

INTELLIGENT 711

Chapter 711 - 711: Lead The Surgery.

Yu Qi was in the meeting room with Min Gu Su discussing about the patient who just came out from surgery yesterday. Min Gu Su was involved in that surgery.

Out of a sudden, the blue code in the meeting room lit up. Yu Qi and Min Gu Su understood that. They quickly ran outside. They went to the front desk to ask about the situation.

"What has happened?" Yu Qi asked one of the nurses.

"Dr Min, Dr Tang, please go to the emergency ward. There are a lot of patients coming in. The doctor in the emergency can not handle it." The nurse told them.

Without wasting any time, both of them went to the emergency department as quickly as they could. A lot of patients were at the emergency entrance. As the nurses said, there were not enough doctors here.

Min Gu Su and Yu Qi helped the patients. The patients were crying because of the pain. So, the emergency department was in chaos.

"Try to check those in life-threatening situations first." Doctor Lau, one of the doctors in the emergency department said.

Yu Qi spotted a patient that had a tree branch stuck right on his chest. He just came out of the ambulance van. Yu Qi quickly got at him.

Yu Qi asked the paramedic about his condition. They told her that the branch of the tree penetrated the body. Yu Qi quickly brought him in.

The nurses that received the patient was shocked to see the condition of this patient. She then calmed down and help Doctor Tang to move the patient into the bed. Luckily for them, some male nurses there came to help them.

Yu Qi checked the patient. It seemed the tree branch stuck on the chest, and wounded the heart.

"This is serious. He needs to be operated on now. Otherwise, he would die." Yu Qi said.

"Help... Me... It... Is... Hurts... So... Much... Help..." The patient cried slowly.

"Go and see whether other doctors are free." Yu Qi instructed the nurses.

After three minutes, the nurse came back with some of the doctors. The doctors were shocked.

"He needs to be operated on now." Yu Qi said and explained the current condition of the patient.

"I can't. I don't have enough experience with this."

"Me too. We need to wait for the other doctors."

"Other doctors are already in the other surgery. If we need to invite another doctor, it will take a longer time." The nurse said.

"The patient will die if we wait any longer. I will lead the surgery." Yu Qi made the decision.

"Wait. We should wait for a more experienced doctor to do this."

"Are you insane? I tell you he will die. We need to operate him faster." Yu Qi looked at the doctor that said that and turned to the nurses. "Go and prepare the surgery room and you call the anaesthetic. I will lead the surgery."

The nurses ran over to complete the order. One of the doctors stepped forward.

"Dr Tang, I will help you." He said.

"You..." The doctor that told them to wait for a more experienced doctor to come was shocked by his colleagues.

"Okay, let's move. The room is ready." The nurses came back and they quickly moved the patient to the surgery theatre.

Ah Kean just finished treating a patient and saw Yu Qi. He approached Yu Qi and asked her.

Yu Qi told him that she would lead the surgery on this patient. Ah Kean was shocked. However, he told her that he would help them too.

Luckily for them, the anaesthetic was already there. The surgery began. First, the tree branch was cut off in front and behind the man. Then the chest where it penetrated, Yu Qi cut it opened.

Everyone in the surgery room was very surprised by the skill that was shown by Yu Qi. Her hand did not waste any movement at all.

A part of the tree branch that still inside was pulled out. The next thing, to treat the wound in the heart was the tricky one. Yu Qi checked the wound caused by the tree branch.

...

"What, a first year resident is leading the surgery?" A doctor was shocked.

"Yes. It is Doctor Tang."

"Is she stupid or what?"

"She probably makes the decision after considering everything."

"No one has expected that something like this will happen today."

"Yeah, all of us have another work at that time."

"You can't look down on her. Do you forget who she is?"

"That's right."

"So, we just need to wait and see until the end."

After four hours, the surgery room's light was off. The surgery was finished.

The team went out. The patient was brought to the ICU ward for further observation.

"Doctor, how is he?" Asked one of the people when seeing Yu Qi came out from the surgery room.

"We still need to observe him first. However, for now, he is out of danger." Yu Qi explained.

"Thank goodness, he is safe. Thank you, doctor. Thank you." The people were thanking Yu Qi.

"It is our job to save him." Yu Qi nodded. Find authorized novels in , faster updates, better experience, Please click #_51996624922142340 for visiting.

"How the situation in the emergency department?" Yu Qi inquired to the nurses that just walked passing them.

"Currently, everything is under control." The nurse said.

"What has happened actually?" Yu Qi asked.

"From what I have heard, they are production crew that came and to shoot at the mountain. And the accident has happened. But I still don't know what exactly has happened." The nurse explained.

Chapter 712 - 712: Being Misunderstood

Yu Qi and the team that did the operation on the patient had been called to the conference room on the next day. When they entered the room, there were doctors in the room waiting for them.

One of the doctors asked Yu Qi why she made the decision to lead the surgery and did not wait for the other doctor that had more experience to do so.

Yu Qi chuckled while telling them if she waited for them to come, the patient right now would already be stepped into another world.

Then they started to ask about the surgery itself. Yu Qi explained in full detail about the process of the surgery. Others that followed nodded.

However, Yu Qi said it was not considered a success surgery yet since the patient was still in the ICU ward.

The doctors were satisfied with that answer. They thought that Yu Qi's action was good but still did not recommend that. However, as for now, Yu Qi was not be charged for anything.

The team was relieved. Yu Qi then went to check the patient that she operated on yesterday. There were some people lingering outside the ICU ward. Probably waiting for the ward to open for visiting.

Yu Qi entered the ICU ward and went to the patient's bed. She checked on the patient. The patient showed improvement in his health. He might be going out of the ICU ward the next day.

She realised that the ICU ward was fully packed with the patients today. The same happened in the other wards. Probably because of yesterday incident.

