

## **Intelligent 1611**

### 1611 Chapter 1611

"Tsk, they really come prepared." Long Hui clicked his tongue.

Everyone gulped as they felt it was difficult to breathe.

"Who is this man?" Long Hui pointed to the man who came out of the room.

"I know this man. He is one of the participants in the medical conference." The manager exclaimed.

He remembered Dr Dell because he was someone famous in his field. He also stayed at this hotel multiple times before.

"Call him for me." Long Hui ordered the order.

"Yes... yes... I will try to call him ASAP." The manager nodded and rushed out.

One of the security staff glared at Long Hui. He narrowed his eyes. This soldier thought highly of himself. Did he think that he could find clues about their organisation? He snorted and stopped looking at Long Hui.

Neither did he know that Long Hui already noticed him. He did not catch him because there was no need to do so. He did not want to change the plan that His beloved Qi Qi already laid for him.

Dr Dell walked into the security room expressionless.

"I hear you want to see me. I wonder what the matter is." Dr Dell asked.

"Who is the man that is with you while you are having a conversation with Tang Yu Qi?" Long Hui inquired.

"I don't know. Actually, I thought it was someone that she knew. Probably her boyfriend." Dr Dell just smiled.

"I am her fiance." Long Hui stated.

"Well, I am sorry. I don't know about that." Dr Dell apologized.

People could see that Long Hui became irritated. No one could blame him. His fiancée went missing.

"Print out this man's photo for me. We will try to search by ourselves." Long Hui said.

The bodyguard wanted to say something but Long Hui's glance stopped him from talking more.

The security staff did as Long Hui requested. Long Hui took the photo and left the room. People especially the manager were relieved that the man did not lash his anger toward their hotel.

The spy sent the report to the partner. Matty who received the report just smiled. Long Hui would never see his fiancée anymore.

Long Hui gathered the bodyguard into his hotel room.

"Colonel Long, how can we find Miss Tang with this picture as a clue?" One of the bodyguards, Ma Xienchen asked while holding the picture.

"Of course not." Long Hui said.

He took out the laptop and turned it on. The laptop seemed to operate by itself. The bodyguards were stunned to see it.

"What is this?" The bodyguard, Si Yonglan asked.

Then, a face appeared. They were surprised.

"Neko-chan is here." Neko-chan with a human appearance appeared on the screen.

"Do you get Qi Qi's location right now?" Long Hui asked.

"Hmm... she seemed to be moving." Neko-chan showed the map where Yu Qi was moving. I think you should take a look at [pantheonovel.com](http://pantheonovel.com)

"Hmm... Master wanted to go to their place. She hopes you don't ruin her place." Neko-chan glanced at the bodyguards.

"Colonel Long, what is going on here?" Ma Xienchen asked.

"Please explain to us." Si Yonglan also spoke.

"My fiancée had been targeted by some organisation. They had been trying out to reach for her but had no success. It was difficult for them to lay their hand on my fiancée while she was in the nation, but they saw her as an easy target when she was outside. And this Suman Continent are their territory." Long Hui began to explain.

"How does this person know about Miss Tang's location?" Si Yonglan glanced at Neko-chan.

"She is wearing the watch that has a GPS tracking right now." Long Hui stated.

"Why does Miss Tang not tell us about the situation earlier?" The bodyguard, Huang Qiao asked.

"She did not expect that they would directly attack her here." Long Hui said.

He also did not expect that.

"Since we already know Miss Tang's location, should we go to her as soon as possible?" The bodyguard, Guo Liqin asked.

"No." Long Hui shook his head.

"Huh? Why?" All the bodyguards had this question.

"She has her own plan. And there is someone watching our movement. We can not expose the fact that we already know where my fiancée is." Long Hui clarified.

"I see." Ma Xienchen nodded several times.

"So, what should we do now?" Guo Liqin asked.

"We need to make a false movement to confuse our opponent and to cover the truth." Long Hui said.

"How?" Si Yonglan inquired.

"Using this picture. You guys will go out and ask the pedestrians whether they see the man in the picture or not." Long Hui waved the picture. "While I will sneak out and go to my fiancée."

The bodyguards nodded. They finally understand why Long Hui asked the security staff to print out the picture of the man.

"Colonel Long, we will obey your order." They saluted Long Hui and went out.

When the bodyguards went out of the room, they did not notice that someone was watching them but Long Hui already knew that.

He use his power to sharpen his sense and found someone around. It must be the spy.

"Is she okay? Does she injured?" Long Hui asked Neko-chan.

"Hmm... I don't think so. Her voice is clear not shaking or anything." Neko-chan answered.

"I will go after her right now." Long Hui stated.

pañdāsNovel.com "Okay... I already move the tracking system into your phone. You may check it." Neko-chan said.

Long Hui opened his phone. The map showed his beloved Qi Qi's location.

1612 Chapter 1612

The spy gave his report again after he changed his shift to another person. He watched two hours more after the bodyguards went out.

Only Long Hui did not go out and stayed inside the hotel room. He did not know that Long Hui already went out using the balcony.

Long Hui followed the map. The red dot which still moving earlier was now stopped at one place.

Long Hui was taking a taxi at one point. The taxi could not go further. He paid the fees and got out of the taxi.

Well, the taxi could not go further because the sign stated it was private property and trespassers could be killed.

Long Hui looked at the map. Yu Qi was indeed beyond this sign. It was probably the right place.

Long Hui ignored the sign and walked past it.

At Yu Qi's side, she was already being transported into a building. Yu Qi sneaked a peak when the men did not watch her.

"Is she Tang Yu Qi?"

Yu Qi heard someone talking.

"Yeah. She is the one." Matty answered.

