

Intelligent 1381

1381 Chapter 1381

"Well, a week ago, the man, he is called Mr. Wang came and stayed at our ryokan for about 3 days. We served him like we serve other guests. However, he came back two days ago telling us that he wanted to buy the place. I told him repeatedly that we are not selling the place but he did not listen to me." Chui Mei Fung sighed.

"Do you know who he is?" Yu Qi asked.

"I don't. I have never seen him before." Chui Mei Fung shook her head.

"Never mind. I will investigate him. You just need to pay attention to the surrounding. Never let him play us." Yu Qi looked at Chui Mei Fung with a serious look.

Chui Mei Fung got what Yu Qi meant by that. She would ask the staff to pay more attention too.

"Since you are here, let me report to you about the finance." Chui Mei Fung stated.

Usually, she would send the report to Yu Qi by email. Since Yu Qi was here, she would brief the report to Yu Qi.

"Sure." Yu Qi nodded.

Long Hui stayed seated inside while Chui Mei Fung reported to Yu Qi. However, he did not pay much attention to what Chui Mei Fung said to Yu Qi. He just observed Yu Qi. Yu Qi in working mode was quite a blessing in his eyes.

Leaving the Saisei Ryokan, Yu Qi immediately got in touch with Shiro, the hacker that she hired before.

Q: Hey.

Shiro: What's up?

Q: I need you to look up someone.

Shiro: Sure. But why don't you do it yourself?

Q: I am kind of busy. I will send the picture. He goes by the name Wang. I don't know whether it is his last name or surname.

Shiro: Okay... I will check and give the result to you as soon as possible.

Q: Great.

The conversation ended with Yu Qi sending a picture of MMrWang that she got from the camera set up in Chui Mei Fung's room for safety reasons. Never know it would be convenient like this.

"I wonder who the mastermind behind that man is." Yu Qi snorted.

"You will know later. Do you need my help?" Long Hui asked.

"Not for now. I will ask your help if I can't settle it myself." Yu Qi looked at Long Hui.

They walked home. Arriving home, they saw Uncle Song Nan and Song Bin.

"Miss Tang, Mr. Long..." Song Bin greeted Yu Qi and Long Hui.

Song Bin seemed to have greater respect when he greeted Long Hui. He admired the soldier. When his uncle told him about Long Hui, he admired Long Hui even more. Becoming a high-ranking soldier at a young age was something that one could be proud of. He also wanted to be someone like Long Hui.

"Call me Sister Yu Qi and him, Brother Hui." Yu Qi said.

"Yes, Sister Yu Qi, Brother Hui." Song Bin corrected the calling.

"When will you are going back?" Uncle Song Nan asked.

"We will be going around 5 p.m. Song Bin, have you finished packing?" Yu Qi answered Uncle Song Nan's question first, then turned to ask Song Bin.

"Yes." Song Bin nodded.

"Have you talked about the transfer to his parent?" Long Hui asked.

Hearing this question made Song Bin's face pale. His parent did not think well of him. They did not care about him at all. Because they already had a perfect son. Smart and strong. Unlike him, he had a weak personality and did not smart either.

Song Bin could not stand it anymore when his parent completely ignored him. At first, they did not talk to him. Not until they did not even prepare a meal for him. He was starving for almost a week.

Then, Song Tao and Uncle Song Nan came to visit his home. His parent and his brother greeted them. Song Tao asked for Song Bin.

Seeing a strange look on his parent and brother, Song Tao decided to take action and went to find Song Bin. Song Bin was in an empty room without anything inside, laying down. His body was very thin. They almost could see the bone's lines.

Song Tao ignored Song Bin's parents, lifted Song Bin, and rushed them to the hospital. After that, Uncle Song Nan took care of Song Bin. He became the legal guardian of Song Bin

Yu Qi noticed the change.

"His parent already gave me custody. I will be his legal guardian." Uncle Song Nan said.

"I see. Okay, then." Yu Qi did not probe much about that. "Uncle Song Nan, let's go to FINN City too. Grandpa will be happy to see you."

"Me? Go to FINN City?" Uncle Song Nan could not imagine himself.

"Yes. You don't have things to do here anymore. The garden that you should take care of here is already being destroyed by those teenagers." Yu Qi said.

"But..." Uncle Song Nan was reluctant to leave Shiwa Town.

"Okay. I will not force you to leave and stay over there." Yu Qi did not want to force Uncle Song Nan.

"It is better for Song Bin to have someone that he is familiar with when registering for the military school." Long Hui said.

Song Bin looked at his uncle. Under his nephew's eyes, Uncle Song Nan agreed to accompany to send Song Bin to military school.

1383 Chapter 1383

"Hate you? Of course, I hate men like you. Playing with women's feelings. Tell me, do you even have a tiny love feeling for those women before?" Yu Qi looked at Bai Yu.

Receiving such a look made Bai Yu dazed. Those women, he did not have any feelings toward them. They also did not love him but loved his status and money.

"Those women just like my money and status. How could I love such women?" Bai Yu mumbled.

"See? That is why I hate men like you. You like to play with women like that. You saw women as your plaything." Yu Qi argued.

"I know that. But I love you. I know it after meeting you." Bai Yu let out.