She remembered that the nurse had said, there was a production crew involved. The more she thought about that, the more she was shocked. She remembered that Song Su Jin had a shooting here too. Is this her crew?

Yu Qi went out and walked around other wards. She spotted some people that were talking in the corridor.

"Excuse me." Yu Qi greeted the people.

"Yes?" A girl looked at Yu Qi.

"May I know, are you from the production crew?" Yu Qi asked.

"Yes. We are." The girl nodded.

"Is there a person with the name Song Su Jin among you?" Yu Qi asked again.

"Yes." The girl answered.

"Is she okay?" Yu Qi was nervous when she asked about her.

"She is injured but not serious." The girl said.

"Oh, thank you." Yu Qi thanked the girl and walked away.

"Hey, why are you telling her?" Another girl asked the girl.

"Well..." The girl did not know to say anything.

"We don't know who she is and yet you reveal everything. She may be a reporter." Her friend said.

"But she is wearing the doctor gown." The girl was nervous.

"She may take it somewhere. Let's get her." Then his friend said.

So the people began to chase Yu Qi. Yu Qi was going to go to the meeting room where the first year resident sat. However, her hand was held by someone.

"What?" Yu Qi was surprised.

"We will not let you release the news." A girl said.

Yu Qi realized it was the group that she asked about Song Su Jin earlier. She tilted her head did not understand why this girl tried to say to her.

"What are you talking about?" Yu Qi asked.

"Don't pretend to be a doctor. We know who actually you are." The girl said. novel-1n

"Pretending?" Yu Qi was confused.

"Doctor Tang, Professor Rein is calling for you." A nurse came and informed Yu Qi.

"Okay. I am coming." Yu Qi nodded.

The group was dumbfounded when they heard the conversation between Yu Qi and the nurse.

"Why are these people here? This is a restricted area. You are not allowed to be here. Are these people your friends, Doctor Tang?" The nurse said.

"No." Yu Qi shook her head.

"Misses, please." The nurse said showing the way out to this group.

The girl was embarrassed when she misunderstood the person.

"Doctor, I'm sorry." The girl apologised to Yu Qi.

Yu Qi was still confused about what the girl was trying to do. However, she ignored it and went to meet Professor Rein.

As for the group, they were led outside by the nurse.

"It is embarrassing."

"Yeah."

"I have never thought she is the true doctor here."

"But why is she asking about Sister Su Jin?"

"I don't know."

After meeting with Professor Rein, Yu Qi managed to get information about Song Su Jin. She was injured. Her bone was dislocated. She was currently in a normal ward.

Song Su Jin was surprised to see Yu Qi came and looked at her.

"Miss Yu Qi." Song Su Jin was trying to sit.

"Just lay down." Yu Qi held her back.

"Oh, okay." Song Su Jin stopped moving.

"What has happened exactly?" Yu Qi asked.

"One of our equipment failed resulting in this to happen. Plus there was a small landslide." Song Su Jin explained.

"I see." Yu Qi nodded. No wonder when she first saw the patients in the emergency department, there were several patients covered with mud.

"Have you tell Brother Yu Hi?" Yu Qi asked.

"Well, no." Song Su Jin shook her head.

"I know that you don't want to disturb him but you need to think about his feelings when he is the last one to know about your condition. If you are worried that will disturb his work, don't worry, I will give him a week off." Yu Qi chuckled at the last sentence.

Song Su Jin also chuckled. "Okay. I will call him after this."

"Take a good rest. I'm leaving." Yu Qi then left Song Su Jin.

Chapter 713: Then, Let's Talk About Business.

The patient that Yu Qi did the surgery on, hoping Yu Qi to come and visit him from a nurse. This patient had been passed to another doctor after two days of the surgery.

When Yu Qi last checked on him, he was recovering at a normal speed. So, complication and whatsoever happened to this patient. After two days of the observation, this patient had been transferred to the normal ward.

And right now, he already woke up. She actually did not know why the patient suddenly requested to meet her when she had free time.

Well, since she had the little, little okay, free time to spare, she went to the patient's ward. The ward consisted of 4 beds, so, right now the bed was full with the patients.

Yu Qi could hear some people talking and laughing among them. Yu Qi could assume that there were about ten people in the ward.

Yu Qi knocked on the door and opened it. Everyone was silent when she appeared at the door. Then, suddenly an excited voice called Yu Qi to enter the ward.

Yu Qi saw the owner of the voice and realized that it was the patient that she had operated on. She entered and approached the patient.

"Doctor Tang, nice to meet you again." The patient looked at Yu Qi.

"Yeah, how are you?" Yu Qi asked normally like a doctor usually asked their patient.

"I'm great. Thank you, Doctor Tang, for saving me." The patient asked. Then, he was kind of hesitate to ask Yu Qi. "Hmm... Doctor Tang..."

"Yes?" Yu Qi looked at him.

"Do you recognise us?" The patient asked.

"Hmm?" Yu Qi looked around. She saw three women and seven men including the patient himself. After looking around, she was pretty sure that she did not know anyone in this room.

"Well... I'm sorry. I don't know all of you." Yu Qi said.

Then, out of the sudden, everyone busted into laughter. Only the patient and Yu Qi was not laughing. Yu Qi was confused at this moment.

"Doctor Tang, actually, Mr Jiang, oh, this is Mr Jiang." One of the men spoke and pointed to the patient that Yu Qi was talking just now. The men continued. "He told us that you are so worried about him when you saw him. You are arguing with other doctors to save him as quickly as you can. So, he has thought you are his fan."

"I have argued with them because his case was very serious at that moment. Further delay will lead to death." Yu Qi innocently explained to them

"That is why we are laughing." The man said and the laughter could be heard again.

"But, you really do not recognize anyone of us?" Another man asked.

