1411 Chapter 1411

Yu Qi woke up in Long Hui's arms. She tried to remember about last night. It seemed they returned home to their penthouse. However, it is not their penthouse. It was her room in her space.

Yu Qi looked down at her clothes. She felt a little embarrassed about this. She already wore a different outfit, a pajama to be more specific, meaning Long Hui must have helped her change her clothes.

"You little seductress, are you awake now?"

Yu Qi looked at Long Hui and saw him stare at her.

"Yes. Let me go now." Yu Qi said.

Instead of letting Yu Qi go, Long Hui tightened his hug.

"I want to stay longer like this with you." Long Hui smiled.

Long Hui just woke up, making his look right now very seducing . Yu Qi was staring at him without saying anything.

Long Hui noticed the look given by his beloved Qi Qi. His corner lips curved up.

"You are drooling while looking at me. Am I too irresistible?" Long Hui asked.

"What?" Yu Qi touched her face. "When did I drool?"

Long Hui chuckled. "You don't deny that you are looking at me, do you?"

Yu Qi was dumbfounded. She should deny that too. But it was indeed true that she was staring at him.

Long Hui laughed. Yu Qi was embarrassed. So, she pushed Long Hui away. She got out of bed.

"I am going to the bathroom." Yu Qi rushed to the bathroom.

Long Hui kept laughing.

....

Long Hui sent Yu Qi to the hospital. He was going to pick her up after she finished her work. As usual, Yu Qi went to the VIP section to give treatment to Old Man Wong.

Today, both Wong Nanyi and Wong Mubai were in the room. Yu Qi greeted them.

"Doctor Yu Qi, how are you?" Wong Nanyi greeted Yu Qi.

Wong Nanyi could not be here for a few past days. He was busy handling the matter regarding his wife.

"I am fine. How about you?" Yu Qi replied.

"Thank you for Doctor Yu Qi's help before, I managed to find out about my wife... Oh, my ex-wife." Wong Nanyi stated.

"You have already divorced her?" Yu Qi was surprised to know about that.

"Yes. Why do I need to keep the criminal who poisons my father as my wife?" Wong Nanyi snorted.

"I see. That matter has nothing to do with me. I am sorry for probing for detail from you." Yu Qi apologized.

"No... No... I really thank you for this. If it was not for your question, I would not suspect her at all." Wong Nanyi smiled.

"I thought you did not notice anything since you kept your silence at that time." Yu Qi chuckled.

"After that, I keep observing her like a hawk. It seems she already had planned with her accomplice to hurt my father again. After the confrontation about the CCTV camera, it seemed she wanted to cancel the plan but could not find time to call her accomplice. Her accomplice ended up coming and getting caught by my people." Wong Nanyi explained.

"The hospital had tightened its security but at that time, a traffic accident occurred. So, the security had been lacking." Yu Qi stated.

"I heard about that. A lot of people coming in. Her accomplice must have used the opportunity to sneak in at that time." Yu Qi said.

"I heard from my son that you want to know where my ex-wife got the poison, right?" Wong Nanyi said.

"Yes." Yu Qi was waiting to ask about that. Wong Nanyi beat her.

"She said, she accidentally got it from the market. The person sold it for her telling her it was a good poison. No one will know about this poison. No one could cure it." Wong Nanyi stated.

"Did she remember the person?" Yu Qi asked. She really wanted to know that person.

"No, she doesn't. I already asked her multiple times." Wong Nanyi said.

"I see." Yu Qi was a little bit disappointed. "I will start the treatment then."

Wong Nanyi and Wong Mubai watched the treatment. Old Man Wong woke up and saw his son and grandson.

"How are the work?" Old Man Wong asked.

"Father, you don't need to worry about that. Mubai and I will handle everything." Wong Nanyi said.

"Where are your wife and Suhe?" Old Man Wong asked more.

"They are at home." Wong Nanyi could not tell Old Man Wong the truth right now.

He was planning to tell everything to Old Man Wong after he got better. About his divorce and Wong Suhe.

After questioning his ex-wife, he went to check whether Wong Suhe was really his biological daughter or not. He did the DNA Test three times at different hospitals. It came out negative.

Wong Suhe was not his daughter. He was devastated about that. Even though he disliked Wong Suhe's behavior, he loved Wong Suhe. He watched her growing up. But now, he found out his daughter was not even his. It left a bitter taste in his mouth.

He asked his ex-wife about Wong Suhe's biological father. Cui Ying admitted it was her ex-boyfriend. But at first, she did think that Wong Suhe was Wong Nanyi's daughter. But as time passed on, Wong Suhe had a face similar to her biological father making Cui Ying believe Wong Suhe was her ex-boyfriend's daughter.

1412 Chapter 1412

Yu Qi and Long Hui took a flight to Fanghai Nation. The miracle was going to be opened within two days. So, they wanted to go and made some preparation for that. Dian Shu Xian was also with them.

"Sister Yu Qi." Dian Qi Qi shouted Yu Qi's name as she saw Yu Qi at the arrival gate.

She rushed to hug Yu Qi.

"Why don't you greet your own brother too?" Dian Shu Xian asked.

"Oh." Dian Qi Qi released Yu Qi and greeted Dian Shu Xian.

At the same time, Long Hui pulled Yu Qi to his side. Seeing this, Dian Qi Qi frowned. 'This man is here too.' She greeted Long Hui too.

Long Hui just nodded. Yu Qi sighed seeing both of them. She did not know why these two people disliked each other so much.

If Long Hui and Dian Qi Qi knew what was in Yu Qi's head, they would scream.

Long Hui: 'This woman likes to hug you, Qi Qi. I don't like it.'

