

## INTELLIGENT 1281

### Chapter 1281: Dian Shu Xian Joins Her Research Team

Bai Jian sent people to investigate what happened to her son. The nightclub manager where Bai Yu got beaten, was questioned. He told them that he did not about that.

The investigators asked to see the CCTV footage. The manager told them that the CCTV camera had some problem two hours prior to the incident. It made the investigators suspect that it was an elaborate plan.

Of course, Bai Jian thought the same. Her son had been targeted. She told the investigators to look furthermore.

....

Many things happened but Yu Qi did not care much about them. She read about herself being a topic again. She just read without doing anything. Today, she had a more important thing to do.

She welcomed Dian Shu Xian to her research team. Dian Shu Xian finally could come to join her.

Dian Shu Xian completed his preparation. Giving his resignation letter, he handover the patient to another doctor and told their family about this.

Of course, Dian's Family was happy hearing this matter. They even urged Dian Shu Xian to go as soon as possible.

Dian Qi Qi, on other hand, made a fuss that she wanted to go there too. If not because of Dian Zin Fang's interference, that girl might end up following Dian Shu Xian.

Yu Qi introduced Dian Shu Xian to other members of her team. Yi Qihan, Teng Li, Su Ziqing and Ling Xuan were the member. Yu Qi let them join her because they were talented.

They were doctors that also specialised in different fields That really helped.

They all welcomed Dian Shu Xian happily into the team. In celebration, they decided to go out for dinner together.

They went to the restaurant. Because Yu Qi did not want to disturb others, she requested a private room.

"I am sorry, we don't have any room available anymore." The waiter said to one of the customers.

"What? How come?" The waiter was not talking to Yu Qi but to another customer who happened to request the same as Yu Qi.

Yu Qi could not help to ask. "The private rooms are fully booked?"

The waiter saw Yu Qi and smiled. "You are Miss Tang Yu Qi, right?"

"Yes." Yu Qi nodded.

"We do have a room for you." The waiter smiled.

The customer who requested the same heard that. "How could you have a room for her, not for us? Give her room to us. We come first. First come, first serve... you know." The woman demanded the waiter to give them Yu Qi's room.

Su Ziqing looked at the woman. "Don't you know there is a booking system?" Her tongue was sharp. "We obviously booked a room for tonight. That 'first come, first serve' did not fit here, you know."

The reply from Su Ziqing made the woman quiet. The people behind the woman pulled the woman and shook their heads together. One of them, one slightly good-looking one stepped forward.

"I am apologising on my sister's behalf. She is just young." The man said.

Yu Qi and her friends looked at the woman and thought, 'Yeah, young. Who are they want to say?' That woman was probably the same as Yu Qi.

"It is my card." The man handed out his card to Yu Qi.

Dian Shu Xian was the one who took the card. "It is already over. Let's go our separate way. We want to go inside."

The man's eyes flashed a glint, just for one second. However, Yu Qi and Dian Shu Xian could catch that.

The incident was over after the man apologized. The waiter brought Yu Qi and others to the private room. They sat, ordered the food and waited for the food to come.

"It is lucky for us to book the room first. Otherwise, we need to eat somewhere else." Ling Xuan said.

"It is common sense to do so." Su Ziqing said.

Dian Shu Xian looked at the card given by that man earlier. "He is not from here."

Yu Qi also glanced at the card.

"Then, they probably don't know this restaurant is quite famous." Yi Qihan said.

"That man wants to give his card to Yu Qi. He must not expect Shu Xian to take the card instead of Yu Qi." Teng Li chuckled.

"Nice move, Shu Xian." Su Ziqing gave a thump up to Dian Shu Xian.

The food came. They also ordered some beer to drink.

Dian Shu Xian looked at Yu Qi. "Are you sure you can drink?"

Yu Qi smiled. She took a sober pill and eat it. "Don't worry. I have this."

Dian Shu Xian knew Yu Qi was extremely weak to alcohol. Long Hui told them about Yu Qi's condition when Dian Family offered Yu Qi to drink some alcohol.

....

The men and women who argued with Yu Qi went to somewhere else.

"I really want to eat at that restaurant." The woman who was said to be young whined dissatisfied.

"Mandy, can you not be so willful? We are in a foreign country." The man said.

The girl called Mandy did not reply.

"But seriously, that girl is very beautiful. I am sure you are aiming for her when you give the card."

"But unfortunately, another man takes the card."

"He is probably her boyfriend."

The man who gave the card just smiled without saying anything.

"But don't forget that we have work here." Another man gave reminders.

### **Chapter 1282: Bear The Consequence**

Wu Yao did not stop calling her sister to spare her daughter. Mrs An Yanyu did not answer the call. So, Wu Yao went straight to Tang Private Hospital after investigating which hospital An Yiming stayed in.

However, she could not even get closer to An Yiming's ward because An Family did not allow anyone else to visit An Yiming. She kept calling her sister until the day when Wu Meng Qiu needed to go to the court to answer the summon.

On that day, Wu Yao met with her sister face to face.

"Sister." Wu Yao rushed to her sister.

But she could not get closer to her sister because An Chang blocked her way.

"Chang..." Wu Yao looked at her nephew.

"Don't act so closer to my family." An Chang already treated Wu Family as his enemy. He would not allow them to be close to his family anymore.

"Chang, I just want to talk with your mother." Wu Yao tried her luck.

An Chang snorted. "Want to talk to my mother? Just wait until this trial is over."

If Wu Yao waited until the trial was over, that would be ended for Wu Meng Qiu. Then she saw An Yiming in the wheelchair pushed by Mr An Chia. So, she changed her target. If she begged An Yiming, An Yiming might be soft-hearted and dropped the charge against Wu Meng Qiu.

