

Rejected, My Jaded Love Chapter 71

The b***h got away. I guess I scared her coming in that window. I had been outside her bedroom when I was checking out the house and saw her get her things and go in the bathroom and ran back to the truck to get the rag, we had it in a zip-lock bag to keep it wet, so I could get her without any difficulty. The window was higher than I thought it was though, and I struggled for a minute, or I would have had her, she seemed to sense me quicker than I anticipated too. She screamed pretty loud and there were guys banging on the door to get in. I did get a pretty good look at her when she got out of the shower to come over and unlocked the door, then she covered herself, which I guess was a good thing, I could have been caught if I stayed there any longer looking at her standing there naked.

Jade was stunning and looked way better than I thought she did. Kyle saw me running and thankfully started the SUV, or we might have gotten caught on the street.

We took Ashley back to her car, even though she hinted she could make time for either or both of us. Maybe later, I still wanted to get Jade, but I knew I had her number in my phone and really a slut was always available. Right now, I didn't want her, I guess I was going to have to go home and sleep with Danica to make my problem go away. I was so freaking close to getting her, I may have hesitated by checking her out too long before she either heard me or felt a breeze, I should have just jumped in knocked her out, and climbed out the window. Then I would have had all the time in the world with her. Making pups with her would have felt so good. Jade has a beautiful curvy body, yes, she is tall, but she still has heavy breasts, a small waist now, and curvy hips. She looks like Victoria's Secret model now. I know the word I am thinking about, she is luscious. I just want to take a bite out of that a*s. I have to have her now. I thought it was a pressing matter before, but I feel obsessed with her now. I need to possess her, to take her and make her mine. I need to mark her and make pups with her. I cannot fail anymore. We are going to have to bring in Jeremy, and Calvin. I have to make sure that the next time that I see her, she is coming with us. If I have to make a deal and allow Calvin and Kyle to sleep with her once I get her pregnant, that is fine, but I am changing what I told Kyle. No one else can touch Jade until she is pregnant with my pups. As an Alpha, I should be able to get at least 2 from her the first time out. I cannot wait until she is round carrying my pups. I am already bursting with pride at the thought of her being the mother of my offspring. I don't even have her yet and I truly cannot wait.

I will wait before I tell Kyle that my plans have changed. I want him to help me, and he thinks I will let him get a shot with her after I deflower her, that is not the plan anymore. He will get a shot, but only after she is a month pregnant with my pups and there is no chance of her carrying anyone else's pups. She is going to be my beautiful Luna. I will get her to reject Asher Morris, so he can go away, and she will bear my mark. I get so excited I jerk the steering wheel a little more than I should and the SUV swerves.

"You okay Eric" Kyle asks me as he looks over at me.

“Yeah, I got to see Jade in the shower, and she is far more beautiful than I ever thought possible. I need her. She will be my beautiful Luna and bear my pups. We will need to include Jeremy and Calvin in the plan as we cannot miss getting her again. I need to have her close to me. We cannot fail again. They will be anticipating us coming back. We may have to text Ashley that we will need her to get the girls into the Stone Moon pack to get her if our next attempt fails. I need to make absolutely sure that we get her the next time. If the window wasn’t so high, and if I hadn’t stopped to admire her, I would have had her”. I am really pissed off at myself. I screwed this up, I need to get to Danica and get her into the shower so I can pretend that Danica is Jade. I need a release.

“I have never seen you this worked up Eric. She must have been freaking built for you to be like this. I can’t wait to get to see her myself after we get her.” Kyle said and I nod, as I am not going to argue with him over it, He will eventually get his hands on her, but not until she is marked and carrying my pups.

We get back to the hotel and I head straight to the room I share with Danica who was laying across our bed watching TV. I smile at her and pull her up from the bed and say, “Come take a shower with me?”. She grins and starts pulling her clothes off and throwing them on the floor as she heads to the shower with me.

I adjust the water and start taking off my clothes and she watches my p***s spring free from my jogging pants and smiles at me. I adjust the water down a little and enter the shower first. Danica is not built the same as Jade. Jade is taller, has a thinner waist, and has a bigger bust, and you can tell she hit the gym a lot because her a*s is perfect, but Danica is still pretty, and she always wants me, we have been together for three years. It is still good with Danica. I notice that my hard-on is not as hard as it was when I took my pants off, so I need to get focused again and close my eyes to remember Jade as she stood in the shower with her hands up washing her hair. I could see a lot of her breasts and a*s. I like watching the suds run down her curvy back to her a*s....and I am back to where I need to be. I lift Danica up and press her back into the cold tiles and she squeals from the contact. I hold her a*s up with my right arm and lower my left arm to rub her clit with my thumb. I know she has forgotten the cold tile as I hear her start to moan deep in her throat. I quicken the movement of my thumb and push down a little harder on her clit and then start to use my middle finger to enter her and check to see if she is ready for me yet. My p***s is standing at attention and hovering right outside of her lips, as I keep circling her clit and adding a little more pressure and rubbing a little faster, her surprised gasp sounds across the bathroom and I know that she is close to her o****m. I slide my finger back into her folds and rub the top side of it looking for her g spot as I know that she is already excited and about to c*m. As she throws her head back and screams my name, I pull my hand away and thrust up hard into her, having her take all of me up to the hilt. I brace my feet on the bottom of the shower stall and then put one arm on the top of the wall as I continue to thrust into her, wrapping my arm across her lower back and pulling her tightly to me as I continue to thrust as hard as I can into Danica. As I c*m I yell out “Jade” and I already know my mistake as Danica stiffens up on me and tries to pull back away from me as I continue to squirt stream after stream of c*m into her. As I ease her feet down to the floor, I already know what she is going to say, and I already know how I am going to reply to her so I might as well start it off.

“What honey, what is wrong?” I ask Danica, feigning ignorance.

“You just called me Jade when you came Eric. Are you screwing around with Jade?” Danica asks me.

“No, why would I, when I have you, baby?” I tell her. “You misheard me, I call out babe, and maybe I wasn’t as clear as I could have been as I was cumming, but I called you babe,” I tell her, knowing that it is a complete lie.

She doesn’t look 100% convinced, but it was close enough that she was like “oh, ok” and headed out of the shower stall to get dry. I went ahead and took my shower and at the thought of jade again, I ended up with the same problem and had to take care of it myself. This time though, I bit my lip and didn’t call any names out.

Rejected, My Jaded Love Chapter 72

I was so glad to see the hill as we arrived back at Dark Moon pack. I need to see my dad and mom and get some hugs, and some advice too. The Guards saw Tyler in the lead and went ahead and opened the gates. I bet he had mind-linked them and I know that mom and dad will be right there in front of the packhouse when we get there. I waved to the Guards as I passed them, and they waved back. I have participated in their training too, and I am starting to learn most of the Guard’s names.

We pull up at the packhouse and see mom and dad. I turn off my Jeep and run over to mom and dad to hug them both. I didn’t even realize that I was crying until I hear mom softly crying and lift my head to look at her. She is upset because I am in pain. Her love for me is a gift, as she never had to love me as much as she does. I feel like I am her bonus daughter, and I am so thankful for her. I am not bound to her by blood, but I am bound to her by love. I drop my head to her shoulder between her and dad and cry harder because I am finally safe. I feel my brothers step up and wrap their arms around us and I realize that I should have just come here after I got to know them, that no one else is going to love me more than they do. Tyler has an arm around dad’s and my shoulder, and Tate has his arms around mom’s and my shoulder, and I feel lighter knowing that I am totally safe here.

I hear a cough behind us, and I turn to look at Bree smiling at me and know she wants to meet my parents. I wipe my eyes and start making the introductions to my parents. I introduce the group, remembering Dad already knows Mason and Braxton. When I got to Calvin, at the back of the group, I hear a growl from my dad, and I already know he realizes who Calvin is to me. Tyler steps forward and I can see him mind linking dad for a few minutes. I know he explained what had happened yesterday as dad steps forward and pulls me into a tight hug, and then steps forward to shake hands with Calvin, and welcomes him to the pack.

