

## Intelligent 1541

### 1541 Chapter 1541

"Elder Mong, do you want to go outside?" Yu Qi asked.

"Outside? Can I?" Elder Mong looked at Yu Qi. His eyes were full of anticipation.

"Hmm... I will try to ask permission." Yu Qi said.

"Oh..." Elder Mong was slightly disappointed and turned around to the window again.

He knew that he would not be able to go out. After all, he was a secret to others. He would not be so greedy. It was already a blessing for him to look outside the window like this.

Yu Qi got out and went to see her uncle to ask permission for Elder Mong to go out.

"Tell them if they want Elder Mong to heal physically and mentally, they should allow Elder Mong to go out and see another scenery." Yu Qi informed her uncle.

After that, Yu Qi left her uncle's office. She went to check Elder Mong once again. He also laid down on the bed. She took his pulse. Nothing changed from the first day.

It seemed Elder Mong's body rejected the treatment Professor Song Shan implemented for him. She read the treatment. It was not bad but it was useless if the patient's body rejected the treatment.

Yu Qi left the hospital and went to the research centre. Su Ziqing was about to leave the research centre.

"Yu Qi..." Su Ziqing waved her hand greeting Yu Qi.

"Where are you going?" Yu Qi asked.

It was very rare for Su Ziqing to leave the research centre.

"Well, I have a blind date. Arranged by my mother. She threatened me to go. Otherwise, she will come and drag me to go over. If that happens, it would be so embarrassing. I would rather just go and destroy it myself." Su Ziqing grinned.

Yu Qi was speechless for a second. 'Destroy it herself?'

"What if you end up liking him?" Yu Qi asked.

Su Ziqing had feelings for Dian Shu Xian but Dian Shu Xian did not respond to her feeling. Yu Qi thought she had given up.

"Well, I will explain to him about my current job. I definitely can not give 100% attention to him like other women. My research is the most important thing in my life right now. If he can not accept that, then he can just leave." Su Ziqing was very optimistic.

"Hope everything will be fine." Yu Qi said.

"Okay. I will leave first. Oh, Qihan was sleeping in front of your room earlier. I don't know if Ling Xuan already get and woke him up." Su Ziqing left.

Yu Qi entered the research centre. Well, as Su Ziqing said, Yi Qihan was indeed sleeping outside her room.

"Qihan... Qihan... Qihan... Wake up." Yu Qi patted Yi Qihan's shoulder.

Yi Qihan opened his eyes.

"Oh, Yu Qi... Hello." Yi Qihan rubbed his eyes.

"So, you should go and rest on the bed properly." Yu Qi advised.

"Yeah... Yeah... I just take a nap here." Yi Qihan stood up and walked in his room's direction.

Yu Qi shook her head before entering her room. Neko-chan greeted Yu Qi.

"Master, welcome back," Neko-chan said.

"What are you doing?" Yu Qi asked.

"I study design," Neko-chan answered.

"Design about what?" Yu Qi asked again.

"About cat's body robot. It will eventually become my body in the future." Neko-chan said excitedly.

"After you finished the design, you can give it to me. I will build it for you." Yu Qi nodded.

"Yeah... I design the coolest cat robot's body." Neko-chan was very determined.

"I am looking forward to it." Yu Qi smiled.

Neko-chan continued studying. Yu Qi sat in front of her laptop. She had not investigated about the white powder for a long time.

The last time, she found out about Mr Jack from Country Helix after hacking into the country database. Actually, she found something similar with the white powder in Elder Mong's body.

Yu Qi assumed Elder Mong might get into contact with a similar substance. Yu Qi began to investigate about Mr Jack's whereabouts recently.

It seemed Mr Jack travelled a lot to the Suman Continent recently. Suman Continent was a close place. Only a few people could enter and exit Suman Continent.

Yu Qi tried to type Suman Continent to search for some information about the place. However, there was not much information about the place.

It just stated it was a place full of ice. The minimum temperature was -50 degrees Celsius while the maximum temperature was 15 degree Celsius. Not many wonderful places to visit there.

"Hmm... A perfect place to hide something." Yu Qi smiled.

Yu Qi began to hack into their system. She wanted to see whether this place was worthy of her search.

10 minutes after hacking the system, the other side began to attack Yu Qi. Her smile deepened. The security was very good meaning there was something over there.

The hackers on the another side were very good. They mercilessly attacked Yu Qi. They also wanted to find out about Yu Qi. However, Yu Qi managed to block them from finding her out .

'I will come back soon. Wait and see. From Q.' Yu Qi left the message and stopped all of the connection.

"Master, why don't you tell me that you are playing?" Neko-chan asked in an aggrieved tone.

"Well, I just incidentally stepped into that. I did not plan to play for so long." Yu Qi said.

"Next time, call me too." Neko- chan reminded Yu Qi.

1542 Chapter 1542

At Suman Continent

"Someone tried to hack into your system half an hour ago, Sir Alex." A hacker who was in charge at the time reported to Alex.

"Did you catch the culprit?" Alex asked.

"He retreated after we detected him. But he left a message." The hacker stated.

"Message? What's the message?" Alex lifted his eyebrows.

The hacker showed the message that had been left.

'I will come back soon. Wait and see. From Q'

Alex read the message. He snorted. "How bold."

"Q is a hacker that recently appeared. He had attacked Country Helix before." The hacker told Alex what he knew about Q.

"Humph... Just a small country." Alex looked down on Country Helix. Then he asked. "So, can you find where he is right now?"

"I am sorry, Sir Alex. He retreated so fast. He erased all of his traces. We only managed to get the location but not the exact location." The hacker apologized.

"What is he?" Alex asked.

"We traced his IP address. It was Binhai Nation." The hacker informed Alex.

"Binhai Nation?" Alex narrowed his eyes.

