrayed him?

Or would he just take this loss silently?

“If I were him, I would definitely take action! Traitors need to be punished, if they have an easier life after this, what will the other members of the Heaven and Earth Great Love Alliance think?”

“If they can betray him so easily, aren’t they simply disregarding the status of Great Love Immortal Venerable?”

“Maybe they are just bullying Lord Fang Yuan for being a newly advanced venerable.”

“How can the pride of a venerable be provoked so easily?”

Soon, waves of discussion erupted, becoming the main topic of treasure yellow heaven.

“Hehe.” Wu Yong smiled coldly, he did not need to guess to know that this discussion was driven by Longevity Heaven.

If he could force Heaven Refining Demon Venerable and Star Constellation Immortal Venerable to enter battle from this, Giant Sun Immortal Venerable would benefit immensely.

“Fang Yuan will not make a move, I know him too well.” Wu Yong looked in the direction of Eastern Sea as he sighed deeply.

If it were him, he would not do anything either.

If a move was made, Fang Yuan would need to fight against Spectral Soul Demon Venerable, this was extremely disadvantageous.

“With the contest of three venerables, Giant Sun Immortal Venerable clearly has the upper hand. Star Constellation Immortal Venerable and Giant Sun Immortal Venerable have their stronghold respectively, while Fang Yuan lacks in this aspect while also having the least immortal essence.”

“In this situation, he needs to be even more vigilant. If he takes action abruptly, he will likely be disadvantaged even further.”

“The rumors should be true, Fang Yuan took the light heaven but did not help her. In this aspect, I cannot compare to him.”

Comparing himself to Fang Yuan, Wu Yong reflected upon himself and felt that his shamelessness was still not enough, he had much to learn.

What were reputation and prestige?

They were just elements that were necessary to survive or gain victory.

If reputation or prestige were not useful for survival or claiming victory, then they should be discarded immediately.

When it was time to be shameless, one needed to be resolutely shameless!

“It is time.”

“It is time to join the Heaven and Earth Great Love Alliance.”

Bright light flickered in Wu Yong’s eyes continuously.

Right when everyone thought poorly of Fang Yuan and felt that he was the weakest among the three venerables, Wu Yong made a decision that was the opposite of everyone else!

Fang Yuan accepted it without hesitation.

Once news spread, Southern Border's Gu Immortal world became shocked, the entire five regions' Gu Immortal world was shaken.

Fang clan who joined the Heaven and Earth Great Love Alliance lost their territory and had to flee. A large number of super forces in the two heavens also left the Heaven and Earth Great Love Alliance.

In this situation, Wu clan went against the trend and publicly joined the Heaven and Earth Great Love Alliance, this was a questionable action that drew disdain from others.

Southern Border's Gu Immortal world was shaken, doubts towards Wu Yong soon rose and erupted into a storm.

But Wu clan, who was at the center of the storm, stayed united against all resistance, no matter how they were targeted, they remained unmoving like a monolith, showing no weaknesses at all.

Back in Western Desert.

"Southern Border's Wu Yong... I've heard of his name long ago, but his courage and foresight are truly admirable." Fang Gong said in amazement.

Fang Di Chang nodded: "I wonder how much benefits he obtained from Fang Yuan by using the entire Wu clan as the stake to publicly join the Heaven and Earth Great Love Alliance."

"Regardless of the results, this is a grand leader with huge ambitions! Wu clan has been Southern Border's number one super force for a long time, but they still made such a risky move. My Fang clan is far inferior to Wu clan to begin with, so how can we not have the same resolve as them?" Fang Hua Sheng smiled.

“Third supreme elder is right! Our Fang clan has already rested sufficiently, all sorts of resource points have been transacted for Immortal Gu, Fang An Lei and Fang Chen have also returned already, and our Immortal Gu Houses have been improved further. It is time to take action!” Fang Leng shouted with great enthusiasm.

Fang clan lost all their territory, they became a roaming force without a base.

But in this situation, youngsters like Fang Leng grew up and matured rapidly, they became more proactive and enthusiastic.

Fang Di Chang looked towards the other Gu Immortals as he said: “What do you think?”

“I think we can make a move now!”

“If we stay cooped up in here, I feel like I will turn rusty soon.”

“We need to show those super forces that bullied our Fang clan that there is a huge price to pay for provoking us!”

After seeing that their Gu Immortals had high morale, Fang Gong became very happy: “Good, we will teach them a lesson that they will never forget!”

The first supreme elder showed a clear attitude, Fang clan’s immortals had shining eyes as their expressions became even more heated.

Fang Di Chang nodded lightly and tossed out an information path Gu worm which turned into a map in the air: “We will target this place.”

The immortals looked and had a change of expressions, they did not think that Fang Di Chang would make such a decision.

“This is... earthly flame forest?”

“This is Dong clan’s number one resource point! It is tightly defended.”

“Is this too aggressive?”

Fang Di Chang smiled: “Everyone, listen to me. The earthly flame forest is not made of trees but flame pillars from underground instead. After reaching a breaking point, they will spew out of the surface and form into flames that resemble trees. The cause is the fire path dao vein underground.”

“However, with the unification of five regions, the regional walls vanished and the earth veins relocated drastically. Thus, that fire path dao vein is also shifting.”

“Earlier, Dong clan set up an immortal formation there using the original location without any Immortal Gu. Currently, it is at the breaking point, it is like a paper window that can be pierced with just one strike!”

“And most crucially, the mission board of our alliance has changed. Earth path resource points are now exchanging for less contribution points while wind path and fire path resource points have grown in value. Thus, by attacking this spot, we can gain even more contribution points!”

After the Fang clan immortals heard this, they understood that Fang Di Chang had planned this after much preparation and consideration.

“As expected of Lord Fang Di Chang.” Fang Chen sighed.

“Since second supreme elder has decided upon this, we will trust you!” Fang An Lei expressed her view.

“Then let us take down this earthly flame forest, hahaha.” Old Ghost Bai Jun was Fang clan’s slave Gu Immortal, he also showed his stance.

“I can’t wait anymore.” Fang Dong Xi rubbed his palms together.

Although he had revived and retained his rank seven cultivation, his immortal aperture was empty and needed development.

Earlier, when the Fang clansmen were sold, he had gone to Xiao Ye Hu for a transaction but found that Wang Xiao Er had been bought already.

As for the other Fang clan members, because of Fang Di Chang’s words, to play it safe for now, they did not buy them.

Several days later.

Fang clan moved out all at once, successfully assaulting earthly flame forest.

Fang clan had a huge force now while Dong clan had just lost their Red River Wheel.

Dong clan’s first supreme elder did not hesitate, he immediately requested for help from the other super forces.

After Dong clan gathered many Gu Immortals and several Immortal Gu Houses, they went to reinforce the resource point but found that it was in a state of ruin and destruction.

Fang clan had not just retreated and vanished into thin air, they even moved the entire mountain-like area of the earthly flame forest, including the ground itself, into treasure yellow heaven.

Western Desert's Gu Immortals were shaken!

The five regions' Gu Immortals were stunned.

Right when Dong clan's first supreme elder hesitated on whether to organize a second anti-Fang alliance, Fang clan struck again and targeted the other super forces' resource points, after succeeding, they easily retreated.

The five regions went into an uproar!

Western Desert's super forces started to become fearful, everyone started to focus on defending themselves.

Fang Yuan did not make a move on the two heavens' grotto-heavens from start to finish. But Southern Border's Wu clan and Western Desert's Fang clan had taken action instead, this was like giving Heavenly Court two slaps across the face, creating two loud sounds that resounded in the entire world.

Chapter 2274: Beneath the Heavens and Above the Earth, I am the Most Dazzling One in Sight

Heavenly Court.

Star Constellation Immortal Venerable let out a breath of air, her face was pale, she felt an intense weakness and fatigue spreading throughout her body.

"I finally created this formation, now, it is time for our human path to develop rapidly."

Star Constellation Immortal Venerable looked at the derivation formation in front of her with much joy.

After she refined all the wisdom path dao marks in Heavenly Court, she did not set off immediately, instead, she made use of the time to quickly set up the derivation formation.

Although Star Constellation Immortal Venerable cultivated wisdom path and star path, she was not weak at setting up formations either.

In fact, she was even more formidable than most rank eight formation path experts.

Of course, compared to legendary formation path great experts, Star Constellation Immortal Venerable was still unable to compare to them in formation path alone.

Regardless, with the full effort of Star Constellation Immortal Venerable, this derivation formation was finally completed!

The core of this formation was rank nine derivation Immortal Gu.

This was a legendary Immortal Gu first recorded in <<The Legends of Ren Zu>>. It was once obtained by Limitless Demon Venerable and used in his Crazy Demon formation as the core.

After the battle in Crazy Demon Cave, Star Constellation Immortal Venerable took this piece of truthful floating ice that contained derivation Gu.

Star Constellation Immortal Venerable used Heavenly Court's heaven path research results to unseal the truthful floating ice and retrieve derivation Gu.

Afterwards, she used derivation Immortal Gu as the main core to establish this formation around it!

Limitless Demon Venerable used derivation Immortal Gu and the chaos outside the world to derive and create this truthful floating ice that did not belong to this world in essence.

Star Constellation Immortal Venerable used the essence of the Crazy Demon formation to create her own derivation formation that was meant to develop human path.

The development of a path usually took over a hundred thousand or even millions of years and the effort of countless geniuses and talents. But using the derivation formation, the path's development soared like a rocket, it shot up towards the sky with one thrust!

After inspecting the derivation formation, Star Constellation Immortal Venerable checked the various wisdom path killer moves that she used earlier.

These wisdom path killer moves could block detection methods and conceal her derivation formation, and also amplify Heavenly Court's defenses.

Although the core Immortal Gu of these moves were only rank eight, under the amplification of Heavenly Court's dao marks, even if the other venerables attacked at full force, they could last for some time.

After everything was done, Star Constellation Immortal Venerable took a rest, this was something that she barely did.

But her immortal essence had been depleted to a great extent, although her immortal aperture was developing, the rank nine immortal essence production could not keep up with her expenditure.

Furthermore, in order to create this rank nine formation, because Star Constellation Immortal Venerable was not a formation path venerable, she had to use up a vast number of thoughts.

Come to speak of it, ever since Star Constellation Immortal Venerable revived, she had not taken a proper rest.

The contest of venerables gave her immense pressure.

After three days passed, Star Constellation Immortal Venerable immediately went to settle Heavenly Court's affairs.

Heavenly Court's immortals (and wills) gathered for a discussion again.

Qin Ding Ling came to report everything that had happened in the two heavens.

Star Constellation Immortal Venerable gave her some words of encouragement, the two of them, Qin Ding Ling and Jun Shen Guang, had done a great job in recruiting most of the grotto-heaven forces in the two heavens.

As for the mysterious amplification of Qin Ding Ling's luck path killer move, Star Constellation Immortal Venerable also decided to spend some time to make deductions on it.

Northern Plains had no significant events happening, the demonic cultivators were gathering together under the pressure of Giant Sun Immortal Venerable, they were either recruited by the Huang Jin tribes or went to the side of Chu Du, Heavenly Lord Bai Zu, and Fairy Black Moon.

As for Wan clan, Fang clan created a commotion and attacked many of Western Desert's super forces with great success. Western Desert's righteous path was having a huge headache now, Wan clan and the others were seeking help from Heavenly Court.

In Southern Border, Wu Yong created a commotion. He was already close to Heavenly Court but he suddenly changed attitude and joined the Heaven and Earth Great Love Alliance.

Star Constellation Immortal Venerable rejected the request of sending help to Western Desert's righteous path, while mobilizing almost all of the Gu Immortals in the Central Continent's ten great ancient sects to create her star array calculation formation.

Western Desert's situation was mostly led by Wan Zi Hong and Zhou Xiong Xin.

“Fang clan is just a small problem, how many resource points can Fang clan plunder? In the case of the sovereign immortal aperture, it is too insignificant.”

“The more Fang clan attacks, the more clues they will leave behind. One day, their location will be exposed to us.”

