Chapter 1041 - 1041: Use Her Family's Power

"Drive faster. I want to go home." Bai Gu Wen shouted to her driver.

The driver started the engine and drove away. She was embarrassed by this. Who the heck posted the article about her like this? If she found out about that, she would kill that person.

She arrived home. The maids were surprised to see their Madam at the time like this. She usually would be returned home late at night.

"Welcome home, Madam." The maid said.

Bai Gu Wen ignored the maid and rushed to the room. The maid did not care much about their Madam. She was always like that. However, the maid was looking down at Bai Gu Wen right now.

Of course, she knew about the article. The news about Bai Gu Wen exploded pretty big. Well, she knew that Bai Gu Wen cheated on her husband but she never knew she was that horrible. F*****g two young men and took both sides, front and behind? That was disgusting.

"Wow, she is shameless..." One of the maids talked.

It clearly referred to Bai Gu Wen.

"She doesn't even feel shy."

"I guess someone hates her and wants to destroy her reputation."

"Well, not like we don't know about that."

The employees who worked in this house knew that she was cheating on her husband. But no one said anything. They did not want to lose their job. So, they just closed their eyes and pretended not to see anything.

Bai Gu Wen went upstairs and called her brother, Bai Xia Fang. Her brother did not answer her call. She tried countless times before her brother, Bai Xia Fang finally picked up her call.

"What do you want?" Bai Xia Fang answered the call, feeling annoyed.

He just finished his meeting. He saw his sister calling but he did not want to answer. But the phone kept ringing and started disturbing his pace. So, he did not have any choice to pick up the call.

"Brother, someone plotted to ruin my reputation." Bai Gu Wen said.

Bai Xia Fang could not understand what Bai Gu Wen tried to say. He had not yet seen the news.

"Someone wrote the article about me. They must be plotting to ruin Bai Family reputation." Bai Gu Wen tried to phrase it like that.

She knew Bai Xia Fang valued the Bai Family reputation very much. He would not have anything happen to Bai Family. So, her brother would investigate the incident.

"What do you mean by that?" Bai Xia Fang asked in a serious tone.

Bai Gu Wen smiled. She knew that method would be useful.

"You must check it by yourself." Bai Gu Wen was feeling ashamed to tell Bai Xia Fang about this.

"Okay. I will check it later." Bai Xia Fang ended the call.

He called his secretary to check about what Bai Gu Wen said just now. The secretary checked on it. She was shocked and feeling ashamed of what she had read.

She did not know what to explain to her boss. This was pretty embarrassing and disgusting at the same time. However, she needed to report to her boss since her boss was waiting for her report.

The secretary entered the room back.

"Do you get the result?" Bai Xia Fang asked without lifting up his face.

Mr President, you knew... I think you should read by yourself." The secretary said it.

The secretary showed the article. The more he read, the more anger built up in his mind.

"Remove all of this article including the comments. And find out who behind this article." Bai Xia Fang ordered.

Receiving the order, the secretary nodded and said, "Yes, Sir." She then got out of the room as soon as possible. She could feel that Bai Xia Fang wanted to explode.

Bai Gu Wen knew that her brother would be dealing with the matter. She was feeling hungry. So she came down. She spotted a maid.

"Hey, prepare some food. I am hungry right now." Bai Gu Wen ordered the maid.

"But..." The maid wanted to say that it was not the time to eat yet.

"Just follow my order." Bai Gu Wen shouted to the maid.

"Yes, Madam. I will prepare them right away." The maid bowed and rushed to the kitchen.

She went to watch the television.

The maid told her coworker that their Madam wanted to eat. So, they needed to prepare the food. They could hear that their madam turned on the television and watched it like nothing happened today.

"She acted as nothing happened."

The maids started talking in a lower voice while preparing for the food.

"She probably asked her family to deal with that."

"Yeah. That's right. Everything works well with money."

"I am pitying Master and young miss."

"If they are not husband and wife, I doubt that young Miss is Madam's daughter."

"Yeah. Young Miss is very good. She is polite to everyone."

"She is nothing like her mother."

"Master must be hearing about the news too." n).Ovelb1n

"Do you think they would get divorced this time?"

"Who knows? Master probably take it silently and let the matter pass."

Their master was a person who took his wife scolding in silently.

"Hey, where is my food? I am hungry. Bring me my food right now!" Bai Gu Wen shouted loudly.

The maids were shocked hearing Bai Gu Wen's voice. They thought Bai Gu Wen was behind them. Well, they were afraid that Bai Gu Wen heard what they had talked about. They quickly brought out the food and gave them to Bai Gu Wen.

Chapter 1042 - 1042: Never Acts Like A Mother

Quan Hou Chi was at the school when she heard some people talking about a topic. She was not intended to listen to the topic but the people were so loud. So, she could not help to listen to the topic.

"Do you read the trending news today?"

"Yeah. I read it."

"She looked like someone's mother."

"That's right. It is disgusting."

"And she dared to do something like that to younger people. These men are like her son if we compare to the age."

"I will be very embarrassing if she is my mother."

"I will ask my father to divorce her as soon as possible."

"Yeah. I will never recognize her as my mother."

Listening to the conversation, Quan Hou Chi was wondering about that. She usually did not pay much attention to others. Not to mention, the trending news. She was curious, so, she opened the web and read the trending news.

She almost dropped her phone when she read the news. Her mother's face was clearly in the video. Like those students earlier, she was also disgusted with that. Was this what she always does?

Nobody in her school knew the woman inside the video was her mother. Her mother never came to the school to attend the parent meeting. Only her father came.