He remembered the upper management's order to investigate someone from Binhai Nation. A young woman. The upper management even sent people to tally the young woman.

The people wanted to catch the young woman and dragged her to their organization but to no avail. The young woman managed to escape all the attempts.

After a few trials, the upper management told the people not to try to catch her and just observed from afar. The young woman sometimes managed to escape the observation.

'Is this a coincidence?' Alex rubbed his chin.

"Did he manage to get into your data system?" Alex asked.

"No, sir." The hacker said.

"Since he tells us that he will come back, then, let's just wait for him. Inform me when he is here. In the meantime, try to strengthen the security." Alex ordered.

"Yes, Sir." The hacker received the order.

Alex did not think that he needed to report the matter about the intruder to the upper management. He could take care of this matter.

...

Yu Qi managed to get permission to bring Elder Mong outside. She asked the nurse, He Ling to bring the wheelchair here.

"Do we need someone to lift Elder Mong onto the wheelchair?" He Ling asked.

"Hmm... No need for that. I can handle it myself." Yu Qi stated.

Yu Qi turned to Elder Mong. "Excuse me, Elder Mong." She easily lifted up Elder Mong and put him into the wheelchair.

Elder Mong and He Ling were flabbergasted.

"Doctor Yu Qi, you are so strong." He Ling commented after she snapped out of the surprise.

"Well, I do practice martial arts." Yu Qi smiled. "So, Elder Mong, should we go outside?"

Yu Qi pushed the wheelchair and went outside. There was a place where the patients could come and enjoy the scenery outside. Tang Private Hospital really cared about the patient's mental state. That was why this place had been built here.

"Elder Mong, how do you feel?" Yu Qi asked.

"It has been a long time since I stepped outside and inhaled the fresh air like this." Elder Mong looked up at the sky.

It was indeed a long time since he stepped out like this. He had been locked up until he had been saved by Binhai Nation's government. He did not expect to be saved at this age.

Yu Qi did not say anything else after that. She just watched Elder Mong in silence. If it was true that Elder Mong was a test subject, he must have been locked up somewhere and could not get out like this.

"The sky is indeed beautiful." Elder Mong said.

"Yeah. It is..." Yu Qi agreed with Elder Mong.

"How about the sea?" Elder Mong asked.

"I can show you the picture of the sea if you want." Yu Qi said.

"Then, show it to me." Elder Mong looked at Yu Qi.

Yu Qi took out her phone and searched for pictures of the sea.

"This is the picture of the sea during the day." Yu Qi showed the picture of the sea to Elder Mong.

"Hmm... It is so beautiful." Elder Mong smiled.

"This is the picture of the sea during the night." Yu Qi showed another picture.

"Wow, the sky is green. How is this happening?" Elder Mong was curious about that.

"This is called Aurora Sky. A light from outer space makes it happen." Yu Qi explained how simple it was.

"How lucky to go and see this beautiful phenomenon." Elder Mong smiled sadly.

"If you want, you can go too." Yu Qi stated.

"I don't think so." Elder Mong looked up to the sky again.

"I know that you are sick right now. But it does not mean you will be sick forever. When you are healthy again, you can go travel." Yu Qi

"You really think so?" Elder Mong asked.

"Of course. Right now, you just need to cooperate with us and accept our treatment." Yu Qi motivated Elder Mong.

The reason why Elder Mong's body rejected the treatment, was not because he wanted to reject it but because his body subconsciously rejected the treatment due to his mental health.

He did not think he could survive. He lacked the motivation to live. If he had one, Yu Qi believed he would want to live and accept the treatment properly.

1543 Chapter 1543

"I want to live." Elder Mong made the determination.

"Yeah. That's the spirit." Yu Qi smiled.

After that evening, Elder Mong gave 100% cooperation. He listened to all the instructions that the doctors and nurses told him to do.

Professor Song Shan was surprised by the change of attitude. At first, Elder Mong gave a cold shoulder to him and did not follow anything he told Elder Mong to do. But now...

He tried to ask the nurse about the sudden changes. He Ling did not know the full story. But she knew when the change happened.

He Ling told Professor Song Shan about the evening. Professor was curious about what Yu Qi had told Elder Mong that made Elder Mong change 100%.

After the treatment, Professor Song Shan went to find Yu Qi. Yu Qi was currently eating lunch alone. Professor Song Shan invited himself to join Yu Qi.

"Doctor Yu Qi, may I sit here?" Professor Song Shan asked.

Yu Qi was eating and nodded at the sudden question. It was not her property anyway.

Professor Song Shan started eating his lunch too.

"Doctor Yu Qi, may I ask you some questions?" Professor Song Shan requested Yu Qi's permission.

"Sure. What is it?" Yu Qi said.

"I heard from Nurse He Ling that you brought Elder Mong outside yesterday." Professor Song Shan stated.

"Yes, I did after getting permission." Yu Qi was afraid that Professor Song Shan thought she was acting without permission. Well, since Elder Mong was a secret patient.

"What did you say to him? He changed into another person this morning. I thought I got the wrong patient." Professor Song Shan wanted to know.

"You know that Elder Mong's body rejects our treatment plan, right?" Yu Qi asked.

"Yes." Professor Song Shan nodded.

"Well, it was actually his mind subconsciously rejecting the treatment making the body reject the treatment too. Why? Because he does not believe that he will recover from his illness." Yu Qi paused for a moment before continuing again.

"He always looked outside the window. I think he wanted to go. So, I asked for permission to take him out. When he was out, he looked at the sky, longing for freedom. We talked about many places. I could see in his eyes that he wanted to go out and visit those places. So, I told him that if he wanted to go out, he needed to change his mindset. Don't reject the treatment. Cooperate with the doctor who wants to help you. So, that is the reason why he became like that now." Yu Qi explained.

