### Chapter 681 - 681: Assist In Surgery

Ji Suk Ye got the information about the man from his uncle. Qin Xia. That man's name was Qin Xia. What a good name.

The longer she read the information, the desire to make this man hers became very high. If she could get her hands on this man, she would not need to worry about the money.

That was right. Money was very important to her. With money, she could do whatever she wanted. For the money, she could do anything.

Her parent was normal people that just worked at the farm. Her father was an older brother to her uncle, Ji Tein Lei. When her uncle visited her parent when she was twelve, she was very interested to hear the stories about the city since she was coming from the remote area.

Then she asked her uncle whether she could follow him to the city. Her uncle agreed and also her auntie since they did not have their own children. Because she was good at coaxing, her auntie liked her around.

However, her parents did not want her to go and leave them. They wanted her to grow up here with them. Because of that, she argued with her parents.

Of course, her parent was on the losing side. Her uncle and her auntie supported her. They told her parent that it was a good thing for her to come and live with them. They could provide a good life for her.

Thinking that their daughter would have a good life, her parent agreed that their daughter went with her uncle. Her mother was crying very badly when she was leaving. She coaxed her mother that she would come back sometimes to see them.

However, she could count with her fingers how many times she went back to that remote area. For the first and second year, her parent always wanted to see her once in years but after her mother gave birth to another child, they did not force her to return. Enough with a phone call.

Qin Xia. This man, she needed to have him. A president of multiple companies under him. She would seduce him and had him wrapped around her fingers.

She read the information and remembered it nicely. It might a good thing if she had this desire for her job.

Actually, she did not care much about becoming the doctor. It was her auntie that told her to be a doctor. Because she was afraid that she would be throw away, she went to university to be a doctor even though she did not interest to be a doctor.

.....

The day for Yu Qi to enter the surgery theatre again was here. As usual, before entering the surgery theatre, there were some regulations to be followed. Both of Yu Qi and Min Gu Su followed the regulations.

The surgery led by Professor Xian and would be assisted by Doctor Hu. After completing the regulations, the surgery would be started.

As for today's surgery, the patient would be having a knee replacement revision surgery. It was a surgery that needed to be performed when a knee replacement no longer functioned correctly. So, revision surgery was required. During this procedure, Professor Xian needed to replace the old device with a new one.

Revision surgery was not something to take lightly. It was more complicated than a primary (or initial) total knee replacement (TKR) and entailed many of the same risks.

A revision procedure was typically more complex than the original knee replacement surgery because the surgeon needed to remove the original implant, which would have grown into the existing bone.

Yu Qi paid a lot of attention to the surgery. The surgery was doing very well. All the people in the theatre played their roles.

Out of sudden, Doctor Hu fainted. Everyone in the theatre was shocked. The person standing beside Doctor Hu quickly took a look at Doctor Hu. The reason for Doctor Hu fainted was unknown. So, the person moved Doctor Hu from the surgery table.

Professor Xian frowned. He needed some assistance here. The patient might be having some complications if the surgery delayed.

Thinking about the patient, Yu Qi quickly stepped forward to assist Professor Xian.

"Professor Xian, I may assist you." Yu Qi offered her help.

"Who are you?" Professor Xian asked.

"My name is Tang Yu Qi, the first year resident." Yu Qi answered it.

Professor Xian remembered that name. She was a rising doctor. He heard about this girl. He attended the training session this girl conducted. Thinking the girl in front of him was the doctor, he allowed her to assist him in this surgery since delayed the surgery furthermore would have some complications on the patient's condition.

"You will assist me." Professor Xian said.

"Yes, Professor." Yu Qi nodded while looking at Professor Xian.

Then the surgery continued again. Professor Xian operated the patient with Yu Qi's assistance. At first, everyone in the theatre was very worried when the first year resident suddenly offered to assist Professor Xian.

However, after a few whiles and looking at her skills, they were relieved. She looked very experienced when assisting Professor Xian. Like it was not her first time doing this job.

Eventually, the surgery succeeded. Even though the surgery had some problems like Doctor Hu's fainting incident, in the end, everything was okay.

After stepping out of the theatre, Professor Xian called her and asked a question.

"Have you assisted in the operation before?" Professor Xian asked. He could tell from this operation. This first year resident was very familiar in doing the operation. Her assistance was very excellent.

"Yes, I have." Yu Qi answered shortly.

"I see." Professor Xian nodded. 'No wonder....'

### **Chapter 682 - 682: Suspended**

Her name once again became a topic in the hospital due to her brilliant assistance in the surgery. It did not come from any doctor but Professor Xian himself. Even that was back up with the people who were involved in that surgery. Yu Qi became the rising doctor in the hospital.

.....

After doing the normal round, Yu Qi sat in the meeting room with Ah Kean and Min Gu Su as usual. They were discussing about the surgery that Ah Kean and Min Gu Su went last night.

Out of sudden, a nurse ran into the meeting room in a panicked expression. The nurse approached Yu Qi.

"Doctor Tang, you should come and follow it. It is chaos right now. Come... Come..." The nurse said in a short breath.

It was clear that she was running to come to the meeting room.

"Calm down. Breathe properly. Then tell me what has happened, making you become so panicked." Yu Qi asked the nurse to calm down.

The nurse followed the instruction given. After she was a little bit calmed down, Yu Qi inquired. The nurse began to talk about what had happened.

"Someone is blaming you. Telling others that you have harmed her son." The nurse told her.

Yu Qi, Ah Kean and Min Gu Su were very shocked hearing this.

"I need to go and take a look at this case." Yu Qi said. "Bring me there." She asked the nurse.

Ah Kean and Min Gu Su also followed them. They arrived at the place. They could hear that a woman was screaming and crying while telling others that a doctor wanted to kill her son.