“I am sorry Calvin things were super busy and I was so focused on getting us here quickly and safely, that I forgot to advise dad of what had happened yesterday. You are welcome here, and you will be Gamma. I just had to get dad up to speed with the new information” Tyler tells Calvin.

“What new information” Mom asks.

“I will tell you later baby” Dad leans down and tells mom, and then kisses her on top of her head.

“As we couldn’t stay and be safe at the Lake and my friends wanted to come back with me, we figured that we would finish the last few days of Vacation here until they need to leave on Sunday afternoon if that is okay you?”. I ask my parents.

“Of course, Tyler just told me that they did that to make sure you got back safely honey,” My dad says to the group.

“We can see about having a BBQ in the picnic area by the pool, in say, two hours. I will show everyone to their rooms and show Calvin his Gamma area so you can get comfortable and unpacked and get your swimsuits on and you can swim or layout and relax if you want to. We just got the pool opened for the year on Monday” My mom says to the group.

That would be great, I feel like I ruined their vacation with everything that has happened”. I say to mom.

“Dad, I was going to see if you or Luna Monica could get with my high school and see if I can turn in my homework through email, and do Zoom meetings for any tests that I have to do if they will allow it for the last two months of school?” I ask dad.

“I don’t see that being a problem Jade, especially since you are actively being stalked, this only makes sense that you remain here to keep you safe. I will call the school on Monday” my father says to me.

We all go to our rooms to unpack, and I bring my dirty clothes down to wash since we are going to be out at the pool anyway and I can change out the loads in an hour.

I see that the guys are already out and throwing footballs to each other in one area, and frisbee’s in another around towards some small metal stands with chains hanging from them. I see the frisbee enter the chain area, and apparently, it is a game or something. There were only two of the small, chained, stands about 200 feet apart. There was also a small putting green, but no one was over there playing.

I head over to lay down on the lounge chair next to Bree, with Nicole on the other side of Bree, and Jessica coming out a few minutes later and laying down on the lounge next to me. Nicole gets our attention and raises up to take a selfie of her and the rest of us laying

out behind her and hashtags it #springbreak. I wish we had had time to do more before we had, had to leave Lake Havasu, and I frown thinking that maybe me being there totally ruined everyone's vacation.

"What's the frown for?" Bree asks me.

"I feel like I ruined our vacation. We didn't get to do very much and due to my, Asher's, Ashley's, and Eric's actions it basically ruined it for all of us" I said. "Wrong!" Dixon says as he walks up to the group. "I had a good time, I just wished Eric and his group hadn't popped up. You couldn't have known that Asher was your mate, Ashley figured it out and became a bigger pain in the a*s, but Asher created the Ashley problem. You are accepting guilt over stuff that was never your fault. I am having a great time here and we are safe, and I know that no uninvited guests will be popping up here. I am totally content to stay here until Sunday, there is a lot to do here".

"I agree, I am having a great time here. I love it here Dark Moon, I plan on getting some new ideas for training by sitting in on the training sessions here. You never know, I could find my mate here". Braxton calls out as he comes jogging up, grinning at all of us.

"I am also very glad to be here. This is a very well-maintained pack, and I have seen nothing but positives since I got here. I know my job duties will be much higher here than at Howling Wolf, as even though I am the Gamma, we have so many more people here, more than double. I will actually be busier than I ever have been. I am already so much happier than I was there, so glad I am finally away from Sophia, she was just a horrible person. I pray the Goddess grants me a second chance mate, as I am the one who messed everything up with Jade. I hope I get blessed as she did with a second chance as well". Calvin says to us as he walks up to the lounge chairs and sits down next to Jessica.

"Pray specific to the Goddess Calvin. Don't just wish for a mate, request a good mate, a faithful mate, a loving mate, an honest mate. I learned my lesson, I didn't, and I have no idea if my second chance mate will work out, or not because the bond can't fix everything" I tell Calvin as I look over at him and give him a small smile. I lean back in my lounge chair and close my eyes. I love Asher, but I don't feel like I can trust him. Ashley keeps popping up with more and more bullshit and I am just tired of all of it. I am just going to enjoy spending time with my friends while they are here, and then throw myself into my school work and training so I don't have time to think of how much I miss Asher. I am not going to just let him break my heart, although this has hurt more than when Calvin rejected me and I have no idea why.

Rejected, My Jaded Love Chapter 73

Eric's perspective

This morning, we woke up to Sophia screaming something about Calvin. I was half asleep when it finally hit me what she was saying.

“What do you mean Calvin is gone?” I asked her.

“Most of his clothes are gone, and he and his truck are not here,” Sophia tells me while she is crying.

“Did you have a fight last night, Sophia? Was there anything that he was upset about?” I asked her.

“No Eric, we went to bed fine. He seemed like his normal self, he just wasn’t talking very much, but he hasn’t been since Jade accepted his rejection”, Sophia said.

“Well, it had to be something. Maybe he went to go wash his clothes. This may not be a problem at all, just a misunderstanding. I will call him and see where he is at right now”, I told Sophia as I grabbed my cell phone and hit his number. Sophia and Danica sit down on the end of the bed that Danica and I share, and Danica is comforting Sophia and looking at me. I shrugged because he didn’t say anything at all to me. The phone continues to ring and then goes to voicemail.

“He didn’t answer.” I frowned, worried now what the hell was going on. He always answers my calls as he is my Beta, and he has to be there when I need him. This may be a problem. I tell Danica I am going to check with Kyle and Jeremy about Calvin, to see if they know something and she nods sharply at me as I went to exit our room. She is still pissed off at me for my little problem of calling her Jade when I finished last night, and she knows I lied when I told her I didn’t. I may have to banish her from my pack once I find Jade, as she will never be safe at Howling Wolf with Danica there, or Sophia either.

I knock on Kyle’s door and hear the rustling of sheets and footsteps heading for the door. Kyle answers the door naked, and I see a human in his bed as I enter.

“I need to speak to you outside for a minute, get dressed,” I told Kyle as I walked right back out of the room. I don’t blame him as we tend to attract attention wherever we go, and it is Spring Break.

“Hey, what’s up man, I wanted another shot at her before I let her go?” Kyle tells me after he shuts the door to his room.

“Do you know where Calvin is? He is not in the room with Sophia, he took a lot of his clothes with him, and his truck is gone”, I tell him.

“No, I found that little hottie and took her to my room. I haven’t spoken to anyone last night or this morning. Let’s go ask Jeremy, he may know”, Kyle says as he steps down to Jeremy’s door and knocks on it.

“What the hell,” a naked Jeremy says as he answers the door. “I have a guest, don’t wake her. We were up late last night. What is the problem?” Jeremy asked.

“Calvin is missing, he isn’t answering his phone, and no one knows where he is. We were just checking with everyone in our group before I called his parents to see if they had an emergency that might have called him back home”, I say to Jeremy.

He might be washing his clothes, you know what a neat freak he is about his stuff, he may be at the local laundry. Try texting him and see what he says”, Jeremy tells us as he closes his door and locks it.

“I guess he isn’t going to help us look for him then,” I tell Kyle as I pick up my phone and text Calvin.

“Do you think he might have heard us? You know the plans we had for Jade. Do you think he heard us talking on the boat yesterday?” Kyle asks me.

“s**t, go grab your shoes and I will go tell the girls that we will be right back. We can grab some food while we are out to cover for our time. Let’s go by Jade’s house and see if his truck is there. If it is, then all of our plans to get Jade are ruined”, I tell Kyle.

I enter my room and try to keep calm as I tell them that no one had heard from Calvin, but that he may be washing his clothes and that I am going to text him and then check a few local laundry mats to see if we can find him. I also say that Kyle and I will be grabbing lunch for everyone on the way back as it is 11 am and it will be noon by the time we get back. We head out to my SUV and head straight to Jade’s rental house. There was a large white van with a commercial cleaning emblem on the side of it in the driveway with 4 people moving around in the house with the door open.