Dian Qi Qi: 'He did not let me hug you. He just wants to dominate you all alone. It is not fair.'

Dian Ren Qi was waiting for them in the car. The car drove to the mountain where Dian Family resided.

Great-Grandpa Dian was very happy to see the couple. He wanted to ask Long Hui to spar with him but Grandma Dian stopped him.

"Father, they just arrived. They need to rest. You can ask them for that after they get enough rest." Grandma Dian reminded Great-Grandpa Dian.

"Okay... okay..." Great-Grandpa Dian did not have any choice but to follow Grandma Dian's advice.

Grandma Dian told them to go and have some rest first. Grandma Dian asked people to prepare rooms for them. Of course, Long Hui wanted to stay together with Yu Qi. But this time, he followed Grandma Dian's arrangement.

...

That night, the whole family had dinner together. They would talk about the miracle space that the younger generation would go to later.

"Dad, how is the situation inside the space?" Dian Ren Qi wanted to dig for some information from his father.

Dian Jung Gi looked at his son and smiled. "You will see for yourself." He did not want to spoil the fun for the kids.

"Can you tell me a little bit?" Dian Ren Qi rolled his eyes.

Dian Jung Gi looked at his son. "See by yourself."

"I only can say it is fun but dangerous. You can think that way." Dian Ling Shi added.

"What are things that we should bring?" Yu Qi asked.

"That is the question that you should ask." Dian Jung Gi said to his son. He then turned to Yu Qi. "Some dried food and sleeping bags, I guess."

"Think about camping. But you don't need to bring the tent." Dian Ling Shi added again.

The younger generation nodded when hearing that. They discussed what they should bring later.

They had the ring space that they would be using for a backpack. So, they would not need an actual backpack.

Grandpa Dian gave two space rings to Yu Qi and Long Hui. From what Yu Qi knew, the space ring was a treasure. She did not expect to get one from Dian Family. Meaning Dian's Family was more wealthy than she thought.

"Don't worry. We have a lot of them." Grandpa Dian said.

"Okay. Thank you, Grandpa Dian." Yu Qi only just thanked Grandpa Dian.

"Thank you, Grandpa Dian." Long Hui also did the same.

Yu Qi actually did not need the ring space since she already had her space, Sere with her. But it was a convenience to have a ring space. She could disguise it. Taking out something from her space disguised it by making her take it out from the ring space.

Yu Qi filled the ring space with medicine and bandage that could be used to treat injury.

"Why don't you put on some clothes inside?" Long Hui asked.

"Hmm... Okay..." Yu Qi listened to Long Hui's advice and put on some clothes inside the ring space. She also took some of Long Hui's clothes.

As for Long Hui's ring space, he put on the sleeping bags as the elders told them to do. As the elder said, it felt like they were about to go camping.

The next day, the ones who go to the miracle space gathered around. They were going to the cultivation world. So, they needed to use the teleportation device.

Yu Qi saw familiar faces like Dian Chi Ne and Dian Wan Ye. They acknowledged each other when their eyes met.

"I guess everyone is ready." Grandpa Dian said.

"Yes." The younger generation shouted excitedly.

Going to miracle space was a chance for them to increase their strength.

"The miracle space is a good place but a dangerous one too. I hope you will be careful and everyone would return safely." Grandpa Dian added again.

"Yes, sir." The young generation replied.

"Okay. Let's go to the cultivation world." Grandpa Dian stated.

They went to the cultivation world. Yu Qi and Long Hui came to the cultivation world once again. The air felt different compared to the outside world.

"The miracle space would be opened later. You have some time. You can do whatever you want before that." Grandpa Dian said.

Hearing this, Yu Qi felt delighted. She wanted to walk around the market to see what was there.

1413 Chapter 1413

"Sister Yu Qi, let's go to the market." Dian Qi Qi said.

"Sure." Yu Qi nodded.

Dian Qi Qi glanced at Long Hui and smirked. Long Hui saw that and narrowed his eyes.

"What do you want to do?" Yu Qi asked Dian's three brothers.

"Well..." Dian Ren Qi scratched his back head.

"They must be wanting to see their lovers." Dian Qi Qi replied.

That made three of them cough.

"I guess she is right." Yu Qi smiled.

Three of them looked around.

"We will go to the market. See you later then." Yu Qi said.

So, they went their separate ways. Dian Qi Qi grabbed Yu Qi's hand and pulled her away. Long Hui just could walk behind them acting like a bodyguard to them.

The market was full of people. Not to mention, they were probably here for the miracle space too. The women and Long Hui walked around the market.

Until they arrived at a place where the people decreased. They were not familiar with the place. So they did not know that they were stepping into danger.

Long Hui noticed someone was watching them. He became alert. When he focused, he noticed that someone was not alone.

Then, they were surrounded by a lot of men. The women stopped. Long Hui stepped in front of them and protected them.

"What a gentleman." One of the men mocked when seeing Long Hui's action.

"I don't think he will think about them after getting beaten by us." Another man mocked Long Hui again.

Long Hui's face did not change at all. He firmly protected the women.

"Bro, just leave the women behind. I will let you go unharmed." The leader of the men said while smiling.

"Don't dream." Long Hui snorted.

"Brat you should leave to the elder." The leader said. "Men, go and grab the women. You can kill the brat." He gave the order.

"You think I am a weak girl." Dian Qi Qi was kind of pissed off.

She displayed martial art by kicking one of the men who wanted to grab her.

"Come on." Dian Qi Qi provoked the men to attack her.

The men were not weak too. They did have strength. They attacked Dian Qi Qi.