A group of doctors were there to calm down the woman. But still, the woman was crying loudly and made the noise.

The woman's eyes suddenly caught Yu Qi that just entered the door. She was sitting on the floor just now stood and ran to Yu Qi. Thank goodness that Ah Kean and Min Gu Su held the woman back before she could reach Yu Qi.

"Let me go... Let me go... Why do you harm my son? Why!!!!" The woman screamed at Yu Qi.

One of the nurses called the security team to hold the woman afraid that she might cause injury to others.

The woman was still screaming and shouting at Yu Qi. She asked Yu Qi the question many times, why Yu Qi wanted to harm her son.

"The rising doctor is making a mistake?" Ji Suk Ye sneered.

Yu Qi's expression did not change. She went to the doctor that checked the woman's son and asked some questions.

"What happened?" Yu Qi asked.

"Did you prescribe some pain relief to him?" The doctor asked Yu Qi back.

"Yes. He just check-in yesterday with a broken ankle. I treated the injury and prescribe some pain relief to him." Yu Qi explained to the doctors.

"What kind of pain relief that you prescribe to him?"

"Combination of acetaminophen and ibuprofen." Yu Qi swiftly answered that. "You may check his file." She added.

"Indeed, I remembered that." The nurse that happened doing her duty with Yu Qi yesterday acknowledged that.

"We need to investigate this matter furthermore." The doctor said.

Other doctors nodded. They looked at Yu Qi.

"So, Doctor Tang, you will be suspended from your duty until the matter is clear." The doctor said.

Yu Qi was calm even she received the suspension. Usually, some of them would act aggressively after getting suspended without anything.

"I hope the matter becomes clear later." Yu Qi accepted the suspension.

She threw a look at Ji Suk Ye and smiled icily to her. Seeing that from Yu Qi, Ji Suk Ye shivered. 'No... No... No... She will never know.'

The matter became widely spread in the hospital. Those who did not know Yu Qi much would say that Yu Qi became arrogant because she was getting the praise from others and that led her to the mistake in prescribing the wrong medicine to the patient.

However, those who worked with her before knew how was she doing her works. She was very careful about handling the patients and medicine.

Because of that, Doctor Cai, Doctor Lan, Doctor Lai, Doctor Bai, as well, Professor Xian worked on this matter. They investigated from different aspects.

The patient had a brain damage. After taking several blood tests, they finally knew what caused the brain damage. It was due to the overdose drug.

In his blood, they found many types of drugs. They were totally shocked. Some of the drugs were a higher concentration than been allowed in the blood.

The drugs were morphine, codeine, oxycodone (Oxycontin), and hydrocodone (Vicodin). It was Opioid Pain Medication, used in pain relief as well. Usually, served as pain relief after surgery.

There were also acetaminophen and ibuprofen in his blood. This combination of drugs damaged the brain. It was the cause of it.

From there, they investigated where and how the drugs got into his body. From what Yu Qi had told them, she prescribed acetaminophen and ibuprofen to the patient as the pain relief for his broken ankle. The amount found in his blood was enough to serve as the pain relief for the broken ankle.

However, for the opioid pain medication, they did not know how it got into the patient's body. Doctor Lai then mentioned. Only the hospital could accthat kindse kind of drug.

### **Chapter 683 - 683: Investigate**

From that clue, they separated into to two teams. One would go to check the CCTV. There should be CCTV's where the room that had access to those drugs. A normal person would never have the access for the room unless the hospital's staff itself.

And also there was a CCTV in the wad where the patient was staying. It might capture the person that administered the drugs into the patient's body.

However, the clues ended. On that day, the CCTV at the drug's room was broken. As for the CCTV in the wad captured nothing indifferent about the patient.

As for another team, they investigated the drug's room itself. They found out that amount of the drugs stored in the drug's room did not match the written amount in the doc.u.ment.

Meaning someone had been stealing it. The missing amount of the drug matched the amount found in the patient body. Even though they found this information but it still did not help in clearing Yu Qi's name.

...

Snow: "I need your help."

Shiro: "What is it?"

Snow: "Investigate this person. Everything about him, his family, his finance. Oh, his parent's finance too. Send the information as soon as possible."

Shiro: "Roger."

After sending the message to Han Baixe, Yu Qi returned home. It was just four p.m. in the evening. Yu Qi usually got off from her work on seven p.m. in the evening.

She felt weird all the sudden when she suddenly got off from the work this early. She sighed.

"Yu Qi." A deep voice called her name.?

She knew that voice. It belonged to her neighbour, Qin Xia.

"It is rare to see you come home this early." Qin Xia said.

"I just feel my body is tired. So, I take a week off." Yu Qi made a lie.

She did not want to trouble Qin Xia with her trouble.

"I see. Then, we can have dinner together today." Qin Xia invited Yu Qi.

"Oh, okay." Yu Qi nodded accepting the invitation.

"I will be cooking." Qin Xia's words surprised Yu Qi.

"Brother Xia, you can cook?" Yu Qi asked.

"Yeah. I'm living by myself. So, I know how to cook." Qin Xia smiled.

"I have thought you just used to eat outside." Yu Qi chuckled.

"Of course not. My junior sister always nags me, telling me not to be lazy to cook. I have learned cooking from her." Qin Xia looked at Yu Qi with a sad lingering feeling.

At the same time, Yu Qi also was watching Qin Xia. When he said something like that, her heart stung. Just like something pinched her heart. However, she ignored it.

"Well, then, I will be waiting for your cooking." Yu Qi said something to ignore the sting.

"Okay. You can come to my house at 8 p.m. By the way, you can bring your dog too. I will cook for him too." Qin Xia told her.

"Oh, okay. See you later." Yu Qi waved her hand and entered her house.

.....