I entered the house looking around with Jade and all her friends not around, so I stopped one of the men there cleaning.

“Do you know where the people that were here are right now? Did they leave? I am friends with them, and we had something scheduled for lunch, but I didn’t see any of their vehicles in the driveway. Do you know where they went?” I asked him.

“No, I do not know where they went, only that they had an emergency come up and they all had to leave three days early. We were told to go ahead and clean the unit for the upcoming guests today. I have no idea where the previous guests went to, I am sorry” he said, before turning to resume cleaning.

“Thank you” I mumbled as I walked away from him.

“This isn’t good. They take off for an emergency and Calvin is missing. I don’t think that this is a coincidence at all. I think Jade got freaked out by me trying to take her last night, and they all bolted back for their pack. I need to call that Ashley girl up and tell her to let me know if Jade is back at Stone Moon. This really messes my plans up. I won’t be able to get Danica or Sophia to go in to get Jade anymore. They would kill her for sure in their jealousy. I will just keep in contact with Ashley and get this set up, she will just have to be

the one on the inside for us, instead of sending the girls in. I need to get something for Ashley that will knock Jade out so she can't fight her, so Ashley can put her in her trunk and then meet us in town after dark, so no one sees us getting her from the trunk. I don't like this at all, but maybe you can work your magic on her, and get him willing to do that for us." I told Kyle.

"She liked us both, we may have to work together on this to get Jade from Stone Moon," Kyle tells me.

My phone pings with a text from Calvin. "I saw your missed call and text. I am OK, I just got another job offer from another pack to be their Gamma from someone I met from another pack. I will not be returning to Howling Wolf with you. We are not going in the same direction anymore and being forced to reject my mate has taken a large toll on me. I am not the same person that I was before I rejected Jade. I didn't want to stay with Sophia, but she threatened to harm Jade, so I stayed with her just to keep Jade safe. I don't care what you tell Sophia, as I hope I never have the displeasure of seeing her again. She has an ugly heart, as she is a malicious and mean person. I haven't wanted to be with her for the last year, but she refused to break it off. Tell him we are done. We aren't mates. She broke off with her mate because she wanted to be at a higher rate and not the warrior she was mated to. She refused to let me go and be with my mate. Don't look for me. I will NOT be coming back to Howling Wolf. I reject the Howling Wolf pack and no longer have any and all ties to you. Don't bother messaging me again. I already knew you didn't want me in your pack anymore. You were going to cut me loose, remember? I am blocking your number from this time on. I have also notified my father, your dad's current Beta, so he can advise your dad that you will be needing a new Beta. I think Kyle could fit in there for you, as my replacement. That is all, I am in my new pack. They will be having my ceremony shortly. I will never be coming back to your pack".

I finished reading the text and I am pissed. He did hear our plans and knew what we were going to do. He probably warned Jade too, so they left. It is going to be hard as hell to get her now. I will have to talk to my father and see if he will support me in attacking Stone Moon if Ashley can't get Jade out of there. He would want a white wolf to be my Luna. I am sure he will support it; I will speak to him when we get back home.

Rejected, My Jaded Love Chapter 74

Asher's perspective

I got back to the pack and went ahead to store the pontoon boat in its hanger and then the SUV in the Garage before I brought my car back around to the driveway. I need to speak to dad and just wanted to think through what all I was going to say to him and mom before I actually did it. I mind-linked dad and asked him if he was in his office.

"Both your mother and I are in the office. Did you need us?" Dad replied.

“Yes, I am on my way up right now,” I told him.

I knocked on the door when I got there, as I have learned that lesson before, and now I understand it, as I have felt how it feels to be with your true mate.

“Come in” my father calls out.

“Welcome back son. I thought you would be there until Sunday like your brother and sister?” my mother asked me.

“Something came up and I need help from both of you” I anxiously say to them.

“What is it?” my dad asks me.

“Ashley Conner, I need to banish her and her family dad. I gave her plenty of chances and she just kept it up. After I brought her back here to the pack Saturday night after she kissed me in front of Jade, I warned her to leave me alone. The next day she was in my bed naked to greet me when I got back to my hotel. I told her I had met my mate and that I didn’t want her around me anymore, but she continued to harass us” I tell my parents.

“I have actually heard about some of the things that Ashley did but go ahead and tell me your version of what has happened with Ashley” Dad tells me.

“Ashley approached me on Monday when we docked after a day on the lake, she accused me of getting her pregnant to break me and Jade up. Thank you mom for keeping me from making a huge mistake the night I came to visit in February, I hadn’t slept with her for almost 4 months so if she actually was pregnant, it couldn’t have been by me. I Alpha Commanded her to stop harassing Jade and I and told her she was to cause no problems to any other pack members ever again. She still went ahead the next day and found some of the Howling Wolf’s pack members and set up Jade to be kidnapped. Ashley actually told Eric to make sure Jade didn’t come back to Stone Moon pack ever again. She was literally condemning Jade to a life full of abuse. I hate doing it to her parents, but both their daughters are truly terrible people. She literally took them to Jade’s rental house and showed them where they were staying. I just wanted to talk to you both and make sure that it isn’t me just being furious at Ashley for being evil. Jade was almost kidnapped by Eric while Ashley was in the SUV, they even had chloroform with them so she wouldn’t fight him when he tried to take her. I am worried sick over Jade. I don’t know where she is, I need to see her and know that she is safe. I am assuming that she is because she is with her family. But I NEED her, she calms me and makes me happy. I want to see her belly grow with my pups and for her to sit on my lap as mom does in your lap dad. I need help. I need you to help me get this right, so Jade is safe to come here and grow old with me. I don’t want her to be my Luna, she IS my Luna. I would do anything for her. I misspoke and now she thinks I chose to believe Ashley, over Calvin. But it was because I know that when we are banishing people from our pack it is serious and I needed proof against her to do it. I just had to confirm it for myself, I just wanted her to stay behind at the house because I was worried that Eric would take her away and I wouldn’t get to see

her again. I am so scared to lose her, and I ended up doing it anyway because Bree said that Jade wants me to just move on, but I don't want to move on. I love Jade and I don't want anyone else running this pack with me. Please help me, I don't know how to fix this dad" I beg my parents and look them in their eyes showing them the unshed tears in mine. "I have f****d this up so badly, but I can't lose her mom. It would kill me".

Mom gets up from dad's lap and comes over to me and gives me a hug. She tells me, "We will help you, Asher, I believe you and sometimes your dad "misspeaks" too, so you totally got it from him. I have already reached out to Luna Joy. We are going to help you and Jade right this relationship. I believe that you both would be crushed if you didn't become mates. Right now, Jade is safest there, their pack is double the size of ours and she will be taken care of and protected there. Joy has told me how sad Jade is and how much she cried when she got back to Dark Moon. Bree and Dixon told me the beautiful words you said to Jade on the boat. I know you love her baby. We will get this fixed baby. I would love to have Jade as my daughter-in-love. She belongs here with us at Stone Moon, and we already love her so much, even from day one we felt the pull to love her, and we couldn't figure out why even Dixon who is normally hesitant around girls was 100% in on helping her and protecting her. He actually got her, her very first birthday present, because he felt so bad for all that happened to her on her birthday". I low growled in jealousy and mom leaned her head back and laughed. Mom continued on, "You will need to thank your brother when he comes home, even when you weren't thinking because you were so upset, he was, and he already sent the video. We were just waiting on you to come back to discuss it with you before we passed the judgment on Ashley's actions. She has committed treason by trying to attack the Luna, even though Jade had not accepted it yet, she is still considered to be the Luna. Until you or she reject the mate bond, Jade is the soon-to-be Luna. Your dad has already mind-linked your uncle Bryan to go get the Conner Family. We were waiting on Ashley to return from Lake Havasu as well and she just arrived. They are on their way to the office now and your father is going to handle it. Unless you want to?"

Rejected, My Jaded Love Chapter 75

Asher's perspective

I look towards dad and with my eyebrow raised ask him if that is correct?

He nods and says, "Unless you want to be the one who handles it".

