Chapter 1765: Using The Soul Search Method On The Evil Cultivator

"Master, praise me too. I wounded his back." Aoi mentioned his contribution.

"Hmm... You too..." Yu Qi raised her hand to rub Aoi's head.

Aoi in his bigger form lowered his head to get the patting.

Rukh saw this scene and clicked his tongue.

"You too, Rukh. Thank you for protecting me earlier." Yu Qi smiled at Rukh.

"Humph!" Rukh turned his head around. No one could see the red colour on his face.

"Hey, what did you do to me?" The evil cultivator shouted destroying the happy atmosphere.

They all turned their attention to the evil cultivator. Their expressions turned cold.

Sir Xien gulped.

"Where are the people that you have kidnapped?" Yu Qi asked.

"Why should I tell you?" Sir Xien asked.

"What did you do to them?" Yu Qi asked another question.

"Don't you already know about that?" Sir Xien chuckled.

Yu Qi's heart felt tight. If what the evil cultivator said was true, then those people were already gone.

"Tell me the truth!" Yu Qi gritted her teeth.

"Humph! You will never get anything from me." Sir Xien laughed.

"Qi Qi, do you want him to speak the truth?" Long Hui asked.

"Hmm..." Yu Qi nodded.

"Then, let me interrogate him." Long Hui stated.

"Sure." Yu Qi nodded again.

She would let Long Hui handle this.

The evil cultivator chuckled. "Even if you are the one to ask, I will not answer you." He spoke.

"Are you really sure about that?" Long Hui asked.

"What?" The evil cultivator was uncomfortable after hearing the question.

"Even If I ask your consciousness directly?" Long Hui narrowed his eyes.

"What? My consciousness?" The evil cultivator realized something. "You know that method?"

The evil cultivator immediately became pale. He started to panic.

"No way... No way... You wouldn't know that." The evil cultivator refused to believe that.

"Really? I am going to use that method on you now." Long Hui approached the evil cultivator slowly.

"No!!!! Don't come here. Don't use the Soul Search on me." The evil cultivator shouted in horror.

He did not know that someone in these modern times would know the Soul Search Method. Not everyone from the cultivation world knew this method.

He came across the Soul Search method from the ancient texts. He found out that the method was very useful in gathering the information.

He also knew when using the method on someone, that person would go crazy and worse, die. He thought about learning the method. However, it was from ancient texts. The manual has been destroyed by nature.

If this person knew how to use that method, meaning this person was already thousands years old. He looked terrified by Long Hui.

Yu Qi heard that. Oh, Long Hui intended to use that method. She forgot about that.

"Oh, I should have used that method earlier. I forgot about that." Yu Qi said.

Yu Qi's words made the evil cultivator more frightened. 'Even this girl knew how to use the method? Who are these people? Why do I meet them? Why is my luck so bad today?' He questioned himself.

Long Hui was in front of the evil cultivator right now. The evil cultivator wanted to run away but his body could not move at all.

"No!!!!!" The evil cultivator shouted.

Long Hui ignored the shout and placed his hand on the evil cultivator's head. He closed his eyes and used the method. Everything became silent.

After that, the evil cultivator also became silent. His eyes became dim and lost his focus.

After a while, Long Hui stood up. His expression looked grim.

"What's wrong?" Yu Qi asked.

"We are dealing with a group of evil cultivators. They are like an organization. We cannot fight them alone." Long Hui said.

"I see. So, what should we do?" Yu Qi was also worried.

If they formed the organization, meaning there were lot of evil cultivators like him. Meaning, they used human life force to feed themselves.

"Let's handle this situation here first." Long Hui looked at the men who did the kidnapping first.

"Yes." Yu Qi nodded.

Those men had already fainted after getting pierced by Xiaohua's veins. The veins that Xiaohua used on these men were different from what she used on the evil cultivator.

The thorns only had sleeping drugs. So, that was why they were sleeping. Yu Qi woke the men up. They were terrified when they woke up and saw the girl.

They remembered what happened before they lost consciousness. They were searching for the evil cultivator. They found him, not far from their place.

The evil cultivator was not moving at all. So, they assumed that he is dead, and that this woman is the one who killed him.

Because of that, they became more frightened of the woman.

"No... No... Don't kill us."

"Yes, we promise that we will change. We will never do something like this again. Please don't kill us."

"Please, don't kill me. I am still young and have not found my true love yet. I still want to get married and have children."

"Yes... Yes... I have a wife, a son, and a sick mother to take care of. Please don't kill us."

Yu Qi was speechless when she heard the men begging.

"Why do they think that I will kill them?" Yu Qi asked Long Hui.

"Because they think they know what they did is wrong. So, they think they deserve to die." Long Hui answered.