Right now she was thankful that her mother never came to her school. Otherwise, everyone would know that the woman inside the video was her mother. She would be very embarrassing at that moment.

She wanted to study before but she changed her mind. She wanted to return home as soon as possible and meet her father. But she decided to go to her father office first. Her father was probably still in the office.

She took a taxi to go to her father office. Her father's company was not so big but it was a good business. However, her mother was looking up at her father's company because it was not so big as her uncle's company, Bai Group.

"Hello." Quan Hou Chi greeted the woman at the front desk.

"Oh, it is Mr Quan's daughter. Good evening." The woman said. "You want to see Mr Quan?"

It was not the first time she came here. So, most of the workers here already knew her as Mr Quan's daughter. They allowed her to stay at the office.

"Yes, is my father available?" Quan Hou Chi asked.

She asked because she did not want to disturb her father's work if he was with someone else. She could wait until her father was available.

"I think Mr Quan has a meeting with a buyer. About one hour ago. I don't know if the meeting is finished or not. Wait a minute. I will check with the secretary department." The woman said.

"Okay, Sis. Thank you. I will wait over there." Quan Hou Chi nodded and moved the waiting area.

The woman nodded and called someone. She seemed to nod several times and talked in between it. After getting the answer that she wanted, the woman hung up the call and went to Quan Hou Chi.

"Miss Quan, Mr Quan already finished his meeting. You can go and meet him right now." The woman said.

"Thank you." Quan Hou Chi nodded.

She went to her father's room. Her father was looking at something on his phone. She could see her father's expression because the glass could see through. He seemed to look very shocked.

Quan Hou Chi thought that her father was probably reading about her mother's news. She knocked on the door.

Her father looked up and was surprised to see Quan Hou Chi here. His daughter should be in school right now

"Hou Chi, what are you doing here?" Quan De Bei asked his daughter.

"Dad, do you read about Mum's news?" Quan Hou Chi asked her father back.

Quan De Bei's lips twitched up.

"Dad, what are you thinking about that?" Quan Hou Chi directly asked her father. She wanted to know what his father wanted to do regarding the news.

"I..." Quan De Bei could not find the word to talk about that.

His wife was cheating on him and let him wear the bright green hat on his head.

"Dad, I don't think you should foolishly follow Mum anymore." Quan Hou Chi said.

Her mother never respected her father as the wife respected her husband. Her mother liked to scold her father if something had gone the wrong way, not what she wanted to.

"If I divorce, what will happen to you?" Quan De Bei held back because of his daughter.

"Don't worry about me, Dad. I am fine if you divorce." Quan Hou Chi said.

"But our family would not be completed again..." Quan De Bei sighed.

"Dad, are you notice our family is not the same as everyone? My mother... She never acts like a mother to me. I also knew that she never acts like a wife to you." Quan Hou Chi stated the fact.

Quan De Bei went to silence. What his daughter said was the truth. After Bai Gu Wen gave birth to Quan Hou Chi, she refused to take care of Quan Hou Chi like a proper mother. She gave that task to others.

Bai Gu Wen hit the gym after 40 days of her giving birth. She said that she needed to lose weight after giving birth to Quan Hou Chi. She did not want to look like an old hag.

Chapter 1043 - 1043: Another News About Bai Gu Wen

Because she wanted to maintain her beautiful curve, she refused to breastfeed Quan Hou Chi. She did not even carry her around. Everything was done by the babysitter.

"Dad, I will follow you if you get divorced." Quan Hou Chi said.

"If I suggest the divorce, it would not be easy. She has Bai Family behind her. You will suffer if you stay with me." Quan De Bei sighed.

"Dad, it is not like I want to suggest it. But if you planning on divorcing Mum, you should gather the evidence first. That way, she could not even fight back with you later." Quan Hou Chi said.

"Hou Chi, you... You hate your mother?" Quan Hou Chi asked in a trembling voice.

Quan Hou Chi shook her head. Really, she did not hate her mother. She did not feel anything toward her mother because her mother never treated her like a daughter. Her mother treated Bai Feng Jiu more like a daughter than her.

Seeing that numerous times, her heart became cold and she barely felt anything toward Bai Gu Wen now. Of course, she did not want to live with her mother after her father divorced her mother later.

"No, I don't hate her. It is just I have no feeling toward her anymore." Quan Hou Chi was a rational girl.

Quan De Bei felt sad for his daughter. He had to make the decision.

"Since everything comes to this, I will file for divorce and fight for your custody." Quan De Bei made up his mind.

"Dad, the law stated if the children are 15 years old and above, he or she could choose which parent they want to follow." Quan Hou Chi stated the law.

"Yeah... Yeah..." Quan De Bei nodded.

He forgot that his daughter wanted to be a lawyer in the future. So she really liked to read and memorize the law.

.....

"Why am I still looking at the same article? Did I ask you to delete the article and the video too?" Bai Xia Fang asked his secretary.

"President Bai, our IT department is working on it. They said the article could not be removed because of some coding behind the article." The secretary explained the situation while holding back her tears.

"You mean there are some hackers behind the article?" Bai Xia Fang frowned as he listened to the explanation.

"Mostly it is. The IT department confirmed it." The secretary nodded.

Meaning someone is targeting the Bai Group by attacking our family name." Bai Xia Fang narrowed his eyes.

The room became silent. The secretary was afraid to breathe loudly. She tried to minimise her presence as she saw Bai Xia Fang was thinking. n)/O**VE**l**bl**n

Bai Xia Fang was thinking about the current situation. He could not believe that it was just a personal attack on Bai Gu Wen only. He thought the article was aiming for his Bai Group.