"Stop right there. Don't you try to get closer to my daughter." Mrs An Yanyu said to Wu Yao.

"Yiming, I want to apologize. Please forgive me." It was Wu Meng Qiu who begged An Yiming.

Even though Wu Meng Qiu hated An Yiming right now, she needed to beg An Yiming to forgive her.

"Wu Meng Qiu, I still remember the words that you said to me before you do such a thing to me. 'An Yiming, enjoy the fuck that you will get later.' That time, I was still conscious, you know." An Yiming glared at Wu Meng Qiu.

Wu Meng Qiu was taken aback. She never thought that An Yiming heard that sentence.

The court started. The lawyer that Mr An Chia hired was quite good. He presented the evidence gave a huge impact that the opposite lawyer could not find wrong in them.

As Wu Yao planned, Wu Meng Qiu's lawyer switched the blame to Wu Meng Qiu's friend, Su Zitong. On Su Zitong's side, the lawyer and family were dumbfounded by this situation.

They thought Wu Meng Qiu was on their side to fight An Yiming, but this happened. They understood that Wu Meng Qiu's side tried to push everything to Su Zitong. It made the situation in the court worsen. It should be two sides fighting but now it became three side fighting.

On An Yiming's side was very relaxed. However, it was not the same as the other two sides. It was very tense.

In the end, Wu Meng Qiu and Su Zitong were proven guilty. Since they were already an adult, both of them were sentenced to a minimum of 5 years of jail time and they also needed to pay the compensation of 200,000 to the victim, An Yiming.

Since both of them were still a student, the family would be the ones who paid for it. When Wu Xiulong heard about the amount of compensation, he was very furious. He wanted to beat Wu Meng Qiu on the spot but he needed to restrain his anger because they were in public.

Wu Yao and Wu Meng Qiu were crying when the judge announced its verdict. Wu Yao did not want her only daughter to spend her young time in jail. The world was not so nice to people who had a jail record in their life. She knew that her daughter's life would be ruined after her daughter got out of jail.

An Family was pleased to hear the verdict. Not like that verdict would make them return to the past, but at least, the one who ruined An Yiming's life would not have a happy life either.

Mr and Mrs An thanked the lawyer for his work. They were about to leave when Wu Yao rushed over.

"Sister, please help my daughter. Please don't let her be sent to jail. Her life will be ruined after 5 years in jail." Wu Yao did not care anymore. She kneeled in front of An Family.

"Your daughter will be ruined... Humph... You only think of your daughter. So, what's about my daughter?" Mrs An Yanyu asked. She did not have any pity for Wu Yao.

"My sister is suffering because of Wu Meng Qiu. She should pay the price." An Buyi interfered.

If Wu Meng Qiu did not do something like this, their families would be close as usual. But right now, the situation was different. An Family could not forgive Wu Meng Qiu for what she had done to An Yiming.

Wu Xiulong felt embarrassed when seeing his wife kneeling in public like that. He rushed to Wu Yao and pulled her up.

"Brother in law, sister in law, I will take my wife away." Wu Xiulong said.

"Don't call us like that. From now on, we are not family anymore." Mr An Chia said. "I will announce it later."

"Please don't do that." Wu Xiulong panicked.

His business client had their contract done in his company because of An Family. If not, they would terminate the contract with his company.

### **Chapter 1283: Hacked Into Bai Cooperation Server**

"I already make the decision. I will also terminate our contract. I will pay the compensation to your company. I don't care about the amount. I just don't want your family to be around our family anymore." Mr An Chia already made the decision.

An Chang supported Mr An Chia. For a long time, he thought that Wu Family was a parasite to his family. It was good to cut them off.

He wanted to do such a thing for a long time ago but he was afraid that his mother would be sad because it was her mother's sister's family. But now, his mother would not be sad anymore.

.....

Qiaosu Entertainment slowly recovered from the scandal. The upper management was relieved. However, they had, well, a little too lost.

Some of the artists ended the contract because they thought Qiaosu Entertainment would not survive the scandal. They did not want to ruin it together with the company.

Another reason was that Qiaosu Entertainment's rival snatched them. They gave a lot of benefits to the artists who ended the contract with Qiaosu Entertainment.

Lang Sun just gave the artists who wanted to leave a green light if they could afford to pay the compensation money to break the contract earlier than the supposed time.

Of course, they paid for it. Lang Sun snorted. He believed that the money came from Qiaosu Entertainment's rival. Because those who left the company were mostly B-listers.

Only one of them was A-lister, Lu Lian. Lu Lian had 5 years contract with Qiaosu Entertainment. And it was her second year. She was invited to Cude Entertainment Company by the vice president of Cude Entertainment.

The vice president, Ge Xiwan, the son of the owner of Cude Entertainment fell in love with Lu Lian. He already invited Lu Lian several times to change the company. But Lu Lian rejected his offer.

Lu Lian thought it was a good company that helped her career boom. However, the thing turned for the worst when Pei Xian Nan's case.

Lu Lian felt the company would be ruined because she overheard the conversation between the executives that their company's share market was rapidly down.

Knowing that she quickly made the decision to leave the company. Before leaving, she invited others to leave the company too and joined Cude Entertainment.

Ge Xiwan told Lu Lian to invite some of the artists to her new company. Lu Lian also invited A-listers but got rejected by them.

She even invited Song Su Jin. Also, she got the rejection.

"Qiaosu reached out to me when I am down. It helped me to reach the current me. I will not be so ungrateful to leave in such time." Song Su Jin responded.