"Great. Go and put her into Pitcher Plant's room." The person said.

"Yes, Sir." Matty nodded.

"After that, go and report the mission to Patrick." The person said and left.

Matty went to the room mentioned by the person and put Yu Qi inside. He left the room.

Yu Qi did not dare to open her eyes yet. She knew that this room had CCTV.

She entered her space with just her soul.

"Master, are you okay?" Aoi asked.

"I am okay. I am not injured at all." Yu Qi rubbed Aoi's face.

"Then, it is good." Aoi was relieved.

"This time, I need your help." Yu Qi said to Aoi.

"What is it, Master?" Aoi was excited.

"I want you to go and explore this place. I will see the place through your eye. Use your invisibility skill too. We could not others discover you." Yu Qi stated.

"Okay, Master. Let's go out." Aoi said.

So, Yu Qi brought Aoi out. Aoi already turned invisible.

'Master, I will go first.' Aoi then went out of the room.

'Wait,' Yu Qi said.

Aoi stopped walking. 'Why, Master?'

'Before you go out, can you look around this room? Find if this room has a camera or not.' Yu Qi asked.

Aoi searched for what Yu Qi asked for. At last, he found nothing. Yu Qi was surprised that the room did not have a camera. I think you should take a look at [pandasnovel.com](http://pandasnovel.com)

Maybe people here did not think that she could not do anything to damage their place.

'Okay, Aoi. You can go out now and be careful, remember.' Yu Qi advised.

'Alright, Master. I will go first.' Aoi got out of the room safely.

He walked while looking around the area. He could not see anyone at all. Until he entered the corridor. This corridor seemed to lead to a hall.

When Aoi stepped into the hall, he almost collide with someone. Luckily he noticed that person and avoided that.

It seemed it was a hall. There were a lot of people here. Some of them were talking to each other. Some of them were eating. They even played some games.

Yu Qi who watching through Aoi's eyes was kind of confused right now. She wondered what this place was.

She told Aoi to walk more. This time, it seemed Aoi walked into some kind of laboratory. Aoi managed to sneak in when someone opened the door.

Some people wearing a full-cover full-cover walking with a tank behind them. It was probably an air tank.

Then, Yu Qi could see, in one area, they were doing some experiment with a human laying on the table unconsciously.

There were other humans on each experiment table. All of them were unconscious. Aoi walked further into the lab.

Then, they found a tank full of green liquid. Next, the tank with the green liquid too had a human body inside it.

'Aoi, you can come back now. There is nothing to look at anymore.' Yu Qi ordered Aoi to come back.

She did not want Aoi to be in danger. Aoi followed her order and returned to Yu Qi's side.

"Neko-chan, can you hack into this place's server?" Yu Qi asked Neko-chan through the watch.

"Owh, I have been waiting for that sentence." Neko-chan smiled excitedly.

She started to do her work while humming. After 10 minutes, she did it.

"Master, it is some kind of lab," Neko-chan said.

"I figure it out. Just now, I saw humans had been experimented on by other humans." Yu Qi said.

"Collect all of the information about this place and store it. Be careful." Yu Qi stated.

"Hmm... if I had been discovered by them, what should I do? Should I continue or retreat?" Neko-chan asked.

"Fight them until the end." Yu Qi said.

"Okay... I will do it as you wish." Neko-chan grinned.

Neko-chan began to hack into the base data. Well, he had been discovered. It was because she did it boldly.

The people who are in charge of server security have been triggered by the intruder.

"Call Sir Benjamin right. We have an intruder. The intruder is very skilful. We can not stop him. Maybe Sir Benjamin could stop him." The technician shouted.

It was chaos. They assumed it was a group hacker's attack because they were being attacked by multiple different attack styles.

The truth was Neko-chan multiplied herself and made the attack.

Yu Qi did not know how Neko-chan attacked them in a high profile. If she saw this, she might slap her forehead.

Yu Qi contacted Shino who was with Long Hui. It seemed Long Hui was already nearby. He just needed to find an opportunity to sneak in. The place was tightly guarded.

Yu Qi asked Shino to tell Long Hui that she was not injured. There was no need to rush.

In the technical department, the chaos continued. The head of the technical department, Sir Patrick could not stop the hackers' action.

The enemy came well-prepared. All of the firewalls that have been developed failed to stop the hackers.

Patrick knew that this matter could not be covered and needed to report to higher-ups. He tried to call the higher-ups but failed.

"Don't bother to do that. It will not connect. I also take control of your connection line."

Patrick was surprised when he heard a voice like a kid spoke on the line when he tried to make a call to their higher-ups.

"Who are you?" Patrick asked.

There was a laugh. "Oh, you don't need to know about that."

Neko-chan started to transfer the data to her disk. She knew her master probably wanted to read it.

"Master, I already take control of this building," Neko-chan reported it.

"Good job." Yu Qi said.

Yu Qi brought Rukh and Xiaohua out too.

"Kill everyone who tried to escape." Yu Qi ordered.

Aoi, Rukh and Xiaohua changed their shape. Aoi turned into a big wolf. Rukh changed into the magnificent roc bird while Xiaohua changed into her original form which was the flower monster.

All of them rushed out. Then, Yu Qi could hear people screaming about monsters.

Yu Qi also came out of the room. It was chaos. People ran away from the three creatures.

"It has been a long time since I eat human flesh." Xiaohua swallowed a person.

Rukh also mercilessly killed people using his mouth and his claws. He held people with his claws and bit the heads of the people using his mouth.

Aoi also bites off people with his mouth. After that, he spat out them. He would not eat people like Xiaohua. He would not like bloody meat like that. He preferred cooked meat.