"Humph... Love me? You are just telling me that because you just want to have my body. After you get what you want, you will toss it away. Please... Stop talking about you love me." Yu Qi snorted.

Bai Yu wanted to say something again. But Yu Qi already did not want to hear the bullshit from Bai Yu.

"Here is your prescription. You can leave now. Otherwise, I will call someone to escort you out. You choose." Yu Qi pushed the paper again when Bai Yu did not pick up it earlier.

Bai Yu took the paper. He wanted to stay here but having someone to escort him out would be embarrassing. So, he left the room.

Yu Qi sighed. She looked at the time. It was about time to finish her work here. She would need to go to Tiantang Research Center.

Yu Qi cleaned up the things and took her bag. While locking the door, she was greeted by a group of doctors.

"Doctor Yu Qi." A doctor called Yu Qi's name.

"Yes? Is there anything?" Yu Qi asked them.

"Hmm... We would like to shadow you on your next surgeries. Can we?" The doctor asked.

"Hmm... You can but please take turns. Only two places on each surgery. Discuss among yourself." Yu Qi said.

The operation theatre could not be overcrowded. Of course, they could not join the surgery at once. So, it was better to take turns.

"Thank you, Doctor Yu Qi. Are you finished for today?" The doctor asked.

"Yeah. I need to go to Tiantang Research Center later." Yu Qi told them her plan.

"Oh, we waste your time. We are sorry. Once again, thank you for the opportunity." The doctor said.

Once he finished his words, all of the doctors bowed to Yu Qi and left.

Yu Qi who left behind chuckled. When she thought about that again, she felt like she was a mafia boss or something like that. This incident made Yu Qi forget about Bai Yu earlier.

She walked to Tiantang Research Center. It was not far from Tang Private Hospital. Once arriving there, she showed her ID card to the security guards. The security guards were confirming her identity and allowed her to enter.

When she was at the entrance, she placed her hand to scan her fingerprint. While there, the system scanned her retina and heart. The system confirmed her identity and the door automatically opened.

"Master, you are back. I miss you so much." Neko-chan greeted Yu Qi.

"How have you been?" Yu Qi asked.

"I am fine... But it is lonely without you." Neko-chan said with a sad tone.

"Lonely? You have other people to talk with." Yu Qi allowed Neko-chan to get along with other researchers.

"No, one could follow up with my intelligence." Neko-chan sighed.

Yu Qi raised her eyebrows. It seemed Neko-chan developed such a character. Well, Yu Qi did not think it was a bad thing. If Neko-chan did not do something that she considered bad, then it was fine.

Yu Qi went to her room. Her research had been put off for a while in order for her to go and celebrate Great-Grandpa Dian's birthday.

"Neko-chan, I will restart my research. Remind me when the time is 9 p.m." Yu Qi told Neko-chan.

"Yes, Master..." Neko-chan said.

On the screen, Neko-chan appeared and put on her headphone on her ear. She began to select the drama that she wanted to watch.

Lately, she was hooked on watching k-dramas. She chose the drama Alchemy of Souls. Yu Qi glanced at Neko-chan and was speechless. She created an AI who liked to watch dramas.

"Is the drama fun?" Yu Qi asked.

"Yeah. Human is very creative. They could create a lot of interesting stories. I have been watching a lot of them." Neko-chan grinned.

'I can Hear Your Voice, My Love From The Star, The Girl Who Can See The Scents... You can name the title, she watched a lot. She also watched the political drama.

Yu Qi began working on her research. This time, it was research about blood cancer. She wanted to research the cure using herbs. She completely forgot about time. She learned a lot from them.

-n0ve1、 com "Master.... master... It is already 9 p.m. 9 p.m." Neko-chan pulled out Yu Qi.

Yu Qi heard the voice and looked at the watch. It was 9 p.m. already. Her eyes narrowed. It was about time.

She stopped doing research. Well, it was nothing left. She already prepared the sample. It needed to be left for 12 hours in the incubator.

"Neko-chan, let's play. I will show it to you." Yu Qi said.

Hearing the word let's play, Neko-chan stopped watching the drama. Her master invited her to play. Of course, she would follow her master.

1384 Chapter 1384

"Master, I am ready to play." Neko-chan's eyes looked at Yu Qi with excitement.

"Sit beside me. I will show a good thing to play." Yu Qi grinned.

"Okay." Neko-chan followed her master's order and sat beside her.

Yu Qi started to type something on the screen. Since Bai Cooperation wanted to reach their claws on her thing, she would touch their thing too.

Wang Qui was indeed working with a Japanese hotel. However, Bai Cooperation had some share in that Japanese hotel. Bai Cooperation told Wang Qui about Saisei Ryokan.

Since Saisei Ryokan's concept was based on Japanese culture, the owner became interested in Saisei Ryokan. He sent Wang Qui to see the hotel.

Wang Qui was impressed with Saisei Ryokan during his stay. He immediately informed the owner about that. The owner told Wang Qui to buy Saisei Ryokan.

The Japanese Hotel that Wang Qui worked with was Mizukami Hotel. It was a quite famous hotel that had branches around Japan. The owner probably wanted to change Saisei Ryokan into his own.

"Master, are you hacking into someone's system?" Neko-chan was an AI, she knew what her master was trying to do right now.

"Yes." Yu Qi nodded.