"This one must be a lamb." The men looked at Yu Qi who just stood over watching Long Hui and Dian Qi Qi.

"Don't let your guard down, you idiot." The leader shouted.

However, his men who tried to approach Yu Qi already fell to the ground growling about the pain. Everyone was shocked to see their friends like that.

They looked at Yu Qi. They wondered how the weak-looking woman could do something like that.

"In case you asking, I can tell you that your friends have been struck by poison needles." Yu Qi stated.

Most terrifying was Yu Qi's smile. The men shivered when seeing the woman smile like that while holding a bunch of needles in her fingers.

"Boss, help me."

"It hurts."

"Why don't I feel my legs?"

"Boss, that hurts."

"Help us."

The men were asking for help.

"Nice move, Sister Yu Qi." Dian Qi Qi gave a thumb up after kicking another man.

The leader thought the women were weak when the man protected them behind him. That must be an illusion to let their guard down. He had miscalculated.

"Men... Let's go." The leader made the decision to run away.

The fallen men were surprised to see their leader willing to abandon them.

"Boss, don't leave us."

"Help us."

They shouted calling their leader.

"Don't ever think about leaving here." Yu Qi said.

Hearing this, Long Hui and Dian Qi Qi also made their moves. Yu Qi attacked the leader. This time, she did not use the poison needle but her martial art.

The leader did not expect Yu Qi to be so strong. He thought she was only proficient in poisoning people.

"Please, let us go." The leader could not help but beg.

"Give up on running away." Yu Qi said while smiling. Then she added. "Otherwise, you will end up like your men. Let me tell you, that the poison effect is permanent. They would not be able to walk again."

The leader was shocked. What a terrifying poison.

"What?"

"No!"

"I don't want to be like this."

"Humph! Why didn't you think like that before attacking us like this? You reap what you sow." Dian Qi Qi snorted. She did not feel a little bit of pity for those men.

"So, what do you think?" Yu Qi asked the leader.

"I give up. Please don't poison me." The leader begged Yu Qi.

"Good. Let's call someone to catch them." Yu Qi clapped her hand.

"You who hiding over there." Long Hui suddenly said. He was looking in a direction.

The young boy who was hiding over there came out.

"Can you call some people?" Long Hui asked.

The young boy nodded. He then ran.

"We just wait here." Dian Qi Qi said.

The leader and his men were silently waiting for people to take them away. It was better to leave them with this terrifying woman.

What bad luck crossing paths with the terrifying girl... No... She-Devil. If they knew, they would not dare to provoke such a person.

The young boy came with some people. They were kind of police officers from the outside world. They would deal with outlaws like these men. So, they caught the men and left.

1414 Chapter 1414

Long Hui explained everything to the authority.

"Young Master Long, thank you for helping us catch this group. We have received complaints from others but we could not find them at all." An older man greeted Long Hui.

"It is a coincidence. They attacked us first." Long Hui shook his head.

"Well, can you give the antidote to those men?" The older man asked in embarrassment.

Actually, they tried to cure the poison earlier. But everything was not working.

"I am sorry. There is no antidote to that poison." Yu Qi interfered when she heard they were asking for the antidote.

"What? How can?" One of the authorized asked.

"Well, I accidentally created that poison." Yu Qi stated.

Hearing that made others shiver. Such a powerful poison. She accidentally created that?

"If that is the case, then, there is nothing we can do about that. We will ask the pharmacist to look at them." The older man gave up.

He remembered about them. They were from Dian Family. He saw them at the last martial arts competition. He did not dare to offend them.

The authority called for backup to bring the criminals away.

"They dare to disturb us. Humph!" Dian Qi Qi snorted.

"Well, they did not know who we were. Dian's Family stayed in the outside world. Brother Hui and I are newcomers." Yu Qi stated.

Dian Qi Qi forgot about that already and turned excitedly to Yu Qi. "Sister Yu Qi, what is the poison that you use? It is very powerful."

"Oh, I make my poison by myself. It is a very powerful poison." Yu Qi said.

"Can I have some of it?" Dian Qi Qi's eyes lifted up.

"Sure. I will give it to you later." Yu Qi nodded.

"Thank you, Sister Yu Qi." Dian Qi Qi smiled.

Dian Qi Qi hugged Yu Qi happily. Long Hui narrowed his eyes. This girl was getting on his nerve.

The onlookers were watching the three of them.

"They are powerful."

"That lawless gang got caught because of them."

"That man is very strong. And he is very handsome too."

"That weird-looking girl is very strong."

"No... no... no... That girl who used the poison is very strong. The way she poisoned those guys using the needle is excellent. Not many people can do such a thing."

"Hmmm... I never saw them before."

"What? You don't recognize them?"

"Why? Do you know them?"

"They are from the four great families, Dian Family. The girl who used the poison is the champion of this year's martial arts competition. I heard she also has a contracted beast."

"She is the champion? Are you kidding me?"

"You can find out by yourself. I am not lying."

"And a contracted beast? Wow, not many have that talent."

"They look like they are in their twenties."

"Then, they must be going to the miracle space later."

"Yeah. The miracle space is about to open soon."

"If only I was younger."

"Stop dreaming. With your strength, you can die."

They kept talking. Long Hui and the girls already left the place. They looked at the things at the market.

"Nothing is special here." Dian Qi Qi sighed.

"If you know, then you can leave." Long Hui said.

"What do you mean by that?" Dian Qi Qi turned to Long Hui.

"I mean what I said. You should leave." Long Hui rolled his eyes.

"Humph! I am not leaving." Dian Qi Qi replied in anger.

"You just like being a third wheel, do you?" Long Hui stated.