Matty and James also rushed out after hearing the commotion. They were surprised to see the situation.

Then, they found Yu Qi as well.

παΠdαsNovel.com "Hello, we meet again." Yu Qi smiled.

"You!"

James and Matty were shocked to see Yu Qi there.

"Don't tell me, this is your doing?" Matty asked in horror. I think you should take a look at παΠdαsNovel.com

Yu Qi did not answer the question but just smiled. She turned to James.

"Are you feeling itching?" Yu Qi asked the question.

Hearing the question, James realised it was Yu Qi's doing that he felt this way.

"What? How did you do it?" James's eyes were opened widely.

"Yesterday." Yu Qi answered.

"You mean when I walk past you?" James asked.

"Correct." Yu Qi clapped her hand. "It seemed you guys don't have correct information about me."

"You know about us?" Matty frowned.

"Well, not really. It is you who come forward to introduce yourself. I am just being polite. That's all." Yu Qi smiled.

"You never faint after drinking that drink?" Matty asked.

He remembered seeing Yu Qi drank that drink.

"As I said earlier, you don't have the correct information about me. I am immune to that kind of medicine. So, I am not fainted. Well, I just played along with your plan." Yu Qi let out a small laugh.

James and Matty felt that laugh was mocking them, telling them that they were stupid for inviting such troublemakers by themselves.

Matty rushed over and wanted to attack Yu Qi. He was a killer. So, the movement that he used was meant to take human life.

However, Yu Qi was not a normal human. She stepped aside, avoiding Matty's attack. James also made a move.

Yu Qi took out something and sprayed it on James. James could not avoid it.

"What did you do to me?" James shouted.

He felt like something was crawling under his skin. The itching feeling came back and it was more intense.

"Oh, I just spray the itching powder on you. However, this is much more powerful than yesterday. Yesterday was mild. This is... Well, you can experience it now." Yu Qi laughed.

James was horrified. He started to scratch himself. But the feeling did not disappear, he increased his strength. At this rate, he would scratch until he bleed and die.

Seeing Yu Qi did not pay attention to James, James made another move. He needed to kill this woman. Otherwise, it would become an inner demon in his heart.

Yu Qi avoided Matty's attack again. Yu Qi kicked Matty right on his stomach. His body flew back and only stopped because of the wall. He vomited some blood.

"It is you who invite me here. You guys should not set your eyes on me. You reap what you sow." Yu Qi narrowed her eyes.

She took the dagger that Matty used and stabbed it into Matty's heart. Matty was looking at her with shock. He never thought that his life would be ended by a woman.

After confirming that Matty was dead, she turned to James who was busy scratching himself.

1614 Chapter 1614

James shouted in pain while he bled himself by scratching himself.

"Please, give me the antidote." James crawled to Yu Qi.

Yu Qi stepped aside avoiding James's hand. Then she swayed the dagger to James's heart.

Like Matty, he also did not expect that he would have died in this way, at the hand of the woman he looked down on.

Yu Qi turned and went to the experiment room that Yu Qi saw in Aoi's eyes earlier. She met Xiaohua there.

"Master, what should we do with these people?" Xiaohua went to Yu Qi and asked the question while pointing at the people in the cage.

Xiaohua was feeling kind of weird with humans nowadays. Humans even treated their kind like they treated animals. She really did not understand that.

Yu Qi flinched when she saw the scene. Even though she already had seen this, seeing this again in front of her eyes made her feel terrible.

One of the people in the cage noticed Yu Qi. He could see that she was shocked by their look right now. It seemed she was not from the people who tortured them. He crawled to the iron bar and grabbed it.

"Please kill us... Please kill us. We don't want to live this life anymore." The man begged while sobbing.

People around him noticed him acting that way and also begged Yu Qi and Xiaohua to kill them. There were also children around them and the children were staring blankly. The children seemed not to respond to their surrounding anymore.

"Master... What should we do?" Xiaohua frowned seeing the situation in front of her right now.

...

Long Hui received the information that Yu Qi already began to attack the people inside. Since that was the case, Long Hui would not hold back anymore.

He boldly attacked the guards. The guards were surprised when they got attacked so suddenly. They tried to fight back but Long Hui was so strong. They could not fight Long Hui anymore.

Long Hui was about to enter the building. A group of men rushed over from inside. It seemed they wanted to run away. Since they did not know Long Hui and Long Hui were blocking their way, they decided to attack Long Hui.

Long Hui fought back. They took out their guns and pointed at Long Hui. They shot at Long Hui. Long Hui used his power to avoid getting shot.

One of the men frowned as he saw Long Hui's weird movement. He thought about something.

"You are from that place too?" He asked. "Since it is the case, why are you attacking us? You should help us."

Long Hui could not understand and he did not bother to understand. What he understood was they kidnapped his precious person. I think you should take a look at [pa1dasnovel.com](http://pa1dasnovel.com)

"You should know why I attack you right now." Long Hui said.

He then took out his guns and shoot people. The man remembered that they brought a woman today. The higher-ups valued that woman so much. He read the woman's information.

Yeah, the man in front of him right now was that woman's fiancée. How did this man know their location? From the report he got, the man did not have any clue at all regarding the kidnapping. Not to mention, the report stated the man did not come out of the hotel room. So, how and why this man was here?

The man thought he would investigate after he left this man. He gave a fight with Long Hui and wanted to run away. Long Hui saw the man running away. He was just killing the last man in the group except for the man who ran away.

Long Hui would not let the man get away from him. He rushed and chased the man. Since the man was a normal person, he could not get away from Long Hui who was a cultivator.

"Please... Please... Forgive me... I will not do it again." The man begged Long Hui for mercy.

