

# INVINCIBLE 2003

## [Chapter 2003: Overlord](#)

Every single expert, who had gone over to watch the battle, inhaled a cold breath in shock.

Huang Xiaolong turned around and signaled to the three Skull Ancestors. As the three of them flew into the sky, a tacit agreement formed in their minds. Six palms shot out simultaneously, forming massive palm prints in the air. A single palm print was larger than a continent, and when six of them flew out at the same time, one could only marvel at the grandeur of the attack. Corpse qi surged in the area around the palms, and they smashed towards the barrier of light with destructive might.

Boom!

The instant the six palms landed on the barrier, the heavens and earth shook. Qi waves fluctuated around the area, and even the ancestor-level figures who were hiding in faraway world surfaces to watch the battle felt their eardrums shaking.

Some of them recognized the three figures in the air and gasped in shock.

“Those are the three Skull Ancestors from the Devil World!”

“The three of them can fight against Sovereigns if they join hands!”

As everyone stared at the scene before them in shock, they saw the light barrier caving in. After sinking several hundred miles in, it slowly returned to its original form.

The light barrier remained completely intact, and it stood strong. Rays of light emerged from the surface of the barrier once again.

When the experts who were marveling at the strength of the three Skull Ancestors' attack saw that they failed to destroy the light barrier, they sucked in a cold breath in disbelief.

Even with the combined strength of the three Skull Ancestors, they failed to break the barrier!

That was the outermost barrier defending the Radiance Divine City!

Even Huang Xiaolong, Jiang Hong, and Elan stared at the barrier in shock.

“Jejeje, Huang Xiaolong, how is it? The strength of my Heavenly Ancient Formation isn't too bad, right?” Creepy laughter resounded in the air as Dun Ei, and the others flew towards Huang Xiaolong from one of the world surfaces in the barrier.

They stood in the air tens of meters before Huang Xiaolong, inside the barrier.

Of course, the people accompanying Dun Ei were the regular Sovereign Realm experts. The King of Shadows and Lun Zhuan was nowhere to be seen.

“Huang Xiaolong, you finally showed yourself!” Dun Ei raised the divine spear in his hand and pointed the tip at Huang Xiaolong. “Today, you're definitely going to die! I'm going to take revenge for my son!”

Huang Xiaolong stared at Dun Ei with an expressionless face. "Do you really think that you can win because of this formation?"

"Hahaha! Huang Xiaolong, you have probably never heard of the Ancient Heavenly Formation! Let me tell you that the Ancient Heavenly Formation is comparable to the Array of Origin of the Radiance World! The Ancient Heavenly Formation is formed by fusing the strength of several hundred thousand grand formations, and every single one of them is powerful in its own right! Every single one of them can borrow the power of the world surface they are on to release earth-shattering strength! You should have seen how the barrier remained unaffected even with the combined attack of the three Skull Ancestors."

"Not to mention that the formation's main function isn't defense! With this formation, killing you is easier than flipping my hand! You're nothing more than a dog that I can kill anytime I want!"

Dun Ei's maniacal laughter resounded in everyone's ears.

When they heard what Dun Ei said, Jiang Hong and Elan frowned.

"Junior Brother, let me do it. I'll shatter the formation in an instant!" Jiang Hong turned around and spoke to Huang Xiaolong.

A sneer formed on Dun Ei's face when he heard what Jiang Hong said. "Jiang Hong, boast all you want. Do you really think that as the number one expert in your Divine World, you'll be able to do whatever you want? This is the Radiance World! Get lost and go back to your Grandmist Emperor Palace. Otherwise, you'll be leaving your life behind today!"

A chilly light flashed through Jiang Hong's eyes. "Why don't I break your formation right now. We'll see if I'm the one running away then!" As soon as the words left his mouth, he took a step forward. Purple light surrounded his hands, and the aura around his body rose without any signs of stopping. With the horrifying pressure coming from Jiang Hong's body, even the spectators hiding in the dark felt like they were suffocating.