"Master, where are we going?" Aoi asked.

Yu Qi just woke up from her napping after hours of doing things. She spent her time working on recovering the CCTV at Guanying Hospital.

Having the same thinking with the investigation team at the hospital, she was investigating the CCTVs in the hospital. She knew that someone just used her patient to mess with her. Framing her would be taint in her resume.

Her hands danced across the keyboard. She was hacking Guanying Hospital's CCTV system. It was not difficult breaking into the system. Not less on 20 minutes, she succeed.

She went to review the CCTV at the wad where the patient stayed. At first glance, there was nothing wrong with the video. Everything seemed very normal. However, after reviewing many times, she noticed something.

There were several loops in the video. The video already being edited. It was a piece of clear evidence that someone wanted to harm her.

But Yu Qi only smiled. It was a child play. Within 15 minutes, she restored the original video of the CCTV. She went through the video. She got it.

In the video, around 11 p.m. in the night, the mother of the patient, the one that accused Yu Qi visited the patient. The patient was totally woke up at that moment.

He could be seen talking to his mother. Probably asking for the water. His mother then took out something from her bag. It was some kind of pills.

The mother poured a glass of water and put all the pills into the glass and stirred them until it was dissolved in the water. She then gave the glass to her son.

The patient took them. Without waiting furthermore, he drunk the water. The woman talked to him once again. Probably asking him to sleep since she forced her son to lay down. Not long after that, the patient fell into sleep.

Then she called someone. As for who that she had called, Yu Qi had no idea since the video was the type of the CCTV that did not have audio.

"Master... Master... Master..." Aoi called her many times.

"Oh, sorry, Aoi. I just do some thinking. What are you asking for?" Yu Qi was currently about to wear her clothes asked back to Aoi, his question.

"Where are we going?" Aoi was excited to go out for tonight.

"We will go to eat." Yu Qi smirked.

#### **Chapter 684 - 684: Refuse His Help.**

Qin Xia invited Yu Qi to his house. When Yu Qi entered his room, she saw the secretary, Min Liang was standing while smiling at her. She greeted Min Liang by nodding at him. Min Liang also nodded.

Qin Xia brought Yu Qi to the dining table. Yu Qi was surprised to see the amount of food in the table.

"Brother Xia, you have cooked all of this?" Yu Qi asked while blinking several times.

"Yeah. It has been a long time since I have cooked. When I cook, I haven't realized that I have cooked so much. Don't worry. Just eat what you want to eat. I will not force you to finish all of this." Qin Xia said.

"But, it is waste to just throw it away." Yu Qi sighed. She knew what to feel when there was no food to eat.

"Don't worry. I will give to Min Liang. He will bring the leftover's home. He has a lot of siblings." Qin Xia casually said that.

Min Liang was just doing his work, typing some documents in his laptop accidentally pressed the 'delete' button. 'Mr. Qin knows how to lie. When do I have a lot of siblings? I am the only child of my parents.'

They started to eat. Qin Xia did not forget to serve Aoi too. Aoi's impression of him slightly increased.

"How is your work?" Qin Xia asked.

"Huh... Oh, it is okay." Yu Qi lied. Even though they were friends but she did not want him to know about her problem.

"I see." Qin Xia narrowed his eyes. Something was not right here. Well, he would find out later.

The dinner ended by Min Liang left with a lot of leftovers. He sighed. He could not finish this many.

"I will bring this to the manpower there. They will be happy with this." Min Liang put the food into his car and left the place.

....

The next day, Yu Qi did not go everywhere. She just stayed at the house, well, in her space to be exact. Sheaboutas thinking on how to make tackle this problem right now.

She did have evidence but the CCTV had been tampered by someone. Even though she had a original one, they might reverse the statement saying she tampered the video by herself. Then the video would not be used as the evidence.

The video needed to be checked by the expert that they could not doubt about that. Her eyes lifted up when she thought about some ideas.

'Military' word came inside her mind. She went outside to call Long Hui. After waiting for a few seconds, the call was answered by him.

Yu Qi: "Hello, Brother Hui."

Long Hui: "Hello, Qi Qi."

Yu Qi: " Are you busy?"

Long Hui: "Not really."

On another side, Ren Qian Yi rolled his eyes when he heard the conversation. Long Hui was 'on speaker' mode as his eyes were reading the doc.u.ments in front of him.

Yu Qi: "I want to ask for your help."

Long Hui: "Okay. Just tell me."

Yu Qi: "Do you have some expert in IT area? I want them to check the authenticity of some videos."

Long Hui: "For what? Do you have some troubles? You can tell me."

Yu Qi ended up telling him the problem that she was currently facing. However, it was not Long Hui that responded to her but Ren Qian Yi that also heard about that. He was so angry when he heard about that.

Ren Qian Yi: "How dare they try to frame you like that?"

Yu Qi: "Your friend is with you?"

Long Hui looked at Ren Qian Yi. His look was like telling Ren Qian Yi, 'How dare you to interrupt our conversation like that?'

Ren Qian Yi gulped. He was just so angry and interrupted their conversation like that. He just grinned like a foolish man sat back on his seat.

Long Hui: "Ignore him. Continue."

Yu Qi: "So, I need an expert who can prove genuine of the video."

Long Hui: "I can do it."

Yu Qi: "No..."

Long Hui on the line was slightly sad when his girlfriend rejected his help.

Yu Qi: "If you are the one who helped me, they would be questioned the genuine of the video since you are my boyfriend. So, what is the point of doing it in the first place?"

She explained the reason why she rejecting his help.

Long Hui: "I see."

Long Hui understood the reason.

Long Hui: "I do have some experts in the area."

Yu Qi: "Really? Can I borrow someone? Or is there someone in my area? I hope to meet him and explain more details to him."