“Western Desert’s righteous path is losing, but that is not the loss of our Central Continent’s Heavenly Court.”

“As for Southern Border’s Wu Yong, let him go. Right now, Heavenly Court cannot send troops out yet. He is ambitious but he is not even a pseudo venerable. How many ambitious Gu Immortals are there in the world? Only more will appear in the future.”

“Right now, the fusion of two heavens has reached the most crucial moment, this is the natural development of the Heavenly Dao. Now that Spectral Soul Demon Venerable has lost his human nature, his actions are dictated by the nature of heaven. I have already deduced that there will be a huge change in the future.”

“Central Continent needs to create the star array calculation formation to prepare for the future, when the Heavenly Dao undergo new changes.”

After Star Constellation Immortal Venerable’s words, some Gu Immortals pointed out their doubts: “The creation of this formation is unprecedented in size and scale, I am worried that if we set it up without any concealment, the other venerables will attack.”

Star Constellation Immortal Venerable smiled plainly: “No worries, I have a plan.”

On the same day, Central Continent’s ten great ancient sects sent a large number of Gu Immortals to gather above the sky of Central Continent, they started to place stars and arrange them according to the star array calculation formation.

The number of Gu Immortals involved and the height of their respective cultivation levels was simply unprecedented.

Such a huge commotion immediately drew the attention of the Gu Immortals of the five regions.

It was clear that only Star Constellation Immortal Venerable had the ability to gather such a large number of people.

The Gu Immortals started to guess what ability was contained in this formation that Star Constellation Immortal Venerable was trying to build.

Giant Sun Immortal Venerable had already returned to Longevity Heaven.

His gaze pierced through the ground and into the Blood Sea at the bottom.

It was rumbling with huge waves, at the center of the Blood Sea, there was a huge whirlpool.

“It is finally time.” Giant Sun Immortal Venerable nodded slightly.

This Blood Sea had been hidden in Longevity Heaven all along, it was created by Giant Sun Immortal Venerable’s clone, Blood Sea Ancestor.

He wanted to create a blood path secluded domain of heaven and earth.

Blood Sea Ancestor left behind countless blood path inheritances, including nine true inheritances. He had naturally left behind the deepest profundities in Longevity Heaven, Blood Sea was one of them.

Initially, this Blood Sea was small and of low quality, but after countless years of nurturing, it had already reached an impressive level.

Before Giant Sun Immortal Venerable revived, he had already started making arrangements for Blood Sea.

Blood Sea was very important for the current Giant Sun Immortal Venerable. Thus, he let his subordinate who had the best Gu refinement ability, Yao Huang, stay here to control the overall situation.

Immortal killer move — Destined Birth Through Luck.

Giant Sun Immortal Venerable activated this killer move, by combining the luck path method with Blood Sea, he could revive Gu Immortals!

Under the amplification of Longevity Heaven’s luck path dao marks, golden light radiated heaven and earth, penetrating deep into Blood Sea, every droplet of blood water was dyed golden in color.

Rumble...

Blood waves rose and crashed as thunderous sounds erupted, the huge whirlpool at the center became more rapid and turbulent.

Yao Huang had an exhausted expression, he had been guarding this place and using refinement path methods without rest, he was exerting his full effort without losing his concentration at all.

Right now, he thought to himself with intense anticipation.

“Blood Sea has the power to revive people on its own, while ancestor used his luck path killer move, destined birth through luck. With the combination of both, this Gu Immortal who revives first will definitely be of great help and importance to our Longevity Heaven!”

“Who will this person be?”

Boom!

After reaching a certain limit, the blood waves exploded into a shocking tsunami of great height.

The waves crashed into the huge whirlpool at the center from all directions, filling it up immediately.

Blood Sea became tranquil all of a sudden, it was still turbulent earlier but became clear as a mirror now, the contrast was quite jarring.

Suddenly, a pillar of light shot up from the sea.

Next, more and more lights appeared, over a thousand light pillars pierced through the sea like dozens of sharp swords.

A huge lump of light rose from Blood Sea like a miniature sun.

This light was so dazzling that Yao Huang had to squint his eyes and use a killer move, but he still felt like his eyes were going blind.

“A light path Gu Immortal expert...”

“In history, which person with Huang Jin bloodline fits this description?”

Almost instantly, a name appeared in Yao Huang’s mind.

As the dazzling light faded away, a Gu Immortal stayed floating in the air, he had no hair but his body emitted intense light in all directions, he was like a person made of light.

He pointed towards heaven and earth with both hands respectively as he shouted loudly: "Beneath the heavens and above the earth, I am the most dazzling one in sight!"

Yao Huang was deeply shocked.

"There's no mistake, with this tone and temperament, it has to be him."

"Ancestor's eldest son, the legendary light path cultivator who left his name in history."

"Pseudo venerable — Light Emperor!"

At this moment, Light Emperor reacted as he looked at Yao Huang and asked: "I actually revived, who are you?"

"I am the current generation South Desolation Immortal, Yao Huang."

"You revived me?"

"I did." Giant Sun Immortal Venerable spoke.

"Father?!" Light Emperor was shocked, he blinked rapidly: "Oh, in that case, other than you, my father, in this world, I am the most dazzling!"

"Cough, cough." Yao Huang interrupted: "The truth is, Light Emperor, in the current world, there are four venerables in existence, while three are in a deadlock."

Light Emperor was stunned, he rubbed his chin: "Oh, in that case, other than the four venerables, I am the most dazzling person!"

"You are not the only pseudo venerable, my son." Giant Sun Immortal Venerable spoke again.

"Ah, damn it." Light Emperor rubbed his bald head, he could not frown without any eyebrows, but he still showed a bitter expression: "This era has many dazzling people. But it is not a problem, I am the Light Emperor after all!"

"You were reborn at an opportune time, I have already checked that your fortuitous encounter is in the immemorial two heavens. Go there, my son." Giant Sun Immortal Venerable's voice gradually became softer as he left.

“Father, don’t leave so hastily. Give me a few Immortal Gu, how else can I shine brightly?” Light Emperor shouted.

“Lord, don’t worry, ancestor has already prepared your Immortal Gu.” Yao Huang said as he flew over and handed him some light path Immortal Gu.

Light Emperor was feeling quite vexed: “Just these? No wonder father left so quickly. It will be quite hard to dazzle everyone now.”

Chapter 2275: Another Declaration From Fang Yuan!

“To think that Heavenly Court will arrange us to be here.”

“Hmph, where else do you want to be? Inside Heavenly Court?”

“Everyone, it is too late to turn back now. Now that we have joined Heavenly Court, we have no alternative but to obey them. Having internal strife now is very stupid.”

The leaders of the various grotto-heavens like Old Immortal Hua Yu, Liang Jing Jing, and Granny Skeleton gathered together.

Some of their expressions were quite unsightly.

After joining Heavenly Court, even though their grotto-heavens had devoured immemorial nine heavens fragments before, Heavenly Court still had an effective immortal aperture relocation method to use.

But these grotto-heavens suffered immense losses after a forceful relocation.

Furthermore, most of them were now gathered in the two heavens above Central Continent. According to Heavenly Court, their grotto-heavens were arranged in accordance with the star array calculation formation below, they were all treated as formation cores!

“Everyone, have you been well?” Qin Ding Ling smiled and flew towards them.

The Grotto Lords were all expressionless, most of them were even snorting coldly, in the end, Old Immortal Hua Yu and Liang Jing Jing were the ones to greet her.

Qin Ding Ling understood the reason behind the emotions of these rank eight Gu Immortals.

After these people joined Heavenly Court, not only did their grotto-heavens suffer great losses, they were even used by Star Constellation Immortal Venerable as the cores of her star array calculation formation.

This meant that if the three venerables fought in the future, when they try to break into the formation, these grotto-heavens would be at the forefront to deal with such attacks, they could become sacrificial pieces if they were careless.

Qin Ding Ling smiled as she spoke to Old Immortal Hua Yu and Liang Jing Jing, afterwards, her tone turned cold as she chided the rest: "We've already explained it to you. Heavenly Court's righteousness comes at a price, if not for the fact that we removed your grotto-heavens from the heaven vein nodes, will your homelands still exist now?"

The other immortals' expressions changed.

Qin Ding Ling had not shown such an attitude when she went to recruit them back then.

But now that she showed her true colors, the Grotto Lords had no choice but to endure it.

As subordinates, they had no choice but to give in now!

Especially for the first batch of Gu Immortals like Granny Skeleton, their grotto-heavens were situated in immemorial black heaven, they were forced by the circumstances to join Heavenly Court like Old Immortal Hua Yu and the rest.

Right now, it seemed that the other variant human grotto-heavens were still left in the immemorial two heavens, Spectral Soul Demon Venerable only destroyed the grotto-heavens in white heaven, he did not do anything to those in black heaven.

Granny Skeleton and others felt very regretful, but at this point, what could they do?

After scolding these Grotto Lords, Qin Ding Ling saw that their expressions became more respectful, she snorted coldly: "It seems that you've already woken up, now, come with me to meet Lady Star Constellation Immortal Venerable."

Star Constellation Immortal Venerable was not in Heavenly Court now.

She refined Heavenly Court's wisdom path dao marks and activated wisdom path methods to conceal the derivation formation, afterwards, she left to refine the natural wisdom path dao marks of Central Continent.

But because of a shortage of immortal essence, and because her immortal aperture could not produce enough essence to keep up with the expenditure, she helped the Central Continent immortals with the arrangement of the star array calculation formation while resting.

Under the lead of Qin Ding Ling, the two heavens' Grotto Lords met with Star Constellation Immortal Venerable in the sky above Central Continent.

Star Constellation Immortal Venerable was currently inside Embroidered Tower, she used dao embroidery personally to weave wisdom path and star path dao marks in the surrounding ten thousand li, creating a beautiful work of art.

After the fate war, Reckless Savage Demon Venerable's method was obtained by Fang Yuan. After Star Constellation Immortal Venerable revived, she quickly modified and changed Embroidered Tower.

Right now, not only was Embroidered Tower complete, it also became more profound and powerful.

After personally seeing Star Constellation Immortal Venerable's incredible method, the Grotto Lords were deeply shaken, they paid their respects.

Seeing them kneel in midair, the Gu Immortals of Central Continent's ten great ancient sects who were setting up the formation became very enthusiastic and motivated.

Star Constellation Immortal Venerable gave them a light gaze, she sensed their complex emotions, there was unease among most of them, some also felt angry and indignant about their predicament.

Star Constellation Immortal Venerable consoled them expressionlessly: "Friends, you are all humans, having been freed from the demonic grasp of Eastern Sea, it is a great victory for humanity. Ever since ancient times, Heavenly Court has been the sacred land of humanity, it is the greatest homeland of everyone. No matter what your ancestors did that caused them to hide in the immemorial two heavens, Heavenly Court will not hold you accountable, let the past remain in the past."

"Don't worry, Heavenly Court treats everyone equally, whoever makes contributions will be fairly rewarded by Heavenly Court. In the future, your glory of having joined Heavenly Court will also be passed on to your descendants."

Old Immortal Hua Yu and the rest were still kneeling, after hearing her words, they expressed their gratitude and praised Heavenly Court's righteousness, they declared their loyalty and confidence in Heavenly Court.

Eastern Sea.

Fang Yuan looked at the rank nine Immortal Gu recipe of heavenly secret Gu as he let out a breath of turbid air.

This Immortal Gu recipe was very different from before.

Originally, the rank nine Immortal Gu recipe of Heavenly Secret came from the truthful floating ice, it was part of Limitless Demon Venerable's foundation, he had obtained it from digesting the chaos outside the world.

That was to say, within the Heavenly Dao of this Gu world, there was no rank nine heavenly secret Gu.

In order to pursue eternal life, Limitless Demon Venerable digested the chaos and gained many results that surpassed the current Heavenly Dao. Rank nine heavenly secret Immortal Gu was one of his gains.

This was a great achievement indeed, but there was still room for improvement.

After all, Limitless Demon Venerable died long ago, even though he revived earlier, he was not a refinement path venerable.