The other artists also expressed the same thought. Because the system in Qiaosu Entertainment changed and recognised the person who work hard and had talent.

Lang Sun reported it to Yu Qi. Yu Qi responded by telling him, 'If you think our artist decreases, hire the new ones. Only accept the people that you have talent and can hardworking.

Lang Sun nodded. He told the upper management about Yu Qi's order. The upper management agreed. They quickly made the preparation.

....

Yu Qi hacked the Bai Cooperation server. Fast and silent. Bai Cooperation did not know that someone hacked into their server. They were confident about that.

Yu Qi read the information. She looked at the current projects that Bai Cooperation wanted to make the contract. She wanted to steal the information about the project and sold to other bidders. It would be fun to see that happen.

They had three major contracts that were already in the final stage. Just needed to present to the client.

She downloaded everything that she wanted. After getting everything, she wanted to do something fun.

She pressed several buttons. It turned into a video.

"Hello everyone. Nice to meet you?" A voice of a little girl played on all the computers that connected to Bai Cooperation's server.

The staff who still working overtime were shocked by the sudden voice. They looked around.

The technician in charge of handling the server was also stunned. They quickly got to their computer to check the server. Only then, they knew that their server had already been hacked by someone.

They tried to find out the hacker by tracing the IP address.

"You guys don't need to do that. You will not find me." The voice of the little girl played again while laughing.

The technicians felt that they had been mocked. Even though the voice sounded like a little girl, they knew the reality.

"Keep tracking. Don't stop. Find out this bastard." The head of the technician on duty shouted when seeing his subordinates stop working and stared like an idiot.

"I just want to tell you, I am Q. Nice to meet you. Oh, I forget I already said that. It's time. I will visit you again. At that time, you should be prepared to welcome me. Since it is our first meeting each other, I have a gift for you. I hope you will like it." A little girl said.

'Q?' They did not know a hacker named Q.

Then, their computers flashed a red screen.

"I hope you save your data." A little girl laughed again.

"Damn it. This bastard sends a virus. Help me to block the virus." The head of the technician on duty shouted again.

Chapter 1284: Dark Rose Alliance

"See you again. Bye." Then the voice disappeared leaving the virus.

The head of the technician on duty wanted to kill that bastard.

"Did you find the bastard?" The head of the technician on duty asked again.

"No, Sir. He hides his IP very well." His subordinate answered.

"Let's tackle this virus first." The head of the technician on duty gritted his teeth.

The team spent the fucking whole night tackling the virus but it was still no success. The virus destroyed the company data little by little. If the virus did not tackle right now, the whole data in the server were gone.

The upper management got to know about this. Bai Xia Fang called them to a meeting. The technical director gulped as he knew about this. He just knew about the attack this morning.

The technical director was angry with the head of the technician on duty. He asked why he did not call him and informed him about this. The head of the technician told him that they called him many times. But the technical director did not answer the call.

The technical director told the head of the technician to come and follow him to the meeting room. He needed to explain to the upper management about this.

The head of the technician felt weak on his legs. It was his first time being in front of their Boss. However, he could not disobey his superior.

The head of the technician explained the incident even though he was scared of facing his big boss. With a shaky voice, he explained more about the incident.

The head of the technician glanced up to see his big boss's reaction. Bai Xia Fang sat in deep thought.

"Do you know anything else?" Bai Shu Jin asked.

"What is Vice President meant?" The head of the technician could not understand. He already told him everything.

"Did he steal anything before leaving?" Bai Shu Jin asked.

"We could not find any track. He probably just wants to play." The head of the technician did not so sure about that.

"Tighten the cyber security. Deal with the virus as soon as possible. I hope it will be settled in as soon as possible. Otherwise, it will cost your job too. Remember that, Mr. Mu Chin " Bai Xia Fang gave the order.

Mu Chin was the technical director. He was shaken up when Bai Xia Fang called his name. However, he did not have any words except 'yes'.

"Yes, President." Mu Chin nodded.

"The meeting is adjourned." Bai Xia Fang ordered. "Shu Jin, come to my room." He told his son to follow him to his room.

Everyone was leaving the meeting room, going back to their workplace. As for the father and son, they went to Bai Xia Fang's room.

"What do you think about this incident?" Bai Xia Fang asked after sitting down.

"We are in the middle of getting three major contracts. Our rivals are probably wanting to get some information from our company about those contracts." Bai Shu Jin analyzed the situation.

"I see. Then, what is about the virus?" Bai Shu Jin asked again.

"After getting what they wanted, they just want to completely ruin the whole server." Bai Shu Jin said.

Bai Xia Fang nodded. Their assumptions were the same. He just wanted to know his son's opinion.

"Father, the virus seemed dangerous. Should we deal with it right away?" Bai Shu Jin asked.

"If the hacker could come in without anyone detecting him, meaning he has a lot of skills. He should be from that alliance." Bai Xia Fang smiled.

"You mean that Dark Rose Alliance?" Bai Shu Jin looked at his father.

"Yes. It was their standard skill." Bai Xia Fang snorted.

"So, someone from our rivals hired a hacker from Dark Rose Alliance. They really spend a lot of money." Bai Shu Jian narrowed his eyes.

"If the virus still can not be handled by our team until this evening, you can try to contact and hire them. They should be enough to handle the virus." Bai Xia Fang said.

"Yes, Father." Bai Shu Jin nodded.

Dark Rose Alliance was a hacker plus Mercenary organization. People hired hackers or Mercenaries that suit their needs. However, the payment was very higher to get a service from them. So, people needed to think twice about getting their service.

Bai Father and Son believed that their rivals hired someone from that organization. They did not know that the culprit behind all this was just a young and beautiful doctor.

