### [Chapter 1021 Say Our Goodbyes](#)

Crystal's POV:

"What're you all doing here?" I looked at them in surprise, but I couldn't suppress how happy I felt. We hadn't gathered together like this in a very long time...

"It's a pity that we weren't able to say goodbye to you five years ago. So all of us had to come to see you off this time around!" Flora walked over with a bright smile and held my hand.

"Yeah! Five years ago, you just took off without saying goodbye! We even misunderstood you!" Harry yelled huffily.

### [Chapter 1022 The Way To Comfort Each Other](#)

Joanna's POV:

We reluctantly said our goodbyes. To avoid drawing too much attention, Harry, Flora and I didn't send Crystal off. Instead, we went straight back to our palaces.

When we got back to our place, Harry and I also got ready to leave. We were no longer needed in the capital as soon as the military parade ended, so it was time for us to go.

While packing, I found that Harry looked very sad. I knew that it was because we had parted with our friends once again.

I sighed, cupped his cheeks, and nibbled on his lip. "We'll see them again. Don't be sad, Harry."

Harry's puppy-like eyes looked at me sadly, but he eventually nodded and kissed me back.

I smiled and wrapped my arms around his neck, pulling him closer to me.

### [Chapter 1023 Bathroom](#)

Joanna's POV:

I shrank back when Harry's hot breath hit my neck. My quivered slightly as I said, "I don't want..."

"What?" Harry groaned and played with my nipples, gently pinching my stiff tips.

The high surged up like a tide. I grabbed the sofa cushion, my nails digging deep into it. I moaned with pain and pleasure, "Harry... No... Honey..."

After a dozen thrusts, he slowly pulled out of me and lifted me up.

I hurriedly wrapped my arms around his neck and asked, "What... What are you doing?"

He placed a chaste kiss on my forehead and said in a deep voice, "I'm taking you to the bathroom. You're completely drenched."

"I can walk by myself..."

#### [Chapter 1024 Security Check](#)

Crystal's POV:

In the car, Arron sat beside me and looked out of the window with great interest. I patted him on the head and also looked out of the window quietly.

I didn't feel relieved until the car was finally past the gates of the imperial palace.

I chastised myself for worrying too much. After all, Rufus had lost his memory and had completely forgotten me. How could he guess what I was going to do?

#### [Chapter 1025 Caught](#)

Crystal's POV:

After a while, the staff member came over with a serious expression, saying, "Ma'am, we need to reexamine your ID."

Instantly, I had a bad feeling about this.

I couldn't be that unlucky!

Damn it! Rufus should've lost his memory. He didn't remember who I was, so he couldn't have guessed my plans to leave so soon, right?

#### [Chapter 1026 He Knew All Of It](#)

Crystal's POV:

I was seething with anger, but I still managed to hold back the impulse to punch Rufus in the face. After all, the man standing in front of me was the most powerful one in the empire. I couldn't afford to offend him. Besides, there were also many guards present.

I locked eyes with him and accused, "You're the one who restricted me from leaving, aren't you? Why? The festivities are coming to an end. You have no reason to detain me."

#### [Chapter 1027 He Knows Too Much](#)

Crystal's POV:

I was shocked. I didn't expect that Rufus would even find out about Warren's involvement.

Just how much did Rufus know? Did he find out everything about me? No! It was impossible! Laura had already erased any information pertaining to my identity years ago. Rufus couldn't have found any clues!

"Why so quiet all of a sudden? Weren't you so confident just now?" Rufus sneered, an evil smile tugging at the corners of his lips.

### [Chapter 1028 Armory](#)

Rufus' POV:

Every time I dropped a name, I'd carefully observe this she-wolf's reaction, especially when I mentioned my mother. There was undeniable disbelief in Crystal's eyes, which I caught.

I pursed my lips and couldn't help but feel a little surprised. I just had a guess about the relationship between her and my mother, but I didn't expect that my bluff would actually lead me somewhere.

### [Chapter 1029 The Tables Have Turned](#)

Crystal's POV:

Despite being berated by me, Rufus didn't get angry. On the contrary, he picked up the report from the ground, patted off the imaginary dust, and handed it to me again, saying, "Don't be angry. Look over the evidence first and then argue."

I pursed my lips tightly. Eyeing the piece of paper in his hand, finally, I took it and looked through it.

### [Chapter 1030 Trump Card](#)

Crystal's POV:

I was so angry that it nearly brought me to tears. Rufus had really gone too far! Why did I use to think that Rufus, who had now become the lycan king, was only a little difficult to deal with, but nothing else? But he even used such a devious method to frame me!

Was the arsenal that easy to fill? Didn't that cost a lot of money? If I really wanted to betray the empire, why would I pay extra tax every year?

"You can explain." As he sat back and gazed at me leisurely, Rufus seemed quite at ease. Meanwhile, I felt like a complete fool.