"Why do you do the job if you are scared?" Long Hui asked while he swung his hand to kill the man.

The man looked at Long Hui with widely opened eyes. The man did not manage to answer Long Hui's question. He just died like that.

After he got rid of all of the obstacles, Long Hui entered the building. The building was full of blood everywhere. The corpses were everywhere. People here had been massively killed.

He walked following the map. He then saw a big roc bird who currently licked his wing and claw.

Rukh who cleaned himself saw Long Hui approach him.

"Where is your master?" Long Hui asked.

Using his wing, Rukh pointed at the door. Long Hui nodded and walked into the door. The door was not closed. When he entered the room, he could hear the people crying and begging someone to kill them. Upon close inspection, he could see that those people were talking to Yu Qi. He approached Yu Qi.

"Qi Qi." Long Hui called Yu Qi.

Yu Qi turned to Long Hui with a sad expression on her face.

"You are finally here." Yu Qi's voice trembled.

"Hmm.." Long Hui patted her back to give his emotional support to her.

"They ask me to kill them." Yu Qi clenched her fist. "But I don't know if I can do it. They are innocent people. They should not be feeling like that."

1615 Chapter 1615

Long Hui stepped in front of the men.

"Are you really want to die?" Long Hui asked.

"Yes. Please kill us."

"We don't want to live like this anymore."

"Even if we are safe, we are not confident to start our lives after experiencing something like this."

All of them cried out loudly. One of the children seemed to be conscious. He might be a teenager. He looked at Long Hui.

"Brother, are you going to kill us?" The child asked with a weak smile. "Please kill us."

Long Hui thought that the child would be asking him to save them but he was asking to kill him. What did those people do to the people here? Even the child also wanted to give up his life.

"Are you guys sure that you want to die?" Yu Qi asked with trembling lips. She was holding back her tears.

"Yes. Miss..."

pandasNovel.com "Please kill us."

"We beg you."

Yu Qi took a long breath. She calmed down. After that, she took out pills.

"If you want to die, you can swallow this pill. You will sleep and later on, die peacefully." Yu Qi stretched out the pill to the people.

"Really?" They sounded so happy since they were happy about ending their misery.

"Yes." Yu Qi nodded.

The people began to take the pills. Some of them even helped the children to eat the pills as well.

The child who talked before smiled weakly at Yu Qi. "Beautiful sister, thank you for helping us. I hope you will live long and healthy after doing this good job." After that, he ate the pills.

One by one of them slept. They looked peaceful. Some of them even had smiles on their faces.

"All of them already died." Long Hui confirmed the situation.

"Hmmm..." Yu Qi did not know she felt right now.

"Let's go outside first." Long Hui suggested.

The smell of blood was very thick. It was very uncomfortable.

Yu Qi nodded. They walked out of the building. Xiaohua was the last person to come out.

"What are you doing, staying for so long inside the building?" Aoi asked.

"Oh, I am eating the people that you killed. It is a waste leaving such nutrition." Xiaohua answered. I think you should take a look at [pandanusnovel.com](http://pandanusnovel.com)

Yu Qi turned to Xiaohua. "Do you eat the ones in the cage too?"

Xiaohua quickly shook her head. "No, I don't eat them. I just eat the one that they killed." She pointed to Rukh and Aoi.

Rukh and Aoi just killed the people. They did not eat the people. Well, even the ruthless roc bird-like Rukh did not think human flesh was as good as cooking food after eating Yu Qi's cooking.

"Then, it is fine." Yu Qi nodded.

Xiaohua looked around and found other corpses that Long Hui killed before entering the building.

"Master, can I eat that too?" Xiaohua asked Yu Qi's permission while pointing at the corpses.

"Do as you wish." Yu Qi nodded.

Xiaohua went to the corpses, picked up them and swallowed them right now. Well, she was in her monster appearance. So, it did not matter at all.

Aoi, Shino and Rukh looked at Xiaohua with a disgusted expressions on their faces. They really did not understand Xiaohua's taste buds.

"So, what should we do right now?" Long Hui asked.

"Hmm... We definitely could not leave this place like this. People will come to this place." Yu Qi stated.

Yu Qi looked at the surrounding. She thought about something.

"Brother Hui, do you remember setting the array?" Yu Qi asked.

Long Hui's eyes flinched. "You want to cover this building? The entire building?" He asked.

"Yes, I want to burn this building to its ash before others could find it." Yu Qi narrowed her eyes.

"Sure. I will do as you wish." Long Hui nodded.

Since the building was big, both of them decided to take care of each half of the building. Now, the building was kind of disappeared from normal human sight.

Yu Qi clicked her fingers. A large fire appeared on the top of the building and started to burn everything. Since the day started to turn dark, shadows formed on both of their faces.

"We will stay inside my space for the time being. We will go out after the fire burn everything. However, before that, you should give a call to the people who follow us and tell them that they did not need to worry about me." Yu Qi said.

Long Hui nodded. He made a call to Ma Xienchen telling them about their situation. He did not explain many details about them. Just told them that Yu Qi was safe and would be stayed with him for the time being to avoid the enemy.

They could go back first if they preferred. Ma Xienchen and the team rejected the idea of going back to their nation first. They would wait for Yu Qi and Long Hui first. After that, they would go back to their nation together with Yu Qi and Long.

Yu Qi, Long Hui and her contracted beasts entered the space together. Seeing Yu Qi was not in a good mood, he told her to go and take a bath first. Then, just relaxed. She did not need to think about anything. And no need to worry about cooking.

Long Hui would be cooking for today. He had some help from Xiaohua who already changed into her human form.

Yu Qi nodded and left for her room.