A loud roar emerged from Jiang Hong's lips, and he slammed his palms towards the barrier of light.

As two balls of purple light emerged from his hand, they broke through space as they slammed into the barrier.

"Si si." "Si si..." Sounds of tearing filled the sky as explosions echoed through the air.

As the barrier tried to stop Jiang Hong's attack, it caved inwards until it could bend no more. With a loud pop, the barrier exploded.

Countless wails came from a distant world surface.

Dun Ei's expression changed, and all the Sovereign Realm experts he had brought with him stared at Jiang Hong with a solemn expression.

Jiang Hong's title as the strongest individual in the Divine World wasn't given to him for nothing! He deserved his title! When Chiyou saw the attack Jiang Hong used on the barrier, he knew that someone like him wouldn't be able to survive if Jiang Hong aimed the attack at him.

The two purple lights he sent out not only destroyed the outermost layer of the barrier, it even killed everyone responsible for protecting the formation!

When the experts from the Grandmist Emperor Palace saw Jiang Hong making a move to shatter the barrier, cheers erupted. The Radiance Knights didn't remain silent as they followed closely behind with the cheering.

Dun Ei eventually recovered from his shock as he chuckled in a low voice, "Huang Xiaolong, it doesn't matter even if you break the outermost layer of formations. Do you really think that you can destroy every single formation? Jiang Hong, didn't you waste quite a lot of your godforce previously? How many times can you execute your attack? A hundred times? Several hundred times?" Mocking laughter slowly emerged from Dun Ei's lips.

Even if Jiang Hong was able to shatter several hundred barriers, he would be doing nothing more than creating a tiny dent in the formation. It wouldn't affect the Ancient Heavenly Formation at all.

Jiang Hong's face sank.

However, a yell sounded out all of a sudden. "Be careful!"

Before anyone else could react, a massive explosion sounded out from behind Huang Xiaolong. A figure appeared in the air. It was a middle-aged man covered in blacklight, and he held a massive bone spike in his hand. It was clear that his aim was to assassinate Huang Xiaolong, but another Sovereign Realm expert stopped him.

"King of Shadows!"

"Cang Mutian!"

The two of them stared at each other in shock as their voices traveled through the air at the same time.

"What?! It's the King of Shadows! He's a terrifying existence comparable to the previous King of Hell!"

"Cang Mutian! The number one expert in the Kingdom of Devil Beasts! Even the Archdevil Lord had reservations about fighting him!"

The faces of all the ancestor-level figures watching the battle changed. They screamed in terror as soon as the two powerhouses appeared. It was as though a bomb exploded in their minds as they looked at the two legendary figures in front of them.

One could only call themselves overlords if they had the strength of either the King of Shadows or Cang Mutian. Even though every single Sovereign Realm expert was an existence that reigned supreme, a mid-level Sovereign was someone the likes of Chu Han, Chiyou, and the few other random Sovereigns couldn't match up to. Even Jiang Hong, who was the number one expert of the Divine World, felt the blood draining from his face.

After blocking the assassination attempt, Cang Mutian disengaged, and he took several steps back. The King of Shadows knew that he wouldn't get a second attempt, and he retreated.

The world seemed to come to a standstill as the two supreme experts faced off against each other.

“No wonder...” The King of Shadow’s cold voice sounded through the air. “Cang Mutian... Huang Xiaolong’s disappearance had something to do with you! It seemed as though he managed to eliminate all the sinister ghostly creatures inside you...”

Cang Mutian remained expressionless as he replied, “That’s right.”

As space started to ripple, the members of the Dragon Bear Race started to show themselves. Cang Zongyuan emerged from the shadows as well.

Dun Ei’s face sank. That was Cang Mutian he was talking about! Even though he was the ‘leader’ of the Radiance World, he knew that he wouldn’t be a match for an existence as strong as Cang Mutian! He had never expected that Huang Xiaolong would be able to convince someone like Cang Mutian to help him!