"But is that a wrong thing to do?" Neko-chan asked again.

"If someone decides to delete the K-dramas that you download, are you angry?" Yu Qi took a different approach to explain to Neko-chan about the matter.

"Of course, I am angry." Neko-chan showed an angry emoji on her screen.

"This person wants to touch my thing. I hack into his system to teach him some lessons that he should not touch someone's belongings." Yu Qi said.

"Owh... I see... Master, let me help you." Neko-chan offered her help.

"Good. Let's play together." Yu Qi nodded.

....

The technician personnel sat and talked while eating some snacks. Then, an alarm was ringing indicating some intruders wanted to enter their system.

They threw away the snack and started focusing their attention on the computer. After the last invasion, the technician personnel tried to block the intruders.

"Call our head right now."

"Hurry up."

One of them began to call the head of the technician.

"Why do you suddenly call me in the middle of the night?" The head of the technicians was angry when the call disturbed his sleep.

"Sir, our system has been intruded on by someone. Please come. We can't handle it." The technician personnel cried out loud.

The head of the technician who was feeling sleepy stood up immediately.

"Okay... I will go there." The head of the technician said.

His wife who had been sleeping woke up when there was a sudden move from her husband.

"What happens?" His wife asked.

"There is a problem at the office. I need to go right now." The head of the technician said.

"Can you wait until the morning?" His wife asked again.

"No. If I wait until morning? I might lose my job." The head of the technician said.

He quickly changed his clothes, rushing out to the office. It was chaos in the office. His subordinates were working hard to stop the intruder.

He pushed one of them away and took his place. He began to type. He tried to create a chat with the hacker and it succeed.

"Hi. Are you Q?"

Q: Oh, you are quite excellent at trying to contact me in the middle of this.

The head of the technicians quickly typed.

'Sir Q, please stop attacking our system and tell me what you want.'

The head of the technicians waited for Q to reply.

Q: Hmm... Because I bored?

The head of the technicians felt like he wanted to punch someone. Because he was bored, he hacked into their system? What the fuck?

Q: Well... Of course not... Your Bai Cooperation is the one who starts all of this. I just retaliate.

The head of the technician frowned as he read that. His subordinates also read the message.

"Head, what does he mean?" One of the technicians asked.

How could the Head of the technicians answer that? He also did not know about this. However, it could not be continued. The head of the technician typed again.

'Well, Sir Q, you can discuss it with us if you have something to say. You can't just attack us like this.'

Q: I will hack you. What can you say?

NC: Yes... yes... What can you say... Ha ha ha...

They looked at the screen. 'NC? There was another one? They are together? Q was already difficult to deal with. Now, we had another one.'

"Call Director Mu Chin right now." The head of the technician made the decision.

He could not handle this. He needed upper management to help him.

"Meanwhile, try to trace their IP address." The head of the technician made another order.

My Chin was also in dream land and woke up when a call disturbed his sleep. He could see the number was from his office.

He stood up and got out of bed, walking out of the bedroom and answering the call.

"What do you want?" Mu Chin asked.

"Director Mu, Q is attacking our system again." The man said.

Hearing the name 'Q', Mu Chin completely woke up. "What do you just say?"

"Q is attacking our system again. Our people are currently trying to fight with him. But I don't think we can counter him completely." The man said.

1385 Chapter 1385

"What? That bastard appear again?" Mu Chin gritted his teeth.

He could not forget the bastard who embarrassed him in front of President Bai.

"How are things?" Mu Chin asked.

"It's getting worse. Not only Q appears. It seems he brings his friend too." The man informed Mu Chin.

"What? I will go to the office now." Mu Chin ended the call.

His wife woke up and saw her husband getting ready to go out. "What happens?"

"Something happens at the office. I need to go. You can go back to sleep." Mu Chin said.

"Okay." His wife nodded.

Mu Chin drove to the office. It was already late at night. So, there were fewer cars on the road. He rushed straight to the technician department.

"Director Mu." The head of the technician greeted Mu Chin.

"How is the situation?" Mu Chin asked.

"I already communicate with Q. What can I conclude from the conversation, it seems our side poked their side first." The head of the technician said.

Mu Chin frowned. 'We provoke them first? But I don't remember provoking such an opponent.'

"Sir, he has stolen our money. 10 million." The subordinate shouted.

Both Mu Chin and the head of the technicians quickly turned to the screen. The head of the technician sat down again and typed something.

'Sir, please don't be like this.'

Q: You should know not to provoke me.

NC: You guys are very weak. I don't feel fun playing with you guys.

Another message popped out. It sounded very childish but they knew this guy was more capable to defeat them.

"Ask him, can we know what thing makes him think that we provoke him?" Mu Chin voiced.

The head of the technicians nodded and began to type.

'Can you tell us what thing makes you so angry with us?'

They waited for the answer.

Q: I think your big boss knows about this.

NC: You should ask them.

Q: I will leave first. Enjoy my present.

NC: Bye, you loser.

"Director Mu, they leave a virus again. I will try to counter it." The head of the technician said while typing so fast at the keyboard. Without looking at his subordinates, he shouted. "You guys, help me too."

The people began to work their butts off. Sometimes the curse and swearing could be heard, they were from those people. The virus that Q left was slightly the same as the one that he left but it was an improved version.