In terms of refinement path, Fang Yuan was the number one person throughout history, none of the venerables could match him.

Thus, using his own refinement path attainment, Fang Yuan modified this Immortal Gu recipe to a higher level, it was truly exemplary beyond the limit of the world!

Right now, Fang Yuan had a clear understanding of Heavenly Secret.

This was in essence a heaven path Gu worm, but Fang Yuan had once thought it was wisdom path.

This Immortal Gu was created by Paradise Earth Immortal Venerable, at that time, he already possessed heaven path attainment.

Afterwards, heavenly secret Immortal Gu was refined by Spectral Soul Demon Venerable's split soul, Old Man Yan Shi, it was destroyed on Yi Tian Mountain.

Now, heavenly secret Immortal Gu was refined and owned by Fang Yuan, he had refined it using the refinement path killer move heavenly light ring.

By activating heavenly secret Immortal Gu, one could peek into the intention of heaven's will, it could allow the Gu Immortal to get an answer from heaven and earth. There were no events in the world that heaven and earth did not know of. It was as the saying goes, except you and me, only heaven and earth know. It could expose the secrets of heaven and earth, even if the Gu Immortal did not have any evidences or clues, it could directly lead them to the truth.

But Heavenly Secret had a weakness when using it.

Out of ten activations, at least eight would fail. Once the activation fails, the user would suffer a backlash of ten to seventy years of lifespan.

This weakness was actually created because people did not understand the true essence of heavenly secret Gu.

Heavenly secret Gu was a heaven path Immortal Gu, a heaven path cultivator needed enough heaven path dao marks to be able to activate it normally.

When activating heavenly secret Gu, not only was immortal essence needed, one also had to expend heaven path immortal materials.

This was like Fang Yuan's obscured heavenly secret.

Without using heaven path immortal materials, heavenly secret Gu could still be activated successfully, but the price was that the amount of heaven path immortal materials needed for the next activation would be much higher.

This was why backlashes occurred that took the Gu cultivator's lifespan.

Lifespan Gu was a heaven path Gu worm, the lifespan of Gu cultivators were actually heaven path dao marks.

Looking back at it, Old Man Yan Shi did not truly understand heavenly secret Gu.

But this was a normal thing, paths developed over time, the essence of Gu worms was also explored and understood when using them.

Understanding something required a process that took time.

"With this Immortal Gu recipe, I can now advance my heavenly secret Gu."

Fang Yuan did not lack heaven path immortal materials.

This was due to the unprecedented appearance of abundant heaven path immortal materials when the two heavens fused together.

Shen Shang, who was in charge of collecting heaven path immortal materials, worked very hard.

Earlier, because Fang Yuan wanted his human path cultivation gains but he only gave a portion of it, he felt very uneasy. For the sake of his clan and himself, he had to work very hard as compensation.

“As long as I refine rank nine heavenly secret Gu, the power of obscured heavenly secret will rise sharply, the two venerables will continue to be deceived.”

“But before that, I need to make another declaration.”

Almost all the human grotto-heavens in the two heavens had joined Heavenly Court, while the variant human grotto-heavens that remained in immemorial white heaven were wiped out by Spectral Soul Demon Venerable.

Regarding this, Fang Yuan had to express himself.

“Fellow cultivators from the five regions and two heavens, I am Great Love Immortal Venerable!”

“Firstly, I want to give my blessings to the human immortals who joined Heavenly Court. Rest assured, I will not pursue the matter. How can I, Great Love Immortal Venerable, do something so petty?”

“Regarding the destruction of the grotto-heavens in immemorial white heaven, I am deeply sorry.”

“Not long ago, I was hit by Star Constellation Immortal Venerable’s scheme and could not go to deal with Spectral Soul Demon Venerable personally.”

“I have already sent my people to arrange for the retreat of grotto-heavens.”

“No matter what, I believe firmly that this world needs love and peace, war is something that harms all of us. Be it humans or variant humans, or even all life in the world. Why can’t we all live in peace?”

“Because of my beliefs, Paradise Earth Immortal Venerable entrusted his inheritance to me. With such an aspiration, the Heaven and Earth Great Love Alliance was established.”

“It is not a super force meant for world domination, it is the homeland of everyone, it is an attempt at peace for everyone in this world.”

“Because of the actions of the two heavens’ grotto-heavens, I reflected upon myself.”

“I know that I was wrong, I was too restricted by traditions and the mindset passed down in history.”

“Thus, I have decided!”

“From today onwards, the Heaven and Earth Great Love Alliance is open to everyone, I will abolish all restrictive agreements, everyone is free to join and leave at any time. I, Great Love Immortal Venerable, make this declaration here and now to heaven and earth, I will not pursue the matter if you leave.”

“Even if you do not join the Heaven and Earth Great Love Alliance, I will still refine Gu for you, transactions will be done fairly.”

“Members who join my Heaven and Earth Great Love Alliance will receive a twenty percent discount for Gu refinement requests!”

“That’s right, twenty percent, a full twenty percent discount, you heard it from me personally!”

“As for how to join the Heaven and Earth Great Love Alliance?”

“Very simple.”

“You just need to pay a membership fee.”

“In fact, even the fee that you pay will be converted into contribution points in the Heaven and Earth Great Love Alliance, in the future when you request to refine Gu, you can use these contribution points in place of Gu refinement materials!”

“Oh Liang Jing Jing, I did not take your light heaven out of greed. I have already converted it into contribution points for you.”

“To the human Gu Immortals who have decided to join Heavenly Court instead, I wish you well, you are welcome to join the Heaven and Earth Great Love Alliance anytime you want.”

“I will not mind your status at all.”

“Remember, the Heaven and Earth Great Love Alliance promotes freedom, fairness, and peace!”

Star Constellation Immortal Venerable: “...”

The two heaven’s human Gu Immortals: “...”

Treasure yellow heaven: "..."

Chapter 2276: Star Constellation, Come Join My Alliance

In the sky above Central Continent, the boundless star array calculation formation could be seen in its initial form.

A large number of Central Continent Gu Immortals were moving around rapidly.

"Heaven and Earth Great Love Alliance..." Xiao Suan Zi set up the formation while muttering to himself, thinking hard about the situation.

"Sister Bai Qing, do you think we can join the Heaven and Earth Great Love Alliance?" Not far away, Rainbow Butterfly Immortal Concubine Han Cai Xin transmitted and asked.

Fairy Bai Qing wore a white gown with a green belt around the waist, she smiled plainly upon hearing this: "Cai Xin, are you interested?"

"How can I not be? A total of twenty percent discount with no restrictions on entering or leaving the alliance, this is such a huge bargain. If I am not from Spirit Butterfly Valley, I will have joined already. Sister, aren't you moved?" Han Cai Xin asked.

Han Cai Xin had colorful butterflies flying around her as she placed many Gu worms at their designated locations.

Fairy Bai Qing pondered to herself.

Although she was a Gu Immortal of Spirit Affinity House, she had a close relationship with Han Cai Xin, they called each other sisters in private.

She knew the intention behind Han Cai Xin's question, it was because Fairy Bai Qing's daughter was Feng Jin Huang, she was close to Heavenly Court as a result.

But Fairy Bai Qing shook her head: "I can't be certain about this, maybe we can ask Friend He Feng Yang."

In the past, Fairy Bai Qing might state her own opinion, but after Fairy Zi Wei and Feng Jiu Ge's betrayal, Fairy Bai Qing started to act with caution.

“Little Nine, get to work. After arranging this star path Immortal Gu, we will retreat immediately.” Far away, He Feng Yang secretly transmitted to the nine palace crane.

He had had enough!

After Fang Yuan’s second declaration, everyone knew of the great advantage of joining the Heaven and Earth Great Love Alliance, most importantly, they could leave at will and there were no restrictions at all.

He Feng Yang became the target of everyone’s inquiry as they assessed him closely.

He Feng Yang was instructed by Star Constellation Immortal Venerable to openly hold an Immortal Gu transaction with Fang Yuan.

Forget about what the Heavenly Court members thought of it, currently, the Central Continent’s ten great ancient sects’ Gu Immortals were all moved.

Who did not lack Immortal Gu?

Especially after the five regions became one and the regional walls vanished, qi tides swept the world while heaven veins and earth veins merged, all sorts of immortal materials appeared like a pouring foundation. Among them, earth path, qi tide, and heaven path were most abundant.

The Gu Immortals had a lot of immortal materials, the transactions in treasure yellow heaven also increased in frequency, but Gu Immortals still had few Immortal Gu.

Everyone was specialized in one field, if one was not a refinement path Gu Immortal, their success rate of refining Immortal Gu was just too low.

From ancient times until now, after three million years of human domination, the pain of Gu refinement had never been lifted, countless heroes and geniuses had sank into this bottomless pit of agony throughout their lives.

Only several refinement path great experts could achieve great success, but their radiance could not reach everyone.

Most Gu Immortals were disheartened by their Gu refinement attempts, but they still had to continue trying regardless.

It was a painful but helpless process.

Now, there was a refinement path venerable, he was not like any other Gu Immortal as well.

He was very special.

He created the Heaven and Earth Great Love Alliance and publicly held transactions in treasure yellow heaven to refine Immortal Gu for others!

This made all the Gu Immortals who were drowning in despair feel hopeful, this was a type of warmth that entered their hearts.

Most Gu Immortals were moved.

No matter how hypocritical Fang Yuan's Great Love declaration was, the benefits were still presented before everyone.

But the status of the Central Continent's ten great ancient sects became their restriction.

These Gu Immortals were mindful of Heavenly Court's attitude.

Thus, they all looked towards He Feng Yang as an indicator.

He was the first person in Central Continent's righteous path to make a transaction with Fang Yuan openly, rumors said that this was due to the orders of Star Constellation Immortal Venerable!

He Feng Yang had received Star Constellation Immortal Venerable's orders, but how could he tell them?

Some things were allowed under the table, but they could not be spoken about. Once these things were exposed, the meaning would change.

Thus, He Feng Yang had to keep a tight lip.

But the more vague he spoke, the more others wanted to know.

For example, Vicious Lightning Fiend came to ask him personally.

Vicious Lightning Fiend had rank seven cultivation level and was a famous expert. Compared to him, He Feng Yang was just a tiny character, but now, because of his transaction with Fang Yuan, He Feng Yang became renowned in Central Continent, everyone paid attention to him.

Towards Vicious Lightning Fiend, He Feng Yang had to lower his head.

Although he spoke vaguely and hinted about the situation, Vicious Lightning Fiend wanted a definitive answer.

He Feng Yang faced immense pressure.

But right at this time, another Gu Immortal approached him.

It was Immortal Monkey King Shi Lei.

This expert had been rank seven for a long time, it was rumored that he was trying to reach rank eight now.

When Feng Jiu Ge was still part of Central Continent's righteous path, Immortal Monkey King Shi Lei was merely below him.

"Brother He Feng Yang, tell me straightforwardly, can we or can we not do it?!" Shi Lei asked openly.

With this question, He Feng Yang's pressure became even heavier.

Fairy Bai Qing and Rainbow Butterfly Immortal Concubine also asked him.

"Fairies, I don't know either." He Feng Yang was having a terrible headache.

"Brother He Feng Yang, try asking them." Vicious Lightning Fiend said.

He Feng Yang was near the point of tears: "Brother, please understand, I am just a helpless subordinate."

Vicious Lightning Fiend chuckled: "You've known Fang Yuan for a long time, your relationship is not normal, how can I not know that?"

He Feng Yang felt extremely grieved, he almost wanted to scream: "I am really not close to this demon!"

He Feng Yang was still trying to find excuses to reply to Vicious Lightning Fiend without offending him when suddenly, Shi Lei directly suggested: "I have a good idea, brother, join the Heaven and Earth Great Love Alliance now, I'm sure Star Constellation Immortal Venerable will not punish you."

He Feng Yang's eyes rolled white as he felt like he would rather pass out.

While He Feng Yang was in a tight spot, Liang Jing Jing was also facing a tough predicament.

Her divine sense had already entered treasure yellow heaven to communicate with Fang Yuan's will.