#### [Chapter 2004: Old Monster Lun Zhuan](#)

When everyone stared in shock at the sudden appearance of the King of Shadows and Cang Mutian, a flying wheel broke through the air as it flew towards Huang Xiaolong. Initially, it was the size of a tiny palm. However, in the blink of an eye, it enlarged to the size of a massive continent! It brought with it terrifying momentum as it shot towards its target.

Before it could slice Huang Xiaolong and the others in half, everyone saw how it tore through the stable space of the Radiance World like it was nothing more than rice paper.

The spectators felt a tremor running through their hearts.

Even a Second Order Sovereign like Elan felt the heaven-destroying pressure coming from the wheel. The look on her face changed in an instant.

“Protect His Majesty!” Elan yelled as she reached out to block the sneak attack on Huang Xiaolong.

As a Second Order Sovereign, Elan’s spear could tear through a divine plane like it was nothing. However, when her spear slammed into the spinning wheel, she was sent flying like a kite whose string had broken. The divine spear was torn from her grasp, and it flew to god-knew where.

Even though Elan tried to block the blow, she barely managed to slow it down. After she was sent flying, the wheel slashed towards Huang Xiaolong.

A snort left the lips of Jiang Hong and the three Skull Ancestors in unison. In an instant, the four of them made a move at the same time.

Jiang Hong slapped forward, and resplendent rays of purple light lit up the air before him. The power behind his strike was many times more than that when he had smashed the barrier. The purple light quickly transformed into countless grandmist worms as they welcomed the spinning wheel. Displaying some of his might, the grandmist worms that appeared were comparable to thousand feet tall dragons.

The three Skull Ancestors didn’t remain idle. They reached into the skies and sent out a palm that contained poison corpse qi that could corrode half a divine plane flying towards the wheel. Two scarily strong attacks went to welcome the massive flying wheel.

It was too bad the mighty looking grandmist worms were smashed the instant they came into contact with the spinning wheel. They turned into specks of purple light and disappeared. The attacks that the ancestors had sent out were no different. The poison corpse qi dissipated into nothingness.

Seemingly unaffected, the flying wheel continued to slash towards the few of them.

Cang Mutian and Cang Zongyuan's expression changed, and the looks on their faces twisted. Cang Mutian's palm that seemed to be able to cover the heavens reached out and tried to stop the flying wheel.

"Cang Mutian, your opponent is me!" The King of Shadows sneered, and the spike in his hand obstructed the way of Cang Mutian's palm.

Before the flying wheel could cut through Huang Xiaolong and the countless experts behind him, a staff materialized in its path. Even though it looked like a normal staff, the flying wheel that seemed unstoppable was sent flying the moment it collided with the staff.

Drawing a perfect arc in the sky, the wheel returned to the hands of a baby-faced giant man.

No one knew when he had appeared, but when Cang Mutian, Elan, Jiang Hong, and other Sovereign Realm experts saw the newcomer, a look of shock appeared on their faces.

"Old Monster Lun Zhuan!" Cang Mutian was the first to regain his calm, and he blurted out Lun Zhuan's name.

As the kid with the giant head retrieved his weapon, a smile slowly appeared on his face. "Cang Mutian, it seems like you're getting rusty."

Cang Mutian's expression sank.

He had no choice but to admit that he was no longer as strong as he was in the past.

Due to the black copper ghosts, his combat strength had been greatly affected.

All of a sudden, Lun Zhuan turned to stare at the space before him as a brilliant light flashed through his eyes. "Reverence Moon Old Man, it seems like you managed to gain quite a lot in the Rotting World."

Old Monster Lun Zhuan's voice pierced through space and resounded through the Reverence Moon Academy.

In the Reverence Moon Academy, every single expert present, student or teacher, heard his voice booming in their mind.

The Reverence Moon Old Man didn't ignore Lun Zhuan. He replied in an indifferent tone. "The same can be said for you. Your gains on the Heavens Path can rival mine, but you should leave. Even though Lord Wan Shi spared your life in the past, it doesn't mean that I'll spare your life today!"

