Chapter 1766: Shino's New Ability

The men just realized there was another man beside Yu Qi. They were focusing on the girl. So, they did not realize there was another person besides the girl.

To add to their horror was the man's response to them. They realized that their partner was probably killed by this man, not the girl.

"Let's not waste time here." Long Hui said.

"Hmm..." Yu Qi nodded.

The men were trembling. They would be killed... They would be killed.

"Shino." Yu Qi called Shino.

The ferret came over. "Yes, Master."

The men were surprised to see that a ferret could speak human language. However, after watching the earlier fight and the most shocking thing, a girl turned her hands into the vein, a talking ferret was less shocking to them.

"Manipulate their memory to look like Brother Hui came over and saved us after they brought me here, make them forget that they saw that man." Yu Qi said.

"Yes, Master." Shino was glad that Yu Qi needed him for something.

Yu Qi found out about Shino's new ability not long ago. She was talking to Shino, not realising that there was a maid behind them. The maid was shocked when she heard that a ferret was talking in human language.

Shino subconsciously used his ability. The maid's eyes became dimmed and unfocused for a moment before turning to the normal. Then, Yu Qi noticed that the maid had forgotten everything that she had just seen earlier. This incident happened at Tang Residence.

After that, Yu Qi made Shino try his ability on several people and it was indeed working. And it had no side effect on the people that he had been tried on.

"Yes, Master." Shino nodded.

The men looked at the ferret in front of them. Shino started to use his ability.

Yu Qi could see it was working well.

"Master, I am done," Shino said.

"Hmm... Well done." Yu Qi patted Shino's head.

"Master, the girl is still unconscious," Xiaohua said.

Just now, Yu Qi asked Xiaohua to check on the girl who had been kidnapped. Seems they need not have to do anything to the girl since she was unconscious.

"How about him?" Long Hui pointed at the evil cultivator.

"Hmm... We cannot kill him here." Yu Qi said. "Oh, let's hand him over to the cultivation world. They have laws regarding the evil cultivator. Let them determine what to do with this evil cultivator."

They did not have to dirty their hands. The other cultivators in the cultivation world also needed to know about this as well.

"As for now, we will place him in my space first. We will take him out and bring him to my Senior brother." Yu Qi added.

"Why him? Why not Dian Family?" Long Hui was displeased to hear Qin Xia's name here.

"How do we explain about hiding him? Dian's family did not know that I have the space. Only Senior Brother Xia knows about that." Yu Qi explained.

"Oh..." Long Hui replied.

Jealousy could make someone lose their ability to think. Just like Long Hui now.

Yu Qi took the evil cultivator and put him inside her space.

"Okay. Let's call the police right now." Yu Qi said.

Thirty minutes later, the police arrived at the scene. They were surprised to see the men had been tied up.

"Are you the one who called the police?" A police officer asked Long Hui.

"Yes." Long Hui nodded.

"What happened here?" The police officer asked.

"These men tried to kidnap my fiancée and another girl. She is still unconscious inside the van." Long Hui stated.

The police officer had a strange expression when he saw the men. Yu Qi and Long Hui noticed that. It seemed the police officer knew these men.

Yu Qi and Long Hui assumed that these men had some connection with the police. That was why they were so brave to kidnap people around.

Yu Qi glanced at Long Hui. Long Hui also glanced at Yu Qi. They understood each other's thoughts.

Long Hui took out his identity document and showed it to the police officers.

"I am Colonel Long Hui. I hope you will take care of the men and investigate this crime properly." Long Hui stated.

The police officers were startled when they saw the identification document. This man was a high-ranking officer in the military.

"You are that Colonel Long?" It seemed someone from the police officers recognized Long Hui.

He began to salute Long Hui. Everyone else followed him. Long Hui replied with a salute.

"Handle this properly. Make sure they pay for what they have done. We will come to the police station later." Long Hui said.

"Yes, Sir." The police officers replied. "Take the men to the police station. As for the girl, bring her to the hospital. Check if she is injured."

Since it was the order from a high-ranking officer in the military, they did not dare to mess up.

The police officer who had a relationship with these men felt bitter. This time, he could no longer help to cover them. Otherwise, he was not sure whether he could stay in this line of profession or not.

Long Hui and Yu Qi left before. Their destination is the hospital. Long Hui was worried about Yu Qi. That was after he heard that Yu Qi was beaten up by the evil cultivator and coughed out some blood.