"I'm sorry. Yeah. I don't know. I actually do not pay attention to the entertainment business." Yu Qi apologized.

"No need to apologize about that." Jiang Ye said. "For your information, we are from the production crew that has been having a shooting nearby and suddenly the incident has happened."

"Yes, I have heard about that. Thank goodness that there is no fatality in this incident." Yu Qi said. She looked at her watch. "I think I need to go first. All of you rest properly."

"Thank you again, Doctor Tang, for visiting me." Jiang Ye said.

Yu Qi got out.

"I have never thought that she will not recognise anyone in this room." One of them talked.

"It is common. She is a doctor. They usually don't have a social life when coming to a doctor. They will be busy always." A woman said.

"But to be honest, she is seriously beautiful. I have thought that she is an actress when I first saw her face. Then until Bro Jiang called her a doctor."

"Yeah. If she became an entertainer, she will definitely be successful."

"I admire her skin. Her skin looks very smooth." A girl commented. She was a makeup artist. So, she knew a lot of skins of faces of different people.

"Really? I wonder what kind of product she has used to get that kind of skin."

If Yu Qi knew about this question, she would shamelessly promote her product.

...

Su Yu Hi saw Yu Qi was walking toward him then sat in front of him.

"Have you go to see Sister Su Jin?" Yu Qi asked as soon she landed on the seat.

"Yeah. Thank goodness, she is okay." Su Yu Hi said.

Su Yu Hi just came back from Fanghai Nation to supervise the project there. He stranded almost one week there because of very bad weather.

After touching down at Binhai Nation, he as soon as possible drove to Guanying City for almost three hours. He wanted to see his girlfriend.? Find authorized novels in , faster updates, better experience, Please click #’s-talk-about-business._51996635927998832 for visiting.

His girlfriend's manager called him and told him about the incident. When he heard about that, his heart felt that it wanted to stop.

Doing his work as soon as possible, he then faced the problem and all of the flights did not allow any of the flight to fly out or touch out. So, he spent one week there.

Even though his girlfriend called him and said that she was slightly injured, his heart could not calm down. He needed to see her in front of his eyes, with that, he could feel calm. $n/(-\mathfrak{d})/\mathcal{V})/\epsilon..L-.B/-1(-n$

So, he was very relieved when he saw her condition. She already could walk slowly.

"Do you rest a little bit after returning from Fanghai?" Yu Qi asked.

"I do sleep four hours yesterday." Su Yu Hi said. It was okay.

"Then, let's talk about business." Yu Qi smiled.

Chapter 714 - 714: Set The Appointment

"What is it? New project?" Su Yu Hi turned serious.

"Yes. World class resort." Yu Qi deepened her smile.

"So, what is the deal?" Su Yu Hi asked.

Yu Qi began to tell him about this new project in which they were about to get involved.

"So, you want to bid on the project? Yu Qi, it is not like I don't want us to get involved in this project but the world class resort sounds like a large project. I don't think we can handle that." Su Yu Hi analysed the information and told Yu Qi about his thought about this project.

"What?" Yu Qi asked.

"We are new to this kind of business. I mean the construction. So, I suggest we should not involve in this project." Su Yu Hi said.

"Brother Yu Hi, you misunderstand me." Yu Qi looked at Su Yu Hi.

"Eh, then, what?" Su Yu Hi thought she wanted to bid on this project when he heard there was a bid that going to happen for this project.

"I don't want to be the bidder but an investor." Yu Qi's eyes curved up.

"Investor?" Su Yu Hi was dumbfounded.

"Yes. Investor for this project." Yu Qi nodded. As she continued. "We have the money. It is a good opportunity to use the money."

Yu Qi saw Su Yu Hi was looking away. It must be that he was thinking about that.

"We invest and as for the return we can ask to be a shareholder of the world class resort." Yu Qi continued more.

"It will have a higher return if the world class resort gets famous. What if the resort don't be as the plan, it will be a loss." Su Yu Hi commented.

"Don't worry. It will be famous." Yu Qi smiled again.

Yu Qi remembered from her past life. It was indeed a world class resort built at Guanying City. After its opening, that resort became famous around the world.

The resort received a wide range of customers since the resort built with two different parts. One for common people and another one for the rich people.

If she did not hear Qin Xia mentioned this to Yi Lishan, she had probably forgotten about that. So, since it was the chance to get more money in her pocket, she would not miss it out.

Su Yu Hi sighed. Seeing this kind of smile on Yu Qi's lips, he knew Yu Qi would fight until he gave up. He actually thought that it was okay since when Yu Qi fought with him previously on which company to invest, the investment would be a good investment. So, since Yu Qi behaved like this, it must be that Yu Qi was confident about this project too.

"Okay. The next step?" Su Yu Hi asked.

"Set up the appointment with Mayor Yi." Yu Qi said.

"Okay. I will meet Mayor Yi to discuss about this." Su Yu Hi nodded.

"No." Yu Qi shook her head.

"What?" Su Yu Hi looked at Yu Qi strangely.

"I will go to meet him personally." Yu Qi said.

"Personally?" Usually, Yu Qi would ask Su Yu Hi to be her representative for a meeting like this.

"I think it is better that way." Yu Qi said.

"Okay. If you want to, I don't mind." Su Yu Hi nodded.

....

"Mayor Yi, we receive a call from Qi Investment Company regarding the world class resort." Mayor Yi's secretary informed him.

"Qi Investment Company?" Mayor Yi never heard about that.

The secretary handed a file to Mayor Yi. "Mayor Yi, it is the information about the company."

"You are really good at handling things like this." Mayor Yi took the file and praised his secretary.

"Thank you, Sir." The secretary maintained his professional smile.

The secretary excused himself and Mayor Yi suddenly called him back.