"Actually, I do want to handle it, I want Jade to know that she can count on and depend on me. That I fixed this for her because I love her, and I DON'T love Ashley. But if I get off from where I need to be dad, please step in to help me. I want to do this right and give them no opportunity for it to be overturned by the Council" I told him.

"It won't be son, I already contacted the Council and sent them the videos of Ashley meeting Eric and Kyle, to take them to Jade's rental house. As well as the videos of all the witnesses besides you, eleven in total including Jade's statement. We needed it to be sent

in already as Dark Moon is going to go to war with the Howling Wolf pack in the next few days, and we will be helping them out with it. Jade is your mate, and we will defend her too. Shouldn't be much of a fight though, Dark Moon is sending 250 of their warriors, and 20 of their marksmen, and we are sending 100 of our warriors. Tyler and Tate are spearheading it Tyler over the warriors, and Tate over the marksmen. Tyler already had busses coming in to transport the men and women going over to Howling Wolf so they wouldn't be exhausted when they got there. They only expect to have around a total of 10 casualties total. Mainly Eric and his family, Kyle, The Devoe Family, Sophia, and Danica. Anyone who poses a potential threat to Jade is going to be taken care of when they go in. They decided to do it now so Calvin can go in with Tyler and they get the whole Alpha family, and the Devoe's, before they try to run. They don't want to give them time to change the set-up of the packhouse, or where people are on their lands. Calvin knows where everyone is and that will help them the most when they get there to attack" Dad tells me.

"I want to go too I can fight, and I am about to be made Alpha. I want to kill Eric with my bare hands for putting his on Jade on the Sandbar and for all he has done to her and what he planned to do to her" I told dad.

"You will need to get with Alpha Harris or Tyler on that one Asher, I was not told that they needed either of us, that Braxton and Mason were both going to go, and our warriors will be getting their orders from them. Alpha Harris was going to stay at his pack, just in case of any problems and Jade will be protected until it is over, Travis will be staying with her until it is over. With their pack not really training and not letting their women train it will be over quickly" My father tells me.

There is a knock at the door, and I get up from the chair in front of the desk and go over to stand next to my father as he calls out that they can come in. I see the Conner family coming into the office, James, and Karen Conner, followed by their daughters Brittany and Ashley, followed by my uncle Bryan who shuts the door as soon as they have taken their seats.

"Hey, Asher," Ashley says to me grinning. "I missed getting to see you at the Lake. I am glad that you are home now".

My mom clears her throat and looks pointedly at me.

"Ashley, you were Alpha Commanded to leave Jade and me alone, you were also instructed to not cause any other Stone Moon pack members problems as well with it" I start to say.

"I haven't caused any more problems, I left you alone. And Jade too. You guys haven't seen me in days, not since at the dock on Monday, I left the Lake then." Ashley tells the group.

"Why did you just get back today then, Ashley?" I ask her.

"I went to visit other friends on my way home Asher. Why? Did you miss me?" Ashley asks me hopefully.

"I was just wondering if you would admit what you did," I tell her. I see her parents shift in their seats and they know that Ashley was lying too. They just didn't know what she had done. Yet.

"What is this about?" Brittany asks me.

"Your sister was Alpha Commanded to leave me and my Mate, Jade, alone and she didn't follow the Alpha Command," I tell Brittany.

"You mean that fat girl that picked on my sister and had her brothers threaten her?" Brittany asks me.

My fists clench up and I grit my teeth to think about what I am going to say before I let the words that I want to say come out of my mouth. I look over at Ashley, and say to Brittany "Is that what you heard?"

"Yes, Jade was mean to my sister and then those guys threatened my sister, so she said to give it back to her at school. She showed me who Jade was while she was outside with Dixon, Braxton, and Mason, so I knew who to look for and I bullied her at school because she told those guys to do it to Ashley. She is my sister and I love her so it was only fair for me to do it to Jade, and besides, I never put my hands on her or anything. It was harmless" Brittany said.

"No, it wasn't harmless, Jade had been bullied at her last pack. In fact, my parents told Jade to tell them if anyone did it to her at this pack. The fact that Jade didn't tell on you speaks volumes about her character. And you bullying her speaks volumes about yours too Brittany. Your sister lied to you, she reversed what had happened so Jade got bullied by your sister and then by you, which is why Jade didn't know what you were talking about when you stopped her in the cafeteria. You had it twisted from the source, your own sister lied to you to get you to pick on someone that she was already bullying. Ashley? You want to tell your sister what actually happened in the dining room here?" I ask her.

"No, she did come up to us while we were talking to them and interrupted us while we were talking. We were there first, and she just comes wandering up on us and keeps us from talking to the guys. It wasn't like she had a chance with them anyway, she was fat, she didn't need to be there with those hot guys anyway, they weren't going to choose her over me" Ashley tells me, shrugging and looking away.

"Well, I already heard it from the "hot guys" mouths, and they were talking to you and your friend, but they were waiting on Jade. They were all going to go shopping together and they had arranged to meet Jade in the dining room before they left. They ASKED her to meet them there. She is their sister and you showing your true self to them, let them know that they had dodged a bullet on that one. They saw you for the malicious and ugly

person that you are when you spoke like that to Jade. They actually told me beautiful on the outside, and ugly on the inside. You then totally lied to Brittany about what really happened, and you basically did all of this yourself, but you have condemned your whole family with your actions Ashley” I told her.

Brittany looks at Ashley like she was waiting on her to deny it, but Ashley remains quiet and doesn’t say a word, not even looking at Brittany or at her parents.

I looked at my dad and he nodded to me to keep going, I took a deep breath and then continued on, “Ashley, did you speak with soon-to-be Alpha Eric Taylor, about Jade?

“No, I didn’t. I don’t even know him, how could I have even spoken to him, if I don’t know him?” Ashley said to me.

“Ok, so you have never met soon-to-be Alpha Taylor, right?” I said to her.

“Right,” Ashley said and let out a little laugh, and looked over at her parents.

“So, if I said that I personally saw you with him?” I asked her.

“What! When?” Ashley asked me.

“Well, according to you, you don’t even know him, so which is it, Ashley?” I asked her.

Rejected, My Jaded Love Chapter 76

Asher’s perspective

“I don’t know him. I have never met him, and I don’t know why you are asking me this Asher. You have known me for a long time, you should believe me” Ashley says to me, working up some tears in her eyes and giving me a puppy dog look.

“I saw you, Ashley, I literally saw you come to the convenience store, park, and go in and come back out with a drink. I watched you sit down on a bench and wait in front of the store, instead of going back to your car. I watched Eric and Kyle arrive about 10 minutes later and watched Kyle go in to get drinks and Eric gas up the SUV. I watched you get up and go out to the SUV and get in the back seat, and Eric then goes in the store. I watched after Eric came back out to the SUV and then turn to you to get directions as you told him exactly where to go to get to Jade’s rental house. You took them there and placed Jade, and my younger brother and sister in danger as they were in that house too, and Bree shared a room with Jade. You didn’t care about my siblings getting hurt, only that my mate gets taken away by a bad man, who was going to do very bad things to my mate. You even instructed him to make sure that “Jade never leaves Howling Wolf again”. What in the hell were you thinking? We only hooked up about 4 times total in the last 3 years, we were not in a relationship. You knew it as well as you hit on anything that moved and was

a high enough rank for you to deem acceptable to try to hit on. You know, like Mason, Jade's brothers, Braxton, and too many more in this pack. You disgust me, Ashley, you know you had me fooled at first, I believed your innocent act, but I know just who I am dealing with now Ashley, and you have condemned your family to go right along with you" I tell her and watched her as she grew visibly paler with each new piece of information that I had on her.

"No, it wasn't like that Asher, you have it wrong. They MADE me meet them. I was too scared to not do it, I was scared that they would hurt me or my family" Ashley tells me, now clearly crying.