Professor Song Shan was speechless. He never thought about that. So, because of Elder Mong's mindset, his body rejected the treatment plan.

If Yu Qi did not do something like this, he thought Elder Mong would not be able to recover. He nodded several times.

"Doctor Yu Qi, you really think out of the box." Professor Song Shan smiled.

With a doctor like Doctor Yu Qi, the patients would be fine.

.....

Grandma Wei read the news about Chi Yuan's life imprisonment. She was shocked to know it. She thought Chi Yuan was not doing something like that.

No... No... No... This could not be. Chi Yuan should not be spending the rest of her life in jail like this. She wanted to go and meet Chi Yuan.

"Mother, you want to go out today?" Feng Ni Lan asked when she saw her mother-in-law dressed up to go out.

| "Yes. I want to go out. What? I can't go out?" Grandma Wei asked in an angry tone.

"Of course not. I am just asking." Feng Ni Lan said.

"Humph!" Grandma Wei rolled her eyes at Feng Ni Lan before walking away.

"Be careful when you are out." Feng Ni Lan told her mother-in-law.

Grandma Wei got into the car and asked the driver to send her to the Baiyun Residential area where Chi Guang Wei and Li Cui lived. She wanted to meet Li Cui.

What Grandma Wei knew was that the prison security did not allow the non-family members to meet the prisoner without the family member's consent. So, Grandma Wei wanted to bring Li Cui to meet Chi Yuan.

Li Cui was surprised to see Grandma Wei here. After Grandma Wei explained to Li Cui that she wanted to see Chi Yuan and wanted Li Cui to accompany her to meet Chi Yuan, Li Cui agreed.

Both of them went to prison together. Li Cui completed the paperwork that was required to meet the prisoner. They needed to wait for a while since the police needed to call Chi Yuan over.

Grandma Wei was already waiting at the meeting place. When Chi Yuan appeared in her sight, she was shocked to see Chi Yuan's condition.

Chi Yuan's face was pale and she lost a lot of weight after staying a week in jail. Because of what? She did not have an appetite to eat since she was disgusted by the food.

However, she could not strike for hunger. So, she forced herself to eat the disgusting food. She was on the brink of sleeping when someone called her and told her that she had a visitor.

Chi Yuan forced herself to stand up and walked to the meeting place. She thought Li Cui came to check on her. She wondered why Li Cui wanted to meet her now.

1544 Chapter 1544

Grandma Wei burst into tears when she saw Chi Yuan. Her Yuan-er was sunk into this kind of condition.

Chi Yuan's eyes lifted up when she saw Grandma Wei in the meeting room. She quickly approached the glass and took the telephone.

"Grandma Wei." Chi Yuan called Grandma Wei.

"Yuan-er." Grandma Wei cried out. "Why are you losing so much weight? They did not give food to you?"

"They give me the food but I don't have any appetite to eat that food." Chi Yuan complained.

The food was so disgusting. How could she as a heiress eat something like that? No, she could not.

"Grandma is sorry." Grandma Wei felt heartbroken again when Chi Yuan said that.

"Grandma Wei, can you help me get out of this place? Please, I am begging you." Chi Yuan whimpered.

Grandma Wei showed a difficult expression. Of course, she wanted to help Chi Yuan get out of this prison too but she did not have any power to do so. She was thinking to get help from his son but when she called about his husband's warning, she felt afraid.

"Grandma is sorry. I can't help you." Grandma Wei apologized.

"Can you ask Uncle Zichen for help?" Chi Yuan still wanted to leave this prison.

Grandma Wei remembered when she asked Wei Zichen about helping Chi Yuan, Wei Zichen mercilessly rejected her.

Seeing Grandma Wei's reaction, Chi Yuan's heart became cold.

"If you can't help me, why do you come here to see me?" Chi Yuan asked.

"I..." Grandma Wei did not know how to answer the question.

"Since you can't help me, you don't have to come here." Chi Yuan said.

She acted tough to Grandma Wei because she knew that Grandma Wei would not leave her like this.

"No... No... Don't talk like this. I will try to help you. You just need to hold on. Okay?" Grandma Wei could not help to promise.

"Thank you, Grandma Wei." Chi Yuan smiled weakly.

Seeing this, Grandma Wei determined to ask for help from Wei Zichen once more time.

"You need to eat properly in the meantime, understand?" Grandma Wei looked at Chi Yuan's face once again.

"Yes. I will try." Chi Yuan stated.

The meeting was over. Chi Yuan needed to go back to her cell and Grandma Wei was leaving. Li Cui was waiting outside.

"How's Yuan-er?" Li Cui asked.

"She lost a lot of her weight. I am really distressed." Grandma Wei sighed.

"I am worried about her too." Li Cui said.

"I will try to ask my son once more again." Grandma Wei stated.

"Okay. Thank, Old Madam Wei." Li Cui thanked Grandma Wei.

Grandma Wei and Li Cui went their separate ways. Grandma Wei asked her driver to drive her to Wei Zichen's office. The driver obeyed the order and brought Grandma Wei to Wei Zichen's office.

Grandma Wei arrived at Wei Zichen's office. She went to the front desk.

"Is Wei Zichen in this office?" Grandma Wei asked.

The receptionist looked at this old woman up and down. Listening to her calling Wei Zichen by his name, meant this old woman had some relationship with Wei Zichen. This old woman also dressed as a typical rich old woman.

"May I know who you are, Madam?" The receptionist asked.

"I am his mother. I want to meet him right now." Grandma Wei demanded.

"Old Madam Wei? Wait, I will ask his assistant first." The receptionist was panicked. She did not expect Wei Zichen's mother suddenly showed up.

Wei Zichen frowned when he knew that his mother was there. He was curious as to why his mother He quickly asked his assistant to bring his mother up.

Grandma Wei saw his son and sat in front of him.

