

## Chapter 4

As an assistant, she did not doubt Yun Churan's ability at all.

The perfume of Fire Wind had been tested for more than three months. Why did it suddenly adjust when it was about to take part in the competition?

"Zhenzhen, just believe me once."

"Okay." Zhen Zhen asked in confusion, "Are you really going to participate in the competition in person today?"

She really felt that it was not worth it for Yun Churan. She had to spend a lot of effort to make every kind of perfume, but Yun Churan spent a lot of effort to adjust the best perfume, but no one asked about it...

These honors had all been snatched away by Lan Yinmeng. This woman had not even gone to the laboratory a few times a year before she was able to flatter Mr. Shen!

The more he thought about it, the more depressed he felt.

Yun Churan knew that Zhen Zhen was worried about him. He comforted her, "Don't worry, there are some things that should belong to me, and they are mine. Even if they want to take them away, they have to have the ability. Remember to do what I told you. You have worked hard."

"I promise I'll complete what Sister Yun told me to do."

After hanging up the phone, she went to the parking lot, ready

to go to the Flourishing Age Group.

The entire building in the city center belonged to the Flourishing Age Group. The underground parking lot was also very big. Ji Ninghan's assistant, Yuan Fei, was already waiting for her.

"Miss Yun, please come with me."

With this, he took Yun Churan from the president's private elevator and briefly told her about the perfume competition.

"The samples and materials you sent have all been handed over to the project. This perfume will participate in the competition with another perfume tonight."

"Thank you very much," Yun Churan said sincerely.

The fact that Ji Ninghan was able to arrange for her works to participate in the competition in such a short period of time had already given her a lot of face!

When Xiang Mei Company decided to participate in the competition, they had been preparing for more than three months from the topic to the plan plan before handing it in.

Now that she had stepped in at the last minute, she would definitely have to squeeze out other people's places. Moreover, it was still unknown whether she could successfully win the award or not.

Although Yuan Fei had just said a few words, she knew in her heart that the upper echelons of the Sacred Era might not be able to completely listen to Ji Ninghan. She feared that she would have to use some power to suppress this matter!

She had taken such a big risk to get such an opportunity. She had to win, and she had to win!

When the elevator reached the designated floor, Yun Churan walked out and saw Ji Ninghan sitting in front of a large office table. There was a thick stack of documents on the table, waiting for him to review.

Ji Ninghan noticed that someone was coming. He raised his head and happened to meet Yun Churan's gaze.

"How did you get hurt?" he asked with a frown.

Yun Churan was stunned. She looked at him in confusion and asked, "What?"

She followed Ji Ninghan's gaze and found that there was a blood stain on her foot, which should have been cut by Shen Mufeng's glass fragment.

At that time, her heart was full of anger for the jerk. She didn't care about the injury on her foot at all. After such a long time, the wound on the road stopped bleeding.

Ji Ninghan looked at her with a hint of heartache in his eyes. He took out a medicine chest and asked her to sit on the sofa beside him. He took out the disinfectant cotton and ointment and carefully treated her wound.

Yun Churan looked at the man in front of her with a shocked face. The medicine on the wound was ice-cold and comfortable.

Looking at his extremely serious look, Yun Churan was very touched. She had been with Shen Mufeng for five years, and

Shen Mufeng had never treated her so carefully.

It seemed that it was not that the man was careless, but that he did not care about women.

After applying the ointment, Ji Ninghan raised his head again. Seeing her dejected expression, he asked, "What happened?"

"Nothing." Yun Churan shook her head, immediately put down her feet, and said politely, "Thank you."

"You've already married me. There's no need to be so polite." Ji Ninghan calmly closed the lid of the ointment and specially instructed, "There are some things that you'd better make clear in advance."

Yun Churan asked in confusion, "What do you want to say?"

"Since you have agreed to marry me, keep a distance from other men in the future. Don't have any ambiguous objects."

"Of course." Yun Churan had always been a very reasonable person. She nodded firmly and said, "In our marriage, I promise that I will never have any emotional disputes with other men. I hope you are the same."

Ji Ninghan really didn't expect that she would have the guts to ask him to be pure...

"Although our marriage is just a deal, the bottom line and principle of marriage should be abided by both of them. If you meet your lover one day, you can bring it up. We are divorced and each of us pursue each other's happiness. But it's necessary to cheat on each other."

She had already experienced a heart-wrenching betrayal and did not want to experience it again.

Ji Ninghan smiled and nodded. "Fine, that's settled then."

He had a certain degree of mysophobia. It would be best for Yun Churan to agree to follow the principle of "two purities", so there was no need for him to waste any more time on it.

Yun Churan looked at the man in front of her, who was successful in his career and had a good appearance. She felt like she was dreaming!

"I've been unlucky for so many years. Has it begun to transfer?"

The two of them arrived at the parking lot one after the other, and arrived at the competition site in the same luxury car.

When she thought that she would see the scum and bitch make a fool of themselves tonight, the smile on her face deepened.

A shameless man and woman who relied on her to get on the throne would have to pay the price sooner or later!