"No, it WAS like that. What you don't know is that we all know everything. Eric made plans with Kyle on the pontoon, but the whole conversation that you had with Eric was overheard, thank the Goddess, by someone else and that is how we knew everything. Why Jade was on high alert and caught Eric coming to get her, how we knew you sat out at the Marina with a sign with "Howling Wolf?" written on it. You looked for her old pack, so you could get rid of her. Thinking that if you got rid of Jade, I would fall into your lap. Well, that would never happen Ashley, ever. We were not even a thing, you were available and yes, I lost my virginity to you, but you even lied about what happened with that too. In your haste to try to get rid of Jade you never even realized that you were being watched and recorded" I hear an audible gasp and glance over at her family. They looked completely shocked and with the fear I see creeping into her father's eyes I know he now knows exactly where I am going with this.

"Yes," I continued to speak, as I look back over at Ashley. "I have proof of you colluding against your Luna and it has already been given to the Council, along with video statements of what you have done, and had done to Jade, by you and your sister as well. But you have committed treason against your Luna now Ashley, and there is no coming back from that. It is documented and your father knows the penalty of it, the mildest punishment is banishment from the pack. I personally want to kill you myself for putting Jade in danger, but I will allow you to leave the pack with your family. "I Asher Morris, soon-to-be Alpha of the Stone Moon pack hereby banish the Conner Family; James, Karen, Brittany, and Ashley from ever being on our pack-lands. Do not ever return or try to contact us again". You have 1 hour to get packed and off of our land. I will send 3 warriors with you and your time begins the second you enter your house to pack""

"Asher, please you cannot do this. What I did, I did out of love for you. I love you and want to be with you" Ashley cries out.

"Ashley, you never loved me, you only love the position and what all that it will bring you. You only love yourself and you have proven that to your family as well because you punished them along with yourself when you colluded against your Luna. I Alpha Commanded you to try to get you to stop. Their lives are ruined as well all because you wanted what you couldn't have. You knew we weren't mates, and you didn't want to wait for your mate, because you wanted a high-ranked wolf, and couldn't take the chance of a lower rank being your mate. I wish you had found your true mate, the one the Goddess gave you, because they will always be the best for you, and not a chosen mate. The

wonderful feeling of them calming you when you are upset and the pure love that comes from them, there is NOTHING better than that. My mother was right, you if had become Luna, it would have destroyed this pack and the Moon Goddess knew that and gave me the best Luna for me. I never loved you and will never love you. I was attracted to you, but Jade's brothers were right, beautiful on the outside, but rotten and ugly on the inside. You don't have any redeeming qualities Ashley, and I truly wished I had seen that sooner" I told her.

"I can change Asher; I would change for you baby. I love you and want to be with you" Ashley begs me as the door opens and I see the warriors in the hallway.

"Please escort the Conner family to their home and then to the gate for them to leave the property. They have an hour to be packed and OFF property from the time that you enter the home. I will ask that each of you stay with them in their rooms as they pack so they don't deliberately damage the house before they leave" I stop and pointedly look at Ashley. I continue "Call in additional warriors if you start to have a problem, don't fall for anything that Ashley might say, she attempted to get rid of your soon-to-be Luna and cannot be trusted. Please make sure that they are on the other side of our gate at the hour mark and that they are on the Banished list at the gate, so they cannot enter our pack again. Thank you" I finish and nod to the warriors. They had started growling at the mention of what Ashley had done to their Luna, so I won't worry about Ashley trying to talk her way out of it.

"Asher, please don't do this to me" Ashley calls out to me as the warriors motion her out of the office.

"I didn't do this to you, you did it to yourself Ashley. You started all of this by being a petty b***h. Jade never did anything to you, and you continually caused her problems. You deserve everything you are getting and actually more. I didn't kill you, even though I want to, I am just banishing you" I tell her.

"I hope you never find her again Asher. I hope that Eric did get her and that she suffers every day by his hands. I know Danica hates Jade and that she and Sophia will do everything that they can to make her suffer too while Eric has her. I know that he was going to come today to get her with more reinforcements, and I hope he did get her and that you feel the bond break with her, and it kills you for what you are doing to me. You deserve to suffer along with me, as you led me along and told me that I would be your chosen mate just a few months ago. You swore you would reject your mate for me, and you lied to me. You are no more a good person than I am, so stop playing like you are Asher. I know the real you and I accepted what you wanted to do, to show you that I would be a good Luna, that no matter who you wanted to sleep with that I would be ok with it. I don't know why you are acting as if you love her when you haven't even really been around her. I hope Eric has the good sense to get rid of her, so you never get to see her again. If he didn't get rid of her yet then I will find her, no matter how long it takes, and I will kill her myself" Ashley says to me. I hear her parents, her sister, and my parents all gasp at what she just said to me.

I look up to the warrior in charge of the group at the door and said “Cancel that, take her parents and her sister home to pack, they are still banished. Escort Ashley to a cell and I will personally oversee her death tomorrow” I tell the Guards.

I mindlink two more warriors to meet the other warrior at the Conner home to watch them pack, as the two near the door each takes an arm and takes Ashley away. I can hear her screaming threats down the hallway for a full minute before they leave to take her to the cells. I again remember that at one time I thought that she would be a good choice as a Luna, I was a complete i***t. I shake my head and turn to look at my parents.

“I am so sorry that you had to see that. I have changed and I want what is best for the pack and myself, and that is Jade. I will take care of it personally tomorrow I am so sorry for disappointing you at all. I let the stress get to me to be the best in everything, so you would be proud of me and instead, I ended up messing myself up, in so many ways. I tried to comfort myself using alcohol and women to help myself calm back down when the stress got too great for me to bear. I ended up shaming myself and almost letting my pack down. I am so sorry for embarrassing you” I tell my mom and dad.

Rejected, My Jaded Love Chapter 77

Tyler’s perspective

“We are going to war tomorrow. I have already ordered 6 buses to take all of the warriors, 250 from our pack and 100 from Stone Moon, as well as our 20 sharpshooters, including Tate. We will be leaving here at 3 am and stop at Stone Moon to get their warriors and then head to Howling Wolf. We will surround their perimeter and I will discuss where I want their placement to be after we get the exact information on their total square footage and size of their pack. I don’t want anyone leaving, especially not Eric or Kyle. I do not want Jade to have to look over her shoulder for the rest of her life, so I am going to make this easy on everyone. Calvin has pictures of who we need to take out, I will need you all to send these pictures out to your teams” I tell my Five Lead Warriors who were chosen to each lead 50 warriors in this battle, as well as dad, Tate, Braxton, Mason, and Calvin.

“Calvin will send them to me tonight and I will be sending them out to you guys so them men and women we are taking have time to see what our targets are. It will probably come down to the sharpshooters actually getting this done, as I believe that they will try to run when we arrive, which is why I will be wanting to set up on the perimeter and a wolf be at every hundred feet with a sharpshooter at around every 600 feet, so five wolves each spaced out at 100 feet apart, a sharpshooter and then another 5 warriors spaced about 100 feet apart, and so on to make sure we have their land covered. We can adjust when we actually get there and set it up then to make it uniform. I will be at the front gate on the Southside with Tate. I would like Braxton to take the Eastside with 50 of the Stone Moon wolves, Mason to take the Northside with the other 50 Stone moon Wolves, and Calvin on the Westside with our wolves. We will also have some of our

additional wolves stationed with the Stone Moon Wolves to make sure we keep our perimeter set up the way we want it to be. I was going to have one of our Leads at each of the corners between each of us so that there is a Leader there to help make any decisions that need to be made quickly at that point. And that way there will only be about 20 to 25 wolves between each of the Leaders” I say to the group.

“Makes sense,” Mason says as he looks at the diagram we have of the Howling Wolf packlands. Calvin had marked off where the packhouse and where the alpha family lives as well as the Devoe’s home and has also been a big help with the shortlist of people who needed to be taken down. We don’t want to have to do this again, so I was good with taking out any threat against Jade now. They were several terrible people, who had done terrible things to her and others, and I didn’t want to worry about Jade leaving our property or Stone Moon’s property and having to watch over her shoulder every moment fearing for her life. We were going to take care of it now, and she will be safe from now on. I know I am planning a hit like a mob boss, but they have all done something to Jade or saw her being bullied and abused and did nothing about it, or like her family did, took her money, plotting on kicking her out of their house, and emotionally abused and allowed Jeremy to physically abuse Jade. If we plan correctly, we will have no loss of life for us or Stone Moon, and the world would be a better place without the potential rapists in it. Tate and I would do anything to protect our sister.