"I don't care. You can't monopoly Sister Yu Qi all the time." Dian Qi Qi hugged Yu Qi's arm.

Both of them glared at each other.

"You two, it is about time. We need to go." Yu Qi stopped their argument.

"Humph!"

The three of them went to the appointed place. They saw others too. All people who wanted to enter the miracle space were here.

"You are here. Where did you go?" Dian Shu Xian asked.

"We went to the market and met a lawless group. So, we played with them first." Dian Qi Qi grinned.

"Attention everyone."

Right away, everyone turned their attention to the stage. On the stage, leaders of the four great families stood together. The one who talked was Great-Grandpa Dian. He was the oldest among everyone.

"Today is a good day. The miracle space is going to open. Those who want to enter it, please be ready. You can bring whatever you want into the miracle space. One reminder to you is that the miracle space is a good place to gain experience but also very dangerous. You can lose your life. So, please make your decision." Great-Grandpa Dian said.

Everyone looked excited. The place which could increase their strength. Then, some kind of mirage suddenly appeared on their right side.

"The miracle space is now open. You can enter." Great-Grandpa Dian said.

With that, the cultivators rushed to enter the miracle space. However, the children from the four great families were walking casually.

"Dad, pray that I am safe inside the miracle space." Dian Ren Qi shouted to his father who was on the stage with other.

Dian Jung Gi threw a dirty look at his second son. Wan Yang Mi pulled Dian Ren Qi's hand.

They successfully entered the miracle space. Their eyes were blind to the white light. They could not help but close their eyes.

1415 Chapter 1415

When Yu Qi opened her eyes, she saw the beautiful scene. Green mountains, clear rivers and blue sky.

"I feel familiar... Why?" Yu Qi felt something. "Do you think so?"

Yu Qi saw to her right and found no one around. She turned around. Yes, there was no one around.

"What? Where is everyone?" Yu Qi stated.

She was thinking for a moment. "Does this space separate people when they enter this place?"

Her guess was correct. The miracle space did separate people when they entered the miracle space.

"I guess I need to walk around. I will see others eventually." Yu Qi started to walk.

'Master, can we come out?' Aoi suddenly asked.

'Oh, sure.' Yu Qi nodded.

She hid behind the tree. Before entering her space, she looked around to confirm there was no one around. She did not want people to see her suddenly disappeared and appeared out of nowhere.

She entered her space and took Aoi and Shino out. Those two cuties were happy to get out.

"Wait, Master, why do I get the weird feeling from this place?" Aoi asked.

"Me too." Shino also commented.

"Huh? You too?" Yu Qi looked at both of them.

And something connected in her mind. This familiar feeling... "Does it feel the same as we in Sere?"

"Oh, yes. It does." Aoi also noticed the similarity.

They got the same feeling of staying in the miracle space as Yu Qi's space, Sere.

"But why?" Yu Qi thought about that.

The two little cuties also did not know about that.

"Well, never mind about that. Let's walk around. We need to look for others too." Yu Qi suggested.

"Okay." Aoi nodded. "I wonder what kind of monster we will meet."

Shiro jumped onto Yu Qi's shoulder and stayed on it. A human and two animals walked toward the forest.

'Master... master... Something is here.' Aoi informed Yu Qi through telepathy.

'Yes. I noticed that too.' Yu Qi glanced at Aoi.

'I don't think it is a human.' Shino added.

'Then it must be a monster.' Aoi said excitedly.

'Hmm... I think so.' Yu Qi also agreed with Aoi.

'Then, let's attack first, can we?' Aoi looked at Yu Qi in anticipation.

'Okay. You can test the water first.' Yu Qi smiled.

With that, Aoi rushed to the place they noticed the presence of something earlier. Because of Aoi, the something that hid itself before came out of its hidden place.

Yu Qi opened her eyes widely when her eyes caught the big tiger came out.

"Growl." The tiger looked at Aoi in anger.

"What? We don't do anything to him. Why does he look angry at us? Aoi, what did you do to him?" Yu Qi asked.

"Master, I don't know about that. I just rush to him. That's all." Aoi quickly denied the accusation.

"Then, do you want our help?" Yu Qi asked.

"No need. I want to fight him. I want to see how much I grow after those training." Aoi smiled.

With that, he changed his body. He became bigger like a wolf. He did not waste any time anymore and attacked the tiger.

The tiger looked surprised and avoided the attack swiftly. Yu Qi was a little bit surprised. To think about that, it was quite normal. After all, this place was a miracle space, a world-like fantasy.

Aoi tried to make several attacks. Some of them hit the tiger. It made the tiger furious. He also began to attack Aoi aggressively.

A hit landed on Aoi. He was pushed behind a few meters. He was hissing in pain but his eyes said something else. It was very happy fighting with the tiger. The fight lasted for one hour until the tiger collapsed.

Aoi shrank to his regular size. He walked proudly to Yu Qi.

"Master, do you see it? Am I strong?" Aoi grinned.

"Hmm... Our Aoi is very strong." Yu Qi praised Aoi.

"Yes. I am only confident that I can protect Master." Aoi exclaimed.

"Hmm... I am counting on you." Yu Qi patted Aoi's head.

They continued their walking. They encounter countless monsters. Three of them cooperated very well.

"Master, I am hungry." Aoi suddenly said.

"Oh." Yu Qi also noticed that she was also hungry. "Okay, I will cook something."

"Hurray." The two cuties became two little gluttons.

They went to find a suitable place nearby the river.

"This place is good to cook." Yu Qi decided.

It would be easy to wash everything.

Yu Qi took out some meat. Since they were in the middle of wildness, she thought to use the camping cooking style.