1616 Chapter 1616

Aran called Matty several times but no one picked up. After trying so many times, he also called James. Neither he picked up the call.

Aran did not think too much about that. He thought Matty probably went on training and left his phone in the locker or something like that.

As for James, he was probably catching up with his numerous girlfriends and did not want others to disturb him. That was why he did not pick up his call. I

So, he decided to return to their base first. He was left behind because he needed to watch Long Hui. However, Long Hui did not leave his room all day. He even put the sign 'Don't disturb' on the door handle.

It seemed there was nothing else that he needed to do here. Tang Yu Qi was already in their hands. They would not meet each other again.

Aran went to the base. However, something strange happened. The entire building went missing. He was sure that this was the place.

He looked at the map. It was correct. The building was supposed to be here. But now there was disappeared.

The building would not go disappear just like that. It was here two days ago when he returned.

Well, it was a big deal if the building went missing. Not to mention the people inside the building. They were precious manpower to their organization. And also the research here.

Aran could feel the headache coming over. But still, he needed to report this incident first.

He left the place first before making the call to the high-ups.

....

Yu Qi was dazed off while looking at the lake. She kept thinking about the innocent lives who gave up their life especially the youngest.

She did not want what made a child give his life like that. He was very determined.

She should force them to keep alive. Maybe sunshine would appear. She sighed again.

"Master is like this since two days ago." Aoi looked at Yu Qi.

"Hmm... Master is probably feeling sad about letting those victims die like that." Shino nodded.

"Hmm... If Master wants, she can let those people come inside here." Xiaohua spoke.

"No. You can't!" Bo Ya exclaimed aggressively.

Everyone was shocked. Seeing Bo Ya reject the idea, there must be something else.

"Why?" Xiaohua asked.

"You should know Master's past. She got betrayed by her friend because the secret of the space got leaked. If Master brings those people inside, there is no guarantee that they would not leak the secret. We can't take the risk." Bo Ya said.

Since Bo Ya remembered everything, he did not want the same thing to happen again. He did not know those people.

Long Hui approached Yu Qi and hugged her from behind.

"Are you alright?" Long Hui asked.

"No, I don't." Yu Qi did not keep her feeling a secret from Long Hui.

"Thinking about those people again?" Long Hui asked. I think you should take a look at [paπdasnovel.com](http://paπdasnovel.com)

Yu Qi did not sleep at all last night. Well, she could not sleep.

"It is their choice. You should not blame yourself." Long Hui comforted Yu Qi.

"I know... But still, I think I should do something else to save them." Yu Qi sighed.

"I know you are kind. But it is impossible to save everyone. However, there is one thing that you can do for them." Long Hui articulated.

"Hmm? What is it?" Yu Qi turned and looked at Long Hui.

"You can find the mastermind. Punish them. I don't think they only have this base. They probably have another base somewhere else." Long Hui said.

The idea lightened up Yu Qi's heart. Indeed, they should find the mastermind.

"Yes, we need to destroy them once and for all." Yu Qi nodded.

Long Hui could see the fire inside Yu Qi's eyes. She was determined to catch the mastermind. Well, he did not mind.

This kind of organization was a threat. He knew that the nation did not want this kind of organization to continue its operation.

He felt this organisation that their nation tried to investigate was the same as this one. The modus operation was kind of similar.

They kidnapped people. From Elder Mong's information, they trained people to be a killer. If they did not qualify to be a killer, they would be sent to a research centre as living testers.

"I think so too. It is similar to Elder Mong's story." Yu Qi nodded. "Time for depression is over. Sorry for making you worry." She smiled.

Long Hui was glad that his beloved Qi Qi recovered from the sadness.

"Oh, I forget about the fire." Yu Qi stated. She looked outside the space to see whether the fire already burned the building to ash or not.

Upon seeing the situation outside, Yu Qi was quite satisfied. Everything was burned to ash.

"It seemed to already burn out. I think it is about time we leave this place." Yu Qi said.

"Yes." Long Hui nodded.

"The bodyguards are probably worried about us." Yu Qi remembered the bodyguards.

"Probably." Long Hui nodded.

They told Long Hui that they would wait until Yu Qi and Long Hui came back. They planned to return back to Binhai Nation together.

pandasNovel.com "Well, before that, I need to do something first." Yu Qi stated.

"Do what?" Long Hui lifted his eyebrow.

"Cooking for my cuties." Yu Qi said.

They helped her a lot this time. She should give them some rewards.

1617 Chapter 1617

"Before we return, we need to do something to clean our trail. They kidnapped me and I burn their facility. I don't want them to twist the evidence that they get." Yu Qi stated.

"Hmm... That is right." Long Hui already agreed with that.

"I already told Neko-chan to search for the video about you and me coming to this place and delete them." Yu Qi explained. "The problem is how will we going to go back to the hotel?"

They needed to create an illusion that could cover the evidence. Otherwise, they still could mix up the situation and those people might point the crime on their heads.

"Hmm... Aoi can turn invisible right?" Long Hui asked for confirmation.

"Yeah." Yu Qi nodded.

pandasNovel.com "And he can grow bigger?" Long Hui asked back.

"Yeah." Yu Qi nodded again.

"In that case, why don't we use that advantages?" Long Hui smiled.

"Explain it." Yu Qi still could not get what Long Hui trying to say.

Long Hui grinned. "It seems the last night session mess up your brain."

Yu Qi's face became red. "You! Don't mention it right now. We are in the middle of a serious conversation."

Long Hui laughed. "Okay... Okay... Let's get back to the conversation." He cleared his throat. "This place is quite far from our hotel. At least two and a half hours of driving each way. We can ride Aoi while he used the invisible ability. Then, we will drop you somewhere near the hotel while Aoi sends me to the hotel room. After that, you will appear in front of everyone, creating an excuse that you need to go somewhere urgent the past few days and had just returned."