“I agree this looks like an excellent plan, and with the marksmen being there, we should have no real injuries for either of our packs,” Braxton tells us.

“I will make sure my team of sharpshooters have all of the photos tonight for them to go over and to look at on the way tomorrow as well. I don’t want us to lose any of our or Stone Moons pack-members in this attack. We will get in and get out, the Beta will be the logical choice for them to take as their interim Alpha, and he can run Howling Moon until someone else is willing to step up and be the strong Alpha it needs in the future” Tate says to the group.

I go ahead and dismiss the Leads from the meeting and continue on with the five of us.

“Jade wanted to go with us. I had to turn her down. She does not need to be put in harm’s way and if they see her there, she might get hurt, as she is their target. She is safer here and I will let her know when it is all over” I tell the group.

“I got a call this morning from Asher, who asked if he could go with us. I told him that I believe that you had it covered. If you want him in though, we can let him know and he can ride with you there tomorrow. I know he wants to fight for Jade, and he probably feels like this is a good first step in doing just that” dad says to the group.

“Asher is a good fighter and I know he feels terrible about coming across like he did when Jade thought that he was just supporting Ashley. But I knew what he meant to say, he had to verify that she had done it with his own eyes. He is about to be Alpha, and he can’t just take the word of someone that he doesn’t know” Tyler stops and looks at Calvin and says,

“No offense meant, but he had to verify it for himself, and I know he wanted Jade to be kept safe. Plus, I know that they was jealously there on his part, as well, as you were her original mate, and you never wanted to reject her in the first place. We are thankful for you coming forward to tell us, you had literally saved her from having some truly horrible things done to her. I have heard about the mate bond, and I have seen how strong it is for several people. I believe him when he says that he loves her, and only her, but I can also see where not knowing his side of it, would make it seem like he was taking Ashley’s side over Jade’s side of it. I will call him and speak to him and make my decision. I will let you all know at dinner” Tyler finishes, and we all exit the office.

“I am proud of you for coming up with the plan of attack you did Tyler, it was a good thing to offer Calvin the position in our pack, I understand why he would want to leave his old pack. They are some bad people in that pack, not all of them are though, so maybe Calvin’s dad will be able to turn the pack around and get it to thrive again. I agree with what you are going to do, and I know you will make good choices with Dark Moon when you become Alpha. I am so proud of both you and Tate, you are taking up for your sister, as well as people who can’t fight for themselves. This will result in a better situation for so many people in the Howling Wolf pack” dad says to me before squeezing my shoulder and walking away.

I pull out my cell phone as I head to my room because I don’t want people to listen in on the conversation.

“Tyler?” I hear Asher say into the phone.

“Yea, it’s me, I was calling to see if you still wanted to go with us when we go to Howling Wolf?” I ask him.

“Yes, I do, I want to be there to know that I helped protect Jade, as well as you guys did, so she won’t have to worry about being attacked the rest of her life” Asher replies to me.

“What punishment did you give Ashley?” I asked him.

“Well, I was going to give her just banishment, but when she went nuts and threatened to hunt Jade down and kill her, I had her put in a cell and I will kill her myself tomorrow,” Asher told me.

“Well, you have plans for tomorrow, we will be at your pack around 5 am, as we are leaving her at 3 am, so move it back a few days. I plan on being at the Howling Wolf pack at around 750 tomorrow and setting up around the perimeter and ready to go at 8 am. So, cancel your plans, you will ride with us in the SUV tomorrow and we will bring you up to speed. I will see you tomorrow at 5 am” I tell Asher and get off the phone. I will bring it up at dinner so I can see Jade’s reaction, it should tell me all that I need to know on her side of it.

Rejected, My Jaded Love Chapter 78

Jade's Perspective

Bree and I come down for dinner with everyone already seated at the table. We had added extra chairs and put another table up to the original table for the extra visitors we have with us, as we wanted to continue on with our Spring Vacation here. Bree, Jessica, Nicole, and I had spent today in training and then laying out by the pool. We still have a couple of days together. The guys had also done training and then threw the football around for about an hour with some of the warriors, before going into the packhouse to shower and then have a meeting in Dad's office.

"We will be leaving at 3 in the morning with about 250 of our warriors, and 20 of the marksmen that Tate trained." I heard Tyler telling mom as I approached the table.

"You are going tomorrow?" I asked him.

"Yes, best to take care of it right now before they find out that this is where Calvin went, we will catch them more unaware if we go tomorrow. We will be stopping at Stone Moon and picking up another 100 warriors as well, as Asher, and then heading to the Howling Wolf pack" Tyler tells us.

My head pops up from looking at the table and I look at Tyler and asked, "I thought that dad said that Asher was going to be staying with his pack?"

"Do you not think he is capable of fighting?" Tyler asks me.

"I don't know," I say, "I have never seen him fight. I had just heard that he was staying at Stone Moon. I don't want any of you getting hurt over defending me" I say to him.

"Well, one person is already getting hurt, because Ashley is in one of the cells right now at Stone Moon and is scheduled to be put to death by Asher himself when we return from taking care of the Howling Wolf pack," Tyler tells us.

"I thought that he was just going to banish her?" Dixon says.

"He was, but she lost her mind and said that when she leaves the pack in her banishment, she would be hunting Jade down to wherever she was hiding and kill her if Eric didn't already have Jade in his possession. So, Asher changed her fate for her. She was taken to the cells, and her family packed and was escorted off of pack-lands. He was not going to give her an opportunity to hurt Jade. He also made sure that Brittany knew that her sister had played her and got her to harass an innocent person" Tyler tells us.

"He told Brittany that Jade was the innocent one in this and that Ashley was the one who was the aggressor?" Bree asked Tyler.

“Yes, he made sure that Brittany knew Ashley has set her up, and that Ashley was the one who had kept pushing even after being Alpha Commanded to stop and leave both him and Jade alone and she continued to harass including setting Jade up to be kidnapped and held against her will. The Conner know that Ashley alone was the reason that they had been banished. They were all angry with Ashley, not Jade. Especially, Brittany, she was furious at having been tricked into bullying you, and Ashley felt no remorse at all for tricking her into doing that when you were innocent of what happened. Asher told Brittany Ashley had actually flipped what had happened and that you were the victim in it” Tyler told the whole group.

“Why would he kill her when he took her side over mine?” I ask quietly.

“Jade, when you are an Alpha, you have to be careful and cover yourself so when you do dole out punishments, that they cannot be overturned by the Council and then bad people be allowed to return back into your pack. It is something that I have taught Tyler, and you learn at Alpha Training as well. It protects you from disgruntled and angry people being allowed to come back into your pack. Because if they do come back, they usually start causing problems and issues within your pack. Posted by Jobnib.com; visit us for more free novels.

You have to make sure that the punishment is upheld so you prevent that from happening, people can be very problematic when they are angry. It looks to me like Asher was actually trying to protect you, that is why he didn’t want you to go, he was terrified that something was going to happen to you, at the hands of Eric and Kyle. As the only mated person besides Joy, and yourself, I feel like I should tell you this on Asher’s behalf. I would die for your mom, it would kill me if something happened to her, and I wouldn’t be able to operate without her. It could even drive me mad if something terrible or violent happened to Joy.

The bond only grows stronger with time. I feel like you could have been running on additional emotions as well you have had a lot happen to you in a short amount of time Jade. It will be a week ago tomorrow when you accepted the rejection. Let me ask you a question, since accepting the rejection from Calvin and finding your second chance mate the following day, have you passed out? or felt the pain of betrayal since finding Asher?” Dad paused to glance over at Calvin and nodded at him before reaching over and gently taking Joy’s hand and starting to rub the back of it with his thumb. He continued, “Even though it was something that he was pressured into doing, he still rejected you. I know why he did it, that girlfriend of his had threatened to hurt you, but that bond is broken. He slept with that awful girl, and she knew it would cause you pain, even if Calvin didn’t.