If it was just a personal grudge, Bai Xia Fang did not think that the mastermind would be involving the hacker.

He also had his hacker team. He had been imported and paid a hundred million to the team. They were at the top of their expertise. However, they told him that they would not remove the single article because the hacker was on the other side, meaning the hacker on the other side was really good at his job.

If this situation passed, he would be delighted to meet the hacker and at the same time, hire the hacker.

The hacker who set up this whole was currently eating some noodles choked. He grabbed some water and quickly drank it. Han Baise felt relieved after drinking some water.

It was his idea to put some coding. Making the article really difficult to remove the article from the website. He just wanted to test his limit. He had been studied hard about Yu Qi's method. He almost succeeds in that. However, he felt that he was not on Yu Qi's level.

Seeing the article had not yet been removed, meaning no single person could crack the code that he put. He laughed. That woman probably became famous instantly.

Actually, the code would be disappeared within three days and people could easily remove the article. However, within three days, a lot of people would know what kind of woman Bai Gu Wen was. The idea was totally his idea.

Yu Qi actually did not know about this earlier. Han Baise made his decision about it. She did not care about how Han Baise made the news known to others. If she knew about that, she would give Han Baise a thumb up for doing a very good job.

Bai Group became everyone-talk, not because of its power but because of Bai Gu Wen's news. People said they would be feeling ashamed if they had a family member doing something like that.

People dug into Bai Gu Wen's background deeper. She was the youngest sister of the current Bai Group President, Bai Xia Fang. She married a man who owned a small business and had a daughter.

Someone who knew Bai Gu Wen in person posted in a fake account about the horrible things that Bai Gu Wen used to do in the past.

The most recent thing that Bai Gu Wen did was give Saisei Ryokan a bad review and ask others, not to go to the hotel. She told others that Saisei Ryokan treated the guests badly. However, in fact, she was the one who treated the staff so badly.

Chapter 1044 - 1044: Return Home To Divorce

She was the one who did not book the room for staying at the Saisei Ryokan on that day. The rooms for that day were already full so, the hotel management could not receive the unbooked guests.

Bai Gu Wen rudely asked the hotel management to cancel one of the bookings for her. Of course, the hotel management refused to do so. That made Bai Gu Wen furious and said that the hotel would be regretting how they treated her.

After that, the bad review started to appear on Saisei Ryokan's website making others cancel their booking. Thank goodness that the hotel management could find the solution and tackle the situation right away. So, the matter ended that way.

After this post was uploaded, the discussion about Bai Gu Wen began again. Everyone looked down on Bai Gu Wen. When the discussion went on the peak, suddenly the post disappeared without any warning.

Everyone thought it was probably the power behind Bai Gu Wen. But some of them were confused as to why Bai Gu Wen did not delete the article that made her famous. Someone said, it probably could not be deleted because a powerful hacker prevent that to happen.

.....

Quan De Bei returned home two days later after his conversation with his daughter. Quan Hou Chi returned home as usual after that but she did not meet her mother at all. She basically stayed inside her room and went out to school without seeing her mother once.

Quan De Bei returned home because he had something to deal with Bai Gu Wen. As Quan Hou Chi suggested, he wanted to divorce Bai Gu Wen. So, here he was with the divorce paper.

Coincidentally Bai Gu Wen was watching television in the living room. She could not go out because her brother asked her to restrain herself from going out for now. So, she was very bored.

Hearing the sound, she looked over. It was her husband that she did not see for two days.

"Where did you go for two days, hah?" Bai Gu Wen stood up, questioning Quan De Bei. n/-o/-v(.e--l..b- /1--n

Bai Gu Wen felt that her husband was cheating on her. How dare he? If everyone knew about Bai Gu Wen's thoughts right now, they were laughing and saying, 'You know to get angry when assuming your husband cheating on you, but what about you?'

Quan De Bei was not answering. He looked at Bai Gu Wen.

"Why don't you answer me? You have a woman outside right?" Bai Gu Wen started to scream but others in the house heard her voice.

The maids hid as they watched the fight that was about to occur. Quan Hou Chi who currently studied also heard that. She came out of her room and looked down.

"What are you talking about?" Quan De Bei frowned.

"Then, why are you coming home for two days?" Bai Gu Wen wanted the answer for that.

"I have something to do." Quan De Bei said.

"Yeah. Something... That is taking care of your mistress, right? Am I right?" Bai Gu Wen shouted.

"I am sorry. I am not you." Quan De Bei said sarcastically.

Bai Gu Wen was taken back by that.

"I don't have a young mistress like you have your sugar babies." Quan De Bei added.

Bai Gu Wen was dumbfounded. She could not expect her dumb husband to retort to her like that.

"What... What are you talking about?" Bai Gu Wen asked.

"Do you think I know nothing about your affair?" Quan De Bei chuckled. "I am not that stupid. I also read online news."

"Don't believe it. It was fabricated by someone." Bai Gu Wen knew that her husband already read the article.

"Fabricated? Yeah... Yeah... I am a fool." Quan De Bei laughed. "A fool to believe you."

"What I am saying is the truth." Bai Gu Wen shouted angrily.

"Yeah... Yeah... Don't think I will believe you anymore. I am done my research." Quan De Bei opened the bag that he brought back.

Inside the bag, there was a lot of pictures showing Bai Gu Wen acting intimately with different men. Hugging, kissing and some action that should not be done with other men except the husband.