Yu Qi listened to Long Hui's plan and thought it was a good idea. "Hmm... Let's use the idea. Let's go out first. I want to disable our array."

Yu Qi called Aoi and explained the plan to Aoi. Aoi nodded and understood the plan. Even though he disliked the thought of having Long Hui ride him, still it was his master's request. He needed to follow the plan.

Aoi turned to their peers and showed a proud face telling that their master trusted him with the plan. Shino and Xiaohua were jealous about that. They wanted to have these abilities too. Only Rukh gave a dirty look to Aoi.

Yu Qi, Long Hui and Aoi came out of the space after confirming they were no one around the area. Both Yu Qi and Long Hui disabled the array that they made before.

Appeared in front of them was a place full of ashes. Actually, Yu Qi used a special fire to burn the building. That was why the building turned to ashes. If Yu Qi only used a normal fire, it might burn everything inside but the structure of the building might still be there, half destroyed.

Yu Qi wanted all of the buildings to be fully destroyed. Yu Qi remembered those innocent lives again.

"I will get the revenge on your behalf." Yu Qi swore. I think you should take a look at [paΠdαsnovel.com](http://paΠdαsnovel.com)

Aoi changed his form. Yu Qi and Long Hui immediately rode him. Aoi turned on his invisible ability. All of them disappeared. Aoi started to run.

"Hold tight. I will speed up." Aoi spoke.

The speed increased dramatically. It was very fast. Two and a half hours of driving turned into one hour. They arrived at the city.

As they planned, they dropped Yu Qi at the nearby train station. Yu Qi asked Neko-chan to edit her video coming out of the train.

Neko-chan was excited to show off her skill to Yu Qi and got the job done immediately. It was an easy task for an AI like herself.

Aoi informed Yu Qi that Long Hui was already in the room. Yu Qi walked slowly to the hotel. She entered the hotel and went to the receptionist.

"Excuse me, can you call room number 8007?" Yu Qi told the receptionist.

The receptionist looked up at Yu Qi. Yu Qi could see that the receptionist's pupils reacted violently upon seeing Yu Qi followed by the shocked expression on her face.

Yu Qi almost thought that this receptionist was part of the organization who wanted to kidnap her and that was why this receptionist was surprised by her sudden appearance. Turned out, this receptionist knew that Yu Qi disappeared and she was one of the people who had been questioned during Yu Qi's missing.

"Miss Tang, where have you been? We are been searching for you for these past few days. Your boyfriend almost went crazy." The receptionist asked.

She was talking in her mother tongue. Then she remembered about that. She changed to English.

"Oh, I am sorry. You probably did not understand me." The receptionist apologized.

"It is okay. I understand." Yu Qi replied in the same language.

"Owh... Really? Where have you been?" The receptionist asked again.

"Something was urgent. I left without my phone. So, I can not contact my fiancée. I am sorry for the inconvenience that I caused" Yu Qi made up a lie.

"I see. I will call your fiancée. He had not been out since you went missing. He must be happy to see you right now." The receptionist quickly made a call.

The receptionist waited for quite a long time. Finally, someone answered the call.

"Mr Long, is it? I would inform that Miss Tang, your fiancée." The receptionist said.

1618 Chapter 1618

Long Hui did not give any response other than a sound that something fell. The call disconnected. The receptionist thought that Long Hui fell on his knee after seeing Yu Qi. She suspected that Long Hui must be rushed out and heading down to meet his beloved fiancée.

As the receptionist expected, Long Hui appeared in the lobby super fast.

"Let's go." Long Hui pulled Yu Qi and left the lobby.

The receptionist called her manager and immediately inform him about this. The manager was quite surprised when he heard about the news.

The manager asked the receptionist whether she knew where Yu Qi went for the past few days. The receptionist told him that she did not know much about that. Yu Qi already told her that she had an urgent business that needed her attention. That was why she left this place.

The manager did not think much about that. Since Yu Qi already returned safe and sound, he was relieved. He could not sleep thinking about Yu Qi's missing. He was quite afraid of Long Hui.

The manager informed the security team that Yu Qi was safely returned. He also told them that Yu Qi had to leave for urgent business. She lost the phone and could not call others to inform them that she was leaving.

Everyone was happy knowing that she was safe. Except for one person. He was feeling weird. How could that happen? Yu Qi is supposed to be in their base right now.

He did not know what happened to their base. He thought everything was fine over there. He wanted to confirm Yu Qi's matter. So, he called Aran.

"What is it, Leodo?" Aran answered the call.

It was that man's name, Leodo.

"I heard something weird today," Leodo said.

"Weird? What is it?" Aran asked.

"I just got heard that Tang Yu Qi return to the hotel. She was with Long Hui right now." Leodo told Aran.

Aran who sat down, immediately stood up. "What did you say?"

'Tang Yu Qi returns to her fiancée.'" Leodo repeated for the second time.

Aran did not hear Leodo replied to him. Aran was very shocked. How could Yu Qi be there? She should be at their base.

However, Aran remembered that he did not find their base after searching for such a long time. He was not stupid. He was sure that he was at the correct location.

Tang Yu Qi probably did something to their base. Otherwise, there was no way that she could escape the place uninjured.

"Aran?" Leodo tried to call Aran after he realized that Aran did not respond at all.

"Oh, yeah," Aran responded. "There is something that I need to tell you."

"What is it?" Leodo asked.

"When I go back to the base, I can not find the base," Aran explained.

"What?" This time, it was Leodo who stood up in shock.

His colleagues looked at him in confusion.