Long Hui: "Meet him?"

Long Hui started producing the vinegar.

Yu Qi: "Can I?"

Long Hui: "I will try to call him. He is currently in the Guanying Military Compound."

Yu Qi: "Really? Thank you, Brother Hui."

Long Hui: "Only the word? I want more practical thanks, if you may."

Yu Qi was shocked. She was blushing.

Yu Qi: "O... Kay..."

Long Hui: "I will be waiting for that."

Ren Qian Yi was speechless while hearing this couple talking. Yu Qi might forget about him or assume that he had already left Long Hui. n-)0VcℓBIn

But this man in front of him knew that he was there and still did not feel embarrassed talking like that in front of him. He agreed with the phrase saying that, 'the man in love is totally different than before.'

### **Chapter 685 - 685: Offering The Help?**

Yu Qi went shopping for her grocery. The meat stock at the house and in the space already used up. She needed to pile up the stock. She went together with Aoi.

Before that, she walked across the dress shop. She did not even think to enter the shop. Out of sudden, her walk was blocked by someone.

"You dare to come out after harming someone? Don't you have some shame as a doctor?" The person talked to Yu Qi was Ji Suk Ye.

Yu Qi narrowed her eyes. However, she did not reply to Ji Suk Ye.

Ji Suk Ye gulped when she saw the look on Yu Qi's face. Then when she was thinking that she was in the public place, she relieved. Yu Qi could not do anything to her here.

If Yu Qi tried to do something to her, she would shout and reveal everything here. That way, Yu Qi would be a shame here and she would be saved from Yu Qi.

Seeing Yu Qi did not move at all, Ji Suk Ye finally gave her thought. "I can help you."

Yu Qi tilted her head confusing by what Ji Suk Ye wanted to tell her.

"I can help you clear your name in one condition." Ji Suk Ye continued, "Introduce me to the man with you in the hotel on that night and give me his phone number."

Yu Qi once again tilted her head again. She was so confusing even Ji Suk Ye could read her expression.

"The man with you on that night. The handsome one. I want you to introduce me to him. And I will help you clear your name. It is a good offer to you, isn't it?" Ji Suk Ye's expression right now looked like she was expecting something from Yu Qi.

Yu Qi was amused this time. Ji Suk Ye took a liking to Qin Xia. 'Brother Hui, your looks are not attracting to Ji Suk Ye. I don't know how to feel right now, happy or sad.' n-/ɔ(/p--e(-ℓ-.b..1/(n

"It is a good offer for you." Ji Suk Ye said.

Ji Suk Ye wanted to use Yu Qi. Yu Qi had a good relationship with Qin Xia. Instead of approaching Qin Xia by herself, it would be better to use someone who Qin Xia was familiar with.

Yu Qi still did not say anything. However, the corner of her lips curved up, feeling amused with Ji Suk Ye.

"Hey, speak something." Ji Suk Ye said to Yu Qi because she saw Yu Qi did not reply anything at all.

"Yeah. It is a good offer." Yu Qi smiled.

When Ji Suk Ye heard Yu Qi said that, she was assuming that Yu Qi was agreeing on her condition but the next sentence made Ji Suk Ye felt more anger.

"I will never let someone like you who have some bad intentions approach him. I think the hospital management team will help me. So, Doctor Ji, no need for your effort to help me. It is better for you to put the efforts into your work." Yu Qi ended talking and left Ji Suk Ye directly.

Ji Suk Ye was dumbfounded with Yu Qi's response. She was good enough to help Yu Qi to get her out from this problem. But not only Yu Qi rejected her and embarrassed her like that. She was very angry.

After calming down, Ji Suk Ye called her uncle.

Ji Suk Ye: "Hello, uncle."

Ji Tein Lei: "Yeah, what is this?"

Ji Suk Ye: "May I know, the problem regarding Doctor Tang, how is the investigation progress right?"

Ji Tein Lei: "Suk Ye, don't worry about that. They can't prove her innocence. She will be banned and can never become a doctor anymore."

Ji Suk Ye: "Okay, Uncle. Bye."

The call ended. Ji Tein Lei was in the management team of the hospital. Of course, her uncle knew the progress of the investigation. From her uncle's voice, he had absolute confidence that they would succeed this time.

Ji Suk Ye smirked. 'Tang Yu Qi, you will regret not to accepting my help.'

"Master, is that girl sick? From my understanding, she and her uncle are the ones who have designed this for you." Aoi already understood on the things after Bo Ya told him.

"I know. But without enough evidence, they can still get away from it. So, even though it may take longer time. Without enough evidence, they can not run away anymore." Yu Qi explained.

"I see..." Aoi was nodding.

"Sister Doctor!"

Yu Qi heard someone shouted the word 'sister' but she did not pay any attention to that and walked again. However, the next moment, she felt someone grabbed her leg.

Yeah, someone. It was a kid. The kid looked at her. His eyes were excited to see her again.

"Little San?" Yu Qi called his name.

That was right. It was the Little Young Master Yi, Little San.

"I'm happy that Sister Doctor remembers me." Little San smiled sweetly to Yu Qi.

Yu Qi squat down in front of Little San patting his head while asking him, "Are you alone?"

"No, I'm with Mom." Little San said. He leaned over and whispered. "And with our bodyguard."

Yu Qi looked around. She saw several men with normal attire while looking at Little San. She understood.

"Then, where is your mom?" Yu Qi asked.

Little San pointed to one direction. "There." And he shouted. "Mom."?

Madam Yi quickly went to her son. "Little San, don't run like that again. It is dangerous."

### **Chapter 686 - 686: Exposing Him (Part One)**

"Oh, my... It is you. Nice to meet you again, Doctor Tang." Madam Yi said after she saw the woman that her son hugged was Yu Qi.