"Aoi, Shino. While I am cooking, please pay more attention to our surroundings." Yu Qi gave the order.

"Yes, Master." Both of them saluted.

So, Yu Qi started to light the fire and prepare the ingredient to cook. She wanted to make grilled chicken boneless.

She washed the chicken and marinated them for about fifteen minutes. While waiting for them to be ready, she looked around.

The place was indeed very similar to her space. She wondered why. She was also curious how the miracle space existed. When she came out later, she would try to ask Great-Grandpa Dian about that.

She might get the idea of how her space, Sere was created too. Right now, up until this moment, she did not know why her space, Sere ended up with her. She hoped one day she would find out.

1416 Chapter 1416

The food was ready. So, she immediately called Aoi and Shino. Those two were very hungry and rushed to Yu Qi's side.

"Food." Aoi jumped happily.

Shino already went straight to his food. The three of them started eating with caution. Who knew someone or something could attack them in the middle of nowhere?

While they were eating, someone rushed to their place when he saw smoke in the sky. The nearer he was, the more he could feel the food.

He wondered who was cooking outside here. Until he knew the three, a human and two animals were eating. 'What are they doing? Do they think they are here camping?' He questioned himself seeing the three of them.

He approached them slowly. At that moment, he saw the woman turn her head sharply in his direction. She put away her food and got ready to fight.

"Come out. I already know you are there.", Yu Qi shouted.

She already saw someone behind the tree but she could not see who.

"So, you are my enemy. If you don't want to come out, I will make you do so." Yu Qi rushed to the hiding place.

Using the dagger, she swung toward the person. She already knew that the person was not Long Hui. Long Hui would not approach her like that, in secret.

The person apparently was so strong too. He manages to evade the attack.

"Wait. Let's talk first." The person came from the back of the tree. "I am Bucong Shuye."

Yu Qi was stunned when hearing the name. It was indeed Bucong Shuye. She did not expect to meet the young master from Bucong Family first in the miracle space. She put the weapon away.

"I am sorry for attacking you, Young Master Bucong." Yu Qi said politely.

Out of all the people entering the miracle space, she has met him first.

"I saw smoke and rushed over." Bucong Shuye said.

Yu Qi turned around and looked at the fire that she made. She forgot to extinguish that.

"You seem very relaxed coming into the miracle space." Bucong Shuye commented.

"Well, my contracted beasts are hungry. It is my responsibility as their owner to feed them." Yu Qi replied.

Bucong Shuye was surprised. From what he saw and heard, the contracted beast could take care of itself. There was no need for the master to cook for them. Indeed, this woman was special.

Seeing there was no danger, both Aoi and Shino turned back to their food and continued to eat.

The situation was kind of bizarre for Bucong Shuye. They really were eating like they were on a picnic. Bucong Shuye ended up staring at them.

Aoi caught his staring. He thought of something.

'Master?' Aoi called Yu Qi through telepathy.

'What?' Yu Qi glanced at Aoi.

-nOve1、 com 'Master, he is staring at us? Is he hungry too?' Aoi asked.

'Huh?' Yu Qi was a little bit dumbfounded about the question. She thought about something. 'Well, I don't want to cook for him. You guys can share your portion with him.'

'What? No way.' Aoi rejected the idea. He quickly protected his food.

'I don't want to share my portion with him.' Shino also shook his head. He ate his food very quickly.

Bucong Shuye who had been watching them was confused by the contracted beast's sudden action. He wondered what they had been talking to each other about.

He knew that the contracted beast could communicate with their master through their mind. So, he could guess that the contracted beasts have been talking to Yu Qi.

Yu Qi could not help to laugh. Gluttons like them would not share their food with others unlike they liked that person very much. So, in this case, there was no way that they would give some food to Bucong Shuye.

Seeing her cuties finish eating the food, she thought it was about time they continued their journey. She needed to find Long Hui and others as soon as possible.

"Miss Tang, do you have a plan?" Bucong Shuye suddenly asked Yu Qi.

"Well, no. I just intend to walk around." Yu Qi answered.

"Do you want to team up with me?" Bucong Shuye suggested.

"No need." Yu Qi rejected it right away.

She was not alone and helpless. She could take care of herself. Moreover, she did not want to see Long Hui's gloomy face when he found out about it.

Bucong Shuye's expression did not change much when hearing the rejection from the young lady. He expected it. Well, both of their families were not actually on good terms. So, it was not weird if Yu Qi did not want to cooperate with him.

Suddenly they heard growls sound around them. They looked around to see monsters like an ape with a height of about 4 meters appearing behind the trees. If Yu Qi was standing beside them, Yu Qi would look petite. And not to mention there were about a dozen of them.

The apes looked around and stopped at the spot right behind Yu Qi. When they saw it, they became triggered. They rushed over to the place. Yu Qi grabbed Aoi and Shino and moved in an instant.

The apes seemed to grab the plate that Yu Qi and her cuties used. They gave them to an ape who could be assumed as their leader. The leader of the apes licked the plate.

1417 Chapter 1417

The leader of the apes made a roar's sound. He glared at Yu Qi sharply.

'Master, I guess he likes your food.' Aoi said.

Yu Qi rolled her eyes. She could guess that. But what did that ape need to be angry with her?

Then, they could see that the leader of the apes gave orders to other apes. The order was probably to ask the apes to attack Yu Qi and others. The apes rushed to Yu Qi.

"Fighting could not be avoided." Yu Qi took out her sword.

It would be much easier if she took out the gun. But she did not want to. She wanted to polish her skill in wielding the sword. The apes seemed to be intelligent, avoiding the sword.