After knowing that light heaven was converted into a large sum of contribution points in the Heaven and Earth Great Love Alliance, she felt conflicted.

She felt terrible!

This was a huge sum of contribution points, it would hurt her too much to give up on them.

Liang Jing Jing still had two Gu Immortals with her, because Flickering Light grotto-heaven was destroyed, in this situation, she needed cultivation resources badly.

But Heavenly Court would not help her for no reason.

She had to make good use of every cultivation resource, starting all over again.

Thus, the contribution points from giving up light heaven became her greatest temptation.

Liang Jing Jing was not afraid that Fang Yuan would go back on his words.

After all, he had made a public declaration. If Liang Jing Jing decided to join the Heaven and Earth Great Love Alliance again, Fang Yuan would definitely assure her safety in order to show the world that he was serious.

Liang Jing Jing was afraid of Heavenly Court and the other Gu Immortals in the world.

She had just betrayed Fang Yuan to join Heavenly Court, if she joined the Heaven and Earth Great Love Alliance again at this time, how would Heavenly Court feel? How would the entire world feel about it?

At this moment, Liang Jing Jing could not deny that she was feeling regretful.

Of course, her hatred and anger towards Fang Yuan was still dominant and had not wavered.

Inside the sovereign immortal aperture.

Fang Yuan started to officially refine heavenly secret Gu!

This was his third rank nine Immortal Gu, Fang Yuan was very confident in this Gu refinement attempt compared to the previous two.

Because for this Gu refinement session, he had made the most extensive preparation possible.

While refining Gu, Fang Yuan considered the big picture.

Now that he reduced the criteria for joining the alliance, a huge commotion was caused, the influence would only become deeper later on.

“Lord Great Love Immortal Venerable, I am Shang Tao Fan, may I join the Heaven and Earth Great Love Alliance?” A Southern Border Gu Immortal contacted Fang Yuan’s will in treasure yellow heaven.

Actually, by now, many Gu Immortals had already contacted Fang Yuan’s will, but this was the first person that stated his intention to join.

“You can join after paying a membership fee.” Fang Yuan’s will replied plainly.

A single person’s membership fee and a super force’s membership fee was different.

Shang Tao Fan asked: “Can I join secretly?”

Fang Yuan’s will nodded in agreement.

“Then I will join the alliance.” Shang Tao Fan replied immediately, he made arrangements with Fang Yuan’s will on where and when to transact the resource point.

Indeed, the membership fees for joining the Heaven and Earth Great Love Alliance were resource points.

“Shang Tao Fan is a peripheral member of Shang clan, but this time, he was sent by Shang clan as a representative to join my Heaven and Earth Great Love Alliance.”

Fang Yuan instantly understood that this was Shang clan’s move.

The resource point that he requested for was beyond Shang Tao Fan’s personal capabilities. But during the talk, he agreed upon it immediately, it was evident that Shang clan was backing him in this.

“Although Shang clan does not have Wu clan’s resolve, they are capable of seeing the big picture regardless.”

Fang Yuan smiled.

This was just the start.

Soon, with Fang clan’s agitation and Wu clan’s lead, more and more super forces would try their luck.

These super forces would likely behave like Shang clan by first sending one member over to make use of the benefits of being a member of the Heaven and Earth Great Love Alliance.

But this was all within Fang Yuan’s plan.

By giving them some benefits first, when these super forces are no longer to live without him, Fang Yuan would start to restrict the number of Immortal Gu each person could request to refine.

Afterwards, these super forces would send even more Gu Immortals to join him, they might even come to him as a whole!

Of course, Fang Yuan would not restrict them, if they wanted to leave the alliance, they could do so at any time!

While refining the Immortal Gu, Fang Yuan used information path methods to contact Star Constellation Immortal Venerable.

“Star Constellation Immortal Venerable, have you been well?” Fang Yuan greeted with a warm attitude.

Star Constellation Immortal Venerable quickly replied: “I’ve been well, but some accusations came towards me from nowhere, Friend Great Love, do you have anything to tell me regarding this?”

Fang Yuan laughed heartily: "To speak the truth, Lady Star Constellation Immortal Venerable, I am here to lend you a hand. I've heard that you are undergoing a huge project recently to create a super immortal formation that covers the entire area of Central Continent."

"To make such a huge formation, you will need many Immortal Gu. And I, Great Love Immortal Venerable, happen to be specialized in this aspect."

"Why don't you join my Heaven and Earth Great Love Alliance, you will enjoy a twenty percent discount, that will save you a huge sum."

Star Constellation Immortal Venerable laughed.

She was laughing from anger.

2277 Spectral Soul Destroys The Sun

Regarding Fang Yuan's shamelessness, Star Constellation Immortal Venerable could only stare in amazement.

She had no choice but to admit that Fang Yuan's second declaration was a brilliant move that dealt with the situation effectively.

Fang Yuan lowered the entry and exit criteria for the Heaven and Earth Great Love Alliance, he did not consider the loyalty of these members, creating a whole new commotion!

Using benefits to lure them, he displayed the advantage of refinement path, this was something that Star Constellation Immortal Venerable and Giant Sun Immortal Venerable could not match, they had no way of stopping him.

Star Constellation Immortal Venerable was certain: Right now, all the Gu Immortals in the world were greatly moved, even the Gu Immortals of Central Continent's ten great ancient sects were thinking of whether they could join the Heaven and Earth Great Love Alliance now!

Star Constellation Immortal Venerable could restrain them and not let them join the alliance, but she could not stop them from thinking!

Human minds were fickle!

And in this entire fiasco, what did Fang Yuan lose?

Basically nothing.

In the first place, he had taken in subordinates from Eastern Sea and the two heavens, they had no loyalty towards him.

They had to join him because of the situation, it was not of their own will.

It was unrealistic for Fang Yuan to depend on them if he wanted to attack Central Continent or the other regions. From Qin Ding Ling's success in making these grotto-heaven forces betray him, it showed that none of them had any loyalty to him.

If there was only one venerable in the current world, everyone would be completely at his beck and call. But with the era of four concurrent venerables, as well as the contest of three venerables, these Gu Immortals were able to make a choice.

Star Constellation Immortal Venerable snorted coldly.

She knew that Fang Yuan contacted her not to show off or brag about his move.

Fang Yuan's suggestion for Star Constellation Immortal Venerable to join the Heaven and Earth Great Love Alliance was a joke. He knew that Star Constellation Immortal Venerable would not join the alliance and raise his prestige.

Fang Yuan's true goal was to threaten her.

Currently, Central Continent was assembling a formation of an unprecedented scale.

At this crucial moment, if Great Love Immortal Venerable or Giant Sun Immortal Venerable made their move, it could easily cause the formation to crumble and fail.

"Fang Yuan has little immortal essence, he does not want to come to destroy my star array calculation formation, but he does not want me to succeed either, thus, he contacted me."

Fang Yuan had always been showing an anxious attitude, he used various Immortal Gu to exchange for resource points, it seemed like he was trying to raise the foundation of his immortal aperture to increase his immortal essence production.

Star Constellation Immortal Venerable made many investigation attempts but similar to Giant Sun Immortal Venerable, they could not see the truth that Fang Yuan was concealing.

Thus, all along, she felt that Fang Yuan lacked immortal essence.

This was a deep impression that he imprinted in her.

She was not surprised that Fang Yuan contacted her.

Immediately, she agreed to have a transaction with Fang Yuan, Heavenly Court would pay resource points, Primordial Domain, and immortal materials in exchange for Fang Yuan's refinement of Immortal Gu for them.

The transaction was of a huge scale, Star Constellation Immortal Venerable even emphasized that the transactions would be done in batches, this entire duration would be quite lengthy.

Fang Yuan knew that Star Constellation Immortal Venerable was doing this to ensure her formation's safety.

This was something Fang Yuan had expected.

According to the arrangement of this incomplete formation, Star Constellation Immortal Venerable was not making an exceptional formation, it was within Fang Yuan's tolerance level.

Fang Yuan gave up on destroying it to obtain a beneficial transaction, this was an assured gain for him.

Especially when he was refining heavenly secret Gu now!

At this juncture, Fang Yuan could not attack abruptly.

But Star Constellation Immortal Venerable did not know this.

It was even quite a surprise that she was willing to use Primordial Domain as one of the transaction goods.

Before this, Fang Yuan had always been negotiating with Heavenly Court to buy their Primordial Domain.

a portion of the Primordial Domain now will not allow me to gain any advantage in a short period of 21:32

time."

The Primordial Domain had much greater value to him than Star Constellation Immortal Venerable or Giant Sun Immortal Venerable.

Star Constellation Immortal Venerable had never agreed to it, but now, she was willing to give up some of the Primordial Domain to lure Fang Yuan into accepting the transaction.

"It is likely that from Star Constellation Immortal Venerable's perspective, I have not taken the Primordial Domain in treasure yellow heaven because I lack methods to retrieve it. Thus, giving me a portion of the Primordial Domain now will not allow me to gain any advantage in a short period of time."

"To think that Star Constellation Immortal Venerable will be the first person to sell me Primordial Domain, I thought that I would have gotten it first through a blood path transaction with Giant Sun Immortal Venerable!"

While thinking of this, Fang Yuan multi-tasked and contacted Giant Sun Immortal Venerable: "Giant Sun, Star Constellation Immortal Venerable has made such a huge move, the formation she is setting up must be quite important. She is the number one wisdom path cultivator throughout history, with this formation's help, she will be able to scheme in the future without us even knowing it."

Giant Sun Immortal Venerable laughed and quickly replied: "So what do you want to do?"

Fang Yuan said directly: "I am willing to collaborate with you to deal with Star Constellation Immortal Venerable and destroy her formation! Wisdom path is not simple, we saw its power in Crazy Demon Cave. We really should not let her create this immortal formation."

Giant Sun Immortal Venerable gave an ambiguous answer: "That is a good suggestion, so, Great Love, have you considered Heavenly Lord Bai Zu's suggestion already?"

Fang Yuan chuckled: "We can always talk about it. I have a lot of blood path research results and also blood path Immortal Gu."

Giant Sun Immortal Venerable had always wanted to buy Fang Yuan's blood path resources, now that Fang Yuan gave in, Giant Sun Immortal Venerable smiled and immediately contacted Star Constellation Immortal Venerable.

"Heaven Refining Demon Venerable just contacted me, he wants us to attack your formation together. What do you think about that?" Giant Sun Immortal Venerable immediately exposed Fang Yuan.

Star Constellation Immortal Venerable snorted coldly to herself, she used a similar method to make a transaction with Giant Sun Immortal Venerable.

The three venerables continued to negotiate and plot against each other.

As a wisdom path Gu cultivator, Star Constellation Immortal Venerable was superior to the others, she vaguely held the upper hand.

Eventually, she gave up some benefits to temporarily appease Fang Yuan and Giant Sun.

"I finally stabilized these two, but if the formation I am making is any stronger, this situation will be harder to deal with."

It was not that Star Constellation Immortal Venerable lacked a better formation, but she could not create it now.

If she tried, the two venerables would try to destroy it.

There would be no way of talking them out of it.

Star array calculation formation was specially chosen by Star Constellation Immortal Venerable as it did not cross their limits. The two venerables were willing to let her create it in exchange for some personal benefits.

This was the precise control of the situation that Star Constellation Immortal Venerable had in this contest of three venerables.

"Of course, the most important thing is still Spectral Soul Demon Venerable." Star Constellation Immortal Venerable thought to herself: "The reason why both venerables are willing to watch on the fence is primarily because of Spectral Soul Demon Venerable."

Compared to Spectral Soul Demon Venerable, Star Constellation Immortal Venerable's formation was nothing outstanding!

The three venerables were paying close attention to Spectral Soul Demon Venerable's actions.

Like what they expected, after getting rid of the white heaven grotto-heavens that Spectral Soul Demon Venerable could sense, he went after the sun!

Within the fused two heavens, Spectral Soul Demon Venerable charged towards the sun like a mountain-like shadowy figure.