Bai Gu Wen was shocked to see the picture. It was her pictures with different men. She saw the pictures and remembered some of them. The oldest one was right after she gave birth to Quan Hou Chi.

"You have been cheating on me for such a long time. I am a fool not to notice that." Quan De Bei laughed.

Bai Gu Wen calmed down herself. "So, what?"

Quan De Bei looked at his wife with wide-opened eyes. The maids who watching this were also shocked by Bai Gu Wen's statement. Quan Hou Chi looked at her mother. 'Is she admitting?'

"So, what? You don't give pleasure when we are together. So I need to find other men for that." Bai Gu Wen said as she showed the proud expression on her face.

"So, you are admitting that you are cheating on me?" Quan De Bei asked while clenching his fists.

"Yeah... yeah... so, what?" Bai Gu Wen asked that question again.

"Sign this paper." Quan De Bei placed the paper on the table in front of Bai Gu Wen.

Actually, Quan De Bei planned to forgive her if she apologized and wanted to change. But now, that was not necessary anymore. They would be divorced. He did not want to live with her anymore. That would be disgusting.

Chapter 1045 - 1045: Stay With My Dad

"You want to divorce me? How dare you!!!" Bai Gu Wen shouted angrily to Quan De Bei.

"Why not? You can find pleasure with other men if you want to. It is pointless to stay in this marriage anymore." Quan De Bei said calmly.

"I don't want to get divorced." Bai Gu Wen did not want to sign the paper.

"Then, let's go to the court then." Quan De Bei did not want his life to be bounded to this woman again. "I have a lot of evidence that stated you are cheating on me."

"De Bei, can you think about Hou Chi? She is still young and should have a complete family." Bai Gu Wen played Quan Hou Chi's card.

She knew that Quan De Bei loved Quan Hou Chi so much.

"If you are talking about me, I am fine if you want to divorce." Hearing her name being mentioned, Quan Hou Chi expressed her thought.

Both Quan De Bei and Bai Gu Wen automatically looked up. They saw their daughter looking down at them. It assumed that she was at that spot for quite some time.

"Hou Chi.... you..." Quan De Bei sighed.

"Don't interrupt what we are talking about." Bai Gu Wen said angrily. "You don't understand."

"Mum, I understand everything. You are cheating on dad. You two should get a divorce. After that, you can go and find numerous men." Quan Hou Chi said without changing her expression. "So, no need for you to think about me since you have never done it before."

"You... how dare you say something like that to me? I am your mother." Bai Gu Wen shouted, pointing her finger at Quan Hou Chi.

"Since Hou Chi doesn't mind, we should get a divorce." Quan De Bei said.

"No!!!! I will not sign it." Bai Gu Wen was furious.

"We will see on the court then." Quan De Bei said.

"If we divorce, Hou Chi will stay with me." Bai Gu Wen said.

"Sorry to interrupted again, Mum, if you guys get divorced, I am planning to stay with my dad." It was Quan Hou Chi's voice again. n./0vel**B**1n

"You are my daughter. You should stay with me. The mother takes care way better than the father." Bai Gu Wen argued.

Quan Hou Chi chuckled. Her parent heard that.

"What is so funny about that?" Bai Gu Wen felt irritated when hearing the chuckle coming from Quan Hou Chi.

"Mum, are you really saying that statement? You never take care of me. Only Dad cares about me. You can give your care to others." Quan Hou Chi said. She then turned to her father. "Dad, fight for your freedom."

Quan Hou Chi entered her room leaving the couple alone. The maids felt the same way about Quan Hou Chi. Bai Gu Wen never cared about her daughter. She only talked to her daughter when praising Quan Hou Chi's cousin, Bai Feng Jiu. They could see that Quan Hou Chi wanted some attention from her mother but her mother never gave a shit about her. They felt pity for Quan Hou Chi. It was better for Quan Hou Chi to live with her father instead of her mother.

"Sign the divorce paper, Bai Gu Wen." Quan De Bei did not have anything to say.

"Quan De Bei, do you want your company to go bankrupt?" Bai Gu Wen threatened.

"I don't." Quan De Bei said.

"Then...." Bai Gu Wen wanted to talk again but she had been interrupted by Quan De Bei.

"I still want you to sign the divorce paper no matter what." Quan De Bei firmly stated what he wanted.

His daughter already gave a push on his back. He did not want to disappoint his daughter.

"Never!!!" Bai Gu Wen shouted.

"Then, we will see on the court." Quan De Bei left and went to his room.

He did not share the room with his wife anymore. It was his wife who wanted it that way. She told him that she wanted more privacy.

So, Bai Gu Wen was left alone in the living room. She was so angry that she shouted in anger. That made the maids shocked and left where they were hiding. If Bai Gu Wen saw them watching the argument, Bai Gu Wen would definitely have the anger out on them. They did not want that to happen.

....

Quan De Bei did what he said. He filed the divorce in court. He made some preparation by hiring the best divorce lawyer. With that much evidence showing Bai Gu Wen was cheating on her husband, the court was on Quan De Bei's side. He successfully divorced his wife... oh... right now, it was the ex-wife.

As Quan Hou Chi said, she wanted to live with her father. They packed up their important things and left the house because the house was under Bai Gu Wen's name even though it was brought with Quan De Bei's money at that time.

Quan De Bei did not want anything with Bai Gu Wen anymore. So, he just gave the house to her. He already brought a small house big enough to live together with his daughter.

Quan De Bei wanted to hire someone to cook and clean around the house. Quan Hou Chi agreed that since both of them had other things to do. Quan De Bei was working and Quan Hou Chi needed to go to school. So, hiring someone that could cook and clean around the house was the better decision.

