"Your Excellency, the Far East is too far away from Germany. With Germany's strength, it is difficult to take into account the interests there. Our country can become your country's loyal ally and ensure your country's interests in the Far East. For our two countries, Undoubtedly, they are all very beneficial. In addition, our attack on the British colonies can weaken the strength of the British, which will be of great help to your country in defeating the British!" The smile on Uchida Koya's face has also changed Totally gone.

Although, it was very embarrassing for Jacob to see through his purpose. Dealing with the tone and expression that was equivalent to humiliation made Uchida Yasuya very sad and indignant, but his duty made him have to calm down, and then try his best to persuade the Germans. Although, he knew it was very difficult and almost impossible to succeed. But he still had to do it.

Jacob looked at Uchida Yasuya with contempt. He really felt a little unreasonable about the strange thinking of the islanders.

"Although the Far East is far away from the mainland of the Empire, the Empire has the most powerful navy in the world. After the Empire defeats Britain, it can march to the Far East and gradually recover those colonies. It is not far away from others. Therefore, your country's We cannot accept the request!" Jacob said.

"Your Excellency, don't you need to report to your government? Perhaps, your government may have different considerations." Uchida Yasuya is still struggling for the last time.

"Hmph! I will report to the country. However, I believe that the country will never agree to such an unreasonable request from your country." Jacob said with a cold face. These islanders are really abominable, and they still want to struggle to the end, it is shameless to the extreme.

"Then, I will leave. I hope your government can understand our government's good intentions!" Uchida Yasuya stood up, bowed to Jacob, and left.

Jacob looked at the back of Uchida Yasuya leaving, his face was full of disgust.

"I understand why His Majesty the Emperor hates these islanders so much. I never thought that people can be so shameless. Those islanders are really not a good thing. When dealing with them in the future, you have to be more careful." Alright." Jacob thought secretly. However, he still reported the results of his meeting with Uchida Yasuya to the country.

German Foreign Minister von Kidren Wachter was also surprised when he received Jacob's telegram. He also had the same feeling, are the islanders crazy? Actually wanting to plot at this time a colony that will soon belong to the German Empire. The German Empire and the British fought to the death and paid a heavy price. In the end, they wanted to jump out and pick the peaches. They were too self-righteous.

At the imperial meeting the next day, Wahit reported the news to Qin Tian.

"The islanders still can't sit still. They must be very jealous when they see the empire swallowing so many colonies. But, I am very surprised, why do they think that the empire will agree to their

conditions?" Qin Tian asked. Qin Tian had a deep understanding of the nature of the islanders. But he was also shocked by the arrogance of the islanders. The current German Empire is the overlord with the most powerful army and navy in the world. Even if the island countries are thousands of miles away from the German Empire, as long as he is willing, the German Empire can wipe them out with a finger.

"Your Majesty, perhaps the islanders regard the Empire as Russia ten years ago! They think they are too far away from the Empire, and the Empire has nothing to do with them. That's why they dare to make such a request!" Prime Minister Biluo said.

Qin Tian nodded, no matter what the islanders think, in short, they are very arrogant this time, there is no doubt about it.

"Your Majesty, we seem to have been blackmailed by the islanders this time. In my opinion, why don't we send an army to the islands to let them know the strength of the empire!" Minister of War and Chief of Staff von Falkenhain Marshal suggested.

"Now the main energy of the empire should be on the upcoming battle against Britain. Island countries are nothing more than clowns. The empire only needs to reject their unreasonable demands. I think they should know that the empire is powerful, not necessarily Dare to act rashly." Prime Minister Biluo suggested.

Qin Tian shook his head: "Your Excellency, you may not know much about the paranoia of the islanders. They will not give up easily if they decide on something. Since they have made up their minds, they want to seek the British colonies in the Far East. Even if the empire rejects their request, they will also attack the British colonies, and even intensify their attacks on the empire's colonies."

Suddenly, the expressions on the faces of a group of important imperial officials became serious.

"Your Majesty, if the islanders really dare to do that, they are really looking for death. The empire must punish them severely! Otherwise, the prestige of the empire will be greatly affected!" Count Tirpitz, Minister of the Navy said the marshal.

"Yes, Your Majesty. After the empire wins this war, it will become the hegemon of the world. If the islanders are allowed to provoke the empire like this, then the empire's supremacy may be questioned. In such a situation, we absolutely It cannot be allowed to happen. We have worked hard to allow the empire to win this war. We must not allow the empire's hegemony to be affected." Marshal von Falkenhain also said.

"Your Majesty, the islanders must be punished for their unreasonable behavior. Let them know how powerful the empire is." Prime Minister Biluo also agreed.

"With the strength of the empire, without affecting the fight against Britain, it is possible to dispatch a small number of troops to defeat the islanders!" Foreign Minister Wahit also said.

Qin Tian nodded, the opinions of the important ministers of the empire have been unified.

"Let the ambassador to Switzerland reject the islanders! Let them know that the empire will not accept their coercion. If the islanders dare to attack those colonies that originally belonged to the empire, or will soon belong to the empire, then the empire will punish them. They!" Qin Tian said.

"Yes, Your Majesty." The ministers all replied.

"Your Majesty, the islanders have invaded our colonies in the Pacific Ocean, and we must make them pay back." Wahit reminded.

"Well, this point must also be strengthened. Let the ambassador to Switzerland tell the islanders to return those colonies of the empire and then pay compensation. As for them wanting to join the Allies, that is impossible!" Qin Tian said.