"Nice to meet you again, Madam Yi." Yu Qi bowed as she greeted Madam Yi.

"Have you come to buy the groceries too?" Madam Yi asked.

"Yeah." Yu Qi nodded.

Madam Yi knew that she was going to buy the groceries because ahead this path only had a supermarket where people could buy the groceries.

"I have just finished shopping for groceries. Suddenly I see my son is running like that. It has made me scared." Madam Yi patted her son's head.

Little San was still hugging Yu Qi's legs. He did not want to release her legs.

"Little San, you need to release her leg. Otherwise, your Sister Doctor will trip over." Madam Yi said.

Afraid that his Sister Doctor would trip over, Little San quickly released his hold on Yu Qi's legs.

"By the way, you are not working today?" Madam Yi asked.

Yu Qi stunned for a moment before nodding. It just happened for a few seconds but Madam Yi caught that. Something happened to Doctor Tang. She would find out later.

"Okay... Okay... Little San, say goodbye to your Sister Doctor. We are returning home." Madam Yi said.

Little San changed his expression. He just met his Sister Doctor and did not spend much time with her. Now he was leaving.

"Little San, Sister Doctor has something to do. Next time, we will invite her to our house, okay?" Madam Yi coaxed her son.

Little San looked at Yu Qi hoping that she would come over to his house.

"I will meet you soon." Yu Qi nodded as she smiled and patted his head.

Little San automatically smiled. Madam Yi and Little San left together with their bodyguards.

Yu Qi went to buy the groceries as she planned to.

.....

The next day, Yu Qi had been called to come to the hospital after three days of absence. She was told to go to the conference room number three.

As she stepped in, there were many people inside. She guessed all of the head departments were here as well as the top management including Director Zheng and Ji Tein Lei as well, were here, in the conference room.

Oh, the mother of the patient also here. She was silently crying. People would be thinking that she was badly sad when knowing her son was harmed.

The judgement day had come. Yu Qi was calmed. She was not panicked at all.

Ji Tein Lei also looked at Yu Qi. He smirked as he spoke in his mind by saying, 'This is what you will get since you are not cooperating with me.' n(/OveℓℓIn

Somehow right after he finished speaking the sentence, he saw Yu Qi turned over and stared at him. Her expression looked like she knew something. 'No... No... No... She will never know it.' He brushed off the matter as he thought that it was a coincidence that Yu Qi looked at him like that.

The door was opened and Qin Xia stepped in with his secretary, Min Liang. One from the top management asked who he was.

Qin Xia did not answer as his eyes were only on Yu Qi. Min Liang stepped in and told them who his boss was. Then Qin Xia was allowed to stay in the conference room.

Director Zheng stood up and started the session.

"Today, we are gathering here to discuss about Doctor Tang. On 17th, one of the Doctor Tang's patient has been harmed. In his body, many drugs have been found, leading to organ failure and eventually put the patient in the coma state." Director Zheng started talking.

"As for this matter, the investigation team has formed to investigate about this matter. Professor Guan, please step forward and tell me what have you and your team found." Director Zheng asked Professor Guan to take over.

Professor Guan started to explain what they had found. The missing drug from the drug room, the CCTV, and everything. It was not good for Yu Qi's side.

Qin Xia just listened to the talk without any changes of expression. On another side, Min Liang was very nervous. Everything that been talking pointed to Yu Qi as a doctor that harmed her patient. He looked at Yu Qi. The woman also was very calm.

"At this point, it is clear that Doctor Tang is the wrong one. She has administered the wrong medicine to the patient." One of the top management said. He was a good friend of Ji Tein Lei.

"That's right. She should admit it." Ji Tein Lei said.

Director Zheng was worried about Yu Qi. He never thought that Yu Qi would do such a mistake. However, nothing could prove her innocence. She should reveal her identity. That might help her. Therefore, he kept gave some kind of signs to Yu Qi to notice him.

Yu Qi looked at Director Zheng. At this moment, he was the only one that knew her identity. Director Zheng must think that she needed to tell others about her identity. But she did not plan to reveal anything.

"Mr Ji, you know, if I admit this, I will never become a doctor anymore, right?" Yu Qi suddenly talked. And the question was addressed to Ji Tein Lei.

However, the one who responded to the question was not Ji Tein Lei but his good friend. Ji Tein Lei was looking surprised when Yu Qi asked him like that. So, he could not respond on time.

### **Chapter 687 - 687: Exposing Him (Part Two)**

"Of course. How can we allow a person like you to stay as a doctor? It will be dangerous to other people too." The friend said.

"What if I can prove my innocence?" Yu Qi said.

The conference room was silent at the moment. The next moment, the mother of the patient screamed loudly.

"What innocence? You have harmed my son. My only son." After that, she cried more.

Someone knocked on the door. And the door was opened. The men with military attire followed by two people behind them.

"Who are you?" Director Zheng asked politely.

One in the military attire stepped forward. "I'm Captain Zu from Guanying Military Compound as well my subordinates." Captain Zu pointed to two men. One with military attire and one with normal clothing.

As for the last person, he stepped forward. "I'm Ming Xuehai, a lawyer."

"For what reason, you guys come here?" Director Zheng asked again.

"To prove the innocence of Doctor Tang." Captain Zu asked.

"She has been proved guilty of harming the patient." Ji Tein Lei's friend said.

"Let's hear what Captain Zu have to say." Professor Xian said. He also wanted to hear it. Yu Qi was good at doing her work.

"Let's see what's on the screen here." Captain Zu said. He signalled his subordinate to show them.

"This is the CCTV that we have discussed before." People started to talk.

"That's right. It is the video from the CCTV." Captain Zu admitted it. "But, what about this?"