Aoi also changed his size to the bigger one. He attacked fiercely. As for Shino, he did not have the power to attack those apes. He stayed inside Yu Qi's pocket.

The number of apes was too many. Yu Qi needed to speed up a little bit.

'Master, be careful.' Aoi shouted.

His master was fighting an ape while another ape wanted to make a sneak attack. Luckily, the attack had been blocked by Bucong Shuye. Yu Qi was a little bit surprised about that.

She thought Bucong Shuye already left when the apes started their attack because he did not want to be involved with this. She also rejected his suggestion to team up.

"Thank you." Yu Qi appreciated the help.

"It's okay. Let's deal with these things first." Bucong Shuye stated.

Both of them cooperated very well. The leader of the apes saw this and did not feel happy about it. He really thought that these two humans were weak. That thought slapped his face hard.

So, he decided to join the battle. He wanted to catch Yu Qi. That human would be his slave later. He would ask her to make the dish for him. With that mindset, he attacked Yu Qi.

Yu Qi had been cautious and noticed that the leader of the apes making a move toward her. So, when the leader of the apes attacked her, she defended perfectly.

The leader of the apes was very angry when his attack had been blocked by this human. He attacked her again. The continuous attack made Yu Qi unable to do anything but only block. This made the leader of the apes feel he could defeat Yu Qi.

Yu Qi changed her rhythm step . With that, she could attack and defend at the same time. The leader of the apes was very surprised about that. This disturbed his attack on Yu Qi.

Yu Qi took out another weapon, a dagger to be precise. When she saw the opportunity to attack, she quickly slayed the dagger toward the leader of the apes' chest.

The leader of the apes managed to step back but he still got injured by the attack. He gritted his teeth in anger when seeing the blood flowing down from his chest. He glared at Yu Qi.

"What? Angry? You don't have the right to be angry. Weak." Yu Qi sneered.

With that provocation, the leader of the apes did not care for things anymore. He wanted to injure this human.

As for other apes, Aoi and Bucong Shuye already cleaned them up. The ape knew he would not able to kill all of them but he wanted to kill the human who managed to injure him.

So, he rushed to the human. Yu Qi knew that she was the person the ape wanted to hurt. She already made a standing defense. The ape could not break her stand defense and felt very angry again. He increased his strength.

'Aoi, attack him from behind.' Yu Qi ordered Aoi.

'Yes, I will.' Aoi nodded.

The ape was totally focused on Yu Qi. So, he failed to notice Aoi who just walked toward his back. At Yu Qi's command, Aoi attacked the ape's behind.

"ROAR." The ape screamed in pain.

While the ape was screaming, Yu Qi stabbed the sword into it's chest. The ape was shocked to see the sword in his chest. Yu Qi pulled the sword. The ape slowly lost his breath.

Yu Qi took a long breath.

"Good job." Yu Qi patted Aoi's head.

Aoi waved his tail excitedly.

Yu Qi then turned to Bucong Shuye. "Thank you, Young Master Bucong."

"It's nothing." Bucong Shuye stated.

"Well, let's start to work." Yu Qi stored her sword and only let her dagger out.

"Huh? What?" Bucong Shuye was confused about what Yu Qi meant by that.

"Oh, no. You don't need to care about it. Just talking to myself." Yu Qi waved her hand, feeling embarrassed. She forgot that Bucong Shuye was still here.

What she meant by that was Yu Qi wanted to dismember the part of the apes' cores.

"Oh, do you need their cores too?" Yu Qi turned to Bucong Shuye. "If you want them, you can dismember them by yourself. I will not help you."

"No. I don't need them." Bucong Shuye shook his head.

"Okay. Up to you." Yu Qi stated.

Dian Shu Xian talked about the miracle space before this. After killing the monsters, you could take out the core. The cores could be sold on the market. The alchemist and pharmacist sometimes required the monster core to make their products. She wanted to do research about the core too. Who knew that maybe the core could be used for the medicine in the outside world.

1418 Chapter 1418

Yu Qi was someone who loved money. She would not let the chance of making money be wasted just like that. Didn't Jung Gi tell them that the core of monsters in the miracle space had a higher value compared to the monsters outside?

The cultivators tend to leave the monsters just like that because they did not want to dismember the core from the bodies. They thought it was so dirty. She did not think it was dirty because it was kind of the same as her job as a surgeon.

Yu Qi was humming while dismembering the cores. She put all of the cores into the ring space.

Bucong Shuye watched the woman dismembering the cores while feeling disgusted by the things. Usually, the women just left this kind of work to others. On top of that, she looked very professional while doing that.

"Don't you feel disgusted?" Bucong Shuye could not help but ask.

"Well, if I tough like that, I don't think I could handle my work." Yu Qi stated.

"Your work?" Bucong Shuye asked.

"Yes. I am working as a surgeon." Yu Qi said.

'No wonder.' Bucong Shuye nodded. She was already used to these things.

After spending about half an hour, Yu Qi finished collecting the cores from the apes. Yu Qi washed her bloody hands in the river.

"Shall we move?" That statement was aimed at Shino and Aoi, not Bucong Shuye but he was the one who answered it.

"What?" Yu Qi was shocked to see Bucong Shuye was still there.

"What what?" Bucong Shuye replied.

"Well, I thought you were already gone." Yu Qi said.

Bucong Shuye was speechless.

"I don't mind but please stay away from me. It would not be good if my fiancée see it." Yu Qi stated.

"Why?" Bucong Shuye asked.

"Because he is the king of vinegar." Yu Qi chuckled when thinking about Long Hui.