Chapter 1046 - 1046: Young Madam

Yu Qi received the invitation card for a celebration party. It was for celebrating Long Hui since he had been received another military rank which was the Senior Colonel.

Only four Senior Colonel at the moment and Long Hui was the youngest to receive the title.

Long Hui invited all of the Tang Family members but they had something to do on that day. As for Su Xiao, it was wise that she did not go somewhere far like that. It was so inconvenient to bring the twin to the party like that. So, they only asked Yu Qi to go.

The party would be held in the Capital City. That was why Long Hui told her that they would be having their date at the Capital City. Yu Qi told her family about that. They were happy for Long Hui.

The party would be held on this weekend. So, Yu Qi took about four days off. Aoi and Shino wanted to follow her too. They were afraid something like last time happened again. If they did not stay by Yu Qi's side, they meant inside Yu Qi's space, they could not assist their master.

Because of that, Yu Qi decided to drive to the Capital City. It was much easier that way because she was bringing the pets with her.

Yu Qi already told Long Hui that she would be arrived today by car. Long Hui asked her to go to the Long Residence. Long Family had one residence in the Capital City,

When she arrived at Long Residence, she was greeted by an old man.

"Young Madam, welcome." The old man said.

"Young Madam? And you are..." Yu Qi was freaked out by the title that the old man used to call her.

"I am sorry for not introducing myself to Young Madam. I am Fang Mo Jin, the housekeeper of this Residence. I am one of Old Madam Long's people." Fang Mo Jin introduced himself.

"Old Madam Long, you meant Grandpa Long's wife?" Yu Qi asked for confirmation.

"Yes." Fang Mo Jin nodded.

"But why did you call me, Young Madam?" Yu Qi asked again.

"Because you are the future wife of Young Master Long." Fang Mo Jin stated.

Yu Qi was blinking. 'Well, that makes sense.'

"Who lives here?" Yu Qi asked.

"No one, Young Madam. But don't worry, I assure you that the house is properly being taken care of." Fang Mo Jin said.

"I see. It is clean." Yu Qi said. "By the way, may I know what is your relationship with Fang Mo Li?"

"You already meet my grandson." Fang Mo Jin said.

"Oh, he is your grandson. No wonder." Yu Qi could see the similarity between both of them.

"Let me show you your room." Fang Mo Jin said.

"Sure." Yu Qi nodded.

She was kind of tired and needed some rest. While following Fang Mo Jin to her room, she could see there were a group of maids working around.

"Someone is coming too?" Yu Qi asked.

"Old Master and Young Master would be staying here too for the party." Fang Mo Jin said. ~~nove-11-In~~

"Oh... Tell me if they arrive later." Yu Qi said.

"Yes, Young Madam." Fang Mo Jin nodded.

The maids who working around turned and looked at Yu Qi. Yu Qi was just smiling at them. Then she followed Fang Mo Jin to her room.

"Wow, that woman is so beautiful."

"Yeah. It is more beautiful when she smiles."

"Mr Fang called her 'Young Madam' that meant she is Young Master Long's wife?"

"Young Master Long is not married yet."

"Well, he already has a fiancée. Meaning that woman is his fiancée."

The two maids were talking until someone else came.

"What are you talking about?" The maid, Xie Nue, asked.

"Just now, we saw Young Master Long's fiancée." One of the maids said.

"What? Young Master Long's fiancée? Where is she?" Xie Nue asked.

"Well, Mr Fang was with her. Probably showing her around the house." The other maid said.

"She is very beautiful, you know..." The maid started to sing the praise on Yu Qi.

Xie Nue's expression was not too good. 'Young Master Long's fiancée is here.' That word played inside her mind. That was not Young Madam Long. The only Young Madam Long that she approved was Chi Yuan. She was the most suitable person for Young Master Long.

She forgot that she was only a maid. Long Hui did not need her approval to marry someone. She knew Chi Yuan for quite some time. She had a good impression of Chi Yuan when she met coincidentally when Chi Yuan saved her when she was in danger. When she told Chi Yuan that she was a maid, Chi Yuan did not look down at her and continued to talk to her in a friendly manner.

She knew that Chi Yuan was a kind young Miss who admired Young Master Long. She felt that Young Master Long should notice Chi Yuan. But one day, Chi Yuan told her that Long Hui was engaged with someone else and was very sad about that. She could not do anything besides cry together with Chi Yuan.

But the source of Chi Yuan's sadness was here. She felt that she needed to do something about this. She could teach some lesson to that woman. She dared to covet Young Master Long.

"Xie Nue... Xie Nue... what happen to you?" Her maid friend saw that Xie Nue became silent. So she asked.

"Nothing." Xie Nue shook her head.

Chapter 1047 - 1047: Similar

Yu Qi stayed inside her room for the evening. She entered her space to cook for her little cuties. Her little cuties did not want to eat someone food. They wanted to eat her cooking.

Lost in their cuteness, she cooked and let them eat until their bellies were full. She exited the space and lay on the bed for a while. Until someone knocked on her door.

She stood up and opened the door to see a young woman dressed in the maid uniform. Yu Qi was wondering if something mattered.

"Yes?" Yu Qi asked.

"Old Master Long already arrived. I have been asked to call you, Miss." The maid said.

"I see. Thank you. I will greet Grandpa Long." Yu Qi thanked the maid.

Yu Qi looked at her clothes. She felt her clothes were okay. So, she decided to go to meet Grandpa Long. The maid already disappeared from her sight. She did not think much about that.