They worked on defeating the virus for about 3 hours. After succeeding, all of them were not so happy about that. It was because a lot of data in their system was destroyed in the process.

It might get them to be scolded by their big boss. It might cost their salary to be deducted. It was 4 a.m. They were tired and sleepy but they could not sleep thinking about the consequence that they might face this morning.

"Director Mu, we already destroyed the virus but a lot of data was also destroyed too." The head of the technicians reported everything to Mu Chin.

Mu Chin could not be angry about that. He watched how hard his subordinates worked earlier.

"Don't worry. I will talk to upper management later. You better rest for now. We need to work tomorrow." Mu Chin said.

....

"Master, they are so weak," Neko-chan commented.

"Hmm..." Yu Qi just acknowledged that.

"Why do you need to play with them?" Neko-chan asked while tilting her head.

"Because they want to touch what's mine. So, I need to play hard with them." Yu Qi explained.

"I see. When people want to touch what's mine, I need to play hard with them. I understand, Master. I learn something today." Neko-chan nodded.

Since it was already late, Yu Qi decided to stay at Tiantang Research Center. She would go to the hospital from here. She would take a nap for now. She told Neko-chan to wake up her at 6 p.m.

At 6 p.m., Neko-chan woke up her master. Yu Qi was very sleepy fighting to wake up. Yu Qi washed her face and brushed her teeth. She changed her clothes to sport attire and entered the space. She went jogging.

Shino and Aoi were left at Tang Residence. Only Bo Ya was there. He accompanied Yu Qi. After jogging for one hour, she made breakfast, ate, and left the space, preparing to go to the hospital.

When she came out of the room, she saw Dian Shu Xian.

"Brother Shu Xian." Yu Qi called him. "You are early."

"And you don't return home last night?" Dian Shu Xian guessed.

Yu Qi just grinned. "He he he... I have work to do here. I don't have any scheduled surgery for today. So, I will be here again in the afternoon."

"Hmm..." Dian Shu Xian nodded.

"I will leave here. Bye." Yu Qi rushed over when she looked at the time.

Yu Qi arrived at the hospital 10 minutes later.

"Doctor Yu Qi." The nurse shouted.

"What is going on?" Yu Qi could see the nurse was desperate.

"There is a patient who wants to meet with you." The nurse said.

"Which room? I will go after putting my bag." Yu Qi said.

"Room V-29." The nurse said.

Room V-29 was a VVIP room. There were 30 VVIP rooms altogether. Only people with status and money could stay in those VVIP rooms since it was expensive.

1386 Chapter 1386

"Hurry up, Doctor Yu Qi." The nurse said.

Yu Qi rushed to her room, put on her white coat, and went to Room V-29. She knocked on the door and entered the room. When she entered the room, there was another doctor and nurse, two men and women, and the patient who lay on the bed.

"What? Who are you? How can you enter without getting our permission?" It was a middle-aged woman who said that.

Then it continued with the young woman. "This is the VVIP room. You should not be here. Oh, I see. You probably want to test your luck here since it is a VVIP room." It was a very sarcastic way to speak to others.

"Doctor Yu Qi." The doctor and nurse greeted Yu Qi.

"Wait, she is Doctor Yu Qi? Are you serious?" The young woman was shocked, looking at Yu Qi.

"How can she is Doctor Yu Qi? She is so young." The middle-aged woman said.

"Sirs, madams, miss, she is indeed our Doctor Yu Qi." The doctor confirmed Yu Qi's identity.

"Two you, just shut up." A middle-aged man said to two women. He then turned to Yu Qi. "Doctor Yu Qi, I am Wong Nanyi. I am sorry for my wife and daughter's rudeness. The patient is my 60-year-old father."

"Hmm... Never mind about that. Why do you call me here?" Yu Qi did not want to waste her time here.

"I want your help. Please take a look at my father." The middle-aged man said with respect.

"Sure. Step aside." Yu Qi said while walking toward the patient.

People around stepped backward. The patient was conscious.

"Hi, Sir. I am Doctor Tang Yu Qi. I will diagnose you right now, okay." Yu Qi smiled.

The old man nodded weakly. He felt warm when he looked at the smile.

Yu Qi began to take his pulse reading. Everyone just watched it but the young woman whispered.

"Huh? What kind of technique is that? Is she really a qualified doctor?"

Even though her voice is very low, people still could hear that.

"Wong Suhe!" Wong Nanyi looked at his daughter.

Wong Suhe hid behind her mother.

"Doctor Yu Qi, I am sorry." Wong Nanyi apologized once again on his daughter's behalf.

-n0ve1、 com Wong Nanyi was really afraid that Yu Qi felt offended and did not want to treat his father. His father had suffered for a long time. He also visited several doctors before but still had no promising results.

Then he came across Doctor Yu Qi. He read the information about her before deciding to come and meet Doctor Yu Qi.

"If I hear once again, I will not tolerate this rudeness." Yu Qi said without looking at Wong Suhe.

Wong Suhe wanted to respond but her eyes met her father's eyes. She immediately closed her mouth.

Yu Qi focused on the old man's pulse again. Her expression changed once she realized something.

"How long he has been in this situation?" Yu Qi asked.

"Two years ago. It happened so suddenly. We had been seeing doctors everywhere but still no result. The doctors could not detect what happened to my father." Wong Nanyi said.