The Goddess had already given you your second chance mate. That means that you were made for him, there IS a reason for it. I hate to say it, but she may have given you Calvin just for you to get out of that pack safely and get you where you needed to be, to Stone Moon and find your second chance mate. I know that Asher has made some bad choices, but honey we all have. I did baby girl, but I wouldn’t change it because it ended up with me having you in my life. I found Joy, and she is my mate, but WE would have taken you and raised you here if Hillary had only let us know that you existed. I know now that

Hillary had died, and that is why you ended up in such a bad situation, I would do anything in my power to have changed what you went through.

You are his mate, and he is dealing with the same feeling and emotions. Just like you don't want him hurt, he didn't want you to be hurt. I know on top of that Asher was also dealing with the fear of losing you, or something happening to you when you went to watch Ashley meet up with Eric and Kyle. Alphas are naturally very possessive of their mates, and he is having to really deal with that, especially now that he knows that you are here with us, and Calvin is here. He was dealing with jealousy because Calvin swooped in to be the hero, that he wanted to be for you, but Calvin ended up being the one to warn you and that information kept you safe.

Asher was also dealing with shame and frustration as he was trying to show you that he had made changes and was not the same person anymore and every time he got a little headway in it, Ashley popped up and ruined it for him by kissing him on the boat, when she showing up in his room naked to seduce him, or by telling you that she was pregnant with his child. I understand why he was so frustrated, he kept trying to show you he was the man you need in your life and other factors kept popping up and pointing out all his previous mistakes. We Alphas are proud men who demand respect from everyone, but our mates, because they are our equals, and we love them with our whole heart. I have spoken to both Alpha Andrew and Luna Monica and they have both mentioned that they can see the changes and believe me when I say they are not just saying that to help Asher out.

They have been waiting on him to change and they realize that he is now doing it, for you. He is really hurting without you, but every move he has made is to be the man he knows you need him to be. I will not push you to do it, but I would hope that you love him enough to wait for him and be watchful, to look for and see the changes that he makes, you haven't felt that familiar pain right? You know he has not been with anyone else when he clearly was before. Give him time baby, to show you that he is invested in this relationship and that he loves you. His heart is as broken as I see that yours is too. Do this for you both, give him time to make the changes that he needs to, to both prove himself to you, to himself, his family, and your family, that he is the man that he was before he went to Alpha Training" dad says to me.

I see the whole table looking at me, most with smiles on their face and a sad frown on Calvin's handsome face. I realize that other than the initial pain of rejection and then the pain when he slept with Sophia, I have never felt the strong pull to Calvin like I do with Asher. I suddenly realize that I hadn't given him a fair chance like I said that I would, and I need to speak to him. I will call him tonight and I will let him know that I love him and want to be with him, and I will give him time to make his changes and maybe come every other weekend to visit with him, and he can come with Bree and Dixon to come here if he wants to. I will ask him when I talk to him tonight. I am so glad that he really is making changes to be with me.

Rejected, My Jaded Love Chapter 79

Eric's perspective

I have arrived back at the pack with Danica, Sophia, Kyle, and Jeremy on Thursday afternoon. The vacation was cut short over all the difficulties that we have faced. Calvin runs away and Sophia has a breakdown, Danica is still furious with me for calling out Jade's name and not hers, I need to decide on a new Beta and swear him in, and I need to find out where Jade is on top of that. I am overwhelmed and frankly mad at all that has gone wrong. I am sick of the glares that Danica and Sophia are sending me, but I am actually thankful for the silent treatment that I am getting. I don't want to hear any whining and complaining over a simple mistake. Jade wouldn't be getting mad over a little mistake, she was always kind and happy, even when she was being picked on, she was never mean back to anyone. I know that she has gotten bolder since she has started training and exercising, and I fully plan on letting her continue to train when I get her back here, but she will only be sparring with me. I enjoyed getting to wrestle a little with her on the beach and remembering when I was pushing myself into her is making me wonder where Danica is right now.

I guess when I bring Jade back to the pack, I will hold a town hall meeting and announce by Alpha Command that Jade is NOT to be harmed or bullied by anyone, so she will be safe while she is here. I will not allow my Luna to be harmed in any way while she is here. It could potentially hurt my pups, and I will not have it. If Danica chooses to, she can remain in the packhouse, but on the Beta floor and I can visit her there. She will never be allowed in the Alpha quarters ever again because I know that she cannot be trusted, and I will NOT allow her to hurt Jade just because she is a rolling b***h.

I go to meet with my father in his office to get some advice from him. I knock on the door and wait for him to allow me to enter.

"Enter," my dad calls out.

"I need to speak with you dad, on an important matter," I tell him.

"What is it?" my dad asks.

"Jade Devoe, the Gamma family's daughter," I start to say.

"What about her, she left and after speaking to them about it, they advised that she was really their niece and not their daughter. She has left and come back only to accept the rejection from soon-to-be Beta Calvin Williams, and rejected this pack before she left, so she has no dealings left with us anymore" My dad says.

"I want to make her my chosen Luna dad," I tell him.

"Why Eric?" he frowns at me, wrinkles appearing on his forehead, and he looks generally confused by my statement.

“I want her, she has a strong wolf dad, she is a white wolf, she will give me strong pups and our pack will be stronger for it as she is directly descended from the Goddess herself,” I tell him.

“She is a white wolf? Is she your mate Eric?” my dad asks me.

“No, she isn’t, but I am going to force her to reject her second chance mate, and then mate and mark her myself. She WILL be mine, dad. I want her, she is beautiful and strong. She can fight and she will give me strong pups. There are only positives in this dad, there is no downside as far as Howling Wolf is concerned” I tell dad.

“Are you positive that you can get her to reject her second chance mate?” my dad asks me.

“Positive,” I tell him.

“Who is her second chance mate?” my dad asks me.

“Asher Morris of the Stone Moon pack” I advise him.

“Son, doing this may cause a war between our packs. Have you ever thought this through? What about Danica, I thought that you had promised her that she would be Luna? Does she know your plan, and is she ok with it? My dad asks me.

“I did originally plan to make her my Luna, but I will keep her on as a mistress. You did dad, I know I have half-siblings in the pack, I am not stupid. I know that I have a brother that is 16 and looks a lot like me and is a sophomore in high school and a half-sister who is a freshman. You did it, so why can’t I?”. I say to dad.

My half-brother is in the grade under Jocelyn my sister who is 17 and a Junior in high school. She hangs out with my group sometimes but usually doesn’t bully like the rest of us do. She is pretty smart, and she probably knows about our bonus brothers and sisters. My mom chose to ignore them, but we are aware of them, and I know my sister knows them both too. We have a younger half-sister as well that looks like the female version of me with her black hair and hazel eyes and she is a freshman in our high school. My half-brother and I could be twins, except he has grey eyes, instead of my hazel ones.

“I had a willing bedmate, and she was not a mated wolf, her mate had died soon after she met him and she loves me, which is more that I can say about your mother. She loves no one, she only wanted to be Luna. She wanted the title, and the power, and the money. What you want to do is different. Do you have her here?” my dad says, giving me a hard look.

“No, not yet, but when I get her, I will hold a town hall where I will announce that she is their soon-to-be Luna, and Alpha commands everyone to leave her alone, that she is not to be harmed in any way. I will also make sure that I am always with jade when she is out and about, and that Danica will be only allowed to come to the Betas floor, and not the

Alpha floor anymore. If you have more ideas for me to be able to keep her safe dad, I would appreciate them. I know that Danica's dangerous. Maybe I should banish her and just keep Jade around until I find another girl I am interested in?" I ask dad.

"What if you find your mate son? What will you do then?" my dad asks me.