"Wait a minute." Mayor Yi said.

"Yes, Sir?" The secretary turned back.

"Call my son, Lishan here. Tell him that I have something to discuss about the resort." Mayor Yi said.

"Yes, sir... I will call him." The secretary bowed and left the room.

Waiting for his son to come here, Mayor Yi flipped the file to open the information about this Qi Investment Company. The more he read about this company, the more he felt impressed with it.

This company has invested in a lot of companies. And all of the businesses were successful. Like this one company.n/)**O-)**V-.e./**£**)-b)-1--n

He remembered this one particular company. It sold drinks. It had almost gone bankrupt but suddenly the company had raised as one of the top players in its industry.

There were knocks on his door. He thought it was probably his son. He asked him to enter.

Yi Lishan entered. "Is there anything that you want to discuss, Father?"

"Someone wants to meet me regarding this resort's project." Mayor Yi gave the file that he read just now.

Yi Lishan read the name of the company. 'Qi Investment Company.' He never heard or knew about this company. He continued the reading. Like his father, Yi Lishan felt amazed. 'This company is a new one. But it grew money faster than other people.'

"So, what do you feel about this?" Mayor Yi asked after seeing his son finished reading the file.

"I think we should meet with them." Yi Lishan said.

"I think so too. I will like to meet them." Mayor Yi said happily.

There were a lot of meetings like this. Everyone that wanted to involve in the world class report would like to set an appointment and meet with his father.

Chapter 715 - 715: Coming To See Her

The day where they would meet each had arrived. Mayor Yi and Yi Lishan were waiting at the meeting room when Mayor Yi's secretary informed them that the representative from Qi Investment Company had already arrived. His secretary went to welcome the representative and would lead them to the meeting room.

The meeting room's door was opened by his secretary as the secretary invited the people to enter the meeting room. Mayor Yi and Yi Lishan were stunned as the first person entered the meeting room.

Yi Lishan stood up from his chair. "Yu Qi?"

The girl entered and took a seat in front of them. The person behind her also did so. Yi Lishan sat back as he stared at Yu Qi.

"Let me formally introduce myself. I'm Tang Yu Qi, the owner of Qi Investment Company and this is Ming Xuehai, my lawyer." Yu Qi smiled as she introduced themselves to Mayor Yi and Yi Lishan.

"You are the owner of Qi Investment Company?" Mayor Yi had already recovered from the shock.

"Yes." Yu Qi nodded softly.

"But you are a doctor." Mayor Yi said.

"Who has told you if you become a doctor, you can't own a company?" Yu Qi rebuked.

Mayor Yi and Yi Lishan were silent. That was right.

"So, can we start the conversation regarding the matter?" Yu Qi crossed her legs.

....

The discussion regarding becoming the investor for the world class resort was successful. Mayor Yi did ask her why she wanted to be the investor for this project.

The answer that Yu Qi loved money. The answer made both the father and son to feel speechless.

When Mayor Yi asked what if the project was unsuccessful, Yu Qi might lose her money. Yu Qi smiled as she admitted that there were risks where this project might not be successful but she said, she still believed her instinct.

Yu Qi knew that this project would definitely succeed. However, they would face a problem which was the money. Someone had embezzled the money from the budget project.

They faced a very serious problem until Bai Group lent their money to finish the project. Because of that, Bai Group become the biggest shareholder of the resort after it completed and started its operation.

Yu Qi requested 30% of the share of the resort. Mayor Yi said they needed to discuss with another partner first before making the decision.

Yu Qi told them to call her after they got the decision to sign the contract.

...

"That is not the face of the person of a doctor but the face that has a business mindset." Mayor Yi commented.

He had seen countless people so he knew that very well. That girl knew her way of doing the business.

"That girl really knows how to strike the opportunity." Mayor Yi commented more.

"So, what is your thought, father?" Yi Lishan asked.

"I need to ask my partner about this." Mayor Yi answered.

"Okay. Father, I will return first." Yi Lishan wanted to excuse himself.

Mayor Yi nodded. Yi Lishan left the place.

"Tang Yu Qi, which one is you? The kind doctor or the cunning businesswoman?" Yi Lishan looked at the sky.

However, someone could answer his question.

...

Yu Qi seemed to be happy today. Not only the other staff realized it, but somehow her patients also realized it.

A nurse mentioned and asked Yu Qi about that.

"Doctor Tang, you look happy today." The nurse said.

Yu Qi touched her face. "Am I too obvious?"

"Yeah. Even the last patient has asked me about that." The nurse added.

"Are you going to meet your boyfriend, Doctor Tang?" Another nurse joined the conversation and teased Yu Qi.

"No. He is in the mission." Yu Qi said. She remembered that Long Hui called her and told her that he was about to go on a mission. "I'm going to meet my family member."

"Family member? Oh, I have forgotten that the interns can not return to their hometowns. Usually, the family members will come and meet them." The nurse said.

"I have not seen him for a while. I hope he is in a good health." Yu Qi said.

"We have thought Doctor Tang is going to meet her boyfriend today. That is why Doctor Tang looks happy. Turns out she is going to meet her family which will come to visit her." The nurse chuckled.

"I'm kind of excited to see Doctor Tang's boyfriend again. He is kind of sweet."

"Doctor Tang's brother is also good looking." n/)**O**)-**V**-.e./**L**)-b)-1--n

"Remember that man, Mr. Qin, he is also good looking one."

The nurses began talking about Yu Qi.

"Doctor Tang, how to have good looking men around?" A question had been thrown to Yu Qi.

Yu Qi was blinking several times as she processed the question.

Then someone helped her to answer the question.

"The first thing, you need to be is beautiful. Not only the outside but inside."

Then, they laughed at the topic.

Well, the reason, why Yu Qi was happy today, well, it was the truth that her family member was coming to see her. But the family member from Fanghai Nation.