"I see. He must have someone who hates him so much." Yu Qi commented.

"Doctor Yu Qi, what do you mean by that?" Wong Nanyi asked.

"He had been poisoned. The poison that did not kill you but can make you suffer a lot until you died." Yu Qi explained.

Wong's Family was startled to hear the words that came out of Yu Qi's mouth. 'Poison? By who?' However, Wong Nanyi pushed the matter behind. It was not important at the moment. The most important right now was whether Doctor Yu Qi could heal his father.

"Doctor Yu Qi, can you heal my father?" Wong Nanyi really hoped the answer would not be disappointing.

"Yes. It is very complicated." Yu Qi said.

Hearing the positive answer from Doctor Yu Qi made Wong Nanyi and his family really happy.

"How complicated is it?" Wong Nanyi asked.

"He will need three months of treatment. He will need to drink the prescription drug. You can not make him drink other drugs at all. I will supervise that. And I also have one condition." Yu Qi looked at Wong Nanyi.

"What is this? We will fulfill your request." Wong Nanyi did not think Doctor Yu Qi would request something weird.

"When I treat your father, your wife and daughter can't be in the room." Yu Qi said.

"What? Why?" Wong Nanyi's wife, Cai Ying asked.

"Yeah. We have the right to be here." Wong Suhe also protested.

"I don't want to be disturbed especially by you two." Yu Qi did not look at Cai Ying and Wong Suhe but at Wong Nanyi.

"Okay. I will make sure they will not be here when you treat my father." Wong Nanyi nodded.

"Dear."

"Dad."

Cai Ying and Wong Suhe looked at Wong Nanyi.

"You are here is not helping at all. So, there is no point for you two to be here. Or you don't want Father to be cured?" Wong Nanyi glared at them.

That made them quiet.

"When can you start the treatment, Doctor Yu Qi?" Wong Nanyi asked.

"In two days." Yu Qi wrote something on her iPad.

"Why don't you start right now? I thought you are a powerful doctor." Wong Suhe snorted.

"Miss Wong, I need preparation to do before treating your grandfather." Yu Qi replied.

1387 Chapter 1387

"Just..." Wong Suhe wanted to reply again.

"Wong Suhe, it's enough." Wong Nanyi's son, Wong Mubai said something for the first time.

Unlike her father, Wong Suhe was very scared of her step-brother.

"Doctor Yu Qi, thank you." Wong Nanyi bowed.

pAn,Da n<0,>v,e1 Yu Qi nodded and left the room. Another doctor and nurse also followed Yu Qi.

"Doctor Yu Qi, may I watch the treatment too?' The doctor asked carefully.

"Sure. I will be treating him in the morning. Around 10 a.m." Yu Qi nodded. She turned to the nurse.

"Please inform the management about this. Don't make the schedule overlap."

"Yes, Doctor Yu Qi." The nurse nodded.

Yu Qi went to the room. The poison in Old Man Wang's body was an old poison that was created from poisonous herbs. Yu Qi came across the poison when she studies the herbs. Combination herbs could create poison. However, one of the herbs was very hard to find.

As Yu Qi said earlier, this poison would not kill the person. It would attack the immune system making the body weaker over time. When that person had an illness such as fever or cough, it could not be healed normally.

Old Man Wang had the poison in his body for almost two years. Old age made the poison attack the body more viciously. However, the poison could be cured. Just, it would take some time since the poison had stayed in Old Man Wang's body for a long time.

Yu Qi needed to prepare the herbs. The herbs that she needed were in YQ Greenhouse. She would ask Song Tao to pack the herbs and send them to her every day. Shiwa Town was not far from FINN City. So, it would be great to have fresh herbs.

After finishing all of her work at the hospital, Yu Qi went back to Tiantang Research Center to continue her experiment.

.....

After last night's chaos, Mu Chin went to report to Bai Shui Jin about the incident. Bai Shui Jin did not expect to have another hacking attack. He was even surprised that the culprit told them that their side had provoked him first.

"So, you don't know when we provoke him?" Bai Shui Jin asked.

"We asked him and he told us to ask the upper management." Mu Chin answered carefully.

Bai Shui Jin went silent when hearing the answer from Mu Chin. 'Did we really provoke Q?' Bai Shui Jin really did not know about that.

"Almost 55% of the data were destroyed and 10 million had been stolen." Mu Chin said.

"What?" Bai Shui Jin stood up.

Mu Chin lowered his head.

"Did you tell me that 10 million had been stolen by that hacker?" Bai Shui Jin asked Mu Chin once again for confirmation.

"Yes." Mu Chin slowly nodded.

Last time, Q stole the information for the projects that they wanted to bid on. Their company would not win the projects. Their rival just lowered the price by 10 dollars from theirs price and they won the project.

Now, that hacker blatantly stole the 10 million from their company. Even though it was only 10 million but it was money. If Q could steal 10 million, meaning he could easily steal from them.

It was a serious matter. He needed to discuss with his father what to do next. So, he dismissed Mu Chin and went to his father's office.

"Is President Bai inside?" Bai Shui Jin asked the secretary outside his father's office.

Bai Xia Feng also told his sons to call him President Bai in front of everyone when they were at the office.

"President Bai has a guest." The secretary answered.