"Mom, what are you doing here?" Wei Zichen asked.

"I want to ask for your help." Grandma Wei spoke with a condescending attitude.

Wei Zichen frowned. It must not be a good thing. "What is it?"

"Change Yuan-er's punishment. Life imprisonment. That is ridiculous. Reduce her punishment to one year at most." Grandma Wei said.

Wei Zichen was speechless. Her mother still wanted to intervene in Chi Yuan's matter.

"Do you hear me?" Grandma Wei waved her hand in front of Wei Zichen when seeing his son did not give any response to her demand.

"Mom, I already told you that I can't do anything about that. Miss Chi was already found guilty. She murdered a person and she should face the consequence." Wei Zichen sighed.

"You are someone with power. Can you pull some strings?" Grandma Wei was still persistent with the topic.

"Mom. I can't do anything. Why can't you understand?" Wei Zichen sighed while holding his head.

"She did not deserve that." Grandma Wei stated.

"Don't deserve that? Mom, she is a murderer. She killed a person at a young age. Just because she was jealous." Wei Zichen wanted to reason with his mother.

"No... She did not mean to kill that woman." Grandma Wei said.

Wei Zichen narrowed his eyes. "Mom, tell me. Why do you desperate to help Miss Chi these much? Is there something that I don't know about this?"

Grandma Wei was panicked for a moment but she quickly calmed down. "There is nothing that you need to know. I just want to help her because I watch her grow up. She accompanied me a lot. I just don't want her to waste her time in prison for the rest of her life."

"Mom, I already said it and I will say it a million times. I can't help her. There is nothing that can help her at this point." Wei Zichen said.

"You!!! Unfilial son! I am asking you to help me here. I am your mother." Grandma Wei slammed her hand onto her knee.

"Yes. I am your son but there is no way that I will do something like this for you." Wei Zichen stood firmly.

"You! I am leaving." Grandma Wei was very angry.

Wei Zichen sighed. He took out his phone and called his wife.

"Why are you suddenly calling me at this hour?" Feng Ni Lan just finished doing her chores.

"Do you know that my mother came to my office just now?" Wei Zichen asked.

"Huh? Did she go to your office? Well, I know that she was going out but I didn't know where she get. Why did she go to your office?" Feng Ni Lan asked.

"She came here asking to help Miss Chi again." Wei Zichen said.

"What? She is still on about that? I don't understand why she likes that girl so much. More than her own granddaughters." Feng Ni Lan frowned.

"I think there is something more than this. I will try to investigate that. I will go back to work for now." Wei Zichen stated.

"Yeah. Take care of yourself." Feng Ni Lan said.

The call ended there.

As for Grandma Wei, she remembered that she still had another son, Wei Yan. She was thinking of getting help from him. She then asked the driver to drive her to Wei Yan's office.

However, when she arrived at Wei Yan's office, she got the news that Wei Yan was out of the city. He went outstation.

She did not get the result that she wanted. So, she returned home, feeling angry.

Coincidentally, she met Gu Muxue who just wanted to return home after meeting with Feng Ni Lan. Gu Muxue knew that Grandma Wei went to see Wei Zichen at his office. Feng Ni Lan told her that.

"Mother." Gu Muxue greeted her mother-in-law.

"Are you aware that your husband go outstation?" Grandma Wei asked.

"Yes." Gu Muxue nodded.

"Why didn't you tell me sooner? Wasting my time going to his office." Grandma Wei scolded Gu Muxue.

"But Mother, I didn't know that you wanted to see him. You should call him first and ask him whether he is there or not. Not just go to his office like that." Gu Muxue said.

"Oh, now I need to set an appointment to meet my own son?" Grandma Wei snorted.

"That is not what I mean." Gu Muxue sighed.

"Forget it." Grandma Wei entered the house.

.....

The treatment of Elder Mong went in progress. Elder Mong could feel that his body felt stronger than before. Yu Qi was happy with this progress.

Yu Qi went to her research room. She wanted to investigate the organization that produced the white powder.

"Neko-chan, I am bringing you to play." Yu Qi stated.

Neko-chan jumped off happily. "Really? I am going."

Yu Qi smiled as she sat in front of her computer. She began her operation with Neko-chan's help.

"You should attack them openly. I will attack them in secret." Yu Qi told Neko-chan.

"Sure. I will do so." Neko-chan smiled.

At the Suman Continent, the hackers who were currently in charge noticed someone trying to hack into their system. They remembered the warning issued by Alex last week about someone who wanted to hack into their system and retreated after that.

That person informed them that he would come back again. They guessed this person right now was that person. They immediately informed Alex about this matter.

Alex quickly came to see the matter.

"What is the situation right now?" Alex asked.

"This person tried to hack into our system. We noticed after he succeeded in entering our third firewall. We're currently engaging him." A person reported to Alex.

"You can not block him directly?" Alex asked.

"No, Sir Alex. He is indeed good." The person stated.

"Move. I will try to attack him. You, on the other hand, try to find his location." Alex ordered.

"Yes, Sir." Everyone nodded.

Neko-chan who currently attacked the system noticed the change in the person who counterattack her.

'They must have changed the person. Well, I just need to attack them, so that, Master can enter their system safely.' Neko-chan smiled.

Both sides had a ferocious fight. Alex could feel that the hacker this time was not someone that they usually faced. It was very good. He was very good.

"So, have you guys got his location?" Alex asked while his hands were typing so fast.

"Sir Alex, we are trying to detect his location but still could not detect his exact location. He is really good at masking his location." One of his subordinates answered.

"Tsk." Alex clicked his tongue. "Take this over for me. I will try to locate his location."

Alex stopped attacking the hacker and started detecting Neko-chan's location. As his subordinates said, this person was really masking his location.