Bucong Shuye saw that and thought that she was so beautiful. Why did he meet her later? If he met her first, she would be his.

So, the two of them walked together in distance.

.....

After opening his eyes, Long Hui turned to look at his beloved Qi Qi but could not find her. In fact, he could not find anyone around. Everyone disappeared.

He calmed down. He began to walk. He needed to find Yu Qi. She must be somewhere in this place. When he was walking, he encountered the first monster.

It was a giant snake. The snake stared at Long Hui thinking to eat him. It was a long time since it saw humans around. It was probably the time.

It knew that sometimes humans would come here to gain some experience. However, not everyone could return. The man in front of it would be its first big meal. It would be looking for any human after killing and eating this one.

Long Hui took out the sword from his ring space. At first, he did not know how things work. After being taught by Dian Zin Fang, he finally understood.

He wanted to use this thing outside the cultivation world but he could not. He was told that this ring space could be used only inside the cultivation world. He was a bit disappointed.

Without wasting time, Long Hui launched the first attack. The giant snake was surprised to see the human wanted to attack it first. Usually, it was the one who attacked the human first.

Long Hui wanted to slay the giant snake but faced a problem. The skin of this giant snake was very thick. His attack could not penetrate the layer of the skin.

The giant snake was very happy. It thought this human could bypass its thick skin but fortunately, this human failed. It had nothing to be afraid of right now.

Long Hui defended himself when the giant snake attacked him. The giant snake was very clever to use its tail to attack Long Hui.

Long Hui needed to think of a solution. To kill the giant snake, he needed to attack the area that did not have much protection. He looked around at the giant snake.

Then, he smiled when seeing a weakness. It was the eyes. These parts were vulnerable. He needed to think about how to reach the eyes. After thinking while attacking the giant snake, he found a solution.

With that, he attacked while rushing to the body of the giant snake. The giant snake thought the human wanted to attack its skin again. So, it let him be.

However, it was wrong. The human climbed up on his body. He was confused about this. It could not attack the human blindly because it did not want the attack to injure its own body.

Long Hui ran up. He was near the eyes. He then attacked the eyes. The giant snake finally knew what this human wanted to do. It shook its body wanting the human to fall down.

Long Hui clung to the scale of the giant snake. He noticed that the giant snake did not dare to use its tail to attack him anymore.

He needed to find a suitable time to stab into its eyes. The giant snake shook its body again and again but the human still did not fall. It stopped for a few seconds.

Long Hui thought it was an opportunity for him to stab in the eyes.

1419 Chapter 1419

Without waiting any longer, Long Hui rushed to attack the eyes. The giant snake could not stop Long Hui. It made a sound when Long Hui managed to stab deep into its eyes.

It never felt hurt like this. The previous humans did not manage to land any damage. So, this was the first time for him.

Because of the pain, the giant snake did not pay any attention to Long Hui anymore. Long Hui attacked the second eye. The giant snake screamed even louder than before.

The eyes were really its weakness. The giant snake became weak and weaker. Until it fell and died on the ground.

Long Hui sat down catching his breath. He looked at the giant snake. This place was really a fantasy. Like in a game.

After resting for a while, Long Hui stood up and walked toward the giant snake's body. He remembered his beloved Qi Qi telling him to dismember the core of the monster.

His beloved Qi Qi wanted to sell the core. She was such a money grubber.

However, how to dismember this giant snake? Where was the core? The question popped into his mind.

The core was an important part of the monster's body. It was usually located at the head. Well, perhaps. He needed to try. Anything to make his beloved Qi Qi happy.

Long Hui went to the eyes. It was the soft part of the body. He would continue from there. He was right. It was easy to cut the eyes.

He was lucky that the core was located right behind the eyes. He took out the core and placed it into the ring space.

Then, he heard a scream. It was near his place. He looked around and saw a woman standing not far from his place. He frowned.

The woman then saw Long Hui after he stood up.

"You... You kill this serpent?" The woman looked horrified.

Long Hui did not want to waste time any longer here. He needed to find his beloved Qi Qi. He then turned around and walked away.

The woman was flustered when the man did not answer this question. She ran toward Long Hui.

"Wait, let me be on your team." The woman shouted.

It was normal to create a team to explore this miracle space.

But Long Hui did not care about that. His mission right now was to find Yu Qi. So, he ignored her.

"I am Bucong Jiye." The woman introduced her name.

When Bucong Jiye saw the man's face, she was stunned. She remembered this handsome man. He was from the Dian Family, a fiancée of that woman, she guessed.

She looked around and found no one. This man must be separated from his fiancée. Her eyes lifted up. The chance was finally here.

Bucong Jiye always thought this man was very handsome. She wanted to talk to him but he was from Dian Family. Not to mention, his fiancée was always stuck on him making the chance to talk to this man disappeared.

Now the chance was in front of her. It would be stupid if she did not grab it.

"You are Long Hui, right?" Bucong Jiye wanted to start the conversation.

Still being ignored, Bucong Jiye did not give up.

"You are so amazing killing that serpent. Not many could kill it." Bucong Jiye continued.

Long Hui did not reply. He was too lazy to talk with another woman without any aim.

"It is my first time coming to this miracle space. I am worried."

"My parent tell me that I need to be careful."

Bucong Jiye was still talking to Long Hui. She subconsciously wanted to get closer to Long Hui but Long Hui noticed it every time, he distanced himself from Bucong Jiye quickly.

Bucong frowned in her heart. Why his man did not look at her once? Was the woman called Tang Yu Qi so amazing that he did not think much about another woman?

Then Long Hui noticed something. He became alert. He glanced at the woman. She did not catch up on anything. He wondered if she was truly a cultivator or not. How could she not have noticed the strangeness of this current situation?