This scene was seen through Fang Yuan's investigative method, he pondered: "Back then, I used up white heaven's heavenly spirit, causing Spectral Soul Demon Venerable to be unable to control

immemorial white heaven directly. He has only devoured black heaven's heavenly spirit, so he can only devour immemorial white heaven through it all being engulfed by immemorial black heaven!"

"Right now, among the two heavens' grotto-heavens, those from white heaven are basically all destroyed. The heaven vein nodes that are contained within these grotto-heavens have all been destroyed by Spectral Soul Demon Venerable."

"As for Longevity Heaven and Heavenly Court, they have tight defenses that prevent Spectral Soul Demon Venerable from detecting them in his current state."

"Thus, his only target now is the sun!"

Spectral Soul Demon Venerable charged towards the sun, but this attempt was different from before, he shouted and roared with unprecedented determination and killing intent.

However, the closer he got to the sun, the more obstruction he felt from the massive number of fire path and light path dao marks.

Spectral Soul Demon Venerable's body started to melt like a candle, tiny flames could be seen appearing on his entire body.

Giant Sun Immortal Venerable looked at the immemorial two heavens while paying close attention to this situation, he evaluated internally: "The sun has existed since immemorial times, it has vast and boundless power. It is the largest heaven vein node in the entire world, it is also the greatest light vein and fire vein node in the two heavens."

"Even in my previous life, when I was at my strongest, I could not deal with the sun easily. Now that Spectral Soul Demon Venerable has lost his mind, it will be even harder for him to deal with it."

When Giant Sun Immortal Venerable was alive back then, he was invincible in the world, he could naturally destroy the sun.

But doing that had no advantage to him, it was even very harmful to the living beings of the world.

Thus, Giant Sun Immortal Venerable did not do that.

Eventually, Spectral Soul Demon Venerable charged into the sun, countless black pillar-like arms stretched out and grabbed at it, his colossal body slammed into the sun and caused flames to flicker.

At the same time, he suffered severe injuries.

His body melted rapidly as a vast number of light path and fire path dao marks were carved on him.

All of his accumulated soul path dao marks were rapidly breaking apart!

Spectral Soul Demon Venerable's three heads were screaming out in pain, his eyes became filled with anger and hatred.

Following his instincts, he activated a defensive killer move, a layer of eerie light covered his whole body, black smoke gushed out fiercely and resisted the immense power of the sun.

Spectral Soul Demon Venerable managed to control the situation for now.

Star Constellation Immortal Venerable stayed in Embroidered Tower as she looked out of the window.

"The sun is a congregation of heaven path, light path, and fire path dao marks, it is tangible but not solid. It can be seen as a tribulation that has been ongoing for countless years, it had started accumulating since the start of the world. Thus, even though it is not a chaotic disaster, it is hard to deal with even for a venerable."

"By attacking the sun, Spectral Soul Demon Venerable will likely end up in a bad state alongside it. By then, it will be time to make my move."

"If I can eliminate Spectral Soul Demon Venerable, it will benefit Heavenly Court greatly. By then, I can even give in to the other two venerables to a greater extent."

Star Constellation Immortal Venerable understood when to yield and when not to.

For Heavenly Court, Spectral Soul Demon Venerable was a huge threat.

Because Heavenly Court was situated in immemorial white heaven, it was the largest heaven vein node in the world.

It was just that Heavenly Court was concealed by Star Constellation Immortal Venerable's wisdom path methods, Spectral Soul Demon Venerable could not detect it.

But right at this moment, there was an abrupt change!

A hill-like beast escaped in fear while carrying a trace of the aura of a rank nine Immortal Gu.

"There is actually a legendary immemorial desolate beast hiding inside the sun? It has a rank nine Immortal Gu?" Star Constellation Immortal Venerable was shook.

Giant Sun Immortal Venerable's eyes widened: "No, not just one rank nine Immortal Gu, it has another one!"

The three venerables observed closely, the wild rank nine fire Gu within the sun was no longer concealed.

After a few breaths of time, Spectral Soul Demon Venerable arrived at the center of the sun, the remaining tens of arms stretched out and grabbed fire Gu despite the intense flames.

Spectral Soul Demon Venerable's left head opened its mouth and instantly devoured fire Gu.

Spectral Soul Demon Venerable cried out in agony.

His left head was burning like a flame pillar.

Without the support of the two Gu, the sun exploded with a loud sound that spread throughout the entire world.

At this moment, all lifeforms in the world looked up, they had fearful expressions as they witnessed the sun turning into countless lumps of light and fire, breaking up and spreading throughout heaven and earth.

The sun — was destroyed!

Chapter 2278: Pursuing the Rank Nine Immortal Gu

This change had occurred too quickly.

Even the three venerables could not take action in time.

Their original plan was to wait for Spectral Soul Demon Venerable to go down with the sun, until they were both greatly weakened. Because Spectral Soul Demon Venerable was following his instincts now, he would also want to survive naturally. Thus, if he got badly injured, he would escape.

At this time, the three venerables would target the greatly weakened Spectral Soul Demon Venerable.

In the contest of three venerables, Spectral Soul Demon Venerable was a huge uncertainty. There was still a chance of him regaining his sanity, thus, the three venerables were in agreement that this uncertainty should be killed first.

Like during the battle in Crazy Demon Cave, Star Constellation Immortal Venerable and Giant Sun Immortal Venerable decided to cooperate to kill all the pseudo venerables first.

But out of their expectations, the sun actually exploded first.

Different from what everyone thought, the sun actually contained two rank nine Immortal Gu and one mysterious legendary immemorial desolate beast.

The sun's foundation far exceeded their expectations.

With this foundation and the fact that Spectral Soul Demon Venerable was not sane, it should be very hard to deal with, he would be the one to escape first.

But the issue was that the legendary immemorial desolate beast that hid inside the sun got shocked and escaped.

Not only did it run away, it even brought a rank nine Immortal Gu with it.

Once this Immortal Gu was taken, the sun lacked a core and its stable condition quickly destabilized spontaneously.

"No matter how strong a Gu house is, it can still be easily broken from the inside." Star Constellation Immortal Venerable sighed as she thought of a logic in the Gu world.

This abrupt change disrupted her plan.

Among the three venerables, Star Constellation Immortal Venerable was the one who wanted to kill Spectral Soul Demon Venerable the most.

Because she understood the threat that he held towards Heavenly Court!

Originally, she wanted to give in and accept some losses to lure the other two venerables into attacking Spectral Soul Demon Venerable and killing him. But to think that this happened.

Fire Gu was a legendary Immortal Gu recorded in <<The Legends of Ren Zu>>, it was rank nine but got devoured by Spectral Soul Demon Venerable.

Forget about that for now, but the mysterious legendary immemorial desolate beast also brought away a rank nine Immortal Gu.

It had to be pursued.

A rank nine Immortal Gu was concerned, while a legendary immemorial beast was not hard to deal with for a venerable.

Because it was too easy to succeed, Star Constellation Immortal Venerable had to race against time now.

There were three venerables in the world, she did not want the Immortal Gu to end up with the other venerables.

“Be careful, fire is raining down like a storm.” Fairy Bai Qing was the first to alert the others.

“Oh no, what do we do?” Rainbow Butterfly Immortal Concubine looked at the sky and saw countless flames descending, she felt lost and helpless.

These flames were too high ranked.

Bright light glorious ring fire made up most of these flames, this was the heaven flame of the three flames in the world, it was a rank nine fire path immortal material!

One had to be a rank eight fire path great expert at least to deal with it.

But in the sky above Central Continent, there was a colossal immortal formation.

Central Continent's Gu Immortals wanted to defend the formation so they had to deal with these flames.

"Lady Star Constellation Immortal Venerable, please give us the orders." Shi Lei shouted loudly.

Star Constellation sighed softly as she left behind her will and some rank nine immortal essence, controlling Embroidered Tower to deal with the situation here.

But her main body had left already, heading for the two heavens.

Eastern Sea.

Fang Yuan was currently using investigative methods to observe the five regions.

"With the collapse of the sun, countless immortal materials are scattered everywhere. Among them, the light path resources are mostly flying around in the two heavens while the fire path resources are scattered onto the five regions."

"Fire rain is most common in Western Desert while least common in Eastern Sea."

The reason was simple.

Conflict of dao marks.

In the five regions, Eastern Sea had the most water path dao marks, while Western Desert had the most fire path dao marks. Thus, the fire rain preferred to target Western Desert instead.

"These flames are top tier resources, if they are gathered to a certain size, they can be made into fire path resource points."

"Especially the bright light glorious ring fire, this rank nine immortal material is extremely rare and barely found anywhere. It is a prime opportunity to gain a huge amount of it now, I need to make use of this."

Fang Yuan immediately ordered his Gu Immortals to head to various locations to collect the fire path resources.

But regrettably, he had the most water path Gu Immortals and only a few fire path Gu Immortals, not to mention rank eight fire path cultivators.

Regarding this, Fang Yuan used his will in treasure yellow heaven to make an announcement:

“Good news, good news! The Heaven and Earth Great Love Alliance is holding an event!”

“Anyone who collects enough fire path immortal materials can exchange them with us for alliance contribution points.”

“If you collect enough alliance contribution points, you will be able to join the Heaven and Earth Great Love Alliance officially, it will not cost you resource points!”

“After joining the alliance, you will also retain the contribution points from exchanging immortal materials.”

Fang Yuan’s will tossed out a list that wrote the details of each exchange clearly. Bright light glorious ring fire was listed at the top, it could exchange for the most contribution points.

The Gu Immortals of the world heard the announcement and instantly became moved.

Originally, joining the Heaven and Earth Great Love Alliance required resource points, but now, all they had to do was to collect fire path immortal materials.

For the bulk of the Gu Immortals, the entry requirement fell once again.

Fang Yuan’s will added: “This event will only last for a short while, the fastest ones will gain the most, once I collect enough fire path immortal materials, this event will end immediately.”

“Fire path immortal material? What a pity, other than the bright light glorious ring fire, if I go to collect the other fire path immortal materials, the gains will be lower than just collecting heaven path immortal materials.” In the two heavens, Shen Shang was busy scavenging for resources.

“Are we not pursuing Fang clan anymore?”

“For what? Let Heavenly Court’s Zhou Xiong Xin do it. Let’s quickly collect these fire path immortal materials, we can use some ourselves while selling the rest to Great Love Immortal Venerable. This opportunity will not knock twice!”

More and more Gu Immortals in Western Desert started to move out.

Southern Border.

Wu Yong led Wu clan’s Gu Immortals as they started to move around with lightning speed.

Benefits tempted everyone, a large number of Gu Immortals in the five regions were mobilized by Fang Yuan as a result.

As for Fang Yuan, he personally headed into the two heavens.

The destruction of the sun also affected his plan. Originally, he wanted to wait for Spectral Soul Demon Venerable and the sun to both get weakened. If his refinement of heavenly secret Gu succeeded in time, he would be able to gain some benefits from Spectral Soul Demon Venerable.

But now, he had to refine heavenly secret Gu while keeping up with the facade.

Thus, he had to enter the two heavens and pretend that he was trying to go after the rank nine Immortal Gu.

This was the normal reaction and behavior that he should have.

Giant Sun Immortal Venerable and Star Constellation Immortal Venerable were brilliant people, Fang Yuan had to do this to avoid exposing himself.

After the sun was destroyed, the five regions became dim.

Mortal Gu Masters were fearful and shocked while other lifeforms also panicked, the crying and growling of beasts and birds could be heard everywhere.

This was an unprecedented change!

A large scale panic was unavoidable.

Starlight flickered randomly as a legendary immemorial desolate beast charged out while bathed in blood.

Star Constellation Immortal Venerable was the first to arrive, she waved her hand as the blood and scales that were left in the air gathered in her hands.

Star Constellation Immortal Venerable quickly made deductions with her wisdom path immortal killer move.

“This is You Tian Guang?!” She quickly deduced the identity of this legendary immemorial beast, she felt a little shocked.

You Tian Guang and Zuo Ye Hui had once terrorized the five regions, they whipped up a bloody storm. They were extremely crafty, they worked together and whenever a Demon Venerable or Immortal Venerable was alive, they would hide and not show up.