Yu Qi got a break. She got time to find out more about the contracts that she got from Bai Cooperation. One contract was valued at about 1 billion. It was a dam project. The project would take place outside Binhai Nation.

Bai Cooperation's biggest rival was another major company, Ruther Corp. Yu Qi was smiling.

"Doctor Yu Qi, you have a patient." A nurse disturbed Yu Qi's thoughts.

Yu Qi put away the thing. The contract still had a one-week duration. She did not have to rush. She would be sent the details about the contract to Ruther Corp. tonight.

Well, Yu Qi would not request anything from Ruther Corp. She just wanted to mess out with Bai Cooperation since they seemed a lot of time targeting her business.

If they had time, she just needed to create the problem for them.

Adjusting her mood, she answered the nurse. "Sure, let them come in."

## **Chapter 1285: Crazy Woman**

That night, she sent an email to Ruther Corp regarding the detail of the contract that they tried to bid. However, she did not use the normal route. Well, she did not want to be traced.

The email would be automatically deleted after the receiver download the file that she upload to cut all the traces. She already tested the system and it worked well.

And of course, the email would be also deleted in the limited time that she set. In case, they did not read the email or ignored it directly.

The second contract was a project in Binhai Nation. It was a government project that wanted to build a skyscraper tower. Bai Cooperation's biggest rival in this project was Feng Cooperation. She also sent the email to Feng Cooperation.

The last contract that Bai Cooperation wanted to win was a 5-star hotel in Astario Country. Astario Country was the popular hot spot for gamblers. They had the largest casino there. Building a hotel there would give a lot of revenue to the company.

Of course, they also had a rival there. It was a company from Asterio Country itself, La LiPon.

After sending all the emails, Yu Qi yawned. She was at Tang House. Long Hui was away for his work. So, she spent the night at Tang House.

Long Hui already informed her that he would be returned home tomorrow. So, as for tomorrow, Yu Qi would go to Long Hui's penthouse.

.....

Yu Qi heard some commotion in the lobby where the penthouse was. There were some onlookers too. Yu Qi stopped to see what happened.

"Miss, you need to show me your residence card if you want to enter the building." The security said.

Apparently, there was a woman who wanted to enter the building without showing her residence card. It was normal for the security to ask if they found that person unfamiliar.

"I don't have it. But my boyfriend lives here." The woman said while shouting.

"Miss, calm down. There is no need for you to shout like that. If your boyfriend lives here, please call him to come down to pick you up." The security calmly handled the situation.

"Of course, my boyfriend lives here. He lives at the penthouse." The woman said proudly.

The word penthouse caught Yu Qi's attention. Now, she became more interested to hear more about this.

"Then call him." Security was mentioned again.

"I can't. He did not answer my call." The woman became angry again.

"If that's the case, there is nothing we can help you with. We can not allow you to enter." The security was firm in doing his job.

"My boyfriend lives in the penthouse. The reason he did not answer my call, he cheated on me. He even stole the money. He was having fun with another woman in that penthouse. That penthouse should be mine." The woman began to sob.

Yu Qi narrowed her eyes. She even smiled. But the smile did not reach her eyes.

Coincidentally, a couple beside Yu Qi looked at her in surprise. They seemed to know her. However, as far as she remembered, she did not know this couple. Yu Qi just smiled and nodded to the couple. The couple also replied with a smile.

Yu Qi turned to the woman who still sobbing and telling her sad story. She could not hold anymore. She stepped forward.

"May I know your name, Miss?" A gentle voice from Yu Qi shocked the woman.

"My name is Liang Neng." Liang Neng answered.

"Miss Tang." The security greeted Yu Qi with respect.

They knew Yu Qi and his fiancée, Long Hui were the owner of the penthouse mentioned by Liang Neng. They also knew their love story. So, it was ridiculous to hear Liang Neng's story.

"Who are you?" Liang Neng asked.

"Well, I am the co-owner of the penthouse that you mention before." Yu Qi looked at Liang Neng.

This Liang Neng was probably being sent by someone who wanted to destroy her relationship with Long Hui.

"What? So, you are the bitch who seduced my boyfriend?" Liang Neng changed her expression.

"Your boyfriend? Who is your boyfriend? What is his name?" Yu Qi crossed her hands hugging her body.

"What? Now you are pretending that you don't know him? My boyfriend is Lee Wang Su." Liang Neng said her boyfriend's name.

The onlookers and the security were dumbfounded by the answer. They were kind of expecting that Liang Neng said Long Hui's name.

Then, the couple who greeted Yu Qi earlier burst into laughter. The man quickly apologized. "I am sorry."

"What? Why are you laughing?" Liang Neng was already angry. The laugh made her even angrier.

"Miss Liang, is it? Miss Tang already has a fiancée. His name is Long Hui. Another owner of the penthouse should be him. How come the penthouse becomes your boyfriend's?" It was the woman from the couple.

"How come? My boyfriend told me that he buy a penthouse here. It should be his." Liang Neng argued.

"Miss, it is the truth. The owner of the penthouse is indeed Miss Tang and Mr. Long. I don't know what your boyfriend told you but it is the truth." The security interfered.

"No... No... It is impossible. That is my boyfriend's penthouse." Liang Neng was still convinced that it was her boyfriend's penthouse.

Yu Qi and others looked at Liang Neng like she was crazy.

**Chapter 1286: The Leaked Project Detail Part 1**

"I think we should call the police." The security made the decision.

It was because that Liang Neng seemed could not think straight anymore. He felt it would be dangerous to everyone here.

"I agree."

"Yeah. Call the police."

Everyone agreed with the idea. They also felt that this woman was crazy.