"How long that the guest has been inside?" Bai Shui Jin asked again.

"Hmm... About 45 minutes." The secretary answered after looking at the time.

Bai Shui Jin looked at the door. His father probably had a business deal that he needed to discuss with the guest. It might take a long time.

"Inform me after the guest leaves." Bai Shui Jin told the secretary.

"Yes, Vice President." The secretary nodded.

In the President's room, Bai Xia Feng was meeting with Wang Qui. Yes, the person who wanted to buy Saisei Ryokan.

"Did you manage to get Saisei Ryokan's owner to sell Saisei Ryokan?" Bai Xia Feng asked.

Wang Qui smiled. "Not yet... I am trying but I think it will be hard." He calmly picked up his tea and drank it.

"Why is that?" Bai Xia Feng raised his eyebrows.

"I meet the owner. It is a young woman. She seems a tough one." Wang Qui recalled the memory of meeting with Yu Qi.

"She is indeed an excellent woman but she is still young." Bai Xia Feng commented. He seriously looked down on Yu Qi.

Wang Qui did not say anything about that. He talked to Yu Qi earlier. Yu Qi's aura was not someone who was naive or something like that. She was strong and confident.

"Have you met her?" Wang Qui asked.

"No." Bai Xia Feng shook his head.

Bai Xia Feng did not think highly of Yu Qi as a businesswoman but she was surely enough to be married into his family as his daughter-in-law.

"I will try to get her to sell the property. I really want to buy the hotel. Lately, a lot of people like to go to that kind of hotel." Wang Qui still wanted to buy that hotel.

His boss also did not want to give up on buying the hotel.

"Great. I will wait on hearing about your success." Bai Xia Feng nodded.

1388 Chapter 1388

Yu Qi told Grandpa Tang about the poison. Grandpa Tang became interested to know more about the poison. So, he decided to join Yu Qi in Old Man Wong's treatment.

Wong Nanyi and his family were waiting for Yu Qi to come on the promised day. When he saw the old man who walked beside Yu Qi, he was shocked.

In order to heal his father, he investigated all of the famous doctors. Tang Jiang Man knows as the legendary doctor. He used his connection to contact the legendary doctor but it did not go through.

The person he asked to contact the legendary doctor told him that the legendary doctor already retired from the medical world. But now the legendary doctor was standing in front of him.

"Grandpa, this is Mr. Wong, son of the patient and his family." Yu Qi introduced them to her grandfather.

Grandpa Tang reached out his hand to shake his hand with Wong Nanyi. Wong Nanyi quickly shook his hand with Grandpa Tang.

"I am here just to observe my granddaughter's work." Grandpa Tang told his intention.

Wong Suhe frowned. She knew this old man. He was the legendary doctor. He was a much more suitable doctor to treat her grandfather.

"Dad, why don't you ask this man to treat grandpa? He is much more reliable than this woman." Wong Suhe said to her father.

Hearing this, not only did Wong Nanyi frown, but even Grandpa Tang also disliked hearing that. Cui Ying noticed that and pulled Wong Suhe's hand.

"Suhe, stop saying something like that." Cui Ying reprimanded Wong Suhe.

"But..." Wong Suhe still wanted to say more.

"Miss Wong, I teach everything I know to my granddaughter. Now, she suppresses me. Do you want your grandpa to be cured or not?" Grandpa Tang threw a question to Wong Suhe.

"Of course I do." Wong Suhe said.

"Then shut up and let my granddaughter do it." Grandpa Tang scolded Wong Suhe.

"Please come in Doctor Yu Qi, Master Tang." Wong Nanyi said, telling them to enter the room first. Then, he turned to Cui Ying and Wong Suhe. "You two, stay outside. Don't come inside. Cui Ying, take care of your daughter."

Wong Suhe still thought she needed to argue back but her mother pulled her hand and looked at her while shaking her head. Wong Nanyi saw that and did not say anything before entering the room and closing the door.

Wong Suhe felt very wronged. She also just wanted the best for her grandfather. That's all.

Inside the room, Yu Qi looked at Old Man Wong. His condition was very the same. Yu Qi took out the medicine that she already prepared. Song Tao sent someone to deliver the herb by hand. Yu Qi appreciated that very much.

Grandpa Tang was interested in the poison. He even followed Yu Qi when Yu Qi made the medicine.

Yu Qi asked the nurse to help Old Man Wong drink the medicine. Old Man Wong cooperated very well with the nurse. He finished drinking the medicine.

Suddenly, Old Man Wong vomited some blood. His clothes became dirty due to his blood. Seeing this, Wong Nanyi immediately approached his father.

"Father!" Wong Nanyi shouted.

It was very loud even Cui Ying and Wong Suhe who had been outside could hear that. They immediately entered the room and watched this.

"Father."

"Grandpa."

Wong Suhe turned to Yu Qi. "You witch. You are trying my grandfather. I will sue you." She told Yu Qi in anger.

"Stupid." Yu Qi said.

"Doctor Yu Qi..." Wong Nanyi wanted to say something.

"Step aside." Yu Qi told them.

They did not move, wanting to protect Old Man Wong from Yu Qi.

"Mr. Wong, this is part of the treatment. Please cooperate with me. However, if you insist, then there is nothing for me to do. I will stop the treatment here." Yu Qi was not a kindhearted person. She still had many things to do.