But eventually, Paradise Earth Immortal Venerable brought peace to the world and killed You Tian Guang.

This was recorded in history.

“But You Tian Guang is actually alive, did it fake its death?”

“Could it fake its death in front of Paradise Earth Immortal Venerable? Or does that mean... this is part of Paradise Earth Immortal Venerable’s arrangement?”

At this moment, Star Constellation Immortal Venerable thought of many things.

The situation had gotten quite mysterious and complex.

Star Constellation Immortal Venerable pursued the beast while analyzing to herself.

The more she thought about it, the more she felt that this was Paradise Earth Immortal Venerable’s move!

According to the situation in Crazy Demon Cave, originally, once Paradise Earth Immortal Venerable revived, he would become a heaven path venerable. That would allow him to gain an immense advantage in the two heavens. Especially after he refines all the heaven path dao marks in the two heavens, he would be able to control all the heaven vein nodes.

By then, Heavenly Court and Longevity Heaven would be greatly threatened by him!

The sun was also a heaven vein node.

Back then, Paradise Earth Immortal Venerable intentionally placed You Tian Guang inside the sun as an arrangement for him to capture the sun in the future.

“Thankfully, Paradise Earth Immortal Venerable is dead now. From this aspect, I should thank Fang Yuan instead?” The moment Star Constellation Immortal Venerable thought of Fang Yuan, he appeared before her.

“Friend Star Constellation, we meet again.” Fang Yuan smiled as he greeted.

Star Constellation Immortal Venerable snorted coldly internally but she showed a kind smile on her face, her demeanor was extremely elegant.

The two had a warm attitude but their movements did not slow down, instead, they moved even faster.

The two venerables were guarded against each other as they attacked You Tian Guang.

This You Tian Guang had human form, its back was bent and its forearms were long, there was a horn on its head and its body was covered in scales that resembled countless mirrors that reflected light in all directions.

Under the pursuit of both venerables, You Tian Guang actually managed to escape time and again.

“As I expected, You Tian Guang brought away rank nine light Gu! It has not been refined yet, this is still a wild Immortal Gu.” Fang Yuan noticed the peculiarity.

He sighed internally.

Inside sovereign immortal aperture, the refinement of heavenly secret Immortal Gu had reached a crucial moment.

He did not want to go after this rank nine light Gu.

If he obtained it, the two venerables would attack him in a frenzy to try and snatch it.

After all, a rank nine Immortal Gu was able to break the balance between the three venerables!

Nobody wanted this Immortal Gu to end up in another’s hands.

But Fang Yuan had to say what he had to say: “You Tian Guang, I am best friends with your master Paradise Earth Immortal Venerable. After he died, he gave his inheritance to me but did not have time to tell me about you. Quickly leave with me, I will ensure your safety!”

You Tian Guang coughed out blood while shouting: “That old bastard Paradise Earth, I was almost beaten to death by him, it took all my effort to hide in the sun to recuperate. I only managed to recover a little after sleeping for so many years. He did this to me, I will definitely not submit to you!”

“That means this is not Paradise Earth Immortal Venerable’s arrangement?” Star Constellation Immortal Venerable was slightly stunned, she could sense You Tian Guang’s emotions, it was not lying.

“You Tian Guang was able to escape by faking death in front of Paradise Earth Immortal Venerable, it is quite amazing.” Light Emperor who was hiding nearby thought to himself.

He was hiding inside a black cloud, at this moment, he did not want to dazzle anyone.

Chapter 2279: Retaliation of Three Venerables’ Luck

Immortal killer move — Sword Tongue Dragon Soul.

Fang Yuan's body shook slightly as a hundred evil dragons appeared around him instantly.

The evil dragons danced and paraded, they gathered into a group and encircled You Tian Guang.

He had used this compound killer move before, if he used it against Star Constellation Immortal Venerable, there would be a risk of it getting unraveled or countered. But now, Fang Yuan used it to trap You Tian Guang.

The evil dragons attacked You Tian Guang from all directions, they bit, swung their tails, stabbed with their horns, or used their claws, some even shot out sharp sword qi with their tongues...

In this dangerous situation, You Tian Guang erupted with the strength of a legendary immemorial beast.

It waved its hands and its body moved like lightning, the horn on its head was extremely sharp, in just a whole, three evil dragons were sliced in half.

After a lot of effort, it managed to kill several evil dragons, but dragon souls came out of them to modify the battlefield.

The more evil dragons that died, the more dragon souls that gathered, the battlefield was filled with soul path dao marks that made the dragon souls even stronger!

The situation was increasingly dangerous, You Tian Guang tried to charge out from different directions as it fought a bloody battle, but it could not break free from the evil dragons.

Sensing the danger that its host was in, the wild rank nine light Gu in You Tian Guang's body burst out with its power again.

A piercing light shone on the entire battlefield, it seemingly tried to escape with You Tian Guang by turning it into a ray of light.

Earlier, when Fang Yuan and Star Constellation chased after You Tian Guang, this was the move that caused them to fail in capturing it multiple times.

But now, Star Constellation Immortal Venerable was already prepared.

Starlight specks flew out and surrounded You Tian Guang's body.

The wild rank nine light Gu burst out with power but the starlight specks suppressed most of its strength, it failed to escape with You Tian Guang but caused it to suffer huge injuries instead.

Rank nine light Gu was a wild Gu, it was not in sync with You Tian Guang, thus, Star Constellation Immortal Venerable found its weakness.

But this was normal.

Even though You Tian Guang and light Gu had been together for a long time, it had spent most of the time sleeping.

Now that it was awake, with just rank eight cultivation level, it could not refine a wild rank nine Immortal Gu.

Back then, even Star Constellation Immortal Venerable who had become venerable spent a hundred years to refine the wild rank nine wisdom Gu.

As for Giant Sun Immortal Venerable, he attempted to refine rank nine love Gu and failed in the end.

You Tian Guang's blood spewed out like a geyser, it fell into despair.

The enemies were too powerful, it had suffered huge injuries that caused it to become even slower than before.

But it still struggled.

For the meager hope in its heart that wanted to escape, it resisted!

"Don't come here, don't come here..." Light Emperor hid in the black cloud and watched as You Tian Guang approached him, he became flustered and anxious.

You Tian Guang coincidentally escape in the direction that led to him.

"Is this my so-called fortuitous encounter?" Light Emperor sudden shook as he recalled Giant Sun Immortal Venerable's words.

He immediately understood that his fortuitous encounter was rank nine light Gu, but...

“Father, this is too much!” Light Emperor glanced at Fang Yuan and Star Constellation Immortal Venerable, he did not even dare to look at them for more than a moment in fear that they would notice him.

Light Emperor’s bald head almost wanted to hide in his chest.

All along, his body had been emitting light, but now, he kept the light concealed as only a thin halo was left.

But You Tian Guang still came in his direction at full speed.

At this moment, Light Emperor could feel nothing but hatred towards this huge fortuitous encounter!

He did not know that Fang Yuan was feeling the same.

“The timing is not right. If this happened after I refined heavenly secret Gu, I will be able to use my full strength to capture the wild light Gu!”

Fang Yuan attacked and chased You Tian Guang while secretly refining heavenly secret Gu.

Thankfully, he spent a lot of effort to modify heavenly secret Immortal Gu’s recipe.

Using Four Elements Square Regret Blood Refinement Pool, and with the help of the hairy man Gu Immortals, heavenly secret Gu’s refinement proceeded without a hitch.

“The following is the most difficult part. But at this time, I need to chase after that rank nine light Gu! Sigh...” Fang Yuan sighed to himself.

He did not feel much attraction to rank nine light Gu.

Rank nine Heavenly secret Gu had far greater value to Fang Yuan than light Gu.

But the situation had progressed to this stage, Fang Yuan had to show that he was determined to take the Immortal Gu for himself.

“Fate Gu has been destroyed, this situation should have been caused by the contest of luck between the other three venerables and myself.” Fang Yuan had a vague comprehension.

Once Fang Yuan refined heavenly secret Gu successfully, his strength would grow immensely, the benefits would not just be limited to obscured heavenly secret, there were other advantages too.

But in that case, Fang Yuan’s advantage would be too huge.

Precisely so, the other three venerables were threatened by Fang Yuan. Although they did not notice it, their luck had already started to retaliate.

The luck of Spectral Soul Demon Venerable, Giant Sun Immortal Venerable, and Star Constellation Immortal Venerable mixed together and attacked Fang Yuan in unison.

Precisely so, at the crucial moment of refining heavenly secret Gu, Fang Yuan faced such a huge difficulty and uncertainty.

“In this situation with the existence of four venerables and contest of three venerables, the current timing is a crucial turning point! Sovereign immortal aperture, rank nine Heavenly Essence Treasure Imperial Lotus, rank nine advance refinement Immortal Gu, my cultivation of refinement path and heaven path, as well as other elements like obscured heavenly secret have given me a huge advantage that is deeply hidden, my luck is comparable to all three of them together.”

This comparison was under the situation where the three venerables did not know the truth. because they canceled out a portion of each other’s luck, this allowed Fang Yuan to match them evenly.

Once the venerables understood the situation and found out the truth, they would cooperate with each other and cause this cancellation to be smaller. By then, their collective luck would surpass Fang Yuan.

“If I get past this difficulty without the three of them finding out the truth, after gaining rank nine heavenly secret Immortal Gu, my luck will be higher than the three of them combined. After a qualitative change, when I refine other rank nine Immortal Gu in the future, I will no longer face such a hurdle.”

After making an analysis, Fang Yuan understood that this was a crucial fight.

If it were to be said that becoming a refinement path venerable was the foundation to resisting the other venerables.

Then after refining rank nine Heavenly Essence Treasure Imperial Lotus, Fang Yuan shortened the gap between himself and the venerables.

After refining rank nine advance refinement Gu, the gap was shortened even further, it even deepened Fang Yuan’s advantage in refinement path.

And now, if he refined rank nine heavenly secret Gu, it would create the turning point in the contest of three venerables!

Once this crucial point was passed, Fang Yuan would surpass the other venerables, he would have a true advantage against them.

As star fog appeared, You Tian Guang's path was completely blocked.

Evidently, this was an incomplete battlefield killer move.

Star Constellation Immortal Venerable wanted to use this battlefield killer move to trap You Tian Guang and the wild rank nine light Gu before dealing with them.

Fang Yuan had not seen Star Constellation Immortal Venerable use a battlefield killer move before, he was hesitant now.

Should he try to destroy it now?

It was not something that he could not tolerate for Star Constellation Immortal Venerable to obtain the wild rank nine light Gu.

It was very difficult to refine rank nine light Gu, while Star Constellation Immortal Venerable did not cultivate light path. After getting it, during the period that she tries to refine it, Star Constellation Immortal Venerable's positive luck would fall greatly.

From the perspective of the situation, in order to prevent Fang Yuan from ruining her plan, Star Constellation Immortal Venerable would definitely give up more benefits to Fang Yuan.

This was very beneficial to Fang Yuan.

Thinking of this, Fang Yuan activated his killer move.

Immortal killer move — Seven Kills Rainbow!

Metal path's yellow light, wood path's jade-green light, water path's light blue hue, fire path's red light, earth path's brown light, wind path's green radiance, and lightning path's deep blue light; seven lights from these seven paths mixed together and shot forward in a drill shape towards You Tian Guang.

You Tian Guang immediately sensed fatal danger.

If he was hit by this move, it would definitely perish, alongside the rank nine light Gu in its body.

But Star Constellation Immortal Venerable was guarded against Fang Yuan.

“What are you trying to do?!” Star Constellation Immortal Venerable called out as starlight flew out, forming a veil made of stardust, it was like a wall between heaven and earth, blocking Fang Yuan’s seven kills rainbow.

Fang Yuan’s mind was also running out of thoughts, he had to refine heavenly secret Gu while maintaining his defensive killer moves and movement killer moves. Earlier, he even had to use an offensive killer move like seven kills rainbow forcefully.

Fang Yuan snorted coldly but did not show any weakness: “Friend Star Constellation, even if you want to get rank nine light Gu, do you think it will be this easy?”