Hearing everyone wanted to call the police, Liang Neng panicked. She immediately ran out of the building. She did not want the police involved in her situation. It would be so embarrassing if she had been taken to the police station.

Seeing Liang Neng run away, everyone was finally relieved. They left the lobby.

The couple who smiled at Yu Qi earlier approached Yu Qi.

"Hi, Miss Tang." The woman greeted Yu Qi.

"Oh, hi..." Yu Qi did not know how to address this couple.

"Oh, I am Jing Yaoyun and this is my husband, Su Jinzeng. We are living in this building too." Jing Yaoyun introduced themselves.

"I will go up first." Su Jinzeng said to his wife.

Jing Yaoyun nodded. So Su Jinzeng left.

"Oh, hi...We have never seen each other before. So, I don't know anyone." Yu Qi apologized.

"It's okay. But we met once. But I don't think you remember that." Jing Yaoyun said.

"Oh, we are? I don't notice you." Yu Qi was pretty sure that she never met this couple.

"Of course, you are not. Because you were drunk at night." Jing Yaoyun chuckled.

"D... Drunk?" Yu Qi was surprised.

"Yeah. You were in Mr. Long's arms. We were in the elevator." Jing Yaoyun smiled even wider.

Yu Qi coughed in embarrassment. "I see." She remembered saying something that made people think wild.

"Qi Qi." Someone called Yu Qi from behind.

Yu Qi already knew that it was Long Hui who called her.

"Well, I will excuse myself then. Nice to meet you, Miss Tang." Jing Yaoyun said and smiled before leaving the couple.

"Who is that?" Long Hui asked.

"Our neighbor." Yu Qi said.

"Hmm..."

They returned home. While in the elevator, Yu Qi told Long Hui about the earlier incident. Long Hui just listened to her story,

"That woman even said I am her boyfriend's sidepiece." Yu Qi laughed.

"You are mine. Only mine." Long Hui narrowed his eyes.

Yu Qi laughed again seeing Long Hui jealous.

...

Ruther Cooperation CEO, Auther Ruther saw the email. Yu Qi sent the project detail to all upper management people in the company.

Auther Ruther called his employees to have a meeting regarding this email.

"Have you read the email?" Auther Ruther asked his employees.

"I just receive it."

"I read it."

"I read it."

Most of them already read the email. Auther Ruther nodded.

"So, what do you think about this email?" Auther Ruther asked again.

"The email is suspicious. We can't believe it." One of the employees, Adam Bowles said.

He did not think that they should believe the email. The email just contained the project detail owned by Bai Cooperation, which was their biggest rival in the current project that they would bid on later. If the email asked for some money, he would consider it worth it.

"I think the detail is okay. The detail looked very legit. It is something like Bai Cooperation would have." Another employee, Micheal Parker interfered.

Adam Bowles frowned. "I don't think so. If someone wants to give that to us, they should be asking for some money. But they did not ask for that. It is suspicious." He replied.

"Mr. Adam, you should read the email until the end. The sender seems to hate Bai Cooperation. So, the sender stole the project detail from Bai Cooperation. And the fact, the email disappear after we download the file meaning the sender was quite capable." Micheal Parker said.

"Oh, what do you mean by that?" Auther Ruther was interested to know.

"I could think of two reasons. One, the sender is probably a hacker. Hacker job is well paid. Another reason that I could think of is a sender is a rich man and he hired a hacker to send the email to us. So, there is no reason for the sender to ask for money." Micheal Parker stated what he thought.

"Oh, I see. It is quite interesting to think that way." Auther Ruther nodded.

Some of the employees were also convinced of that. They felt that the project detail from Bai Cooperation could be used. As usual, some of them were spectacle with this.

"Even so, we can not use this project detail." Adam Bowles still felt that it was not safe to use the detailed project.

People debated whether to use the project detail from this Bai Cooperation or not. Auther Ruther was just silent and watched his employees argue.

After 15 minutes, Auther Ruther spoke. "Here is my decision. We can use this project detail."

"But, Mr. Ruther, We already drafted our..." Adam Bowles wanted to protest.

Auther Ruther raised his hand. It stopped Adam Bowles from speaking.

"See which part from Bai Cooperation's detail could be used to improve our contract. I think our contract would be much more attractive." Auther Ruther said. Then, he continued. "I think you already read the detail. I believe that our contract's strength is pretty similar. So, if you use some of the detail, I think our contract is higher than Bai Cooperation."

"Mr. Ruther is wise." Micheal Parker nodded.

After hearing Auther Ruther's speech, the decision had made.

## **Chapter 1287: The Leaked Project Detail Part 2**

Feng Cooperation also received the email. Grandpa Feng also did the same as Ruther Cooperation, having a meeting regarding the email.

Feng Cho Kang and Feng Yue were also in that meeting. Feng Cho Kang told them that they should use detail. However, Feng Yue rejected the idea.

Since Feng Yue had been called to work at the headquarters, she had been given major tasks. One of them was this project. She and her team already drafted their own contract. They had already 90% completed.

"Vice President Feng, we don't have to use the information." Feng Yue argued.

"Why not? With this information, we can win the bid." Feng Cho Kang said.

"Our team also drafted the best term and conditions. Moreover, the email is suspicious. It might be a trap from Bai Cooperation itself." Feng Yue said.

"What do you mean by that?" Feng Cho Kang frowned.

"They might send the email on purpose. They could use the matter and sue us. At that time, what do you think we can do? Our image might get tarnished by that matter." Feng Yue stated her reason why they should not use the project detail from Bai Cooperation.

Feng Cho Kang was silent. Everyone in the meeting room nodded several times hearing Feng Yue speak.