Wong Nanyi felt complicated. He had searched for a way to cure his father for such a long time.

"Please help my father." Wong Nanyi stepped away, giving way to Yu Qi.

"Dad!" Wong Suhe shouted.

"Before that, please tell them to get out of the room." Yu Qi looked at Cui Ying and Wong Suhe.

Wong Nanyi told both of them to get out. Cui Ying quickly pulled her daughter's hand.

"Every time, I do my treatment, please lock the door." Yu Qi told the nurse.

"Yes, Doctor Yu Qi." The nurse nodded.

"Right now, please wipe the blood, first. Then, open his clothes." Yu Qi ordered.

The nurse did what Yu Qi asked. Yu Qi took out the acupuncture needles. After seeing Old Man Wong ready for the acupuncture, Yu Qi quickly strikes the needles at the acupuncture points.

Wong Nanyi was impressed with Yu Qi's moves. It was quick and smooth. He looked at his father. He looked fine with the needles stuck in his body.

Not only Wong Nanyi but Grandpa Tang was also impressed with Yu Qi's swift action. 'She is more capable than me. As expected my granddaughter.' He praised his granddaughter.

After one hour, Yu Qi finally took out the needles from Old Man Wong's body. She checked his vital sign. Everything was okay. The first treatment was over.

"It is done for today." Yu Qi said.

"Doctor Yu Qi, can you explain to me why my father vomits blood?" Wong Nanyi was very worried about that.

"The blood that he vomited was part of the poison. I need to force blood out little by little. I can make the poison suddenly disappear. It would hurt your father's body very badly. Even forcing a small amount of the poison would hurt your father. That is why I do the acupuncture after that." Yu Qi explained in simple terms to make Wong Nanyi understand.

"I see. I am sorry for stopping your treatment here. I will not do it in the future." Wong Nanyi nodded and apologized for his behavior just now.

"Hmm... I will come back later." Yu Qi nodded.

She then left the room with Grandpa Tang. When she came out, she had time to glance at Wong Suhe. That woman glared at her.

Wong Suhe saw people come out and entered the room.

"Dad, how's grandpa?" Wong Suhe asked.

"He's okay." Wong Nanyi answered.

"Dad, I think we need to stop the treatment. You saw grandpa vomit blood. Meaning the treatment is not good for grandpa." Wong Suhe persuaded Wong Nanyi.

"From tomorrow on, you don't need to come here anymore. You have classes to attend. I will arrange the flight for you later." Wong Nanyi said.

"What? Dad, why?" Wong Suhe was shocked.

"You don't have reason to be here." Wong Nanyi did not want to hear any reason. So, he threatened her with money. "If you don't go back as I say, you should forget about your allowance."

Wong Nanyi knew that Wong Suhe would follow his order when it came to money.

"Mom..." Wong Suhe turned to her mother.

"Your mother would help you." Wong Nanyi did not let Cui Ying say anything.

Cui Ying could not help her daughter. "Suhe, listen to your father. You also need to go to the class. Your leave days will be over in two days. You also can ask your brother for help."

Her husband was right. There was no need for Cui Ying to be here. It would be better if she returned to her university. Her husband most likely going to stay here to accompany his father for treatment.

The business would be fully handled by his stepson, Wong Mubai if the thing did not require Wong Nanyi to be there.

Wong Suhe looked at her mother. Her mother wanted her to get along with Wong Mubai. 'Is she for real?' However, she could not stay here anymore. If she refused, she would not get the allowance.

"I will return tomorrow." Wong Suhe nodded.

"Good." Wong Nanyi was satisfied with his daughter's attitude.

Wong Suhe went out. It was because of that bitch. It was because of that bitch, that made her (Wong Suhe) father was angry at her. Before she returned home, she needed to pay some interest to that bitch.

She saw a nurse walking around and called her.

"Hello, I need to see Doctor Yu Qi. Do you know where is she right now?" Wong Suhe asked.

"Doctor Yu Qi? You need to ask the nurse at the registration. But usually, she already left the hospital in the afternoon." The nurse said.

"What? She already left? It must be because this hospital is owned by her family. How irresponsible she is." Wong Suhe commented.

"Please don't say something like that about Doctor Yu Qi. She left because she has another work at Tiantang Research Center. She works for humankind." The nurse rebuked Wong Suhe's words.

The nurse admired Doctor Yu Qi so much. Not only she but a lot of people who worked here knew that Doctor Yu Qi was a kind person.

Wong Suhe did not expect those people here like Yu Qi so much. Without saying anything to the nurse, she left. After asking another nurse, it turned out to be true that Yu Qi already left the hospital and she was at Tiantang Research Center.

It was ten minute walk from the hospital to Tiantang Research Center. Wong Suhe decided to take a look. She saw some people walk in. So, she also was going to do that too but she was stopped by the guards.

"Miss, where are you going?" The guard asked.

"Inside." Wong Suhe answered arrogantly.

The guards frowned.

"Then, please show us your card." The guard said.

"Huh? What card?" Wong Suhe asked.

"Everyone who works inside has their own card. But if you are invited into the building, you need the person who invited you to come here and bring you inside." The guard explained.

"What? This place required a card to enter?" Wong Suhe asked with a displeased face.