While they were focusing on Neko-chan, Yu Qi was finally at their 10th firewall. She did not know how many security walls they had.

Once she was about to work on cracking the 10th firewall, her computer alerted her that the other side had discovered her.

"Sir Alex!!!" Alex's subordinates shouted his name.

Alex was shocked when they heard the alarm. It seemed someone had passed their 9th firewall and was about to crack the 10th firewall.

1546 Chapter 1546

Their system had an alarm system. If someone touched the 10th firewall, the alarm would be triggered like this time.

"So, they are working together." Alex gritted his teeth knowing this now.

Someone provoked them openly so that, their attention would be all on this man. It would make sure that another person could break into their security system in silence.

Luckily they had the alarm system, otherwise, these people would successfully hack into their system.

Yu Qi smiled when she had been detected. It seemed she needed to take care of this matter on another day.

Before she took her leave, she bluntly left another message to her enemy.

'I am having fun. I will come back again. Take care. From Q.' At the end, she put the smiling cat face.

The next moment, all of the computers in the room showed the message. Alex slammed his hand on the table.

"This psycho!!!" Alex shouted angrily.

He was very angry when no one including himself did not notice another intruder until the alarm triggered.

"Do we get these bastards' location?" Alex asked after he calmed down.

"No, sir. Like last time, we just detected the IP from Binhai Nation. Not the exact location." His subordinate stated.

He could not get angry with his subordinates because this time, he fought with these bastards himself. He knew that they were capable of doing so.

"Check the system. See how much damage there are and repair them as soon as possible." Alex ordered.

"Yes, Sir." His subordinates answered.

"I need to go and report this incident to the upper management." Alex stepped out.

This time, he needed to give the report. Since he already determined that these bastards were a threat to their organization. The upper management needed to know about this and they could come on with a solution and how to handle these bastards.

....

"Master, I am having so much fun today teasing those idiots," Neko-chan said to Yu Qi.

"Hmm... Me too. It is very fun. Their system is surely worth cracking." Yu Qi stated.

"Then, why are we retreating?" Neko-chan still did not understand why her master backed off so quickly.

"Well, I can try to crack their security... But I need to go to the hospital and check Elder Mong's condition." Yu Qi said.

"I see. That's a shame. Well, I will continue studying the design, then. Call me if you want to do something like this again." Neko-chan meowed at the end.

Yu Qi chuckled. She closed her computer and walked out of her room. She saw Dian Shu Xian.

"Brother Shu Xian." Yu Qi called Dian Shu Xian.

Dian Shu Xian stopped walking when he heard Yu Qi's voice.

"Oh, Yu Qi... Staying over?" Dian Shu Xian asked.

"No, I need to go to the patient to check his condition." Yu Qi said.

"I see." Dian Shu Xian nodded.

"How about you?" Yu Qi asked back.

"No, I think of staying over tonight." Dian Shu Xian stated.

"I noticed lately, you like to stay over. You need to go home too." Yu Qi advised.

"I know... I know..." Dian Shu Xian just smiled.

It was not like he did not want to go home but he felt it was better for him to stay over at the research centre. Why? He actually had been stalked by a woman recently.

That woman seemed to follow him from the research centre to his house. Actually, he thought that the woman was staying in the same building as him.

But the woman stopped following him into the building since they had to enter the password to enter the building. It was a part of the security there.

After many times, this happened. He began to realize that he had been stalked. One day, he remembered that his detergent laundry was out, so he went to the supermarket and bought the item. That same woman followed him and bought the same detergent too.

He was not afraid of the woman but of himself. He was afraid that he could not control himself and injure the woman. So, staying over at the research centre was a better choice. Since that woman could not enter the building and he did not have to see her.

"Brother Shu Xian? Brother Shu Xian?" Yu Qi called Dian Shu Xian several times but Dian Shu Xian did not respond to her call.

Yu Qi shook Dian Shu Xian's hand. Dian Shu Xian snapped out of his thought.

"Oh, Yu Qi. I am sorry. I was thinking of something earlier." Dian Shu Xian stated.

"I recommend you to go home and get some rest." Yu Qi said that again.

"I am okay." Dian Shu Xian just smiled.

Yu Qi sighed. She was glad having such hardworking employees but she was afraid that working so hard would take a toll on Dian Shu Xian.

"Don't worry. I am a cultivator after all. I am not that weak." Dian Shu Xian whispered. "By the way, Grandma's birthday is 2 weeks from now on. I want to take two days off."

"Grandma Shu's birthday?" Yu Qi asked.

"Yeah." Dian Shu Xian nodded.

"Well, I need to look at my schedule first. If nothing is important, I will go with you. If not, I will ask you to give my gift to Grandma Shu." Yu Qi thought about that for a moment.

"Sure. No problem." Dian Shu Xian nodded.

1547 Chapter 1547

"Elder Mong, how do you feel lately?" Yu Qi asked.

"I am feeling great." Elder Mong stated.

Elder Mong began to smile more and more. He was unlike his old gloomy self.

"I am happy to hear that." Yu Qi also smiled.

"It is thank to you." Elder Mong remembered it.

"No. It is because of you. You make your own choice. That is why you are here, feeling better and it will be even better." Yu Qi replied.

Elder Mong looked up at the blue sky. He recalled the pain that he faced in the past.

"It was like a dream." Elder Mong suddenly said it.

"What?" Yu Qi responded.

"This kind of day. No more suffering and torture." Elder Mong uttered.

Seeing Elder Mong like this, Yu Qi kept silent.

"I was kidnapped from a village when I was 6 years old. I already don't remember where the village was. Well, it was probably because I was still young.

We, I mean, other children and I were gathered at some kind of building. A man appeared and came to us telling us that we would be living there. They also told us that we needed to show some outstanding results if we wanted to live longer.