"I guess we already get the decision on what to do." Grandpa Feng said. "Since the project manager of this project, Feng Yue decided not to use the detail, this matter is stopped here." Grandpa Feng stated his final decision.

Feng Yue nodded. Feng Cho Kang looked ugly when hearing Grandpa Feng announce that.

Everyone left the meeting room. Grandpa Feng and Feng Yue also wanted to leave the meeting room.

"Feng Yue, you seem proud against your father." Feng Cho Kang's voice made Feng Yue stop.

Grandpa Feng also stopped.

"Vice President Feng, I guess you are angry with this decision." Feng Yue said.

Feng Cho Kang felt like Feng Yue was mocking him when she called him 'Vice President Feng'. Since ever Feng Yue worked at the headquarters, Feng Cho Kang began to feel like there was two Feng Mo in the company.

Feng Yue acted and thought like her grandfather and outshined her father. People in the company began to look at Feng Yue.

"This project is under my supervision. Vice President Feng should not worry about my project. You should look over your own projects. I hear there are many delays on those projects. If you think you can't handle them, you should let something else handle them." Feng Yue said.

"You dare to snatch my projects?" Feng Cho Kang began agitated.

"I just make a suggestion. You don't have to be angry." Feng Yue said.

"You!" Feng Cho Kang pointed a finger at Feng Yue.

"Since Vice President Feng doesn't have any more to say, I will take my leave." Feng Yue said.

Grandpa Feng looked at the father and daughter. He sighed. Since ever Feng Yue started to work here, Feng Cho Kang seemed to view his daughter as his enemy.

He did not know what to do to repair their relationship. Feng Yue also did not want to live with her father. So, she stayed with Grandpa Feng.

Feng Cho Kang was angry seeing Feng Yue's attitude. When he returned to his work, he saw his wife inside his room.

"What are you doing here?" Feng Cho Kang was still angry, so his tone was a little bit furious.

"What's the matter with you, husband? Why do you seem so angry?" Fuang Cian Xie showed some concern.

"That little brat, Feng Yue is against me again." Feng Cho Kang said.

"What is this time?" Fuang Cian Xie said.

There were several times that Feng Cho Kang was angry with Feng Yue. Well, she did not care. She even felt happy when seeing their relationship as father and daughter became worse.

"We get some information from our rival. But she is stupid, doesn't want to use the information." Feng Cho Kang revealed the matter.

"Oh, I see." Fuang Cian Xie nodded.

She listened to everything that Feng Cho Kang said.

"By the way, I think to make our daughter start working in the company too. What do you think?" Fuang Cian Xie asked.

"What? She is still studying. Let her complete her study first." Feng Cho Kang said.

"She just has two days of class. She can come to the company to learn a few things. Besides, she will be starting her internship later, it is better for her to come and learn." Fuang Cian Xie said.

"Oh... I see. I will bring this up to Father." Feng Cho Kang said. "I am sure that our daughter will be adored by the staff."

"That is so sure." Fuang Cian Xie nodded.

They did not know that the staff in the company disliked Feng Ma Ri. She was so arrogant ordering the staff to do what she wanted when she came to the company once in a while.

"And so, we need to discuss with Father Feng Yue's boyfriend too. I want him to marry our father instead. Otherwise, Feng Cooperation would have to change its name." Feng Cho Kang said.

Fuang Cian Xie met Feng Yue's boyfriend once. It was a decent man. She was quite like the man. She thought this man was also suitable for her daughter too. Feng Ma Ri liked Long Hui but looking at the future, she would not get Long Hui. So, Feng Yue's boyfriend was good.

### **Chapter 1288: Getting Help From Dark Rose Alliance**

The technical department could not deal with the virus. They could not crack the virus until the evening. As Bai Xia Fang ordered, Bai Shu Jin stepped forward.

He tried to contact Dark Rose Alliance to hire a hacker to deal with this situation. Of course, it was not easy.

The hackers from Dark Rose Alliance were arrogant. If they felt the reward from the job was too little, they would not do the job.

Bai Shu Jin finally contacted someone from Dark Rose Alliance. He offered a sum of money to the hacker.

The hacker seemed interested in taking the job after hearing about the money. So, he asked more about the job's detail.

When Bai Shu Jin asked the technician explained the detail, the hacker became more interested. He was interested in the virus. After signing the agreement, the hacker took over the job.

Of course, he did not have to come to the company. He could take a look from where he was. It was the first time he encountered such a virus.

The virus had a complicated algorithm. He almost could not crack the virus. However, after 8 hours of struggling, he managed to crack the virus.

The technician felt that the hacker was very amazing. The hacker managed to deal with the virus.

After getting the report that the hacker was successful in dealing with the virus, Bai Shu Jin paid the hacker. He also offered the hacker to work full time with Bai Cooperation.

Without a long thought, the hacker rejected the offer straight away. He did not want to be tied to any companies.

Bai Shu Jin was disappointed but there was no way that he could make the hacker turned to his way. If he forced the hacker, the power behind him could not stay quiet about that.

However, he offered the hacker another job. Bai Cooperation needed another strong firewall. He asked the hacker to make one. He would pay another one for this job.

Of course, the hacker took the job.

...

Long Hui told Yu Qi about the birthday party.

"Whose birthday party?" Yu Qi asked.

"President Hai's wife. She invites us to her birthday party." Long Hui informed her.

"I see. I need to look at my schedule first. If I have time on that day, I can go. How about you?" Yu Qi asked.

"I have free time." Long Hui said.

"She might invite many people for her birthday." Yu Qi commented.

"I don't think so. President Hai tells me it is a small gathering. They probably invite their close friend." Long Hui said.