The pack of wolves appeared in front of them. This time, Bucong Jiye noticed the wolves.

"Flame wolf." Bucong Jiye shouted in panic.

Even though she was a cultivator, she was usually spending her time cultivating in her house, without experiencing a hard time. It was the very first time gaining experience like this. So, she panicked.

"Protect me." Bucong Jiye said.

"Not my problem." Long Hui replied.

It was his first time replying to Bucong Jiye.

"What? You are a man. You should protect me." Bucong Jiye stated.

"Why should I protect you?" Long Hui rolled his eyes.

She did not even an acquaintance to him. Why should he waste his time and effort to protect her?

Long Hui already wielded the sword. The pack of wolves had a dozen of wolves. Two of them began to approach Long Hui and Bucong Jiye.

One was on Long Hui and another one set its eyes on Bucong Jiye. Bucong Jiye felt very scared at this moment. She was trembling.

Long Hui snorted. He remembered a few months ago when they first came into this world, they met Bucong Jiye. Bucong Jiye was acting so mighty in front of them telling Dian Qi Qi that her strength increased a lot.

1420 Chapter 1420

The wolf attacked Long Hui. When Long Hui was inside its range, the wolf breathed fire to attack Long Hui. Long Hui jumped to the side to avoid the fire.

'Flame wolf. No wonder it was named that way. It used fire to attack others.

As for Bucong Jiye, she fell on the ground while avoiding the attack.

"No... Don't come near me. I don't want to die. Help me." Bucong Jiye shouted.

Long Hui did not have time to care about Bucong Jiye. He, himself was fighting with the wolf. This time, three of them were attacking him at the same time. How could he have time to care about her?

The wolf seemed to notice the human in front of it was weak and scared of it. It thought it could have a taste of human meat today.

"No!!!! Help!!!" Bucong Jiye shouted.

When the wolf was about to bite her, it was sent flying backward.

"Jiye, are you okay?"

Bucong Jiye heard the voice of someone she knew. She looked up and saw Bucong Jian.

"Brother Jian." Bucong Jiye cried when seeing her brother.

She felt lucky that someone came to help her. Otherwise, she would already have lost her life.

"Are you okay?" Bucong Jian asked Bucong Jiye again.

"Yes... I am okay." Bucong Jiye nodded.

"Hmm... Let's kill the wolf right." Bucong Jian stated.

"I am scared." Bucong Jiye said.

"Don't worry. I am here now." Bucong Jian patted her head.

"I asked him to help me but he ignored my call." Bucong Jiye was angry about Long Hui not helping her earlier.

She knew that Long Hui was fighting with another wolf but she still wanted Long Hui to protect her.

Bucong Jian saw Long Hui fighting with four of the wolves. He even managed to kill one of them. Other wolves noticed another human appeared. They began to approach the two siblings.

Bucong Jian shielded Bucong Jiye behind him. He knew it would be hard to fight while protecting someone. He wanted to ask Long Hui for some help but he knew that Long Hui was not willing to help them due to their past interaction.

In addition, he could see that Long Hui was currently fighting by himself.

"Brother Jian..." Bucong Jiye clung to Bucong Jian's clothes tightly.

"Jiye, remember when we are practicing, you just need to do the same." Bucong Jian said. He needed his sister's help.

Long Hui felt the sword was not enough for him. He took out a gun that he got from his beloved Qi Qi. He was more proficient in using the modern weapon after all.

To injure the wolf with one shot, he needed to determine which part could easily be penetrated. After fighting with the wolves for a while, he knew where to shoot.

Long Hui lured the wolf to attack him. The wolf fell into his trap. Without wasting any time, he shot the wolf in its chest. The wolf fell to the ground.

As Long Hui expected, the wolf did not die immediately. He growled in pain. He took the sword and stabbed the wolf. Another wolf died.

Seeing their comrades die again, the pack was very angry. They ended up rushing to Long Hui to kill this human including the wolves at Bucong Jian and Bucong Jiye's side.

Bucong Jian was very relieved when the wolves left their side. He did not dare to go and help Long Hui because of his sister.

However, they were astonished by what they were seeing. Long Hui killed the wolves one by one with the sword and gun. The last one of the leader of the pack.

It was furious to see its kind die in this human's hand. Since it was the leader, it was much stronger than other wolves. He was fast too.

Long Hui was struggling to kill it. Seeing this, Bucong Jian thought to help Long Hui. He wanted to go and help but he was stopped by Bucong Jiye.

"Where are you going, Brother Jian? Don't leave me here." Bucong Jiye said.

"I want to help him." Bucong Jian said.

"No need to help him. He did not even help me earlier." Bucong Jiye held grudge against Long Hui for not helping her earlier.

Bucong Jian felt hesitant. He knew that Long Hui did not come to help Bucong Jiye earlier because he also faced another wolf at that time.

The gun was out of the bullet. Long Hui threw it away. The wolf was very aggressive. It had more confidence seeing its enemy throw the weapon could injure it. Now this human power decreased.

However, its eyes were opened widely when seeing the human take out another similar weapon. It was swiftly avoided when the human pointed the weapon in its direction. If it got hit by the weapon, there was no way that it could survive.

Long Hui could see that the wolf was afraid of his gun. When the wolf wanted to attack him again, he pointed the gun at the wolf, it would step back.

Long Hui miscalculated the distance. The wolf managed to injure his hand the one holding the gun. The gun dropped. The wolf was happy to see that. He became more aggressive.

The wolf approached Long Hui with an open mouth. This time it would bite another hand the one holding the sword. This human would die.