They forced and trained us to become killers. In the process, a lot of us lost our life. The training was a torturing process for us.

One day, a new man appeared. He made the new rules. We needed to fight each other. The loser would be following him. I fought my friend and lost.

Then, from that day, the new suffering and torturing began. The man brought us to some kind of laboratory. A group of men came and injected us with something. Of course, it was not a medicine. They began to observe and record our bodies' reactions.

It was hell. Every day, they injected something into our bodies. I don't know what it was. Until one day, I heard some guys talking that we were test subjects for their research.

At that time, I was already 23 years old. I kind of understood the situation. I tried to run away. However, every time I tried, they caught me back.

To prevent me to run away since I tried so many times, they cut my right leg. After that, I gave up on the thought of running away.

I let them do whatever they wanted to my body. Until one day, they wanted to transfer me to another location. But they got ambushed by the authorities. I didn't care that I had been saved by the authorised. There was nothing that I could do at this age. I only wanted to die. Until I was sent to your hospital and met you. And here I am."

Elder Mong looked at the bird who landed on the tree and flew.

Yu Qi held back her tears.

"This is the first time I told others my story. Thank you for listening to me." Elder Mong turned to Yu Qi.

"Thank you for telling me." Yu Qi smiled. "If you have a chance to meet with your family, do you want to meet them?"

Remembering his family, Elder Mong smiled sadly. "I do have an older brother and younger sister. They must have their own family. Probably they already have their own grandchildren."

"I will try to find them for you." Yu Qi made a promise.

"You don't have to, Doctor Yu Qi." Elder Mong did not want to trouble Yu Qi.

"It's okay." Yu Qi just smiled.

She looked at the sky. It was changing colour.

"Let's go inside now." Yu Qi said.

"Hmm..." Elder Mong nodded.

Yu Qi began to push the wheelchair to Elder Mong's room.

"Elder Mong, do you mind if I tell others about your story?" Yu Qi asked when they arrived at Elder Mong's room.

"I don't mind. I think the authority probably wants to know it." Elder Mong stated.

"Thank you, Elder Mong." Yu Qi nodded.

She saw Liang Xiurong entering the room. "Take care of Elder Mong."

"Yes, Doctor Yu Qi." Liang Xiurong nodded.

She noticed that Yu Qi's mood was generally out of sorts. She did not ponder much about it.

Yu Qi took a deep breath. Elder Mong's story really hit her mood. She felt that her life was already miserable enough but Elder Mong's life was more tragic.

One more thing, the reason why Yu Qi asked if it was okay for her to tell someone else about his story was because as Elder Mong suspected, the authority wanted to know about it.

The authority asked her and Professor Song Shan to dig more into Elder Mong's story. She and Professor Song Shan agreed but they did not want to force Elder Mong to do so. Elder Mong needed to tell them by his own will. The authorised agreed with that condition.

Yu Qi called the authority and the people who knew about Elder Mong. They were gathered in one meeting room. Her uncles, Tang Jung Wen and Tang Jang Qin were also there.

Yu Qi began to tell them what Elder Mong told her earlier. The more they listened to the story, the grimmer their faces were. They did not expect to listen to such inhumane things.

"They kidnapped children to train them into killers. The loser became a test subject. What a cruel thing to do."

Both of them pulled the luggage toward the gate. Their destination was Fanghai Nation. As usual, the presence attracted many eyes even though they already wore sunglasses and masks.

Well, it was because they forgot to put them from the beginning. They just put it after they spotted people looking at them.

"Who are they?"

"Are they from the entertainment industry?"

"Do you want to ask them?"

"I think we can ask for their sign first."

Long Hui clicked his tongue.

"I am sorry." Yu Qi noticed that Long Hui was uncomfortable with the crowd.

"It is not your fault." Long Hui said.

"We should just use the private jet but I insist to use the other one." Yu Qi sighed.

"It's okay." Long Hui touched her forehead.

"Why there are so many people here? Is my schedule been leaked to the public?" A woman with sunglasses and a mask said.

It seemed she was an artist with her assistant and two bodyguards.

"We are really being secretive about your schedule, Sister Lily. Maybe someone else is here." The assistant said.

"I want to sit there. Empty the seat there." The artist stated.

The assistant whispered something to the bodyguards. The bodyguards then walked toward the couple who were talking to each other.

"Then, can you leave this place?" One of the bodyguards said that to Yu Qi and Long Hui.

"Why?" Yu Qi asked.

"My client wants to sit at this seat." The bodyguard stated.

"What? Your client? Then, why should I listen to your client? This place is not owned by your client, is it?" Yu Qi tilted her head.

"Please listen to our words. Otherwise, you will get hurt." The bodyguard threatened Yu Qi.

Hearing the word, Long Hui stood up. With his height, he looked down at the bodyguards. Even though they were bodyguards, they were not as tall as Long Hui.

"What do you try to do with my fiancée?" Long Hui leaked the murderous aura to the bodyguards.

The bodyguards automatically felt scared. It was like someone putting a knife in their necks.

"No... No... It is nothing... We will not disturb you anymore." The bodyguards quickly left the place.

"Why are they not leaving the seats?" The assistant asked.

"If you dare, go and ask by yourself." The bodyguard got mad at the assistant.

The assistant was shocked when the bodyguards said something like that to her. She did not dare to talk anymore. Well, they were stronger than her.

The artist heard the conversation. Those people should be listened to her and left the seat but they were not. Maybe they did not recognize her. She would reveal her identity then.

It was not like she could not sit anywhere but she noticed the man. The man looked so handsome. She wanted the attention of the man. This way, she could use the reason to approach and talk with the man.

The artist walked to Yu Qi and Long Hui.

"Hi... I am Lilly. Nice to meet you." Lilly introduced herself to Long Hui.