Yu Qi met Fang Mo Jin on the way.

"Young Madam, why are you here?" Fang Mo Jin asked.

"Someone came and told me that Grandpa Long was already here. So, I want to greet him." Yu Qi said.

"Oh, Old Master is in his room. It is better if you greet him at dinner tonight." Fang Mo Jin said.

"I see." Yu Qi smiled. However, that smile did not reach her eyes.

Fang Mo Jin was startled. He felt he was facing his Young Master just now. It was very similar. His young Master was also behaving like that when he was angry with someone.

"Young Madam is something wrong?" Fang Mo Jin asked.

He knew something just happened when he saw Yu Qi suddenly being angry about something. He was not stupid.

"Well... I think someone wants to play with me. Never mind." Yu Qi chuckled.

Fang Mo Jin shivered as he looked at Yu Qi. Really... It was very similar. He could not deny that.

Leaving Fang Mo Jin, she decided to take a walk around the residence. It was a very beautiful mansion. Thinking about the earlier incident, she felt strange. She did not have an enemy here.

Oh, wait. She did have an enemy here. Chi Yuan. But here, technically, in Long House, Chi Yuan did not have power. Until she already planted someone here. For example, that maid.

That maid probably told Chi Yuan about her arrival here and Chi Yuan started her plan. What kind of plan, well, Yu Qi needed to wait and see about that later.

It was clear that Fang Mo Jin decided not to call her to inform Grandpa Long's arrival but the maid decided to come to her room, telling her about Grandpa Long's arrival. So she came out of the room.

"So, her plan to get me out of the room?" Yu Qi's brain started to process the situation.

Well, she just needed to be careful when she returned to her room later. That maid probably went to put something inside her room.

Yu Qi decided to return to her room when seeing the sky slowly turned its colour. She was excited to see the maid's plan.

She returned to her room and saw nothing insignificant about that. However, she did smell something that had not been here before. She went to the bathroom to take a quick shower. When she finished, she opened her bag.

At that moment, she noticed something. Her skincare bag had been touched by someone. She opened the bag very careful. The skincare product, their outsides looked fine. She wondered about the inside.

She went and grabbed the moisturiser. Because the smell was very foreign to her skincare product came from this moisturiser. The inside looked pretty normal but Yu Qi knew something was not right.

She let the cream out of its container. She flattened the cream on the table. To her surprise, she saw chilli seeds inside the moisturiser. There was a lot of them.

If she used this moisturiser right now, it was 100% for sure that her skin would feel hot due to the chilli seeds. It looked very simple but it was very painful if it had been applied to the skin.

Someone wanted to ruin her face. 'Well... Well... Well... Let's play then.'

Then she heard someone knock on her door, she opened the door. She did not have time to see the person, her body already inside the person's hug. However, she did not struggle because she knew this person. It was the person that she missed the most.

"Brother Hui..." Yu Qi meekly called Long Hui's name.

"Hmm... Qi Qi, you smell so good." Long Hui said.

Yu Qi chuckled. "Of course, I smell good. I am just finished taking bath."

Then, a scream could be heard not far from their place. Both of them turned and saw a maid with a shocked expression on her face while her hands were on her mouth.

Long Hui looked at the maid. "What are you doing here?"

"I am... here.. to... inform Miss... that the dinner... is ready..." The maid was trembling answered Long Hui's question.

"Oh... Thank you..." Yu Qi said.

The maid ran after nodding in response to Yu Qi. She was seeing something shocking today. She needed to go and tell her coworkers about this. Of she meant by their young master was hugging a woman. Honestly, she did not believe that Young Master agreed to be engaged with a woman.

Chapter 1048 - 1048: Give Medicine Wine To Grandpa Long

So, the girl ran to the kitchen and told everyone in the kitchen about what she just witnessed. The girl had no ill intention, just excited about what she saw. Everyone looked surprised.

"Well, to think about, Young Master Long would not get married to someone that he dislikes. He must love her so much to accept to be engaged with a woman."

"Yeah, a lot of women outside dream to be with Young Master Long. But not everyone could, right?"

"I heard the young miss from Chi Family wants to get married to Young Master Long. She even has a close relationship with Young Master Long's maternal grandmother. Everyone assumed she would be the one to be married to Young Master Long. Turn out she is also a fake one."

Xie Nue was also in the kitchen. She gritted her teeth as she listened to the conversation. Her anger became intolerant when she listened to the mock tone used by the girls when talking about Chi Yuan.

Chi Yuan was a kind person. She had a close relationship with Young Master Long's maternal grandmother because the old woman knew Chi Yuan so much. Old Madam Wei disliked Young Master's current fiancée from what Chi Yuan told her.

"Enough. Stop talking about that. Don't you see, we have a lot of work to do." Xia Nue said before leaving the kitchen.

Everyone was confused as to why that maid got mad out of blue. Well, they also understood that they were in the middle of the work. So, they stopped talking about that and go on with their work.

....

"Grandpa Long..." Yu Qi greeted Grandpa Long who already sat on the chair in the dining room.

"Hmm..." Grandpa Long acknowledged her.

Then he looked at Long Hui. The old man snorted to Long Hui. Long Hui also snorted back at him. Yu Qi laid her eyes on both of them. 'Is this how the grandpa talk with his grandson?'

"Yue will be here later with her boyfriend." Grandpa Long said.

"Really?" Yu Qi's eyes lifted.

It had been a long time since she met Feng Yue. Long Hui frowned. She did not show excitement when seeing him just now.

"You are so happy to see that girl?" Long Hui asked in a bad mood.