Yes, her biological grandfather would come and visit her. Grandpa Mu called her two days ago telling her that he would come to Binhai Nation. To be more specific, Guanying City.

She knew that Grandpa Mu came here for another reason but she was still happy to meet Grandpa Mu. It had been a long time since she met him.

Chapter 716 - 716: One Possibility

Yu Qi went to the restaurant as soon as possible. Her grandfather was already here. She could not leave her workplace on time. She informed the waiter that someone with the surname Mu was waiting for her.

The waiter asked about her name. After getting her name, the waiter nodded and led Yu Qi to the private room.

The waiter knocked on the door and waited for the people inside to give permission to enter the room. Then he heard the old man telling him to enter. Until then he opened the door and gestured the young girl to enter.

"Grandfather." Yu Qi called happily to Grandpa Mu.

"You have come, my granddaughter." Grandpa Mu patted Yu Qi's head.

The waiter then closed the door quietly. Actually, he had misunderstood the woman. He thought the young girl was a mistress of the old man.

When the old man informed his manager that a young girl with the surname name 'Tang' would come and see him, his manager had to lead her to the room. So, he thought it was another shameless young girl that became another mistress.

Then he heard the young girl happily called that old man 'Grandfather' and the old man called the young girl 'Granddaughter', he felt guilty.

Yu Qi was happy to see her grandfather and did not know what had played in the waiter's mind. If she knew about that, she could not care much about that because the waiter had no relationship with her. It hurts if someone that you knew or closer to, misunderstood about you.

"Grandfather, what are you doing, coming to Binhai?" Yu Qi asked after they ordered the food.

"Well, I have some business here. And I remember that you have told me that you are having your internship here. So, I come earlier to meet you." Grandpa Mu said.

"I see. But may I know what business do you have here?" Yu Qi looked at Grandpa Mu.

"The world class resort." Grandpa Mu mentioned it.

"Oh..." Yu Qi deepened the gaze. "But how a chairman itself come to inquire about the project?"

"Well, it was a second." Grandpa Mu looked away.

Yu Qi tilted her head. "Huh? Second? Second what?" She could not understand that.

"Miss Yu Qi, what Chairman Mu meant is the project is the second matter. Meeting with you is his first priority." Grandpa Mu's secretary explained to Yu Qi.

Yu Qi was stunned as she heard that explanation. Grandpa Mu coughed several times as he looked away from Yu Qi again.

"I'm so happy to know about that, Grandfather." Yu Qi indeed felt happy when she heard that.

.....

"Tang Yu Qi."

Yu Qi turned around to see the person who had called her name. Then her eyes showed disgust when she saw that person. Bai Yu. This person still dared to come and meet her.

Yu Qi ignored him and turned back as she continued walking away from the place.

Bai Yu looked at the woman walking away, he quickly stepped in front of Yu Qi. Yu Qi was about to crash into him, stopped her step and even stepped back 5 meters from Bai Yu.

"What do you want?" Yu Qi said coldly to Bai Yu.

"Don't be cold. I just want to greet you for now. After all, we are from the same university." Bai Yu smiled ignoring the hostility from Yu Qi.

"Oh, then, you are done, right? Let me leave." Yu Qi did not falter even though he was as good looking as his brother.

"Tang Yu Qi, why do you hate me so much?" Bai Yu sighed. He did not remember to offend Yu Qi this much.

"Oh, you don't know. Ask your brother. Now, move. Otherwise, I don't mind sending you to the hospital." Yu Qi warned him.

"Okay... Okay... Calm down." Bai Yu quickly stepped aside. He knew how strong Yu Qi was.

Yu Qi returned home feeling unhappy with the encounter. She thought that she would never meet the Bai family members here. What was the reason? Her eyes lifted up as she thought about one possibility. Bai family wanted to involve in the world class resort.

After creating trouble with her business, they wanted to have a new project. Yu Qi laughed coldly.
n..o)/v--e)/1.-b/-1-.n

Actually, she knew who was the actual mastermind in the Qi Qi Skincare controversy recently. Yeah, it was Bai Group. After failing on having people stealing the formula, Bai Group made another plan to disturb Qi Qi Skincare's business.

At the same time, they wanted to use the disturbance to make another attempt to steal the formula. Luckily, Yu Qi had well prepared to repel it.

However, she could not find another concrete evidence regarding Bai Group's involvement in the case. For only, Sunshine Company ruined in the process.

.....

"Where do you go just now?" Bai Shu Jin asked his younger brother during dinner.

"Meeting someone." Bai Yu answered with his carefree.

Bai Shu Jin sighed. "Remember, tomorrow is the day where we going to meet the mayor."

"I remember, Brother. Don't worry." Bai Yu answered.

"How do you study?"

"Well, moving forward. Brother, when do you want to get a girlfriend?" Bai Yu asked.

The question made Bai Shu Jin coughed several times. He quickly got the napkin and wiped his mouth.

"Oh, my brother is fl.u.s.tered. May I know who is the girl?" Bai Yu teased his older brother.

"I will introduce her to you when I succeed in getting her." Bai Shu Jin said.

"Oh, that girl must be interesting since you are still not getting her." Bai Yu said while thinking about the girl that looked at him coldly.

"Yes." Bai Shu Jin nodded.

Neither they knew that they were thinking about the same girl who hated both of them.

Chapter 717 - 717: Been Surrounded

Yu Qi was facing Bai Shu Jin right now. She was just about to eat her lunch and saw an annoying face in front of her who was currently looking at her.

Her hate meter was about to explode but somehow Aoi and Bo Yea managed to calm down her through telepathy. She watched Bai Shu Jin with her stoic face.

"Miss Tang..." Bai Shu Jin called her name.

