

Irresistible 1232

[Chapter 1232 Daddy](#)

Rufus' POV:

Arron threw himself into Crystal's arms and proceeded to act like a spoiled child. Crystal was obviously at a loss. She raised her hands, as though afraid that she might hurt the boy if she touched him.

I had already told my mother about Crystal's condition, but it seemed that she had left the children in the dark. Arron was happily cuddling his mother's chest, his eyes closed, his lips curled into a smile.