Yu Qi turned her head toward Long Hui and saw the face. He was sulking.

"Well, yeah. It has been a while since I met her." Yu Qi nodded.

"But I also haven't seen you for a while. Why don't you look so happy?" Long Hui asked.

"I am also happy to see you." Yu Qi chuckled.

"You brat, are you acting a drama right now?" Grandpa Long rolled his eyes when seeing his grandson acting like that.

Both of them realized that they were not alone here. They were sitting in front of Grandpa Long. Long Hui faked several coughs. While Yu Qi's face turned pinkish.

Grandpa Long was amused with how Long Hui acted with his fiancée. It felt that he was a human, not a robot.

They started to eat. Grandpa Long asked about Grandpa Tang. Yu Qi remembered that she had something to give to Grandpa Long.

"Grandpa Long, I have something to give to you. I will get it from my room." Yu Qi said.

"You can just get it later." Grandpa Long said.

"It would be good if you have it after eating. Wait for a bit." After finishing the statement, she ran to her room.

It was just a disguise.

The item was inside her space. She entered the space as she entered the room. She went to go and got the medicine wine that she made. She had made a lot of them for her family to enjoy.

She grabbed one big bottle of medicine wine and exited the space. She returned to the dining room. She put the bottle on the table. n/-σ-/σ/)*E*/)ℓ-)b.)l/(n

Grandpa Long's eyes opened widely as he looked at the item that his future granddaughter in law brought for him. It was a medicine wine. He had a drink once. That man, Tang Jiang Man gave a cup of it. He was bragged about how delicious it was.

At first, he did not believe it was going to be so delicious. But once he took a sip of the wine, he felt fantastic. The medicine wine was so good. He wanted to get some more but that old man was very stingy. He did not let him another cup.

"Is this what that Tang Jiang Man drink right?" Grandpa Long was excited.

"Yes, but this is another new batch that I made." Yu Qi smiled.

"Good child. Good child. You brat, take care of my granddaughter in law carefully." Grandpa Long said and laughed.

It was the first time Yu Qi saw Grandpa Long laugh like this. He was really identical to Long Hui. Perhaps it was what Long Hui looked like when he got older.

Long Hui never thought that his grandfather was very transparent.

"Get me a cup. I want to drink this." Grandpa Long asked someone to bring him a cup.

The maid was Xia Nue. She also took a look at the bottle. The water looked very yellowish with many times inside it. 'Is this thing very good?' She thought as she went to take the cups as Old Master Long ordered.

Getting the cups, Old Master poured a wine. He took a sip.

"Hmm... delicious..." Grandpa Long praised.

Chapter 1049 - 1049: Need Your Fingerprints

Seeing Grandpa Long was happily drinking, Yu Qi smiled.

"I have something to do. Mr Fang, can you ask everyone to gather in the living room?" Yu Qi suddenly asked Fang Mo Jin.

Fang Mo Jin was surprised to hear the request from Yu Qi. He wondered what was going on. However, he still listened to her order since she was technically his employer too.

Grandpa Long was also curious about that. He did not comment anything about that though. He wanted to see what his future granddaughter in law wanted to do. As for Long Hui, he did not care much about that. He was happily letting his beloved Qi Qi do what she wanted to do.

All the maids gathered in the living room. They were wondering as to why they needed to be gathered like this. Then they saw their employers come into the living room. They were shocked to see Young Master Long holding a woman's hand. Meaning the earlier news that they heard just now was really true. Their Young Master Long loved his fiancée very much.

"You might wonder, why do you need to be here? I will straight to the point. I want to ask who entered my room this evening." Yu Qi asked.

The maids looked confused about that. They did not know what was this young woman looked around.

"What is this? Why do you asking them?" Grandpa Long could sense something was not right here.

"I stayed in my room in the evening until someone knocked on my door telling me that you arrived. Mr Fang told me to greet you. So, I came out and wanted to greet you. However, you have gone to your room. If you did that, why does Mr Fang asks the maid to call me and greet you?" Yu Qi said as her eyes looked around to the maids.

"I don't care much about that at the beginning. So, I took a walk around the mansion. But I noticed something strange when I got back and took a quick shower." Yu Qi smiled.

"Something strange? What is it?" Grandpa Long asked in a serious tone.

"Something tampered with my moisturiser cream. There are chilli seeds on my moisturiser cream. If I wear that moisturiser cream, who knows what will happen to my face." Yu Qi continued the story.

This time, Yu Qi did not smile anymore. Her eyes narrowed as she looked at someone. Her murderous aura was leaking out. The maids were trembling when facing Yu Qi like this.

"You." Yu Qi pointed to someone.

The maid who Yu Qi pointed at, was shivered.

"You are the one who knocked on my door telling me that I should go and greet Grandpa Long. Don't even try to deny it. You know... I have a good memory. I remembered your face." Yu Qi smiled.

"I... I..." The maid was on the brink of tears.

"I.. What? Explain to us properly." It was Grandpa Long who asked the maid.

He really hated this kind of situation. And it happened in his house. He did not want this to affect his future granddaughter in law. The maids saw this feeling scared of him and realized that Old Master Long really accepted Yu Qi as his future granddaughter in law.

"I just... Being asked... By... Someone... To call you over... Nothing else." The maid explained in between sobbing.

"Who ask you?" Yu Qi asked.

"I don't remember... I am sorry... But I really don't do such a thing." The girl cried while looking straight at Yu Qi.

The maid felt so wronged. She really did not do something like that. She would never dare. But she really did not remember the maid who asked her to do that. She was doing something else when the maid came to ask her.