"Then she will be Luna as well, they can split the duties and both make me strong heirs, as long as my mate is acceptable to me, if she is not, then I will reject her and then banish her from my pack," I tell dad.

"It seems like you have a plan son. I see you have put a lot of thought into this. You may be right about the strong pups that you would make with Jade. But what about that rogue Alpha who insisted we had a white wolf here and said that he would go to war with us. None of us knew she was the white wolf. The Rogue Alpha finally believed us and left us alone, there has been no white wolf sighting here in the last few months, but what happens when he finds out that we do now have a white wolf? Did you think of that yet?" my dad asks me.

"No, I haven't thought of that yet. I guess I need to keep it on the need-to-know for the next few years and hopefully, they will never hear of Jade being the white wolf. I do not want to go to war with them over Jade, when I get her, I will never let her go, she WILL stay here with me forever and give me my heirs" I tell dad.

Rejected, My Jaded Love Chapter 80

Asher's Perspective

Jade called me last night, she wanted to speak to me. I tried to keep calm, but I was so excited to hear her voice. I smile thinking back on the phone call.

"Hello?" I answer the phone.

"Asher?" I hear Jade speak. Just hearing my name from her lips gets my heart beating faster.

"Jade? How are you doing? I miss you. I want to get to see you again as soon as you want me to baby. I am there, just telling me when I can come and visit, and I will be there" I say to her quickly as I want to get it all out there in case, she hangs up on me.

"I am ok," she says and then pauses. "I really miss you too, I am sorry for getting so angry about Ashley, it just felt right then in the moment that you were choosing her over me and it hurt me, again. You already had a relationship with her, and we were just beginning ours and it didn't feel like you were taking my side in any of it. I felt like you were taking her side, and didn't believe me like the first time when you assumed that Ashley had been the victim when she and that other girl started going off on me in the dining room that

time I met my brothers there. It felt like you had already made up your mind about what was happening without even hearing my side of it, or what I was feeling. I have not been on solid footing for a while now, but I was so hurt by you knowing that we were mates and then not wanting me, it really hurt. I feel like you only want me now because I am in good shape, we could have resolved that if you had come to me when you knew we were mates to see if you would still love me if I was heavy. I don't have that answer, and I think I would have more faith in what we are going through if I HAD had that to fall back on. So, I KNOW you would love me regardless of where my weight lies Asher" Jade tells me.

"I know I didn't make it clear what was going on. I just wanted you to be safe first and foremost. I didn't want anything to do with Ashley after our eyes met. I knew we were mates right then, and I have not wanted or looked at another woman since. I only want you, Jade, you are my mate. I want you with me all the time. I want you to sit on my lap like my mom does with my dad. I want you there for you to calm me in times of stress. I want you to carry my pups, and I look forward to seeing your round belly carrying my pups. I will love you regardless, skinny or belly full of our pups, you are my final answer to what I want in my life. No other girl will do, the Goddess gave you to me for a reason and I will fight for you baby. I am sorry I didn't make you understand what I needed to do and see, to verify what Ashley had done so I could banish her from my pack. It is very serious business, and I didn't want to allow any room for her to try to weasel back into my pack. She is devious and I know if we left any grey area, she would be able to find a way back into our pack and I didn't want her to be able to come back, for any reason. I do not want her around you to try to cause any doubts in your mind or to try to come between us again. I do not want her, she was only a means to an end for me, when I needed a release from the stress that I was under. I never had any feelings for her at all. I only want you. It hurt me so much when Bree told me that you said to just move on and find another girl, or to be with Ashley. I don't and won't want any of them because they are not YOU. In my mind you are perfection, no matter what size you are, if you want to gain weight, I am good with it. If you want to lose weight. I am good with it. I love you, Jade, no matter what size you are. I don't know how to tell you how much you mean to me. I just want to show you over and over again. Maybe I can come to visit you this weekend after we get Eric's pack taken care of? We can have a proper date alone together and get to know each other. I want to see you so bad. You make me want to be a better man for you and our children. Someone that you and they can look up to, depend on, and love. Please give me the opportunity to prove to you how much you truly mean to me Jade, because I don't think you know how I feel about you, and I would like to spend the rest of my life showing you" I tell her.

I hear quiet crying on the phone line and am worried because I cannot see her face and I don't know if she is crying because she is about to try to reject me? Or if she is actually going to give me another chance? I start praying to the Moon Goddess herself for her to please show Jade how much I love her and want her.

"Jade, are you ok baby?" I ask her, but I get no response, I just keep hearing her low crying.

“Baby, please stop crying, I am sorry if you feel I failed you. I will do anything to fix it. Tyler says I can go with them tomorrow and my plan is to kill Eric, and Kyle if I see him, for wanting to put their dirty hands on you. I will protect you and take care of you baby. I don’t want you to ever have to worry again about having to look over your shoulder in fear because we are going to take care of this tomorrow. And I will personally take care of Ashley as soon as I get back from the Howling Wolf pack” I tell her.

“I love you too Asher, that is why it hurt me so badly. I will give you another opportunity because I want to be with you and live the rest of my life with you. I let the stressful week I had with; accepting the rejection, going to the lake and the incident on the Sandbar, seeing you get kissed by Ashley which really was the worst part, as I would have rather gone through what Eric and Kyle did again than see her hands and lips on you and then being embarrassed at the restaurant as they should have been a private conversation in the back yard of our rental house and not for everyone else at the tables around us. I know my friends, and my family, and your family, also participated in it, but I asked everyone to stop and you as the one who is mated to me and should love me the most, should have been ok with that. Almost getting kidnapped by Kyle and Eric, and the disgusting comments Kyle made in my ear and Eric taking my bike keys to keep me from leaving, Ashley claiming to be pregnant, and then the plans that Eric and Kyle were making for me. It was sickening and disgusting. I just couldn’t take any more on me, it was too much and then it seemed like you were not believing that Ashley could have done anything wrong when she had clearly shown us all that not only could she, but she was totally ok in doing so. Eric climbed into the bathroom while I was trying to take a shower. That was so frightening to me. It was the last straw for me, and I broke, I couldn’t stop shaking or crying at that point. I just wanted to lick my wounds and distance myself from you to try to stop the heartbreak that was working through me. I didn’t want to be rejected when you finally decided that I really wasn’t good enough for you, just like you had already decided that when you went into my room and knew I was your mate, but you didn’t want me enough to come to me. That broke my heart, Asher. I needed some space to think with my head and not my heart. Because I knew if I was with you for very much longer the bond between us would prevent me from leaving you. I also needed to feel safe, and with Ashley still belonging to your pack and worrying that she could sneak in someone to take me, which at the time was an actual option, the only logical option was to come to my dad’s pack. I do feel safe here. I hope that this whole thing will be over soon, so I will have the freedom to go where I need to go, and not have to hide out here at the pack instead of being able to go into town. I just don’t want anyone getting hurt trying to protect me. That would make me feel awful Asher, I am so worried for you tomorrow” Jade tells me.

“I will be fine, Jade. Braxton and Mason will be there along with 100 of our warriors. They don’t expect us, and we should be able to get this done quickly with no lives lost on our end. I am actually a very skilled fighter and Eric will be taken care of, Jade, I promise you that. But if I do get hurt, I would be glad for you to come over and kiss any of my injuries to make me feel better” I tell Jade, with a smile in my tone so she knows that I am flirting with her.

“Asher,” Jade says with a low hiss like she was embarrassed that I had said it to her.

I laugh lowly and say, “What? Is that a problem my lovely, Jade? How about a kiss on your beautiful lips then?” I continue to flirt with her, smiling into the phone.

“I will give you a kiss when you come back safely,” Jade says to me, and I cannot contain my surprise or my happiness at hearing what she said.

I lay back on my pillow and look at the clock, it is midnight, I need to get some rest before tomorrow, so I will think about our call later on. I think the tides are finally turning in my favor and I want to get this fight with the Howling Wolf pack over with quickly so I can see my Jade. I turn onto my side and try to go to sleep. I need to be up at 430 to get ready to go at 5 when they get here. I fall asleep with a smile on my face.