On the outside, Fang Yuan showed an attitude of relentlessness, he was prepared to fight to the end. But the truth was, he had already made up his mind to destroy this wild light Gu, if that failed, so be it if Star Constellation Immortal Venerable got the Gu.

In Fang Yuan’s condition, he could not obtain the Gu even if he tried. The priority was to destroy rank nine light Gu, followed by letting Star Constellation Immortal Venerable have it, the worst case was for Giant Sun Immortal Venerable to get it.

Star Constellation Immortal Venerable and Giant Sun Immortal Venerable were not light path Gu cultivators, but if Giant Sun Immortal Venerable got this rank nine light Gu, his own luck would grow explosively.

That was extremely useful for Giant Sun Immortal Venerable, with his attainment in luck path, he would become much stronger.

Star Constellation Immortal Venerable sighed: “Friend Fang Yuan, Giant Sun Immortal Venerable has not arrived yet, are we really going to fight now?”

Fang Yuan smiled coldly: “Why not? If I wait any further, aren’t you going to obtain the rank nine Immortal Gu already?”

Fang Yuan and Star Constellation Immortal Venerable went into a standoff.

Fang Yuan targeted the incomplete star fog battlefield killer move occasionally, while attacking You Tian Guang and Star Constellation Immortal Venerable respectively at other times.

Star Constellation Immortal Venerable was worthy of being a wisdom path venerable, her mind was filled with thoughts, she managed to handle all the various aspects and keep her control over the situation.

Although the situation was in a deadlock, it was clearly tilting towards Star Constellation Immortal Venerable.

During the contest of the venerables, You Tian Guang had already gotten severely injured, rank nine light Gu tried many attempts to escape with it but Star Constellation Immortal Venerable blocked it each time.

Seeing that the star fog was about to gather into a complete battlefield killer move, Light Emperor could not wait anymore.

“Dazzle them!” He attacked abruptly using his strongest method.

Blinding white light filled the entire battlefield, Light Emperor used all his effort to create a small opening in the star fog.

“Escape, escape, escape!” Light Emperor desperately charged towards the exit, he did not have the energy to care about the rank nine Immortal Gu.

He had waited for a long time before Fang Yuan weakened the star fog battlefield sufficiently without Star Constellation Immortal Venerable having the time to replenish it. Thus, he could make an opening in this battlefield.

If he waited any longer and the star fog battlefield formed completely, he would have no chance of escaping anymore.

Chapter 2280: Fang Yuan Takes A Risk

The appearance of Light Emperor stunned Fang Yuan and Star Constellation.

They did not expect that someone would be able to hide from right under their noses.

“This person has a profound luck path method on him, he must be related to Giant Sun Immortal Venerable!” Star Constellation Immortal Venerable’s pupils shrunk as the star fog quickly gathered.

Fang Yuan also made his move as he attacked Light Emperor.

Light Emperor’s eyes were staring wide open as he screamed internally: “What does this have to do with me?! Why are they attacking me, I was just passing by!”

But immediately after, he turned around and saw that wild rank nine light Gu shining in white light, as it came towards him with You Tian Guang.

"I..." Light Emperor wanted to cry, he understood the situation now.

The wild rank nine light Gu had an intense instinct for survival, it stayed with You Tian Guang because this legendary immemorial beast had a lot of light path dao marks that made it have a familiar feeling, there was also the fact that You Tian Guang was not strong enough to refine it.

But in the hands of a venerable, the situation would be different!

Light Emperor opened the only crack in the star fog, he was also a light path cultivator who only had rank eight aura, the wild light Gu naturally came to him as an avenue of survival.

"Father, save me!" At the moment of life and death, Light Emperor shouted loudly.

"Son, don't worry." Giant Sun Immortal Venerable flew towards them from afar, he was getting closer rapidly.

Before he arrived, his killer move had already appeared, blocking Fang Yuan's offensive method.

Fang Yuan did not have enough thoughts now, his offensive methods were not as agile as usual, otherwise, Giant Sun Immortal Venerable would not have such an easy time blocking him.

Of course, this was not strange in the eyes of the two venerables.

In this fight between three venerables, it was understandable for Fang Yuan to save his thoughts in case of emergencies.

After all, they thought that he had the least immortal essence.

Star Constellation Immortal Venerable snorted coldly, she had already recognized Light Emperor now, she immediately used the star fog to pursue him and shorten the distance between them.

Giant Sun Immortal Venerable activated his killer move again, golden aurora appeared behind Light Emperor and blocked the star fog.

"Could I have escaped on my own? I'm afraid that I would have to use rank nine light Gu's power to get away from them! Oh father, you almost did me in."

Light Emperor was a resolute person, thinking of this, he gritted his teeth and turned around, grabbing at You Tian Guang.

"If you don't want to die, come with me!" Light Emperor shouted as he brought You Tian Guang and the wild light Gu with him, escaping towards Giant Sun Immortal Venerable.

You Tian Guang was on the brink of death, it was currently in a stupor and unable to resist as Light Emperor brought it away with him.

Furthermore, because they were both light path cultivators, they were naturally close.

Star Constellation Immortal Venerable stomped her feet as her body flew forward like a ray of starlight. Midway, she tossed with her hand, Star Constellation Chessboard flew out.

At the other end, Giant Sun Immortal Venerable approached and opened his immortal aperture's entrance, Luck Suppression Heavenly Palace flew out.

Star Constellation Chessboard had countless pieces shooting out like a storm.

Luck Suppression Heavenly Palace sent out a wave-like golden aurora that shielded Light Emperor and prevented him from getting killed by those pieces.

But a large number of pieces still moved agilely as they attacked him.

Light Emperor struggled intensely, his expression was malevolent.

Facing Star Constellation Immortal Venerable's attacks, he dodged from side to side, when he could not evade some pieces, he would endure the impact.

Thankfully, Star Constellation Immortal Venerable's attack was already weakened by Giant Sun Immortal Venerable's golden aurora to a large extent. Light Emperor had pseudo venerable battle strength after all, he only suffered heavy injuries with blood flowing out of his mouth and nose, but his speed remained the same.

"Persevere!" Giant Sun Immortal Venerable shouted, this situation was quite urgent, his son's life was at stake, he used his full strength as a result.

Star Constellation Immortal Venerable gritted her teeth, she felt immense pressure from Giant Sun Immortal Venerable who was using his full strength.

Seeing that Light Emperor was about to escape, Star Constellation Immortal Venerable fought intensely while shouting at Fang Yuan: "Great Love Immortal Venerable, how long are you going to continue watching?!"

Fang Yuan had only made some moves after Giant Sun Immortal Venerable appeared, he did not use his full strength.

Star Constellation Immortal Venerable was quite displeased with this.

Fang Yuan holding back meant a huge threat to her.

If Fang Yuan and Giant Sun Immortal Venerable were colluding now in a set up against Star Constellation Immortal Venerable, she could not use her full strength against Giant Sun, otherwise, Fang Yuan would sneak attack her while she was unguarded.

Fang Yuan was feeling quite troubled now.

He had already done his best!

The refinement of heavenly secret Gu had reached the most difficult part, he had to use a lot of thoughts and concentration on it.

Fang Yuan excelled in the defensive aspect of wisdom path, in terms of thought production, he could not match Star Constellation Immortal Venerable. But his compound killer moves had a huge requirement for the number of thoughts.

“Persevere.” Fang Yuan gritted his teeth while urging himself on.

“Giant Sun, take this!” At the same time, Fang Yuan shouted as he flew towards Giant Sun Immortal Venerable.

Fang Yuan did not use any offensive method, he only adjusted the movement killer move that he had been maintaining.

But simply this small movement made Star Constellation Immortal Venerable let out a sigh of relief, while Giant Sun Immortal Venerable became alerted.

This was because Fang Yuan went away from Star Constellation Immortal Venerable and approached Giant Sun Immortal Venerable, it reduced her wariness towards him.

Giant Sun Immortal Venerable also had to save his son from two venerables, he felt immense pressure.

He shouted loudly and activated more trump card killer moves.

For example, this current method — Poor Luck Silver Hook!

Fang Yuan’s pupils contracted as he sensed a killer move approaching, the wind-light-fire-lightning wheels below his feet rotated rapidly as he instantly left the area.

At the next moment, a pure silver curved hook appeared at the spot that he was previously in.

The hook only appeared for a moment before vanishing again.

It was so fast it seemed like an illusion.

Fang Yuan continued to move around like a phantom, he did not stay at the same spot for more than a breath of time.

Meanwhile, the silver hook continued to appear at the spots he went to, only mere moments away from actually hitting him.

Star Constellation Immortal Venerable was angry that Fang Yuan was still holding back now. He had Cooking Luck Pot’s protection and could resist the silver hook to attack Light Emperor, but he chose to dodge the attacks, which was what Giant Sun Immortal Venerable wanted to see because it made Fang Yuan easier to deal with.

Star Constellation Immortal Venerable did not know about Fang Yuan’s true circumstances after all.

“Giant Sun Immortal Venerable has never used this luck path killer move before, if I get hit by it, my luck will fall greatly. Right now, with the retaliation of all three venerables’ luck, it would be a detrimental blow to me!”

Fang Yuan had a clear observation of the situation.

He could not use offensive methods now because most of his attention was focused on the refinement of heavenly secret Gu.

But the two venerables were hard to deceive, he was having a hard time putting up this show!

Fang Yuan used various methods and overworked his mind, but his thoughts were still falling to a dangerous level.

Heavenly secret Gu's refinement used too many of his thoughts, while this battle was also quite dangerous.

Fang Yuan did not even want to touch the silver hook.

It was as if he was walking on a tightrope now!

If he was careless, he would fall to a miserable death.

At this time, Star Constellation Immortal Venerable attacked Giant Sun Immortal Venerable, relieving some of the pressure off Fang Yuan.

Light Emperor was already very close to Giant Sun Immortal Venerable.

Star Constellation Immortal Venerable wanted to attack him but Giant Sun Immortal Venerable did everything to stop her.

"Fang Yuan!" Star Constellation Immortal Venerable shouted.

"I'll take a gamble!" Fang Yuan's eyes shone brightly as he expended nearly all his thoughts to take a risk and activate reverse flow protection seal.

Fang Yuan flew forward with reverse flow protection seal like an eagle diving for its food, he went towards Light Emperor with an explosive sound.

"Father, save me!" Light Emperor was shocked by Fang Yuan's momentum, he screamed for help.

Giant Sun Immortal Venerable endured Star Constellation Immortal Venerable's attacks forcefully and activated a killer move, golden light shot towards Fang Yuan like a huge pillar.

Fang Yuan did not dodge but approached Light Emperor instead.

"Trying to snatch an Immortal Gu in front of me? Die!" Fang Yuan snickered with barely any thoughts left in his mind.

Light Emperor stared with wide eyes in terror, he gritted his teeth as his body turned stiff as a rock.

At the crucial moment, the wild rank nine light Gu burst out with power.

Blinding white light flashed in the entire battlefield.

Fang Yuan was first hit by the white light before the golden pillar landed on him, he crashed towards the ground like a falling meteor.

Thoughts were produced in his mind and used in the Gu refinement, as well as sustaining his defensive killer move, he could not even use them to think.

After a few breaths of time, reverse flow protection seal started to become unstable.

If this move broke now, not only would Fang Yuan suffer huge backlash, the other venerables would also notice his issue!

Fang Yuan was in critical danger now, if the venerables attacked him, he would have no way to resist.

But this was all within Fang Yuan's plan.

Star Constellation Immortal Venerable and Giant Sun Immortal Venerable were fighting over rank nine light Gu, they could not afford to care about Fang Yuan.

With Giant Sun Immortal Venerable's protection, Light Emperor finally arrived at his father's location.

Because Star Constellation Immortal Venerable attacked furiously, Giant Sun Immortal Venerable suffered considerable injuries, there was already blood flowing out of his mouth.

The two venerables faced off with sharp gazes, they collided in the air, both sides were getting serious.

Giant Sun Immortal Venerable gritted his teeth but did not make any rash move.