Without having time to reject, the person who asked her was already gone. So, she went to Yu Qi's room and told what she is asked to tell Yu Qi. After telling Yu Qi, she immediately left since she left her work. She did not want someone to complain. That was why she rushed over and did not think of anything else. That was all.

"I am telling the truth." The maid pressed the topic again.

"I believe you." Yu Qi said.

The maid was relieved.

"Then, who did it?" Fang Mo Jin asked.

"Well... Look like someone doesn't want to confess. Never mind. We can use another method even though it would be taken quite a time." Yu Qi smirked.

Long Hui did not move his eyes from his beloved Qi Qi. His beloved Qi Qi was scheming something. He would let her play to her fullest.

"I need all of your fingerprints." Yu Qi said.

Long Hui and Grandpa Long already understood what Yu Qi was trying to do. She wanted to lure the culprit. $n((O-/v))e-/1).B.-1).n$

The container of her moisturiser cream had a special container that needed to be opened only with a bare hand. If someone touched the container other than Yu Qi, it was easy to prove the another person if they had the fingerprints record.

Hearing this, the maids seemed to be relieved because they knew that they did not touch Yu Qi's things. So, their fingerprints would never ever going to be around the container.

Except for one person, she was terrified to hear the suggestion on how Yu Qi wanted to proceed on this case.

Chapter 1050 - 1050: Running Away?

She knew that everyone would know that she would be caught by this woman soon. However, she did not have the courage to confess what she did. She thought she needed to make a run for it.

Everyone seemed to pay attention to the woman. She took a last look at the woman. She gritted her teeth. 'She would pay for this.' Then she gathered the courage to run from the living room. She slowly wanted to slip away.

However, the little maid did not know that the woman she hated was already had eyes on her. Yu Qi paid attention to every little movement and expression on the maids. She already noticed someone reacted strangely to her words. She knew that the little maid was about to take a run from this.

"Where are you? Running away?" Yu Qi suddenly asked making the little maid stop and be stunned as she turned and looked at Yu Qi.

Everyone, of course, was confused with Yu Qi's sudden talk. They did not have any idea what was going on right now. Who was the person that their young madam talking about?

Yu Qi approached the little maid. The little maid was trembling because she knew that her doing was already exposed.

"I wonder why did you do that? Do you have a grudge against me?" Yu Qi stopped and asked the little maid.

The little maid only looked down and did not say anything. Then after a few minutes, she looked up at Yu Qi.

"Miss, what are you talking about? I don't do anything with your cream or whatsoever." The little maid became brave out of a sudden.

"Really? Then, please cooperate with me and give me your fingerprints." Yu Qi said.

"Why only me? You should take everyone else." The little maid retorted.

"Don't worry. I don't play favour on this. I will take everyone else fingerprints too. I will take yours first because it seems you have another thing to do. You can leave and do what you want to do after leaving your fingerprints to me." Yu Qi did not give the little maid any chance to retort anymore.

The little maid gritted her teeth again. This time, she did not have any more excuses. "Yes."

Fang Mo Jin asked the police to come and take everyone fingerprints. The police came as soon as possible because Grandpa Long was the one who called the police. Who did not know Grandpa Long, the Great General in the past?

The police officers who came to Long Residence were surprised by this. Not only they could see the Great General Long but Long Hui too, the grandson of Great General Long. The man who was about to receive another promotion. The youngest Senior Colonel.

However, Grandpa Long and Long Hui were silent. On the other hand, it was a young lady who took control of everything. They were wondering if this lady was the rumour fiancée that people talked about.

"Thank you for coming here." Yu Qi smiled.

"No... No... It is nothing." One of the police officers said. It seemed he was the leader, Mr Jiang.

"So, I think Grandpa already told you what you need to do. Please collect these people's fingerprints." Yu Qi said.

"Before that, can I know what is going on here?" Mr Jiang asked.

"Someone was putting something to my skincare product. Luckily, I noticed that and did not use it. This container needs the bare hand to open it. So, this container definitely had another person fingerprints before me." Yu Qi briefly explained the situation.

"I see." Mr Jiang nodded.

"By the way, please collect that girl's fingerprints first. She has something to do after this." Yu Qi pointed to the little maid.

The police officers turned and looked at the little maid. She was trembling.

"I understand. Jun Wang, please the things." Mr Jiang asked his subordinates to prepare the thing.

So, the police officers were doing their task. Great General Long did ask them to bring the things that they used to collect the fingerprints. Then, after Mr Jiang asked the little maid came forward.

The little maid slowly came approaching the police officer. However, she suddenly turned and faced Yu Qi.

"Why you? It should be me. Young Master Long should be with me. It is not supposed to be you." The little maid screamed at Yu Qi.

Everyone was shocked except for Yu Qi, Long Hui and Grandpa Long. Yu Qi already predicated the reason as for why this little maid did all of this. It should be because of the man beside her.

"Why do you think Brother Hui should be with you?" Yu Qi asked.

The little maid seemed to be surprised when Yu Qi asked the question. She did not know how to answer the question. Instead of answering the question, Yu Qi asked, she asked this question.

"Then, why does Young Master Long has to be with you?" The little maid asked.

"Of course..." Yu Qi did not have time to finish, someone finished the sentence instead.

"Of course, because I love her. That is why I should be with her. Is that answering your question?" It was Long Hui who answered the question.

He even hugged Yu Qi and kissed her hair displayed public affection. The maids and the police officers were shocked to see this. They remembered that Long Hui was someone who used to hate women and now hugging a woman of his own will.