"..." Yu Qi did not reply anything.

"Miss Tang, can you tell me why do you hate me so much?" Bai Shu Jin sighed. He really wanted to know the reason.

Yu Qi closed her eyes. In her mind, her last scene in the past life had been replay. After that, she opened her eyes sharply.

Bai Shu Jin was watching Yu Qi. When he saw Yu Qi opened her eyes back, he could feel the strong hate in her eyes. He still could not understand why she hates him so much.

Yu Qi collected the plate on the table and brought them to the required place to put the dirty plate. Without caring about Bai Shu Jin, Yu Qi left the place.

Seeing this, Bai Shu Jin also left. As usual, the hospital staff that watched the drama at the cafe started to talk about that.

"Another handsome man."

"I feel that Doctor Tang is playing the reverse harem game."

"I feel the same way too. All of the handsome men revolve around Doctor Tang."

"But don't you see that Doctor Tang was looking at that handsome man with pure hatred."

"Something must have happened between them in the past."

"They must be in a relationship in the past."

Yu Qi did not know what they were talking about. If she knew about that, she might be angry since she did not want to be involved with that man even in the rumour.

Her grandfather had already returned to Fanghai Nation after meeting with the mayor yesterday. She knew that Mu Cooperation did bid for the project but she knew that they lost the bid. She did not remember who won the bid in the first place.

....

Today Guanying Hospital held the charity program. They went to an orphanage offering basic medical check up to the children. The orphanage location was not very good to be the truth.

The orphanage was in a remote area where it surrounded by trees and bushes... Well making it was an isolated place. Going there was not a smooth journey too.

The staff needed to walk about one kilometre to get to the location with the equipment and things that they needed to use.

Others were grumbling about how tired they were. However, they could see Yu Qi did not out from breaths.

"Doctor Tang... You seem... Okay... Walking for... A long time... Like this." One of the nurses said to Yu Qi.

"Well, I grow up climbing a mountain to search for mushroom, herbs and wild veggie. It is nothing to me." Yu Qi said.

Others were stunned as they heard the answer.

After a long walk, they arrived at the orphanage in the afternoon. Everyone sat down first. The head of the orphanage greeted their leader, Doctor Zhu.

"No wonder when I have told another doctor about this program, he just said 'good luck' to me. He already knows it." A first year resident said.

They were other first year residents, other from Yu Qi, Min Gu Su and Ah Kean.

The head of the orphanage, Mr Ling, invited them for lunch. Doctor Zhu wanted to reject but when they saw the anticipation on the children's face, they accepted it.

It was not a delicious meal but still countered the hungry that they had since it was lunchtime.

Then they began to set up the place where they were going to do the medical check up on the children. After the preparation was completed, they began doing the medical check up on the children. n/)**O-)**V-
.e./**(L)**-b)-1--n

There were about 50 children of a wide range of ages in this orphanage. They were in good health except for a few numbers of them. They were having a slight fever. So they were given medicines.

After three hours of working, they were finished. The children seemed to be happy to be checked by a doctor. It was an unusual scene. Usually, children scared of the doctor especially the dentist or the doctor that gave the injection.

"Don't move."? Someone shouted.

Everyone looked at the person. The person was holding something with his hand. Everyone became alert with this. It was a gun.

Yu Qi looked at the gun. It was a machine gun. And then another man appeared with an M1911 gun too. The a.d.u.l.t protected the children.

"Don't try to do anything. You have been surrounded." Right after the man with the gun said, a group of men came out from the bushes with a weapon in their hands.

"What do you want? We don't have anything valuable here." Mr Ling said.

"Of course, we know that. What we want is not anything valuable. But doctors." The man appeared as their leader talked.

"Doctors?" Doctor Zhu had a complicated expression on his face. Well, not just him, but all of the doctors had the same complicated expression on their faces.

"Yeah. We need doctors." The man said.

"For what?" Doctor Zhu asked.

"To treat people, of course. What else we need from the doctor? Not like they can kill people." Right after he said that the group of men laughed.

Chapter 718 - 720: The Killing Nerve Poison Again

Yu Qi quickly treated the wound. Cleaned it up, put on some medicine and bandaged it up.

"By the way, this man still needs to go to the hospital." Yu Qi suddenly said.

"For what? You are already here." The vice captain said.

"He also has a heart disease. It needs to be treated professionally at the hospital. I don't have any medicine or equipments to treat that disease." Yu Qi looked at the man.

The man looked very surprised when he heard that he had heart disease. The vice captain looked surprised too but after a moment, he laughed.

"It is your trick, right? You want to run from here, right? If we are going to the hospital, you would be safe? Don't ever imagine that." The vice captain snorted.

"It is your choice. He has at least ten months. And if I want to run, I don't think you will manage to catch me." Yu Qi rebuked.

"You..." The vice captain pointed his finger to Yu Qi.

"By the way, where do I have to sleep?" Yu Qi asked.

"You can sleep here with me." The man on the bed said.

"If you don't mind to be killed by me." Yu Qi smiled.

"No." The vice captain quickly rejected that. He did not know why he felt like this. He felt that this woman was not talking nonsense. It seemed that she probably had the ability to do so. He did not want to take the risk.

"I will show you where the women sleep." The vice captain said.

Like Yu Qi appeared just now, every man looked at Yu Qi like she was a piece of meat. The vice captain knew their intentions but did not say anything to her. He thought this woman needed to be taught that men were above women.

"Here is the place." The vice captain showed a tent.

Yu Qi entered the tent and frowned. About ten women were inside and their appearance right now was not... Well, what we could tell was disturbing.

Some of them were not even wearing the top to hide their b.r.e.a.s.t. Everyone in the tent looked at the newcomer. They were thinking that she would be the same as them when the time had gone.