"Hmmm... I will find a present for her. Hmm... A set of Skincare and a pair of the jade earpieces. I think it is great." Yu Qi already thought about the present that she wanted to give to Mrs. Hai Su Han.

Even if she could not attend the party, she could just send the present to Mrs. Hai Su Han.

"By the way, I hear from the neighbor about the crazy woman, Liang Neng." Yu Qi suddenly remembered the incident.

She met Jing Yaoyun earlier. Jing Yaoyun told her about Liang Neng. Turned out Liang Neng came with her boyfriend. Her boyfriend seemed clueless when his girlfriend brought him into the building.

Liang Neng confronted the security team and told them that her boyfriend, the owner of the penthouse was there. So, Yu Qi should move out.

When the boyfriend heard about this, he was shocked. He asked Liang Neng what was she talking about. He did not know what she talking about. He thought Liang Neng wanted to go to her friend's house here. That was why he followed her without feeling anything.

Liang Neng told him. He was shocked. He never said something like that. He was a normal class worker that worked for a normal company. How could he afford such a luxurious penthouse?

Thinking that Liang Neng was delusional, he broke up with Liang Neng right away. He left Liang Neng. Liang Neng rushed to follow her boyfriend.

"Qi Qi, you already cleaned from your period, right? I think it is about time." Long Hui suddenly changed the topic.

Yu Qi quickly glanced at Long Hui. "You keep tracking my period?"

Long Hui coughed out of embarrassment.

"Well..." Long Hui could not find the words.

Yu Qi laughed. She remembered the disappointed expression on Long Hui's face when she told him that she was on her period.

He was looking forward to making love with Yu Qi but he could not. The feeling was so horrible. The delicious food was in front of him but he could not eat it. That was his feeling at that time.

He only could kiss her. Not for a long time. He was afraid that he could not hold back from eating her even though Yu Qi seemed to provoke him all the time.

"Brother Hui, you are so cute." Yu Qi laughed.

"Don't say I am cute." Long Hui pulled Yu Qi's hand.

"Okay... Okay..." Yu Qi was still laughing.

"You can't say I am cute. You should say I am handsome and strong. You should know what strong that I am talking about." Long Hui began to smile seductively.

Yu Qi gulped. 'He uses his beauty against me.'

"I am sure, you are already clean from your period, right?" Long Hui asked the same question with a seductive smile.

Yu Qi hypnotized by the smile, nodded.

### **Chapter 1289: Went to Get The Stone Supply**

Because HuiQi Jade Store would open another branch in another city, Yu Qi decided to go to get another jade supply. She had heard another city that could supply jade which Cotiang City.

It would take 4 hours of driving if she wanted to go there. So, she decided to take a flight that only took 45 minutes. It would save her time.

Long Hui wanted to tag along. He did not have any important tasks at the moment.

Yu Qi was delighted to have Long Hui accompany her. It could be considered as a date.

So, earlier in the morning, they went to the airport. Long Hui told Yu Qi to stay at the waiting lounge when he went to settle the permit for their private jet to take off.

Even though it was morning, there were already people in the waiting lounge, probably waiting for their flight. Yu Qi took a seat and waited.

While Yu Qi was waiting and reading the research document that is sent to her email, a group of white people came toward her. They stopped in front of her. Yu Qi looked up in confusion.

"Hey, girl, are you alone? Want to hang out with me?" One of them spoke English to Yu Qi.

"Thomas, do you think she would understand you? She is a local person. She probably could not speak English." Charles, one of them said to Thomas while laughing.

"Yeah, usually local people don't speak English. That is why we study their language to have a holiday here." Mark added.

"Excuse me, I don't know which century you refer to. Our people can speak and understand simple English. Can you try not to assume our local people stupid?" Yu Qi directly replied in their accent.

The group of white people seemed to be shocked when Yu Qi spoke to them in their accents. They were from the UK.

"You have been to our country?" Thomas asked.

"No. Can you please leave me alone? I am waiting for someone." Yu Qi said.

"Just ditch that person. Let's hang out together. I am sure we will be happy if you can be our tour guide." Charles looked up and down, lewdly at Yu Qi.

Yu Qi frowned. "No."

"We are your foreign friends. You should take care of us." Charles added.

"If you are my friend, I will consider it. But you are not. So, please leave me alone." Yu Qi rejected again.

"Don't be so cold." Charles was about to grab Yu Qi's hand but someone grabbed his hand first.

"Who?" Charles turned around and saw another local person.

It was a man. However, this man looked at Charles as if he was about to kill him. Charles quickly got away from the man's grip.

"Who are you?" Charles asked.

While still looking with the same expression at Charles, Long Hui answered. "None of your business." He then turned at Yu Qi. "Are you okay?"

Yu Qi nodded.

"We talk to this girl first. First come first serve." Charles did not want to give up.

"That's enough. Let's go." Thomas did not want to cause any problem here. They just wanted to enjoy their vacation.

"First come first serve? Do you think you are in the restaurant?" Yu Qi snapped.

Yu Qi's body gave off a murderous aura. The white men stepped back.

"Qi Qi... our private jet is ready to take off. Let's go." Long Hui said calming down Yu Qi at that moment.

"This is my fiancée, for your information." Long Hui said to the men.

When the white men heard that, they felt stupid. First come first serve? Bullshit.

Without waiting any respond from the white men, Long Hui and Yu Qi walked away.

"Why do you need to say something like that?" Mark looked at Charles.

"Well, I just.." Charles did not know what to say.

"I know you can't take your eyes when seeing a beautiful woman. But we are at the foreign country. You should hold yourself." Mark added.

