[Chapter 991 The First Dance](#)

Crystal's POV:

All the ladies had been waiting for this moment for a long time. Some even had the balls to come forward and recommend themselves. They all came from noble families and were outstandingly beautiful. Naturally, they all wanted to take this opportunity to become the lycan king's queen.

I was sensible enough to step back, so that I give Rufus space to be with these competitive ladies.

[Chapter 992 A Good Teacher](#)

Crystal's POV:

The music gradually grew more and more intense. Rufus and I danced rhythmically, and our steps were perfectly in sync. When the dance came to an end, everyone applauded heartily.

I gasped for breath in the end, with a thin layer of sweat on my forehead.

[Chapter 993 Despicable!](#)

Rufus' POV:

The she-wolf's violent reaction made me feel somewhat regretful. Just now, I had an overwhelming urge to see her real face.

But maybe she really cared about her appearance, more than anything. The second my fingers brushed against the cold metal of her mask, her eyes went wide with fright. I could've touched her head or anything else, but now, I had scared her, and I could see that she had her walls up again.

I was a little upset. I didn't want to scare her. I just wanted to see her smile...

[Chapter 994 Bullying A Child](#)

Arron's POV:

I clenched my fists and glared at these mean grown-ups. I kept trying to tell myself not to cry, even if they kept hurting me and pinching me.

I wanted to push them away and bite them, but I was too weak and they were too strong. They could even lift me up with one hand.

A she-wolf in a butterfly mask grabbed me by my collar and called me ugly.

I was scared, but there was a rule for strong men. Strong men didn't cry or scream even when they were in danger, because that'd just make the attacker attack more fiercely.

"Can't you speak? Are you mute, boy?"

[Chapter 995 The Most Beautiful She-Wolf In The World](#)

Rufus' POV:

The child looked so pitiful. The bandage on his face was loosened, his cheek was swollen and red, and his bare arm was covered in pinch marks.

I was already in a bad mood, and when seeing this, I felt like killing someone.

There were five she-wolves surrounding the child. The one in the lead had very short hair and was bizarrely dressed. She was wearing a bunch of metal jewelry all over a frumpy black dress. She looked like a free-thinker, but in fact, she bullied the weak and feared the strong. Otherwise, why did she tremble violently as soon as she saw me?

[Chapter 996 It's Okay To Cry](#)

Rufus' POV:

Afraid that I might not believe him, Arron repeated himself stubbornly. "I'm telling the truth. My mommy is not ugly."

I smiled. "I know. Your mommy is not ugly. Otherwise, she wouldn't have given birth to such cute children as Beryl and you."

Arron seemed satisfied with my response, because he then broke into a smile. Although his face was haphazardly wrapped in bandages, I could still see the smile on his face.

[Chapter 997 Remove The Bandage](#)

Arron's POV:

I looked at the man in front me. Mommy said he wasn't our father, but Beryl said he was. Beryl called him "Daddy", so what was I supposed to call him? I thought of "Daddy-Long-Legs", because he was very tall. I always had to raise my head to look at him properly.

[Chapter 998 His Face](#)

Rufus' POV:

Even though the little boy was against it, I still insisted that the doctor remove his dressing and check his wound. So many weeks had gone by but his wound hadn't healed yet. The child was still so young, and it wasn't good if the injury wasn't treated on time.

"No, I have to wait for Mommy." Arron tried his best to protect his dressing from being removed by the doctor.

[Chapter 999 They Are Leaving](#)

Rufus' POV:

Just when I was about to satisfy my curiosity, the door of the lounge opened with a bang. It caught my attention; I turned my head towards the intruder, the one who cut my momentum short.

"Stop!"

Crystal crossed our distance and managed to catch my hand just in time before I totally removed the bandages from Arron's face.

Then she rushed over to the other side and grabbed Arron away from my reach. She held him tightly in her arms and shot at me the deadliest glare she could muster. "What the hell were you trying to do to him?"

How she acted and how blurred the previous scene was baffled me altogether. But I gathered myself. "Arron is injured. I'm just checking on him. What's wrong with that?"

However, Crystal snapped at me. "Arron is my child. Whatever happens to him is none of your business."

[Chapter 1000 Run Away](#)

Crystal's POV:

I was too stunned to breathe. Rufus didn't say a word.

When I came to my senses, my first instinct was to turn my face away from him. But Rufus cupped my chin and forced me to face him. He stared at me for a long time, his expression gloomy, his eyes unreadable.

I was so anxious that I could hardly breathe. What if he recognized me and remembered something?

Finally, Rufus broke the silence. "Sure enough, you lied to me."

I swallowed and tried to keep calm while simultaneously trying to break away from his grip.