Yu Qi sat at the corner of the tent without saying anything to the women. Right now, if she said anything like they would be okay later, they would never believe her. Their eyes already died. They already gave up their life.

Yu Qi did not feel tired but she closed her eyes and she enchanted her senses. She could hear that someone went out and went in. Then someone approached her.

"Hey wake up. Here is your dinner." A woman said while pushing a plate that contained some kind of soup.

"No need. I'm not hungry." Yu Qi said.

"Eat it. You probably would need the energy tonight later." The woman said.

Yu Qi did not reply but she also did not eat too.

"Suit yourself. Don't say I don't inform you." The woman left Yu Qi.

Not long after that, Yu Qi could felt that one by one left the tent until only she was inside the tent. Yu Qi opened her eyes. The tent was dark. However, when people went to the tent, she could still see the shadow.

"Is that okay that we taste this woman?"

"Well, the vice captain doesn't say anything that says we could not taste this woman meaning he did not care much about this woman. So, we can do anything that we want."

Yu Qi could hear that they were discussing about her and ended with the men laughed each other. They were approaching Yu Qi.

Yu Qi stood up and ran outside the tent. They laughed louder.

"Beauty, you can not run. Let's enjoy the night together."

Yu Qi stopped running.

"That's right. You should give up and accept your fate."

Yu Qi was getting ready with her needle. It was time to use her poison again. The nerve killing poison. It had been a while since she used this poison. She thought about the last time she used that poison when she went to the medical conference at Fanghai Nation.

"You are the one that should give up otherwise..." Yu Qi stood fearlessly facing the men.

The men laughed. They did not even think that a weak beauty that lived a beautiful life would be someone that could terrify their lives.

"Guys, no more talk. Let's enjoy this beauty tonight. My d.i.c.k already hardens seeing her face."

"Yeah. She may also enjoy us too."

The men approached Yu Qi in all direction. Yu Qi smiled coldly. She already gave her a warning. It was their fault not to take the warning seriously.

Yu Qi made a movement like she was throwing something. Well, she was throwing her needles. Those men could not see anything since it was dark and the needles were also thin.

The men just thought she was making a final struggle. But three of them fell on the ground mysteriously.

"Ahh!!!"

The three men screamed painfully.

"It hurts."

The men looked at their friends. Then their friends that fell on the ground stopped screaming.

"Are you okay now?"

"Yeah."

"What the heck with you?"

"Wait a minute. Something is wrong."

"What's wrong?"

"I don't feel my legs."

"Me too."

"I can not move my legs."

The three men shouted saying that they would not feel either move their legs.

Chapter 719 -: Welcome To Your New Home

"Treat people?" Doctor Zhu asked.

"Yeah. Don't ask too many questions. We just need one." The man said.

Everyone was silent. No one stepped forward.

"Oh, no one wants to follow us? Then, we will kill you all." The man signalled his men to point the gun at everyone.

"Wait a minute." Yu Qi stepped forward.

"Oh, what a beauty." The man licked his lips starting mostly at Yu Qi. "Are you a doctor?"

"Yeah. I will follow you. Don't harm anyone here and re-draw all of your men from this orphanage." Yu Qi demanded.

"Alright. Anything for a beauty." The man said while laughing.

"By the way, let me ask a question first." Yu Qi looked at the man.

"You sure have the nerve to ask for more." The man clicked his tongue. "Ask. I will answer only one question."

"How do you know there will be doctors at this orphanage right now?" Yu Qi asked.

The man laughed. "Of course we have a helper."

Yu Qi looked around. Her eyes stopped at one woman that just looked down with a trembling body. She trembled more as she heard Yu Qi asked that question.

"I see." Yu Qi closed her eyes and opened them. "Let's go."

"Wait, Doctor Tang." Doctor Zhu held Yu Qi's hand.

"Don't worry. Take care of others. I will return. You can go and report it to the police." Yu Qi assured Doctor Zhu that she would be alright.

"Don't break your promise." Yu Qi said to the man.

"Of course, beauty." The man nodded.

The man watched the beauty walked away. 'This woman is so special. My master will be happy to have such a woman.'

"Will Doctor Tang be okay?" A nurse asked while crying.

Everyone did not answer that question. Doctor Zhu clenched his fist.

"Everyone, clean up. We are going back. Mr Ling, I think it is not safe to be here. Let's go together." Doctor Zhu said to Mr Ling.

"Is it okay to leave right now? What if the man lies and asks his men to kill us if we leave?" Another first year resident asked.

"So, you mean, we just can wait here and let Doctor Tang die?" Min Gu Su asked thst first year resident sharply.

That first year resident did not respond.

"I think we can divide into two groups. One will go out and report this to the police and others can wait here." A doctor gave the idea.

"So, what if the people that leaves gets ambushed by those men?" A nurse asked.

"I will go." Min Gu Su said. "Waiting for any longer may be dangerous to Doctor Tang."

"Me too." Ah Kean also stood up.

Then, half the medical team agreed to go out and report this case to the police. They were indebted to Yu Qi since she agreed to follow the group of men. Otherwise, they might be killed on the spot.

.....

Yu Qi was on their truck for about two hours. She had never thought that would be a path for the truck to move. Meaning, it must be these people who made the path.

She was wondering who were these people. It seemed these people were not from Guanying City.

"You must be wondering who we are, right?" The man smiled.

Yu Qi just stared at him. From this man talked just now, they needed a doctor to treat someone. They probably could not get the doctor legally. Not like they did not have the money since they used the gun to threaten others.

"You should say goodbye to your previous life? You will start to live with us." The man said.

"Don't bother about returning. Others will not be able to find you." The man was still continued talking even though seeing Yu Qi ignored him.

"Well, I will see." Yu Qi suddenly smiled.