"But seriously, that man is intimidated. He looked like a killer in the movie." Thomas said.

"Enough about that. Let's go. We need to catch our flight. It is almost time." Mark said.

They were at the waiting lounge to wait for their flight. They were transit here.

When they were about to enter the flight, we could see the earlier couple. They could see the couple being escorted to another route. Then they watched them entering a private jet.

Now, they knew that the couple were not a normal person. The couple were probably rich people or someone who had status in government because not many people could own the private jet like that.

"Do you think I will be safe having my holiday here?" Charles asked in nervous.

"I think they would not care about us." Mark said.

It was the same as Mark said. Yu Qi and Long Hui did not have time to care about them.

"Qi Qi, you should sleep first. You return home late yesterday." Long Hui said.

He asked for a blanket from the flight attendant.

The reason why she returned home late because she had an emergency surgery. The surgery completed on 2 a.m.

"I will wake you up when we arrive." Long Hui put the blanket on Yu Qi. "Or do you prefer sleep on the bed?"

"No. It is fine. Remember to wake me, okay?" Yu Qi rejected the idea.

"Okay... sleep well, my love."

#### **Chapter 1290: Buying The Stone**

As promised, Long Hui woke Yu Qi up right after they touch down. He knew that Yu Qi had a schedule to rush to.

The weather in Cotiang City was not bad. Just nice. Not too hot. It was perfect to have a date. They rented a car

However, they would go to the Stone District first to buy the material. Since it was still earlier in the morning and the stores were just opened, there were not many people around.

Yu Qi entered the first store. The shopkeeper welcomed them.

"May I help you, my guests?" The shopkeeper asked.

"I want to see buy some stones. Can I look around?" Yu Qi asked.

"Sure... Sure... Just take a look. If you need my help, just call me over." The shopkeeper nodded and left the couple on their own.

Without waiting any longer, Yu Qi began to look at the stones and scanned each one of the stones.

There were a lot of stones that had jade inside them. Yu Qi asked for a cart to pick up the stones.

The shopkeeper was dumbfounded when Yu Qi asked for the cart. Then he could see that Yu Qi picked up the stones like she picked up the bag of chips.

"Young lady, you should pick the stone very carefully. Not like that." A middle-aged man commented when seeing Yu Qi being like that.

"Yeah. Otherwise, you will end up with worthless stones." Another one commented. This time, it was a young man.

Yu Qi turned to the two men. The young man's eyes flashed when seeing a beautiful woman.

"If you want, I can help you choose the stones." The young man offered his help.

"It's okay. Thank you for your offer but I don't need it." Yu Qi rejected it.

Long Hui got closer to Yu Qi. Then the young man glared at Long Hui.

"Master Tiang, Mr. Mong, welcome... welcome..." The shopkeeper welcomed the guests.

It seemed these two men were the regular here judging from the shopkeeper's reaction.

"I will try to buy some stones here." Master Tiang said.

"Sure... sure... Be my guest." The shopkeeper said.

Yu Qi and Long Hui did not care much about them. And started to pick up the stones again.

Master Tiang looked at the couple again and shook his head. It seemed that the couple did not listen to him. Well, not like he cares about them.

However, the man who was called Mr. Mong still wanted to disturb the couple. He approached the couple.

"Miss, if you pick the stones like that, you will have a loss. I can help you." Mr. Mong said again to get Yu Qi's attention.

"As we said before, we don't need your help. Please leave us alone." This time, it was Long Hui who rejected him.

"I just want to help the lady." Mr. Mong did not give up.

"Mister, I already tell you that we don't need your help." Yu Qi was displeased when this man seemed to be unable to understand what they wanted. Her tone showed her emotion.

Yu Qi picked about 5 stones again. Then she said to Long Hui. "Let's go. I think it is enough."

She already collected all of the stones that she wanted. All of them had high-class jade. She only left the low-class jade.

She told the shopkeeper that she wanted to purchase all of the stones that she picked up. Long Hui wanted to pay. But Yu Qi firmly rejected him saying that it was for their HuiQi Jade Store. She already had budgeted for purchasing materials.

Since it was the case, Long Hui stopped offering to pay.

"Are you sure you want to purchase these stones?" The shopkeeper was surprised.

"Yes." Yu Qi nodded. "Is there something wrong with it?"

"No... no... it is okay." The shopkeeper shook his head.

He was just so surprised seeing the couple bought such an amount of stones. It could be estimated at 1 million or more than that.

The shopkeeper quickly processed the purchase. As he estimated earlier, the price exceed 1 million. It was 2.5 million.

Yu Qi took out her card. "Swipe this card."

Mr. Mong took at the card. It was a platinum card. Even though he was a rich man, he could not own the platinum card. It seemed this young lady was from a super rich family. He was eager to be her friend.

The shopkeeper swiped the card. The payment was successful.

"Do you want to cut open the stone, Miss?" The shopkeeper asked.

"No. I will cut them open myself." Yu Qi said.

"I see. I understand." The shopkeeper nodded.

"By the way, can you keep the stone for us? We need to go something else first. We will collect the stones later." Long Hui said.

"Sure... Sure... I will keep the stones safe first." The shopkeeper did not mind doing so because they were his big customer. He asked the men to store the stones in the basement first.

Yu Qi and Long Hui left the store and went to another stone. They noticed that Mr. Mong followed them too. It assumed a pest wanted to disturb their time alone.

In the next store, its shopkeeper only welcome Mr. Mong and ignored Yu Qi and Long Hui perfectly.

"Mr Mong, welcome... welcome... it is an honor to have you coming to our store." The shopkeeper welcomed Mr. Mong greatly.