He wanted to open his immortal aperture's entrance to put Light Emperor, the fainted You Tian Guang, and wild rank nine light Gu into his rank nine immortal aperture.

But he knew that he could not do something like that now.

As time passed, inside the sovereign immortal aperture, in Four Elements Square Regret Blood Refinement Pool, the hairy man Gu Immortals were cheering loudly.

The toughest step of refining heavenly secret Gu was over, now, the refinement difficulty fell sharply, it was a smooth journey ahead.

The number of thoughts needed fell as well, Fang Yuan soon had enough thoughts to think.

He immediately realized that he was falling, he stabilized his body and flew towards Giant Sun Immortal Venerable again.

When he saw that Light Emperor was standing beside Giant Sun Immortal Venerable, he became anxious and shouted: "We cannot let Giant Sun Immortal Venerable get rank nine light Gu! In the worst case, we need to destroy it."

Giant Sun Immortal Venerable snorted coldly, he looked at Fang Yuan with deep killing intent: "Go ahead and attack, I will make sure you pay a painful price."

Star Constellation Immortal Venerable was silent.

Fang Yuan hastened the refinement of heavenly secret Immortal Gu while looking at Star Constellation Immortal Venerable, shouting with all his might: "Star Constellation, this is a rank nine Immortal Gu!"

Star Constellation Immortal Venerable had a cold expression, she was very unhappy with Fang Yuan: "If you had used your full strength, would we be in this situation?"

Chapter 2281: Spectral Soul's Anguished Cry

Fang Yuan's gaze flickered with uncertainty and his expression was grim: "I did not expect that light Gu would erupt with an attack that cooperated with the golden pillar so perfectly!"

Giant Sun Immortal Venerable smiled smugly: "My soft gold crashing pillar was designed to counter your reverse flow protection seal, how does it feel?"

Fang Yuan nodded: "This move can conceal its strength and unleash a mystical collision force on reverse flow protection seal to penetrate the Reverse Flow River, interrupting with the entire operation of the killer move."

"But it is a pity that this move has not been completed yet. Otherwise, it would not have been resolved by me so easily."

Giant Sun Immortal Venerable nodded, he felt that this was a small pity, he could have given up on Light Emperor to save this killer move for the future to deal with Fang Yuan.

But Giant Sun Immortal Venerable would not do that.

He would rather expose it to save his eldest son.

"I was too rash, to think that a rank nine Immortal Gu would be involved." Giant Sun Immortal Venerable said to Light Emperor.

"Father, what's the point of saying that now? We need to find a way to flee! My hairs are all standing on end now!" Light Emperor replied quickly, although he had returned to Giant Sun Immortal Venerable's side, the battle was still ongoing, he was very alert.

"Didn't you create your own light body inheritance, your entire body is covered in light path dao marks, how can you have body hair?" Giant Sun Immortal Venerable asked in a peculiar tone.

Light Emperor rolled his eyes and retorted: "Father, now is not the time for this! The situation is dire, we need to find a way to escape."

Giant Sun Immortal Venerable suddenly laughed out loud: "Then we will leave!"

Saying so, he held Light Emperor and You Tian Guang in both hands respectively and rapidly made his move.

"You want to leave? Not so easy!"

"Giant Sun, leave the Immortal Gu behind."

Star Constellation Immortal Venerable and Great Love Immortal Venerable attacked at the same time.

Giant Sun Immortal Venerable roared and exchanged blows with the two venerables, even parts of the two heavens broke into fragments.

At the center of the explosion, under the terrifying force of the killer moves, nothing remained.

Even the fused immemorial two heavens was destroyed, turning into an area of void.

At the next moment, the surrounding fragments of the two heavens came rushing in like tidal waves, filling up the void.

Using this chance, a golden path extended over from deep within Northern Plains.

It was Calamity Luck Altar's strongest method — Luck Changing Golden Light Path!

Giant Sun Immortal Venerable purposely left Calamity Luck Altar in Longevity Heaven along with his own will and rank nine immortal essence.

Thus, using the vast number of Longevity Heaven's luck path dao marks, the power of luck changing golden light path rose explosively, it extended from Northern Plains to the battlefield.

Giant Sun Immortal Venerable brought Light Emperor and You Tian Guang onto this path, their speed rose immensely, they went far away in just a moment.

Star Constellation Immortal Venerable and Great Love Immortal Venerable did not let them off.

But their attacks were negated by each other due to the constant accidents that occurred around the golden path.

Even if a venerable attacked, under the chaotic situation of the fused two heavens, they were not only obstructed by soul beasts, there were black-white overturning clouds too.

This was the power of luck changing golden light path.

Fang Yuan attacked several times but nearly caused accidents to occur during heavenly secret Gu's refinement!

Fang Yuan had seen the power of luck changing golden light path from long ago, but this time, it was so hard to deal with because of the amplification of Longevity Heaven's dao marks.

Boom!

Both venerables gave chase into Northern Plains, eventually, they destroyed the luck changing golden light path.

At this moment, Giant Sun Immortal Venerable fell along with Light Emperor and You Tian Guang down, during the entire period of time, he could not find a chance to open his immortal aperture's entrance.

Giant Sun Immortal Venerable had been using his full strength to maintain the luck changing golden light path to resist the two venerables' attacks.

The intensity of the battle was clear with one glance!

Star Constellation Immortal Venerable fully displayed the power of wisdom path, Giant Sun Immortal Venerable had no time to do anything else. There was another reason, Giant Sun Immortal Venerable did not dare to let You Tian Guang into his immortal aperture.

The wild rank nine light Gu was inside You Tian Guang's body, after sensing Giant Sun Immortal Venerable's rank nine aura, it was feeling very restless.

If Giant Sun Immortal Venerable did anything excessive, light Gu might get agitated and do something unfavorable to him.

Thus, he could only bring Light Emperor and You Tian Guang towards Longevity Heaven.

"Heavenly secret Gu's refinement is reaching the final few steps." Fang Yuan was very happy but he showed an anxious expression as he shouted: "Giant Sun, leave that rank nine Immortal Gu behind! I won't let you have it."

Star Constellation Immortal Venerable's eyes showed a firm light, she did not speak but her attacks were getting more intense.

The battle of the three venerables finally got close to Longevity Heaven.

Light Emperor laughed loudly as victory was in sight, he shouted: "Father is mighty!"

Longevity Heaven's immortal aperture entrance was open, at the final juncture, Giant Sun Immortal Venerable showed a grim expression, he did not dare to be careless for fear of showing a flaw.

The moment he stepped into the immortal aperture's entrance, rank nine light Gu sensed something amiss, it suddenly reacted and wanted to escape.

Giant Sun Immortal Venerable snorted coldly and used his prepared method to suppress it.

But at this moment, Fang Yuan unleashed his refinement path killer move!

Giant Sun Immortal Venerable used his defensive measure but the refinement path killer move had been prepared by Fang Yuan for a long time, it had incredible power that affected rank nine light Gu.

Crack.

With a soft sound, the surface of light Gu cracked.

"Oh, oh no!" Light Emperor shouted.

But thankfully, light Gu was only injured, it survived and was not destroyed by Fang Yuan's attack.

Giant Sun Immortal Venerable stepped into Longevity Heaven at long last, he looked at Fang Yuan angrily as he asked: "Heaven Refining Demon Venerable! What an impressive method... what is the name of your move?"

Fang Yuan smiled coldly: "You have your soft gold crashing pillar, I have my crippled refinement."

Giant Sun Immortal Venerable praised it again before looking at Star Constellation Immortal Venerable, he shut the door and vanished into thin air.

Star Constellation Immortal Venerable looked at Fang Yuan with a livid expression, she reprimanded: "Since you had the killer move crippled refinement all along, why did you not use it earlier? Giant Sun Immortal Venerable succeeded in the end!"

All along, she did not notice that something was off with Fang Yuan.

Fang Yuan gritted his teeth, his expression was dark: "If I had not made deductions during the battle, even that last hit would not have been possible! I managed to injure light Gu, but what about you, Star Constellation?"

"Hmph. If I did not stall for time, could you have achieved that?" Star Constellation Immortal Venerable was very unhappy, she did not want to waste time talking to Fang Yuan, she turned around and left.

The entire time, neither of them chose to invade Longevity Heaven.

"Having your own headquarters is really convenient." Fang Yuan sighed and left.

Giant Sun Immortal Venerable was heavily injured, but because of Longevity Heaven, he was unbeatable once he returned.

"This is true for Longevity Heaven, Heavenly Court is even more terrifying." Fang Yuan made deductions from seeing luck changing golden light path's strength, he could not help but feel a chill.

He did not stay in Northern Plains, he returned to Eastern Sea immediately.

The effect of obscured heavenly secret that he had was greatly expended after this intense battle, barely any was left.

Longevity Heaven.

"Father, how is light Gu?" Light Emperor was very concerned.

"Don't worry, although Fang Yuan is a refinement path venerable and heavily injured light Gu, I used that opportunity to suppress it as well." Giant Sun Immortal Venerable coughed and spat out some blood.

"Father, are you okay?" Light Emperor asked.

In his memory, Giant Sun Immortal Venerable was so magnificent and strong, he was an invincible existence. But now, he saw that Giant Sun Immortal Venerable was tired and battered.

Times were different!

Light Emperor recalled the process and felt dejected. As a pseudo venerable, he was nothing more than a useless tool.

At most, he was the bait that lured light Gu.

In this battle, he was a burden for Giant Sun Immortal Venerable!

“Father, go and heal yourself.” Light Emperor was very worried, he had never seen his father with such serious injuries.

But Giant Sun Immortal Venerable shook his head: “I need to watch them and make sure they leave Northern Plains, I can’t let them cause destruction or slaughter the Huang Jin tribes.”

Light Emperor was shocked: “They are grand venerables, how can they act like that?”

Giant Sun Immortal Venerable shook his head again: “Star Constellation Immortal Venerable may not do it, but Fang Yuan is crafty and shameless, I cannot be sure of that. But most importantly, we obtained a rank nine Immortal Gu in this fight, the gains are just too much. You are truly my son.”

Giant Sun Immortal Venerable’s praise made Light Emperor feel more energetic, he patted his chest and assured: “Father, I will do my best. Cough cough!”

Because he patted himself too hard, he could not help but spit out some blood in response.

The father and son looked at each other with bitter smiles.

Giant Sun Immortal Venerable waved his hand: “You are heavily injured too, go and recuperate. We made the greatest gains this time, we need to rest now and digest our gains. Once our strength rises, we will repay them severalfold.”

Light Emperor hesitated: “Father, light Gu is injured, what do we do? Even Heavenly Court spent a long time and countless resources to repair fate Gu.”

Speaking of this, Giant Sun Immortal Venerable frowned: “We’ll talk about it in the future.”

Above Central Continent.

All sorts of fire path immortal materials were gathered by Star Constellation Immortal Venerable and sent into Heavenly Court’s treasury.

“The star array calculation formation was not too badly interrupted.” Star Constellation Immortal Venerable was pleased about this.

In her case, this battle was too abrupt.

Star Constellation Immortal Venerable did not expend much immortal essence but the gains were plentiful.

“Even though Giant Sun obtained rank nine light Gu, it is an injured Immortal Gu. Giant Sun cultivates luck path and blood path, he cannot use light Gu easily.”

“Rank nine light Gu is not derivation Gu, the latter does not need to be refined but the former needs immortal essence to be used. This will cost Giant Sun a lot of immortal essence.”

“It is possible that Fang Yuan created crippled refinement at the last second, but it is more likely that he did not attack because he lacked immortal essence, because it was too urgent at the end, he exposed the killer move to attempt to destroy light Gu.”

Star Constellation Immortal Venerable looked towards the two heavens.

Without the sun, both heavens were dark and dim.

Deep within the two heavens, Spectral Soul Demon Venerable was covered in fire, he was growling in pain.

This was the price for swallowing rank nine fire Gu!

“This might be a chance.” Starlight flickered in Star Constellation Immortal Venerable’s eyes, she was very concerned with Spectral Soul Demon Venerable’s situation.
