[Chapter 981 Sharing](#)

Beryl's POV:

I was so terrified that I didn't dare to take in a full breath. I just hoped the lights were dim enough that the monster wouldn't spot me.

However, the monster not only saw me, but excitedly came running toward me with wide eyes.

I was so frightened that I spun on my heel and ran away. However, the monster anxiously called my name, and called me his sister.

Although I was scared, I stopped in my tracks and turned around to face him. "How do you know my name? And why did you say I'm your sister?"

[Chapter 982 He Is Daddy](#)

Beryl's POV:

I swept my eyes over the room curiously and asked the little monster numerous questions. Gradually, I began to believe that he was indeed my brother, as we had almost the same likes and dislikes.

I excitedly grabbed his hand and asked, "Where is your Daddy?"

He was quiet for a few moments before replying in an aggrieved tone, "We don't have a father."

"You're wrong. I have a father. He is very good-looking!" I swung my legs smugly.

[Chapter 983 A Daily Quarrel](#)

Beryl's POV:

I wouldn't risk him knowing about what went around my mind, so I diverted our conversation and cracked a smile. "So Mommy still loves me more."

Irked with my declaration, the little monster immediately shouted in anger, "No! Mommy loves me more than you, naughty girl!"

I snorted and didn't back down. There was no argument that I had retreated from. "Why are you so worked up? I didn't say that Mommy doesn't love you. I'm just saying she loves me more."

"Well, she loves us both the same. It's fair now." It seemed he was only helping himself feel much better; he looked dejected. His voice was muffled, as if he was only convincing himself that it was a fact.

[Chapter 984 Difficult To Make A Decision](#)

Crystal's POV:

Soon after my video chat with the Beta of my pack ended, I retired to our room to have dinner with Arron.

When I entered, he was in the middle of frantically ripping off the bandage from his head. With a frown, I walked over to him.

"Honey, didn't I say that you don't need to bandage when you are alone here?"

"Mommy, I'm just practicing how to bandage myself." A little embarrassed, Arron swiftly took off the bandage from his face.

[Chapter 985 I Won't Go](#)

Crystal's POV:

Stunned by my son's question, I hesitantly rubbed the invitation. Flora's words then rang in my head. The real purpose of this event was to choose a future queen for Rufus.

Since that was the case, then it would be better if I didn't attend.

After all, I was already ready to leave and return to the border pack, so there was no need for me to be there.

Finally, I put down the invitation with a smile and said to Arron, "No, I won't go."

Rufus should have his own life. And besides, this invitation was invalid after all. Since I hadn't received the formal invitation, Laura probably didn't want me to be there.

[Chapter 986 Go To The Ball To Find Someone](#)

Arron's POV:

I put on my coat and disguised myself once darkness hovered in the sky. Then, I placed the medicine, water, and biscuits on the bedside table for Mommy.

Before leaving, I took a look at her. She was sleeping soundly. I decided to walk back towards the bed and stood on tiptoe to touch her forehead, wanting to confirm that she didn't have a fever. After that, I felt a great sense of relief.

I should be back before Mommy could wake up. She must not know that I sneaked out.

With a deep breath, I sneaked out of the palace.

[Chapter 987 Alternative Dress](#)

Crystal's POV:

I'd been searching for Arron for a long time. At last, I spotted Beryl and him arguing with the guards in front of a banquet hall.

I became anxious when I realized that this was the venue of Rufus' ball. A continuous stream of Alphas and noble ladies of various packs were entering the hall. Rufus would arrive at any time. I couldn't let him see Arron.

[Chapter 988 Dress Up](#)

Crystal's POV:

Flora quickly dragged me to the lounge. Every guest had been assigned a private lounge. There was a large pile of snacks on the table of this one, all of which were Flora's favorite. It was obvious that Warren had thoughtfully arranged for them.

It was evident that Flora had lived a good life in the past five years. I presumed that Warren spoiled her a lot, and his subordinates also had immense respect for her.

[Chapter 989 Hide-And-Seek](#)

Crystal's POV:

As soon as I entered the banquet hall, I began to look for the two children, but the place was too crowded. Some Alphas recognized me and even tried to strike a conversation with me.

I was too focused on the task at hand, so I ignored them. Soon, I finally found the two kids eating at the long buffet table.

I wove my way through the crowd and was spotted by the sharp-eyed Beryl. She immediately grabbed Arron's hand and hid under the table. They quickly ran into the crowd from the other side of the table.

[Chapter 990 Former Mate](#)

Crystal's POV:

The guests all grew excited and broke into hushed whispers. More and more people gathered on the dance floor.

Arron ran away as soon as the lights dimmed. I breathed a sigh of relief.