One the screen, it was the same video but later, someone approached the patient. The person gave something to the patient to drink. The patient seemed to know the person since he was obeying the person.

Everyone was shocked when they watched this video. Then, everyone turned to the only person that cried just now. This time, it was clear that the mother of the patient was shocked too as she watched the video.

Sensed that all of the eyes were on her, she was crying again. "No!!!! That is not me. This is fake. This is fake."

Ignoring the woman, Captain Zu started to explain. "The first video that you see is the one that has been tampered by someone. It is showing the loop of a certain time. The woman in the video has been edited out. The second video is a full version of this."

"How can we know that the second video has not been editing too?" Ji Tein Lei's friend asked the question again.

"Are you questioning the military?" Captain Zu asked. Of course in the sharp tone that all military personal would have.

"No... No..." Ji Tein Lei's friend shook his head.

Ming Xuehai stepped forward. "As for the next evidence, I will be the one to show it to you."

"Madam Lee, do you recognize this account?" Ming Xuehai asked Madam Lee, the mother of the patient.

Madam Lee was trembling as she looked at the account. She knew very well who was the holder of the account.

"It is Madam Lee's account bank. On the day, the patient fell into a coma, a huge amount of money has been deposited into her account. This makes people wonder about this money." Ming Xuehai was a lawyer. He knew how to play with his word.

"As for now, let's leave this behind first. Let's take a look at their life first. Patient, Lee Wang is a 23 years old man. He is not working at all and a drug addict. Because of that, he has a lot of debt to pay off. Since he is not working, her mother usually has to pay off his debt." Ming Xuehai continued again.

Madam Lee was already pale as she heard the lawyer's words. Of course, it was the truth.

"Because of this, his mother finally has the opportunity to get rid of her son since someone has planned to use her son to make trouble for Doctor Tang. What a vicious mother, you are." Ming Xuehai pressed on the last sentence as he was looking at Madam Lee.

"No... No... It is not like that. He has just told me that my son will sleep for a while and he will wake up after that. I have not expected that he will go into the coma state." Madam Lee's explanation made people in the conference room silent.

The statement from Madam Lee played a big role in this matter. She just admitted that this whole matter was a plan. A plan that wanted to discredit Yu Qi as a doctor.

"Do you know the who that plan this?" Ming Xuehai asked.

"No, he has just talked to me by a call." Madam Lee began to ask the question while still crying.

"Then how do you get the drug?" Ming Xuehai asked again.

"In the hospital toilet. He has said someone to leave the drug in the toilet. I don't know who that person is." Madam Lee answered.

"As for that matter, we have found something." Captain Zu suddenly interrupted. He signalled his subordinate.

Another video merged on the screen. It showed a nurse entering the drug room. Even though at first the face was blurred. After a while, the nurse came out. She eventually came closer toward the CCTV camera and showed her whole face.

"I believe this is the nurse who has taken out the drug and left it in the toilet. It has matched the time. Five hours before the incident has happened." Captain Zu said.

The investigation team blushed as they watched the video. They forgot to take a look at another CCTV camera. They just focused on the CCTV camera right outside the drug room only.

## Chapter 688 - 688: Exposing Him (Part Three)

They decided to call the nurse to the conference room. As they were waiting for the nurse to come over, Yu Qi took a glance at Ji Tein Lei.

Ji Tein Lei was not talking to his friend anymore unlike before. He just kept his mouth shut. Sensing someone was watching him, he looked around and saw Yu Qi was looking at him with a faint smile. He felt that Yu Qi was mocking him. Automatically, he clenched his fist.

'No... No... She will never know it.' He kept convinced that.

Then, the nurse showed up. She was shocked as she saw the people inside the room. Head of the departments, top management, even people from the military was there. Then, she began to tremble as she saw Yu Qi.

Yu Qi wore a faint smile on her face. However, her eyes glared sharply to the nurse as she released her aura to intimidate her. The nurse fell backwards as she was fearing Yu Qi.

Qin Xia chuckled. Everyone did not realize that Yu Qi was doing something just now. But he did.

Min Liang who was beside Qin Xia heard the chuckle. He assumed that his boss was laughing because the nurse had fallen backwards.

If Qin Xia knew what Min Liang thought, he might be presented with Qin Xia's glare.

"Nurse Xei, do you know why have you been called?" Director Zheng asked.

Nurse Xei calmed down herself. They did not know it. 'Calm down. Calm down.' She said to herself before answering the question.

"No." Nurse Xei already gained back her confidence.

"Play the video." Captain Zu told his subordinate.

Nurse Xei widened her eyes as she saw herself in the video where she entered the drug room. 'Calm down... Calm down... I can reverse this.'

"How about this?" Nurse Xei asked, playing dumb about this. "It is normal for the nurse to enter the drug room to take the medicine, right?"

Professor Xian stood up. "You told us you entered the drug room to take medicine on that day right?"

"Yes." Nurse Xei nodded.

"Then why your name was not on the record entry?" Boom!!! A question from Professor Xian made Nurse Xei speechless.

Yeah. Every entry of the medical personnel that entered the drug room would need to record their entry and the drug that they brought out from the drug room.

The investigation team already took a look at the record. Professor Xian himself read the record too. So, he remembered that there was no record of surname Xei on the record entry list.

"I... I... I'm sorry." Nurse Xei burst into tear. She was trembling as she wanted to explain. "I have been threatened too. They have asked me to do it otherwise they will kill my mother. I don't have any choice but to obey the order."

"Oh, Nurse Xei, haven't your mother already died four years ago? Which mother are you referring too? From the information that I have here, you are not married yet. So you don't have a mother in law." Ming Xuehai read the file in his file.

Yu Qi looked at Ming Xuehai amusingly. No wonder Ming Xuehai was a top lawyer in her past life. He did his homework. Even Yu Qi did not expect that a nurse played a role in this matter.

