Chapter 1764: Injured

"If you don't want to follow me voluntarily, I don't have any choice but to force you, am I right?" Sir Xien smiled.

Yu Qi knew that the evil cultivator's aura had changed. Her body became tense. All her senses focused on the evil cultivator in front of her right now. The evil cultivator made his first attack. Yu Qi tried to hold it, but she was sent flying back. She only stopped when her back hit a tree. She coughed some blood.

"Master," Xiaohua shouted and rushed to Yu Qi. Rukh was also shocked to see Yu Qi being beaten up like this. He never saw her like this before. Sir Xien smiled as he walked toward Yu Qi. He felt that Yu Qi did not have any energy to fight back. He would make her lose consciousness and bring her back to his place. When she arrived there with him, he would discipline her until she listened to his words. Well, he did not mind using something. He was 20 meters away from Yu Qi. Then he sensed something coming from Yu Qi. He quickly avoided it. It was a needle. It seemed there was some liquid smeared at the tip of the needles.

He was surprised. If he did not avoid that, he probably would have gotten hit by the needle. He had no idea of what the liquid was on that needle, but he knew that it was not something good. It was probably a poison or something like that.

Yu Qi did not stay still. She kept throwing the needles at the evil cultivator. Sir Xien became more surprised when Yu Qi kept throwing the needles. How many of those she had in her pocket? He was getting tired of this. He used his speed to get closer to Yu Qi. This time, he would hold her tight. However, before he managed to hold her, another hand grabbed him and threw him away like garbage. He could not control his body and collided with the tree as well. The impact was very strong making him cough some blood. He lifted his face to see who the man who had such power was. He was surprised to see Long Hui.

Long Hui rushed to look at his beloved Qi Qi.

"Qi Qi, are you okay?" Long Hui asked in a panic. "Hmm... I am okay. I am lucky that you are finally here." Yu Qi was relieved to see Long Hui's arrival. Aoi and Shino were also there. "Master... Are you okay?" Shino looked at his master. He felt distressed when seeing his master like that. "Guys, take care of Qi Qi. I will handle the man." Long Hui said.

"Brother Hui, don't kill him yet. We still need him for the information about the missing people." Yu Qi reminded Long Hui. "Hmm..." Long Hui responded.

Long Hui stood up and faced the evil cultivator. His gentle expression was gone. Only the cold one left. He was looking at the evil cultivator like he was looking at the dead person. "Who are you?" Sir Xien asked.

He could see that this man was stronger than the woman. He needed to be careful. Long Hui did not wait longer. He attacked the evil cultivator. He is very fast.

Sir Xien barely avoided the attack. He was surprised. Long Hui attacked the evil cultivator aggressively. The evil cultivator dared to hit his fiancée. He would be glad to respond the same thing to the evil

cultivator. Sir Xien did not have time to attack Long Hui since he focused on avoiding getting hit. He could feel that if he got hit by this man, his life might end. However, he had a misstep. Long Hui noticed that. He grabbed the chance and attacked the evil cultivator. The evil cultivator felt the strong impact right on his stomach. 'That hurts. F**king hurt,' Sir Xien felt like his inside was about to get out.

One hit was not enough to calm Long Hui now. The attack became sharper and furiously. "Brother Hui, remember not to kill him." Yu Qi reminded Long Hui.

Long Hui hesitated for a moment. Sir Xien saw it and took the opportunity to run away. This was his first time getting beaten by someone. He never got hurt after being the evil cultivator. However, he did not look around when he was rushing to run away, his back had been slashed by Aoi.

"Ah!" Sir Xien shouted in pain. He turned around to see the big wolf behind him. Where did this big wolf come from? He never saw it before. It was impossible not to notice such a big wolf. Seeing the evil cultivator in pain, Xiaohua wrapped him with her prickly veins. She did not hold back. She chose the prickliest one.

The evil cultivator struggled a lot. Because of that, the veins tightened up. The thorn on the vein pierced into the evil cultivator's skin.

This time, Xiaohua did not use the normal veins. She used the thorns that had poison on them. The thorns released some poisons directly inside the skin after piercing the skin.

The evil cultivator began to paralyse, and he could not move anymore. Thus, he could not run away anymore.

"Good job, Xiaohua." Yu Qi praised.

Xiaohua by patting her on her head.

"Thank you, Master." Xiaohua was happy to get praise from Yu Qi.