"I am sorry. Please continue your work." Leodo apologized to the people around.

Leodo stepped out of the room. I think you should take a look at [pa1dasnovel.com](http://pa1dasnovel.com)

"Are you alone right now?" Aran asked.

"Yes but right now I am outside. Hey, explain to me what is going on here." Leodo said.

"I went back yesterday but I found nothing in the area that supposedly has our base." Aran started to explain to Leodo. He then continued. "Since she appears here, meaning she escaped. She must have something with the disappearance of our base."

"Can you contact them?" Leodo asked.

"I try but to no avail," Aran said. "Well, I will go to the base first to see if everything is okay. You watch their movement."

"Okay... I will keep watching them." Leodo stated.

The call ended there. Aran who just sitting around waiting for feedback from the headquarters but they still got nothing.

Aran decided to go back to the base. He thought he would see the building. But to his shock, he saw a trace of ashes here.

If there was a fire at the building, the building would not disappear to ashes. He needed to report this to headquarters.

Yu Qi must be related to this matter. He really wondered how could Yu Qi have done making the entire building to ashes.

Matty and James were probably already dead seeing that they did not answer his call.

After leaving the place, he immediately sent the report telling about the incident.

"They probably know about now." Yu Qi was humming a song.

"Hmm... that's right." Long Hui nodded.

"That is what happened if you dare to mess with me." Yu Qi said. She also added, "It might be bad news to them but it was good news for the hostages."

Long Hui looked at Yu Qi with worried eyes.

"It's okay. I am already fine" Yu Qi smiled.

She knew that Long Hui was worried about her.

"Hmm... There is nothing left here. We should leave this place and return home." Yu Qi said.

"Yeah." Long Hui nodded.

So, they started to prepare to leave. Long Hui seemed to make a call to someone.

After that, they left. The receptionist was surprised to see the couple here to check out.

"You are leaving today?" The receptionist asked. She knew that the couple was not from this place.

"Yeah. I have another urgent business that I need to settle." Yu Qi gave an excuse.

"I see. Take care of yourself." The receptionist said.

1619 Chapter 1619

The organization was restless after receiving the report from Aran. The lab which had been destroyed was one of the largest laboratories that they had.

The higher-ups sent people to the location and confirmed the report stating the laboratory was indeed destroyed.

They could not believe themselves. How could a large building turn to ashes just like that? They began to discuss the culprit. They wanted to catch the culprit who destroyed the laboratory, at the same time, destroyed their data experiment had been collected.

The higher-ups listened to Aran's story which said that Yu Qi was the possible suspect. Some of the higher-ups did not believe that Yu Qi was the one who destroyed their property. She was just a woman, nothing else.

However, some of them did not push the possibility. Well, they indeed could not believe that Yu Qi was the culprit. But she had someone like Long Hui by her side.

Long Hui was a special soldier from their country. The country probably had a weapon that could destroy the laboratory. However, it was impossible that they could destroy the laboratory without anyone noticing it.

They tried to watch the video from the security footage. Even though the building was destroyed, the footage was secured even though it would automatically be saved in their cloud server. The footage would be saved until the cameras were destroyed.

However, the bizarre thing was when they watched the footage, nothing unusual happened in the footage. People in the laboratory seemed to be normal as if nothing happened. Until the end, it was the same.

They could not get information from the footage. So, they sent another batch of people to investigate the crime scene.

Aran reported that when he wanted to return to the base, he could not find the building. It was like the building disappeared entirely.

Reading the report back, the higher-ups thought about something. One of them remembered that there was an organization that had weird abilities. The ability to make things disappear was one of the abilities that people in the organization had.

So, the higher-ups began to focus on investigating that organization. The higher-ups knew the organization. They were like kind of partners. That organization should not be messing with them.

....

Yu Qi and Long Hui returned to Binhai Nation riding the private jet. Long Hui called someone to bring the private jet here.

The bodyguards who followed Yu Qi and Long Hui here were surprised when Long Hui told them to ride the private jet.

They were surprised at how rich Yu Qi was. Well, they did not think this private jet was Long Hui's because he was just a higher-ranking soldier. His salary could not possibly own this private jet.

However, Yu Qi was different. She was high respected doctor and researcher. Not to mention, she also had a high-class jade store which could generate millionaire incomes.

If they knew about Long Hui's business, they might scare to death.

They returned to their work. Long Hui reported the situation to the military about the kidnapping.

Because he did not tell everything. He twisted some of the facts. However, he did tell them about the laboratory's existence. He told them that he managed to see the humans being caught by the people there. I think you should take a look at [alpha-novel.com](http://alpha-novel.com)

He also told about the possibility of human experiments held inside the laboratory. The military was surprised to hear about that.

They were even investigating the matter regarding Elder Mong's story. It might be related in this case.

Yu Qi went to meet Elder Mong. Elder Mong's health improved a lot. He looked much more cheerful.

"It has been a while since I meet you." Elder Mong said.

Yu Qi smiled. Elder Mong looked at Yu Qi. He could feel that Yu Qi's mind was thinking about something.

παΠdasNovel.com "Do you encounter something?" Elder Mong asked.

"Elder Mong seems to know my thought." Yu Qi smiled.

Elder Mong also smiled. "Well, you seem sad."

"Elder Mong, when you became the subject of their torture, did they also do the same to the younger children?" Yu Qi asked.

Elder Mong was surprised when Yu Qi suddenly asked that question.

"Well... yeah... They were not merciful. Since some of the children had a special condition that made them a target for the human experiments." Elder Mong said.

"Special condition?" Yu Qi narrowed her eyes.