Yu Qi narrowed her eyes behind the sunglass. Long Hui directly ignored the woman in front of them. He did not give a damn shit about the woman.

"So, what do you want?" Yu Qi asked.

"I just want to tell you I want to sit here too." Lilly smiled.

"Oh, just now, your bodyguard threatened to hurt us if we don't move away." Yu Qi sneered.

"I am sorry for that. They must hear my order wrongly." Lilly smiled.

Lilly locked on the seat that she wanted to sit in and went to that. The seat was beside Long Hui. She sat on that chair. She sat closer to Long Hui to make sure their bodies touch each other.

Long Hui frowned. He stood up and went to sit on another side of Yu Qi.

Lilly was speechless to see this situation.

Long Hui did not look at her once. His eyes were always on Yu Qi.

"Look. Someone tried to seduce him and got rejected."

"That is hilarious."

"Who is this woman?"

"Why does she need to disturb the couple?"

"The man's looks must attract her."

"I think I recognize her."

"Who?"

"Tell us."

"Lilly, the uprising singer."

"How embarrassing. Trying to seduce a man and get rejected."

The onlookers did not lower their voices. So, Lilly also listened to the conversation. She was embarrassed. She looked sharply at the couple.

"You guys must be from the entertainment too, right? Wait for it. I will get your management to block you." Lilly said to Yu Qi and Long Hui.

"Oh, you want to block us? I don't think you can though. By the way, I am from Qiaosu Entertainment." Yu Qi sneered.

"You are from Qiaosu Entertainment too? That makes things easier." Lilly scorned. "I am also from Qiaosu Entertainment too. Dare tell me your name?"

"Why not? I am Tang Yu Qi. Want to block me? You can try." Yu Qi chuckled.

Lilly took out her phone and made a call. While looking at Yu Qi, she talked after the call had been answered by someone.

"Director He, I want you to block someone," Lilly said proudly.

"Dear Lilly, who offend you?" Director He asked.

Director He or He Chao was one of the directors of Qiaosu Entertainment. He was newly hired about three months ago. It seemed he already broke the rules that Yu Qi made.

1549 Chapter 1549

"A woman named Tang Yu Qi. She told me that she is also an artist from Qiaosu Entertainment. Can you block her?" Lilly asked.

"What? Tang Yu Qi?" He Chao felt that name was indeed familiar. After thinking for a while, he shouted.

"What? Tang Yu Qi? You offend her?"

"Huh? Is she more famous than me?" Lilly asked while pouting.

"Of course, she is more famous than you. She also has more power than you. She is the owner of Qiaosu Entertainment. The big boss." He Chao said.

Lilly stood up and looked at Yu Qi. "What, big boss?" She was so shocked by the revelation.

Yu Qi just looked at Lilly. Lilly was already trembling. She accidentally offended her big boss.

"That one who is on a call with you is Director He Chao, right? I think I need to call Brother Lang about this matter." Yu Qi said.

She remembered Lang Sun hired a few new personnel and recalled one of them had the name, He Chao. She took out her phone and made a call.

"Hello, Miss Tang, what is it?" Lang Sun answered the call.

"Investigate about He Chao and the artists under him especially Lilly." Yu Qi made the order.

"Yes, Miss Tang. Is there anything else?" Lang Sun asked.

"Hmm... Not for now." Yu Qi said.

The call ended there.

Lilly froze when she heard Yu Qi's words. The woman in front of her right now was indeed the owner of Qiaosu Entertainment. Why did she offend the big shot? How could she stay in the industry like this?

"Miss Tang, Big boss, please forgive me. I don't mean to offend you." Lilly kneeled down.

The assistant and the bodyguard as well as the onlookers were shocked by this outcome. They never thought that this woman was the owner of Qiaosu Entertainment.

"I remember about her. She was indeed the owner. She attended their anniversary party a few months ago." One of the onlookers stated.

"Yu Qi?" A man walked toward Yu Qi and Long Hui.

"Brother Shu Xian." Yu Qi smiled.

"What is going on here?" Dian Shu Xian glanced at Lilly who currently kneeling.

"Nothing. Let's go now." Yu Qi said.

"Sure." Dian Shu Xian did not care much about what happened.

Three of them walked leaving the place and Lilly who still kneeled. Lilly was still shocked. The assistant approached Lilly and helped her to stand up.

"Are you okay, Sister Lilly?" The assistant asked.

"It's over. It's over..." Lilly kept repeating the same thing.

Yu Qi, Long Hui and Dian Shu Xian arrived at their gate. The security had been checked in other passengers. It was good timing.

"Brother Shu Xian, do we invite people from the cultivation world as well?" Yu Qi asked.

"Yes. The truth is Grandma Invited more people from the cultivation world." Dian Shu Xian stated.

"I see. Owh... I want to go to the cultivation world market later. Do you think I can go?" Yu Qi asked.

"You need permission from Grandpa first. If he allows it, you can use the teleportation device." Dian Shu Xian said. Then he asked. "Why do you want to go to that market?"

"Well, I want to buy some herbs over there." Yu Qi smiled.

"Oh... I think Grandpa will allow you." Dian Shu Xian nodded.

....

"My great-granddaughter and her fiancée are not here yet?" Great-Grandpa Dian asked.

"They are on the way, Father." Grandma Shu said. She remembered something, so she reminded her father in law. "Father, you can not drag them to fight with you later. They are tired after coming here."

"What? They are cultivators. They are not that weak." Great-Grandpa Dian pouted.

"No is no." Grandma Shu said.

"Okay... Okay... I will let them rest a little bit before dragging them to fight with me." Great-Grandpa Dian behaved like a wronged child.

Grandpa Dian just watched his father being scolded by his wife. Who told his father to be a fighting maniac?

"Kun Ze, how is the preparation for the party?" Great-Grandpa Dian asked.

"It is going well." Grandpa Dian answered.