When Lun Zhuan heard the Reverence Moon Old Man mentioning the event that had happened in the past, his blood started to boil. A murderous gaze appeared on his face, and he roared, "You old thing! Do you really think that I'm afraid of you?! You old undying b\*stard... If not for you, I wouldn't have

become the monster I am today! Let me tell you right now, I'm going to kill that Huang Xiaolong, and there's nothing you can do about it! Even if you come, you won't be able to stop me!"

As soon as the words left his lips, Lun Zhuan swung his weapon out towards Huang Xiaolong once again.

Brilliant rays of light emerged from the giant wheel, and every single ray seemed to come from a different world. Each ray of light contained endless might.

A horrifying might that contained the power to shatter the heavens surged out from the wheel as it shot towards Huang Xiaolong.

Space around it started to collapse, and it seemed as though everything that blocked its path would be eliminated without mercy.

"Humph."

"Too stubborn..." The Reverence Moon Old Man's voice broke through space and resounded in the minds of everyone present.

The staff that had stopped the wheel appeared once again. This time, it looked different from before. It emitted resplendent rays of light, and it was as though the old man's stick from before had turned into a supreme treasure. It contained endless might, and runes with the laws of the world were inscribed on it. From the aura each rune was giving off, there was no doubt that a single one would be enough to destroy a world surface.

Boom!

The heavens and earth shook when the two weapons collided.

The world turned upside down, and it was as though Armageddon had arrived.

As the impact from the collision started to spread, the hundreds of divine planes around the battlefield shook. The experts who were hiding in the darkness to observe the battle felt their blood draining from their faces as they hastily retreated. Cang Mutian had to protect Huang Xiaolong and the others while they retreated from the scene of impact.

Like before, the giant wheel was sent flying. However, the Reverence Moon Old Man no longer held back. Previously, he had stopped after preventing the wheel from slicing Huang Xiaolong into two. Right now, his staff shot towards Lun Zhuan without any signs of slowing down.

Old Monster Lun Zhuan's face finally changed.

"Brother Lun Zhuan, let me assist you!" The King of Shadow yelled suddenly, and he reached out to stop the Reverence Moon Old Man's staff. With the King of Shadow's assistance, Lun Zhuan gathered his strength as he sent both his palm flying out towards the incoming staff.

As four palms landed on the staff at the same time, the world seemed to lose its color.

Boom!

With the King of Shadows' help, Lun Zhuan managed to block the Reverence Moon Old Man's staff. However, blocking it didn't mean that they managed to escape unscathed. Both of them were sent retreating, and they were sent flying several tens of thousands of miles away.

Staring at each other, Lun Zhuan and the King of Shadows saw the look of shock in each other's eyes. It was clear that the strength the Reverence Moon Old Man displayed had wildly exceeded their expectations.

When Dun Ei and the Sovereigns on his side saw what had happened, the expressions on their face changed as well. They knew exactly how strong the King of Shadows and Old Monster Lun Zhuan were. When they saw the both of them flying away from a single strike from the Reverence Moon Old Man, they couldn't believe their eyes.

Moreover, the Reverence Moon Old Man was sending his attack through space as he remained in the Reverence Moon Academy. If he came over, no one knew if they would be able to stand up to him.

Before anyone could react, the King of Shadows and Lun Zhuan retreated and returned to the side inside the barrier.

When they entered the protective barrier of the Ancient Heavenly Formation, they heaved a sigh of relief.

Lun Zhuan turned to the direction of the Reverence Moon Academy and sneered, "Old thing, I have to admit, your strength exceeded my expectations. It seems like you're not too far off from the strength Lord Wan Shi displayed in the past. It's too bad our Ancient Heavenly Formation can't be broken. So what if you're strong? You won't be able to break our formation!" After he addressed the Reverence Moon Old Man, he turned to glare at Huang Xiaolong. "If you make Huang Xiaolong take out half of the Radiance Ancestor's inheritance, I'll leave. I will no longer bother with the matters of the Radiance World."