Nurse Xei heard the sentence was dumbfounded. She stopped crying at this moment. 'How... How... could... this... happen?'

"In fact, you have already received a big amount of money in your account three days ago. What a coincidence, right?" Ming Xuehai spoke.

Everyone could hear the mocking tone in his voice.

"Everything here proved that Doctor Tang is innocent in this matter. A nurse who is thinking about the money will dare to do something like that. And also a mother who should take care of her own son, wants to get rid of her son by giving the drug which can destroy his life." Ming Xuehai said coldly.

Nurse Xei and Madam Lee were already speechless. They seemed to lose their soul.

"However, they are only the pawns of the mastermind." Ming Xuehai dropped another bomb.

Everyone looked at Ming Xuehai attentively. 'Does he already know who is the mastermind?' That was what appeared in their mind right now.

"Miss Yu Qi, do you want to sue the person?" Ming Xuehai turned to Yu Qi and asked her.

Yu Qi was totally silent before. Then she smiled. "I'm a good person."

When Yu Qi said that, Ji Tein Lei felt relieved. However, Yu Qi's next sentence made him shivered as he saw Yu Qi was staring at him.

"But if someone crosses my limit, I will make them regret once they cross my limit. So, I will sue him!" Yu Qi's voice was gentle but at the same time, it was powerful.

"Well, then, Mr. Ji, we will meet each other in the court."

**BOOM!!!**

Everyone was shocked when Yu Qi said the name. Mr. Ji. Only one Mr Ji here in this conference room.

"Doctor Tang, you can not say something like that without any proof." Ji Tein Li's friend defended him.

"Do we have enough evidence?" Yu Qi asked Ming Xuehai.

"Yes." Ming Xuehai nodded.

Ji Tein Lei had already fallen into the ground. His expression... Well... Obviously terrified with all of this.

Ji Tein Lei was quite stupid though. To use his personal account to transfer the money directly to his pawns. He also hired a novice hacker to edit the CCTV video and used the same method to pay the hacker.

Ming Xuehai had already caught the hacker. And he had confessed about that.

#### **Chapter 689 - 689: Ji Suk Ye's Thought**

Another in the management team spoke. "Doctor Tang, how about we settle this outside the court?"

"Yeah, that's right. Better settle this outside the court." Ji Tein Lei's friend nodded.

"Doctor Tang, I'm willing to pay you to settle this outside the court." Ji Tein Lei particularly begged Yu Qi.

"Yeah, the fee to the process is not a small amount of money. I don't think you will have spare money for it." Ji Tein Lei's friend added.

Yu Qi chuckled. She was about to speak but someone took her chance.

"If she doesn't have money, I can provide it to her." Qin Xia was silent from very beginning suddenly spoke up.

Everyone looked at Qin Xia. They were wondering what the relationship that they had, making the man wanted to just give the money to the woman.

Yu Qi did not say anything about that. She just smiled as she was agreeing with that. She knew that Qin Xia only talked like this in front of these people. Not like he did not know who she was.

"And I will not forget about the two of you? I also will sue you." Yu Qi turned to Madam Lee and Nurse Xei.

Madam Lee could not hold anymore. She fainted on the spot. While Nurse Xei did not move anymore. She was staring blankly. Find authorized novels in , faster updates, better experience, Please click #’s-thought\_51492509846660437 for visiting.

"I suppose I can get to work again, right? So, I hope it can be announced to clear my name." Yu Qi said. She thought there was not more to continue this.

"Yes, I will make the arrangement." Director Zheng nodded.

"Wait, Director Zheng, you can't do that." Ji Tein Lei shouted.

"You should be ashamed right now. Do you know, what have you done can destroy a good doctor and has already harmed a patient? Even though you are not a doctor, you are working in the hospital, you should value life." Professor Xian said harshly to Ji Tein Lei.

.....

The news about Yu Qi that harmed the patient had been replaced by Ji Tein Lei was the person that did everything. The management team showed every single of the evidence of the things that Ji Tein Lei did to frame Yu Qi and eventually led to destroy her career as a doctor.

Everyone read about this and feeling disgusted about him. Then, all the bad things that Ji Tein Le had done were exposed to the public. S.e.xual harassing to the female nurses and doctors, swindling the hospital money and all of them.

Some of the nurses and female doctors who really wanted Ji Tein Lei to get arrested were happy with this news. Finally, the evil had perished.

The most affected person from this news was Ji Suk Ye. She was his niece and she depended on her uncle. Even the intern position right now, she had gotten from her uncle. When her uncle was right in the position, she held her face up and casually offended some of the nurses and doctors. Now she could not hold her face up as she was embarrassed with this matter.

She had to hold back. Her uncle needed to be saved. Her auntie begged her all day and night to her to help her uncle from being sued by Yu Qi. She knew that Yu Qi would never step back from suing her uncle.

She remembered the face that Yu Qi made when she offered her help to Yu Qi. Right now, she knew that Yu Qi was looking at her like an idiot person on that day. Yu Qi already knew the plan was made by her uncle.

Actually, that plan was her idea. She wanted Yu Qi to lose her job. Instead of firing her like a normal way, she wanted that Yu Qi could not work anymore. Since Yu Qi liked her job so much, she thought it was a good lesson to Yu Qi. However, everything went wrong.

She needed another plan to survive. Qin Xia... Yeah, Qin Xia could help her. Her uncle told her that on that day, Qin Xia was also present. Qin Xia also told everyone in the room that if Yu Qi did not have money to pay to sue her uncle, he would help Yu Qi.

Meaning, if Yu Qi did not get the help from Qin Xia, Yu Qi could not sue her uncle. She assumed that Qin Xia just got to know Yu Qi and wanted to pursue her. He might never know that Yu Qi already had a boyfriend and Yu Qi did not bother to tell Qin Xia about that because she did not want to lose another source of money.