"The card is not enough. Even with the card, you still need to scan your fingerprint, your eyes, and your heart. So, it is better for you to call someone inside to bring you in." The guard still needed to be polite. It would be bad if he offended someone that he should not.

"Huh?" Wong Suhe could understand if they used fingerprint scans, it was quite normal. But eyes and heart scan, was that necessary? "Then, please call Tang Yu Qi out."

"What?" The guard was confused.

"I want to see Tang Yu Qi. Call her out right now." Wong Suhe ordered the guards.

"Miss, we can't do it. If you want to meet Doctor Yu Qi, please contact the correct channel and make an appointment." The guard would not follow Wong Suhe's order. They were not her boss.

1390 Chapter 1390

"How dare you?" Wong Suhe shouted.

Then she saw someone walking out of the building. She was stunned by the man's look. He looked so dreamy.

"Doctor Dian." The guards bowed respectfully while greeting Dian Shu Xian.

"What is the commotion about?" Dian Xian Shu asked while glancing at Wong Suhe.

"This woman wants to meet Doctor Yu Qi but she does not have an appointment with Doctor Yu Qi. She wants us to call Doctor Yu Qi out." The guard explained the situation to Dian Shu Xian.

Dian Shu Xian turned to Wong Suhe. "Why do you want to meet my sister?"

"Your sister?" Wong Suhe was surprised to hear that Yu Qi was this handsome man's sister.

"She is indeed my sister." Dian Shu Xian nodded.

"Then why does your surname is different?" Wong Suhe asked.

"Miss, that is not your business. Just tell me why you want to meet my sister." Dian Shu Xian asked again.

"I... Never mind." Wong Suhe ran away.

Of course, she was not telling Dian Shu Xian that she wanted to make trouble with Yu Qi. She did not want Dian Shu Xian to think badly of her. First impression needed to be good.

Wong Suhe went back to the hospital. She forgot to ask the handsome man's name. 'What an idiot.' She scolded herself.

However, she heard that the guards called him 'Doctor Dian'. She was dying to know his full name. The hospital probably knew about that. So, she went to the registration counter to ask about that.

"I want to ask something." Wong Suhe straightly asked the nurse there. "Do you know the full name of Doctor Dian?"

The nurse checked the system. Then, she told Wong Suhe the answer.

"According to our system, there is no doctor with the surname Dian." The nurse said.

"You are lying. I meet him just now. Everyone calls him Doctor Dian." Wong Suhe rebuked the nurse's words.

"Miss, I already checked our system several times. There is no doctor with that surname." The nurse stated the same.

"I know you just don't want to tell me his full name. You want to hide it because he is so handsome and you don't want me to know about him." Wong Suhe said.

Another nurse came and asked what happened. The nurse earlier told the truth.

"Miss, can I ask you where you meet him?" Her colleague asked.

"In front of that research centre." Wong Suhe asked.

"Oh, that. If that is so, the doctor that you mention is not one of our staff members." The nurse said.

"How come?" Wong Suhe did not understand.

"Our hospital and Tiantang Research Center are two separate institutes. We are not related." The nurse explained.

"But that Doctor Yu Qi works there too right?" Wong Suhe asked.

"Doctor Yu Qi is different. She is indeed our staff member. At the same time, she also worked there. Well, she owns that place." The nurse said in admiration.

"What? She owns that place? How is it possible?" Wong Suhe could not believe her ears.

"Believe it or not, it is the truth. Back to the topic, if you want to know about Doctor Dian, you need to ask them about this. Not us." The nurse cut Wong Suhe.

The nurse noticed the tone used by Wong Suhe. It seemed like this woman disliked Doctor Yu Qi. She did not want to talk to Wong Suhe anymore. And Wong Suhe did not ask about the hospital and another institute.

Wong Suhe wanted to ask more about that but she saw that the nurse did not want to handle her anymore and they were busy doing their work.

Wong Suhe felt angry and left the place. She went to her grandfather's room again.

"Where did you go?" Cui Ying asked her daughter when she saw her.

"I was just walking." Wong Suhe said.

"If you want to go back to the hotel, it is fine. You also need to pack things up since you are leaving tomorrow." Cui Ying said.

"Mum, can I not go back?" Wong Suhe asked her mother whining.

"Dear, you can not get your father angrier with you than before. You should know about that." Cui Ying sighed.

"Okay... okay... I understand. I am leaving first." Wong Suhe knew she would leave no matter what tomorrow.

When she left the room, she looked at her watch. She still had time. It was 4 p.m. It was still working hours. That doctor must leave to go to do something else. He would be going to return to the research centre.

So, she still had her chance to know about that doctor. If she went back to the research centre, she might meet him again when he left work.

So, Wong Suhe decided to go to the research centre again. The guards frowned when they saw the same woman.

"I want to ask you. What is the full name of Doctor Dian?" Wong Suhe asked.

"We are not obliged to answer that question." The guard answered.

They could not tell outsiders anything about the research centre.

"I am just asking for his name." Wong Suhe said.

The guards ignored the woman. Just now, she came looking for Doctor Yu Qi. And now her attention turned to Doctor Dian. She was just a nuisance.

"Hey, answer my question. Otherwise, I will make you lose your job." Wong Suhe threatened the guards.