The man felt uncomfortable when he saw that smile. However, he ignored the feeling. 'What can a weak girl like her do in the first place?'

They arrived at a valley. Bottom of it, there was some kind of a village. It was hidden.

"Welcome to your new home." The man said.

The truck stopped and the man asked Yu Qi to come out. When Yu Qi stepped out, there were several roars among them.

"Vice captain, where do you kidnap this beauty?"

"Beauty, be my wife."

"Vice captain, can I taste her after you taste her?"

It seemed the man who talked to Yu Qi for a while was called by the men as 'Vice captain'.

"Silent." The vice captain said.

The men immediately went silent.

"She is the doctor that I have invited. She also will live here too." The vice captain made the decision without asking for Yu Qi's confirmation.

However, Yu Qi did not say anything. The vice captain assumed that she was afraid to say anything and agreed to live here.

Yu Qi saw around. There were also women among them. However, they seemed to be scared. They also looked at the newcomer which was Yu Qi with a pity look. 'What is this place? It seems like a village but at the same time, it seems not.'

It was like a bandit den. But the world had already entered the 21st century. And these men also used guns as their weapons. Then her thought stopped at one point. 'They are soldiers. Probably a deserted ones. But the question is which one? Binhai or Cambizia.'

Chapter 720 -: Deliver The News

"Beauty, follow me." Vice captain said ended Yu Qi's thought.

"Can I borrow your toilet?" Yu Qi suddenly asked.

"Oh, beauty must be holding for so long. Come, I will show you where it is." Vice captain said.

Yu Qi followed him to the toilet. The toilet was about to collapse.

"Beauty, it is the toilet." Vice captain said.

Yu Qi entered without saying anything. She just needed a place where anybody could not see her. She looked around and felt there was no one around that was looking at her.

Yu Qi entered the space and took Aoi out. Aoi was very worried about his master when Bo Ya was reporting from inside space.

'Master...' Aoi called his master.

'Aoi, listen.' Yu Qi spoke with a serious tone.

Aoi immediately listened to Yu Qi. 'Yes, master.'

'Go and bring Brother Hui here. Tell him there is an armed group here. Do you remember his smell?' Yu Qi gave her order.

'Yes, I remember. Master, don't worry. I will bring that man here.' Aoi nodded.

'Okay. Use your invisible ability. Don't let anyone here see you.' Yu Qi said again.

'Yes, master.' Aoi started to use his ability.

Yu Qi already could not see Aoi. But she still could feel where he was.

Then Yu Qi came out. Aoi followed her.

'Master, I will go first. Please take care of yourself.' Aoi said before leaving Yu Qi.

'Don't worry. I will take care of myself.' Yu Qi looked at the path where Aoi went.

"What is it? Do you see anything?" The vice captain asked as he also looked at the same area where Yu Qi was looking at.

The vice captain saw nothing. But why was this girl looking in that direction like it was something there?

"Where are the patients?" Yu Qi asked.

"What?" The vice captain did not pay attention just now so, he missed Yu Qi's question.

"You have asked for a doctor meaning you have a patient who needs the treatment. Where is he?" Yu Qi glanced to the vice captain.

The vice captain felt like he was facing someone that could kill him right away.

"This way." The vice captain showed Yu Qi the way. "Here." It was a tent.

Yu Qi entered the tent and saw a man was laying on a bed.

"Is she an angel come and welcoming me to heaven?" The man on the bed joked.

"An angel? Heaven? No. I'm a devil." Yu Qi smiled.

"If the devil is as beautiful as you, I want to go to hell." The man replied.

"Boss, don't say something like that." The vice captain said. "This is the doctor that I have invited to treat you. You will be fine."

"Yeah. Invited." Yu Qi snorted. "And why are you giving the guarantee that he will be fine? I am the one who gives him the treatment not so sure if I can treat him or not." She looked at the vice captain like an idiot.

"You... If you don't heal him, you will be killed." The vice captain threatened Yu Qi.

"Oh, how scary. But to be honest, I don't think you will be able to kill me." Yu Qi replied with sarcasm in her tone.

"You..." The vice captain shouted to Yu Qi.

"I need a quiet place to treat the patient. If you want to be here, shut up your mouth. Otherwise, get out." Yu Qi said as she approached the man on the bed.

She took the man's pulse and read it. This man had a serious injury on his chest and also contracted heart disease. This man needed to go to the hospital for treatment for his heart disease. As for now, she needed to treat the injury on his chest.

Yu Qi turned around and looked at the vice captain.

"What?" The vice captain asked.

"You take our medical bag, right? Give it to me." Yu Qi ordered him.

"Why should I give it to you?" The vice captain argued.

"Are you an idiot? How can I treat him if I don't have things to do so? Do you think I am a magician?" Yu Qi rolled her eyes.

The vice captain was dumbfounded for a moment. Indeed, she needed those things.

"Wait here. I will go get them. Don't try to do anything else to our boss." The vice captain had time to give some warnings to Yu Qi.

Yu Qi smirked when she heard the warning. Not long after that, the vice captain returned with the medical bag. Yu Qi took it from the vice captain.

She put it aside and tossed the blanket on the man.

"What are you doing?" The vice captain shouted angrily.

"Are you an idiot? How could I treat the injury on his chest without looking at it?" It was the second time Yu Qi asked the same question, 'Are you an idiot?' to him.

"You..." The vice captain could not rebuke.

"Come here. Open his clothes." Yu Qi ordered the vice captain.

The vice captain quickly took the clothes carefully.

"What is this?" Yu Qi was shocked when looking at the mess in front of her. "Who has treated him before?"

"Well, it is me." The vice captain answered.

"You know what? You are killing this man." Yu Qi said.

"What?" The vice captain was shocked.

"This wound has already infected. Leaving it any longer, it will lead to death." Yu Qi explained.