"Yeah. Like albino. They wanted to see the albino children reacted to certain drugs or medicine. I remember. One time, I heard they were talking. They went to bring a sick child from the hospital.

They were laughing about how stupid of the parent to give their child to them just like that. I believe they told the parent that they could try to heal the child but in the end, the sick child had been used for their inhuman experiments.

The sick child died after experimenting. They told the parent that their child had died. There is nothing that the parent could do anymore." Elder Mong recalled the incident.

"They could not do anything? Why? Why can't the parent sue them?" Yu Qi asked.

"I think the parent signed the agreement. Maybe they did not read the agreement properly. However, I heard that they were saying that they paid some money to the parent. So, the parent did not make any fuss about their dead child." Elder Mong stated.

"I think I encounter the group that you mention." Yu Qi revealed something that made Elder Mong widely open, looking at her.

1620 Chapter 1620

"What?" Elder Mong was shocked. "You encounter them?"

"Yeah. I had been kidnapped by them." Yu Qi explained.

"What?" Elder Mong once again was very shocked hearing the news. "Why?"

"They tried to invite me to join their organization. I kept rejecting them. Because of that, they decided to kidnap me. I was brought to a place. It was their laboratory. I saw many people that being locked in cages. There were adults and also children." Yu Qi explained.

"How do you escape?" Elder Mong asked.

"My fiancée found me by tracking my location through the watch that I used. We killed all the people." Yu Qi added.

"How about the people in the cages? You killed them too?" Elder Mong inquired.

"They asked me to kill them. They did not want to live anymore. They begged us over and over again." Yu Qi's voice began to tremble.

Elder Mong could hear that. He comforted Yu Qi by patting her back. He understood that Yu Qi was a doctor. Of course, she wanted to save them. But not everyone could be saved.

"You help them by killing them. You ended their suffering." Elder Mong spoke.

"You think I do the right thing?" Yu Qi looked at Elder Mong.

"It is not about right and wrong. You don't have any choice. You can not bring them all out. I think they also knew about that. Bringing them out would endanger you. It would be hard for you to escape. That is why they begged you to kill them." Elder Mong added.

"I will find out more about their organization." Yu Qi said to Elder Mong.

"Don't stress yourself." Elder Mong was worried.

Not to mention, the organization had targeted Yu Qi. It seemed they were interested in Yu Qi's talent. They might send people again to kidnap Yu Qi.

"Elder Mong, you don't need to worry about that. I know my limit." Yu Qi nodded.

After done her work at the hospital, Yu Qi went to the research centre. She entered her room and saw Neko-chan playing games.

Neko-chan greeted her master. "Master, welcome home."

"Hmm... Thank you for your help."

Neko-chan just grinned. "Of course, I will help my master."

"How about the robot's progress?" Yu Qi asked.

"Going well. I am going to have a body, probably in three to five months later." Neko-chan grinned.

"Do you have the data that you extract from the laboratory last time?" Yu Qi wanted to read the information.

"Yeah. I already store it on your computer. You can check it there." Neko-chan pointed to Yu Qi's laptop on the table.

"Great. I will read them." Yu Qi nodded.

...

Yu Qi returned to Tang Residence. The maid was surprised to see Yu Qi.

"Welcome home, Miss." The maid greeted Yu Qi.

"Hmm..." Yu Qi responded. "Who's at home?"

"Everyone is here except Second Young Master and Third Young Master." The maid stated.

Yu Qi knew that Tang Jin Wei and Tang Qin Hao might be at the hospital having a night call. I think you should take a look at [pa7dasnovel.com](http://pa7dasnovel.com)

"Call me when the dinner is ready." Yu Qi said.

'Yes, Miss." The maid nodded.

Yu Qi went to her room. Before she went to the bathroom, she let Aoi and Shino out. Xiaohua wanted to come out but her look resembled Yu Qi a lot and her original form might cause some trouble, so she could not let her come out.

She rested in the bathtub. She was feeling a headache after reading some of the information about the organization.

The most disturbing information that she read was there were some names that she knew involved with this organization.

She wanted to confirm their names first. If it was true that they were involved... Sigh... She did not know what to do.

She got out of the bathtub and rinsed her body with clean water.

When she came out of the bathroom, someone was knocking on her door. She opened her door.

"Miss, the dinner is ready." The maid informed Yu Qi.

"Okay. Thank you for calling me." Yu Qi thanked the maid

She immediately put on the clothes and headed to the dining room. Everyone was there except for Tang Jin Wei and Tang Qin Hao.

"You never tell us that you are coming back. Otherwise, we can cook some of your favourites." Ming Yue said.

"No need for you to do that, Auntie Ming Yue." Yu Qi smiled.

"How is your trip to Suman Continent?" Grandpa Tang asked.

"Worst trip ever." Yu Qi stated.

"What? What happened?" Tang Han Lee asked.

Everyone turned and looked at Yu Qi waiting for her answer.

"I got kidnapped." Yu Qi said.

"What?" Everyone was seriously shocked.

"Is it true, Yu Qi?" Su Xiao who sat beside her began to look around Yu Qi's body to check if she was injured or not.

"Are you okay?" Ming Yue asked.

"Hmm... I am okay now." Yu Qi nodded.

"What happened, seriously?" Grandpa Tang asked.

Yu Qi began to tell what happened. However, she covered some parts of the truth.

"Lucky that Xiao Hui followed you over to Suman Continent." Ming Yue was relieved.

"It seems some organisations start to realize your potential." Grandpa Tang stated.

He knew how it felt to be targeted. He also experienced the same when he was at his highest position in the medical world.

"Remember to be alerted by your surroundings," Grandpa Tang said

He knew that he could not lock his granddaughter. The only advice was to make sure she was careful while she was outside.