"I don't think it should be that grand." Grandma Shu said.

"No!" Both of the men answered at the same time.

Great-Grandpa Dian coughed a bit. "You are my proud daughter in law. Your birthday should be celebrated grandly."

"What my father says is right." Grandpa Dian nodded agreeing with his father too.

Grandma Shu smiled. She was grateful to marry her husband back then. Like a cliché drama, she was the unwanted daughter in her family. Her father married another woman right after her mother passed away at the age of five.

Her father also brought two children with one year younger than her. Meaning, her father was already being together with that woman while her mother was still alive.

Her father wanted to abandon her but the elders in the family did not agree because of her talent. She was talented in cultivation compared to the younger generation in the family at that time.

Her step-siblings were jealous of her achievement and always wanted to trick her. One day, she was careless and fell into their trick.

She faced a deathly monster. She was about to die before someone appeared in front of the monster, attacked and killed the monster, resulting her life had been saved by the gentleman.

That gentleman was the currently Grandpa Dian right now. They fell in love and wanted to get married.

1550 Chapter 1550

Her step-sister also fell in love with Grandpa Dian. Her father wanted her to step back and let her step-sister get married to Grandpa Dian.

Of course, she was not back off. She rebelled against her father and almost killed her step-sister in the process. Her stepmother was afraid to see her daughter lose her life.

She begged Grandma Shu to spare her step-sister's life. Her father also begged her. Seeing this situation, she sneered and let her step-sister live.

After that, the family did not dare to stop whatever she wanted to do. She safely got married to Grandpa Dian. Her father wanted to use her to climb up the ladder. But she refused.

She even told the family to change the leadership to others otherwise, something would happen. So, now the leader of the family belonged to her uncle.

"Young Master Shu Xian, Young Miss Yu Qi and Young Master Long are back." Grandpa Ray came and reported the news to his masters.

"Oh, they are back. Let's go and see them." Great Grandpa Dian was excited.

"Father, remember my words." Grandma Shu said.

"I know..." Great Grandpa Dian pouted but it was not for long.

He rushed to meet his great-grandchildren.

"Yu Qi, Hui, Shu Xian." Great Grandpa Dian shouted.

"Great Grandpa, stop running like that." Yu Qi was worried to see Great Grandpa Dian rushing over like that.

Great Grandpa Dian laughed. "You don't need to worry about that. After drinking a lot of your medicine, my body becomes stronger."

"Welcome home, Yu Qi, Shu Xian and Hui." Grandma Shu appeared with Grandpa Dian.

"Grandma, how are you?" Yu Qi went to hug Grandma Shu.

"Hmm... I am fine." Grandma Shu hugged the girl back.

"Grandpa too, how are you?" Yu Qi turned to Grandpa Dian.

"Hmm... I am fine too." Grandpa Dian answered.

"Let's go in." Grandma Shu stated. "You can take a rest first. We will call you before dinner."

"And you will come with me after dinner." Great Grandpa Dian said to Long Hui.

"Sure, Great-Grandpa." Long Hui replied.

Great Grandpa Dian looked at Grandma Shu. "I let them rest first before making them come with me."

"Yeah... yeah..." Grandma Shu sighed.

Her father in law behaved like a child even more nowadays.

Yu Qi laughed seeing the scene.

"Grandma, is Qi Qi here?" Yu Qi asked.

"She attend the class right now. She will be here during the dinner." Grandma Shu said.

Dian Qi Qi knew that Yu Qi would be coming today. So, she decided to skip the class but her mother scolded her and made her go to her class.

....

Yu Qi woke up earlier and went to the training ground with Long Hui. The training ground was already filled with the family disciples who had been training.

When Yu Qi and Long Hui showed up, they stopped what they were doing and stared at Yu Qi and Long Hui. The stares were full of admiration. They admired Yu Qi and Long Hui's strength and power.

"Hmm... Please continue what you are doing." Yu Qi said.

"Oh... We are sorry for making you uncomfortable, Young Miss Yu Qi." One of the disciples apologized.

With that, they continued practising. Yu Qi and Long Hui also began their training.

Last night, after dinner, Great Grandpa Dian dragged them to the training ground. Great Grandpa Dian made both of them fight him at the same time. Great Grandpa Dian had a lot of fun last night.

After staying at the training ground for two hours, Yu Qi and Long Hui left. Today, Yu Qi already decided to go to the cultivation world market. She already got permission from Grandpa Dian.

Grandpa Dian told them that they could only spend four hours before coming back. Yu Qi felt the time was enough for her to look around the market.

Dian Qi Qi found out about that and wanted to follow them too. Dian Ren Qi also wanted to tag along but he would not be coming with them because he wanted to go and meet his fiancée.

Grandpa Dian told Dian Shu Xian to follow them too in case something happened. Dian Shu Xian did not have anything to do today. So, he agreed.

So, five of them went to the teleportation device and teleported to the cultivation world. Yu Qi was excited when they arrived. Dian Ren Qi excused himself and left the group.

So, four of them walked to the market. It was not so far from the teleportation place. It was just 10 minutes walk.

Yu Qi found a shop which sold herbs. She immediately went into the shop. Others followed her from behind. The storekeeper welcomed them with a smile.

"Welcome... Welcome... Take a look at our herbs." The storekeeper stated.

"Sure..." Yu Qi nodded and began to look at the herbs.

Her face revealed a smile when she found the herbs that she wanted. She told the storekeeper to pack up the herbs that she wanted to buy.

Yu Qi did not have to worry about money. After their exploration inside the Miracle Space, she sold a lot of monsters' parts. She obtained a lot of money from that. And Grandpa Dian also gave them some money. She refused but Grandpa Dian insisted.

The storekeeper was happy that a big customer came today when it was his shift today. He would get a lot of commission from today's sales.