Yu Qi's boyfriend was a soldier. Probably a low ranking now. So, she probably wanted to find another man with a higher salary.

What if she told Qin Xia about that, Qin Xia would be disgusted with Yu Qi and would never help her. She smiled as she thought about that.

It was very hard to meet Qin Xia. She knew that Qin Xia was a businessman at a company. But she was afraid that she could never meet him there. No! She needed to do it. Even though it was a shameless thing to do.

"Doctor Ji, can you not daydream right now? We are checking the patient here." A nurse reminded her.

That was right. She currently checking her patient with a nurse. She gritted her tooth as she looked at the nurse. Now, even a snobbish nurse dared to rebuke her. After her uncle got arrested by the police, she always heard someone badmouthing her, almost in the toilet.

'Calm down, Ji Suk Ye. You will make them pay for what they have done to you.' Ji Suk Ye calmed down herself and continued her work.

### **Chapter 690 - 690: Indeed, A Disgusting Woman**

The second month in the orthopaedics department ended. Yu Qi and the other first year residents reported to the next department which was the OB/GYN department. It stood for Obstetrics and Gynaecology.

This time, the person in charge of the first year residents was a female doctor, Doctor Chen. Ji Suk Ye was present at the moment. She was not late and wore the proper attire that a doctor should wear.

She did not wear her usual arrogant face anymore and keep her mouth shut up. She only talked whenever people asked her only. Other first year residents did not say anything since they already knew why she behaved like this.

Doctor Chen explained the scope of the work in the department. Since there were two specialities, four of them would be separated. The first one would stay with obstetrics and the other two would stay with gynaecology. Then they would exchange after two weeks.

Yu Qi was paired with Min Gu Su while Ah Kean was paired with Ji Suk Ye.

....

"Can I see your president?" Ji Suk Ye asked the receptionist.

She was currently at Qin Xia's office.

"Miss, do you have an appointment with Mr. Qin?" The receptionist asked.

Ji Suk Ye frowned as she answered. "No, but..."

"Everyone wants to meet Mr. Qin needs to have booked an appointment first." The receptionist interrupted.

"You..." Ji Suk Ye pointed to the receptionist.

The receptionist was still calm as she provided the professional smile to Ji Suk Ye. After the president came to manage their branch, many people wanted to see Mr. Qin.

Mr. Qin was a busy person. He did not have time to meet with those people. So, his secretary, Min Liang told those people to book the appointment first if they wanted to meet Mr. Qin.

However, it was very hard to book an appointment. Qin Xia almost rejected them before they made the appointment. He only met the people that he thought that they were important to his business.

"Miss, I suggest you leave this premise. No need to come and humiliate yourself." The receptionist was a realistic person. She knew that woman in front of her right now wanted Mr Qin to become hers. But that would not be going to happen.

"How dare you?" Ji Suk Ye wanted to slap the receptionist but the receptionist avoided it and maintained the professional smile on her lips.

Ji Suk Ye wanted to argue more but her eyes caught something. It was Qin Xia who walked into the building. She assumed that he just came in from some meeting.

'This is the perfect chance for me.' As she gathered all the courage by clenching her right fist to her chest, she motivated herself. She walked approaching Qin Xia. The receptionist just looked as she shook her head.

"Mr. Qin... Mr. Qin... Wait a minute." Ji Suk Ye said with a smile.

Qin Xia stopped and looked over. He saw a woman. Well, an unknown woman. Totally a stranger. He turned to Min Liang. Only his eyes communicated asking who the woman was.

Min Liang was a person that stayed with Qin Xia for almost 8 years. He could know what the look given by his boss meant.

Min Liang whispered something. Not long after that Qin Xia nodded several times and started to talk again. *noVe.lb)1n*

'See what I tell you. You don't want to listen to me.' The receptionist sighed.

"Wait... Wait... It is about Tang Yu Qi." Ji Suk Ye used the bait.

Qin Xia stopped once again.

"About what?" Qin Xia questioned Ji Suk Ye.

Even though Ji Suk Ye used Yu Qi to attract Qin Xia's attention, she also felt hurt. Qin Xia really wanted Yu Qi to be his. She would not allow that.

"Min Liang, bring her to the meeting room. I will go to the room first." Qin Xia said before leaving the company lobby.

The receptionist was surprised to see that Ji Suk Ye had been escorted to the meeting room. Really... This time, it was the first time Qin Xia wanted to meet someone without an appointment. Maybe that girl had something special for Qin Xia. However, she did not want to say anything about Qin Xia.

Qin Xia appeared after the half-hour later. In the beginning, Ji Suk Ye thought Qin Xia just wanted to play a prank, leaving her in this meeting room alone. When he finally came to the meeting room, she felt relief.

"Talk." Qin Xia only said one word.

Ji Suk Ye once again clenched her fists. "Mr. Qin, I know that you like Tang Yu Qi. However, I don't want you to be cheated by her."

Qin Xia was still expressionless. While Min Liang already looked dumbfounded about this. He was thinking of when and how that Yu Qi cheated his boss.

"Tang Yu Qi is a woman who likes to seduce men. She seduces men and uses them to achieve what she wants." Ji Suk Ye continued again. "Previously, there is a rumour that Tang Yu Qi has seduced Director Zheng for the intern spot. And that is not a rumour. It is true. You will never know that Tang Yu Qi already has a boyfriend. What a disgusting woman."

Qin Xia was silent before saying something. "Well, it is indeed a disgusting woman."

Ji Suk Ye was happy when Qin Xia was agreeing with her. It was the truth then, Qin Xia would dislike Yu Qi after hearing something like that.
